A Message from Dean Kotlikoff

To the Class of 2015,

Don't go! What a wonderful class of students and tremendously talented people. Carolyn and I have so enjoyed getting to know you over the past 4 years and look forward to hearing about the great things that you will do. Your energy and intelligence has inspired all of us in the College and I am also proud of the governance roles that you have assumed during your tenure. You have had an impact on us, just as we have had on you. On behalf the College, I welcome you as colleagues into this wonderful profession of science and service.

Please return often to reconnect. Cornell will always be a comfortable home with a support network of colleagues and friends who are anxious to hear about your careers. And don't be anxious about the next steps. Graduating veterinarians have never been as well prepared and you have much to offer in your next step, as well as much to learn. I have the greatest confidence in your success and am proud that we have been a part of that process.

Congratulations!
Michael I. Kotlikoff
Austin O. Hooey Dean of Veterinary Medicine

Thank You to Our Mentors

Dr. Paul Maza

Dr. Maza has not only been an exceptional teacher and mentor but also a great friend throughout my four years at Cornell. Whether it was in dissection lab, or the playing fields for intramural sports, or in Costa Rica for FARVets, he always went out of his way to make my experience both educational and fun.

Block VII and Beyond!

Dr. Caroline McDaniel, Pati Kirch
& Natalie Spaulding

Thank you for getting us hands-on experience from day 1 (and giving us a break from hours of lecture) and continuing to help us improve our skills up to clinics.

Your support, encouragement, and tutelage helped us become confident and clinically savvy. Block VII labs will always be some of our favorite vet school memories, thank you!

Dr. Kathy Earnest-Koons

She has been very supportive since day one all the way to clinics...

She is a great academic advisor and is always involved and available for school events. She has also become a friend... I think that is very important and has made our time in vet school much more fun.

and thanks to everyone that helped us achieve our goals

QUOTES

From the Lecture Hall

Professor T rabbits and Naughty Bits

Dr. Dykes - "Always ask permission before papating your partner."

Dr. B: "Where are my testicles?" (Block I gross anatomy lab)

Dr. Suarez

"It's not about sex, so who cares?"

"Spem train!"

Dr. Scott: "I am a public servant. I will do whatever makes you feel good..within reason of course."

Dr. B: "I wouldn't want to run into you in a dark alley..."
(As he revs a chainsaw in equine)

Dr. Bischoff - "My husband doesn't let me drive because I stop for interesting roadkill"

Dr. Mizer: Applied Anatomy
"And if I would have had more time in the day, I would have cobred in the os penis too, but life is short."

Dr. Mizer
"Beat me, beat me, make me feel cheap."

Dr. Maza on how to hold a scalpel handle during Carnivore Anatomy:

"You can hold it with your dominant hand with your index finger on the blade for the best control and pressure when making your incision, or you can hold it straight down like a serial killer to make a stab incision for things like cystotomies...."

(Pauses) "You know, I generally consider myself a nice guy and I don't hate people But I really hate serial killers...."

From the Clinics

Dr. Tarbert:
(about Felicia)
"I think she
thinks you're
interesting,
but she doesn't
want to have sex
with you yet."

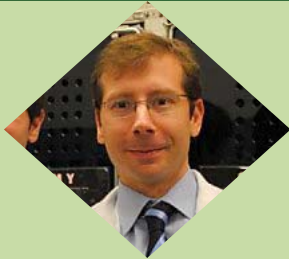

**Dr. Wainberg:
(SA Intern)**
"I don't like small.
It's a pet peeve
of mine."

Dr. Center: "I didn't
realize you needed
(ego) stroking today."
Dr. Davignon: "I need
stroking every day."

Dr. DeMatos:
(about Felicia)
"Don't pet her where
the bikini covers."

Dr. Morrissey - "Oh,
don't be a little
pussy." (Talking to a
baby cougar getting
an Ophtho exam)

Dr. Todhunter: "Marina
(McConkey) is a
Canadian fencing
champion!
She has the best
thrusting I've ever
seen!"

Dr. Simpson: "This beer
is like having sex on a
bridge... it's fucking close
to water!"

Dr. Smith (ER) and Dr. Schoeffler (ER) texting ...
Dr. Smith: I am amazing I know
Dr. Schoeffler: OMG seriously?
Dr. Smith: Had to digitally break it up as she was
straining
Dr. Schoeffler: YOU ---- ARE ---- MY ---- HERO !!!!!
Dr. Smith: It was like uncorking a champagne
bottle
Dr. Schoeffler: Did it become spectacular? I'm SO
sorry I missed it...
Dr. Smith: A fountain of feces and fecal plugs

That's what she said!

and other Classy Quotes

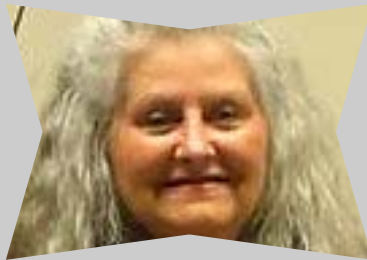

Dr. Hayley Lang -
(LA Sx)

"You can
never be too
wet!"

Jackie Walker -

"I like to know
what is going in
my mouth."

Dr. Center: "Once I
get it in my
mouth, then I
wiggle it."

Dr. Komreich - "I am so
thankful for ECC ..I mean, Dr.
Fletcher... if I wasn't already
married to my wife ..I'm just
sayingand you can tell
Fletcher I said that."

Dr. Weiland: "Whoa..Whoa!!!
We won't go there. And she
said that! Oh!"

Dr. Barrell (LA Med):
"She's either seizing
and dying, or she's
sleeping."

Dr. Flanders: "I
don't want to suck
prematurely."

Hahaha.Wait...what?

Dr. Rawson - "Sheep aren't great sweaters..but they make good ones. (class laughs) Did I say something? (more chuckles) I'm not having a good morning."

Dr. Cardwell:
(Imaging)
"Torturing pets is sometimes fun. You know, in a non-sick way."

Dr. B - "You have ruined your specimen!"

Dr. Tarbert (Exotics):
"I want to euthanize all my patients and send them for necropsy."

Katie (LA Sx tech): (on the LA induction door)
"Slap it real quick and fast."
Dr. Hill: "Like a small child."

Dr. DeMatos - "You are more likely to get salmonella if you put a turtle in your mouth."

Dr. Goggs: "Does that fit with neuro localization? ... It's a cat, so yes."

Dr. Campbell to Jed and Susan -
"Do you eat rice?"

Emily,

Ever since you decided to pursue a veterinary career we have watched with pride and wonderment at the dizzying pace of your accomplishments. No prize has been too high, no sacrifice too great, not once have you looked back on your decision with remorse. You have only looked forward with determination and total confidence.

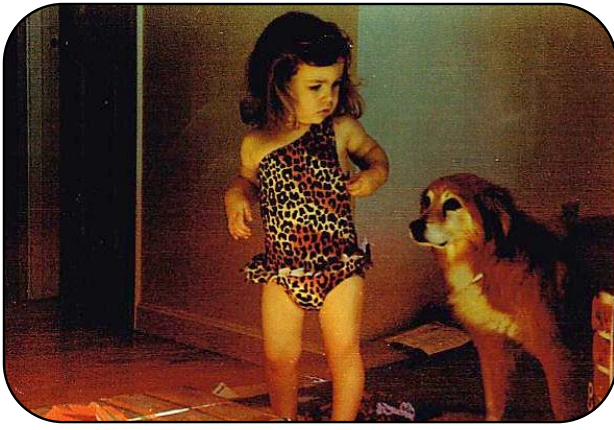

In your many travels to developing countries for research you have touched the lives of countless people in a positive way.

Your passion for your work, your empathy, your leadership, your extraordinary communication skills, your ability to see the big picture, and above all your personal integrity, will all serve to guide you as you build your life and career. Be as proud of yourself as we are of you. Your success has been earned.

We love you!

Mom, Dad, & Michael

Danielle Stacy

Dearest Danielle,
Congratulations on this amazing achievement. From dogs, to ponies, to horses, your love of the animal and the sport of horsemanship have been your passion. Your love of science has set you on your course. You have approached your life with determination and grace. We look forward to what your future will bring. From all of us - your dogs, your horses, your friends and trainers, and your family - Congratulations and Enjoy!

Congratulations Becky!

You held on to your dreams and followed your heart with such courage and grace. You are a strong woman who is not afraid to be involved and take on new challenges and adventures. We knew from the time you were young that working with animals would be your future. Your love and compassion for all animals is clearly evident.

Best wishes and love to you as you venture out on a new path, living the life you love. You are an amazing person and the entire family is extremely proud of you. Best wishes Dr. Rebecca Eddy.

Congratulations Chbe !

In Kindergarten, you first announced your desire to become a veterinarian. It has been a joy to watch you achieve your life-long dream. Your dedication to the sciences and research, your compassion for both animals and their owners, and your fabulous education have prepared you to become an excellent veterinary doctor. We are so proud of you and love you "to the moon and back". We wish you happiness and can't wait to see where your career path leads you, Chbe B. Spertus, DVM.

Love, Mom, Dad, Cara, Stephen,
Michael, and ALL of your funny, four-
legged friends.

Aria Hill

At just 2 years old, a young Aria recognized that her passion for caring for our furry friends would last her lifetime. She then promptly announced to her father and I that she would become a veterinarian. Full of an enthusiasm that is at once contagious and uplifting, she has walked down the path to learning with curiosity, compassion, and a dedication and ease for comforting others, whether animal or human.

We, her family, including her supportive younger brother, Aidan, were blessed with ringside seats, to view, and encourage, this visionary individual. Aria is as loving and caring to her fellow classmates, as she is to us, and to her beloved pets. Despite the hurdles and obstacles we all face in life, she remains gentle, vivacious and purposeful, clearing that professional spot, from which to dispense her healing attention, both to those who are able to ask it of her, as well as to our animal friends who cannot speak for themselves.

We continue to believe in her vision. Steadfastly a straight shooter, Aria Hill exudes a hard-earned sense of purpose and clarity. In addition, through Aria's account, we have had the opportunity to become aware of the attention and dedication of many other classmates on their own vocational paths. We are proud of this graduating class

of 2015. Congratulations to our daughter, Aria Hill, and to the entire class of 2015!
And so, the passion continues. May it never wane!

Love, Aidan and Mom

Veterinarian's Oath

Being admitted to the profession of veterinary medicine, I solemnly swear to use my scientific knowledge and skills for the benefit of society through the protection of animal health and welfare, the prevention and relief of animal suffering, the conservation of animal resources, the promotion of public health, and the advancement of medical knowledge.

I will practice my profession conscientiously, with dignity, and in keeping with the principles of veterinary medical ethics.

I accept as a lifelong obligation the continual improvement of my professional knowledge and competence.

1. You are called out to a dairy farm to investigate a down cow that freshened 3 days ago. As you arrive at the farm, you come across a group of animal rights activists protesting at the gate. After working your way through the crowd, you park your truck outside the farm's office and the herdsman comes racing out to greet you cradling in his arms a depressed guinea pig with noticeably swollen joints. The herdsman is visibly upset and you detect the scent of alcohol on his breath. As you walk him back into the office, a barn cat walks by and you observe it exhibiting a plantigrade stance. You excuse yourself from the herdsman and follow the cat around the corner of the building. You lose track of the cat as it scurries into a barn before you can catch it, but in your search you come upon a stabled horse that is kicking at its abdomen and sweating profusely. Just at that moment, a barn hand comes running into the barn shouting that her pet pig is depressed, febrile, reluctant to move, and has small diamond-shaped lesions all over his body. As you leave the barn and walk over to the pig pen, the barn hand casually mentions that she got bit by a bat the previous night. She managed to capture the bat and placed it in a cage with her pet cockatoo. What do you do?

☐ A) Slowly back away, get into your truck, and drive in the opposite direction of the farm
☐ B) Cull everything (+/- protestors)
☐ C) Strongly consider a career change
☐ D) Immediately refer all cases to Cornell
☐ E) Hold a civilized and empathetic conversation with the protestors, tell the herdsman that alcohol is not the answer, instruct the barn hand to visit a physician, get histories, perform physical examinations, and administer calcium gluconate to the cow, administer vitamin C to the guinea pig, administer insulin to the cat, pass a nasogastric tube in the horse, administer penicillin to the pig, check the bird for signs of trauma, and submit the bat for rabies testing, fondly recalling all along the fantastic education you received at the one and only Cornell University College of Veterinary Medicine!
