

Tom Quigley, an Orientation Counselor, is prepared to deal with almost any problem.

Innovations Help Smooth New-Student Orientation

For some 2,700 incoming freshmen, 825 transfers and 1,100 graduate students arriving this week, Cornell University will be a very unfamiliar institution offering daily challenges such as "How do I register?" and "Where is Mann Library?" The simplest tasks such as getting a meal on campus will take more effort this week than, hopefully, at anytime in the incoming student's future.

Help with these logistical questions, as well as with the personal issues raised when a student comes to a new institution are being dealt with through "Orientation 1975," a week-long program of activities which began Sunday, Aug. 24, and will run through Sunday, Aug. 31.

A comprehensive handbook also titled "Orientation 1975" lists all activities for incoming students such as test dates, registration schedules, convocations, religious services and meetings with University faculty and administrators. The free handbooks are available at Barnes Hall and some residence halls.

Changes in this year's orien-

tation program from past years include efforts to increase the role of the orientation counselors, according to Connie Murray, assistant dean of students responsible for orientation programming in conjunction with the New Student Orientation Steering Committee.

In groups of approximately 25, all freshmen were assigned an orientation counselor "OC" to help familiarize them with Cornell, Murray said. Approximately 125 OCs working this week attended training sessions last spring. They will assume additional responsibilities this week such as procuring their advisees' registration materials to smooth out some of the red tape freshmen might confront, she said.

Other new programming includes a "Women's Convocation" at 2 p.m. Sunday, Aug. 31, in Uris Hall Auditorium titled "What's for Women at Cornell?" Associate dean of students Ruth W. Darling will moderate the convocation's panel of University women representing various areas of campus life. The panelists are:

Carol Skinner, mental health; Judith Zoble Kostrin, athletics; June Fessenden-Raden, undergraduate education; LaVerne Rolle, the student viewpoint; Jennie Farley, women's studies, Allison Lurie, Arts, and Charlotte Shea, Career Center. The convocation was planned, Murray said, to emphasize the many opportunities for women in leadership actions at Cornell.

Provost David C. Knapp addressed the President's Convocation for Parents on Monday afternoon. Yesterday, President Dale R. Corson addressed the President's Convocation for Students. Both convocations were held in Bailey Hall and included remarks by other University administrators and officials involved in campus affairs and the Cornell University Senate.

The overall diversity of Orientation Week's activities is manifested in today's schedule, which consists of, in part: Career Center open house; Olin Graduate Library tours; new student registration; Catholic mass; an informal get-together for graduate students; health

Procedures Explained

Students Register Today, Tomorrow

More than 16,000 undergraduate and graduate students will register today and tomorrow for the 1975 fall term at Cornell.

As in past years, the New York State College of Agriculture and Life Sciences, the College of Arts and Sciences, the Graduate School, the School of Hotel Administration, the New York State College of Human Ecology and the New York State School of Industrial and Labor Relations will conduct registration in Barton Hall. Students in other divisions of the University will register at their individual school and college offices.

New students will register today while continuing and re-joining students will register tomorrow. All students will register at the time and location indicated in their registration material.

Students who have not yet picked up their registration material should do so today in Lynah Rink between 8:30 a.m. and 4 p.m. or tomorrow between 8:30 a.m. and 3 p.m. No registration material will be distributed beyond 3 p.m. tomorrow. Late registration (accompanied by a \$10 late re-

gistration fee) will begin at 8 a.m. Monday in the Registrar's Office, 222 Day Hall.

Registration Procedure

The registration procedure can be completed in approximately 15 minutes, according to the Registrar's Office. The procedure is as follows:

1. Students pick up registration material and then report to motor vehicle registration in Lynah Rink.
2. All registration material is to be completed prior to reporting to register.
3. Students report to register at the assigned time and the location indicated in their registration material.
4. Certain data processing cards, a biographical update form and a matriculant slip (new students only) will be collected at the registration tables. Specific cards are returned to the student with appropriate instructions.
5. Students registering in Barton Hall then report to their school or college tables to complete registration with their division.
6. Any new students who have not yet had their I.D. picture taken should report to the I.D. picture tables (in Barton

Hall) to complete this requirement after completing registration.

7. Students interested in ROTC should report to ROTC stations.

8. Male students required to take Physical Education should report to Teagle Hall following registration.

Women in the Colleges of Arts and Sciences and of Engineering taking P.E. should report to Helen Newman Hall between Sept. 2 and 5 to obtain P.E. assignments. Assignments for all other women will appear on course schedules. Any changes should be made at Helen Newman Hall.

Matriculants

All new students must com-

plete a Matriculant Slip. The slip is part of the registration material received by every new student and is to be completed and turned in at registration.

Any new student who does not receive a Matriculant Slip should report to the Registrar's Office, 222 Day Hall.

Temporary Registration

A student who does not have a set of permanent registration material for any reason prior to registration day should obtain temporary registration material at the Registrar's Office.

There will be a special table in Barton Hall for all students registering with temporary registration material.

All temporarily registered

students must return to Barton Hall on Friday, Sept. 5, between 8 a.m. and 4 p.m. to receive their permanent registration material and complete registration. Any temporarily registered student who fails to complete his registration on Sept. 5 is not an officially registered student beyond that date.

Any student designated to complete registration on Friday, Sept. 5, who fails to do so is subject to a \$10 late registration fee.

Late Registration

Students registering after their appointed day of registration shall be required to pay a \$10 late registration fee before being permitted to register. All late registration will be conducted in the Registrar's Office beginning Monday, Sept. 1, at 8 a.m.

If late registration is necessitated for reasons beyond a student's control the student may obtain a Petition for Refund when registering. Petitions should be submitted to the Registrar's Office. The petitions are reviewed shortly after the beginning of the term and all students are notified by

Continued on Page 6

Senate Plans Reception To Welcome New Students

The Cornell University Senate will be host to a reception for new students from 7:30 p.m. to 9:30 p.m. Wednesday, Sept. 3, in the third floor lounge of Noyes Center. Beer and soft drinks will be served. In addition to University Senators the University president and provost will be on hand to welcome the new students. It is an opportunity to learn about the Senate and how to participate in its work.

Early-Warning System Set

Economic Trends Watched

Cornell Trustees had their first look in July at a new "early-warning system," designed to alert the University president to trends which may affect the economic future of the University.

Monthly "indicators" prepared by the Division of Management Systems and Analysis were presented to the Executive Committee of the trustees, meeting in New York City.

The indicators are in line with one of the recommendations of the Trustee Ad Hoc Committee on Financial Planning, under the chairmanship of Trustee Stephen H. Weiss.

These indicators include student data, personnel data and financial data.

In the student data category

are such indices as applications by college, admissions rate of freshmen and transfers by college, acceptance rate of admitted students with composite SAT (Scholastic Aptitude Test) scores of 1400 or greater, undergraduate transcripts sent to undergraduate institutions and business, refunds of spring housing deposits, financial aid applications, academic majors, accessory instruction, extramural courses taken, admissions withdrawals, financial status of applicants, stop-outs and rejoins, average qualification test scores of applicants by colleges.

Personnel data includes job vacancies, course load computation by college and department, employee count, turnover

ratio and age distribution of employees.

Financial data includes sources of research funds, gifts by type, the University's income-expense situation, market value of securities, utility costs and energy consumption, economic indices, aging of student receivables, salary recovery on research contracts, fund balances by category and student loan funds delinquency.

All of these indices, which will be prepared on a monthly basis, are intended to give early indications of potential good or bad financial consequences, in time so that the University can take measures to overcome problems, according to Samuel A. Lawrence, vice president for administration.

Gifts to Cornell Highest Yet

In a year of recession and downward economic trends, gifts to the 1974-75 Cornell Fund reached \$4,012,388, the all-time high total for Cornell University's annual campaign for unrestricted gifts from alumni.

This year's Cornell Fund

drive, which closed on June 30, finished about \$100,000 ahead of its 1973-74 total.

"This record achievement reflects not only the extraordinary efforts our volunteers put into the campaign, but also the extraordinary loyalty and dedication of

Cornell's alumni and friends," said Austin H. Kiplinger '39, chairman of the Cornell Fund.

"It is particularly gratifying that this level of support was achieved in a 'down' year, in a year when Cornell really needs it," he added. Most of the money raised by the Cornell Fund is applied directly to the operating expenses of the University.

Contained within the Cornell Fund are several "member" funds. Of these, the Cornell Parents Fund scored the highest percentage gain, rising from \$41,192 in 1973-74 to \$53,942 this year, or 31 per cent. The Law School Fund increased seven per cent over its 1973-74 figure, totaling \$283,751 for 1974-75.

Two Cornell classes — 1928 and 1950 — reached the \$1 million mark in total class donations to the University during this year's Cornell Fund drive. These classes were honored at a special Million Dollar Reception held during Alumni Reunion in June, and they became the 11th and 12th classes to earn inscriptions on the Million Dollar Class Trophy.

The Class of 1950 is the first class to achieve the million dollar distinction within 25 years of graduation.

Another important component of the Cornell fund's success this year, according to Fund Director Robert B. Rasmussen, was the Ithaca Phonathon conducted in February. More than 145 volunteers — the majority of whom were Cornell students — spent nine nights telephoning Upstate New York alumni obtaining pledges of more than \$52,000 — a 17 per cent increase over the previous year's total.

"One of Cornell's greatest strengths — and testimonials — is the willingness of her students and alumni to work long hours on her behalf," Rasmussen said. "This kind of a commitment to the University is truly inspiring, particularly now when private universities are faced with so many problems and uncertainties."

Merger Clarifies Functions In Engineering School

The Executive Committee of the Board of Trustees at its July meeting approved the merger of the Department of Operations Research and the School of Industrial Engineering and Operations Research in the College of Engineering into a new School of Operations Research and Industrial Engineering effective immediately.

Robert E. Bechhofer, professor and chairman of the former department, was elected director of the school for a term expiring June 30, 1977.

William L. Maxwell, professor in the former department, was elected associate director of the school for the same term.

Before the merger the former School of Industrial Engineering and Operations Research had had jurisdiction over curriculum matters, but the faculty had operated within the Department of Operations Research. The overlapping titles of the separate units did not clearly define their functions and organization.

CIVITAS Channels CU Volunteers to Community

Over the years CIVITAS, the Cornell volunteer program, has helped draw together and channel the human resources of the University in support of the community. Working closely with the Voluntary Action Center (VAC) of Tompkins County, CIVITAS identifies volunteer needs of community service organizations and schools. It seeks to enlist, train, and place student volunteers in response to those needs.

Through CIVITAS and VAC, students will find an opportunity to become involved in the larger community, gain new experiences, and help others in need. Students may initiate their own projects within an organization's framework or assist within an already planned program. Requirements for academic courses can sometimes be met more easily with the help of CIVITAS or VAC.

CIVITAS is now launching its projects for 1975-76 and will be signing up interested students for the next several weeks. During the school year community requests for volunteers will be published weekly in the Cornell Chronicle and the Cornell Sun. The CIVITAS Coordinator, Mary McGinnis, 320 Anabel Taylor Hall, and VAC's Coordinator, Jan Zahler, 201 W. Clinton St., will help potential volunteers find where their skills, interests, and experience can be used most effectively. Phone 256-7513 or 256-4214 from 10 a.m. to 2 p.m., Monday through Friday; or 272-9411, 9 a.m. to 4:30 p.m., Monday through Friday and 9 a.m. to 1 p.m. on Saturday.

Job Opportunities At Cornell University

The following are regular continuing full-time positions unless otherwise specified. For information about these positions, contact the Personnel Department B-12, Ives Hall. Please do not inquire at individual departments until you have contacted Personnel. An Equal Opportunity Employer.

Individuals in lay-off status will be given preference in referrals.

POSITION (DEPARTMENT)

- Administrative Aide I, A-18 (Secretary of the Corp. (sh))
- Administrative Aide I, A-18 (Engr. Admissions)
- Administrative Aide I, A-18 (LASSP)
- Administrative Aide I, NP-11 (NYC) (NYSSILR)
- Secretary-Steno, NP-10 (NYC) (NYSSILR (sh))
- Administrative Secretary, NP-8 (Food Science)
- Administrative Secretary, NP-8 (Animal Science)
- Administrative Secretary, NP-8 (Coop. Ext. Administration)
- Administrative Secretary, NP-8 (Community Service Ed. (1 yr))
- Sr. Administrative Secretary, A-17 (Ofc. of Univ. Counsel (sh))
- Sr. Administrative Secretary, A-17 (V.P. Planning & Facilities)
- Administrative Secretary, A-15 (2) (Chemistry)
- Administrative Secretary, A-15 (NAIC)
- Administrative Secretary, A-15 (CRSR)
- Department Secretary, A-13 (A&S Dean's Office)
- Department Secretary, A-13 (2) (Psychology (9 month))
- Department Secretary, A-13 (Music (10 month))
- Department Secretary, A-13 (Electrical Engineering)
- Department Secretary, A-13 (Civil & Environmental Engr.)
- Department Secretary, A-13 (Law School (sh))
- Department Secretary, A-13 (2) (Law School)
- Department Secretary, A-13 (Operations Research)
- Department Secretary, A-13 (Sociology)
- Department Secretary, A-13 (Development)
- Department Secretary, A-13 (Government)
- Appointment Secretary (Arts & Sci. Admissions)
- Steno II, NP-6 (Education (sh))
- Steno II, NP-6 (Div. of Nutritional Sciences)
- Steno II, NP-6 (Vet. Diagnostic Lab (sh))
- Steno II, NP-6 (Coop. Extension Administration)
- Steno I, NP-5 (Media Services)
- Steno I, NP-5 (Agricultural Economics)
- Manuscript Arranger I, A-13 (Univ. Libraries, Manuscript and Archives (1 year))
- Library Assistant II, A-12 (University Libraries - Engineering)
- Library Assistant II, A-12 (University Libraries - Olin)
- Library Assistant, A-15 (University Libraries - Law)
- Searcher II, A-15 (Univ. Libraries, Acquisitions (Germanic/Romance))
- Searcher II, A-15 (Univ. Libraries (Spanish))
- Searcher I, A-13 (Univ. Lib. - Acquisitions (Romance/Germanic))
- Library Assistant II, NP-5 (Vet Library)
- Administrative Clerk, A-16 (College of AAP, Dept. of City & Regional Planning (sh))
- Data Clerk, A-13 (Admissions Office)
- Clerk I, NP-3 (Div. of Academic Services)
- Nurses' Aide, A-11 (2) (Health Services (9 month))
- Sr. Key punch Operator, A-13 (Computer Services)
- Library Assistant II, A-12 (University Libraries - Uris)
- Library Assistant I, A-10 (University Libraries - Serials)
- Senior Clerk, A-12 (University Libraries - Acquisitions)
- Administrative Aide II, CP01 (College of Architecture)
- Sr. Systems Programmer, CP06 (Office of Computer Services)
- Systems Programmer I, CP03 (Computer Graphics)
- Broadcast Engineer I (ETV Center, Media Services)
- Research Associate II, CP04 (STS Program (2 yrs))
- Supervisor, Technical Serv., CP04 (Theoretical & Applied Mech.)
- Research Associate (2) (Education (1 year))
- Research Specialist (Education (1 year))
- Assistant Director, Engineering Admissions & Transfer Counselor, CP03 (Engineering Admissions)
- Director of Regional Offices, CP07 (Public Affairs)
- Cooperative Extension Spec. NS (Cooperative Extension - Voorheesville)
- Cooperative Extension Spec. NS (Cooperative Extension - Chazy)
- Assistant Librarian, CP02 (Univ. Libraries - Sc. Catalog)
- Assistant Librarian, CP02 (Univ. Libraries - Rare Books/Olin (9 month))
- Assistant Librarian, CP02 (Univ. Libraries - Uris)
- Manager, Staffing Services, CP06 (Personnel)
- Asst. Dean & Director of Admissions (Law School)

Straight Dining Remodeled

The extensive remodeling and modernization of the dining facilities in Willard Straight Hall this summer could be considered a joint archeological-anthropological-sociological-artistic-gastronomic-economic effort to create instant tradition.

Nonsense? See for yourself. The facilities opened to the Cornell community for the fall term Sunday, Aug. 24.

Archeologically speaking, an observant Cornellian will notice in various corners of the remodeled cafeteria area, now named Okenshields, chiseled stone window casings, walls and even a staircase that look like they have been there since the building was built, and they have. However, they have been covered with white plaster or hidden in storage rooms during much of the building's 50-year history. Of course, incoming freshmen will assume that the way it is now is the way it has always been. Not quite instant tradition. But certainly instantaneous old atmosphere which is also reflected in the extensive use of oak trim and furniture consistent with the collegiate Gothic decor throughout Willard Straight.

This all means that after 50 years the renovations this summer have succeeded in getting these names, symbols, places and memories logically integrated, a sort of instant tradition.

The renovated cafeteria area is filled with examples of applied sociology even to its name, "Okenshields," taken from the trilogy "The Lord of the Rings." Replacing the long impersonal lines of tables of the past are clusters of tables and booths more conducive to mealtime dialogue, enhanced by noise-dampening red carpet and noise-absorbing ceiling grids and buffer walls. As a result, the private dining atmosphere previously available in the old Elmhurst and Kimball Rooms, largely used by the faculty and staff in the past, has been extended throughout the cafeteria area. While the Elmhurst and Kimball Rooms have been taken over to accommodate the addition of 150 more seats, increasing the

Okenshields, the remodeled cafeteria area, features chiseled stone window casings, sound absorbing carpet and ceiling and oak trim and furniture.

seating capacity to 548, the functions of these rooms for private dining groups is still possible through the new configuration of Okenshields, a kind of egalitarian elitism.

Based on past experience in the eating industry and the Ivy Room, the tedious procedure of passing through a single cafeteria line to obtain food has been replaced by the scramble system. This means everyone enters the food dispensing area at a central point then goes directly to the counter with the particular food item

wanted. According to Maureen Updike, manager of Straight dining, this apparently chaotic approach to cafeteria food dispensing has proved faster and more efficient than the old single line system — particularly after one gets used to its intricacies of gentle shoves, soft smiles and subtle maneuvers.

The completely modernized kitchen facilities, including a tripling of refrigeration space and installation of the latest cooking apparatus, has made it possible to present a much-expanded selection of foods.

For example, there will be five entrees to choose from each day instead of only two as in the past. Most of the renovation involved kitchen and food-dispensing facilities.

The gastronomic and artistic success of the entire effort, of course, is a matter of personal taste and is closely tied to its economic meaning. The project cost \$1.5 million and was undertaken to provide an efficient, attractive, and economic dining facility designed to contribute to the overall atmosphere of the Cornell com-

munity, according to Jack Pacak, marketing manager of dining services.

Okenshields is open Monday through Saturday for breakfast from 7:15 to 11 a.m.; for lunch from 11 a.m. to 2 p.m. and for dinner from 5 to 7 p.m. On Sunday the schedule is breakfast at 8 a.m. to 2 p.m.; lunch 11 a.m. to 2 p.m. and dinner 5 to 7 p.m. The Ivy Room which serves short order foods and snacks is open from 11 a.m. to 10 p.m., Sunday through Thursday and from 11 a.m. to 7 p.m. Friday and Saturday, beginning Sept. 1.

Bicentennial Activities: Great American Dinners

Revolutionary Era Comes to Cornell

Thomas Jefferson, the third president of the United States, was known for his generous hospitality at Monticello, his Virginia estate. A favorite dinner menu of his with which to entertain his guests was deviled eggs with Lancashire cheese strips, consomme Julien, roast lamb with brown gravy, conserve of whole currents, pilau with pignon nuts, green peas with mint, salad of mixed garden stuff, beaten biscuits with assorted cheeses, creme brulee, coffee and fruit.

Cornell Dining Services is bringing "An Evening with Jefferson at Monticello" to campus on Sunday, Aug. 31, at Willard Straight Hall, according to Jack Pacak, dining services

marketing manager.

The above menu will be served, the first of 12 Great American Dinners planned by dining services as part of the campus bicentennial celebration. The 12 dinners will be featured three times during the semester, each at a different location (Willard Straight, North Campus Union and Noyes Center).

Part of each evening's entertainment will be a description of foods on the menu and historical gastronomical notes.

For instance, Pacak explains, in the 18th and 19th centuries recipes were called receipts, a precise description because many housewives could not read and so shared shopping

lists or receipts for goods bought for a particular dish.

The grocer would supply the housewife with the precise amounts of ingredients listed on the receipt which she then put together.

Pacak describes food as being a key element in the American Revolution. In those days, he says, the local tavern was a news source. There, good food and drink drew the farmers and travelers together. Ideas were shared and discussed and much planning must have gone on in many taverns, he adds.

Jefferson was especially interested in his vegetable garden which contained as many as 19 varieties of lettuce.

The salad served on the dining service menu will contain several kinds of lettuce such as Jefferson would have served, but not all 19, says Pacak.

Other Great American Dinners to be served include a Pennsylvania Dutch Dinner, a "Farewell Dinner with George Washington at Fauneces Tavern" (the oldest tavern in New York City), a "Boston Brahmin Baked Bean Bonanza," a "Traitors Breakfast with Benedict Arnold" and a "Night on the Town with Benjamin Franklin."

Menus and recipes for the dinners were obtained from the Cornell Statler Library and Sturbridge Village, Mass.

CORNELL CHRONICLE

Published weekly and distributed, free of charge to Cornell University faculty, students, staff and employees by the Office of Public Information. Mail subscriptions \$12 per year. Make checks payable to Cornell Chronicle Editorial Office, 110 Day Hall, Ithaca, N. Y. 14853. Telephone 256-4206. Editor, Randall E. Shew. Managing Editor, Elizabeth Helmer. Photo Editor, Russell C. Hamilton.

Gilda G. Gold

Professor Gilda G. Gold, a clinical psychologist and lawyer, died of cancer July 12 at her home in Northampton, Mass. after a long illness.

Gold, 34, was on the faculty of Smith College at the time of her death. She had gone there in 1974 after serving three years on the faculty of the New York State College of Human Ecology, Cornell. Her appointment at Cornell was in human development and family studies and was held jointly with the Tompkins-Tioga-Seneca Counties Board of Cooperative Educational Services (BOCES).

Carl G. Snavely

Carl G. Snavely, 80, died July 12 in St. Louis. He was football coach at Cornell from 1936 to 1945 during which time his teams won three Ivy League titles.

After 32 years of football coaching, during which he earned the nickname "Gray Fox," he went into business in St. Louis.

A former president of the American Football Coaches Association, he was inducted into the National Football Foundation Hall of Fame in 1965.

Ta-Chung Liu

Economist Ta-Chung Liu, 60, a pioneer in the development of econometric models used in the prediction of a nation's economy and a professor at Cornell University died Aug. 14, 1975.

In 1972, he revealed details of the first monthly econometric model for predicting the condition of this country's economy on a monthly basis for as much as a one year in advance.

A member of the Cornell faculty since 1958, he was named the Goldwin Smith Professor of Economics at Cornell in 1964 and later served a term as chairman of the department of economics in the College of Arts and Sciences.

Richard Wellington

Richard Wellington, 90, professor emeritus of pomology at the New York State Agricultural Experiment Station, Geneva, died June 15 at Geneva General Hospital following a brief illness.

Wellington began his association with the Agricultural Experiment Station in July 1906 as assistant horticulturist.

He served as secretary-treasurer of the New York State Fruit Testing Cooperative Association for more than 30 years.

\$275,000 Bequest to University

Money Is for Scholarships

Ross Lee Baker, who died on Feb. 28, bequeathed more than \$275,000 to Cornell to be used for scholarships, according to President Dale R. Corson.

Baker was born in Greenwood, N.Y., in 1884. He was one of two members of the first graduating class of the Greenwood Central School, and upon winning a com-

petitive state scholarship, he entered the Sibley School of Engineering at Cornell in 1902.

Baker received his M.E. from Cornell in 1907. He worked for a year as a junior engineer with the Denver Gas and Electric Co. and then joined the Henry L. Doherty Co. of New York. He worked with that firm until 1923, serving in such capacities

as chief electrical engineer and examiner of new properties for purchase.

In 1923, he organized R.L. Baker and Co. Engineers, a firm of consulting engineers in New York City. In 1928, at the age of 44, he retired and lived in Europe before returning to Ithaca in 1931. Baker then rented an apartment in Cayuga Heights where he lived until his death.

Baker was an inventor as well as an engineer. He received his first patent in 1913 for a protective device for high voltage power transmission lines. This device, which made it possible to identify faulty transformers at a glance, was purchased by Westinghouse. Baker also patented an invention in 1917 "designed to obviate the necessity for the employment of suspenders" on men's trousers.

"Attempts have been made to employ a belt in lieu of suspenders," reads that patent, "but because of the natural tendency of the belt to drop down and rest upon the hip bone, resulting in supporting the trousers too far below the waist line, it has become almost the universal practice to wear belts merely for appearance and to utilize suspenders in addition."

Baker's solution to the problem consisted of a series of "suspension stays" which supported a belt inside the trousers.

Cornell Has Special Exhibit At State Fair

Cornell has a special exhibit focusing on the causes of stress in the modern home at the 1975 New York State Fair in Syracuse, through Sept. 1.

The display titled "Family Life Development" was produced by the Family Life Development Center at the State College of Human Ecology.

It deals with potential problem areas such as isolation of the elderly, working parents, family mobility, single parent families, and decreased family togetherness.

Sage Notes

Fellowship, Scholarship & Traineeship Financial Aid Checks for the Fall, 1975 Term will be available on and after September 5th at 130 Day Hall. Most awards are payable monthly and will be available on the 5th of each month. Lehman and Afrad Fellows should contact the Fellowship Office, 116 Sage Graduate Center. NOTE: The Acceptance Form for students receiving Cornell tuition must be completed, signed and returned to the Fellowship Office in Sage to avoid a delay in the issuance of the stipend check and/or the payment of tuition.

Students who have completed four years of residence, are not receiving money from Cornell, and who need only library facilities (use of carrel included) to complete their theses may be eligible for a special tuition rate of \$400. Check with the Graduate School for details and application forms.

Graduate students whose employment is other than or in addition to a teaching or research assistantship may be eligible for proration of tuition for reasons of employment (applications available at the Information Desk, Sage Graduate Center).

All doctoral program students who have completed six residence units prior to the beginning of this semester and have not attempted the Admission to Candidacy Examination must either schedule the Examination by mid-September or request permission from the Graduate School for an extension (by recommendation of Special Committee).

Graduate students are reminded that in nominating their special committees only members of the Graduate Faculty of the appropriate field may represent major or minor subjects.

To assure space in preferred courses, students may sign up at Barton Hall Grand Course Exchange on Saturday, Aug. 30, 12:30 to 1 p.m. List all courses on green IBM course card to be turned in at Sage Graduate Office by the Sept. 10 deadline.

The next deadline for filing of all material for a graduate degree is Jan. 9, 1976. Theses should be dated January 1976. Degrees will be conferred as of Jan. 21, 1976.

Information on fellowship programs for graduate students is available in the Career Center, in Sage Graduate Center, and will be sent to Field Offices as it becomes available. All students should check regularly for programs for which they may be eligible. Some programs will also be described in Sage Notes. For example, Seniors and graduate students contemplating study abroad for 1976-77 are encouraged to consider the Fulbright-Hays competition administered by the Institute of International Education. Applicants must be U.S. citizens, hold a bachelor's degree before beginning date of grants, have impressive scholastic achievement and have good proficiency in the language of the host country. For further information see Eva Poysa, 110 Sage Graduate Center.

College, Department, Laboratory

Name Changes Are Made

New York Gov. Hugh Carey has signed into law an amendment to the Cornell University charter which changes the name of Cornell's New York State Veterinary College to the New York State College of Veterinary Medicine and refines and updates its statement of purpose.

The amendment, recommended by College Dean Edward C. Melby Jr., has been approved previously by the Ex-

ecutive Committee of the Cornell Board of Trustees, the Trustees of the State University of New York, and the State Legislature. The bill authorizing the charter amendment was introduced in the Legislature by Assemblyman Gary A. Lee, R-Dryden.

Dean Melby explained that "College of Veterinary Medicine" more adequately describes the institution's missions of instruction, research

and public service which parallel closely those of colleges of human medicine.

The charter amendment, he continued, will help ensure that the capabilities of the college are fully understood and that it is not isolated or independent from the mainstream of biological and biomedical sciences.

* * *

The faculty of the New York State College of Veterinary Medicine has voted unanimously to change the name of the Department of Avian Disease to the Department of Avian and Aquatic Animal Medicine, President Dale R. Corson reported to the Board of Trustees Executive Committee at its July meeting.

The new name was adopted to reflect the college's interest in the health and disease control of a wide variety of aquatic animals, particularly those which might expand the world's food supply.

Over the past two years, under a grant from the New York State Sea Grant program, the department has assumed major responsibility in providing a diagnostic service for diseased fish and for developing and teaching a course on the diseases of aquatic animals.

Corson reported that the College of Veterinary Medicine foresees continued growth in the area of aquatic animal research at Cornell.

* * *

Cornell's Vegetable Crops Research Farm in Freeville and its newly constructed field laboratory has been named the Homer C. Thompspon Vegetable Research Farm and Laboratory in honor of the man who has contributed much to vegetable science.

The farm is located on Fall Creek Road, about one mile northeast of Freeville.

One of the nation's foremost authorities on vegetable production, Thompson retired in 1951 from the New York State College of Agriculture and Life Sciences. He was on the faculty 33 years including 30 years as head of the Department of Vegetable Crops.

The Freeville farm, established in 1960, serves as a major experiment site, with hundreds of new varieties and lines tested each year to determine their adaptability to New York and the Northeast. The farm also provides hundreds of experimental plots for weed control studies involving a wide range of weed species and crops. Portions of the farm are used for other research on vegetables including physiology and storage work, plant breeding and insect and disease control.

The field laboratory, built at a cost of \$200,000, provides 8,000 square feet of space for laboratories, work areas, and a field equipment shop. The construction was financed through the State University Capital Construction Fund.

The members of the Ysaye Quartet, in residence at Cornell this year, are, left to right, Elmar Oliveira, first violinist, Evan Paris, second violinist, Michael Finchel, cellist, and Sandra Robbins, violist.

Free Concert Sunday

Ysaye Quartet Is To Be in Residence

The Ysaye Quartet, which will be in residence at Cornell for the 1975-76 academic year, will present its first concert of the season at 4 p.m. Sunday, Aug. 31, in Barnes Hall. Cornell's Department of Music will sponsor the free public concert.

The quartet, named after the Belgian violinist and composer Eugene Ysaye, will present a program of three quartets: Boccherini's "Quartet No. 3," Bartok's "Quartet No. 3" and Mendelssohn's "Quartet in E Minor No. 4" (Op. 44, No. 2).

Quartet members are Elmar Oliveira, first violinist, Evan Paris, second violinist, Sandra Robbins, violist, and Michael Finchel, cellist. The Ysaye Quartet is a member of the Young Artist Program in Chamber Music, the State University of New York (SUNY), Binghamton.

During the academic year, the quartet will present concerts, workshops and lecture demonstrations at Cornell and in the Ithaca area. Cornell professors Sonya Monosoff, violinist, and John Hsu, cellist, are on leave for the fall.

Oliveira studied with Ariana Bronne and Raphael Bronstein prior to appearing, at age 16, with the New York Philharmonic on nationwide television as winner of the Young People's Concerto Competition. He has appeared as soloist with the Hartford Symphony, Symphony of the New World, and the Municipal Concerts Orchestra of New York, among others. This year, he was first prize winner of the 1975 G.B. Dealey Award with the Dallas Symphony. He appears on Paganiniana recordings.

Paris studied with Charles Castleman at the Philadelphia

Musical Academy. He received a bachelor of music degree from the Manhattan School of Music as a student of Bronstein. Paris, who has extensive chamber music experience with such artists as Lillian Fuchs, Paul Doktor and Samuel Mayes, has been participating artist at the Aspen, Tanglewood and Spoleto festivals, and has worked with the American Symphony Orchestra.

Robbins also received her bachelor of music degree from the Manhattan School of Music, studying under Fuchs. She was a participant in the first String Player's Institute in the Budapest String Quartet in Buffalo, N.Y. in 1964 and in 1970, she was an exchange artist to the West Indies. The violist has been a member of the Aspen Music Festival, the Aspen Chamber Orchestra, and has performed as soloist with the Pro Arte Chamber Orchestra of New York. Her chamber music experience includes Artur Balsam, Edgar Ortenberg, and Sascha Jacobson.

Finchel attended Oberlin Conservatory of Music and studied composition and conducting with Henry Brant and Louis Calabre. He has taught on the faculties of Bennington College, Johnson State College and the Buxton School. Finchel has been a performing member of the composer's Conference and Chamber Music Center and of the Philadelphia Composer's Forum. He was principal cellist and soloist with the Vermont State Symphony and has given numerous concerts as a member of the Finchel Cello Quartet; he has also appeared in recital throughout the northeastern United States.

Prints on Sale

Marc Chagall's color lithograph of the "Ceiling of the Paris Opera" is one of nearly 1,000 original graphics representing artists from the 15th century to the present to be on exhibit and sale in the Memorial Room of Willard Straight Hall Wednesday and Thursday (Sept. 3 and 4). The show is under the auspices of the Ferdinand Roten Galleries of Baltimore, Md. Prices start at \$10.

Orientation Has New Features

Continued from Page 1

careers service organization, transfer student dinners with faculty at their homes; and a wine and cheese party, a dance, a mystery program and a "movie orgy."

Orientation Week will reach something of an organizational peak on "Super Saturday," (Aug. 30) with the Grand

Course Exchange continuing all day in Barton Hall. A carnival sponsored by the New Student Orientation Committee and 45 student organizations will be held on the Arts Quad during the afternoon, and a street dance and barbecue will begin at 4:30 p.m. in front of Willard Straight Hall for all students, Murray said.

Barton Blotter

Campus Crimes Climb

For those of you returning — things haven't changed.

For those of you who are new — keep good track of your wallet, your bicycle and your pocket calculator.

Those three items, plus vending machines, remain prime targets for campus thieves, and began showing up again in greater numbers this past week on the Safety Division's regular morning report.

The wallets were left unattended on a table in the lobby of North Campus Union and unattended on a desk in Martha Van Rensselaer Hall. The bikes were both secured, one outside Hasbrouck Apartments and the other to a rack by the loading dock of University Halls 2.

The calculator was taken from a room in Phi Gamma Delta and the vending machine violated was a pastry machine in Goldwin Smith Hall — but the violator was successful only in prying open a door. Merchandise and money were unsullied.

Bulletin of the Faculty

(Publication of the bulletin is supervised by the secretary of the faculty, Russell D. Martin, 315 Day Hall, 256-4843.)

Results of Election FCR Executive Committee Tenured Seats-4

William F. Mai, plant pathology, Eliot L. Elson, chemistry, Roger M. Battistella, B&PA, Richard Polenberg, history.

Northeast Bus Runs Are Being Continued

Buses will run regularly again this year between Cornell University and a number of apartment complexes northeast of Ithaca, according to Parker Moore, assistant director of student housing at Cornell.

Two routes are followed, each one inbound to the University once in the morning and outbound in the evening. Route 1 follows an outbound route with stops at the Dairy Bar and Uris/Statler Halls, before continuing to several northeast apartment complexes: Carriage House, Lansing West, Chateau Claire, Gaslight Village, University Park, Lansing East, Lansing North and Covered Bridge. The inbound

route is the reverse.

Route 2 makes outbound stops at the Dairy Bar, Uris/Statler Halls, Winston Court, Sapsucker Woods and The Village Morningside Manor, with the inbound route reversing this order.

Cash fare is \$.30 per ride; discount tickets are available at \$5 per 20 tickets, or \$.25 per ride. Ticket outlets are at the Willard Straight Hall desk, Cornell Campus Store, 223 Day Hall, Swarthout and Ferris, Inc., Lansing Communities Rental Office, and the manager's office at Gaslight Village, University Park, and Carriage House.

For further information call 256-5373 or 258-2277.

Corson Welcomes New Cornell Students

College presidents used to be able to address their welcoming remarks to entering "freshmen", President Dale R. Corson told approximately 200 persons attending the President's Convocation for New Students yesterday in Bailey Hall. However, changing times necessitate updating the welcome to include "freshpersons" and transfers, he said.

The freshness and vitality of incoming students is a positive quality, reminding Cornell of its reoccurring cycle as a university and of its commitment to undergraduate education, Corson said.

Corson assured his audience, that despite their out-

Provost Knapp Greet New Students' Parents

The stresses and strains experienced by both incoming Cornell students and their parents were the topic of the President's Convocation for Parents Monday afternoon in Bailey Hall, with some 150 parents attending. Provost David C. Knapp addressed the convocation on behalf of President Dale R. Corson, who was in Moscow attending a meeting of the International As-

sociation of Universities.

Incoming students will experience, Knapp said, intellectual and social stresses which "are all part of the process of maturing." Parents may be discomforted by the accompanying changes, but they can count on "one constant in the Cornell experience," that of Cornell as an intellectual environment that can be mined by their sons and daughters.

The major stress confronting parents, Knapp said, "comes down to money." Cornell is cognizant of the strain a Cornell education places on the parents of students," he said, adding that the University is "now engaged in a full-scale exercise aimed at reducing our expenditures..."

He did not foresee, however, any diminution in the cost of a Cornell education within the next four years, in part because of the impact of inflation.

The University's mandate, he told the parents, "is to provide your children with an education of value. That is our challenge and our struggle, to maintain and strengthen the quality of a Cornell education in the face of ever-rising costs."

Registration Procedures

Continued from Page 1

mail of the action taken on their petition.

Change of Information

Students should make changes or corrections to home address, local address and local telephone number on the Directory and Biographical Record card and the Registration Permit card. To make other changes a Biographical Record Change form should be used. These forms will be available during registration in Barton Hall (at the Information Booth) and in division offices.

Graduate School

A resolution on grades for auditors made by the Graduate School states the grade of V (visitor) will not appear on a graduate student's permanent record or transcripts. However, Graduate School students should register for courses being taken for audit only. This information is necessary to be able to provide a student's special committee with his complete course load.

Identification Pictures

All new students who did not have their pictures taken in Noyes Center on Tuesday or Wednesday must have their pictures taken today (Thursday) in Barton Hall, Room 104 (east end of Hall). I.D. card permits will be available at the tables in front of Room 104.

Course and Room Rosters

Course and Room Rosters for the fall term 1975 will be distributed at registration. The roster lists the course number, time and location for the courses being given this fall as well as other course related in-

formation.

The roster lists the courses offered in the colleges and schools of agriculture and life sciences; architecture; arts and sciences; business and public administration; engineering; human ecology; hotel administration; industrial and labor relations; and veterinary medicine.

For courses in law, students should consult the law school office.

For information on courses listed as "to be arranged" in place of a specific time and room, the appropriate department should be contacted.

Late corrections, additions, and/or deletions will be posted in division offices and in the Registrar's Office.

Selective Service

The Selective Service 109 card (verification of enrollment for male undergraduates) is no longer required by all Selective Service Boards. Students not certain whether the card is required by their Local Board should contact them for information. Students needing the SS109 card should report to Mrs. Cunningham in the Registrar's Office, 222 Day Hall. Students who will become 18 years of age subsequent to registration should register with their Local Board within 30 days following their 18th birthday.

Graduate level students needing verification of enrollment (SS103) should request same as follows: Aerospace Engineering: Miss Anthony, 105 Upson Hall; Business and Public Administration: Mrs.

Snedden, Malott Hall; Graduate School: Information Secretary, Sage Hall; Law School: Mrs. Cline, Myron Taylor Hall; Veterinary Medicine: Mrs. Empson, G-2 Vet Tower.

For general information concerning Selective Service contact the Dean of Students Office, 103 Barnes Hall.

Special Announcements

Motor Vehicle Registration: Motor vehicle registration will be conducted in Lynah Rink through Tomorrow, 8:30 a.m. to 4 p.m.

Motor vehicles not registered by then, may be registered beginning Monday, Sept. 8, at the Traffic Bureau Office, Wait Ave.

Spouse Health Services: Any married student whose spouse is not a student may enroll the spouse for coverage at University Health Services. Spouse coverage is identical with student coverage. (Note that routine prenatal and obstetric care is not available.) A fee of \$35 per semester is charged. The student must sign the enrollment form for the spouse. Enrollment must be made within 30 days of registration. Materials for spouse coverage are available at Gannett Clinic and at registration.

Spring Term Registration 1976: Spring term registration material will be available for pickup on campus prior to registration. The exact dates and locations to pick up material will be announced later in the fall.

All continuing students will register on Friday, Jan. 23.

standing pre-Cornell academic records, only 10 per cent would continue to be in the top 10 per cent.

Corson told the incoming students that they will be treated as adults at Cornell and would be responsible for their own actions. They will also be confronted by a variety of opportunities. "The most important Cornell opportunity is the chance to grow intellectually," he said. "If you seize this opportunity as you proceed through your days at Cornell, using your imagination, and tempering your life with civility, then both you and Cornell will be the stronger for having intersected with the other."

Bulletin Board

Bicentennial Course Announced

The role of the United States in the world community is the theme of a new three-credit course which is also open free for non-credit to the general public. The course is to be given this fall in observance of the Bicentennial.

Seven Cornell faculty including Theodore J. Lowi, the John L. Senior Professor of American Institutions, will be giving the course. Classes are scheduled twice weekly at night in order to accommodate the general public, as well as make the course available to undergraduate and graduate students who wish to take it for credit. Classes, which start Sept. 2, are scheduled for Tuesdays and Thursdays from 7:30 p.m. to 9 p.m. and will be given in the One World Room of Anabel Taylor Hall.

Labeled Government 401 and Rural Sociology 401, "America and World Community" the interdisciplinary course, is not listed in the catalogue, however, details will be available at registration today and tomorrow.

The course is sponsored by The Center for World Community. Robert Beggs is director of the center.

Several Offices Relocated

Returning students will find a number of offices not where they were when they left campus last May, due to a series of moves and consolidations made during the summer.

All admissions offices in Day Hall are now in 410 Thurston Ave. The Traffic Bureau has moved from Rand Hall to 115 Wait Ave. Student trustee offices are no longer in Rand Hall but at 44 Willard Straight. Gift Records is now located in the Sage Mansion of the infirmary complex off Seneca St.

Of less direct concern to students are the relocations of Management Systems and Analysis in the basement of Day Hall from Rand Hall; planning operations, formerly in the basement of Day Hall are now at the Service Building on Dryden Rd. where the Construction Department has also been relocated from 104 Maple Avenue.

Visitors Program Registration

Registration for the newly inaugurated Visitors Program at Cornell will begin Monday, Sept. 1, and continue through Friday, Sept. 12, for the fall term.

The program offers a continuing education opportunity for area residents. Visitors may attend virtually any course for a nominal fee, on a non-credit basis, contingent upon the existence of available space in the class and the agreement of the instructor. No record of participation will be kept.

The program will be administered through the University's Division of Summer Session and Extramural Courses, 105 Day Hall, where additional details may be obtained. Fees for attending the courses on a non-credit basis will be charged at a rate of \$10 per credit hour. Thus, a three-credit-hour course will cost \$30. Taken for credit or audit by an extramural registrant, the same course, at the extramural rate of \$95 per credit hour, would cost \$285.

The development of the Visitor Program is based on recommendations from the University Senate, Cornell's Women's Studies Program and the State University of New York.

Undergraduate Research Program Planned by NSF

The National Science Foundation has announced details of its Undergraduate Research Participation Program for 1976.

This is primarily a summer program run by an academic department allowing promising upperclassmen to participate in faculty-supervised research. URP projects can be in any field of science, including the social sciences, or engineering, but, where applicable, highest priority will be given to proposals for energy-related general research. Proposals are due at NSF by Sept. 10, 1975. For further details, please contact Peter Curtiss in the Office of Academic Funding, 123 Day Hall (X65014).

Proposals Invited

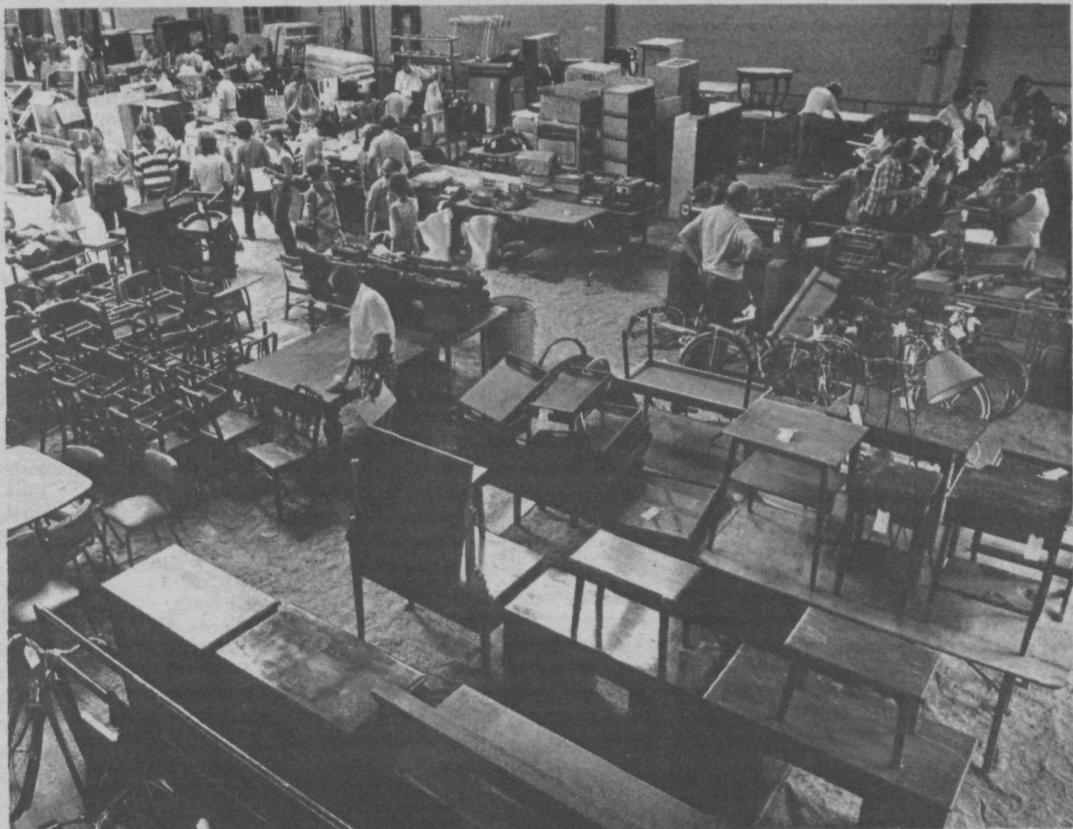

Water Resources Study Funded

The Water Resources & Marine Sciences Center at Cornell University, the Water Resources Research Institute for the State of New York under P.L. 88-379, has announced the availability, on a competitive basis, of funds for water resources and related research under the following programs:

Title I matching-grant program, with a deadline of Oct. 1, has priority assigned to problems of regional significance,

within the areas of flooding, groundwater recharge (including quality protection), diffuse sources of contaminants, point source contaminants, dredging and filling impacts, estuary quality and regional water and land use management.

The Title II grant program, for which proposals may be submitted any time and are considered at quarterly intervals; however, the bulk of the awards probably will be based on proposals submitted

The University Cleans House

An auction of surplus equipment was conducted in July, putting up for sale all the 'junk' various departments were no longer using. Gross receipts totaled \$20,270.25, of which 70 per cent, or \$14,189.18 was credited back to the participating departments. Everything was sold during the one day sale at the Judging Pavilion, shown here set up to inspection on the day prior to the sale.

CASE Awards Go to CU

Offices connected with Cornell have received 12 awards from the Council for Advancement and Support of Education (CASE) in recognition of various publication and photographic activities during the past year.

The Cornell Alumni News received five awards, the Office of Public Information three awards and University Publications and the Engineering: Cornell Quarterly, each received two awards.

With a membership of more than 7,000 CASE is a nationwide organization of employees of educational institutions in the areas of alumni, public relations, fundraising, publications and government relations. It was formed last year through the unification of the American Alumni Council (AAC) and The American College Public Relations Association (ACPRA).

The Alumni News and the Engineering Quarterly received the two top awards of the 12. They were recognized for exceptional achievement in the category of periodicals coverage of public affairs. These awards were made by

Newsweek Magazine through CASE, as was the award of merit the Office of Public Information received for news and information writing programs.

The Alumni News and Engineering Quarterly also received awards of merit for magazine publishing programs. Gladys J. McConkey is editor of the Quarterly. John Marcham is editor of the Alumni News, which also received three other merit awards, two

for photographic series and one for illustrations and graphics.

The other two merit awards to the Office of Public Information were for slides and filmstrips. The office is under the direction of Bryant Robey.

University Publications, directed by Kelvin J. Arden, received awards of merit for posters and for the University's annual report.

Falke First Recipient Of New Scholarship

Ellen Falke, a second-year graduate student in manpower studies in the School of Industrial and Labor Relations, is the first recipient of the newly established Dorothy Funt Memorial Scholarship.

The scholarship was established in honor of Dorothy Funt by the Martin E. Segal Co. of New York City, consultants and actuaries to employe benefits plans. It pays an annual stipend in addition to tuition and fees.

Dorothy Funt was graduated from Cornell in 1932 and received a master's degree from New York University. She worked for the Martin E. Segal Co. for 29 years, and became

senior vice president in 1957. She retired only a short time before she died in September 1974. During her career, which concentrated on the problems of providing health, welfare, pension and other employe benefits through multi-employer funds, she became an authority in the field.

Falke, who makes Ithaca her home, was selected from among three graduate students nominated by a graduate faculty committee. Final selection was made by a committee of representatives of the Cornell Alumni Association of New York City and the Segal Co.

Education Orientation

An informal orientation meeting for new graduate students in education will be held today from 3:30 to 4:30 p.m. at 401 Warren Hall.

Library Tours Scheduled

Half-hour tours of the Olin Library facilities for new faculty and graduate students are scheduled today (Aug. 28), tomorrow and all next week, Sept. 1 through Sept. 5. Tours will start in the Periodical Room at 10:10 and 11:15 a.m. and at 1:25 and 3:35 p.m. each day. They will cover card catalogs, special departments and the stack area.

Calendar

August 28 — September 7

Thursday, August 28

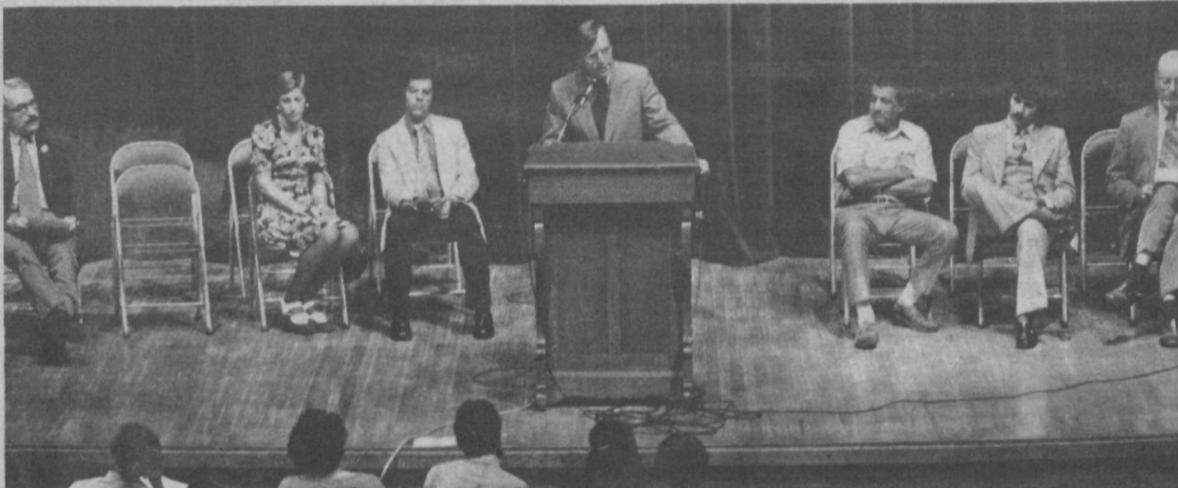

8 a.m.-5 p.m. Registration for new students. Barton.
1 p.m. Ice Cream Parlor. Straight Terrace, (Terrace Lounge in case of rain). Sponsored by WSH Board.
6 p.m. The Cornell Christian Science Organization invites students, faculty and staff to a Readings and Testimony Meeting. Founders Room, Anabel Taylor.
7 & 9:15 p.m. *Cornell Cinema Film: "Monty Python & The Holy Grail," directed by Terry Gilliam and Terry Jones. Statler Auditorium.
7 & 9:15 p.m. *Cornell Cinema Film: "Animal Crackers," directed by Victor Heerman, starring the Marx Brothers. Uris Auditorium. Attendance limited to Cornell community.
7:30 p.m. Israeli Folk Dancing. One World Room, Anabel Taylor.
8:30 p.m. Schlitz Movie Orgy. Noyes Dustbowl, (Third Floor Lounge in case of rain). Sponsored by Noyes Board.

Friday, August 29

8 a.m.-5 p.m. Registration for continuing and rejoining students. Barton.
1 p.m. Transfer Student Orientation picnic. Upper Alumni Field.
6 p.m. Shabbat Service. Founders Room, Anabel Taylor.
7 & 9:15 p.m. *Cornell Cinema Film: "Monty Python & The Holy Grail." (See Aug. 28.)
7 & 9:15 p.m. *Cornell Cinema Film: "Animal Crackers." (See Aug. 28.)
7:15 p.m. Shabbat Service. Young Israel House.
8 p.m. Casino Night. Noyes Student Center. Sponsored by Noyes Board.
8 p.m. Beer with sing-along and old films. Straight Memorial Room. Sponsored by WSH Board.

Saturday, August 30

9:30 a.m. Orthodox Shabbat Service. Edwards Room, Anabel Taylor.

President's Convocation for Parents

Provost David Knapp spoke to parents of new students Monday. Seated on either side from left to right are William Gurowitz, vice president for campus affairs; Jan Rock '77, Louis Piccarello '76, New Student Orientation Committee chairpersons; Knapp; Benjamin Nichols, University Senate speaker; Robert Harrison '76, student trustee, and Elmer Meyer Jr., dean of students. See story on Page 6.

Big Red Basketball

Two Southern Trips Planned

Two southern trips, one for a pair of games in Louisiana and the other for a tournament in Virginia, will highlight Cornell's 26-game basketball schedule for 1975-76.

The Big Red travel to Tulane and Louisiana State for games on Dec. 22 and Dec. 23. Cornell will play in the Old Dominion Classic in Norfolk, Va., on Dec. 29-30. Other teams in the tournament are Brigham Young, Texas and Old Dominion.

Fordham returns to the Big Red schedule for the first time in 25 years.

The Big Red, under first-year coach Ben Bluit, were 7-18 in 1974-75, their best season in

five years. They were 4-10 in the Ivy League and placed sixth, their highest finish since 1969-70.

The 1975-76 schedule:
Dec. 3, Colgate, home; 6, Rochester, away; 22, Tulane, away; 23, LSU, away; 29-30, Old Dominion classic, Norfolk, Va.

Jan. 7, Buffalo, home; 13, Syracuse, home; 16, Fordham, away; 17, Columbia*, away;

20, RPI, away; 23, Columbia*, home; 24, Bucknell, away; 27, Niagara, home; 30, Brown*, away; 31, Yale*, away.

Feb. 7, Penn*, away; 8, Princeton*, away; 13, Dartmouth*, home; 14, Harvard*, home; 20, Yale*, home; 21, Brown*, home; 27, Harvard*, away; 28, Dartmouth*, away.

March 5, Princeton*, home; 6, Penn*, home.

(*—Ivy League game)

North Campus Bus Stops Listed

Campus bus stops for the upcoming year in the North Campus Union area are at A Lot, the corner of Jessup Rd. and Triphammer Rd. and at the corner of Jessup Rd. and Pleasant Grove Rd., according to C. William Crissey, manager, Bus Garage.

Crissey also said that the Ithaca city bus shelter in front of Riskey Residential College on Thurston Ave. is not a campus bus stop.
