Housing Shortage Effects Diminish

The measurable effects of the University's 700-bed housing shortage have diminished during the past two weeks, leaving only about 75 freshmen awaiting permanent assignment as of Tuesday.

On the first day of classes, Sept. 3, some 250 freshmen were living in temporary accommodations in dormitory lounges, study rooms and commons areas and in Sage Infirmary.

Ruth W. Darling, associate dean of students, said that as of last Friday no freshmen remained in Sage Infirmary or Clara Dickson commons. The 75 students still without permanent housing are living in University Halls lounges or in the North Campus dormitory study rooms.

No transfer or graduate and professional students continue on the permanent assignment waiting list, Mrs. Darling said. However, she said, "We don't have everyone taken care of. They have taken care of themselves with whatever assistance we could give through the off-campus housing services.

"We have been able to place very few men transfers," she stated. "Transfer women have been slightly more fortunate." Three of the four transfer women on the waiting list were offered permanent assignments Friday.

"Some male graduate students and practically all the females who chose to remain on the waiting list were offered space during the past three weeks," she said.

Several hundred transfer and graduate-level housing applicants were forced to find accommodations in local communities when they were notified by the Office of the Dean of Students they could not be given on-campus housing.

"The community does have the ability to absorb extra students," she said. "However, the number of applications we received indicates the need felt by many students to live on campus in order to be more fully engaged in Cornell.

"These students do not wish to be commuters," according to Mrs. Darling.

Most transfer and graduate-level students located their own housing off-campus. University assistance consisted of transient "barracks-style" housing set up in dormitories, a stepped-up housing information service conducted by the off-campus housing service located in the Office of the Dean of Students' Housing Office, and a community-wide drive to locate rooms and apartments for rent in local homes.

To minimize future housing shortages, the Executive Committee of the University's Board of Trustees Sept. 10 authorized steps toward the construction of student housing in the North Campus area with occupancy scheduled for 1975.

The committee also directed the Cornell administration to begin preparation for dealing with anticipated student housing problems for the 1974-75 academic year.

SITUATION IMPROVING — Of the 250 freshmen who were living in temporary housing when classes began, 75 are still without permanent room assignments. Some are housed here in the West Campus dorm area, and some are housed in North Campus.

Cornell Riding Facilities Get Extensive Rebuilding

Rebuilding work is underway on the Cornell Riding Hall and associated facilities at their present site on Route 366 opposite the University's heating plant.

When the work, being performed by the firm of W. D. McElwee and Sons of Ithaca, is completed, the riding hall will be named The John T. Oxley Polo Arena, in honor of John T. Oxley of Tulsa, Okla., and Boca Raton, Fla., the principal donor of funds for the construction. The arena will be used for equitation as well as polo games.

Total cost of the project has been set at \$290,000. Oxley pledged \$200,000 and other gifts and pledges amount to some \$82,000. The remaining money will be raised through private contributions. If sufficient new funds become available, additional elements in the project will be undertaken.

Oxley, president of Oxley Petroleum Company in Tulsa, Okla., became interested in polo at Cornell when his son, Thomas, was a student in the New York State College of Agriculture and Life Sciences and was a member of the Cornell polo squad under Dr. Stephen J. Roberts, the coach. Young Oxley continued to play polo after leaving Cornell. He played on many national tournament teams and carried a five-goal handicap until he experienced a very serious polo accident in 1968. He is presently manager of Royal Palm Polo Club, the winter polo capital in Boca Raton.

Roberts, who retired in 1972 after 25 years as

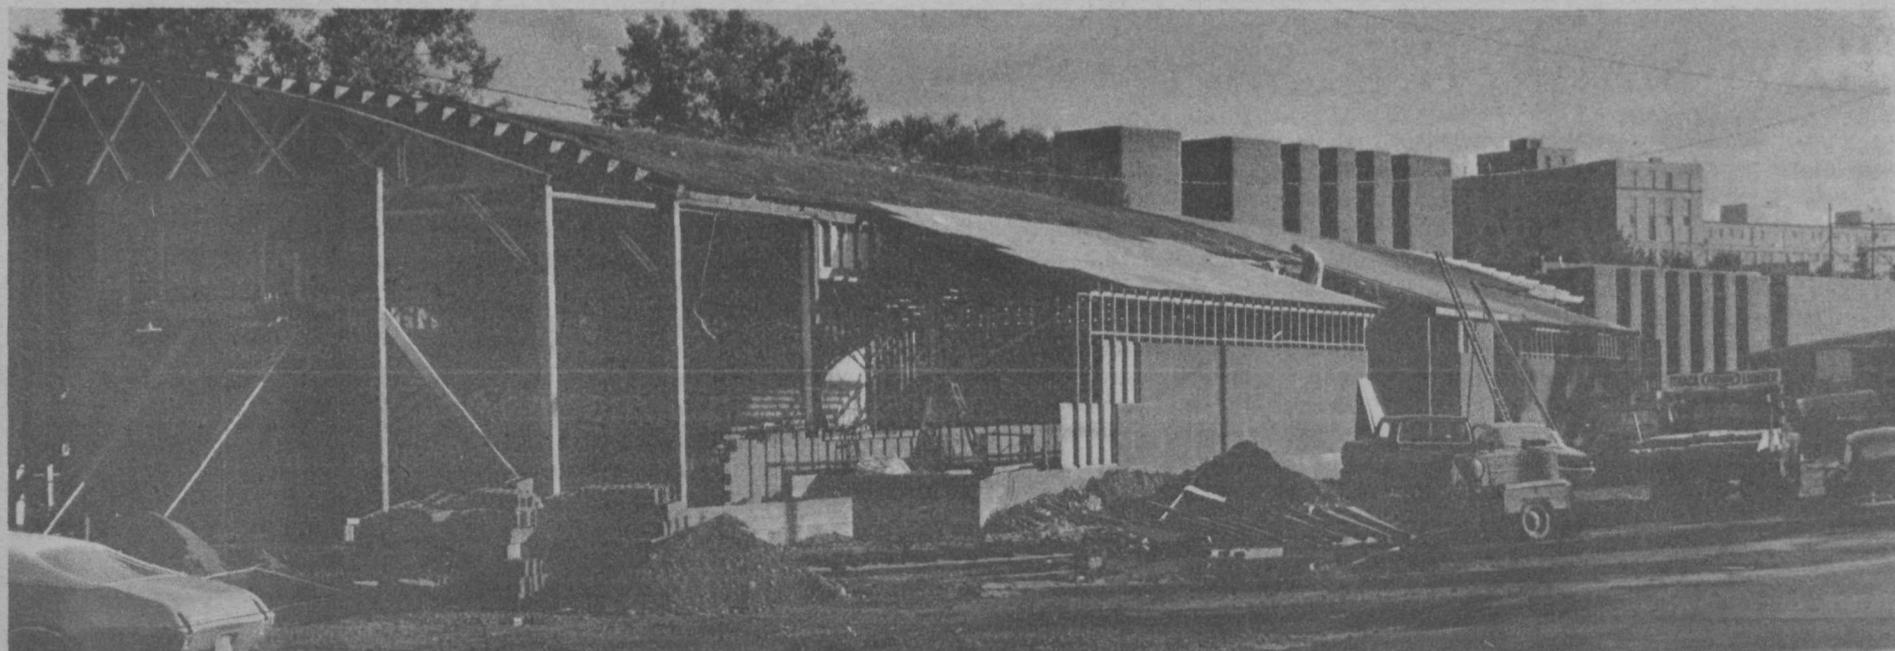

coach, was instrumental in the development of the Cornell polo program.

Oxley, who was born on a cattle ranch near Bromide, Okla., in 1909, began playing polo at the age of 46. He is captain of the Boca Raton polo team which won England's Gold Cup in 1970, the first time an American team ever won the trophy. He also captained many winning teams in national tournaments in the United States and is a ranked player with the U.S. Polo Association.

He is now president of Royal Palm Polo, Inc., director of Apco Oil Corporation, and a member of numerous petroleum associations. In addition to his oil interests, Oxley raises thoroughbred horses and purebred cattle on his Oklahoma ranch.

Oxley is married to the former Mary K. Yetter. They have three children: Thomas, Mary Jayne and Jack. Jack is a high-ranking polo player rated at five goals.

Continued on Page 8

UNDER CONSTRUCTION — Cornell's riding hall and related facilities on Route 366 are being rebuilt, principally with funds donated by John T. Oxley. The riding hall will be renamed in his honor.

By Cornell Researcher

DDT's Effect on Birds Studied

Recent findings by a Cornell researcher may put an end to a longstanding argument over certain harmful effects of DDT — a persistent insecticide which was officially banned in the United States last year.

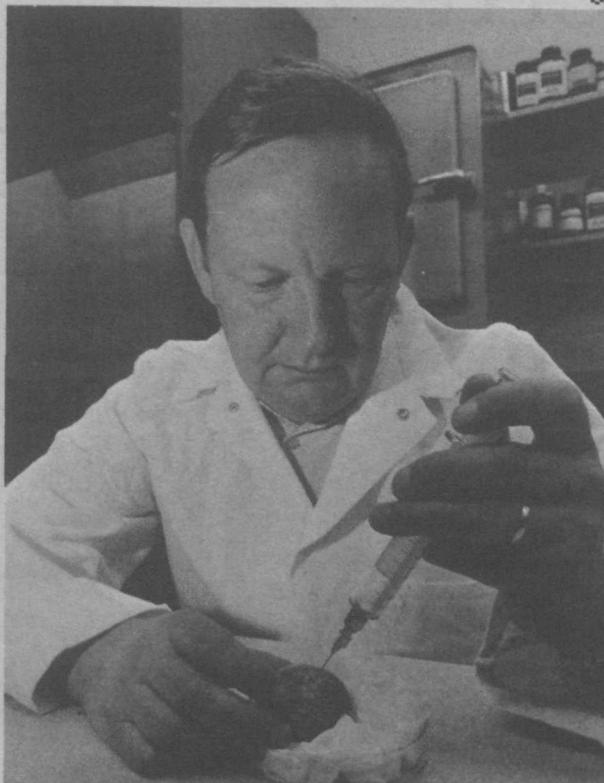

David B. Peakall, senior research associate in the Section of Ecology and Systematics in Cornell's Division of Biological Sciences, said that although DDT has been blamed by many authorities for the demise of the Peregrine falcon, the issue has for years been hotly debated in public and private.

During the 1960's naturalists noted that the populations of Peregrines had decreased drastically in Europe and North America. In 1967 Derek Ratcliffe of the Nature Conservancy in England discovered a basic cause of this demise: the Peregrine eggshells had become so thin that they often broke before the young could hatch. Looking at museum specimens of collected eggs, scientists could track these thinner shells all the way back to 1947, when DDT was introduced.

"Opponents of the pesticide were sure that the chemical was to blame," Peakall said, "since the birds of prey feed on the animals and birds who eat the insects which have been contaminated with it. Proponents, however, said that the eggshell thinning phenomenon followed the introduction of DDT too closely to be caused by it."

The lack of definitive evidence kept the argument going, Peakall said. Recently, Peakall devised a method for extracting from the membrane of the eggshell one of the metabolites of DDT — a form the chemical takes after it has been partially broken down by the mother's body.

Since the technique does not destroy the delicate shells, Peakall was able to borrow some Peregrine

TESTING FOR CONTAMINATION — Senior research associate David B. Peakall tests a Peregrine falcon egg for traces of DDT. The pesticide is thought to cause the eggs to have thin, easily broken shells.

eggshells gathered in the late 1940's from the Western Foundation of Vertebrate Zoology. Testing these eggs, Peakall found that the DDT metabolite was present in sufficient amounts to have caused the thinning of the shells.

"Being at the top of their food chain," Peakall explained, "predatory birds ingest the greatest doses of insecticide. Since the initial introduction of DDT was in relatively small quantities, some scientists felt that too many coincidences would have had to occur for DDT to be responsible for the thinning of the shells. This new evidence should change that idea."

Peakall's work is supported by the National Institute of Environmental Health Sciences, one of the National Institutes of Health (NIH), a part of the U.S. Department of Health, Education and Welfare (HEW).

Although an argument may have been settled and the pesticide banned, Peakall's work continues in order to discover the mechanism that causes the thinning, the dose required and the nature of the enzyme changes in the oviduct of the mother bird. Peakall is using Kestrels, another predatory bird, as the test subjects in this study.

Another aspect of his research is an adjunct to the Peregrine breeding program at Cornell under Tom J. Cade, professor of zoology and research affiliate at the Laboratory of Ornithology. Peregrine falcons are being bred at Cornell for eventual release in the eastern United States, where they have now ceased to breed in the wild.

"We are interested in monitoring the rate of falloff of DDT in the environment," Peakall said. "When Cade is ready to release his birds, we want to be sure they won't pick up any dirty prey."

Senate By-Election Petitioning Begins

By-election petitioning for persons interested in filling vacancies in the Cornell University Senate begins today, according to Gloria C. DiNicola, assistant to the Senate administrator.

Eight faculty vacancies remain from seats not filled during the regular February elections. They are: three seats in Agriculture, biological and botanical sciences, tenured; one each in Arts and Sciences, humanities, tenured and social sciences, tenured; one in Human Ecology, non-tenured, and two in Industrial and Labor Relations.

Three vacancies exist for students due to resignations received from two Agriculture undergraduate senators, Barbara Greenbaum and Raymond G. Matthews, and one graduate student senator, Robert Eckhardt.

Two vacancies exist for employees. They are: one non-exempt "other" seat, vacated by Barbara M. Kauber, due to her recent confirmation as judicial administrator, and one non-professorial academic seat, which was not filled during the regular February elections.

Faculty, employees and students interested in participating in the by-election process may pick up petitions starting today in the Senate office, 133 Day Hall. Completed petitions are due Thursday, Oct. 4.

R. W. Smith, R. E. Shew Get New Assignments

Robert W. Smith, director of editorial services in the Office of Public Information at Cornell since 1971, has been named coordinator of athletic public affairs, a new assignment within the Division of Public Affairs, according to Richard M. Ramin, vice president for public affairs.

The reassignment is effective immediately.

"The programs and plans of the Department of Physical Education and Athletics and the Division of Public Affairs are related in many ways," Ramin said. "In order to seek to achieve our mutual goals, Smith's main responsibility will be liaison and communication between Athletics and Public Affairs."

Smith also will work in close association with Ben Mintz, director of sports information. "Ben will continue to be

primarily responsible for servicing the sports media while Bob will concentrate on other methods of promotion and public relations," according to Jon T. Anderson, director of physical education and athletics.

The post of director of editorial services in Public Information will be filled on an interim basis as an additional duty by Randall E. Shew, director of community relations at the University. Shew was formerly head of the Public Information News Section, to which he came in 1969 after being managing editor of The Ithaca Journal.

As director of editorial services since April, 1971, Smith was in charge of the news section of the Office of Public Information and was editor of Cornell Chronicle, the University's weekly newspaper, and Cornell Reports, an alumni newspaper.

Before coming to Cornell, Smith worked at Lafayette College for 10 years. He won several national awards as sports information director there from 1961 to 1966 and was Lafayette's director of public information from 1966 to 1971.

Smith has been a director of the College Sports Information Directors of America and president of the Eastern College Athletic Conference sports information directors. He was an officer of the Engineers Public Information Council and a member of the American Society for Engineering Education and the American College Public Relations Association.

A native of New York City, Smith is a 1960 graduate of Wagner College. He and his wife, Joan, live at 425 Mitchell St. with their sons, Christopher, 12, and Jason, 9.

Computer System For Student Data May Be Delayed

Plans to implement fully a new student registration and scheduling system, the Student Information System (SIS), at Cornell by spring term, 1974 may be delayed, according to Byron McCalmont, University registrar.

McCalmont said he still hopes to meet the original deadline, but, because of the uncertainty of Systems and Computer Technology Corporation's (SCT) being able to meet its timetable, he has alerted academic units to prepare for course registration (pre-registration) via Cornell's 16-year-old student record-keeping system. SCT is the West Chester, Pa. firm contracted last year to assist in the development of SIS.

"We would be extremely imprudent to wait any longer to reinstitute the old system as a backup," McCalmont said. Completion of the SIS course registration program is scheduled for September 30 but, "implementation of the new system is dependent upon SCT's ability to deliver the modules of the system on their committed schedule which recognizes the University calendar and the need for thorough testing," he said. "We will have to decide between the two systems for the spring term of 1974 no later than early November."

Sage Notes

National Science Foundation Graduate Fellowships will be available again this year to individuals who by Fall 1974 will have completed not more than one year of graduate-level study. The applicant's course of study may be for a master's or doctor's degree in the mathematical, physical, medical (not M.D.), biological, engineering, or social sciences, and in the history and philosophy of science. Interested parties should write to the Fellowship Office, National Research Council, 2101 Constitution Ave. N.W., Washington, D.C. 20418. The closing date for submission of applications is Nov. 26, 1973.

Under the sponsorship of the Ford Foundation and the National Fellowships Fund, graduate fellowships are available for Black Americans, Mexican Americans, Native Americans, and Puerto Ricans. The essential requirement is the student plan to pursue full-time study toward a Ph.D. in the Arts or Sciences or pursue a Ph.D. in other areas in preparation for a career in higher education. The applicant must take the Graduate Record Examination and submit a complete application by Jan. 5, 1974. For application forms and additional information, write to: Graduate Fellowships for Black Americans, The National Fellowship Fund, 795 Peachtree Street N.E., Suite 484, Atlanta, Ga. 30308; or: Graduate Fellowships for Puerto Ricans (or Mexican Americans or Native Americans), The Ford Foundation, 320 East 43rd Street, New York, N.Y. 10017.

CORNELL CHRONICLE

Published weekly and distributed free of charge to Cornell University faculty, students, staff and employes by the Office of Public Information, Arthur W. Brodeur, director. Mail subscriptions \$12 per year. Make checks payable to Cornell Chronicle. Editorial office 110 Day Hall, Ithaca, N.Y. 14850. Telephone 256-4206. Editor, Randall E. Shew. Managing editor, Kal M. Lindenberg. Photo editor, Russell C. Hamilton.

University Responds to Latest In Series of HEW Letters *In Weapons Theft*

Cornell University yesterday responded to the latest in a series of letters from the U.S. Department of Health, Education and Welfare (HEW) concerning the University's compliance with Title VI of the Civil Rights Act of 1964.

The latest response, signed by University President Dale R. Corson, was delivered yesterday to the HEW regional office in New York City.

In the final paragraph of yesterday's response, Corson said, "In accordance with conversations my staff has had with your Office (HEW regional), my plans are to release all four letters in this series of correspondence as soon as you have had an opportunity to review this letter. I understand that this should be within the next week, but that this will not necessarily conclude your review should additional followup be requested."

The correspondence scheduled for release by Corson are the April 3 letter from HEW, the Cornell response of May 23, the HEW letter of Aug. 16 and yesterday's Cornell response.

Corson also told HEW yesterday that "the release of correspondence will be prefaced by appropriate references to the commitments that I have made in the text of my letters. I anticipate," he said, "that my statement and public disclosure of our correspondence will resolve any misunderstandings concerning our programs to provide equal educational opportunities."

The exchange of correspondence in HEW's review of Cornell's compliance with Title VI, which prohibits discrimination on the basis of race, color or national origins by recipients of federal funds, began last April.

The first HEW letter, received in Ithaca April 16, was sent to Corson and addressed itself to University policies and procedures in the areas of student housing, curriculum, faculty appointments, and student recruitment, admissions and financial aid.

In May, at the time of the University's response to the first HEW letter, both the University Faculty and the University

Senate urged Corson to make public the text of the correspondence. Corson, at that time, wrote to the dean of the Faculty and the speaker of the Senate, explaining why he would not make the correspondence public at that time.

He said that he believed that

HEW officials "are amenable to negotiating (several) matters" and that "successful negotiation depends on keeping ... initial positions confidential. Once such positions are made public the initial positions are likely to be frozen with no possibility of modification."

Booking It

Two Arrests Made

Two arrests were made over the weekend and substantially all weapons subsequently recovered in the Aug. 13 theft of ROTC weapons and ammunition from ROTC storage facilities in Barton Hall.

FBI agents, assisted by the Cornell Safety Division, Sunday arrested Walter L. Larson, 21, and Neal Berezny, 19, both of 716 E. Buffalo St. and both former Cornell students. They were charged with unlawful possession of government property and theft and unlawful possession of firearms.

They were arraigned in Syracuse before U.S. Magistrate Edward M. Conan, who set bail at \$15,000 apiece.

The bulk of the weapons were recovered Sunday from a rented truck parked in a campus parking lot. Most of the remainder was found Monday in City Cemetery, except for a couple of handguns found in bushes along a railroad siding between Judd Falls Road and the Cornell heating plant. Cornell Safety Division, led by Director Lowell T. George, and Ithaca police, led by Chief James Herson, took part in the search.

Larson and Berezny are specifically charged with the theft of 48 M-14 rifles, 17 .22-caliber rifles, 6 .22-caliber pistols, 4 .45-caliber pistols, 2 rifle scopes, about 1,300 rounds of ammunition, a radio and a grenade launcher.

The burglary was discovered Aug. 13. Entry was made by cutting through a wire mesh opening in the weapons storage area.

Dr. Stevens Chosen to Head Department in Vet College

Dr. Charles E. Stevens has been elected chairman of the Department of Physiology, Biochemistry and Pharmacology in the New York State Veterinary College at Cornell, according to Dr. George C. Poppensiek, dean of the college.

Dr. Stevens has replaced Dr. Alvin F. Sellers, who, after 12 years as chairman, asked to be relieved of the administrative responsibility so as to devote his full time to teaching and research.

A native of Minneapolis, Dr. Stevens served with the U.S. Navy in 1945-46 and then attended the University of Minnesota, where he received his bachelor's degree in education in 1951, doctor of veterinary medicine and master's degree in 1955, and doctor of philosophy degree in 1958. He served there as a research associate until 1961, when he joined the Cornell faculty as an associate professor, advancing to full professor in 1966.

Dr. Stevens is a specialist in digestive physiology and has published widely in this field. His

research has been largely supported by grants awarded by the National Institutes of Health (NIH), including a Special Postdoctoral Research Fellowship in 1962-63, spent at the Institute of Biological Chemistry, University of Copenhagen.

Between 1968 and 1971 he was representative for the Cornell Field of Physiology and since 1971 he has served as director of an NIH-sponsored training program in comparative gastroenterology. In 1972 he was awarded a Fulbright-Hays Lectureship and appointed as a visiting professor in the Department of Biochemistry and Biophysics, College of Medicine, University of San Marcos, Lima, Peru, where he conducted a post-graduate course.

Dr. Stevens is a member of the American Physiological Society, American Gastroenterology Association, Comparative Gastroenterology Society, Conference of Research Workers in Animal Diseases and the American Veterinary Medical Association.

Student Coverage Revised For Accidents, Sickness

Cornell's Student Accident and Sickness Program, a voluntary plan designed to supplement the Student Medical Program, has been revised to provide greater benefits than previously offered, according to Frederick C. Powell, Health Services administrator.

New areas of coverage in the supplemental plan include benefits for diagnostic x-ray and laboratory expenses, special consultation fees, visits by a physician while the patient is confined in a hospital and coverage for termination of pregnancy.

A detailed explanation of the benefits provided under the program is outlined in a brochure

published by the Equitable Insurance Co., underwriter for the program. The brochures are available at the insurance office at Gannett Medical Clinic.

Chronicle

All items for publication in the Cornell Chronicle must be submitted to the Chronicle office, 110 Day Hall, by noon on the Monday preceding publication. Only typewritten information will be accepted.

Under Certain Conditions Staff Eligible for Treatment

Cornell faculty and staff members and other persons not directly enrolled in the University's student and spouse health service plans are eligible, under certain conditions, for limited treatment at the Gannett Medical Clinic and Sage Infirmary, according to Frederick C. Powell, Health Services administrator.

The three areas of coverage include initial emergency treatment for critical illness or injury occurring on campus, first aid care for on-the-job injuries to Cornell employees and immunization for overseas travel for employees and their dependents, he said. Charges for all three services will be made if care is given by a physician or a nurse.

Initial emergency treatment will be provided to anyone on campus coming to Health Services critically injured or ill. After treatment and/or evaluation, the patient will be referred to Tompkins County Hospital or to an appropriate private

physician for continued care.

First aid care will be provided to employees (both student and non-student) for compensable injuries occurring on the job. New York State Workmen's Compensation Regulations allow non-student employees to receive one-time care or emergency treatment at Health Services.

If, however, the work-related illness or injury will require return visits, the employe must, by Workmen's Compensation Regulations, be referred to or should go directly to the Tompkins County Hospital Emergency Room or to a private physician.

As an authorized U.S. Public Health Immunization Center, Gannett Medical Clinic will provide, for a charge, overseas travel immunizations to employees and their dependents. Immunization appointments may be made by calling 256-5155.

Chronicle Comment

Chronicle Comment is a forum of opinion for the Cornell community. Comment may be addressed to Kal M. Lindenberg, managing editor, Chronicle, 110 Day Hall.

Farah Pants Boycott Supported

Editor:

On May 3, 1973 three thousand employees of the Farah Manufacturing Company, 98 per cent Chicano and 85 per cent female, struck the company for recognition of their right to collective bargaining, higher wages, and *dignidad* (dignity). During the course of the strike, the company has disregarded the National Labor Relations Act and the orders of the National Labor Relations Board and despite the strikers' attempts to remain non-violent, acts of violence and intimidation have occurred against them.

On Sept. 11, 1973 the Student Government of the New York State School of Industrial and Labor Relations adopted the following resolution:

WHEREAS, Mexican-American workers in the Farah Company are being exploited, oppressed and denied dignity; and

WHEREAS, the Farah Company, one of the largest pants manufacturers in the

I Have Introduced A Senate Bill

world, employing mostly women workers, has consistently harassed, coerced, and intimidated workers who have attempted to join the clothing workers union; and

WHEREAS, a strike began against the Farah company in May of 1972 to protest the firing of workers active in organizing the union and nearly 3,000 Chicano workers are now on strike in El Paso, San Antonio and other Texas and New Mexico towns to win dignity and better working conditions; and

WHEREAS, these strikers have been subjected to arrests, often at night at their homes; to excessive bail; to injunctions which severely limit picketing; to armed guards with unmuzzled

police dogs; and

WHEREAS, the strikers, despite great personal sacrifice, are holding firm and resisting provocation by the company and continuing to picket peacefully;

THEREFORE, the Student Government of the New York State School of Industrial and Labor Relations goes on record in support of the "Don't Buy Farah" campaign and urges all Cornell students to support the nationwide boycott of Farah pants.

Today (Sept. 20), I am introducing a similar resolution for the consideration of the University Senate. I hope that the Senate will act speedily on this resolution.

Tonight, a meeting will be held to discuss the Farah strike and means of implementing a boycott of Farah products. This meeting will be held at 7:30 p.m. in 304 Noyes Center. All who are interested are urged to attend this meeting.

Neal Haber,
ILR Undergraduate Senator

On Safety Division Allegations

Editor:

I am writing to express concern over various statements or facts which have been attributed to my recent involvement with the Cornell University Safety Division, and to suggest a further framework for action. One concern is the "rape problem." I have never charged that the Safety Division has altered records. They are, in the words of a member of the Safety Division, "off by a factor of 5 to 10." He was referring to the copy of the 1972-1973 statistic sheet, specifically "rapes" and "assaults" or "harassments." What I was concerned about, and did speak to the press about, was that there is a lack of communication regarding the situation of crimes of violence. My contact with members of the community leads me to believe

I Am Writing To Express My Concern

that the Safety Division has not communicated the concept that Cornell is not a "crime free haven" effectively. From my observation of the reporting procedures, their method of compilation, and the lack of dissemination of this information, I felt "a serious problem existed."

Another area I am concerned about is the Senate's involvement in this issue. I was hired by Jackson O. Hall to produce the policy and procedures manual, with funds from administrative sources. The investigation I carried on in my own right, on my own time. I was in no way representing the Senate, as has been stated by some inaccurate reports, but I do feel the Senate has a legitimate concern about Safety Division policy.

My third concern was with the Division's past policies of enforcement which seemed to stem from university administrator's directives. Enforcement must be handled with discretion to make the law tolerable for the community, most laws being ideals. Discretion, however, can not be used discriminatorily; directed for, or against certain segments of the community. Just as limiting persons from seeking advantageous situations through

a "freeze" on the economy distorts the economy, so emphasizing certain discretionary powers distorts enforcement. Keeping a campus cool through directed laxity can sometimes as surely violate state and federal laws as marching on students with troops.

What this situation clearly points up is something that was outlined in my letter in Chronicle Comment (Chronicle, March 29, 1973), "Criminal Justice Program Urged." Those individuals who are employed to enforce laws must have further education to perceive the framework within which the laws arise, and their historical basis. They must further act as judge, and in some instances, juries, in deciding whether persons will enter (or be immediately dealt with by) the Criminal Justice system. To place this operation in the hands of persons without some rudimentary legal training, without an educated sense of purpose and social commitment, persons who are continuously being told what to do by their various "directors," especially in the university community, is at least, irresponsible. The day of the cop is done. They day of the B.A., M.A., or Ph.D. in Criminal Justice is here.

Career Calendar

Recently announced dates for the Federal Service Entrance Exams in Ithaca for the first semester are: Oct. 2 and 27, Nov. 6 and 17, December — no testing, Jan. 8 and 19. The Career Center has pre-registration information and registration forms.

Application deadline is Oct. 19 for the New York State Regents Scholarships in Medicine, Dentistry and Osteopathy. The examination will be given Monday, Oct. 29. Application forms are available at the Career Center.

Bulletin of the Faculty

(Publication of this Bulletin is supervised by the Secretary of the University Faculty Robert M. Cotts, 315 Day Hall, 256-4843)

Report of Special Meeting of the Faculty Council of Representatives September 19, 1973

In its Special Meeting yesterday, the FCR continued discussion of the University Computing Board's (UCB) proposal to purchase a new central computer, an IBM 370/168, at an estimated cost of \$3.7 million. After rejecting consideration of a substitute motion, the body passed a resolution to "accept the report of the ad hoc committee on increased computer capacity and recommend it to the Administration as a basis for discussion."

The ad hoc committee chaired by Prof. G.V. Chester, Physics, reported at the September 12 meeting its endorsement of the UCB proposal and its own proposal for increased quality and scope of services for computer users.

Dean of the Faculty Norman Penney initiated discussion by summarizing the increased costs of a new computer and

the relationship of these costs to that small amount of non-fixed expenditures in the endowed budget. The increased cost over a 5 to 7 year period is estimated at an average of about \$500-700,000 per year, including amortization of the purchase. Funds for added staff or additional services are not included in the estimate. A significant portion of the increased cost would be recoverable from users, he noted. The added burden on the endowed budget would be an increment of \$110-160,000, or about 10-20 per cent of the margin of the flexible or discretionary portion of that budget.

With respect to the effect on the University Libraries, Acting Provost W.D. Cooke suggested that the best perspective might be gained from past and present attitudes of the Administration toward the Libraries. He

cited recent budget additions of \$200,000 from the Mellon Gift, \$32,000 added annually specifically for use in the humanities, and an additional \$100,000 which has been added each year for a three-year period. The result of these additions has, he reported, raised the Libraries expenditures by about 2 per cent over the past three years.

Prof. Chester stressed that both the increased computer capacity and the maintenance of a first-class library are needed. They should not, he emphasized, be viewed as competing with one another. He also observed that with a new computer, the University could enter into a long term period of stable computing, a situation which, he noted, could not be obtained under any of the proposed alternatives.

The discussion from the floor ranged over many areas. Prof. P. Olum, Mathematics, reviewed the current list of pressing needs in the University in the context of the tight budget. He expressed opposition to voting on one of these needs when that vote might be taken as a mandate which at some later time would effectively remove other needs from consideration. A sense of frustration over a lack of time to study the priorities question was expressed by several speakers.

Prof. W.T. Dean, Law, who offered the substitute motion at the last meeting, argued for one of the less costly alternatives listed in the UCB report that could last about two years until the Faculty would have time to fully consider the issue. He also re-emphasized his uneasiness over the "IBM orientation" of our computing

facility. "There are other computers," he noted. Prof. R. Pasley, Law, also expressed concern about a locked-in IBM pattern just when the IBM monopoly on the field might be breaking.

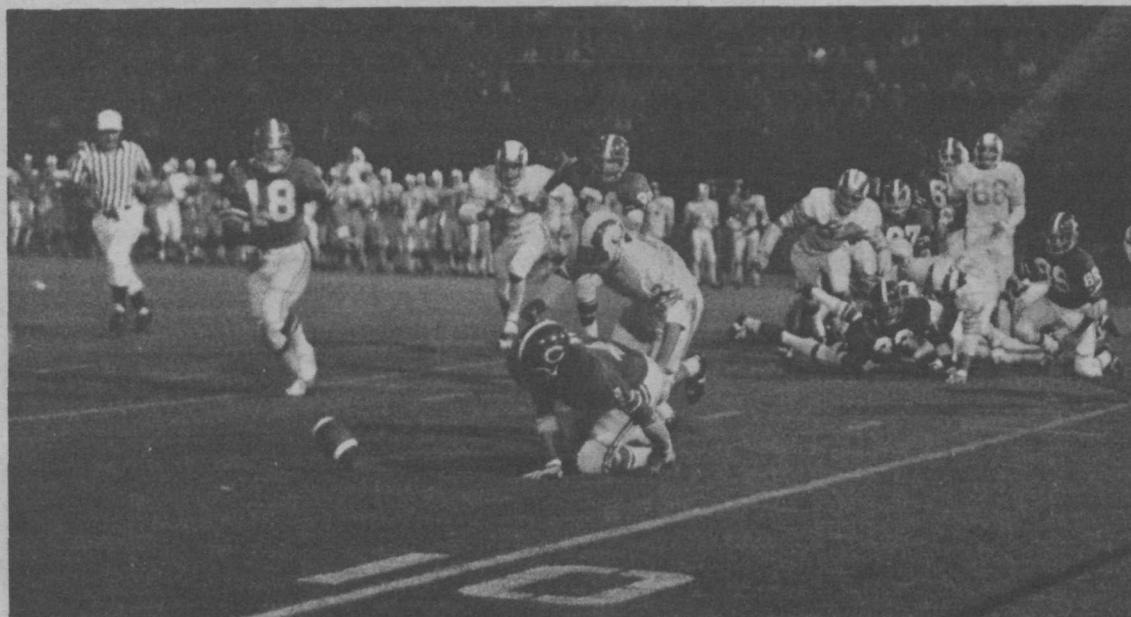

Consideration of the substitute motion, which would have utilized a less costly alternative and would have charged the Administration with making an immediate and vigorous effort to enter into a regional computing network, was voted down 61 to 6.

The resolution that passed (quoted above) was offered by Prof. I. Blumen, Industrial and Labor Relations, for the FCR Executive Committee. Noting that he was unaccustomed to offering such a "mashed potatoes resolution," he argued that it was a reasonable one. It says to the Administration, he observed, that the proposal of the UCB makes enough sense that the Faculty does not want to say "no" to it. We do not have 2 to 3 years to decide, he argued. Furthermore, he stressed, the Faculty is in this issue playing a new role in a priorities debate in expressing its opinion to the Administration on an important matter. It is a role, he hoped, it would continue to play in the future.

The resolution passed by voice vote.

In the last few minutes remaining, Prof. E. Flash, Business and Public Administration, Chairman of the Professional and Economic Status Committee, presented that Committee's proposal to establish the position of Senior Lecturer. While there was discussion, the meeting adjourned at the 6 p.m. deadline without a vote.

Red Grid Team Beats Rhode Island

RECOVERED FUMBLE — Cornell quarterback Mark Allen (18) and flanker Jack Corrigan (on knees) hustle after a Big Red fumble last Saturday night at Schoellkopf. Corrigan recovered the bobble and Cornell defeated Rhode Island, 20-7, in a practice game, the first varsity football contest played under the new Schoellkopf lights.

Sullivan Writes to Corson On New State Drug Law

Cornell University President Dale R. Corson has asked that the text of the following letter which he received Sept. 18 from William P. Sullivan Jr., district attorney of Tompkins County, be made available to the Cornell community.

"Effective September 1, 1973, there is new legislation in New York which redefines some of the substantive crimes involving possession and sale of illegal drugs (now called 'controlled substances'). The effect of this legislation is to reclassify some drug offenses, thereby increasing the seriousness of possession and sale of smaller quantities of controlled substances. Given the clear declaration by the legislature of the public policy of

New York regarding controlled substances, I am asking you to advise each member of the Cornell community that my office intends to fully implement these laws.

"I have indicated in the past that I do not feel that a university campus is a sanctuary for those inclined to possess and sell controlled substances. Indeed, I believe that the educational atmosphere of your institution is compromised by the presence of drugs on your campus.

"I wish to assure you that we will not prosecute and seek out students simply because of their student status. Rather, we have and will conduct our investigations only where we find evidence of abuse and sale of controlled substances.

"I am writing to you at this time, as there are some who have indicated they do not understand my position under the new Penal Law provisions. In view of the consequences of a violation of these provisions, I urge you to advise all members of the Cornell community to refrain from possessing or selling controlled substances. I also request and expect that all members of the Cornell community will cooperate with law enforcement authorities in reporting any known instances of

Clinic for Football Fans Begins Wednesday

Cornell's football coaches are going to begin some teaching next week and they're going to trade the traditional three R's for three F's — Fundamental Football for Fans.

The clinic, which will be conducted for nine weeks starting Wednesday, Sept. 26, is intended primarily for women who want to become more knowledgeable spectators, but will be open to all.

The half-hour sessions will be

held at 8 p.m. at Moakley House on Hanshaw Road and will be conducted in conjunction with the Fifth Down Club, a Cornell football booster group. Club members, who are welcome at the clinic, will see films of the previous week's Cornell game beginning at 8:30 p.m.

"I've been a football fan for a number of years and haven't missed a Cornell game in four years. But there's a great deal more I'd like to know in order to

be a better fan," according to Gail Murphy, who will be hosting the clinics. Mrs. Murphy, advisor to the women's hockey team at Cornell, is the wife of Jack Murphy, president of the Fifth Down Club.

"This will be an excellent opportunity to learn football from some men who really know the game," Mrs. Murphy said. "I'm a little tired of hearing women complain that their husbands never talk to them once football

season starts. This will give women a chance to stop being 'football widows'."

Cornell coaches will be explaining football rules, penalties, terms, offensive and defensive formations, plays and any other aspects of the game the "students" attending the sessions might wish to discuss.

Head coach Jack Musick will be on hand at the opening meeting of the year.

Continued on Page 6

The Senate Page

The Senate Page is the official bulletin of the Cornell University Senate. Publication is supervised by Michael E. Fisher, secretary of the Senate, 133 Day Hall, 256-3715.

NEXT SENATE MEETING: Tuesday, Sept. 25, 7:30 p.m., Kaufmann Aud.

New Legislative Procedures

At the Senate meeting on Sept. 11, Andrew Ettin, Chairman of the Executive Committee, announced, on behalf of the Executive Committee, the introduction of new legislative procedures for introducing bills into the Senate, as follows:

"Every committee shall estimate the final cost to the University of implementing legislation and recommendatory resolutions referred to it before reporting the bill to the full Senate. The estimate shall be included in the committee's report to the Senate, together with the basis and sources for the estimate."

The Speaker explained that this rule could be challenged at that point and at the next Senate meeting, and overturned by a

simple majority. (Hereafter a two-thirds majority would be needed.) After various questions and discussion, an objection to the rule was made.

However, the subsequent vote of 32 for, and 43 against, the objection, allowed the new rule to stand (unless challenged again).

Law Students

Attention law students: Petitioning for one seat on the Cornell University Senate ends today at 5 p.m. Bring your petitions to the Senate Office, 133 Day Hall. Candidates' statements will be put in your mailboxes on Monday, Sept. 24. Election day is Wednesday, Sept. 26, from 8 a.m. to 8 p.m. in Myron Taylor Hall Foyer. VOTE!!

Cornell University Senate By-Elections

By-elections are conducted in accordance with procedures as provided for in the Cornell University Senate Bylaws, Title XI, Section Five.

The Speaker submits a list of all vacant seats for publication in the Chronicle, one week after the first Senate meeting in the fall. The current vacancies are:

FACULTY

3 Seats — Agriculture (Biological and Botanical Sciences) Tenured Faculty.

1 Seat — Arts and Sciences (Humanities) Tenured Faculty.

1 Seat — Arts and Sciences (Social Sciences) Tenured Faculty.

1 Seat — Human Ecology, Non-Tenured Faculty.

2 Seats — Industrial and Labor Relations Faculty.

STUDENTS

2 Seats — Agriculture Students.

1 Seat — Graduate Students.

EMPLOYEES

1 Seat — Non-Exempt Other Employees.

1 Seat — Non-Professorial Academic Employees.

The Speaker also announces the list of vacancies at the second Senate meeting. There shall be no by-elections to fill vacancies that occur subsequent

to that date.

Petitioning starts on the day the vacancy notice is published in the Chronicle and closes two weeks later, Sept. 20 to Oct. 4.

If no valid nomination is received for a vacant seat, that seat remains vacant until the next General Election. If only one valid nomination is received, the nominee is declared elected. The Speaker then announces the result and the new Senator takes his seat at the following Senate meeting.

In the event that a seat is contested, the Speaker convokes an Electoral College to choose a Senator from among the nominees. The Electoral College is composed of all voting Senators from the constituency category in which the vacancy falls: students, faculty and "others." The Electoral College of "others" does not include the alumni, the Vice President or the Provost. The Speaker then names a member of the Executive Committee from the same constituency category to preside over that meeting. Each candidate has a right to be present at the meeting when the choice is made, to select a member of his constituency to make a nominating speech in the candidate's behalf, and to make a statement of his own. Voting is by secret written ballot, and will be tabulated by the Hare System.

The balloting results will be published in the next issue of the Chronicle. The successful

Sullivan

Continued from Page 5

possession or sale of controlled substances.

"As always, I stand ready to discuss my policies and the meaning of the law formally and informally with you and others at your institution."

Senate Calendar

Thursday, September 20

Parking and Traffic Subcommittee, 2:30 p.m., Stone Hall.

Minority and Disadvantaged Interests Committee, 4:30 p.m., Senate Office.

Dining Subcommittee, 4:30 p.m., Loft II, WSH.

Friday, September 21

Public and Community Affairs Committee, 1 p.m., Senate Office.

Monday, September 24

Executive Committee, 4:45 p.m., Senate Office.

Tuesday, September 25

Educational Innovation Subcommittee, 4:30 p.m., Senate Office.

Cornell University Senate Meeting, 7:30 p.m., Kaufmann Auditorium.

candidate will be seated two weeks after the publication of the result.

The purpose of the two-week wait is to provide time for possible challenge from the particular constituency concerned.

A valid challenge must take the form of a petition addressed to the Speaker requesting that the decision among nominees for the seat in question be made at a special by-election by the particular constituency. Such a petition must bear the signatures of at least one-quarter of the members of the particular constituency.

If no valid challenge is made, the Speaker declares the nominees chosen by the Electoral College to be elected.

But should any valid challenge be received, a special by-election shall be held in the challenging constituency to fill the vacancy.

Campus Life Agenda

Campus Life Committee

Sept. 21, 1973

388 Uris Hall

Agenda

1. 12:15 — Announcements and Legislative Review.

2. 12:30 — Review of Dining Subcommittee Activities.

3. 1:00 — Consideration of Phys. Ed. Fee Structures.

4. 1:30 — D-71 (Review & Approval of Authority over Certain Fees).

5. 1:45 — Review of Parking and Traffic Subcommittee Activities including proposed budget changes concerning Traffic Signs.

Senate Actions — Sept. 11, 1973

(Complete texts of all University Senate actions are available in the Senators' Study, 124 Day Hall.)

SA NO.	TITLE AND ABSTRACT	SPONSOR	ACTION TAKEN
SA-206 [D-72]	JUDICIAL ADMINISTRATOR APPOINTMENT [This bill would approve the nomination of acting Judicial Administrator Barbara Kauber to the position of Judicial Administrator for a term of two years, in accordance with SA-122]	President Dale R. Corson	ADOPTED
SA-207 [D-27-a]	FALL CREEK RESPONSIBILITY ACT [A bill establishing University policy concerning Fall Creek].	Haber, Hernandez, Foster, B. Harrison	ADOPTED AS AMENDED

By Danforth Foundation

Fellowships Offered

Inquiries about the Danforth Graduate Fellowships for 1974-75 are invited, according to R. M. Cotts, professor of physics, the local campus representative.

The fellowships, offered by the Danforth Foundation of St. Louis, Mo., are open to men and women who are seniors or recent graduates of accredited colleges in the United States, who have serious interest in college teaching as a career, and who plan to study for a Ph.D. Applicants may be single or married, must be under 35 years of age at the time of application, and may not have begun any graduate or professional study beyond the baccalaureate at the time of application.

Approximately 100 fellowships will be awarded nationally in March 1974. In each of the past three years, three of the awards went to Cornell seniors. Since the foundation does not accept direct applications for the fellowships, Cotts noted, Cornell seniors must apply through the campus screening committee. Deadline for local application is Oct. 15, and applications can be obtained in Cotts' office, 522 Clark Hall (telephone 256-3446).

Danforth Fellows are eligible for four years of financial assistance, with a maximum academic year stipend of \$2,025 for single fellows and \$2,200 for married fellows, plus allowance for tuition and fees. Dependency allowances and summer stipends are available. Financial need is not a condition for consideration.

Other fellowships may be held concurrently with a Danforth Fellowship, except for those administered through other programs of the Danforth Foundation. Income from other awards will be taken into consideration in determining the supplementary living expense stipend if the amount received is less than the Danforth Foundation maximum, and if the agency concerned will allow this.

The Danforth Foundation was created in 1927 by the late Mr. and Mrs. William H. Danforth of St. Louis as a philanthropy devoted to giving aid and encouragement to persons, to emphasizing the humane values that come from a religious and democratic heritage, and to strengthening the essential quality of education.

Professor Travels to Soviet Union On Mission of 'Cultural Detente'

A Cornell professor of Russian literature has left on a five-week mission to Soviet Russia in an attempt to achieve an unusual cultural "detente" that could result in a book jointly written by Russian and American scholars. The book would be on the literary scene in Czarist Russia during the early 19th century.

Key elements in the negotiations to be conducted by Antonia Glasse, a member of the Cornell faculty since 1966, are three albums of poems written by more than 30 Russian poets. The albums have remained outside of Russia for more than 10 years. Included in the works are eight love poems by Michail Iu. Lermontov, written when he was 17 years old. Next to Pushkin, Lermontov is considered Russia's greatest poet.

The albums, now owned by Columbia University, would be the important American contribution to the book. The Russian contribution would be a number of letters written by and about the poets including

Lermontov, and now in the possession of the Russian Academy of Arts and Sciences.

The albums and letters were once the possessions of Alexandrine Vereshchagina, a wealthy Moscow socialite who took them to Germany in 1838 when she married Baron Von Huegel. The papers were held by the Von Huegel family until 1962, when the heirs of the Baron sold them at a public auction. Columbia purchased the albums and the Russian Academy obtained the correspondence.

Now, largely through the efforts of Ms. Glasse, who received her doctorate in Russian literature from Columbia, the material will be united again for a brief time during her visit to Russia. She will meet with Russian scholars of the Academy in Leningrad. She will also go to Moscow in her efforts to interest Russian scholars in collaborating in the writing of a book on the period.

The Russians have already shown initial interest in the

project as evidenced by the invitation from the Russian Academy to Ms. Glasse to come to Russia to discuss her proposal. Her trip is being sponsored by Cornell's Committee for Soviet Studies.

Before she left Ms. Glasse said the book would be written in Russian first and later translated into English. Different sections would be written by various scholars based on their areas of expertise. However, she said, the book would focus on the era largely through the materials once owned by Miss Vereshchagina and her mother. Two of the albums, dated 1830, were owned by Miss Vereshchagina and contain the Lermontov poems. The other album is dated 1808 and was owned by Miss Vereshchagina's mother. This album contains original poems by Russian poets who apparently influenced Lermontov's literary development.

Ms. Glasse explained it was very fashionable for ladies in the cultural milieu of Moscow and St. Petersburg (now Leningrad) in the 19th century to have albums in which the literati of the day wrote original poems, often love poems.

One of the curious things about the Lermontov love poems in Miss Vereshchagina's albums is that they were not written to her but to her close friend, Katherine Sushkova. Ms. Glasse thinks that by reading the correspondence now located in Russia she can clear up why he wrote the poems in the album of the friend rather than his loved one.

W.D. Curtiss Heads Panel

W. David Curtiss, professor of law, has been named chairman of the Tompkins County Board of Representatives' newly established Criminal Justice Advisory Planning Committee. The 16 members of the committee represent a variety of public agencies and private organizations interested in the operation of the county's judicial system.

In establishing the committee, the Board of Representatives directed it to study the requirements of the county's criminal justice system and to make recommendations designed to help meet these needs.

The committee will consider space needs of the courts and jails, evaluate current procedures and programs for providing legal representation to indigent persons, examine the reasons for delay between the time of an individual's arrest and the ultimate disposition of his case, and review any other relevant areas of concern identified by the committee during the course of its study.

Bulletin Board

Bicycle Registration in Barton

Bicycle owners will have a second chance to register their bikes this weekend. Registration will take place on the west side of Barton Hall from 8 a.m. to 1 p.m. Saturday and Sunday.

The Safety Division asks that owners have the following information written down on a piece of paper: make of bicycle, number of speeds, serial number, wheel size and color and trim, to facilitate the handling of hundreds of bicycles.

The non-removable, stick-on license is valid until May 31, 1974, and the cost is 50 cents.

Wilson Fellowships Available

The Woodrow Wilson International Center for Scholars in Washington, D.C., has announced the availability of fellowships for outstanding scholars.

The center is an institution of 30 to 35 fellows from the United States and abroad, who come together for brief or sustained periods to conduct studies of fundamental political, social and intellectual issues designed to illuminate critical contemporary and emerging problems.

Cornell University students interested in further information and application forms should visit the Center for International Studies in 170 Uris Hall as soon as possible, since applications are due Oct. 1.

'Collegium Musicum' Seeks Members

The Department of Music has announced plans for the formation of the Collegium Musicum, an ensemble for the study and performance of medieval, Renaissance and early-baroque music.

Auditions for the group will be held from 7:30 to 10 p.m. Monday in B-22 Lincoln Hall. Candidates from the Cornell-Ithaca community are welcome to audition, according to Charles Warren, director of the Collegium Musicum and professor of music at Eisenhower College in Seneca Falls.

Med College Acceleration Program

A dual registration plan worked out between the University and Cornell Medical College will enable certain qualified students to save one year in completing the bachelor of science and doctor of medicine degrees. Students in the Colleges of Arts and Sciences and Agriculture and Life Sciences who expect to have finished 105 credit hours at the end of three years may apply for admission to the Medical College. If accepted, the student will be given 15 hours of credit by Cornell at Ithaca for courses taken in the first year of medical school. For further information, contact the Premedical Office in G14 Stimson Hall before Oct. 8.

International Seminar, Workshop Set

During the 1972-73 academic year, the International Student Office will sponsor a two-semester pre-departure seminar and a special, intersession seminar workshop in Washington, D.C. The seminar will provide a forum for international students to explore and discuss the kinds of situations and problems they may encounter when they return home to take up employment.

A three-day workshop in Washington will be spent visiting various national and international agencies that are involved in international development work. The seminar is free to participants. Further information and application forms may be obtained from the International Student Office, 200 Barnes Hall, 256-5243. Applications should be returned by Sept. 28.

Writing Workshop Offered

The English Department is offering a Writing Workshop for the benefit of the University community. The workshop is a free referral service for students at any level who have trouble in writing clear and organized papers. Arrangements for meeting with a tutor can be made through Professor Robert Farrell, director of the workshop, at 256-6348 (Rockefeller 2B, basement), or the coordinator of the service, Wayne Biddle, in Rockefeller 3B (basement).

Two Actions Affect Parking

The Department of Transportation Services has taken two actions affecting permit parking on the campus, according to William H. Richards, manager of the Traffic Bureau.

A two-week moratorium, effective Sept. 17, has been imposed on the sale of all parking permits except to dormitory students, who may continue to purchase permits for which they qualify. Also exempt from the moratorium are newly-hired faculty and staff who wish to obtain AB permits.

Transportation Services will make a parking lot utilization survey during the temporary moratorium to determine lot usage and its effect on further permit sales.

In other action, Transportation Services has lifted, on a trial basis, restrictions limiting Saturday morning parking.

Certain areas, however, will remain restricted. They are all service areas, loading zones and no-parking zones, as well as "U" parking lots at Morrill Hall, the northernmost bay at Savage-Newman, the westernmost row at Fernow-Mann and all of Lincoln Hall.

Calendar

September 20-30

Thursday, September 20

4 p.m. Lecture: Dr. Louis Guttman, professor, Hebrew University, scientific director of the Israel Institute of Applied Social Research and Andrew Dickson White professor-at-large, will speak on "Social Research in Israel," lves 120.

4:30 p.m. Food Science Seminar: Panel Discussion: "The Goals and Responsibilities of the Various Administrative Units in Food Science at Cornell." 204 Stocking Hall. Coffee at 4:15. Members of the panel: Dr. Robert C. Baker, director, Institute of Food Science and Marketing; Dr. Richard A. Ledford, chairman, Dept. of Food Science; Dr. Willard B. Robinson, head, Dept. of Food Science and Technology at Geneva.

4:30 p.m. Food Service Executive Association, Cornell Branch, will hold an introductory and organizational meeting in Statler Hall's West Lounge. Refreshments will be served.

6 p.m. Christian Science Organization testimony meeting. Visitors are welcome. Founders Room, Anabel Taylor Hall.

7:30 p.m. Israeli Folk Dancing. One World Room, Anabel Taylor Hall.

8 p.m. North Campus Union Free Cinema Series: *Kiss Me Deadly*, directed by Robert Aldrich, with Ralph Meeker and Albert Dekker, and *The Killing*, directed by Stanley Kubrick, with Sterling Hayden and Coleen Gray. Multi-purpose Room, North Campus Union.

8 p.m. Cornell Duplicate Bridge Club regular game. Elmhirst Room, Willard Straight Hall.

Friday, September 21

Noon. Cornell Women's Studies Program presents a discussion on "Teaching Women's Studies." Open to the public. Bring your lunch; coffee provided. 431 White Hall.

3 p.m. Open meeting: Cornell International Affairs Association. Room 127, Anabel Taylor Hall. New members welcome. The association organizes lectures, seminars and films concerning international political and economic developments. For further information call Bruce Stone, 272-8514.

6 p.m. Shabbat Eve Service. Anabel Taylor Hall.

7 & 9:15 p.m. *Cornell Cinema presents: *Sounder* with Cicely Tyson, Paul Winfield. Statler Auditorium.

7 & 9:45 p.m. *Cornell Cinema presents: Peter O'Toole in *The Ruling Class*. Uris Auditorium.

8 p.m. *The Cornell Concert Commission presents Jack Taylor & Steel Wind. Memorial Room, Willard Straight Hall.

8:15 p.m. Jean Genet's play, *The Maids*. Drummond Studio, Lincoln Hall.

Saturday, September 22

8 a.m. - 1 p.m. Bicycle Registration. The Safety Division will register bicycles at west end of Barton Hall. Bring bike and 50 cents. All bikes owned by city residents (including dorm residents) must be registered by order of city ordinance (Chapter 4).

8:15 p.m. Jean Genet's play, *The Maids*. Drummond Studio, Lincoln Hall.

9:30 a.m. Shabbat Service. Edwards Room, Anabel Taylor Hall.

2:30 p.m. Big Red Marching Band will give a Libe Slope concert (Bailey Hall in the event of rain).

5-7:30 p.m. *Steaks Ltd. Statler Student Cafeteria. Class project of the students of the School of Hotel Administration.

6-8 p.m. *Steaks Royale. Statler Main Dining room. Class project of the students of the School of Hotel Administration.

7 & 9:45 p.m. *Cornell Cinema presents: Peter O'Toole in *The Ruling Class*. Uris Auditorium.

7 & 9:15 p.m. *Cornell Cinema presents *Sounder*, with Cicely Tyson, Paul Winfield. Statler Auditorium.

8:15 p.m. *Music Dept. Concert: Music of J.S. Bach (1685-1750). John Hsu, viola da gamba; Albert Fuller, harpsichord. Barnes Hall.

9:30 p.m. Riskey Free Film Series: *The Lady Eve*. Starring Barbara Stanwyck and Henry Fonda. Directed by Preston Sturges. Riskey Theatre.

Sunday, September 23

9 a.m.-7 p.m. Electronic Flea Market. Memorial Room, Willard Straight Hall. Sponsored by the C.U. Amateur Radio Club.

9:30 a.m. Episcopal Church at Cornell Anabel Taylor Hall Chapel. All are welcome. Students, faculty and families.

10 a.m. Friends (Quaker) meeting for worship. Rides leave from Anabel Taylor Hall for 10:30 a.m. meeting at Jacksonville Meeting House. All are welcome. Child care provided.

11 a.m. Sage Chapel Convocation. Dr. B. Davie Napier, president. Pacific School of Religion, Berkeley, Calif.

4 p.m. Repeat of Music Dept. Concert of Saturday, Sept. 22. Barnes Hall.

7 p.m. Table Tennis Competition. Beginners welcome. Barton Hall. Sponsored by the Cornell Table Tennis Club.

8 p.m. *Cornell Cinema presents: Francois Truffaut's *Jules and Jim*. Statler Auditorium.

8 a.m. - 1 p.m. Bicycle Registration. The Safety Division will register bicycles at west end of Barton Hall. Bring bike and 50 cents. All bikes owned by city residents (including dorm residents) must be registered by order of city ordinance (Chapter 4).

Monday, September 24

4:30 p.m. *Music Dept. Concert: Everett Hafner will give a lecture-demonstration, "Electronic Music Equipment." Barnes Hall.

4:30 p.m. "Civilization" film series with Sir Kenneth Clark: *The Great Thaw*, 12th century: Romanesque abbey churches, pilgrimages, crusades. St. Denis, Chartres. Goldwin Smith D. Sponsored by the History of Art Dept. Everyone is invited. The entire series of 13 films will be shown on consecutive Mondays.

4:30 p.m. Jewish Thought Seminar. Anabel Taylor Hall.

7:30 p.m. Jewish Identity Seminar. Anabel Taylor Hall.

7:30 - 10 p.m. Auditions for Collegium Musicum, a new ensemble for the study and performance of medieval, Renaissance and early baroque music. B-22 Lincoln Hall.

8 p.m. *Cornell Cinema presents D. W. Griffith's *Broken Blossoms*, with Lillian Gish, Donald Crisp. Willard Straight Theatre. Attendance limited to Film Club members.

Tuesday, September 25

11:30 a.m. Liquid Crystals lecture series: Professor P. G. deGennes, University Paris-Sud, Orsay, France. Baker 200. (The series will be presented on Tuesdays and Thursdays, Sept. 25-Nov. 2).

7:30 p.m. University Senate Meeting. Kaufmann Auditorium.

7:30 p.m. *Varsity Soccer — Hartwick. Schoellkopf Field.

8 p.m. University Lecture: "What Future for Israel?" Shlomo Avineri, professor of political science, the Hebrew University, Jerusalem. Uris Auditorium. (Second in series of 2.)

8 p.m. *Cornell Cinema presents: Ingmar Bergman's *Wild Strawberries*, with Max von Sydow, Ingrid Thulin. Statler Auditorium.

Wednesday, September 26

5:30 p.m. Rosh Hashana Eve dinner (by reservation). One World Room, Anabel Taylor Hall.

7:30 p.m. Traditional Service, Rosh Hashana. Statler Auditorium.

Reform Service. Anabel Taylor Auditorium.

7:30 p.m. Archery Club annual organizational meeting. Loft II, Willard Straight Hall. For more information call Rich Livingston 256-6876.

8 p.m. *Cornell Cinema presents: Claude Lelouch's *The Crook*, with Jean-Louis Trintignant. Uris Auditorium. Attendance limited to Film Club members.

Thursday, September 27

9 a.m. Traditional Rosh Hashana Service. Statler Auditorium.

10 a.m. Reform Rosh Hashana Service. Anabel Taylor Auditorium.

11:30 a.m. Luquid Crystals lecture series: Professor P. G. deGennes, University Paris-Sud, Orsay, France. Baker 200.

6 p.m. Christian Science Organization testimony meeting. Visitors are welcome. Founders Room, Anabel Taylor Hall.

7:30 p.m. Traditional Rosh Hashana Service. Statler Auditorium.

7:30 p.m. Cornell Ukrainian Student Hromada meeting. International Living Center (North Campus 8) Main Lounge.

Riding

Continued from Page 1

The Riding Hall rebuilding work began in mid-July and will be completed by Oct. 20. It includes reconstruction and extension of the riding hall construction of a new stable and reconstruction of an existing stable and a feedbarn.

According to Thomas W. Mackesey, vice president for planning, the riding hall will get a new roof, new wall surfacing and be extended 50 feet for polo games, making the new arena 90 feet by 240 feet. The existing attached stable and bleacher areas have been inadequate, he said, and created safety hazards. One detached stable will be reconstructed, but other facilities are dilapidated and must be demolished, Mackesey said.

The riding hall complex was begun after World War I and completed in the mid-1930's.

In the late 1960's, Cornell officials began consideration of a new riding facility off campus. However, because it was estimated that such a new facility would cost approximately twice the amount of money available, the decision was made to renovate the existing hall, demolish the attached stable and construct new outbuildings. Also, the decision to leave the polo arena at its present site would permit more extensive and convenient use by the University community.

8 p.m. *(Donation) The Jean Shepherd Show (New York's late-night radio celebrity). Bailey Hall. Sponsored by Alpha Phi Omega. Proceeds to go to Cornell campus chest.

Saturday, September 29

9:30 a.m. Shabbat Service. Edwards Room, Anabel Taylor Hall.
