Cornell University Summer Session in LAW

First Term, June 22 to July 29
ADMINISTRATIVE LAW. Professor Frankfurter of the Harvard Law School.

TRADE REGULATION. Professor Frankfurter.

CODE PLEADING. Professor Clark of The Yale Law School.

PROPERTY 1a. Dean Bogert, Cornell Law Faculty.

PUBLIC SERVICE. Professor Burdick, Cornell Law Faculty.

CONFLICT OF LAWS. Professor Stevens, Cornell Law Faculty.

CONTRACT. Assistant Professor Whiteside, Cornell Law Faculty.

Second Term, July 30 to Sept. 4
NEGOTIABLE PAPER. Professor Aigler of the Univ. of Michigan Law School.

MORTGAGES. Professor Simon-ton of the Univ. of Missouri Law School.

BANKRUPTCY. Professor Simon-ton.

SALES. Dean Bogert.

AGENCY. Professor Stevens.

CONTRACT, continued.

Students may begin the study of law
in the summer session.

For catalogue, address the
College of Law, Ithaca, N. Y.

CORNELL ALUMNI NEWS

VOL. XXVII, No. 31

ITHACA, N. Y., MAY 7, 1925

PRICE 12 CENTS

NOT to be out-done by the seniors who celebrate their last few months in Ithaca bedecked in blazers of many colors, the Campus dogs, famous to generations of Cornellians as they sport about the Quadrangle in the spring, appeared on the morning of April 27 attired in brilliant green creations. There is just a possibility that there was some connection between the canine costume parade and the announcement that the senior women would this year "swing out" in green blazers. Be that as it may, there was no little furore on the steps of Goldwin Smith on this particular Monday morning.

THE HARVARD GLEE CLUB, which six years ago stopped singing the light stuff of the usual college glee club and began instead to include in its programs the best choral music, sang on April 25 at Bailey Hall to an audience which was appreciative of their rendering of the religious chorales, English folk songs, selections from Gilbert and Sullivan operas, and other diversified music. Four years ago, under the direction of Dr. Archibald T. Davison, the Harvard Glee Club toured Europe at the invitation of the governments of France and Italy.

AS A CONTRAST TO THIS, but still playing, according to Gilbert Seldes and his seven lively arts as well as other eminent critics of American songs, classical music, Paul Whiteman and his concert orchestra played at Bailey Hall on April 28. Ithacans had a chance to judge for themselves what happens when so-called jazz is arranged so that it may be played by a master orchestra. The program included "Limehouse Blues," which was the outstanding song of last year's Charlot's Revue, and ended with George Gershwin's "Rhapsody in Blue," which critics hold is the finest "classical jazz" we have.

AN ANONYMOUS CHECK for \$1,000 was presented to the University through Dr. Frank H. Miller, State Trustee, the income of which will be used as an annual senior award in the Department of Medicine in the Veterinary College. It will be known as the Anna Besse Prize.

MOST OF THE POPULATION of Ithaca and all of the students turned out when the Morse whistle blew the Morrill Hall fire number, expecting to see the old building a mass of flames. But when they arrived they found it was all caused by a burning Ford, and that firemen had extinguished the blaze at once, without much damage even to the car.

SUMMER FLOWERS are about to take possession of one end of the football field, while a rapidly growing ivy is to be planted

at the base of the arches of the stadium, and Lombardy poplars will be set out at the north end of the stands. The flowers may get tramped on in the fall, but the other pleasant touches will remain for the further enjoyment of the football crowd.

THE NEW GOLF COURSE of the Ithaca Country Club is getting into shape and the local Hagens and Sarazens have their clubs out. At present they have to use the old nine-hole course as the new eighteen-hole will not be ready till midsummer. A number of new hazards are being constructed, although they assert that the course is not being made difficult enough to drive the average player to Willard.

THE QUESTION OF SCHOLARSHIP was discussed by Miss Helen Bettis '25 of Rochester at the informal intercollegiate conference on student government for women held in Pittsburgh during the spring recess.

THE SAGE CHAPEL Preacher for May 10 will be the Rev. Dr. Avery Albert Shaw, minister of Emmanuel Baptist Church, of Brooklyn.

PROFESSOR BREASTED, Messenger Lecturer, dealt this week with the following topics: "The Earliest Great Organized Society: the Old Kingdom (the Pyramid Age) in Egypt;" "The Social World the New Arena of the Struggle: Man and Social Forces;" and "The Earliest Cry for Social Justice and the First Social Crusade: the Book of the Dead and the Triumph of Conscience."

OTHER LECTURES for the week included "La Photographie de Couleur," illustrated, by Professor Pierre Lemaire, French exchange professor in engineering and applied science, under the auspices of the Cercle Francaise, on May 4, repeated on the following day in English for the general public: "Thermionic Characteristics of Filaments in Vacuum Tubes" by Dr. Joseph A. Becker, of the Western Electric Company, under the auspices of Sigma Xi, on May 5; "The New Literary Movements in Italy" by Dr. Lauro De Bosis of the Royal University of Rome, on the Goldwin Smith Foundation, on May 7.

THE DRAMATIC CLUB on May 8 will present three one-act plays, and on the following evening the Women's Dramatic Club will give "The Dragon" by Lady Gregory.

ANYONE WHO OVERSLEPT that morning in January when the moon put one over on the sun can get a fair idea of what happened from the exhibit of eclipse pictures being shown at the Library. There are two photographs taken by

George F. Morgan '03, and paintings by Professors Louis A. Fuertes '97 and William C. Baker '98. Next week the pictures will go to New York for exhibition at the American Museum of Natural History for sixty days, and then for a month to the Cornell Club of New York.

SCALP AND BLADE, at a recent meeting elected W. G. Shoemaker '27 president; James P. Allison, Jr., '27, first vice-president; R. E. Frye '28, second vice-president; George E. Flynn, Jr., '26, secretary; and George M. Trefts, 3d, '26 treasurer. Scalp and Blade is a secret society founded at Cornell in 1894 for college men who live in Buffalo. It now has nineteen chapters.

THE FIFTH ANNUAL CONCERT of the Women's Glee and Mandolin Clubs was given in Barnes Hall on April 22. Mrs. Eric Dudley is leader of the Glee Club, and George L. Coleman '95 of the Mandolin Club.

AUTOMOBILE ACCIDENTS in which the car receives much damage and the occupants crawl out with only a black eye are becoming the order of the day. Early on the morning of April 21 J. H. Kuhns of Pittsburgh, a former member of the Class of '27, with a friend, was riding in a car that turned turtle on the Taughannock Boulevard road. When he tried to pull it out of a rut, it went over the bank, turned over twice, and ended up against a tree forty feet below. Kuhns was but slightly bruised, and his companion was unhurt.

A FEW DAYS BEFORE, Edward M. Bull '26 of Monroe and Benjamin L. Johnson, Jr., '27 of Ithaca, were thrown from their machine when it hit a soft shoulder on the highway near Horseheads and crashed into a tree. The car, a new Studebaker, was almost demolished, but they sustained only slight injuries.

THE FRESHMENT BANQUET poster contest has been won by E. H. Cordes '28 of Brooklyn. The poster shows a baby wearing a frosh cap and bib, in a black and white on a red background.

THE ESTATE OF WILLIAM H. SAGE, who died on October 23, 1924, is said to total more than eight millions, the largest estate ever administered in Albany County. Mrs. Sage has a life use of one-fourth of the estate; one fourth goes to the daughter, Mrs. Catherine Sage White, and one-fourth to each of the two sons, Henry W. Sage and Andrew Gregg Curtin Sage. Bequests are also made to a number of Albany institutions.

THE DRAMATIC CLUB on May 1 and 2 presented "The House into Which We are Born" by Jacques Copeau.

Sigma Xi Elects

Cornell Chapter Initiates Forty Eight Members from Instructing Staff and Students

The Sigma Xi Society on April 27 elected the following forty-eight members of the instructing staff and students to membership. Only five are seniors.

ARTS AND SCIENCES

Thomas Caldwell Adams, geology, Salt Lake City, Utah.

Raymond Peck Allen, '20, assistant in chemistry.

Ludwig Frederick Audrieth, assistant in chemistry.

Kenneth Stewart Cole, instructor in physics.

Lauchlin MacLaurin Currie, fellow in chemistry, Davidson, N. C.

John Sutliff Fonda '22, assistant in chemistry.

Robert Lewis Hanson, instructor in physics.

David Graaff Haylett, assistant in botany.

Charles Henry Johnson, assistant in chemistry.

John Paul Jones, assistant professor of agronomy, Massachusetts Agricultural College.

John Calvin Keller, assistant in chemistry.

Elizabeth Fallen Moller, Ph. D. '24, honorary fellow in psychology.

Ernest Guy Robinson '20, formerly instructor in geology, Moore, Mont.

John William Then '22, physics, Ithaca.

David Woolsey Trainer, assistant in geology.

William Allen Watkins, instructor in geology.

Laverne Harold Willisford, assistant in chemistry.

Harold Adlard Lovenberg '25, Chemistry, Summit, N. J.

Carlisle Schade '25, Chemistry, St. Louis, Mo.

AGRICULTURE

Raymond William Bell '20, Bureau of Dairying, Washington, D. C.

Earl Lewis Brunett '23, pathology and bacteriology, Herkimer, N. Y.

John Lossing Buck '14, agricultural economics and farm management, University of Nanking, China.

Christina Marie Burkout, plant pathology, Heckscher research assistant.

George John Callister, agronomy, Reading, England.

Paul Jones Chapman, instructor in entomology.

Lawrence Ward Corbett '24, assistant in vegetable gardening.

Julian Dana Corrington '13, zoology and entomology, professor of zoology, University of South Carolina.

Miles Hugo Cubbon '21, assistant in agronomy.

George Abdallah Knaysi '24, dairy industry, Atmore, Ala.

Robert Donald Lewis, instructor in plant breeding.

Chung Lo Liu '22, entomology, Foochow, China.

John Rustin Alfred McMillan, plant breeding, University of Sydney, Australia.

Russell Cooper Miller, research assistant in animal husbandry.

Mervyn Charles Mossop '24, instructor in entomology.

Herbert John Pack, entomology, instructor in biology.

William Mason Phipps, M. S. A. '25, formerly assistant in agronomy, Salyersville, Ky.

Myers Peters Rasmussen '19, assistant professor of agricultural economics and farm management.

Donald Timmerman Ries '25, instructor in entomology, Michigan State College.

Victor Ferdinand Tapke, plant pathology, U. S. Bureau of Plant Industry.

Rafael Andres Toro, plant pathology, assistant pathologist, Insular Experiment Station, Porto Rico.

Edmund Ellsworth Vial, M. S. '24, instructor in agricultural economics and farm management.

Stirling Waterman, agronomy, Guelph, Ontario.

Frederick Pattison Weaver, M. S. '23, instructor in agricultural economics and farm management.

Francis Henry Wilson '23, entomology, Salem, N. Y.

Frank Chittenden Fletcher '25, entomology, Minneapolis, Minn.

Adalyn Florence Schoenfield '25, pathology and bacteriology, Philadelphia, Pa.

Robert Herman Volgenau '25, comparative pathology and bacteriology, assistant in histology, Buffalo.

MEDICINE

Joseph Alma Dye, instructor in physiology.

SUMMER RESORTS of Ithaca are opening up. The Buttermilk Falls dance pavilion started the season on April 30, with the promise of dances every Thursday night. Breeze Inn, five miles north of Ithaca on the highway to Auburn, opened on May 2 for the first of a series of Saturday night dances. The Hotel Glenwood on the west shore of Cayuga will have its inaugural dance on Spring Day, May 23.

THE MUSICAL CLUBS have elected Bjorn R. Edstrom '25 of Vesteras, Sweden, president for the coming year. He sings second bass in the Glee Club. John C. Adams '26 of Memphis, is the Clubs' new manager, and Wistar Ambler '27 of Cleveland is assistant manager.

THE SOPHOMORE COTILLION, the name the women give to the annual affair given by the sophomore women to the freshmen, was held on April 30. The music for this gay party was supplied by Blackmore's orchestra, and the whole thing was under the direction of Miss Helen B. Wright '27 of Wellesley Hills, Massachusetts.

Spring Day Plans Unique

Night Carnival on Beebe Lake to Replace Usual Parade and Circus—Inter-University Regatta

A night carnival on Beebe Lake, "So This is Venice," will replace this year the usual morning parade and circus at the twenty-fifth annual Spring Day on May 23. Flood lights will be erected on the shores of the lake and unusual "stage effects" for the carnival are promised. Water sports are to have a conspicuous place on the program; canoe races, swimming and diving contests, and a "bathing beauty" contest, each College to designate a professor as its entrant, and numerous stunts and novelties, are promised.

Both social and athletic activities are included in the week-end program outlined by the Athletic Association. On the sports side the program includes a lacrosse game with Colgate on Friday afternoon, May 22; the annual Spring Day baseball game with Yale at two o'clock on Hoy Field; an inter-Cornell regatta on Cayuga Lake at five o'clock in which college crews will compete for the University championship and the two varsity and the freshman eights will take part in a handicap race; and a tennis match with the University of Michigan.

Although no observation train will be operated for this regatta, the finish line will be moved south from McKinney's to Stewart Park, thereby enabling thousands of spectators to view the boat races from the shore.

Numerous house parties are being arranged by fraternities and alumni are invited to come back and look the place over. The Musical Clubs will give their Spring Day concert on Friday night, May 22, to be followed by the annual Navy Ball in the Drill Hall. Numerous fraternity dances and other forms of social entertainment will be arranged. The grand climax of the two days' entertainment will be the aquatic carnival, which promises to be a unique and beautiful entertainment.

MORE HONORS TO CREIGHTON

The Western Division of the American Philosophical Association, at its Easter meeting held at the University of Illinois, expressed its appreciation of the work and worth of Professor James E. Creighton '92 as a philosopher by devoting the morning session of April 10 to a consideration of his teachings. The speakers invited on this occasion were Professor Frank Thilly, who presented a paper on "The Philosophy of James Edwin Creighton," Professor George H. Sabine '03, of Ohio State University, whose paper bore the same title, and Professor Glenn R. Morrow, Ph.D. '21, of the University of Missouri, who took as his subject "Professor Creighton and the Historical Method in Philosophy." The discussion which followed paid a high tribute to Professor Creighton's achieve-

ments as a thinker, as editor of *The Philosophical Review*, as a teacher, and as a man. The meeting was a high and unusual tribute to Professor Creighton.

Among the graduates of the Sage School of Philosophy who were present at this memorable meeting were: Professor Edmund H. Hollands '99, of the University of Kansas, president of the Western Philosophical Association; Professor Joseph A. Leighton '94, of Ohio State University; Professor Madison Bentley, Ph.D. '98, of the University of Illinois; Professor Sabine; Professor G. Watts Cunningham Ph.D. '08, of the University of Texas; Professor Edward L. Schaub, Ph.D. '10, of Northwestern University; President Mark E. Penney '10, of James Millikin University, Professor Elijah Jordan '08, of Butler College, Professor D. Thomas Howard, Ph.D. '16, of Northwestern University, Professor Thilly; and Professor Morrow.

The Cornell Club of Urbana gave a luncheon in honor of the visiting Cornellians.

SPORT STUFF

This Venetian carnival at Beebe Lake on the night of Spring Day is getting a grip on the undergraduate imagination. Every other sophomore is rigging himself a trick gondola and practicing tenor solos of a passionate and Venetian nature. Police regulations are stringent about parking gondolas in front of hydrants, speeding by school houses at more than 10 knots an hour and leaving spaghetti around the beach for people to trip over.

There will be a bathing beauty contest, for which each college will enter its most alluring professor, canoe tilting contests and pageantry of all kinds on the lake itself. And at the Johnny Parson Club and through the woods along the shore will be dancing and shows and booths conducted by Merchants of Venice.

But no matter what the undergraduates may do, or fail to do, Beebe Lake in carnival attire with fire works and colored flood

lights all over the place will be a sight worth going far to see.

R. B.

NOW IT IS TO BE TOLD

At last, after more than fifty years' delay, the Class of 1872, known as the "First Through Class," because it entered the University's doors at their initial opening, and was the first to complete a full four years' course, is going to tell its story in its own words, out of its own heart. After the ravages of half a century there are enough of the members of the old Class still left to raise their Ebenezer in commemoration of their departed classmates and of the days when they taught Ithaca how to be classic.

Other classes, that came long after that lone first one, have published their histories in the gap that was left open for them—and highly excellent and creditable histories they have been; but only the men of '72 were familiar with the actual beginnings, of which they were a part, and wherein they acted as pioneers for Ezra

STUDENT GUNNERS IN ACTION

Members of the Artillery Unit of the Cornell R. O. T. C. at firing practice last week with a French 75 along the shores of Cayuga Lake. The target is floating out of the range of the camera. This photograph, taken just after the instant of firing, shows the gun barrel at full recoil position, and the dust blown up ahead of the gun by the concussion of the shot.

Photo by Troy

Cornell in his great enterprise of founding a new kind of university, based upon new ideas in education—the ideas of freedom of choice, equality of opportunity, and equivalence of intellectual effort.

The Class of '72 established the earliest traditions of Cornell, and, in the front rank, helped to fight and win its opening battles against bigotry, belated superstition, and educational old fogysm. And when its members went forth from the graduation platform in old Library Hall, they spread over this country, wherever their vocations carried them, the breezy spirit of the new education.

No other class has so fundamental a story to tell. It was '72 that crowned the American Ithaca with Homeric memories; it was '72 that tamed the Campus, the larger part of which, when the first Class climbed East Hill, was but a field where wild flowers grew and cattle chewed their cuds under the chestnuts and beside the meadow rills. Seventy-two got out the first Cornell newspapers and poetry pots; established the first Cornell fraternities; rang the first, and only, Chimes; founded the glorious Cornell Navy and taught American colleges that they must row like Satan if they wanted to come in—second. Tom Hughes, fresh from "Tom Brown's School Days," was taught by '72 to play baseball on Willow Avenue. Seventy-two invented the "Cornell Yell," and wrote the song of "Alma Mater." This is but a thimbleful of '72's achievements.

Who will not want to read about what that famous Class did in those wonderful days when Cornell was in the making? Its beginning was the beginning of the University, and its story must necessarily have an overwhelming interest for every Cornell man, whatever may be the class numeral that he wears. L. L. S.

CONSERVATORY TO GIVE DEGREES

The Ithaca Conservatory of Music, now reincorporated under the name of the Ithaca Conservatory and Affiliated Schools, will hereafter grant regular degrees to students who complete courses in the various departments. Final sanction was granted on April 25 by the unanimous vote of the State Board of Regents. The degrees to be conferred, beginning with next year are: Bachelor of Music, Bachelor of Physical Education, and Bachelor of Oral English.

The Board of Regents has further expressed the opinion that the Ithaca institution now possesses every requisite attribute of a college or university with the exception of an endowment. The minimum required by the State is \$500,000, and it has been decided to institute a campaign at the Conservatory to obtain this amount. The sum of \$100,000 has already been contributed by an anonymous donor.

THE GRAPHIC has elected J. T. Miller '28 of Poughkeepsie to its staff. He won the freshman photographic competition.

LITERARY REVIEW

One Man's View Of the World

A Course in Philosophy. By George Perrigo Conger '07, Assistant Professor of Philosophy in the University of Minnesota. New York. Harcourt, Brace and Company. 1924. 22 cm., pp. xii, 603.

In the forty-nine chapters of this excellent treatise the author has made a consistent effort to be comprehensive and to cover all parts of the field of philosophy. His volume, then, really furnishes an adequate introduction to the whole subject of philosophy. Part I is devoted to The Distinctive Marks of Philosophical Problems. Such problems evolve in all lines of thought and activity—literature, politics, conduct, the feeling for beauty, science, religion. What are the relations of these problems, and what are the representative views concerning them? The author presents these matters with notable clearness, conciseness, and impartiality.

In fifteen chapters the author then surveys the history of philosophical thought. He has condensed the harvest of vast reading, and his survey is one of the best of its kind.

Part III is devoted to an analysis of philosophical theories. In four divisions the author takes up epistemology (the theory of knowledge), metaphysics (the discussion of the irreducible features of our world), the normative sciences (psychology, sociology, ethics, eugenics, politics, logic, esthetics), and the philosophy of religion. As a sample we shall dwell on the last chapter, The Chief Types of Contemporary Philosophy of Religion. The (1) orthodox Christian view is first set forth. The difficulties of this view are chiefly the difficulties of dualism. Its first group of opponents (2) are the absolute idealists (related to the Christian Scientists), whose view tends toward pantheism—that all evils tend to evaporate, swallowed up in the timeless goodness of God. Then there are (3) the mystics, who claim philosophical recognition for their convictions of direct personal experience of God—an experience so satisfying that it stands in no need of proof. Another group (4) maintain a relative idealism either dualistic or pluralistic. When dualists they differ from the orthodox concerning authority in religion. They find authority in the experiences of believers rather than in the Catholic Church or the Protestant Bible. Another group (5), charging all the above views with being the product of autosuggestion and imagination reinforced by custom, would supply religion with a basis in humanitarianism. The collective will, it has been said, is the reality expressed in the idea of God. For another group (6) man has created the gods in his own image; but the stories of the gods add beauty to life and power to ideals. Lastly, there are (7) those who feel that a religion

without objective sanctions must soon cease to exert power; seeking for such sanctions they turn to the physical cosmos and state religious problems in terms of man's adjustment to the universe. One presupposition is that matter and spirit are not to be considered as opposites. One writer holds that the universe is evolving toward deity in mankind. The author himself, while frankly unable to disprove the views of groups 1-3, thinks that materialism and mechanism have won the right to a new estimate of the universe in their own terms. He clearly inclines to the views of the 7th group, and elaborates his argument in a long appendix.

There are numerous admirable suggestions for reading and there is appended a good list for a working library of philosophy. The index of fifty-one pages is a model of painstaking and intelligent reference advice. The book will take its place as a standard guide to the mazes of man's thought about himself in relation to the world and the beyond.

Books and Magazine Articles

In *Science* for April 17 Professor William B. Fite '92, of Columbia, describes the recent work of the American Mathematical Society. In the issue of April 24 Dr. David Starr Jordan '72 reviews Alfred Mark Salyer's "The Antics of the Ant" and "Ingenious Insects" and Isaac Holmes's "Romance of the Holes in the Bread."

In *Industrial Management* for April Dale S. Cole, M. M. E. '12, begins a serial article on "Capitalizing the Advantages of the Small Factory."

In *The Christian Register* for April 16 "It is a Strange House" by Dana Burnet '11 is reviewed by the Rev. Alfred R. Hussey.

In *The South Atlantic Quarterly* for April Dr. Katherine Gilbert '12 reviews "The Beautiful" by Henry Rutgers Marshall. Alice M. Baldwin '00 reviews Elizabeth Anthony Dexter's "Colonial Women of Affairs."

The National Engineer for April includes a "Summary of Research on the Applications of Leather Belting" by R. F. Jones, research engineer in charge of the work being done here by the Leather Belting Exchange Foundation.

The Michigan Alumnus for April 11 includes a recent portrait of Dr. Alexander Meikeljohn Ph.D. '97, who on April 3 addressed the Michigan Schoolmasters' Club at Ann Arbor on "Excellence in Democracy."

The Sibley Journal of Engineering for April includes an article on "The Cornell Crescent" by Gavin Hadden. C. H. Murray, of the American Rolling Mill Company, discusses "Simplifying the Selection of a Career." Lawrence E. Barringer, of the General Electric Company, writes on "The Importance of Insulation in Electrical Engineering."

CLUB ACTIVITIES

Philadelphia

The Cornell Club of Philadelphia, which kept open house for all Cornellians in connection with the Pennsylvania Relays on April 24 and 25, entertained with a special luncheon on the 24th. Coach Jack Moakley was the guest of honor.

Springfield, Massachusetts

The Cornell Club of Springfield held a dinner meeting on April 24, at which Dean Dexter S. Kimball of the College of Engineering spoke before an enthusiastic audience of some forty Cornellians.

Oley D. Roats '06, president of the Club, presided. A feature of the dinner was the presentation of an engraved testimonial to John J. D. McCormick '13 of Holyoke by the members of the Club, in appreciation of his earnest work as president during the past two years.

Dean Kimball also addressed a Rotary Club luncheon at Holyoke.

Chicago

The "Kegs is Kegs" party in Chicago on April 24, when the alumni of Cornell and Dartmouth joined forces, was a notable success. Although the Cornellians as hosts were in a numerical majority, the Dartmouth delegation easily made up for this lack by creating more din. The "single scull" championship went to Dartmouth, who won both races, but the two eight-oared shell races were won by Cornell amid much pandemonium and cheering. "Gene" Taylor '21 and R. W. Woodcock, Princeton '23, performed on the battered piano, and John Locke '24, sang several of his original compositions. "Hank" Scarborough '11 and Warren D. Bruner, Dartmouth '12, were in charge of arrangements, and were assisted by "Pick" Johnson '22.

PROFESSIONAL ALUMNI MEET

As usual Cornell took a prominent part in the twelfth conference of the Association of Alumni Secretaries, with which was combined the seventh annual session of the Alumni Magazines, Associated, at Bethlehem, Pennsylvania, on April 23, 24, and 25, with Lehigh University as host.

Cornell's delegation comprised Romeyn Berry '04, Foster M. Coffin '12, Harold Flack '12, Mary K. Hoyt '20, and R. Warren Sailor '07. Another Cornellian present, who, however, represented Lehigh University, was President Charles Russ Richards, M. M. E. '95.

Among the speakers was Earnest Elmo Calkins, of Calkins and Holden, advertising specialists, a writer of distinction and a man of prominence in his profession. Calkins had made a careful study of the alumni magazines and offered some friendly criticism of both the editorial and business practices of the papers. He made some comprehensive and radical suggestions for the advertising group of publications, which when carried out should

bring a solution of the financial problems common to this type of magazine.

As a part of an unusually good program, Coffin read a paper at one of the sessions of the secretaries entitled "The Lost Sheep," a discussion of methods of finding lost addresses. Sailor spoke at the dinner of members the first day of the convention, his subject being, "Looking Forward from Behind." He also acted as toastmaster for Lehigh at the dinner given by the University, introducing, in addition to local celebrities, Romeyn Berry, who spoke on the theme, "The Alumnus—a Biological Study." Sailor offered an original song, "Our Composite Alma Mater," which was adopted by the convention as its official battle hymn.

Entertainment features of the convention included a trip through the Bethlehem Steel Company plant, the first since the War by a convention group, and the first at any time that included women.

INTERCOLLEGIATE NOTES

THE ROCKEFELLER Foundation has recently given the University of Iowa \$2,250,000 for medical laboratories and \$133,000 for the Child Welfare Research Station.

DR. E. G. MAHIN, Purdue '02, speaking at the convention of Ohio colleges at Columbus on April 3, delivered a vicious attack upon the present athletic system. Scouting among the high schools, he says, has become a science. He condemns the raising of money by student subscription for the erection of stadiums. Homecoming Day is too often a drinking debauch. The gambling evil is growing. "The most serious charge that may rightfully be brought against the present system is that it not only fails utterly to be of any use in the physical upbuilding of the great mass of students who need it, but that, on the contrary, in the case of football at least, it is now played in such a way as to be a real detriment to the health and soundness of the players and a serious menace even to their lives. Joints are twisted or dislocated, bones are broken, and internal injuries are suffered as mere expected incidents in this 'man's game.'"

PRESIDENTS FOR NEXT YEAR of outside houses for women students are Rachel Childrey '26 of Ridley Park, Pennsylvania, Waite House; Adelaide Romaine '26 of New York, Risley Terrace; E. H. Doren '27, Risley Cottage; Grace W. Hanson '27 of Sea Cliff, Thurston Cottage; Elizabeth Goepp '27 of Philadelphia, Tyler House; Ruth L. Hausner '27 of Corning, Sill House; Elizabeth P. Stow '27 of Atlantic City, Craig House; Ella M. Behrer '27 of Philadelphia, 120 Oak Avenue; Martha F. Dana '27 of Ridgewood, New Jersey, 715 East Buffalo Street; Una E. Small '27 of Hollidaysburg, Pennsylvania, 706 East Buffalo Street; Meta S. Ungerer '27 of Lyons, 123 Highland Place; and Marion E. Whitwell '27 of Buffalo, 123 Dryden Road.

FACULTY NOTES

PROFESSOR EVERETT L. HUNT was one of the judges at the debate between the Oregon Agricultural College and Syracuse University, held in Syracuse on April 17.

DEAN ELMER J. McCaustland '97 of the University of Missouri, former professor in Civil Engineering at Cornell, was the chief speaker at the eighth annual Engineers' Day of the University of Kansas. He spoke on "Some Technical Problems of Engineers," pointing out that the engineer of the future has a problem before him of coordinating the forces with which he comes into contact, especially in the field of personal relationships. The ideas stressed throughout the address were those of justice, truth, right, and service.

PROFESSOR ELMER S. SAVAGE '09 has again been made superintendent of live stock for the annual State Fair to be held in Syracuse next fall.

PROFESSOR HEINRICH RIES attended the meeting of the National Research Council in Washington on April 25.

PROFESSOR GEORGE G. BOGERT '06, dean of the College of Law, has been given leave of absence from the University beginning in September, 1925. He will spend next year at the University of Chicago Law School, where he has been appointed acting professor of law, and will give several courses. Professor Charles K. Burdick has been appointed acting dean of the College of Law for the year.

PROFESSOR PIERRE LEMAIRE, assistant director of the School of Technology at Lyons, and a distinguished French scientist, is spending two weeks at Cornell. He has given several technical lectures on the adjustment and suspension of automobile springs, as well as three popular lectures on "The Great Fair at Lyons," "The School of Technology at Lyons," and "Color Photography."

PROFESSOR WILDER D. BANCROFT is scheduled to speak on "Molecular Weights and Solution" at the third National Colloid Symposium to be held at the University of Minnesota on June 17-19.

PROFESSORS CHRISTIAN MIDJO, Walter K. Stone, and Olympio Brindesi have been holding an exhibition of their work throughout the week, in White Hall. The display includes oil paintings by Professor Stone, outdoor scenes by Professor Midjo, and child portraits by Professor Brindesi.

THE FENCING CLUB, at a recent meeting, elected Harry Hartley Iurke '26 of Memphis, Tennessee, president for next year, Edwin T. Bardwell '26 of Crestwood, vice-president, and E. Good '28 of Dunkirk, secretary and treasurer. The novice championship in fencing was won on April 25 by Good.

Published for the alumni of Cornell University by the Cornell Alumni News Publishing Company, Incorporated.

Published weekly during the college year and monthly in July and August; forty issues annually. Issue No. 1 is published the last Thursday of September. Weekly publication [numbered consecutively] ends the last week in June. Issue No. 40 is published in August and is followed by an index of the entire volume, which will be mailed on request.

Subscription price \$4.00 a year, payable in advance. Foreign postage 40 cents a year extra. Single copies twelve cents each.

Should a subscriber desire to discontinue his subscription a notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts and orders should be made payable to Cornell Alumni News.

Correspondence should be addressed—

THE DOPE ON SPRING DAY

SPRING DAY without an intercollegiate rowing race of some kind and an observation train sounds unusually unattractive. Despite the fact that recent observation trains have had little to observe, some impatient alumni will no doubt decide to stay away from Spring Day this year, leaving it flat. Nothing could be more short sighted.

Without a regular regatta other events are forced to the center of the stage. An opportunity is provided by necessity for a real display of ingenuity in organizing the Spring Day show "So This Is Venice?" Circuses have been rather perfunctory in recent years. Bits of meaningless rags, dabs of aimless grease paint, principally crimson for noses, and wads of recklessly placed padding have come to be regarded as adequate make-up. The rest of the performance has seemed no more attractive than these.

The early Spring Day Circuses were put on with all the sincerity of purpose that marks a professional show. Attention to detail made the sting of the "fake show" seem very pleasant.

Now, once more, with the circus occupying the center of attention, we can look for a careful refining of detail that will make it worth looking at. The ball game with Yale, likewise, usually an event that demands undivided attention, may be enjoyed to the full even if it goes, as it frequently has gone, into extra innings. The Musical Clubs' concert on Friday is one of the best offerings of this organization in

some time. And the undergraduate requirement of dances to top off each evening will give the tired alumnus the opportunity he needs for quiet communion with his fellow men.

The rowing program alone suffers. The rest of the program will gain. Time was when a race between three Cornell crews would be a better race than any inter-collegiate. We are not sanguine that this time has returned, but we feel sure that the spectator from the shore will see crews that sit up to their jobs and make the boats run alike on catch and recovery. We can venture the hope that they are either the first of a long series of fast crews, or the immediate predecessors, exhibiting many of the characteristics of great crews.

Cornellians have been enthusiastic over less promising carnivals than the one in prospect. Those that attend will probably not be disappointed.

MAJURA RECENTLY INITIATED into membership fourteen sophomores: Joseph W. Ayres of Easton, Pennsylvania; Charles J. Baker of Chicago; Frederick B. Bradeen, Jr., of Essex, Connecticut; Emerson Carey, Jr., of Hutchinson, Kansas; Rufus L. Coe of Memphis, Tennessee; Jack S. Garretson of Jamaica; Wilson Hamilton of Caledonia; Albert R. Hatfield, Jr., of Utica; Louis H. Healy of Wilkes Barre, Pennsylvania; Garrett Kirk, 2d, of Overbrook, Pennsylvania; Jervis Langdon, Jr. of Elmira; George H. Lewis, Jr. of Norfolk, Virginia; Forbes D. Shaw of Brooklyn; and Joseph S. Thomas of Ashland, Ohio.

SCABBARD AND BLADE elected to honorary membership Colonel and Dean George G. Bogert '06, Major-Professor Pierre A. Fish '90, Major-Professor Seymour S. Garrett '04, Major-Professor Leonard A. Maynard, Ph.D. '15, and Major-Professor Floyd K. Richtmyer '04 at a smoker held recently. Colonel W. A. Castle, commanding officer of the infantry unit and military attaché to Bulgaria after the War, gave an address on Bulgaria.

EVER AND ANON Ithaca is treated to a display of fiery crosses. Despite the pouring rain on Saturday evening, April 25, four crosses burned brightly on the hills nearby. Who burned them nobody knows and, in the words of the old song, "nobody seems to care."

AFTER TRY-OUTS held April 17, Nathan Katz '25 of Birmingham, Alabama; Joseph R. Houchins '26 of Ithaca; and Frank C. Monaghan, Jr., '27 of Uniontown, Pennsylvania, were chosen for the team which will debate with Queen's University early in May. At the same time, John W. MacDonald '25 of Watervliet; Benjamin Levitan '25 of Tarrytown; and John P. Seward, Jr., '26 of New York were chosen as the team which will debate with Boston University the middle of May.

OBITUARY

James Lindsay '73

James Lindsay died at his home in Edgewood, Pa., on August 22, 1924, following a stroke of apoplexy.

He was born on December 8, 1847, at Short Creek, Ohio, and spent his early years on a farm. In 1869 he came to Cornell as an optional student and remained for one year. He returned to Ohio, learned the carpenter trade, and in 1896 opened an office as an architect in Bridgeport. He was engaged in building operations in that vicinity until 1922, when he retired and moved to Edgewood, Pa.

On March 25, 1878, he was married to Miss Anna Linn of Martins Ferry, Ohio, who survives him with three children, Maude, Lucile, and J. C. Lindsay.

James Winne '76

James Winne died at his home in Jordan, N. Y., on March 17.

He was born at Meridian, N. Y., on February 17, 1853, the son of Peter D. and Ann McKown Winne. After studying at Monroe Collegiate Institute at Elbridge, N. Y., he entered Cornell in 1872 as an optional student. After remaining one year, he went to Hamilton College from which he received the degrees of A. B. in 1877 and A. M. in 1880.

After teaching for a year in the Troy, N. Y., Academy, he was later principal of the High School at Poughkeepsie, N. Y., from 1886 to 1901. In 1905 he was selected as one of the international jurors in the Department of Education at the St. Louis Exposition. From 1905 to 1907 he was principal and superintendent of schools at Canandaigua, N. Y. Then he moved to Riverside, Calif., and was principal of the Girls' High School from 1912 to 1915, when he retired and moved back to Jordan, N. Y.

James L. Camp '78

James Leeworthy Camp, a member of the first crew to win an intercollegiate boat race for Cornell, died on November 28, 1914, in Brainerd, Minn.

He was born in Dixon, Ill., on December 8, 1855, the son of Mrs. and Mrs. J. L. Camp, and after attending the Dixon High School, entered Cornell in 1874 as an optional student. At the end of the year he left and went back to Illinois.

While in the University, he rowed No. 2 on the '78 freshman crew, which won at Saratoga in 1875. He was a member of Zeta Psi and the Tom Hughes Boat Club.

Metellus C. W. Wheeler '81

Metellus Clinton Woodbury Wheeler died in Peoria, Ill., on December 29, 1924.

He was born in Peoria, the son of Mr. and Mrs. Horatio Wheeler. After attending the Peoria High School he came to Cornell in 1883 as a student of mechanical

Winning the West

Irrigation by electrically driven pumps has made hundreds of thousands of acres of desert land in the Intermountain West blossom like the rose.

The General Electric Company provides for agriculture little motors that do the farm chores and great ones that operate mammoth pumps to irrigate vast stretches of arid valleys.

If you are interested in learning more about what electricity is doing, write for Reprint No. AR391 containing a complete set of these advertisements.

For a few cents a month per acre, electricity—the giant worker—brings the life-giving water from distant lakes and rivers to rainless valleys, producing rich harvests of fruits and vegetables, cereals and forage.

What electricity is doing for the farmer is only a counterpart of what it is doing for Industry, Transportation, City and Country life or any of the professions. It is a tool ready for your use and which, wisely used, will make the impossible of today an accomplished fact tomorrow.

How electricity does these things is important to the student in a technical school—but *what* electricity can do is important to every college man or woman, no matter what their life's work may be.

7-17/DH

GENERAL ELECTRIC

GENERAL ELECTRIC COMPANY, SCHENECTADY, NEW YORK

engineering. In 1885 he left and returned to Peoria.

Mrs. James Marvin '85

Mrs. Clara Giddings Marvin died in Jefferson, Ohio, on August 28, 1923.

She was born in Jefferson on August 22, 1858, the daughter of Mr. and Mrs. J. A. Giddings and after attending school in that place went to Antioch College, from which she came to Cornell in 1881 as a student of literature. She remained for one year. Later she was married to James Marvin.

William H. Burr Sp. '89

William H. Burr died at his home in Newark Valley, N. Y., on March 7, 1925.

He was born in Speedsville, N. Y., on August 2, 1846, the son of Dr. William and Jane Lincoln Burr. When he was quite young, his parents moved to Rushford and later to Oramel, N. Y. In 1861 he joined the Union forces as an orderly for his father, who was an officer. He was wounded and returned home. Later he attended the Cortland Academy. In 1864 he left there to attend the Eastman Business Institute at Poughkeepsie and upon completing his course went to Chicago. There he was connected with one of the early packing firms for about thirteen years. As a result of the Chicago fire his health broke down and he returned East to live with his parents, who had moved to Newark Valley.

In 1890 he came to Cornell to study veterinary medicine and remained in the University for a year. Returning to Newark Valley he practiced until about 1911.

Besides his brother, Professor George L. Burr '81, he is survived by a sister, Mrs. E. A. Becker, of Buffalo, N. Y.

Frank Harrison '91

Frank Harrison died on March 15, 1922.

He was born in Troy, N. Y., on August 31, 1867, the son of George and Margaret Van Woert Harrison. After getting his early education at the Troy Academy, he went to Rensselaer Polytechnic Institute, from which he received the degree of C. E. There he became a member of Theta Xi.

After a year of work in hydraulic engineering with the Department of the Interior and after practicing civil engineering in Buffalo for a year, in 1890 he came to Cornell for graduate work and remained one year.

After leaving the University he engaged in the hardware business in Toledo, Ohio, for twelve years. In 1903, he went to Coconut Grove, Fla., and took up fruit-growing. He remained in this business until 1907.

On June 9, 1892, he was married to Miss Gratia L. Bloss, who survives him with three children, George S., Richard B., and Katherine G. Harrison.

George M. Colgate '10

George Marc Colgate died on August 4, 1924.

He was born in Batavia, N. Y., on September 17, 1885, the son of Mr. and Mrs. George L. Colgate. After graduating

from Batavia High School, he came to Cornell in 1906 as a student of mechanical engineering and graduated in 1910 with the degree of M. E. He was a member of Tau Beta Pi.

Mrs. Alexander MacKenzie, Sp. '12

Mrs. Elizabeth Cruickshank MacKenzie died last year at her home in Yonkers, New York.

She was born on May 18, 1880, and after attending the Academy of the Sacred Heart in Albany, N. Y., entered Cornell in 1911 as a special student of agriculture. After one year she left and later was married to Alexander MacKenzie. They made their home for a time at Big Indian, N. Y., and later in Yonkers.

Francis K. Du Casse '18

Francis Kilian Du Casse died in New York last July.

He was born in New York on February 25, 1897, the son of William L. and Anna Kilian Du Casse. After graduating from DeWitt Clinton High School, he came to Cornell on a State scholarship in 1914 as a student of chemistry. In 1918 he was graduated with the degree of B. Chem. He was a member of Scorpion and of Alpha Chi Sigma. After leaving Cornell he made his home for some time in Buffalo.

ATHLETICS

The Baseball Schedule

Virginia 1, Cornell 0.
Virginia 9, Cornell 4.
Cornell 8, Washington and Lee 5.
Washington and Lee 4, Cornell 0.
Cornell 11, Virginia M. I. 2.
Cornell 7, Columbia 5.
Cornell 2, Niagara 0.
Columbia 5, Cornell 2.
Dartmouth 12, Cornell 3.
May 6, St. Bonaventure at Ithaca.
May 9, Ohio State at Columbus.
May 13, Colgate at Hamilton.
May 16, Yale at New Haven.
May 23, Yale at Ithaca.
May 27, Rochester at Ithaca.
June 12, Pennsylvania at Ithaca.
June 13, Colgate at Ithaca.
June 17, Pennsylvania at Philadelphia.
June 18, Dartmouth at Hanover.

Coming Events

May 9, Dual meet with Pennsylvania at Philadelphia.

Regatta at Cambridge, varsity, junior varsity, and freshman crews. With Harvard, Pennsylvania, and M. I. T.

May 16, Dual track meet, M. I. T. Ithaca.

Regatta, Derby, Conn. Varsity, junior varsity, and freshman crews. With Yale and Princeton.

Boatings for the Charles River

The crews will make their debut Saturday at Cambridge, rowing Harvard, Pennsylvania, and Massachusetts Institute of Technology in a regatta on the Charles

River. The party leaves here Thursday night. All three eights, varsity, junior varsity, and freshman will compete.

The make-up of the crews follows:

Varsity—Bow, J. E. Frazer; 2, D. H. Krouse; 3, S. T. Buckman; 4, F. A. C. Drew; 5, E. L. Anderson; 6, S. C. Allen; 7, R. V. Lange; stroke, N. G. Stagg; coxswain, R. Aronson.

Junior Varsity—Bows, C. C. Russell; 2, R. C. Ter Kuile; 3, M. A. Dauernheim; 4, R. C. S. Sutliff; 5, L. H. Healy; 6, E. H. Emerson; 7, D. M. Hynes; stroke, R. W. Butler; coxswain, E. M. Krech.

Freshman—Bow, W. J. Lanz; 2, I. T. Runey; 3, F. D. Bub; 4, T. Wainwright; 5, P. D. Harwood; 6, J. A. Woerz; 7, N. G. Wright; stroke, H. C. Boschen; coxswain, W. B. McLean.

Lacrosse Team Breaks Even

The lacrosse team won an Intercollegiate League game from Penn State at Ithaca last Thursday, score 3 to 0, but lost one to Yale at New Haven Saturday, score 4 to 1. The State game was played in a drizzle on a wet field. Neither team scored in the first half. Harkins, the State goal tender, proved very adroit in warding off Cornell shots, but in the second period Bowdish, Hall, and McKinley all found the net.

At New Haven superior team work by Yale proved Cornell's undoing. The first half resulted in a tie, each team having scored one goal, but Yale organized a dashing attack in the second half and came through with victory.

Lose Twice in Baseball

The baseball team was set back twice last week, by Columbia in New York and by Dartmouth at Ithaca. Both of these were Quadrangle Cup series games. Cornell has now won one game and lost two in this series. Columbia has won one and lost one. Dartmouth has one victory to her credit, while Pennsylvania has yet to play a cup game.

At New York Milligan's wildness allowed Columbia to win, 5 to 2.

The Dartmouth game, after the third inning, was a walkaway for the Green. Dartmouth bunched nine hits off two Cornell pitchers in the fourth and fifth frames, scoring nine runs and settling the outcome of the game then and there. The score was 12 to 3.

In the Columbia game Cornell took an early lead, scoring a run in the first inning on Trentacosti's muff of Rossomondo's grounder and singles by Merrill and Dupree. In the second Kennedy booted Stirling's grounder, but the catcher was out at second on Shaw's grounder. Shaw stole second and came home on Milligan's single to center.

In the third Columbia came through. Rothenfeld walked, took second on Trentacosti's single, reached third on a drive by Kennedy, and came home on Zegri's hot one down the first base line. Columbia tied the score in the fifth. Milligan hit Rothenfeld and walked Horton. Trentacosti's single brought Rothenfeld in.

Columbia put the game on ice in the seventh when Milligan's wildness, a poor throw by Stirling, Trentacosti's fourth hit, and Miller's Texas League double brought in two runs.

The score:

Columbia (5)		AB	R	H	PO	A

Two-base hits: Miller, Rothenfeld. Three-base hit: Merrill. Stolen bases: Ray, Rothenfeld, Horton, Shaw (2), Merrill, Milligan. Left on bases: Columbia 9, Cornell 12. Double plays: Rothenfeld and Ray; Wendt, Davis and Shaw. Struck out: by Van Brocklin 7, Milligan 9. Bases on balls: off Van Brocklin 4, Milligan 8. Hit by pitcher: by Milligan (Rothenfeld). Wild pitches: Van Brocklin, Milligan. Balk: Milligan. Passed balls: Ray, Stirling. Umpires: Murray and Watkins. Time of game: 2:44.

Several thousand shivering spectators saw three innings of pretty good baseball on Hoy Field Saturday, but the balloon went up in the fourth inning. In that frame Dartmouth got five hits off Brown, for a total of four runs and in the fifth Brown retired after the first three men up had hit safely. With the bases full and none out Wright was sent to the mound. Dartmouth proceeded to pound his offerings freely, getting four more hits and five runs in this inning. After that Wright was more effective, though in the eighth three more hits, including a home run by Elliott and some Cornell errors, gave the Green three more runs.

Rossomondo's triple and a single by Merrill scored the game's opening run for Cornell in the third. The Red and White picked up one each in the eighth and ninth. Edwards' cross-fire delivery had the Cornell batsmen guessing most of the time. He allowed but six hits.

Tennis Team Wins Indoors

The tennis team defeated Swarthmore 4 to 1 in the season's opening match Saturday. The games were played in the drill hall, heavy courts preventing outdoor play.

Freshmen Lose Twice

The freshman baseball team lost the first game of its season in New York Saturday to the Columbia yearlings. The score was 4 to 0. The Syracuse Central High School lacrosse team defeated the Cornell freshmen at Ithaca 6 to 2.

Defeat Colgate Freshmen in Track

The freshman track team opened its season Saturday with victory, defeating the Colgate yearlings by a score of 78 ½ to 47 ½ on a heavy track at Schoellkopf Field. The teams divided first places evenly, but Cornell won out with seconds and thirds.

MRS. THEODORA LEISNER FAUST, wife of Professor Albert B. Faust, on May 6 under the auspices of the Deutscher Verein, gave a song recital of compositions by Beethoven, Schubert, Schumann, and Brahms, with Professor Otto Kinkeldey at the piano.

THE NEW MANAGER of the Student Room Agency is Harold N. Smith '26 of Ontario, who has as his assistant Frederick W. Hodge '27 of Owego.

AT A BANQUET of the C. U. C. A. held on April 29 in Barnes Hall, Kenneth W. Greenawalt '26 of Denver was elected president for next year. J. D. Nobel '26 of Hackensack, New Jersey, was elected vice-president; and Victor L. Butterfield '27 of Amherst, Massachusetts, secretary.

ALUMNI NOTES

'86 BS—The Ithaca Women's Club was entertained recently with a delightful talk by Mrs. Anna Botsford Comstock about her recent trip to the Hawaiian Islands. Mrs. Comstock illustrated her talk with a number of colored slides showing the physiography of the Islands, the trees, plants, and people.

'94 ME—William L. Colt was recently elected president of the Automobile Merchants' Association in New York City after a highly successful career in handling motor vehicles in the metropolis. Colt began the marketing of vehicles by selling bicycles as soon as he graduated and gradually worked into the automobile business. He was a distributor of Cole cars in New York and later took on the Dodge cars. In 1917 he became Eastern Division Manager for the Willys-Overland Company and in 1922 took over the New York sales of the Maxwell and Chrysler cars. He heads the Colt-Stewart Company.

'95—As the result of a change in methods in handling business in New York State, Burch Foraker was last week made general manager of the upstate division of the New York Telephone Company. Formerly all business of the company was conducted in New York, but differences in conditions necessitated a separation of the work in the metropolis from that upstate, with the result that Foraker was appointed to take charge of all traffic, plant, commercial, and engineering matters in the upstate division. The appointment followed many years of service with the company during which Foraker had made a steady rise.

'97 LLB—Eugene M. Strauss, who has been practicing law in Rochester, N. Y., for the last twenty-five years, has announced that after May 15 he will leave that city for New York where he will be associated with the law firm of Lee, Smythe & Wise. Strauss has been active politically in Rochester for some time and under Governor Sulzer held the post of chairman of the State Hospital Commission.

'01 AB, '02 AM—S. K. Alfred Sze was the guest of honor and the principal speaker at the weekly dinner of the Shrine Luncheon Club of Damascus Temple in Rochester, N. Y., recently. Sze is a Mason and a member of Peking Consistory.

ONE HUNDRED AND FIFTY YEARS
Since the "Shot Was Fired Heard 'Round the World"

Do You Know

That from April on to June, Lexington and Concord, Arlington and Cambridge, with the residents along the line of the famous march from Boston to Concord in 1775, are playing host to the American Nation? This is the sesquicentennial of the colonists' first armed resistance to the mother country.

The events of that memorable day are celebrated in verse, story

and moving picture. It is an American epic and needs no retelling. Today Lexington and Concord are shrines of the nation, and this year thousands more will make their pilgrimage to these historic spots. It is said that the guest book of the Hancock-Clarke House at Lexington contains more signatures than any other historic place in the country.

The John Hancock is particularly interested in insuring college men and women and obtaining college graduates for the personnel of the field staff.

STUDY EUROPE THIS SUMMER

The Fifth Annual International Student Tour will leave New York June 27th, via the 15,000 ton Cunard S. S. Andania. It will return 66 days later by the same steamship arriving in New York August 31.

Professor E. P. Andrews, of Cornell will act as director for the season of 1925.

Membership in this tour is open to students and instructors and their friends.

Its purpose is to place the benefits of foreign travel within the reach of young Americans during their vacation period at the lowest possible cost.

The price ranging from \$793 to \$930, includes passage both ways, hotels and all expenses except purely personal items. The steamship accommodations selected determine the variation in cost. In Europe all fare alike.

This tour is filling rapidly and if you wish to register, write for a booklet containing full details entitled "International Student Tours."

AMERICAN EXPRESS
TRAVEL DEPARTMENT

65 Broadway

New York

'21 AB—Roger W. Hooker has recently been doing considerable traveling for the Hooker Electrochemical Company of 25 Pine Street, New York. He writes that he has met and enjoyed brief reunions with a number of alumni in the Middle West.

Electricity Means Better Work

The Woodstock Electrite, newest member of the Woodstock family, has all the features that distinguish the standard Woodstock machine, plus the speed and ease of electrical operation. It is a revelation in typewriter efficiency and high grade character of work. Send for booklet which describes both the Electrite and the standard Woodstock machine.

3. Atmosphere of Work

Probably the greatest advantage our preparatory students have over others is best described as an atmosphere of work,—real work on a college basis. Given the right surroundings, an efficient opportunity and a specific incentive our students work, and work hard; and note too: Practically all our students tell they "did not know what work was" until they entered our school.

Next week:

4. The greatest Hurdle,—and why college students "bust."

**Another
New
Book
by
Bailey**

THE GARDENER

THIS is the present day way of having a garden. The book is a revision of the old Bailey and Hann book. The Garden varieties are arranged alphabetically for ready reference. The book includes flowers and shrubs. Mr. Bailey aims to cover in this book only the growing and care of plants. *The price is \$2.00.*

Cross Section Paper

There are quite a few who should know more about cross section papers and especially those made by the Co-op. When some of the largest manufacturing concerns buy of the Co-op because of the accuracy of the plates you should write for a sample book. Drop us a line saying that you want the sample book.

Songbook

Are you coming back this June? How long since you have done any singing? You'll need a songbook if you would sing as well as the rest. \$1.75 includes the postage on a copy of the Cornell Songbook.
