Dairy Products and Breast Cancer Risk

Bibliography

This bibliography is provided as a service to our readers. It is compiled from the entries in the [BCERF Environmental Risk Factors Bibliographic Database](#).

This bibliography is arranged topically. The topics include:

- [Review Articles and Commentaries](#)
- [Human Studies: Clinical](#)
- [Human Epidemiological Studies](#)
- [Animal Studies](#)
- [In Vitro Studies](#)

Review Articles and Commentaries

Decker, E. A. (1995). The role of phenolics, conjugated linoleic acid, carnosine, and pyrroloquinoline quinone as nonessential dietary antioxidants. *Nutrit Rev* 53, 49-58.

Epstein, S. S. (1996). Unlabeled milk from cows treated with biosynthetic growth hormones: a case of regulatory abdication. *International Journal of Health Services* 26, 173-185.

Giovannucci, E., Stampfer, M. J., Colditz, G. A., Manson, J. E., Rosner, B. A., Longnecker, M., Speizer, F. E., and Willet, W. C. (1993). A comparison of prospective and retrospective assessments of diet in the study of breast cancer. *American Journal of Epidemiology* 137, 502- 511.

He, Y. (1999). Comment on the Association between Insulin-Like Growth Factor-I (IGF-I) and Bone Mineral Density: Further Evidence Linking IGF-I to Breast Cancer Risk. *Journal of Cellular Endocrinology and Metabolism* 84, 1760.

Hulka, B. S. (1989). Dietary fat and breast cancer: case-control and cohort studies. *Preventive Medicine* 18, 180-193.

Ip, C. (1997). Review of the effects of trans fatty acids, oleic acid, n-3 polyunsaturated fatty acids, and conjugated linoleic acid on mammary carcinogenesis in animals. *American Journal of Clinical Nutrition* 66, 1523S-1529S.

Jain, M. (1998). Dairy foods, dairy fats and cancer: a review of epidemiological evidence. *Nutrition Research* 18, 905-937.

Juskevich, J. C., and Guyer, C. G. (1990). Bovine growth hormone: human food safety evaluation. *Science* 249, 875-884.

Lipkin, M., and Newmark, H. L. (1999). Vitamin D, calcium, and prevention of breast cancer: a review. *Journal of the American College of Nutrition* 18, 392S-397S.

Newmark, H. L. (1994). Vitamin D adequacy: a possible relationship to breast cancer. *Advances in Experimental Medicine and Biology* 364, 109-114.

Outwater, J. L., Nicholson, A., and Barnard, N. (1997). Dairy products and breast cancer: the IGF-I, estrogen, and bGH hypothesis. *Medical Hypotheses* 48, 453-461.

Parodi, P. W. (1994). Conjugated linoleic acid: An anticarcinogenic fatty acid present in milk fat. *Australian Journal of Dairy Technology* 49, 93-97.

Parodi, P. W. (1997a). Milk fat conjugated linoleic acid: Can it help prevent breast cancer? *Proceedings of the Nutrition Society of New Zealand* 22, 137-149.

Parodi, P. W. (1997b). Cow's milk fat components as potential anticarcinogenic agents. *Journal of Nutrition* 127, 1055-1060.

Parodi, P. W. (1999). Conjugated linoleic acid and other anticarcinogenic agents of bovine milk fat. *Journal of Dairy Science* 82, 1339-1349.

Piantadosi, S. (1999). Vitamin A Analogue for Breast Cancer Prevention: A Grade of F or Incomplete? *Journal of the National Cancer Institute* 91, 1794.

Pollak, M. (1998). IGF-I physiology and breast cancer. *Recent Results in Cancer Research* 152, 63-70

Simard, A., Vobecky, J., and Vobecky, J. S. (1991). Vitamin D deficiency and cancer of the breast: an unprovocative ecological hypothesis. *Canadian Journal of Public Health* 82, 300-303.

Smith, R. J. (1982). Hawaiian Milk Contamination Creates Alarm. *Science* 217, 136-140.

Human Studies: Clinical

Campbell, C., Luedecke, L. O., and Shultz, T. D. (1999). Yogurt consumption and estrogen metabolism in healthy premenopausal women. *Nutrition Research* 19, 531-543.

Human Epidemiological Studies

Allen, R. H., Gottlieb, M., Clute, E., Pongsiri, M. J., Sherman, J., and Obrams, G. I. (1997). Breast Cancer and Pesticides in Hawaii: The Need for Further Study. *Environmental Health Perspectives* 105, 679-683.

Armstrong, B. (1975). Environmental Factors and Cancer Incidence and Mortality in Different Countries, with Special Reference to Dietary Practices. *International Journal of Cancer* 15, 617- 631.

Barger-Lux, M. J., and Heaney, R. P. (1994). The role of calcium intake in preventing bone fragility, hypertension, and certain cancers. *Journal of Nutrition* 124, 1406S-1411S.

Boyd, N. F., Martin, L. J., Noffel, M., Lockwood, G. A., and Tritchler, D. L. (1993). A meta-analysis of studies of dietary fat and breast cancer risk. *British Journal of Cancer* 68, 627-636.

D'Avanzo, B., Negri, E., Gramenzi, A., Franceschi, S., Parazzini, F., Boyle, P., and La Vecchia, C. (1991). Fats in seasoning and breast cancer risk: an Italian case-control study. *European journal of Cancer* 27, 420-423.

Decarli, A., and La Vecchia, C. (1986). Environmental Factors and Cancer Mortality in Italy; correlational exercise. *Oncology* 43, 116-126.

Esther, M. J., Schwartz, G. G., Dreon, D. M., and Koo, J. (1999). Vitamin D and Breast Cancer Risk: The NHANES I Epidemiologic Follow-up Study, 1971-1975 to 1992. *Cancer Epidemiology, Biomarkers & Prevention* 8, 399-406.
