

# TICK STORAGE

In the  
field

**1**

**Place used lint roller sheets in ziploc bags**

- Only place one sheet in each ziploc bag
- Label bag with name & date

**2**

**Place nymphs and adults in plastic vials**

- Label vial with name & date

At  
home

**3**

**Place a piece of a LIGHTLY moistened paper towel in the vials and plastic bags**

- Wring paper towel until no more water is dripping from the paper towel, too much moisture will kill the ticks

**4**

**Place vials and bags in the refrigerator**

- Only remove once you have finished sampling for the week and are ready to mail all your ticks
