From Ross Group Re 75310

Address Chazy N.Y.

Breed W. L. Hy-Line No. 64 Age 8 mos

Other Material

He is Rine House 5 rows of 7 in - dark corner

Hy-Line strain V one for M.G.

Conjunctivitis problem. Symptoms first seen 5-6-7
after housing at 21-22 weeks of age. Two weeks
after Virginia broiler houses. Virginia broiler are
in center row and show no signs as many as
25% of other birds show signs. (Ragged, not the
equalizer. Started in S.E. corner of 3 rows - 2 rows removed
from Va. broiler.
Has another house - has no problem - is moving new pullets
into this last house

Diagnosis

Reported. Date Feb. 31. X By Dr. C. P.
During telephone conversation Mr. Group indicates Virginia broiler
that do not have eye problem were laying better than the 3 rows with
eye problem.
