## New Cornell Computer is Winning Friends

### *In Its 2nd Semester, the 2060 is User-Friendly*

Heading into its second semester of service, a recent addition to Cornell's central computing line-up is winning friends and influencing the unfamiliar.

More than 1,700 students, faculty and staff used the DECSYSTEM 2060 computer in its first full semester of operation, according to Larry Fresinski, manager of the DEC for Computer Services. That figure is expected to increase, Fresinski says, "as more students and faculty members become aware of the DEC's availability and unique advantages."

The DEC was added last year as part of Computer Services' goal to expand instructional computing and to make computing easier for students and professors who are unfamiliar with computers. "The system is ideal for this purpose," Fresinski points out. "The system has been recommended by Harvard, MIT, Yale and others for its user-friendly environment, and it's already bringing praise from the users at Cornell."

The DEC has two special features which make it easy to learn while eliminating some of the pain and frustration many beginners experience when first using a computer: One facility will print out the user's options at any given point, and another completes partially typed in commands. "These features and the fact that many packages available on the IBM are also available on the DEC have turned most faculty members' trepidation about changing systems into enthusiasm," according to Fresinski.

"When I'm teaching I don't want my students to spend time learning the computer system," says Associate Professor of Sociology Steven Caldwell. "I want them to spend 100 percent of the time on statistics." Caldwell was one of 22 professors who taught courses using the DEC during the spring semester.

"The software (computer programs, procedures and rules) on the DEC are much easier for a person with a non-technical background to

use," according to David Gautschi, assistant professor of business and public administration. He used the DEC for simulation exercises in a marketing management course, and reported that students had no problem "interfacing" with the DEC.

Associate Professor of Plant Pathology Phil A. Arneson taught on the IBM for three years and believes the DEC is less confusing. "The students found the IBM system more awkward and had trouble managing the files," Arneson notes. "The DEC was much easier for them."

This semester over 450 economics students will be using the DEC to do their homework. Eugene Ziegler, computer services manager for the Graduate School of Business and Public Administration, recently finished converting an economics program to the DEC, and the program will be used in the Economics 101 course taught by Peter McClelland. Ziegler says the DEC provides "a superior working environment and is the only practical way to deliver

this sort of computing."

The DEC is a sophisticated machine, as well as being one that is easy to learn on. Applications packages available include SPSS, SCSS, GLIM, Minitab, Matlab and others plus a built-in mail system. There are also a variety of programming languages available including Cobol, Basic, Fortran, APL, CPL, Assembler and Pascal.

The DEC is available at all public

terminals and is in operation 24 hours a day, seven days a week, with a few scheduled down times.

Computer Services is eager for everyone to try out the DEC and see for themselves what it can do. Students, faculty members and staff members can pick up a "userid" (a code which allows access to the system) at Uris G-20. Larry Fresinski will answer any questions or problems concerning the DEC.

## Computers Are Diversified

Computer Services offers a wide variety of computers to serve Cornell's diversified computing needs. The machines differ from each other in terms of cost and programs and in services such as reading magnetic tapes and communicating with other computer users. There is no general agreement among computer users on the relative merits of one user interface over another.

The DEC is one of Cornell's four large mainframe computers. The other three, a 370/168 and two 4341s, are manufactured by IBM and are housed in a special facility at Langmuir Laboratory. The oldest and most powerful, the 370/168, is used for all batch computing, most academic research and student in-

teractive computing that is too large or not suited for the DEC or the 4341. Interactive means computing with a typewriter-like terminal in contrast to batch, which uses decks of punched cards.

Each IBM 4341 has about one-third the capacity of the 370/168 and is scheduled for upgrading later this semester to increase capacity. One 4341 has been allocated primarily for student interactive computing and the second is used for administrative purposes.

In addition to the mainframe computers, Cornell has a host of Terak microcomputers. The first ones were purchased in 1979, and the university has recently increased the number of Teraks available to 45, scattered throughout terminals

on campus. Microcomputers, though much less powerful than the mainframes, are useful for the less demanding computing needs. They are cheaper, easier to use and less complex. Currently, most Terak users are students in the Computer Science 100 and 101 courses. The Colleges of Agriculture and Life Sciences, Arts and Sciences, and Engineering are using Teraks for instruction, and several departments have their own Teraks for text editing and research.

An informational seminar on Cornell Computer Services is scheduled for 3:30 p.m. Friday, Sept. 11, in G-14 Uris Hall. Additional information is available by calling 256-4981.

## Late Night Bus Service Offered

### *IC-CU Runs End After 1 A.M.*

Ithaca Transit is now offering late night bus service between Ithaca College and Cornell University, according to Bernard J. Carpenter, transit supervisor.

Operating hours for Route 2A have been extended to 1:17 a.m. Monday through Saturday. Service on this route previously ended at 7:17 p.m. Monday through Thursday, and at 12:17 a.m. on Friday and Saturday evenings.

The extended service is experimental and will be evaluated in May, 1982, Carpenter said.

Route 2A makes an hour-long run between Ithaca College and the Cornell North Campus dormitory area via the Commons, Stewart Avenue,

North Campus, Collegetown, State Street, Hudson Street, Ithaca College, and Aurora Street.

Ridership figures have been climbing steadily since the extended service began on Monday, Aug. 24, Carpenter said.

Fares remain 35 cents exact change. Tokens are available at 3/\$1.00 from the bus drivers, at several locations on the Cornell campus, the Egbert Union at Ithaca College, and at Rothschild's downtown.

Carpenter said, "The increase in service is in recognition of the demand for evening transit service by townspeople and students. While this demand has been evident for a

number of years, the actual ridership on the Friday and Saturday evening service was low. However, with the opening of new businesses downtown, the development of student housing by Cornell in the Collegetown and East Hill areas, and the limited number of parking spaces available to students living in these areas, the City, Cornell, and Ithaca College expressed willingness to provide financial support to Ithaca Transit for the evening service. It is expected that ridership will increase significantly, also helping to offset increased expenses."

Under the hangers and the clothing is a student's father, part of the ritual of moving up, moving out, moving in.

## Parking, Traffic Regulations

Today's edition of the Chronicle contains an eight-page pullout section that covers in detail the campus parking and traffic regulations for the current academic year. You'll find this reference piece in the center of this issue.

# Plantations Offers Several Non-Credit Courses

## From Mushrooms to Bulbs and the Flora of Bogs

Wild mushrooms, flowering bulbs and the flora of bogs are the subjects of non-credit courses offered by the Cornell Plantations Education Program this fall.

Also scheduled are free Sunday afternoon walks, bonsai workshops and holiday crafts courses for children and adults.

Participants will learn to identify local edible and poisonous fungi in the course, Foraging for Wild Mushrooms, taught by Samuel S. Ristch, a researcher in bioregulatory chemicals at the Boyce Thompson Institute. Field sessions are scheduled from 8 a.m. to noon on Saturdays, Sept. 12 and 19, with a 7 p.m. lecture planned for Friday, Sept. 18.

Some background in the subject is desirable.

Which bulbs to plant and when and how to plant them will be covered by Siri Awtar Singh, who is in charge of Miss Minn's Garden at Cornell. Also to be discussed in the course, which meets at 7 p.m. Thursdays, Oct. 1 and 8, will be the origins and uses of bulbs throughout history and techniques to force bulbs for winter bloom.

The geological formation of bogs, their natural history and their rare and unusual plants will be discussed during lectures and field trips in a course taught by Arthur Bloom, professor of geological sciences, and Bob Wesley, a plant ecologist.

Students will gain an understanding of the scarcity and fragility of these areas in sessions scheduled for 7 p.m. Mondays, Oct. 5 and 12, and for 9 a.m. to 12:30 p.m. Saturdays Oct. 10, 17 and 24.

Bill Valavanis, director of the International Bonsai Arboretum in Rochester, will conduct introductory and advanced workshops in the art of bonsai. The introductory course meets at 7 p.m. on five Tuesdays from Sept. 29 to Oct. 27. Serious students of bonsai will be able to create their own masterpiece or refine the ones they already have in evening workshops at 7 p.m. Wednesdays, Sept. 30 through Oct. 28, or in an all-day session, begin-

ning at 10:30 a.m. Wednesday, Sept. 30.

Free Sunday afternoon walks for all ages are planned through Cornell Plantations, beginning at 2:30 p.m. and lasting about one and one-half hours. Raylene Gardner, an environmental educator, and members of the Plantations staff will discuss fall wildflowers on the Sept. 27 walk; mushrooms, Oct. 4; fall color, Oct. 11; and fall wild edibles, Oct. 18. No registration is necessary to participate in the walks, which leave from Plantations Headquarters, 100 Judd Falls Road.

Herbs for the Holiday Season is the subject of a three-session course

at 7 p.m. Mondays, Oct. 26 and Nov. 2 and 9.

Youngsters in grades three and four will learn to make craft articles from natural materials in a series of four Saturday morning workshops beginning Oct. 31.

Holiday wreaths made from pine cones, nuts and acorns will be constructed in a workshop at 7 p.m. Tuesdays, Dec. 1 and 8.

More information on fees and registration for the bonsai courses is available by calling (716) 334-2595. Information on other Plantations courses and nature walks is available by calling (607) 256-3141.

# North-East Transit Resumes; Service Expanded

The North-East Transit bus system, which serves the Cornell campus and downtown Ithaca, resumed service on Monday, Aug. 31.

Schedule changes will result in reduced travel time to the Cornell campus, midday service, and a new stop at the Cornell Industrial Research Park near the Tompkins County Airport, according to William E. Wendt, director of Transportation Services at Cornell.

The fare will remain 50 cents per ride (exact change only), with discount tickets available at 10 for \$4.50 or 100 for \$45. Books of tickets may be purchased at the Office of

the Dean of Students in 103 Barnes Hall, the Cornell Campus Store, Town Hall, City Hall, Village Halls, and the County Clerk's office. Schedules are also available at these locations, in the Day Hall Information Center, and on the buses.

Route 1 will provide shuttle service from early morning into the evening between residential areas in the Villages of Lansing and Cayuga Heights and the Cornell campus on a 45 minute roundtrip cycle. Commuters will reach their destinations on a significantly shortened ride.

For example, a passenger boarding the bus at Lansing North Apartments will arrive at Day Hall 17 minutes later. The same trip last year took approximately 35 minutes. Riders may make connections with the Ithaca Transit and East Ithaca Transit Service on campus.

Route 1 also travels to downtown Ithaca at midday and mid-afternoon.

Route 2 provides commuter service during peak hours from the northeast to downtown Ithaca on an hour-long roundtrip cycle. A stop at the Cornell Industrial Research

Park has been added to the schedule to accommodate employees of facilities there as well as planned expansion of businesses.

The schedule was revised over the summer months to provide improved service between the Villages of Lansing and Cayuga Heights and the Cornell campus, according to the demand observed in ridership patterns, Wendt said.

He said there was a slight increase in ridership in 1980-81, despite a fare increase. Planners felt this indicated a strong demand for the service, although dissatisfaction was expressed regarding the

lengthy travel time and lack of service during midday hours.

Midday service, Wendt said, is made possible by several factors, including holding operating costs at the 1980-81 level, increases in New York State transit operating assistance and gross receipts tax revenue, and an anticipated increase in ridership.

Sponsors of the NET are Tompkins County, the Town of Ithaca, City of Ithaca, Villages of Lansing and Cayuga Heights, Cornell University, Lansing North Apartments, and Rocco Lucente.

## People

**Herbert H. Johnson**, professor of materials science and engineering and director of the Materials Science Center, has been named a Fellow of the American Society of Metals. Cited for his "significant contributions to the understanding of hydrogen embrittlement, fatigue, dislocation mechanics and enhanced fracture behavior," Johnson will be installed at the society's annual awards dinner Sept. 22 in Cincinnati. The American Society for Metals is an educational society dedicated to the advancement of technical knowledge through the ex-

change of ideas and information on metals and related materials, and has more than 50,000 members in 77 countries.

**Joseph A. Burns**, professor in the Department of Theoretical and Applied Mechanics, has been elected acting chairman of the Department of Theoretical and Applied Mechanics for the fall 1981 semester while chairman Francis Moon is on sabbatic leave. Burns joined the faculty of the department as an assistant professor in 1968, was granted tenure in 1975, and promoted to full

professor in 1981. He is internationally recognized as an authority in the field of planetary dynamics.

Last year he was elected editor of *Icaurus: International Journal of Solar System Studies*. He has served

as graduate faculty representative for the field of theoretical and applied mechanics since 1977.

## Jobs

The following job openings are new this week. For information on vacant positions listed in previous issues of the *Chronicle*, contact Personnel Staffing Services, 130 Day Hall. Cornell is an affirmative action employer.

**Professional/Administrative**  
Applications Programmer III, CP5 (Computer Services)  
Research Support Specialist II, CP4 (Entomology)  
Staff Writer, CP4 (Computer Services)  
Managing Editor, CP4 (Cornell Plantations)  
Research Support Specialist, CP3 (Animal Science)  
Asst. Mgr./Rooms & Guest Services, CP2 (Statler Inn)  
Accountant (University Press)  
Instructional Computing Specialist, CP5 (Computer Services)  
**Clerical**  
Administrative Aide, GR21 (Music)  
Administrative Secretary, CR19 (Materials Science Center)  
Secretary, GR18 (City and Regional Planning)  
Secretary, GR18 (Economics)  
Secretary, GR16 (ILR)  
Secretary, GR16 (Design & Environmental Analysis)  
Office Assistant, GR16 (Public Affairs Records)  
Accounts Assistant, GR16 (Statler Inn)  
Library Aide, GR16 (University Lib.-Catalog/Olin)  
Secretary, GR20 (University Personnel Services)

Office Assistant, GR15 (Purchasing)  
Library Aide, GR20 (Univ. Library-Catalog/Olin)  
Secretary, GR19 (ILR)  
Library Aide, GR18 (Univ. Library-Acquisitions/Olin)  
Secretary, GR16 (Design & Environmental Analysis)  
**Service/Maintenance**  
Custodian, SO16 (Buildings & Grounds Care)  
Line Server, SO14 (Cornell Dining)  
Door Checker, SO14 (Cornell Dining)  
Cook, SO22 (Cornell Dining)  
Short Order Cook, SO18 (Cornell Dining)  
Food Service Worker, SO17 (Cornell Dining)  
Cashier, GR15 (Cornell Dining)  
Animal Technician, GR18 (Lab. Animal Services) (2)  
Lab. Attendant, SO14 (Pharmacology)  
Material Handler, SO18 (Cornell Dining)  
Dish Machine Operator, SO16 (Cornell Dining)  
Laborer, U201 (Utilities) (3)  
Clinic Aide, SO17 (DCS-Animal Care)

**Technical**  
Technician, GR2 (Plant Pathology)  
Computer Operator, GR21-GR24 (Computer Services) (2)  
Technician, GR21 (Biochemistry, Molecular & Cell Bio.)  
Technician, GR18 (Equine Drug Testing-Buffalo/Batavia Raceways)  
Technical Assistant, GR16 (Entomology, Geneva, NY)  
Technician, GR20 (Plant Pathology) (Geneva)

Technician (Boyce Thompson Institute, Env. Bio.)  
**Part-time and/or Temporary**  
Office Assistant, GR18 (CRSR)  
Serv. Typist T-1 (Johnson Museum of Art)  
Receptionist, T-2 (Johnson Museum of Art)  
Temp. Registrar Clerks, T-1 (Univ. Registrar)  
Custodian, SO16 (Unions & Activities-Noyes Center)  
**Academic**  
Senior Assistant Librarian (Mann Reference Library)  
Assistant Librarian (Circulation/Reserve, Uris Lib.)  
Lecturer (Learning Skills Center/Chemistry)  
Lecturer (Learning Skills Center/Physics)  
Extension Assoc., Housing Cntr. CA6 (Coop. Ext., South Bronx, New York, NY)  
Extension Associate, Housing Center, CA5 (Coop. Ext.)  
Extension Assoc., CA4 (Coop. Ext., New York City)

The Job Opportunities list is mailed to all Cornell departments. In addition, it is posted in the following places: Day Hall Information Desk, second floor lobby; at the Circulation and Reference Desks of all university libraries; in the Map and Newspaper Section, Olin Library; all college and technical libraries; Roberts Hall Post Office substation and in the Upper Activities corridor, Willard Straight Hall.

## Cornell Chronicle

Editor, Randall E. Shew. Staff writers, H. Roger Segelken, Robert W. Smith, Barbara Jordan-Smith, Martin B. Stiles. Photographer, Sol Goldberg. Circulation Manager, Joanne Hanavan. (USPS 456-650)

Published weekly during the academic year and once each in June and August. Distributed free of charge to Cornell University faculty, students and staff by the University News Bureau. Mail subscriptions, \$13 per year. Make checks payable to Cornell Chronicle and send to Editorial Office, 110 Day Hall, Ithaca, N.Y. 14853. Telephone (607) 256-4206.

Second-Class Postage Rates paid at Ithaca, N.Y.  
POSTMASTER: Send address changes to the Cornell Chronicle (USPS 456-650), Cornell University, 110 Day Hall, Ithaca, N.Y. 14853.

It is the policy of Cornell University actively to support equality of educational and employment opportunity. No person shall be denied admission to any educational program or activity or be denied employment on the basis of any legally prohibited discrimination involving, but not limited to, such factors as race, color, creed, religion, national or ethnic origin, sex, age or handicap. The university is committed to the maintenance of affirmative action programs which will assure the continuation of such equality of opportunity.

# Caltech Chemist is Baker Lecturer

## Series Runs Sept. 15 to Oct. 29

"Photochemistry of Metal Complexes" will be the topic when Harry B. Gray, chairman of the Division of Chemistry and Chemical Engineering at California Institute of Technology, delivers the 1981 Baker Lecture Series here Sept. 15 through Oct. 29.

Gray, who also serves as the Arnold O. Beckman Professor of Chemistry at Caltech and is a specialist in bioinorganic chemistry and inorganic photochemistry, will discuss the electronic structures, spectra and photochemistry of metal complexes with special emphasis on metal-metal bonded species. The oxidation-reduction photochemistry of polynuclear complexes will be explained, and attention will be given to reactions, such as water splitting, that are promising for the storage of solar energy.

Lectures are scheduled for 11:15 a.m. each Tuesday and Thursday in Room 119, Baker Laboratory, with informal discussions planned each Wednesday afternoon during the lecture series.

The Baker Lecture Series at Cornell, now in its 55th year, and the Baker Laboratory, which opened in 1923, were the gifts of George Fisher Baker, a New York City banker and philanthropist who contributed more than \$2 million to Cornell for the advancement of the study of chemistry. Each year the lectureship brings to Cornell distinguished scientists to share recent chemical progress at their laboratories with the staff and students. The lectures are normally published in book form, and many of these books have become landmarks in the literature of chemistry.

The author of 14 books and more than 300 research papers, Gray studied the mechanisms of inorganic substitution reactions with Fred Basolo and Ralph G. Pearson at Northwestern University, where he earned the Ph.D. in 1960. He spent a year as a National Science Foundation Postdoctoral Fellow at the University of Copenhagen collaborating with Carl J. Ballhausen on studies of the electronic structures of metal complexes, and in 1961 joined the faculty of Columbia University.

In 1966 Gray was named professor of chemistry at Caltech. His research in bioinorganic chemistry has contributed to the understanding of the mechanisms of metalloprotein electron transfer reactions. A major objective of Gray's fundamental work in inorganic elec-

tronic spectroscopy and photochemistry has been the elucidation of photoinduced electron transfer reactions of metal ions, such as the metal-assisted solar splitting of water to produce hydrogen and oxygen.

Gray has served as chairman of the Division of Inorganic Chemistry of the American Chemical Society. He has held a Guggenheim Fellowship, an Alfred P. Sloan Fellowship, a Phi Beta Kappa Scholarship and a Visiting Erskine Fellowship at the University of Canterbury, New Zealand. He serves on the editorial boards of several journals, and is a member of the Visiting Committee of the Chemistry Department at the Massachusetts Institute of Technology and of the National Science Foundation Advisory Committee for Chemistry.

HARRY B. GRAY

# Bacteria Used to Attack PCP Contamination

## Cornell Engineers Develop New System

Two Cornell engineers have proposed using heavy concentrations of a special bacteria to clean up soil or water contaminated with pentachlorophenol, PCP, the second most widely used pesticide in the nation.

The bacteria literally thrive on an exclusive diet of PCP, which is used to prevent rotting of wood and its attack by termites. Heavy concentrations of the bacteria found in most soils can be cultivated rapidly and cheaply, they say.

The man-grown bacteria can do the job about 50 times faster than current methods of decontamination, some of which depend on the bacteria as they are found in their natural state and concentrations in soil.

Robert K. Finn, professor of chemical engineering, and graduate student Richard U. Edgehill, reported their findings Aug. 25, after two years of research, at the annual meeting of the American Chemical Society in New York City.

PCP, not to be confused with the more notorious PCBs, is a preservative used largely on fence posts, telephone poles and wood building materials. Its use in Japan has been curtailed after being blamed for extensive fish kills there.

Although it is biodegradable in most circumstances, pentachlorophenol is on the U.S. gov-

ernment list of priority pollutants in current use. The chemical is used by nearly 450 plants throughout the U.S. to treat lumber and poles. Most of the plants are in the Southeast.

The bacteria Finn and Edgehill isolated and which have no name degrade PCP in nature. But they work far too slowly and inconsistently to overcome sudden contaminations by accidental spills or steady buildups of the material, particularly in the waste water discharge of plants using the chemical.

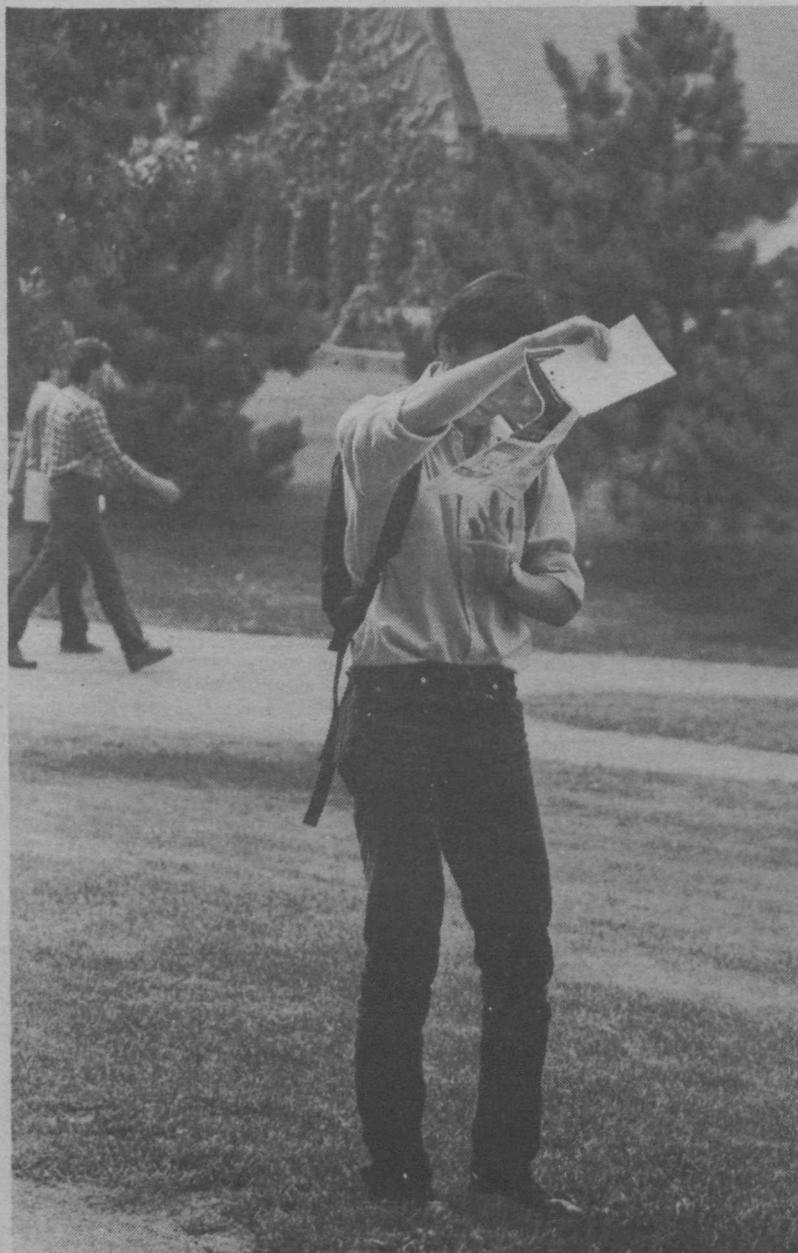

Finn and Edgehill have found that the bacteria thrived on the PCP chemical and could be cultivated by the millions to a state of relative hunger and youthful vigor under laboratory conditions. The lab grown bacteria could decontaminate in one day an area that would take nature at least a month or more to clean up.

The two are planning to use their cultivated bacteria in actual waste

water discharges to test their expectations. They also think the bacteria can be applied directly to contaminated soil to degrade PCP. This approach, they say, is somewhat controversial among scientists.

They point out that because the bacteria are aerobic only the top, aerated layers of soil can be effectively treated. The bacteria they said, derive all the nutrients and energy they need from feeding on PCP, except for some minerals already in the soil.

They completely consume the chemical leaving three harmless by-products: water, carbon dioxide, and every day table salt and of course, most importantly, billions of offspring to continue the work of getting rid of the unwanted PCP.

'If Day Hall is on your right and Sage Chapel on your left, then Barnes must be...'

# 40 Named National Scholars

Forty Cornell freshmen from 16 states have been named Cornell National Scholars, the highest award by Cornell to entering freshmen.

"Established by the Board of Trustees in 1944, this award is presented annually to students who have shown both outstanding academic promise and great potential to contribute significantly to extracurricular life at Cornell," according to James J. Scannell, dean of admissions and financial aid.

Cornell National Scholars are selected by a panel appointed by Scannell from among the more than 5,000 students accepted for admission.

In April, the scholars were notified by Scannell of their selection, and each received a National Scholar certificate signed by Scannell and Cornell President Frank Rhodes.

On campus, the scholars are honored through special receptions and other activities.

The 1981 Cornell National Scholars in alphabetical order, their

hometowns and Cornell schools and colleges are:

Jonathan Adams, Brooklyn, N.Y., College of Arts and Sciences; Ophelia C. Alba, Watsonville, Calif., Arts and Sciences; Angela M. Antonelli, Rockland, Mass., Arts and Sciences; Thomas J. Basting, Janesville, Wisc., Arts and Sciences; Adam Berger, Port Chester, N.Y., Arts and Sciences.

Also, Donna Bracciale, Levittown, N.Y., New York State College of Agriculture and Life Sciences; Lisa R. Brown, Bridgeport, Conn., Agriculture and Life Sciences; Dennis E. Bullard, Palm Beach Gardens, Fla., Arts and Sciences; Donald G. Coltrin, Houston, Texas, College of Engineering.

Also, Douglas Davis, Bloomsburg, Pa., Agriculture and Life Sciences; Dean DiLullo, Boca Raton, Fla., School of Hotel Administration; Terence S. Farmer, Southboro, Mass., Hotel School; Karen L. Feldman, Winchester, Mass., Engineering.

Also, Michael Franz, Miami, Fla., Agriculture and Life Sciences; John Garibaldi, Garden City, N.Y., Agriculture and Life Sciences; Glenn George, Paramus, N.J., Engineering; Lowell Gibbs, Stanford, Calif., Arts and Sciences; Daniel Grooms, Fredericktown, Ohio, Agriculture and Life Sciences.

Also, Michael Hajosy, York, Maine,

Engineering; Lisa B. Heldman, Marietta, Ohio, Agriculture and Life Sciences; David Jeakle, Florence, Ala., Engineering; Karin Johnson, Rolling Hills Estates, Calif., Arts and Sciences; Elise Lincoln, LaJolla, Calif., Arts and Sciences.

Also, Robert Lindemann, Somerset, N.J., Arts and Sciences; Patricia Markham, Roosevelt, N.Y., Engineering; Karen Lynne Mayo, Riverhead, N.Y., New York State School of Industrial and Labor Relations; David K. Mears, Salem, N.H., Agriculture and Life Sciences.

Also, Margot Moore, Walton, N.Y., Agriculture and Life Sciences; Jennifer Pasternack, Ithaca, N.Y., Arts and Sciences; William Rice, Virginia Beach, Va., Engineering; Heidi Robinson, Sherborn, Mass., Arts and Sciences; Jorge Ruiz, Boys Town, Neb., Arts and Sciences.

Also, Patricia Schell, Skaneateles, N.Y., Engineering; Greig Schneider, Westford, Mass., Engineering; John Scheeley, Grahamsville, N.Y., Agriculture and Life Sciences; Elizabeth Smith, Addison, Mich., Engineering; Richard Stottler, Cocoa Beach, Fla., Engineering; Andrew Supp, Willingboro, N.J., Arts and Sciences; Jeffrey Tomasevich, Madison, Conn., Engineering; Julie Wilson, Gray, Maine, Agriculture and Life Sciences.

# Calendar

All items for publication in the Calendar section, except for Seminar notices, must be submitted by mail or in person to Fran Appgar, Central Reservations, 532 Willard Straight Hall, at least 10 days prior to publication. Seminar notices should be sent to Barbara Jordan-Smith, News Bureau, 110 Day Hall, by noon Friday prior to publication. Items should include the name and telephone number of a person who can be called if there are questions, and also the subheading of the Calendar in which it should appear (lectures, colloquia, etc.). ALL DEADLINES STRICTLY ENFORCED.

\*Admission charged.

## Announcements

The Cornell Dairy Store is now offering half-gallon containers of skim and homogenized milk, in addition to quart sizes, and has replaced the 8-oz. container of orange juice with a 6-oz. size.

Cornell Karate Club and Team The Affiliated East Coast Karate Club of Cornell is offering training in classical (Shotokan) karate for beginners and advanced students. This fall marks the seventh year of existence of the Cornell Karate Club and Team. Beginner's classes will be held at 5:15 p.m. in Hughes Hall Dining Facility. All are welcome. Note that trainees can also receive physical education credit. For more information, call Armen Meguerditchian at 257-7293.

Olin Library Tours are offered for new and rejoining graduate students and faculty. Tours will be given on Sept. 3 at 2:30 p.m., Sept. 4 at 10:30 a.m., Sept. 8 at 2:30 p.m., Sept. 9 at 10:30 a.m., Sept. 10 at 2:30 p.m., Sept. 11 and 15 at 10:30 a.m., and Sept. 16 at 2:30 p.m.

Academic Survival Workshops Study Skills Workshops begin the week of Sept. 14. Topics include: Cornell Note-Taking Method, time management, textbook mastery, test preparation and strategies, and research paper skills. Please sign-up in advance at the Learning Skills Center, 375 Olin Hall or call 256-6310.

The Department of Russian Literature will sponsor a poetry reading and discussion by Russian poet and novelist Eduard Limonov at 4:30 p.m. Thursday, Sept. 10, in 202 Uris Hall. Limonov will read (in Russian) from his works and will be discussing the underground writers' movement.

## Colloquia

**Tuesday**  
Sept. 8, 3 p.m. Clark Hall 700.  
Astronomy and Space Sciences/Physics Colloquium: "Particle Probes of the Primeval Plasma," Dr. Robert V. Wagner, Stanford University.

## Exhibits

**Ryan Collages and Prints**  
"Anne Ryan: Collages and Prints" is on view at the Herbert F. Johnson Museum of Art through Oct. 18.

The collages in the exhibition fall roughly into three modes in which Ryan worked simultaneously. Those in the first group share a definite figure/ground relationship with bits of fabric and material carefully arranged as elements on a background, sometimes singly and sometimes placed one on top of the other.

In the second category, shapes are arranged irregularly in an overall distribution, with no background, in the Abstract Expressionist style.

The third group is distinguished by the horizontal and vertical character of the geometric shapes which are meticulously placed and fitted together. These collages are frequently framed as ovals, a device used by Picasso and Braque in their early Cubist collages.

Ryan was born in New Jersey in 1889 and moved to Majorca in 1931. During her two-year stay she supported herself through her writing which was published in the Literary Digest and Commonweal. During this time she also visited Spain and Paris, where she was exposed to a broad range of contemporary art.

In 1933, Ryan returned to the United

States and lived in Greenwich Village, where she was surrounded by American and European emigre artists. By 1938, at the age of 49, she began to paint and, in 1941, she joined Stanley William Hayter's printmaking workshop, which had been moved to New York from Paris for the duration of World War II.

For a short time Hayter's classes were held in Ryan's studio, which became a gathering place for both students and established artists. Able to observe firsthand a variety of techniques and the work of mature artists, Ryan became more and more involved with painting and printmaking and began to exhibit her work regularly. During the last six years of her life (1948-1954) Ryan produced about 400 collages.

"Anne Ryan: Collages and Prints" was organized by the Museum of Fine Arts in Houston, Texas. A brochure describing the exhibition is available at the Johnson Museum.

Museum hours are 10 a.m. to 5 p.m. Tuesday through Sunday.

**Herbert F. Johnson Museum**  
"Graphics Plus" through Sept. 13;  
"Halsman 79" through Sept. 27; "Working: American Perspectives on Labor" through Sept. 20; "Anne Ryan: Collages and Prints." Also on view: "Selections from the Print Collection of Paul Ehrenfest"; "Sculpture by Cynthia Tower"; "Ansel Adams: Three Photographs"; American portraits from the permanent collection: "Woman in a Red Shawl" by Samuel Waldo and "Carl Sprinchorn" by Robert Henri. Drawings from the permanent collection include 17th-19th century European drawings. Contemporary art from the permanent collection.  
Museum hours: 10 a.m.-5 p.m., Tuesday-Sunday.

## Films

Except where noted films are sponsored by Cornell Cinema.

**Thursday**  
Sept. 3, 8 p.m. \*Uris Hall Auditorium.  
"The Devils" (1971), directed by Ken Russell, with Oliver Reed, Vanessa Redgrave.

**Friday**  
Sept. 4, 7:30 p.m. Uris Hall Auditorium. Pentangle II Free Film.  
"Boudou Saved From Drowning" (1932), Jean Renoir, France; short: "Easy Street" (1917), Charlie Chaplin, U.S.  
Sept. 4, 9:45 p.m. \*Uris Hall Auditorium. "The Stunt Man" (1980), directed by Richard Rush, with Peter O'Toole, Steve Railsback, Barbara Hershey.

**Friday & Saturday**  
Sept. 4 & 5, 8 p.m. \*Statler Auditorium.  
"Apocalypse Now" (1979), directed by Francis Ford Coppola, with Marlon Brando, Martin Sheen, Robert Duvall.  
Sept. 4 & 5, 11 p.m. \*Statler Auditorium. "Monty Python and the Holy Grail" (1975), directed by Terry Gilliam and Terry Jones, with Graham Chapman, John Cleese, Terry Gilliam.

## Bailey Ticket Sales End Tomorrow

Appearances by such universally-acclaimed performers as the New York Philharmonic, Jean-Pierre Rampal, the Amadeus Quartet and Pinchas Zukerman highlight the 1981-82 Bailey Hall-Statler Concert Series.

Due to an overwhelming demand for Bailey Hall subscriptions, tomorrow will be the last day concertgoers will be able to purchase subscriptions for the Bailey Hall concert series, according to Marianne Carlin, concert manager.

The date has been set by the Faculty Committee on Music in order to retain a small number of the seats and make them available to the public on a single ticket basis, Carlin said. Subscription sales for the Statler Series will continue until a later date.

The subscriptions, which are

**Saturday**  
Sept. 5, 7:30 & 10:15 p.m. \*Uris Hall Auditorium. "The Stunt Man."

**Sunday**  
Sept. 6, 8 p.m. \*Uris Hall Auditorium.  
"Wild Strawberries" (1957), directed by Ingmar Bergman, with Victor Sjöström, Bibi Andersson, Ingrid Thulin.

**Monday**  
Sept. 7, 9 p.m. \*Uris Hall Auditorium.  
"Intolerance" (1916), directed by D.W. Griffith, with Lillian Gish, Mae Marsh, Robert Harron. Film Club members only.

**Tuesday**  
Sept. 8, 8 p.m. \*Uris Hall Auditorium.  
"Heaven Can Wait" (1943), directed by Ernst Lubitsch, with Gene Tierney, Don Ameche, Eugene Pallette.

**Wednesday**  
Sept. 9, 8 p.m. \*Uris Hall Auditorium.  
"The Seventh Seal" (1956), directed by Ingmar Bergman, with Gunnar Bjornstrand, Bengt Ekerot, Max von Sydow.

**Friday**  
Sept. 11, 7:30 p.m. Uris Hall Auditorium. Pentangle II Free Films.  
"Happiness" (1934), Alexander Medvedkin, U.S.S.R.; "The Train Rolls On" (1972), Chris Marker, France.

Sept. 11, 9:45 p.m. \*Uris Hall Auditorium. "Rare Disney Animation" (1930's) directed by Walt Disney, with a variety of characters.

**Friday & Saturday**  
Sept. 11 & 12, 8 p.m. \*Statler Auditorium. "Kagemusha" (1980), directed by Akira Kurosawa, with Nakadai Tatsuya, Yamakazi Tsutomu, Hagiwara Kenichi.

Sept. 11 & 12, 11:15 p.m. \*Statler Auditorium. "Dr. Strangelove" (1964), directed by Stanley Kubrick, with Peter Sellers, George C. Scott, Slim Pickens.

**Saturday**  
Sept. 12, 7:30 & 10 p.m. /Uris Hall Auditorium. "Rare Disney Animation."

**Sunday**  
Sept. 13, 8 p.m. \*Uris Hall Auditorium.  
"Brink of Life" (1958) directed by Ingmar Bergman, with Ingrid Thulin, Eva Dahlbeck, Bibi Andersson.

## Intramurals

**Touch Football**  
Deadline on entries: Thurs., Sept. 3 at 4 p.m. in the Intramural Office, Grumman Squash Cts. Bldg., across from Teagle Hall. Minimum of 12 to enter. Playing days to be determined. In the event that the playing days are Mon. thru Fri. afternoons, please specify your preferred day of play: 1st, 2nd, 3rd choice. If games are played on weekends, you will not have a choice. If lights are available we will have two banks of games Mon. through Fri. Play will be on Jessup Field. A "forfeit entry fee" of \$10 per team, due with your roster to enter. Checks only, payable to 'Dept. of Phys. Ed. & Ath., Intramural Div.' Post-date checks Nov. 2. If you do not forfeit any of your regularly scheduled games you will

receive your check at the end of football season.

**Tennis: Men, Women, Doubles**  
Deadline on entries is Thurs., Sept. 3 at 4 p.m. in the Intramural Office, Grumman Squash Cts. Bldg. across from Teagle Hall. Two to enter. Play starts Tues., Sept. 8. Additional information available in the Intramural Office. Sign-up: on a first-come, first served basis. Entries will be limited to one team per organization.

**Sailing: Men, Women, Co-ed**  
Deadline on entries is Wed., Sept. 9 at 4 p.m. in the Intramural Office, Grumman Squash Cts. Bldg. across from Teagle Hall. Two to enter: skipper and crew. A back-up crew may be registered. Team consists of two people. Races will be sailed in 420's or grumman flyers. Date of race: Sat. & Sun., Sept. 12 & 13. Skipper and crew must attend meeting on Fri., Sept. 11 in the Robison Hall of Fame Room, Schoellkopf Hall at 4:30 p.m. You will not be allowed to race if you do not attend this meeting. Racing rules, location, etc. available at meeting. An entry fee of \$5 per team, due with your roster. Checks only. Payable to Dept. of Phys. Ed. & Ath., Intramural Div. No refunds after the deadline. Life jackets are mandatory.

**Soccer: Men, Women**  
Deadline on entries is Thurs. Sept. 10 at 4 p.m. in the Intramural Office, Grumman Squash Cts. Bldg. across from Teagle Hall. Minimum of 12 to enter. Play will be on Jessup Field. Playing days to be determined. Specify your preferred day of play: 1st, 2nd, 3rd choice, Monday through Thursday evening, Friday, if necessary, in the event that lights are available at this time. If lights are not available, play will be on Sat. & Sun. and you will not have a choice of days. A "forfeit entry fee" of \$10 per team, due with your roster to enter. If you do not forfeit any of your regularly scheduled games, you will receive your check at the end of the soccer season. Checks only: payable to the Dept. of Phys. Ed. & Ath., Intramural Div. Please post-date checks Nov. 9.

## Lectures

**Tuesday**  
Sept. 8, 4:30 p.m. Goldwin Smith 177.  
German Literature: "Das Drama der DDR in den siebziger Jahren," Professor Ulrich Profitlich, University of Paderborn, West Germany.

**Wednesday & Monday**  
Sept. 9 & 14, 7:30-9 p.m. Anabel Taylor One World Room. "America and World Community" Now and in the Future: an interdisciplinary course open to all; undergraduates, graduates, and non-students (3 credits). (Gov. 401/Ag. Orient. 401). Features six Cornell faculty and five guest lecturers from Japan, Africa, United Nations, United States. Introduction, registration and discussion: "Energy and World Community" Jay Orear, Professor, Physics; Hans Bethe, Professor Emeritus, Physics; Gary

Society of Lincoln Center, Friday, Oct. 23; Tashi, Wednesday, Feb. 10, 1982, and the Amadeus Quartet, Monday, March 22, 1982.

Subscription prices for the Bailey Series range from \$43.50 to \$69.50 for the general public, depending on seating; prices for the Statler series range from \$22 to \$37. For students, Bailey Series subscriptions range from \$37 to \$60 and for the Statler Series, from \$18.75 to \$31.50.

Bailey Hall, which has recently undergone renovations, is now accessible to the handicapped. An elevator has been installed and two sections have been reserved to serve those in wheelchairs.

Free campus bus service for the Bailey Hall concerts will be provided between parking lot B and Bailey Hall with a stop at the Dairy Bar.

## Meetings

**Wednesday**  
Sept. 9, 4:30 p.m. Ives 110. FCR meeting.

Every Tuesday, 9 p.m. Hug Ivri-Hebrew Club Meeting. Speakers of Hebrew at all levels welcome. For more information, call Michael at 277-2168.

## Religion

**Mon. through Fri., 12:15 p.m.** Anabel Taylor G-19. Catholic Mass.

Every Fri., 1 p.m. Anabel Taylor Edwards Room. JUMA Prayers organized by the Muslim Educational and Cultural Assoc. of Cornell.

Every Sat., 5:15 p.m. Anabel Taylor Auditorium. Catholic Eucharist.

Every Sun., 9:30 a.m. Anabel Taylor Chapel. Episcopal Eucharist Worship Service. Nursery and Church School provided. Faculty and students welcome. Coffee hour after.

Every Sun., 9:30 & 11 a.m. Anabel Taylor Auditorium. Catholic Eucharist. Church school and nursery provided.

Every Sun., 9:45 a.m. Anabel Taylor Edwards Room. Ithaca Society of Friends (Quakers) adult discussion followed by meeting for worship at 11 a.m.

Every Sun., 10 a.m. Straight North Room. Korean Church at Cornell.

Every Sun., 11:15 a.m. Anabel Taylor Chapel. Protestant Church at Cornell. Coffee and conversation after.

Every Sun., 5 p.m. Anabel Taylor Auditorium. Catholic Eucharist.

**Sunday**  
Sept. 6, 11 a.m. Sage Chapel. Inter-religious Convocation, W. Jack Lewis, Director Emeritus, Cornell United Religious Work (CURW).

## Seminars

**Center for Applied Mathematics:** "Diffusion Processes and First Passage Time Problems in Population Biology and Neurobiology: Generalities and Background," Luigi Ricciardi, University of Naples, Italy, 4 p.m. Friday, Sept. 4, 165 Olin Hall.

**Center for Applied Mathematics:** "Diffusion Approximations to the Neuronal Firing Problem," Luigi Ricciardi, University of Naples, Italy, 4 p.m. Tuesday, Sept. 8, 165 Olin Hall.

**Chemical Engineering:** "Rheological Properties of Simple Fluids by Computer Simulation," Denis Evans, Australian National University, Canberra, Australia, 4:15 p.m. Friday, Sept. 4, 145 Olin Hall.

**Ecology and Systematics:** Title to be Announced, Robert E. Cook, visiting associate professor, 4:30 p.m. Wednesday, Sept. 9, Penthouse, Langmuir Lab.

**Plant Biology:** "Proton Transport in Microsomal Vesicles from Corn Roots," Frances DuPont, 11:15 a.m. Friday, Sept. 4, 404 Plant Science.

**Plant Pathology:** "Botrytis cinerea and Tomato-Infection Process and Defense Mechanism," K. Verhoef "Willie Commelin Scholten," Baarn, 4:30 p.m. Tuesday, Sept. 8, 404 Plant Science.

**Theoretical and Applied Mechanics:** "Chaotic Bouncing," Philip J. Holmes, 4:30 p.m. Wednesday, Sept. 9, 205 Thurston Hall.

**Toxicology:** "Organochlorine Insecticides: Past, Present, and Future," Gerald T. Brooks, Ag. Res. Council, Unit of Invertebrate Chemistry and Physiology, Brighton, Sussex, U.K., 12:15 p.m. Friday, Sept. 4, NG02 MVR.

**Physiology:** "Cerebral Metabolism in Normal and Intrauterine Growth Retarded Piglets," P.A. Flecknell, Northwick Park Hospital, Harrow, England, 4:30 p.m. Tuesday, Sept. 8, G-3 Vet. Research Tower.

**Pharmacology:** "Comparative Aspects of Gentamicin Pharmacokinetics and Nephrotoxicity," Jim Edmond Riviere, Purdue University, 1 p.m. Wednesday, Sept. 9, Veterinary Research Tower, ground floor, 3.

# Graduate Bulletin

A meeting of the Graduate Faculty will be held at 4:30 p.m. on Friday, Sept. 18, in Kaufmann Auditorium, Goldwin Smith Hall. The order of business will be the voting of August degrees.

**FOREIGN GRADUATE STUDENTS** who submitted TOEFL scores below 600 or ALIGU test scores, and who did not take the English Placement Test last Friday, must report for a makeup test on Friday, September 4, at 6:45 p.m., in Room 106, Morrill Hall.

Graduate students who have Cornell administered awards that provide tuition, please note: credit for the tuition charge appearing on your August bill should appear on your September billing statement. If payment has not appeared at that time, contact the office that is providing your support or the Graduate Fellowship Office, 116 Sage Graduate Center, 256-4884.

Graduate students who are receiving tuition assistance from Cornell administered sources must apply for a Tuition Assistance Program (TAP) award through the New York State Higher Education Services Corporation (NYSHESC) if they meet New York state residency requirements. Other graduate students who are New York state residents should also apply for a TAP award even if tuition is not paid by a fellowship or assistantship. Contact the bursar's Office, 260 Day Hall, for information and application forms.

**Reminder: To Guaranteed Student Loan Borrowers** - New government regulations will go into effect on October 1, 1981. These regulations will require a needs test for a borrower from a family with an adjusted gross income over \$30,000. This test will limit many people from borrowing through this program. If you have not already done so, you should apply now to try to avoid cutbacks in the GSL program. GSL applications may be submitted at the Student Loan Window, Financial Aid Office, 203 Day Hall.

Stipend checks for graduate students awarded fellowships, scholarships, and traineeships will be available at the Fellowship Office, 116 Sage Graduate Center, beginning September 1. Most awards are payable monthly, and checks are available on the first Friday of each month as payment for that month. Beginning this term, most Cornell fellowships will be paid in ten equal installments over the 9-month academic year. Two checks will be disbursed in September, and one check for the months of October-May. Loan and refund checks will be available at the Cashier's Office, 260 Day Hall, after 10:00 a.m. on Wednesday, September 2. You must pick up your check in person and you must present a valid student I.D. before your check can be released.

Checks for students sponsored by AAI (AfGrad) and LASPAU will be available at the Graduate Fellowship Office according to the payment schedule established by your sponsor. Lehman Fellowship recipients should submit the school copy of their award certificate to the Fellowship Office.

Checks for teaching assistants, research assistants and graduate research

assistants should be available bi-weekly on and after September 3 at the various departmental offices. You must be a registered graduate student to receive your check.

All completed optical mark course registration sheets should be turned in to Sage Graduate Center between now and September 25. There are fewer crowds earlier.

Graduate students are reminded that in nominating their special committees, only members of the Graduate Faculty of the appropriate field may represent major or minor subjects.

Cornell graduate fellowships, traineeships, assistantships, and scholarships do not provide for Student Health Insurance charges. Students are personally responsible for these expenses. Those not wanting to participate in the insurance plan must submit a waiver card to Gannett Health Center, 10 Central Avenue, by September 28 to cancel this coverage.

Questions concerning fellowships, scholarships and traineeships should be directed to the Graduate Fellowship Office, 116 Sage Graduate Center, to the financial administrator in your department or to the graduate faculty representative of your field. Questions about assistantships should be directed to the departmental office providing the award. Questions about loans and college work-study should be directed to the Office of Financial Aid, 203 Day Hall.

For information about Fulbright-Hays predoctoral grants for study abroad and for doctoral dissertation research, contact Jeanne Bowen, Fulbright Program Advisor, 114 Sage Graduate Center. Appointments may be made by calling 256-4884. Application deadlines for these are rapidly approaching.

"Brizio," an acrylic on canvas by Norman Blum, is on view at the Herbert F. Johnson Museum of Art as part of its permanent collection. The painting is a recent gift of Mr. and Mrs. John S. Dyson.

The Office of Sponsored Programs, 123 Day Hall, 6-5014, wishes to emphasize that the information in this column is intended for post-doctoral research unless otherwise indicated

## UNIVERSITY GENETICS CO.

Program of Grants for Research in Genetic Engineering preliminary submissions are invited. Preference will be given to innovative approaches; concepts with important advantages over existing methods; and proposed products which have a breadth of application and market potential commensurate with the costs and risks of the research program. UGEN will fund salaries, supplies and minor equipment. Preliminary submissions may be made at any time. If a full proposal is requested by UGEN, it should be submitted six months prior to the anticipated starting date for the grant.

Further information is available at the Office of Sponsored Programs, 123 Day Hall.

## U.S.-FRANCE SCIENTIFIC COLLABORATION APPLICATIONS SOUGHT BY NIH

The National Institutes of Health and France's National Center for Scientific Research share support for well-qualified United States scientists to work at laboratories in France and for similar French scientists to work at U.S. laboratories. Approximately five scientists of each country are exchanged annually to conduct basic and clinical research, to become familiar with or to utilize techniques and equipment, and to undertake related cooperative efforts. The deadline for the receipt of applications from U.S. scientists is October 1, 1981.

Details on eligibility, program support and application information may be obtained from Office of Sponsored Programs, 123 Day Hall.

## DHHS: NATIONAL EYE INSTITUTE

The Department of Health and Human Services has announced a Small Grants Program for Pilot Projects being funded by the National Eye Institute. The program is designed to support recently trained or less experienced investigators, investigators whose research career was interrupted and is intended to be resumed, investigators changing field of research, and established investigators needing quick support for a pilot project, among others. The award provides a maximum of \$15,000 in direct costs, is for one year, and is not renewable. It is intended to provide support for pilot projects, testing of new techniques, or feasibility studies of innovative and high-risk research, which would provide a basis for more extended research. Application receipt date is October 1, 1981.

More information may be obtained from the Office of Sponsored Programs.

## FACULTY DEVELOPMENT PROJECTS IN ENERGY EDUCATION - 1982

Projects will consist of summer or academic year inservice workshops for teachers at high school, Jr. high/middle school or elementary school only. Workshops will provide teachers with instructions relating to current and future energy technologies - fossil (coal, oil, gas, shale); nuclear (conventional and breeder reactors, waste management, fusion); renewable energy sources (solar, biofuels, hydropower) and end use efficiency (in buildings, transportation, industry), etc. Individual grants are NTE \$20,000 for maximum of one year. Proposals are due October 16, 1981.

Interested parties may obtain a copy of the Notice of Program Announcement NO. DE-PS05-81ER10227 by submitting a written request to:

U.S. DEPARTMENT OF ENERGY, OAK RIDGE OPERATIONS, PROCUREMENT AND CONTRACT DIVISION, POST OFFICE BOX E, OAK RIDGE, TN 37830

## THE MARY INGRAHAM BUNTING INSTITUTE OF RADCLIFFE COLLEGE

Bunting Fellowship Program for 1982-1983 - The Bunting Fellowship Program is for women to pursue independent study in academic or professional fields, in creative writing, or in the arts. The purpose of the fellowship is to provide the opportunity and support for a professional woman to complete a substantial project in her field and thereby to advance her career. Appointments are full time for the year July 1 through June 30 and require residence in the Boston area during the term of the appointment. Fellows are expected to present a colloquium on their current work during their appointments. The fellowship stipend during the current year 1981-1982 is \$13,500.

Fellows may be at various levels of career development ranging from early postdoctoral to senior professional ranks. Applicants must have received their doctorates before June 30, 1980. Applicants in creative writing, the visual arts, or music are expected to be at an equivalent stage in their professional development.

The application deadline for the year 1982-1983 is October 1, 1981. Public announcement of the appointment of the Bunting Fellows of Radcliffe College will be made in May 1982.

Inquiries and requests for application forms should be made to: Bunting Fellowship Program, The Bunting Institute, Radcliffe College, 10 Garden Street, Cambridge, Massachusetts 02138, Telephone: (617) 495-8214.

## NATIONAL GEOGRAPHIC RESEARCH GRANTS

Grants-in-aid for basic research are available in the Sciences pertinent to geography. These sciences include but are not limited to projects in geography, anthropology, archeology, astronomy, biology, botany, ecology, ethnology, geology, glaciology, mineralogy, oceanography, paleontology, and zoology. Support may also be provided for projects in the above fields that depend on exploration. Grants vary in amount, depending on the need and nature of the project. In 1980, awards ranged from \$1,000 to \$100,000. Grants are not awarded for more than one year. However, where a project requires two or more years, the investigator may apply again after submitting a report on the use made of the grant in the first year. Applications may be submitted any time. Application guidelines are available from National Geographic Society, Committee for Research and Exploration, Washington, DC 20036.

## GERMAN ACADEMIC EXCHANGE SERVICE (DAAD)

Grants for Study and Research in the Federal Republic of Germany - Information available in the Office of Sponsored Programs.

## Langmuir Laboratory Space Is for Rent

Langmuir Laboratory, an office and laboratory facility owned by the university and located at Tompkins County Airport, will have space available for leasing by Cornell departments in early 1982.

Thomas Mailey, director of the Industry Research Park, said he expects leases will be offered starting at \$7.50 per square foot, including utilities.

Langmuir is now occupied by researchers in the Division of Biological Sciences and Computer Services. Biological Sciences people are expected to be moving to their new building on campus later this year or early in 1982.

# Cornellians to Spend Year Teaching in China

Two four-member teams of Cornell students are scheduled to spend the 1981-82 academic year teaching English at universities in the People's Republic of China.

In turn they will study Chinese language and culture under agreements initiated last summer during a visit to China by President Frank Rhodes and nine Cornell faculty-administrators.

According to Alison P. Casarett, dean of the Cornell Graduate School, two undergraduate and six graduate students will be teaching at the Southwestern Communications (Jiaotong) University at Emei and the University of Sichuan in Chengdu. Both are in Sichuan Prov-

ince which is known as China's rice bowl and through which the Yangtze River flows.

Casarett said this is the first of what are hoped to be yearly visits by Cornell students to teach English in China as well as to study there. Under the arrangement all expenses outside of China, including airfare, are paid by Cornell and the students. While in China all living expenses and travel as well as a stipend are paid by the Chinese government.

One team has received visas and left the United States on the week of Aug. 23. They are Pina Capone of Long Beach, Mark Rustad of Bristol, Conn., and

Stefanie Rood of Chico, Calif., all graduate students. The fourth member is Eiran Ben-Dashan, of Corning, a senior at Elmira College taking special language courses at Cornell and scheduled to enter Cornell's graduate school.

On the other team, which is still awaiting visas from China, are graduate students Jane Feldman and Mary P. Rouse, and undergraduate students, Elise Anne Devido and Michele L. Ehlers.

The Cornell students have undergone a special program at Cornell this summer learning special techniques for teaching English as a foreign language with techniques particularly adapted for the Chi-

nese. The program is under the direction of Marilyn Martin, senior lecturer in the Department of Modern Languages and Linguistics.

In addition the students have been undergoing an extensive cultural orientation for their stay in China, in a program developed and headed by John McCoy, professor of linguistics and Chinese literature. McCoy, who made the trip to China last summer with President Rhodes, is fluent in Chinese and has lived in the country for extended periods several times during his life.

Casarett said that one of the things that became quite clear during the China visit last summer was

that Cornell could provide particular assistance and expertise in helping the Chinese students and educators learn English. Much English is being taught by Chinese or by native English speakers with no knowledge of the specialized techniques needed to successfully and efficiently teach a foreign language.

"We discussed this problem," she said, "while we were there. The current program has resulted. It is expected to expand and to lead to other opportunities for our students to study in China in exchange for special assistance they can give."

# People

## Arthur Dean's Long Service Recognized

Arthur H. Dean's long service on the board of directors of the Teagle Foundation has been recognized by the foundation's gift of \$25,000 to a university library book endowment.

Dean, a native of Ithaca who earned a bachelor's at Cornell in 1921 and a law degree here in 1923, was on the board of the Teagle Foundation from 1964 until 1980.

Income from the Teagle Foundation endowment will be used to purchase books in the area of French-American studies, with an emphasis on the 18th century.

Dean gained international prominence in the 1950s and 1960s as a diplomatic negotiator for the United States. After the armistice in the Korean War in 1953, Dean was chief negotiator for the United States and 15 allies at the truce talks at Panmunjom. In 1953-54 he was a special ambassador to Korea.

Dean served as chairman of the U.S. delegation of the 18-nation disarmament conference in 1962 and the nuclear test ban negotiations in 1961-62 which resulted in the signing of the partial nuclear test ban treaty

in Moscow in 1963.

He was a member of the Cornell Board of Trustees for 30 years and served as chairman from 1959 to 1968.

Dean's major gifts to the Cornell library include the Lafayette Collection, the Bowe Collection, the Maurepas Collection and the LaForte Collection.

He was influential in aiding the Cornell administration in obtaining the funds and planning for construction of Olin Library and the conversion of Cornell's original under-

graduate library. He has been chairman of the Library Associates for 17 years.

The Teagle Foundation, a private foundation, was established by Walter C. Teagle, an 1899 Cornell graduate. He was a director, president and chairman of Standard Oil Co. (New Jersey), now Exxon Corp.

The foundation has been a long-time supporter of scholarships at Cornell, having contributed more than \$1.9 million for that purpose.

## Lowi Goes to Paris on Fulbright Award

Cornell political scientist Theodore J. Lowi has received a Fulbright award for 1981-82 under the Mutual Educational and Cultural Exchange Program.

Lowi will lecture on American government and public policy at the Ecole des Hautes Etudes en Sciences Sociales in Paris during 1981-82.

Lowi, the John L. Senior Pro-

fessor of American Institutions at Cornell, earlier this year was appointed to the French-American Foundation's Chair of American Civilization at the Ecole for the coming academic year.

His Fulbright award is one of more than 500 such grants for university teaching and advanced research in more than 100 countries for 1981-82.

More than 2,500 Fulbright applications are screened annually by two peer review committees. The nominated applicants are further reviewed abroad. Chosen scholars are officially selected by the Board of Foreign Scholarships whose members are appointed by the president of the United States.

The purpose of the Fulbright Program, now in its 35th year, is "to

enable the government of the United States to increase mutual understanding between the people of the United States and the peoples of other countries."

Fulbright awards for university teaching and advanced research are administered by the Council for International Exchange of Scholars in Washington, D.C.

## Brian Tierney Receives Honorary Degree

Professor Brian Tierney, whose teaching career began 30 years ago at The Catholic University of America and who has gone on to gain world-wide recognition while at Cornell, received an honorary degree from Catholic University in May.

Tierney, the Bowmar Professor of Humanistic Studies here, was

awarded the honorary degree of Doctor of Humane Letters at Catholic's commencement.

That university acclaimed "his contributions to medieval studies and to the academic profession generally" in the honorary degree citation.

The citation noted that Tierney had "an auspicious beginning" dur-

ing his eight years at Catholic and that he went on "to earn international distinction at Cornell...."

Tierney came to Cornell in 1959 as a professor of medieval history. He was named the Goldwin Smith Professor of Medieval History here in 1969, a chair he held until he was elected the first Bowmar Professor in 1977.

A specialist in medieval church history, he is the author of a number of books and articles on the subject.

In 1964 Tierney was awarded the honorary Doctor of Theology degree by Uppsala University in Sweden, recognizing, according to Catholic University, "both his disciplinary breadth and acumen and the ecumenical significance of his work."

## Olsen-Tjensvold Gets New CURW Post

Ingrid Olsen-Tjensvold has been named assistant director of Cornell United Religious Work, according to an announcement by Rabbi Morris Goldfarb, acting director of CURW.

The newly established position incorporates most of the duties Olsen-Tjensvold has performed on a part-time basis since 1978 as both program associate for CURW and associate coordinator for the Eco-Justice Project of the Center for Religion, Ethics and Social Policy

at Cornell.

Olsen-Tjensvold will also take on other responsibilities in her new position, Goldfarb said. Goldfarb assumed acting directorship of the CURW last spring when W. Jack Lewis retired. A search is under way for a new director.

As associate director, Olsen-Tjensvold, who holds a doctorate in religion and philosophy from Syracuse University, is in charge of all interreligious activities at Sage

Chapel. In addition she is responsible for the coordination of various CURW programs. She will also work with the director of CURW in "representing, interpreting and publicizing the work of CURW throughout the Cornell Community."

Born in Milwaukee, Wis., Olsen-Tjensvold, received an A.B. degree (cum laude) from Radcliffe College in 1967 and has done graduate study in religion, theology, culture and

philosophy at Princeton and Harvard Universities, in addition to Syracuse, under various fellowships and awards including the Isobel L. Briggs American Fellowship for an Outstanding Radcliffe Alumna. In 1978 she received her doctorate from Syracuse after completing a dissertation on "Response to Creation: Christian Environmentalism and the Theology and Ethics of H. Richard Niebuhr."

George L. Good has been elected professor of ornamental horticulture in the State College of Agriculture and Life Sciences. A faculty member in Cornell's department of floriculture and ornamental horticulture since 1968, Good is a specialist in woody ornamental plants and landscape horticulture. His research has concentrated on protection of container-grown nursery plants from winter injury in northern climates.

Richard Newell Boyd, associate professor in the Department of Philosophy, has been elected professor of philosophy. Boyd is renowned for his contributions to the philosophy of language, the philosophy of mind and the philosophy of science. His research in the area of modern philosophical materialism has resulted in his second book, "The Physical Basis of Mind," scheduled for publication this year. Before coming to Cornell

in 1972, Boyd was an assistant professor at Harvard University.

William Woodbridge Goldsmith, associate professor in the Department of City and Regional Planning in the College of Architecture, Art and Planning has been promoted to professor.

Goldsmith is director of Cornell's Program on International Studies in Planning. He is an expert on urban planning and regional development in the underdeveloped countries, has conducted research and written on planning problems in Columbia, Brazil, Chile and Cuba, and he has served as consultant to the governments of Puerto Rico and Mexico. He has been at Cornell since 1968.

John Anthony Muckstadt, associate professor in the School of Operations Research and Industrial Engineering since 1974, has been elected professor. Muckstadt has earned recognition in the field of

operations management as a leader in multi-echelon inventory theory and practice. He has been a consultant to many governmental and industrial organizations, including the Rand Corp., for inventory management and logistics systems design.

Donald L. Turcotte, a member of the engineering faculty since 1959, has been elected chairman of the Department of Geological Sciences for a five-year term ending June 30, 1986. Named to the post by the University Board of Trustees, Turcotte succeeds Jack Oliver. Turcotte came to Cornell as an assistant professor of aeronautical engineering in 1959, was promoted to associate professor of aerospace engineering with tenure in 1963, and elected professor of aerospace engineering in 1967. In 1973 he transferred to the Department of Geological Sciences. He served 10 years (1962-72) as a graduate faculty rep-

resentative for aerospace engineering and then a five-year term (1974-79) as graduate faculty representative for geological sciences.

Henry T. Murphy, librarian of the Albert R. Mann Library since September 1969, has assumed the position of collection development and acquisitions librarian in the Mann Library, effective July 1, 1981. After 12 years in a major administrative role, Murphy returns to his primary interest in librarianship, that of building the collections.

Jeanne A. White, associate librarian of Mann Library since April 1977, is serving as acting librarian pending the outcome of a national search for a new Mann librarian. The search committee, composed of librarians and faculty from the Colleges of Agriculture and Life Sciences and of Human Ecology, is under the chairmanship of Herbert Finch, assistant university librarian for special collections.

Arthur S. Lieberman, professor of physical environmental quality in the Landscape Architecture Program, College of Agriculture and Life Sciences, has returned from a year's sabbatical leave in Israel. He served as Lady Davis Visiting Professor at the Technion-Israel Institute of Technology, Haifa, and while there completed writing, with a co-author from Technion, a book on the theory and application of landscape ecology. He also engaged in research with Technion counterparts on comparative studies of tree crops for food and forage on rough, marginal lands in Israel's Mediterranean Uplands, and appropriate physical planning methodologies and technologies for less developed countries of Asia, Africa and Latin America; and taught a regional landscape planning course in the Graduate School.

Jeanne Novacco, who has worked in advertising, journalism and employee communications, has joined the staff of University Personnel Services as a communications specialist. She succeeds Elizabeth Pienkos who resigned in the spring. She will be responsible for the design, editing, production and distribution of all personnel department publications. Novacco handled communications projects for four years with William Mercer, Inc./Marsh & McLennan, employee benefits consultants. She worked with magazines and newspapers in New Canaan and Bridgeport, Conn., and in Lockport and Depew, N.Y., and held graphic and editorial positions with several advertising and industrial firms in New York and Connecticut. She is a graduate of Syracuse University.

# Four New Professors-at-Large Named Filmmaker, Neurophysiologist, Mathematician, Poet

Italian filmmaker Michelangelo Antonioni, American neurophysiologist Paul Greengard, Hungarian mathematician Laszlo Lovasz and American poet Adrienne Rich have been elected to six-year terms as Andrew D. White Professors-at-large by the University Board of Trustees.

The addition of such renowned creative artists as Antonioni and Rich in combination with such distinguished scholars as Greengard and Lovasz underlines the overall strength of the program since its founding in 1965, said Vinay Ambegaokar, director of the program and professor of physics.

They join 17 other international figures of outstanding accomplishments currently in the program, giving Cornell's intellectual and creative community direct access to talents from all parts of the world.

Ambegaokar pointed out that during the 1980-81 academic year, 11 professors-at-large spent a total of 24 weeks on campus giving lectures, seminars and engaging in informal dialogues with students and faculty.

One of the highlights of the coming year, he said, will be a visit by Britain's Lord Ashby who will give a series of four lectures in October on the "Politics of Pollution," under the sponsorship of the Professors-at-large Program and the Program on Science, Technology and Society.

Details of Lord Ashby's visit will be announced later. A former A.D. White Professor-at-large, Lord Ashby visited Cornell in the early 1970s when he was Sir Eric Ashby. A former vice chancellor (equivalent to president) of Cambridge University, he is currently concerned in particular with the effects of science on the environment in his capacity as a member of the House of Lords.

Ambegaokar said, "In reflecting on his visit and on all professor-at-large visits through the years, I am struck by one of the program's singular merits. At a time when interdisciplinary programs are much in vogue, this program has the considerable advantage of being built around a collection of individuals whose intellectual curiosity has led them to uncover new ground at the frontiers of existing disciplines. Interdisciplinary contacts therefore occur very naturally during the periods when professors-at-large are on campus."

The new appointments were by trustee action taken by the Executive Committee at its monthly

meeting, held July 14 in New York City.

The office of the Professors-at-large Program offered the following descriptions of the four new members:

- Antonioni is among the very small number of the world's most distinguished film makers; he also has manifest accomplishments as a theorist of film and as an experimenter in that realm.

He has written numerous articles for journals and newspapers on films and film theory, plus all the scripts for his major motion pictures including "L'Avventura," "La Notte," "Blow-Up," "Zabriskie Point" and "The Passenger." In addition, he has directed short films and plays such as "Scandali segreti" and "I am a Camera" which were presented at the Teatro Elisio in Rome in 1957.

- Greengard received a Ph.D. in the field of neurophysiology from The Johns Hopkins University in 1953 and since 1968 has been a

professor at the Yale University School of Medicine. His work has focused on the effects of drugs which interact with hormone receptors on cell surfaces.

His work has addressed a most fundamental aspect of cellular physiology: How cells respond to stimuli, what molecular mechanisms are involved, and how those mechanisms can be affected by external agents such as drugs.

Greengard is a member of the National Academy of Sciences, the Biochemical Society of Great Britain and a Charter Fellow of the American College of Neuropsychopharmacology.

- Lovasz received a doctor of mathematical science degree from the Hungarian Academy of Science in 1977. He has been a professor of mathematics at the University of Szeged since 1975. He has written approximately 100 research papers and three books in the areas of computer science, information theory, operations research and com-

binatorial mathematics.

He served as chairman of his department at the University of Szeged for six years, is editor-in-chief and founder of a new journal in combinatorial mathematics, and an associate editor of numerous other journals. He has won several prizes for his research including in 1980 the Information Theory Prize of the Institute of Electrical and Electronics Engineers, and in 1979 the George Polya Prize for Applied Combinatorics from the Society for Industrial and Applied Mathematics.

Lovasz is the first sole recipient of the Polya Prize; the two previous awards in 1972 and 1975 were shared by groups of five and three, respectively. In 1979 Lovasz was elected to the Hungarian Academy of Science.

- Rich received an A.B. degree from Radcliffe College in 1951 and has done graduate work at Oxford University in England. She is considered one of the most prominent and influential poets of her gener-

ation. Her poems and prose have engaged contemporary literary culture in fresh and provocative ways.

She has been a Phi Beta Kappa Poet at College of William and Mary, 1960; Swarthmore College, 1965, and Harvard College, 1966.

Since 1951 she has published 12 books, nine of poetry and two of prose. Outside her poetry, she is best known for her wide-ranging analysis of motherhood and for her contributions to the study of women and literature. She has twice been awarded a Guggenheim Fellowship (1951-52 and 1961-62).

She was nominated for a National Book Award in 1966 and in 1974 was a co-winner of a National Book Award for poetry. She has taught at Swarthmore College, Columbia University, City College, C.U.N.Y., Brandeis University and most recently was professor of English at Douglass College, Rutgers University, 1976-78. In 1980 she was Copeland Colloquium Fellow at Amherst College.

'This backpacking business sure is a whole bunch of fun...'

## Salpeter Director of Radiophysics, Space Research

Professor of Astronomy and Physics Edwin E. Salpeter has been named director of Cornell's Center for Radiophysics and Space Research.

Salpeter, who also serves as the James Gilbert White Distinguished Professor in the Physical Sciences, replaces Thomas Gold, director of the center since its establishment in 1959. The appointment is effective July 1, 1981, and is for a term of three years.

Peter J. Gierasch, professor of astronomy at Cornell, has been named associate director of the center.

Gold will continue as the John L. Wetherill Professor of Astronomy at Cornell and will concentrate his research efforts on the derivation of hydrocarbons in the Earth.

Commenting on the appointment of Salpeter, Cornell Vice President for Research W. Donald Cooke said, "I am delighted that Professor Salpeter was willing to undertake the directorship of CRSR. His great stature as a scientist is a continuation of Professor Gold's directorship and his leadership will be important for the future of the center."

A specialist in theoretical physics

and astrophysics, Salpeter came to Cornell as a research associate in 1949. He has served as a visiting professor at the Australian National University, a research associate at the Mt. Wilson and Palomar Observatories, a visiting professor at Sydney University, an Overseas Fellow at Churchill College in Cambridge, and as a Fairchild Scholar at California Institute of Technology. In 1980, he was appointed by President Carter as a member of the National Science Board.

Salpeter holds the bachelor and master of science degrees from Sydney University and received the

Ph.D. in theoretical physics from Birmingham University in 1948. He has been awarded the J.R. Oppenheimer Memorial Prize, the Gold Medal of the Royal Astronomical Society, and honorary doctor of science degrees from the University of Chicago and Case Western Reserve University.

Peter J. Gierasch joined the Cornell faculty in 1972 as an assistant professor of astronomy and was named a professor of astronomy in 1981. He holds a bachelor of physics and a Ph.D. in applied mechanics from Harvard University, and has served as a research fellow in at-

mospheric sciences at Harvard and as an assistant professor of meteorology at Florida State University where he also was a research associate in the Geophysical Fluid Dynamics Institute.

Gierasch specializes in atmospheric dynamics and planetary meteorology. He held an Alfred P. Sloan Foundation Research Fellowship from 1975 to 1979.

# Brief Reports

## Gift Will Put Polo Arena on Video Tape

A \$28,500 grant from the John Ben Snow Memorial Trust to Cornell will be used for a video tape center at Cornell's Oxley Polo Arena.

Construction of the new facility, which will be known as the John Ben Snow Video Tape Center, will begin in September. When completed it will include a viewing room and storage area for video equipment and tapes.

The video equipment is considered an important teaching aid for Cornell's Department of Physical Education and Athletics' equestrian activities such as polo and riding for the handicapped.

Snow, founder and first president of the foundation which bears his name, was a polo fan. His interest in the sport began when he lived in England while he was a buyer for the F. W. Woolworth Co.

Established in 1948, the foundation emphasizes grants to private institutions of higher learning and community betterment, especially in central New York. This gift is the foundation's first commitment in support of Cornell.

## University Assembly Meets Today

The University Assembly will have its first meeting of the semester at 4:45 p.m. today in 405 Malott Hall.

Items on the agenda include the election of a University Assembly member to the Committee on Committees; a discussion of University Assembly proposed bylaws and amendments and a discussion of the appointment of an interim University Hearing Board.

All meetings of the University Assembly, as well as the Employee Assembly and Student Assembly, are open to all members of the Cornell Community.

## CUSLAR Schedules Orientation Meeting

The Committee on US-Latin American Relations will hold an orientation meeting at 5 p.m. Monday, Sept. 7, in G27 Anabel Taylor Hall. All interested members of the Cornell community are invited to attend.

CUSLAR members are concerned with Latin American, Central American and Third World problems. To address these problems

the organization has sponsored several lectures by specialists in Latin American problems as well as films and panel discussions.

Off campus, its members have been working with Puerto Rican prisoners at the Elmira Correctional Facility and with high school students and church groups.

CUSLAR's office, which is located in G17 Anabel Taylor Hall, serves as a resource center on Latin America and maintains a file of up-to-date publications in English, Spanish and Portuguese.

## Straight Sponsors Folk Guitar Lessons

The Willard Straight Hall Board will again be offering Phil Shapiro's Group Folk Guitar Lessons this fall. Classes, which will be held in the International Lounge of Willard Straight Hall, will be on Tuesday nights, beginning Sept. 8.

The cost for all eight, one-hour lessons will be \$20 payable at the first lesson.

The beginners class will meet on Tuesdays at 7 p.m. For those players who have some experience and who want to learn fingerpicking and break out of repetitious patterns, the intermediate class will be held on Tuesdays at 8 p.m. All participants are expected to bring a guitar.

Anyone who is not sure which section he or she should attend may go to both.

## Sheep Are Killed; Dogs Are Blamed

Area pet owners are warned that dogs or any other animals seen molesting or attacking farm animals on Cornell University property will be "destroyed, pursuant to Section 116 of the New York State Agriculture and Market Law."

The announcement was made Tuesday by Lieutenant Randall H. Hausner of the Cornell Department of Public Safety.

He reported that Tuesday morning nine sheep were found injured and two killed, presumably by dogs, in the pasture at the Equine Research Park Annex on Pine Tree Road.

## Sailing Team to Meet; Course Has Spaces

A meeting of the Cornell Sailing team and notice that spaces are being held in a sailing class are in the wind this week.

The team will hold its first meeting at 4:30 p.m. this Friday in the Robison Room of Schoellkopf Hall. Undergraduates with sailing experience and an interest in yacht racing are encouraged to attend.

The Department of Physical Education is holding spaces in its Principles of Sailing course for faculty and staff. The six-week course begins Sept. 8 and is directed towards the newcomer. It teaches the theory, jargon and practice of small sailboat handling. For more information and registration, call Lawrence Bart at 256-4286.

## Bus Service Resumes Its Normal Routes

The Campus Bus Service resumed normal academic year service this week.

The B Lot - Collegetown bus and the Langmuir Lab courier service began operating on the academic year schedules on Monday, Aug. 31. Several late afternoon runs on each route had been suspended for the summer months.

The Blue Light bus service resumed Sept. 2. The Blue Light bus offers free evening service from 6:30 p.m. to 12:15 a.m. from central campus to North Campus dormitories, sororities and fraternities in the Triphammer Road/Dearborn Place/Thurston Avenue area, and West Campus and Collegetown.

Schedules are available at the Information and Referral Center in Day Hall, on the buses, and from the Office of Transportation Services, 116 Maple Avenue. For more information, call the Campus Bus Service at 256-3782.

## DOS has Openings For Grad. Students

The Office of the Dean of Students is looking for graduate students to fill four part-time positions.

The positions, which hold the title of graduate assistant, are for student families; the Alcohol Education, Research and Training Committee; the Graduate Student Programs and fraternities and sororities.

Application deadline is Thursday, Sept. 10. For more information

and/or an application form, those interested should go to the Office of the Dean of Students, 103 Barnes Hall, or call 256-2310.

## Cramton Will Edit Legal Journal

Roger C. Cramton, professor of law at the Law School, and dean of the school from 1973 to 1980, has been named editor of the "Journal of Legal Education." In addition he has been named to a national study group asked to make recommendations concerning legal rights and remedies for damages caused by hazardous substances.

The journal is the official publication of the Association of American Law Schools and is distributed to law teachers throughout the nation. Cramton's appointment was announced by Albert W. Sacks, president of the association and dean of the Harvard Law School. The journal's offices were moved to Cornell this summer.

Cramton is one of 12 members named to the national study group of hazardous substances established through the Superfund Act of 1980. The group is scheduled to make its report to congress in about six months.

Cramton, who was on leave during the 1980-81 academic year, has returned to his full-time teaching and research interests at the Law School.

## Historical Resources Center Receives Grant

The National Historical Publications and Records Commission, a branch of the National Archives and Records Service, has approved a grant of \$88,846 in support of the statewide survey of manuscripts and archives materials being conducted by the New York Historical Resources Center.

Operating out of Olin Library, the center has been surveying documentary collections in various areas of New York State since the fall of 1978. The current grant is the fourth made by the NHPRC, bringing the total to date to \$255,432 for the survey.

Over the last three years, the survey has been supported by the NHPRC, Cornell, the New York State Council on the Arts and several private foundations and corporations. The 1981-82 grant will support survey work in the North Country and the Capital District.

## SAGE CHAPEL

### Lewis Will Speak At First Service

The Rev. W. Jack Lewis, director emeritus of Cornell United Religious Work, will speak at the 11 a.m. Sunday, Sept. 6, Sage Chapel Interreligious Service. His topic will be "Beginnings Without End." Cornell President Frank Rhodes will participate in the service and welcome new students.

Lewis served as director of CURW from 1965 to 1981, when he was named director emeritus of CURW by the university's Board of Trustees. Emeritus titles are usually bestowed on faculty after long years of distinguished teaching, research and scholarship.

Lewis came to Cornell in 1964 as associate director of CURW. Before coming to Cornell he served 13 years as founder-director of the Christian Faith and Life Community in Austin, Texas.

Lewis was ordained in 1940 as a minister in the Presbyterian church. He received a bachelor's degree in zoology and chemistry from the University of Texas in 1937, then attended the Austin Presbyterian Theological Seminary.

Sage Chapel Interreligious Services are held every Sunday at 11 a.m. when the university is in session. Administrative responsibility for the services is carried out by the assistant director of CURW, Ingrid Olsen-Tjensvold, and the Sage Chapel Advisory Council.

Music for the services will be provided by the Sage Chapel Choir under the direction of Donald R.M. Paterson, Sage Chapel choirmaster and university organist. Graduate student Stephen May will be the accompanist.

Those interested in joining the choir should contact Paterson in 213 Lincoln Hall, 256-3531. Membership in the choir is open to all and there are no auditions. Rehearsals are held 7-8:30 p.m. Mondays and Thursdays and at 9:30 a.m. on Sundays.

## Lucy Mu

Lucy Mu, who had worked in the Catalog Department of Olin Library since 1961, died July 26 while vacationing in Lake George. She was 62. Born in China, she came to the United States in 1959 and earned a master's degree in library science. She was an accomplished violinist and taught music in China. She is survived by two daughters, Ann Hudson of Medway, Mass., and Luping Pell of Somers, Conn., and three grandchildren. The family has requested that any memorial gifts be made to the Honor with Books Fund at Olin Library.

## Jack C. Kiefer

A memorial service for Jack C. Kiefer, the Horace White Professor of Mathematics, Emeritus, is scheduled for 4:30 p.m. Wednesday, Sept. 9, in Sage Chapel. Kiefer died Aug. 10 at the University of California at Berkeley where he was working as a Miller Foundation Fellow. He was 57 years old.

# Soccer Classic Features Top Teams

An added feature to the Cornell varsity soccer team's schedule will be introduced this season when the Big Red holds the first ever Cornell Classic on Oct. 3-4 at Schoellkopf Field. The field for the soccer tournament will consist of four of the top teams in New York state—Adelphi, Hartwick, Long Island University and Cornell.

The tourney will be composed of four games, two each on both Oct. 3 and Oct. 4. On the first day of competition, Hartwick will meet LIU at 1 p.m. and Cornell will face Adelphi at 3 p.m. On Oct. 4 Hartwick and Adelphi will play in

the first game at 1 p.m., with Cornell and LIU squaring off at 3 p.m. The winner of the tournament will be decided on a point system whereby the winner of each game will receive two points and one point will be awarded to both teams in case of a tie. If there is a tie in overall points between two or more teams after the four games, the tournament winner will be decided on a goal differential basis (goals scored during the two games minus goals allowed).

Tournament tickets are priced at \$2 per day for adults, \$1 for students and 50 cents for children 12 and

under. Tickets may be purchased at the Cornell ticket office in Teagle Hall during weekdays from 9 a.m. to 5 p.m. or on the day of the tournament.

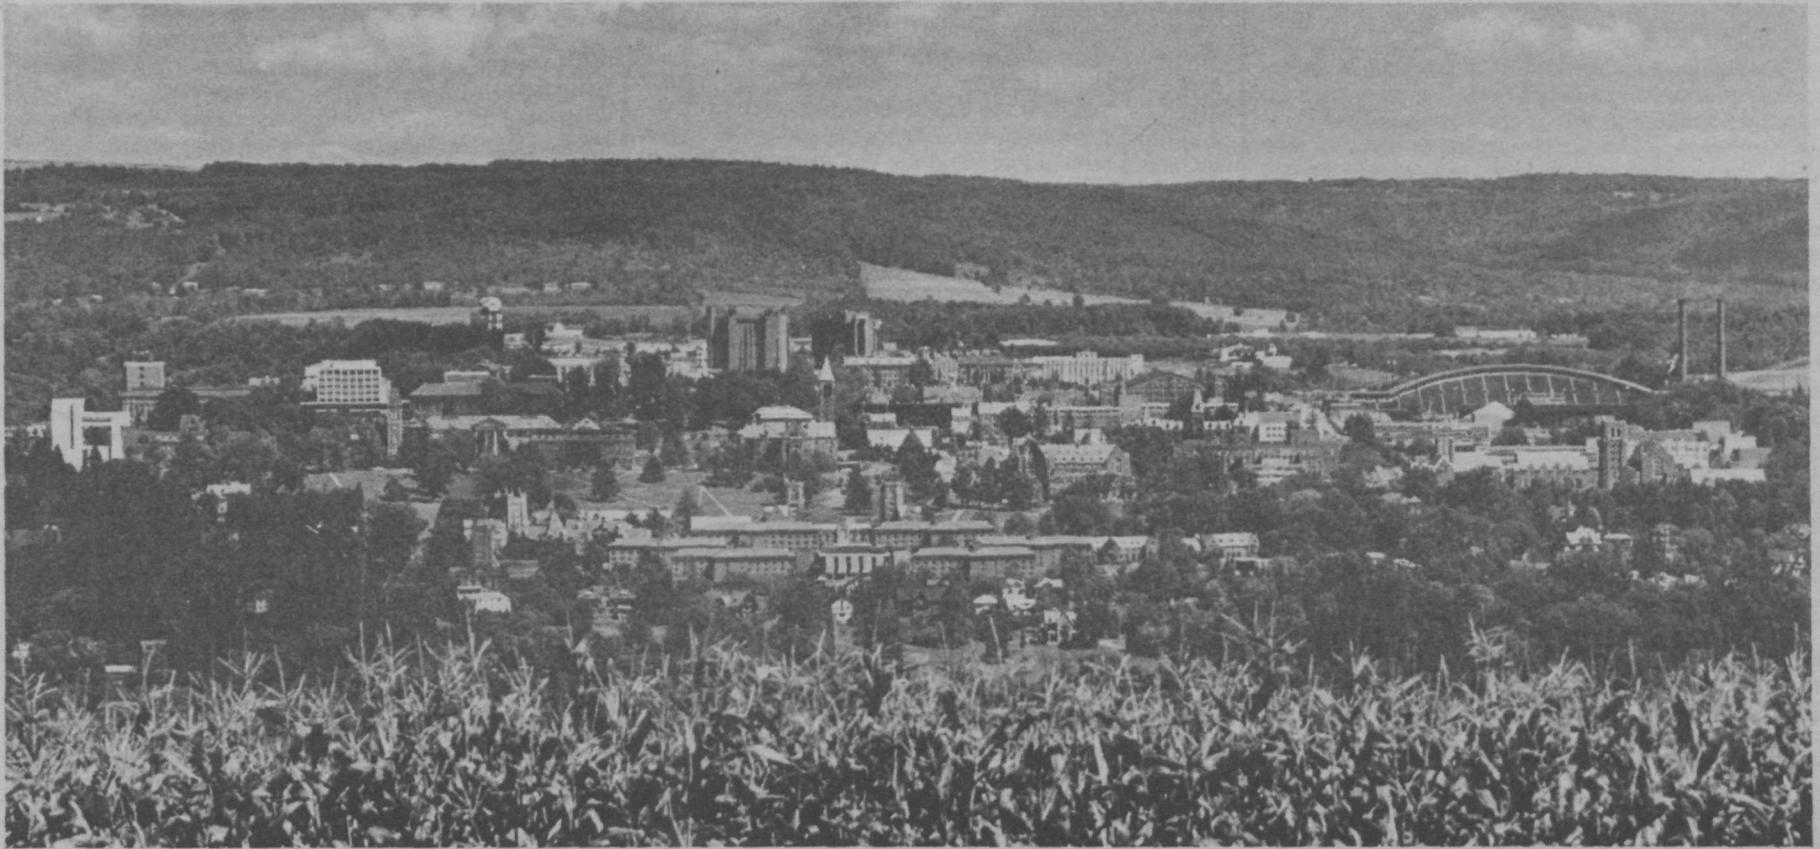

Hartwick was the top-ranked team in the state last season and defeated Cornell, 3-2 in overtime, in the first round of the NCAA playoffs. The Big Red finished the year as the third-ranked squad in the state, while LIU and Adelphi were ranked fifth and eighth, respectively. Cornell soccer coach Jack Writer expects all four teams to be among the top schools in the state again this season, and said he

believes that the Cornell Classic will be the premier soccer tournament in New York in 1981.

Writer took a very young team last season and molded the unit into one of the finest squads in the East, as Cornell posted a 9-4-3 record for its most successful campaign since 1977. With 11 lettermen and a solid group of players from last season's 11-0-1 junior varsity team returning, Writer is ready to pick up where he left off in 1980 and improve on last season's accomplishments.

# PARKING AND TRAFFIC REGULATIONS 1981-82

## CORNELL UNIVERSITY

### To Cornell Community Members and Visitors:

These regulations apply to anyone who operates a vehicle on the University campus at any time. We encourage you to read the regulations carefully. They will inform you of the University parking and transit facilities available to you.

We recognize that dealing with transit and parking issues on the campus and in our communities can be both frustrating and time consuming. The staffs at the Traffic Bureau (telephone: 256-4600), the Campus Bus Service (telephone: 256-3782), and the Office of Transportation Services (telephone: 256-4628) are available to assist you on transportation matters. Parking and transit facilities are provided at the University to serve community members. There are, however, space limitations on the central campus that necessitate the use of peripheral parking and bus service by many employees and by students. The rights and responsibilities of pedestrians and motorists are considered in planning a safe walking and driving environment.

All members of the community are encouraged to use modes of transportation other than the private vehicle. Most on-campus locations can be reached by a short walk from a bus stop. Ridesharing is facilitated through computerized lists of interested commuters available at the Traffic Bureau. Potential carpoolers may also place notices in *NetWorking*, the employee newsletter.

The campus bus system is continually reviewed, and service has been substantially increased in recent years. Campus bus service is provided from 5:45 a.m. until 12:15 a.m. Monday through Friday (evening service is provided only while classes are in session). Ithaca Transit (IT), North-East Transit (NET), and East Ithaca Transit Service (EITS) provide bus service between the campus and surrounding areas.

Provisions can be made for special circumstances and needs. The Traffic Bureau staff should be consulted about making such arrangements. Any matter for which the Traffic Bureau is unable to find a satisfactory solution may be referred to the Special Request Appeals Board (SRAB). Persons whose mobility is temporarily or permanently restricted are granted special access to parking facilities. The Campus Bus Service offers use on campus of a bus equipped with a wheelchair lift. Inquiries about trans-

portation services for the handicapped should be directed first to Katie Donovan, coordinator for the disabled, in the Office of Equal Opportunity (telephone: 256-5298).

The provision of transportation services on campus is a complex process involving a number of University departments. The Office of Transportation Services works with the Department of Buildings and Grounds Care in snow removal, with Maintenance and Service Operations in the repair of potholes and the striping of lots, with the Department of Design and Project Management and with Life Safety Services and Insurance on construction projects, and with the Department of Public Safety in the enforcement of the regulations. Many people work to make parking and transit facilities on campus safe and accessible. Your cooperation is an important element in ensuring the success of this effort.

Office of Transportation Services  
William E. Wendt, Director

## Cornell University Parking and Traffic Regulations 1981-82

### 1 General Information

#### 1.1 Traffic Bureau

The Traffic Bureau, located at 116 Maple Avenue, provides information and assistance relating to parking and transportation on the Cornell campus. The campus parking map, regulations governing motor vehicles, and bus service schedules are available without charge. Parking permits may be purchased at the Traffic Bureau by community members and visitors. Daily visitor permits and loading permits may also be purchased at the traffic and information booths.

#### 1.2 Information and Referral Center

The Information and Referral Center, located in the lobby of Day Hall, provides assistance and information about Cornell and the surrounding area and about campus tours to Cornell community members and visitors. The campus parking map, regulations governing motor vehicles, bus service schedules, and other printed materials are available without charge. Hours are 9:00 a.m. to 5:00 p.m. Monday through Saturday (telephone: 256-6200).

#### 1.3 Provisions for the Handicapped

Information on Cornell's facilities and programs for the handicapped is available from the Office of Equal Opportunity, 217 Day Hall (telephone: 256-3976).

#### 1.4 Blue Light Telephones

To report an emergency or get information or assistance, pick up the telephone under a blue light. A Public Safety officer will answer immediately, day or night. There are twenty-four of these telephones on campus.

#### 1.5 Transportation Program

**1.5.1** The Cornell University program for parking, transit, and circulation comprises the main campus (to which access by vehicles is closely restricted), a surrounding loop of roadways, and peripheral parking areas served by a University-operated bus system. Income from parking and transit fees and fines accrues to the University general fund. Suggestions or complaints relating to policies or procedures of the program should be addressed to the director of the Office of Transportation Services.

**1.5.2** The *Office of Transportation Services* is the department that has overall supervisory responsibility for transportation (parking, transit, and circulation) activities on the Ithaca campus. It is located at 116 Maple Avenue (telephone: 256-4628).

**1.5.3** The *Traffic Bureau*, a subdivision of the Office of Transportation Services, is in charge of the day-to-day administration and operation of campus parking. The office, located at 116 Maple Avenue, is open Monday through Friday from 7:45 a.m. to 5:00 p.m. while classes are in session and from 8:00 a.m. to 4:00 p.m. during the summer and intersession (telephone: 256-4600).

**1.5.4** The *Campus Bus Service*, a subdivision of the Office of Transportation Services, is responsible for the day-to-day administration and operation of the University transit system. It is located at the Cornell University Bus Garage, 800 Dryden Road (telephone: 256-3782).

**1.5.5** The *Department of Public Safety* is the campus police and security force, charged with enforcing moving-traffic regulations and the University parking system. The department offices, located in G2 Barton Hall, are open twenty-four hours a day seven days a week (telephone: 256-1111).

#### 1.6 Definitions

**1.6.1** The *grounds of the University*, also called the Ithaca campus, are the area within Tompkins County owned and controlled or maintained by the University and constituting part of the educational and research plant under its jurisdiction.

**1.6.2** A *campus parking boundary* has been established to determine what is considered on-campus and off-campus parking. A map showing that boundary is available at the Traffic Bureau.

**1.6.3** The *Cornell community* or the *University community* is the students and the faculty, the staff, and the other employees of Cornell University as well as the employees of non-University agencies located on the grounds of the University.

**1.6.4** A *visitor* is any person at Cornell who is not a member of the Cornell community. Included within this term are both official and unofficial guests of the University, of its departments, or of members of its community. Persons living or working at Cornell for longer than one month are not visitors.

**1.6.5** A *motor vehicle*, as defined by the New York State Vehicle and Traffic Law, is any motorized conveyance. The term includes cars, trucks, motorcycles, motor scooters, and mopeds.

**1.6.6** A *parked vehicle* is a vehicle, whether it is occupied or not and whether its engine is running or not, that is stationary for any length of time, unless its progress has been temporarily impeded by other traffic or signs.

**1.6.7** The *owner* of a motor vehicle is the person (or the legal entity) named as the registered owner under federal or state law. The *operator* of a motor vehicle is the person driving or parking the vehicle.

**1.6.8** *Daily* means seven days a week.

**1.6.9** A parking summons is considered to be *outstanding* from the time it is issued until it is paid or appealed.

#### 1.7 Liability for Damage

A motor vehicle is parked or operated on campus solely under the responsibility of, and at the risk of, its owner or operator. The University is not liable for any damage to, or caused by, any vehicle or its operator, its occupant(s), or any other person unless the damage has resulted from the negligence of an agent of the University acting in the course, and within the scope, of his or her employment.

#### 1.8 Purpose and Application of Regulations

**1.8.1 Authority.** These regulations, adopted and issued by the Office of Transportation Services of Cornell University under policy guidelines and legislation established by the Cornell University president and Board of Trustees, in accord with sections 5708 and 5709 of the New York State Education Law, are in general consonance with policy guidelines set forth by the University Assembly of Cornell University. These regulations supersede all previous actions of the University with respect to the control of vehicular traffic and parking on its grounds. The Office of Transportation Services reserves the right to change or to make exceptions to its parking and traffic regulations, fees, and fines at any time, in accord with accepted policy guidelines; no other University group, agency, or department is so empowered. A complete, up-to-date version of these regulations is available at the Traffic Bureau.

**1.8.2 Temporary emergency and special-situation restrictions and changes.** During emergencies and other special situations (e.g., snowstorms, unusual crowds, road or building construction), the Traffic Bureau or Public Safety may temporarily suspend or otherwise modify specific regulations stated here or otherwise posted. Such temporary restrictions and changes will be conspicuously posted on appropriate signs and traffic-control devices and will, when time permits, be publicly announced in advance. Temporary regulations and restrictions have the full force of

permanent regulations and are enforced accordingly. The existence of a temporary restriction displacing a motorist from his or her normal parking area is *not* grounds for dismissal of a parking summons for illegal parking in any area. A vehicle left unattended on University property during such special situations may be towed at the owner's or operator's expense if parked in violation of temporary or permanent regulations or if such vehicle impedes traffic flow or snow removal operations.

**1.8.3 Application.** These regulations are in effect continuously throughout the calendar year, including recesses and vacations, and apply to any motor vehicle parked or operated at any time on the Ithaca campus by a member of the Cornell community or by a visitor to the University. A community member's acceptance of employment at, or registration in, the University is held to constitute an agreement to abide by University parking and traffic regulations or be subject to the prescribed penalties. The use of a motor vehicle on the campus is a privilege, not a right, and is available only under the conditions and rules governing these privileges at Cornell. It is the responsibility of all drivers to familiarize themselves with these rules; violation of any regulation is prejudicial to the common interests of all members of the University community.

### 2 Motor Vehicle Registration and Permit Requirements

#### 2.1 Registration Requirements

**2.1.1** No vehicle owned or operated by a member of the Cornell community may be parked at any time on the grounds of the University unless it has been properly registered with the Traffic Bureau and is correctly displaying such registration and a valid parking permit where required. Vehicle registration information ensures that the owner or operator may be rapidly identified and contacted if necessary; for example, if a parked vehicle is involved in an accident, must be moved immediately, or has been left with its lights on. There is no fee for motor vehicle registration; however, a registration sticker is *not*, in itself, a parking permit and does not provide any parking privileges.

**2.1.2** Vehicles must be registered annually. Registration stickers are issued on an annual basis and expire on September 1, each year.

**2.1.3** Before a motor vehicle may be registered, (a) the applicant and the vehicle must meet all requirements prescribed by New York State for legal operation (an expired New York State inspection or registration sticker causes a Cornell University parking permit or registration sticker to become immediately invalid), and (b) the applicant must be the owner or operator of the vehicle or a member of the owner's immediate family (i.e., spouse, parent, child, or sibling).

#### 2.2 Parking Permit Requirements

All parking on campus (except in certain metered and time-zone areas) is by permit only and is subject to posted restrictions. Parking permits are valid only in the area(s) for which they have been designated and only for the time period indicated. A parking permit does not guarantee the holder a reserved space but only an opportunity to park in the specified area(s).

#### 2.3 Registration and Permit Issuance and Validity

**2.3.1** Motor vehicles must be registered, and parking permits obtained, at the Traffic Bureau during normal business hours (unless another procedure is specified in advance). A motor vehicle is *not* considered to be registered or to have a valid parking permit until all required material has been completed and signed by

the applicant and until registration stickers and parking permits are displayed on the vehicle in accord with instructions given by the Traffic Bureau at the time of issuance.

**2.3.2 Neither registration stickers nor parking permits are transferable.** If a motor vehicle is sold or transferred to a new owner or a replacement vehicle is acquired, the registration and parking stickers (or their remnants) for that vehicle must be returned to the Traffic Bureau (for auditing purposes) before replacement stickers will be issued. Liability for fines remains with the original registrant until stickers have been removed and returned to the Traffic Bureau. A change in license plates, lost registration or parking stickers, or a lost multiple-vehicle display card must be reported to the Traffic Bureau immediately.

**2.3.3 All registration stickers and parking permits remain the property of the Traffic Bureau after being issued.** The Traffic Bureau reserves the right to revoke or recall a registration sticker or parking permit for cause at any time before its expiration date; in such cases a prorated refund, if appropriate, will be promptly issued to the holder. If the holder refuses to comply with the recall requirements within the specified time, the registration sticker or parking permit will be removed from the holder's vehicle. Fraudulently obtained and counterfeit registration stickers and parking permits are subject to confiscation by the Traffic Bureau or its agents without prior notice. Alleged offenders will be referred to the judicial administrator for appropriate action.

### 3 Parking Permit Categories, Availability, and Prices

Parking permits are available to Cornell regular and temporary full-time and part-time employees, to employees and guests of non-University agencies located on the grounds of Cornell University, to students, and to visitors according to priority criteria and available space. The following information is subject to change at any time.

### 3.1 Parking Permits for Community Members

**3.1.1 Faculty and staff permits.** Faculty and staff members whose permit applications are received before the announced deadline will be issued their first, second, or third choice of permit according to the following criteria. First priority in processing orders is given to handicapped persons and to carpool groups as defined in section 3.2.3. Second priority is given to faculty members and emeritus professors, staff members with a job classification of CA5 or CP5 or higher, and staff members with twenty-five or more years of service with the University; other staff members who have submitted a special request for parking privileges may qualify for this priority if the Traffic Bureau or the Special Request Appeals Board determines that they have work-related needs for daytime mobility. The orders of all remaining applicants whose permit applications are received before the announced deadline will then be processed. Late applicants and persons who did not receive their initial first, second, or third choice of permit will then be assigned permits on a space-available basis.

**3.1.2 Student permits.** Commuting students residing more than one and one-half air miles from the center of campus may purchase permits on a space-available basis during fall registration or later at the Traffic Bureau. Students living within a radius of one and one-half air miles of the central campus may apply after October 1 each academic year for a permit in any area where space is available. A limited number of permits are available to students who live in University housing units. The number of permits is determined by the availability of spaces at each unit.

**3.1.3 Obtaining a permit.** Students, faculty and staff members, and employees of non-University agencies located on the grounds of the University must provide verification of their status to the Traffic Bureau before any parking permit will be issued to them. A student must be currently registered with the University. Newly hired or temporary personnel must submit written verification from their department when they apply for a permit at the Traffic Bureau. Staff members whose appointments are processed at central em-

ployee registration will complete vehicle registration and permit application materials at that time. A parking permit is no longer valid once the permit holder's relationship with the University is terminated. The holder must promptly notify the Traffic Bureau of the termination and return the permit or its remnants.

**3.1.4 Refunds.** In general, faculty and staff permits are sold on an annual basis, and student permits are sold for the academic year, September 1 to June 1. There is a monthly proration of cost where applicable. Permit holders seeking refunds must return the remnants of their permits to the Traffic Bureau before any refund may be made. No refunds will be given after March 1 for the year in which the permit is valid. Persons who return their permits for a refund may not purchase a permit for that same area later in the year.

**3.1.5 Permit availability.** Up-to-date information on parking permit categories, availability, and prices is provided by the Traffic Bureau. Community members may apply for permits for all general campus parking areas. Certain parking areas are restricted to use by employees or students who work or reside in the adjacent buildings. Faculty and staff members are issued permits before students according to the criteria listed in section 3.1.1. A registered full-time or part-time student at the University is ineligible to purchase a permit that is based on his or her employment status at the University. Students and other community members may purchase permits for any general campus parking area in which space is available after October 1 each year.

**3.1.6 Special needs.** Special permits are provided by the Traffic Bureau to fill a variety of needs not satisfied by regular individual permits or in those cases where suitable regular permits would not normally be available to a community member (see article 4). Special permits are issued only for the time periods specified; the Traffic Bureau will provide the recipient with instructions for use at the time of issuance.

**3.1.7 Unpaid fines.** No parking permit will be issued to any person who has unpaid or otherwise uncleared parking fines from the current year or previous years.

### 3.2 Multiple-Vehicle Permits and Ridesharing Arrangements

A multiple-vehicle permit may be used by a person who owns two or more vehicles, by a ridesharing group of two or more Cornell staff and faculty members, or by a carpool group of three or more staff and faculty members.

**3.2.1 Individual.** A multiple-vehicle permit is available to community members who want to register more than one vehicle for their own use. However, at any given time only one of the vehicles may be parked on University grounds, and a valid permit must be displayed on that vehicle.

**3.2.2 Ridesharing.** The University encourages ridesharing by all members of the community, as well as the use of alternate forms of transportation (public transit, bicycling, walking). A multiple-vehicle permit may be purchased by any group of Cornell University community members who want to share commuting expenses by pooling rides. The group will be issued a multiple-vehicle display card valid in a given area for the price of one regular permit for the same area. For parking facilities that are specially restricted, at least one member of the group must be entitled to receive the permit type requested (e.g., based on the location of that person's primary place of work or study). An AB permit or registration sticker will be issued for each vehicle. Only the vehicle correctly displaying a registration sticker or AB permit and the display card may be parked in the area designated on the card. In the case of permits that allow access to central campus, only the vehicle displaying the proper registration and the card will be allowed access to the central campus during restricted hours. Motorcycles, motor scooters, and mopeds are excluded from multiple-vehicle permit arrangements.

Vehicle access to the central campus is restricted from 7:30 a.m. to 5:00 p.m. Monday through Friday to provide a safe pedestrian environment. Information and parking permits for visitors and temporary permits for staff members are available at the traffic booths.

**3.2.3 Carpools.** The University defines a carpool as a group of three or more community members who routinely share rides for the purpose of commuting to and from the Cornell campus. During the annual vehicle registration period for faculty and staff members, a carpool group will be given priority processing of permit application materials to ensure that the members receive their first-choice permit for any general parking area (or specially restricted area if at least one member of the group is qualified). All the necessary registration forms, including a parking fee contract where appropriate, must be returned to the Traffic Bureau by the announced deadline. The group will be issued a multiple-vehicle display card valid in a given area for the price of one regular permit for the same area. Registration stickers will be issued for each vehicle in addition to the single display card. No other annual permits will be issued to members of a carpool, although a limited number of free daily AB permits will be available to each member. *Only the vehicle correctly displaying a registration sticker and the display card may be parked in the area designated on the card.* In the case of permits that allow access to the central campus, *only the vehicle displaying the proper registration and the card will be allowed access to the central campus during restricted hours.*

### 3.3 University Vehicles and Official Government Vehicles

Motor vehicles owned by University departments and vehicles belonging to the New York State Fleet or other official government agencies are eligible for certain campus parking privileges. The Traffic Bureau will provide departments and agencies with information on registration procedures and parking privileges associated with each type of vehicle.

### 3.4 Visitor and Conference Parking Permits

**3.4.1 Individuals and small groups.** Visitors driving to Cornell singly or in groups of up to five vehicles may park in any metered area on campus (meters with maximum continuous times from one-half hour to four hours are available) or may buy visitor permits valid for one day for \$1.50 at any traffic and information booth or at the Traffic Bureau. A visitor staying at the Statler Inn may buy a Statler guest parking permit for \$1.50 a day that allows parking in all faculty and staff lots (but *not* in service zones or loading zones) or in the Statler and Barton Hall metered lots without paying meter rates. University departments that want to provide for visitors' parking may buy up to five daily U permits for a guest. Further information on these and other parking arrangements for visitors is available at the Traffic Bureau.

**3.4.2 Groups of more than five vehicles.** Departments should contact the Traffic Bureau (telephone: 256-4600) about providing parking for a seminar, a course, a conference, or other event for which visitors are expected to arrive in more than five vehicles. Permits should be ordered at least one month in advance, when possible, to ensure suitable parking or transit arrangements. Prices for conference parking range from \$.50 to \$1.50 per vehicle per day, depending on location. Conference parking space on the inner campus is limited and often is unavailable. Special buses may be chartered from the Campus Bus Service to transport large groups on campus or between the campus and local sites. Further information on bus charter arrangements can be obtained from the Campus Bus Service (telephone: 256-3782).

## 4 Special Requests and Variances

### 4.1 Basis for Special Requests and Variances

**4.1.1** Persons or departments with special requirements for using a motor vehicle on the Ithaca campus and those who have not otherwise been able to

receive a particular type of parking permit may file a special request with the Traffic Bureau for the permit they require. Decisions regarding such requests are based on demonstrated need and are subject to space and other limitations. A representative of the Traffic Bureau will either refer the request to the Special Request Appeals Board (SRAB) or make a decision on the request. An applicant who is dissatisfied with that decision may appeal it to the SRAB. The Traffic Bureau will provide the required forms and instructions for completing them.

**4.1.2** Cornell community members or visitors whose medical disabilities (whether temporary or permanent) preclude their use of transit or parking facilities normally available to them may request special access to such services. Since procedures, forms, and supporting documents required vary according to the nature of the request and the specific circumstances, persons requiring such special access should contact the Traffic Bureau to discuss the situation well in advance of their need.

### 4.2 Special Request Appeals Board

The Special Request Appeals Board (SRAB)—an independent body comprising faculty, staff, and student representatives—has the power under the University Assembly charter to grant variances or special requests relating to parking and traffic regulations except in cases involving alleged or actual violation of such regulations. The SRAB acts as an appeals board for variances and special requests that have been initially denied or referred to it by a representative of the Traffic Bureau. Every appellant has the right to appear in person before the SRAB and to provide additional pertinent facts for its consideration. The SRAB may attach any conditions to its decisions that it deems appropriate. All decisions of the SRAB are final.

## 5 Motor Vehicle Parking Restrictions

### 5.1 General Restrictions

**5.1.1** Vehicular access to the interior campus is restricted from 7:30 a.m. to 5:00 p.m. Monday through Friday.

**5.1.2** All legal parking areas are designated with signs indicating the type of parking permitted and the hours of enforcement. A motor vehicle may not be parked in any area for which it does not correctly display a valid parking permit or in any area from which it is restricted by signs, other traffic-control devices or markings, or by specific action of the Traffic Bureau or Public Safety. An area or space that is not designated by signs or other parking-control devices as being open for legal parking is *not* a valid parking zone (even if no-parking signs are not present). Failure to find an available legal parking space is *not* considered a valid excuse for parking illegally.

**5.1.3** All no-parking zones are in effect twenty-four hours a day seven days a week. A motor vehicle may not be parked at any time in an area designated as a no-parking zone or in an area not designated as a valid parking zone (including on the grass or lawn).

**5.1.4** A motor vehicle may not infringe on, or interfere with, access to a life-safety no-parking zone: that is, no vehicle may be parked in such a manner as to interfere with the use of a fire hydrant, fire lane, or other emergency zone; no vehicle may create any other hazard or unreasonably interfere with the free and proper use of the roadway or parking area; no vehicle may be parked or stopped at any time on a sidewalk or crosswalk, in front of a driveway or doorway or steps, within an intersection, on the roadway side of any vehicle that has stopped or parked at the edge of a roadway (whether parallel or at an angle), or in any service driveway or associated turnaround. An unauthorized vehicle parked in a handicapped space is in violation of life-safety regula-

*The metered lot at Barton Hall is open to visitors only; community members may park nearby in the Sage Hall metered lot. Malfunctioning meters should be reported, by identification number, to the Traffic Bureau at 256-4600.*

tions and is subject to the issuance of a summons and to being towed from the campus, without notice, at the owner's or operator's expense. See section 6.2.2 for additional information.

**5.1.5** A motor vehicle may not be parked with its left side to the curb on a two-way street.

**5.1.6** A motor vehicle may not be parked in an area or in a fashion contrary to a direction given by an identifiable representative of the Traffic Bureau or of Public Safety.

**5.1.7** Neither Public Safety nor the Traffic Bureau will honor telephone calls or notes on cars requesting that a functioning vehicle parked illegally on campus be exempted from parking citations. Parking arrangements in special circumstances must always be made in advance with the Traffic Bureau.

**5.1.8** Arrangements to park buses, trailers, motor homes, mobile homes, and similar conveyances on campus must be made in advance with the Traffic Bureau. Conveyances containing living quarters (whether the units are self-powered or drawn by separate motor vehicles) may not be used as living units while parked on University grounds.

**5.1.9** A motor vehicle may not be parked overnight on the grounds of the University from December 1 to April 1 unless it has student-housing or S parking privileges or prior permission has been given by the Traffic Bureau or Public Safety.

### 5.2 Metered and Other Nonpermit Time-Zone Parking

Certain parking areas on campus are designated for metered or other types of nonpermit time-zone parking. Motor vehicle operators should consult posted restrictions in these areas to determine who may park there and under what conditions.

**5.2.1** Time zones are in effect twenty-four hours a day seven days a week unless otherwise posted. A motor vehicle may not be parked overtime in a limited-time zone.

**5.2.2** Restricted paid parking in metered areas is in effect 8:00 a.m. to 5:00 p.m. Monday through Friday unless otherwise posted. A motor vehicle may not be parked overtime at a parking meter during the hours in which that meter is in operation.

### 5.3 Trouble Reports

**5.3.1** A disabled motor vehicle located on University grounds should be reported immediately, by telephone or in person, to Public Safety or the Traffic Bureau. The owner or operator of the disabled vehicle is also responsible for the removal of the vehicle as soon as possible (or within a time period specified by the Traffic Bureau or Public Safety). The Traffic Bureau or Public Safety may have the vehicle moved at the owner's or operator's expense if it is deemed to be in a hazardous location.

**5.3.2** A malfunctioning parking meter should be reported immediately, by telephone or in person, to the Traffic Bureau or to Public Safety when the Traffic Bureau is not open. The identification number stenciled on the meter case should be referred to when reporting trouble. Mechanical malfunction of a parking meter or other parking control device, unless reported immediately in the prescribed manner, is *not* sufficient grounds for dismissal of a parking summons.

### 5.4 Special Parking Restrictions

The following list of special parking restrictions is intended to provide general information; it is not meant to be inclusive. All parking areas on campus are posted with the applicable restrictions.

**5.4.1** Access to loading and service areas is restricted twenty-four hours a day seven days a week. These areas must be kept open for emergency and service vehicles. Other vehicles displaying an S permit or a loading permit may be parked in loading areas to load or unload heavy, bulky, or dangerous materials. Loading permits valid for forty-five minutes may be purchased for \$.50 at any traffic and information booth; longer-duration passes must be obtained at the Traffic Bureau. A loading permit will be issued at no cost for a vehicle displaying an individual U permit or a departmental U permit that is being used to load or unload heavy, bulky, or dangerous materials on campus.

**5.4.2** All parking areas designated for student-housing parking are reserved at all times throughout the calendar year for holders of the specific permit listed on the signs, with the following exception: Unless otherwise specified in advance by public notice, any vehicle with current Cornell registration stickers or parking permits may park in the legal parking spaces at the West Campus residence halls, Anna Comstock House, Ecology (Hurlburt) House, and the North Campus residence halls during academic recesses falling between the first day of classes of the fall semester and commencement day.

**5.4.3** The upper level of the Gannett Health Center lot is reserved from 7:00 a.m. to 6:00 p.m. Monday through Saturday for professional medical personnel. The lower parking level is reserved for patient parking. Patients who register their vehicle's license plate number at the Gannett registration desk may park in this lot without charge.

**5.4.4** Four parking spaces in the Day Hall Plaza are reserved at all times for parking by the president, the provost, and the senior vice president only; fifteen one-hour parking spaces are designated for U permit holders who have short-term errands at Day Hall. This high-demand parking area is patrolled *regularly* by Public Safety officers to ensure turnover. Two parking spaces are reserved in the lot for vehicles belonging to handicapped persons who work in Day Hall; information about handicapped permits is available from the Traffic Bureau (telephone: 256-4600).

**5.4.5** The Public Safety lot north of Barton Hall is reserved at all times for emergency and police vehicles and vehicles belonging to Public Safety.

**5.4.6** Most parking spaces on campus designated for the handicapped are reserved for particular persons and are clearly posted for restricted hours, license plate numbers of authorized vehicles, and other conditions of use. Two parking spaces are reserved in the CC lot for vehicles bearing any state or county handicapped designation. An unauthorized vehicle occupying any handicapped space during restricted hours will be ticketed and towed from the campus at the owner's or operator's expense.

**5.4.7** The following campus parking areas are open only to holders of S and U permits from 7:30 a.m. to 7:30 p.m. Monday through Friday: Morrill Hall lot, the designated bay of Savage-Newman lot, the westernmost row in Fernow-Mann lot, and the Ives-ILR lot. Lincoln Hall lot is open only to holders of S and U permits from 7:30 a.m. to 10:00 p.m. Monday through Friday. Baker Court is open only to holders of S and U permits from 7:30 a.m. to 10:00 p.m. Monday through Sunday.

**5.4.8** Unless otherwise posted, from 8:00 a.m. to 5:00 p.m. Monday through Friday the metered areas of the southwest Barton Hall lot, the Statler lot, and east Tower Road are open to visitors only; all other metered areas on campus are open to visitors and Cornell community members.

**5.4.9** From 5:00 to 10:00 p.m. *seven days a week* (a) the southwest Barton Hall and the Statler metered lots are reserved for Statler Club members only and (b) the Statler lot U spaces are reserved for U permit holders and Statler Club members only. The easternmost bay of the Statler lot is reserved at all times for guests of the Statler Inn.

**5.4.10** On the day an evening performance of a concert is scheduled in Bailey Hall, no parking is allowed after 5:00 p.m. in the Bailey Hall circle. The restricted area will be clearly marked; a vehicle parked in violation will be ticketed and towed from the campus at the owner's or operator's expense.

**5.4.11** Two spaces at the west end of the drive between Bailey and Savage halls are reserved from 8:00 a.m. to 5:00 p.m. Monday through Friday for the Cornell Federal Credit Union.

**5.4.12** No parking is allowed on East Avenue between the hours of 7:00 a.m. and 6:30 p.m. Monday through Friday.

**5.4.13** Unless otherwise specified, motorcycles, motor scooters, and mopeds may be parked on campus *only* in designated motorcycle areas and then only when displaying a valid M parking permit.

**5.4.14** Parking spaces designed for compact cars are available in many lots on campus. These sections are clearly marked with signs and striping; users are urged to park carefully and to keep within the boundaries of each space to ensure the most efficient use of these areas.

**5.4.15** Cornell employees traveling on University business may leave a vehicle displaying current Cornell faculty-staff registration or parking stickers without charge in the Research Park bay reserved for this purpose. (Others on official University business must obtain a permit at the Traffic Bureau.) As the area signs denote, the other parking bays are reserved for Research Park staff members, tenants, and their visitors *only*. A vehicle found in violation will be ticketed and is subject to towing at the owner's or operator's expense.

### 5.5 Penalties for Parking Infractions

A motor vehicle found in violation of any of these regulations will be subject to the issuance of a Cornell University parking summons and may be towed from the grounds of the University at the owner's or operator's expense or be immobilized with a wheel-locking device (boot). A schedule of penalties for parking infractions appears in article 6.

## 6 Registration and Parking Violations and Penalties

### 6.1 Penalties for Misuse of Registration Stickers and Parking Permits

**6.1.1** Misuse of registration stickers and parking permits, including violation of these regulations as well as violation of any special restrictions specified at the time of issuance, may result in the immediate revocation of the registration sticker or parking permit, whether held by a person or a department. The Traffic Bureau will notify the permit holder of the recall procedure, explain the reasons for the action, and issue a refund, if appropriate, upon full compliance. Failure of the holder to return a registration sticker or a permit or to otherwise comply with the recall requirements within the time limits specified by the Traffic Bureau will result in confiscation of the registration sticker or permit. Citations issued for misuse of registration stickers and parking permits are subject to appeal under the procedures outlined in article 7.

**6.1.2** A registration sticker or a parking permit that has been fraudulently obtained, counterfeited, or misused is not considered valid for use in any area on the campus; the vehicle displaying it will be issued an appropriate University traffic summons and may be towed at the owner's or operator's expense.

**6.1.3** Motor vehicle owners or operators who display on their vehicles registration stickers or parking permits that appear to have been either fraudulently obtained or counterfeited will have their names referred immediately by the Traffic Bureau to the Office of the Judicial Administrator to determine if a violation of the Campus Code of Conduct has occurred. Fraudulently obtained or counterfeited registration stickers and parking permits are subject to confiscation by the Traffic Bureau or its agents without prior notice.

### 6.2 Schedule of Fines

The following schedule of fines for motor vehicle parking violations and infractions in no way limits the right of the University or the Traffic Bureau to impose further sanctions or remedies, where appropriate, for parking violations.

**6.2.1 Registration violations.** Parking a motor vehicle on the Cornell campus that is not registered with the University or that does not properly display a valid Cornell University motor vehicle registration (unless the vehicle is exempt from registration requirements)—first violation, \$5 if the vehicle is registered within five working days of the date of violation and \$10 if it is not registered within five working days of the date of violation; \$10 for each subsequent violation.

**6.2.2 No-parking zone violations.** (A) Parking in a life-safety no-parking zone or parking an unauthorized vehicle in a handicapped space—\$15 for each violation. The vehicle found in violation is also subject to being towed from the campus at the owner's or operator's expense. (B) Parking in a no-parking zone other than a life-safety zone—\$5 for each violation. The vehicle found in violation is also subject to being immobilized or towed from the campus at the owner's or operator's expense.

**6.2.3 Parking area violations.** Parking a motor vehicle in such a way or at such a time as to cause it to be in violation of any parking regulation (apart from no-parking zone regulations and registration regulations)—\$5 for each violation. The vehicle found in violation is also subject to being towed from the campus at the owner's or operator's expense.

### 6.3 Liability for Fines

**6.3.1** A parking summons will be sufficiently served (a) by handing the summons to the operator of the motor vehicle in violation or (b) by mailing the summons or a copy of it to the address of the person registered as the owner of the motor vehicle or of the person who registered the vehicle with the University or (c) by attaching the summons to the vehicle.

**6.3.2** Except as specified in section 6.3.3, the operator, registrant, or owner of the vehicle receiving the summons will be liable for payment of any penalties or fines to the University.

**6.3.3** If an employee of the University who receives a traffic summons for parking illegally other than in a no-parking zone is on campus and parking pursuant to an instruction of his or her supervisor, the liability for the summons may be transferred, upon agreement by all parties concerned and approval by the Violation Appeals Board, from the employee to the department or supervisor responsible for the direction.

#### **6.4 Fine Payment Procedure and Collection**

**6.4.1** All parking fines are due and payable, in person or by mail (check or money order made out to Cornell University), at the Traffic Bureau within ten working days of the date of violation. Any appeal to be made on a violation should be formally initiated before the end of this ten-day period. Private tow-truck operators tow illegally parked vehicles on a non-contract basis; payment of towing charges may be made only to the tow-truck operator, since neither the University nor any of its departments is authorized to receive such monies.

**6.4.2** A person who does not want to appeal a given violation but who is temporarily unable to pay the fine should make other acceptable arrangements for payment with the Traffic Bureau within ten working days of the issuance of the summons.

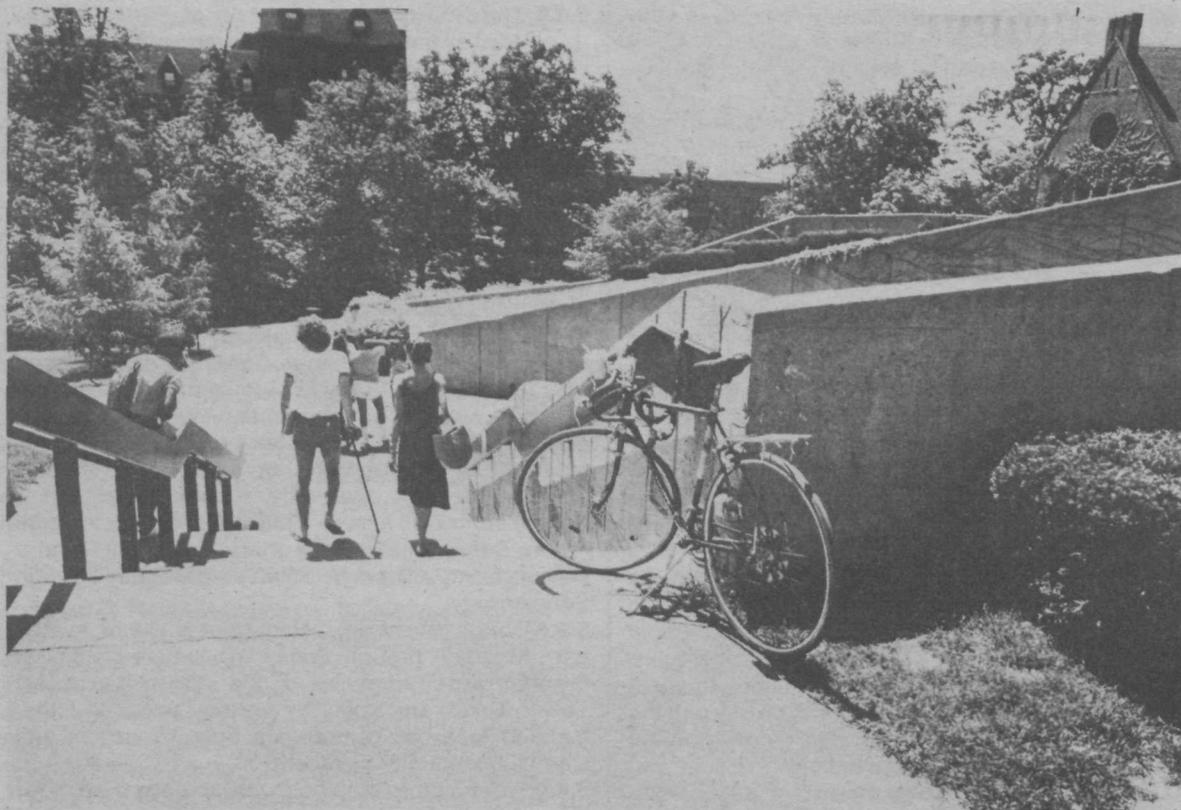

**6.4.3** If payment has not been made or appeal proceedings have not been initiated ten working days after the date of the violation, the Traffic Bureau will bill the registrant or owner of the vehicle for any fines outstanding. Payment of the fines or filing of a late appeal (see article 7) must be made to the Traffic Bureau.

**6.4.4** In the case of a student registered with the University, fines outstanding twenty working days after the date of the violation will be referred to the bursar's office and will become part of the student's official University bill. Extramural students with outstanding parking fines will not be allowed to register for the next term. No parking permit will be issued to any student registered with the University who has unpaid or otherwise uncleared parking fines from the current year or from previous years.

**6.4.5** In the case of a University staff or faculty member or of an employee of a non-University agency located on University grounds, if after ninety days from the date of the summons the fine has not been paid or appeal proceedings have not been initiated (see section 7.6), the Traffic Bureau may refer the matter to the employee's supervisor, the dean of the faculty, or the University Counsel office for collection of the fine. No parking permit will be issued to any University staff or faculty member or employee of a non-University agency located on University grounds who has unpaid or otherwise uncleared parking fines from the current year or from previous years.

#### **6.5 Other Sanctions and Remedies**

A vehicle that in the current year and/or in any previous years has accrued four or more parking summonses that are still outstanding will be towed from the campus at the owner's or operator's expense upon issuance of the fifth or any subsequent summons. A person who operates two or more vehicles on campus that in the current year and/or in any previous years have accrued a total of four or more parking summonses that are still outstanding will be subject to having those vehicles towed from the campus at the owner's or operator's expense upon issuance of the fifth or any subsequent summons. A vehicle parked on campus, *legally or illegally*, that is owned or operated by a person who is listed at the Traffic Bureau as a chronic violator will be towed from the campus at the owner's or operator's expense if any summons issued to that person is still outstanding. A chronic violator is

*Bicycles should be parked at racks or hitching posts. Bicycles may not be chained to, or parked against, trees, shrubs, fences, railings, fire hydrants, fire escapes, light poles, or stairs or be parked in building corridors or similar locations.*

a person who has accrued (a) five or more parking summonses that have not been paid or appealed or (b) ten or more parking summonses whether paid or appealed. Fines owed on denied appeals made by persons issued fewer than ten summonses must be paid to avoid the possibility of towing. Every reasonable attempt will be made to warn chronic violators that their vehicles are subject to towing.

## **7 Parking Violation Appeals**

### **7.1 Basis for Appeal**

**7.1.1** The only proper basis for appeal of a correctly filled out and issued parking summons is that the cited regulation was not violated. Such an assertion must be supported by appropriate factual evidence. Claims of lack of intent to violate the regulations, though allowable, are not sufficient grounds for lowering a penalty for a violation.

**7.1.2** The University does not receive any portion of the charges paid for the towing of illegally parked vehicles. These charges are assessed by, and paid directly to, private operators. However, the University may refund a towing charge if the action of an agent of the University in instituting the towing was improperly taken under the regulations.

### **7.2 General Appeals Procedure**

**7.2.1** An appeal of a violation must be submitted in person or by mail to the Traffic Bureau on the form provided no later than ten working days from the date on which the summons was issued. Appellants may schedule an appointment with the Traffic Bureau appeals officer.

**7.2.2** If a negative decision on the appeal has been made by the Traffic Bureau appeals officer, the appellant has ten working days from the date of that decision either to make a reappeal or to pay the fine(s). Notification of intent to reappeal must be made in the manner specified on the violation appeals form.

### **7.3 Violation Appeals Board**

When an initial appeal has been denied in whole or in part by the Traffic Bureau appeals officer, reappeal may be made to the Violation Appeals Board (VAB), an independent body comprising faculty, staff, and student representatives appointed by the University Assembly. Appellants may appear before the VAB. The VAB will consider all relevant facts and circumstances brought to its attention and will either deny, suspend, or grant the appeal in whole or in part. The VAB may reduce a penalty but may not increase it. Decisions of the VAB are by majority vote and are final.

### **7.4 Time Limits**

Once a final ruling has been made on the appeal by either the Traffic Bureau appeals officer or the VAB (depending on whether the appellant initiates a re-appeal), the appellant has ten working days from the date of the decision to pay, in person or by mail, any fine monies due. If payment is not made within this time period, appropriate collection action will be undertaken by the Traffic Bureau (see sections 6.4 and 6.5).

### **7.5 Late-Appeals Procedure**

**7.5.1** Appeals initiated after ten working days from the date the summons was issued must include, with the appeal form, payment of the fines due. Late appeals may be made to the Traffic Bureau in person or by mail on the forms provided. An appointment may be made with the appeals officer.

**7.5.2** An appellant whose late appeal is granted in whole or in part will receive the appropriate refund or credit.

### **7.6 Forfeiture of Right to Appeal**

All rights of appeal are forfeited by the person receiving the summons if no appeal has been made within ninety calendar days of the date on which the summons was issued.

Campus bus passengers show a bus pass or deposit twenty cents exact change when boarding. Bus passes issued in 1980-81 are valid until further notice.

## 8 Moving-Traffic Regulations

### 8.1 General

It is the responsibility of all persons who drive on the streets and roadways of the University to be aware of moving-traffic regulations and to recognize and abide by uniform traffic-control devices and signs. These restrictions are the same as those found in most New York State communities.

### 8.2 Restricted Access to Interior Campus

Unless otherwise specified, access to the interior campus is allowed only to vehicles with S and U privileges Monday through Friday from 7:30 a.m. to 5:00 p.m. throughout the year. (This restriction includes vacations and recesses but excludes holidays and other periods when the Campus Bus Service does not operate.) Traffic and information booths, located at the main entrances to the interior campus, are staffed during these hours. A motorist who fails to abide by the access restrictions or to halt a vehicle at the entrances to the campus when directed to do so by an officer may be issued a New York State uniform traffic summons, and the vehicle may be towed from the campus at the owner's or operator's expense if it is later found parked on the campus.

### 8.3 Campus Speed Limits

The speed limit on the campus is thirty miles per hour unless otherwise posted. The speed limit in student-housing areas, in the A and B lots, and on Schoellkopf Drive is fifteen miles per hour. *Campus speed limits are enforced by radar.*

### 8.4 U and K Turns

U and K turns are prohibited on streets, roads, and highways on the grounds of the University.

### 8.5 Enforcement and Penalties

Moving-traffic regulations are enforced primarily by Public Safety officers. Motorists who violate moving-traffic regulations on campus may be issued a New York State uniform traffic summons. Uniform traffic summonses are returnable not to the Traffic Bureau but to the appropriate municipal court or magistrate.

## 9 Motorcycles, Motor Scooters, and Mopeds

Motorcycles, motor scooters, and mopeds are motor vehicles and as such are subject to all pertinent New York State vehicle and traffic laws and to all regulations governing motor vehicle operation on the grounds of the University. See articles 2, 3, and 5 (particularly sections 3.2.2 and 5.4.13) for details regarding registration and specific campus parking restrictions. Further information is available from the Traffic Bureau.

## 10 Bicycles

### 10.1 Registration

Bicycles operated on the grounds of Cornell University *must* be registered with the Department of Public Safety, G2 Barton Hall. Hours for bicycle registration are 8:00 a.m. to 4:30 p.m. Monday through Friday. Residents of the City of Ithaca must register their bicycles with the Ithaca Police Department, 120 East Clinton Street. Hours for bicycle registration are Saturday morning only between 9:00 a.m. and noon. City registration may also be done at the Department of Public Safety on the Cornell campus. Village of Cayuga Heights residents must register their bicycles with the Cayuga Heights Police Department, 836 Hanshaw Road. This may be done on Saturday morning between 10:00 and 11:00 a.m.; registrants should call the department in advance. Cornell, City of

Ithaca, and Village of Cayuga Heights bicycle registration is valid for a prescheduled two-year period or any part thereof. The bicycle must be reregistered upon permit expiration. University registration is free; there is a fifty-cent charge for registration with the City of Ithaca or Village of Cayuga Heights. Registration stickers are nontransferable.

### 10.2 Parking

A Cornell University registration sticker must be properly displayed on any bicycle parked on campus. Bicycles should always be parked at appropriate racks or hitching posts provided for this purpose. It is strongly recommended that the bicycle be securely chained to the rack or post. Bicycles may not be chained to, or parked against, trees, shrubs, fences, railings, fire hydrants, fire escapes, light poles, or stairs or be parked in building corridors or similar locations.

### 10.3 Enforcement and Penalties

In general, all New York State laws governing the operation of motor vehicles also apply to bicycles (see article 34, section 1230-36, New York State Vehicle and Traffic Law). Regulations about the use and parking of bicycles are enforced by the Department of Public Safety and the Department of Life Safety Services and Insurance. A bicycle not displaying the proper registration sticker or found parked improperly may be removed, and the owner may be subject to a fine. Impounded bicycles may be reclaimed by the owner upon presentation of identification and completion of registration in person at the Department of Public Safety. Bicycle operators violating New York State vehicle and traffic regulations may be charged with violation of the regulation in the appropriate local court.

## 11 Campus Bus Service

### 11.1 General

The primary purpose of the Campus Bus Service is to provide transportation between the main campus and peripheral University facilities. Schedules for on-campus and off-campus service are posted in all bus-stop shelters and are also available on campus buses and from the Traffic Bureau and the Information and Referral Center. All campus bus stops are clearly designated. Passengers are to board buses through the front door and exit through the rear door. The fare is \$.20 a ride; only exact change is accepted. Regular employees may use the campus bus system at no charge if they have a valid permit authorized by the Traffic Bureau. (For information on this permit, call the Traffic Bureau.) Students may buy semester passes for \$20.00 (\$6.00 for students with A or B permits) or academic-year passes for \$38.00 at the Traffic Bureau and the Willard Straight ticket office.

### 11.2 Charter Bus Service

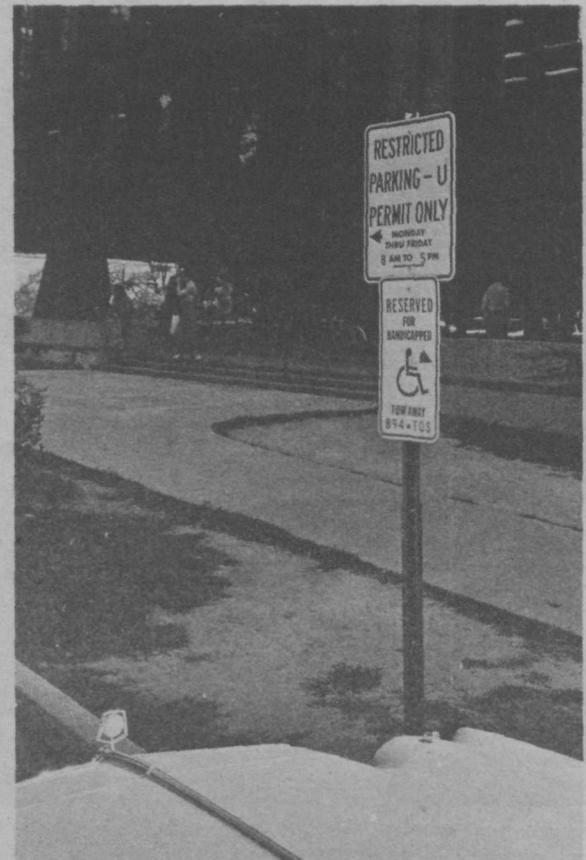

University departments and agencies may charter campus buses for short out-of-town trips or to transport groups on campus or between campus and local sites. The manager of the Campus Bus Service will provide information on rates and availability of buses and will make charter arrangements (telephone: 256-3782).

Office of University Publications  
981 XX IJ

Cornell University is an equal opportunity, affirmative action educator and employer.

Road repairs and construction create unusual parking and traffic situations that require caution for drivers and pedestrians.

Special parking arrangements for handicapped persons and individuals with mobility restrictions may be made by contacting the Traffic Bureau. A parking space is reserved for a specific vehicle, and the vehicle's license plate number is displayed on the "Reserved" sign.

### The Appeals Process

Anyone who receives a Cornell University parking summons has the right to appeal the fine at the Traffic Bureau. The only proper basis for appeal of a correctly issued summons is that the cited regulation was not violated.

A violation appeal is considered by the appeals officer, who reviews all relevant information and makes a decision on the appeal. An appellant has the right to request that a negative decision by the appeals officer be reviewed by the Violation Appeals Board (VAB).

The VAB is an independent body comprising faculty, staff, and student representatives appointed by the University Assembly. Appellants may appear before the VAB or may file a request in absentia. The VAB will consider all relevant facts and circumstances brought to its attention and will either deny, suspend, or grant the appeal in whole or in part. The VAB may reduce a penalty but may not increase it. Decisions of the VAB are by majority vote and are final.

### Loading Permits

Loading permits valid for forty-five minutes are available at the traffic and information booths at no cost to persons whose vehicles display an individual U permit or a departmental U permit when they have heavy, bulky, or dangerous materials to load or unload that cannot be transported on a campus bus.

Other persons requiring access to a loading zone will be charged \$.50 for a loading permit.

### Pedestrian and Motorist Rights and Responsibilities

Pedestrians and motorists on the Cornell campus are expected to be familiar with the rights and responsibilities assigned them by the University and by the state of New York.

New York State law states, "The driver of a vehicle shall yield right of way, slowing down or stopping if need be . . . to a pedestrian crossing the roadway within a crosswalk. . . ."

It is the responsibility of pedestrians to use crosswalks.

Pedestrians are subject to traffic-control signals.

It is unlawful for a pedestrian to walk in the roadway where sidewalks are provided.

Pedestrians should walk on the left side of the road, facing traffic, where there are no sidewalks.

### The Special Request Process

The Special Request Appeals Board (SRAB)—an independent body comprising faculty, staff, and student representatives—has the power under the University Assembly charter to grant variances or special requests relating to parking and traffic regulations except in cases involving alleged or actual violation of such regulations. The SRAB acts as an appeals board for variances and special requests that have been initially denied or referred to it by a representative of the Traffic Bureau. Every appellant has the right to appear in person before the SRAB and to provide additional pertinent facts for its consideration. The SRAB may attach any conditions to its decisions that it deems appropriate. All decisions of the SRAB are final.
