1944

Years ago motor and generator brushes had copper strips or wire bristles to conduct electricity from stationary to rotating parts—that's how they got their name. Carbon is now the material for all sizes of these brushes.

THEY HELP BRING THE GIANTS HOME

ONE OF the "little things" that are contributing greatly to the safety and welfare of our fighting men, is a special kind of carbon brush used in high-altitude planes. These brushes are essential to the generators and motors that supply energy for the radios, firing apparatus, gun turrets, bomb bay doors, landing gear, and other equipment of the planes. A heavy bomber has more than 40 of these devices requiring brushes.

Ordinary brushes disintegrate in a few minutes at altitudes where the air is "thin" and dry. A brush that would be dependable from take-off to ceiling and would have a life of 100 hours or more—had to be found. It came from the laboratories of NATIONAL CARBON COMPANY, INC., a Unit of UCC.

Carbon is useful in many other ways to Americans at war. Therapeutic lamps, which employ the carbon arc, are helping to restore health to sick and wounded men. Activated carbon in gas masks, by absorbing toxic vapors, is ready to save lives.

In the two-way radio telephone—the walkie-talkie and the handy-talkie—and in hearing aids for the deafened, carbon has another role. Carbon is essential in the small, powerful batteries that are used in these devices.

Teachers, designers, and operators of electric motors, generators, and rotary converters are invited to send for "Modern Pyramids" P-6. This is a series of pamphlets containing practical suggestions on the performance, characteristics, operation, and application of electric motor brushes. There is no obligation.

CAMP OTTER

A Boys' Camp
in the Canadian Woods

Boys' camps, like schools and colleges, in the course of time develop an individual character, tone, and traditions of their own. Camp Otter located on its own private lake in the Muskoka Region of Canada in its 34th year of continuous growth has achieved the identity of a rugged, wholesome, active camp that boys thoroughly enjoy and parents trust.

A Cornell Institution

Years ago, boys who went to Camp Otter passed on to the University and were active in athletics and other Cornell activities. Now many of these dads are sending their own sons to Camp Otter and go on to enter Cornell.

Camp Otter Is Fun

In an unusual primitive setting in an unspoiled lake region, boys at Camp Otter have many wholesome thrills. Their parents see marked improvement in attitude, disposition, and many other personality traits.

With a heavy early-season enrollment there are just a few vacancies. Write immediately for Camp Booklet.

Praised Across the Country!

Cornell University: Founders and the Founding

By
Carl Becker

"A few universities have been fortunate enough to have their histories written by distinguished historians who, as literary stylists, are genuine artists. Cornell is the latest addition to this select group."

"The twenty pages of the first lecture give a better picture, evaluation, and interpretation of the old traditional college and of the educational renaissance in which Cornell was an impressive leader than the reader will find in poring over dozens of volumes and thousands of pages."—*Mississippi Valley Historical Review*

"Cornell University is of particular interest to western Americans, not only because of its modern attainments and distinction and because it is of an age with the University of California, but also because it was the chief beneficiary of the Morrill Act of 1862 and thereby became the most favored land grant college."

"Professor Becker has had no qualms about throwing in commentative asides that are humorous, bantering, philosophical, or shrewdly skeptical, and where ordinary speech seemed inadequate or flat he has unhesitatingly enriched it with slang."—*Pacific Historical Review*

"The author's thorough investigation has brought to light new and valuable material on the history of Cornell. But perhaps the greatest merit of the book lies in the penetrating judgment with which events and persons are appraised. The review of the Morrill Act and the New York land grant and the characterizations of Ezra Cornell and Andrew D. White command unqualified admiration."

"It was a happy thought to include in the volume the address 'The Cornell Tradition: Freedom and Responsibility,' which Professor Becker delivered on the seventy-fifth anniversary of the signing of the charter. This is not merely an account of the Cornell heritage but a brilliant justification of free inquiry."—*American Historical Review*

Prop'r

THERE was something homespun and satisfying about that quaint word, "Prop'r." Appearing on letterheads and signboards, it was more than an identification of management. It was a symbol of individual pride, independence, hard-earned experience and authority without benefit of bureaucracy.

When "Prop'r." was supplanted by "Inc." the change simply meant multiple proprietors, as well as more horsepower, more workers, more salesmen, more products, more research, faster progress. It has been too easy to forget that our American corporations, no matter how large, are still indi-

vidual proprietary interests, systematically combined.

The proprietary instinct in man is so deep-rooted, so intertwined with concepts of justice, liberty and happiness, that to suppress or diminish it in the slightest is to handicap human nature and retard progress.

The energy and know-how that can best provide the houses, clothing, food, medicine, and all the facilities and comforts of living for mankind do not come from state ownership. They come from personal initiative and independence which, as plain facts of history, have been the great obstacles to tyranny and dictatorship.

Post-War Education Symposium Continues

By Dean Gilmore D. Clarke '13
Architecture

THAT the impact of this long period of conflict will result in manifold changes in certain areas of the Nation's post-war activity, due largely to stimulated technological developments, there is little doubt. These changes will be reflected in the practice of architecture, and hence, the professional schools must prepare to review their programs of instruction in order to make whatever adjustments in their curricula that seem necessary.

Experience indicates that the successful architect must encompass a broader field than the mastery of those skills which make him technically competent; he must have a broad cultural training, at once a mark of distinction. Whether or not the graduates in Architecture at Cornell are familiar with the latest developments in plastics, the last work in extruded metals, or the best method of designing prefabricated houses, matters little. The background gained through a sound training in the fundamentals afforded by a broad education is most likely to produce, later in life, the impetus for sustained creative work in architecture.

Cultural Subjects Important

Therefore, in training the architect, I believe that we should pay even greater attention than heretofore to cultural subjects. Students should be encouraged to delve deeply into the great storehouse of knowledge of the philosophy, the literature, and the art of past ages. Inasmuch as the greatest architects of this and of past generations in this country were thoroughly schooled in classic disciplines, it would seem wise to adhere to the principle that, while studies related to the science and the art of building are vital, those subjects which aid the student to acquire a broad fund of knowledge in the area of the humanities are of equal importance. It is for this reason that at Cornell we shall adhere to the principle that ten sixteen-week terms of college work con-

stitute the minimum period for training. It may be decided, however, that these ten terms be given within a period of four years, including two summers to be devoted almost exclusively to architectural design, rather than within a period of five years, as has obtained until recently. Since last July 1 and for the duration of the war, the curriculum has been shortened from ten to eight terms, with three sixteen-week terms each year.

While the most important activity of this College is the training of architects, there are several other areas of study open to students.

Broaden Landscape Training

The profession of landscape architecture has been broadened during the last two decades, due largely to the increase in the number of important public works. As a result, the landscape architect must be equipped as a designer of parks, parkways, and thoroughways, and as site planner on housing, manufacturing, and other projects, in addition to the more normal fields of practice. This increased responsibility means, we believe, that he should be trained first in one of the two basic but closely related professions of architecture or civil engineering.

This College, long a leading school in training landscape architects, has adopted a program of instruction based upon the principles that (a) students of landscape architecture shall be graduates of schools of architecture or civil engineering; and that (b) it is desirable that the curricula in these schools shall be so arranged that courses of study in landscape architecture may be filtered throughout the basic field of study of either architecture or engineering. It is now possible for students who wish to study landscape architecture at Cornell to combine this study with architecture so that they may receive the degree of Bachelor of Architecture after ten terms in the College (eight terms at present), and the degree of

Education

HOW well new teachers going out now to begin their careers in wartime make the adjustment to the requirements of peace will surely depend upon the nature and quality of their preparation for teaching.

The preparation of teachers at Cornell rests solidly on the belief that something to teach, i.e., a thorough knowledge of a field of subject-matter, is one of the essential qualifications of a teacher. Since the knowledge required of the teacher is no longer restricted to the narrow range of a single subject, fields of preparation have been organized that are both extensive and intensive in their coverage. For example, a student may major in History, but he is expected to carry substantial work in Economics, Sociology, and Government as well. Similarly, the prospective teacher of science is expected to have a working knowledge of biology, the physical sciences, and the earth sciences, and is urged to prepare also in mathematics. From their inception, the programs in home economics and vocational agriculture have involved fields of study rather than concentration on a single subject. Such a foundation permits the teacher to select the materials of instruction to meet the requirements of changing times, or even the more radical shift of emphasis to satisfy the demands of war or peace.

Teachers Get General Education

Supporting this phase of the training in the underclass years is a more general type of education which varies from college to college but which includes for all teachers a

Dean Clarke is on leave this year from the College of Architecture, to carry on his practice as an engineer and landscape architect in New York City and his duties as chairman of the National Commission of Fine Arts. Professor A. Duncan Seymour is in charge at the College, and Dean Clarke spends a day or more each month in Ithaca.

Professor Hulse is chairman of the five-year program for preparing secondary school teachers which was inaugurated in the School of Education in February, 1938.

course in social science and a course in oral and written expression. In social science, the student is given the opportunity to make a rather complete survey of society, to study the interrelationships of economics, government, and sociology, to take note of the stresses and strains in this society, and to reach tentative conclusions as to desirable directions in which we must go if the full implications of our democratic ideal are to be attained. Training in oral and written expression attempts to give some competence in the fundamental forms of communication upon which the teacher is greatly dependent for success.

Fully as essential as a fine academic training is the professional part of the teacher's preparation. These parts should not be too sharply separated. To this end, the professional preparation parallels the academic work. In the Sophomore year, the attention of the prospective teacher is directed to the child and adolescent in a course on Human Growth and Development. Here the student looks at the child in somewhat the same way that he has viewed society. The physiological, biological, intellectual, and social components of growth and development are traced from early childhood to later adolescence; and the stresses and strains in the individual, manifested in behavior, are analyzed in the

light of these characteristics of growth. Thus, early in the program the prospective teacher is faced with the consideration of what to teach, the needs of the individual to be taught, and the requirements of society.

At the next stage in the professional program, the sequence begun with growth and development is carried forward in the consideration of the special problems relating to the learning-teaching process. The sequence begun with the study of society proceeds with a rather careful analysis of the nature of the secondary school and its educational function in a democratic society.

Considerable importance is attached to the fact that through the first three years of the program, prospective teachers of academic subjects, home-making, and vocational agriculture are kept together in the professional courses and the basic general education courses. By this device, a common understanding of the function of education, of the mutual responsibility for the success of the enterprise, and some practice in cooperating to this end is attained. It is hoped that the attention which in the past has been centered frequently on special materials of instruction will be shifted in some degree to correlating instructional effort in the interest of the pupil's total needs.

To alleviate the theoretical nature

of course work in the early years, frequent observation of children is encouraged and records are kept of work with children's organizations, summer camp work, and similar experiences. For the same purpose, opportunity is provided in September preceding the Junior year to observe and assist in the student's local high school for two to three weeks.

In the Senior year, programs are differentiated somewhat for the several groups of prospective teachers, though the purpose of acquiring a high degree of teaching competence through first-hand experience in the public schools is common to all. For the teachers of vocational agriculture and home economics, assignment is made to rural central schools in nearby villages, though preliminary experience may be had in the Ithaca schools. Academic teachers are assigned to classes in the local schools. Throughout the year, the study of methods and curriculum, participation, and responsible teaching are closely correlated. Home economics teachers live for eight weeks in the center in which they are teaching, thereby permitting a careful study of the community, use of community resources, and selection of materials and activities most appropriate to the needs of the community. General meetings of the several groups are arranged for the study and discussion of problems of common interest.

Five years of preparation are now required by the State for teachers of academic subjects. In the fifth year, the student devotes one-third of his time to further professional training and two-thirds to advanced study in his teaching field. The professional training consists largely of apprentice teaching. For this activity, the student is sent off the Campus for eight weeks under conditions similar to those he is likely to encounter in his first teaching position. Apprentice teaching provides the student teacher with the opportunity to participate in all school activities and selected community activities, to study the school in its community setting, and to gain additional experience in adapting his teaching to the realities of his pupils' immediate environment.

Hospitals Celebrate

NEW YORK Hospital, quartered with the Medical College in New York City since 1932, observed its 173d anniversary with a reception and tea, May 16. The Hospital was chartered by King George III in 1771. Since June, 1927, the New York Hospital—Cornell Medical College Association has coordinated the work

CORNELLIANS IN ITALY

Captain Herbert Ernest '41 (left), who commands a Quartermaster Bakery Company at the front, sends this picture taken "around the beginning of the year when Margaret Bourke-White '27 (right) spent four hours with me at my tent bakery above the Volturno. We have since seen service in the vicinity of Cassino and have had some interesting times. We're approaching the 10,000,000-pound production mark and were recently cited by General Clark for meritorious service under difficult conditions." Ernest is a graduate of Hotel Administration.

of the two institutions in care of patients and in medical education and research.

During May, also, Memorial Hospital with which the Medical College became affiliated in 1914, celebrated its sixtieth anniversary. Originally the New York Cancer Hospital, the cornerstone of its first building was laid May 17, 1884. Dr. James Ewing, for many years a member of the Medical College Faculty and who died last year, became president of Memorial Hospital medical board in 1916 and director of the Hospital in 1932. He toured Europe with Dr. James Douglas soon after the discovery of radium, to study its application in controlling cancer, and was instrumental in making Memorial Hospital an international center of cancer education, research, and treatment.

Choose Textbook

AMERICAN Institute of Graphic Arts selected *The Mammals of Eastern United States*, by Professor William J. Hamilton, Jr. '26, Zoology (now a captain in the Army), published last year by the Comstock Publishing Co., to be included in its sixth annual textbook exhibition, May 22-27, at the Institute's galleries in New York City.

Purpose of the exhibition was "to show textbooks of the highest artistic and technical excellence, selected on the basis of physical attractiveness, suitability to teaching purposes, and the success with which the designer has solved the various problems imposed."

Engineering Catalog

COLLEGE of Engineering Announcement for 1944-45 has just been published. It contains information for civilian students who may wish to enter the College, about the courses and requirements of the four Schools, Civil Engineering, Mechanical Engineering, Electrical Engineering, and Chemical Engineering, and the course in Administrative Engineering. The College operates throughout the year, with three terms of sixteen weeks, enabling students to complete the normal four-year course for a degree in two and two-thirds years. Next registration of new students will be June 30, and registration for the fall term is October 31.

The Engineering College Announcement, together with the General Information Number for 1944-45 which gives further information for entering students, may be obtained from the Secretary of the University, Morrill Hall, Ithaca.

June 1, 1944

Becker Sees Collectivism Increasing Here

TREND toward greater degree of government regulation of economic enterprise cannot be reversed, in the opinion of Professor Carl Becker, History, Emeritus, whose lecture on "What is Collectivism?" attracted a capacity audience to the Olin Hall auditorium, May 10.

Americans had better make social democracy work, the speaker said, or "drift into something we like even less: not communism or socialism but fascism." Collectivism in one of these four forms, he said, has appeared in every country with the growth of industrialism in the last 100 years. Although most persons protest that they do not want any of these forms, America, he said, already has a good deal of collectivism and will have more.

"The danger is not that we will get the New Deal back, but that we will not have anything even as good as the New Deal. We don't want fascism or communism, and I don't think we want socialism. We want to retain private property, initiative, and as much free economic enterprise as possible." The speaker called those who think no government regulation is necessary "foolish," and pointed out that the New Deal is merely an expansion of the trend going on here since 1870.

Fascism Insidious

"Although we are fighting a war to suppress fascism, although we are allied with communism which never won a victory outside of Russia, and although we are told that fascism is our greatest danger, we are more afraid of communism than of fascism," Professor Becker said. He ascribed this to two things: communism advocates the abolition of private property, and communism or Bolshevism has for fifty years been a symbol of everything un-American, foreign, and dangerous, whereas fascism is a new thing.

"Fascism is flexible and adaptable; that's why it is so insidious, more dangerous than communism and a more complete denial of truth, justice, and humanity," he said. Its ideas need no propaganda where economic insecurity, class conflict, and distrust of leadership prevails. Given this situation here, in combination with "the half-hidden, grim conviction of Americans that injustice and confusion are not to be taken lying down," a leader could arise with the dynamic personality of a Theodore Roosevelt, the silver

tongue of a Bryan, and the political resourcefulness of a Huey Long, to establish fascism in America. "In whatever form, it would always be known as 'the American way,'" the speaker noted.

The liberal democracy of the late eighteenth and early nineteenth century began its trend toward social democracy in England in the 1830s, when the first English factory laws were passed on the assumption that it was the government's duty to restrain, restrict, and regulate free economic enterprise, and to assist the less fortunate members of society if necessary at the expense of the more fortunate. These laws, he said, improved matters by regulating the employment of children and limiting their working hours, and started a trend which continued toward the goal of social as well as political democracy.

Professor Becker reviewed the doctrines of Marx, and showed how their adherents split into the radical group of communists advocating revolution and the conservative group of socialists who believe that industries, utilities, and land can be nationalized by orderly democratic procedures.

Contrasting communism and fascism, both suppressors of freedom and one-man dictatorships in Russia and Germany, the speaker noted that communism is in theory democratic, international, pro-intellectual, favors free search for truth, and a temporary dictatorship. While Russian communism and social democracy in practice have not achieved their ideal aims, fascist practice does correspond to its ideal aims which are brutal and degrading, Professor Becker pointed out.

The speaker read occasional passages from his recently published book, *How New Will the Better World Be?*

His lecture was the second in a Campus forum series arranged by *The Cornell Bulletin*. The first of the series was by Professor Robert E. Cushman, Government, February 13 on "The Soldier's Vote."

Summer Session July 3

SUMMER Session of the University this year begins July 3 and ends August 11. Courses will be offered to meet the needs of teachers who wish to continue their professional education, graduate students who are candidates for advanced degrees, under-

graduates of Cornell and other universities, and other persons who wish to study during six weeks of summer. They range from one-week unit courses to those of the entire six-week Summer Session.

Announcement of the Summer Session and complete information as to admission, program, costs, and facilities may be obtained from Professor Loren C. Petry, Director of the Summer Session, Cornell University, Ithaca.

Jersey Engineers Elect

CORNELL Society of Engineers' North Jersey section, met May 12 at the Downtown Club in Newark, N. J., and elected Carleton Reynell '07, chairman. Herbert S. Austin '07, a consultant on American overseas oil projects, spoke on the construction of the Iraq pipe line, for which he was chief engineer.

Chicago Women

CORNELL Women's Club of Chicago, Ill., meeting May 13 for luncheon, elected Melita H. Skillen '11, president for two years, succeeding Mrs. Frederick W. Merrifield (Katharine Brooks) '24. Mrs. Alvin H. Eicholz (Rhoda Linville) '32 was re-elected secretary-treasurer.

Guest of honor at the meeting was Pauline J. Schmid '25, Assistant Alumni Secretary, who brought news of the University. Plans were discussed for entertaining undergraduates and recent graduates in the Chicago area, and for honoring Ruth I. Stone '10, who retires from Western Electric Co. next fall.

Time Was . . .

Twenty-five Years Ago

June, 1919—Historical exhibition in the University Library, to include over 1,000 photographs and other material illustrating life on the Campus during the past half century, will be a feature of the Semi-Centennial Celebration, June 20-23.

Captain Kenneth Roberts '08, Military Intelligence, has returned from several months' service with the AEF in Siberia, and is now at his home in Kennebunk, Me. . . . Second Lieutenant Birge W. Kinne '16, Field Artillery, having seen action at Ypres and Saint Mihiel, served five months with the Army of Occupation and is about to be discharged from special duty in Paris with the Allied Armies YMCA Council, General Staff.

Professor Clarence A. Martin '88, Architecture, has resigned after fifteen years as Dean of the College of Architecture, to devote his time to teaching and writing. . . . Varsity track team wins the ICAAAA championship and the fourth of the required five legs on its second trophy.

Fifteen Years Ago

June, 1929—New University radio station, WEAI, is expected to begin operations this summer; two 165-foot transmitting towers have been erected on Kline Road, east of the Country Club golf course.

Herbert W. Briggs, of Oberlin College, becomes assistant professor of Government . . . Five members of the Faculty will retire at the end of

this term: Professor Veranus A. Moore '87, Veterinary Pathology and Bacteriology, 1896-1929, and Dean of the Veterinary College since 1908; Willard Anustin '91, University Librarian 1915-29; Professor George R. McDermott, Naval Architecture 1892-1929; Professor Anette J. Warner, Home Economics 1913-29; and Professor Herbert J. Davenport, Economics 1916-29.

Fire swept through the upper section of the Alpha Epsilon Pi fraternity house on Cascadilla Park, June 3; damage, several thousand dollars; no injuries. Town and Gown Club, just east of the conflagration, was well soaked down and thus saved.

Post-War Education

(Continued from page 449)

Master of Landscape Architecture after two additional terms in the Graduate School.

The Department of Regional and City Planning, established in 1934, offers a variety of courses of study. Instruction in this area aims to emphasize the necessity for and the importance of the rehabilitation of our municipalities and the areas about them, and to develop in students a sound knowledge of the principles of planning, so that in due course they may bring influence in favor of wholesome, convenient, and beautiful surroundings in lieu of the disorder that characterizes most communities today. We do not recognize city and regional planning as a separate profession, but rather as a field of activity in which the members of many professions participate, including those of architecture, landscape architecture, engineering, law, and medicine. Members of the staff in City and Regional Planning advocate a direct approach to this subject, to the end that students may be impressed with the importance of establishing in this field a vigorous and an active policy based upon a sound economy.

The Graduate School offers the degree of Master in Regional Planning to those graduates of Cornell and of other universities and colleges who have majored in any one of the many fields of endeavor directly related to the planning of cities and the regions about them.

Architecture, landscape architecture, and civil engineering are the basic professions normally engaged in the physical planning of land areas for human use. The members of these professions are the physical planners and designers of our cities and of the regions around and between them. Representatives of these professional

"SKUNK HOLLOW" SPRING DAY CARNIVAL

Spring Day crowd of co-eds, visitors, Army and Navy men flocked to Kite Hill back of the Crescent from the review on adjoining Alumni Field. Here they found almost the usual array of sideshows, games of chance, and raucous barkers, this year managed by a Student Council committee of three women and four men, headed by Apprentice Seaman William D. Shepard '45, USNR.

groups are thus qualified to make specific contributions in the broad field of physical planning; in collaboration, they are best equipped to lead in this vital post-war endeavor. The coordination of study in these three areas with related study in the technical field of regional and city planning as well as in other closely related areas such as government, geography, sociology, and economics makes Cornell a leader in the study of city and regional planning problems.

Space does not permit discussion of the work of the Department of Fine Arts, including teacher training in art. These branches of study in the College of Architecture have been developed in cooperation with the Department of Fine Arts of the College of Arts and Sciences and the School of Education, respectively. I hope later to present briefly our ideas and aspirations in this important area of study.

Cornell Engineer

IN The Cornell Engineer for May, George E. Cassidy '17 writes on "Power-Recovery System of Testing Aircraft Engines." Since 1940, when the first installation was made of the system which he developed, Cassidy has been engineer of the general applications section, industrial engineering department, at General Electric Co. in Schenectady. His method provides for testing engines under load conditions.

John R. Borst '41, research engineer in the pigments department of E. I. du Pont de Nemours & Co., Newark, N. J., writes on "Zinc Yellow: The Modern Metal Protective Pigment," and describes its many uses.

Faculty Plans Ahead

FOR POST-WAR CONDITIONS

UNIVERSITY Faculty at its May meeting approved recommendations of the committee on University policy to meet conditions in student relations affected by the war.

A Dean of Students was recommended, "to coordinate the University counselling services and to cooperate with all units of University organization in matters affecting student welfare."

The committee predicted that while enrollment of students may decline in the period immediately ahead, with probable decreases in the Army and Navy programs, an increasing number of students discharged from war service is expected. At the close of the war, greatly enlarged demand for admission is possible, so that size of enrollment may be a problem. Students returning from service, the committee pointed out, will differ from those newly entering in age, time they can give to completing their education, preparation, perhaps in their need of medical care, and probably in their need of friendly aid in adjusting themselves to college life.

It was agreed that students returning from war service, of whom some are already at the University, should be received into the established Colleges, no separate divisions being set up for them. A temporary director of education for ex-service personnel was recommended, his duty "to coordinate educational and Campus activities for these students, and to represent the University in dealing with governmental agencies aiding the students."

Provision of additional housing for students was declared a most urgent need, and designation of a committee to study it further was recommended. Another committee was proposed to deal with questions of enrollment, limitations, and allocations of student quotas in Colleges, if needed. The Faculty agreed that the University should meet the needs, whenever and wherever possible, of war veterans who are not candidates for degrees, and urged that the projected School of Business and Public Administration be organized as soon as possible.

Dr. Cornelius Betten, PhD '06, Dean of the University Faculty, is chairman of the committee on University policy; its other members, Professors Richard Bradfield, Agronomy; G. Watts Cunningham, PhD '08, Dean of the Graduate School; R. Clifton Gibbs '06, Physics; Forrest E. Hill, PhD '30, Agricultural Economics; Lewis Knudson, PhD '11, Botany; Paul J. Kruse, Rural Education; Fred H. Rhodes, PhD '14, Chemical Engineering; and George J. Thompson, Law.

Stimson Professorship

BEQUEST of one-third the residuary estate of the late Candace C. Stimson, sister of Secretary of War Henry L. Stimson, was left to the University to establish the Lewis Atterbury Stimson Professorship of Surgery, named for her father. Dr. Lewis A. Stimson, was professor of Surgery at the Medical College in New York from its opening in 1898 until his death in 1917. Stimson Hall in Ithaca was named for him.

HIGH ARMY AND NAVY OFFICERS REVIEW UNIVERSITY'S MILITARY UNITS ON ALUMNI FIELD

Approximately 4,200 uniformed men of the Naval Training School, Army and Navy training programs, and the ROTC passed in review, with an Army band and a Navy band, in a colorful ceremony Spring Day morning, May 20. Members of the reviewing party (front row, left to right) were Major General Thomas A. Terry, USA, commanding the Second Service Command; Vice Admiral Randall Jacobs, USN, head of the Bureau of Naval Personnel, Navy Department; President Edmund E. Day; Colonel Edwin R. Van Deusen, USA, commanding the military units at the University; Captain Burton W. Chippendale, USN, Navy commanding officer; Captain J. Richards, USN, Director of Training, Third Naval District; Colonel J. B. Grier, USA, training officer in charge of the ASTP, Second Service Command; Captain Arthur S. Adams, USN (Ret.), officer in charge, administrative section, training division, Bureau of Naval Personnel, and recently elected Provost of the University.

Slants on Sports

By *Bill Haters* '27

INFORMAL championship of those few Eastern colleges still rowing was settled on Spring Day, May 20, on Cayuga Lake under near-perfect conditions, the like of which has not been seen in some years. The championship went to the US Naval Academy, victor over MIT, Cornell, and Columbia on the two-mile Cayuga course, as it had been victor over the same Varsity eights in a mile and three-quarters race on the Severn River at Annapolis the week before.

Thus ended Spring Day in the early evening before a good crowd liberally sprinkled with uniforms. Despite pessimistic predictions by a Buffalo prognosticator, the day turned out ideal rowing weather, if not success for Cornell crews.

Likewise on Spring Day: The lacrosse team turned in the day's only victory, a 13-2 triumph over Penn State on lower Alumni Field; the baseball team dropped an Eastern Intercollegiate League doubleheader to Dartmouth, 8-1 and 11-3, on Hoy Field; the track team placed well—fifth—in the Intercollegiates at Franklin Field, Philadelphia; the tennis team bowed to Columbia, 7-2, in New York City; and the golf team placed fifth in the Intercollegiates at Princeton.

Crews Finish Season

SPRING Day regatta opened with the Junior Varsity race of two miles, the Naval Academy the victor in 10:47. The water was just a bit choppy as Referee Ned Ten Eyck, rowing coach at Syracuse, sent the shells away. Cornell jumped into a lead it held for a half-mile until the Academy and Columbia boats challenged. The Academy shell crept into the lead and built up a length's advantage. Cornell tried to close the gap in the stretch, but could not. The Naval Academy won by a length, with Cornell second and two lengths ahead of Columbia. MIT trailed. On the Severn the week before, the Academy eight also won the Junior Varsity race, with MIT second and Cornell third. Columbia failed to finish when an oarsman collapsed.

The Lake smoothed out before Referee Ten Eyck sent the Varsity boats away. The Academy, rowing without its captain and No. 2 oar, who had been taken ill on the trip to Ithaca, held to a steady, powerful beat of thirty strokes a minute. Navy stayed in front all the way, fighting off one stiff challenge by Cornell and MIT with a half-mile to go. MIT finished a length behind the Midshipmen and two lengths ahead of Cornell. Columbia was fourth, another two lengths behind. This duplicated the finish of the Varsity race on the Severn.

At Annapolis, William B. Richardson, USNR, stroked the Varsity. A week earlier, on May 6, he had paced the Junior Varsity in the "no contest" race on the Harlem River, New York City. But for the Cayuga Lake con-

test, Captain Pedro C. Towers '45 returned to the Varsity stroke oar.

In the Varsity boat for its Spring Day appearance, its last of the season, were: Bow, Wheelock Bigelow; 2, Edwin C. Paul; 3, William Rothfuss; 4, Lon Israel; 5, Roy E. Hughes; 6, Eugene L. Wolfe; 7, Charles Von Wrangell '46; stroke, Towers; coxswain, Walter H. Wells. All but Towers and Von Wrangell are in the Naval Reserve.

Chief judge of the regatta was Professor Emeritus Charles L. Durham '99, Latin, assisted by Lieutenant Walter E. Benson, USNR, in command of Naval Aviation cadets at Cornell, and representatives of the visiting crews.

Lacrosse Wins, Loses

LACROSSE team's 13-2 victory over Penn State was its second of the season. W. Brooks Tunstall, USNR, first attack, scored five goals; George A. P. Wallace '47, Lawrence M. Ricketts, USNR, and Edward J. Best, USNR, each netting two.

On Alumni Field the week before, Cornell bowed to the US Military Academy, 7-9, in a game that attracted one of the larger crowds of several seasons. The game was unusually well played.

Cornell's lighter players scored twice early in the second period to achieve a 2-0 lead, but the Academy players tied the score and went ahead in the third quarter, 4-3. Both teams really found the net in the fourth and final period, with nine goals scored, five by the Academy. Despite rain, the crowd stayed to the end of the free-scoring contest.

Tunstall was the top scorer for Cornell, with three goals.

Dartmouth Wins Two

BASEBALL team's debut in League play was dismal. Cornell's only veteran pitcher, Edwin L. Bell '44, started the first game. When the first inning ended, Dartmouth had five runs, four hits, and two bases on balls. Bell never recovered and was batted from the box in the fifth inning when Dartmouth scored its other three runs.

Cornell's run in the first game was scored by William R. McKinley, US MCR, who cracked a triple to left-center and came home on a grounder hit by Charles P. Weiss '44. Cornell collected only three hits off Meurn, the Dartmouth pitcher.

The second game was a long series of bases on balls and stolen bases for Dartmouth, generously larded with ten hits off the combined offerings of five Cornell pitchers. Bell was called back in the fifth inning to finish the game.

Cornell scored two runs on a double by Frank L. Kuehm, USNR, the starting pitcher, and singles by Charles E. Sweeney, USNR, Norman Dawson, Jr. '46, and McKinley. Sweeney's triple and Dawson's grounder accounted for the third run.

Dartmouth's two victories put it at the top of the League with four wins

Scores of the Teams

Baseball

Cornell-Colgate, rain
Dartmouth 8, Cornell 1 (first game, seven innings)
Dartmouth 11, Cornell 3 (second game, seven innings)

Rowing

US Naval Academy Varsity, MIT, Cornell, Columbia, at Annapolis
US Naval Academy Varsity, MIT, Cornell, Columbia, at Ithaca
US Naval Academy Junior Varsity, MIT, Cornell, at Annapolis
US Naval Academy Junior Varsity, Cornell, Columbia, MIT, at Ithaca

Track

US Military Academy 105½, Cornell 41½, Colgate 18

Lacrosse

US Military Academy 9, Cornell 7
Cornell 13, Penn State 2

Tennis

Cornell-Colgate, rain
Columbia 7, Cornell 2

and no losses. Columbia was second and Princeton third, with Cornell and Pennsylvania each without a victory in two starts. At that stage, Cornell was second to Dartmouth in team batting and in the cellar in team fielding.

Fifth in Intercollegiates

TRACK team made a good showing at Franklin Field as the US Naval Academy scored a record of 81 points to annex the ICAAAA championship for the first time. The Military Academy was second with 35½ points. Other scores: Dartmouth, 26½; NYU, the defending champion, 17; Cornell, 12; Colgate and North Carolina, 11; Columbia and Rhode Island State, 8; Princeton, 6; Holy Cross, Penn State, and Boston College 5; Virginia, 3; Pennsylvania and Tufts, 2; Rochester and MIT 2.

Ferdinand Wascoe, USNR, was second in the javelin throw, James M. Hartshorne and Richard Stouffer tied for second in the high jump, Hartshorne was fourth in the broad jump, and Robert M. Brown '45 was fifth in the mile run.

The Intercollegiates came a week after the Military Academy outclassed Cornell and Colgate in a triangular meet on Schoellkopf Field. The Cadets scored 105½ points, Cornell 41¼, and Colgate 18.

Cornell's only first places were scored by Wascoe in the javelin and Stouffer in the high jump. Double victories were achieved by Minor of the Academy in the sprints, Luciano of Colgate in the 880-yard and one-mile runs, and Ekberg of the Academy in the shot put and discus throw.

Tennis Team Loses

TENNIS team has yet to win an Eastern Intercollegiate Tennis Association match and occupies the League cellar with Pennsylvania.

In New York City against Columbia, Cornell won one singles match when David Potter '47 defeated Zucher, 6-3, 6-3. In doubles, John V. Smith '46 and John P. Gnaedinger '47 defeated Garanfis and Nelson, 7-5, 6-2.

The Naval Academy topped the circuit with victories in its first three matches.

Spring Football Ends

CLIMAXING spring football practice, the Varsity lost, 7-14, on Schoellkopf Field, May 12, to a team of US Military Academy preparatory students assigned to the University. The game had the familiar trappings of college football. A good-sized crowd

was augmented by all Army personnel. The military marched with precision around the track and filed into the Crescent to the music of an Army band.

The USMAPs quickly demonstrated that they were rich in football material, if a trifle untutored. They gained almost at will against the Varsity but could not find a scoring weapon until the Varsity, surprisingly, had scored a touchdown on a fourth-down pass from Alex Drogin to Newton Garland, both of the Naval Reserve. The play covered thirty-four yards, and Drogin converted the point.

The Cornell touchdown came in the second period. The future Cadets scored twice in the final period, first on a twenty-yard pass from Hulen Stogner to Player-Coach Edward Smith. Smith put over the final touchdown from the three-yard line. John Ray converted both points. The USMAPs made fourteen first downs to Cornell's two.

Golfers Fifth

MAKING their debut, Cornell golfers placed fifth in a field of six six-man teams in the Intercollegiates at Princeton, with an aggregate of 1,087. The Military and Naval Academies tied for first with 993s, and the Cadets won the playoff and the title.

Best Cornell performance was 173 for thirty-six holes by James Kinney, USNR.

Dr. Henry E. Merriam '92, attending physician at the University Clinic and Infirmary the last three years and now retired after nearly fifty years of medical practice in Ithaca, passed his seventy-fifth birthday May 21 in Memorial Hospital where he has been ill for a month. He is reported to be improving in health.

Shells Start Motors

SHOTGUN shells, used instead of storage batteries to start airplane motors during testing, are now being manufactured by the Winchester Repeating Arms Co., New Haven, Conn., of which Alumni Trustee Thomas I. S. Boak '14 is works manager.

Storage batteries provide a continuous flow of electrical energy to operate an engine starter, Boak explains. The new shotgun shell delivers a single powerful charge to start the motor. In place of a percussion cap, exploded by a firing pin, the new cartridge is fired electrically by a fuse assembly located in the head of the shell. Four shell sizes are made.

Scientists Honored

NATIONAL Academy of Sciences at its annual meeting in Washington, D.C., elected Professors Leonard A. Maynard, PhD '15, Nutrition, and Hans A. Bethe, Physics, and George W. Beadle, PhD '30, and Barbara McClintock '23, among its twenty-five new scientist members. Professor Maynard is Director of the School of Nutrition and of the US Nutrition Laboratory at the University. Dr. Bethe is John Wendell Anderson Professor of Physics. Dr. Beadle is professor of biology at Stanford University. Dr. McClintock, geneticist at the Cold Spring Harbor station of the Carnegie Institution of Washington, received the BS in 1923, the AM in 1925, and the PhD in 1927. She is the fourth woman to be elected to Academy membership.

Others of the Faculty who are members of the National Academy are Professors John G. Kirkwood and Peter J. W. Debye, Chemistry; Liberty Hyde Bailey, Agriculture, Emeritus; Wilder D. Bancroft, Physical Chemistry, Emeritus; Rollins A. Emerson, Plant Breeding, Emeritus; and Ernest Merritt '86, Physics, Emeritus.

START OF VARSITY RACE IN SPRING DAY REGATTA

Roichel '46

Beginning the two-mile race along the east shore of Cayuga Lake near Estey's, the Cornell shell is nearest the camera; behind it, MIT, US Naval Academy, and Columbia.

Represents University

OFFICIAL delegate of Cornell University at the inauguration of Rabbi Samuel Belkin as president of Yeshiva and Yeshiva College in New York City, May 23, was Harold L. Bache '16. Senior partner of J. S. Bache & Co., New York brokerage firm, he is a vice-president of the Cornell Alumni Fund Council.

Alumnae Form Club

CORNELL Women's Club for Warren, Washington, and Saratoga Counties in Northern New York was organized with twelve charter members at a luncheon in Glens Falls, April 22. All alumnae who live in the three counties are invited to membership. The Club announces its program as supporting the Federation Scholarship Fund, working with secondary schools of the region, and disseminating information about the University.

Officers of the new Club are all residents of Glens Falls. The president is Mrs. Harold M. McMore (Lunetta Churchill) '30; secretary-treasurer, Genevieve E. Bazinet '25; and Mrs. George H. Wein (Minna Feigenbaum) '32 is chairman of membership and public relations. Mrs. Alfred E. Van Wirt (Grace McBride) '26 was temporary chairman for the organization meeting.

Faculty Promotions

EXECUTIVE committee of the University Board of Trustees, meeting May 13 in Morrill Hall, advanced twenty-one instructors to the rank of assistant professor and appointed Dr. John G. Moorhead of Westminster College as acting associate professor of Physics, starting July 1.

Promoted to assistant professors are Frederick J. Spry, MCE '29, Civil Engineering; Paul D. Ankrum and Stanley L. Schauss '29, Electrical Engineering; Walter L. Koch, Aeronautical Engineering; and John R. Young, MS in Eng '43, Engineering Materials; Norman D. Daly, Fine Arts; Harry A. MacDonald, PhD '43, Agronomy; Karl L. Smiley '38, Dairy Industry; Robert H. White-Stevens, Vegetable Crops; David B. Fales, MS '44, and John A. Lennox, Extension Service in Agriculture; Raymond Albrechtsen '30, Animal Husbandry, Extension; Lawrence B. Darrah, PhD '43, Farm Management, Extension; Ivan R. Bierly, PhD '43, Marketing, Extension; Ann M. Aikin, PhD '42, and Alice M. Johnson, Home Economics; Ruth E. Remsberg, PhD '38, and Therese Wood, Home Economics,

Extension; Melvin S. Hofstad, MS '41, Veterinary Pathology and Bacteriology; George F. Somers, PhD '42, Biochemistry; and John Einset '37, Pomology, Geneva Experiment Station.

Leaves of absence were extended, to June 30, 1945, for Professor Paul T. Homan, Economics, continuing his work with the War Production Board; Professor John G. B. Hutchins, Economics, to continue with the War Shipping Administration; and Professor Lincoln D. Kelsey, Extension Service, abroad with the Office of Foreign Relief and Rehabilitation. To December 31, 1944: Professor Martin P. Catherwood, PhD '30, Agricultural Economics, who is head of the State Department of Commerce at Albany; Professor Thomas N. Hurd, PhD '36, Land Economics, continuing as State farm manpower director; Professor H. Seymour Pringle '26, Agricultural Engineering, Extension, with the War Production Board in Washington, D. C.; Professor Merrill N. Knapp '35, Extension Service, with the Office of Foreign Relief and Rehabilitation; Professor P. Paul Kellogg '29, Ornithology, in charge of the Radar school for Western Electric; and Professor Ellis F. Wallihan, PhD '38, Forestry, working for Western Electric in the Hawaiian Islands.

Win Research Prize

VAUGHAN Research Award in Horticulture, in the field of Floriculture for 1943, has been won by Professor Lowell F. Randolph, PhD '21, Botany, and Leland G. Cox, PhD '42, Ornamental Horticulture, for their joint paper, "Factors Influencing the Germination of Iris Seed and the Relation of Inhibiting Substances to Embryo Dormancy." Donor of the \$500 awards is the late Leonard H. Vaughan '03, of Vaughan's Seed Stores, Chicago, Ill.

The Cornell scientists developed a new technique which has achieved 100 per cent germination of iris seed, and which enables breeders to get iris blooms from one to two years sooner than the normal three years. Dr. Cox has been testing plants for possible sources of natural rubber, and Professor Randolph has been on leave to do research in maize genetics at the California Institute of Technology, Pasadena, Cal.

The first Vaughan Award, for 1942, went to Oscar A. Lorenz, PhD '41, research assistant in Vegetable Crops 1937-41, and to Professor James E. Knott, PhD '26, Vegetable Crops Research 1929-40, now head of the truck crops division of the college of agriculture, University of California.

Poughkeepsie Women

EIGHTEEN members of the Mid-Hudson Cornell Women's Club, meeting for supper at the home of Mrs. Nathan Reifler (Martha Gold) '31 in Poughkeepsie, April 27, elected Mrs. Edward L. Plass (Louise Hamburger) '19 president of the Club, succeeding Mrs. Nye Hungerford (Eunice Jourdan) '34. Catherine F. Grant '41 was elected secretary.

New Albany Officers

CORNELL Club of Albany, meeting for luncheon May 18 at the University Club, elected Hugh W. Prytherch '25 president, succeeding Raymond A. Dewey '25. David B. Andrews '33 is vice-president; John W. Gatling '28, treasurer; Dr. Henry C. Weisheit '35, assistant treasurer; and Edward H. Leggett '10, secretary. New directors of the Club are Robert W. G. Vail '14, Chester B. Pond '27, and Prentice Cushing '05.

Guest speaker at the meeting was Professor Martin P. Catherwood, PhD '30, Agricultural Economics, on leave as head of the State Department of Commerce in Albany, who spoke on "Planning Post-War Business and Employment in New York State." The thirty-one members and guests present also heard Vail, who is New York State Librarian, outline the University's program for acquisition of historical papers.

'84 Novel Reunion

UNDAUNTED by war conditions which prevent a Sixty-year Reunion of the Class of '84 in Ithaca this June, Dr. Henry P. deForest, the indefatigable Class secretary, proposes a novel substitute.

To each of the twenty living members of his Class, Dr. deForest has sent a list of all their names, giving present addresses and for each the place and date of birth. He suggests that every member of the Class, at eight o'clock in the evening of each birthday, "remain by yourself alone in a room, focus your mind on your living Classmate and send him whatever greeting seems to you appropriate. . . . The Classmate whose birthday is thus being celebrated will, at the same time, attempt to receive and record such thoughts as may be sent to him through the circumambient ether."

Dr. deForest explains that he has been much impressed with the book, *Thoughts Through Space*, in which his friends, Sir Hubert Wilkins and Harold M. Sherman, report their success in communicating with each other in 1937 when Sir Hubert

headed a rescue mission to fly in search of a lost Russian polar expedition and projected his thoughts daily to Sherman in New York.

"If any one of you," Dr. deForest writes to his Classmates, "also in a receptive mood at eight o'clock on the evening of your own birthday, is able to receive and record 'Thoughts Through Space,' please let your Secretary know about it. The records will be preserved and ultimately we will have a Sixty-Year Reunion in which all of us will take a personal interest and which will be quite unique in the history of our Alma Mater."

Meter Records Light

GRAPHIC light meter, developed by Professor Kenneth Post, PhD '37, Floriculture, and Maurice W. Nixon '29, is installed above the Floriculture greenhouses to measure and record light intensity from earliest dawn to nightfall. Two photronic cells mounted in double-walled glass domes, measure light intensities from one-half to 10,000 foot-candles, and the records are used in research on growth of plants in twilight periods which are not measurable by ordinary weather instruments.

Light records of the last three years show that light intensity has been decreasing in Ithaca since 1941. The longest day recorded in this period was June 20, 1941, when the light meter registered 16 hours, 47 minutes. December 8, 1943, the shortest day, was 9 hours, 23 minutes. Brightest month was July, 1940, when a total of 2,636,799 foot-candle hours were recorded.

Sigma Xi Elects

CORNELL'S founding chapter of Sigma Xi, national honor society in science, initiated sixty new members May 19, including William R. Harry '36 and Martin Goland '40.

Four members of the Faculty were elected: Professors Oscar D. Anderson, PhD '29, Psychology; Faith Fenton and Marion Pfund, Home Economics; and Stewart Wolf, Medicine. Eight of the fifty-one graduate students elected are former undergraduates: George F. Carrier '39, Vincent W. Cochrane '39, James E. Dewey '39, Norman J. Bowman '41, Christian R. Sporck '42, Edward A. Miller '37, Richard N. Work '42, and Thomas H. Herring '43. Miller, Work, and Herring were elected associate members.

The society also elected officers for the coming year. Professor Otis F. Curtis, PhD '16, Botany, is the new president of Sigma Xi; Professors

Now in My Time!

By *Conyn Berry*

WHAT about these boy veterans when they come back to the University after this thing is over?

That other time, the veterans were thrown into the hopper along with the general run of raw material and were fed through the mill in the regular way. That was probably the best way to handle three-quarters of them. It again made civilians out of them with the same speed and efficiency shown by the non-coms a little while before in making soldiers out of students.

But it worked unspeakable cruelties with a small minority who, for a while at least, could not concentrate on the printed page, cried out in their sleep, and did unpredictable things when somebody slammed a door or dropped a book. They wouldn't tell you, but their roommates did.

Most of the professors were sympathetic with these boys, but there was another group who felt that the rehabilitation of neuroathenics was a job for Army medical experts and not for university teachers. These felt that the sooner we got rid of abnormal undergraduates, the sooner the University could get back to standardized production on a pre-war basis. It seemed to your reporter that busts, probations, warnings, and scoldings were being handed out pretty lavishly and with needless cruelty that first year. We are still mad about this.

Last week, the Faculty had a good talk in the hope of avoiding, this time, some of the mistakes that were made after that other war. They recognized the existence of an impending problem, which is going quite a long way toward the solution of the problem. They urged the appointment of "a temporary director of education for ex-service personnel to co-ordinate educational and Campus activities for these students."

That's just fine, for a start!

Now if Davy Hoy were still around to get in there and *be* it and

do it, the rest of us wouldn't have to bother our heads about the matter any more. Davy was a wonder at prodding the general run of students without babying them. He was equally proficient in detecting the special cases that needed special treatment: a kind word in one situation, the removal of a needless fear in another. Some boys need a kick in the pants; others, a dose of Epsom salts or a trip to New York. Davy knew which and when.

That's important knowledge for *somebody* in a college to have at any time. If you've got a man who possesses it, the best thing to do is clothe him with authority and turn him loose. If he doesn't do one other thing, he'll earn his keep by preventing some of these needless, heart-breaking, pathetic little suicides that pop up periodically in all large universities; are most apt to occur when nerves are out of kilter.

It would be too bad for a boy to come out of this thing with his self-respect, a permanent limp, and one or two comforting citations, only to do away with himself on his return to the Quadrangle because he busted a preml in Money, Credit and Banking and some instructor bawled him out for it on a day when his head hurt again and he'd just received the wrong kind of letter from home. That's an extreme case, of course, but it gives you a hint of what this new man's job is; or could be.

Off hand, you might say the new official was starting out handicapped by a terrible title: "Temporary Director of Education For Ex-Service Personnel." Universities are constantly thinking up silly names like that, but the students are as constantly correcting them, so in the long run no great harm is done, I suppose. If the new man turns out to be a good one, the students will quickly give him a title that means something. Tribune of the Plebes, perhaps! Or possibly Uncle Silas!

Peter J. W. Debye, Chemistry, and William H. Summerson '27, Biochemistry at the Medical College in New York City, are vice-presidents;

Professor Glenn W. Salisbury, PhD '34, Animal Husbandry, treasurer; and Professor Hazel Hauke, Home Economics, was re-elected secretary.

Printed at the Cayuga Press, Ithaca, N. Y.

June Commencement

AT request of the Student Council, Commencement has been set ahead to Sunday afternoon, June 25, instead of Monday, June 26, as tentatively scheduled. The Council pointed out that this would "reduce the time required for parents and friends of the graduates to witness the exercises, and more important, to utilize to the fullest extent the week's vacation that it is hoped will be granted to those in the armed services."

Sunday morning, the baccalaureate sermon will be preached in Sage Chapel by the Rev. Paul E. Scherer, pastor of the Holy Trinity Lutheran Church, New York City. Commencement ending the University's seventy-sixth year will be at 3:30 in Bailey Hall, with President Edmund E. Day addressing the graduates. It is estimated that approximately 350 first degrees will be conferred, and approximately seventy-five advanced degrees. Approximately sixty of those who will graduate are apprentice seamen in the Naval Reserve or privates in the Marine Corps Reserve. After graduation, they will be assigned to Naval Reserve midshipmen's schools and to Marine Corps officer candidate school. Most of the men graduating

now entered the University as members of the Class of '45 and have accelerated their academic schedules.

Student Council has appointed as chairmen of the Senior Week program William D. Knauss '45, USNR, of Poughkeepsie and A. Nancy L. Green '44 of LeRoy. Events begin Friday evening, June 23, with Senior women's singing in the Balch Halls court and a smoker for the men in Willard Straight Hall. Class Day exercises and Senior singing Saturday evening on the steps of Goldwin Smith Hall will be followed by the Senior Ball in Willard Straight Memorial Room.

There will be no Class Reunions in Ithaca this year, but the combined annual meetings of the Alumni Fund Council and Alumni Association will be Saturday morning, June 24, in Willard Straight Hall. Officers of the Alumni Fund Council for 1944-45 will be elected, President Day will give his usual year-end report to the alumni, vote will be taken on the proposed amendments to the Alumni Association by-laws, and results of the Alumni Trustee elections will be announced.

Auburn Women Meet

EIGHTEEN alumnae met May 22 at the home of Mrs. Thomas Tallman (Alice Hanlon) '26 in Auburn, to discuss a Cornell Women's Club of Cayuga County. Mary H. Gosline '17, acting chairman, introduced Pauline J. Schmid '25, Assistant Alumni Secretary, who answered questions about the organization of the new Club and described the Federation of Cornell Women's Clubs.

A picnic was planned for June 12, and officers of the new Club are to be elected later.

Phi Beta Kappa Elects

CORNELL chapter of Phi Beta Kappa, meeting May 12, elected to membership Staff Sergeant Stuart M. Brown, Jr. '37, now at Camp Bowie, Tex., eighteen members of the Class of '44, and eight Juniors. Sergeant Brown was a graduate assistant in Philosophy, received the PhD in May, 1942 and was instructor in Philosophy until he joined the Army last year.

Seniors elected are Saul B. Appel, New York City; Richard E. Colby, New York City; Mrs. Beatrice Sacks Corrsin, Pasadena, Cal.; John F. Cushman, Ithaca; Raymond D. Fear, Ithaca; Manuel Furer, Brooklyn; Carol Goldfarb, Brooklyn; Guinevere G. Griest, Chicago, Ill.; Thomas H. Herring, Nassau; Alan W. Kaplan,

Richmond Hill; Martin R. Lustgarten, Brooklyn; Marylee Myers, Ithaca; Peter F. Oliva, Liberty; Roselyn I. Rosenthal, Poughkeepsie; Leonard Rush, Richmond Hill; Mrs. Robert E. Short (Madeleine King), Ithaca; Milton Shoshkes, Newark, N. J.; and Katherine Thompson, Tucson, Ariz.

New Junior members are Phyllis C. Avery, LeRoy; George S. Berg, New York City; Beatrice G. Gottlieb, New York City; Doris E. Klein, New York City; Mrs. Murray I. Kuperberg (Meta Flamberg), Bay Shore; Myer Shulman, Elmira; Dorothy Socolow, New York City; and Sibyl C. Welling, Brooklyn.

Wins Fellowship

AMERICAN Association of University Women has awarded one of its fifteen annual fellowships for advanced research to Sirvart Poladian, who was a graduate student in Musicology last year. The grants are usually worth \$1,500.

A native of Syria, Miss Poladian became an American citizen in 1929. She will use the fellowship to continue her study of Handel as a composer of opera, and is expected to return to the University this summer to complete her work for the Doctorate.

Coming Events

Notices for this column must be received at least five days before date of issue. Time and place of regular Cornell Club luncheons are printed separately as we have space.

SATURDAY, JUNE 3

Philadelphia, Pa.: Baseball, Pennsylvania, two games
West Point: Heptagonal track meet
Princeton, N. J.: Tennis, Princeton

SATURDAY, JUNE 10

Ithaca: Baseball, Columbia, two games, Hoy Field, 2:30
State College, Pa.: Lacrosse, Penn State
Tennis, Penn State

SATURDAY, JUNE 24

Ithaca: Spring term ends
Cornell Alumni Association and Alumni Fund Council annual meetings, Willard Straight Hall, 10:30
Class Day exercises and Senior singing, Goldwin Smith portico, 7
Senior Ball, Willard Straight Hall, 9

SUNDAY, JUNE 25

Ithaca: Baccalaureate Sermon, the Rev. Paul Scherer, Sage Chapel, 11
Commencement, Bailey Hall, 3:45

FRIDAY, JUNE 30

Ithaca: Summer term registration begins

MONDAY, JULY 3

Ithaca: Summer Session registration
Summer term instruction begins

TUESDAY, JULY 4

Ithaca: Summer Session instruction begins

On The Campus and Down the Hill

Skunk Hollow Carnival on Kite Hill Spring Day, with plenty of sunshine instead of the traditional mud (rain and beer), had a record eighteen concessions and put some \$400 into the Student Council till.

Kiss Meter, one of the attractions at the Skunk Hollow Spring Day Carnival on Kite Hill, purported to measure one's osculatory powers. "Bring her in now," the barker rasped, "and you'll find out what to expect tonight." James B. Trousdale '22, Assistant Treasurer of the University, seen coming sheepishly out of the Kiss Meter tent, explained that he'd been in to look at the electrical gadgets rigged up by his son, Apprentice Seaman Robert B. Trousdale '45, USNR.

Spring Day dance in Barton Hall, sponsored by the Class of '46, attracted some 1,500 couples and added nearly \$2,000 to the Class fund. Apprentice Seaman Paul W. Christensen, Jr. '46, USNR, was chairman of the dance committee, which dated Les Brown and his orchestra. Clowning "Butch" Stone took top honors for his wacky vocals, but blond Doris Day was mighty easy on the eye and ear.

Sun-Widow traditional Spring Day baseball game was carried on by The Widow and Bulletin staffs. Both publications threatened each other in advance with massacre, and, as usual, the game was variously reported as an overwhelming victory for each team. (After last year's game, you may remember, The Sun donated The Widow's blood to the Red Cross.)

The **Bulletin** front page May 19, heralding Spring Day, proclaimed: "Cornell to Train 5,000 Servicewomen; Army, Navy Must Vacate by June 3." An editorial advocated anarchy as the best form of student government. And Mrs. Anna Fielden Grace '10, "longtime manager of Residential Halls," was reported to have been "carried out of her Morrill Hall office here yesterday by four khaki-clad steers after she had again refused to stop serving steak at all dormitory meals."

The **Widow's** new editor-in-chief is Margaret M. Taylor '45 of Lexington, Ky. Daniel Alpern '46 of New York City is associate editor; Peggy Tallman '47 of Ithaca is art editor; and

C. Marguerite Moore '45 of Aberdeen, Md., is business manager. Paul B. Pettit, AM '43, assistant in Speech and Drama, and George C. Andrews '47 of New York City are recent additions to the board of editors.

Seven Bells Club, social organization of Naval trainees, sponsored a street dance in front of Bailey Hall May 19.

Honor cadet of ROTC is Adam P. Friederich '46 of Rochester. Top man of the ROTC rifle team, Bruce M. Pollock '47 of Ontario, received the American Legion medal from Clarence F. Morse '14, district commander. Other members of the team, which took third place in the Hearst competition, are John LaTour, Jr. '46 of Daytona Beach, Fla., captain; Alden C. Doliber '47 of West Newton, Mass.; William L. T. Gottschalk '47 of New York City; and Fred A. Obstfeld '47 of New York City. Awards were presented by Major General Thomas A. Terry, USA, at the Spring Day review.

Memorial Day May 30 was marked at the University by a fifteen-minute Chimes program of songs of the Civil War and the First World War, played by G. Elizabeth Finley '45, head chimesmaster. Classes continued as usual.

Radio Guild is broadcasting home baseball games this season through its studio in Willard Straight Hall. New CRG officers are Apprentice Seaman Burt E. Nichols '45, USNR, of Wellesley Hills, Mass., president; Dorothy J. Hendrickson '44 of Munnsville, vice-president; Jean A. O'Bryan '44 of Corning, secretary; Sallye L. Josephs '45 of New York City, treasurer; and Jean W. Harrington '47 of Watertown, station manager.

"CORNELL WEEK," celebrated May 22-28 in Willard Straight Hall, endeavored "to reproduce Cornell traditions and revive the pre-war spirit on the Campus." The music committee arranged recordings of Cornell songs; the art committee exhibited student painting and sculpture; the library committee displayed books written by famous Cornellians. At the Sunday evening library hour, Professor Dexter S. Kimball, Engineering, Emeritus, reviewed his long acquaintance with Cornell traditions.

"Annual meeting: election of trustees Sunday, May 21st, 2 p.m., at the cemetery, followed by light and heavy clean-up chores until 5 o'clock. Everyone with relatives there is invited to do what he can. (Signed) Trustees, Inlet Valley Cemetery Assn."—The Journal want-ads.

Hillel House was dedicated May 19, marking the fifteenth anniversary of the Hillel Foundation at Cornell. The new center of Jewish student activities, 106 Lake Street, at the top of Gun Shop Hill, has been leased from Former Mayor Louis P. Smith.

Cornell's Army of occupation changed into summer khaki May 10. Five days later, Navy blues were replaced by whites for enlisted personnel, the officers appearing in khaki or slate gray.

Cornell Dance Club gave a concert May 31 in the Willard Straight Theater. All the dances were original compositions of the Club; Robert M. Palmer, Music, composed a special score for one group, based on Irish legend.

Mrs. Robert H. Treman died May 20 at her home, 411 University Avenue, Ithaca. Her husband, Robert H. Treman '78, merchant, banker, philanthropist, and University Trustee for forty-six years, died in 1937. Together they made extensive gifts to Cornell, to Ithaca, and to the State of New York. Treman State Park (Enfield Glen), Buttermilk Falls, land at Taughannock State Park, and Treman Triangle (the University Avenue entrance to Cascadilla Gorge), were their gifts. Mrs. Treman, a member of the early Ithaca Choral Club and an accomplished harpist, showed her catholic taste for music by attending every Junior and Senior ball at Cornell for more than forty years. The University Chimes played some of her favorite music during the funeral. She is survived by two sons, Robert E. Treman '09 and Allan H. Treman '21.

White Spanish Prize of \$100 has been awarded to Jorge E. Nieto '47 of Bogota, Columbia. Three White Prizes, given by the late James G. White, PhD '85, are awarded annually to two English-speaking students for proficiency in Spanish, and to a Spanish-speaking Latin American student for proficiency in English.

The Faculty

Stanton Griffis '10, University Trustee, on leave from his post as film chief of the Office of War Information, arrived in Stockholm, Sweden, May 8, to stay a week, representing the US Foreign Economic Administration. His mission was to halt shipment of Swedish ball bearings to Germany and in conjunction with the British Government, to seek to clarify "business relations and post-war business between Sweden and the Allies." Griffis is a partner in Hemp-hill, Noyes & Co., New York City investment house, with Jansen Noyes '10, Leo M. Blancke '15, and Lieutenant Colonel Willard I. Emerson '19, AUS. He is chairman of Madison Square Garden and Paramount Pictures.

Flora Rose, Grad '07-'08, Director of the College of Home Economics from 1932-40 and a member of the teaching staff since 1907, is teaching nutrition to South and Central American students at the University of California, Berkley, Cal. Her nutrition courses are an outgrowth of the Nelson Rockefeller Latin American program.

Professor **Edward K. Brown**, chairman of the English Department since September, 1941, has resigned to go to the University of Chicago June 30 as professor of English. Professor Brown came to the University in 1941 from the University of Toronto, and spent six months of 1942 as Prime Minister Mackenzie King's secretary in Ottawa, Can.

Commenting editorially on the "wise and provocative book," *How New Will the Better World Be?* by Professor **Carl L. Becker**, History, Emeritus, the Saturday Evening Post of May 6 commends Dr. Becker for upsetting many misconceptions and for clarifying vague but popularly used terms.

Professor **James G. Needham, PhD '98**, Entomology, Emeritus, is returning to his home in Ithaca about June 1, after spending the winter in Englewood, Fla., gathering materials for a new manual on the dragonflies of North America.

Four children of Professor ★ **George N. Lauman '97**, Rural Economics, are in the armed forces. Private First Class Frances W. Lauman '35, USMC Women's Reserve, is at Cherry Point, N.C., Marine Corps Air Station. Private Mary W. Lauman '37, April 27 completed "boot-train-

ing" with special honors, in the USMC Women's Reserve at Camp Lejeune, New River, N.C. First Lieutenant George W. Lauman '37, USAAF, is stationed at Luke Field, Phoenix, Ariz.; and Second Lieutenant Henry W. Lauman '39, Army Finance Section, is at Ardmore Air Base, Okla.

New York State Press Association has elected Professor **Bristow Adams**, Editor of Publications in the College of Agriculture, a director-at-large for life, the first such officer the Association has had. Adams has been an honorary member of the board of regional directors for the last twenty-five years.

Professor **Richard T. Gore**, University Organist, placed first in a nationwide contest for a sacred anthem with organ accompaniment to be published by the Composers' Press of New York City. His composition, a setting of the Sixty-Eighth Psalm, was chosen from eighty submitted.

Professor **Alex M. Drummond**, Director of the University Theatre, is a member of a committee of the National Theatre Conference which has devised courses on drama and the theatre for the Armed Forces Institute, at the request of the War Department. Courses will be offered for study by members of the armed forces, both immediately and in the demobilization period, and they include those designed for college credit and elementary instruction to show inexperienced persons how to prepare and put on a show. While the war lasts, the courses will be offered to men convalescing in hospitals, to those in service units in inactive areas, and to prisoners of war.

Comprehensive survey of rural and village housing in New York State, looking toward improvement of living conditions, started April 1 under direction of Professor **Grace Morin**, head of the Department of Household Art in the College of Home Economics. The work is financed by the first State appropriation to be made to the College specifically for research. Professor Morin's duties as head of the Department have been assumed by Professor **Dora W. Erway**, Home Economics.

Louis C. Boochever '12, former University Director of Public Information, has been appointed director of public relations at Consolidated-Vultee Aircraft Corp., Allentown, Pa.

Captain **W. J. Dumas**, USMCR, who is in charge of Marine Corps units in the University, has been promoted to major. Graduate of Georgetown University in 1939, Major

Dumas commanded a company in the first contingent of Marines to land on Guadalcanal in the spring of 1942, and his battalion was cited as the only unit to oppose Japanese armored vehicles in the battle of Matinaukau River in October, 1942, where it disabled twelve medium tanks. He contracted malaria and was sent to Australia and then hospitalized at New River, N. C., before being ordered to Cornell about a year ago.

In the Journal of Forestry for April, Professor **Joshua A. Cope**, Forestry, Extension, describes his experiences in growing several kinds of Christmas trees as a farm business at "Spruce Top" near Caroline. From his fifteen years' experience he reports that Christmas trees yield better financial returns in shorter time than any other forest crop.

Experimental Methods in Agricultural Research, by Professor **Harry H. Love, PhD '09**, Plant Breeding, has been published by the Agricultural Experiment Station at the University of Puerto Rico, Rio Piedras, P. R., in both Spanish and English editions. The 229-page book describes the essentials of handling experimental data and methods of organizing scientific field tests of crop plants.

Mrs. Kathleen H. Small resigned as editor of the College of Home Economics and went to Washington, D.C., May 8, as assistant to Florence L. Hall, chief of the Women's Land Army division of the Extension Farm Labor Program, US Department of Agriculture. Mrs. Small will have an office in Washington and will travel throughout the country. At Cornell since 1931, she has had charge of Home Economics publications and information service. Her daughter is Mrs. George W. Atkinson (Sylvia Small) '39. **Mrs. Mary Phillips**, wife of Professor **E. Frank Phillips**, Apiculture, and assistant editor of the College, is serving in Mrs. Small's place.

The thesis that "absolute bed rest kills more patients than anesthesia and all the drugs in the pharmacopoeia added together," expounded by Professor **William Dock**, Pathology, at a Medical College conference on therapy was reported in Time, April 24, from the New York State Journal of Medicine. The unnatural position of lying on the back and lack of necessary exercise retards convalescence from most diseases and often causes additional ills, he says.

Officers of the Army staff at the ★ University transferred to other duty include Captains **Richard S. Cowen '38** and **John P. Downing '40**, First

Lieutenant **Ernest J. Cole '36**, and Second Lieutenant **Edmund G. Miller '42**. Among the officers ordered to Cornell as replacements are Captain **John E. Wurst '36** and First Lieutenant **John C. Lawrence '36**. All officers detailed here have completed a ten-day refresher course for ROTC and ASTP officers at Camp Upton.

Professor **Vincent du Vigneaud, Dr. Karl Dittmer**, and Dr. **Donald B. Melville** of the Medical College report laboratory synthesis of a vitamin chemical, biotin. Biotin is necessary for the growth of yeast and other micro-organisms, but because of the present small supply, its role in human nutrition is not definitely known. The experimenters suggest that a method using yeast or other micro-organisms, such as the one producing penicillin, may give supplies of biotin ample for further study.

President **Edmund E. Day** has been named to a panel of 100 persons who will select this year's recipient of the honorary Doctor of Laws for distinguished public service, awarded annually by the American University's School of Social Science and Public Affairs.

Necrology

'78—**Robert Burns Chapman**, January 22, 1944. He entered Sibley College in 1874 from Syracuse High School and left the same year, remaining for most of his life in Syracuse.

'80, '81 AB—**Henry Sisson Concklin**, September 18, 1943. He was a lawyer with Title Guarantee & Trust Co. in Brooklyn for forty-two years, retiring in 1930. He lived at 259 Garfield Place, Brooklyn.

'84 Sp—**Wilbur Stoddard Knowles**, May 11, 1944, at his home, 744 Park Avenue, East Orange, N. J. An architect in New York City for fifty years, he was a member of Thorpe & Knowles before retiring from business. Son, Harold W. Knowles '12. Delta Upsilon.

'87 ME(EE)—**Herbert Rodman Palmer**, March 6, 1944. He was retired and lived at 7600 Euclid Avenue, Cleveland, Ohio.

'90, '91 CE—**James Wallace Beardsley**, May 1, 1944, in Auburn. Retired, he had been director of public works of the Philippines 1905-08, consulting engineer investigating irrigation in Java, Egypt, and India 1908-09, chief engineer of the Puerto

Rico Irrigation Service 1910-16, assistant chief engineer in the Grand Canal surveys in China 1918-19, and consulting engineer in Panama and Santo Domingo between 1920 and 1929. Wallace P. Beardsley '19 of 141 Franklin Street, Auburn, is his son; and James P. Beardsley '44, his grandson. Delta Phi, one of the founders of the Cornell chapter. '91 Class president.

'92 Sp—**Dr. James Frank McCaw**, pioneer eye, ear, nose, and throat specialist, April 29, 1944, in Watertown, where he practiced and lived for many years. Phi Delta Theta.

'95 CE—**John Edward Thebaud**, April 12, 1944. He lived at 609 East Brinton Street, Philadelphia, Pa., and was a patent lawyer.

'97—**Irving Storms Williams**, November 3, 1943, in Delmar. Having retired from the General Electric Co., he lived at 113 Elmer Avenue, Schenectady. He was a student in Architecture.

'98 ME—**Harold Elijah White**, November 29, 1943. His home was at 1302 Singer Place, Wilkesburg, Pa.

'01 AB—**Mrs. Henry Chapin Brooks (Jane Day Cavarly)**, September 22, 1943. She was a teacher before her marriage in 1905 to the late Henry C. Brooks '00. Daughter, Mrs. Albert W. Wurthman (Barbara C. Brooks) '28 of 61 Madison Street, Wood Ridge, N. J. Kappa Alpha Theta.

'05 Sp—**D. Curtis Stanion**, May 8, 1944, in Kerman, Cal., where he owned and operated raisin ranches.

'05 ME—**Alfred Bussell Wray**, May 6, 1944, in Ithaca, where he lived at 111 Orchard Place. He had been with the Morse Chain Co. since 1905, as designing engineer for many years and recently as assistant sales manager. Daughter, Mrs. David B. Andrews (Hannah Wray) '34; son, William D. Wray '36. Phi Kappa Sigma.

'10 AB—**Mrs. E. Roy Bowerman (Ethel Robison)**, May 7, 1944, in Rochester, where she lived at 1307 East Main Street. She was the wife of E. Roy Bowerman '09.

'14 BS—**Errol Stanley Bird**, May 5, 1944, in Rochester. He was county agricultural agent in Canton until 1928 when he joined the Bureau of Markets of the State Department of Farms and Markets in Albany, as specialist in cooperative marketing. He lived in Slingerlands. Son, Samuel E. Bird '41.

'16 BS—**Fred Jacob Hamm**, November 25, 1943, in Bath, where he

was a patient in the Veteran's Hospital. Sigma Upsilon.

'19, '21 WA—**Abram Scott Pearce**, February 2, 1944, at his home, in Sparks, Md. He was a salesman for Dietrich & Gambill, Frederick, Md.

'21 DVM—**Dr. Charles Stickney McCoy**, April 29, 1944, in Gouverneur, where he was a veterinarian from the time of his graduation.

'25 — **Muriel Latimer Sleicher**, daughter of the late Harry S. Sleicher '00, May 3, 1944, at her home, 245 West Main Street, Lock Haven, Pa. She left Arts and Sciences in 1925 and had been an invalid ever since.

'26 DVM—**Dr. Robert Hine Bardwell**, May 4, 1944, in Lexington, Ky., where he was veterinarian for the Thoroughbred farm, Claiborne Stud. Omega Tau Sigma.

'27, '29 AB—**Jack Spellman Garretson**, December 11, 1943, in Denver, Col., where he was a salesman for the Peerless Printing Co.

'28, '27 AB—**Howard Washington Feight**, April 28, 1944, in Dayton, Ohio. A salesman for Greene & Brock, brokers, he had received a medical discharge from the Army Air Forces in November, 1943, after serving in Africa and Sicily. Phi Gamma Delta.

'33—**Mrs. Hugh P. Osborne (Ada Frances Phillips)**, December 2, 1943, in Oklahoma City, Okla. She entered Arts from Rochester and left in 1932. Her husband is Major Hugh P. Osborne '32, who is stationed at Fort Sill, Okla. Father, Arthur M. Phillips '04; brother, Arthur M. Phillips, Jr. '36. Kappa Kappa Gamma.

'36 AM, '38 PhD—**Cecelia Charlotte Mettler**, December 1, 1943. She was the wife of Frederick A. Mettler, PhD '33, who is on the staff of the College of Physicians and Surgeons, New York City.

'44—**Lieutenant Joseph James Bamberger**, killed in action, April 15, 1944, over Italy. Having enlisted in the Army Air Forces in July, 1942, he was commissioned as a bombardier at Childress' Field, Tex., in October, 1943, and went overseas in March, 1944. He was a student in Agriculture and his home was at 1240 Delaware Avenue, Buffalo. Sister, Catherine Bamberger Sprague '43.

'46—**Staff Sergeant James Seymour Hills**, February 15, 1944, as the result of an explosion. He had been a student in Arts and Sciences. His parents live at 1722 Nineteenth Street, N. W., Washington, D. C. Alpha Delta Phi.

News of the Alumni

Personal items and newspaper clippings about all Cornellians are earnestly solicited

'88—**Harry W. Clark** has retired from Whitman & Howard, engineers in Boston, Mass., and lives at 169 Chestnut Street, North Andover, Mass.

'96 PhB—**Charles A. Ellenwood** will retire in June as professor of sociology at Duke University, Durham, N. C., where he has been since organizing the department in 1930. Previously he was in the department of sociology at University of Missouri for thirty years. His home is at 129 Pinecrest Road, Durham, N. C.

'99—Twelve members of the Class of '99 met for a Forty-five-year Reunion dinner at the Cornell Club of New York, May 12. Each member told briefly of his activities since graduation. Those present were **William K. Auchincloss, Clifford H. Belden, Emmett B. Carter, Charles L. Durham, Elbert A. Hawkins, Royal S. Haines, Ebenezer Hill, Herbert B. Lee, George J. Mersereau, Walter L. Pate, William C. Richardson, and Maxwell M. Upson.**

'03 PhD—**Dr. Sanford A. Moss** of Lynn, Mass., consulting engineer for the General Electric Co., received the New England Award in Boston, Mass., presented by the Engineering Societies of New England, Inc., May 5, for his "widely recognized creative work in the development of compressors, steam and gas turbines, and turbosuperchargers."

'05 ME—**Arthur L. Fuller** is with the Eastern Underwriters Inspection Bureau, 89 Broad Street, Boston, Mass.

'07 MD—**Dr. Henry C. Barkhorn** of Newark, N. J., received the Dr. Edward J. Ill Award presented May 18 by the Academy of Medicine of Northern New Jersey to the "doctor in northern New Jersey who has done most as a citizen and as a physician."

'09 ME; '38 BS in AE—**Frank P. ★ Rhame** of 190 Mt. Pleasant Road, Wyoming, Ohio, is vice-president of the Lunkenheimer Co., Cincinnati, Ohio. His daughter is the wife of Captain **John E. Mitchell, Jr.** '38, Army Air Forces.

'11 ME—**William G. Christy** has opened an office as consulting engineer at 921 Bergen Avenue, Jersey City 6, N. J.

'11 ME; '36, '39 ME—**Thomas Midgley, Jr.** of Worthington, Ohio, will receive the honorary Doctor of Science at Ohio State University in June. President of the American

Chemical Society and holder of forty-two US and foreign patents, Midgley is credited with important discoveries in the production and use of fuel for automobiles and airplanes, organic fluorides used in refrigeration, and synthetic rubber. His son is **Thomas Midgley III** '36.

'11 ME; '98 BS; '19 BArch—In an open letter to President Roosevelt and Governor Dewey, **David Darrin** has announced himself a candidate "for the Republican nomination and the Democratic endorsement for President of the United States in 1944." He writes, "If you cannot attack my program, will you support it by keeping the promises you have both made to the American People, not to accept the Presidency in 1944—and in any other way you may wish to support it." Darrin organized Industrial Associates, "specializing in design of super-speed planes, apparatus and methods for testing human ability, electro-mechanical equipment for quick, easy, accurate, complete recording and summing of Public Opinion." He also founded the American Unity Movement, 326 Pennsylvania Avenue, S.E., Washington D.C., "preparation for American leadership into a higher order of world civilization." The late Mrs. Darrin was **Elizabeth Reid** '98 and the late **Anton F. Darrin** '19 was his brother.

'12 BArch—**Ralph Fanning** is professor of history of fine arts in the School of Fine and Applied Arts, Ohio State University, Columbus, Ohio.

'12 ME—**John W. Magoun** of 1806 Spruce Street, Philadelphia 3, Pa., is principal engineer with the Philadelphia Ordnance District. He writes, "Have put in most of my time lately at the Tank Depot, Chester, Pa.,

For reasons of security, complete mailing addresses of members of the armed forces, except those in training camps within the United States, cannot be published. Designations of military units and the addresses of Naval ships, although required for postal delivery, may be of great value to the enemy if published.

If, therefore, you wish to correspond with Cornell friends in the services whose names appear in the News without complete addresses, the Alumni News will undertake to forward letters from subscribers. Seal your letter in an envelope bearing the full name and rank or grade, if known, of your correspondent, your own return address, and first-class postage. Mail this to us in another envelope and we will add the last-known address and forward your letter.

where we put the finishing touches on some sixty different combat vehicles before shipment overseas."

'12 BS—**Paul C. Stark**, president of the National Victory Garden Institute, received a letter of commendation on the work of the Institute in the 1943 Victory Garden Campaign from Secretary of Agriculture **Claude R. Wickard**. It said in part, "Your organization has done a fine job in helping bring about the patriotic response to the program all over the country. We appreciate particularly your sponsorship of garden plots by many large corporations and industrial plants. . . . The War Food Administration has increased the national goal to 22,000,000 Victory Gardens in 1944 and larger production is expected from individual gardens. We know we can count on your continued support."

'14 ME—A letter in the New York Times April 14 from **J. Carlton Ward Jr.**, president of Fairchild Airplane Corp., outlines "steps which our country should take [now] toward formation and effectuation of a post-war military policy." Ward advocates compulsory military training for youth to supply a powerful army reserve, and developing and maintaining such industries as synthetic rubber, specialized ordnance, shipyards, and aircraft. If the power of the United States is ready to be used, future wars might be prevented, he says.

'15 ME—**W. Raymond Read** is proprietor of the Read Investment Co., 1324 West Wisconsin Avenue, Milwaukee, Wis. He is also treasurer and a director of Filer & Stowell Co.

'15 BS—**Elwood L. Chase** of 96 Ruskin Road, Eggertsville, was appointed director of the transportation division of the War Food Administration in the US Department of Agriculture, April 15. He has been in the feed and grain business with the GLF Mills for the last twenty years, and recently has been chairman of the Lower Lakes grain committee solving problems of shipping and handling grain on the Great Lakes.

'16 BS—**Dorothy J. Cooper** was married January 20 to **Joseph A. Boyer**. She works at the Cooper Clinical Laboratory in New York City and lives at 115 East Eighty-sixth Street.

'16 AB, '19 MD—**Captain Henry ★ H. Kessler**, USNR, of Newark, N. J., was one of four medical officers of the armed forces who April 20 received

American Design Awards of \$1,000 each, presented by Lord & Taylor of New York City, for contributions to Army and Navy programs for the rehabilitation of the wounded. Kessler spent fifteen months in the South Pacific treating casualties from Guadalcanal and New Georgia. He was particularly cited for his development of an artificial arm which can be controlled by use of the patient's muscle ends.

'17—Lieutenant Colonel **Charles ★ C. Bowman, Jr.** is stationed at Fort Bragg, N. C. His permanent address is 20 Bethune Street, New York City 14.

'17—Lieutenant Colonel **Edwin ★ C. Higbee** has been appointed commanding officer of the 663d Battalion of the 416th Field Artillery Group at Camp Chaffee, Ark.

'19 AB; '12, '14 BS—**Ivan C. Dresser** has returned from several months in England representing General Motors. He toured different parts of the country and visited war bases and industrial plants, experiencing three bombings. His sister is Mrs. Stanley Wilcox (**Eloise Dresser**) '12 of Cleveland, Ohio.

'20 AB—**Harold L. Brayman** became director of the public relations department of E. I. duPont de Nemours & Co., Wilmington, Del., April 21. Assistant director of the department since 1942, he was previously Washington correspondent for the New York Evening Post; the Houston, Tex., Chronicle; and the Philadelphia, Pa., Evening Ledger. He wrote a syndicated column, "The Daily Mirror of Washington," 1937-40, and "Washington Preview," 1940-42.

'22 CE—Major **Gerald C. Williams ★** of 124 Triphammer Road, Ithaca, is overseas in the Army Chemical Warfare Service.

'22, '26 BS; '24 — Captain **Kenneth B. Spear, Army Combat Intelligence**, having returned from the Aleutians in December, 1943, is with Headquarters, III Bomber Command, MacDill Field, Tampa 8, Fla. Mrs. Spear is the former **Vera Dobert** '24.

'23 BS; '26 BS—**Henry E. Luhrs** is vice-president and general manager of The Beistle Co., Shippensburg, Pa., which is making parachutes for the Army and Navy and also doing work for the Army Signal Corps and Ordnance. Mrs. Luhrs (**Pearl H. Beistle**) '26 "is doing her part by raising our

children so they may join the rush to Cornell in a few years and do their training for post-war America," he writes.

'23 AB, '26 MD—Lieutenant **★ Commander Wade Dudley**, Medical Corps, USNR, is senior medical officer of his ship. His home is at 60 East Ninety-sixth Street, New York City.

'23 AB, '28 PhD; '22 AB, '23 AM **★**—**Stephen A. Emery** is in the department of philosophy, University of North Carolina, Chapel Hill, N. C. His brother, **William T. Emery** '22, is on sea duty as a yeoman third class, USNR, and his permanent address is Hotel Brunswick, Lancaster, Pa.

'25 AB—**Wilson L. Farman** was advanced in September, 1943, to assistant professor of economics at Colgate University, Hamilton.

'25 AB, '31 MD—Captain **Frank ★ S. French** is on the staff of an Army general hospital in England. His home is in Forest Home, Ithaca.

'26 AB—Lieutenant Commander **★ Marguerite Hicks, WAVES**, was married May 3 in New York City to Captain Edward A. Maher III, AUS. They are living at 3832 Beecher Street, N. W., Washington, D. C. She is USNR Woman's Reserve representative in the Division of Naval Communications at the Navy Department.

'26 MD—**Dean W. Marquis of ★** 144 Harrison Street, East Orange, N. J., is a lieutenant commander in the Naval Reserve.

'27 AB—Dr. **Norman R. Gold- ★ smith** married Emphnia M. Fisher, March 24 in Washington, D. C. Goldsmith is stationed in Bethesda, Md., as an AA surgeon in the US Public Health Service.

'28 ME, '29 MME; '97 ME— **★ John B. Mordock** has been promoted to lieutenant, USNR. He is the son of **Charles T. Mordock** '97, 645 Maple Avenue, Winnetka, Ill.

'28 EE; '27 AB—Lieutenant **★ Colonel Arthur E. Stanat** is overseas with a signal battalion. Mrs. Stanat (**Helvi P. Toini**) '27 lives at 12 North Confederate, Sandston, Va.

'29 BS, '32 PhD—**Menalco Solis**, director of the Republic of Panama agricultural school and experiment station, has come to the United States to obtain breeding cattle to build Panama's meat and dairy industries as part of the back-to-the-farm-program designed to re-establish work-

ers who migrated to the Canal Zone for war-time jobs. An instructor in Dairy Industry until 1934, Solis was later employed by the Venezuelan Ministry of Agriculture for five years.

'29, '31 BS—Captain **Carl B. ★ Sturm** of the University military staff, has a son born November 14, 1943. He lives at 520 The Parkway, Ithaca.

'29 BS—Sergeant **Bernard E. ★ Harkness** of Moravia is a weather observer with the 23d Weather Squadron, Sioux City, Iowa.

'31 BS—Lieutenant **Chris P. ★ Katsampes**, Medical Corps, USNR, is liason man between the Navy and the US Typhus Commission. He lives at 3415 Thirty-eighth Street, N. W., Washington, D. C.

'32 AB, '34 LLB—Private **Her- ★ bert A. Heerwagen** writes, "Uncle Sam has converted me from barrister to rookie in four easy weeks." He is in the 60th Signal Radio Intelligence Company, Camp Crowder, Mo.

'32 BS—Captain **Donald J. ★ Probes** is an Army Inspector General stationed in Australia. His home is at 1025 Glenwood Boulevard, Schenectady.

'33, '34 AB; '37 PhD—Mrs. **Werner S. Hammond (Hazel Ellenwood) '33** and Professor Hammond, PhD '37, Anatomy, Medical College, have a son, Paul W. Hammond, born November 24, 1943, in New York City. Mrs. Hammond is the daughter of Professor Frank O. Ellenwood, Engineering, and was secretary in the Graduate School office, 1935-39.

'33, '34 CE—Captain **James W. ★ Allen** is in the Air Transport Command. He has made trips to Australia, Guadalcanal, and Port Moresby in New Guinea. His home is in Oakland, Cal.

'33 BChem—Lieutenant Colonel **★ John G. Detwiler**, Army Ordnance, is on the Anzio beachhead. His home is at 1305 North Highland Avenue, Pittsburgh, Pa.

'34, '35 AB—Mrs. William Bloom (**Eleanor Mirsky**) of The Cabin, Poplar Street, Elizabethtown, Ky., has a son, George L. Bloom, born November 23, 1943.

'34—Lieutenant **Henry N. Han- ★ son**, AUS, has a son, Henry N. Hanson, Jr., born December 18, 1943. Hanson's permanent address is care Mrs. E. S. McClure, 19 Summit Avenue, Mt. Vernon.

'35; '98 PhB—Lieutenant **Henry ★ H. Bellinger**, USNR, son of Henry

Use the CORNELL UNIVERSITY PLACEMENT SERVICE

Willard Straight Hall

H. H. WILLIAMS '25, Director

M. Bellinger '98, is on active duty in the Pacific and has a daughter, Elizabeth A. Bellinger, born December 20, 1943. His home address is 81 Columbia Heights, Brooklyn.

'35 AB, '39 MD—Major **Ivan ★ Isaacs**, Medical Corps, is overseas. His home address is 115 West Seventy-first Street, New York City.

'36 BS; '90 BS—**Elizabeth J. Rice** (above), daughter of Professor **James E. Rice '90**, Poultry Husbandry, Emeritus, is in England as an American Red Cross hospital staff aide.

'36 AB, '38 LLB—Captain **John ★ L. Rickard**, AUS, of Middleburg is on duty in the Pentagon Building, Washington, D.C.

'37—**Wilson W. Fox** is manager of the Crocker House, New London, Conn.

'37; '97 BSA—First Lieutenant **★ George W. Lauman**, USAAF, son of Professor **George N. Lauman '97**, Rural Economics, married Ruth C. Kuhn, April 6 at Luke Field, Ariz. Their address is Box 643 Litchfield Park, Ariz.

'37 PhD; '38 BS—**Paul E. Newman** and Mrs. Newman (**Julia Ann Robb**) '38 of Cayuga have a second son, Larry B. Newman, born July 27, 1943. Mrs. Newman's father is Professor **Byron B. Robb '11**, Agricultural Engineering.

'37, '38 BChem—**Anderson Pace, Jr.** has joined the research department of the Rayon Division of E. I. duPont de Nemours & Co. in Buffalo.

'37 AB; '40 PhD—**Margaret Sampson Moore** and **Ernest R. Moore**, PhD '40, have a daughter, Barbara J. Moore, born March 10 in Troy. Mrs. Moore is the daughter of the late Professor Martin Sampson, head of the English Department until his

death in 1930, and of Mrs. Sampson of 808 East Seneca Street, Ithaca.

'37 AB; '00 AB—First Lieutenant **★ ant Ernest L. Quackenbush, Jr.** is in England with a Field Artillery battalion. His father is **Ernest L. Quackenbush '00**, counselor-at-law, 744 Broad Street, Newark 2, N. J.

'37 BS—**Pauline F. Spies** is a teaching dietitian at St. Louis Hospital, 1515 Lafayette Avenue, St. Louis, Mo.

'38 EE; '41 AB—Major **William ★ A. Backus** is in North Africa where he is heading maintenance work at a depot for the Air Service Command. Mrs. Backus (**Florence A. Crabb**) '41 lives at 9120 Eighty-seventh Street, Woodhaven 21.

'38 BS—**Mille F. Brooks** is working for the Master's degree in nutrition and public health at Western Reserve University and lives at 11118 Bellflower Road, N. E., Cleveland 6, Ohio.

'38 AB; '38 AB—Ensign **Jack A. ★ Thomas**, USNR, after a year of training, is gunnery officer of a sub-chaser. Mrs. Thomas (**Muriel Cook**) '38 lives at 61 West Ninth Street, New York City 61, Care F. A. Cook.

'38, '39 BArch—**Frederick Wise** is an aeronautical engineer at the aircraft factory, Philadelphia Navy Yard, and lives at 2063 South Cecil Street, Philadelphia 43, Pa.

'39—**Robert S. Bush** married Jessie Read, March 25 in Ithaca. Bush works for the GLF and they live at McKinney's Point, Ithaca.

'39 BS—Captain **Aarni K. Ka- ★ rikka**, Field Artillery, is overseas. His home address is 944 Orchard Avenue, Ogden, Utah.

'38 BS; '38 BS—Lieutenant **★ Ivan S. Conklin**, AUS, is with a Quartermaster Corps refrigerator company in India and writes that he has seen lots of that country including the Taj Mahal, "as beautiful as the pictures show it." He also writes of seeing **Hughes Evans '38**.

'38 MD—Lieutenant Colonel **★ Stephan L. Gumpert** has been appointed commanding officer of the 2d Ferrying Group Hospital at New Castle Army Air Base, Wilmington, Del.

'39 BS—Captain **Mark T. Mul- ★ ler**, Army Signal Corps, was with the first American troops to reach Australia after war was declared, and was one of forty still stationed there December 22, 1943, to celebrate the second anniversary of their arrival. In an interview with Lewis B. Sebring, Jr. of the New York Herald Tribune, Muller told of the trip out when war changed the convoy's route in mid-

ocean from the Philippines to Australia.

'39 DVM; '38, '39 DVM—Dr. **Patricia O'Connor** (Mrs. John L. Halloran), "the country's only woman zoo doctor," appeared in pictures and an interview with Robert A. Jones in This Week magazine of the New York Herald Tribune, April 2. Doctoring the 600 animals of the Barrett Park Zoo on Staten Island, Dr. O'Connor must be "everything from dentist to psychologist," also conversant with wrestling. Beside prolonging the lives of her patients—"mortality rate among reptiles has been practically zero since [Clyde Gorden, the zoo's director] and Doc took hold"—every afternoon Dr. O'Connor teaches a popular children's class in animal lore. She and her husband, Dr. **John Halloran '38**, planned to work together; but "animal experts are scarce, so they found they had to spread their talents over separate jobs."

'39 BS—Captain **Frank P. Boyle ★** writes, "I came overseas by air more than a year ago in command of a small special group of officers to do liaison work with the French General Staff; first landed at Accra on the Gold Coast and then was stationed at AFHQ in Algiers and in Rabat, Morocco. After several months I went back to my first love, the Field Artillery. I've been S-2 or Assistant S-3 of the 7th Army Artillery Section ever since, except for two months on the Cassino front with II Corps." Boyle's home is in Waverly.

'39 BS, '44 MS; '96 AB—**Katherine S. Duroe**, daughter of **Vernon E. Duroe '96**, is assistant dietitian at Beaver College, Jenkintown, Pa.

'39 BS—**Jerome H. Holland**, former All-American football player, now in the personnel department of Sun Shipbuilding & Drydock Co., Chester, Pa., writes on "Shipyard Conversations" in the May issue of Production, published by the Management Club, New York University School of Commerce. He describes the Number 4 Shipyard of the Chester plant which is manned almost entirely by Negroes. Negroes and whites have worked side by side and Negroes have been trained for skilled jobs. Problems of reconversion after the war will be many and great, he says, and careful planning will be needed to avoid economic regression of the Negroes and discrimination against them when competition for jobs returns. Holland suggests post-war shipbuilding programs in foreign countries as an outlet for America's over-abundance of skilled mechanics with shipyard experience.

'39 ME; '38 Grad; '39 BS—Cap- ★ tain **James Setright** is in England

with a signal company wing. He was for a while stationed at the same post with the Rev. **Donald M. Cleary**, Grad '38, University Catholic chaplain until 1943. He also writes of seeing **Deloss A. Rose** '39 who "seems to be OK [and] has been over here long enough to marry an English girl."

'39 BS—**Everett C. Randall**, with the US Department of Agriculture Soil Conservation Service, was at the experiment station in Mayaguez, Puerto Rico, January through August 1943; he is now in Wrightsville, Ga.

'39 CE; '42, '41 AB—**Joseph M. ★ Steele** is an ensign in the Seabees, serving overseas. Mrs. Steele (**Martha Pound**) '42 lives at East Bells Mill Road, Chestnut Hill, Philadelphia, Pa.

'39 ME—Captain **James J. Wil- ★ der**, AUS, is a company commander stationed at Camp Hood, Tex.

'39 AB—Captain **Richard A. ★ Wilmer**, Field Artillery, is at Camp Phillips, Kans. His home address is Alameda Circle, Middletown, Ohio.

'40 AB, '44 MD; '13 LLB—Dr. ★ **John W. Little, Jr.**, Army Medical Corps Reserve, son of **John W. Little** '13, married Eleanor Hull of Petersburg, August 29, 1943. He is interning at Roosevelt Hospital, New York City.

'40 BS; '40—**Ferdinand A. Ner- ★ ret** of Deerfoot Farms Co., Southboro, Mass., was commissioned ensign, USNR, April 1, in Boston, Mass. Mrs. Nerret is the former **Katherine J. Griffiths** '40.

'40 AB; '12 AB—Captain **Robert ★ J. Shaw** (Schwartzman), AUS, has a daughter, Jean T. Shaw, born July 25, 1943. The son of **J. Dudley Schwartzman** '12, Captain Shaw is stationed at Camp Santa Anita, Arcadia, Cal.

'40 BS—Ensign **Paul C. Stark, ★ Jr.**, USNR, is in the commissary department at San Diego, Cal., Naval Air Station. His father, **Paul C. Stark** '12, is vice-president of Stark Bros. Nurseries and Orchards Co., Louisiana, Mo.

'40 — Corporal **Robert H. ★ Fleisher**, Army, is overseas, on the staff of Stars and Stripes. His home is at 270 West End Avenue, New York City 23.

'40, '41 BCE—**Duncan N. ★ Fraser** has resigned from the US Government Rubber Development Corp. in Peru, South America and volunteered for Army induction.

'40 EE—Captain **Otto J. Glas- ★ ser**, USAAF, has graduated from advanced two-engine pilot school at Turner Field, Albany, Ga.

'40—Lieutenant **Lawrence B. ★**

Gray, USAAF, of 1018 Corbin Avenue, New Britain, Conn., has been reported missing over Italy since January 25.

'40 AB—**Doris E. Green** was married to Private Fred Searls, Army Air Arm, April 13 in New York City. They live in San Antonio, Tex., while Searls is stationed at Kelly Field.

'40 BS; '44 AB—Mrs. McCarthy Hangar, Jr. (**Marjorie L. Eddy**) of 539 Arlington Village, Arlington, Va., has a daughter, Martha L. Hangar, born May 11. Mrs. Hangar is the daughter of Professor Martha H. Eddy, Home Economics, and sister of **Edward D. Eddy** '44.

'40—Major **Walter J. Ives** has ★ returned from the European Theatre where he flew thirty combat missions as a B-26 pilot and won the Distinguished Flying Cross and the Air Medal with four Oak Leaf Clusters. His home is at the Ambassador Apartments, Baltimore, Md.

'40, '41 AB—Captain **Egbert S. ★ Montell**, AUS, is in Panama City, Panama. His home is at 32 Mitchell Road, Port Washington.

'40—**Myrta S. Munn** has been appointed head of the Alabama State Seed Testing Laboratory, Montgomery, Ala. Daughter of Professor Mancel T. Munn of the Geneva Experiment Station, she has been on the Alabama laboratory staff since the fall of 1940.

'40 AB; '40 BS—Lieutenant (jg) ★ **M. Elizabeth Russell**, WAVES, was married April 29 in Washington, D. C., to Lieutenant (jg) Harry E. Owings, Jr., Chaplain Corps, USNR. A wedding reception was held at the home of **Catherine Strong** '40.

'40 EE—Captain **Kenneth J. ★ Sorace**, Lightning fighter pilot, has been awarded the Distinguished Flying Cross for achievement in combat missions over occupied Europe. He also wears the Air Medal with three Oak Leaf Clusters. His home is at 1108 Plymouth Avenue, Rochester.

'41 BS in ME; '45—Captain ★ **Jack C. Antrim** of 5811 Meek Road, Worthington, Ohio, and Second Lieutenant **Robert Dewey** '45 of 555 Sheridan Road, Winnetka, Ill., have completed training in bomber pilot school at Ellington Field, Houston, Tex.

'41 AB—First Lieutenant **Wil- ★ liam B. Webber**, Army Quartermaster Corps, is at Camp Lee, Va.

'41 BS; '36 BS; '38 ME—**William L. Baird** is a pilot in the Chinese National Airways Co., transporting supplies into China by air. According to a radio news commentator speaking April 21 in commendation of the pilots of the CNAC, Baird made a

NOTICE OF ANNUAL MEETINGS

Joint Session—Willard Straight Hall—June 24, 1944, 10:30 a. m.

Cornell Alumni Association

Cornell Alumni Fund Council

Proposed Changes in By-Laws

To All Members of the Cornell Alumni Association:

PLEASE TAKE NOTICE, That at the annual meeting of the Cornell Alumni Association to be held in Ithaca June 24, 1944, proposals will be presented to change the By-Laws of the Association in the following respects:

ARTICLE I—NAME AND OBJECT

SECTION 1. *Name.* (No change)

SECTION 2. *Object.* The purposes of this association are to promote a continuing alumni interest in the welfare of the University and to coordinate all alumni activities; to serve as the general alumni organization of Cornell University, embracing in its membership all alumni of the University; and to maintain the administrative agency and executive personnel needed to provide for a continuity of alumni activity and interest.

ARTICLE II—MEMBERSHIP

SECTION 3. *Members.* (No change)

ARTICLE III—DIRECTORS

SECTION 4. *General Powers.* (No change)

SECTION 5. *Board of Directors; How Constituted.* There shall be a Board of Directors constituted in the following manner: the directors of the seven geographical districts; the President of the Cornell Alumni Fund Council; the Chairman of the Alumni News Committee; the Chairman and Vice Chairman of the Committee on Secondary Schools; the President of the Federation of Men's Cornell Clubs, as and when organized; the President of the Federation of Cornell Women's Clubs; two representatives of the Association of Class Secretaries, one man and one woman, one of whom shall be the president of such Association and the other to be elected and certified in any manner that may be determined upon by the said Association; the President of the Alumni Association of each college or school of the University, and of the Alumni Association of any department of the University whose alumni are not eligible for membership in the Alumni Association of the school or college in which the degree for such department is awarded; and two directors-at-large, one man and one woman, to be elected by the directors constituted above. The Board of Directors shall be the sole judge of the eligibility of any alumni association of each college or school of the University and of the alumni association of any department of the University to have representation on the Board of Directors.

SECTION 5a. *Vacancies.* (Formerly Section 10.) Vacancies in the office of district director or directors-at-large shall be filled by the Executive Committee for the balance of the term. A vacancy in the office of a district director shall be filled by the appointment of a resident of the district in which the vacancy occurs. Vacancies in the office of representative directors shall be filled by the organization represented by such director.

SECTION 6. *Eligibility.*

- (1) (No change)
- (2) No district director shall be eligible for more than two consecutive terms.

SECTION 7. *Districts.* (No change)

SECTION 8. *Nomination of District Directors.* Nominations for the office of district director except as otherwise provided in Section 9a may be made as follows:

- (1) The President of the Association shall appoint at least 120 days before the date of election in each district a committee on nomination of district directors consisting of three members resident in the district. Each such nominating committee shall present any nomination or nominations received from any group as provided in the second paragraph of this section and shall have the responsibility to present at least two nominees for election as district director at the next regular election. The district committee will present its nominations to the Secretary-Treasurer of the Association not later than 60 days prior to the date fixed by the Executive Committee for election of district directors, of which date the Secretary-Treasurer of the Association shall notify the district committees at least 120 days before the date of election.
- (2) Any group of ten or more alumni resident in any district may nominate one candidate for district director in such district by submitting the name of the nominee to the nominating committee of the district in a letter at least 90 days prior to the date fixed by the Executive Committee for the election of district directors.
- (3) Notice of the date of election shall be published in the Alumni News at least once not later than 120 days prior to the date of election.
- (4) A nomination will be deemed to have been made 60 days prior to the date fixed for election if the envelope enclosing such nomination bears postmark at least 60 days prior to such election date or if such nomination be delivered personally to the Secretary-Treasurer at least 60 days prior thereto.

SECTION 9. *Election of District Directors.* The district directors will be elected in the even-numbered years by mail ballot, only the members of the Association in each district being eligible to vote for the nominees for that district on such ballot. One director is to be elected for each district for a two-year term, subject to the provision of Section 6 (2). In case of tie vote for any district, the two candidates receiving the highest number of votes shall be voted upon at the next annual meeting of the Association. The announcement of election shall be made at the annual meeting in the even-numbered years. The dis-

trict directors so elected shall take office at the next autumn meeting of the Board of Directors.

SECTION 9a. If Section 9 be adopted on a date too late to conduct an election as therein provided, a special election shall be held before the autumn meeting of the Board. The Executive Committee shall have the discretion to vary the respective dates when the action required by Section 8 is to be taken. District directors then elected shall hold office until their successors are elected in the regular manner as provided in Section 9.

SECTION 10. *Meetings.*

- Regular Meetings.* The Board of Directors shall hold two regular meetings each year, one in the spring and one in the autumn, at such times and places as may be fixed by the Executive Committee.
- Special Meetings.* (No change)
- Notice.* The Secretary shall notify by mail all members of the Board of Directors of all regular meetings at least thirty days and of special meetings at least fifteen days before such meetings unless notice of such meeting is waived by all members of the Board.

SECTION 11. *Transaction of Business.*

- Quorum.* Twelve members of the Board of Directors shall constitute a quorum at any meeting. Motions regularly made and seconded may be adopted by a majority vote of those present provided a quorum be present.
- Presentation of Reports.* Reports of committees of the Association shall be presented to the Board of Directors prior to their submission at the annual spring meeting.
- Elections.* Elections of directors-at-large and of the officers of the Association shall take place at the autumn meeting of the Board in the even-numbered years. At the spring meeting of the Board of Directors preceding such election, the President shall appoint a committee to present nominations for directors-at-large and officers at the autumn meeting.
- Other Business.* All other business, including the filling of vacancies in directorships-at-large and officers, may be transacted at any meeting of the Board of Directors at which a quorum is present.

ARTICLE IV—OFFICERS

SECTION 12. *Enumeration and Eligibility.* The officers of this Association shall be a president, a first vice-president and second vice-president, one of whom shall be a woman, and a secretary-treasurer. No one who has not a first (as distinguished from an advanced) degree at the University shall be eligible for the office of President; any member of the Association is eligible for any other office. All of the officers except the Secretary-treasurer must be elected from the Board of Directors.

SECTION 13. *Election of Officers.* The officers of the Association other than the

Secretary-treasurer shall be elected by the Board of Directors as hereinbefore provided. The Board similarly may fill any vacancies in any office except that of Secretary-treasurer, and officers so appointed shall hold over until the next regular election by the Board to the same extent as regularly elected officers. The Alumni Secretary shall be appointed by the Board of Trustees of the University upon the nomination of the Board of Directors of the Cornell Alumni Association and the approval of the President of the University. The Alumni Secretary may be removed from office by the Board of Trustees of the University after consultation with the Cornell Alumni Association or its duly qualified officers concerning such removal.

SECTION 14. *Terms of Office.* Every officer of the Association except the Secretary-treasurer shall hold office for two years, or until his successor shall have been chosen.

SECTION 15. *Duties of President and Vice-Presidents.* The President shall preside at all meetings of the Association and at all conventions or other gatherings of the Association and at all meetings of the Board of Directors. He shall be the chief executive officer of the Association and have all powers and duties incident to such office and shall conduct and have charge of the affairs of the Association subject to the approval of the Board of Directors. In the absence or disability of the President, the First Vice-president shall preside. In the absence of both the President and First Vice-president, the Second Vice-president shall preside.

SECTION 16. *Duties of Secretary-Treasurer.* As Secretary, the Secretary-Treasurer shall give notice of all meetings of the Association and of all meetings of the Board of Directors. He shall keep the records and papers of the Association. He shall notify directors, officers, and committeemen of their election or appointment. He shall act as secretary of the Board of Directors and of all meetings of the Association and shall keep accurate minutes of such meetings, including a record of all votes, resolutions, and other proceedings of the same. He shall prepare and, after approval by the Board of Directors, present to the annual meeting of the Association the written report of the Board and shall furnish a copy to any member of the Association upon request. He shall perform such other duties as may pertain to his office or may be required by the President. As Treasurer, the Secretary-Treasurer shall have charge of the finances of the Association under the direction of the Board of Directors and shall cause accurate accounts to be kept in books of the Association of all receipts and disbursements, and shall make reports thereof at the annual meeting of the Association and at the regular meetings of the Board of Directors.

SECTION 16a. The Secretary-Treasurer shall be the incumbent of the office of Alumni Secretary of Cornell University. In such capacity he shall be the full-time executive head of the Alumni Office and as such shall supervise, under the direction of the Board of Directors of the Association, all of the activities of this Association.

ARTICLE V—COMMITTEES

SECTION 17. *Executive Committee.* There shall be an Executive Committee of ten members constituted as follows: The President of the Association, the two Vice-Presidents of the Association, the Chairman of the District Director's Committee, the President of the Cornell Alumni Fund Council, the Chairman of the Alumni

News Committee, the President of the Federation of Men's Cornell Clubs, as and when organized, the President of the Federation of the Cornell Women's Clubs, the President of the Association of Class Secretaries, and a chairman of a College alumni association elected by the Committee on College Alumni Associations. The Executive Committee shall have the power and authority of the Board of Directors between meetings. The Executive Committee shall meet bi-monthly at such time and place as it may approve.

SECTION 18. *Alumni News Committee.* There shall be a committee on the publication of the Cornell Alumni News which shall consist of five members to be appointed by the President annually. The President shall appoint a chairman subject to the approval of the Board of Directors. This committee shall have full responsibility and authority to arrange for the publication of the Cornell Alumni News.

SECTION 19. *Committee on Alumni Trustee Nominations.* There shall be a Committee on Alumni Trustee Nominations to be composed as follows: one each to be chosen by and from the Alumni Trustees of the University, the regional directors of the Cornell Alumni Association, the Association of Class Secretaries, the Alumni Fund Council, the Federation of Cornell Women's Clubs, and each College Alumni Association. The members of such committee shall serve for terms not to exceed four years under a staggered schedule to be determined by the Executive Committee. The purpose of this committee is to stimulate greater interest in Alumni Trustee nominations through the various alumni groups without in any way interfering with the system provided in the Charter of the University.

SECTION 20. *Committee on College Alumni Associations.* There shall be a Committee of College Alumni Associations composed of the presidents of the several college, school, and departmental alumni associations of Cornell University as hereinbefore defined in Article III, Section 5. Its function shall be to further the participation of the several college, school, and departmental alumni associations in the Cornell Alumni Association. This Committee shall elect a chairman who shall be a member of the Executive Committee of the Alumni Association.

SECTION 21. *Committee of District Directors.* There shall be a Committee of District Directors which shall elect a chairman who shall be a member of the Executive Committee of the Association. This Committee shall promote coordination between the districts, and such organization, procedure, and developments within the several districts as may be found desirable in advancing alumni interest and activity.

SECTION 22. *Committee on Secondary Schools.* There shall be a Committee on Secondary Schools composed of five members appointed annually by the President of the Association. The appointments of the chairman and vice-chairman, who shall be a woman, shall be subject to approval of the Board of Directors. This committee shall be concerned with obtaining well-qualified students for the University.

SECTION 23. *Committee on Alumni Placement.* There shall be a Committee on Alumni Placement composed of seven members appointed annually by the President, two of whom shall be women. The President shall appoint its chairman. This committee shall advise with and report to the Director of the University

Placement Service on all phases of alumni placement.

SECTION 24. *Committee on Election for Alumni Trustees.* (No change)

SECTION 25. *Auditing Committee.* The Board shall appoint an auditing committee of three members, one from the Board of Directors to be chairman, and the others not to be directors. This committee shall audit the Treasurer's accounts and report its audit at the annual spring meeting of the Association.

SECTION 26. The Board of Directors shall have the power to create additional committees with such membership and such powers as the majority of the Board may approve from time to time.

(Omit entire ARTICLE VI—Representation of Clubs.)

ARTICLE VI—BUDGET

SECTION 27. *Budget.* The Secretary-Treasurer shall present to the Executive Committee not later than March 1 of each year a tentative consolidated budget of the Association for the ensuing fiscal year, which shall include the estimates of income, wherever practicable, and of expenditures for the ensuing year for the Alumni Office, the Cornell Alumni News, the Cornell Alumni Fund Council, and any other closely related activities the inclusion of which the Board of Directors or the Executive Committee may approve. The consolidated annual budget and recommendations, when and in the form approved by the Executive Committee of the Association, shall be forwarded by the Executive Committee to the President of the University. When accepted by the President of the University and the Board of Trustees thereof, it shall constitute the budget for the ensuing fiscal year.

ARTICLE VII—MEETINGS

SECTION 28. *Annual Meeting.* The Association shall hold an annual meeting each year at a time and place fixed by the Executive Committee. This meeting shall be for the purpose of (1) considering and taking action upon such subjects as the members of the Executive Committee may deem wise to present to the meeting; (2) receiving and acting upon the reports of the several standing committees; (3) receiving reports of elections of district directors; and (4) carrying out such other program of activities and transacting such other business as may be brought before the meeting. At this meeting the directors shall present the annual report of the Association verified by the President and the Secretary-Treasurer, showing the total amount of real and personal property owned by it, its location and the character, cost and value of the investments; the amount applied, appropriated, or expended during the fiscal year immediately preceding such date and the purposes, objects or persons to or for which such appropriations or expenditures have been made. All members of the Association present are eligible to vote on any matter brought before the meeting. Fifty members shall constitute a quorum. Motions regularly made and seconded may be passed by a vote of a majority of the members present provided there be a quorum.

SECTION 29. *Special Meetings.* Special meetings of the Association may be held at any time on the call of the President or of the majority of the Board of Directors fixing the time and place of such a meeting.

SECTION 30. *Notice of Meetings.* Notice of the annual meeting and of any special meeting shall be published in the Cornell Alumni News at least once not later than

Cascadilla Summer School

AT ITHACA, NEW YORK

July 5—August 23

AN OPPORTUNITY:

- To accelerate preparation for college.
- To make up deficiencies in high school program.
- To develop better habits and technique of school work.

Credentials secured in August through examinations given at the school.

Students may spend part of their vacation in agreeable and stimulating environment and get ahead in preparation for what they are to do next.

Catalogue and special information on request.

C. M. DOYLE '02, Headmaster.

Tune In Again

The Grosvenor program is a good one for the busy traveler who likes the comforts of home and the fast-stepping convenience of a modern streamlined hotel.

We open with a warm welcome, our setting is historic Washington Square, our theme is hospitality and we say it with the best in food and service.

If you like top entertainment, remember to tune in at 35 on the Avenue.

Hotel Grosvenor

Fifth Ave. at 10th St.

Owned by the Baldwin Family

two weeks before the date of such meeting, together with a statement of the subjects to be presented by the Board of Directors to such meeting.

ARTICLE VIII—ALUMNI TRUSTEES

SECTION 31. *Reports by Alumni Trustees.* (No change)

ARTICLE IX—ORDER OF BUSINESS

SECTION 32. *Order of Business.* The order of business at the annual meeting shall be arranged by the President subject to the approval of the Board of Directors.

ARTICLE X—RULES OF ORDER

SECTION 33. *Rules of Order.* Roberts' Rule of Order shall be the parliamentary authority of all meetings of the Association.

ARTICLE XI—DISSOLUTION

SECTION 34. *Disposition of Assets.* Upon the dissolution or other termination of this Association, any net assets after the payment of all just debts or claims against it shall be transferred to any non-profit organization which may succeed it as the general alumni organization of Cornell University, and in the absence of such a successor organization, then to Cornell University.

ARTICLE XII—AMENDMENTS

SECTION 35. *Amendments to the By-Laws.* These By-Laws may be amended, altered or repealed at any annual or special meeting of the Association provided that notice of the intended amendment shall have been published in the Cornell Alumni News in each of the two immediately preceding issues prior to the date of such meeting, and if the amendment is to be considered at a special meeting it must also be specified in the call and notice thereof.

Respectfully submitted,
WALTER C. HEASLEY, JR.,
Acting Secretary

forced landing safely near the Burma Road with a broken landing gear. Jacob S. Fassett III '36 and Richard W. Marchant '38 are also with CNAC.

'41 AB; '42, '44 AB—Captain ★ Frank K. Finneran, USMCR, who went to the South Pacific in January, 1943, has been awarded the Bronze Star for "heroic achievement as commanding officer of a rifle company in action against the enemy on Bougainville from November 25 to December 27, 1943." His citation, signed by Admiral William F. Halsey, says that "despite difficulties presented by the jungle terrain, enemy fire, and loss of personnel, he set an example of combat leadership and maintained the security of his lines at all times." The former Varsity football and baseball star is the husband of Carolyn Evans Finneran '42, who is enrolled in the Graduate School and lives at 700 Stewart Avenue with their son, Frank K. Finneran, Jr.

'41, '42 BArch—Lieutenant (jg) ★ Frederick L. Fryer, USNR, of 3903 Livingston Street, N. W., Washington, D. C., is on sea duty.

Cornell Alumni News

'41 Sp—Sergeant **Frederick P. ★ Howe**, USAAF, is in England and writes that he "likes the country and its people," has visited London, and spent a furlough in Scotland. Before going abroad he was trained at Stewart Technical School in New York City; Curtiss Electrical Propellor School in Caldwell, N. J.; and Hamilton Standard Propellor School in Westerly, R. I. His home is in McLean.

'41 BS; '42 BS—Captain **Ed- ★ ward M. Hulst**, USAAF, has returned from the Pacific Theatre where he saw considerable action and was awarded the Distinguished Flying Cross and the Purple Heart. He is instructing in the bombardier school at Big Springs Army Air Field, Tex. Mrs. Hulst is the former **Dorothy E. Clark** '42.

'41, '42 ChemE—Lieutenant (jg) ★ **Frederick C. Sullivan**, USNR, is engineering officer of a VF-5 fighter plane aviation training squadron at the US Naval Air Station, Jacksonville, Fla.

'41 AB, '42 LLB—Ensign **Jer- ★ rome M. Weisenthal**, USNR, is on duty in the South Pacific. His home is at 4321 Seventeenth Avenue, Brooklyn.

'41 AB; '41 AB—Mrs. Fenmore R. Seton (**Phyllis Zimmerman**) and Mrs. Paul P. Perman (**Edith Lewis**), both of their husbands being in the Army overseas, are working for British Broadcasting Corp., 630 Fifth Avenue, New York City. Mrs. Seton is in the traffic department handling servicemen's shows, and Mrs. Perman is doing research.

Supervised Recreation
For YOUR Youngster

There are approximately 200 boys' and girls' camps in New Hampshire. In natural surroundings, they are unsurpassed. Carefully chosen members of Supervising personnel provide experienced, sympathetic guidance for your boy or girl. This year, especially, your child needs the finest summer possible! Address State Planning & Development Commission, Capitol Street, Concord, N. H., and ask for Camp Bulletin 302.

Cornell Records

Two recordings of all the familiar Cornell music are still obtainable, in limited quantity. One is by the Cornell Band; the other of the University Chimes: each a twelve-inch record, two sides. While they last, \$1.25 each including tax, packing, and delivery within the United States. Send your order, with payment, to:

Cornell Alumni Association
3 East Avenue Ithaca, N. Y.

'42; '12 LLB—Lieutenant **Henry ★ A. Carey, Jr.**, USNR, saved the life of a pilot shot down off Palau by dropping a life raft to him. The report said, "Carey's own rubber raft was packed between him and the parachute on which he sat in his close-fitting cockpit. Somehow he wriggled out of his harness, half stood in his fighter plane, cut the binding cords and tugged the boat from beneath him. Fellow pilots said they'd never heard of such a stunt." Carey is the son of **Henry A. Carey '12** of 106 Dunmore Place, Ithaca. He is credited with ten Japanese planes and has been awarded two Distinguished Flying Crosses, the Gold Star, and the Purple Heart.

'42, '44 BS; '18 DVM—**Barbara J. Whitmore** is a child welfare apprentice taking work at the New York School of Social Service. She is the daughter of **Dr. Matthew F. Whitmore '18** of Maple Street, Addison.

'42—Lieutenant **Robert A. ★ Escher**, Naval Air Arm, is stationed at Quonset Point, R. I. He has served in the Mediterranean and in the South Pacific on the USS Wasp and was decorated with the Purple Heart. His engagement to Katherine J. Watkins of Winnetka, Ill., has been announced.

'42 AB—**Bessie B. Kaufmann** was married April 30 in New York City to Frank S. Grossman.

'42—First Lieutenant **Albert W. ★ Keller**, Field Artillery, is at Borden General Hospital, Chickasha, Okla. His home address is 434 East Fifty-second Street, New York City 17.

'42 AB, BCE—**Meir Sofair** is an assistant engineer with the War Department, US Engineers Office, Philadelphia, Pa.

'42 BS; '19, '20 BS—**Phyllis V. ★ Stevenson**, on leave from General Electric Co., Schenectady, reported May 4 at USNR Midshipmen's School, Northampton, Mass., for the eight-week WAVES officer training course. Her address is 424 Hotel, USNRMS, Northampton, Mass. She is the daughter of **Howard A. Stevenson '19**, managing editor of the ALUMNI NEWS.

'43 AB; '10 ME—**Mary L. Howell**, daughter of **Newton D. Howell '10**, lives with her family at 193 West Six Mile Road, Detroit 3, Mich., and works in the Chrysler testing laboratories.

'43 AB—**Barzillia R. Waldron** of ★ Califon, N.J., is in his junior year at New York Medical College in the Navy V-12 program.

'43; '17 AB—**Louise S. Wolf**, daughter of **Raymond J. Wolf** of 408 N. Aurora Street, Ithaca, has grad-

uated from the Boston School of Occupational Therapy after completing a twenty-seven-month war time course.

'43, '42 AB—**Trevor Wright, Jr.**, of 403 West Harrison Street, Danville, Ill., is a chemist with E. I. DuPont Co., Wabash River Ordnance Works, Newport, Ind.

'43 AB—**Shirley B. Wurtzel** of 585 West End Avenue, New York City, is an advertising assistant at Manufacturers Trust Co. in New York.

'43 BS; '17 BS—**Elizabeth A. Call**, daughter of **Robert V. Call '17**, is assistant dietitian at Balch Halls, Ithaca.

'43 BS—**Mary I. Close** was married to Lieutenant Frederick T. Bean, Dental Corps, USNR, January 29 in Freeport. They are living in Newport, R. I.

'43 BS—**Mary A. Dietrich**, re- ★ cently sworn in as an apprentice seaman in the WAVES, will report to US Naval Training School of the Women's Reserve at Hunter College, Bronx.

'43—Private **James E. Dietshe ★** is in Italy and writes, "My work in the Army is a far fling from what I had decided on in school, in that I have been working as the outfit's cook since early October; and I like the work!"

'43; '44—Second Lieutenants ★ **Frederic C. Fodermaier** of Dover Plains and **Charles H. Rathjen '44** of 114-14 120th Street, South Ozone Park, are bomber pilots, having been trained at Lubbock, Tex., Army Air Field.

'43 AB; Grad—**Margaret E. Fredenburg** and **Clifford D. Firestone**, graduate of the University of New Mexico, were married December 18, 1943, in Ithaca. They are both graduate assistants in Mathematics, and live at 523 East Buffalo Street, Ithaca.

'43—First Lieutenant **Mario F. ★ George**, pilot of the Eighth Air Force flying fortress "Miss Jeannie," has been awarded the Distinguished Flying Cross for "skillful handling of his aircraft in aerial combat." Among the operations in which he participated are those over Wilhemshaven, Germany, February 3; Frankfurt, Germany, February 4; and Rostock, Germany, February 20. His home is at 3½ Adams Avenue, Endicott.

'43—**Ralph L. Hays V, P-38 ★** pursuit plane pilot, has received the Air Medal for "meritorious achievements while participating in aerial flights in the Southwest Pacific area from March 23, 1943, to May 29, 1943. These flights included interception missions against enemy fight-

ers and bombing planes, and aided considerably in the recent successes in this theatre."

'43—Lieutenant **Ross Khan** has ★ been on active service in the European Theatre for the last fourteen months. He was wounded but is now back in action. Address him at 781 Main Street, New Rochelle.

'43 BS; '44; '15 BChem, '24 PhD ★ —**Barbara A. Larrabee** is married to **Thomas B. Johnson '44**, son of **Edgar B. Johnson '15**. Johnson is in the Army Air Forces and Mrs. Johnson's address is Box 182, Unadilla.

'43 BS—**Sylvia R. Lewis** was married to Sigmund Wilson, April 23 in Buffalo, where they now live at 1016 Amherst Street.

'43 AB—**Mary J. Linsley** has completed a secretarial course at Catherine Gibbs School, New York City. Her home is at 52 Utica Street, Oswego.

'43—**Edwin Ruda** has been in the ★ Navy since November, 1942, and is now in New Guinea with a malaria control unit. His home is at 2081 Wallace Avenue, New York City 60.

'44; '44; '45—Second Lieuten- ★ ants **Richard L. Bacorn** of 506 West Water Street, Elmira; **Theodore H. Lansing '44** of 117 South Union Avenue, Cranford, N. J.; and **William E. Frenaye III '45** of Chicopee Falls, Mass., graduated in a recent class of bomber pilots at Frederick, Okla., Army Air Field.

'44; '45—Second Lieutenants ★ **Elias W. Bartholow, Jr.** of 4208 Wickford Road, Baltimore, Md., and **Dwight M. Murray** of 821 Burnet Avenue, Syracuse, have completed training for fighter plane pilots at Eagle Pass, Tex.
