

## *Libraries to Get Additional Funds*

An additional appropriation of \$100,000 for the Cornell University Libraries for the current fiscal year was made Tuesday by the Executive Committee of the University Board of Trustees.

Some \$75,000 of the total will be used for new book purchases and the other \$25,000 will be used for additional shelving, according to acting Provost W. Donald Cooke.

Cooke explained that the appropriation for new books reflects the University's desire to keep its essential collections as current as possible despite the steady increase in the cost of books and in light of the overall fiscal restraints on the University's budget. He pointed out that the book funds for the current budget show only a 4.25 per cent increase over the 1970-71 budget, while the cost of domestic books has risen 7 to 15 per cent and the cost of foreign books has risen 15 to 35 per cent in the past three years.

He also pointed out that additional shelving space is a major problem throughout the library system but that it has become critical for rare books and special collections. As a result, he said, the \$25,000 appropriation will be used for a motorized shelving system to be installed in Olin Library. The shelving will hold approximately 27,000 volumes.

The Executive Committee also made an additional appropriation of \$35,000 for refinements to be made on the University's computerized personnel data files. The refinements, Cooke said, are needed to insure 100 per cent accuracy so that these files can be used as a basis for affirmative action reports, classification analysis, position control and other critical personnel functions.

## Levin Named Arts Dean

Harry Levin, the William R. Kenan Jr. professor of psychology and a member of the Cornell faculty since 1955, has been elected dean of the College of Arts and Sciences for a five-year term starting July 1, 1974.

The action was taken by the Executive Committee of the University Board of Trustees, at its meeting Tuesday in New York City. President Dale R. Corson recommended Levin's appointment from a list of candidates compiled by a search committee he had appointed earlier this year. Levin's candidacy was endorsed by the Arts College faculty at its Dec. 4 meeting.

Levin will succeed Alfred E. Kahn, the Robert Julius Thorne professor of economics, who will complete a five-year term as dean on June 30, 1974. Earlier this year Kahn requested that he not be considered for a second term so that he could return full-time to his teaching and research and because he is in favor of a fixed five-year term for deans as a matter of principle.

President Corson said, "I am delighted at the appointment of Professor Levin and I have great confidence that he will be a distinguished and effective dean. I would also like to take this opportunity to thank publicly Dean Kahn for the outstanding manner in which he has carried out his difficult assignment."

*Harry Levin*

An authority on reading, Levin was named Cornell's first William R. Kenan Jr. professor of psychology in 1967. He was chairman of the

# Trustee Exec. Committee Summary Journal

SUMMARY JOURNAL for the meeting of the Executive Committee of the Board of Trustees of Cornell University held Dec. 11, 1973 in New York City.

(NOTE: This summary journal, as released for publication, does not include confidential items which came before the meeting.)

1. The minutes of the Executive Committee meetings held Oct. 18 and Nov. 15 were approved.

2. The Executive Committee approved the President's recommendation that monies be allocated from the General Contingency Fund for library book acquisitions and shelving and personnel data compilation. Approved were allocations of \$75,000 for book acquisitions as a step toward restoration of book purchase funds to a level which will permit the maintenance of all essential collections, \$25,000 for library shelving in order to address this critical problem, and \$35,000 for maintenance of the University's computerized personnel data files. (See story on Page 1.)

3. The President, with the assistance of Vice President for Administration Samuel A. Lawrence, gave a preliminary review of the preparation of the 1974-75 budget for the endowed colleges at Ithaca and the Cornell Medical College. There followed a discussion of the budget by the Executive Committee with the focus on priorities, the cost of accomplishing these priorities, and fiscal resources available to the University.

4. The President reported on the receipt of gifts to the University, public disclosure of which will be made at the discretion of the donor or when legal considerations are met.

5. The Executive Committee approved a recommendation from the Faculty Council of Representatives (FCR), which had Presidential approval, dealing with freedom of access to academic courses. The policy recommendation as approved will be published in all college and University announcements. (See story on Page 3.)

6. The President reported on the status of the agreement of affiliation with Boyce Thompson Institute

(BTI). He reported that the lawyers for the University, the State University of New York and BTI are continuing their efforts to achieve a mutually acceptable affiliation agreement and that there are certain faculty concerns such as the proprietary research issue and research/teaching compatibility.

7. The President reported to the Executive Committee concerning campus parking regulation enforcement matters. He asked Executive Committee approval, which was granted, for the prefiling of legislation in the New York State Legislature for amending the University charter, where necessary, to implement whatever traffic enforcement measures may be deemed necessary after further study is accomplished and the opportunity for community input afforded.

8. The Executive Committee authorized the University administration, upon recommendation of the President, to execute appropriate contracts with the New York State Department of Agriculture and Markets for the design and construction of a diagnostic laboratory to be located at the Veterinary College. The President reported that these contracts will be subject to reimbursement from State funds and that the usual procedures will be followed regarding further Trustee action on building site designation, conveyance of title, and selection of architect and contractor. The President also reported that this recommendation had the approval of the State Relationships Committee. (See story on Page 3.)

9. The Executive Committee approved the President's recommendation that the University administration be authorized to remodel certain areas in Langmuir and Liddell Laboratories for purposes of the Division of Biological Sciences. The President further recommended that the project be financed by an advance from Current Fund balances, subject to reimbursement from the I. Ellis Behrman Fund within five years with interest. (The Behrman Fund provides monies for Biological Sciences Division building construction.) The Executive Committee approved this recommendation. The President also reported that the remodeling projects would provide facilities for research in the field of neuro-physiology.

10. The Executive Committee heard a preliminary report on the University's relationship to the Collegetown area. The preliminary report, presented by Vice President for Public Affairs Richard M. Ramin, who is head of the University's Community Relations Council, and Vice President for Planning Thomas W. Mackesey, was the first report on the progress of the study being undertaken by the University in response to a Board request in October.

11. The Executive Committee approved a Presidential recommendation that the Medical College Health Insurance Program be amended, effective Feb. 1, 1974, to eliminate Blue Shield coverage and to expand Major Medical coverage. The President reported that approval of this recommendation would have no impact on the Ithaca campus health plan which is a separate plan. The Medical College revisions are based on considerations specific to the Metropolitan New York City area and will result in improved coverage.

12. The Executive Committee approved the President's recommendation that University Treasurer Arthur H. Peterson be authorized to vote the University's stock in Cornell University Press, Ltd., a subsidiary corporation, to elect E. Anthony Hamilton, Roger Howley, Paul L. McKeegan, Alain Seznec and Neal R. Stamp as corporation directors for one-year terms expiring March 31, 1975.

13. The President recommended a series of personnel actions. (See story on Page 1.)

14. The Executive Committee heard a progress report from the Committee on State Relationships. Trustee Morton Adams, committee chairman, reported that there will be a joint meeting of his committee and the Committee on Cornell Relations of the State University Board of Trustees in New York City on Dec. 19.

15. A report of construction contracts awarded during the period Oct. 17, 1973 through Nov. 6, 1973 was presented.

16. The proceedings of the meeting of the Joint Administrative Board of the New York Hospital-Cornell Medical Center for Nov. 8, 1973 were presented.

## Safety Division Gets New Equipment

### Campus Speed Limits Now Radar-Enforced

Radar is now being used for the first time on campus for traffic law enforcement.

The Safety Division has a new radar unit which is highly portable, can be used in any of the division's automobiles and is accurate to within one-half mile per hour.

Patrolman Charles Howard, who is in charge of the radar program for the division, said the unit has been used for the past few weeks on a trial basis, and several warnings have been issued for speed based on its use. Now the officers using it will begin writing uniform traffic citations.

"Our main purpose in using this enforcement tool is accident-prevention," Howard said, "and not in issuing tickets. It is of no benefit to the University to issue summonses, since all of the fines levied will be paid to civil courts, most of them in the City of Ithaca, and some in the Village of Cayuga Heights and the Town of Ithaca. The benefit to the University will be in establishing safer speeds on its roadways."

Howard said that more than 65 per cent of all accidents (and more than 50 per cent of all fatal accidents) are the result of excessive speed. The use of radar has been proved to cut down accidents in high-accident areas, he said.

Both Howard and Lt. William Tuttle are certified instructors in the radar, and all duty sergeants are certified operators. All members of the patrol division are being instructed in its use.

**SPEED KILLS** — Safety Division Patrolman Charles Howard shows the division's new radar unit, which is being used to enforce campus speed limits. Over 50 per cent of all fatal accidents have been attributed to excessive speed.

## Cornellian, Spare That Tree

"In past years the Cornell (University) Plantations has lost valuable evergreens as a result of thoughtless cutting for Christmas holiday decorations," according to Richard M. Lewis, director of the Plantations.

"Area evergreens now stand out in strong contrast against the bare branches of deciduous trees, and add beauty to our landscape," he said. "Unfortunately, the pines, spruces, firs and hemlocks are sometimes looked upon as potential

Christmas trees."

Lewis warned that no evergreen tree should be cut without the permission of its owner. "One year the topping of a Cedar of Lebanon resulted in a \$250 fine; however, fines cannot replace a well-grown specimen tree or a rare species," he pointed out.

Trees in the arboretum are used for study by University classes and by the local community.

## Ideas Sought

The Cornell Women's Studies Program is seeking proposals for courses to be offered by the program during the fall semester, 1974, according to Jennie Farley, director of the program.

Proposals on the history, biology, sociology and psychology of women, the economic status of working women, place of women in the social order and on other topics pertinent to women's studies are invited, according to Farley.

Interdisciplinary proposals are also welcome.

All proposals are due Feb. 1, 1974 at the program office, 431 White Hall.

## CORNELL CHRONICLE

Published weekly and distributed free of charge to Cornell University faculty, students, staff and employes by the Office of Public Information, Arthur W. Brodeur, director. Mail subscriptions \$12 per year. Make checks payable to Cornell Chronicle. Editorial office 110 Day Hall, Ithaca, N.Y. 14850. Telephone 256-4206. Editor, Randall E. Shew. Managing editor, Kal M. Lindenberg. Photo editor, Russell C. Hamilton.

Keep Up With Cornell;  
Read the Chronicle  
Thursdays

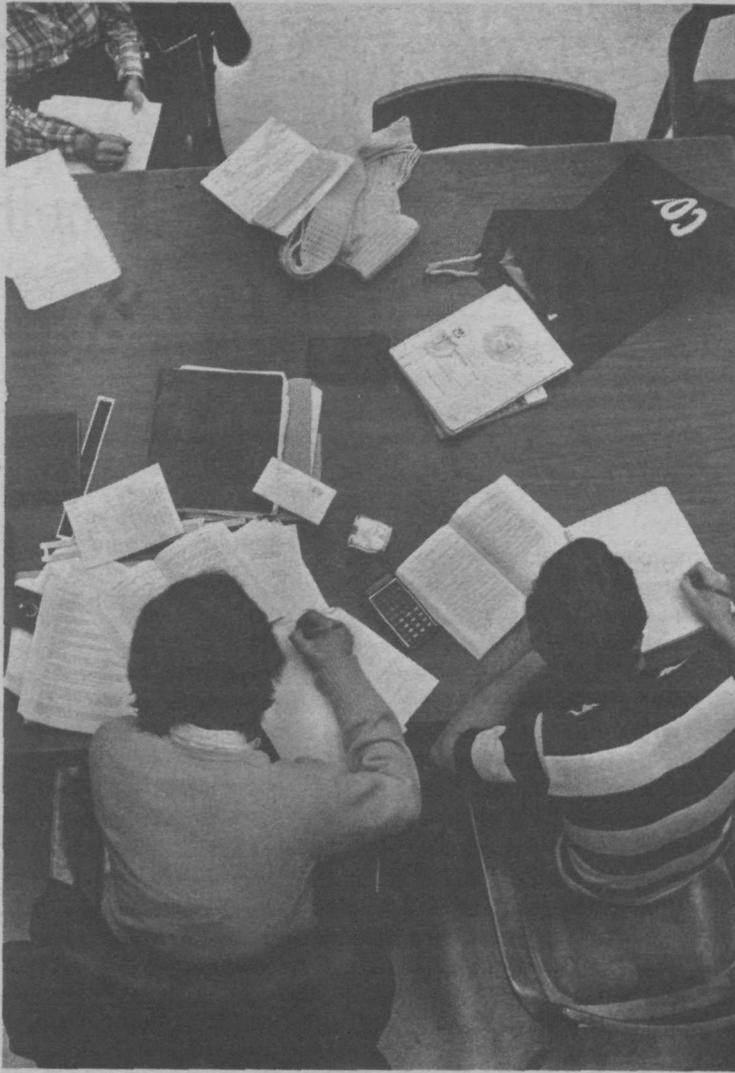

## Freedom Of Access Policy Set

A policy of freedom of access to academic courses was approved by the Executive Committee of the Cornell Board of Trustees Tuesday at its meeting in New York City.

The policy, which will be published in all college and University announcements, states:

"All academic courses of the University are open to students of all races, religions, ethnic origins, ages, sexes, and political persuasions. No requirement, prerequisite, device, rule or other means shall be used by any employe of the University to encourage, establish or maintain segregation on the basis of race, religion, ethnic origin, age, sex, or political persuasion in any academic course of the University."

The policy approved by the Executive Committee yesterday was based on a recommendation of the Faculty Council of Representatives.

**BOOKING IT** — Hard at work preparing for final exams, which begin today, these students take advantage of the independent study period in the basement reading room of Uris Undergraduate Library.

## On Veterinary Campus

### Diagnostic Facility to Be Built

The Executive Committee of the Cornell Board of Trustees, meeting Tuesday in New York City, authorized the University administration to execute appropriate contracts with the State Department of Agriculture and Markets for the design and construction of a diagnostic laboratory on the campus of the New York State Veterinary College at Cornell.

This authorization was previously approved by the University's State Relationships Committee, chaired by Trustee Morton Adams of Rochester, president of the State Agricultural Society.

When completed, the proposed facility will be the property of New York State. Shortly after the building is completed, Cornell will transfer title to the land on which the building is located to the state.

Further trustee action is anticipated regarding the selection of a site and both an architect and contractor.

According to Dr. George C. Poppensiek, dean of the Veterinary College, the diagnostic laboratory staff has been hampered in the attempt to offer appropriate diagnostic services, particularly in the

interests of the animal agriculture industry.

"We have been forced to rent trailers to provide office space for the staff," Dr. Poppensiek said.

"The new facility will permit us to expand the kinds of diagnostic services necessary to protect our multimillion-dollar livestock and poultry industries."

## Two Attend Conference of Africanists

Two Africana Studies and Research Center (AS&RC) professors from Cornell are attending the Third International Congress of Africanists in Addis Ababa, Ethiopia, which began Sunday and ends Dec. 19.

James E. Turner, director of AS&RC, and Rukudzo Murapa, assistant professor of political science, are attending the 11-day conference under the sponsorship of the

American Council of Learned Societies and the African Heritage Studies Association, respectively.

The congress, first formed in Accra, Ghana, 10 years ago, will deal with the economic, social, political, scientific and cultural development of Africa. Using a broad historical approach, the congress will seek a "balance between forms of African development in the pre-colonial period and those of the past 100 years," Turner said, "thus linking the African past with its present."

Turner is co-chairman of the 50-member United States delegation to the congress with Imanuel Wallenstein, professor of political science, McGill University, he said.

Turner said both he and Murapa will present papers at the congress and will be visiting "drought-stricken areas of Ethiopia to assess the severity of the problem, what is being done and what contributions can be made by scholars and others." The drought affects some one and one-half-million persons in Ethiopia, he said. Other West African or Sahel Region nations affected by severe drought are Senegal, Mali, Niger, Ivory Coast, Upper Volta and Chad.

Turner attributed the severity of the

## Ley Opposes Release Of Medical Records

The practice of requesting release of student health records for the purpose of determining admission to graduate schools, particularly medical schools, should be stopped, according to Allyn B. Ley, physician and director of University Health Services.

"It is our view that release of clinical information as a potential criterion for admission is an unnecessary and unethical breach of confidentiality," Dr. Ley said. "The fact that the applicant has signed permission for the release is, in practical terms, irrelevant, as he is in no position to refuse to sign the release."

Dr. Ley said Health Services, and other college and university health services, receive request forms for medical and mental health records for present and past Cornellians who are applying for graduate school programs. A permission form to be signed by the applicant authorizing release of information contained in confidential records accompanies each request form, he said.

Although citing several reasons for his opposition to this request practice, Dr. Ley stressed the confidentiality of medical information.

"A medical record is a confidential matter between a patient and a physician, regardless of whether it is an institutional health record or the record of a private doctor. We tell students their medical records are confidential and as a principle we should oppose this type of request."

Dr. Ley feels that authorized release of information for admissions purposes is, in effect, compulsory for the applicant. "The issue is confidentiality. Even if it is being breached legally, the student has no choice."

"Some of the ramifications of this are pervasive," he said. "There isn't any question that some students won't come for the care they need, particularly in mental health ... We try to encourage early diagnosis and treatment. To discourage students from coming in is detrimental at any stage."

He characterized medical and graduate school health record requests as "fishing expeditions."

"I don't think there is anything in the medical record to predict performance that isn't available in other records," he said.

"In those few cases where a health problem might affect performance, the matter should be obvious on the basis of other observations. Indeed, if a student can complete his or her course work as an undergraduate in a satisfactory manner, this is the very best criterion of performance potential in graduate school."

"We have found that some students have purposely not sought needed medical or mental health care in our University health services because they felt such care would jeopardize their acceptance by graduate schools. I am sure other undergraduate schools have the same experience."

"Once the student has been accepted and has given permission for release of information, it is then in the best interests of all concerned that clinical information be readily available to those responsible for his or her health care."

Earlier this fall, (Nov. 9) Dr. Ley encouraged other educational institutions to consider these issues in a letter to the editor of "Science," a weekly publication of the American Association for the Advancement of Science.

drought in these nations to their economic relationship with former colonial western European nations as well as to climatic conditions.

The previous colonial and subsequent relations between Africa and western Europe have resulted in technological development, particularly in improvement of livestock for European markets, at the expense of domestic agricultural development, according to Turner, who stated that the western-oriented technological development of African nations failed to provide for growth beneficial to Africans, a majority of whom are subsistence farmers, herders and nomads.

Much of the congress will deal with questions of technological and social development because of the current drought, he said. "The drought raises questions of rural development. We expect in some of our (AS&RC) courses to give more attention to comprehensive rural development in these countries."

"Plans are being made for some students from the center and the African Student Association (Cornell) to work during the summer in the drought-stricken area," he said.

## Sage Notes

Graduate students who are paying their own tuition and are New York State residents are reminded that they may be eligible for as much as \$300 per term from the Scholar Incentive Program. This is a non-competitive award based on income. Application forms and information may be obtained from the University of the State of New York, Regents Examination and Scholarship Center, Students' Financial Aid Section, 99 Washington Ave., Albany, N.Y. 12210, or 260-C Day Hall, Financial Aid Office, Cornell.

Elections were held recently to replace retiring members of the General Committee of the Graduate School. The Committee for 1973-1974 is now composed of: Acting Dean Paul J. Leurgans; Dean William W. Lambert; Associate Dean Alison P. Casarett; Professor Charlotte M. Young, Secretary; Professors Alice Colby, Thomas R. Dyckman, Alfred W. Eipper and Michael E. Fisher, Members-at-Large; Professors David B. Lyons and Stanley J. O'Connor, Humanities; Professors Kathleen Rhodes and Sidney Saltzman, Social Sciences; Professors Neal F. Jensen and Ross J. MacIntyre, Biological Sciences; Professors David G. Cassel and P.C.T. de Boer, Physical Sciences.

# Chronicle Comment

*Chronicle Comment is a forum of opinion for the Cornell community. Comment may be addressed to Kal M. Lindenberg, managing editor, Chronicle, 110 Day Hall.*

## Criminal Justice Program Urged

Editor:

I was very happy to note the actions of trustee Platt regarding his sponsorship of the University and the Prisoner Act, which has been referred to the Educational Innovation Committee. Might I suggest that this committee consider the current groundswell of interest regarding this topic at Cornell. Perhaps the committee will find it of interest that the Policy Planning and Regional Analysis Department is considering the establishment of a Criminal Justice Policy and Planning program. This action is significant. It could conceivably tie the resources of the Cornell community to a structure that would provide a focus for federal funds.

Having followed the development of this interest through to the federal level, scouting the various possibilities for funding research and education in this field, I have found the possibilities exciting. Mr. Coscakro of the National Institute for Criminal Justice has indicated that large research block grants are available for the funding of research directed towards community problems. While the global concept has received downplay since the Berkeley research snafu of a few years past, there is also still interest in responsible research at this level of planning. As early as March 1973 (the first time I addressed these issues to this community), Mr. Brian Boyd, who is with the Law Enforcement Education Program and the Enforcement Manpower Assistance group, indicated a significant interest in the establishment of a program at Cornell. Checking through financial aids, and people at the

### *I Was Happy To Note Trustee Platt's Bill*

Law Enforcement Assistance Administration (LEAA), it would seem that Cornell has cut itself from the \$800 million in federal special revenue sharing distributed to the states, and the \$1 billion available to the criminal justice research funding structures administered through the LEAA, through oversight.

A criminal justice program, to be such, must consider the full range of the system. To concentrate on any segment — prisons, courts, law enforcement — is futile. It is necessary to deal with the real system dynamics and perceptual limitations of the system's maintainers before any significant suggestions for planning will receive credence and produce desired effects. The basic problem is that the academic community has shunned this field largely because of the function it serves, "social control." This is "criminal" in that it relegates the decision process to persons who may not be aware of the options available for life style, decision making, control or direction. Cornell and its academic community can have no argument with the LEAA, which is firmly committed to the upgrading of the educational experience of functionaries in the system to at least two years of college, and administrators to four or more in their field. The LEAA, even for its many faults and misdirections, is still the most progressive unit of the

federal justice structure. The range of assistance it could provide for such concerns as trustee Platt's is long. It is important for the community to join this debate and not leave the resolution to certain law enforcement officials who do not "see the value of a college education" (perhaps because they lack one themselves). Since the justice structure daily alters the lives of thousands of persons, since it prescribes the decision process for quick use of deadly force, can we place this responsibility in the hands of those who have not received certain insight advantages? When the law enforcement officer is responsible for reducing, in one city, over three days, 400 "probable cause situations" to 100 arrests, 40 bookings, finally producing 20 trial issues (that is, reducing systems entry by 95 per cent), then he or she has more responsibility than we give to any other official. And this is not just the simple power of arrest, but possibly death.

As Collegetown and Willard Straight have so recently shown us, the criminal justice system is a significant aspect of our daily lives. It can no longer be shoved aside to "cops," "guards" and "boards." It must receive the direction of educated professionals in the same manner that professors, lawyers or doctors serve their fields.

Cornell, through its criminal law courses, its ILR and B&PA offerings, its Community Service Education research with Loyd Street, its Urban Development and Policy Planning, government and international studies programs, could provide one of the leading institutions for criminal justice in the United States. The community must desire it, however. The Board of Trustees, our congressmen, and our leaders, like Robert Platt, must help. At a time when human service education is being cut, the graduates of the '60s have refused to allow the government to sidestep the most basic of issues, justice. Whether you are Rawlsian or a Mitchell fan, your style Kennedy, Clark or Kleindienst, the systematic study of the criminal justice system should be an important issue for the '70s and the balance of the century.

## Winter Sports Scoreboard

**HOCKEY** — Record to date: 3-0-1. Last week's results: Cornell 3, Brown 1. Next games: Dec. 28-29, Syracuse Invitational Tournament.

**BASKETBALL** — Record to date: 1-5. Last week's results: Missouri 82, Cornell 45; Kent State 85, Cornell 49; Pittsburgh 90, Cornell 55. Next game: Jan. 4, Brown.

**TRACK** — Record to date: 1-0. Next meet: Jan. 19, Cornell Invitational.

**SWIMMING** — Record to date: 1-2. Last week's results: Cornell 61, Pennsylvania 52; Yale 52, Cornell 50. Next meet: Jan. 19, Bucknell.

**WRESTLING** — Record to date: 1-1. Last week's results: Navy 29, Cornell 12; Cornell 29, Springfield 10. Next meet: Jan. 11, at California.

**SQUASH** — Record to date: 1-3. Last week's results: Cornell 9, Seton Hall 0; Pennsylvania 9, Cornell 0; Yale 9, Cornell 0. Next match: Jan. 26, Princeton.

**FENCING** — Record to date: 2-1. Last week's results: Cornell 15, Pennsylvania 12; Yale 15, Cornell 12. Next meet: Jan. 26, at Columbia.

**GYMNASTICS** — Record to date: 0-3. Last week's results: Southern Connecticut 160.30; Cornell 130.90; Army 146.95, Cornell 132.85. Next meet: Jan. 11, at Dartmouth.

*Course Offered Statewide*

# ILR Program Aids Local Officials

The Local Government Program, a joint project of the New York State College of Agriculture and Life Sciences and the New York State School of Industrial Labor Relations (ILR) at Cornell, has launched the first statewide educational effort to teach basic legislative powers and duties to newly elected governing board members at each of the four levels of local government in New York state — city, county, town and village.

The effort is in the form of a course, "Legislative Powers and Duties for Newly Elected Local Governing Board Members," developed by the Local Government Program. Instructors have been trained under the program to teach the new course in their respective local areas.

"In the next few months nearly 2,000 local government legislators in virtually every area of New York State outside of the city of New York will participate in the course," according to Clark Hamlin, director of the program and senior extension associate at the ILR School.

The program is funded by a grant under the Intergovernmental Personnel Act of 1970 and administered by the U.S. Civil Service Commission through the New York State Office for Local Government.

"The new course is designed to provide the legislator with a working knowledge of the legislative powers which may be used to achieve the objectives of his particular governing board," according to Hamlin. "We hope to help the legislator improve his

skills through which legislative powers are utilized," he said, "and to emphasize the importance of his role in local government."

The course is divided into four two-hour sessions and will consist of small group discussions and exercises in local government problem solving. "Problem examples have been selected from actual governmental problems basic to any local governing board," Hamlin explained. "Each legislator will be given a 'Legislative Guide' and other material specific to his level of local government," he said.

"A successful in-service

training program for newly elected legislators will depend directly upon the initiative and moral support given by the local governments in each area," Hamlin said. "In some counties, local training advisory councils have been established to act as

advisory groups and to aid the instructor in scheduling, promoting and organizing the course for their respective areas," he said.

Further information is available from Carolyn Ellis at Cornell, 256-3015.

## —John McCurdy, 95—

John Clarence McCurdy, professor of agricultural engineering, emeritus, died Monday in Oak Hill Manor. He was 95.

A member of the Cornell faculty since 1912, when he graduated from the University's School of Civil Engineering, McCurdy retired in 1946.

A memorial service will be held at 3 p.m. today in Forest Home Chapel. In lieu of flowers, friends who wish may send memorials to Forest Home Chapel.

## Two Notices To Employees

Recently hired exempt employees are invited to make an appointment with the Office of University Personnel Services for individual consultation and explanation of the University's Fringe Benefits Program, according to Karl Keller, assistant director, and Vivian Collins, administrative aide.

Any exempt employee who has not had such an interview or who has any questions about Cornell's fringe benefit programs or options, may call Keller or Mrs. Collins at 256-4953 for an appointment.

Non-exempt University employees should not be permitted to take University work to be done at home, either during regular work hours or during off-duty time, according to a recent policy decision made by the Personnel Planning and Policy Board.

When special circumstances require work at home, it may be permitted only at the request of the department head and with the prior concurrence of the Office of University Personnel Services. Questions on this policy should be directed to Frederick R. Hodgson, assistant director for wage and salary administration and employment, Personnel Services.

It is difficult to determine the University's obligation under the Fair Labor Standards Act requiring premium payment for overtime hours and requiring maintenance of an accurate record of hours worked, and University liability in the event of injury may also present problems, according to the board.

## Cornell Icemen Defeat Bruins, 3-1

**ONE THAT MISSED** — Cornell's No. 19, George Kuzmich, fires through a bunch of Brownies and has his shot kicked away by Bruin goalie Jim Madich (30) in the first period of last Saturday's 3-1 win over the visitors at Lynah Rink. Others in the picture are Cornell's Bob Peace (16) and Brown's Bob Mars (9) Rich Heimbach (10) and Jack Ahearn (5).

## Recent Judicial Decisions

### Report on Summary Decisions

An organization admitted to possession of stolen property and accepted a written reprimand. The penalty offered was at the minimum because the organization cooperated fully in returning the property, and there was no indication of intent to remain in possession.

Two students admitted to possession of a stolen chair. The summary decision which they both accepted consisted of a written reprimand and a choice of a \$60 fine or 25 hours of acceptable community service.

### University Hearing Board Decisions

A panel of the University Hearing Board found a

student not guilty of a violation of the Campus Code of Conduct which involved an alleged attempt to steal a pen from the Campus Store. The panel found that although the defendant had in fact placed the pen in his pocket inside the pay area, the evidence presented was insufficient to establish his intent to steal. The panel regretted that the witness for the Campus Store was unable to attend the hearing.

Another panel of the Hearing Board found a student not guilty of a violation which involved the alleged theft of several cans of soda from a vending machine. The panel found that the circumstantial evidence was insufficient.

## —Donald W. Alvord, 62—

Donald W. Alvord, 62, died Saturday in his home in King Ferry after a long illness.

Born in Syracuse, he was employed at the Syracuse Herald Journal from 1949 to 1955. He moved to King Ferry and became the editor and publisher of the Southern Cayuga Tribune until 1967. He then worked at the Print Shop at Cornell

until he retired in 1973.

A member of Genoa Lodge F&AM, he was also a member of King Ferry Fire Department, was past president of Cayuga County Firemen's Assn., a charter member of Lakeside Fire Department, Syracuse, and a member, lay leader and trustee of Ledyard United Methodist Church.

## —Myron Hays, 35—

Dr. Myron Hays, 35, died Monday at Tompkins County Hospital after a long illness.

He was on the staff of the Ithaca Clinic for Women, but also served as a consultant to the Cornell University Health Services and was a

lecturer in the New York State College of Human Ecology.

A memorial service was held Wednesday afternoon in Sage Chapel.

## Job Opportunities

*Continued from Page 4*

- Steno I, NP-5 (Agricultural Economics (perm. p/t))
- Department Secretary, A-13 (Program on Policies for Science and Technology in Developing Nations (p/t))
- Steno II, NP-6 (NYSSILR (perm. p/t))
- Administrative Secretary, A-15 (Dining Services (temp. f/t))
- Department Secretary, A-13 (B&P (temp. p/t))
- Steno III, NP-9 (HD & FS (Temp. p/t))
- Telephone Operator, A-11 (B & P Telephone Service)
- Program Aide II, NP-7 (Floriculture and Ornamental Horticulture (temp. f/t))
- Jr. Lab Tech (Neurobiology & Behavior (temp. f/t))
- Lab Tech (Animal Science (temp. f/t))
- Lab. Technologist, A-18 (University Health Services (temp. p/t))
- Research Aide (DMLL (temp. p/t))
- Statistical Clerk (Consumer Economics & Public Policy (temp. p/t))
- Lab Technician II (Food Science (temp. f/t))
- Research Specialist (NYSSILR)
- Library Assistant, A-10 (Library (temp. p/t))
- Library Assistant II, A-12 (Library (temp. p/t))
- Administrative Clerk, A-16 (Investment Office (perm. p/t))
- Production Assistant (Communication Arts/ETV Center (perm. p/t))
- Food Service Worker, A-11 (Dining (perm. p/t))
- Temp. Service Clerk (Human Ecology (temp. p/t))
- Keypunch Operator (Billing (temp. f/t))
- Night Supervisor, A-13 (Library (perm. p/t))
- Research Tech II, NP-10 (Food Science (temp.))

# Bulletin of the Faculty

(Publication of this Bulletin is supervised by the Secretary of the University Faculty Robert M. Cotts, 315 Day Hall, 256-4843)

## Report of the Meeting of the Faculty Council of Representatives

December 12, 1973

At its regular December meeting, the FCR heard a report from Acting Dean of the Faculty R.M. Cotts, Physics, acted on a resolution to add a Faculty member representing the FCR to the University Computing Board (UCB), and considered, but did not act upon, an amendment to the Academic Integrity Code.

The resolution on the UCB was presented by Prof. P.C.T. deBoer, Mechanical and Aerospace Engineering, for the Research Policies Committee. It requested of the Provost the privilege of having a Faculty member representing the FCR on the UCB with voting privileges. (UCB members are appointed by the Provost.) Prof. deBoer noted that the UCB already includes some faculty members but that these members have

no direct relationship with the FCR. In view of important decisions facing UCB over the next few years, he emphasized, there was an important need for better communication between UCB and the FCR. The resolution left the manner of selection of the member to the FCR for its approval. Prof. Cotts requested that there be included with the resolution an understanding of intent to have the Dean of the Faculty recommend to the Provost a Faculty member knowledgeable in computers.

The motion passed by voice vote.

The amendment to the Academic Integrity Code would have authorized the removal of rotations from a student's transcript that he had been placed upon suspension by actions of the Academic Integrity Hearing Board.

Board member Prof. J. Seley, Art, presented the amendment on behalf of the Board. In the course of debate, questions arose concerning the exact nature of the notation placed upon the transcript by the Office of the Registrar. A motion made by Prof. R.H. Elias, English, to return the amendment to the Board for clarification on the notations was passed by voice vote.

Reports of recent FCR Committee activities were made by Prof. Cotts and Prof. W.T. Dean, Law, Chairman of the Executive Committee of the FCR.

Prof. Cotts announced that Prof. W. Lynn, Civil and Environmental Engineering, had been elected Chairman of the Executive Committee for the spring term and summer 1974 to replace Prof. Dean, who is going on leave.

Prof. Cotts also announced that the Research Policies Committee had been engaged in conversations with the University Counsel, N. Stamp, and the Provost, W.D. Cooke, on the nature of the proposed agreement of affiliation between the University, the State of New York, and the Boyce Thompson Research Institute (BTI). While the Committee did not make a full study of the proposed agreement, it did react to sections of the draft dealing with possible research restrictions. The Committee has expressed these concerns to a representative of BTI and to Mr. Stamp. While negotiations in the agreement continue, the Research Policies Committee will be kept informed of the revisions in the draft as they occur.

Prof. Cotts also reported briefly

answering a question raised by Prof. Dean on the COSEP Learning Skills Center at the November FCR meeting.

Prof. Dean described the response of the Executive Committee to the request of President D.R. Corson for faculty response to the proposed 1974-75 budget.

Both the Executive Committee and the Professional and Economic Status Committee prepared reports. The Professional and Economic Status Committee report was sent directly to the President. The Executive Committee reviewed only the discretionary portion of the budget (about \$1.1 million) since there was insufficient time to consider the entire budget, most of which is mandated. Only the endowed budget was discussed. Executive Committee members submitted individual responses to the proposed plans for the discretionary portion. Two items, (1) Libraries and Museums and (2) Postponed Maintenance, were priority items which stood high on the majority of Executive Committee members' lists.

These priorities, noted Prof. Dean, were reported to President Corson. The Committee also stressed the need for a Faculty Committee to be prepared to work with the President's staff with long enough lead time to make a real contribution to budget planning. It was announced that the University Faculty Review and Procedures Committee would study and report on the formation of such a committee.

The meeting adjourned at 5:30 p.m.

## Statistics Released on 1973-74 Faculty Salaries

Cornell University yesterday released its faculty salary statistics for the 1973-74 fiscal year.

The figures, covering 1,547 faculty members, were released by Vice Provost Robert F. Risley. The statistics cover all faculty including professors, associate professors, assistant professors, lecturers and instructors in all the endowed and statutory units on the Ithaca campus of Cornell.

In addition to overall totals, a mean salary for each faculty category is reported as well as a figure that is termed "mean compensation," that is salary plus fringe benefits. The report is also broken down into 9-month or 12-month faculty appointment categories.

The standardized format was adopted with the 1972-73 figures, Risley said, to provide uniform and coordinated responses to various agencies such as the American Association of University Professors (AAUP) which request faculty salary data each year. "Unfortunately," Risley said, "each request or salary survey has its own format and special requirements which make completion extremely laborious and expensive. Therefore, it was decided last year to standardize the data format which would be distributed to each legitimate requestor of faculty salary data."

The standardized Cornell format, Risley pointed out,

follows the guidelines of the Higher Education General Information Survey (HEGIS). The HEGIS guidelines were the format used by the University in the past for submission of data to the New York State Education Department and the U.S. Office of Education.

The 1972-73 faculty statistics were released in mid-January. (They appeared in the January 18, 1973 issue of Cornell Chronicle.)

The population of the 1973-74 survey is composed of all full-time faculty at the rank of professor, associate professor, assistant professor, instructor, or lecturer. Faculty on sabbatical leave at the regular salary for full-time appointment are included even though the faculty member may be receiving a reduced salary while on leave. Those individuals in acting professorial ranks are included. Deans and visiting professors are excluded. Faculty members with dual ranks, such as department chairmen, director, etc., are included.

The sample is based on those faculty members in the 1973-74 budget as of October, 1973.

Fringe benefits included are: 1. retirement plans, 2. hospitalization, surgical and medical plans, 3. guaranteed disability income projection, 4. tuition plan (Cornell Children's Tuition Scholarship), 5. Social Security taxes (employers' portion), 6. unemployment insurance, and 8. workmen's compensation taxes, 7. group life compensation.

FACULTY SALARIES 1973-1974 Twelve Month Appointments					
	Professor	Assoc. Professor	Ass't Professor	Instructor	Lecturer
<b>ENDOWED</b>

\*Statutory Colleges include the New York State Experiment Station at Geneva.

Definitions used are: a) Endowed Faculty, which includes members of the following college facilities: College of Architecture, Art and Planning, College of Arts and Sciences, Graduate School of Business & Public Administration, College of Engineering, Graduate School, School of Hotel Administration, Law School, and Graduate School of Nutrition. b) Statutory Faculty, which includes members of the following college facilities: N.Y.S. College of Agriculture and Life Sciences (including the New York State Experiment Station at Geneva), N.Y.S. College of Human Ecology, N.Y.S. School of Industrial and Labor Relations, N.Y.S. Veterinary College and the Graduate School of Nutrition. (Faculty members of the Graduate School of Nutrition reside in both endowed and statutory divisions.) c) Compensation — 1) Salary: Amount of salary for regular appointment, (i.e. does not include summer salaries for 9 mo. appointments), including full salary even though a faculty member may be on leave at a partial rate. 2) Fringe Benefits: The amount allocated to the faculty for the University's portion of the cost of each fringe benefit. 3) Total Compensation: The sum of salaries and fringe benefits.

# The Senate Page

The Senate Page is the official bulletin of the Cornell University Senate. Publication is supervised by Michael E. Fisher, secretary of the Senate, 133 Day Hall, 256-3715.

**NEXT SENATE MEETING: Tuesday, Jan. 29, 7:30 p.m., Kaufmann Aud.**

Senate Calendar		Housing Subcommittee, noon.	Executive Committee, 4:45 p.m., Senate Office.

BILL NO. & DATE SUB.	TITLE AND ABSTRACT	SPONSOR	COMMITTEE REFERRED TO
D-122 12/3/73	ALTERNATIVE TRANSCRIPT ACT [An act that will permit students to order transcripts of their course work to have "P" listed for courses that they passed and "F" listed for courses that they failed and that will permit students to request that no cumulative point averages be recorded on their transcripts.]	Frederick Schlaugh	Committee on Academics
D-123 12/3/73	A BYLAW AMENDMENT TO PREVENT FIASCOS SUCH AS THAT WHICH OCCURRED ON NOVEMBER 27, 1973 [This act amends the Bylaws to provide for a "Call of the House" when quorum is lost. It also creates two new standing rules of order pertaining to quorum loss.]	Hernandez, Magdovitz, Bohdan, Andrews, R. Meyer	Executive Committee
D-124 12/4/73	THE ENERGY CRISIS ACT [A bill encouraging more efficient use of fuel.]	Phil D. Hernandez	Campus Planning
D-125 12/6/73	NON-SMOKERS RELIEF ACT [An Act to regulate smoking in campus facilities.]	N. Haber, R. Alexander	Campus Life Comm.
D-126 12/7/73	"RAY MINELLA'S FRIENDS SURVIVAL ACT" [Limits smoking in Dining areas.]	Bruce Preston	Campus Life Comm.

## Promotions

Arletta Havlik, Mathematics, Department Secretary - Administrative Secretary.

Vincent Mikulec, General Stores, Storekeeper II - Storekeeper III.

Garold Homer, General Stores, Storekeeper II - Storekeeper III.

Edward Mente, General Stores, Storekeeper II - Storekeeper III.

Jose Alavarrria, Arcicibo, Guard I - Guard II.

Donald Kannus, Technical Services (transfer from Campus Store), Business Machines Mechanic I - Senior Technician.

Gladys Gonzalez, Arcicibo, Secretary I - Secretary II.

Mary Perks, PA Education Program (transfer from Engineering), Administrative Secretary - Senior Administrative Secretary.

Manuel Lozada, Arcicibo, Janitor I - Laborer I.

Jeanette Bush, General Services, Head Account Clerk - Chief Account Clerk.

Earl Hartman, Buildings and Properties, Engineering Aide - Design Assistant.

Robert Russler, Buildings and Properties, Draftsman - Design Assistant.

Allen Snyder, Buildings and Properties, Architectural Draftsman - Design Assistant.

John Riley, Animal Science, Experimental Feeder - Mechanical Maintenance Man.

Debra Lucas, Purchasing, Account Clerk - Senior Clerk.

Rita Reissig, Geneva, Stenographer - Administrative Secretary.

Betty Baldwin, Veterinary Medicine, Temporary Service Technician - Laboratory Technician II.

David Bessel, Computer Services, Systems Analyst and Lead Programmer - User Services Manager.

Sophie Newhart, Architecture, Administrative Aide I - Administrative Aide II.

Donna Wik, Architecture, Administrative Secretary - Senior Administrative Secretary.

Glenn Burgess, Physical Education and Athletics, Issue Clerk - Stockkeeper III.

Patricia Adamski, Admissions Records, Senior Clerk - Data Clerk.

Timothy J. McCarthy, Housing, Custodian - Mechanic I.

Carol Locke, Personnel Services, Principal Clerk - Programmer I.

Constance Greene, COSEP, Administrative Secretary - Acting Tutorial Coordinator.

M. Marie Tome, Veterinary Medicine, Temporary Service Clerk - Records Clerk II.

Patricia L. Olender, Veterinary Medicine (transfer from Biological Sciences), Visual Aids Technician - Laboratory Technician II.

Michaelyn Bush, University Press (transfer from Affirmative Action Office), Clerk - Department Secretary.

Mark Westoby, Entomology, Research Technician - Technical Aide I.

Ann Calkins, Sociology, Administrative Aide I - Administrative Aide II.

Estelle McEligot, Registrar, Clerk - Senior Account Clerk.

Doris Ackerman, General Services, Administrative Secretary - Administrative Aide I.

Barbara Darby, A and EP, Department Secretary - Administrative Secretary.

Geraldine Lindley, Travel Office, Senior Clerk - Senior Data Clerk.

Donna Vrana, Center for Urban Development Research, Administrative Secretary - Administrative Clerk.

Josephine Bell, Academic Funding, Administrative Secretary - Administrative Clerk.

Robert Cowles, Computer Services, Systems Programmer - Systems Maintenance Chief.

Sophie Capolongo, Academic Funding, Administrative Secretary - Administrative Clerk.

Merritt Hartz, Buildings and Properties, Supervisor Air Conditioning and Refrigeration and Chilled Watered Plant - Superintendent Utilities Division.

Maurice Harris, Buildings and Properties, Superintendent Utilities Division - Chief Plant Operator.

Richard Pastore, Computer Services, Operator I - Operator II.

Richard Hand, Animal Science, Dairyman - Experimental Feeder.

David Gager, Veterinary Medicine, Laboratory Technician I - Laboratory Technician II.

Vernon Underwood, Safety Division (transfer from Dining), Vending Serviceman - Patrolman.

Linda Scraftford, Agronomy, Laboratory Assistant - Laboratory Technician I.

Judith Pendleton, Agricultural Economics, Stenographer II - Stenographer III.

Cheryl Cristofaro, Personnel Services, Records Clerk - Senior Clerk.

Lynda Marshall, Admissions, Assistant Director Admissions - Assistant to the Director.

Kathrynne Teeter, Laboratory Nuclear Studies, Senior Account Clerk - Chief Account Clerk.

Sarah Floros, SR and F (transfer from OCS), Senior Key Punch Operator - Terminal Computer Operator.

Thomas Roach, Animal Science, Laborer - Dairyman I.

Linda M. Heslink, Veterinary Medicine, Temporary Service Technician - Clinic Assistant.

Regula Boothroyd, Chemistry, Department Secretary - Administrative Secretary.

Ottillie Rivenburgh, Communication Arts (transfer from Housing), Custodian - Mail Clerk.

Raymond Sutphin, Buildings and Properties, Architectural Draftsman - Design Assistant.

## Bulletin Board

### Harpsichordist to Play Bach Work

Alexander Skeaping, one of England's leading young harpsichordists, will play the Goldberg Variations of J.S. Bach in recital at 8:15 p.m. tomorrow in Barnes Hall Auditorium.

Born in 1944, Skeaping began his musical education at the age of five. Later, he studied piano with Gordon McLean in London, England, and in Regina, Sask., Canada, where he also studied harpsichord with Ruth Dyson.

Skeaping performed throughout Canada on a Young Artists fellowship before making his solo debut at the Purcell Room in London in 1971.

### Christmas Celebration at Sage Chapel

There will be an ecumenical Christmas celebration with carol singing, dance and a consideration of the meaning of Christmas at 11 a.m. Sunday at Sage Chapel.

The Rev. O'Kelly Lawson, pastor of the Ebenezer Baptist Church in Wilmington, N.C., will be the Dean Sage Speaker for this week. His topic will be "A Greater Than Solomon."

Carols, dances and readings will be presented by students from the New Life Community of the Wesley Foundation and the United Ministries Council at Cornell.

Special music will be provided by Pamoja Ni, a choral group of black students from the Cornell community, directed by Mary Pegrarn.

### 'Food Facts' Course Open to Public

"Food Facts and Fads," a course at the New York State College of Agriculture and Life Sciences at Cornell that is open to the public, will focus this spring on giving practical information to the consumer.

"It is hoped that the lecture material will aid in the search for the 'best food buys,'" according to Frank Shipe, professor of food science.

The lectures, which start Jan. 29, will be given on Tuesdays at 7:30 p.m. in Uris Hall Auditorium. Various lectures will discuss "How to Use Nutritional Labels" and facts the consumer should know about dairy products, poultry, red meat, fish products, cereals, legumes, vegetables, fruits and nuts.

Students who wish to take the course for credit should contact Shipe before Jan. 29.

### Directed Study During Intersession

There will be an opportunity again this year for students to register for credit in directed study or field research courses during the intersession period of Jan. 7-25.

Individuals interested in earning credit during intersession for directed study or special projects may be able to do so in the following way:

1. Find a faculty member who is willing to sponsor and evaluate your work in the particular project or course in which you would like to work.
2. Obtain a special form from the office of the Division of Summer Session and Extramural Courses, 105 Day Hall. The form must be filled out by the student and signed by the faculty sponsor.
3. Return the completed form to the Summer Session and Extramural Division, 105 Day Hall, and complete registration and fill out registration materials. This must be done on or before Jan. 7. Tuition is \$80 per credit hour plus a \$5 per week general fee. Maximum credit permissible is four hours.

### International Wives to Hold Party

The International Wives Friendship Club will hold its annual Christmas decoration-making party from 7:30 to 10 p.m. today in the One World Room of Anabel Taylor Hall.

All women in the Cornell and Ithaca communities interested in learning how to make unique Christmas decorations are invited to attend. The 75-cent admission fee will cover the cost of materials. Refreshments will be served directly following the meeting.

For more information, call Jyoti Khare, 257-2190, or Julie Crepeau, 273-5339.

### NSF Sponsors Education Programs

Preliminary proposals from faculty members are now being accepted for two new National Science Foundation (NSF) programs dealing with education. The NSF Alternatives in Higher Education program is intended to create systems and materials that accommodate the variations in students' abilities, interests and mobilities, while preparing them for a wide range of science and technology-based societal roles.

The NSF Educational Program Restructuring is aimed at improving effectiveness in science education. NSF will provide support to assist in the design, development and evaluation of a few major experimental models of new approaches to the organization, management, delivery and content of science education. Further information on both programs is available from the Office of Academic Funding, 123 Day Hall.

## Retirements

Velma Andrews, Housing, Employed September 3, 1963 - Retiring September 21, 1973.

Helen B. Wright, Dining, Employed September 1, 1941 - Retiring September 7, 1973.

# Calendar

## December 13-20

### Thursday, December 13

Final examinations begin.

8 p.m. \*Cornell Cinema Film: *Gentlemen Prefer Blondes*, with Marilyn Monroe. Directed by Howard Hawks. Willard Straight Theatre. Attendance limited to Cornell community.

### Friday, December 14

7 & 9:15 p.m. \*Cornell Cinema Film: *The Graduate*, starring Dustin Hoffman, directed by Mike Nichols. Statler Auditorium. Attendance limited to Cornell community.

7 & 9:15 p.m. \*Cornell Cinema Film: *Super Fly*, directed by Gordon Parks Jr. Attendance limited to Cornell community. Uris Auditorium.

8:15 p.m. Music Dept. Concert: Alexander Skeaping, harpsichord. Bach's Goldberg Variations. Barnes Hall.

### Saturday, December 15

7 & 9:15 p.m. \*Cornell Cinema Film: *The Graduate*, starring Dustin Hoffman, directed by Mike Nichols. Statler Auditorium. Attendance limited to Cornell community.

7 & 9:15 p.m. \*Cornell Cinema Film: *Super Fly*, directed by Gordon Parks Jr. Attendance limited to Cornell community. Uris Auditorium.

9 p.m. Cornell Catholic Community, Pre-Christmas Celebration. Party begins at 9 p.m., Mass at 11:30. One World Room, Anabel Taylor Hall.

### Sunday, December 16

9:30 a.m. Episcopal Church at Cornell. Anabel Taylor Chapel. All are welcome.

10 a.m. Friends (Quaker) Meeting for Worship and First Day School. Anabel Taylor Forum. Discussion following worship. All are welcome.

10:30 a.m. Ruhani Satsang, Sat-Guru Kirpal Singh's Divine Science of the Soul. Loft II, Willard Straight Hall.

11 a.m. Sage Chapel Convocation. Ecumenical Christmas Service. The Rev. O'Kelly Lawson, Wilmington, N.C., presiding.

7 p.m. Table Tennis Competition. Beginners welcome. Barton Hall.

8 p.m. \*Cornell Cinema Film: *This Island Earth*, a science fiction classic. Willard Straight Theatre. Attendance limited to Cornell Community.

### Monday, December 17

8 p.m. \*Cornell Cinema Film: *Oh, What a Lovely War*, with Laurence Olivier, Vanessa Redgrave, John Mills. Willard Straight Theatre. Open to Film Club members only.

### Tuesday, December 18

4:30 p.m. Dept. of Geological Sciences Seminar: "Continental Reconstruction for the Past 100 Million Years From Hot Spots" by Dr. Jason Morgan, Dept. of Geological and Geophysical Sciences, Princeton University. 212 Kimball Hall, coffee at 4 p.m.

8 p.m. \*Cornell Cinema Film: *Hail, the Conquering Hero* directed by Preston Sturges. Willard Straight Theatre. Attendance limited to Cornell community.

### Wednesday, December 19

Exam for Summer Jobs in Federal Agencies deadlines: Dec. 28 for the Feb. 9 exam, Jan. 25 for the March 9 exam. Applications are available at the Career Center.

## Barton Blotter

### Apparent Arson Attempt Thwarted

An effort to set fire to a pickup truck belonging to the College of Engineering highlighted an otherwise long list of petit larcenies in this week's Safety Division morning reports.

Last Friday, unknown persons set fire to a rag stuffed in the gasoline fill pipe of the truck, which was parked in the Hollister Hall lot. The fire was extinguished.

Among the items on this week's stolen list are an oscillator from a room in Rockefeller Hall, a coat from the hallway of Sage Infirmary, a

bicycle which had been left secured by the southeast corner of Noyes Center, a coat from the basement of Sage Chapel, a purse and wallet containing \$5 from the basement of Sage Chapel.

Also, three Simpson multi-meters from Rockefeller Hall, a textbook and notebook from a table in Plant Science, a desk telephone and lounge chair from the main lobby of Mary Donlon Hall, a settee from the first-floor lounge at Risley Hall, two body suits from the ladies bathroom on the first floor of North

Campus Dorm 1, a 35mm Pentax camera from a closet in the cloak room of Sage Chapel, three purses and a man's coat belonging to members of the Cornell Choir from a coatrack outside the One World Room of Anabel Taylor Hall, and four coffee tables from the same place.

A burglary was reported at the grounds shop of Moakley Golf Course, where someone broke a window to enter the building and rummaged through lockers and supply cabinets but apparently stole nothing.

## Levin Named Arts College Dean

Continued from Page 1

Department of Psychology in the College of Arts and Sciences from 1966 until this summer.

Levin is co-author of "Patterns in Child Rearing," "Pride and Shame in Children" and many articles. He was director of Project Literacy, a Cornell research effort through which the relation between reading and learning and the development of new curricula for teaching reading to adults and children are being studied. Project Literacy was conducted through 1968 under a grant from the U.S. Office of Education. Analysis of the data collected has been going on since then and is

expected to continue through the next year or so.

He was educated at the University of Maryland where he received his bachelor of arts degree in 1948, after an interruption of two years when he served in the armed forces. He did his graduate work at the University of Michigan, where he earned a master of arts degree in 1949 and a doctor of philosophy degree in 1951. He taught at Harvard University before coming to Cornell.

Levin has been honored with awards and grants by the Social Science Research Council, the Public Health Service, the U.S. Office of Education, and the National Science Foundation.
