Genetics and Breast Cancer Risk

Bibliography

This bibliography is provided as a service to our readers. It is compiled from the entries in the [BCERF Environmental Risk Factors Bibliographic Database](#).

This bibliography is arranged topically. The topics include:

- [Basic Reviews on the Origins of Cancer](#)
- [Reviews on Genetics, Tumor Suppressor Genes and Breast Cancer Risk](#)
- [Commentaries and Editorials on Genetics and Breast Cancer](#)
- [Reviews on p53 and Breast Cancer Risk](#)
- [BRCA1, and BRCA2; Breast Cancer Susceptibility Genes](#)
- [Human Studies on BRCA Mutations and Cancer Risk](#)
- [Commentaries on Genetic Testing and Breast Cancer Risk](#)
- [New Breast Cancer Tumor Suppressor Genes](#)
- [Environmental Carcinogenesis and Molecular Epidemiology](#)

Basic Reviews on the Origins of Cancer

Ruoslahti, E. (1996). How cancer spreads. *Scientific American*, 72-77.

Weinberg, R. A. (1996). How cancer arises. *Scientific American*, 62-70.

Hoffman, M. (1996). Desperately seeking BRCA1 [editorial]. *American Scientist* 84, 535-536.

Kahn, P. (1996). Coming to grips with genes and risk. *Science* 274, 496-498.

Kolata, G. (1996). Discovery of breast cancer gene produces clues but no answers. In *New York Times*, pp. C3.

Marx, J. (1997). Possible function found for breast cancer genes. *Science* 276, 531-532.

Marx, J. (1996). A second breast cancer susceptibility gene is found [editorial]. *Science* 271, 30-31.

Reviews on p53 and Breast Cancer Risk

Barnes, D. M., and Campeljoh, R. S. (1996). P53, apoptosis, and breast cancer. *Journal of Mammary Gland Biology and Neoplasia* 1, 163-175.

Begley, S. (1996). The cancer killer. In *Newsweek*, pp. 42-47.

Culotta, E., and Koshland Jr., D. E. (1993). p53 sweeps through cancer research. *Science* 262, 1958-1961.

Harris, C. C. (1996). p53 tumor suppressor gene: at the crossroads of molecular carcinogenesis, molecular epidemiology, and cancer risk assessment. *Environmental Health Perspectives* 104, 435-439.

Hayes, D. (1994). Tumor markers for breast cancer; current utilities and future prospects. *Hematology/Oncology Clinics of North America* 8, 485-506.

Semenza, J. C., and Weasel, L. H. (1997). Molecular epidemiology in environmental health: the potential of tumor suppressor gene p53 as a biomarker. *Environmental Health Perspectives* 105(Suppl 1), 155-163.

Sun, X. F., Johannsson, O., Hakansson, S., Sellberg, G., Nordenskjold, B., Olsson, H., and Borg, A. (1996). A novel p53 germline alteration identified in a late onset breast cancer kindred. *Oncogene* 13, 407-411.

BRCA1, and BRCA2; Breast Cancer Susceptibility Genes

(1995). Second isolated breast cancer gene may aid research. In *Ithaca Journal* (Ithaca).

Bonilla, F., Provencio, M., and Cubedo, R. (1996). BRCA1 and BRCA2: Breast and ovarian cancer susceptibility genes.

Oncologia 19, 33-39.

Chen, Y., Chen, P., Riley, D. J., Lee, W., Allred, D. C., and Osborne, C. K. (1996). Location of BRCA1 in human breast and ovarian cancer cells. *Science* 272, 125-126.

Chen, Y., Farmer, A. A., Chen, C. F., Jones, D. C., Chen, P. L., and Lee, W. H. (1996). BRCA1 is a 220-kDa nuclear phosphoprotein that is expressed and phosphorylated in cell cycle-dependent manner. *Cancer Research* 56, 3168-3172.

Collins, F. S. (1996). BRCA1 - lots of mutations, lots of dilemmas [editorial]. *New England Journal of Medicine* 334, 186-188.

Couch, F. J., DeShano, M. L., Blackwood, M. A., Calzone, K., Stopper, J., Campeau, L., Ganguly, A., Rebbeck, T., and Weber, B. L. (1997). BRCA1 mutations in women attending clinics that evaluate the risk of breast cancer. *New England Journal of Medicine* 336, 1409-1415.

Durocher, F., Tonin, P., Shattuck-Eidens, D., Skolnick, M., and Narod, S. A. (1996). Mutation analysis of the BRCA1 gene in 23 families with cases of cancer of the breast, ovary, and multiple other sites. *Journal of Medical Genetics* 33, 814-819.

Eeles, R. (1996). Testing for the breast cancer predisposition gene, BRCA1. *British Medical Journal* 313, 572-573.

FitzGerald, M. G., MacDonald, D. J., Krainer, M., Hoover, I., O'Neil, E., Unsal, H., Silva-Arrieto, S., Finkelstein, D. M., Beer-Romero, P. E., C., Sgroi, D. C., Smith, B. L., Younger, J. W., Garber, J. E., Duda, R. B., Mayzel, K. A., Isselbacher, K. J., Friend, S. H., and Haber, D. A. (1996). Germ-line BRCA1 mutations in Jewish and non-Jewish women with early-onset breast cancer. *New England Journal of Medicine* 334, 143-149.

Gayther, S. A., Mangion, J., Russell, P., Seal, S., Barfoot, R., Ponder, A. J., Stratton, M. R., and Easton, D. (1997). Variation of risks of breast and ovarian cancer associated with different germline mutations of the BRCA2 gene. *Nature Genetics* 15, 103 - 105.

Healy, B. (1997). BRCA Genes-Bookmaking, fortunetelling, and medical care (editorial). *New England Journal of Medicine* 336, 1448-1449.

Kolata, G. (1996). Discovery of breast cancer gene produces clues but no answers. In *New York Times* (New York City, pp. C3).

Krainer, M., Silva-Arrieto, S., FitzGerald, M. G., Shimada, A., Ishioka, C., Kanamaru, R., MacDonald, D. J., Unsal, H., Finkelstein, D. M., Bowcock, A., Isselbacher, K. J., and Haber, D. A. (1997). Differential contributions of BRCA1 and BRCA2 to early-onset breast cancer. *New England Journal of Medicine* 336, 1416-1421.

Langston, A. A., Malone, K. E., Thompson, J. D., Daling, J. R., and Ostrander, E. A. (1996). BRCA1 mutations in a population-based sample of young women with breast cancer. *New England Journal of Medicine* 334, 137-142.

Marx, J. (1997). Possible function found for breast cancer genes. *Science* 276, 531-532.

Marx, J. (271). A second breast cancer susceptibility gene is found [editorial]. *Science* 271, 30-31.

Miki, Y., Swensen, J., Shattuck-Eidens, D., Futreal, A., Harshman, K., Tavtigian, S., Liu, Q., Cochran, C., Bennett, L. M., Ding, W., Bell, R., Rosenthal, J., Hussey, C., Tran, T., McClure, M., Grye, C., Hattier, T., Phelps, R., Haugen-Strano, A., Katcher, H., Yakumo, D., Gholami, Z., Shaffer, D., Stone, S., Bayer, S., Wray, C., Bogden, R., Dayananth, P., Ward, J., Tonin, P., Narod, S., Bristow, P. K., Norris, F. H., Helvering, L., Morrison, P., Rosteck, P., Lai, M., Barrett, J. C., Lewis, C., Neuhausen, S., Cannon-Albright, L., Goldgar, D., Wiseman, R., Kamb, A., and Skolnick, M. H. (1994). A strong candidate for the breast and ovarian cancer susceptibility gene BRCA1. *Science* 266, 66-71.

Oddoux, C., Struewing, J. P., Clayton, C. M., Neuhausen, S., Brody, L. C., Kaback, M., Haas, B., Norton, L., Borgen, P., Jhanwar, S., Goldgar, D., Ostrer, H., and Offit, K. (1996). The carrier frequency of the BRCA2 6174delT mutation among Ashkenazi Jewish individuals is approximately 1%. *Nature Genetics* 14, 188-190.

Ostorio, A., Robledo, M., San Roman, J. M., Albertos, J., Lobo, F., Gallego, J., and Benitez, J. (1996). Molecular analysis of BRCA1 gene in fifteen Spanish families with breast and or ovarian cancer. *Oncologia* 19, 60-64.

Roa, B. B., Boyd, A. A., Volcik, K., and Richards, C. S. (1996). Ashkenazi Jewish population frequencies for common mutations in BRCA1 and BRCA2. *Nature Genetics* 14, 185-187.

Rubin, S. C., I., B., Behbakht, K., Takahashi, H., Morgan, M. A., LiVolsi, V. A., Berchuck, A., Muto, M. G., Garber, J. E., Weber, B. L., Lynch, H. T., and Boyd, J. (1996). Clinical and pathological features of ovarian cancer in women with germ-line mutations of BRCA1. *New England Journal of Medicine* 335, 1413-1416.

Scully, R., Chen, J., Plug, A., Xiao, Y., Weaver, D., Feunteun, J., Ashley, T., and Livingston, D. M. (1997). Association of BRCA1 with Rad51 in mitotic and meiotic cells. *Cell* 88, 265 -275.

Scully, R., Ganesan, S., Brown, M., De Caprio, J. A., Cannistra, S. A., and Feunteun, J. (1996). Location of BRCA1 in human breast and ovarian cancer cells. *Science* 272, 123-124.

Sharan, S. K., Morimatus, M., Albrecht, U., Lim, S.-S., Regel, E., Dinh, C., Sands, A., Eichele, G., Hasty, P., and Bradley, A. (1997). Embryonic lethality and radiation hypersensitivity mediated by Rad51 in mice lacking BRCA1. *Nature* 386, 804-810.

Shyam, S. K., Morimatsu, M., Albrecht, U., Lim, D.-S., Regel, E., Dinh, C., Sands, A., Eichele, G., Hasty, P., and Bradley, A. (1997). Embryonic lethality and radiation hypersensitivity mediated by Rad51 in mice lacking BRCA2. *Nature* 386, 804 - 810.

Spillman, M. A., and Bowcock, A. M. (1996). BRCA1 and BRCA1 mRNA levels are coordinately elevated in human breast cancer cells in response to estrogen. *Oncogene* 13, 1639-1645.
