THE UNIVERSITY TELEPHONE EXCHANGE

3331 is the dial signal which calls the operator of the University switchboard, and the number to be found immediately after it in this Directory is the extension number to be given to the University operator.

All persons using telephones which are on the University exchange should observe the following instructions:

Toll Calls.—To make a toll call, lift the receiver from the hook, and, when the University operator answers, say "Long Distance." Wait for the connection to be made with the Long Distance operator. When Long Distance answers give her your name and your University extension number, and then the information necessary concerning the telephone or person that you wish to reach at the distant point.

Local Calls Outside.—To make a local call outside the University exchange, lift the receiver, say "Outside," and, as soon as you hear the dial tone, dial the number of the party that is wanted.

Within the Exchange.—To make a call within the University exchange, lift the receiver, and when the operator answers give her the extension number of the party that is wanted.

FACULTY, OFFICERS, AND EMPLOYEES

On page 4 instructions are given for the use of telephones on the University exchange, of which the dial number is 3331. This Directory contains listings under two other exchanges, the Plant Science Building, dial number 3451, and Martha Van Rensselaer Hall, dial number 2785. The dial signal calls the exchange operator, and the number printed immediately after that signal is the number to be given to the operator. A number in parenthesis is an alternative dial signal, to be used only before 8 A. M. or after 5 P. M.
