A young man's career was  
signed, sealed and delivered in

# The Envelope

WE were sitting around after lunch the other day—Bill Howell, Frank Parsons and I—having our coffee and talking about this and that, and the subject got around to how we all got started in the work we were doing.

I'd told them how winning an essay contest in school had put me on the road to being a writer of sorts instead of the engineer I thought I was going to be, and then Bill Howell explained how, as a young lad, he had become interested in architecture through watching them remodel his father's grocery store.

I turned to Frank Parsons and said, "Looks as if you're the only one here who followed his father's footsteps, Frank. Was that by accident, or by choice, or what?"

Frank tamped some tobacco in his pipe and grinned. "Well, it's quite a story, but if you're really interested, I'll tell you..."

He held a match to his pipe and puffed thoughtfully for a moment and then went on. "My dad always wanted me to go into the same business he was in, but he never tried to talk me into it. He wanted me to do whatever I thought I could do best, and let me have my own way about choosing a career.

"One day after I got out of college back in 1920, I stopped at Dad's office to tell him I was going across town to see about a job I'd heard was open at the mill. Dad said that was fine and wished me luck. Then he picked up a couple of envelopes from his desk and said, 'As long as you're going over that way, Frank, would you mind dropping this off for me?' He handed me one of the envelopes, shoved the other in his coat pocket and said, 'I want to de-

liver this one myself because it's pretty important—and it will save me some time if you take the other.'"

Frank Parsons put down his pipe and said, "I never did get to the mill that day—or any other. After I delivered the envelope I went back to Dad's office and asked him how soon I could start working for him."

Bill Howell leaned across the table and said, "What happened that made you change your mind?"

Frank Parsons smiled and said, "It was that envelope. It was addressed to a woman who lived on the way to the mill, and she opened it while I was standing there. Inside it was a check from New York Life. Her husband had died just a short while before and left her with four small children, and—well, I guess you just never know what life insurance is all about until you see what it means to people..."

Bill Howell nodded. "That was a pretty smart stunt of your father's—sending you on an errand like that, knowing that it

might be the one thing that would swing you over to being a New York Life agent like himself."

We pushed back our chairs, and as we were leaving the table Frank Parsons said, "That's the funny part of the whole thing. Dad was in such a hurry and the envelopes looked so much alike that he gave me the wrong one! He thought he'd sent me over to pay the gas bill!"

**NEW YORK LIFE INSURANCE COMPANY**  
51 Madison Avenue, New York 10, N. Y.

*Naturally, names used in this story are fictitious.*

FEW OCCUPATIONS offer a man so much in the way of personal reward as life underwriting. Many New York Life agents are building very substantial futures for themselves by helping others plan ahead for theirs. If you would like to know more about a life insurance career, talk it over with the New York Life manager in your community—or write to the Home Office at the address above.

## New Moakley House Development To Provide More Sports Facilities

**JACK MOAKLEY HOUSE**, projected since 1945 as an addition to recreational sports facilities at the University, will take form next spring as an attractive clubhouse for the start and finish of cross-country races and an additional nine holes of the University golf course adjoining the present nine holes. It will be east of Warren Road on the hill above Forest Home.

The new plan has the enthusiastic approval of John F. Moakley, who guided the track and cross-country teams for fifty years until he retired two years ago to become advisory coach, and of his many friends and University organizations who have contributed nearly \$200,000 in the last six years for realization of the memorial to him. A gift of \$40,000 from former Trustee Walter S. Carpenter, Jr. '10 for development of winter sports will also be used for the new Jack Moakley House development, with provision for a ski run and tow, and later a skating rink and tennis courts when funds permit.

### Jones '32 Adds To Golf Course

Robert Trent Jones '32, who designed the original University golf course and many other famous courses, is giving his services in designing and supervising construction to make this an interesting and challenging eighteen-hole course. It will occupy much of the farm formerly owned by the late Professor George F.

Warren '03 and bought from him by the University, principally used by the Department of Poultry Husbandry.

Of the need for the additional facilities, Robert J. Kane '34, Director of Physical Education & Athletics, points out that 20,000 rounds were played on the present nine-hole course last year by students, members of the Faculty, alumni, and their guests; whereas the usual use of most eighteen-hole golf courses is about 10,000 rounds a season. "The Cornell course is so overcrowded that it was necessary this year to take out memberships at the Ithaca Country Club for members of the Varsity golf team," he says. "Ski runs available to Cornellians are the Library slope, an unsatisfactory and hazardous location, and Tar Young Hill, a precipitous slope eight miles from the Campus, suitable only for accomplished skiers. There are only thirty-four tennis courts for more than 9,000 students. There is no skating rink. Hockey had to be dropped as an intercollegiate sport because of lack of ice on which to practice and play."

The new Jack Moakley House itself has been designed by the Ithaca architects, Carl C. Tallman '07 and his son, Robert B. Tallman '41, to be erected on the east side of Warren Road and replace the present small golf house on Kline Road. The main structure is a story-and-a-half with a lounge and mod-

ern locker rooms for Faculty and student men in one section, a snack bar off the entrance hall, and golf shop opening to a porch and terrace overlooking a putting green and practice fairway.

A central wing projecting toward the number one green will contain a large lounge and trophy room. This room is a memorial to the late Henry G. Kanzler '13, Varsity shot-putter, provided with a gift of \$25,000 from his brother, Ernest Kanzler. Photographs of other Cornellians for whom memorial gifts have been made will be hung here, with suitable inscriptions, together with large portraits of Coaches Moakley and Charles Courtney and pictures of Varsity teams.

Second floor, upstairs from the entrance lobby, will have at one end a women's lounge and locker room; at the other, a dormitory with beds for twenty-eight persons. With similar facilities in Willard Straight and Schoellkopf Halls, any visiting teams which stay in Ithaca over night can be accommodated.

Committee to raise funds for Jack Moakley House was originally headed by James Lynah '05, former Director of Physical Education & Athletics. Lynah has remained as honorary chairman, with Trustee Robert E. Treman '09 as chairman and other members Charles H. Blair '97, Edward E. Goodwillie '10, Larry Gubb '16, John L. Collyer '17, Victor Emanuel '19, and George R. Pfann '24.

## Council Board Reorganizes

CORNELL UNIVERSITY COUNCIL administrative board met in New York City, September 11, to organize for the current year and plan the first general meeting of the Council members. More than 200 alumni who have been appointed to the Council by the University Board of Trustees have been invited to meet in Ithaca, October 12, to learn of the Council's program for assisting in the long term development of the University and to organize for carrying it forward.

The administrative board re-elected Trustee Francis H. Scheetz '16 as chairman of the University Council; Jessel S. Whyte '13, vice-chairman; and Edith L. Gardner '36, secretary. Lewis H. Durland '30, Treasurer of the University, is ex-officio treasurer of the Council; Vice-president Willard I. Emerson '19 is executive director; and David Palmer-Per-

**Jack Moakley House Soon to Take Form**—Revised conception of University sport and recreational center to be named for beloved track and cross country coach of fifty years will have this clubhouse and nine more holes of University golf course, with start and finish of cross country course and other new sports facilities for students, Faculty, and alumni. Drawing is by Carl C. Tallman '07 & Robert B. Tallman '41, Architects.

son of the Office for University Development was appointed assistant secretary.

Scheetz is a member of the administrative board, ex-officio, as chairman of the Board of Trustees' planning & development committee, as is Whyte as president of the Alumni Fund Council, and Vice-president Emerson. Other ex-officio members are President Deane W. Malott, Vice-president Theodore P. Wright, and Harry V. Wade '26, president of the Cornell Alumni Association. Appointed by the University Trustees for this year are Trustees Larry Gubb '16 and Ruth F. Irish '22; Director Harry J. Loberg '29, Mechanical Engineering, and Professors Connie M. Guion '17, Clinical Medicine, Frederick M. Wells '26, Architecture, and Frank A. Long, Chemistry, from the Faculty; Willard A. Kiggins, Jr. '21, Eugene M. Kaufmann, Jr. '26, and Jansen Noyes, Jr. '39 from the Alumni Fund Council executive committee; and six alumni, Robert E. Treman '09, Harold T. Edwards '10, Harold L. Bache '16, Dr. Preston A. Wade '22, Mrs. George H.

**Francis H. Scheetz '16**—Chairman of Trustees' planning & development committee is re-elected to head the Cornell University Council.

Hill (Dorothy Lampe) '26, and Miss Gardner. Members elected by the board itself are Nicholas H. Noyes '06, Ralph H. Blanchard '17, G. Ruhland Rebmann, Jr. '19, and Henry L. O'Brien '21.

## Freshmen Get New Counselling Clubs Start Orientation at Home

ORIENTATION of Freshmen to their new life at the University began for a considerable number in their home towns when the new students were guests of Cornell Clubs at various parties to meet some of the present undergraduates and resident alumni. These affairs ranged from teas and picnic suppers of women's Cornell Clubs for new women students and their parents to dinners and evening smokers for men students and the combined parties of men's and women's Cornell Clubs of Southern California, Westchester County, and Long Island and the Cornell Club of Harrisburg, Pa. At many of the parties, undergraduates spoke and answered questions on various phases of Campus life. All served to acquaint the prospective Freshmen with the University and their home-town fellow-Cornellians.

In addition to the combined parties, members of the Class of 1955 are known to have been entertained by the Cornell Women's Clubs of Albany, Boston, Mass., Buffalo, Chicago, Ill., Cleveland, Ohio, New York City, Northern New Jersey, Philadelphia and Pittsburgh, Pa., Rochester, and Schenectady. Men's Cornell Clubs which reported parties are those of Albany and Schenectady, Buffalo, Chicago, Lackawanna, N.J., New England, Philadelphia; Richmond, Va., and St. Louis, Mo.

At home, also, the members of the Class of '55 received the traditional Desk

Book, now published under the auspices of the Student Council by a staff headed by Alfred Blumstein '51 as editor and Stephen Greenberg '53, business manager; and a booklet, "Hi Freshmen!" from the Independent Council, of which Delight V. Dixon '54 was editor.

Nearly 200 Freshman men and about 160 women reported at Barnes Hall, September 11, to go to three Freshman Camps operated by CURW. Seniors directing the men's camps were John R. Boehringer of Drexel Hill, Pa., and Lynn Bradt of St. Louis, Mo.; in charge of the women's camp was Jean L. Brown '52 of Glenside, Pa.

An intensive program of orientation on the Campus, arranged by the offices of the Deans of Men and Women and a Student Council committee headed by Arthur W. Mellen '52, began for all Freshmen, September 14. The new Class was welcomed at a convocation in Bailey Hall that night by President Deane W. Malott and by the two Deans and the presidents of WSGA and the Student Council. College meetings and receptions were interspersed for several days with many and sundry official examinations, both mental and physical, with the Willard Straight Hall open house and separate meetings for men and women Freshmen Saturday night; a CURW show in Bailey Hall Sunday night; a Freshman Rally there Monday night with stunts and entertainment; a

Class dance in the women's dormitories Tuesday night; and the annual receptions in Ithaca churches after classes started, Wednesday.

### Upperclassmen Counsel Freshmen

New feature for Freshmen this year, both men and women, was a staff of about 120 students, principally upperclassmen, who volunteered to act as "orientation counsellors." Each was assigned to live in the dormitories with a small group of from eight to fourteen Freshmen, to stimulate and lead discussions that would help Freshmen to make the most of their life at the University, eat with them and take them on hikes around the Campus, arrange for "dates" with others of the Class and for their groups to meet Faculty members, answer their questions and give help with all problems met in the new environment.

These counsellors were selected last March after interviews conducted by a committee of the Student Council headed by Richard J. Golinko '52 and were trained for their jobs under leadership of Robert O. Shaffer, PhD '51, assistant to the Dean of Men. They all came back ahead of the Freshmen to spend two days, September 12 and 13, at Mt. Pleasant Lodge for final "briefing" with aid of a summary "Handbook" prepared by Shaffer for summer study.

To facilitate the new program of early and intimate counselling in small groups, virtually all Freshman men this fall were given rooms in the University dormitories; Freshman women, as usual, are in Clara Dickson and Prudence Riskey Halls. Both groups have again a smaller staff of carefully-selected and trained permanent student counsellors who live in the respective dormitories throughout the year, getting their own rooms in return for their services.

### Westerners Gather

CORNELLIANS in Southern California joined with other Ivy League alumni and with alumnae of the colleges in the Seven College Conference in giving a dance for students entering or returning to their schools, August 15, in the Beverly Hills Hotel.

Irland Davis '08, president, and Will D. Templeton '42, vice-president of the Cornell Club of Southern California, were on the general committee for the send-off party. Six Cornell undergraduates attended. Other guests were about to enter or return to Columbia, Dartmouth, Harvard, Pennsylvania, Princeton, Yale, Barnard, Bryn Mawr, Mt. Holyoke, Radcliffe, Smith, Vassar, and Wellesley.

Pictures and announcement of the party occupied most of the first page of the society section of the Sunday Los Angeles Times, August 12.

**William C. Geer '02 Honored**—One of the country's foremost rubber chemists, Dr. Geer (right) receives at the annual meeting of the American Chemical Society the Charles Goodyear Medal for outstanding service to rubber science from John H. Fielding, chairman of the Society's division of rubber chemistry. He has given the University the William C. Geer Laboratory of Rubber and Plastics in the School of Chemical & Metallurgical Engineering.

*Ithaca Journal—AP*

## Heads State University

CHARLES GARSIDE '21 became, September 1, acting president of the State University of New York. A member of the board of trustees since the State University was established in 1948, he will serve until a successor is named to President Alvin C. Eurich, who resigned to join the administration of the Ford Fund for the Advancement of Education.

The State Colleges of Agriculture and Home Economics, the Veterinary College, and the School of Industrial & Labor Relations at Cornell are divisions of the State University.

President since 1950 of the Associated Hospital Service of New York (Blue Cross), which he will continue to head, Garside has been a member of the executive committee of the board of trustees of the State University and chairman of the board's committee on medical education centers. He was formerly a member of the advisory council of the department of economic and social institutions at Princeton, where he received the BS in 1923, and is now on the advisory council of the department of history. He is a member of the advisory committee to the Ditson Fund, Columbia University; a trustee of the Citizens' Budget Commission; and a director of the Hospital Council of Greater New York. He is a member of the American, New York State, and New York City Bar Associations.

Garside received the LLB at Cornell

and entered law practice in New York City. From 1934-36, he was justice of the New York City Municipal Court and from 1947-49, chairman of the New York State Commission against Discrimination. He served in the US Marine Corps in World War I and in World War II was a colonel in the General Staff Corps of the US Army, serving as the Army member of the joint Army-

Navy board for training-unit contracts. He was also assistant director of the purchase division of the Army Service Forces and director of the international division of the Medical Department Supply Service. He lives at 1148 Fifth Avenue, New York City.

Seventeen other Cornellians are known to be now heads of colleges and universities.

## Geer '02 Gives Rubber Laboratory Receives Chemical Society Medal

WILLIAM C. GEER LABORATORY of Rubber and Plastics was opened last month at the School of Chemical & Metallurgical Engineering in Olin Hall. The center is named for William C. Geer '02 of Ithaca, one of the country's foremost rubber chemists, who gave equipment from his own laboratory, funds for additional apparatus, and a valuable library on rubber processing.

President Deane W. Malott describes the Laboratory, which will be in charge of Professor Charles C. Winding, Assistant Director of the School, as one of the first of its kind among American colleges and universities. It will be used not only for instruction, but to develop new information about rubber and plastics for the benefit of industry, the government, and the general public.

The equipment given by Dr. Geer makes a complete unit for producing, vulcanizing, and testing rubbers. When finally equipped, the Laboratory will be able to start with raw materials, turn out finished products in synthetic rubber and plastics, and subject them to various tests. Research will be concentrated largely on problems of synthetic rubber. Similar work has been under way in the School since World War II. Besides its use by members of the School staff, the Laboratory will be used for group research projects required of undergraduates in their fifth year in the School and for advanced laboratory courses for graduate students.

### Headed Goodrich Research

Former director of research for B. F. Goodrich Co. in Akron, Ohio, Geer received the AB in 1902 and the PhD in 1905 and was instructor in Chemistry from 1904-06. More than forty patents have been issued on his discoveries. He is best known for his invention of the airplane de-icer, one of the chief contributions to aviation safety. He also developed vulcanized covers for golf balls, the Vulcalock process of bonding rubber to metal, the Geer oven for the accelerated aging of rubber samples, and a method of "pelleting" carbon black for use in rubber compounds.

He joined Goodrich in 1907 as chief chemist and in 1918 became vice-president in charge of research and development. He was a director of the company from 1916-28, although he withdrew from executive activities in 1925 to devote his time to private research which he has carried on in his Ithaca laboratory. He is the author of *The Reign of Rubber*; is a fellow of the American Association for the Advancement of Science and the American Institute of Chemists; an honorary member and fellow of the Institution of the Rubber Industry (British); an associate fellow of the Institute of Aeronautical Sciences; and a member of Sigma Xi and several professional societies. He was chairman of the gas defense division of the War Service Committee in World War I. In 1940, he received a "modern pioneer" award from the National Association of Manufacturers.

### Receives Goodyear Medal

Another honor came to Dr. Geer, September 6, when he was awarded the Charles Goodyear Medal for outstanding achievements in rubber science, at the seventy-fifth annual meeting of the American Chemical Society in New York City. Speaking on "Strategy in Rubber Research," he told Society members that the objectives of 1951 rubber research are to "provide and produce within the continental United States all the raw materials required by the rubber industry." The objectives, he said, also include production of these raw materials from basic materials native to this country that would not be needed for other more important uses in time of war. "Self-sufficiency is advocated, but not as a means of antagonism toward the nationals of any other country," he declared. "This country prefers friendship and cordiality to animosity and bitterness. The responsibility is ours to protect and preserve our strength and to pass on to our children an unsullied heritage of freedom, for only the strong can be wholly free and only the wholly free can be strong. Whenever this country loses its power, all the free governments of the world will collapse. . . . We are still a free people. Association in re-

search can be a most potent contribution of the rubber industry toward the preservation of that freedom.”

### Tennis Greats

EDITOR: Talk about the Saturday Evening Post, and their timely articles! Only a few weeks following your sports story on Francis T. Hunter '16, and Dick Savitt '50 wins at Wimbledon!

—GEORGE C. BRAINARD '28

### Bearded Scholars

EDITOR: Now it may be told with impunity. Twenty-odd years ago on the Cornell scene there were three bearded scholars: one a fiercely-black-bearded classical scholar; another, a red-bearded entomologist; and last, a spade-bearded mathematics professor who had a habit of jumping up and down when excited. Among us, irreverent graduate students that we were, the three were known as “The Great Black Jesus,” “The Pink Jesus,” and “Little Jumping Jesus.”

This is all history. The first scholar is bearded no more; the beard of the second has turned grey; and the third wears a mild mustache. Believe it or not, the first mentioned was seen swigging beer in the '26 Class Reunion tent.

I can always laugh myself sick when I recollect their bearded pride.

—FREDERICK R. HIRSCH, JR. '26

### Urges White's Ideas

EDITOR: You are, of course, aware that among the voluminous writings of Andrew Dickson White is his small book, *Fiat Money Inflation in France*, which clearly portrays the dishonesty of a nation that tampers with the “value” of its currency, such as our political leaders did in 1933; and with which resulting unsound money we have been saddled ever since. It is safe to say that if he were living today, no man would be more active toward getting this nation back on the gold standard than Dr. Andrew D. White.

Based upon a somewhat detailed study of this subject during the last few years, I am thoroughly convinced that the most potent cause of the “inflation” which this country is experiencing today—and the cause of which is being attributed to almost everything other than the real cause (as similarly expressed in Dr. White's book)—is the irredeemable paper money with which we have been operating since 1933.

I have yet to meet a Cornellian who doesn't regard Andrew D. White, and rightly so, as one of the few great Americans that this nation has yet produced;

and I can think of no effort more fitting for Cornellians to be engaged in than that of actively influencing public opinion toward a return to sound money. I have had some correspondence along this line with President Malott, John L. Collyer '17, and my own Class secretary, Winthrop Taylor '07; and while all have evinced some interest and a feeling that something ought to be done, I gain the impression that, due to the many calls upon their time, they are not likely to lead off in initiating a crusade of this sort. They have given some evidence, however, that if such a crusade were to be started among Cornellians, it would be quite certain to receive their sympathetic support.

It would seem to me to be a constructive move to recommend to Cornellians that we do a little promoting of the monetary ideas of Andrew D. White, from coast to coast. As Connecticut State Chairman of the Gold Standard League, I wrote on this subject in *The Commercial and Financial Chronicle* of July 27, 1950 and August 30, 1951. Reprints of these and other articles on the subject may be obtained by writing me at 2009 Chapel Street, New Haven 15, Conn.

From the standpoint of timing, it is well known that Andrew D. White was a lifelong Republican; that from the founding of the Republican Party in 1854, the sound gold-standard principles

were consistently Republican policy; and that it was the Democrats who tried to ditch the gold standard in 1896 and succeeded in doing so in 1933. Prompt action by Cornellians, therefore, could probably result in getting a sound-money plank in the 1952 Republican platform and could lay the foundation for a return to the gold standard in 1953.

The importance of these sound-money principles was clearly recognized by our great Founder when he said: “There are financial laws as real in their operation as those which hold the planets in their courses.”

—FREDERICK G. SHULL '07

### In President's House

EDITOR: Once upon a time, I think it was in 1918, I had the good fortune to spend an evening with Dr. Andrew D. White in his big house on the hill above East Avenue. He told me something about the house that should have a place in its history, and that I believe has not hitherto appeared in print.

One day when I was walking across the Quadrangle with Anna Botsford Comstock, we met Dr. White on one of his frequent strolls there, and she introduced me to him. Some days thereafter, I met him again there and I ventured to ask him a question about the island of Santo Domingo. I knew that he had

**Sigma Alpha Mu “Boys” Take Care of “Ma”**—Twenty-five alumni of the Cornell fraternity chapter gathered in New York City, June 27, for a dinner in honor of their first cook and housemother, Mrs. Carrie Warner. Now ninety-one, Mrs. Warner, who was at the SAM house from 1914-22, was found living on relief in Middletown by Mrs. Betty Brooks (center, wearing white hat), a social worker. She was toasted and cheered, given a silver locket and chain bearing the fraternity seal, and told that 150 alumni members of the chapter had formed the Ma Warner Foundation to support her for the rest of her life. Mrs. Warner said “This is the happiest moment of my life” and when she cut the cake she told them, “With every piece of this cake goes Mother Warner's love for her precious boys.” Abraham I. Covell '16 (at her right) was chairman of the dinner. Mrs. Warner's son, Douglas (at far left) was the fraternity's first waiter. July 5, Mrs. Warner was a guest on the Bill Slater television show.

visited that island when he was a member of President Grant's Commission on the Annexation of Santo Domingo to the United States. I told him that I was planning to spend a vacation there and would like to ask him a few questions about it. He said, "Come to my house tonight and we will talk about it."

Needless to say, I went! He greeted me pleasantly and before we sat down he pointed to the words—SAMANA 1871—cut in the face of the mantelpiece above the fireplace. And when we were seated before it, he told me its story, substantially as follows:

The village of Samana was one of the first landing places of the Commission on the island. It is situated at the head of the Bay of Samana, a splendidly sheltered deep harbor near its northeast corner. He and other Commissioners and their aides were met there by President Baez (about whom he had much to say) and other officials of the Dominican Republic. When ceremonial introductions and salutations were accomplished, Dr. White asked his hosts to show him a mahogany tree. He had never seen one. They were not satisfied to show him *any* mahogany tree; they took him out in the country and showed him the finest one in that vicinity.

It so happened that the tree stood on the land of a farmer who, they found, was willing to sell it. So, Dr. White bought the tree, had it felled and cut into logs and shipped to New York, to be sawed into lumber and cured, and later, manufactured. The trim of the fireplace before which we sat was made from part of it; also other heavy pieces of fine solid hand-made furniture elsewhere in the house.

I learned later that Santo Domingo boasts of producing the finest mahogany in the world.

Two bronze (?) tablets have been added to the face of the fireplace, one at each side, recording the presence before it at different times of Presidents Ulysses S. Grant and James A. Garfield.

—JAMES G. NEEDHAM, PhD '98

## Two Clubs Elect

CORNELL CLUB of New York president for this year is Rudolf M. Triest '12. Vice-presidents are Edwin T. Gibson '08, Victor Emanuel '19, Walter L. Pate '99, Henry B. Close '05, and Ezra Cornell III '27. John H. Norris '33 is secretary and Max F. Schmitt '24, treasurer.

Officers for 1951-52 of the Cornell Club of Chicago, Ill., are Rudolph E. Prussing '04, president; Erskine Wilder '05, vice-president; Shirley C. Hulse, Jr. '37, secretary; and Daniel J. Coyne III '43, treasurer. New directors are James J. Munns '14, Daniel H. Callahan '29, and James S. Perkins '33.

## Now In My Time!

*Percy Perry*

ABOUT NOW, you'd naturally expect something to be said here about football. But not this year! Football got itself sufficiently talked about during the summer; and by Senators. It does not now seem necessary for this observer to make his annual contribution to the literature of the game. From here on, we'll let the team function as its own press agent.

But there's one related item, not touched upon by the Senators, which we regard as worthy of your attention. That's the new helmets worn this year for the first time by the Cornell players. These were not designed by any manufacturer, but are the outgrowth of prolonged studies made jointly at the Medical College in New York and the Aeronautical Laboratory in Buffalo, in an effort to reduce injuries in flying accidents. Some claim that when he's wearing one of these headpieces you can kick a player in the skull without his being aware of anything more than a slight buzz.

All this is important, if true. But to an Old Timer, it is the striking feature of the story that for the first time in recorded history somebody connected with a university's research has shown any interest in what happens to a football player when he gets his head kicked in, or even off.

Through the decades, a good many dissertations offered in partial fulfillment of the requirements for the degree of Pee Aitch Dee have dealt exhaustively with matters of less importance to humanity than the gradual development of football armour.

In *my* time, the protection of his own skull was the responsibility of the player himself. Like the caveman, he attempted to meet it by raising a tremendous thatch of his own hair. Those flowing locks displayed in the team pictures of the middle '90's represented no more than the pathetic and futile efforts of the individual to avoid skull fractures and concussions of the brain. A derby hat worn well down on the ears would have proved a more effective protection, of course, but hair was cheaper, more readily acquired, and less likely to produce jeers from the spectators. After hair came leather casques lined with felt, which helped a little, and then by degrees the hard sole-leather helmets

which served the double purpose of protecting the wearer and putting out of action the inept tackler who got butted in the abdomen.

The whole theory of football armour has been reversed in the half-century in which your reporter has been observing the vagaries of the game. The visible garments have become no more than gossamer fabrics worn in deference to the rapidly-disappearing demands of modesty. The protective armour is attached to the person nowadays. In *my* time, it was the other way 'round, with pads sewed into the uniform over all the more tender and vulnerable portions of the player's anatomy. That was satisfactory under the existing standards, but only on a dry field. In the rain, the old padded equipment sucked up water like a piece of blotting paper and each player was carrying twenty pounds of excess baggage by the first half-minute of play and before he'd started to breathe hard.

The change began, I think, with the arrival of Mr. Percy Haughton as head coach in the fall of 1899 and a plague of "poop legs" resulting from blows on the front of the thigh. Mr. Haughton immediately put everybody into form-fitting cotton panties into which had been sewed thin aluminum plates over the thighs. He also did away with heavy leather shoulder-pads and substituted papier maché ones held in place by surgeon's plaster. The players didn't like the changes much—regarded them as sissy—but they marked, I think, the start of modern armour.

Improvements came slowly and were developed by the trial-and-error method. Coaches and trainers yearned to produce some new device that could be patented and sold to a manufacturer. But most coaches and trainers were limited in their knowledge of mechanics and human anatomy. Their improvements were ingenious, but seldom basic or revolutionary. More can be expected from the cooperative research of medical men and aeronautical engineers who can look to the Air Force and the passenger service to supply the human guinea pigs to prove the efficiency of the new armour before it is applied to football players. Football players as a group object to being guinea pigs for medical men and engineers. It distracts them and keeps them from concentrating on avoiding mousetrap plays!

# Name Bristow Adams Scholarship To Be Endowed by Sun Alumni

CORNELL DAILY SUN board of directors is undertaking the endowment of one or more National Scholarships to be named for Professor Bristow Adams and to provide a retirement income for Miss Jessica Holland, who has managed The Sun office for many years.

With advice from several Cornellians who were members of The Sun board as undergraduates, the directors will establish the Bristow Adams National Scholarship Endowment at the University. With an objective of \$25,000, contributions are being sought from former members of the editorial and business boards of The Cornell Daily Sun, to be made to Cornell University. The Fund will be administered by the University, the income to be first used in monthly payments to Miss Holland for life. Thereafter, the Endowment will support one or more Bristow Adams National Scholarships of at least \$600 a year to be awarded by the University to entering students for the entire undergraduate course, subject to satisfactory academic record.

## Adamses Foster Journalism

Bristow Adams Scholarships will be named in recognition of the journalism courses which Professor Adams organized and taught in the College of Agriculture from his coming to the University in 1914 until he retired as professor emeritus in 1944, and of his many years of inspiration and guidance of students working on The Sun and other undergraduate publications. It is suggested that preference be given to Freshman men or women who have shown unusual ability as editors of school publications and to those who plan their major University studies in the humanities, especially English literature, or journalism.

At Stanford University, where he received the AB in 1900, Professor Adams founded The Chaparral, undergraduate humor magazine, and earlier, in Washington, D.C., he was a co-founder and the first editor of Pathfinder magazine. He came to Cornell in 1914 as editor of publications and head of the Information Service of the College of Agriculture, and started the only courses in journalism and advertising given in the University. He was active in organizing the Cornell chapter of Sigma Delta Chi, professional journalism fraternity and was its patron and adviser for many years. Monday nights at the Adams home at 202 Fall Creek Drive have been the regular gathering place for several generations of students, especially those working on the publications, and Professor and Mrs. Adams have given gen-

erously of their friendship and hospitality to hundreds.

He also became widely known and respected by editors and publishers of newspapers throughout the State and was elected a director for life of the New York Press Association. He taught journalism at Colorado State College three summers, and since he became professor of Extension, emeritus, he has taught journalism in the University Summer Sessions and a course in public relations in the School of Industrial & Labor Relations. He started and is editor of The Cornell Plantations quarterly and has been Faculty adviser of The Widow; is a member of the Ithaca Common Council and acting mayor. He is a member of Alpha Gamma Rho, Sigma Xi, the Savage Club and Quill & Dagger. He and Mrs. Adams are the parents of Mrs. Gertrude Adams Turner '26, Eleanor Adams '29, Everett W. Adams '35, and Benjamin B. Adams '35.

## Started for Miss Holland

At The Sun office on State Street since 1910, Miss Holland has been a continuing link in the business management of the student newspaper and friend and adviser to a long succession of undergraduate board of both managers and editors. Literally hundreds of former Sun board members know and remem-

ber Miss Holland as their friend, and at Reunion times and whenever they visit Ithaca they call on her at The Sun office. It was a recent editor-in-chief whose generous gift from his first pay check after he left the University, sent to the board of directors "to do something for Miss Holland," that started the idea which has culminated in the Bristow Adams National Scholarship Endowment. Chairman of The Cornell Daily Sun board of directors is Foster M. Coffin '12. The Sun editor-and-chief, business manager, and three others of the student board are members, along with Ralph C. Smith '15, A. Wright Gibson '17, H. A. Stevenson '19, and Robert W. Storaandt '40.

## Adams '93 Aids Freshmen

SPENCER L. ADAMS '93 has made a gift to the University to endow two scholarships of \$800 a year each for four years for Freshman men entering the College of Arts and Sciences. The first Spencer L. Adams Scholarship will be awarded to a Freshman entering next fall; the second will begin in September, 1953. Provision is made for surplus income to be added to the endowment and to provide later for additional awards.

Adams has requested that preference be given to students who will major in the humanities, foreign languages, or economics. Candidates for the Adams Scholarships may obtain application blanks from the Scholarship Secretary, Office of Admissions, Cornell University.

These are the first scholarships to be

**Friends of Cornell Journalists**—Professor Bristow Adams, Extension, Emeritus, consults with Jessica Holland at The Sun office. Sun alumni will establish at the University the Bristow Adams National Scholarship Endowment, named for their long-time friend and set up to provide a life income for Miss Holland when she retires from the Sun.

Maurer '49, College of Agriculture

offered specifically for Freshmen in the College of Arts & Sciences. The only others open only to undergraduates in that College are three George C. Boldt Scholarships of \$400 each, for Senior men, given by George C. Boldt, Jr. '05 in memory of his father; and one of four Cornelia L. Hall Scholarships of \$120 a year for women, given by Mary F. Hall in memory of her mother.

Adams received the AB in 1893, was president of his Class, manager of the Glee, Banjo & Mandolin Clubs, captain in the Cadet Corps, and is a member of Sphinx Head. He received the LLB at Yale in 1895, was admitted to the Bar the next year, and practiced law in Chicago, Ill., for forty years. He was twice president of the Cornell Club of Chicago. After his retirement in 1935, he and Mrs. Adams travelled extensively, then returned to live in Skaneateles, where his grandfather had settled from New England in 1827. In 1947, they moved to his present residence at 967 Garcia Road, Santa Barbara, Cal. Mrs. Adams died in September, 1950. Adams has practiced photography as a hobby and is the author of two books, *Old Scenes in Autumn Colors*, and *The Long House of the Iroquois*.

## Discuss Fruit Marketing

CORNELLIANS took active part in two summer meetings on fruit marketing.

Secretary of the International Apple Association, which met in New York City, August 13-15, is Samuel Fraser, MSA '05, of Geneseo; treasurer is Carl G. Wooster '12 of Union Hill. A panel on marketing was opened by Professor Marius P. Rasmussen '19, Agricultural Economics, discussing "The Economic Outlook for the 1951 Crops of Apples and Pears." Also at the convention were Colonel L. Brown '19, crops and markets editor of *The Produce News*, New York City; James F. Solley, Jr. '29 of Baltimore, Md., president of the National League of Wholesale Fresh Fruit & Vegetable Distributors; Floyd F. Hedlund, PhD '37, assistant chief, fruit & vegetable division, Production & Marketing Administration, US Department of Agriculture; Richard T. Meister '40, assistant editor, *American Fruit Grower*, Willoughby, Ohio; and Paul W. Barden '41, in crop insurance in Glens Falls.

Professor Rasmussen presided at a meeting of the Northeastern Regional Fruit Marketing Technical Research Committee in Warren Hall at the University, August 27 and 28, and Director Arthur J. Heinicke, PhD '16 of the Geneva Experiment Station was administrative adviser. Visitors included Charles H. Merchant '20 of University of Maine; D. Victor Lumsden '21, US Office of Experiment Stations; Everett P. Chris-

**Thirteenth Cornellian Heads ASEE**—Dean S. C. Hollister (seated at right) at the annual meeting of the American Society for Engineering Education, where he was elected president for 1951-52. Dean Francis M. Dawson, MCE '13, of the State University of Iowa at Iowa City (standing left) was Dean Hollister's predecessor. Eleven others of the Society's fifty-seven presidents since it was founded in 1893 have been Cornellians. Dean Hollister is pictured on the cover of *Engineering News-Record* for August 9 and the magazine describes him as "prime mover in the drive to assure an adequate supply of trained engineers to man the nation's defense effort and keep its civilian plant in top condition." He has been appointed to a national Committee on Specialized Personnel of fourteen leaders to advise the US Office of Defense Mobilization on "appropriate measures" for training and using scientists and technical personnel in the defense effort.

topher, PhD '34, University of Rhode Island; V. Howard Nicholson, PhD '43, US Production & Marketing Administration; and Russell L. Childress, PhD '51, University of Maryland. Attending from the Agricultural Economics Faculty were Professors Maurice C. Bond, PhD '28, and Max E. Brunk, PhD '47, and Lloyd H. Davis '42 and Walter B. Hinkle, MSA '49.

## Get Harvard Degrees

THIRTY-FIVE CORNELLIANS were awarded advanced degrees at Harvard last June.

Fourteen received the Master of Business Administration: Clyde H. Loughridge, Jr. and Harold P. Sipperly '43; William G. Whitney '44 (with distinction); Stewart E. Lauer, Jr. '45; John C. Colman (with high distinction), Lucius B. Donkle, Jr., Charles H. Reynolds, Jr. of the Class of '48; Harry H. Beahm, Robert P. Crease, John W. Darley, Jr. (with distinction), Franklin J. Lesh, James R. Pendry, Richard M. Spurgeon, and Harry F. Rice, Jr. of the Class of '49.

Nine were granted the LLB: Hans A. Adley '42; Hugh A. Chapin and Jerome G. Rose (cum laude) '47; Jerome G. Ackerman, Arthur J. Flamm, Harold

M. Guzy, Nathan J. Siegel, Philip E. Silverberg, and Jerrold M. Sonet of the Class of '48.

The AM was awarded to five Cornellians: Lowell J. Chawner '31, Richard M. Tynan '43, Norton T. Dodge '48, Irwin I. Shapiro '50, and William N. White '50. William Craig (Willi Krakenberger) '40, Myron Brin '45, and James E. Storer '47 received the PhD. Drs. Robert I. Hood '30, Henry Maxwell '41, and Joseph Puleo, Jr. '50 were granted the Master of Public Health. The Master of Public Administration was awarded to Irving H. Sabghir '47.

## Study Food Management

THREE JUNE GRADUATES of the College of Home Economics started in July a twelve-month course as dietetic interns in the food services of Eastman Kodak Co. in Rochester. Upon completing the course, they will receive American Dietetic Association pins and certificates of membership qualifying them to serve as food managers and teachers of industrial nutrition. The Cornellians are Ruth C. Ambler of Albany, Margaret H. DeLong, daughter of Homer C. DeLong '19 and Mrs. DeLong (Florence Axtell) '16, and Elizabeth J. Emerson.

## On The Sporting Side

### Coach James Tells All!

THE SUN has already set on the season's first football test, with Syracuse, and whether it descended in smiling radiance or in shameful retreat happened too late to be recorded in these pages. Perhaps it may be anticlimactic, therefore, to register here the transcript of an interview given before that game by Coach George K. James to a nosey guy who was taking advantage on a busy day of the unfailing amiability of Mr. James to get a little "inside" on the Cornell football situation. Nevertheless, in the interest of historical record and as our duty to our loyal readers, here it is:

*Nosey Guy:* Do you, Mr. James, consider your 1951 squad as strong as last year?

*Mr. James:* With a few exceptions, yes. I am hopeful that greater offensive strength will make up for weaknesses that may appear in the defensive backfield as a result of the losses of Taylor, Haley, Gaige, Kostes, and Fleischmann.

*N.G.:* Do you mean to say you expect the offense to be stronger than last year?

*Mr. J.:* Well, yes. Principally because the line is coordinating better. But we are going to miss Fleischmann at fullback, whom I consider one of the finest football players I ever coached, and Pierik at center, Sampson at end, Ramin at tackle, and Di Grande at guard. Those were all great players.

*N.G.:* Any injuries?

*Mr. J.:* Lord, yes! Fratt is out for the season and Pujo, Engel, Hull, Kasserman, Pyott, Metzler, and Quinby are all bothered with annoying minor hurts.

*N.G.:* How's the spirit?

*Mr. J.:* It seems to be excellent. The squad picked up where it left off after the Penn game last year. The older boys have set a fine example for the younger ones. If the spirit is as good as the last three years, there will be no fault to find, I can tell you!

*N.G.:* Do you plan to use the two-platoon system?

*Mr. J.:* We like the two-platoon idea for Cornell. It gives more boys a chance to play and the boys themselves are all for it. I expect to train Gerdes, Sebald, MacLeod, D'Agostino, and Whelan to play both offense and defense, but other than this it will be two platoons.

*N.G.:* How about the T formation?

*Mr. J.:* This year, as in the last three,

we plan to use a T type of offense; that is, with the use of flankers, wings, and men in motion, incorporating these T maneuvers with the blocking of the single wing.

*N.G.:* Do you consider spring practice essential to good football at Cornell?

*Mr. J.:* Without spring drills to work on fundamentals, Cornell football would show a definite decline. The only opportunity we have to work with new candidates and poorly-trained ones is in the spring. Without it, we never would have been able to use men like Jerome, Gaige, Taylor, Marchant, Sampson, Haley, and Micklavzina.

*N.G.:* How many minutes a day does the team have to practice during the school session?

*Mr. J.:* It is impossible to get in more than ninety minutes a day, and many boys never have that much. Classes are over at 4:30 and we arrive on the field about 5, quit at 6:30. I find ninety minutes sufficient, though.

*N.G.:* How do you compare Ivy football with other football played in the country?

*Mr. J.:* Ivy football during the last four years has steadily improved until now I believe its first four teams are on a par with the best four teams from any

other conference or area of the United States.

*N.G.:* How do you like the 1951 schedule?

*Mr. J.:* I like it. It's the most difficult of any since I came to Cornell in 1936, but if we can match the opposition physically, I don't mind. Syracuse, Pennsylvania, Yale, Dartmouth, Colgate, Harvard, and Columbia will be greatly improved, and of course Princeton is expected to be as good as last season, which is very good indeed. Then there is Michigan, Rose Bowl and Big Ten Champion. Nuf said!

*N.G.:* How many games will we win?

Here came a shrill blast from the coach's whistle, a deafening shout from eighty exuberant throats, and a thundering horde of red jerseys stamped to the scene of this tete-a-tete and a panic-stricken little guy with a notebook and pencil wasn't there!

### Sons Play Football

TWELVE CORNELL SONS are on the Varsity football squad for 1951, two of whom are third-generation Cornellians (see photograph).

Francis O. Affeld IV '52, Arts, end, is the son of Francis O. Affeld III '26 of West Chester, Pa., who was Varsity center himself for three years and captain of the wrestling team and intercollegiate heavyweight champion. The player's grandfather is Francis O. Affeld, Jr. '97, who was baseball captain and infielder. Charles K. P. Fratt '53, Electrical Engineering, holds a National Scholarship. He is the son of Norbert O. Fratt '28, a Varsity halfback, and grandson of the late George M. Emory '90.

**Sons of Alumni Line Up at Schoellkopf**—Twelve second-generation Cornellians are on the Varsity football squad this year. Backs pictured are (left to right) Stuart O. Merz '52, Herbert J. Bool '54, Lyndon C. Hull '52, and John G. Dorrance '52. From left on the line are Francis O. Affeld IV '52, Charles K. P. Fratt '53, James D. Quinby '53, Carl S. Dudley '54, Thomas S. Kohm '54, John H. Martin '54, and Walter P. Knauss, Jr. '53. The twelfth son, Herbert L. Pick, Jr. '52, returned late from a Naval ROTC cruise.  
*Goldberg, Photo Science*

Of the Seniors, Lyndon C. Hull, Mechanical Engineering, halfback, is the son of William G. Hull, Jr. '22 of Tupper Lake; John G. Dorrance '52, Mechanical Engineering, a defensive back, is the son of Judge Henry T. Dorrance '20 of Utica; Stuart O. Merz '52, I&LR, holder of a National Scholarship, is the son of Harold O. Merz '22 and the brother of Norman Merz '47 of Elberon, N.J. Herbert L. Pick, Jr. '52, Engineering Physics, a guard, is the son of Herbert L. Pick '27, of Orange, N.J., former member of Varsity football and wrestling squads.

Juniors are Walter P. Knauss, Jr., Mechanical Engineering, end, son of Walter P. Knauss '22 of Hartford, Conn., who won the "C" as a tackle and was on the basketball squad; and James Quinby, guard, son of Sidney Quinby '24 of Chappaqua.

There are four Sophomores: Herbert Bool, quarterback, Arts, is the son of Herbert W. Bool '23 of Phoenix, Ariz.; Carl Dudley, Arts, halfback, is the son of Harold J. Dudley '22 of Towson, Md.; Thomas Kohm, end, I&LR, is the son of Raymond A. Kohm '24 of Garden City; and John Martin, Electrical Engineering, end, is the son of Stanley A. Martin '17 of Webster.

For the last four years, Cornell sons have represented a healthy part of the football squad: no less than twelve of them each of those years. It appears that this average is likely to continue, because there are presently fifteen sons of Cornellians on the Freshman football squad. Five of these have football-player fathers: George T. Brayman, tackle, CE, (George I. '22); Charles L. Davidson, guard, Arts, (Charles L. '23); Thomas A. Isaly, center, Arts, (Henry W. '27); George R. Pfann, quarterback, Arts, (George R. '24 & Elizabeth Wyckoff '27); and Thomas S. Rooney, end, CE, (Joseph A. '24).

Other Freshmen sons out for football are Edward E. Faber, halfback, I&LR, (Earl C. '28); Lee L. Fingar, guard, I&LR, (Elmer L. '26); Roy McCartney, fullback, Agriculture, (mother, Ida Hungerford '27); Edward W. Norton, halfback, Agriculture, (William D. '31); Paul M. O'Connor, halfback, Arts, (Paul M. '33); Wendell H. Pigman, halfback, Arts (August P. '27); Luther H. Robinson, end, Agriculture, (Luther R. '14); John M. Sayles, halfback, Hotel, (Charles I. '26 & Dorothy Fessenden '25); Richard A. Stanton, quarterback, Arts, (George H. '20); and Carl H. Young, tackle, Agriculture, (Carl H. '34).

## Fall Schedules

FALL SPORTS schedules for Varsity teams other than football are printed below. The Freshman football team plays Wyoming Seminary at Ithaca, October 6;

Yale at New Haven, October 20; Colgate at Hamilton, October 27; and the now-traditional Saturday-before-Thanksgiving game with the Pennsylvania freshmen on Schoellkopf Field, November 17. The Varsity schedules:

CROSS COUNTRY	
Oct.	6—Colgate at Hamilton
	13—Penn State at State College
	20—Yale at New Haven
	27—Alfred at Ithaca
Nov.	3—Syracuse at Ithaca
	9—Heptagonals at New York City
	19—IC4A at New York City
SOCCER	
Oct.	6—Sampson at Geneva
	12—Cortland at Cortland
	20—Yale at New Haven
	27—Sampson at Ithaca
Nov.	2—Colgate at Hamilton
	10—Army at Ithaca
	17—Dartmouth at Hanover
	24—Pennsylvania at Philadelphia
150-POUND FOOTBALL	
Oct.	20—Rutgers at New Brunswick
Nov.	3—Princeton at Ithaca
	9—Pennsylvania at Philadelphia
	17—Navy at Ithaca

## Football Broadcasts

ALL CORNELL GAMES will be broadcast by radio. As usual, Atlantic Refining Co. is the sponsor. Line-ups follow.

October 6, Colgate-Cornell: WHCU Ithaca, WNBF Binghamton, WKBW Buffalo, WENY Elmira, WHEC Rochester.

October 13, Cornell-Harvard: WHCU Ithaca, WHDH Boston, Mass., WALE Fall River, Mass., WLLH Lowell, Mass., WNBF Binghamton, WKBW Buffalo, WPAT Paterson, N. J.

October 20, Yale-Cornell: WICC Bridgeport, Conn., WNAC Boston, Mass., WONS Hartford, Conn., WNLC New London, Conn., WWCO Waterbury, Conn., WNHC New Haven, Conn., WNBF Binghamton, WHCU Ithaca, WHEC Rochester, WGY Schenectady, WOR New York City.

October 27, Princeton-Cornell: WOR New York City, WNBF Binghamton, WKBW Buffalo, WHCU Ithaca, WHEC Rochester, WBUD Morrisville, Pa.-Trenton, N. J., WSCR Scranton, Pa., WAMS Wilmington, Del.

November 3, Cornell-Columbia: WHCU Ithaca, WHEC Rochester, and stations serving New York City.

November 10, Cornell-Michigan: WHCU Ithaca, WNBF Binghamton, WKBW Buffalo, WHEC Rochester, WGY Schenectady, WOR New York City, WAZL Hazleton, Pa., WSCR Scranton, Pa., WPAG, Ann Arbor, Mich., WJJD Chicago, Ill., WUOM Ann Arbor, Mich., WWJ Detroit, Mich.

November 17, Dartmouth-Cornell: WKXL Concord, N. H., WLNH Laconia, N. H., WMUR Manchester, N. H., WHEB Portsmouth, N. H., WNBF Binghamton, WKBW Buffalo, WHCU Ithaca, WHEC Rochester, WGY Schenectady.

November 25, Pennsylvania-Cornell:

WCAU Philadelphia, Pa., WNBF Binghamton, WKBW Buffalo, WENY Elmira, WHCU Ithaca, WHEC Rochester, WBAL Baltimore, Md., WARK Hagerstown, Md., WOR New York City, WAEB Allentown, Pa., WCHA Chambersburg, Pa., WAZL Hazleton, Pa., WGAL Lancaster, Pa., WPAM Pottsville, Pa., WEEU Reading, Pa., WSCR Scranton, Pa., WBAX Wilkes-Barre, Pa., WWPA Williamsport, Pa., WNOW York, Pa.

## NCAA Television Plan

TELEVISION of college football in 1951 will be conducted on an experimental basis under direction of the National Collegiate Athletic Association. It is hoped thereby to discover some method for television and football to live together in harmony and solvency. It is the opinion of many schools that television caused a decline in gate receipts, so it was decided to analyze the public reaction under "laboratory conditions." Here is the plan:

During the ten-week season (September 22-November 24), viewers in each of fifty-two television areas will be able to watch games on seven Saturday afternoons. The games may be televised nationally (on a network), sectionally, regionally, or locally.

(The Cornell game with Yale at New Haven, October 20, will be transmitted all along the East coast and as far west as Pittsburgh, Pa.)

No college is scheduled more than twice. On some Saturdays, all areas that have a game will see the same one. On others, Eastern viewers may see a Midwestern game while Midwestern viewers are watching a big Eastern contest. There will be three Saturdays in each area when television of football will be "blacked-out." This is to give the National Opinion Research Center, which is conducting the survey, a chance to gauge the effect of home viewing on stadium attendance under all sorts of conditions.

The plan does not interfere with other opportunities to see college football without going to the game. There will be theater television, post-game movies in theaters and on television, and live pickups of games played on Friday nights and holidays. Columbia Broadcasting System will carry its own schedule of games in color for those who have the equipment.

The NCAA schedule, sponsored by Westinghouse Electric Corp., over the facilities of National Broadcasting Co., follows:

Sept. 22	Total blackout
Sept. 29	Pittsburgh-Duke Princeton-Columbia
Oct. 6	Illinois-Wisconsin
Oct. 13	Notre Dame-Southern Methodist
Oct. 20	Yale-Cornell Ohio State-Indiana

- Oct. 27 Iowa State-Missouri  
Minnesota-Nebraska  
Harvard-Dartmouth  
Northwestern-Wisconsin  
Nov. 3 Illinois-Michigan  
Army-Southern California  
Franklin & Marshall-Washington  
& Jefferson  
Nov. 10 Michigan State-Notre Dame  
Navy-Maryland  
Nov. 17 Columbia-Navy  
Nebraska-Colorado  
Maryland-North Carolina State

THIS COLUMN has referred before to the blueberry crop in Connecticut. This year, a fairish set of berries was brought to plump maturity by timely rains and we ate blueberries on Labor Day, about two weeks later than usual.

### Horticultural Report

It has been interesting to introduce several of our friends to the high-bush variety of the genus. They, poor souls, had known only the low-bush type, and could hardly believe that blueberries grow on bushes so tall that some of their highest branches couldn't even be bent down into reach. We had to speak severely to one dear friend, too, who called the fruit huckleberries. The huckleberry is full of gritty seeds and is usually black and shiny, as opposed to the iridescent blue-white, melt-in-your-mouth babies that are the real McCoy.

\* \* \*

One of these days I may start rhapsodizing about cranberries; as if my readers didn't already have enough to put up with! In 1947 I joined in a modest way a syndicate organized by a former president of the Cornell Club of New England to build a cranberry bog in Massachusetts. No. 1 tract, planted in 1948, will this fall give its first crop. There are four successive plantings and it is very interesting to watch the little vines establish themselves, sending out horizontal runners and berry-carrying uprights.

It has been a civil-engineering education to follow the evolution from tangled peat swamp to orderly flat sanded fields, with the brook rechanneled for instant readiness for flooding against frost. The agricultural education is proceeding apace, with courses in plant varieties, pest and weed control, water levels, and the like. Very important has been the laboratory seminar on corporate finance. Now the pleasant course in marketing looms ahead, with the stage well set, since the bothersome surplus of the last

couple of years has disappeared and the cranberry-with-chicken campaign is taking hold. Theoretically, the company should be carrying itself by the fall of 1952 and dividend checks should materialize by 1953, if taxes leave anything to distribute.

*Viva* free enterprise and the capitalistic system!

## New Feature Starts

PAGE OPPOSITE begins a new feature in the NEWS, replacing "On the Campus & Down the Hill."

Charles D. Graham, Jr. '52 will report, and sometimes comment on, the daily life of the Campus and community as he sees it. His page, we hope, will give you a new and intimate view of your University, as it appears to today's undergraduate.

Graham was editor-in-chief of The Cornell Daily Sun last year and thus a member of the Student Council. He entered the School of Chemical and Metallurgical Engineering in 1947 from Oakwood High School, Dayton, Ohio, with a National Scholarship and is a fifth-year student in that School. He is a member of Theta Xi, Tau Beta Pi, Sigma Delta Chi, and Quill & Dagger; was a counsellor at Freshman Camp this year.

"An Undergraduate Observes . . ." is an experiment. Perhaps the page may acquire another title as it goes along. Almost certainly its writer will develop new approaches and new content as he explores the possibilities.

Your comments and suggestions are invited.

## Five Get Faculty Awards

FIVE CORNELL TEACHERS are among the 250 recipients of faculty fellowships for 1951-52 awarded by the Fund for the Advancement of Education which was established last April by the Ford Foundation.

The purpose of the fellowships is to enable younger faculty members in colleges throughout the country to improve their competence in undergraduate teaching. Winners were selected from 1,535 applicants by a committee on administration headed by Victor L. Butterfield '27, president of Wesleyan University and former Alumni Trustee of Cornell. They are from 165 institutions in thirty-nine States, the District of Columbia, and Alaska. Each fellowship provides a stipend equal to the recipient's regular salary plus necessary tuition and travel costs.

Professor Baxter L. Hathaway and

John A. Sessions, English, were given fellowships for a joint project to analyze the teaching of creative writing in American colleges. An award for study of radio-wave propagation was made to Professor Benjamin Nichols '41, Electrical Engineering. David Novarr, English, received a fellowship for study of seventeenth-century British political and church history and work in the field of biography and the theory of biography with particular regard to Izaak Walton. Richard J. Schoek, English, will study Renaissance history in connection with an informal tutorial program being conducted at the University.

Most of the work will be done here, although Hathaway and Sessions will visit other colleges and universities.

### SATURDAY, OCTOBER 6

Ithaca: Freshman football, Wyoming Seminary, Schoellkopf Field, 2  
Hamilton: Football, Colgate, 2  
Cross country, Colgate  
Geneva: Soccer, Sampson Air Force Base

### SUNDAY, OCTOBER 7

Ithaca: Sage Chapel preacher, President Franklin Fry, United Lutheran Church, New York City, 11

### MONDAY, OCTOBER 8

New York City: '98 Class dinner, Cornell Club, 6:30

### TUESDAY, OCTOBER 9

Ithaca: University concert, Eileen Farrell, soprano, Bailey Hall, 8:15

### THURSDAY, OCTOBER 11

Ithaca: University Theatre presents "The Importance of Being Earnest," by Oscar Wilde, Willard Straight Theater, 8:30

### FRIDAY, OCTOBER 12

Ithaca: Cornell University Council meetings "The Importance of Being Earnest," Willard Straight Theater, 8:30  
Cortland: Soccer, Cortland State Teachers College

### SATURDAY, OCTOBER 13

Ithaca: Alumni Homecoming Day  
Alumni luncheon, Barton Hall, 11:30-1:30  
Concert by Big Red Band, Barton Hall, 1  
Football, Harvard, Schoellkopf Field, 2  
Freshman soccer, Cortland State Teachers College, Alumni Field, 2  
Alumni reception for President & Mrs. Mallott, Willard Straight Memorial Room, 4:30  
Alumni dinner (by reservation), Statler Hall, 5:30-8  
"The Importance of Being Earnest," Willard Straight Theater, 8:30  
Homecoming Dance, Willard Straight Hall, 9-1  
State College, Pa.: Cross country, Penn State

### SUNDAY, OCTOBER 14

Ithaca: Sage Chapel preacher, President Paul Weaver, Lake Erie College for Women, Painesville, Ohio  
Rhythm Club concert, Stan Kenton's Orchestra, Bailey Hall, 8:30  
"The Importance of Being Earnest," Willard Straight Theater, 8:30

# An Undergraduate Observes . . .

By Charles D. Graham, Jr. '52

## Freshmen Concentrate at Camps

A FEELING SEEMS to prevail around the Campus that the best way to concentrate on Cornell is to get away from Ithaca. Whenever an organization wants to devote itself to intensive self-study, it picks some off-Campus meeting place such as the Lisle Conference Center or Hidden Valley Camp at Watkins Glen, and schedules a week-end meeting. The board of managers of Willard Straight Hall, various student religious groups, and even the leadership conference of the Student Council have followed this course with apparent success.

The Freshman Camps, sponsored by Cornell United Religious Work, make use of the same principle. The first members of the Class of '55 to arrive in Ithaca this fall were the Freshman Campers. No sooner had they arrived on Campus, September 11, than they were loaded into busses and deposited far out in the wilderness, the men at Camp Cory near Penn Yan or Camp Arrowhead just over the Pennsylvania line, and the women at Hidden Valley. They remained in splendid isolation for two-and-a-half days, engaging in sports and discussions under the guidance of carefully-selected upperclass counsellors. It's considered a special distinction to be a counsellor, and the positions are eagerly sought despite the fact that those selected must pay their own expenses and devote considerable time to preparation during the year. Such enthusiasm is only partly explained by the advantages offered to fraternity men for sizing up prospective rushing material; the sense of service and accomplishment is a reward in itself.

Although enormous energy is devoted to planning skits, panels, and discussions to introduce the Freshmen to the problems and uncertainties of Cornell life ("If we can just start them thinking" is a standard counsellor phrase), the major value of the Camps probably lies in their social accomplishments. The Frosh who has spent nearly three days in full-time association with a relatively small group of his Classmates is better fitted to dive into the maelstrom of registration, fraternity rushing, and University classes than is his bewildered brother who climbs down from the Lehigh Valley friendless and unprepared.

## "No-purpose" Organization

FOR REASONS which remain obscure, the counsellors at the men's Freshman Camps have organized a society called "Wagonwheels," to which all counsel-

lors belong if they participate in some bit of comic entertainment at camp. Wagonwheels, billed as "the only organization on the Campus without a purpose," elects its members without benefit of parliamentary procedure, to such posts as Left Shoe, Burper, and Sheepherder. The highest honor it can confer is the office of second-assistant-vice-president.

## "Rat-race" Packs the Straight

ARRIVING BACK on Campus September 14, the Frosh Campers began undergoing tests, physical examinations, lectures, and receptions through which all incoming students are "oriented" to Cornell.

One major event of this "On-Campus Orientation" is the annual Freshman Open House at the Straight, known to upperclassmen as "the rat-race." All the facilities of the Straight were marshalled to handle the massed onslaught of some 2000 red-capped Freshmen, Saturday evening, September 15. After the initial congestion began to clear away and the guests sorted themselves into various rooms and activities according to their tastes, the event was classed as a success by veteran observers of such affairs. The failure of the public address system, the unscheduled arrival of a jazz band, and the sale of large quantities of beer turned the Ivy Room into a close-packed mass of singing humanity, all apparently having the time of their lives. It was, as one of the student directors of the Open House expressed it, "The perfect way to entertain the extra men."

A favorite pastime of a small but determined group of upperclassmen is devising new and ever more ingenious schemes of getting into the Freshman Open House, for the purpose of making early contact with the Freshman women. Despite the efforts of a squad of grim-faced student bouncers, a substantial number of non-Freshmen managed to penetrate the building, either by obtaining Freshman identification cards (erroneously printed "Class of 1954" to the consternation of orientation officials) or by finding some unguarded entrance down among the coal chutes and vegetable bins. About midnight the crowds thinned out appreciably, and the exhausted bouncers abandoned the field to whatever upperclassmen still lurked outside.

## Frosh Caps Popular

CLASS OF '55 members have displayed an almost pathological eagerness to pur-

chase the little red caps which distinguish them from other students. One of the most frequent questions asked at the information desk in the Straight lobby was, "Where do I buy my cap?" The sales desk itself was often almost buried under banknotes deposited by the Frosh for the dual purpose of obtaining their caps and building up their Class treasury. The rush was in no way stemmed by the mimeographed letter from the Sophomore Council which accompanied each cap and pointed out that wearing the dink was not required but was to be regarded as a privilege of the Freshmen.

The Soph Council tried last spring to replace the little red cap with a more stylish crew hat in red with white Class numerals, but a conservative Student Council vetoed the scheme. Students of Frosh cap design did notice one change: the felt material employed in former years has given way to a woven twill. Some individualistic Frosh men have taken to wearing the caps inside out, revealing the white binding strips under the seams. A few of the women, presumably Home Economics students, have decorated their dinks with white tassels and cords. No one seems to mind.

## Miscellany

Freshmen got an extra half-hour of sleep at the start of fraternity rushing this year. The heavy knocks on the doors of dormitory rooms were delayed until 8:30, September 17, by decision of the Interfraternity Council. Fraternity men were also assisted by a new policy of the Residential Halls Department which placed most Freshmen in dormitories instead of scattered over Ithaca and Cayuga Heights.

President Deane W. Malott read the Scripture lesson at the Sage Chapel services, September 16, and has indicated that he may do so again, occasionally. The Sage Chapel preacher, Rev. Wilbour E. Saunders, president of Colgate-Rochester Divinity School, addressed his sermon especially to the Freshmen.

First issue of the Sun, comprising thirty-two ad-laden pages, appeared September 17. Agents of Ithaca's Only Morning Newspaper had been busy for days before, buttonholing passersby for subscription sales. "Dick Tracy" has been dropped, leaving only "Pogo" and "Li'l Abner." As usual, the first three issues were distributed free.

Inquiry at the information desk elicited the following questions which various members of the Freshman Class had asked: "When should I get my sport coat cleaned" (Answer: "When it gets dirty.") "Where do they feed the dogs?" and "When can you leave the Campus?"

## The Faculty

Janet Malott, daughter of President **Deane W. Malott** and Mrs. Malott, was married to Ensign Jared Elliot, USN, in a family wedding, September 15 in Barnes Hall, by the Rev. Donald M. Cleary, chaplain to Catholic students. The Malotts in their car were hit by another on the road between Ithaca and Dryden, September 2. Mrs. Malott suffered a fractured right leg, a sprained back, and lacerations. The President was not seriously hurt. Janet was briefly hospitalized.

University Trustee **Horace C. Flanigan '12** has been elected president and chief executive officer of Manufacturers Trust Co., New York City. He joined the bank as vice-president and director in 1931 and has been chairman of the board of directors.

August 6 issue of Newsweek contained a brief letter from Professor **Bristow Adams**, Extension Service, Emeritus, commenting on an article in a preceding number that mentioned the former chief of the US Forest Service, Gifford Pinchot. It appeared with letters from two other foresters on the same topic.

In a paper on "Biological Warfare and Civilian Defense," Dean **William A. Hagan, MS '17**, of the Veterinary College, said that saboteurs might so attack our cattle and poultry at any time, since biological attacks would have the advantage of surprise, could be carried on without open warfare, and might even be occurring now. He listed foot and mouth disease, rinderpest, fowlpest, and the oriental form of Newcastle disease as highly contagious possible weapons.

New implement developed here which may aid stubble-mulching in the Northeast was described by **George R. Free, MS '50**, of the US Soil Conservation Service at the University, at the annual meeting of the Soil Science Society of America, August 29. Really two plows in one, it works first in the top two inches of soil, keeping this layer on top, and then plows to a depth of seven or eight inches.

October selection of the History Book Club is George Washington and American Independence, by Professor **Curtis P. Nettels**, History. Published by Little, Brown & Co., the study deals chiefly with Washington's relations to the Continental Congress, placing new emphasis on Washington's political, rather than military, importance.

Director **Charles R. Burrows** of the School of Electrical Engineering and **William E. Gordon**, research associate in the School, participated in a meeting of the joint commission on radio meteorology of the International Council of Scientific Unions in Brussels, Belgium, August 16-18, and attended a general assembly of the International Union of Geodesy & Geophysics, August 21-September 1, also in

Brussels. Professor Burrows is president of the radio meteorology commission and Gordon is secretary. Professor Henry G. Booker, Electrical Engineering, is vice-president.

Engineering Institute of Canada has published a technical paper, "Air Entrainment by Water in Steep Open Channels," by Professor **Melville S. Priest**, Hydraulics. The paper is the third in the Institute's Technical Studies in Engineering.

Professor **W. David Curtiss '38**, Secretary of the Law School, married June 29 in Philadelphia, Pa., Mary M. Fowler, graduate of Vassar and former dean of students at Beaver College, Jenkintown, Pa.

Professor **Charles K. Thomas '22**, Speech, tied with a Syracuse player for first place in the expert tournament of the New York State Chess Association in Syracuse, September 2.

Professor **Eleanor Emerson**, Industrial & Labor Relations, Extension, left September 19 for Germany to study community activity for three months under a US State Department grant.

Professor **Casper L. Cottrell, PhD '28**, Electrical Engineering, has been elected chairman of the Central New York section of the Illuminating Engineering Society.

"How to Make Bike Riding Safe," by Professor **Carlton M. Edwards '36**, Agricultural Engineering, appeared in the August issue of Country Gentleman.

Director of Athletics **Robert J. Kane '34** has been elected president of the Intercollegiate Amateur Athletic Association of America for 1951-52. This is his third election to the office.

**John L. Munschauer '40**, Director of the University Placement Service, has been granted a three-month leave of absence to recruit college personnel for Federal assignments, travelling from Washington, D.C. **Virginia M. Potter '39**, Assistant Director, will be acting Director until he returns, December 1.

Experiments under the direction of Professor **Harold H. Williams, PhD '44**, Biochemistry & Nutrition, have shown that whole protein can be successfully injected directly into the body through the abdominal walls. The work with rats suggests a means of supplying the energy and repair food to humans who cannot be fed through the mouth as a result of injury or disease.

Second edition of Farm Management Manual by Professors **Van B. Hart '16** and **Stanley W. Warren '27**, Farm Management, was published August 6 by Comstock Publishing Co., Ithaca.

**Louis R. Fendrick '49** has joined the University Office of Public Relations & Information as assistant to Director W. Robert Brossman. He was previously an advertising copywriter with Robert Eastman ('41), Inc., in Ithaca.

Professor **Everett M. Strong, Grad '24-'26**, Electrical Engineering, retained the Freeman Trophy when his cruiser "Sabatic," competing September 9 against seven

other Power Squadron crews, won a Power Squadron navigational problem on Cayuga Lake. Captain Strong's crew was Professor **P. Paul Kellogg '29**, Ornithology, and Robert W. Robinson '31. Strong was a member of the crew which won the Rochester Cup at Clayton and the International Cup at Sodus.

A Short History of Italian Literature, by Professor **Robert A. Hall, Jr.**, Modern Languages, has been published by Linguistica of Ithaca. The 430-page volume summarizing the literature from beginnings to modern times is intended as an introduction to the field for American students and others.

Professors **Martha E. Stahr**, Astronomy, and **Jesse T. Carpenter**, Industrial & Labor Relations, were married in Scituate, Mass., August 18.

An article about Professor **Liberty Hyde Bailey**, Agriculture, Emeritus, director of the Bailey Hortorium, appeared in the summer number of The American Scholar, magazine of Phi Beta Kappa. The author is Andrew Denny Rodgers III, whose biography of Bailey was published in 1949.

Dr. **Mary E. Mercer**, professor of Pediatrics at the Medical College, is one of ten members appointed by Governor Dewey to the State Mental Hygiene Council.

Professor **Frances Johnston**, Food & Nutrition, has received a \$1,000 Borden Award and gold medal for her fundamental research in nutrition, which included such aspects of human metabolism as the amount of iron lost to the body through perspiration, the iron requirements of thirteen-year-old girls, and the use by the body of iron in spinach.

Summer issue of the Cornell Law Quarterly was dedicated to Professor **Lyman P. Wilson**, Law, who died April 20. The issue contains a tribute by Professor **John W. MacDonald '25**, Law.

Professor **Kathleen Newton**, Out-patient Nursing in New York, is featured in a vocational guidance booklet to be published by Scholastic Magazine this fall.

Professor **Ann M. Aikin, PhD '42**, Economics of the Household, was married, June 19, in Sage Chapel, to **David M. Ellis, PhD '42**, professor of history at Hamilton College, Clinton.

Professor **Arthur Larson**, Law, spoke, June 29, on "An Englishman Looks at Ebbets Field," at the annual dinner of Associated Industries of New York State, Inc. in Rochester.

Professor **Muriel Carberry**, Surgical Nursing, succeeded **Bessie A. R. Parker** in July as associate director of nursing service at The New York Hospital.

Professor **William J. Hamilton, Jr. '26** Zoology, has been elected president of the American Society of Mammalogists. Professor **William R. Eadie, PhD '37**, Zoology, is a director.

**Knud G. Swenson** has been appointed professor of Entomology at the Geneva Experiment Station and will work on insect pests of vegetable crops. He received the PhD at University of California last June.

## Name Brokenshire Hospital

A MISSION HOSPITAL (Congregational) in Davao, Philippines, rebuilt in 1947 after it was bombed, has been named Brokenshire Memorial Hospital in memory of Lieutenant Commander Herbert C. Brokenshire '24, USNR, who was medical missionary in charge there from 1925-40.

Dr. Brokenshire was commissioned in the Navy Medical Corps in July, 1941. Captured by the Japanese in 1942, he was placed in charge of the infectious diseases ward at the Bilibid prison camp hospital in Manila. October 24, 1944, he was drowned in the sinking by US forces of an unmarked Japanese prison ship enroute to Japan in the South China Sea.

He was awarded the Bronze Medal, two citations (for his conduct under bombing of Cavite and Manila and his work at Bilibid), the Purple Heart, the American Defense Service Medal, and the Asiatic-Pacific Area Campaign Medal. Fellow prisoners at Bilibid, after their release by General MacArthur's forces, spoke highly of his work.

Dr. Brokenshire was a graduate of Middlebury College and received the MD in 1924 at the Medical College in New York.

## Emeritus Professors Die

THE UNIVERSITY has lost two more of its former teachers by death. Professor E. Franklin Phillips, Apiculture, Emeritus, retired since 1946, died August 21 in Ithaca, where he lived at 508 Stewart Avenue; Associate Professor Winfred E. Ayres, Sp '28, Dairy Products, Emeritus, died September 5, following an operation.

Professor Phillips came to the University in 1924 as professor of Apiculture after nineteen years in charge of apiculture in the US Bureau of Entomology. He developed here a library of some 30,000 volumes on beekeeping, probably the largest of its kind. He received the AB at Allegheny College in 1899 and the DSc there in 1929, the PhD at the University of Pennsylvania in 1904. Author of a standard text on beekeeping and of more than 600 articles on the subject, he was a member of Phi Delta Theta, Phi Beta Kappa, Sigma Xi, and numerous other societies. He was a former president of the American Association of Economic Entomologists, the International Apis Club, and the Ithaca Rotary Club; former vice-president and director of Rotary International; chairman of a committee of two national entomological associations on coordination with the war effort in World War II; and a member of the crop protection committee of the National Research Council.

Besides Mrs. Phillips, associate profes-

sor emeritus of Home Economics, Professor Phillips leaves three sons: Everett F. Phillips, Jr., Grad '29, Howard G. Phillips '35, and William T. Phillips, PhD '42.

At his retirement in June, 1949, Professor Ayres had been on the Faculty for about forty years. He operated creameries before he came here in 1906 to teach in the winter courses in Dairy Industry and do Extension work with dairy plants. From 1909-13, he was butter inspector for the State Department of Farms & Markets, went to Vermont for a year in similar capacity, and returned to take charge of the Dairy winter courses in 1914. From 1927, he also taught the regular course on Milk Products Manufacturing and conducted Extension work for the Department. He was a member of the American Dairy Science Association and had been recording secretary of Epsilon Sigma Phi, national Extension fraternity.

Professor Ayres's home was at 115 Ithaca Road. He is survived by Mrs. Ayres and a son, Kenneth Ayres.

## Westchester Officers

CORNELL CLUB of Westchester is headed this year by Elmer L. Fingar '26 of Chappaqua. Vice-presidents are C. Hobart Sherwood '20 of Yonkers, Floyd W. Mundy, Jr. '28 of Scarsdale, and John G. Nesbitt, AM '34, of Pleasantville. Nathan Moses '22 of Tarrytown is treasurer; William J. Greer '42 of White Plains, secretary; and Carl Harrison '48 of White Plains, recording secretary.

**Professor E. Franklin Phillips**—Professor Phillips, Apiculture, Emeritus, who died August 21, is pictured in 1946 showing to Mrs. Ina Slaff '49, a journalism student, an historical volume from the University's library on bee culture, probably the world's largest, which he developed.

## Forty-five Years Ago

*October, 1906*—A. D. Morehouse '93 has entered the service of the Isthmian Canal Commission. He is in the motive power and machine department and is stationed at Culebra, in the Canal Zone. . . . Fire early one morning caused damage of \$5,000 to the Mechanical Laboratory in the rear of Sibley College and threatened to destroy the entire building. . . . Another reform has been made in the Class politics of the University. The Senior and Junior Classes have abolished the poll tax. It was thought to be unjust to many students to compel them to pay a dollar for the privilege of voting for Class officers.

## Twenty-five Years Ago

*October, 1926*—To old-timers, the most interesting news of the week was the brief announcement that the Masque Council had decided to produce no show this year, and had, in fact, determined to conclude forever the existence of the Cornell Masque. The determining cause of the Council's decision was the abbreviation of Junior Week by one day, whereby the Masque was deprived of the one thoroughly suitable evening for its gallivantings. It was left with the choice of staging a rival performance to the Musical Clubs or of crowding in between the formal Friday night dinners and the Junior Prom. The basic cause for the abandonment, or at least the suspension, of the Masque is evident to all Campus philosophers. The all-masculine musical comedy once fascinated by its novelty; today it wearies by its conventionality. When a winsome, if weighty, chorus first bellowed forth its baritone glees, all audiences were ravished by the triumphant absurdity of the thing. It was a splendid joke; but alas, it is now a very old joke, and in some performances it was almost the only joke.

## Twenty Years Ago

*October, 1931*—The University Theatre has been established by the Trustees, to unite the activities of the Dramatic Club, the Summer Theatre, the Laboratory Theatre, the academic courses, the stage laboratory, and the Radio Players. This new grouping seems to be made chiefly for administrative convenience. It is, however, to be noted how the dramatic idea has spread since 1908, when the Dramatic Club began with nineteen members, who produced one play a year in the Lyceum. Last year, more than 400 students took part in a program which included eleven long plays and twelve one-acters, presented before audiences totaling 15,000 people.

NEWS OF THE ALUMNI

Personal items, newspaper clippings, or other notes about Cornellians of all Classes will be welcomed for these pages. Addresses as printed are in New York State unless otherwise designated.

Certain Classes, principally those which send the ALUMNI NEWS to all members, have special columns written by their own correspondents. Each such column is designated at its beginning with its Class numerals. Material for those columns may be sent either to the NEWS for forwarding or directly to the respective Class correspondents, whose names and addresses follow:

**1913 Men**—M. R. Neifeld, 15 Washington  
Bernardsville, N.J.

**1910 Men**—Roy Taylor, Old Fort Road,  
Street, Newark 2, N.J.

**1915 Men**—C. M. Colyer, 123 West Pros-  
pect Avenue, Cleveland 1, Ohio.

**1919 Men**—Alpheus W. Smith, 705 The  
Parkway, Ithaca.

**1920 Men**—W. D. Archibald, 8 Beach  
Street, New York City 13.

**1921 Men**—Allan H. Treman, Savings  
Bank Building, Ithaca.

**1951 Men**—Stuart Minton, Jr., 1160 Park  
Avenue, New York City 28.

\* \* \*

**'03 ME**—**Thomas S. Ramsdell**, textile engineer, is a consultant to Whitin Machine Works, Whitinsville, Mass., builders of textile machinery, which are now developing several pieces of equipment under his patents. He lives on Stockbridge Road, Great Barrington, Mass.

**'03 ME(MC)**—**Roland E. Titcomb** lives at 4 Ward Street, Ipswich, Mass. He retired in November, 1948, as a provision dealer.

**'05, '06 ME**—**William A. Reece** visited the University the week end of September 9, on a trip from his home in Buenos Aires, Argentina. Toward the end of September, he was to sail for a visit to Western Germany, Austria, and Italy to see the progress made in those countries since the war, and expected to return to Argentina in November. He went there for General Electric Co. many years ago and, since 1930, has been president and general manager of American Foreign Power Co. in charge of their Argentine subsidiary companies. He retired last March 31.

**'05 ME**—**Erskine Wilder's** fifteenth and sixteenth grandchildren arrived in June. His address is 203 North Wabash Avenue, Room 804, Chicago 1, Ill.

**'06 ME**—**Allan H. Candee**, mechanical engineer with The Gleason Works in Rochester, was made a fellow of the American Society of Mechanical Engineers in May and elected president of Rochester Engineering Society in June. His address is 404 Hillside Avenue, Rochester 10.

**'06 ME**—**Samuel H. Woods** retired September 29, 1950, from full-time civil service with the Ordnance Corps, Department of the Army, but is still serving as consultant on problems concerning mobility of

military vehicles. Most of his service was at Aberdeen Proving Ground, which is still his home station. He lives on RD 2, Aberdeen, Md.

**'07 LLB**—**Floyd M. Grant** announces the removal of his office from 441 Lexington Avenue, New York City, where he was counsel for Century Federal Savings & Loan Association, to 31 Mamaroneck Avenue, White Plains.

**'07 LLB**—**Carleton B. Hutchins**, retired manager of Hutchins Lumber & Storage, lives in Saugatuck, Mich. Address: Box 412. Hutchins is the father of **Carleton B. Hutchins, Jr. '34** and has nine grandchildren.

**'07 DVM**—**Dr. Frederic C. Willson** (above), veterinarian employed by the Federal Government for forty-four years, was re-installed as president of the BAI Lodge 102, American Federation of Government Employees, at the group's annual installation of officers, in Hoboken, N.J., this summer. The national vice-president, assisted by the Metropolitan district lodge president, conducted the installation, with delegates from New York, Newark, N.J., and surrounding towns attending. Dr. Willson has headed the lodge for several years and also is vice-president of the Metropolitan division of the National Association of Federal Veterinarians. A widower, he lives at 91 Oakdene Avenue, Cliffside, N.J. He has one son, Frederic S. Willson, a graduate of Gannon College.

**'08, '09 ME**—**Arthur H. Leavitt** has been "pinch-hitting" for the last three years as assistant professor of business administration at John B. Stetson University in Deland, Fla.

**'09 BS**—**Tracy E. Davis** writes from 324 Makalii Place, Lanikai, Oahu, T.H.: "A life-long bachelor, I quit money-making in 1935. I am now busy corresponding with friends and doing the business of just living and also keeping up with the present rapid march of world events."

1910 MEN

**William H. Marcussen** (above) is a milkman, but not the kind who wakes you up before daylight when he knocks over the ash can while leaving two bottles of Grade A at the kitchen door. He's vice-president of the Borden Co. in charge of its fluid milk division and his approach to that job was made not at the kitchen door, but as a bacteriologist at the business end of a microscope.

At Ithaca, Marcussen played lacrosse and studied dairy science and bacteriology. Graduated in 1910 with the degree of BSA, he went to work first with the Lederle Laboratories in New York and then as a bacteriologist with the New Jersey State Board of Health at Trenton. In 1912 the Borden Co. took him on and has since used him in many different capacities, but mainly as a scientist with a demonstrated ability to apply the findings of the research laboratory to the improvement of milk plant operations and the introduction of a milk quality control system which is now in use throughout the industry. Present day time and temperature standards for milk pasteurization are the result of an extensive research program in which he took a leading part. Nowadays Marcussen sits at a large desk in the manner of a high-powered executive, but a microscope and a test tube are always within his easy reach.

Bill lives with Mrs. Marcussen at 11 Claremont Drive, Maplewood, N.J., and maintains his office with the Borden Co. at 350 Madison Avenue, New York. Both boys are now grown up, married and Cornellians. **Robert**, AB '40, MD '43, is practicing medicine at Palo Alto, Cal. **William**, whose college education was delayed by military service, took his degree at Ithaca in 1950 in Chemical Engineering and is now doing research work for the Atlantic Refining Co. in Philadelphia. Spaced that way, all the Marcussens can now attend their different Class Reunions in the same years and in a body. And there is a grandson now, Bill points out, whose graduation, by a little jockeying, might be managed for 1970 to keep the system working on even decades. Clubs: Union League, Cornell Chemists (N.Y.), Seigniorie (Quebec), and Maplewood Country.

**Julian T. Hirst** lives at Purcellville, Va., where he was born, and is president of J. T.

Hirst & Co., lumber and building materials, on South King Street in Leesburg, Va. The Hirsts have three children including one son who served as a lieutenant colonel in World War II.

**Dr. Raymond J. Gaffney** practices medicine in New York as a specialist in the diseases of the ear, nose, and throat. His address is 20 Fifth Avenue, New York 11.

**Baird Tewksbury** is president of the Midland Steamship Co. with offices at 2101 Terminal Tower, Cleveland. He lives at 27671 Lake Shore Drive, Euclid, Ohio. He has five sons and two daughters and plays lots of golf nowadays. He admits he shoots "in the late 70's" which might be a good thing for a Classmate to know in case a small wager is suggested.

'11, '12 AB; '14 BS—**Robert B. Keplinger** is president and general manager of Carroll Clay Co., Carrollton, Ohio, manufacturers of steel plant refractories; lives at 214 Seventeenth Street, NE, Canton 4, Ohio. His brother, **John C. Keplinger '14**, is executive vice-president of Hercules Motors Corp.

'11 MD—**Dr. Julius L. Waterman**, who retired as captain in the Medical Corps, USNR, last year, is now urologist-in-chief at Bradford Hospital, Bradford, Pa., and consulting urologist to eleven other hospitals in the area. He also is counsellor of Northwestern Pennsylvania chapter of the American College of Surgeons.

'12 AB, '13 AM—**Joseph C. Buttery** (above) has been promoted from assistant secretary to second vice-president of Guaranty Trust Co. of New York. He has been with the bank since 1919 and has been an officer since 1940 in the corporate division of the trust department. Recently, he has served on the executive committee of the trust division of American Bankers Association. Main office of Guaranty Trust Co. is at 140 Broadway, New York City 15.

**1913  
MEN**

"Along the Leafy Trail," a new song, that breathes the serene majesty of the wooded paths and gorges of the Cornell University Campus, had its premiere at the Ithaca High School, April 16. The Ithaca Women's Club

Chorus sang it again, May 15, at a concert in Willard Straight Hall.

Marjorie Elliott, author-composer of the song, is the wife of **Charles H. Elliott**, '13-er who rowed on four undefeated Cornell crews and in his undergraduate days was noted as a tireless worker with a "Sunny Jim" disposition. The Elliotts live at RD 3, Oneida. A son, **Charles H. Elliott, Jr. '49**, is a research assistant with the Department of Housing and Design in Home Economics. Mrs. Charles Jr., is also a graduate of Cornell with a Master's in Education. Another son, **William H. Elliott**, entered Cornell with the Class of '53, but is currently in the US Army. Both sons were Glee Club.

Mrs. Elliott, one of America's most distinguished women composers, originated "The Rurlettes," tuneful, sparkling songs that typify the American way of living. "Along the Leafy Trail" is published by Gurley Music Co. of Utica.

Another eminent '13-er is **Granville A. Perkins** (above) who May 17 was appointed vice-president in charge of research for Carbide & Carbon Chemicals Co., a division of Union Carbide & Carbon Corp. Born in China, Si came to the Chem course at Ithaca by way of Westboro, Mass. After graduation he taught at the University of Porto Rico and at the University of Pittsburgh, where he obtained his PhD. During World II Si did research on war gas for the Army, followed by research in medicine for leprosy at the Cullion Leper Colony, near Manila. Associated with the Carbide Co. since 1929 and named director of research in 1944, he is in charge of extensive laboratories at South Charleston, W. Va., where basic research and development work is under way on synthetic fibers. Congratulations and best wishes.

If you need flight reservations to or from Ithaca on Robinson Airlines, remember that **Vic Underwood** was recently elected president of the company.

**Joe Hinsey**, honorary '13-er and otherwise Dean of the Cornell Med College, got himself an honorary degree at Northwest-ern.

'14 ME—**Boudinet S. Loney** is retired and now lives in Florida. His address is PO Box 192, Hypoluxo, Fla.

**1915  
MEN**

Continuing our program of keeping 1915 minds sharp and alert, we propound below two more questions in the Class Cultural Contest. They are real 'tough ones.

Category, Transportation; *Question:* WAS FRANK LEHIGH RELATED TO DELLA WARE LACKAWANNA?

Category, Advertising; *Question:* WHAT WAS THE NAME OF THE MERCHANT PRINCE WHO COINED THE RINGING SLOGAN, "ON THE HILL BUT ON THE LEVEL"?

"Smitty" (**LeClair**) **Smith**, recent entrant into the hall of fame by reason of being joint winner in the 1915 Baby Contest, no longer lives at Poughkeepsie. He has moved up river to Newburgh where he is gumshoeing for the Internal Revenue folks. Address: 450 Liberty Street.

Ed (**E.G.**) **Williams** lives at 200 Elmora Avenue, Elizabeth 13, N.J. President American Type Founders, Inc.

**Henry T. Ruckaberle** runs a farm at Schaghticoke. Three children, three grandchildren.

**Russell Y. Moore** is brigadier general, 103d AAA Brigade, Connecticut National Guard. Home address: RD No. 3, Winstead, Conn.

**E. Elliott Wood** is manager of International B. F. Goodrich Co., 19 Rector Street, New York City. Son (or daughter) at University of Vermont.

Mike (**John M.**) **Cashin** is practicing law at Kingston. Has served as county judge for Ulster County.

**Joe (J.G.) Malone** is president, Industrial Specialties Co., Cleveland, Ohio. Home address: 14719 Clifton Boulevard, Lakewood 7, Ohio.

**Raymond E. Hoyt** is assistant regional director of National Park Service. Home: 2232 Davis Drive, Burlingame, Cal. Two sons.

Nick (**Howard G.**) **Nichols** is head of Audit Review Division, Income Tax Unit, Bureau of Internal Revenue. Address: 4636 Hawthorne Lane, NW, Washington, D.C. One daughter, two grandchildren. Cornell Club of Washington.

**B. G. Pratt, Jr.** is president, B. G. Pratt Co., manufacturing chemists. Address: 159 Cedar Avenue, Hackensack, N.J.

'16 ME—**Frank W. Pierce**, a director of Standard Oil Co. (N.J.), received for his company this year's award of the House Magazine Institute in recognition of its program of communications with employees, stockholders, governments, and public. At the annual conference of the Institute in New York City, Pierce described his company's methods of promoting better understanding, saying that Jersey Standard publishes eighty-five different magazines and newspapers in twenty-four countries and in thirteen languages. At the end of July, Pierce and Mrs. Pierce spent two days at the University while he conferred with members of the School of Industrial & Labor Relations and spoke to students in a graduate course in personnel administration. Pierce's office is at 30 Rockefeller Plaza, New York City 20.

'17 BChem—**Robert D. Abbott** of R.D. Abbott Co., in development, application and sale of materials for the rubber industry, is chairman this year of the Los Angeles

Rubber Group. He lives at 2505 North Cameron Avenue, Covina, Cal.

'17, '19 AB—**D. Roger Munsick's** address is 48 Colt Road, Summit, N.J. He is sales manager with Interchemical Corp.

'17 BS; '17 BS—**Ralph F. Perkins** and Mrs. Perkins (**Edna Darling**) '17 of RD 3, Wolcott, write that they are "still farming in New York State and Fort Myers, Fla.," have four daughters, all married, and six grandchildren.

'17 AB—**Rudolf W. Sandburg**, controller for The Andrew Jergens Co., has been elected president of Controllers Institute of America, Cincinnati Control. He lives at 3178 Portsmouth Avenue, Cincinnati 8, Ohio; has two sons: **Richard R. Sandburg** '49 and **Donald Sandburg**, Miami University '52.

## 1919 MEN

HEIGH HO! LET'S GO TO THE FAIR DEPARTMENT *Boss Man's Division*: It's a major achievement to have two amazingly successful State Fairs under one's belt. **Harold L. Creal** was appointed director of the New York State Fair, June 1, 1950; a full-time, year-round job. He has an advisory council, twenty full-time staff members, and 400 additional helpers before and during the Fair. When the 267-acre grounds in Syracuse were opened for 1951's Day No. 1, business was almost too brisk. After 84,000 had entered the gates, police had to close for one hour all routes leading to the Fair. "Cap" is a long-time farmer of Homer, former State Assemblyman from Cortland County, and active in the Dairymen's League and the Cooperative Grange - League - Federation, Inc.

LONG-FELT-NEED-FULFILLED DEPARTMENT *Bridge Division*: The Wilmington, Del.-Pennsville, N.J., bottleneck ended with the August opening of the new \$44,000,000 Delaware Memorial Bridge, 2.04 miles long, with a suspension span of 2,150 feet. The bridge connects the Pennsylvania Turnpike and the 118-mile New Jersey Turnpike which will be completed in November. Bridge project engineer: **Homer R. Seely**.

AWARDS & DECORATIONS DEPARTMENT *Italy-Harvard Division*: The Star of Solidarity has been bestowed by the Italian Government on **Norman T. Newton**, Department of Landscape Architecture, Harvard University. "Fig" was decorated "in appreciation of his esteemed and prized work accomplished for the recovery and return to Italy of the Italian works of art from Germany." During World War II, he served as Senior Monuments Officer, British 8th Army, through the Italian campaign, and was later director of the Sub-committee for Monuments, Fine Arts, & Archives of the Allied Command in Italy. As winner of the Rome Prize in Landscape Architecture, he studied for three years in the '20's at the American Academy in Rome. From 1933-39, he was associate landscape architect to the US National Park Service. Many a 1919 column was headed by his skillful bottle drawing and its successor, a balloon-filled sketch. The latter (and its possible successor) was sacrificed on the altar of too many other Class column headings secured by other imitative correspondents.

ADDRESSES DEPARTMENT: **Seth W. Heartfield**, Delvale Dairies, Inc., 2030 Har-

ford Road, Baltimore 18, Md., supplies the address of **Charles L. Kribs, Jr.**: 3717 Euclid Avenue, Dallas, Tex. Do you know the address of any of the following: **Oscar L. Larson**, **Lo N. Lau**, **Walter E. Lauer**, **Joseph V. Lefkowitz**, **George H. Lewis**, **Jose C. Lopes**, **Henry M. Lowman**, **James L. Lynch**, **John W. H. McCluer**, **Samuel McIlhenny**?

## 1920 MEN

This is being written in the shadow of the Library Tower as the new Freshmen are pouring into their dormitory rooms—as wide-eyed and bewildered as the Freshmen of earlier years. Your reporter contributed his third Cornell son on this occasion. En route to Ithaca we met **Paul L. Bleakley** with his son, also a new Freshman. Paul's law firm is **Bleakley & Harding** of Yonkers and he has been active in the affairs of the New York State Bar Association. He is a past president of the Cornell Westchester Association.

**Ernest G. Robinson** has just been elected vice-president of Shell Oil Co. in recognition of his outstanding work as manager of Shell's Calgary area. Robinson joined Shell in 1925 as a geologist at San Antonio, Tex., after receiving his graduate and postgraduate degrees at Cornell. Five years later, he was transferred to the head office in St. Louis as assistant to the vice-president, exploration. After serving briefly in California, he was named manager of Shell's exploration and production activities in Illinois in 1937. In 1944, he became exploration manager of the Texas-Gulf area and in 1946 was appointed manager of the New Orleans area. He became manager of the Calgary area April 1, 1949.

'22, '23 ME—**Martyn Z. Bentley** of 1024 Ravine Drive, Youngstown 4, Ohio, is president and a director of **Snyder-Bentley Steel Co.** and a director of **Carbon Limestone Co.** Both firms are in Youngstown.

'22 CE—**George I. Brayman**, contractor, has finished building eight bridges on the western extension of the Pennsylvania Turnpike and is now building five in Indiana County. His address is 67 North Harrison Avenue, Pittsburgh 2, Pa.

'22 BChem—**Nathan R. Gotthoffer** is a consulting chemist and lives at 5819 Knoll Avenue, Cincinnati 13, Ohio. His daughter **Martha Z. Gotthoffer**, graduated from Cornell in June; his daughter **Barbara Jane** attends the University of Cincinnati.

'22, '23 BS—**Frank E. Payne** is a realtor and his address is 4218 Northeast Twenty-sixth Avenue, Portland 11, Ore.

'23 BS—**Oscar Emanuel** is an agronomist with the New York District of the US Corps of Engineers. He lives at 2052 East Seventeenth Street, Brooklyn 23.

'24 MD—**Dr. Harlan S. Heim**, physician and surgeon, owns and operates two hospitals, with a total of thirty-seven beds, in Humboldt, Nebr.

'25 AB—**Leon E. Behr** writes that he has practiced law at the same place and has had the same address, 26 Journal Square, Jersey City, N.J., for the last twenty years.

'25 ME—**Alfred G. Spencer, Jr.** is an engineer in railroad sales for **Esso Standard Oil Co.**, 15 West Fifty-first Street, New York City 19. His home is at 1 Mountainview Terrace, Maplewood, N.J.

'27 AB—**Glen W. Bennett** is supervisor of the Bureau of Enforcement, New York State Department of Labor, in Albany; lives at 912 McClyman Street, Schenectady 7. His son, **Richard L. Bennett**, entered Electrical Engineering this fall with a McMullen Scholarship.

'27 ME, '28 MME—Guest editorial in *Production Engineering & Management* for July is by **Dexter S. Kimball, Jr.**, factory manager of **Bendix-Westinghouse Automotive Air Brake Co.**, Elyria, Ohio. One of a series written by "leaders in industry" for the magazine, Kimball's editorial is titled, "American Production: The Big Stick." He observes that "The creation of secure peace for our country will be best served by clear demonstration of national unity, great productivity of our new weapons for defense, as well as high productivity in maintaining civilian standards. . . . Teddy Roosevelt had a simple international policy: 'Speak softly and carry a Big Stick.' Our country's production capacity is our 'big stick,' and if we make it big enough we may not have to do so much talking." Manager Kimball is one of nine Elyria plant executives quoted in the magazine's "Production Round-table" in the same issue. He is the son of Professor **Dexter S. Kimball**, Engineering, Emeritus. Mrs. Kimball was **Myrtle Fullen** '30.

'27 AB—**Margaret Bourke-White** (above), photographer and author, was one of twenty-five outstanding women in the United States to receive an American Women of Achievement Award of the Boston Chamber of Commerce last May, received the honorary Doctor of Fine Arts at the University of Michigan, where she was formerly a student, last June, and was the subject of the "New York Close-Up" column of **Tex McCrary** and **Jinx Falkenburg** in the *New York Herald Tribune*, July 13. The *Tribune* profile told how she got started as a photographer: ". . . in my last year at school [Cornell], I was so broke that I decided to become a photographer to earn some extra cash. I took pictures of the campus buildings and sold them to the deans. Soon, I was head of a large-scale enterprise with a staff of salesmen under me. Nobody knew I was developing the negatives in my bathtub!" Many of her pictures appeared in the *ALUMNI NEWS*.

# Chief Sitting Bull was a stoic true— Whatever happened, he sat it through.

1  
But when he sat on a porcupine,  
He rose and asked for Ballantine.

2  
When life shoots you with sharpest quill,  
Don't try to be a stoic still.

3  
Like Sitting Bull, arise and shine—  
Ask the man for Ballantine!

**Ask the man for Ballantine Beer**  
Purity, Body, Flavor in every glass!

Pres., Carl W. Badenhausen, Cornell '16  
Vice Pres., Otto A. Badenhausen, Cornell '17

'28 AB—Edgar W. Averill is temporarily with the US Air Force as chief of the Statistical Analysis Branch, Procurement Division, Wright-Patterson Air Force Base, Dayton, Ohio. He commutes to his home at 419 Westwood Drive, Birmingham, Mich., and while he is in Dayton, Mrs. Averill runs E. W. Averill & Co. in Detroit.

'28 AB—After finishing medical school, Dr. Sidney M. Glasser interned at Coney Island Hospital, then went to Vermont to be a country doctor, "where it was ten months of winter and two of damned late fall." Since 1937, "except for a delightful cruise to New Guinea with the 120th General Hospital," he has practiced in Hempstead. He has a fifteen-year-old daughter and a seventeen-year-old son; lives at 234 Greenwich Street in Hempstead.

'28 AB, '30 LLB—A son, Steven Jules Simon was born May 15 to Howard Simon and Mrs. Simon of 105-10 Sixty-sixth Avenue, Forest Hills. Simon has been elected controller of Mobo Toys, Inc.

'30, '31 AB—Richard I. Edwards of 49 Forrester Street, Washington, D.C., is a captain with Capital Airlines.

'31 Men—Class Council elected by mail vote was formally organized at a Class meeting during Reunion in Ithaca, June 9. The meeting also adopted the proposed Class constitution. The Council elected William M. Vanneman, Class president; Fred-eric M. Hauserman, Richmond B. Shreve, and George A. Loeb, vice-presidents; John S. McGowin, treasurer; and as secretary-chairman, Dr. Harry M. Murphy, 57 Til-

linghast Place, Buffalo 16. James B. Burke was appointed Class Alumni Fund representative; Bruce Hackstaff, correspondent; and Frank L. O'Brien, Jr., Reunion chairman.

'26 AM, '31 PhD—Columbia University Press and Oxford University Press, London, have published Leigh Hunt's Dramatic Criticism, edited by Lawrence M. Houtchens and Mrs. Houtchens. Houtchens is a member of the English faculty at Miami University, Oxford, Ohio.

'31 AB; '31 BS—Frederick E. Schmitt, Jr. and Mrs. Schmitt (Ethel Bache) '31 of 1123 Brandywine Boulevard, Wilmington, Del., have four sons, ages fourteen, thirteen, eleven, and three, and a daughter, age two. Schmitt is a technical writer with Hercules Powder Co.

'32 Sp—Robert Trent Jones, designer of the present University golf course and who is contributing his talents for the new Jack Moakley House development to enlarge it to eighteen holes, is the subject of a "Profile" by Herbert Warren Wind in The New Yorker for August 4. The writer tells of Jones's pre-eminence as a golf-course architect and of how he became one. His prowess as a golfer is also noted and the distinction explained between him and his good friend, Robert Tyre Jones, Jr., former golf champion, with whom he is often confused.

'32 CE; '32 BS—Joel B. Justin and Mrs. Justin (Annie Redfearn) '32 live at 615 Penfield Avenue, Havertown, Pa. Son of Joel D. Justin '06, Justin is a consulting hydraulic engineer with Justin & Courtney, Philadelphia, Pa.

'33 AB—John E. Owens is an area geologist for Shell Oil Co., handling the exploration program for the Oklahoma and North Texas divisions. He has two sons: Mike, fifteen, and Dick, eleven. He may be addressed Care Shell Oil Co., Box 1191, Tulsa 2, Okla.

'33 BS—Otto B. Schoenfeld and his family, consisting of Mrs. Schoenfeld, sons Stephen and Michael, and daughter Sandra, spend summers on a farm in Ithaca off Triphammer Road. Their home is at 161 Rockleigh Place, Houston 17, Tex. Schoenfeld is president of Gulf Chemical Co.

'34 BS—E. Truman Wright was recently appointed manager of The Greenbrier hotel in White Sulphur Springs, W. Va.

'35 ME—John W. Todd, Jr. of 56 Rocklyn Place, Pittsburgh 28, Pa., is assistant manager of the sales alloy division of US Steel Corp. Son of John W. Todd '06, he is president of the Cornell Club of Pittsburgh.

'35 DVM—Monument (over) to Dr. Engueda Yohannes, Ethiopian scholar and patriot and first Ethiopian student at the University, made possible through the efforts of his Cornell friends here and abroad, was dedicated recently at Tafari Makonnen School in Addis Ababa. Dr. Yohannes, who died in November, 1944, served at the front during the Italian invasion of Ethiopia and after the campaign was forced to hide in the hills because the Italians were killing all educated Ethiopians. Following the liberation, he was appointed director of the veterinary department of the Ethiopian

## A NEW CORNELL CLASS RING FOR MEN

The same official design of course, with the same synthetic ruby, smooth or faceted, but improved in many ways.

### MASSIVE

This ten-karat gold ring weighs 13 pennyweight. Compare it with other rings of 9 or 11 pennyweight. You can feel the difference.

### CLEAR CUT DESIGN

A new die brings out every detail of the Cornell Shields and your Class numerals.

### PRICED RIGHT

This fine ring costs only \$34.00 plus the 20% excise tax. Three initials engraved in each ring without charge.

These rings are custom made, so allow five weeks for delivery. Do your Christmas shopping early!

# The Cornell Co-op.

Barnes Hall

Ithaca, N.Y.

ministry of agriculture. He became ill with tuberculosis, but later recovered and returned to work. He had a relapse after a successful struggle against cattle plague among the herds in the Tigre Province, during which he treated more than 4,000 head of cattle. In 1946, John L. Mott, now director of International House and Counselor to Foreign Students when Dr. Yohannes was at Cornell, started a subscription among Cornell friends for a memorial plaque. The bronze plaque bearing a bas-relief likeness of Dr. Yohannes in academic gown was made in the United States and shipped to Ethiopia. Emperor Haile Selassie I ordered three more memorial plaques of like size to be cast. The four were set on a five-foot obelisk. Shown above gathered around the monument at the dedication ceremony are (left to right) Yohannes Wolde Mariam, Dr. Yohannes's father, reading his speech of response; his sister; his young brother; Dr. **Christian A. Ruckmick, PhD '13**, Ethiopian superintendent of education, one of the speakers; Akalework Habtewold (behind the monument), Ethiopian vice-minister of education and fine arts, who accepted the memorial in the name of the Emperor; Honorable **George R. Merrell '21**, then US Ambassador to Ethiopia, who presented the Cornell plaque and delivered an address; and Dr. Edward Jandy, public relations officer for the US Embassy. In the background is the main building of the Tafari Makonnen School where Dr. Yohannes was top student in his class. The plaque sent by Cornell friends faces it.

'36 AB—**Howard T. Heintz** of 125 Parkland Avenue, Glendale, Mo., is a buyer of drugs and toiletries for Stix, Baer & Fuller, St. Louis, Mo. He has three sons.

'37 BS—**Eugene L. Bostrom**, secretary-manager of Hotel Huron in Ypsilanti, Mich., is a vice-president of the Michigan Hotel Association, commander of Second District, American Legion, Department of Michigan, and a member of the Ypsilanti Housing Commission.

'38 BS—**DeWitt C. Henry** married Elaine J. Harwood December 1, 1950; is in sales work with Colonial Service Co., Upper Darby, Pa.; and lives at Wildman Arms, Lansdowne, Pa.

'38 BSinME—**Edward B. Lanman III**, engineer on power plants at Bucyrus Erie Co., Milwaukee, Wis., has moved to 4860 South Woodlawn Place, Milwaukee 14.

'38 AB—**Marvin Meyer** is in the whole-

sale paper business in Utica, where he lives at 1910 Baker Avenue. He has a six-year-old daughter, Nancy, and a daughter, Gail, born January 24, 1950.

'38 AB—**Richard L. Williamson**, who is with the division of social sciences at Wheaton College, Wheaton, Ill., received the MBA at Northwestern University last June.

'39—**John W. Bargfrede** was transferred from the Panama City branch of The National City Bank of New York to the Medellin, Colombia, branch, as sub-manager, in September, 1950.

'39 AB—Mrs. Harold A. Bell (**Elizabeth Green**) of RD 2, Philipsburg, N.J., an osteopathic physician, has a practice with her husband, also an osteopathic physician, at 77 North Second Street, Easton, Pa. The Bells have a son, David, six years old, and a son, Stephen, three and a half.

'39 BArch; '36 AB—**Clifford H. Ruffner, Jr.** is a lieutenant colonel in the Regular Army, assigned to the General Staff Corps, Fort George G. Meade, Md. He and Mrs. Ruffner (**Yvonne Breguet**) '36 and their three sons live at Apt. 1922 E, Meade Heights, Fort Meade.

'40, '41 AB—**Richard W. Bessom**, export manager for Marion Power Shovel, lives at 279 Merchant Avenue, Marion, Ohio. A second child, a daughter, Margery Lynn, was born to him and Mrs. Bessom September 19, 1950.

'40 AB—**Stanley J. Kates** and Mrs. Kates have a son, Peter Jeffrey Kates, born last May in Lima, Peru, where they live at Apartado 2404. They also have two daughters, Aileen, eight, and Patricia, four, also born in Lima.

'40 AB, '43 MD—Dr. **John W. Little**, recalled to active duty in October, 1950, served as chief of contagious disease service and later as chief of dispensary service at the US Army Hospital, Fort Dix, N.J. Released last May, he resumed his practice in Petersburg, Rensselaer County. John W. Little III is now seven years old and Suzanne, four.

'40 BCE, '44 MCE; '40 AB—**Francis W. Montanari** and Mrs. Montanari (**Phyllis Andre**) '40, Apartado 23-Bis, Mexico, D.F., Mexico, write: "As soon as our Mexican-born twins, Robert Andre and David Lawrence (born July 16, 1950) were five weeks old we headed north on home leave with two-year-old Felicia. Managed to add 11,000 miles to the speedometer in less than three months, getting as far up as Mt. Mansfield in New Hampshire." Montanari is chief engineer with the Mexican Field Party of the Institute of Inter-American Affairs.

'40 BS—Dr. **Morris E. Scharf** practices dentistry in Pearl River, where his address is 76 North Middletown Road. He has a five-year-old son, Steven, and a two-year-old son, Jeffrey.

'40 AB—**Peter T. Wood** has just bought a house on Gingerbread Hill, Marblehead Mass.; and been appointed sales manager of confectionery products for the Walter Baker division of General Foods.

'41 AB; '44 AB, '46 MD; '47 MD—Dr. **Herbert H. Hauck** of 644 Stuyvesant Avenue, Irvington, N.J., is a resident in psychiatry at the New York Kingsbridge Road Veterans Administration Hospital. Also in

residence there are Drs. **Frederick N. Bailey** '44, in internal medicine service; and **Thomas W. Carr** '47, in neurology.

'41, '42 BSinAE (ME)—Major **Frederic R. Hillsley**, USA, is assigned to Frankford Arsenal, Philadelphia, Pa. The Hillsleys and their two daughters, Suzanne, two and a half, and Elizabeth, one, live at 1936 Edge Hill Road, Huntingdon Valley, Pa.

'41, '46 BS—A second son, **Thomas Edward Huff**, was born June 2 to **William J. Huff** and Mrs. Huff of 18 North Wyoming Avenue, Ardmore, Pa. Huff is with the advertising department of The Curtis Publishing Co.

'41 AB, '50 PhD—**John J. Nolde** is a member of the history and government department at the University of Maine, in Orono, teaching among other things Far Eastern and Russian history. He and Mrs. Nolde live at 104 Main Street, Orono, Me.

'41 BS—**Ralph C. Schutt, Jr.** is with the Miami office of Southern Dairies, Inc. (Sealtest). He and Mrs. Schutt and small daughter, Alison, live at 7442 Southwest Fifty-sixth Avenue, Apt. 2, Miami 1, Fla.

'41 AB—**Stuart A. Spaulding's** address is PO Box 325, South Hamilton, Mass. A daughter, Barbara, was born to the Spauldings November 8, 1950.

'42 BS—Mrs. **Phyllis Breese Kyte**, public health nurse, was recently assigned to the out-patient clinic of the US Public Health Service at Port Arthur, Tex. Her address is 311 Richmond Avenue, Port Arthur, Tex.

'42 BSinAE (ME); '43 AB—**Ralph H. Brown** and Mrs. Brown (**Chapple Tanzer**) '43 moved last April to 322 Fairlamb Avenue, Havertown, Pa. Brown is now sales engineer in the air conditioning department of General Electric Co.

'42 PhD—**Joseph A. Evans** is in technical service with E. I. duPont de Nemours & Co., Inc., and lives at 209 Blue Rock Road, Wilmington, Del.

'42 AB—Mrs. **William T. Hiraoka (Ruth Nakamoto)**, an administrative assistant for the Department of the Army, has been in Okinawa, Japan, since March with her husband, who is a captain in the US Army.

'42 BS; '42 BS—Dr. **Samuel L. Painter** and Mrs. Painter (**Lorraine Kuhn**) '42 have a third daughter, Pamela Marie Painter, born March 31. Since their return last summer from Europe, where Dr. Painter was on Army assignment, Dr. Painter has been a resident physician at Dayton, Ohio, Veterans' Hospital. During the fall semester, Mrs. Painter taught home economics at Wilbur Wright High School in Dayton. They live at 830 Rosedale Drive, Dayton 7, Ohio.

'42; '43 BS—Dr. **Bernard A. Sachs** practices medicine in Yonkers. He and Mrs. Sachs (**Lillian Kornblum**) '43 and their two small sons live at 40 Leighton Avenue, Yonkers.

'43 BS—A daughter, Virginia Nancy Raffel, was born June 19 to **Forrest B. Raffel** and Mrs. Raffel, who live at the Leslie Hotel, New Castle, Pa.

'43 BS—A son, Kenneth Carl Huber, was born May 29 to Mrs. Carl Huber (**Patricia Rider**) of RFD 4, Sunrise Avenue, Bridgeport, Conn. This is the Hubers' first child.

'44 AB—Dr. **Solomon J. Cohen** gradu-

## Wedgwood Cornell Chinaware

Complete assortments of the popular **Cornell Chinaware**, made by Wedgwood in England, are again available. Your choice of two colors—**Mulberry** or **Staffordshire Blue**. While the stock lasts, orders will be shipped prepaid anywhere in the United States, safe delivery guaranteed, in about ten days from receipt of order and payment. Please use Order Form below.

**Dinner Plates** are 10½ inches in diameter. They have twelve different center designs of Campus buildings (see list below) by E. Stewart Williams '32. Your choice of two border patterns—white, moulded Wedgwood **Patrician Border**, illustrated at left above; and the familiar and popular **Cornell Border with Seal**, printed in color and illustrated at right above. Both patterns are priced at \$3 each, \$15 a half dozen, or \$30 a dozen Plates.

Graceful **Teacups and Saucers** are printed in color with the Cornell Border only and the University Seal inside the Cups. Price, \$4 each set of cup and saucer, \$20 a half-dozen, \$40 a dozen sets.

CAN-3

ated from Johns Hopkins Medical School in June and is now an intern in pediatrics at the Johns Hopkins Hospital, Baltimore 5, Md.

'44 BCE—**Martin L. Gleich** married Enid Podell of Great Neck, an alumna of the University of Chicago, June 3. Their address is 940 Grand Concourse, Bronx 56.

'44 BSinCE, '47 MCE—**Captain Jack ★ H. McMinn** is with the 1905th Engineer Aviation Battalion, Camp Beale, Cal. His unit is back in California after a "long, hard winter" in Missouri.

'44, '47 AB; '42 BSinAE—**William F. Wagner** was recently appointed employee relations and research manager at Arma Corp., Brooklyn, manufacturers of fire control, gyro and computer equipment for the Army, Navy, and Air Forces. **Fred H. Guterma** '42 is also with the firm. Wagner lives at 72-81 113th Street, Forest Hills.

'45, '44 BSinAE(ME)—**Willis L. Davis** is treasurer of Albert Rees Davis Co., general insurance agency, and lives at 1596 Sheridan Road, South Euclid 21, Ohio. A son, Willis L. Davis, Jr., was born April 26 to the Davises.

'45, '44 BME—**Stanley Noss** and Mrs. Noss of 12 Carlton Street, Binghamton, have a son, James Philip Noss, born March 24. Noss is a design engineer with Link Aviation.

'45—**Dr. Robert E. White** is resident physician in internal medicine at St. Louis County Hospital, Clayton 5, Mo.

'46 AB; '52—**Mrs. Anne Bawlf Holland**, chief stewardess for Southern Airways, Inc., and her husband, **John E. Holland** '52, a captain for the airline, are pictured above comparing notes before taking off on a Southern flight. Captain Holland, a Navy pilot for four and a half years, mostly in the Pacific Theater, joined Southern Airways in 1949. Former chief stewardess for Robinson Airlines, Ithaca, and daughter of the late Nicholas Bawlf, soccer coach at Cornell for many years, Mrs. Holland was employed by Southern Airways in November, 1950, when the airline was replacing male flight attendants with stewardesses, to set up the department. She now has thirty girls under her supervision. Although she does not fly on a regularly scheduled basis, her duties frequently require her to fill in or to check ride with some of her girls and it

is quite likely to be on a flight on which Holland is captain. "When that happens, it's a matter of opinion as to who's in command," the other crew members say jokingly. The Hollands live at 3461 Elkins Street, Hapeville, Ga.

'46 AB, '48 BME—A daughter, Frances Carol Ferrara, was born September 20, 1950, to Anthony W. Ferrara and Mrs. Ferrara of 41-15 Fiftieth Avenue, Long Island City 4.

'46, '45 AB—A daughter, Margot Ann Eiseman, was born May 7 to Mrs. Alfred S. Eiseman, Jr. (Alberta Friedenber), whose address is 9 East Ninety-seventh Street, New York City 29.

'46 AB—A daughter, Marjorie Gail Markell, was born February 2 to Mrs. Edward N. Markell (Pearl Gerstenzang) of 261 Archer Street, Fall River, Mass.

'46 BS—Mrs. Howard Gentles (Dorothy Graham) Box 383, Pocatello, Idaho, has a daughter, Anne Comstock Gentles, born April 11.

'46 BSinEE—Warren G. Herzog has been in Spain for three years as an engineer in the engineering division of the Madrid branch of Standard Electric Co. In July, 1949, he married in Madrid the daughter of a member of the staff of the American Embassy and they now have a one-year-old daughter. Address him at Standard Electric SA, Madrid, Spain.

'46, '45 BSinME—Herbert E. Miller is Philadelphia, Pa., district dealer service supervisor for Carrier Corp. He is married to the former Anna May Schatz. They live at 521 North Ridley Circle, Morton, Pa., and have a son, Larry Steven Miller, born September 14, 1949.

'46 BSinME—Albert O. Schmitt married Doris Ernst June 2. After a honeymoon in Bermuda, they are living at 116-19 Curzon Road, Kew Gardens.

'46, '48 BEE—Sanford W. Seidler and Mrs. Seidler (Jean Gordon) '49 now live at 134 Haven Avenue, New York City 32. Seidler is chief of the microwave development section at Poland Electronics Corp., Brooklyn.

'46, '48 BS—John R. Siebenthaler was★ recalled to active duty in the Marine Corps as a first lieutenant in August, 1950, went to Korea with the 1st Marine Division, was wounded last January and hospitalized in Japan, returned to the United States in April and later assigned to duty at Quantico, Va. His address is 714 Cornell Street, Fredericksburg, Va. The Siebenthalers have a son and a daughter.

'46 AB—"I have retired from the business world to become a housewife since building and moving into our new house on Peakham Road, Sudbury, Mass.," writes Mrs. Wesley Teich (Patricia Snow). "We have been in it since last Christmas and are keeping busy with garden tools and paint brushes."

'46, '48 BSinAE; '47 AB—Philip A. Snyder, Jr. moved last January to Salem, Va., to become a sales engineer for Tidewater Supply Co. He and Mrs. Snyder (Joan Flood) '47 live in Apt. 207, Blair Apts., Salem, Va.

'46 AB, '47 AM—Mrs. Leonard Ostreich (Ellen Stein) has a new address: 34 Ter-

**WHAT IS  
SO DIFFERENT  
ABOUT THIS  
SUIT!**

No other suit is like a Southwick Superflex!

Shoulders that are *natural*, not overstuffed. Construction that is *soft*, without canvas stiffening. Lines that are *easy*, with no "pinch" at the waistline. These are the comfortable and gentlemanly features that distinguish SOUTHWICK Superflex suits and sport jackets from commonplace clothes.

Southwick suits (from \$72.50) and sport jackets (from \$52.) are now being featured at selected men's shops in many localities. To make sure you get the genuine and original Superflex construction look for the Southwick label.

At these and other fine stores.

'50, '51 BME—**Charles M. G. Wilder**, ★ second lieutenant in the Army Reserve, was called to active duty June 18 and is now stationed at Fort Sill, Okla., with the 595th Field Artillery Battalion.

## 1951 MEN

The Mitchel, Stewart, and generally eastern Air Force contingent of the Men of '51 are spinning a deal to return to the Campus en masse for the Michigan shenanigans November 10.

It looks as though there will be much blue to cheer on the Big Red for that one. Hop up in the Crescent and join the gang.

Speaking of those in the service, indications are that it won't be long before the Air Force aggregation at least will begin to filter to overseas bases. Lieutenant **Frederick T. Sutton, Jr.**, AB last June, who has been assigned to the 2500th Air Base Group at Mitchel in the Medical Squadron, has just received orders sending him to Japan the end of October. Sutton will act as adjutant of an infirmary for a bombardment wing in the Far East.

Other service news includes an item ★ from Stewart Air Force Base. September 5, Lieutenant Colonel **Robert P. Hamilton '23** and his family gave a party for Cornellians based at the Newburgh base. Those present: Lieutenants **Wickham, Mealy, Pierce, McNeal, Crow, Bolanis, Conger, Fleischman**, all '51, and Mrs. Fleischman.

The call to active duty for ROTC graduates of the other services, '51, continues to go out. The latest: Lieutenant **Norman Solovay, AB**, ordered to Fort Lee, Va., with the Quartermaster Corps, October 9.

AB—Ensign **James D. Stocker, Class '48** alumni president, is assigned to the reactivation of the destroyer, USS Cotten, at the Charleston Navy Base, S.C.

BChemE—**Robert H. Caplan III**, went ★ on active duty with the Air Force for a two-year period July 25. He reported to Lackland Air Force Base, Tex. Caplan had been working with the Esso Co. in the operations analysis department, Bayway, N.J.

PhD—**David A. Warriner, Jr.** has accepted a position as assistant professor of psychology at Juniata College in Huntingdon, Pa.

BS—**Jo Dodds** goes back to school this fall at the University of Wyoming to begin work on his AM in Education.

BChemE—**John Gernon** married **Rose Carpenter '53**, July 22. He is an aeronautical research scientist with the National Advisory Committee for Aeronautics (Lewis Lab).

BEP—**Alfred Blumstein** is doing operations research work for the Cornell Aeronautical Lab in Buffalo. He is living with **Leon Bush '51**, at 1088 Parkside Avenue.

BME—**Edward Magee** has been called ★ to active duty as a second lieutenant at Frankford Arsenal, Philadelphia. His new address is University Club, Sixteenth and Locust Street.

AB—**Kenneth R. Ryman** was married to **Mary Ann Oeschger, Drexel Hill, Pa.**, on June 16 in Ocean City, N.J. He is working

## A Yale '13 reader says of Rym's book:

"It is so delightfully and unobtrusively personal and of Cornell, and yet for everybody everywhere in the world of universities. . . . I hope the book reaches the thousands of readers in and out of its community who, like myself, will enjoy it for its own sake and as an initiation into some of the secrets that have made Cornell such a great school."

YOU AND YOUR FRIENDS WILL ENJOY IT

**Above the Flooded River.** Poised a few feet above the swirling flood, a telephone repairman tests a cable on a bridge between Kansas City, Kansas, and Kansas City, Missouri, while his companion uses a walkie-talkie to co-ordinate repair work. In other places, telephone men were forced to take to boats.

**Meeting the Emergency.** Telephone people not only worked valiantly to restore service but to keep it going. Dikes were thrown around telephone offices. Switchboards raised above rising waters. Emergency power plants set up. Mobile radio telephones rushed to towns where telephone offices were washed out.

## FIGHTING THE NATION'S COSTLIEST FLOOD

From the flooded sections of Missouri, Kansas and Oklahoma have come stories of the loyalty, skill and courage of telephone people in one of the Nation's worst floods.

Many returned from vacations to help. In one town, a single radio appeal for former operators brought twice as many as were needed. Hundreds of trained telephone people from other states were rushed to the scene to help their fellow workers.

Once again the Western Electric Company — the Bell System's manufacturing and supply unit — proved its value in an emergency.

By plane, fast freight and truck it rushed millions of feet of cable and wire, telephones, switchboards and other needed equipment.

No one can tell when or where such emergencies will occur, but the Bell System has to be ready and able to handle them when they happen. That means financially able as well as physically able.

This points up again that it takes a financially strong telephone company, with a strong supply organization like Western Electric, to give the Nation the service it requires.

### Flying to the Flood Front.

Part of one hundred Long Distance operators who were flown from New York, Louisville and Chicago to Kansas City, Missouri, where a flood of calls followed the flood of waters. With traditional Bell System speed and teamwork, they pitched in to help at busy switchboards in the stricken areas.

**BELL TELEPHONE SYSTEM**
