

# STATION NEWS

December 28, 1938.

Geneva, N. Y.

## ALL'S QUIET

It is easy to see who makes most of the commotion around the Station by the calm and quiet that prevail this week with so many of the "boys" in Richmond. It also gives us a good excuse for limiting this week's NEWS mostly to wishing one and all a

## THE JANUARY FARM RESEARCH

The January number of Farm Research (Vol. V, No. 1) is now going into the mail. The number contains articles by Dr. Carpenter, Dr. Daniel, Mr. Enzie, Mr. Munn, Mr. Harlan, Mr. Brase, Dr. Lee, Mr. Gladwin, Dr. Magie, Dr. Hucker, Dr. Crosier, Mr. Marquardt, Dr. Breed, and Dr. Horsfall and Dr. Heuberger. Special mention is also made of the work of Mr. Van Eseltine in a note on his death.

## NURSERY NOTES

The second number of New York Nursery Notes, edited for the New York State Nurserymen's Association by Dr. Tukey, made its appearance last Friday. The number includes an article by Mr. Slate on "Newer Small Fruits" and a note prepared by Mr. Van Eseltine shortly before his death on "A Few Deciduous Trees". Special mention is also made of the annual meeting of the Association which will be held in the Seneca Hotel in Rochester January 13, with several members of the Station staff on the program.

## VEGETABLE GROWERS NEXT WEEK

While we have not yet seen the official program for the annual meeting of the State Vegetable Growers Association to be held in the Seneca Hotel in Rochester Thursday and Friday of next week, we understand that the Director is to speak at the banquet on Thursday evening and that other members of the staff will take part in the meetings. The Station will also join with the College of Agriculture in an educational exhibit, including units from the Divisions of Entomology and Plant Pathology and a publications display.

### THE FRUIT GROWERS' MEETING

Those who participate in the exhibit at the meeting of the State Horticultural Society in Rochester the week of January 9 are requested to dust off their displays and clean up their signs in preparation for this event. At the present time the list of Station exhibits includes a joint display by Chemistry and Bacteriology of fruit products, particularly fruit juices; plant propagation and peach thinning by Dr. Tukey, Mr. Brase, and Mr. Einset; apple varieties by the Pomology Division; a publication exhibit; a colchicine display; the usual exhibits from Entomology and Plant Pathology; an exhibit from the Seed Laboratory; and a small exhibit by Dr. Hofer on legume inoculants. Exhibits are to be in place by Monday night, January 9, the meetings opening on Tuesday morning, the 10th.

### CONFERRED ON GRADUATE WORK

Mr. Parrott conferred with Professor F. K. Richtmyer, Dean of the Graduate School at Cornell, last week on various details pertaining to the administration of graduate work here at the Station.
