## Summer Intern Program Revived

As the Cornell University campus enters the second half of the 1970s, undergraduate students have revived their interest in summer internships, where they will be competing for low-paying or volunteer jobs in business, law, government and public affairs.

Interns frequently work extra part-time jobs evenings and weekends to pay for their expenses but they feel the experience is worth it.

Becky Smith, a junior studying government in Cornell's College of Arts and Sciences, explained why students fought to land these jobs, located primarily in Washington, D.C. For her, and others like her, it comes down to wanting to get a piece of the action, to "be in the middle of things," she said. Two summers ago she worked for a Nader organization and cut expenses by living with her sister in Washington.

Robert Kyle, a junior with a double-major in history and

government, began last spring to think about helping students locate the internships they wanted. By the fall (1975), he, Smith and a number of other students revived the Cornell Internship Program (CIP).

"The attractiveness and demand for summer internships is stronger now than ever," Kyle said. CIP's current focus is on government, business and law, although other students getting wind of their efforts have voiced an interest in expanding CIP's scope to include architecture and engineering internships.

Smith said CIP now has two major functions: to locate jobs specifically for Cornell students for the summer, and to advise students on campus how to compete for jobs being advertised as open to any person, regardless of whether they are Cornellians.

Smith and Kyle said many Cornell alumni have been re-

### Open Hearing Set

## Academic Calendar: 14-Week Semesters

Every year the Senate calendar committee tries to ascertain what the optimal calendar would be for the greatest majority of the Cornell community. With this in mind, the current calendar committee will hold an open hearing at 4:30 p.m. on Tuesday, Feb. 24, in Uris Library classroom LO 4.

The 1977-78 calendar being proposed to the Senate reflects the findings of the provost's special commission on the calendar, which was formed last spring and reported at the end of the summer. The commission consisted of appointees from the faculty, the administration and the Senate.

The commission recognized the difficulty of its task in the opening sentence of its report:

"University calendar decisions have traditionally generated considerable negative reaction among the Cornell community." Before attempting to construct an academic calendar, therefore, the commission developed a list of priorities, generally emphasizing academic considerations. These priorities fell into two groupings: (1) the length of time allocated to different segments of the calendar, such as the academic term, recesses and intersession, and (2) specific times for beginning and ending each segment.

In the first group of priorities, the length of the academic term was ranked highest. The commission noted that, over a

### CLC Cut 6.1 Per Cent

## Senate Approves Budgets

The University Senate Tuesday night approved a \$4,513,800 budget for the Division of Campus Life for the 1976-77 fiscal year. It reflects \$294,000, that is a 6.1 per cent cut from the level of the division's current budget. The current budget is 8 per cent less than the 1974-75 budget.

In order to ease the effects of the reductions on its programs, the division has developed various user charges for specialized services and programs. For example, students who use the campus bus service will be charged 10 cents a ride. They may buy an academic-year pass for \$25 or a \$4 monthly pass.

Faculty and staff with parking permits will be able to use the buses free with A and B lot permit holders being given bus

passes automatically, while other parking permit holders will be given them upon request.

User charges will also be instituted by University Unions and Health Services. X-rays will cost \$5 each and allergy shots \$2. Physical examinations for students applying for graduate school programs and fellowships will cost \$10.

University Unions will charge \$5 and \$10 for different craftshops and a \$1 fee per course for the experimental college as well as impose a 10 cent charge for cashing checks.

The Campus Bus Service, University Unions and Health Services absorbed the largest dollar reductions among the division's 12 sections. The bus service budget was cut \$50,000 or 18 per cent. The user charge

is expected to make up this difference and permit the service to continue its current level of operation and possibly increase if usage permits.

University Unions had to reduce appropriations by \$83,200 for 7.5 per cent and health services cut \$74,000.

The reductions in the University Unions budget will mean the three student unions on campus will be closed during intersession next year.

\$6,800 cut in the guidance and testing center will mean it will be closed during June 1977, a reduction in wages, and an increase in test fees.

While the intercollegiate athletics budget was cut \$50,000 to a figure of \$637,700, no program cuts were designated pending the outcome

Study/Exam Period Ends.....	Sat., May 20, 1978
Spring Term Ends.....	Thurs., May 25, 1978
Commencement Day.....	Fri., May 26, 1978

## Corson Addresses American Physical Society

*'Private Universities Need Continued Public Support'*

Cornell President Dale R. Corson, speaking on the future of the private university at the annual meeting of the American Physical Society in New York recently, said that while private universities are entering a period of financial stress and greater public accountability, the need for such institutions will continue.

"It seems to me that the only sensible course to follow is to consider the whole of higher education as one system serving public purpose....In turn there must be a continued infusion of public funds into both public and private higher education," Corson said.

He acknowledged that the public increasingly will support higher education when it seems to be serving the public's immediate needs and will demand accountability in exchange for its support — an unfortunate trend which Corson said can only lead to severe damage to American higher education in the long run.

To diminish the erosion of educational integrity and prevent further damage to the in-

dependence of higher education, Corson said that private universities must maintain the quality of their faculties, must produce graduates who demonstrate the quality of their programs and must work for the "most sensible strings" to be attached to public funding for private education.

Corson stressed the importance of research in the university, pointing out the interrelationship between solid research and good teaching. Universities rather than national research institutes are the most appropriate places for research, he added.

"The effectiveness of the research scientist in a university is amplified many times over through the work of his students. This interaction and the products of this interaction are found in greater degree at the university than in the research institute, in my opinion," Corson said.

Private universities increasingly must look for support to private sources, particularly alumni and friends, but tax reforms are making it harder for individuals to amass the large

fortunes so important in gifts to private universities, he said.

Corson cited the rising tuition levels at private universities while publicly supported institutions have received steadily increasing support from tax levy sources.

"There is the spectre of the potential rise in tuition at private universities at a rate greater than the ability of the student or the parent to pay," he warned.

Corson said that private universities are also struggling to maintain a national character. While they are not bound by limitations on out-of-state enrollments, there are pressures on private universities to accept students only from within the state as a prerequisite for state funding.

"The private universities serve the same public mission addressed by the public institutions. They must be kept vigorous and healthy. If they are not, the public must be prepared to risk the far higher cost of replacing major portions of the system at public expense," Corson said.

*SUNY Trustee Position Outlined**'University Never Has Been In Such Financial Trouble'*

A letter outlining the position of the Board of Trustees of the State University of New York (SUNY) regarding state budget cuts and their effects on SUNY has been written by board Chairman Elizabeth Luce Moore.

Addressed to "fellow members of the University family," the text of the message follows:

"I have never tried to reach you in this way before, but never before has the entire University been in such trouble — financial trouble. As you all know, the current fiscal trauma affects every aspect of the great Empire State. It is, therefore, in this context of austerity that we have to think about our own money problems.

"At the January meeting, the trustees considered the impact on the University of the proposed executive budget. Realizing that the governor must act decisively to bring the financial crisis of the state under control, we are nevertheless convinced that the health and welfare of the University are directly related to the health and welfare of the State of New York. In the next few weeks, we will be analyzing in great detail each one of the devastating cuts to the University budget and we want you to know we will do everything we can to persuade the governor and the legislators that some redress is essential if the University is to survive as the

top-quality educational institution New York State requires for the immediate and for the long-range future.

"In the governor's budget, our community colleges have been hardest hit — and doubly so when "local assistance" has also been drastically reduced. Our total enrollment will be reduced by another 6,000 students — in addition to the 50,000 we had to turn away last September. We have been asked to save money by eliminating the positions of 1,000 persons, in addition to the 530 faculty and staff we lost last year — these are individuals we still sorely miss. Important medical services are reduced — and these, too, we are thinking of in human terms. The restriction of our Full Opportunity Programs threatens our best means of entry for the underprivileged students, and, at the other end of the University spectrum, cutting out scholarships for graduate and professional students threatens our promise to aspiring individuals and our best hope for strengthening the whole society.

"The strength of an institution is demonstrated by its performance under stress and we must not allow fiscal restraints to deflect us from our work as educators and as students. We believe we can cope with the austerity and maintain quality if we are free to make our own difficult choices. This means that we will need more

autonomy and greater flexibility than we have been allowed to date. And, a little more money!

"Higher education is no longer a luxury but a necessity to New York State. With your understanding and support, we will continue to provide this necessary component of a great and free democracy. With your help, we will provide essential medical and health care training; we will assist the state to solve its problems through imaginative scientific research; we will support industry by developing a highly skilled and well-educated labor force. Above all, we will help young people and older citizens prepare for productive work and for interesting, rewarding lives. We need your help — and, we will try to get a little more help from the governor and the legislators!

"Here's luck to us all!"

*Senate Meets*

## Administrative Council Established

# Effective Policies Sought

A 16-member Administrative Council has been established at Cornell University to provide a vehicle for informal discussion of administrative matters and to make recommendations to President Dale R. Corson and others as appropriate on developing more effective University-wide administrative policies and procedures.

Chaired by Samuel A. Lawrence, vice president for administration, the committee is comprised of top echelon administrators from the University's various colleges and divisions. University Treasurer and Chief Fiscal Officer Arthur H. Peterson also meets with the Council and serves as its vice chairman.

Some of the topics to be considered by the Council, according to Corson, "include techniques to achieve better use of personnel, to improve paperwork management and data processing, and to provide more effective collaboration between the colleges and central service units."

The members of the Council, which is meeting bi-weekly, are Robert B. Brown, director, administrative operations, Agriculture and Life Sciences; Allan Lentini, director, administrative services, College of Architecture; Robert Scott,

associate dean, Arts College; David Thomas, associate dean, Business School; William Jenkins, business manager, Campus Affairs; Raymond Blanchard, assistant to director and fiscal officer, Cooperative Extension; John McManus, associate dean, Engineering College; Alison P. Casarett, associate dean, Graduate School; Paul Gaurnier, associate dean, Hotel School; Bertha Lewis, associate dean, Human Ecology; George Calvert, director, budget and institutional planning, ILR School; Judith T. Younger, deputy dean, Law School; Elizabeth Murphy,

manager, budget and accounting, University Libraries; Michael Toomey, business manager, Plant Operations; Loring Kennedy, director of regional offices, Public Affairs, and Ann Marcham, director, fiscal and personnel affairs, Veterinary College.

"The Council will welcome suggestions from any member of the University community as to steps which can be taken to improve our administrative operations," Lawrence stated, "and we also are discussing ways in which understanding and use of existing procedures can be improved."

## Gallstone Drug Being Tested at NYH-CMC

Chenodeoxycholic acid, an experimental drug for dissolving gallstones, is now ready for definitive clinical testing, and The New York Hospital-Cornell Medical Center's Division of Gastroenterology has been selected to participate in a four-year, nationwide study of the drug.

Called the National Cooperative Gallstone Study, it is being conducted under the auspices of the National Institute of Arthritis, Metabolic

and Digestive Diseases. The Institute has awarded contracts to ten medical institutions, including The New York Hospital-Cornell Medical Center (NYH-CMC) to set up Gallstone Treatment Centers which will enroll a total of 1,000 patients for the study.

Dr. Norman B. Javitt, chief of NYH-CMC's Division of Gastroenterology and professor of medicine, Cornell University Medical College, is director of NYH-CMC's treatment center.

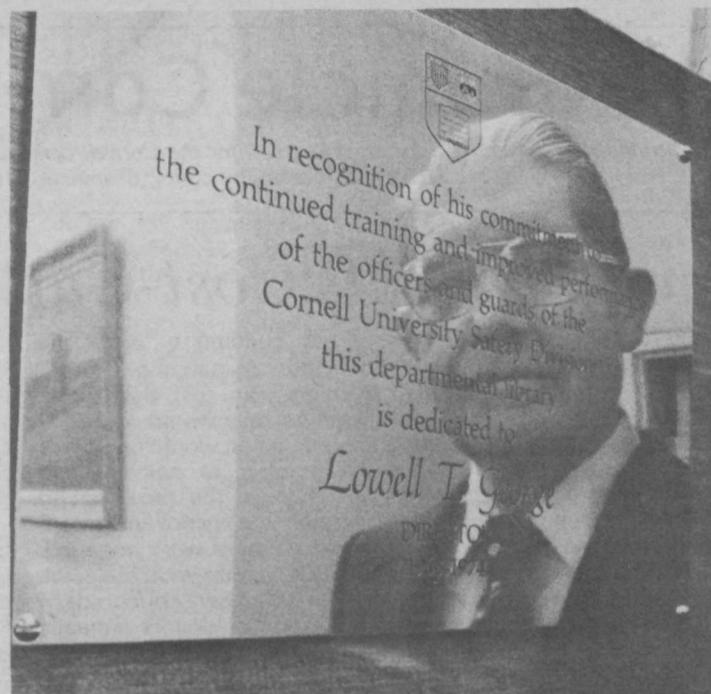

Physicians from both the Departments of Medicine and Surgery will be involved in the study. Dr. Frank Glenn, emeritus professor of surgery, Cornell University Medical College, who is well known for his work in the surgery of the biliary tract, will act as a consultant to the study at NYH-CMC.

Gallstone disease is extremely common in the U.S. "It is estimated that more than 15 million people, have gallstones in some form," said Dr. Javitt.

Most gallstones are precipitates of cholesterol, but others may consist of bilirubin in combination with calcium.

The most effective proven treatment of gallstones at the present time is surgery — removal of the gallbladder together with the stones.

A number of small preliminary studies, in which NYH-CMC and other medical centers have been involved, have indicated that chenodeoxycholic acid may be effective in dissolving cholesterol gallstones for about half of the patients treated with the drug. These preliminary investigations have shown no evidence that the medication is toxic in humans, but some injury to the liver has occurred in monkeys who were treated with higher doses than are being used in the National Cooperative Gallstone Study. Thus, despite the apparent lack of toxicity in humans, the findings in animals warrant careful monitoring of the patients participating in the study.

## Safety Honors George

The departmental library at the Cornell Safety Division has been dedicated to Lowell T. George, retired director of the division, who is reflected in the plaque at the library's entrance. George was director of the division from 1968 to 1974. He first came to Cornell in 1952 as proctor, after having been a police officer, FBI agent and police chief for nearly 20 years.

## COSEP Search Committee Named

A nine-member search committee composed of students, faculty and staff has been named by Provost David C. Knapp to assist him in locating a director for the Committee on Special Educational Projects (COSEP). Knapp will chair the committee.

The position of acting COSEP director is currently held by Clarence Reed, who assumed the post in July, 1975.

Knapp said he anticipates the committee will undertake a national search for the COSEP director. In addition, "as soon as the full membership is constituted, I expect the committee to meet within 10 days to begin discussion first on the job description and then of the procedures to be used in the search," he said.

Knapp hopes to have the

position filled by the beginning of the fall term, 1976.

Search committee members are: Pamela Curry, director of state programs, COSEP; Benjamin P. Bowser, assistant dean, Graduate School; William Cross Jr., assistant professor, Africana Studies and Research Center; Eugene J. Wilson, director, minority programs, College of Engineering; E. Wood Kelley, associate professor of government; Elmer E. Meyer Jr., dean of students, Roald Hoffmann, professor of chemistry, and Brian K. Allen, Arts '78. Another undergraduate minority student has also been invited to serve as a committee member.

Kelley and Meyer are both members of the COSEP Advisory Committee.

## Minority Students, Deans Discuss Plans

The deans of Cornell University's undergraduate colleges will be scheduling meetings with their minority students to discuss plans for developing college-based minority education programs and to seek student views on these plans, according to David C. Knapp, provost.

Knapp said he anticipated the meetings would take place within the next two weeks. The individual colleges will announce the time and location of the meetings.

In his report on minority affairs and affirmative action made to the Board of Trustees three weeks ago, Knapp called for the schools and colleges to assume leadership roles in the education of minority students. The board accepted the report "in principle."

A major objective of that plan was "to reduce attrition among undergraduate minority students by strengthening the college and school responsibility for minority education, and developing a more effective network of support services which draws upon the full resources of the University."

## New Scholarships

The School of Hotel Administration has established a scholarship fund in memory of Frank M. Wangeman, a 1972 graduate of the school. He was executive assistant manager of the Atlanta Hilton Hotel at the time of his death in an auto accident Jan. 1, 1976.

Dean of the Hotel School Robert A. Beck said income from the fund will be awarded to worthy students in the Hotel School with preference given to the sons and daughters of Hilton Hotel employees.

Mr. Wangeman's father, Frank G. Wangeman is senior vice president and director of Hilton Hotels Corp. and executive vice president and general manager of The Waldorf-Astoria Hotel in New York City. His brother Henry attended the Hotel School, and

another brother, Conrad, is a freshman there.

Contributions to the Frank M. Wangeman Memorial Scholarship Fund may be sent to the School, Ithaca, N.Y. 14853.

A scholarship fund has been established at the Cornell University Law school in memory of William T. Kerr and his son William B. Kerr II, both graduates of the law school.

The fund was established with a \$100,000 bequest from the estate of Frances H. Kerr, who died in 1974. She asked that the scholarship be established in memory of her husband William T. who died in 1969, and their son William B., who died in 1973. The father was graduated from the Law School in 1921. The son was graduated from Cornell with a bachelor's degree in 1952 and earned a law degree there in 1959.

Dean Roger C. Cramton said income from the fund will be used to pay partial tuition for a number of needy students annually. "The gift," he said, "is particularly significant in these days of economic stress, not only being felt by institutions of higher education but possibly even more severely by the families of many students."

William B. Kerr II practiced law locally and was supervisor of the Town of Ithaca for six years. His widow, the former Margaret Doorty, a 1955 graduate of Cornell, lives in Cayuga Heights with their three children, Blake 17, Gary 16 and Margaret 12.

CORNELL CHRONICLE

Published weekly and distributed free of charge to Cornell University faculty, students, staff and employes by the Office of Public Information. Mail subscriptions: \$13 per year. Make checks payable to Cornell Chronicle Editorial Office, 110 Day Hall, Ithaca, N.Y. 14853. Telephone 256-4206. Editor, Randall E. Shew. Managing Editor, Elizabeth Helmer.

# Chronicle Comment

(Chronicle Comment is a forum of opinion for the Cornell community. Address comments to Elizabeth Helmer, managing editor, Chronicle, 110 Day Hall.)

## Union Defeats Cost-Cutting Project

Editor:

We hear much lately about budget cutting and belt tightening but I wonder if we are being realistic. Last month our organization embarked upon a self-help painting project to correct the deplorable conditions in the old Forest Home School (our offices). The student labor was proceeding satisfactorily when someone working in the building informed the painters' union that non-union help was painting in a Cornell facility.

A grievance was filed and the Chief of Plant Operations came

to our building to order the cessation of painting. Trivial? Perhaps. But just this single small hallway would cost \$800 more to paint, would take twice the number of painters and nearly twice the time (not to mention the inconvenience) if union painters were engaged. On a University-wide scale, we are throwing away hundreds of thousands of dollars annually because of Cornell's cozy relationship with organized labor.

Is it not time for us to collectively recognize this rip off and take proper corrective action? What happened to the day

when a man was paid for his initiative and the merit of his performance rather than for his union affiliation?

Our hallway, as offensive as it may be, will go unpainted; the union will not get the work and the walls may crumble. What do we tell important visitors, friends and potential contributors to Cornell University? We will tell them about abjuration of "free enterprise" at this great institution.

Steve Shauger  
Education Coordinator  
Cornell Plantations

## 'Book Ordering Snafu Frustrating'

Editor:

It is my hope that this letter may be of some help to those who plan to use the Campus Store in the future.

Last October, when ordering textbooks for a spring course, I cooperated in the Campus Store's request to identify those books that had been used in previous course offerings and that would be used again in the spring. The reasoning seemed obvious, and I was most surprised, perhaps enraged, to learn during the first week of classes that the books had not been ordered.

Inquiry resulted in the explanation that since I had "continuing students" (I thought it was continuing books) the order had not been placed. Of course, I had placed the order for books, but it was "decided" that I really didn't need them. This kind of attitude, that people are interchangeable with inanimate objects, was given another opportunity for expression this week. Being told that the books would arrive in ten days to two weeks, I inquired on the tenth day, and was told that the order had arrived five days earlier. You

guessed it. They don't notify unless you make a special request, and then I would imagine, only on a random basis. I was unlucky. My number didn't come up, and even if it had my plea for a special order was not interpreted as a request for notification of arrival.

Cynicism breeds in such mundane circumstances.

Charles C. McClintock  
Assistant Professor  
Community Service Education

## 'Misunderstanding' Confuses Book Order

Editor:

In reply to Mr. Charles C. McClintock:

Perhaps a brief background is in order. On Sept. 20, a general mailing requesting faculty book orders for Spring term texts was sent from the textbook office. Mr. McClintock complied with this request by submitting his faculty order to us on Oct. 31.

One of the items covered in the mailing was "continuation texts." It read "In the case of a continuation text — one already purchased in the Fall semester — a simple notation with an estimate of new students would be helpful."

The list received from Mr. McClintock had four items. The first asked for 50 copies. The final three were noted "this is continued," which we interpreted as meaning the students had already purchased during the Fall semester.

Upon discovering the misunderstanding, immediate steps were taken to phone in the orders for two of the titles (the third was in sufficient stock from Fall).

I direct myself to one other point in Mr. McClintock's letter: that of notification by phone when his books arrived. We would gladly have made arrangements for this, had he not stormed out of our office. We routinely suggest this course of

action to faculty members who have approached a problem such as this in a rational manner.

Finally, we do make errors — dealing with 16,000 students, 1,200 faculty members and 4,500 titles a semester makes it extremely difficult to be perfect. However, in this one particular case, the misunderstanding was definitely not one sided.

R. Lloyd  
Textbook Manager  
Cornell Campus Store

## Law Librarian Named

Jane Hammond, president of the American Association of Law Libraries, has been named librarian of Cornell University's Law Library.

The appointment, effective Oct. 1, was announced jointly by J. Gormly Miller, director of Cornell University Libraries, and Roger C. Cramtom, dean of the Cornell Law School.

Hammond, who is currently law librarian and professor of law at Villanova University, will also teach at Cornell in the area of legal bibliography and methods of legal research. Her tenured appointment as a professor of law is pending action

## Society Head

Harold B. Tukey Jr., professor of ornamental horticulture at Cornell, has been elected president of the International Plant Propagators' Society for 1976.

Tukey is the first Cornellian to head the 1,500-member international organization since its establishment in 1950. His election came at the Society's annual meeting held recently at Tallahassee, Fla.

A member of the Cornell faculty since 1959, Tukey is on the staff of the Department of Floriculture and Ornamental Horticulture in the New York State College of Agriculture and Life Sciences. He received degrees from Michigan State University.

## Job Safety Injury Tax Approach Defended

Editor:

I appreciate the comments of Tom Ames on my proposal for an "injury tax" approach to encouraging occupational safety. His belief that fining employers after an injury occurs would create a situation where they all passively wait for the occurrence is a misconception, albeit a popular one. The prospect of a fine in the event of an injury will encourage employers to take steps to avoid the fine (and the injury). The extent to which they go in achieving

greater safety depends on the level of the fine, but the deterrence effects of fines in general should not be overlooked. To his assertion that employers are unaware of how to avoid injuries, I can only point out that there are 35,000 safety professionals in this country available for hire — 50 times the number of federal inspectors.

Robert S. Smith  
Assistant Professor  
New York State School of  
Industrial and Labor Relations

NEUROBIOLOGY AND BEHAVIOR: "Biochemistry and Regulation of Muscarinic ACh Receptor in Neural Cell Lines," William Klein, 12:30 p.m., Wednesday, Feb. 25, Langmuir Penthouse.

PLANT PHYSIOLOGY: "Photosynthetic Activity in Membrane Preparations from the Blue-Green Alga *Phormidium luridum*," A. Binder, Cornell, 11:15 a.m., Friday, Feb. 20, Plant Science 404.

NUTRITIONAL SCIENCE: "Agricultural Policy in China," C.P. Timmer, Cornell, 4:30 p.m., Thursday, Feb. 26, Plant Science 404.

Arts and Sciences

ASTRONOMY AND SPACE SCIENCES: "8-13u Spectra of Compact III Regions," William Forrest, Cornell, 4:30 p.m., Thursday, Feb. 19, Space Sciences 105.

BIOPHYSICS: "ATPase and Transport Systems of Thermophilic Bacteria," Yosua Kagawa, Jichi Medical School, Japan, 4:30 p.m., Wednesday, Feb. 25, Clark 700.

COMPUTER SCIENCE: "On the Integrity of Data Bases and Resource Locking," Rudolf Bayer, 4:30 p.m., Thursday, Feb. 19, Upson 111.

CHEMISTRY: "Bio-Organic Lecture Series," Koji Nakanishi, Columbia University, 11:15 a.m., Tuesday, Feb. 24, Baker 200.

Centers

APPLIED MATHEMATICS: "Variational Inequalities," Clas Johnson, University of Chicago, 4:30 p.m., Friday, Feb. 20, Olin Hall 165.

Engineering

CHEMICAL ENGINEERING: "Novel Sources of Protein," Keith H. Steinkraus, Cornell, 11:15 a.m., Tuesday, Feb. 24, Olin Hall 145.

MATERIALS SCIENCE AND ENGINEERING: "Point Defects in Calcium Fluoride," A.D. Franklin, National Bureau of Standards, Washington, D.C., 4:30 p.m., Thursday, Feb. 19, Bard 140.

MECHANICAL AND AEROSPACE ENGINEERING: "Development of a Liquid Hydrogen Car," Shoichi Furuhashi, Musashi Institute of Technology, Tokyo, 4:30 p.m., Wednesday, Feb. 25, Upson 111.

LABORATORY OF PLASMA STUDIES: "Imploding Liner Research at NRL," Peter Turchi, Naval Research Laboratory, 4:30 p.m., Wednesday, Feb. 25, Grumman 282.

Human Ecology

TEXTILES: "Fabric Softener Technology," Frank Koch, Procter and Gamble Co., 4:30 p.m., Tuesday, Feb. 24, Martha Van Rensselaer 317.

## Job Opportunities

Continued from Page 2

PART-TIME AND TEMPORARY POSITIONS

(All Temporary and Part-time positions are also listed with Student Employment)

- \*Records Clerk (Dean's Office, Arts & Sciences (temp. p/t))
- \*Administrative Asst., A-22 (B&PA Budget (perm p/t))
- Administrative Secretary, A-15 (Biochemistry (perm p/t))
- \*Secretary (Glee Club (perm p/t))
- Sr. Lab. Technician (Biochemistry (perm p/t))
- Searcher I, A-13 (Univ. Libraries/Acquisition (Dutch) (perm p/t))
- Extension Specialist (Human Dev. & Family Studies (temp p/t))
- Res. Technician II, NP-10 (Food Science (temp f/t))
- \*Keypunch Operator, A-13 (Office of the Bursar (perm p/t))
- Programmer II, A-21 (1) (MSA (temp f/t))
- \*Keypunch Operator, A-13 (SASS (to 6/30/76 p/t))
- Research Specialist (Agricultural Economics (temp f/t))
- Temp. Service Administrator (Adm. Services, Planning & Facilities)
- Medical Technologist, A-18 (Health Services (perm p/t))
- Postdoctoral Associate (Genetics (temp f/t))
- \*Security Guard, A-15 (Johnson Museum (perm p/t))
- \*Assistant to the Director, CPO3 (Financial Aid (temp. f/t))

## Risley College Theater

*Musical to Be Performed*

Risley Residential College for the Creative and Performing Arts will present its first musical production this week

with performances of "Stop the World—I Want to Get Off!" The musical's action centers around Littlechap and his am-

bitious pursuit of women, money and prestige.

Evening performances will be held in the 88-seat Risley College Theater beginning at 8 p.m. Thursday through Saturday, (Feb. 19-Feb. 21) and a 2 p.m. matinee will be held Sunday (Feb. 22).

Tickets may be purchased for \$2 each at the door starting one hour before curtain time; tickets may be purchased for any of the performances.

The 12-person cast is directed by Helen Marts, a sophomore in the College of Arts and Sciences, and a Risley College resident advisor. Jeffrey Rehbach, a 1975 Cornell graduate, is the choral and orchestral director. James Hannon, Risley College's resident director, portrays Littlechap while Carla Shiller, Arts '76, plays the British, Russian, German and Brooklyn women in his life.

The performance will be three-fourths in the round and will utilize a set composed of "props, mime and curtains," according to Marts.

Other students involved in the production are Barbara Neibart and Noemi Debodisco as daughters; and eight chorus members: Alison Williams, Benjamin Millter, Linda Appelbaum, Roger Longman, Vincent DiCarlo, Debba Curtis, Hennie Fitzpatrick and Miguel Aguado. Paul Hertzberg designed the set and Dodie Flash designed the lighting.

James Hannon (left) and Carla Shiller (right), both of the Risley Residential College for the Creative and Performing Arts, will appear in the college's performances this weekend of "Stop the World—I Want to Get Off!" to be given in the Risley College Theater. Hannon is resident director of the college and he will play the lead role as Littlechap. Shiller, a senior, plays the various women in his life.

*Chemistry Lecture Series Begins*

Koji Nakanishi, one of the world's leading organic chemists and professor of chemistry at Columbia University, will present a series of lectures on "Selected Topics in Biophysical and Bioorganic Chemistry" (Chemistry 782) at Cornell beginning Feb. 24.

The first lecture in the series, "Bioactive Natural Products, Part I," will be held on Feb. 24. A lecture on "Bioactive Natural Products, Part II" is scheduled

for Feb. 26. "Absolute Configuration of Natural Products" will be discussed on March 2 and "Bioorganic Studies of Visual Pigments" will be discussed on March 4. All lectures will be held at 11:15 a.m. in 200 Baker Laboratory.

Nakanishi received his chemical education at Nagoya University and at Harvard. He served on the faculty of Nagoya University (1955-58),

Tokyo Kyoiku University (1958-63), and Tohoku University (1963-69) before coming to Columbia.

His fields of interest include the isolation, structure elucidation, stereo-chemistry and biosynthesis of naturally occurring physiologically active substances. He is the author of more than 200 research publications as well as several books, of which "Infrared Spectroscopy" (1962) and a two-volume treatise on "Natural Products Chemistry" (1974, 1975) are best known.

In addition to his scientific work, Nakanishi is a renowned magician. A demonstration of his magical abilities is planned during his two-week stay at Cornell at a time and place to be announced.

*Spring Birdwatching Course Announced*

The Cornell Laboratory of Ornithology is offering a five-week, non-credit course in field ornithology this spring for those with a beginning interest in birds. The course, taught by Stephen W. Kress, research affiliate of the Laboratory of Ornithology, will emphasize techniques for identifying the common resident and migratory birds of the Cayuga Lake Basin.

From April 1 through May 8, the group will meet Thursday evenings to discuss the life histories and behavior of selected species and to learn to recognize birds through the use of study skins (mounts) and color slides. Methods of bird photography and techniques

for attracting birds through the use of feeders, bird houses and yard plantings will also be discussed.

Weekend field trips are scheduled to Montezuma and Brigantine National Wildlife Refuges and to a variety of local habitats. Close-up views of small land birds will be aided by bird banding and mist-net demonstrations.

Persons interested in the course should contact the Laboratory of Ornithology, 159 Sapsucker Woods Road, 256-5056. Enrollment fee is \$50 with a 10 per cent discount to members of the Laboratory of Ornithology. Enrollment is limited to ensure small field groups.

*Pianist Heiles to Give Concert at Barnes*

A piano recital of works by Bartok, Debussy and Pierre Boulez will be given at 4 p.m. Sunday, Feb. 22 in Barnes Hall by visiting pianist William Heiles.

The recital, sponsored by Cornell's Department of Music, is open to the public.

Heiles's program will consist of Bartok's "Sonata for Piano" and the piano suite "Out of Doors," six Debussy etudes (from Book I and Book II) and Boulez's "Third Sonata."

The pianist is an associate professor with the School of Music, University of Illinois at Urbana-Champaign. He has

given numerous recitals and lecture/recitals, primarily in the Midwest. Heiles's specialties include contemporary music, particularly that of Boulez; Heiles is also a harpsichordist.

He received the bachelor of music degree from the Oberlin Conservatory before studying in Munich, Germany from 1958 to 1960 as a Fulbright scholar. Heiles did his graduate work at the University of Illinois, where he earned the doctor of musical arts degree in 1964. From 1964 to 1968, Heiles taught at Western Michigan University in Kalamazoo.

*Art Insight Classes Offered at Museum*

Registration is still open for the art awareness classes offered to the general public at the Herbert F. Johnson Museum Feb. 28 through April 7.

Known as "Art Insights: Making Senses," the program has been given at the museum at various times since 1974 with funding from the New York State Council on the Arts. There are classes for adults, children and children and parents together.

Registration forms are available at the Tompkins County Library and at the desk in the lobby of the museum or by calling the museum at 256-6464. The classes cost \$15 per person.

Classes are held in the museum and on its grounds. No art background is required.

According to the program's leader, Peggy Koetsch, "Participants explore art definitions of line, space, texture, composition, shape, color,

form, motion and weight. The creative process is stimulated and perceptions expanded by experimenting with many media. The result is a greater self-confidence, whether in responding to an exhibition or to everyday life."

Adult classes meet Wednesday evenings from 6:45 to 8:45; family workshops are held Saturday mornings from 10 to 11:30; classes for young people 10 to 15 years old meet Saturdays from 12:30 to 2:30. ("Family" means any adult-child combination.)

*'Reality and Uncommon Conversation' at Sage*

"Reality and an Uncommon Conversation" is the topic of the Sage Chapel Convocation to be held at 11 a.m. Sunday, Feb. 22.

Brent Nettle, head of the International Campus Ministry Division of the First Church of Christ, Scientist, in Boston, will deliver the talk.

Nettle was appointed to his present position in 1970. He

was graduated from Michigan State University in 1964 with a bachelor's degree in business administration and then served as an account executive with a Detroit public relations firm until 1969.

In his work for the church, Nettle has traveled extensively in Great Britain, Europe and South Africa, as well as the United States and Canada.

*Adler Prize Given to Biologist*

Dr. Edward A. Boyse, chief of the Cell Surfaces Research Division of Sloan-Kettering Institute and professor of biology at Cornell University Medical School, has received the 1975-76 Issac Adler Prize for conducting "the best piece of original research in the United States or Canada on any subject within the medical or allied sciences."

Dr. Boyse's work has focused on the surface of the cell and on how genes determine its

composition in higher organisms such as man. Over the past 15 years he and his colleagues have identified specific molecular components on the cell surface and have tracked down their production to particular genes.

Dr. Boyse was chosen to receive the prize, which includes an award of \$10,000, by the president and fellows of Harvard College. The prize was established in 1933 through the bequest of Mrs. Frida Adler.

Three of its four previous recipients are Nobel laureates.

Dr. Boyse received the M.B. and B.S. degrees in medicine in 1952 and the M.D. degree in 1957 from the University of London. He came to the U.S. in 1960 to join the Department of Pathology at New York University Medical School. Two years later he was named associate scientist at Sloan-Kettering Institute. He remains an honorary professor at New York University.

## Bulletin Board

### Libraries: All Is Forgiven

The Cornell University Libraries are offering an Amnesty Week from Feb. 22-28. During this time overdue books from any Cornell library may be returned to any campus library without fines being charged; exceptions are reserve books and books recalled for other readers. There are no plans for this Amnesty Week to be repeated in the foreseeable future. For additional information, ask at any library circulation desk.

### Title IX Information Needed

The Title IX subcommittee investigating possible sex discrimination in counseling and advising activities requests information and/or recommendations from members of the Cornell Community. Communications may be directed to any of the following: Donald Burgett, resident instructor, Agriculture, 6-2258; Timothy Bell '77, 6-3386, and Elaine Lefferts, assistant dean, Arts and Sciences, 6-5004; Howard Kramer, Dean of Students Office, 6-3608; Robert Gardner, Advising/Counseling, 6-7414, and Richelle Josephs '77, Engineering, 6-0938; Jill Gaines '77, 277-0430, and Barbara Morse, Academic Services, Human Ecology, 6-4549.

### Employe Open House Activity

A representative from Empire State College will be on campus to answer employees' questions concerning furthering their education through the Empire State program, according to Penny Greenwood, Training and Development Section of Personnel Services. The representative, James Garbarino, will be available from 12 noon to 2 p.m. Friday in 247 Day Hall as part of Personnel's Training and Development Open House held there this week.

### Mortarboard Applications

JUNIORS: Applications for Mortarboard are available. Mortarboard is a Senior honorary for leadership, scholarship and service. They can be picked up in college offices or at the Straight desk. The deadline is March 5.

### Cornell Internship Program

The Cornell Internship Program (CIP) will make its debut at 7:30 p.m. Thursday, Feb. 19 in Ives 110 at a general meeting to present CIP to the Cornell community. The Internship Program offers pre-placement advising, referral information and instruction on finding summer jobs. For information concerning the CIP, please contact the Cornell Career Center (256-5221).

### Extramural Registration to End

Individuals wishing to register through the Extramural Division for the fall semester must do so no later than Friday, Feb. 20. No new registration will be accepted after this date. The last day for making a change in registration without payment of a \$10 late fee is also Friday, Feb. 20.

### Graduate Women in Science

June M. Fessenden-Raden, vice provost for undergraduate education and associate professor of biochemistry at Cornell, will talk about moving "Up the Academic Ladder" at the February meeting of Sigma Delta Epsilon, Graduate Women in Science, Inc. at 8 p.m. Wednesday, Feb. 25 in the faculty lounge of Martha Van Rensselaer Hall.

The meeting, which is open to the public, should be of special interest to female graduate students, postdoctoral fellows and young faculty members, according to Margaret Stone, chapter president.

### Archaeology in South America

During the fall (1976) term Professor Thomas F. Lynch, Department of Anthropology, will conduct an archaeological field school in Northern Chile. Participating Cornell students will earn 14 credit hours in Archaeology/Anthropology 358 (Archaeological Research Methods) and 361 (Field Archaeology in South America), subject to approval by the Educational Policy Committee. Hirsch travel grants will be awarded to four students.

Interested students should attend the informational meeting at 3:35 p.m., Monday, Feb. 23, in McGraw 200. Lynch will describe the program, answer questions, and distribute application forms due back March 12. Application forms will also be available from faculty members of the Intercollege Program in Archaeology.

### Lecture Rescheduled

Lewis W. Oring's lecture on "Monogamy and Polyandry in the Spotted Sandpiper" has been rescheduled for 7:45 p.m. Monday, Feb. 23, at the Cornell Laboratory of Ornithology, 159 Sapsucker Woods Rd.

Oring, an associate professor of biology at the University of North Dakota, is the second speaker in the laboratory's Louis Agassiz Fuertes Lecture Series. His primary research interest is the evolution and expression of avian mating systems.

### Campus Club Fine Arts Series

The third program of the Cornell Campus Club Fine Arts Series will be from 3-4 p.m., today in the Lecture Room of the Herbert Johnson Museum. Ellen Lamb will present a bicentennial program, "Eighteenth Century Decorative Arts," which will focus on the part of the Museum's collection that is representative of the early days of our nation.

This series is open to all members. Previous registration is not necessary.

Parking arrangements: Pick up a permit at the Museum immediately before the program. This permits parking in the Johnson Museum parking area or, if this is full, in the Franklin lot.

### Lecturer to Look at Doom

Sir Eric Ashby, an Andrew D. White Professor-at-Large since 1966, will visit the Cornell campus Feb. 23 through 27, and will give a public lecture.

One of the world's leading authorities on higher education and a former master of Clare College, Cambridge University, Ashby will lecture on the topic "A Second Look at Doom: Reflections on Computer Simulations about the Future," at 4:15 p.m. Wednesday, Feb. 25 in 120 Ives.

In addition to his public appearance, he will meet informally and in seminars with Cornell students and faculty.

### Cascadilla Sock-Hop Planned

Cascadilla Hall is sponsoring a Sock-Hop featuring the WVBR record machine from 9 p.m. to 2 a.m., Saturday, Feb. 21 in the Main Lounge. Admission covers all the wine and beer you can drink. A portion of the proceeds will be used to repair damage from a steam pipe explosion in the party and supply room.

### Women's History Workshop

The Upstate New York Women's History Conference will hold a workshop in women's history at 1:30 p.m., Saturday, Feb. 21 in 402 Uris Hall. Topics of discussion will be: Women in Local History, Sources by and about Women, Women and 19th Century Childbirth, and Teaching Women's History. The workshop will be preceded by a bring-your-own lunch at 12:30 p.m. in 402 Uris.

## Academic Funding New Awards

NEW AWARDS RECEIVED

The Office of Academic Funding announced the following new grants and contracts for sponsored programs for the Ithaca and Geneva units of the University. This list does not include renewals or continuations.

Project Director	Department	Title	Sponsor	Amount	Period
Baker, R. C.	ANSCI	Research Grant Agreement for Mr. Rakah	Israel	3,000	12 mos.
Brown, T. L.	NATRESOURCES	Improvement of Inland Fisheries Management Techniques	NYS	3,175	8 mos.
Brutsaert, W. H.	WTR RESOURCES CTR	Determination of Regional Evapotranspiration	INT	17,350	12 mos.
Burton, M. S.	ENGR	Intergovernmental Personnel Assignment Agreement	HEW	15,722	12 mos.
Esman, M. J.	CIS	IPA Salary Agreement	AID	21,840	5 mos.
Farley, D. T.	EE	Studies of Equatorial Ionosphere	NOAA	29,870	12 mos.
Gierasch, P. J.	CRSR	A Study of a Tidally Driven Geomagnetic Dynamo	NSF	16,135	12 mos.
Gray, L. S.	ILR	Establish Training Course and Research Center in Manpower Field	Labor	20,300	12 mos.
Idzerda, S. J.	Library	Lafayette and Age of American Revolution: Edition Papers 1776-1789	NEH	33,437	24 mos.
Isacks, B. L.	GEOSCI	Tilt Measurements in New Hebrides ARC --- Lithosphere Subduction	INT	20,007	10 mos.
Isard, W.	CUDR	Review and Comment on Land Use-Brookhaven National Laboratory	ERDA	10,000	9 mos.
Kiefer, J. C.	MATH	Mathematical Statistics	NSF	55,409	12 mos.
Lancaster, D. A.	ORNITH	Educational Exhibits on Birds and Bird Behavior	NYS	4,000	12 mos.
Levin, H.	PSYCH	Symposium on Cognitive and Biological Aspects of Language	SLOAN	5,000	12 mos.
Levin, H.	PSYCH	Symposium on Psychology and Biology of Language and Thought	Grant Found.	7,000	12 mos.
Meyburg, A. H.	CEQM	Toward Environmental Benefit-Cost Analysis: Measurement Methodology	Trans. Res. Bd.	24,975	9 mos.
Sagan, C. E.	CRSR	Viking Interns	SLOAN	20,000	12 mos.
Sellers, A. F.	VET	Large Intestinal Colic Model in the Pony	Morris Animal Fdn.	15,000	12 mos.
Swofford, R. L.	CHEM	Laser Induced Chemical Reactions	Standard Oil of Ohio	75,000	12 mos.
Wolga, G. J.	PLASMLAB	Investigation of Molecular and Chemical Laser Systems	ARMY	40,000	12 mos.
Wolga, G. J.	PLASMLAB	Study of Molecular Lasers	NAVY	90,000	12 mos.
Youngs, W. D.	NATRESOURCES	Sea Grant - Development of a Hard Clam Research Program	NYS	1,000	10 mos.
Boyar, W.	ARCH	Wawarsing Management Assistance Project	Ellenville	3,407	6 mos.
Mai, W. F.	PLTPATH	Sampling of Soil and Plant Material	NYS	5,000	12 mos.

In addition to the interest in the listings above, the University faculty has expressed a desire for access to information on the use of Hatch and Smith/Lever funds, which in 1975/76 amounted to \$2,294,124 and \$6,586,152 respectively. Extension funds are not used for research purposes. See the Annual Reports of the College of Human Ecology, College of Agriculture and Life Sciences, and the New York State Agricultural Experiment Station for information on projects and programs supported by these funds.

## ARIA Elects Professor As Fellow

Thomas R. Dyckman, professor of accounting and quantitative analysis in the Graduate School of Business and Public Administration (B&PA) has been elected a fellow in the Accounting Researchers International Association (ARIA).

The honor, requiring an affirmative vote of 90 per cent of the ARIA fellows, is in recognition of Dyckman's research. According to Robert R. Sterling, president of the organization, in a letter to Dyckman, "The current fellows recognized your long-standing and immense contributions to accounting thought ranging over behavioral experiments, analytical contributions and masterful surveys of past individual research findings."

A member of the Cornell faculty since 1964, Dyckman received a bachelor's degree in 1955 from the University of Michigan, where he also earned master's and Ph.D. degrees.

## Volunteers Needed: Can Be Rewarding

Volunteering can be both an opportunity to help other people and an opportunity to explore personal interests. The range of possibilities in the Ithaca community is wide, and the CIVITAS Office can help you find a volunteer activity related to what you enjoy doing, or in an area you often thought you'd like to explore. The time commitment can be as little as an hour or two a week on a regular basis, but there are also openings for anyone able to make only an occasional contribution.

The need for assistance in indoor and outdoor recreation programs for young people is constant, both in the afternoons and on weekends. Arts and crafts are always popular, and provide an opportunity to teach others the skills you have acquired. The creative and expressive arts flourish in this community, and involvement in drama, music and dance programs sponsored by local groups can be arranged. Many students are concerned with environmental education, an area in which the Ithaca schools are expanding and in which volunteers can be of great help.

Perhaps you would like to learn the techniques of personal counseling. Several groups on the campus and in the community will train interested students willing to make a regular commitment to help others upon completion of the training.

These are only a few of the areas available for volunteer activity. If there are other interests you would like to pursue, come to the CIVITAS Office and talk them over. We will try to find a place interesting to you and helpful to others.

For more information come to CIVITAS, 125 Anabel Taylor Hall, 256-7513, between 10 a.m. and 2 p.m., Monday-Friday. Or call the Voluntary Action Center, 272-9411, Monday-Saturday, 9 a.m. to 1 p.m.

### CURRENT NEEDS

**Preschool Program:** Help is needed Monday, Wednesday and Friday mornings from 9-noon in a preschool program, convenient to the campus.

**Home Arts, Foods and Embroidery:** Junior High School Home Arts Department needs volunteers to help Monday, Tuesday, Thursday or Friday from 11:30 a.m. to 12:30 p.m. for four weeks in a food program, followed by an embroidery program in March.

**Woodworking:** Afternoon and evening youth recreation program downtown needs volunteers to help teach woodworking, any weekday 3-5 p.m.

**Exercise and Figure Control:** Class for adolescents which meets Thursdays from 3-5 p.m. needs volunteer interested in helping with exercise and figure control program.

**South Korean Children:** Three elementary-age children from South Korea need help and encouragement in learning English. Times are flexible during the school day from 9 a.m. to 3 p.m.

## Awards, Honors

What has been described as the most attractive scholarship offered by the New York State College of Agriculture and Life Sciences, has been presented to Randall D. Pratt '77.

The scholarship award of \$3,360 was presented to Pratt by the Commodity Exchange Center, Inc., on the basis of his character, initiative, leadership, scholastic ability and the promise of making a substantial contribution to agribusiness.

The Commodity Exchange Center, a group of four New York commodity exchanges, developed the scholarship program earlier this year to foster understanding of agribusiness and, in particular, the important role of commodity futures.

The program awards scholarships, on a rotating basis, to four different universities with programs in agricultural business, including Cornell, the University of Florida, Michigan State University and the University of California, Davis.

Pratt, who is majoring in agricultural economics at the College, is the son of Mr. and Mrs. E. Robert Pratt of 76211 Overseas Highway, Isla Morada, Fla.

Franklin A. Long, Cornell's Henry R. Luce Professor of Science and Society, has been awarded the Order of Civil Merit and the Dongbaek Medal by the Republic of South Korea.

The award, presented by Korean Prime Minister Jong-pil Kim in mid-October, recognizes Long's work in promoting scientific cooperation between the two countries. Long's association with

science and technology in Korea began in 1970, when, as an advisory team member, he helped Korea plan a new graduate-level university for science and engineering. The university, now in operation, is known as the Korean Advanced Institute for Science.

Long is currently U.S. co-chairman of the Korea-U.S. Joint Continuing Committee for Scientific Co-operation. The committee's major function is to provide advice to Korea's Ministry for Science and Technology on such matters as the proposed establishment of a National Science Foundation in Korea, and development of new research programs in such

areas as energy and oceanography.

A Cornell faculty member for 38 years, Long has been a member of the University's Program on Science, Technology and Society since its founding in 1969 and served as the program's first director. He was a member of the U.S. President's Science Advisory Committee under Eisenhower, Kennedy and Johnson. From 1950 to 1960 he served as chairman of Cornell's Department of Chemistry and was a faculty member of the University Board of Trustees from 1956 to 1959. He was Cornell's vice president for research and advanced studies from 1963 to 1969.

## Career Center Calendar

February 19 — 4 p.m. "Market Research" or "How to Look for a Job When You Don't Know What You're Looking for." Please sign up in advance.

February 19 — Cornell Internship Program makes its debut. General meeting 7:30 p.m. Ives 110.

February 19 — The Mennonite Central Committee, relief and service organization, will be interviewing at the Career Center. Sign up in advance.

February 20 — 2:30 p.m. Interviewing, Job Hunting, Letter and Resume Writing Session II. Sign up in advance. Session I is a pre-req.

February 21 — Test date for the National Teachers' Exam.

February 23 — Test date for Test of English as a Foreign Language.

February 23 — 2:30-3:30 p.m. Resume Critique Session. Bring prepared, typed draft. Sign up in advance.

February 23 — 11:15 a.m. and 4 p.m. (repeat). Interviewing, Job Hunting, Letter and Resume Writing Session I. Sign up in advance.

February 25 — 4:30-5:30 p.m. Discussion session about Law School and Financial Aids with Dan Kimball, dean of admissions of Cornell Law School. Interested students should call 256-4151. Attendance will be limited.

February 27 — Regular Registration closes for the April 3 Admissions Testing Program. Late Registration ends on March 12.

February 28 — Registration closes for the Optometry College Admission Test.

# Bulletin of the Faculty

(Publication of the bulletin is supervised by the secretary of the faculty, Russel D. Martin, 315 Day Hall, 256-4843.)

## REPORT OF THE MEETING OF THE FACULTY COUNCIL OF REPRESENTATIVES Wednesday, February 11, 1976

The regular monthly meeting of the Faculty Council of Representatives was called to order by the speaker, Associate Professor J. Robert Cooke, at 4:30 p.m., in Room 110 Ives Hall. 67 members and approximately 40 visitors were present.

Following approval of the corrected minutes of our Dec. 10 meeting, Dean of the Faculty Byron Saunders presented a brief report, beginning with a reminder to all representatives from the media that no recording devices are to be used during the meeting.

He announced that a call would soon go out for nominations to fill vacancies on the several FCR and Faculty Committees and urged that we start giving consideration to the matter. Mention was made that the guidelines for procedures governing academic appointments and tenure, recently approved by the Board of Trustees, would be sent to the Faculty in the near future.

Finally, he announced that at the University Faculty Meeting on Feb. 18, Professor Cushing Strout would present a report from the *ad hoc* Committee established to study the Ky disruption in Bailey Hall last December.

Provost Knapp next reported briefly concerning the Report on Minority Education recently approved by the Board of Trustees. He pointed out that the several schools and colleges have been requested to work on the details of orderly implementation of the plan. Also, he announced that, within the next 10 days, a search committee would be appointed to seek a permanent director for the COSEP program.

The remainder of the provost's report centered on the State budget and its many implications. To say the least, the situation is grim, and attitudes in Albany toward higher education are certainly not improving. The implications of this situation fall into three categories, according to the provost. First is the effect on our ability to borrow. Next is the reduction in Bundy money where an 8.5 per cent cut has been recommended. Finally, there is the effect on the statutory units and the resulting reduction in personnel.

It was pointed out that there were also some features that could be classified as semi-positive. Among these was the establishment of a consolidated budget, a move that had been requested for some time. Next was the \$276,000 increase for accessory instruction and finally was the return of Extension funding to our budget where it rightfully belonged.

The provost then indicated some pending problems, not the least of which could be timing accentuated

by possible last minute budgetary changes made by the legislature. Also pending is the necessity on the part of the statutory units to make decisions regarding total program areas. In response to a later question, the provost indicated that, by necessity, when we talk of eliminating programs we are also dealing with the matter of tenured positions. Another problem relates to the excessive transfer of funds for regional laboratories to the Department of Agriculture and Markets and the resulting impact on the College of Veterinary Medicine.

Finally, there is the problem of accessory instruction and its very real implications for the future. The provost concluded his remarks by reminding everyone that the total problem was one for Cornell as a whole, not just the statutory units. A question from the floor expressed a very real concern, shared by the provost, for resulting implications on the careers and families of the junior members of the Faculty.

The speaker next called on Professor Gilbert Levine, chairman of the Committee on Academic Programs and Policies, for a progress report concerning its study on minority education. Professor Levine pointed out that the difficulty of getting the committee together during the intersession period, together with the desire to do a thorough study, had precluded a final report at this time. He did point out that of the four *ad hoc* subcommittees appointed to deal with specific phases of their charge, one has completed its report, and two others will have done so by the end of the week. A final consolidated report and recommendations will be brought before the FCR as soon as possible.

Next, Dean Saunders, on behalf of the FCR Executive Committee and the Review and Procedures Committee, gave a brief background on the total self-governance issue and Senate Bill SA-376, then presented the following resolution which passed with only two dissenting votes:

**WHEREAS**, the Cornell University Senate has recently passed a bill SA-376 recommending a commission for the study of campus governance, and

**WHEREAS**, the Faculty have a vital interest in that sector of the University that has been delegated to the Senate, and

**WHEREAS**, the Faculty must approve any changes in the Senate Constitution, and

**WHEREAS**, presently constituted Faculty bodies have adequate legislated structures for examining governance in those areas that have been delegated to the Faculty, therefore,

**BE IT RESOLVED**, That the Faculty Council of Representatives instructs the Dean of the Faculty and whatever Faculty representatives he appoints to join in the commission for self governance with sensitivity to the need for careful delineation of the jurisdictional boundaries between

educational policy and non-academic matters of campus life, and

**BE IT RESOLVED**, That the Faculty Council of Representatives calls attention to the existence of the Bethe Report (adopted by the University Faculty on September 24, 1969) which enumerates the academic responsibilities of the Faculty, and finally,

**BE IT RESOLVED**, That examination and evaluation of governance in those areas that have been delegated to the Faculty shall continue to be carried out by presently existing Faculty procedures.

The final item of business concerned the Bill of Rights issue. Reporting for the special *ad hoc* Committee appointed to study the matter was Professor Peter Stein, representing the Executive Committee and the Committee on Professional and Economic Status of the Faculty. Other Committee members were Professors Ian Macneil (Committee on Academic Freedom and Responsibility); Cushing Strout (Committee on Freedom of Teaching and Learning); and Constance Wood (Executive Committee and Committee on Freedom of Teaching and Learning).

Professor Stein traced the steps and procedures through which the Bill of Rights had passed, then on behalf of the Committee, moved the following "Modified Proposal for a Community Bill of Rights":

### 1. Protection of Freedoms

a. The rights stated in this Article shall be protected by procedures established by appropriate bodies in the Cornell Community as follows:

1. The proper faculty bodies shall have primary jurisdiction over academic decisions.

2. Existing procedures throughout the Cornell Community, consistent with this Article, shall continue to be used for settling grievances and enforcing rights.

3. The faculties may establish procedures for the protection of freedoms in all academic areas and the University Senate may establish procedures for the protection of the freedoms as specified in this Article in all non-academic areas.

### 2. Basic Rights

a. Neither the University nor any member of the Cornell Community shall abridge freedom of belief, freedom of speech, freedom of the press, freedom to assemble, or freedom of petition, or freedom to organize or join organizations.

b. The University shall not use control of campus facilities as a device of censorship.

c. Decisions affecting the rights of members of the Cornell Community shall be made without regard to race, religion, age, sex, sexual preference, marital status, national origin, citizenship, physical handicaps, ethnicity, political persuasion, or criminal record, except when clearly necessary to pursue a legitimate University purpose.

### 3. Organizations

a. Organizations consisting of members of the Cornell Community shall be permitted to make reasonable use of University facilities, subject to the right of the University to make reasonable charges for such use.

b. The University shall not finance or otherwise subsidize, in whole or in part, any organization which discriminates in its membership on the basis of race, religion, age, sex, sexual preference, marital status, national origin, citizenship, physical handicap, ethnicity, political persuasion, or criminal record, except as a *bona fide* qualification for membership.

c. For the purpose of this section: (1) "finance" means money paid by the University to or on behalf of an organization, directly or indirectly; (2) "subsidize" includes, but is not limited to, supplying facilities at a charge less than the value of the facilities supplied.

d. No organization shall be compelled to disclose a list of names of its members, but may be required as a condition to receiving the right to use University facilities or to receive University support of any kind, to prove that it is an organization consisting of members of the Cornell Community, and, in appropriate cases, the number of such members it has.

### 4. Privacy and Records

a. Members of the Cornell Community shall be secure in their persons, records, and property, including assigned University space, from unreasonable search, seizure or use.

b. The University shall keep no records, nor make inquiries about information concerning members of the Cornell Community which is not needed to pursue its functions as outlined in section 6a of this Article.

### 5. Due Process

a. No member of the Cornell Community shall be deprived of status as a member of the Cornell Community without explanation, or be subjected to any form of discipline without due process.

b. The elements of due process shall vary depending upon such factors as the seriousness of the harm to the member, the need for the exercise of professional judgment in making the decision, and the availability of alternative routes of relief. In its fullest sense due process includes, but is not necessarily limited to, the right to a full and impartial hearing; the right to confront witnesses; the right to remain silent and otherwise avoid self-incrimination; the right to be presumed innocent of misconduct until proven guilty; the right to time and opportunity to prepare a defense; the right to counsel.

### 6. Jurisdiction

a. The University shall have only that authority over the members of the Cornell Community which is necessary to perform its functions under its Charter, to protect its property, and to protect the liberty, property and safety of the members of the Community and the users of its facilities.

b. Rights enjoyed by members of the Cornell Community and omitted from this Article at the time of its adoption, shall not be deemed negated by such omission from this Article.

### 7. Definitions

a. The term "the University" refers to any individual, organization, office, or administrative body acting in the name of Cornell University, or exercising the authority of Cornell University.

b. For the purpose of this Article, members of the Cornell Community are current students, members of the faculty, and non-faculty employees, and, except respecting Section 3., former students, former members of the faculty and former non-faculty employees.

After Professor Stein pointed out the five basic changes from the original document, it was voted to move into Quasi-Committee of the whole to informally consider the matter and obtain an unofficial sense of the body. Following a short discussion, a motion was made and seconded that it be the sense of the body to persevere in working toward a Bill of Rights. At that time, the mandatory 6 p.m. adjournment time had arrived.

# Appointments Announced

Craig Esposito, a 1974 graduate of Cornell University, has been named assistant director of alumni affairs in the Office of Alumni Affairs at Cornell.

The appointment was announced by Frank R. Clifford, director of alumni affairs and general alumni secretary. Esposito succeeds Duane H. Davis, who last month was named an associate director of development in the Office of University Development at Cornell.

Esposito, who was a sales representative with Parke-Davis & Co., has already assumed his new duties at Cornell. A major in biology, he was president of his senior class at Cornell, a student member of the University Senate, a member of Quill and Dagger honorary service society, a member of the wrestling team and a volunteer in the emergency room at Tompkins County Hospital.

He is the son of Mr. and Mrs. Albert Esposito of 1134 Jerry Ave., Schenectady, where he was graduated from Mohonasen High School in 1970.

Professor Roy L. Millar, plant pathologist at the New York State College of Agriculture and Life Sciences, has been elected president of the Northeastern Division of the American Phytopathological Society.

Elected for a one-year term, Millar was installed as presi-

dent at the annual meeting of the group held recently in North Haven, Conn. He has just completed a term as vice-president.

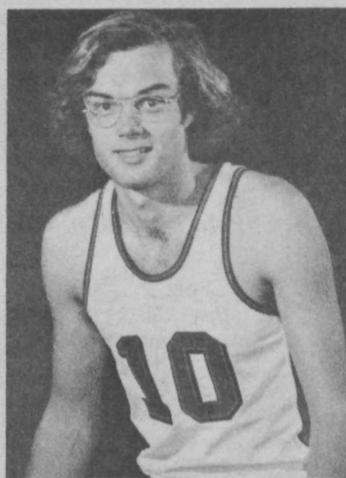

Meanwhile, the American Phytopathological Society has announced Millar's election as editor-in-chief of the Society's official journal "Phytopathology" for a three-year term, effective Jan. 1, 1976.

He has been a member of the Cornell faculty since 1959. In

addition to his teaching duties, he conducts research on the mechanisms of natural disease resistance in plants.

• • •

Jay Saunders Redding, Ernest I. White Professor of American Studies and Humane Letters, emeritus, at Cornell, was elected to a four-year term as a member of the American Council of Learned Societies Board of Directors at that group's annual meeting on Jan. 23, 1976.

Stan Brown

## Sage Notes

The Graduate School Office is open for business from 8:15 a.m. to 4:15 p.m. Please call or come during these hours if you have problems or questions.

Summer fellowship applications for stipends will be available in the Field Offices about March 1. Applications for summer tuition fellowships will be available in Sage Graduate Center after March 15, 1976.

NSF students who will be continuing next year are reminded to return to the Fellowship Office, Sage Graduate Center, their "Declaration to Utilize or to Reserve a Subsequent Year of a 3-Year Graduate Fellowship Award."

The Center for International Studies will award research grants in 1975-76 for Cornell faculty and graduate students. The deadline for application submission for both the faculty and student programs is March 1, 1976, and notification of awards will be made by March 22, 1976. Grants of up to \$2,500 will be awarded competitively to individuals with the rank of Assistant Professor or lecturer for research of direct relevance to international or comparative studies. These grants may be used for research related travel, employment of a research assistant, summer support, supplies and technical assistance including computer expenses. Graduate student grants have a limit of \$500. Students whose research is on topics in international and comparative studies may apply, and applications will be reviewed competitively by a faculty committee. Grants are made for research related travel, technical assistance including computer expenses, and supplies or equipment directly related to research. Further information and applications are available from the Center for International Studies, 170 Uris Hall, 256-6370.

## Basketball

# Cornell to Play Yale and Brown

Yale and Brown, two teams with deceptive records, visit Cornell on Friday and Saturday for a pair of Ivy League basketball games at Barton Hall. The 8 p.m. game will be broadcast on WHCU-FM.

Coach Tom Orth's 11-2 freshman team has a return match with the Ithaca College JV at 5:45 p.m. Friday, then takes on Albany State at the same time Saturday.

Friday, when the frosh meet I.C. and the varsity faces Yale, will be "Tompkins County Night." All residents of Tompkins County will be able to purchase \$2 tickets for \$1 by showing some form of identification at the ticket window.

The Elis just missed the up-

set of the Ivy year last Saturday when they bowed to Princeton, 49-48.

First-year coach Ray Carazo's Elis are 4-18 overall and 2-6 in the league. One of those wins came over Cornell, 74-61, three weeks ago in New Haven. Yale played in three rugged tournaments and lost eight straight to Kansas, Texas A&M, South Carolina, Virginia, Hawaii, St. Peter's, Cincinnati and North Carolina.

Brown went down to the wire with Penn last Saturday, losing 56-52. The night before, the Bruins lost to Princeton by only nine. Brown, 4-13 overall and 3-6 in the league, is rebuilding after graduating four starters from last season.

A pair of wins for the Big Red would make their Ivy record 4-6, equalling their number of league victories last season. Overall, Cornell is now 6-14.

Foul shooting made the difference in Cornell's games last weekend, according to coach Ben Bluit. "We were eight for 20 against Dartmouth and that was the ball game," he said of the 60-58 loss. The next night, Cornell canned 27 of 35 and easily defeated Harvard, 85-69, for the first time since 1970.

Stan Brown (6-11) of Milwaukee, Wis., had the best two games of his career. He scored 22 points and had 12 rebounds against Dartmouth. He came back with 31 points and five blocked shots against the Crimson.

Bluit was equally pleased with the Saturday play of guards Bernard Vaughan (5-9) of Lanham, Md., and Rex Parcels (6-0) of Skaneateles, N.Y. Vaughan scored 18 points, had four assists and sparkled on defense. Parcels made 12 of 12 from the foul line with 10 of them coming in the last 3:05 to ice the game.

Vaughan continues to lead Cornell in scoring (16.6) and free throw percentage (.804). Maynard Brown (6-6) of Los Angeles, Calif., is the top rebounder (8.0) and second in scoring (15.0). Stan Brown is the field goal percentage leader (.542) and third in scoring (13.8). Abby Lucas (6-1) of Jamaica, N.Y., who had 12 rebounds against Harvard is the fourth starter in double figures (10.2).

# Veterinarian Teaches in Self-Help Program

How can underdeveloped countries in Asia, Africa and Latin America increase their food production in times of burgeoning population growth?

Part of the answer, according to Dr. Charles Hall, a teaching clinician specializing in bovine reproduction at Cornell's New

York State College of Veterinary Medicine, is to train veterinarians from developing countries to manage the reproductive functions of food-producing animals more effectively.

Dr. Hall put his ideas into practice during a sabbatic leave last semester as assistant

to Ingemar Settergren, the director of an international postgraduate course in animal reproduction held at the Royal Veterinary College in Stockholm, Sweden. The course is sponsored by the United Nations Food and Agriculture Organization and the Swedish International

Development Association.

Participants in the program, now in its 22nd year, came from 11 nations on three continents, and the course covered reproductive functions in all animals used as major food sources in those countries, Dr. Hall said.

While cows were a major topic for study, hogs, sheep, goats, alpacas and buffaloes were discussed. All aspects of reproduction — gynecology, andrology, obstetrics, artificial insemination and physiology and disease of the udder — were covered in some 2,000 hours of theoretical, clinical and research work.

All course participants, who hold the equivalent of the D.V.M. degree, are expected to return to their native countries and disseminate the information to other veterinarians and to local farmers.

The program's objective is to improve farming while occupying more people in the developing countries with making their countries self-sufficient in protein food production, Dr. Hall said.

Dr. Hall pointed out that the postgraduate course is one of several Swedish programs aimed at helping underdeveloped countries help themselves. The country, he said, devotes a full one per cent of its national income to helping Third World countries put less of a drain on the world's resources.

SA-384	THE VIETNAM-ERA VETERAN ACT OF 1975 [Recommends that Admissions, Financial Aid, and Personnel Divisions undertake action to assist Cornell community Vietnam-era veterans.]	Admissions and Financial Aids	ADOPTED
SA-385	A CLOCKLESS CAMPUS [Recommends that all time clocks be phased out at Cornell University.]	G. Peter	ADOPTED AS AMENDED
SA-386	EMPLOYEE OF THE MONTH [Establishes a system of selecting and honoring an Employee of the Month.]	G. Peter	ADOPTED

## Senators Missing Meetings

The following voting Senators have missed one or more of the four scheduled Senate meetings of this semester: Awa, Njoku (2); Blum, Zevi (3); Bogart, Joanne (1); Chabot, Brian (2); Clermont, Kevin (1); Conta, Bart

(1); D'Amico, Louise (2); Deiss, William (2); Donovan, Ronald (1); Drake, Willie (4); Dube, Donald (1); Durbin, Edgar (1); Farris, Charlotte (2); Foulkes, Roland (1); Franklin, Kathy (4); Genter, Wm. (2); Golay, Frank (2); Hade, George (2); Hicks, Wm. (4); Hunt, Brian (4); Jensen, Hilmar (3); Kafadar, James (1); King, Wm. (4); Larios, Dennis (3); Lodahl, Thomas (4); Lovick, Barbara (3); Lynk, Thomas (3); Meinwald, Jerrold (1); Milnor, Andrew (3); Minotti, Peter (4);

Nelson, Gregory (4); O'Connell, Kathleen (3); Ourecky, Donald (2); Pittman, Ernest (4); Pucci, Piero (3); Quaas, Richard (4); Ramin, Richard (3); Reisch, Bruce (2); Rosenberg, Leonard (4); Samaan, Majid (4); Simpson, Steve (2); Smith, Stephen (4); Steiner, Michael (3); Stromberg, David (1); Veverka, Joseph (4); Wallenstein, Joanne (2); Wehe, Robert (2); White, Shirley (2); Williams, Carol (4); Wolfe, Hawley (1).

## By-Elections Approved To Fill Vacant Seats

The Cornell Senate passed an amendment to its by-laws last Tuesday evening which provides for a by-election to fill vacant seats not petitioned for in the general election this year. All open seats may be petitioned for immediately and petitions will be accepted until 5 p.m., Tuesday, March 2, 1976.

If no valid nomination is received for an open seat, that seat shall remain vacant until the by-election next fall. If only one nomination is received for an open seat, that nominee shall be declared elected and the nominee will be seated at the same time as those elected in the general election. If any seat is contested, the speaker of the new Senate shall convoke an electoral college and the seat will be filled by caucus of the Senators from the constituencies of students, faculty

and others. These caucuses will be held at the first Senate meeting in March and the Senators so elected will be seated at the following Senate meeting. The vacant seats are as follows:

### STUDENTS

Graduate: 7 seats.  
 Undergraduate: Architecture, 1 seat; COSEP, 3 seats; Agriculture, 2 seats; Human Ecology, 2 seats.

### EMPLOYEES

Employees: 1 seat.

### FACULTY

Architecture, 1 seat; Africana Studies, 1 seat; Agriculture-Non-Tenured, 2 seats; Agriculture-Tenured, 6 seats; Arts-Non-Tenured, 3 seats; Arts-Tenured, 6 seats; Business and Public Administration, 1 seat; Engineering-Tenured, 1 seat; Geneva, 2 seats; I&LR, 1 seat.

## Academic Calendar

Continued from Page 1

period of years, the instructional period has declined from 30 to 27½ weeks, and it agreed that "this trend toward a shorter period of instruction should be arrested and an instructional period of at least 28 weeks was preferred." The 13½ week fall term has been a particular problem for laboratory courses in the past, and thus the proposed calendar prescribes 14 weeks of instruction in each term.

Completing the fall term before Christmas was given the highest priority in the second group of priorities, and a three-month summer period completed the basic parameters of the calendar as defined by the priorities assigned by the commission. "Once the decision is made to recommend a semester system of 32 weeks (14 weeks' instruction plus 2 weeks' study/exam period in each term), a three-month summer and a pre-Christmas ending for the fall term, the calendar is almost completely defined." It is not possible, for instance, to start the fall semester after Labor Day (with or without a fall recess) if the term is to end by Christmas. As the commission conceded, "We were unable to avoid the early start without sacrifices to the academic program that were considered unacceptable."

The remaining decision con-

cerned the length of the intersession. The final choice of the commission, which is reflected in the calendar being proposed to the Senate, was made after weighing competing considerations such as the savings to the University in the Housing department and in fuel consumption resulting from a longer intersession, versus the possibility of higher student earnings resulting from a longer summer period. Eventually, the commission rejected a shortened (three-week) intersession and also chose not to decrease the 3-month summer period by assigning 5 weeks to intersession and delaying the start of the spring term.

The intention of the open hearing on the proposed calendar is to allow input from the community, so that the calendar adopted by the Senate will be the one that is acceptable to the greatest majority. Due to the many trade-offs and limitations involved, it is not possible to please all those concerned. Perhaps some of the questions involved, such as the length of the intersession, merit further, more thorough study and community comment. The calendar committee welcomes comment on its current proposal with the hope that suggestions and comments made at this time, even when they are not immediately embodied in the calendar, will point the way for future study.

## Self-Governance Group Final Appointments Made

Professors John H. Whitlock, veterinary medicine, and Peter C. Stein, physics, have been named to the six-member conference committee which will establish a University-wide commission to examine self-governance at Cornell. They were appointed by Dean of Faculty Byron W. Saunders and will meet with the other four members of the committee at its first meeting scheduled for next Tuesday.

The other members of the committee are W. Donald Cooke, vice president for research and J. Robert Cook, associate professor of agricultural engineering; Richard S. Bogart graduate student and Edgar Durbin, a research associate. (For related stories see page 3, Chronicle, Feb. 5, and page 3, Chronicle, Feb. 12.)

# Ask CIRCE

A lot of people have called CIRCE this week with questions on their insurance. Plans and premiums are constantly changing and it's hard to keep up to date.

\* \* \*

**Q:** Which insurance plan has more comprehensive maternity benefits, single coverage or the family plan?

**A:** Both plans cover your pregnancy, but only the family plan covers your child after delivery. Make sure you are on the family plan early in your pregnancy, though. Karl Keller of Personnel Services warns, "Premature births may leave parents uncovered unless they switch insurance plans well in advance."

\* \* \*

**Q:** My insurance policy covers the cost of an abortion but not of a vasectomy or tubal ligation. Why?

**A:** Good question! Vasectomies and tubal ligations have been submitted for inclusion in insurance policies, but the state insurance commissioner has to approve any new provisions. A plan for including these procedures is on his desk right now.

\* \* \*

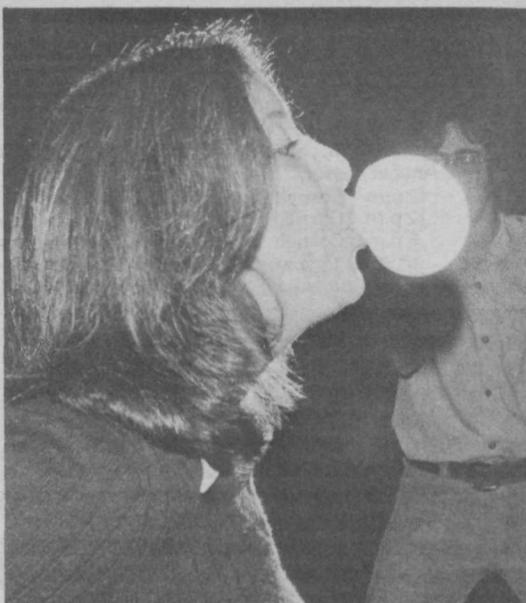

**Q:** Are there any new insurance programs which might benefit me?

**A:** Yes, Blue Shield coverage has just been expanded as of Jan. 1. Under the select Blue Shield program active employees will receive full coverage for "usual and customary" doctor's fees. That includes common expenses such as consultation fees, surgical assistant fees, entire maternity coverage, and anesthesiologist fees. It should be kept in mind that these services are conditional upon the fact that the doctor is a participant in the Blue Shield program.

\* \* \*

If you have any more questions on employe health benefits bring them to Karl Keller of Personnel Services in B-12 Ives Hall, 6-3925.

CIRCE tries to answer all questions about Cornell, or at least find the person who can. Call 6-6200 or 6-3572 or come to the CIRCE desk at the main entrance to Day Hall.

## A Valiant Effort Goes Pop!

Jill Baer '76 (left) is winner by default as Scott Campbell '78 peels bubble gum from his beard in the Ultimate Games Tournament sponsored by the Willard Straight Board. Other games in the tournament have been pingpong, poker and bridge.

## Summer Intern Program Revived

Continued from Page 1

ceptive and helpful. The Cornell Club of Washington, D.C., which assisted CIP during the 1960s, had recommitted themselves to the revived organization by taking it on again as a special project, as have the University's regional offices in Boston, New York City and Philadelphia.

Recently, five CIP members

spent time pounding pavements in Washington calling on anyone who would assist them in locating summer internship positions. Some 40 positions have been scouted out to date, and Kyle expects the total will come to about 100 within a month or two. Most student intern positions are filled by April, Smith said.

On-campus funding for these

CIP efforts comes from an Agency for Educational Innovation (AGEDI) grant, Kyle said.

Where low-paying or volunteer work is a problem for students, Kyle suggested that "a good way to get funds is through the Summer College Work-Study Program." More information on this option is available in Cornell's Office of Financial Aid, 203 Day Hall.
