

CORNELL WASTEBASKET

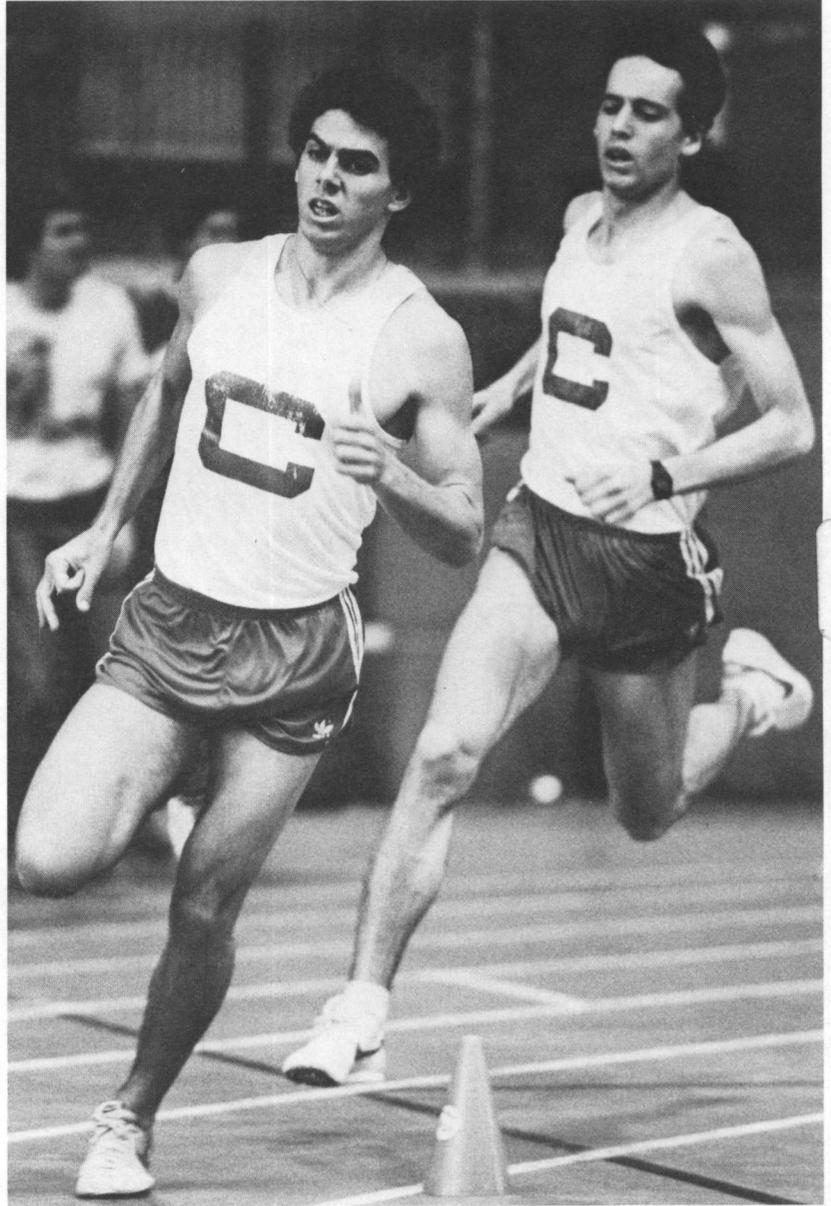

THE NEWSLETTER OF CORNELL TRACK AND CROSS COUNTRY

VOL. 68

WINTER-SPRING 1984

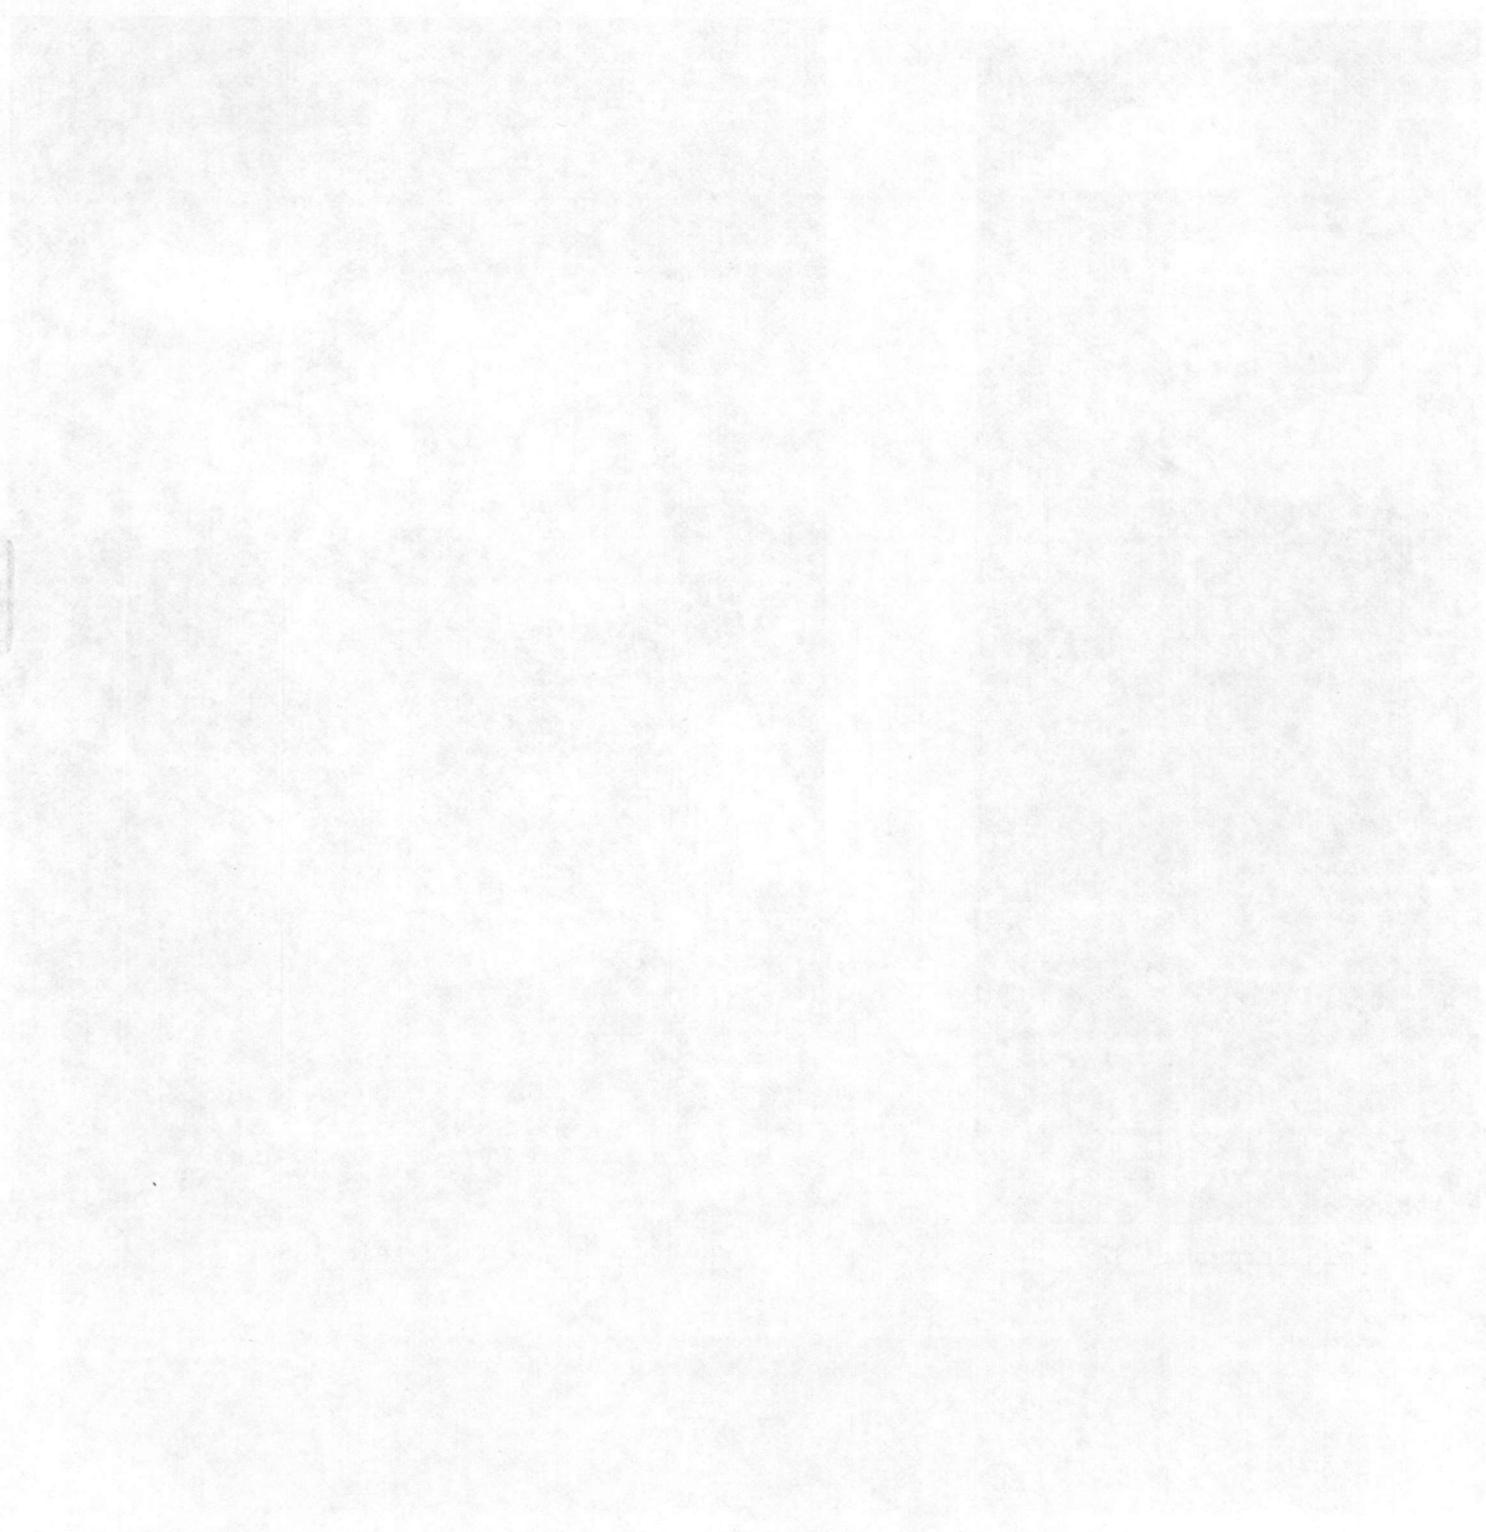

Lola Sergeant '87

Joe Goldstein '86

CONFIDENTIAL

CONFIDENTIAL

DEDICATION

We of the Spiked Shoe Society of
Cornell University
dedicate this issue
of the WASTEBASKET to:

CHARLES H. MOORE, JR. '51

"Charlie" Moore is one of Cornell's ALL-TIME track greats. He led the great teams of 1949, '50, and '51 to IC4A titles, 2nd place in the 1951 outdoor NCAA and set numerous Cornell records which still stand. His most notable achievement however was his Olympic Gold medal for the 400 Meter Intermediate Hurdles at the 1952 Games in Helsinki. Charlie still holds the Cornell records for the 440 yards at :47.0, and the 440 hurdles at :51.1. Several have come close to those marks but they still stand. We are all proud to be "teammates" of Charles H. Moore, Jr.!

1984 WOMEN'S TRACK

ROW 1-- Wootan, Lutz, Kulik, Sampson, Carter, Taylor, Schmidt

ROW 2-- Borchelt, Stone, Johnsno, Zyskowski, Gist, Bragdon

ROW 3-- Coach Tenisci, Day, S. Jones, E. Jones, Sergeant, Coach Warner.

1984 MEN'S TRACK

- ROW 1-- Whitney, Basting, Robinson, McConnell, Passalacqua, Crawley, Hofstetter, Lem, Howarth
 ROW 2-- Brownlee, Hampstead, Tribble, Scharf, Chrysostomou, Hursh, Wetmore, Goldstein, Nickles
 Graves
 ROW 3-- Coach Tenisci, Fiura, Mears, Hazen, Lipic, Davis, Franz, Reid
 ROW 4-- Coach Warner, Bares, Glynn, Roach, Bender, Bosenberg, Wemple, Day, Bernstein, Coach
 Bowman

PLEASE MEET...

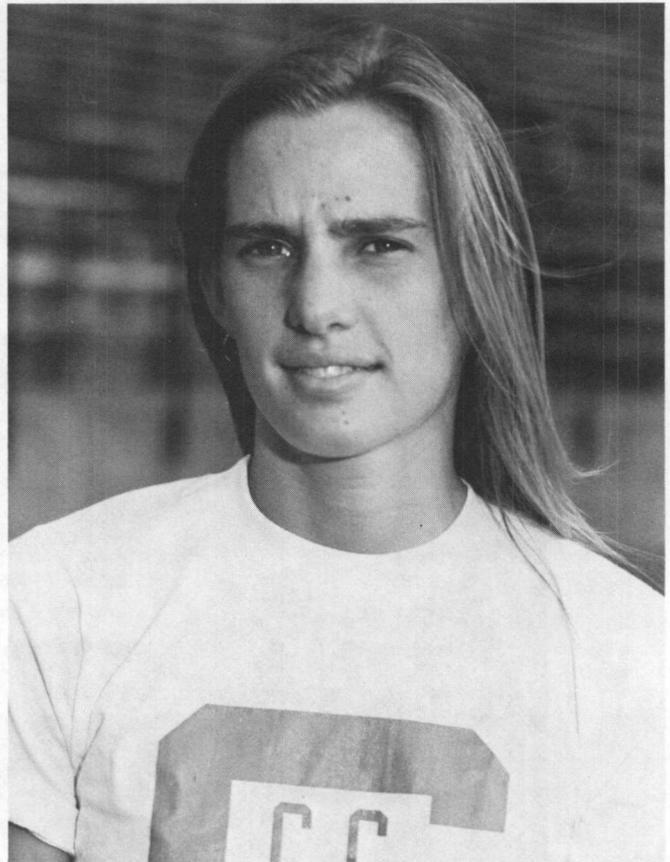

ELISE JONES

MID-DISTANCE

Elise has contributed much to the Cornell women's track program in her two short years here. She will continue to contribute to the team next year, both as co-captain and a strong contender in the middle distance races. Elise competed mainly in the 800 and 1500 meters, although she has been known to compete in the 3,000 meters. Elise has scored many points for the team, both in dual meets and in the Heptagonal championships.

She is enrolled in the College of Agriculture and Life Sciences, and is majoring in natural resources. She is thinking of a career in wildlife management, or possibly law school.

A native of Kansas City, Mo., Elise's interests include backpacking, camping, animals and music.

CHRIS CHRYSOSTOMOU

LONG, TRIPLE JUMPS

England, long jump, Cyprus, civil engineering...These are all words that describe this 1984-85 men's track co-captain. Chris was born in England and was raised in Cyprus. Before coming to Cornell, he became very successful in the long jump.

In 1978 he was first in the long jump at the National Cyprus Games. That same year, he was a member of the Greek National team. This year Chris was the Heps champion in the triple jump, both indoors and outdoors.

Chris and his wife are both enrolled in the College of Engineering. Chris is a civil engineering major and hopes someday to own his own construction company. Cornell has the fortune of having Chris compete for one more year.

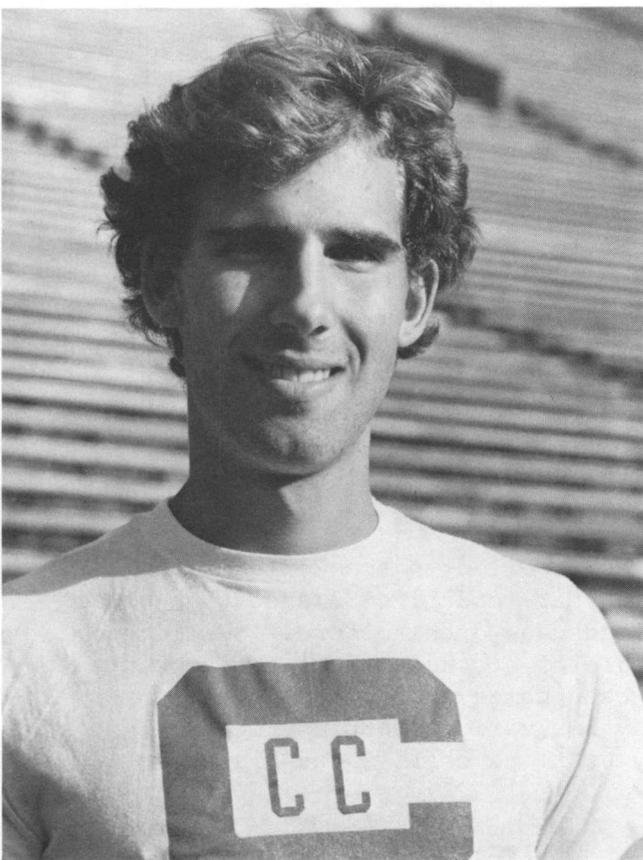

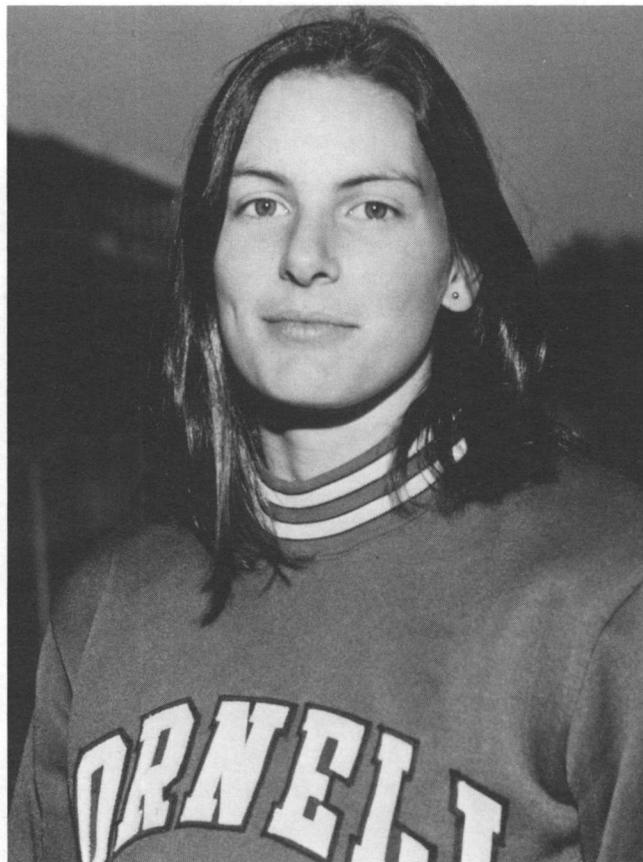

AMY BRAGDON

HURDLES

Amy came to Cornell with many fine high school credentials. During the past season, Amy used her athletic talents in a number of different events from the high jump, to the 50-, 100- and 400-meter hurdles; and to the 400 meters where she established a new freshman record. Amy was also part of the 1600-meter relay team which placed third in the Ivy League division at the Penn Relays. On top of that, Amy placed third in the Heps in the 400 meters. She has been a very welcome addition to our women's team.

Amy is in the College of Arts and Sciences, and has not yet decided on a major. She is very interested in theatre and may pursue a career in this direction.

She is a native of Exeter, N.H.

TOM BASTINGS

MID-DISTANCE

Tom Bastings (Janesville, Wis.) has done much for the Cornell track program over the past three years. Tom competes mainly in the 800 and 1500 meters, and the 3200-meter relay. Through these events Tom has scored many points for the team, and has been very instrumental in the team's victories. After scoring in the Heps this past year, the team will look to Tom to lead the mid-distance unit next year.

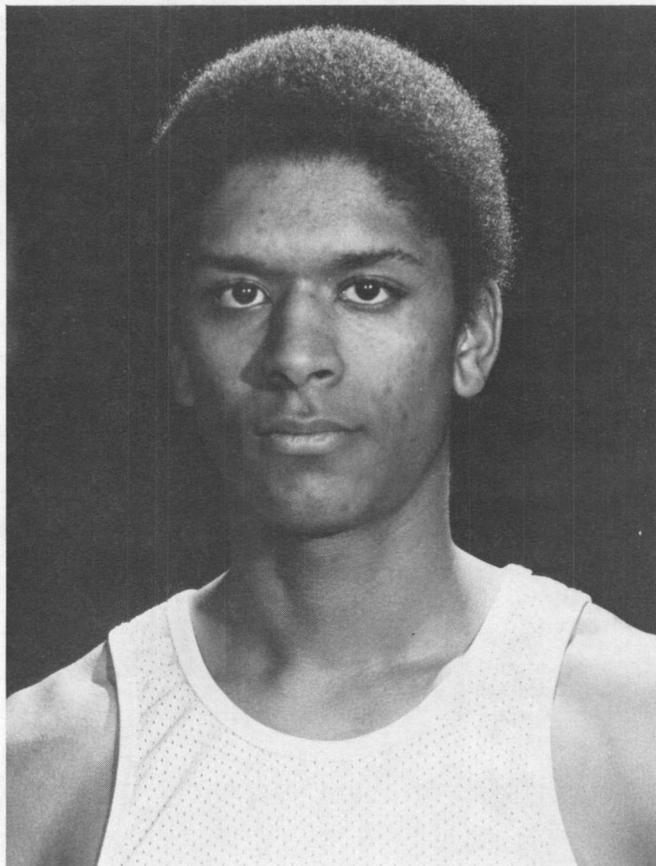

Tom is a junior in the College of Arts and Sciences and after two years as a biology (pre-med) major, he has developed an interest in government and has thus changed his major to that field.

CURT HAMPSTEAD

HURDLES

Curt Hampstead (Kendall Park, N.J.) is the school record holder in the 55-meter and 100-meter high hurdles, but he is much more than that. Curt comes to Cornell from New Jersey via Guyana, from which he brings many interesting tales. Curt is a communication arts major in the College of Agriculture and Life Sciences. However, he is looking toward a career in business or possibly acting.

Curt is a consistent dual meet scorer, as well as a scorer in the Heps. Outside of his interest in track, Curt has also been a participant on the lightweight football team. The Cornell track team will look to Curt to score many points for the team.

MADDY WOOTAN

WEIGHT EVENTS

Maddy is a junior from Callicoon, N.Y., and she competes in the weight events, including the shot put and discus throw. She has been a consistent scorer for the women and has accomplished much in her three years at Cornell.

Maddy has held the discus record, and currently holds the outdoor shot put record. In 1983 she was voted second team All-Ivy. In 1984-85 she will be counted on by the team to continue her winning ways.

She is enrolled in the College of Agriculture and Life Sciences, majoring in landscape architecture. She is an example of a student-athlete, as she has been named to the dean's list. Maddy has various hobbies, including many arts and crafts, and plants.

THE CLASS OF 1984

Debbie Sampson '84

The track team would like to wish "good luck" to its seniors, who have contributed much in their four years and will be greatly missed.

MARLON BROWNLEE...an economics major in the College of Arts and Sciences and a hurdler on the team for three years, he was recently awarded the Outstanding Senior Hurdler award. Marlon will be attending Northwestern University this fall to begin work on an MBA degree.

PETER McCONNELL...a computer science major, he captained both the men's cross country and track teams this past year. Pete was a mainstay of the men's distance runners; and he also ran the steeplechase in the spring, finishing third in the HEPS this past season in a personal best time. Pete was voted the senior who contributed the most to Cornell Men's Track and he also earned the most points over the last four years. Next year Pete will be working for General Motors in Detroit.

BILL POSSIDENTO...a geology major in the College of Engineering, he has been a distance runner on the cross country and track teams during his four years at Cornell. His events ranged from the 1500 meters to the 10,000 meter cross country races.

HAROLD "HARV" ROBINSON...a mechanical engineering major in the College of Engineering, he ran both cross country and track for four years. Harv ran distance events ranging from the 1500 meters to the 10,000 meters, and competed in the steeplechase as well. He was a consistent scorer in dual meets as well, as a scorer at the Heptagonal championships. Harv, well known as landlord for the "track house" on Stewart Ave., plans on hanging around Ithaca. For the next three years, he plans on earning an MBA degree and an MS degree at Cornell.

PAM CARTER...an animal science major in the College of Agriculture and Life Sciences, she captained the women's track team this past year. Pam ran mainly the 400 and 800 meters. She has scored both individually and as part of a relay in the HEPS. Pam has decided to remain in Ithaca next year to study physical therapy at Ithaca College.

DEBBIE SAMPSON...a nutritional science major in the College of Agriculture and Life Sciences, she has contributed depth to the women's middle distance team, running the 800 meters and in the 4x800 meter relay. In the HEPS, she has scored as a part of that relay. In the fall, Debbie plans on attending Boston University, where she will pursue a master's degree in nutritional science.

EVELYN (E.T.) TAYLOR...a chemical engineer in the College of Engineering, she captained the 1983 women's track team. As a sprinter, Evelyn is the senior who earned the most points during her women's track career. She was a consistent scorer in her events-- the 200 meters and the 400 meters. Her talents were not limited to the track and field, however, as Evelyn was faced with a tough decision of working next year or continuing her education. She finally decided to enter a Ph.D. program at the University of Minnesota.

MARION (MARE) TEITSCH...an animal science major, she captained the women's cross country team this past year. As a leader in the distance events, Mare ran the 3000-, 5000- and 10,000 meters events. She was a Heptagonal champion in 1984, and qualified for the nationals in the 5000 meters event in 1983. Just this past month, Mare ran in the Olympic Trials for the marathon, finishing 34th in a time of 2:40. This past season, she was voted both the most valuable runner and the senior who has contributed the most to Cornell women's track. Mare eventually plans on attending vet school and is currently working for a veterinarian in her home town.

SPRING TRIP TO CALIFORNIA
Dana Stone '87

The spring trip to California proved beneficial in many ways. The warm weather, genuine hospitality and fun times meant a memorable trip for all who went. The much needed training in the sunny outdoors helped boost morale, as well, as athletic performance.

Warm weather is not the norm in Ithaca, in fact, it snowed the day we left for California. The West Coast was quite different, providing clear, warm days during the whole trip. This change in climate immediately boosted everyone's spirits, especially when we went to the beach the first day we arrived. We were at a disadvantage when we competed against the California teams, because they had been practicing outside all year. Before arriving, we had been outdoors only two weeks and that was in the snow. For the throwers, walking out to pick up an implement seemed somehow nicer when the walk did not mean sludging thru snow-covered mud. We had grown tired of practicing in Barton or Bacon Cage, and we welcomed the opportunity to wear shorts, in addition to not worrying about the cold, being tight and injuries.

While in Santa Barbara, we met many athletes training for the Olympic Trials. Among those training were several decathlon hopefuls. They were friendly, helpful and fun to talk with. Often we trained side-by-side with them, which provided excellent learning experiences.

Throughout the week we practiced twice daily. Although the West Coast teams had a definite advantage in the climate, we held our own and competed well. Because of the trip we gained an advantage over other Eastern teams when we returned to Ithaca to compete against them.

But more than training occurred during spring break. Almost as important as the training were the social aspects of the trip. Daily rides in the vans meant more time together as a group. The segregation due to the diversity of workouts seemed less noticeable because of the close proximity of the facilities. Unlike Cornell, where the runners train at Schoellkopf while the throwers train on Alumni Field, the Santa Barbara track had all its facilities in the same place. We all worked out side-by-side.

Trips to the beach, shopping, Disneyland, etc., provided opportunities to establish new friendships and strengthen others. Everything considered, it was a very beneficial and worthwhile experience.

COACH'S COMMENTS

The 1984 season (indoors and outdoors) did not see us win the HEPS, but we did make good progress with our young team. We improved considerably at the Indoor HEPS and had many scorers, as we did outdoors. Several Cornell records were set as Curt Hampstead bettered the existing high hurdle records, both indoors and outdoors (his 07.38 bettered John Elliot's hand-timed record of 07.3, and his 14.22 bettered John's hand-timed mark of 14.1). NOTE: Fully automatic times are .24 slower than hand times, so a hand time of 14.1 would be equivalent to a fully automatic time of 14.34. Frosh Mark Hursh improved on Steve Putscher's year-old record of 15-5 in the pole vault with a jump of 15-6¼; junior Mike Franz bettered the high jump record of 6-10 (jointly held by Wayne Gustafson and Bob Jones) with a 6-10¼ height; Frosh Dana Stone upped the women's shot put record, as her 41-1 effort indoors bettered Alyssa Bickler's year-old record of 38-7-¾; Junior Maddy Wootan bettered Alyssa's outdoor shot record of 39-2½ with a 42-1 toss; Dana then took Maddy's discus record of 128-0 (set in 1983) with a 132-3; Frosh Joan Williams pushed Zip Oliver's 1983 javelin throw of 128-10 off the books with a distance of 133-4; Senior Mare Teitsch bettered her own year-old mark in the 10,000 (35:01.1) with a time of 34:51.3; Frosh Amy Bragdon's 1:01.8 improved on Doriane Lambelet record of 1:03.27 in the 400 meter hurdles; Junior Lauren Kulik raised her own record in the Heptathlon from 4050 to 4072; Lauren also established an indoor triple jump mark of 37-8¼ and upped her outdoor record to 38-3; she then took Kathy Borchelt's outdoor long jump record of 18-3 with a leap of 18-6-¾; and junior Elise Jones bettered Doriane Lambelet's 1000 meter mark of 2:54.8 with a 2:54.61 clocking. Thirteen frosh records are also new on the books as the result of this year's campaign. So all in all it was a good year. The men registered wins over Yale and Syracuse indoors, and Colgate, Penn, and Santa Barbara outdoors; while losing to Army indoors, and Fresno State outdoors for a 4-2 slate. The women beat Syracuse indoors, while losing to a powerful Army team and dropping a close decision to Yale. Outdoors, the ladies lost to Fresno State, Santa Barbara and dropped a heartbreaker to Penn, while winning the Ithaca College Invitational over three teams and the Binghamton Invitational over seven teams.

I wish that I could be real optimistic about the 1985 season, but our recruiting efforts, though massive, have not been very prolific. With some 20,000 applications to Cornell this year and high costs, the admissions process was pretty selective, resulting in the turning away of a lot of good students; and the financial aid packages, which require more and more "self-help" and large loans, translated into fewer track athletes. We did better on the women's side than the men's. We do not have but one or two male distance runners of any note who will directly affect the cross country team over the next four years. Since track is a "level II" sport since Bob Kane's retirement, we do not have a very high priority in the admissions process. New athletic director, Laing Kennedy, is sympathetic and I am hopeful for the future. He has just appointed a committee to study the recruiting problem and I will serve on that body. We spend a great deal of time, energy and funds on recruiting, and at times like this we wonder if it is all worth the returns that we get. I often wonder if we would get just as much without all this effort. It is certainly quite discouraging when all that we put into it does not bear much fruit.

H. HUNT BRADLEY PORTRAIT

At the annual team dinner, held at the Moakley House in May 9, a picture of our Archangel, H. Hunt Bradley, was unveiled and hung on the wall in the Moakley House. Hunt Jr. and daughter-in-law Mary were on hand and unveiled the picture in a brief ceremony before the team, officials and guests. I am sure that Hunt would be pleased as he thought so much of Jack Moakley.

H. HUNT BRADLEY STADIUM?

A move is afoot to build a new track stadium in memory of Hunt Bradley. The fitting memorial would include an eight lane track, runways and throwing area; and a building which would house the men's and women's locker rooms, a weight room, storage, a visiting team room and offices. On top of the proposed building would be seating for approximately 1,000. The stadium would be primarily for the use of the track team, but would also be used in the fall for some lightweight football and soccer games. With the increased use of Schoellkopf for both men's and women's lacrosse, we rarely get to use the track anymore. (During the month of April after we returned from our spring trip, we were able to use the track for our interval workouts only five times, and a couple of those times were while a women's lacrosse game was in play. So, we could not use lanes 1-2-3 because of the tables and benches in those lanes, and we had to be careful of the people wandering around the track watching the game.) We are grateful to the women's lacrosse coach, Cheryl Wolf, for allowing us to use the track despite her games; otherwise, we would have had to run in Barton Hall, or not at all. Once the spring season gets underway, we do not like to go back to the smaller Barton track. So such a new track stadium would be a great help. Its location would be at the far end of Alumni Fields, in front of Stocking, Wing, and Riley-Robb halls. This would also free up the present track locker and weight room for use by other teams such as soccer and lacrosse, who use the Schoellkopf stadium so much. This is some of the congestion in the use of our outdated and inadequate athletic and recreational facilities. We hope that it will be approved and that we can raise the necessary funds to complete the memorial in the near future.

PART-TIME COACH LEAVES

Our part-time coach, Jack Warner Jr., has been transferred by his primary employer, Montgomery Wards, from Ithaca to Colonie, New York, where he will be merchandising manager for a large MW store there. Jack coached the pole vaulters and high jumpers and saw his athletes break the Cornell pole vault record several times, and the Cornell outdoor high jump record as well. He coached three 15-footers in the pole vault and two of his athletes made 6-10 $\frac{1}{4}$ in the high jump, during his three years on our staff. He will be missed. We wish him well in his new position.

TRACK ALUMNI REUNION

HOW ABOUT A REUNION OF THE GREAT 1955 TEAM THAT WON THE HEPS IN CROSS COUNTRY, AND INDOOR AND OUTDOOR TRACK? That great triple accomplished 30 years ago (as of 1985), and not duplicated since, must have been a great feeling for all the members of that outstanding team! How about coming back to campus and reliving some of that glory in 1985? Is there a member of that team who would like to take the responsibility of shepherding such a reunion? If so, please contact Coach Warner right away so that we can start laying the ground-work for it. We would love to have all of you return and get together with the 1985 Cornell team. The reunion held in September of 1983 was such a great success and so much fun for all that we believe that we should do this as often as possible. ALL Track Alumni would be welcome to attend, but it would be built around the 1955 team.

CORNELL TRACK HAS A GRAND AND GLORIOUS TRADITION AND ALL OF YOU OUT THERE HAVE CONTRIBUTED TO THIS GREAT TRADITION! Let's try to relive some of those great experiences that you had while a member of the Cornell team!

1984 TRACK & FIELD AWARDS

Shorty Lawrence Award	Most Improved Field Event Man	<u>Mike Franz</u>
Clarence Morse Award	Most Improved Track Event Man	<u>Joe Goldstein</u>
	Best Sprinter (55-400) (Men)	<u>Gregg Hofstetter</u>
Theodota Ladas Award	Best Mid-Distance Man (500-1000)	<u>Tom Basting</u>
Dr. George Ladas Award	Best Distance Man (3000-10,000)	<u>Grant Whitney</u>
Theodota Ladas Award	Best Jumper	<u>Chris Chrysostomou</u>
Dr. George Ladas Award	Best Thrower	<u>John Passalacqua</u>
Walker Smith Award	Outstanding Senior Hurdler	<u>Marlon Brownlee</u>
Herb Grigson PV Award	For breaking the Cornell Record	<u>Mark Hursh</u>
Fleet Morse Award	To the Most Improved Woman	<u>Nancy Schmidt</u>
Lou Montgomery Award	Coaches Award to the Individual who is a solid team member, always does the workouts without question, is unselfish, and a real competitor.	<u>Darren Roach</u>
Most Valuable Woman	The woman who was most valuable to the team	<u>Marian Teitsch</u>
Gatling Award (Men)	To the senior who has done the most for Cornell Track	<u>Pete McConnell</u>
Gatling Award (Women)	Same criteria	<u>Marian Teitsch</u>
Charles Blanford Award	Man with the most points over 4 years	<u>Pete McConnell</u>
Frances M. Blanford Award	Woman with the most point over 4 years	<u>Evelyn Taylor</u>
1985 CAPTAINS:	MEN	<u>Chris Chrysostomou</u> <u>John Passalacqua</u>
	WOMEN	<u>Elise Jones</u> <u>Lauren Kulik</u>
1985 Spiked Shoe Society President		<u>Grant Whitney</u>
1985 Spiked Shoe Society Vice-President		<u>Sarah Day</u>
1985 WASTEBASKET Assistant Editors		<u>Matt Day</u> <u>Darren Roach</u>

Teamwork Vital For Chrysostomou, Roach

Continued from Page 16

Roach uses speed for his jump, while Chrysostomou uses strength. Roach's strides are long and swift. Chrysostomou's are short and choppy.

But together, they pile up the points.

"One helps the other in each event," Warner said. And that's where their similarities begin.

"We have a very good relationship in competition and training," Chrysostomou said. "We help each other. We don't care who's first or second in competition. We're a team."

"We don't even think about competing against each other," Roach said. "If I beat him or he beats me, the points are still the same."

Each man holds a special friendship for the other, and they especially enjoy helping each other.

"We are really good friends. He is my best friend in America," Chrysostomou said. "I'm trying to give him a lot of help. I have more experience. I hope I can convey that experience to him."

"He was one of my first friends here. We just clicked when we met," Roach said. "I'll call him 'Grandpa' and I'm 'the little kid.'"

"Chris teaches me a lot. He keeps me calm. I wasn't sure in competition at first, but he'd say, 'It'll come,' and he was right."

"He's fast," Chrysostomou said of Roach. "I'm not fast, but I will improve my speed. I will learn from Darren."

Right now, both Chrysostomou and Roach await IC4A competition at Princeton this weekend. Each will compete only in his specialty.

In the future, Chrysostomou dreams of long jumping in the Olympics for Cyprus. "My target

four years ago was the '84 Olympics," he said, and now the dream is conceivable. He must jump the standard 25'7", which he did two years ago when he competed for the Greek Junior National Team in Italy, and then the chances are good that he will be able to compete this summer.

For Roach, immediate goals include triple-jumping 50 feet outdoors this spring, running competitively and winning a team championship.

Coach Warner's predictions are that "both will leave with school records."

In addition, Warner said, "They are both very coachable and hard workers. They are serious students academically and athletically. They are two great ones."

They are different, yet the same.

A Tale of Two Tracksters

By ELEANOR FRANKEL

Standing next to each other at the jumping pit, these two young men hardly appear to be teammates, certainly not competitors in the same event, and least of all, friends.

They come from opposite worlds, are five years apart in age, and physically, are opposites. Yet Chris Chrysostomou and Darren Roach have found many deeper similarities in each other that have led them not only to be standouts on the Cornell track team but to be each other's friends and helpers.

Chrysostomou has been the Red's top long jumper all year. He finished third at the Heps last weekend, consistently jumps over 23 feet and holds a personal season best of 23'11 1/2". But most surprising was that at the Heps, he took first place in the triple jump, the event he competed in solely to score a few team points.

Although Roach had his worst day of the year last Sunday at the Heps and could only achieve a seventh-place finish, he has been Cornell's number one triple jumper all season. He remained undefeated in dual meets this season and has jumped a personal best of 48'8", good enough to have won at the Heps. He also excels in the long jump.

Combined, the Chrysostomou-Roach duo has

scored almost 20 percent of Cornell's total points this season. Although they are both first year students, they have totally dominated the jumping pit for the Red.

The formation of this jumping duo began this summer when Cornell Track Coach Jack Warner received two very strange phone calls.

One came from Cyprus, the 23-year-old Chrysostomou's home country--a small island that is independent but culturally Greek. Convinced the call was a joke, a frequent occurrence among his coaching friends, Warner almost hung up. But luckily, he held on the line long enough to realize that a young man aspiring to receive an American civil engineering degree was also a spectacular long jumper. Even better, Warner discovered he was all set to attend Cornell.

The next unusual call came in August from a man Warner had heavily recruited yet lost to West Point. This call was from Roach. In his first month at Army, he had been miserable.

"They just dropped in our lap. They were two biggies we weren't expecting," Warner said.

A closer look at Chrysostomou and Roach's backgrounds soon show their distinctive differences.

U.S. Marathon win over Salazar puts Pete Pfitzinger on the map

5/28/84

By BERT ROSENTHAL
Associated Press

BUFFALO — Former Cornell star Pete Pfitzinger, the first American to beat Alberto Salazar in a marathon, was little known to the racing public — and even to the world's fastest marathoner — before the U.S. Olympic Men's Trials.

That's not the case anymore.

The 26-year-old Pfitzinger, of West Newton, Mass., established himself as a marathoning force — and earned a berth on the U.S. Olympic team — by outkicking the surprised Salazar and winning the nationally televised Trials Saturday.

During the 26-mile, 385-yard race that began in Buffalo and ended in Niagara Falls, Ontario, Salazar asked another runner who Pfitzinger was after the relative unknown had taken the lead near the midway point.

"Al (Salazar) wouldn't have any reason to know who I was," Pfitzinger said after crossing the finish line in 2 hours, 11 minutes, 43 seconds, one second ahead of Salazar. "I guess he will know now."

Those two, along with John Tuttle, third in 2:11:50, will comprise the U.S. team that will compete in the Olympic Marathon Aug. 12 at Los Angeles.

Although there has been much criticism of the short time span — 11 weeks — between the Trials and the Olympics, Pfitzinger and Salazar said they thought they would be ready to face the world's best marathoners, notably world champion Rob de Castella of Australia and Toshihiko Seko of Japan, the 1983 Fukuoka Marathon winner and unbeaten since 1979.

Pfitzinger said, "I finished second in the Montreal International Marathon last September and nine weeks later, in November, I won a mara-

PETE PFITZINGER

thon in New Zealand, so I'm used to running marathons close together."

Earlier in 1983, he had run two marathons only eight weeks apart, including The Athletics Congress marathon championship at San Francisco, which he won in 2:12:34 — his previous best time before running the race of his career in the Trials.

"I would like to have won," said the disappointed Salazar, "but in terms of looking ahead to Los Angeles, it might be better for me."

Salazar, content to "qualify for the team," said he ran "conservatively."

He also ran cautiously, following a recent injury to his left foot that a doctor told him "was close to a stress fracture."

After the gruelling marathon, Salazar's first since last December when he finished fifth at Fukuoka,

the top of his left foot was extremely red and he tried to reduce the swelling on his injured metatarsal bone with a large ice pack.

One marathoner who doesn't think the U.S. team will do well in the Olympics is Benji Durden.

"By the time our team gets to Los Angeles, they'll be so emotionally drained, they might as well sit in the stands and watch it (the marathon)," said Durden, a member of the 1980 team that did not compete in the Moscow Games because of the U.S. boycott and who dropped out after 12 miles Saturday because of a foot injury.

"Alberto's our only real hope for a medal," continued the outspoken Durden.

But Durden said there would be tremendous pressure on the emotionally brittle Salazar between now and the Games.

"He's got de Castella on his mind," said Durden. "He's got Seko on his mind. And he's got to think about the American people, who want us to win a medal in the marathon in our country."

"Poor Alberto will be a basket case by the time he gets to the Olympics."

If Salazar has problems before the Games, it could be caused by thinking about his third consecutive defeat in a marathon.

After winning his first four marathons and setting a world best of 2:08:13 in the 1981 New York City Marathon, he finished fifth in the 1983 Rotterdam Marathon, won by de Castella, fifth again at Fukuoka, behind Seko, and second in the Trials in his slowest time ever.

Perhaps the most shocking defeat was administered by the previously obscure Pfitzinger.

Of course, it could be excused by the fact that Salazar did not have to

win; he only had to finish among the top three to qualify for the team.

Also, by the fact that he missed some training recently because of the foot injury and was troubled earlier in the year by a bone marrow deficiency that cost him many hours of sleep.

But he did admit afterward, that with 100 yards to go, when he was in the lead, "I wanted to win."

At that point, the determined Pfitzinger, who had led from shortly after the 13-mile mark until being passed by Tuttle and then Salazar with less than a mile remaining, made a dramatic comeback.

He surged past Tuttle, who had slipped back to second, and then overtook Salazar, who thought he had the race won.

"When Al went past me, I started to panic," conceded Pfitzinger.

The panic didn't last long. It turned to joy after he broke the finish line tape first — ahead of the world's fastest marathoner.

"When I went by John first, that gave me a lift," said Pfitzinger.

"Then I saw Al, but I didn't know who I was today, so I said, 'I'll go for it.'"

He went for it — and Salazar couldn't hold him off, and Tuttle couldn't catch him.

"There was no way I could kick with Pfitzinger," said Tuttle, who often had run against the Trials winner when both were in high school in upstate New York (Pfitzinger was brought up in Rochester and Tuttle in Alfred).

"So I just wanted to make sure I was in the top three."

Even Pfitzinger was surprised at his strong finish.

"I don't know where I got the strength to go past Al," he said.

"But I hope it's still there in two months (at the Olympic Games)."

1984 CROSS COUNTRY SCHEDULE

Sat.	Sept. 13	Colgate (M) Cortland (W)	Ithaca
Fri.	Sept. 21	Syracuse (M & W)	Ithaca
Fri.	Sept. 28	Army (M & W)	West Point
Sat.	Oct. 6	Lehigh Invitational (M & W)	Bethlehem
Fri.	Oct. 12	Rochester and Canisius (M & W)	Ithaca
Sat.	Oct. 20	Bucknell and Susquehanna (M & W)	Lewisburg, Pa.
Fri.	Oct. 26	Heptagonal Championships (M & W)	New York
Sat.	Nov. 10	IC4A - NCAA Dist. II (M & W)	Bethlehem
Mon.	Nov. 19	NCAA Championships (M & W)	State College, Pa.

* * * * *

The runner in last issue's quiz as many of you have guessed (or maybe you haven't) is Bob Mealey. The picture was taken April 28, 1951, at Penn's Franklin Field. Mealey held off Morgan State to help Cornell win the mile relay in a time of 3:13.1.

A BIG THANKS to all of you who have continued to support our program with your financial assistance. It is greatly appreciated. The Moakley Fund is rapidly approaching the \$275,000 mark and it now provides a nice income which finances a lion's share of the Spring Trip. The 1984 trip to Southern California was undoubtedly one of the best yet. We hope to return there in 1985. The 1984 trip included 15 women and 17 men, plus three coaches, and it was a great experience for all, with much good experience which helped for the remainder of the season. These trips are great both educationally and athletically. It was great to see many teammates like Jim Lingel, Paul Seider, Dave Doupe, Bob Mealey and Tom Baker. Thanks to Jim and Paul, who hosted a dinner for us at Santa Barbara Community College, which was very well done by Cornellian John Dunn '51, who heads up the dining services at SBCC.
