Exercise and the Risk of Breast Cancer

Bibliography

This bibliography is provided as a service to our readers. It is compiled from the entries in the BCERF Environmental Risk Factors Bibliographic Database.

This bibliography is arranged topically. The topics include:

- Review
- Original epidemiologic studies
- Recreational Exercise
- Occupational Activity
- All Activity
- Animal Studies
- Studies on the mechanism between exercise and breast cancer
- Studies on the influence of exercise on breast cancer survival
- Studies on the effects of exercise on the menstrual cycle

Review articles

Original epidemiologic studies

Recreational exercise

**Occupational activity**

**All activity**

Exercise and the Risk of Breast Cancer

Animal studies

Studies on the mechanism underlying the association between exercise and breast cancer

Studies on the influence of exercise on breast cancer survival

Studies on the effects of exercise on the menstrual cycle

We will make every effort to update this bibliography. If you have comments on this bibliography, or have a suggestion of a reference you would like us to review for inclusion in the bibliography, please send this information via email to: breastcancer@cornell.edu
