Geneva, N. Y.

OPEN HOUSE IN THE NEW FOOD RESEARCH BUILDING

The Cornell Food Research Committee is arranging for a series of meetings for the purpose of bringing these people together in the Colleges of Agriculture and Home Economics who are engaged in the research on food products. The second meeting will be an Open House in the new Food Research Building in Geneva beginning at 10:00 a. m. on July 12, 1961.

All members of the faculty in the field of Food Science and graduate students in the Colleges of Agriculture and Home Economics interested in research on food products are invited. Arrangements will be made for a chicken barbecue lunch at a cost of \$1.50 per person.

The following program for the Open House has been set up and will be held in the Conference Room, Food Research Building.

- 10:00 A. M. Opening remarks. Director D. W. Barton
- 10:15 A. M. Program outline of Department of Food Science and Technology.
D. B. Hand, Head
- Research on developing protein-rich foods.
K. Steinkraus .

Apple Product Research.

J. C. Moyer

Food Flavor research.

R. S. Shallenberger.

Irradiation of Foods.

Z. I. Kertesz.

12:00 Noon - Chicken Barbecue on lawn

1:30 P. M. Guided Tour of Food Research Building.

DEMONSTRATIONS

Pilot Plant Cherry Product Processing. R. L. Labelle.

Irradiation Facilities

Z. I. Kertesz

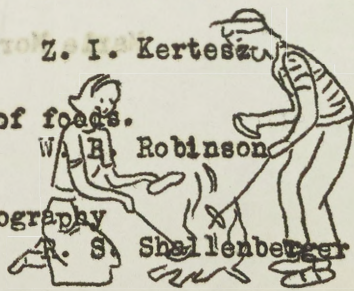

Color, flavor and texture evaluation of foods.

W. R. Robinson

Separation of sugars by paper Chromatography

R. S. Shallenberger

(Over)

Separation of pesticides, fatty acids and flavor compounds by gas chromatography.

L. R. Mattick.

Nutrition studies

L. R. Hackler

Routine determination of pesticide residues by simplified procedures.

A. Avena.

Tempeh studies.

I. El Rawi

3:30 P. M. ADJOURN

LEAVES FOR SOUTH AMERICA

Dr. Robinson is leaving Friday for Guatemala, Columbia, and Bolivia. This is a follow-up trip to the nutrition survey made by the ICNND team for Columbia last year. Robbie expects to be gone for three weeks.

PARTICIPATING IN POMOLOGICAL SOCIETY MEETING IN CONNECTICUT

Karl Brase left yesterday for the University of Connecticut at Storrs, Conn. to attend and participate in a meeting of the Connecticut Pomological Society. Karl will be one of three outstanding authorities who will speak on "Dwarf Apple Rootstocks".

Professor Howard A. Rollins, known to pomologists here, is retiring and he will be honored at the meeting. He has been Chairman of the Horticultural Department at the University of Connecticut.

PROMOTED TO FULL PROFESSORS

Effective July 1st two staff members become full professors. Dr. A. W. Avena goes from Associate Professor to Professor of Food Science and Technology and Dr. Michael Szkolnik goes from Associate Professor to Professor of Plant Pathology. Congratulations!

FOREIGN VISITORS

Mr. Harry Twilley, plant manager for the Gordon Edgell Company, a Canning and Freezing Plant in Davenport, Tasmania, is spending several days at the Station. He is interested in fruit and vegetable production and processing.

Dr. Martinez, from the University of the Philippines, will visit the Station this week. He is interested in viruses, particularly the transmission of viruses by insects.

HERE FOR THE SUMMER

Mrs. Margaret Roller, Math and Chemistry teacher from Danville, Ill. is a National Science Foundation Fellow and will be working with Drs. Bucker and Steinkraus.

National Science Foundation student, Mr. Hollis Fenn, Chemistry teacher from Petersburg, Virginia will be working in Entomology this summer. He will be working on the tarnished plant bug and its effect on beans. His wife and 4 children accompanied him and they reside at 14 Gates Avenue, Geneva.

BACK ON THE JOB

Bill Sherring is back from his honeymoon. He and Helen Shimm were married in Parkersburg, West Virginia, on June 18th. They are living at 55 Oak Street.

SUMMER HELP

Dave Robinson reported for work this week with Ed Glass. George Rock, graduate student at Cornell, is back for the summer at Entomology. Carlton Brownell is back for his sixth summer at Entomology.

Dave Berry is back for the summer and is working with Dr. Mattick.

Marie Morrison is back for the summer in Dr. Splittstoesser's Lab.
