

Subject:

Chicago, Milwaukee & St. Paul Railway.

CHIEF ENGINEER'S OFFICE.

Room 51, Chamber of Commerce.

D. J. WHITTEMORE,
Chief Engineer.

MILWAUKEE, *Sept 2^d* 1889

Mr The Consul C. E.

My dear Sir, I thank you for the
copy of Eric's Specifications which you will
find herewith returned - Some two weeks
ago Mr Thoburn called my attention to your
paper and remarked upon its general
excellence of which I fully agree with
him - On reading it over I think your
view in regard to one or two matters of
history - Therefore I contributed to the
discussion by sending to the Secy a copy
of the inclosed - I find that your
Specifications apply to bridges of various
span while the ones I allude to as issued
in 1877 refer to special bridges

Yours sincerely
D. J. Whittemore
