

Cornell Chronicle

Volume 13, Number 10

October 29, 1981

Cornell cheerleaders will have some extra voices to help them back the Big Red football team Saturday when members of the Cornell Council and the Board of Trustees will be at Schoellkopf for the Bucknell game. Among the cheerleaders who'll be on the sidelines are Captain Terry Ries (left), supported here by Ken Griffen, and Dorian Gravenese, getting a boost from Karl Mulle. The Big Red Bear also will lend a paw.

Hope Dims for Russian Dissident to Come Here

Persecution Extended to Scientist Kovalev's Family

Biologists here have received new information that the persecution of one of their Soviet colleagues, Dr. Sergei Kovalev, has been extended to the scientist's family.

Kovalev, who was issued an open invitation to join the faculty of Cornell as a visiting scholar in the Division of Biological Sciences in 1976, has been unable to respond. He remains in a labor camp serving the final year of a seven-year prison sentence for human rights activities in the Soviet Union.

The recent arrest of both his son and daughter-in-law now make it unlikely that Kovalev would choose to leave the Soviet Union to accept Cornell's invitation even upon his release from prison, according to Thomas Eisner, professor of neu-

robiology and behavior at Cornell. When Kovalev is released in December of this year, he faces three more years of internal exile.

"We're very concerned about the welfare of Kovalev and his family," says Eisner, in the Division of Biological Sciences in the State College of Agriculture and Life Sciences. Eisner has been working with several national and international organizations for six years in efforts to free the Soviet scientist.

"Information from Soviet dissident and Nobel Laureate Andrei Sakharov, himself in internal exile, confirms that Kovalev's health is deteriorating rapidly. And now his daughter-in-law is imprisoned and his son has been arrested."

Eisner has learned that the 48-

year-old Russian has persisted in his human rights efforts in prison by undertaking hunger strikes to protest the treatment of fellow prisoners. As punishment, Kovalev has been isolated in solitary confine-

ment, had his mail withheld, and been denied visits by his family and lawyer.

"His daughter-in-law was sentenced in March of 1981 to a very harsh sentence of five years of internment in a forced labor camp," says Eisner, "to be followed by five years of forced exile for 'anti-Soviet agitation and propaganda.'"

Kovalev's son, Ivan, who made repeated protests on behalf of his father, was arrested recently, but there has been no further information about his status. Both were members of the Helsinki Accord Watch Committee.

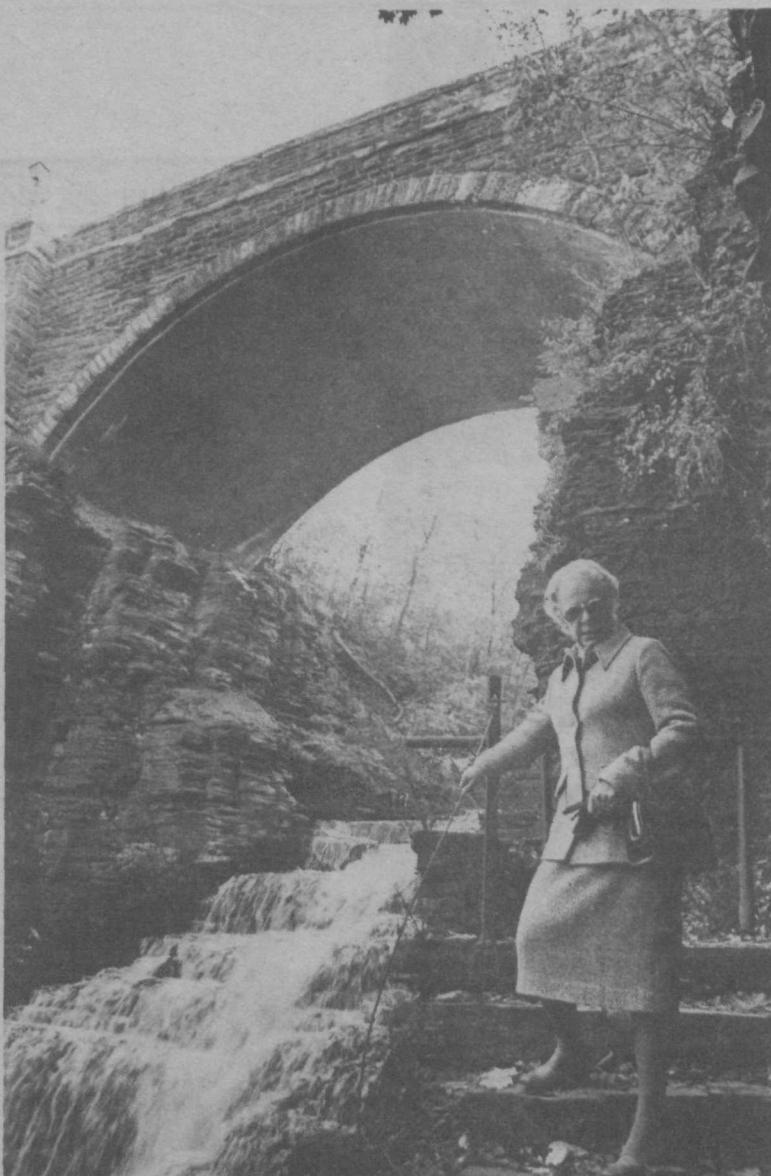

Appeals in support of Kovalev, whose work on the electrophysiology of muscle and the control of heartbeat is recognized

internationally, have been issued widely in the Soviet Union as well as abroad. The U.S. Congress and the American Association for the Advancement of Science (AAAS) have appealed for amnesty for Kovalev, but because the Soviet scientist was tried by a supreme court its decision is considered final. No appeal is permitted.

Members of the Cornell faculty are urging fellow scientists and others who are concerned to send letters of protest to Leonid Brezhnev, Soviet Head of State, and to Anatoly Dobrynin, Soviet Ambassador to the United States, in care of the Embassy of the Union of Soviet Socialist Republics, 1125 Sixteenth Street NW, Washington, D.C. 20036.

Open Meetings

Several meetings of the Board of Trustees and board committees in Ithaca this weekend will be open sessions. A complete listing may be found on Page 3.

Ruth Ogden, daughter of Henry Neely Ogden, designer of Cascadilla Bridge, above, descends into Cascadilla Gorge to get a better look at "father's bridge," as she has referred to it since childhood. She made the excursion two weeks ago after ceremonies during which the 83-year-old stone structure was designated a Local Historic Civil Engineering Landmark by the Ithaca Section of the American Society of Civil Engineers. Ogden, an 1889 graduate of Cornell, was a professor of civil engineering at the university from 1898 to 1938. The bridge between the campus and Collegetown is an earth-filled masonry arch in the classical Roman style. At its highest point it is 100 feet above Cascadilla Creek. The arch spans 63 feet and the deck is 30 feet wide. "The bridge has stood the test of time," according to Thomas O'Rourke, president of the Ithaca section of the A.S.C.E. and associate professor of civil and environmental engineering at Cornell. "The bridge is an outstanding example of the versatility of such structures, and a credit to the foresight of Professor Ogden," he said.

POSTMASTER: Send address changes to the Cornell Chronicle (USPS 456-650), Cornell University, 110 Day Hall, Ithaca, N.Y. 14853.

It is the policy of Cornell University actively to support equality of educational and employment opportunity. No person shall be denied admission to any educational program or activity or be denied employment on the basis of any legally prohibited discrimination involving, but not limited to, such factors as race, color, creed, religion, national or ethnic origin, sex, age or handicap. The university is committed to the maintenance of affirmative action programs which will assure the continuation of such equality of opportunity.

Rock Parks Design Sought Contest Open to All Students

All Cornell students are eligible to enter a design contest sponsored by the University's Department of Geological Sciences to expand the department's current Rock Parks exhibit in front of Kimball and Thurston Halls.

The exhibit now depicts this region's geological history. The new exhibit would add illustrations of the enormous span of geological time.

Cash prizes of \$100 and \$50 will go to the two best entries submitted by the Dec. 5 contest deadline, according to John Cisne, associate professor of geological sciences. Contest rules will be posted soon on bulletin boards throughout campus. For any questions contact Cisne, Room 308-A Kimball Hall, telephone 256-3698.

Cisne, who is chairman of the judging committee, commented on the purpose of the proposed exhibit: "Rocks in the Rock Parks are like books in a library. From each giant specimen, one can learn about some phase in the region's development. For instance, one can learn about glaciers that covered New York just over 10,000 years ago, about some of the world's first forests from 350 million year old tree stumps, all that remains of a coastal swamp, about life activities on a shallow sea floor from tracks and trails on a 500 million year old sandstone bed, or about mountains like the modern Himalayas that existed here over a billion years ago as a result of a collision between continents.

"What we're looking for in this contest are really good ideas that will help visitors get the most out of the Rock Parks by putting all of this information into perspective."

Cisne said: "The new exhibit should be easily understandable to casual visitors, complimentary to the Rock Parks environment, and durable in construction. Entries should include plans or drawings, suggestions for possible locations and construction materials, and any other information relevant to making the exhibit a success. The Department of Geological Sciences cannot guarantee that winning entries will be constructed, but it is the department's intention that one entry will be. Contest winners will be announced at the department's December Holiday Party, and will be notified beforehand."

The contest is being underwritten by Meyer Bender, Class of '29, a long-time friend and benefactor of the department and sponsor of the Geology Rock Parks. The department

will be moving the Rock Parks, together with the new exhibit, to the site of the new geological sciences building, which is scheduled for completion in 1984.

Colloquium Scheduled On Philosophy of Kant

Faculty from six institutions will participate in a colloquium on the philosophy of Immanuel Kant, commemorating the bicentennial of the publication of his "Critique of Pure Reason," here Nov. 6 and 7.

Lectures followed by a commentary will be the format for five different presentations in the Guerlac Room of the A.D. White House.

One general lecture, "What We Have Learned from Kant," will be given by Lewis White Beck, professor of philosophy emeritus at the University of Rochester, at 4:15 p.m. Friday, Nov. 6, in the Hollis Cornell Auditorium of Goldwin Smith Hall. Beck is regarded as the leading living expert on Kant.

The Nov. 6 schedule of lectures at A.D. White House is:

Margaret Wilson, professor of philosophy at Princeton University, on the "Phenomenalisms of Berkeley and Kant" at 9 a.m. Wilson has published numerous articles on the history of modern philosophy. The commentator will be Elizabeth Porter from Hamilton College.

Allen Wood, professor of philosophy at Cornell, on "Kant on Free Will and Determinism" at 11 a.m. in the Andrew White House, Guerlac Room. Wood's specialty is historical scholarship of political philosophy. The commentator will be Jonathan Bennett from Syracuse University.

Patricia Kitcher, associate professor of philosophy at the University of Vermont, on "Kant on Self-Knowledge" at 2 p.m. The commentator will be Sydney Shoemaker, the Susan Linn Sage Professor of Philosophy at Cornell.

The schedule of Nov. 7 at the A.D. White House is:

Philip Kitcher, associate professor at Vermont, on "Kant's Philosophy of Science" at 9 a.m. Kitcher's specialty is the philosophy of mathematics and science. The commentator will be Charles Parsons from Columbia University.

Terence Irwin, associate professor of philosophy at Cornell, on "Kant and Green on the Good Will" at 11 a.m. The commentator will be Charles Parsons from Columbia University.

Some Flood Damage

Even though the university is located largely on high ground, the flooding of Wednesday morning in the Ithaca area was not without its consequences for Cornell.

The Department of Public Safety reports included notations about blocking the footbridge by the Pancake House because of possible weakening of its supports, and high water interfering with traffic near the intersection of Judd Falls Road and Route 366.

The report also noted that two bridges at the foot of Cascadilla

Gorge, property of Cornell Plantations, were damaged and closed, that a tree that fell behind Gruman Hall took out electric lines, and there was water in the basements of Sage Graduate Center and Day Hall.

Safety officers also helped the Sheriff's Department close Forest Home Drive to traffic near the Flat Rock area, because the water was undermining the road.

Jobs

Word Processing Operator, GR18 (B&PA)

Secretary, GR18(Cntr. for Radio-physics & Space Research)

Service & Maintenance

Machinist, GR24(Cntr. for Radio-physics & Space Research)

Custodian, SO16(Varied)

Technical

Research Equipment Tech., GR24 (Electrical Engineering)

Technician, GR22(Pharmacology)

Technician, GR20(Preventive Medicine)

Technician, GR18(Biochem., Molec. & Cell Biology)

Part-time

Secretary, GR18(Arch., Art & Plan., Minority Ed. Affairs)

Collections Representative, T-2(Student Loan, Bursar Office)(2)

Academic

Assistant, Assoc., Full Prof. of Marketing(B&PA)

Assistant, Assoc., Full Prof., Finance & Organizational Behavior(B&PA)

Assistant, Assoc., Full Prof. of Organizational Behavior (B&PA)

Assistant Prof. of Finance(B&PA)

Assistant Prof. of Labor Economics (ILR)

Res. Associate II, CA4(Plant Pathology)

Res. Associate I, CA3(Design & Environmental Analysis)

The Job Opportunities list is mailed to all Cornell departments. In addition, it is posted in the following places: Day Hall Information Desk, second floor lobby; at the Circulation and Reference Desks of all university libraries; in the Map and Newspaper Section, Olin Library; all college and technical libraries; Roberts Hall Post Office substation and in the Upper Activities corridor, Willard Straight Hall.

Summary of Agenda for Trustee Meetings

Executive Committee, Full Board to Meet

The Executive Committee and the Board of Trustees of the university will meet here today through Saturday.

The agenda for the open session of the Executive Committee will include the following items:

A recommendation for approval of the 1982-83 State budget request for the Statutory Colleges.

A report on the establishment of new funds for the Statutory Colleges.

A recommendation, subject to approval of the Buildings and Properties Committee, to permit the New York State Energy Resources Development Authority (NYSERDA) to drill a 4,000 to 5,000 foot geothermal well at the New York State Agricultural Experiment Station.

A report of the Buildings and Properties Committee.

The following items will be included in the agenda for the executive session of the Executive Committee:

A report of the president.

Election of directors and department chairmen.

The Agenda items on the closed session are:

A recommendation subject to Investment Committee approval that the administration be authorized to credit certain income accounts of funds participating in the long-term investment pool with estimated income for the current fiscal year.

A recommendation that an advance of \$1,750,000 from current funds be approved to cover construction costs of the Biological Sciences facility to be repaid from an anticipated bequest of \$2 million which has been pledged to the project; and that gift funds in the amount of \$570,000 be specifically designated for the project.

A recommendation that the administration be authorized to allocate \$106,000 from Clark Hall Maintenance Fund No. 3 to support life safety and maintenance needs in Clark Hall.

A report on the establishment of new funds for the endowed colleges at Ithaca and the Medical College.

A report of the annual review of the trusteeship of Morgan Guaranty

Trust for the university's defined benefit pension plans for endowed employees.

A recommendation for an approval in principle for expansion of the renovation program for Rockefeller/Goldwin Smith Halls, and for an increase of project budget from \$3,400,000 to \$6,050,000 for the four-year program, to be financed from gifts in combination with annual appropriations as such funds become available.

A recommendation that the budget for the Rockefeller/Goldwin Smith renovation program be increased from \$3,193,250 to \$3,678,250 to be funded by anticipated gifts.

A recommendation that the administration be authorized to increase the project budget for renovation of lounges and social areas in the West Campus Dormitory Complex from \$560,000 (approved May 30, 1981) to \$650,000 to be financed within the context of the \$6 million five-year Student Housing Renovation Program which was approved in principle in May 1978.

A report of the Buildings and Properties Committee.

A number of action items on personnel matters.

A recommendation that responsibility for authorizing and issuing special permits for the possession and/or use of firearms on university property in isolated instances be transferred from the University Controller as authorized in September 1979, to the Director of the Department of Public Safety, or his designee.

A recommendation that the Executive Committee approve and recommend to the Board of Trustees that the joint meeting of the Board of Trustees with the Cornell University Council in 1986 be set for Friday and Saturday, October 17, 18.

The agenda for the joint session of the Board of Trustees of Cornell University and the Cornell University Council at 9 a.m. on Friday, October 30 in Alice Statler Auditorium, will include the following items:

Introduction of new members: Lilyan H. Affinito, B.S. Hotel '53 and James D. Stocker, A.B. '51 (Alumni Trustees), Charles F.

Knight, B.M.E. '58, M.B.A. '59 and Carol Clark Tatton, A.B. '59 (Members at Large), Howard E. Evans, B.S. '44, Ph.D. '50 (Faculty Trustee), Richard A. Church, B.S. '64 (New York State Grange Trustee), Ronald B. Parks (Employee Trustee), Walter Hlawitschka, I&LR, '82 and Stephen H. Lockhart, Medical College, '83 (Student Trustees), and Lillian Roberts (Ex Officio Trustee).

Introduction of new members of the university administration.

Report on Cornell University Council Activities.

Progress report on fund raising for the Center for Performing Arts at the university.

Robert A. Cowie will report on fund raising activities of the university.

President Rhodes will report on the State of the University.

The session will conclude with the showing of a new film which will be used at alumni activities and for student recruitment.

The agenda for the open session of the Board of Trustees of Cornell University at 2:30 p.m. on Friday, October 30, in the Johnson Museum will include the following items:

A report on the university by President Frank Rhodes.

A report that student trustee Gregory G. King resigned September 11, 1981, and the nomination of Stephen N. Nesterak to fill the unexpired term through June 30, 1983, pursuant to Article II, Section 2.d. of the University Bylaws.

Recommendation by President Rhodes to adopt a Memorial Resolution for the late John S. Knight.

Recommendation by President Rhodes to adopt a Memorial Resolution for the late Stoddard Stevens.

The annual report of the College Advisory Councils.

A report on enrollment trends.

The annual report of sponsored research at Cornell University.

The annual report of the Chief Investment Officer.

The controller will report on the results of the 1980-81 operations of the university.

Audit Committee chairman Poe Fratt will report with respect to the university's audited financial

statement for 1980-81.

A report on the overall Cornell Fund.

A report and comment concerning gifts received by the university for the year to date.

Agenda items for the closed session of the full Board of Trustees will include the following:

A report on the Cornell in Washington Program by Walter F. LaFeber, Marie Underhill Noll Professor of American History, and Vice Provost Larry Palmer.

A report of the president.

Approval of minutes of the Board of Trustees meeting held May 30, and ratification and confirmation of Executive Committee minutes for meetings held May 5 and May 30, 1981.

A report by Senior Vice President William G. Herbster on revenue and expenditure projections for the endowed colleges at Ithaca for fiscal 1981-82.

A recommendation for adoption of a policy whereby professorships, deanships, directorships or other positions may be established with a pledge of annual support equivalent to the income earned on an endowed fund which supports a professorship, deanship or directorship

in the university's long-term investment pool.

A number of action items concerning tenured personnel.

A report from Executive Committee Chairman Charles T. Stewart, and recommendations from closed sessions of the Executive Committee meetings held July 14 and October 29, 1981.

Agenda items for the executive session of the full Board will include the following:

A report of the president.

Personnel reports on deaths, resignations and appointments.

Election to emeritus status.

Election to tenure positions in the statutory colleges.

Promotion of tenured personnel in statutory colleges.

Computer Helps Farmers Create Own Energy Source

Program Identifies Output from Animal Wastes

Farmers wondering whether energy production from animal wastes on their own farms could be profitable can get expert advice from Cornell.

A computer program capable of providing a set of recommendations based on the characteristics of individual farms is now ready to help farmers across the United States make the right decisions.

Called "Methane Computer Feasibility Program," the computer-based analysis service is designed to answer questions such as the size of a methane digester, construction costs, the amount of usable energy, the reliability of the system, and so on — all tailored to specific farm sizes, conditions, and requirements.

William J. Jewell, agricultural engineer in the State College of

Agriculture and Life Sciences, says that the computer program will give interested farmers enough information to decide if a methane digester could provide them with a fuel that is cost-competitive.

"This program will not tell farmers how to build a digester, or whether they should build one," Jewell notes. "It provides a general guide to help determine the feasibility of methane generation for a particular farm situation."

The computer service is an effort to speed up widespread use of a low-cost methane production system developed by Jewell and his research team. Tested thoroughly under realistic conditions over the past several years, Cornell's prototype is ready for adoption by farmers, particularly those involved in dairy, beef cattle, poultry, and swine oper-

ations.

Jewell describes the Cornell production system as simple in design and reliable in operation requiring little maintenance, which can be made bigger or smaller for any farm size, ranging from a small 25-cow dairy operation to large feedlots.

To get their farm operations analyzed, interested farmers fill out a questionnaire concerning their farm conditions. Required information includes the number and the type of animals kept; whether bedding material or milking parlor waste is mixed with the manure; and the length of time the animals are pastured.

Other information needed includes whether farmers can do their own excavation and grading for a digester site; the estimated cost of

labor, if hired; the area where the farm is situated; if a loan is needed, and the interest rate; and the kind and the amount of energy now in use.

With these and other pertinent data, the computer can answer several key questions such as the optimum size of a methane digester, net energy output, costs of installation by farmers themselves or by a commercial firm, and the payback period.

Cornell's demonstration unit, which cost about \$15,000 in materials and equipment, was designed for a farm with 50 to 65 cows. With annual production of net energy worth about \$2,000 to \$3,000, the cost of a digester can be recouped within five to six years, Jewell estimates.

"Considering rising prices for

propane and oil today, even a 25-cow capacity digester can produce methane gas competitively, and a farm of 100 or more cows can produce energy at about half the cost of other fuels," Jewell said.

In addition to energy production, the methane production system has another major attribute: it can reduce the problem of animal wastes as a source of pollution because the digester turns manure into an odorless material while keeping the fertilizer value of the "spent" material intact for crop production.

Anyone interested in Cornell's computer analysis service may contact "Methane Computer Feasibility Program," Agricultural Engineering Department-Cooperative Extension Service, Riley-Robb Hall, Cornell University, Ithaca, NY 14853.

Calendar

All items for publication in the Calendar section, except for Seminar notices, must be submitted by mail or in person to Fran Apgar, Central Reservations, 532 Willard Straight Hall, at least 10 days prior to publication. Seminar notices should be sent to Barbara Jordan-Smith, News Bureau, 110 Day Hall, by noon Friday prior to publication. Items should include the name and telephone number of a person who can be called if there are questions, and also the subheading of the Calendar in which it should appear (lectures, colloquia, etc.). ALL DEADLINES STRICTLY ENFORCED.

*-Admission charged.

Announcements

Academic Survival Workshop
Study Skills Workshop begins Oct. 29. Classes meet Thursdays 2:30-3:45 p.m. Topics include: Cornell Note-Taking Methods, time management, textbook mastery, test preparation and strategies, and research paper skills. Reading Skills Workshop begins Nov. 2. Classes meet Mon. and Wed. (4:30-5:30 p.m.) for a period of two weeks. Please sign up in advance at the Learning Skills Center, 375 Olin Hall or call 256-6310.

Writing Workshop Walk-In Service
Service is open Mon. through Thurs., 3:30-4 p.m. and 7:30-10 p.m.; Sun., 3-8 p.m.; Service is closed Fri. and Sat. You need no appointment; just drop by during our hours. Phone 256-6349.

Legal Advice or Representation
The Office of the Judicial Advisor provides free legal assistance to students, faculty and staff accused of violating any of the university rules and regulations, i.e., the Campus Code of Conduct, the Statement of Student Rights and the Code of Academic Integrity. All consultations are kept strictly confidential. Call 256-6492 for an appointment or drop by B-12 Ives Hall.

Weigh Station
Weight Reduction Classes are held every Thurs., 12 noon-1 p.m. at the Block Building in Barton Hall. Everyone is welcome. If you have questions, call 277-3418 or 257-0853.

Mann Library Book Sale
Thurs. & Fri., Oct. 29 & 30, 9 a.m.-4:30 p.m. Sale to be held in the Informal Study Room, 1st floor Mann Library.

Extramural Courses
Last day to drop courses is Oct. 30, 1981.

Human Ecology Students
Course Enrollment (preregistration) for Spring Term starts Mon., Nov. 2, and end Fri., Nov. 13. On Thurs., Oct. 29, memos with information about Course Enrollment can be found on the top of the Human Ecology undergrad mail files in the Foyer of MVR. Packets of material will be available starting Mon., Nov. 2, in N101 MVR.

Energy Conservation Alternatives Display

Winter is coming and so are the higher utility and energy bills. Find out ways to save by consulting with representatives from the following agencies: Community Self-Reliance Center, Department of Transportation Services, Economic Opportunity Corporation, Eco-Justice Project, Ithaca Neighborhood Housing Services, New York State Electric and Gas and others. Display will be held in Willard Straight Memorial Room on Thurs., Nov. 5, 10:30 a.m.-2:30 p.m. Call 256-5373 for further information. Sponsored by the Off-Campus Housing Office and Community Energy Network.

Women's Studies Open House
The Women's Studies Program will hold an open house on Wed., Nov. 4 from 4-6 p.m. in 340 Uris Hall. Faculty will be on hand to answer questions about spring semester courses. Refreshments will be served.

B.R.A.H.M.S.
The next rehearsal of the Biweekly Rehearsal Association of Honorary Musical Scientists will be at 7:30 p.m. Tuesday, Nov. 3, in Barnes Hall. Anyone who would like to play (even if they haven't picked up an instrument in years) is invited to sit in. Strings, especially violins, are needed. For further information call Thomas Eisner at 256-4464.

Wednesday
Nov. 4, 8 p.m. Anabel Taylor Forum.

Personal Safety and Rape Awareness Program Film: "This Film is About Rape," followed by a discussion with Safety, local law enforcement officials and members of the Community Against Rape. Free and open to all members of the Cornell community.

Career Center

Thursday

Oct. 29, 4-6 p.m. Barnes 203. Career Exploration Workshop.

Oct. 29, 4 p.m. Career Center. Resume and Letter Writing Strategies for A&S students.

Oct. 29, 5 p.m. Career Center. Sophomore Pre-Vet Orientation.

Friday

Oct. 30, a.m. only Career Center. Recruiter from Kent at Canterbury at Career Center.

Colloquia

Thursday

Oct. 29, 4:30 p.m. Space Sciences 105. Astronomy and Space Sciences: "The Cosmic Abundance of Deuterium and Helium," Alexander Dalgarno, Center for Astrophysics.

Friday

Oct. 30, 1:30-3:30 p.m. Malott Bache Amphitheater. Graduate School of Business and Public Administration's Public Affairs Colloquium: "Increasing East-West Trade: The Vital Tie that Binds," Reuben O'D. Askew, former Special Trade Representative, former Governor of Florida.

Monday

Nov. 2, 4:30 p.m. McGraw 305. Anthropology: "From Coast to Forest: Keys for the Reconstruction and Understanding of Civilization in the North Central Andes," Professor Patricia Netherly, Department of Anthropology, University of Massachusetts.

Tuesday

Nov. 3, 4:30 p.m. Space Sciences 105. Astronomy and Space Sciences: "Chemical Evolution in Space," J. Mayo Greenberg, Huygens Laboratory, Leiden, The Netherlands.

Wednesday

Nov. 4, 3:30 p.m. Martha Van Rensselaer 124. Human Development and Family Studies: "On Plasticity and Directionality of Intelligence During Adulthood and Old Age," Paul B. Baltes, Ph.D., Max Planck Institute For Human Development and Education.

Friday

Nov. 6, 9 a.m. A.D. White House Guerlac Room. The Society for the Humanities, The Department of Philosophy and the University Lectures Committee of Cornell present a Colloquium on the Philosophy of Immanuel Kant commemorating the Bicentennial of the publication of the 'Critique of Pure Reason.' "The Phenomenisms of Berkeley and Kant," Margaret Wilson, Princeton University. Commentator: Elizabeth Potter, Hamilton College.

Nov. 6, 11 a.m. A.D. White House Guerlac Room. "Kant on Free Will and Determinism," Allen Wood, Cornell. Commentator: Jonathan Bennett, Syracuse University.

Nov. 6, 2 p.m. A.D. White House Guerlac Room. "Kant on Self-Knowledge," Patricia Kitcher, University of Vermont. Commentator: Sydney Shoemaker, Cornell University.

Nov. 6, 4:15 p.m. Goldwin Smith Hollis Cornell Auditorium. University Lecture: "What We Have Learned From Kant," Lewis White Beck, University of Rochester.

Saturday

Nov. 7, 9 a.m. A.D. White House Guerlac Room. "Kant's Philosophy of Science," Philip Kitcher, University of Vermont. Commentator: Charles Parsons, Columbia University.

Nov. 7, 11 a.m. A.D. White House Guerlac Room. "Kant and Green on the Good Will," Terence Irwin, Cornell University. Commentator: Ralf Meerbote, University of Rochester.

Dance

Every Thurs., 8 p.m. Anabel Taylor One World Room. Israeli Folk Dancing.

"The Annunciation," an etching with engraving and drypoint by Federico Barocci, will be on view at the Herbert F. Johnson Museum of Art as part of the exhibition, "Seventeenth Century Italian Prints from the Sopher Collection." The exhibition opens Wednesday, Nov. 4. Museum hours are 10 a.m.-5 p.m. Tuesday through Sunday.

Exhibits

Olin Library "Ex Libris": book plates designed for Cornellians and others, from elaborate engravings to simple modern designs. Through December.

Uris Library "Contemporary Iroquois Art": paintings and carvings of Native Americans. Through October.

Herbert F. Johnson Museum "The Artisan Community in China." Forty Gouaches depicting the interiors of Chinese shops in 19th century Canton: through Nov. 29; "Zarina": handmade paper constructions by a Cornell University visiting artist, through Nov. 29;

"Lessons in Print Collecting" through Nov. 1; "Schemes: A Decade of Installation Drawings" starts Nov. 16. "Seventeenth Century Italian Prints from the Sopher Collection" from Nov. 4; "Prints for Purchase" a sale of prints chosen by Barbara Blackwell, assistant curator of prints: Nov. 4. "Sam Wiener: Metropolitan Container of Art" from Nov. 4. Museum Hours: 10 a.m.-5 p.m., Tues. through Sun.

Fridays

introduction of ecological and technical changes.

Oct. 30, 7:30 p.m. Uris Hall Auditorium. Pentangle II Free Film Series: "Iphegenia" (1977), Michael Cacoyannis, Greece.

Oct. 30, 7:30 p.m. Statler Auditorium. "Mary Poppins" (1965), directed by Robert Stevenson, with Julie Andrews, Dick Van Dyke.

Oct. 30, 10:15 p.m. Uris Hall Auditorium. "Every Man for Himself" (1980), directed by Jean-Luc Godard, with Isabelle Huppert, Jacques Dutronc, Nathalie Baye.

Oct. 30, 10:30 p.m. Statler Auditorium. "Hallowe'en" directed by John Carpenter, with Donald Pleasance, Jamie Lee Curtis, Nancy Loomis.

Saturdays

Oct. 31, 7:30 & 10:15 p.m. Uris Hall Auditorium. "Every Man for Himself."

Oct. 31, 8 p.m. Statler Auditorium. "Mary Poppins."

Oct. 31, 11 p.m. Statler Auditorium. "Hallowe'en."

Sundays

Nov. 1, 2 p.m. Uris Hall Auditorium. "Mary Poppins."

Nov. 1, 8 p.m. Uris Hall Auditorium. "Good Morning" (1959), directed by Ozu, with Ryu Chishu, Miyake Kuniko, Kuga Yoshiko.

Monday

Nov. 2, 9 p.m. Uris Hall Auditorium. "Ivan the Terrible" (1943/46), directed by Sergei Eisenstein, with Nikolai Cherkassov, Ludmila Tselikovskaya, Serafima Birman. Limited to Film Club members only.

Tuesday

Nov. 3, 4 p.m. Morrill 106. Southeast Asia Film Series: "Taram, a Minangkabau Village" life in a matrilineal Minangkabau village in Sumatra where

inheritance is from mother to daughter and husbands are "guests" in their wives homes. Also: "Singa's Family: A Batik Village" subsistence activities, rice cultivation, fishing, and weaving in a Batik village on the shores of Lake Toba, Sumatra.

Nov. 3, 7:30 p.m. Uris Hall 202. Women's Studies Program: "Nana, Mom and Me." Film followed by a panel discussion on mothers and daughters: Billie Jean Isbell, Assoc. Professor, Anthropology; Rosalind Kenworthy, Sex Counselor, Gannett Health Center; Alison Lurie, Professor, English; and Elaine Walker, Assistant Professor, HDFS.

Nov. 3, 8 p.m. *Uris Hall Auditorium. "Chloe in the Afternoon" (1972), directed by Eric Rohmer, with Bernard Verley, Zouzou, Daniel Ceccaldi.

Wednesday

Nov. 4, 8 p.m. *Uris Hall Auditorium. "The Thin Man" (1934), directed by W.S. Van Dyke II, with William Powell, Myrna Loy, Maureen O'Sullivan.

Thursday

Nov. 5, 8 p.m. *Uris Hall Auditorium. "Badlands" (1973), directed by Terrence Malick, with Martin Sheen, Sissy Spacek, Warren Oates. Co-sponsored by Psychology Department.

Friday

Nov. 6, 9:45 p.m. *Uris Hall Auditorium. "Melvin and Howard" (1980), directed by Dennis Hopper, with Peter Fonda, Dennis Hopper, Jack Nicholson, Mary Steenburgen.

Friday & Saturday

Nov. 6 & 7, 12 midnight *Uris Hall Auditorium. "Easy Rider" (1969), directed by Dennis Hopper, with Peter Fonda, Dennis Hopper, Jack Nicholson.

Saturday

Nov. 7, 7:30 & 9:45 p.m. *Uris Hall Auditorium. "Melvin and Howard."

Sunday

Nov. 8, 2 p.m. *Uris Hall Auditorium. "The Secret Garden" (1949), directed by Fred M. Wilcox, with Margaret O'Brien, Herbert Marshall, Dean Stockwell. Co-sponsored by the Ithaca Youth Bureau.

Nov. 8, 8 p.m. *Uris Hall Auditorium. "Tokyo Story" (1953), directed by Ozu, with Ryu Chishu, Higashiyama Chieko, Yamamura So.

Intramural Sports

Intramural Inner-Tube Water Polo-Men, Women, Co-ed

Deadline on entries is Wed., Nov. 4 at 4 p.m. in the Intramural Office, Gruman Squash Courts Bldg. Minimum of 10 to enter. Co-ed: equal number of men and women. Teams shall consist of 7 players. Co-ed: any 3/4 combination-male or female in goal. Play will probably begin on Mon., Nov. 30 in the Teagle Pool at 9:30 and 10:10 p.m. Mon. thru Thurs. Type of tournament depends on number of entries. All necessary equipment provided except swim suits.

Intramural Swimming-Men, Women

Deadline on entries is Thurs., Nov. 5 at 4 p.m. in the Intramural Office, Gruman Squash Courts Bldg. Trial Heats: Tues., Nov. 10 at 5 p.m. in Teagle Pool; Finals: Thurs., Nov. 12 at 5 p.m. in Teagle Pool. 1. Each team may enter no more than 2 individuals in any individual event. 2. Each individual may enter up to 3 events but no more than 2 of these may be individual events. 3. Relay: each team may enter no more than 1 team in each relay.

Lectures

Every Tues. & Thurs.

Through Oct. 29, 11:15 a.m. Clark 700. Baker Lecture Series: "Photochemistry of Metal Complexes," Professor Harry B. Gray, California Institute of Technology. Informal discussion: Wednesdays, 4:40 p.m. in Baker Laboratory 132.

Thursday

Oct. 29, 12:20 p.m. 102 West Ave. Southeast Asia Thursday Luncheon Seminar: "Centralizations, Sort of, in Balinese Ritual and Society," James A. Boon, Professor of Anthropology and

Asian Studies. Bring your lunch, coffee, tea and cookies provided.

Oct. 29, 4:30 p.m. Goldwin Smith Hollis Cornell Auditorium. Women's Studies Visiting Scholars Program and Philosophy Department: "On Being White: Toward a Feminist View of Race Supremacy," Marilyn Frye, Michigan State University. A James H. Becker Alumni Lecture.

Oct. 29, 4:30 p.m. Baker Laboratory 119. "The Euhemerisation of Vitamin B 12," by A.D. White Professor-at-Large Duilio Arigoni, Swiss Federal Institute of Technology (ETH), Zurich, Switzerland.

Oct. 29, 4:30 p.m. Goldwin Smith D. University Lectures Committee, in cooperation with the Departments of English, Music and Modern Languages and Linguistics: "Reconstructing the Melodies of Anglo-Saxon Poetry," Thomas Cable, Professor of English, University of Texas at Austin.

Friday

Oct. 30, 12:15 p.m. Martha Van Faculty Lounge. Cornell Group on Life Studies: "New Evidence on the Life Course of Japanese Village Women - 1870 to 1935," Robert Smith, Professor or Anthropology.

Oct. 30, 12:15 p.m. Statler Hall 439. Western Societies Program: "The Ritual Problem in Modernizing Europe, 1800-1945," Harry C. Payne, Colgate University. Informal discussion to follow.

Oct. 30, 4:30 p.m. McGraw 165. Public Lecture sponsored by Western Societies Program: "Malinowski's Style," Harry C. Payne, Colgate University.

Monday

Nov. 2, 4:30 p.m. Ives 217: Western Societies Program: "Acephal" (1936-39), Yves Hersant, Ecole des Hautes Etudes en Sciences Sociales, Paris.

Nov. 2, 4:30 p.m. Goldwin Smith 156. German Literature: "Frederick the Great: Cross-Piper and Poet," Professor Thomas Colby, Hamilton College.

Nov. 2, 7:30 p.m. Anabel Taylor One World Room. America and World Community: an interdisciplinary course. "Global Communications and Human Survival," Njoku Awa, Assistant Professor, Communication Arts.

Tuesday

Nov. 3, 3:45 p.m. Myron Taylor Moot Courtroom, Cornell Law School. 1981-82 Irvine Lecture, "International Human Rights and Human Needs: The Lawyer's Role," Thomas Ehrlich, Provost and Professor of Law at the University of Pennsylvania and former Director, International Development Cooperation Agency. The public is invited.

Wednesday

Nov. 4, 4:30 p.m. McGraw Hall 165. Public Lecture: "Moses Coit Tyler, Cornell, and the Genesis of American Studies in the United States," Professor Michael Kammen, the Newton C. Farr Professor of History at Cornell. This is a Centennial Lecture. In 1881 Cornell appointed Tyler to the first professorship of American history created at any university in the United States. Tyler held this chair until his death in 1900.

Nov. 4, 7:30 p.m. Anabel Taylor One World Room. "America and World Community: an interdisciplinary course. "Global Communications and Human Rights," Njoku Awa, Assistant Professor, Communication Arts.

Thursday

Nov. 5, 7:30 p.m. Stimson G-1. Jordani: Natural History Society: "Re-establishing Puffins in Maine," Stephen W. Kress, Laboratory of Ornithology.

Meetings

Every Tues., 9 p.m. Hug Ivri-Hebrew Club meeting. Speakers of Hebrew at all levels welcome. For more information, call Michael at 277-2168.

Every Thurs., 7:15 p.m. Willard Straight 207. Gay PAC business meeting followed by 8 p.m. discussion. Different topic each week.

Every Sun., 7:30 p.m. Anabel Taylor 314. The Anthroposophy Study Group will

take up the topic "The Spiritual Science of Rudolf Steiner." Everyone welcome. For more information call 277-1459 or see the secretary in Anabel Taylor Hall.

Tuesday

Nov. 3, 12:15 p.m. Roberts Hall B8. Employee Assembly.

Wednesday

Nov. 4, 4:30-6 p.m. Straight Loft 2. Cinema Advisory Board meeting. Open to the public - programming for January and February, 1982. Sponsored by Cornell Cinema.

Thursday

Nov. 5, 5 p.m. Urs Hall 202. Student Assembly meeting.

Music

Husa String Quartets

Continuing the university's Festival of Contemporary Music and recognition of Cornell composer Karel Husa's 60th birthday year, a concert performance of Husa's three String Quartets will be given at 8:15 p.m. Thursday, Oct. 29, in Barnes Hall by the Tremont Quartet. The public is invited to attend without charge.

Husa's Quartet No. 3 won a Pulitzer Prize in 1969 for the Cornell Kappa Alpha Professor of Music. The work was written for the Fine Arts Quartet and commissioned by Mr. and Mrs. Leo A. Freeman on behalf of the Fine Arts Music Foundation of Chicago where it was first performed. The First and Second Quartets were written in Paris in 1947 and 1952-53 respectively.

The Tremont Quartet, formed in Boston in 1977, is in residence at SUNY Geneseo and SUNY Brockport. At each of these colleges the quartet assumes teaching duties, serves as artist-coaches to the orchestra, directs the chamber music program and performs four concerts each season. During the summer months, the Tremont has served as quartet-in-residence at the Amherst Music Center, the Claremont Festival and the International String Conference in Pennsylvania.

The quartet, which has a large and varied repertory, has performed throughout the United States to critical acclaim. The 1981-82 season will be highlighted by concerts in Washington, D.C., and New York City under the auspices of the National Gallery of Art and the American Society of University Composers, respectively. The ensemble is frequently heard on National Public Radio and has presented a number of world premieres. Their Cornell concert is being made possible in part by a grant from the Cornell Council of the Creative and Performing Arts.

Another contemporary concert at 8:15 p.m. Saturday Oct. 31, in Barnes Hall, will feature the music of Cornell graduate composers who are currently studying with Professors Husa and Steven Stucky. The student composers' programs are supported by an annual gift from Cornell alumnus Sidney Cox '43.

Rebecca Reese will play Mark Laporta's Aphorism for trumpet. A brass quintet will perform two works: Serenata Aestiva for Brass Quintet by Byron Adams and Fanfare for Brass Quintet by Janice Macauley. The ensemble is composed of Rebecca Reese and Steven Fish, trumpet; Stephen May, horn; Kathy Barkey, trombone; and Andrew Greenberg, tuba. Gordon Stout, marimba, and David Unland, tuba, will play Rosewood Air by Donald Campfield.

The closing work, Letters of Emily Dickinson by Christopher Been, will have as performers soprano Deborah Pfautsch, with instrumentalists Desire Elsevier, viola; Valerie Buzas, flute; John Livingston, oboe; Mark Simon, clarinet; and Stephen May, horn.

Thursday

Oct. 29, 8:15 p.m. Barnes Hall. Tremont Quartet, Husa string quartets (Anniversary Concert).

Friday

Oct. 30, 8:30 p.m. *Straight Memorial Room. Cornell Folk Song Club Concert: Martin Carthy, an influential revivalist singer and guitar player who works with traditional and contemporary material adapted to traditional style.

Saturday

Oct. 31, 7:15 p.m. *Anabel Taylor Auditorium. Indian Classical Music by Lakshmi Shankar (Hindustani) and L. Subramaniam (Karnatals). Sponsored by Cornell India Association and Graduate Activities Funding Commission. Call 273-6190 for more information.

Oct. 31, 8:15 p.m. Barnes Hall. Music by Cornell Composers: Adams, Been, Campfield, Conte, Duffy, Laporta, Macauley, Taggart.

Religion

Every Fri., 6:30 p.m. Anabel Taylor Founders Room. Shabbat Conservative Service.

Every Fri., 6:30 p.m. Anabel Taylor Chapel. Shabbat Reform Service.

Every Fri., 7:30 p.m. 106 Eastern Heights Drive. Baha'i fireside discussion. For details call 273-4240.

Every Fri., 1 p.m. Anabel Taylor Edwards Room. JUMA Prayers organized by the Muslim Educational and Cultural Assoc. of Cornell.

Every Sat., 9 a.m. Anabel Taylor Edwards Room. Shabbat Orthodox Service.

Every Sat., 10 a.m. Anabel Taylor Founders Room. Shabbat Conservative Service.

Every Sat., 5:15 p.m. Anabel Taylor Auditorium. Catholic Eucharist.

Every Sun., 9:30 a.m. Anabel Taylor Chapel. Episcopal Eucharist Worship Service. Nursery and Church School provided. Faculty and students welcome. Coffee hour after.

Every Sun., 9:30 & 11 a.m. Anabel Taylor Auditorium. Catholic Eucharist. Church school and nursery provided.

Every Sun., 9:45 a.m. Anabel Taylor Edwards Room. Ithaca Society of Friends (Quakers) adult discussion followed by meeting for worship at 11 a.m.

Every Sun., 10 a.m. Straight North Room. Korean Church at Cornell.

Every Sun., 11:15 a.m. Anabel Taylor Chapel. Protestant Church at Cornell. Coffee and conversation after.

Every Sun., 5 p.m. Anabel Taylor Auditorium. Catholic Eucharist.

Friday

Oct. 30, 7:30 p.m. 1-6 Eastern Heights Drive. Baha'i fireside discussion: "Parenting." For details call 273-6133.

Sunday

Nov. 1, 11 a.m. Sage Chapel. Inter-religious Convocation. William R. Jones, Unitarian Universalist Minister, Florida State University, Tallahassee, FL.

Sunday

Nov. 8, 11 a.m. Sage Chapel. Inter-religious Convocation. David Drinkwater, Dean Of Students, Cornell University.

Seminars

Antibody Club/Department of Veterinary Microbiology: "Studies of Associations Between Horse Histocompatibility Antigens and Equine Disease," Sandor Lazary, Institute for Clinical Immunology, Bern, Switzerland, 4:30 p.m. Thursday, Oct. 29. James A. Baker Institute for Animal Health, Conference Room, Snyder Hill.

Atomic & Solid State Physics: "Quantized Hall Conductance," B.I. Halperin, Harvard University, 1:15 p.m. Thursday, Oct. 29. 701-702 Clark Hall.

Atomic & Solid State Physics/Surface Science: "High Resolution Electron Energy Loss Spectroscopy on Solid Surfaces," H. Ibach, IGV/KFA Julich, 1:30 p.m. Thursday, Oct. 29. 700 Clark Hall.

Atomic & Solid State Physics: Solid State Seminar: "Microfabrication: Techniques and Solid State Microscience Applications," Lawrence Jackel, Bell Laboratories, 4:30 p.m. Tuesday, Nov. 3, 700 Clark Hall.

Atomic & Solid State Physics: Theory Seminar: Title to be announced, N.W. Ashcroft, 1:15 p.m. Thursday, Nov. 5, 701-702 Clark Hall.

Biochemistry: "Molecular Analysis of the Bithorax Complex of Drosophila," Martin Carthy, an influential revivalist singer and guitar player who works with traditional and contemporary material adapted to traditional style.

Biochemistry: "Light-Energy Trans-

duction in Vesicles from Halobacterium halobium," Robert Clark, 12:20 p.m. Monday, Nov. 2, 105 Riley Robb.

Biophysics: "Mechanism of Action of GPDH," Chen-Lu Tsou, Peking (visiting professor, Harvard University) 4:30 p.m. Wednesday, Nov. 4, 700 Clark Hall.

Boyce Thompson Institute/Plant Biology: "Biosynthesis of Alpha Amylase in Germinating Cereal Seeds: Role of Glycosylation," T. Akazawa, Nagoya University, 12:20 p.m. Thursday, Oct. 29, BTI Auditorium.

Campus Life: "Discussion with members of the Board of Trustees," Gary Guzy, Karen Brazell, Ezra Cornell, George Peter, 9 a.m. Thursday, Nov. 5, Elmhurst Room, Willard Straight Hall.

CAPE: "Corporate Control Transactions," Daniel R. Fischel, Northwestern University, 4 p.m. Thursday, Oct. 29, Law Faculty Lounge, Myron Taylor Hall.

CAPE: "Collective Protection of Inconspicuous Consumption," Robert Frank, 4 p.m. Thursday, Nov. 5, 498 Urs Hall.

Chemical Engineering: "Design of Slurry Bubble Column Reactors for Application to Coal Conversion," John A. Ruether, Pittsburgh (PA) Energy Research Center, 4:15 p.m. Wednesday, Nov. 4, 145(A) Olin Hall.

Ecology & Systematics: "Strategies of Fruit and Seed Dispersal," Edmund W. Stiles, Rutgers University, 9:05 a.m. Monday, Nov. 2, 163 Morrison Hall.

Ecology & Systematics: "Mutualistic Relationships: Fruit Dispersal," Daniel H. Janzen, University of Michigan, 9:05 a.m. Wednesday, Nov. 4, 163 Morrison.

Ecology & Systematics: "Influence of Plant Dispersion on Herbivorous Insects," Richard B. Root, 4:30 p.m. Wednesday, Nov. 4, Langmuir Penhouse.

Floriculture and Ornamental Horticulture: "Temporal and Spatial Aspects of Environmental Plant Stress," Jim Ellenson, 12:15 p.m. Thursday, Oct. 29, L.H. MacDaniels Room, 37 Plant Science.

Food Science: "Effects of Milk Heat Treatments on Cheese Yield," David Dzurec, 4:30 p.m. Tuesday, Nov. 3, 204 Stocking Hall.

General Chemistry: "Photoelectrochemistry & Heterogeneous Photocatalysis at Semiconductors," Allen Bard, University of Texas, 4:40 p.m. Thursday, Nov. 5, 119 Baker Lab.

JUGATAE: "The Nesting Biology of Northeastern Yellow Jackets," Kenneth Ross, 4 p.m. Monday, Nov. 2, 100 Caldwell Hall.

Materials Science and Engineering: "Grain Boundary Structures in Ceramic Oxides," D. Wolf, Argonne National Lab., 4:30 p.m. Thursday, Oct. 29, 140 Bard Hall.

Mechanical and Aerospace Engineering: "The Viscous Resistance of Ship Forms," Alexander J. Smits, Princeton, 4:30 p.m. Tuesday, Nov. 3, 282 Grumman.

Microbiology: "Magnetite in Bacteria: Can a Bacterium Use Iron to Help it Dive?" Richard Blakemore, University of New Hampshire, 4:30 p.m. Thursday, Oct. 29, 124 Stocking Hall.

Natural Resources: "Toxicology of Inorganic Combustion Aerosols and Sulfur Dioxide," Mary O. Amdur, Massachusetts Institute of Technology, 4 p.m. Tuesday, Nov. 3, 304 Farnow Hall.

Neurobiology & Behavior: "In Search of Altruism: A Sociobiologist's Journey into a Complex Animal Society," Stephen Emlen, 12:30 p.m. Thursday, Oct. 29, Langmuir Penhouse.

Operations Research: "A Comparison of One-vs.-Two Officer Police Patrol Car Operations in New York City," Peter Kolesar, Columbia University, 4:30 p.m. Tuesday, Nov. 3, 305 Upson.

Ornithology: "For Love of Nature: Exploration and Discovery in the Field," Tom Eisner, 7:45 p.m. Monday, Nov. 2, Stuart Observatory, Sapsucker Woods.

Physiology: "Studies of Intestinal Cells in Culture," A. Quaroni, Mass. Gen. Hospital, 4:30 p.m. Tuesday, Nov. 3, G-3 Vet. Research Tower.

Plant Biology: "Self Inhibition of Mitochondrial Respiration in Pollen Grains," Folkert Hoekstra, Wageningen.

The Netherlands, 11:15 a.m. Friday, Oct. 30, 404 Plant Science.

Plant Pathology: "Heterokaryon Incompatibility in Bipolaris maydis," J. Leach, 4:30 p.m. Tuesday, Nov. 3, 404 Plant Science Building.

Pomology: "Approaches to Grape Variety Improvement," George Remaly, private grape breeder, Hammondsport, N.Y., 11:15 a.m. Monday, Nov. 2, 114 Plant Science Building.

Psychology: "The Effect of School Desegregation on Achievement: A Meta-Analysis of Quasi-Experiment," Paul Wortman, University of Michigan, 3:30 p.m. Friday, Oct. 30, 202 Urs Hall.

Statistics: "A Decision-Theoretic Approach to a Statistical Control Problem," L. Mark Berliner, Ohio State University, 3:15 p.m. Wednesday, Nov. 4, 105 ILR Conference Center.

Vegetable Crops: "Vegetable Research in Poland," T. Vrabel, 4:30 p.m. Thursday, Oct. 29, 404 Plant Science Building.

Sponsored Programs

The Office of Sponsored Programs, 123 Day Hall, 6-5014, wishes to emphasize that the information in this column is intended for post-doctoral research unless otherwise indicated.

NEW YORK SCIENCE AND TECHNOLOGY FOUNDATION

A solicitation for proposals under the New York Science and Technology Foundations Research and Development Grants Program has a preliminary proposal date for November 13, 1981. Proposals have a term of approximately one year and funding requested from the Foundation should be in the range of \$5,000 to \$40,000. The Foundation will concentrate its resources principally on those R&D projects which have the highest potential for industrial application. The Foundation has announced subject areas of proposals.

Additional information is available in the Office of Sponsored Programs or inquiries can be directed to Dr. Vernon Ozarow at (518) 474-4349.

NATO 1981-82 POSTDOCTORAL FELLOWSHIPS IN SCIENCE

The National Science Foundation has announced a program of NATO Postdoctoral Fellowships in Science for 1981-82. Approximately 50 awards will be made. These fellowships, normally awarded for tenures of either 9 or 12 months, are intended to promote the progress of science and closer collaboration among scientists of various NATO nations. Fields covered are the mathematical, physical, biological, engineering, and social sciences, as well as interdisciplinary areas comprised of two or more of these fields. Recipients of these awards are expected to study in countries that are members of NATO, other than the U.S. These are: Belgium, Canada, Denmark, France, Federal Republic of Germany, Greece, Iceland, Italy, Luxembourg, The Netherlands, Norway, Portugal, Turkey, and The United Kingdom.

NATO Postdoctoral Fellowships in Science will be offered only to persons who (1) are citizens or nationals of the United States as of the closing date for applications, (2) will have earned by the beginning of their fellowship tenures a Ph.D. in one of the fields of science listed above or have had research training and experience equivalent to that represented by a Ph.D. in one of those fields, and (3) will have held the doctorate for no more than 5 years as of the closing date for applications. Women and minority scientists who meet the eligibility criteria are specifically encouraged to apply. The stipend for a NATO postdoctoral fellow is \$1,500 per month for up to 12 months, plus travel and a dependency allowance. The deadline for submitting applications is November 9, 1981.

Further information on this program is available at the Office of Sponsored Programs, 123 Day Hall. Application materials may be obtained from the Division of Scientific Personnel Improvement, National Science Foundation, NATO Fellowship Program Office, Washington, DC 20550.

THE NATIONAL COUNCIL FOR SOVIET AND EAST EUROPEAN RESEARCH - RESEARCH CONTRACTS

Eligibility: American institutions only. The role of principal investigator is limited to scholars at the postdoctoral level. This program concentrates on processes of change in contemporary Soviet Union and the states of Eastern Europe from a social science perspective. It is especially concerned with the ability of the regimes to foster, manage, and contain these processes and with the possible systemic and strategic corollaries and consequences of their efforts to do so. As the USSR and the states of Eastern Europe face a number of domestic and external circumstances that could lead to changes in their established institutions, procedures, programs and priorities, it should be the goal of projects to identify and analyze these circumstances and to subject hypotheses of emergent large-scale change or discontinuity to close critical scrutiny through empirical research on

topics of broad relevance for the formulation of foresighted and effective U.S. policies. These topics include but are not limited to the following: political leadership and organization; policy-making structures and procedures; political dissidence and protest; civil-military relations; military doctrine and policy; recourse mobilization and allocation; social stratification and differentiation; cultural identity and self expression; and a sub-national, national and international integration. The Council will consider proposals for both large (including collaborative) and small projects with a duration of not more than two years. Contact The National Council at (202) 387-1059.

FIPSE COMPREHENSIVE PROGRAM

The comprehensive program is the major grant competition conducted by the Fund for the Improvement of Postsecondary Education (FIPSE). Grants are awarded for a wide range of projects which contribute to learning, which are cost effective and which have potential for far-reaching influence. FIPSE has seven (7) issue areas to be addressed in this year's competition.

Grants will range from \$10,000 to \$150,000. It is expected that 70 to 90 new grants will be awarded this year. Preliminary proposals must be received by December 1, 1981. Only those applicants whose preliminary proposals receive high reviews will be invited to submit full proposals. For additional information including the issue areas, please contact The Office of Sponsored Programs.

SMALL GRANTS PROGRAM

The Alcohol Drug Abuse and Mental Health Administration (ADAMHA) has announced December 1, 1981, as the deadline for applications to its Small Grants Program. Small grants provide up to a year's support, not to exceed \$10,000 for direct costs, for the support of basic or applied research within the program interests of the three ADAMHA institutes.

Applications should use the normal PHS 398 form and allow five (5) months from the date of submission to the date of notification. Applications requesting early Summer Support (June) must be received by the December 1, 1981, deadline.

Further information may be obtained by contacting Dr. Ellen Stover at (301) 443-4337.

THE NATIONAL ENDOWMENT FOR THE HUMANITIES

The National Endowment for the Humanities has published a new booklet in a new format, an Overview of Endowment Programs for 1982-83. The Office of Sponsored Programs has ordered copies to distribute on request.

The federal budget process for FY 1982 is not yet complete but the general program descriptions and application deadlines are the critical pieces of information and they are included.

DOT PROGRAM OF UNIVERSITY RESEARCH

The purpose of the Program of University Research is to assure that resources of the higher education community are effectively brought to bear on transportation problems. The objectives of the Program are: To conduct high quality, innovative university research on a few high priority problems of long term interest to the Department of Transportation. To conduct university research which will provide a meaningful contribution to the development of national transportation policy. The thrust of the DOT Program of University Research is to bring the unique capabilities of the university in both the soft and hard sciences to bear on the transportation problems throughout the nation. It is extremely important that university proposers respond to one of the research topics listed in the FY 82 booklet. All past solicitations are superseded by this FY 82 booklet. Specific research topics

have been identified for the FY 82 Annual Solicitation which fall into one of the following categories: (1) Domestic Transportation. (2) International Transportation. (3) Transportation Regulatory Reform. (4) Transportation Technology. The closing date for receipt of proposals is January 15, 1982. All universities submitting proposals at that time will be evaluated in a general competition. The criteria for evaluating proposals are: (1) Merit of the technical approach to solving the problem. (2) Merit of the management approach to conducting the research. (3) Qualifications of the investigator(s) to do the proposed research. Additional information is available in The Office of Sponsored Programs.

NATIONAL ACADEMY OF SCIENCES

The 1981-82 Research Program Eligibility: Ph.D. or its equivalent. In a very limited number of cases, advanced pre-doctoral students doing dissertation research may be accepted in this category. Although there is no minimum language requirement, the necessity of Chinese language skills for a particular research plan will be considered in reviewing the proposals. United States citizenship is required. Description: Research support grants for carefully formulated research proposals which can be expected to bring successful results within the present Chinese academic and research context. Length of grant tenure is three months to a year and includes transportation to and from China, living allowance and stipend while in China and a limited research and educational materials allowance. Additional information is available in The Office of Sponsored Programs.

CIVITAS

SPECIAL CALL FOR HIGH SCHOOL TUTORS

Requests for help for high school students in academic trouble are beginning to come in. Register with us now and let us know what subjects you can tutor. Then, when we get a request you can fill, we will match you with your tutee quickly. Some tutoring takes place at the High School (15 minutes walk down the hill from West Campus) during school hours. Other high school students can come up to Cornell after school once the initial contact is made. An hour's tutoring each week can make a great deal of difference for high school students needing help.

REQUEST FROM THE GIRL SCOUTS

One or two assistants needed for Girl Scout troop of 6-8th graders. Meetings held Wed. eves., 7:15-8:45, in elementary school close to college town. Transportation can be provided from the dorms or college town.

HELPERS NEEDED FOR SPECIAL PROGRAMS FOR HANDICAPPED ADULTS, 18-80 YEARS OLD: Three programs need your help: 1) Tues. afternoon Bowl-O-Drome, 2:30-4:30 p.m.; 2) General recreation in Trumansburg on Sat. afternoons, 1-5 p.m. (transportation provided to and from Ithaca); and 3) Coffee hour every other Friday evening, 6:30-8:30 p.m., which may involve movies, live entertainment, table games and so on. No specific training required, general orientation provided and materials to read are available.

REFUGEE ASSISTANCE PROGRAM STILL SEEKING TUTORS IN ELECTRONICS AND DATA PROCESSING: For recently arrived South East Asian refugees who need help to learn general English and additional assistance with specialized vocabularies of electronics and data processing necessary for their employment.

HANDICAPPED CORNELL STUDENT NEEDS HELP TUES., THURS. AT 4 P.M., FRI. AT 5 P.M.: To get from her job at Ithacare (South Quarry Street) back to campus. This student cannot walk the distance which would take only 10 mins. to drive from college town. Can you help her?

DRIVING SOMEONE IN NEED TO APPOINTMENTS: HELP NEEDED HALF A DAY PER MONTH: Clients served are almost all elderly people who need to go to the doctor, for example, are not handicapped (i.e. not eligible for Gadabout), but too frail to use public transportation. They also need an escort in and out of the doctor's office.

WILLARD PSYCHIATRIC CENTER: Is looking for volunteers to open up the library and help patients use the facility, Mon.-Fri., anytime between 9-5. Also needed, on weekends, game room supervisors to provide help with various activities (pool, board games, music). CIVITAS can offer a car on Wed. afts., but talk to us soon.

ARTS AND CRAFTSPERSONS SOUGHT: To assist with after-school program at downtown youth center, any afternoon, Mon.-Fri., from 3-5 p.m.

GROUP PROJECT FOR FRATERNITY, SORORITY OR CLUB TO HELP THE CANCER SOCIETY: Cancer Crusade needs major overhaul, and the director of the Tompkins County unit is searching for a motivated group with organizational skills to take over this project. Help of this kind is greatly needed immediately so that the director can devote her time to patients and their

families. Contact CIVITAS and we will put you in touch.

PROGRAM FOR TERMINALLY ILL PATIENTS AND THEIR FAMILIES: Seeks volunteers with clerical skills to do light secretarial work and phone answering. Counseling skills helpful when answering inquiries from patients or family members. Any afternoon, Mon.-Fri., between 1:30-4:30, or a part of these hours. This task is simple, but this opportunity represents an interesting learning experience.

RURAL YOUTH OUTREACH PROGRAM SEEKS ASSISTANTS FOR AFTER-SCHOOL CLUBS: Volunteers needed on Friday afternoons, 3-5 p.m., and on Saturday mornings, 10:30 a.m.-1 p.m., to help lead general club program for 10 children, aged 5-12 years, who live in the country. Your special skills will be used in designing the program, and the activities can be diverse and imaginative. You need only get downtown as program has a van for transportation to rural site.

TO OFFER YOUR HELP: COME TO CIVITAS, 119B Anabel Taylor Hall, open Mon., Wed. and Fri., 9-3; Tues. and Thurs., 10-2.

Bulletin

Employment and Training — This is open to doctoral candidates in fields related to policy and program issues in the fields of employment and training. Applicants must have completed all degree requirements except the dissertation. Grants provide: stipend, dependents' allowance, allowances for secretarial and clerical assistance, travel, materials and supplies, communication services, and computer use. Costs may not exceed \$10,000 for a one year period. Applications must be submitted by the institution on behalf of the graduate student.

Check the Fellowship Notebook in your graduate faculty representative's office for information on the awards whose deadlines are listed below. Additional information on these awards is available at the Fellowship Office, 116 Sage Graduate Center. Unless otherwise stated, prospective applicants must obtain applications directly from the agency concerned.

Nov. 10: Wellesley College - Alice Freeman Palmer Fellowship — A stipend of \$4,000 is provided for full-time study. Applicants must be women graduates of American universities who will be no older than 26 at the time of the appointment and who will remain unmarried for the entirety of their fellowship. Cornell applicants must submit applications through the Fellowship Office, 116 Sage Graduate Center. Only four applications may be submitted by each institution.

Nov. 15; Hertz Foundation Fellowships in the Applied Physical Sciences — A stipend of \$7,500 to \$8,500 per year and a cost-of-education allowance is available to students in the applied physical sciences. Applicants must be U.S. citizens with high scholastic averages. Outstanding achievement in scientific or technological areas will also be noted. Applications may be obtained at the Fellowship Office or by writing to the Hertz Foundation.

Dec. 1: Lady Davis Fellowship Trust Awards for Study, Research or Teaching — Awards for study at the graduate or post-graduate level at the Hebrew University or the Technion - Israel Institute of Technology, Haifa, are open to candidates irrespective of race, creed, sex, or nationality. Priority is given to Canadian applicants when possible. Awards defray the costs of travel, tuition, and reasonable living expenses in Israel, and are tenable for periods of one or two years. For further information, see the sample application available at the Fellowship Office.

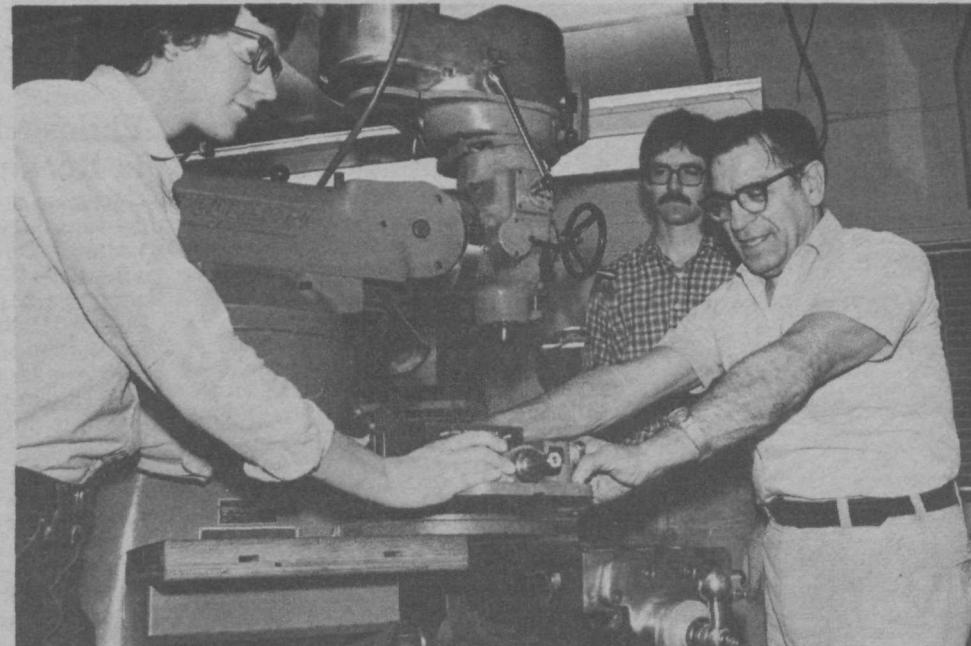

Dec. 1: Andrew W. Mellon Fellowships in the Humanities at Stanford University — The competition is open to those who have received a Ph.D. in the humanities between June, 1977 and September, 1982, preferably within the last three years. The award carries an annual stipend of \$20,000 and may be renewable for a second year. It provides non-faculty, one-year positions at Stanford with a department affiliation and limited teaching duties, and the opportunity for scholarly work and intellectual growth.

Dec. 1: Social Science Research Council Fellowship for Doctoral Research in

Dec. 1: Wellesley College - Mary McEwen Schimke Scholarship — This is open to women graduates of American universities. They must be over 30 years of age and currently engaged in graduate study in literature or history, with preference given to American Studies. The award is intended to provide from \$500 to \$1000 to supplement housing and child care expenses while pursuing graduate study.

Dec. 1: White House Fellowships — This is open to all U.S. citizens majoring in government or economics who are in an early stage of their studies. Fellows serve with pay as special assistants to cabinet officers, the Vice President, or senior White House staff. They participate in an extensive educational program exposing them to all sectors of the national government. They are Federal employees for a year and receive a salary at the GS 15-3 level.

Dec. 1: Woodrow Wilson National Fellowship Program — Several grants are available; Administrative internships which place holders of the M.B.A. or other professional degrees in management positions at developing colleges; Visiting fellowships which send non-academics to college campuses for a week; Faculty development awards for former Woodrow Wilson fellows in the northeastern states; Doctoral dissertation research grants for Ph.D. candidates writing their dissertations on a topic concerning women; and the Charlotte Newcombe fellowship for research and writing on religious and ethical values. See the Career Center for more details.

Research Shop in Clark Hall No Ordinary Machine Shop

The Graduate Research Shop in Clark Hall is no ordinary machine shop. It exists for faculty and graduate students who need to fabricate unusual devices for use in their experiments. Their teacher, supervisor and safety expert is Tony Babbaro, seen demonstrating (above left) how to use a 'finger saver' he designed. The device is a simple but elegant lever, made from a piece of 2 X 4, used to install or remove a chuck from a lathe with a minimum of risk and effort. Above right, he

shows students Ursi Gibson and Dave Pine how to use his 'back saver,' a wooden shelf mounted on the side of a milling machine. Instead of carrying the heavy vise to a cart or bench, a worker slides it onto the shelf when it is not needed. Babbaro's shop is one of the attractions at this weekend's public open house in Clark Hall (Friday evening and Saturday, from 9 a.m. to midafternoon).

'Black Solidarity Day' Planned

Seven events are scheduled here on Monday, Nov. 2, as part of the nationwide celebration and observation of Black Solidarity Day.

Organized by the Ad Hoc Committee on Black Solidarity Day at Ujamaa Residential College, the Cornell program includes several talks, a film and a "cultural celebration."

Cornell's dean of the faculty, Kenneth I. Greisen, said he "highly recommends" to the faculty that all students who participate in the day be allowed to make up any classes they miss.

All events will be at the Ujamaa Main Lounge, except the noon program which will be at the North Campus Union Multi-Purpose Room. The schedule:

8 a.m. to 11:30 a.m. — Solidarity breakfast;

Noon — "Redefinition and Direction of Black Leadership," a video tape produced by Zala Chandler, an author and lecturer;

1:30 p.m. — "The New World and the Domestic Economy" by David Hatchett, a graduate student in Africana Studies at Cornell;

3 p.m. — "Liberation or Genocide" by Manning Marable, associate professor in Cornell's Africana Studies and Research Center;

4 p.m. — A film, "On the Line;"

7 p.m. — A talk by Imari Obedela, head of the organization the New Republic of Africa;

8:30 p.m. — A cultural celebration featuring poet Marie Evans, currently a visiting professor at Cornell's Africana Center; Ken McClane, assistant professor of English at Cornell, and Carolyn Whitlow, an instructor at the Africana Center and associate director in the Office of Resident Instruction at the New York State School of Industrial and Labor Relations.

The purpose of Black Solidarity Day is to achieve freedom, justice, equality and the right of self determination, according to the campus organizing committee.

"The committee invites the entire Cornell community to participate as we reflect, celebrate and join together in solidarity," according to Dalilah Sanchez, spokeswoman for the committee.

The first part of the appeal, in which the 16 students charged that a student member of the Hearing Board who ruled against them was biased, was also lost.

The second part of the appeal dealt with the appellants' contention that their penalties were not justified because of the circumstances of the takeover and its non-violent nature.

'Day Hall 16' Lose Appeal

The second of a two-part appeal by the so-called "Day Hall 16" was lost last Friday as a University Review Board upheld the original Hearing Board's assessment of penalties.

The 16 students occupied the president's and provost's suite of offices last March 25 in protest of a proposed tuition hike.

'Superfilmshow' Is Art for Kids

The Cornell University Cinema will present "Superfilmshow! Film as Art for Kids," at 2 p.m. Sunday, Nov. 8, and Sunday, Dec. 13, in Urus Auditorium.

The films in the series are not traditional children's films nor do they have traditional story lines.

"The Superfilmshow is designed to present a different type of film experience to children," said William Gilcher, director, Cornell Cinema. "The films introduce children to the personal, avant-garde and experimental qualities of filmmaking," he continued.

Gilcher recommends the series only for children aged 8 and older.

Films such as "Mothlight," by Stan Brakhage, and "Sweet Dreams," by Freude are examples of the types of films to be shown.

"Mothlight," which was made without a camera, is a collage of dead moths, flowers and leaves pasted on a clear strip of film. Brakhage says the film is "what a moth might see from birth to death if black were white and white were black."

In "Sweet Dreams" the viewer sees a baby and its mother and a school of dolphins in a dream form with the movement of the dolphins linked to the child's movements. The soundtrack is of humpback

whales singing. Filmmaker Freude asks the viewer: "Whose dream is this—a baby's or a dolphin's?"

Superfilmshow is being co-sponsored by the Cornell Cinema, the Herbert F. Johnson Museum of Art and the Ithaca Youth Bureau, with additional support from the New York State Council on the Arts.

The exhibition was organized and circulated by the American Federation of Arts and supported by a grant from the National Endowment for the Arts.

Tickets at \$1 each will be available at the door the days of the screenings.

Comment

Letters for the Chronicle Comment section should deal with campus issues, be within an absolute limit of 300 words in length, not deal in person attacks, should be type-written, double-spaced, and must be signed.

Editor:

At universities all across the country, women faculty are bringing grievances and suits claiming sex discrimination in hiring, reappointment, promotion, and pay. The women support their claims with details from individual cases and with statistics showing overall under-representation of women. Universities respond that the individual cases are without merit and that the women's statistics are wrong.

Cornell is no exception. These issues are complex—more complex than my summary suggests. But, in light of the enormous sums our university is spending defending itself against the case of the "Cornell Eleven," we have, it seems to me, an obligation to inform ourselves about the facts of the dispute here. To that end, the Provost's Advisory Committee on the Status of Women at Cornell is making available copies of the Cornell Eleven's legal brief. The brief is at the Reserve Desk in Olin Library and in the Equal Opportunity Office, Room 217, Day Hall. An informed community can make an informed decision on whether or not to urge the Cornell authorities to litigate this case—or settle it speedily. I believe they should declare themselves ready for immediate settlement.

Alice H. Cook

Co-Chair

Friends of the Cornell Eleven

Editor:

I've seen Prof. Cook's letter (above) inviting the university community to read the brief on behalf of five unsuccessful candidates for tenure in a pending lawsuit against

the university. The brief has been placed on reserve at the Olin Library reserve desk. The writer notes that "an informed community can make an informed decision" on the matter.

An informed conclusion, of course, would depend upon full information. Accordingly, I have asked the reserve desk to make a copy of the university's reply brief available as well.

Walter J. Relihan, Jr.
University Counsel

Editor:

The residents of the International Living Center would like to set the record straight concerning newsletters on North Campus. The claim by The Rising High Times that it is "the only one newsletter of its kind on the Cornell Campus" (Chronicle, Oct. 8) is incorrect. Please see the enclosed copies of the ILSCENE, the oldest existing newsletter on North Campus. We have been publishing for three years, covering international events on campus as well as all activities in the ILSCENE. Undoubtedly we have been a major factor in the unity and spirit of our community. Thank you.

William McClure

Staff member, ILSCENE

Editor's note: Any more out there?

Women's Studies Plans Open House

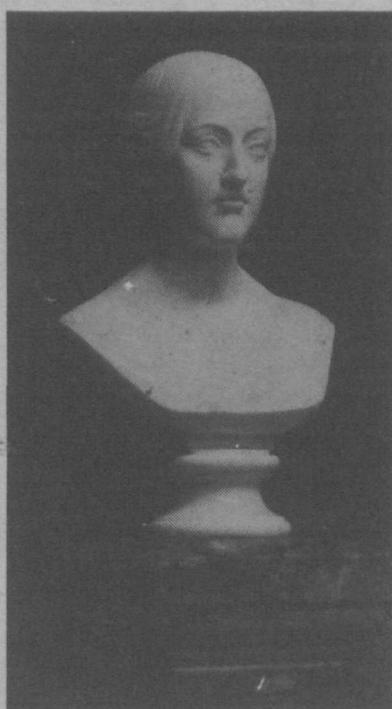

The Women's Studies Program will hold an open house from 4 to 6 p.m. Wednesday, Nov. 4, in 340 Urus Hall to acquaint students with the course offerings of the program.

Women's Studies offers courses in a wide range of disciplines, including anthropology, biology, English, history, government, linguistics, psychology and sociology.

Faculty will be on hand to answer both general questions about the program and specific questions about spring courses. Refreshments will be served.

October 29, 1981

Brief Reports

A \$200 cash reward is being offered for the return of a statue missing from the entrance lobby of Goldwin Smith Hall. It is a marble copy of a bust by the early 19th-century neoclassicist sculptor, Bertel Thorvaldsen. Discovered missing June 23, the near life-size head of a young woman had been in the lobby since the building was opened in 1906. The bust is thought to be that of Mrs. Goldwin Smith. Art historians at Cornell believe the original work was completed by Thorvaldsen, a Dane, while he was living in Rome about 1840. Anyone having information concerning the bust's whereabouts should contact Henry Crans, administrative manager, Arts College, 256-7507. If the statue is returned no questions will be asked, Crans said.

Ehrlich to Deliver Irvine Lecture

Thomas Ehrlich, who served as the first director of the International Development Cooperation Agency, (1979-80) under appointment by former President Carter, will give a public lecture at Cornell University on the topic "International Human Rights and Human Needs: The Lawyer's Role," at 3:45 p.m. Tuesday, Nov. 3 in the Moot Courtroom of Myron Taylor Hall.

Currently provost and professor of law at the University of Pennsylvania, Ehrlich is a former dean of the Stanford University Law School, 1971-75, and president of Legal Services Corp. in Washington D.C., 1976-79.

He is appearing at Cornell as the law school's Irvine Lecturer for 1981-82. Ehrlich has had an active career in both academia and the federal government since his graduation from Harvard Law School in 1959, magna cum laude. He earned an A.B. degree from Harvard in 1956, also magna cum laude.

For the past year, until recently assuming his new post at Pennsylvania, he was a guest scholar at The Brookings Institution, on leave as the Wendell and Edith M. Carlsmith

Professor of Law at Stanford.

During his career he has served as special assistant to the legal adviser, U.S. Department of State, 1962-64; special assistant to the Under Secretary of State, Department of State, 1964-65, and law professor at Stanford from 1965 to 1971 when he was named dean.

He is the author of numerous articles and four books including "New Directions in Legal Education" with Herbert L. Packer, for the Carnegie Commission on Higher Education (1972).

Fellowship Deadline Is November 13

Applications are now being accepted for one DAAD Fellowship to West Germany for the 1982-83 academic year. Application deadline is Nov. 13. The fellowship, which is open to all graduate students from all academic units, includes a full stipend and travel expenses.

Applications should include a description of the proposed study or research project, student's qualifications, a Cornell transcript and letter of recommendation from two professors in the student's field of study, plus a local address and phone number.

Applications should be addressed to: Selection Committee, c/o Herbert Deinert, Department of German Literature, 188 Goldwin Smith Hall, telephone 256-3680.

Energy Display Is Planned

A display on "Energy Conservation and Alternatives" is scheduled for 10:30 a.m.-2:30 p.m. Thursday, Nov. 5, in the Memorial Room, Willard Straight Hall. In addition, the Ithaca Neighborhood Housing Services will give a slide show at noon that day on "Weatherization Skills."

Representatives from the following agencies will be available to distribute information and answer questions: Community Self-Reliance Center, Economic Opportunity Corporation, Eco-Justice Project, New York State Electric & Gas, Department of Transportation Services and others.

The displays and slide show, which are being sponsored by the Off-Campus Housing Office and the Community Energy Network, are free and open to all members of the Cornell community. For further information call 256-5373.

Speaker to Discuss Currency Exchange

Thomas P. Latimer, president and chief executive officer of Chicago Pneumatic Tool Co., will give a public lecture on the topic "The Effects of Currency Exchange Rates in Business Decision-Making," at 4:30 p.m. today in Room 101 Phillips Hall.

Latimer received a B.S. degree in engineering from Cornell in 1949, and is the second speaker in the newly instituted Distinguished Alumni Seminar Program sponsored by the School of Operations Research and Industrial Engineering at Cornell.

Philosopher Frye Is Becker Lecturer

Philosopher Marilyn Frye will deliver a James H. Becker Alumna Lecture, "On Being White: Toward a Feminist View of Race Supremacy," at 4:30 p.m. Thursday, Oct. 29, in the Hollis E. Cornell Auditorium of Goldwin Smith Hall.

Frye is associate professor in the Department of Philosophy at Michigan State University, where she has taught since 1974. Until recently she was also faculty coordinator of the Michigan State Women's Studies Program. She received her B.A. in philosophy from Stanford University in 1963 and her Ph.D. from Cornell in 1969.

She has taught at the University of Pittsburgh, the University of Michigan and the University of Washington and has published a number of papers in philosophy and feminist journals.

Frye's lecture is sponsored by the College of Arts and Sciences, the Philosophy Department and the Women's Studies Visiting Scholars Program.

SAGE CHAPEL

William R. Jones Will Be Speaker

William R. Jones, professor in the Department of Religion and Director of the Afro-American Studies Program at Florida State University, will be the Dean Sage Speaker at the 11 a.m. Sage Chapel Interreligious Service Sunday, Nov. 1.

Jones will speak on the topic, "The Use and Abuse of Religious Authority: Bibliocracy, Hypocrisy or Democracy?" He will also give a public address entitled, "Secular Humanism: Saint, Subversive, or Scapegoat?" that day at 7:30 p.m. in the Anabel Taylor Hall Chapel.

Born in Louisville, Ky., Jones holds a B.A. degree in philosophy from Howard University, a Bachelor of Divinity degree from Harvard University, and a Ph.D. degree from Brown University.

He is a Unitarian Universalist minister who has taught at Union Theological Seminary, Princeton Theological Seminary, Howard University, Brown University and Yale Divinity School.

Jones, widely known as a lecturer in the field of religious studies, is the author of "Is God a White Racist?: Prolegomenon to Black Theology," and has written for such publications as Christian Century, Karios, and Harvard Theological Review.

The Week in Sports

Gridders Will Meet Bucknell Saturday

The Cornell varsity football team returns home for the first time in three weeks when it entertains Bucknell at 1:30 p.m. Saturday on Schoellkopf Field in the only home Big Red sporting event scheduled during the week.

Saturday's contest with Bucknell will provide the football squad with a break in its Ivy League schedule. Cornell has spent the last three Saturdays facing league opponents

Johnsons Will Receive Award for Cornell Film

A major national award for a film about the university will be presented to the family that funded the production at a meeting in Statler Auditorium tomorrow morning.

"Cornell," a film by university filmmakers James Maas, David Gluck, Ellen Alderman and Peter Carroll, earned them AudioVisual Department of the Year 1981 and the first place Gold Award in the public relations category of the Information Film Producers of America Film Festival.

The film was funded by Cornell alumni Gene and Samuel C. Johnson of Racine, Wisc.

A sponsor's award will be presented to the Johnsons during the annual joint meeting of the Cornell University Council and Cornell Board of Trustees that begins at 9 a.m. in the Statler. The 30-minute film will be shown during the meeting.

"Cornell" won the Gold Award in competition with films by major corporations, governmental agencies and other institutions, according to Maas, professor of psychology at Cornell and producer of several award-winning films.

He said the film, originally intended primarily for student recruitment but now "in constant demand" from a variety of on- and off-campus Cornell groups, differs from others of its kind because "it uses students to tell the university's story in their own words, rather than a professional narrator reading a public relations script."

Eleven different students, selected from a group of some 120 submitted by deans and admissions offices at Cornell, appear in "Cornell," plus a like number of faculty.

But the real "cast" of the film is all that is Cornell — the campus locale, the students, the facilities, the faculty, the events, Maas said, and that decision was based on research by and with Cornell students.

Ten student interviewers asked 100 other students why they came to Cornell. The "whys", they came up with, in order, Maas said, were: location and beauty of the university, diversity, academic excellence.

The film opens with a number of aerial views of the campus and the gorges, footage that was shot from a jet helicopter brought to the area primarily for network television coverage of Watkins Glen race week in 1980.

"The pilot had done work on such things as 'Superman' and 'King Kong' and in a half hour of flight time we got some spectacular footage, including some taken by flying

into the Arts Quad and the gorges," Maas said.

"The only problem we had came from the noise," he added. "Although we had all the necessary permissions, in less than a half hour phone calls poured into the university and the airport control tower with complaints about the noise."

Maas said his only regret about "Cornell" is that "we're not doing a sequel right now. We had to leave out so much good footage that David Gluck filmed."

The film was shot over a 12-month period and is expected to have an effective life of eight years, Maas said.

Some 50 copies of "Cornell" are now in circulation, with at least one copy in each of Cornell's nine regional offices and in each of Cornell's seven undergraduate admissions offices.

Maas and Gluck, who have worked together on 21 films over the last 10 years, gained national recognition with their 1979 film "Until I Get Caught." It deals with the problem of drunken driving and continues to receive more than 4,000 showings per month, according to Maas.

Upcoming projects for them include completion of five films for National Geographic, for elementary and junior high schools, on the human senses; a film on insomnia, and a major production for Public Broadcasting Service on egalitarian relationships and dual career marriages.

United Way

The Cornell University portion of the 1981 United Way of Tompkins County Campaign has reached 87 percent of its goal, according to an announcement Wednesday by Jerome M. Ziegler, Cornell campaign chairman. To date, the Cornell community has pledged some \$234,083 toward a goal of \$270,000, said Ziegler, dean of the New York State College of Human Ecology.

Divisions surpassing their goals include the School of Industrial and Labor Relations where Jon Levy is chairman, 108 percent; the Law School, chaired by David Curtiss, 110 percent; Nutritional Sciences, chaired by Martha Mapes, 128 percent; Boyce Thompson Institute, chairman John Laurence, 133 percent; and Computer Services, chaired by Sharon Flanders and Eugene Holleran, 135 percent.

including a 33-16 victory in Lewisburg, Pa., but Cornell leads the series, 23-2. The Red's last victory came against Bucknell in 1978 as it shut out the Bisons, 24-0.

Saturday's game will also be Center Ithaca Day, as several promotions are planned involving the new downtown business complex. Among them is a rally featuring the Big Red marching band and Cornell cheerleaders Saturday morning.
