Endowed Fiscal Year-End Is Better Than Estimated

Savings made in Cornell's endowed college operations enabled the University to end the fiscal year with "substantially better results" than had been estimated.

According to unaudited figures presented by University Treasurer and Chief Fiscal Office Arthur H. Peterson, in his report to the executive committee of the Board of Trustees meeting here Tuesday, the fiscal 1974-75 deficit in the unrestricted funds of the endowed colleges in Ithaca was about \$900,000. Previously, a \$1.7 million deficit had been projected. Peterson said he believes audited figures will not substantially change these results.

Peterson told trustees the special expense reduction program initiated in December, particularly the effort to reduce staffing through attrition, was largely responsible for the improved position. "The figures demonstrate that the Cornell community has accepted the challenge to reduce operating costs," he said.

The Medical College in New York City ended the year showing a surplus of \$556,000, compared to the May estimate of a \$600,000 deficit. However, accounting changes which now include medical group practice accounts not included in the earlier estimates largely account for the difference, Peterson said, and so the two figures cannot be compared fairly.

In announcing the improvement in the Ithaca year-end results, Peterson cautioned against undue optimism. "It should be remembered that to achieve these results, the University, operating on the total return investment theory, distributed as income from the Capital Fund approximately \$5 million more than its true income.

"It is always possible to balance or unbalance an operating budget at year's end depending on how much capital you invade; but the simple fact is that if you spend more each year than you take in, you will eventually be in trouble," he said.

"The goal of long-range equilibrium is still one vital to the health of Cornell and we face the continuing need to bring operating expenses and current income into better

balance," Peterson said.

The executive committee heard a report that the athletics department ran a deficit of about \$163,000 for the year, and physical plant operations showed a deficit of some \$385,000. According to Robert M. Matyas, vice president for planning and facilities, \$160,000 of the deficit in plant operations was due to rising costs of utilities, and \$150,000 to an inadequate overhead re-

Continued on Page 2

Trustee Statement On 'Equilibrium'

Here is a statement issued today (Sept. 9, 1975) by the Executive Committee of the Cornell University Board of Trustees meeting here in Ithaca.

"The Executive Committee at its Sept. 9 meeting reassessed the University's financial situation and plans. The committee concluded that, despite some improvement in the national economy and in Cornell's financial results for the 1974-75 year, the University continues to face long-term pressures on its resources which will require budget adjustments over the next several years on the order of 10 to 15 per cent of the general fund base. The committee instructed the administration, in preparing its budget for 1976-77 and in de-

veloping longer range plans, to continue toward the objective of achieving financial equilibrium by 1978, as recommended last year by the Ad Hoc Trustee Committee on Capital Financing. The executive committee instructed the president to make all possible economies throughout the University's operations, but specifically requested that financial planning recognize the priority of preserving the excellence of the faculty. It authorized the president to exercise his discretion in determining the rate at which reductions might safely be made in the faculty size — having in mind that the University's primary objective must be maintenance of a distinguished faculty for teaching, public service, and research."

Events Prompt Reform Suggestions for Senate

The former members and officers of the University Senate who, in an open letter to Senate Speaker Ben Nichols last May called the Senate a "clearinghouse for selfishly motivated pet peeves" and a "stimulant for already-swollen egos," have sent a second letter to all senators which contains a proposal for major Senate reform.

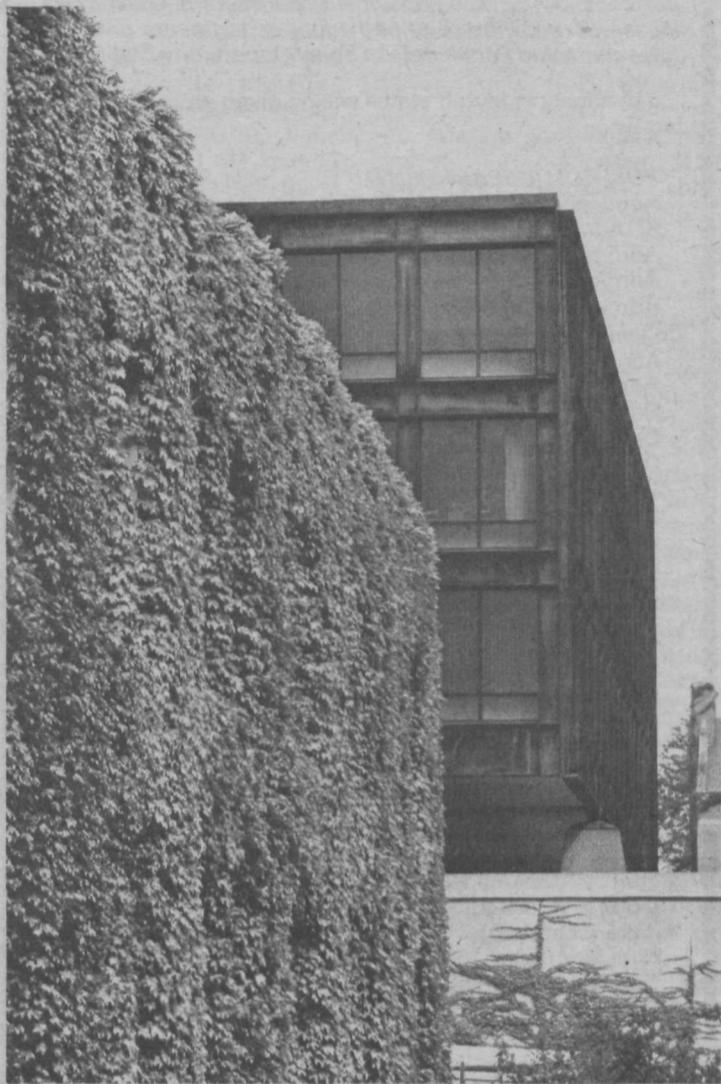

In the letter dated Sept. 9 (see full text on page 4), Robert S. Harrison, Michael E. Fisher, Robert McGinnis, Andrew V. Ettin, Geoffrey V. Chester and David B. Stromberg cited two events which they feel have made a move toward Senate reform imperative — a MacNeil recommendation that the Senate be abolished and replaced by a "Dean for Students" and the resignations from "important committees by two senators during the

course of what, by many accounts, was a typically non-productive meeting of the Senate on Sept. 2."

The authors state their intention of drafting a community referendum bill within one month which will focus on two aspects of Senate reform — "the domain of self-governing jurisdiction and the mechanism of governance."

"We want to stress that any major reforms must represent a genuine community effort," reads the letter in which the authors solicit the help of present senators in drafting the referendum legislation.

"Without immediate reformatory measures," warn the six authors, "the University Senate may be terminated by a simple act of the Trustees and we shall all be party to the death of self-governance at Cornell."

A Study in Contrasts

Affirmative Action Advisory Board Set

Cornell's affirmative action functions will be studied by an Affirmative Action Advisory Board, which was established by President Dale R. Corson effective Sept. 1. Judith T. Younger, professor and deputy dean of the Cornell Law School chairs the 14-member board.

The board is charged with three primary functions: reviewing the organization and distribution of responsibility for affirmative action at Cornell and making recommendations for changes to Corson by Nov. 15; reviewing the proposed changes in the University's affirmative action plan with respect to policies, goals, timetables and procedures as currently being developed by the affirmative action staff, by Jan. 31, 1976, and with being an evaluation group, on a continuing basis, with respect to the effectiveness of the affirmative action organization and policies, with a continuing audit of policy implementation as a significant portion of the board's responsibilities.

Resource personnel for the board are: Ramon E. Rivera, affirmative action officer, Diedrich K. Willers, director, Office of Personnel Services,

and W. Donald Cooke, vice president for research.

Board members appointed for one-year terms are: Robert B. McKersie, dean, New York State School of Industrial and Labor Relations; Roberto O. Gonzalez, associate professor, Romance studies; Caroline T. Spicer, reference librarian, Olin Library, and Malden C. Nesheim, director, Division of Nutritional Sciences.

Those appointed for two-year terms, in addition in Younger, are: Lloyd C. Street, associate professor, community service education; Dawn M. Cross, counselor-therapist, Committee on Special Educational Projects (COSEP); Yvonne E. Nelson, department secretary, Graduate School, and George H. Quester, professor, international studies.

Those appointed to three-year terms are: Robert M. Matyas, vice president for planning and facilities; Michael E. Fisher, professor of chemistry and mathematics; Charlotte K. Shea, assistant director, Career Center; Karen Arms, assistant professor, neurobiology and behavior, and Reginald K. Ingram, associate director, Development Office.

Petitioning Begins for Open Senate Seats

Petitioning to fill 14 vacant seats in the University Senate begins today (Thursday, Sept. 11) and petitioning for 10 freshmen seats begins Monday, Sept. 15.

Petitions may be obtained at the Senate Office, 133 Day Hall. Details on the constitutencies with vacant seats and on the freshmen election and by-election procedures may be found on page 3 in this issue of the *Chronicle*.

Executive Committee

Trustees Meet on Campus

The summary journal for the meeting of the Executive Committee of the Cornell University Board of Trustees held Sept. 9, 1975, in Ithaca, N.Y. follows.

NOTE: This summary journal, as released for publication, does not include confidential items which came before the meeting.

1. University Treasurer Arthur H. Peterson reported on the fiscal operation of the endowed colleges at Ithaca and the Medical College for 1974-75. He also reported on accumulated deficits in Related Activities of the endowed colleges at Ithaca.

2. University President Dale R. Corson recommended, and the executive committee approved and will recommend to the full Board of Trustees for adoption, the final operating budgets (including state, federal and income funds) for the statutory units at Cornell for the 1975-76 fiscal year. The budgets proposed for the statutory units totaled \$73,741,195. The operating budgets include: College of Agriculture and Life Sciences, \$38,158,978; College of Human Ecology, \$9,330,117; College of Veterinary Medicine, \$9,156,642; School of Industrial and Labor Relations, \$5,311,438; Experiment Station at Geneva, \$5,068,292; and General Services \$6,715,728. The New York State funds included in the statutory operating budget are for the State fiscal year April 1, 1975 to March 31, 1976. The federal funds are for the Federal fiscal year July 1, 1975 to June 30, 1976. The grants and contracts and college funds are for the University's fiscal year.

3. The president discussed with the executive committee the problems involved in the University's reaching financial equilibrium within a three-year period concluding in 1978 as recommended by the Ad Hoc Trustee Committee on Capital Financing.

4. The executive committee accepted the president's recommendation that the sale of New York State Dormitory Authority bonds (Series F) for the financing of Lasdon House at the Medical College be held in abeyance and that \$9,300,000 of one-year Dormitory Authority notes be sold in a private placement. The action was requested because of the many unfavorable factors surrounding the current market for Dormitory

Authority bonds. In other bond action, the executive committee superseded its April 8, 1975 action authorizing a fully collateralized note issue with the State Dormitory Authority for \$2 million to finance the 370/168 computer and peripheral equipment purchase. The financing will now be through monthly Current Fund advances which will be reimbursed with interest by Office of Computer Services income.

5. The executive committee, on the president's recommendation, elected Peter Cusack, vice president for personnel for American Broadcasting Company (ABC), to the Advisory Council for the New York State School of Industrial and Labor Relations. Elected members emeritus of that council were Clifford A. Allanson, former member of the New York State Council of Retail Merchants; and Russell C. McCarthy, former member of the Industrial Management Council.

6. The president recommended, and the executive committee approved, the renaming of the Veterinary Virus Research Institute as the James A. Baker Institute for Animal Health.

7. The executive committee, upon the president's recommendation, approved actions concerning allocation of funds into and out of the Class of 1916 Scholarship Fund. The action was requested by the Class of 1916 Scholarship Committee.

8. The executive committee approved the president's recommended allocation of funds to finance the replacement of furnaces, required as a matter of life safety, at Young Israel, a University-owned house, and at Chi Phi fraternity, a Cornell University Residence Plan (CURP) house. The fund advances will be repaid by rental income and room rents at the houses involved.

9. The executive committee, upon the president's recommendation, authorized the awarding of a contract for the construction of an addition to Malott Hall, an addition made possible by receipt of an anonymous gift to the University for that purpose.

10. The executive committee approved a series of personnel actions which the president had recommended.

11. The executive committee approved the president's

recommendation that, for planning purposes, the University administration be authorized to credit income accounts of funds at the rate of 11.5 cents per income share in the Endowment Fund and 15 cents per income share in the Capital Fund as of Sept. 30, 1975, subject to reversal as needed on June 30, 1976, at which time the actual earned and distributable income per share will be credited.

12. The executive committee heard a report from the chairman of the Buildings and Properties Committee, Trustee Bruce Widger. On Widger's recommendation, the executive committee asked the University administration to review the present organizational structure in which several units hold parallel responsibilities for physical plant operations and maintenance.

13. The executive committee, acting on the recommendation of the Buildings and Properties Committee, approved agreements with design consultants for \$461,250 in fees for design work on the Central Heating Plant rehabilitation project. In July, trustees had approved up to \$470,000 for design fees, and asked more detailed information on agreements, which were reached within the figure approved. Design consultants are Gilbert Associates Inc. of Redding, Pa., and Pickard and Anderson of Auburn. The basic purpose of the project will be to increase production efficiency of the plant, as well as to improve air-pollution control devices and to eliminate coal pile runoff.

14. Trustee Morton Adams, chairman of the Committee on State Relationships, reported to the executive committee. He made recommendations to the committee aimed at the University's building an effective lobbying and public reactions program toward achievement of state support for Cornell. Three of the recommendations dealt with the establishment of short- and long-range plans for securing such public support, the appointment of a lobbyist to build and implement the plan, and central administration support and direction of the program. The executive committee asked the University administration to respond to these recommendations with specific actions. The fourth point made by Adams called for an analysis by the Board of Trustees of its composition toward enhancing its political potency. This matter will be referred to the full Board of Trustees for discussion.

15. Also, the executive committee approved minutes of its July 22, 1975, meeting, received the proceedings of the June 24, 1975, meeting of the Joint Administrative Board of the New York Hospital-Cornell Medical Center, and approved the addition of the financial coordinator and the budget director of the Medical College as medical college bank account signatories.

Job Opportunities
At Cornell University

The following are regular continuing full-time positions unless otherwise specified. For information about these positions, contact the Personnel Department B-12, Ives Hall. Please do not inquire at individual departments until you have contacted Personnel. An Equal Opportunity Employer.

Individuals in lay-off status will be given preference in referrals.

POSITION (DEPARTMENT)

Administrative Aide I, A-18 (Secretary of the Corp. (sh))
Sr. Administrative Aide, A-17 (Ofc. of Univ. Counsel) (sh)
Administrative Secretary, A-15 (Psychology (1 yr))
Administrative Secretary, A-15 (Chemistry)
Administrative Secretary, A-15 (Div. Basic Studies-Engineering)
Administrative Secretary, A-15 (Safety (sh))
Administrative Secretary, A-15 (LASSP)
Department Secretary, A-13 (DMLL)
Department Secretary, A-13 (University Development)
Department Secretary, A-13 (COSEP)
Department Secretary, A-13 (Russian Literature)
Department Secretary, A-13 (Operations Research)
Department Secretary, A-13 (Development)
Department Secretary, A-13 (Government)
Steno II, NP-6 (Div. of Nutritional Sciences)
Steno II, NP-6 (Animal Science)
Steno II, NP-6 (Coop. Extension - Human Ecology)
Steno II, NP-6 (Coop. Extension - Personnel)
Steno I, NP-5 (Mann Library)
Library Assistant I, A-10 (University Libraries - Serials)
Searcher II, A-15 (Univ. Libraries (Spanish))
Administrative Clerk, A-16 (College of AAP, Dept. of City & Regional Planning (sh) (9 month))
Account Clerk, A-12 (Accounting - Endowed)
Record Clerk, A-11 (Personnel)
Library Assistant III, A-15 (University Libraries - Uris)
Library Assistant III, A-15 (University Libraries - Interlibrary Lending)
Circulation Mgr., A-16 (B&PA)
Counselor (Agr. Res. Inst.)
Administrative Aide II, CP01 (College of Architecture)
Sr. Systems Programmer, CP06 (Office of Computer Services)
Research Associate II, CP04 (STS Program (2 yrs))
Supervisor, Technical Serv., CP04 (Theoretical & Applied Mech.)
Research Associate, CP03 (CRSR)
Research Associate (2) (Education (1 year))
Research Specialist (Education (1 year))
Assistant Director, Engineering Admissions & Transfer Counselor, CP03 (Engineering Admissions)
Director of Regional Offices, CP07 (Public Affairs)
Sr. Photographer, CP05 (Psychology (1 yr))

covery rate of the shops operation. The additional \$75,000 represents an advance to the grounds enterprise unit for capital equipment approved earlier by the trustees.

Matyas said rates have now been increased, as a result of an analysis of costs and procedures undertaken by his office during the year.

Vice President for Campus Affairs William D. Guowitz explained that the deficit in athletics occurred because of

shortfalls in income (about \$52,000) and higher costs than estimated (about \$111,000). He said income and expense estimates have been revised and steps taken to provide better accounting and cost-control support.

In other financial news, the trustees authorized the administration to credit income accounts of funds participating in the Endowment and Capital Funds with estimated income of 11.5 cents per share in the
Continued on Page 3

Heating Deferred To Cut Costs

Cornell has developed a cost-saving plan for deferring as long as possible the turning on of heat in most of the campus's academic research and administrative buildings this fall.

According to Noel Desch, director of physical plant operations, the energy-conservation measure could save as much as \$90,000 in the current estimated \$3 million budget for steam heating these buildings on the lower and upper campuses during the 1975-76 academic year.

Desch explained that under the plan the heat will not be turned on until the average daily outdoor temperature for the period between 8 a.m. and 5 p.m., plotted on an hourly basis, falls below 62 degrees for two days in succession, starting today.

The formula he said was developed based on the experience that there are usually three to four cool days during the first three weeks of September interspersed with warm days. Once the heating systems are turned on, he said, they will be left on even if there are some warm days because

labor costs are greater than the cost of leaving the heat on.

He listed the following 68 buildings affected by the plan:

Upson Cage, Bacon Cage, Hydraulic Lab., Sibley, White, Rockefeller, Service Bldg., Baker Lab., 109 Dearborn; Barton, Uris Hall, Campus Store, East Roberts, Quonset Hut, Martha Van Rensselaer, Warren, Fernow. Also: ILR School, Misc. Barns, Morrison, E. Tower Rd. Greenhouse, Kenneth Post Lab., Insectary, Phillips, A.D. White House, Squash Courts, Oxley Arena, Rand, McGraw, Sage Chapel, Myron Taylor, 626 Thurston Ave., Schoellkopf, Carpenter, CRSR. Also: Bailey Hall, Stone, Fleet Garage, Comstock, Plant Science, Rice, Stocking, Gutterman, 60-A Greenhouse, MVR Wing, Riley Robb, Kimball-Thurston, E. Ithaca Shops, Big Red Barn, Teagle, Anabel Taylor, Johnson Museum, Mann Library, Former Shops (State), Savage, Caldwell, Roberts, Bruckner, Pesticide Lab., Plant Science Greenhouse, Lincoln, Franklin, Art Studio, Hollister Hall, Olin Hall, Goldwin Smith, and the Judging Pavilion.

Senate By-Election To Fill Vacant Seats

Every fall, as classes resume, some individuals in the Senate find, for various reasons, that they can no longer fulfill their elected responsibilities. Therefore, the Senate constitution provides for a by-election procedure to be held in October. The Senate Speaker, having declared certain seats vacant, submits the list to the *Chronicle* (see below). Individuals seeking a seat must go to the Senate office and pick up a petition.

If there is a contest for any seat then an Electoral College is convened from the respective constituency in the Senate. Candidates shall be given the opportunity to appear before constituency caucus and make a short speech. It is hoped that the Senate can effectively renew itself by this process during the middle of its legislative term.

In accordance with by-election procedures, petitioning for vacant seats on the Cornell University Senate will begin Thursday, Sept. 11, 1975 and will end at 5 p.m. Thursday, Sept. 25, 1975.

The following seats are now vacant to be filled under the by-election procedure:

- Undergraduate Students Engineering: 1 seat
- Professional Students Veterinary College: 1 seat
- Faculty
- Africana Studies: 1 seat
- Agriculture-Tenured: 6 seats
- Agriculture-Non-tenured: 2 seats
- Human Ecology: 1 seat
- Industrial & Labor Relations: 1 seat

Petitions may be picked up at the Senate Office, 133 Day Hall, Thursday, Sept. 1, 1975.

Year-End Report

Continued from Page 2

Endowment Fund and 15 cents per income share in the Capital Fund. Credits will be made as of Sept. 30.

In 1973-74, the administration began the practice of crediting restricted income accounts with an estimate of such income so that the accounts would have a credit balance during the year. The rates actually paid in 1974-75 were 11.2 cents for the Endowment Fund and 16 cents for the Capital Fund. For the current year, the actual earned and distributed income per share will be credited on June 30, 1976, and the distribution approved today will then be reversed.

Profile

Ingram: High on Biking

"The sensation of speed when you're under your own power is a real high ... it's one of the best natural highs around," according to Reg Ingram, a bicycle enthusiast who parks his sleek 10-speed in his office on Day Hall's fourth floor. Ingram, at 25 and an associate director of development at Cornell, "retired" from professional racing a few months ago, despite the "high."

"I was heavy into it for two years," he said, "a childhood fantasy fulfilled." His love of self-propelled speed began when he made the move from balloon tire bike to a "first-class 10-speed." "It was a different sport for me then. I started riding around on my own and I thought I was the baddest thing around."

Then he met two young Ithaca brothers who had placed first and second in the New York State bicycling championships in 1974. They were John and Chris Livesay, sons of George R. Livesay, professor of mathematics at Cornell. "I couldn't believe how fast they were moving," Ingram said.

With that competition, he got serious about speed, becoming "a national first-class rider," and entering four- and five-hour races over distances up to 120 miles. Speeds averaged 30 m.p.h. and downhill spurts could reach 55 or 60 miles an hour, he said.

"To be competitive, you've also got to put in at least 300 miles a week," according to Ingram. His weekly workout included a jaunt around Cayuga Lake, some 90 miles, in a few hours. "One reason I got out of the sport is because it's so time intensive," he said. "I wasn't doing anything but working and bicycling."

In April, Ingram received a telephone call from a U.S. Olympic coach. "He'd seen me ride before and he said 'why don't you take a crack at it?'" Ingram laughed and pointed to a small scar on his forehead. "I did. I literally cracked my head open."

Ingram's racing career ended abruptly at a 50-kilometer "National Prestige Race" in Washington, D.C. in competition with "former national champions and Olympic stars."

"This was the race I had picked. I was going to show the Olympic coach I was worth my

Reg Ingram

salt," Ingram said. "On the last lap of those 50 laps, when I had a good spring left, the guy in front of me threw up his hands in exhaustion and fell down. There was no way to get around him. I tried jumping over him but just then he lifted his leg. I went into somersaults and wound up with 12 head stitches and abrasions on my back. I was scared witless. I don't want that feeling again, no way," he said. "So now I'm just a leisure rider. I'll get my thrills vicariously watching others race," he said.

He sold two of his four bicycles and his 15 sets of handbuilt wheels and bought an electric piano "to let my fingers do the walking. It's a nice safe hobby." Nevertheless, Cornellians may still see Ingram in his brightly-colored striped jersey pedaling around the Ithaca countryside on a 50-mile weekend pleasure trip.

Provost Gives Good News to FCR

Provost David C. Knapp, commenting on the "health of the University in a non-economic sense," had some good news for the Faculty Council of Representatives at yesterday's meeting.

For the first time in five years, Knapp said, Cornell has had a "significant increase" in total sponsored research. In the endowed units, total research dollars in 1974-75 increased about 14 per cent over 1973-74 totals. National Science Foundation dollars to Cornell rose 20 per cent in 1974-75 over the previous year. For the first months of the 1975-76 year, added the provost, the rate of growth in government research funding appears to be as great.

Knapp also reported that Cornell is "holding its own" both in obtaining applications from prospective students and in maintaining the quality of entering classes, despite nationwide fears about the declining number of high school age people and the general decline in the scores achieved by high school seniors on the Scholastic Aptitude Tests (SAT).

Applications to Cornell showed an overall increase of four per cent over 1974 figures, said Knapp. Cornell offered admission to about 33 per cent of the applicants — a 2.6 per cent

increase over 1974. As of Aug. 25, the total number of anticipated entering registrants was 3,520 — a 3.2 per cent increase.

The 1975 freshman class showed a median score of 603 on the verbal portion of the SAT and 670 on the math portion, said Knapp, compared to figures of 612 verbal and 677 math in 1974.

Although average SAT scores have declined nationally, the number of applications to Cornell from students with SAT scores over 700 has increased. This year, 8.6 per cent of all students who scored over 700 on the verbal SAT applied to Cornell, compared to 8.1 per cent in 1974.

Ten Freshmen Seats

Petitioning for ten freshman seats on the Cornell University Senate begins Monday, Sept. 15, 1975.

This year, freshman candidates will run for senate seats by district instead of running "at-large." Electoral districts for freshmen are as follows:

District No. 1: U. Halls 1 and South Baker; District No. 2: U. Halls 2 and Baker Tower; District No. 3: U. Halls 3 and Boldt; District No. 4: U. Halls 4 and North Baker; District No. 5: U. Halls 5, Founders and Mennen; District No. 6: U. Halls 6, McFaddin and Lyon; District No. 7: Mary Donlon; District No. 8: Clara Dickson and North Campus No. 1; District No. 9: Balch, Risley, Hurlburt House and Off-campus students; District No. 10: North Campus No. 5, 6, 7, 9, Ujamaa, and International Living Center.

Although campaigning and voting will take place according to district, any freshman (regardless of district) may sign as one of the 25 signatures required on the nominating petition.

Petitioning will end on Friday, Sept. 26, 1975 at 12 noon. Election Day is Tuesday, Oct. 7.

Freshman Senators have all privileges except voting. However, they are seated on the Senate Committee of their choice upon election.

Petitions may be picked up at the Senate Office, 133 Day Hall.

Published weekly and distributed free of charge to Cornell University faculty, students, staff and employes by the Office of Public Information. Mail subscriptions \$12 per year. Make checks payable to Cornell Chronicle Editorial Office, 110 Day Hall, Ithaca, N.Y. 14853. Telephone 256-4206. Editor, Randall E. Shew. Managing Editor, Elizabeth Helmer. Photo Editor, Russell C. Hamilton.

Chronicle Comment

(Chronicle Comment is a forum of opinion for the Cornell community. Address comments to Elizabeth Helmer, managing editor, Chronicle, 110 Day Hall.)

Former Senators Propose Reform

The following open letter to University Senators was submitted for publication:

Dear Senator:

We write to you as representatives of the Cornell Community. As you may recall, on May 6 five of us sent an open letter concerning the state of the Senate to Speaker Nichols (published on May 8 in the *Cornell Chronicle*); we regret that we have had no reply from him, apart from some widely quoted pithy asides. In our letter we expressed our perception of serious and growing difficulties that are causing a deterioration of this important body. Among the problems we see plaguing self-governance at Cornell are a shamefully low level of community support, decreasing faculty participation, the preoccupation with form over substance, the untoward success of a few selfishly-motivated Senators, and insufficient leadership. We personally have seen all these problems evolving since the third Senate; they are not unique to the Sixth Senate.

Since we last wrote, two events have occurred which reinforce our belief that action is called for now. These are, first, the recommendation advanced by Professor MacNeil that the Senate be abolished and, second, the resignations from important committees by two Senators during the course of what, by many accounts, was a typically nonproductive meeting of the Senate on Sept. 2. It is our purpose in this letter to propose a concrete plan.

At the outset, we want to stress that any major reforms must represent a genuine community effort. This is of overriding importance. Without community support, without community participation, any attempts at reform will be folly. We write today with even greater conviction than we wrote last spring to express

our continuing concern over the fate of self-governance at Cornell and our belief "that if sufficiently searching questions were asked, there would be substantial pressure placed on the Senate to evaluate its performance critically, to explain itself to the community, and to consider a variety of alternatives for the future." If you believe there is some veracity to this statement, then surely you, as an elected representative of the Cornell community, will take the lead.

One alternative future has been proposed by Professor MacNeil (although *not* by the Task Force on Self Governance): the abolition of the Senate and its replacement by a "Dean for Students." This is a serious proposal which deserves careful, dispassionate consideration. Indeed, from the narrow perspective of cost/efficiency, it may be among the best that could be advanced. We ourselves, however, cannot support the MacNeil proposal, but fear it will appeal to many in the community.

For all of its problems, the Senate is a theoretically beautiful construction of considerable potential which, although largely unrealized at present, would vanish completely were the MacNeil proposal adopted. First, the Senate provides a channel for accountable representatives to make policy and budgetary decisions in areas of direct community concern. Second, the Senate provides a public forum for the venting of community frustrations, including those of employees and faculty as well as students. And finally, the Senate, being armed with substantial investigatory authority, performs an invaluable gadfly function. We believe these powers must continue to reside in the community.

To think that we in the

Cornell community are faced with the simple choice of retaining the Senate in its present form or losing all control over our affairs is far too simplistic. We believe the range of possibilities is wide and the choice of alternatives must be made by the community. Therefore, we submit the following proposal for action.

We plan to draft a community referendum bill within one month for consideration by the Senate, which will focus on two aspects of Senate reform: the domain of self-governing jurisdiction and the mechanism of governance. The Cornell community will be asked to answer the two key questions of self-governance by choosing among a series of options — those dealing with community jurisdiction (such as, athletics, academic calendar, tuition levels and personnel policies) and those dealing with the representative organization or mechanism such as a Community Board of Representatives, combined Senate and Faculty Council of Representatives, small advisory committees or student government). In drafting this bill for the Senate's consideration we seek the widest possible participation and solicit your help as elected representatives of the community.

If the Senate moves quickly with the legislation, it is not unreasonable to assume that the referendum can be held in early November. In keeping with this time schedule, the Senate, equipped with the sense of the community, could work with the Faculty Council of Representatives and the Board of Trustees to draft the necessary new legislation prior to the Senate and Trustee elections to be held in February, 1976. The final step, then, would be submission of the new plan to these bodies and the community at large for their approval.

We are fully aware that this proposal is tightly-scheduled and time-consuming. But, we are equally aware that without immediate reformatory measures, the University Senate may be terminated by a simple act of the Trustees and we shall all be party to the death of self-governance at Cornell.

Open Bids Oct. 13 On Malott Addition

Cornell will receive bids Oct. 13 for construction of a four-story addition to Malott Hall, home of the Graduate School of Business and Public Administration (B&PA).

Made possible by an anonymous gift announced last year, the project is expected to be completed by Jan. 1, 1977. The final go-ahead for the buildings was made by the Executive Committee of the University Board of Trustees at its monthly meeting here yesterday (Sept. 9).

The date of Oct. 24 was set for awarding contracts, should the bids received fall within the

budget requirements for the project, which total \$1,100,000. The working drawings for the building have been prepared by Levatich Miller Hoffman Architects of Ithaca.

The structure will contain 15,000 gross square feet of space and will be located along Garden Ave. to the south of the present building, which opened in 1964. Connected to the old building by 30-foot-long enclosed bridges, the new building will have two lecture auditoriums, faculty and administrative offices, additional library space and student activity areas.

Job Opportunities

Continued from Page 2

Lab. Tech. I, NP-8 (Veterinary Microbiology (1 yr))
Lab. Tech. II, NP-11 (Genetics & Development)
Lab Technician, NP-8 (Div. of Lab Animal Med & Ser (1 yr))
Lab Technician, NP-8 (Neurobiology and Behavior (2 yr.))
Research Tech. IV, NP-14 (Vet - Physical Biology)
Research Tech. III, NP-12 (Natural Resources (1 yr))
Research Tech. III, NP-12 (Vegetable Crops)
Research Tech. III, NP-12 (Neurobiology (1 yr))
Postdoctoral Associate (4) (Genetics, Dev. & Phys. (1 yr))
Production Controller II, A-19 (Computer Services)
Experimentalist (Seed & Vegetable Sci. (Geneva))
Experimental Machinist, A-19 (Lab of Nuclear Science)
Asst. Supervisor, A-22 (Physical Plant Operations)
Custodian, A-13 (Housing)
Food Service Worker, A-11 (Dining)
Catering Assistant, A-13 (Dining)
Orchard Manager II, NP-15 (Pomology (Geneva))
Media Maker, NP-8 (Food Science)
Assistant Technical Director, A-15 (Theatre Arts)
Assistant Cook, A-14 (Dining)
These are all permanent full-time positions unless otherwise specified.

PART-TIME AND TEMPORARY POSITIONS

(All Temporary and Part-time positions are also listed with Student Employment)

Administrative Secretary, A-15 (College of Architecture (perm p/t))
Department Secretary, A-13 (Economics (1 yr) (sh))
Department Secretary, A-13 (CRSR (temp p/t))
Department Secretary, A-13 (Biological Sciences (perm p/t))
Steno II, NP-6 (Human Dev & Fam Studies (temp p/t))
Steno I, NP-5 (Agricultural Economics (perm. p/t))
Steno II, NP-6 (Coop. Ext. Admin. (perm p/t))
Steno II, NP-6 (Education (temp f/t) (sh))
Steno II, NP-6 (Education (temp f/t))
Bilingual Secretary (Spanish-English) (DMLL (temp p/t))
Secretary - Temp. (Ecology and Systematics (temp. f/t))
Temp. Service Clerk, NS (Wiegand Herbarium Section (perm. p/t))
Committee Aide (University Senate (perm. p/t) (9 mos.))
Temp. Service Clerk (Natural Resources (temp. p/t))
Lab Technician, A-15 (Ecology & Systematics (temp f/t))
Cashier (B&PA (perm p/t) (9 month))
Research Associate in Waste Mgmt. (Agronomy (temp. f/t))
Research Technician IV (Biochemistry (temp f/t))
Research Technician II, NP-10 (Plant Pathology (temp f/t))
Research Associate (Plant Breeding (temp p/t))
Postdoctoral Associate (2) (Agronomy (temp f/t))
Extension Aide (Div. of Nutritional Sci. (temp f/t))
Research Specialist (NYSSILR (temp p/t) (1 yr))
Instructor (Neurobiology & Behavior (1 yr) (p/t))
Lab Technician II, NP-11 (Biochemistry (temp f/t))
Lab Assistant (Neurobiology & Behavior (temp p/t))
Temporary Service Technician (Poultry Science (temp p/t))
Temporary Service Technician (Chemistry (temp p/t))
Lab Assistant III, NP-5 (Poultry Science (temp p/t))
Lab Technician II, NP-4 (Genetics (temp f/t))
Lab Technician II, NP-11 (Div. of Nutritional Sci. (temp f/t))
Lab Technician, NP-8 (Agronomy (perm p/t))
Lab Technician, NP-10 (Plant Breeding & Biometry (temp f/t))
Library Assistant (Mann-Entomology (perm p/t))
Searcher I, A-13 (Univ. Libraries Acquisition (Dutch) (perm p/t))
Teaching Specialist (Div. of Nutritional Sci. (temp. 3/4))
Physical Therapist (Univ. Health Serv. (perm. p/t))
Varsity Light Weight Crew Coach (Athletics (temp p/t))
Storekeeper IV (Student Housing (temp f/t))
Elec. Technician (Lab or Nuclear Studies (temp f/t))
Visual Aids Operator (Clinics Adm. Bio. Med. Comm. (perm p/t))
Technical Aide II, NP-11 (Media Services (1 yr))
Technical Aide Jr., NP-7 (Media Services (perm p/t))
Custodian, A-13 (Statler Inn (temp. f/t))
Custodian, A-13 (Athletics (perm p/t))
Lab Assistant, NP-8 (Entomology (temp f/t))

Cornell University Theatre

'Candida' Opens Season

Celebrating its 50th anniversary in the Willard Straight Theatre, the Cornell University Theatre (producing arm of the Department of Theatre Arts) has announced a varied production schedule for the 1975-1976 Winter Season.

A Theatre Series of five plays in the Willard Straight Theatre, four plays in the experimental theatre in Drummond Studio, as well as the Cornell Dance Concert in Statler Auditorium, are on the schedule beginning in October and running through May.

It was Nov. 19, 1925, that the Cornell Dramatic Club (original producing arm of the Department of Public Speaking which evolved through the Department of Speech and Drama to the present-day Department of Theatre Arts) formally opened the new theatre with a performance of "The Contrast," the earliest American social comedy. Featured as the young hero was Franchot Tone, then a Cornell student. The theatre in the original student union on the Cornell campus has been the primary home of Departmental productions since then.

The 1975-1976 Theatre Series will include Bernard

Shaw's "Candida" Oct. 16-19, 23-25. One of the world's great plays, it has brought delight to audiences for decades with its portrayal of that rare creature, a radiantly happy woman. It is given as part of the University Libraries' "Shaw Year," in honor of the donor of the Libraries' extensive Shaw collection.

November 13-16, 20-22 will see Pirandello's "Right You Are if You Think You Are" on stage, directed by visiting director John Reich. Italy's greatest dramatic genius and Nobel Prize winner tells a suspense story with humor and compassion, nudging the intellect with questions about what is real and what is not.

Third in the series will be Maxim Gorki's "The Lower Depths" March 4-7, 11-13. The most memorable work of Russia's great master of dramatic realism, the widely-acclaimed classic tale focuses on the misfits of society, a motley group living in a ramshackle inn.

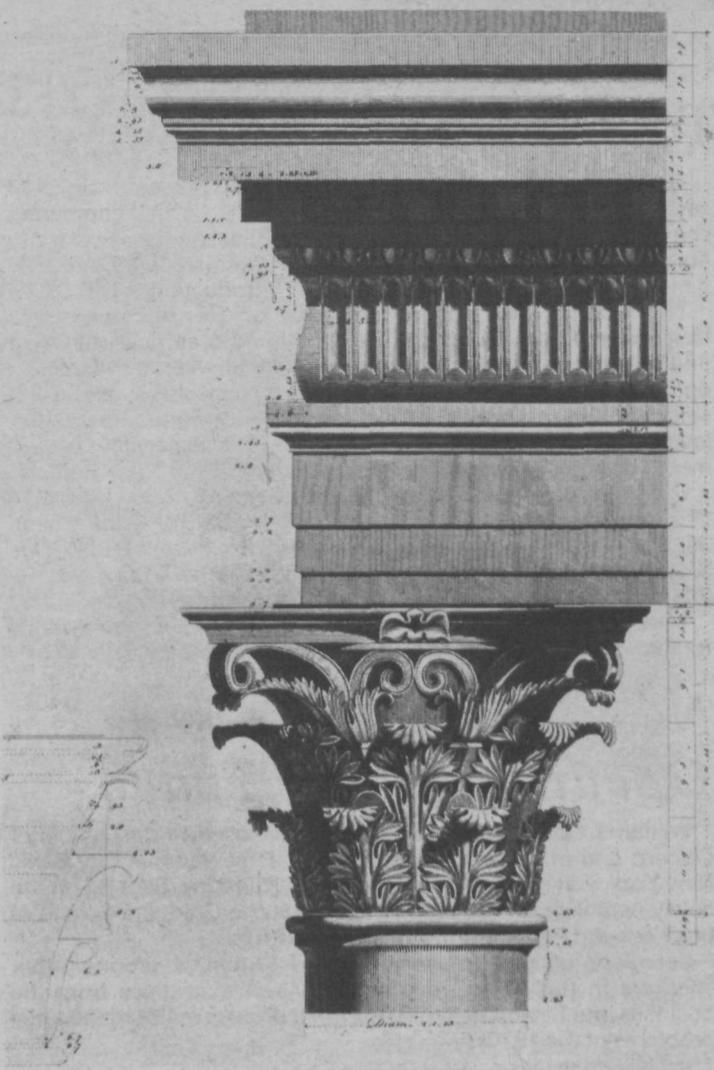

In a departure for the winter season, Shakespeare's world-famous story of young love, "Romeo and Juliet," will be explored in a new and adventurous format with a group of

12 actors. It will rotate performances with Arthur Miller's searing drama of a man's failures in love, "After The Fall." The two will play April 29-May 2, 5-8.

Season Tickets at a discount are now available to theatre patrons for the Theatre Series, by mail or in person at the Theatre Business Office, lower floor of Willard Straight Hall. The five scrip are usable in any combination and apply to Friday and Saturday performances (they may be exchanged for other evenings if it is more convenient).

Subscribers have first choice of seats prior to public sale, so are assured of their favorites on the heavy-attendance evenings. Single admission tickets will be available on announced sales dates prior to each production at the Theatre Box Office, open 3-6, Monday-Friday. Discounts to students and senior citizens will also be available.

In addition to the Theatre Series and not included in the season ticket will be Joe Orton's "Loot" (Oct. 8-12), a play that attacks sacred institutions in a Wildean drawing room comedy of the "blackest" hue; an evening of French music and theatre which will include Jean Cocteau's "La Vois Humaine," with music by Poulenc, and sketches by Tardieu (Oct. 30-Nov. 2, 6-8); a Japanese Noh drama (Dec. 3-7); and an anti-fairy tale play by Ludwig Tieck, "Puss-in-Boots" (April 15-18, 22-24). All are in Drummond Studio. The Cornell Dance Concert is in Statler Auditorium on April 16 and 17.

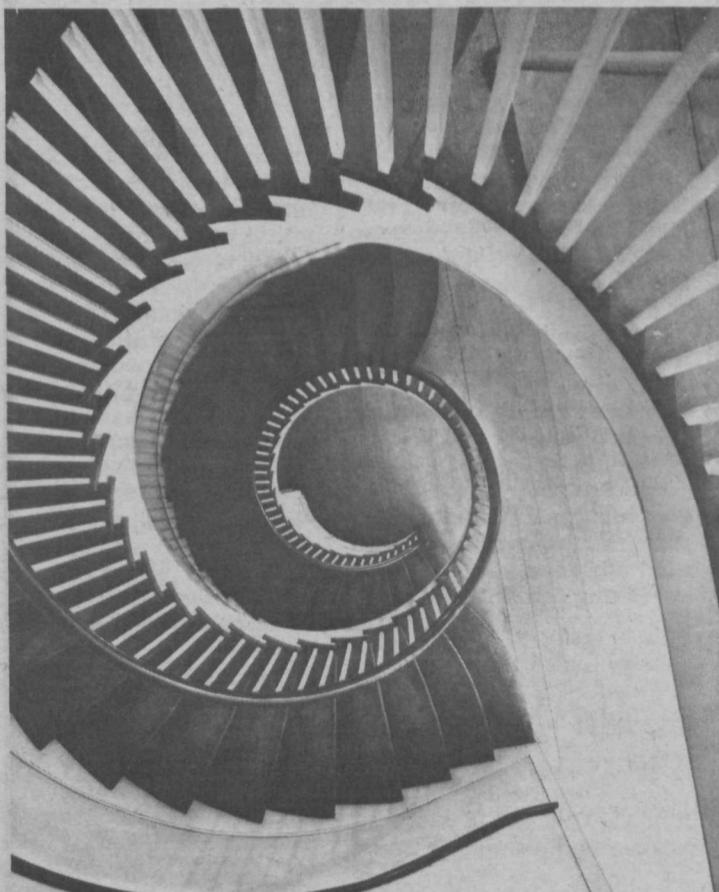

Architecture Exhibit

This detail of a Corinthian capital is part of an extensive exhibit, "Architectural Measured Drawings," in Olin Library through Oct. 3. Seen in the Rare Book room and lobby exhibit areas, the drawings and books, some dating back to the early 17th century are part of the University's Architectural Library, one of the finest in the world, which started with the personal collection of Cornell's first president, Andrew Dickson White. The exhibit is taken from research on measured drawings by John Poppeliers, chief of the Historic American Building Survey (HABS) of the Department of the Interior. The Advisory Board of HABS, of which Barclay G. Jones, professor of policy planning and regional analysis is a member, will be meeting on campus Friday and Saturday of this week.

'E' Parking Lot Reopened

The Cornell "E" parking behind Willard Straight Hall has been reopened to holders of "E" permits effective last Tuesday (Sept. 9), according to Samuel Rowe, appeals and program officer, Traffic Bureau.

Some 20 spaces will continue to be reserved for construction workers for about another month, he said.

Spiral Stair Sparks Show

This view of a spiral staircase in Pleasant Hill, Ky., is in an exhibit "The Art of Architectural Photography" at the Herbert F. Johnson Museum of Art through Oct. 8. The photographs — ranging in subject matter from Wyoming mining towns to Florida mansions, and from architectural sculpture to streetscapes — were selected from pictures taken over a 20-year period by Jack E. Boucher, staff photographer of the Historic American Buildings Survey (HABS) of the Department of Interior.

Bird, Wildflower Paintings Shown

Bird and wildflower paintings by Roger Tory Peterson will be on display at the Laboratory of Ornithology, 159 Sapsucker Woods Road, from Sept. 15 through Nov. 2.

Peterson, a world-reknown ornithologist, naturalist, author and lecturer as well as a wildlife artist, is the originator of the popular field guide series which began in 1934 with his "Field Guide to the Birds" and now covers natural things ranging from sea shells to the night sky.

Some representative plates from the field guide series will be featured at the Laboratory

of Ornithology exhibit. A select group of original paintings also will be offered for sale. The artist will be on hand to greet Laboratory of Ornithology visitors on Sunday, Oct. 5.

Peterson coordinated educational activities for the National Audubon Society and served as art editor of Audubon Magazine from 1934 to 1943. He is current art director for the National Wildlife Federation and special consultant to the National Audubon Society. He holds six honorary doctorates and has received numerous medals and awards for his work.

The Laboratory of

Ornithology is open to the public Monday through Thursday from 8 a.m. to 5 p.m., Friday from 8 a.m. to 4 p.m. and Saturday and Sunday from 10 a.m. to 5 p.m.

Convocation 'On Choosing Life' Sunday

Robert Rue Parsonage will address the Sage Chapel Convocation "On Choosing Life" at 11 a.m. Sunday, Sept. 14.

Parsonage has been the associate executive of education in the Society of the National Council of Churches of Christ in New York City since 1973. He also served for 10 years as college chaplain and assistant professor of religion at Springfield College in Massachusetts.

An ordained minister in the United Church of Christ, Parsonage holds degrees from Carleton College, the Pacific School of Religion, Berkeley, and the Harvard Divinity School. He received his Ph.D. in human nature and religion from the Hartford Seminary Foundation.

Campus Club Open to All Cornell-Connected Women

The Campus Club of Cornell will meet Sept. 18 in the North Campus Union Lounge from 12 noon to 2 p.m. to welcome newcomers and sign up for activity groups. Baby-sitting will be provided. All women connected with Cornell are eligible for membership, including women who work at Cornell or whose husbands work there, graduate student women and wives of graduate students.

Future programs include a field trip, "Glacial Geology of the Campus Area," led by Professor Arthur L. Bloom in October; a traditional Christmas holiday tea and musical program; a fine arts series at the Herbert F. Johnson Museum of Art in February 1976.

Computer Services Office To Present Seminar Series

The Office of Computer Services will again present a series of seminars this fall on topics of interest to the Cornell computing community, including new ideas and facilities, plus areas of traditionally high interest. The first of these seminars will be at 2:30 p.m. Friday, Sept. 12, in G-14 Uris Hall, "Introduction to O.C.S."

This seminar will outline the scope of Cornell's computing facilities and procedures for using them. It is an opportunity to find out how to open an account, where and when terminals are open, how to find documentation and consulting, and what software, including operating systems, program packages, languages and utilities are available. It is especially recommended for those new to computing at Cornell.

Others in the series include: Friday, Sept. 19, 2:30 p.m., G-14 Uris Hall, "Conversational Monitor System (CMS);" Friday, Sept. 26, 2:30 p.m., G-14 Uris Hall, "More CMS Facilities;" Friday, Oct. 3, 2:30 p.m., G-8 Uris Hall, "OS/JCL and HASP;" Friday, Oct. 10, 2:30 p.m., G-8 Uris Hall, "Human Factors in Computing."

Topics for the rest of the series will be listed later. Suggestions for future topics should be directed to Mike Steinberg at 256-7341.

New 'Executive Forum' Opening Lecture Today

William I. Spencer, president and chief administrative officer of Citicorp and of its principal subsidiary, First National City Bank, New York, will give the opening lecture Thursday, Sept. 11, in the newly established "Executive Forum" at the Graduate School of Business and Public Administration (B&PA).

Secretary of the Treasury William Simon is among other speakers in the series, in which top-level executives from the business, public and health sectors will discuss major managerial problems of the 1970s.

Spencer will speak at 4 p.m. in Bache Auditorium in Malott Hall on the topic: "Bureaucracy: Its Effects on Business and the Economy as a Whole."

He will answer questions after his talk, following a format established for the series, which will include six speakers this fall. The other speakers and the dates of their talks are: Morris Udal, Democrat Congressman from Utah, Sept. 26; Simon, Oct. 10; David Rockefeller, chairman of Chase Manhattan Bank, Nov. 24, and Kenneth Jamieson, recently retired president and chairman of Exxon, Dec. 3 and 4.

A second series of speakers for the spring term is being arranged.

Energy Directory Available

The Office of Academic Funding, 123 Day Hall, has received the Washington Energy Directory. This 100-page reference work provides a clear summary of the national energy research and development program for the fiscal year beginning July 1, 1975. It identifies key personnel who have significant roles in energy R&D policies and who administer specific programs and R&D funds. It also provides a synopsis of the legislative basis for these programs. Detailed information is given on Energy Research and Development Administration (ERDA), National Science Foundation, Federal Energy Administration, Environmental Protection Agency and the Departments of Interior and Transportation. Several other smaller agencies are also listed. The Directory may be seen at the Office of Academic Funding, 123 Day Hall.

Luce Scholars Competition Application Deadline Nov. 1

Cornell alumni and graduating seniors are eligible to compete for selection as Luce Scholars, according to David Cullings, associate director of the Career Center at the University. Cullings is secretary of the Luce Scholars nomination committee. Cornell is one of 60 universities and colleges invited to participate nationwide in the competition, sponsored by the Henry Luce Foundation.

The 15 annual Luce Scholars assume one-year apprenticeships in East Asian nations to work with a professional Asian counterpart in the host nation. The Foundation provides a stipend of \$9,000 for each scholar, plus \$2,000 if accompanied by a spouse.

Candidates must be United States citizens no more than 27

years of age by Sept. 1, 1976. They should be able to demonstrate high academic or professional achievement, leadership ability and have clearly defined career objectives. Persons specializing in Asian studies or international affairs are ineligible, Cullings said.

The application deadline is Nov. 1. Inquiries should be directed to Secretary, Luce Scholars Nomination Committee, Career Center, 14 East Ave., Ithaca, N.Y. 14853. Announcement of scholars is made in March.

Cornell Women's Caucus Formed

The Cornell Women's Caucus, a new independent organization, has been formed to consider the issues of affirmative action as they affect the status of women at the University.

The committee, composed of faculty, students and staff, is open to all those who wish to

work on these issues.

"Discussion and research have focused on accumulating information on affirmative action procedures at Cornell and at other comparable institutions, on patterns of discrimination in hiring, salaries and promotions at Cornell and on recommendations for more effective implementation of af-

firmative action within the University," according to Margaret Unsworth, co-chairperson and assistant dean, College of Arts and Sciences.

The caucus is "an association of women at Cornell University who share a commitment to the growth and development of the University community and to the improvement of the status of women who are part of it ... the purpose of the caucus shall be to consider issues of common concern at the University, to gather accurate information on such concerns, to communicate and cooperate with other University agencies on matters of mutual importance, and to take appropriate action where it may be deemed necessary by the caucus," according to the group's statement of purpose.

The caucus convenes weekly at 12:15 p.m. Tuesdays in 494 Uris Hall for a brown-bag lunch meeting.

Research Laboratory Renamed for Founder

The Executive Committee of the Board of Trustees has approved the renaming of the Veterinary Virus Research Institute in honor of its founder, the late Dr. James A. Baker.

The facility, part of the New York State College of Veterinary Medicine at Cornell, is now the James A. Baker Institute for Animal Health.

The renaming, announced unofficially at the institute's 25th anniversary celebration on Sept. 5, recognizes both Dr. Baker's world-famous contributions to veterinary medicine and the expanding role of the institute in promoting animal health.

While known most widely for its research on canine diseases including distemper, hepatitis and brucellosis, the institute has also been instrumental in identifying infectious agents in cattle, swine, horses, cats and other animals. It has carried out important research on immune response and disease prevention, degenerative bone diseases and hip dysplasia. Institute findings, in the form of vaccines, diagnostic tests and treatment methods, have found practical application throughout the world.

The 25th anniversary celebration of the institute had been planned by Dr. Baker to review some of the facility's accomplishments, to honor those involved in its founding and growth and to announce his own retirement as institute director.

Although saddened by Dr. Baker's sudden death on April 15, his colleagues at the College of Veterinary Medicine carried out his wishes for the celebration, inviting speakers from the veterinary community, comparative medicine, government and industry to take part in a day-long symposium.

Keynote speaker for the celebration was Dr. Alan O. Betts, principal and dean of the Royal Veterinary College, London, England. Dr. Betts worked with Dr. Baker at the institute in 1955-56 as a Commonwealth Research Fellow.

Other speakers at the symposium were: Dr. Edward C. Melby Jr., dean of the New York State College of Veterinary Medicine; Dr. Leland Carmichael, scientific director of the James A. Baker Institute for Animal Health; James Biddle, vice president for research of Pittman-Moore, Inc., a pharmaceutical com-

Cornell Receives Cancer Institute Grant

The New York State College of Veterinary Medicine has received a five-year, \$448,286 grant from the National Cancer Institute (NCI) for the study of viral infections in chickens which have been shown to cause cancer.

Entitled "Studies of the Avian Leukosis Complex," the research will be carried out by Drs. Bruce Calnek and Julius Fabricant, co-investigators and professors in the college's Department of Avian and Aquatic Animal Medicine.

The researchers are interested primarily in the pathogenesis of virally induced cancer, that is the mechanism by which the disease is produced. They will be examining the genetic makeup, age and physical condition of the hosts, their immune responses, the virulence of various strains of virus, and other factors which may help explain why only some animals affected with the viruses develop cancer.

Dr. Calnek and his associates have been working with a herpes virus and a leukemia-type virus for the past 13 years

with the support of NCI. While these viruses do not seem to infect humans, understanding how they work could help elucidate the mechanism of related viruses which have been suspected of causing human cancer.

In 1969 Dr. Calnek's team separated a cancer virus from the cells of chickens affected with Marek's disease, an infection which was costing the poultry industry some \$500,000 a day, and transmitted the disease to other birds.

A year later, in collaboration with Dr. Stephen Hitchner, the investigators developed methods for extracting and freeze-drying virus which was effective as a vaccine against Marek's disease. Vaccine produced in this manner is now used over much of the world.

Under the new grant, which took effect on Sept. 1, the researchers will use the tools and information they have already uncovered to test new theories and develop new investigative techniques.

'Come the Revolution' ... in Dining

Martha and Thomas Jefferson (Noemi de Bodisco and Curt Anderson) hosted the first of 12 Great American Dinners being served by Dining Services. Each of the 12 special menu dinners will be served three times, once each at Willard Straight, North Campus and Noyes Center. "An Evening with Jefferson at Monticello" will be featured at North Campus tomorrow. Costumed servers and trestle tables of Vermont Barn Board laden with displays of Revolutionary era foods and colorful bouquets create the appropriate atmosphere. The menu a favorite of Jefferson to serve his guests, includes consomme Julien, deviled eggs with Lancashire cheese strips, roast lamb with brown gravy, conserve of whole currants, green peas with mint, pilau with pignon nuts, salad of mixed "garden stuff" (that's what T. Jefferson called it), beaten biscuits, assorted cheeses, creme brulee, Peabody punch, coffee and fruit. The same dinner will be served Sept. 16 at Noyes Center. The next Great American Dinner will be a Pennsylvania Dutch menu, to be served first at North Campus.

Open Meeting to Consider Judicial Advisor Nomination

The Senate Codes and Judiciary Committee will consider the nomination of the new judicial advisor at an open meeting at 3:30 p.m. on Tuesday, Sept. 16, in the conference room, 133 Day Hall.

Professional Skills Roster Begins 9th Year of Service

The Professional Skills Roster has reopened after the summer vacation to begin its ninth year of volunteer service to the Cornell and Ithaca communities. Organized in 1967 by Women in Science as a job referral agency designed to encourage women with needed skills to re-enter the work force, the Roster now actively works to place both women and men in appropriate jobs in the greater Ithaca community. Operating out of Sheldon Court and open week-day mornings from 9:30-12:30, a group of volunteers interview job applicants and make referrals to jobs called into the Roster by prospective employers.

Applicants listed with the Roster possess a wide range of skills, from typists to writers, editors, linguists, illustrators, tutors, laboratory assistants, computer operators and many more. Applicants are available for full-time, part-time or free lance work.

Individuals seeking skilled employes are urged to call the Roster and talk over their needs. The Roster volunteers are able to handle requests very rapidly. The phone is 256-3758.

As a volunteer agency, the Roster is supported by application donations and gifts from friends, all of which are tax deductible.

Law Professor Appointed To English Channel Court

Herbert W. Briggs, the Goldwin Smith Professor of International Law, Emeritus, has been designated by joint action of the British and French governments to serve on a Court of Arbitration to delimit the continental shelves of France and England in the English Channel and its Western Approaches.

Briggs is one of five judges to serve on the court, scheduled to hand down its decision by late next year.

Other judges are Erik Castren of Finland, who will serve as

President of the tribunal, Paul Reuter of France, Endre Ustor of Hungary and Judge Sir Humphrey Waldock (United Kingdom) of the International Court of Justice. All members of the tribunal have served on the United Nations International Law Commission.

Briggs retired from the Cornell faculty in 1969 after teaching international law for 40 years.

Personnel Announces Retirements

Robert C. Barnard, Buildings and Properties, employed 11/17/64; retired 7/1/75.

John M. Briggs, Animal Science, employed 1945; retired 6/30/75.

Donald H. Decker, Technical Services and Facilities, employed 7/29/46; retired 7/1/75.

Florence E. Drayton, College of Veterinary Medicine, employed 4/14/69; retired 7/1/75.

Doris I. German, Finance and Business, employed 1/18/54; retired 6/5/75.

Edith C. Griffin, College of Veterinary

Medicine, employed 8/27/56; retired 7/24/75.

Carroll Holmes, Dining Services, employed 9/17/59; retired 7/1/75.

Anna M. Jenkins, Dining Services, employed 10/15/56; retired 7/1/75.

Marjorie S. Judway, Alumni Affairs, employed April, 1951; retired 6/30/75.

Laverne B. King, Food Science, employed 10/10/50; retired 6/1/75.

Elizabeth Komaromi, Student Housing, employed 11/12/56; retired 6/2/75.

Ralph A. Miller, University Bursar, employed 8/1/31; retired 5/19/75.

Raymond Morey, University Health Services, employed October, 1944; retired 7/1/75.

Jacob E. Page, Buildings and Properties, employed 3/2/65; retired 7/1/75.

Walter Rychlyk, Dining Services, employed 7/3/50; retired 7/1/75.

James M. Sherwood, Floriculture and Ornamental Horticulture, employed May, 1952; retired 6/1/75.

Helen Stillwagon, Student Records and Finance, employed 9/17/62; retired 6/26/75.

William V. Tompkins, Safety Division, employed 9/10/58; retired 6/1/75.

Helen Y. Watkins, Student Housing, employed 9/3/57; retired 7/1/75.

LuFanna Whiting, Personnel Services, employed 3/27/61; retired 7/1/75.

Dorothy M. Inman, Dining Services, employed 11/3/44; retired 7/9/75.

Virginia Ross, Animal Science, employed 9/1/56; retired 6/27/75.

Robert H. Johnson Sr., Veterinary Medicine, employed 5/1/60; retired 7/1/75.

Bernice Cooper, Animal Science, employed 6/6/60; retired 6/11/75.

Olin P. Tuthill, Poultry Science, employed 4/13/65; retired 7/1/75.

Rose M. Frost, Univ. Health Services, employed 9/12/56; retired 7/1/75.

Chemical Engineering Professor Elected Fellow of AIChE

Julian C. Smith, professor and director of chemical engineering has been elected a Fellow of the American Institute of Chemical Engineers (AIChE). Professor Smith lives in Ithaca.

Professor Smith, a member of Cornell's faculty since 1946,

was cited for his professional attainments, particularly the textbook, "Unit Operations of Chemical Engineering," which he coauthored with W.L. McCabe. He also has contributed to Perry's "Chemical Engineer's Handbook."

Film Classics Series Free

A number of film classics, one dating back to 1920, are being offered free to the Cornell community Friday nights. The series began last Friday and will be shown in Uris Auditorium at 8 p.m. on Friday nights through December 12.

They have been selected by a committee of Arts College faculty and in a number of cases will be discussed in various courses during the fall term. Known as Pentangle II, the series is supported with funds from the University and the College of Arts and Sciences. A similar series is being planned for the spring term and it is hoped the showing of free film classics will become a permanent part of the Cornell cultural activities. The schedule is as follows:

Sept. 12, "Primate," (dir: Frederick Wiseman, 1974, U.S.).

Sept. 19, "Before the Revolution," (dir: Bertolucci, 1964, Italy).

58 Sport Events Fill Fall Season

Cornell's fall sports events number 49, in addition to the nine football games, according to Dean of Athletics Robert J. Kane.

Dan Wood's soccer team, on a 19-day exhibition tour of Poland in August, had a surprising 8-3-1 record against native third division and junior clubs. The booters open their regular season at Colgate Sept. 24, following exhibition games with Birmingham of England, Adelphi and Ithaca College.

Freshman football, under new coach Bob VanLancker, starts here Sept. 26 against Montclair. Lightweight football, coached by the veteran Bob Cullen, starts at Penn Oct. 3.

Cross country, under Jack Warner, opens at home Sept. 26 against Colgate.

The schedules:

Cross country — Sept. 26, Colgate; Oct. 4, at Syracuse; 11, Army; 18, Harvard; 25, at Yale; Nov. 1, Rochester and Bucknell at Rochester; 7, Hep-

tagonals at New York; 17, IC4A at New York; 25-27, NCAA at University Park.

Varsity Soccer — Sept. 10, Birmingham of England exhibition; 13, Adelphi exhibition; 17, Ithaca College exhibition; 24, at Colgate; 28, Brockport; Oct. 4, at R.P.I.; 12, Princeton; 17, Harvard; 22, Cortland; 25, at Yale; 28, at Binghamton; Nov. 1, Columbia; 5, Hartwick; 8, Brown; 15, at Dartmouth; 21, at Pennsylvania.

Junior Varsity Soccer — Sept. 17, Monroe CC; 24, at Colgate; 26, Ithaca College; Oct. 1, at Hartwick; 7, Binghamton; 11, Oswego; 16, at Oneonta; 18, Cortland; 25, Alfred Tech; 30, at Ithaca College.

Lightweight Football — Oct. 3, at Pennsylvania; 10, Army; 17, at Columbia; 24, Princeton; Nov. 1, at Navy; 14, Rutgers.

Freshman Football — Sept. 26, Montclair; Oct. 3, at Cortland; 10, Colgate; 17 at Syracuse; Nov. 7, at Army; 14, at Colgate.

College of Architecture, Art and Planning

Priorities Study Summary

The Chronicle regrets that it omitted from last week's publication of summaries from the presidential study of priorities the summary of the study conducted by the College of Architecture, Art and Planning.

It appears below:

SUMMARY: COLLEGE OF ARCHITECTURE, ART AND PLANNING

1. The educational programs of the College of Architecture, Art and Planning have been successful in adapting to new educational needs in times of change in the responsibilities of these professions. Enrollment increases have been absorbed with no decline in program quality. The productivity of the college faculty as measured by average teaching loads has improved by 20 per cent over the last three years.

2. Careful and responsible analysis of budget reduction options for the college is complicated by the facts that a new chairman of the Department of Architecture from outside Cornell is beginning his term in the fall of 1975 and a merged and reorganized Department of City and Regional Planning will begin operation July 1. Changes in curriculum that will be reviewed by the faculty of both departments next year will probably have important effects on the choices among budget reduction options.

3. In recent years there have been several thorough studies of the college's levels of expenditure for support staff and general expenses. It is recommended that no reductions be made in these budgets. The college's budgets for support

staff and general expense are the lowest of any college in the University. Reductions would seriously impair the effective operation of the college and its departments.

4. The effect of budget reductions of 10 per cent with no reduction in support staff or general expense based on total college budget would be the elimination of the equivalent of 12.5 full time junior positions (a 21 per cent reduction in total faculty size). Such budget reductions are much too great to absorb without serious impairment of core instructional and research programs.

5. A 10 per cent reduction based on college-wide budgets for instruction and research would require the elimination of the equivalent of 8.0 junior faculty positions (a 14 per cent reduction in total faculty size). While it may be possible to achieve reductions approaching this level over time it is not possible to conclude at this time where the cuts should be made or whether or not such a reduction could be achieved without seriously impairing the effectiveness of the college's instructional and research programs. The reason for these uncertainties is summarized in point 2, above.

6. The new chairman's request to defer budget reductions in the Department of Architecture for one year pending a study of options related to possible changes in curriculum, course content and teaching methods has been approved by the provost. The chairman has started efforts this summer to familiarize himself with the current programs and faculty resources.

The decision to defer cuts in architecture makes it difficult to weigh interdepartmental variations in budget reduction.

7. The Department of Art can make some reductions in faculty positions without major damage to instructional programs by savings achieved through retirements and by possible but perhaps undesirable elimination of one junior faculty position.

8. The newly reorganized Department of City and Regional Planning, because of its small size and its need to maintain a minimum range of professional specializations to hold its position among the top ranking schools in the field, cannot make budget reductions in faculty positions without seriously damaging program quality. Because they have no experience with the new curriculum organization and operation of the merged departments it is recommended that the department pursue additional studies of possible savings parallel with its work in developing the new format for instruction and research.

9. Decisions regarding possible reductions or elimination of relatively new programs in Visual Communications/Photography and in Graduate Landscape Architecture should be deferred until 1977-78 because of the relationship of such decisions to the studies that will be made during the coming year in the Departments of Architecture under the direction of its new chairman and in the newly reorganized Department of City and Regional Planning.

Kermit C. Parson, Dean

September Sunrise Silhouettes Barton

Summer Study Reports Out

The Senate has put copies of the complete Summer Study Group Reports on the Priorities Study on reserve in the following libraries: Clark, Mann, Olin, Uris and ILR.

Bulletin Board

English Language Course

A non-credit course in English as a second language for persons with a limited knowledge of English is being offered through the Division of Extramural Courses. Sections will meet Monday, Wednesday and Friday from 9 to 10 a.m. or 1 to 2 p.m. beginning Monday, Sept. 15 and ending Friday, Dec. 12.

Cost of the course is \$75, payable at time of registration. Interested persons may register at 105 Day Hall through Friday, Sept. 12.

Further information may be obtained at the Extramural Division Office (256-4987) or from the instructor, Patricia Marcus (273-6708).

Open Reading at Risley

Risley Residential College is sponsoring an open chorus and orchestra reading of Vivaldi's Gloria tomorrow, Sept. 12, at 8:15 p.m. All are welcome to come sing or play (instrumentalists, please bring a music stand). This is the first of several such readings of famous choral and orchestral works planned for the year. All readings are held in the Risley College Dining Hall.

Ukrainian Course Announced

The Department of Modern Languages and Linguistics announces a new course for Fall, 1975: Ukrainian 171 (Beginning Ukrainian). Those interested should contact Wayles Brown at Morrill Hall (256-2322) or Martha Kuchar (272-7518) by Friday, Sept. 12.

Literature Forum Lecture

Cornell Literature Forum (formerly Cornell Literature Club) "Critical Perspectives" series: "Art-as-Such: The Sociology of an Aesthetic Theory," to be given by Professor M. H. Abrams, Dept. of English, Cornell, at 4 p.m. tomorrow at Andrew D. White House.

Sage Note

There will be a meeting of the Graduate Faculty on Friday, Sept. 12, at 4:30 p.m. in Kaufmann Auditorium in Goldwin Smith Hall. The sole purpose of this meeting will be the approval of the August degree list.

Endowed graduate assistants (teaching or research) will receive their first check on Sept. 11. Check with department offices!

Graduate students are reminded that they must register if they are working on their theses, even if all course and residence requirements have been met.

The 1976-77 competition for grants for graduate study abroad offered under the Mutual Educational Exchange Program (Fulbright-Hays) and by foreign governments, universities and private donors will close shortly. Only a few more weeks remain in which qualified graduate students may apply for one of the 550 awards that are available to 52 countries. Most of the grants offered provide round-trip transportation, tuition and maintenance for one academic year; a few provide international travel only or a stipend intended as a partial grant-in-aid. Candidates must be U.S. citizens at the time of application, hold a bachelor's degree or its equivalent by the beginning date of the grant, have language ability commensurate with the demands of the proposed study projects, and good health. Preference is given to those between 20 and 35 years of age. Application forms and further information for students currently enrolled in Cornell University may be obtained from the campus Fulbright Program Adviser, Eva Poysa, who is located in 110 Sage Graduate Center. The deadline for filing applications on this campus is Oct. 17, 1975.

Bulletin of the Faculty

(Publication of the bulletin is supervised by the secretary of the faculty, Russell D. Martin, 315 Day Hall, 256-4843.)

REPORT OF THE MEETING OF THE FACULTY COUNCIL OF REPRESENTATIVES

September 10, 1975

At its regular monthly meeting the Faculty Council of Representatives heard reports from Provost David Knapp and Dean of the Faculty Byron Saunders; agreed on a change of date for the October meeting; and received and discussed a report from the Ad Hoc Committee on Academic Integrity. Sixty-four FCR members and 20 visitors were in attendance.

The provost concluded his remarks with reference to the research grants available to the endowed units. This year marks the most substantial increase in their value since 1969-70. He then turned the chair over to the new speaker, professor Robert Cooke, Agricultural Engineering.

After welcoming new FCR members, Dean Saunders announced dates for the regular meetings during the year and then mentioned priority concerns that are covered in more detail in his annual report which will be distributed soon.

The dean then moved that we suspend the rules and defer our Oct. 8 meeting to Oct. 15. He explained that this was being recommended in order that the president could meet with the entire faculty as early as possible to discuss his report that will be made to the joint FCR and Senate on Sept. 24. Motion was carried.

The dean next moved the following resolution which was carried unanimously:

RESOLVED, That

1. the FCR receive the report of the *ad hoc* Committee on Academic Integrity appointed to study and make recommendations concerning the maintenance of academic integrity in the several schools and colleges at Ithaca, and

2. the *ad hoc* committee be discharged with thanks, having fulfilled the assignment they were given, and

3. discussion of the report and the proposed Code of Academic Integrity be initiated immediately but with the adoption of the Code, including any amendments thereto, occurring no earlier than the next scheduled meeting of the FCR on Oct. 15, 1975, and

4. the adoption of the proposed Code be contingent on the passage of a specific resolution for this purpose, such resolution to be prepared and distributed in the call to the October 15, 1975 meeting.

Committee Chairman Ross J. MacIntyre then spoke briefly concerning the report.

He reported that the committee had met weekly from February through May, examining the present code and procedures followed by both the Academic Integrity Hearing and Appeals Boards. In addition, they compiled and analyzed data from the hearing board from the last three years and reviewed the codes and procedures from several schools

within the University. The committee also interviewed a number of people associated with our judicial process and finally solicited opinions from 75-100 faculty members.

During the discussion that followed, Dean Saunders emphasized that any person or group wishing to respond to any part of the proposed code (herein published in its entirety) should contact his office. The Executive Committee will see that all comments are properly channeled.

Meeting adjourned at 5:40 p.m.

CODE OF ACADEMIC INTEGRITY

PRINCIPLE

Absolute integrity is expected of every Cornell student in all academic undertakings; he must in no way misrepresent his work, fraudulently or unfairly advance his academic status, or be a party to another student's failure to maintain academic integrity.

The maintenance of an atmosphere of academic honor and the fulfillment of the provisions of this Code are the responsibilities of the students and faculty of Cornell University. Therefore, all students and faculty members shall refrain from any action that would violate the basic principles of this Code.

I. DEFINITION OF ACADEMIC INTEGRITY

A. General Responsibilities

1. A student assumes responsibility for the content and integrity of the academic work he submits, such as papers, examinations, or reports.

2. A student shall be guilty of violating the Code and subject to proceedings under it if he:

- knowingly represents the work of others as his own;
- uses or obtains *unauthorized* assistance in any academic work;
- gives *fraudulent* assistance to another student.

B. Specific Guidelines

The following are the specific rules and regulations in regard to the general responsibilities listed under I.A.2. above.

1. *Examinations.* During in-class examinations no student may use, give or receive any assistance or information not given in the examination or by the proctor. No student may take an examination for another student. Between the time a take-home examination is distributed and the time it is submitted for grading by the student, the student may not consult with any persons other than the course professor and teaching assistants regarding the examination. The student is responsible for understanding the conditions under which the examination will be taken.

2. *Course Assignments.* Students are permitted to consult with others and receive advice and assistance. The copying of another student's work, computation, diagrams, analyses, laboratory reports, or commentaries is prohibited. It is plagiarism and a violation of this Code for anyone to represent another's published work as his own. If materials are taken from published sources the student must clearly and completely cite the source of such materials. Work submitted by a student and used by a faculty member in the determination of a grade in a course may not be submitted by that student in a different course.

3. The crucial underpinning of all specific guidelines regarding academic integrity remains that the student's submitted work, examinations, laboratory reports and term projects, must be his own work and no one else's.

C. Variations

A faculty member may, at his discretion, make additions to or revisions of these guidelines in a particular course. It is his responsibility to make clear to his students and teaching assistants specific regulations concerning academic integrity that apply to work in his course.

II. ORGANIZATION AND PROCEDURES:

A. Primary Hearing

1. *Notification.* A student who is believed to have violated the Academic Integrity Code shall be presented with the charge by the professor who has or believes he has identified the infringement. Subsequently, he will be called to an interview in the office of the professor concerned. This interview shall be set at an appropriate time within two weeks following the alleged infraction. The student shall be given at least 48 hours notice of the interview.

2. *Composition.* At the interview the following will be present; the professor concerned, the student in question and a third party independent witness. The independent witness shall be a student or a faculty member appointed by the department. In addition, the student may bring to the hearing, among other proof of his innocence, other witnesses.

3. Procedure.

a. At the interview, the professor shall present evidence in support of the charge against the student. The student shall be given an opportunity to respond and, if he wishes, to present evidence refuting the charge.

b. After hearing the student, the professor may either dismiss the charge or find it supported on the basis of the evidence before him. If the student is found guilty, the professor shall record a failing grade in the course or in some portion of it, and report the grade and reason for it to the student's college.

c. The function of the independent witness is to observe the proceedings impartially, and be prepared to testify as to the procedures followed in the event of an appeal from the judgment of the professor.

d. A student wishing to appeal the decision may bring the case before the Academic Integrity Hearing Board of the faculty member's college.

B. College Academic Integrity Hearing Boards

1. *Composition.* Each college in the University shall establish an Academic Integrity Hearing Board. It shall consist of the following:

a. A chairperson shall be a member of the faculty appointed by the Dean of the college and shall hold office for one year.

b. Three faculty members, elected for three year terms by the faculty of the college.

c. Three students elected by procedures approved by the director of resident instruction or similar official of the college. They may also be appointed by the director of resident instruction. The students shall serve for one year and may be reelected.

2. Appeals.

a. The student may appeal from the decision of the primary hearing if:

i. He believes he was not given due process.

ii. He believes the penalty was too strict considering the offense.

iii. He contests the judgment of the professor.

b. The faculty member may bring the case to the appeals board if:

i. He believes a grade of F is too le-

nient considering the offense.

ii. The student has been given an F for cheating on a previous occasion or occasions.

c. In case of appeal the student or faculty member shall notify the chairperson of the appeals board of the faculty member's college.

3. Procedures.

a. Each board shall conform to procedures established by the Faculty Council of Representatives.

b. The chairperson shall convene the academic integrity hearing board within two weeks of an appeal and provide the faculty member, the student and the independent witness with at least seven days notification of the time and place of the meeting. If a grade for the student in the course must be submitted, the faculty member shall record a grade of incomplete, pending a decision by the appeals board.

c. Those present at the hearing shall be:

i. The student, who has the right to be accompanied by an advisor and/or by witnesses,

ii. The faculty member, who has the right to bring witnesses,

iii. The third party, independent witness,

iv. Any other person called by the chairperson.

Should the student or the faculty member fail to appear before the appeals board, the board shall have full authority to proceed in his/her absence.

d. The board members will question all parties to the dispute and examine all the evidence presented. It may solicit outside advice at the discretion of the chairperson.

e. The student shall have the right to present his case and to challenge the charges or the evidence.

f. A majority of the members of the board shall decide the issue. The chairperson shall vote only in the case of a tie vote.

g. Each Board shall have an executive secretary whose responsibility it is to keep clear and complete records of the proceedings. The records, however, will remain confidential and may be examined only by parties to the dispute, present members of the board or persons obtaining approval from the Dean of the college.

h. The chairperson shall notify each party to the dispute, in the form of a written summary report, of the board's decision and if appropriate, the penalty imposed. If the judgment of the faculty member is upheld by the board, or if the board feels a penalty stronger than an F grade is warranted, the Dean of the faculty member's college and the Dean of the student's college shall also receive the summary report.

4. *Actions.* The board may act in one or more of the following ways:

a. Find the student innocent of the charge.

b. Allow the professor's decision to give the student an F or U in the course or some portion of it to stand.

c. Recommend to the Dean of the student's college that the student be expelled from the University.

d. Recommend to the Dean of the student's college that the student be suspended from the University for a period of time.

e. Recommend that the words "declared guilty of violation of the code of academic integrity" be recorded on the student's transcript.

f. Require a definite period of counseling with a member of the University staff or an outside counseling agent. The college board should make every effort to see that the student has fulfilled this requirement.

Cornell Soccer Team Plays in Poland

"When you see Poland in the summer, you'll want to stay."

That was the prediction of Bill Sobolewski '76, a native of Poland and Cornell soccer player, when he learned that the Big Red would be making a 22-day tour of Poland during August.

Fifteen players and Coach Dan Wood enjoyed their visit and play in Poland, though none went as far as "Sobo" had predicted. (Abdullah Nezej did stay about a week longer than his teammates, but he had no choice. He was in a Polish hospital recovering from an eye injury.)

Wood and his team surprised many of their opponents with their play. Cornell won eight, lost three and tied one against a collection of teams of all ages and types. They played in six different cities, including Warsaw. After dropping their first two games, the Big Red came back to go seven straight without a defeat. The highlight of the streak was back-to-back shutouts in Szezecin.

But the highlight of the trip came in the people-to-people contact. Very few travel restrictions were placed on the Cornellians and they saw as much of the country as possible. On one off-day, they took a

12-hour train trip to the Medieval palaces and cathedrals in Crakow. Everywhere they went, they were the focus of attention because they were the first Americans the Poles had met. The players agreed that the people were very friendly and always willing to help them if they needed assistance.

The players did miss some of the material comforts of home because the food, lodgings and playing conditions often were not up to American standards. The dirt fields on which a number of games were played were a far cry from the Schoellkopf Poly-Turf, but Coach Wood is hoping the experience will be beneficial when they play on natural grass this season.

The final chapter to the experience won't be written until all the bills are paid. The Polish government paid for a portion of the expenses, but Wood and the players had to come up with most of the money through their own efforts. A number of generous alumni gifts helped, but the Cornell soccer team is still in the red. Three pre-season exhibition games were arranged to raise additional money and further alumni support will be sought.

Cornell soccer players rested and mugged for the camera outside of the dormitory in which they stayed during their two-game stay in Poznan. Visible Cornellians are Joe Mui, Howie Reissner, Bob Capener, Paul Beutenmuller, Bill Sobolowski, Abdullah Nezej, Steve Ruoff and Chris Ward.

Faculty Gets Break On CUA A Ticket Books

The Cornell All-Sports Ticket Book is now on sale to Cornell faculty and staff at the Teagle Hall Ticket Office.

Sales of the books to students is improved over last year, according to Dottie Scott, ticket manager, who believes the faculty and staff have an even greater incentive to buy than do the students.

"The price of the book, traditionally called 'the CUA A Book,' has been cut substantially for faculty and staff," Mrs. Scott said. "Married faculty and staff can purchase two books for \$40 this year, \$6 less than they paid last year."

All book holders will receive the same wide range of admissions as in the past. The book provides free admission to varsity football, soccer, basketball, lacrosse, track, swimming, wrestling, lightweight football, freshman football and junior varsity hockey. Book holders also have priority on hockey tickets for both the full season and individual games.

Married students are also getting a break on the price of books over last year. Married students can purchase two books for \$35, a reduction of \$2 from 1974.

Though the book prices are unchanged for single students (\$25), single faculty and staff (\$28) and townspeople (\$28), the 1975 book still represents a better deal than in the past, Mrs. Scott said.

"General admission prices for two popular sports, soccer and lacrosse, are \$2 this year,

up \$1 from 1974," Mrs. Scott said. "Since the book provides free admission to these and some 60 other home events, the bookholder is getting more than \$130 worth of tickets, for about 20 per cent of the total cost."

Ticket books in all price ranges are on sale at Teagle Hall Monday through Friday from 9 a.m. to 5 p.m. as well as at Mayers Smoke Shop and Willard Straight Hall.

Family Football Day

Clinic, Scrimmage Slated

Family Football Day at Cornell, featuring a clinic, picture-taking and a full-scale scrimmage, will be held at Schoellkopf Field on Sunday, Sept. 14.

Families are invited to picnic at Schoellkopf prior to the 1:30 p.m. clinic on the field for youngsters. During the hour-long session, it will be possible to take pictures of the youngsters with Big Red players and coaches. At 2:45, Coach George Seifert will put Cornell through an intra-squad scrimmage under game conditions.

All youngsters attending Family Football Day will receive a free photo of the team, autographed by all members of this year's Big Red squad.

The Sept. 14 scrimmage will

be the only time fans will have to see the Big Red in action before the season opener here with Colgate on Sept. 27. Cornell is not holding a pre-season exhibition game this year.

"We're really excited about Family Football Day," Seifert said. "This will be a great opportunity for young and old fans to get to meet our players and learn some 'inside' football. Also, we're looking forward to meeting the fans who are really important in making our program go."

Seifert has arranged the on-the-field clinic to accommodate six groups of youngsters — 8 and under, 9, 10, 11, 12, and over 12. They'll be positioned at six points on the field and each age group will be visited

by players and coaches who'll conduct "mini-clinics" on every aspect of the game.

The players will be divided as follows: quarterbacks, running backs, receivers, offensive linemen, defensive linemen, linebackers, defensive backs and kickers.

Following the clinic demonstration of techniques and drills, Seifert will describe how the Big Red will deploy on offense and defense this year — a Wing-T and a 5-2 — and explain some of the formations and sets Cornell will be using.

—CIVITAS Seeks Volunteers—

YOUTHWORKS, initiated in October, 1974, is a monthly newsletter for all people who work with youth in the Ithaca area. Its purpose is to facilitate communications among youth workers and make better use of Ithaca's many services. The newsletter provides a place to exchange information and a chance to share ideas and sympathies.

The first year of the project proved that **YOUTHWORKS** is a valuable and needed service to the community, but it also proved that such a project cannot be run properly with only a 4-5 hours per week staff person. Additional staff members are needed if the newsletter is to meet deadlines, maintain contact with youth workers, keep up with current problems and interests of youth, and cover all important events. The editor is seeking student volunteers to help with maintaining communications with other youth-serving agencies, interviewing, writing, editing and distributing. Contact the CIVITAS office or the Voluntary Action Center to offer your help to **YOUTHWORKS**.

Below are some other current requests for help. To respond to any of them, or to get information about other volunteer needs in the community, please call CIVITAS, 256-7513, Monday through Friday from 10 a.m. to 2 p.m., or call the Voluntary Action Center, 272-9411, Monday through Friday, 9 a.m. to 4:30 p.m. or Saturday, 9 a.m. to 1 p.m.

GREATER ITHACA ACTIVITIES CENTER needs volunteers to work with youngsters, aged 6 to 13, and teach or assist in puppet-making, cooking, model car building, gymnastics, jewelry making, karate or judo, woodworking, dancing, children's games, or supervising free play in gym. Days and times are from 3 to 5 p.m. weekdays (2 to 5 p.m. on Wednesdays).

ITHACA POET needs volunteer typist who likes to work with children and is interested in literature ... to work with a group of 11 year olds who are putting together a magazine composed of children's poems and stories. To meet in downtown Ithaca on Tuesdays from 3:30 p.m. to 5 p.m., beginning Sept. 16.

SUICIDE PREVENTION AND CRISIS SERVICE needs volunteer counselors to begin a seven-week training session on Sept. 23. Must be 21 or older or a senior in college and willing to commit 15 hours per month to counseling plus attending one staff meeting per month.

CARPENTERS needed to do woodworking and carpentry projects with pre-school children in Ithaca Day Care Center.

STOREFRONT needs volunteers to work in information and advocacy center which is concerned with consumer, housing and welfare issues and with social change and alternatives. Scheduling and meeting times to be arranged.

OAK HILL MANOR NURSING HOME and **ITHACARE** need volunteers to visit with individual elderly residents, to assist with small group recreational or crafts projects, or to provide short musical or slide-show entertainment. Late mornings, late afternoons or early evening of any day can be arranged.

NEW PROGRAM needs volunteer to teach Russian to three junior high school students eager to learn, 11:15 a.m. to 12 noon on Tuesdays and/or Thursdays.

WILLARD PSYCHIATRIC CENTER "COMPANIONSHIP THERAPY PROGRAM" ORIENTATION MEETING POSTPONED FROM SEPT. 16 TO SEPT. 30. Same time (7:30 p.m.), same place (Founder's Room, Anabel Taylor Hall).

Calendar

September 11-21

Thursday, September 11

4:30 p.m. Microbiology Seminar: "Mechanisms of Molecular Recalcitrance," Martin Alexander, Lab. Soil Microbiology, Cornell. Coffee at 4:15 p.m. Stocking 204.

4:30 p.m. Materials Science and Engineering Colloquium: "Role of Defects in Controlling Properties of Transition Metal Carbides." Wendell Williams, professor, University of Illinois, Urbana, Ill. Bard 140. Refreshments served in Bard Hall Lounge at 4 p.m.

6 p.m. The Cornell Christian Science Organization invites students, faculty and staff to a Readings and Testimony Meeting. Founders Room, Anabel Taylor.

7 p.m. Panel discussion for new and returning married students. Multi-purpose Room, North Campus Union. Child care provided.

7:30 p.m. Israeli Folk Dancing. One World Room, Anabel Taylor.

7:30 p.m. Cornell Bridge Club Weekly Meeting. Straight Art Lounge.

7:30 p.m. Slide illustrated lecture: "Moses and Cosmology," by H. J. Eckelmann. Ives 120. Sponsored by the Cornell Bible Research Group. Refreshments following.

7:30 p.m. America and World Community: "The Way to World Community and Auroville (India) - A Model." J. Bruce Long, assistant professor, Asian Religions. Anabel Taylor Auditorium.

8 p.m. Cuslar Latin American Free Film Series: *Uris Auditorium.*

Friday, September 12

12:15 p.m. Women's Studies Friday Seminar: "The Effect of the Federal Tax Structure on the Labor Force Behavior of Women." Aline Quester, assistant professor, Economics Dept., Cortland State University. ILR Conference Center 300. Child care provided. Bring a bag lunch; coffee provided.

3:30 p.m. Agricultural Waste Management Seminar: "U.S. Environmental Protection Agency Effluent Guidelines for Agricultural and Industrial Wastes." Dr. Raymond C. Loehr, director of College of Agriculture and Life Sciences' Environmental Studies Program and professor of Agricultural and Civil Engineering. Riley-Robb 105. Refreshments at 3:15 p.m.

6 p.m. Shabbat Service (Traditional). Edwards Room, Anabel Taylor.

7 & 9:15 p.m. *Cornell Cinema Film: "Paper Chase," directed by James Bridges, starring Timothy Bottoms, John Houseman, Lindsay Wagner. Statler Auditorium. Attendance limited to Cornell Community.

7 & 9:15 p.m. *Cornell Cinema: "The King of Hearts," directed by Philippe De Brocs, starring Alan Bates, Genevieve Bujold. Ives 120. Attendance limited to Cornell Community.

7:15 p.m. Shabbat Service (Orthodox). Young Israel House.
