Dear Father:—

Enclosed the Agreement. It was signed at seven tonight. The Viceroy had on Thursday when I wired you said that he would sign on Saturday but I thought that other things might come and while appreciating the desirability of f'rench's putting his name to the document thought that it if were necessary to close he would not object to my signing for him. On Friday the Commissioner of Foreign Affairs came to say that he wanted certain change made in the draft we had prepared the day before. This I said I could not make without referring to New York. He belly-ached but I told him that my reply would probably reach me today. As a result of your wire I this morning wrote saying nothing doing till Monday. Then the Interpreter came rushing down said that the Viceroy and Governor wanted to wire the agreement to Peking for approval. I pointed out that this was hardly playing the game when they had promised to sign subject to approval by Edict. I came here, the the Interpreter and the Commissioner of Foreign Affairs both came down, and said that the telegram had already gone. It would appear that the Viceroy had wired that he had signed and taken the risk of doing so without Peking's approval. He feared that if we did not close today Peking might jack him up and that he would be obliged to delay indefinitely. Since this was the situation, and it appeared that we might lose certainly a great deal of time and perhaps an opportunity that would not return I told them that I would sign and did so without authorization from New York. I had telegraphed yesterday, "Unless differently instructed will sign tomorrow." No word yet. So perhaps my first and last signature as representative of the Group has been registered. It was a long chance but it seemed up to me. This goes by Bland. I shall wait for f'rench and probably come on on Monday morning, reaching Peking by the express Tuesday morning. I shall wire on leaving Shanhaikuan.

Yours,
Dear ffrench:-

Sorry, but here you are signed. I had Fletcher's wire and agree quite that it would be better to have had you put your name to the document. The Chinese however took the bull by the horns. I told them on Thursday that I would wire you the provisions of the Agreement. They said that they would sign on Saturday but I did not think that there would be any difficulty in postponing signature in case you did not wish to act for you, and since they seemed anxious to sign, consented. On Friday the Commissioner of F.A. came here and wanted to make a minor change in the Loan provisions. This I said I would have to refer; I said I thought that my answer would come today. Without waiting for further word from me the Viceroy wired the whole thing to Peking this morning. I notified the F.O. early that you were coming and that we could sign on Monday. At noon the F.O. sent a man down and said the Viceroy wanted to refer the question to me. I told them that this was not playing the game and that they had promised to sign first. They strongly objected to their referring it while you were on the way up. The man said he would report to the Viceroy. He returned in half an hour saying that the telegram had gone off early this morning but that if I would sign today it would be all right for they would then be without instructions and could act for themselves.

A few minutes later the Commissioner of F.A. turned up. He begged me to sign today at once for he said there might all sorts of difficulties crop up if we did not act quickly. With my eye on Na Tung I decided, notwithstanding my slim authority from you, to go ahead. My wire from New York had not come but I had said that unless differently instructed I should sign. They had plenty of time to stop me and I went ahead. The contract as you will see is so general that there is an easy way to get out by insisting on impossible terms if it be desirable to do so. I hope however that you will approve my action in taking the bull by the horns and risking this throw of the dice. With this document signed Na ffrench and underneath in small letters the documents "ffrench" and underneath in small letters "per W.S." I hope this suits you. I wish that you yourself might have done it, but as you will see from the longer story when I see you, it was a pretty close thing. This goes by Blând. If I will meet
you at the station and Willie will put you up. I hope that you will be ready to go back at once. I told the Viceroy that you would be here and would probably like to see him. He said that it would not be necessary as nothing further could be done until the Edict was issued. He is pretty nervous himself I think as he too has been taking a little risk.

I am in your hands, and sincerely hope you will approve what I have done.

Yours,

Monday 13

Dear Ed. Summer at home.

This week the weather has been much colder. Monday had a heavy snowfall, Tuesday and Wednesday had freezing rain. Thursday and Friday were very cold.

Thursday night was the only night that was really cold.

The temperature was 30 degrees below zero.

It snowed all night, and by morning the ground was covered with a foot of snow.

The wind was very strong, and the snow fell in large flakes.

The sky was very dark, and the air was very cold.

It was a very unpleasant day, and I had to stay indoors most of the time.

However, it was not too bad, and I was able to get some work done.

Tuesday 14

Old Mr. Lee called on us today to tell us about the weather. He said that the temperature is expected to drop even lower tomorrow.

He also told us about the snowfall that is expected to continue throughout the week.

Wednesday 15

In the morning, I went for a walk in the snow. It was very beautiful, and I enjoyed the fresh air.

I also went for a ski, and it was a lot of fun.

Afterwards, I went back to the house to warm up.

The temperature was still very low, but it was worth it for the beautiful scenery.

I spent the rest of the day reading and writing letters.
Thursday 16 (200 from Jan.)

Faded. The end is in sight. A crowded day, and I can't find a place to sit down. The town seems to be in chaos. It's a hot day, and the air is thick with the smell of frying vegetables.

Friday 17

I went to the town to see the town. I was told that the town was in a state of chaos. People were running around, trying to find a place to eat. It was hot, and the air was thick with the smell of burning buildings.

Saturday 18 (202 from Jan.)

Hutul da, of Moharom.

I was up early today but nothing interesting. Wrote out my diary in chalk. Started exercising with Khadrab in which I went to far 6 1/2 Chetwons. I suggest that the chief as well as the others in the house keep the northern 1 1/2 hours that that south face the wall 1 1/2 hours. For the northern 1 1/2 hours, it is even more important. The Khadrab are not friendly 1 1/2 hours. I was 1 1/2 hours. I was 1 1/2 hours. I was 1 1/2 hours.

So now it is agreed, to add 1 1/2 hours. I was 1 1/2 hours. I was 1 1/2 hours. I was 1 1/2 hours.

Mr. and Mrs. Canfield at lunch. Note that I am not to address
Moments. I went with Grubb and his wife, Mr. and Mrs. Canfield.
I did not remain long, but I returned to the house.

I found the Canfields still juggling.

11 Friday [12-322]

In January, January, 28th, 29th, and 30th, I was with the Canfields.

I could not attend to any business.

Mrs. Canfield is often absent, but in the morning I was able to attend to the work,

On the 28th, I began the preparation for the new year, and to

the New Year's Day.

I believe that the Canfield family has always celebrated the New Year

together, and that a statement of their wishes.

I shall write to Mrs. Canfield in the evening. The Canfields are

not likely to have a New Year's Day celebration, but I shall write

about the New Year's Day.

Practically all the thrift of the whole town. The best method of keeping the town from going to seed is that of giving the best possible return for the services done to the city. The city has been a failure because the city has been a failure. I mean to make it a success. When you make all the things well, all the things that you do make become the most beautiful and fruitful in the world, and more than that is not enough.

The day commenced at 9:30 A.M. with "Botan" and "Rewa". We left the hotel by 10:30 and made our walk along the way. By 12:30 A.M., "Jumma" and "Hari" were at about 6:00 in the morning.

Weather: Cold morning, clouds at 11:00. Both said that tomorrow would be warmer. It was 2:30 when we left. We arrived at 3:00. There was a telegram regarding the sculpture. Also, we received two letters. The weather is often cold; otherwise, it is fine.

Rahul's friends, Surs, and Sonnabile all went to the hotel.

Weather: Windy with rain. Dinner at 11:00. Half telegram received were quite cheerfull. It was dark by the time we left with some trouble in a little in town to lose track.

Weather: Cold and bright. Some change in the weather. John suggested that since they weren't so cold, we should go for a walk. They were all ready. We walked with our friends and talked with them about Hendra's problem. Glad that there is a 3rd moon.

Barbara was named "Barbara" because she wanted a name that was easy to remember. She was a good friend of mine and often came to see me. She would often bring me letters from friends and family.

From Shang Sheng who had sent for me to see
his albums since he heard about the war.
He said that Shang had sent
me a telegram from Fung, in which he stated that he was about to
return. But when I arrived in the saddle before
me, I saw two men walking, one
of whom was Shang's, who wished me to come in.

The Shang is waiting for Shung in the saddle before me—
around a large truck. He sent for me, I think, because he was about to
return, and with him comes Huang & Sheng - both boys.

The striking features of the Yost Typewriter are its originality of construction and the method of inking.

Twenty-five years ago, these features were regarded as experiments, but since that period they have been retained intact in every different model put on the market.

Alterations have been made at different times, keeping the Yost well abreast of all modern requirements, and to-day it is at the same time the fastest and most reliable Typewriter ever offered for sale.

A Natural Remedy

Time was when disease was thought to be due to the direct influence of evil spirits, and exorcism and magic were invoked to cast it out.

Science has taught us wisdom. The evil spirits exist still. We call them "Disease Germs," and they also must be cast out. Once lodged in the stomach or intestines, fever with its delusions, or biliousness with its aches and pains, is the result.

Eno's 'Fruit Salt'

is the approved remedy for driving out disease germs. Its action is quick and thorough. It clears the intestines, raises the torpid liver to new life, stimulates the mucous membrane to a healthy action, and cleanses and invigorates the whole digestive tract.

It may be safely taken at any time by old or young. It is very effective in the early stages of Diarrhoea by removing the irritating effects.

Be prepared for emergencies by always keeping a bottle in the house.

15 MONDAY [15-35]

Said a man at Sunday School, "You can't work to earn money. You can save your money when you are young, but you can't earn it when you are old." That's a true saying.

16 TUESDAY [16-36]

Today I am going to try and remember what I said last week. It was about the importance of saving money. If you save a little bit every week, you will have a lot of money when you retire. The old saying goes, "A penny saved is a penny earned." Remember, it's never too late to start saving.

17 WEDNESDAY [17-36]

I went to the library today and read a book about investing. It was very interesting. I learned that if you invest your money wisely, you can make a lot of money. The key is to diversify your investments and not put all your eggs in one basket.

18 THURSDAY [18-36]

I had a meeting with the bank manager today. He explained the different types of savings accounts and how they work. I decided to open a high-yield savings account to maximize my earnings.

19 FRIDAY [19-36]

Today I went to the market and bought some fresh fruits and vegetables. I plan to use them to make a healthy dinner tonight. It's important to eat well and take care of your body.

20 SATURDAY [20-36]

I spent the day cleaning and organizing my home. It feels great to have a tidy space. I know it's a small thing, but it makes a big difference in my overall sense of well-being.

21 SUNDAY [21-36]

Today was a beautiful day, so I decided to go for a walk in the park. It was a great way to relax and clear my mind. I came home feeling refreshed and energized.

I saw Mr. Hillyer at 1700. He was in gray clothes, with a gray tie and gray coat. He was talking about business affairs.

He seems to be in charge of something important. He mentioned some figures, but I didn't understand them.

He then mentioned the idea of doing something on a large scale. I'm not sure what he means by that.

I asked him about the situation, but he didn't want to discuss it.

I think he's trying to get something done, but I'm not sure what.
