2,4-D and Breast Cancer Risk

Bibliography

This bibliography is provided as a service to our readers. It is compiled from the entries in the BCERF Environmental Risk Factors Bibliographic Database.

This bibliography is arranged topically. The topics include:

- **Review Articles, 2,4-D and Breast Cancer Risk**
- **Review Articles and Book Chapters on the Toxicology of 2,4-D and its Metabolites**
- **Studies in Humans**
  - Epidemiological Studies on Breast Cancer Risk
  - Occupational Exposure and Cancer Risk
  - Cancer Risk Among Vietnam Veterans
  - Reproductive Toxicity in Humans
  - Immunotoxic Effects in Humans
- **Studies in Experimental Animals**
  - Long Term Exposure and Cancer Bioassays
  - Mutagenicity
  - Reproductive Toxicity in Animals
  - Immunotoxicity in Animals
- **Estrogenicity and Hormone Disruption**
- **Effects on Cell Proliferation, Cell Cycle, and Cell Communication**
- **Exposure and Pharmacokinetics in Humans and Animals**

**Review Articles, 2,4-D and Breast Cancer Risk**

1 of 13

Review Articles and Book Chapters on the Toxicology of 2,4-D and its Metabolites (NOTE: References include letters, commentary and editorials on these studies)

Studies in Humans

Epidemiological Studies and Breast Cancer Risk

chlorophenoxy herbicides, chlorophenols, and dioxins. Cancer Causes and Control 4, 547-553.

**Occupational Exposure and Cancer Risk**

chlorophenols, and dioxins: two nested case-control studies. Epidemiology 6, 396-402.

Cancer Risk Among Vietnam Veterans

Reproductive Toxicity in Humans

2,4-D: Some Current Issues (1983): NRCC, Canada K1A OR6.

**Immunotoxic Effects in Humans**

**Studies in Experimental Animals**

**Long Term Exposure and Cancer Bioassays**

USEPA. (1996). 2,4-Dichlorophenoxyacetic acid: Review of a Chronic Toxicity/Carcinogenicity Study in Rats, a Carcinogenicity Study in Mice, and a Re-review of a Developmental Toxicity Study in Rats (Washington, D.C.: USEPA).

USEPA. (1997). U.S. Environmental Protection Agency Memorandum from Jeff Rowland and Esther Rimde, Office of Pesticide Programs, Health Effects Division. "Carcinogenicity Peer Review (4th) of 2,4-Dichlorophenoxyacetic acid (2,4-D)." (Washington, DC.

Mutagenicity

Reproductive Toxicity in Animals

Khera, K. S., Huston, B. L., and Mckinley, W. P. (1971). Pre- and postnatal studies on 2,4,5-T, 2,4-D and derivatives in
Wistar rats (Abstract). In Toxicology and Applied Pharmacology.

Schwetz, B. A., Sparschu, G. L., and Gehring, P. J. (1971). The effect of 2,4-dichlorophenoxyacetic acid (2,4-D) and esters of 2,4-D on rat embryonal, foetal and neonatal growth and development. Food and Cosmetic Toxicology 9, 801-817.

**Immunotoxicity in Animals**

**Estrogenicity and Hormone Disruption**

**Effects on Cell proliferation, Cell Cycle, and Cell Communication**

Toxicology 34, 103-111.

Rubinstein, C., Jone, C., Trosko, J. E., and Chang, C.-C. (1984). Inhibition of intercellular communication in cultures of Chinese Hamster V79 cells by 2,4-dichlorophenoxyacetic acid and 2,4,5-trichlorophenoxyacetic acid. Fundamental and Applied Toxicology 4, 731-739.

**Exposure and Pharmacokinetics in Humans and Animals**

Prepared by Renu Gandhi, Ph.D., Research Associate

We will make every effort to update this bibliography. If you have comments on this bibliography, or have a suggestion of a reference you would like us to review for inclusion in the bibliography, please send this information via email to: breastcancer@cornell.edu
