BOYCE McDANIEL

KARL BERKELMAN

Commencement Is June 2; 4,300 to Receive Degrees

The countdown has begun; Commencement day is only a few days away.

More than 4,300 degrees will be conferred at the noon ceremony, June 2. Here are the schedules for events before, during, and after Cornell's 117th graduation.

—Senior Week activities begin at 4 p.m. Sunday, May 26, with a "Happy Hour on the Arts Quad." From 9:30 a.m. to 4:15 p.m. on Monday, May 27, there will be a tour of local wineries, followed by an 8 p.m. "airband" contest in Willard Straight Hall's Memorial Room.

Other activities include a 1 p.m. picnic at Treman Park Tuesday, May 28; a "Fun in the Moon" party on the Arts Quad Wednesday, May 29, at 8 p.m.; and a "Come as You Will be Next Year Happy Hour" from 5 p.m. to 7 p.m. Thursday, May 30.

For a full listing of events, times, places, and costs contact the Information and Referral Center, 256-6200.

—The 1985 Convocation will be held at 3:30 p.m. Saturday, June 1, in the Alice Statler Auditorium. Family and friends are invited to join the faculty, administration, and graduates as the students assess their years at Cornell by listening to speeches, watching slide shows and presentations, and partaking in other entertainment. The Convocation guest speaker will be Trustee Vice Chairman Stephen H. Weiss.

—On graduation day, Sunday, June 2, 79 ROTC commissions will be awarded at 8 a.m. The breakdown includes 29 Army, 24 Navy, 1 Marine Corp, and 25 Air Force Commissions. The Cornell Wind Ensemble, under the direction of Marice Stith, will provide music for the ceremony, which will take place in Alice Statler Auditorium. Honored guests will include the speaker, Rear Admiral Robert H. Shumaker, a Vietnam veteran and former P.O.W. who now serves as Superintendent of the Naval Post-Graduate School

in Monterey, CA. Other guests will be President Frank Rhodes and Dean of Faculty Joseph Bugliari.

—The Baccalaureate Service, sponsored by Cornell United Religious Work, is at 9:30 a.m., Sunday, June 2, in Bailey Hall. Giving the Baccalaureate address at the one-hour interreligious celebration will be Rabbi Harold S. Kushner of Temple Israel in Natick, MA. Kushner, the author of the best selling "When Bad Things Happen to Good People," will speak to the topic "The Best and the Brightest."

The service is a celebration honoring graduates and their families and retiring faculty and employees of the university. Participants in this year's service include President Rhodes and members of the staff and commu-

A reminder to all commencement ushers ...

The rehearsal for commencement day ceremonies is Wednesday, May 29, at 3 p.m. on Schoellkopf Field. The rain date is Thursday, May 30, at 3 p.m. on Schoellkopf.

nities of C U R W: Rabbi Laurence Edwards, university Jewish chaplain; the Rev. Robert L. Johnson, director of C U R W, Gail V. Riina, assistant director, and Joe Regenstien, Food Science/Poltry Avian Science.

Music for the service will be provided by the Cornell University Glee Club and Chorus under the direction of Thomas A. Sokol, and the Cornell University Wind Ensemble, brass section, directed by Marice Stith.

—Commencement begins at noon Sunday, June 2. The one-hour ceremony will take place on Schoellkopf Field. In keeping with

Physicists Gather as Nuclear Laboratory Changes the Guard

Reviewing past accomplishments and exploring future directions, researchers specializing in theoretical and experimental high energy physics began gathering here Wednesday for a two-day symposium to honor Boyce D. McDaniel, the retiring director of the Floyd R. Newman Laboratory of Nuclear Studies, and to mark 40 years of particle physics studies at the laboratory.

Today's program, which runs from 9 a.m. to noon in Statler Auditorium and is open to the public, includes Cornell Professor of Physical Science Kenneth G. Wilson speaking on computers for particle physics; Karl Berkelman, professor of physics and the next director of the laboratory, on experiments; Orlando Alvarez, assistant professor of physics at UC Berkeley on theory; and Maury Tigner, Cornell professor of physics and director of the design group for the proposed Superconducting Supercollider, on accelerators.

Boyce D. McDaniel Honored

Boyce D. McDaniel retires as director of the Floyd R. Newman Laboratory of Nuclear Studies at a time when the laboratory at Cornell is well embarked on a major program to improve its facilities. He moves from a leading role in Cornell's particle physics experiments to another in planning the Superconducting Supercollider, the largest, most expensive scientific instrument ever built.

In his 39 years on the Cornell faculty, McDaniel has seen Ithaca synchrotrons grow from 300 MeV (300 million electron volts) to the present 12 GeV (12 billion electron volts). While Cornell rebuilds the CLEO particle detector at its electron-positron storage ring to incorporate new technologies, McDaniel will continue to serve as the chairman of the Board of Overseers for the proposed 20 TeV (20 trillion) Superconducting Supercollider.

"Boyce McDaniel has been a brilliant director of the Laboratory of Nuclear Studies," according to Robert R. Wilson, professor of physics emeritus, former director of the laboratory, and the experimental physi-

cist for whom the Wilson Synchrotron Laboratory is named. "Under McDaniel's inspired leadership, research has flourished at Cornell."

McDaniel's association with Cornell began in 1940, when he worked on his doctorate in physics (1943) after earning the B.A. (1938) and M.A. (1940) degrees from Ohio Wesleyan University and the Case School of Applied Science. As a graduate student here, he played a major role in refining the time-of-flight technique for determination of the energies of slow neutrons produced by a pulsed cyclotron beam. The technique was used at Cornell and later at the Los Alamos Laboratory of the Manhattan Project, where McDaniel was a research physicist from 1943 to 1946. The important discovery of slow neutron induced fission resonances employed the time-of-flight technique.

Returning to Cornell in 1946 as an assistant professor, McDaniel turned to developing accelerators and the tools and tech-

Berkelman Takes Over Lab

Karl Berkelman, professor of physics and a specialist in experimental high energy physics, becomes director of the Floyd R. Newman Laboratory of Nuclear Studies at Cornell University on July 1.

He will be the fourth director of the laboratory, which celebrates 40 years of theoretical and experimental studies this year.

Retiring director Boyce D. McDaniel, his predecessor, says: "For many years Karl has played an important role in the life of our

laboratory and in the international high energy physics community. I am sure that he will provide strong leadership for the laboratory as we embark on the major program for the enhancement of our existing facilities."

Berkelman will head up the 200-member laboratory and its principal facility, the Wilson Synchrotron Laboratory, one of four nationally sponsored high energy physics

10 Cornellians to Take Active Roles In Advancement of Science Meeting

Ten Cornell researchers or faculty members will take part in the 1985 annual meeting of the American Association for the Advancement of Science in Los Angeles May 26-31.

Thomas Eisner, the Jacob Gould Schurman Professor of Biology, will chair the symposium on scientists as human rights advocates.

Thomas Gold, the John L. Wetherill Professor of Astronomy, will present a paper on "methane from the deep earth" during a panel on global potentialities of gas fuels and feedstocks.

Dorothy W. Nelkin, professor of sociology and a member of the Program on Science, Technology, and Society, will introduce members of the panel on the employment effects of high technology.

Karl J. Niklas, paleobotanist and associate professor of botany, will present a paper on how computers are helping scientists predict the complex pattern of plant evolution in terms of the plant's shape and internal structure.

David Pimentel, professor of entomology, will chair the AAAS session on energy issues for less developed countries, and present two papers — one on the environmental consequences of the changing atmospheric com-

position, and the other on the relationship of deforestation and energy and food production.

Richard H. Rand, professor of theoretical and applied mechanics, will present a paper on research that compares oscillations in plant leaves with the swimming motion of lamprey fish.

Lawrence Scheinman, professor of government, will present a paper on the institutional framework of nuclear non-proliferation.

Maury Tigner, professor of physics in the Laboratory of Nuclear Studies, will present a paper on research and development of the proposed Superconducting Supercollider (SSC), which could be the largest and most expensive scientific instrument in history. He is director of the design group for the SSC.

Milton Zaitlin, professor of plant biology and associate director of the university's Biotechnology Program, will present a paper on new directions for bioscience in agriculture.

James J. Zuiches, professor of rural sociology and associate director of research in the College of Agriculture and Life Sciences, will lead a discussion on technology transfer in agriculture.

Recent Advances in Biotechnology Topic for Symposium June 24-27

Recent advances in biotechnology in the plant sciences and their potential for application to plant breeding and to agribusiness will be explored in an international symposium here June 23-27.

To be staged in Statler Auditorium on campus, the conference is expected to have 500 to 600 participants from the United States and several other countries, including Australia, England, Germany, Hungary and Japan.

The international symposium — "**Bio-technology in Plant Science: Relevance to Agriculture in the Eighties**" — is being organized by the Cornell Biotechnology Program, which promotes research in biotechnology with emphasis on molecular aspects of genetics and cell biology with applications to plant, animal, and cell production.

Milton Zaitlin, associate director of the Cornell Biotechnology Program, said recent dramatic developments in biotechnology in the plant sciences have opened the possibilities for developing plans with enhanced genetic capacity to boost the production of food and fiber.

"This symposium," he said, "will examine these advances in detail and explore the potential for applying the new technologies to plant breeding and to agribusiness. In addition, patent, environmental, and regulatory issues will be discussed."

A professor of plant pathology and an authority on virology in the State College of Agriculture and Life Sciences, Zaitlin is co-chairman of the symposium program committee.

The program will feature 27 presentations in six plenary lecture sessions dealing with plant regeneration and genetic changes through tissue culture, large-scale tissue culture operations, plant transformation, genes for transformation, and plant molecular biology and agrichemicals.

In addition, the prospects of applying these new technologies to agriculture will be examined in two panel discussions — "Plant Molecular Biology and Agrichemicals" and "Agricultural Biotechnology and Industry."

A highlight of the program will be the presentation by Ralph W. F. Hardy, a visiting professor of life sciences here and president of BioTechnica International, a Boston-based biotechnology firm. Hardy will speak on "Biotechnology: Roles of University, Government, and Industry" at the banquet Monday, June 24.

Established in 1983, the Cornell Biotechnology Program is comprised of the New York State Center for Advanced Technology for Biotechnology at Cornell, which is supported by New York state, and the Cornell Biotechnology Institute, supported by several private corporations. The program sponsors a wide range of research projects in molecular biology and genetics.

Registration for the June symposium is scheduled from 2 p.m. to 11 p.m., Sunday, June 23, at the Statler Inn on campus. The opening session is scheduled to get under way at 9 a.m., Monday, June 24.

For more information about the program and registration materials, contact Sheila Huey, Baker Laboratory, Cornell University, Ithaca, NY 14853-1301, or at 256-2300.

Commencement

Continued from Page 1

Cornell tradition, President Rhodes will deliver the address, after reviewing the academic procession from a stand at the north end of the field. Music will be provided by Cornell University's Chime Masters, Wind Ensemble, Glee Club, and Chorus.

Guests may begin entering Schoellkopf at 10 a.m. All degree candidates should be in place on the Arts Quad by 10:30 a.m. for the academic procession. The procession will start at 11 a.m. under the direction of the university marshal.

—In the event of inclement weather, indoor services for the degree groups will be held at the following times and places:

12 p.m. at Barton Hall — Architecture, Art, and Planning; Graduate School; Human Ecology; Samuel Curtis Johnson Graduate School of Management; Engineering; Hotel Administration; Industrial and Labor Relations; and Veterinary Medicine.

2 p.m. at Barton Hall — the College of Agriculture and Life Sciences and the Col-

lege of Arts and Sciences.

Admission to the indoor ceremonies will be by ticket only. These tickets are included in the commencement packets previously distributed to all candidates. Announcement of cancellation of outdoor ceremonies will be made beginning at 8 a.m. on local radio stations.

Special provisions can be made in advance for guests who have mobility impairment. Those guests who meet requirements for mobility impaired status will be provided transportation from the Kite Hill parking area to the Bacaluaere services and to Schoellkopf Field. Due to the limited seating, only one person may accompany the impaired person on the special transportation and in the designated seating area.

More details regarding the parking permit and special transportation and seating may be obtained by calling Cornell's Information and Referral Center at 256-6200 or the Commencement Arrangement Office at (607) 256-5454, ext 2715.

It is the policy of Cornell University actively to support equality of educational and employment opportunity. No person shall be denied admission to any educational program or activity or be denied employment on the basis of any legally prohibited discrimination involving, but not limited to, such factors as race, color, creed, religion, national or ethnic origin, sex, age or handicap. The university is committed to the maintenance of affirmative action programs which will assure the continuation of such equality of opportunity.

PRIZES

Science Article

Gene E. Robinson, a Ph. D. student in the Entomology Department in the State College of Agriculture and Life Sciences has been awarded first prize for writing a popular science article in the Fuertes Memorial Contest. The contest is administered by Sigma Xi, Cornell's honorary research society. Robinson was cited for "doing the best job of presenting interesting scientific content in an accurate, engaging, and coherent manner" in his article, "The Dance Language of the Honey Bee: Controversy and its Resolution."

The waggle dance of the honey bee has been studied in detail for many years. Since the work of Karl von Frisch, who won a Nobel Prize for his studies on honey bee dance communication, the topic has been the subject of heated scientific controversy. Robinson's article reviews the history of the controversy and how it was finally settled by James Gould of Princeton University who confirmed von Frisch's findings regarding honey bee dance language.

The article will appear in a forthcoming issue of *Plantation*, a quarterly published by the Cornell Plantations.

The Fuertes Memorial Contest is in honor of Estevan Antonio Fuertes, the head of the School of Civil and Environmental Engineering at Cornell from 1873 to 1903. During Fuertes' tenure, Cornell became known as one of the national centers for great teachers in civil engineering.

Physics

Three outstanding senior students of physics have been recognized with special prizes.

The second annual Kieval Prize in Physics has been awarded jointly to Christopher S. Kochanek, Arts '85, and Amy Y. Liu, Arts '85. The Kieval Prize, funded through a contribution from Harry S. Kieval, Cornell '36, recognizes a senior student majoring in physics who shows unusual promise for future contributions to physics research. Kochanek and Liu will share the \$1000 award which accompanies the prize.

This year, the Paul Hartman Prize in Experimental Physics is being awarded for the first time by the School of Applied and Engineering Physics, to recognize outstanding work in experimental physics by undergraduate in either program. The first recipient will be Julianne I. Moses, Arts '85. The prize carries an honorarium of \$500 to the recipient. It is funded through a major gift of \$5,000 from an anonymous donor, plus smaller gifts, to honor Professor Emeritus Paul L. Hartman, member of the Cornell faculty from 1946 until his retirement in 1983.

Churchill Grant

Andrew B. Nobel, a senior electrical engineering major in the College of Engineering, has been awarded a Churchill Foundation Scholarship to study mathematics during the 1985-86 academic year at the University of Cambridge in England.

He is one of eleven students nation-wide to receive one of the coveted scholarships established in 1963 by The Winston Churchill Foundation of the United States located in New York City. The scholarship includes a stipend and full tuition worth a total of about \$10,000.

Creative Writing

Graduate student Susan Weinberg, of Arlington, Va., has taken first place in the university's Arthur Lynn Andrews Competition in Creative Writing. The award carries with it a \$200 cash prize.

Sharing second place prize of \$200 were Cynthia Baughman and Ellinora Beth French, both graduate students from Ithaca.

German

Christine Popoff, a senior in the College of Arts and Sciences, has won the 1985 Simmons Award for the "best work in German." The prize includes a book.

Goethe

Kevin D. Marti, a doctoral candidate in Medieval studies at Cornell University, has won the 1985 Goethe Prize for his essay "Wip' and 'Gral' and the Bipartite Structure for 'Parzival's' Book IV."

The prize includes a \$250 cash award and the placement of the essay in the University Archives. Marti holds a bachelor's degree (1980) from Greenville College in Illinois.

Public Relations

Two students in the State College of Agriculture and Life Sciences have been named winners of the first Edward L. Bernays Foundation Primus Inter Pares Award of the Public Relations Student Society of America.

The winners of the Bernays award, which symbolizes "First Among Equals," are Kathleen M. Rowe, a senior, and Mary Ann Mastrobattisto, a junior. Both are communication arts majors.

Rowe and Mastrobattisto were cited for "outstanding achievement and participation" in the Cornell chapter of the PRSSA, among other accomplishments. Established in 1984, the PRSSA's Cornell chapter has about 60 members.

Landscape Architecture

Six Cornell students have been cited by the American Society of Landscape Architects for excellence in the study of landscape architecture.

They are all in the Landscape Architecture Program in the department of floriculture and ornamental horticulture of the State College of Agriculture and Life Sciences.

Winners of the Certificate of Honor are two undergraduate students, Kirsten A. Coffen and Robert A. Fuchs. The Certificate of Honor also went to two graduate students: Shasapas Chitasombat and Paula Horrigan.

In addition, two undergraduate students — Laura B. Abbott and Dean W. Gowen — won the Certificate of Merit.

Education

The Julian E. and Veta Butterworth Fund Award for outstanding dissertations has been awarded to Geri Gay, a recent Ph.D. recipient and now a research specialist in interactive learning systems in the Department of Education.

The honor is given annually to the graduate student whose dissertation proposal shows the greatest promise of making a significant contribution to the field of education. Gay's proposal is entitled, "Interaction of Prior Conceptual Understanding and Learner Control in a Computer-Assisted Video Learning Sequence." She examined how learners with different understandings of scientific material used different options when learning on a computer.

The award is in honor of Professor Julian Butterworth who was a faculty member in the State College of Agriculture and Life Sciences at Cornell from 1919 to 1952. His work led to the establishment of the Board of Cooperative Educational Services (BOCES) districts in New York State.

Peace Studies

The Harrop and Ruth Freeman Undergraduate Prize in Peace Studies for 1985 has been awarded to Seth Fein, a history major in the College of Arts and Sciences.

He spent spring term of his junior year in an internship at the Arms Control Association in Washington, D.C., and plans to work for a public interest group next year in Washington.

MSTISLAV ROSTROPOVICH.

'85-86 Concert Fare to Feature Top Musicians

A who's who of musicians — including Mstislav Rostropovich and Pinchas Zukerman — will highlight Cornell University's 1985-86 concert season. All concerts take place at 8:15 p.m.

The Kalichstein Laredo Robinson trio will open the season Oct. 24 with a performance at Statler Auditorium. Although the musicians who constitute the piano trio take only part of each year out of their solo careers to play together, the ensemble is, according to *The New York Times*, "one of the best blended, most sensitive and intelligent piano trios in the world today."

Other 1985-86 Statler Auditorium performances include:

— The Orford String Quartet with James Campbell, clarinetist, Dec. 2. The quartet is affectionately regarded as "one of Canada's national treasures."

— The New York Chamber Soloists with pianist Menahem Pressler, March 4.

— Paula Robison, flutist, and Ruth Laredo, pianist, March 19.

— Launching the Bailey Hall series on Friday, Nov. 1, will be Gerard Schwarz conducting New York's Lincoln Center's Mostly Mozart Festival Orchestra with Korean-born violinist Young Uck Kim and American pianist Ken Noda.

Other Bailey Hall concerts in 1985-86 include:

— Pinchas Zukerman, violinist, Nov. 14. Zukerman appeared at Cornell most recently as conductor-violinist with the Saint Paul Chamber Orchestra. He returns this fall in a solo recital — his first in Ithaca since 1981.

— The Cincinnati Symphony Orchestra, Michael Gielen conducting, Peter Serkin, pianist, Feb. 4. The Cincinnati Orchestra is one of the country's most venerable musical organizations, having been the first orchestra to circle the globe on tour.

— English Baroque Soloists, John Eliot Gardiner, conductor, and Cornell's Malcolm Bilson, fortepianist, April 5.

— Mstislav Rostropovich, April 13. It has been almost 10 years since Rostropovich visited Cornell. This performance by the "remarkable" Russian-born cellist marks the fifth time he has played for the concert series.

Subscription tickets are still available for both series. Donations by contributors to the Fund for Quality Concerts help maintain the concerts and the affordability of tickets.

For further ticket information contact the Lincoln Hall ticket office at 256-5144.

The office, which is open Monday through Friday, 9 a.m. to 1 p.m., will be closed during July and August.

'Shanty Town' May Stay to June 3; Fire Was Started By Cigarette; Faculty Plans Divestment Referendum

A small group of protestors is being allowed to maintain its "shanty town" on the west side of Day Hall until June 3, the day after Cornell's commencement ceremony, administrators announced last week.

If the shanties remain after June 3, "the Grounds Department, at its convenience, will remove the structures ... and will restore the natural condition of the area," Senior Vice President William G. Herbster said in a letter to the protestors last Friday (May 17).

Some students here said they will maintain shanty town until Cornell divests from companies that do business in South Africa. "If the university thinks we're going to disappear, it's got another think coming," said junior Larry Freedman.

The shanty town was constructed April 22 as part of protests at Cornell demanding that the university divest from companies doing business in South Africa. The structures, made of wood, cardboard, and other materials, represent the housing conditions of many blacks in South Africa, the protestors say.

Last week, several protestors met four times with Herbster and William D. Gurowitz, vice president for campus affairs, to discuss possible alternatives to shanty town. At the fourth meeting, on May 17, "it was clear to both sides that there was no basis for agreement and that further discussions would be fruitless," Herbster said.

At that meeting, the students told the administrators that Cornell's proposal to allow shanty town to remain through June 3 was unacceptable, Herbster said. The students proposed that they would take down shanty town by Sept. 15 if the university agreed to

Protest Roundup

include a speaker on divestment at commencement and if the university provided the protestors with a budget for the summer.

"We have met on several occasions in an effort to find some acceptable alternative means of expression which would serve the purposes of free speech without perpetuating a dangerous and sprawling collection of scrap and waste in the center of campus. Our suggestions have been rejected," Herbster said in his letter to the protestors.

"The university will suffer the continued presence of 'shanty town' until sometime after June 3rd," he added. Any order by the Ithaca Fire Department or other public authorities that would require an earlier removal of shanty town will be complied with, the letter said. The Ithaca fire department has ordered that combustible materials be removed from shanty town.

"The university has every intention of continuing to protect the group's right to express its views in a lawful manner, as it does for all groups," Herbster said last week.

Protestor John Chanin, a senior, said that the university's original permit for shanty town gives the group the right to keep the structures until Cornell divests from South Africa. "We're staying until Cornell divests," he said, adding that from 10 to 20 people are sleeping at shanty town each night.

In a related development last week, an unextinguished cigarette was listed as the cause of the May 10 fire that destroyed one of the

shanties. Six witnesses, including two occupants of the shanty, were interviewed and evidence was analyzed by Cornell's life safety and public safety offices, Public Safety Capt. Daniel Murphy said Friday.

According to statements filed with public safety, an unextinguished cigarette was placed in a jar lid used as an ashtray by smokers in the shanty. The lid, which was full of cigarette butts, tipped over, and one of the butts ignited some bedding material.

Murphy said that one resident of the shanty told investigators that he tried to remove a camp stove and an uncapped container of stove fluid nearby when he first saw the smoke and flames. In his haste, according to Murphy, the individual apparently spilled some of the fuel, which helped spread the fire.

Last Wednesday (May 15), about 50 faculty, staff, and others marched in a circle in front of Day Hall during the noon hour, carrying signs urging the university to divest.

A spokesman for the group — Cornell Faculty and Staff Against Apartheid — says members will be in front of Day Hall every Wednesday noon until the university divests.

On May 17, Dean of Faculty Joseph B. Bugliari announced that Cornell faculty will vote on the divestment issue in a referendum scheduled for this September. Ballots will be mailed in early September to about 1,800 faculty members, including emeritus professors.

A referendum petition, signed by 170 faculty members, was circulated in response to the vote at the May 1 special meeting of the faculty. The vote was 323 to 72 in support of a resolution calling on Cornell to divest "in as expeditious a manner as possible" from companies doing business in South Africa.

'Sapsuckers' Tie, but Lose

Braving torrential rains and fierce wind, the Laboratory of Ornithology "Sapsuckers" came within one hour of winning the Ed Stearns Award for the most birds identified last Saturday in New Jersey's "Biggest Day '85" competition.

Instead, the out-of-staters' award went to the National Geographic Society. Both teams had 163 confirmed sightings, but in a tie-breaking decision, the award was given to the team that saw its last bird first. The five-member Cornell team spotted a type of goatsucker known as the Chuck-will's-widow, at 10:10 p.m. Saturday, about an hour after the National Geographic team completed its search.

First place for a New Jersey team was awarded to the Delaware Valley Ornithological Club, with 182 confirmed sightings. A total of 23 teams participated.

The real winner will be the Cornell Laboratory of Ornithology, which will receive several thousand dollars in pledges for its research and educational programs.

Lecturers, TAs Win Clark Teaching Awards

Three lecturers and eight teaching assistants in the College of Arts and Sciences have been awarded 1985 Clark Distinguished Teaching Awards.

The lecturers who received this year's awards are Carolyn Eberhard, plant biology; Lydia Fakundiny, English; and Deborah McGraw, modern languages and linguistics.

The award winning teaching assistants are Diarmuid Maguire, government; Patricia McGill-Harelstad, ecology and systematics; Martha Robertson, neurobiology and behavior; John Rosenberg, Romance studies; David Thurn, English; Joe Uzdziński, physics; Eduard van deBilt, history; and Reiko Yamada, modern languages and linguistics.

Rhododendron Collection at Cornell Plantations Being Renovated to Be One of Best in Northeast

Renovations in the Cornell Plantations rhododendron collections are expected to make it one of the best in the Northeast for displays of hybrids that are hardy in this growing area, the newer introductions, and design that combines rhododendrons with other kinds of plants in a garden setting.

Alongside the familiar splashes of pink, white, mauve and red on Comstock Knoll, 50 new rhododendron hybrids are in place, paths have been improved, and the overstory of old evergreens and hardwoods is being restored. The addition of perennials and architectural structures over the next three

years will bring the project to completion.

The 21-year-old collection is named for Clement Gray Bowers, a 1923 Cornell graduate and world authority on rhododendrons who bred and raised many hybrids.

By last year, 350 rhododendron species and cultivars brightened the knoll. But the collection's haphazard design, short flowering season, and brash color scheme prompted the Plantations staff to reorganize it. Work began last year after a severe April storm broke the tops out of several large conifers that had provided necessary shade

and winter protection for the rhododendrons.

According to Mary Hirshfeld, botanical garden supervisor at the Plantations, this year the collection provides an excellent example of a garden in progress. While new steps and a new stone retaining wall leading to the top of the knoll are complete, plans still call for a stone seating area, a pavilion, and an overlook near Beebe Lake. Plantations director Robert Cook is actively seeking donors who want to help complete the project.

Calendar

All items for publication in the Calendar sections, except for Seminar notices, must be submitted (typewritten, double spaced) by mail or in person to Fran Appgar, Central Reservations, 531 Willard Straight Hall at least 10 days prior to publication. Seminar notices should go to the Chronicle office, 110 Day Hall. Items should include the name and telephone number of a person who can be called if there are questions, and also the subheading of the calendar in which it should appear (lectures, colloquia, etc.) ALL DEADLINES WILL BE STRICTLY ENFORCED.

*—Admission charged.

Announcements

Divestment Picket

Wednesdays, Noon-1 p.m. A faculty/staff picket in front of Day Hall every week in support of the divestment effort. Sponsored by Cornell Faculty and Staff Against Apartheid.

Alternatives Library

Students who have overdue materials from the Alternatives Library in 122 Anabel Taylor Hall should return them by May 30. If not, replacement charges will be put on your bursar bill.

Luncheon Discussion Group

Donatella della Porta, European University Institute at Fiesole, "Social Movements and Left-wing Terrorism in Italy in the 1970s." A WSP Visiting Fellow this term and the editor of *Terrorism in Italy*, Donatella is engaged in a major study of the origins and functioning of Italian terrorism. This discussion will be held at 12:15 p.m. in room 153 of Uris Hall, on Friday, May 24. Sponsored by the Western Societies Program.

Dance

Cornell Folkdancers

The Cornell Folkdancers meet in the North Room of Willard Straight Hall every Sunday. From 7:00 till 8:30 p.m. a review of workshop dances, and 8:30 till 10:30 request dancing. Free, no partners needed, beginners welcome. For more information please call 257-3156.

Jitterbug Club

The Jitterbug Club dances the 1st, 3rd and 5th Wednesday of every month from 9-11 p.m. in the Edwards Room in Anabel Taylor Hall. We teach beginners from 9-10 p.m. Call Jim at 273-5268 for more information.

Scottish Country Dancing

Scottish Country Dancing. Everyone welcome. Teaching for beginners is 8-10 p.m. Sundays, except the 1st week of every month. We meet Mondays, 8-10 p.m. at 213 S. Geneva Street. For more information call 272-6229.

Country Dancers

The Country Dancers meet each Tuesday 7:30-9:30 p.m. in Martha Van Rensselaer Hall (lobby near "Martha's") for English and contra dancing. No partners needed. Beginners welcome—each dance is taught. For more information call Connie at 272-1931.

Israeli Folk Dancing

Israeli Folk-Dancing every Thursday from 8-11 p.m. in the One World Room, Anabel Taylor Hall. Teaching from 8-9 p.m.; requests, 9-11 p.m. Call Sharon at 272-4176 for more information.

Exhibits

The Prinzhorn Collection

The Prinzhorn Collection will be on view at the Herbert F. Johnson Museum of Art from May 8 to June 30, 1985. This exhibition features approximately three hundred artistic expressions of institutionalized psychiatric patients, most of whom were diagnosed as schizophrenic. The majority of the works were created in Germany, Austria, Switzerland, Italy, and the Netherlands between 1890 and 1920. Traveling for the first time in the United States, the collection was amassed in the 1920's by art historian and physician Hans Prinzhorn of the University Psychiatric Hospital in Heidelberg, West Germany. It constitutes the first systematized attempt to present the art of the insane.

The Arts and Crafts Exhibit

The Arts and Crafts Movement in New York State: 1890-1920's, will be on exhibit in the Herbert F. Johnson Museum of Art from May 15 to June 23. Organized by Coy L. Ludwig, Director of the Tyler Art Gallery, and Professor of art at

SUNY Oswego, this exhibition includes over two hundred fine examples of Arts and Crafts furniture, ceramics, metalwork, art glass, graphic and book arts, textiles, and architectural renderings on loan from museums and private collections across the state.

Films

Unless otherwise noted films are sponsored by Cornell Cinema.

Thursday

May 23, 8:00 p.m. *Uris Auditorium. "Providence," (1977), directed by Alain Resnais, with Sir John Gielgud and Ellen Burstyn. Open.

Friday

May 24, 8:00 p.m. *Uris Auditorium. "Casablanca," (1942), directed by Michael Curtiz, with Humphrey Bogart and Ingrid Bergman. Limited.

May 24, 10:30 p.m. *Uris Auditorium. "Play It Again, Sam," (1972), directed by Herbert Ross, with Woody Allen and Diane Keaton. Limited.

Saturday

May 25, 8:00 p.m. *Uris Auditorium. "Play It Again, Sam," (1972), directed by Herbert Ross, with Woody Allen and Diane Keaton. Limited.

May 25, 10:00 p.m. *Uris Auditorium. "Casablanca," (1942), directed by Michael Curtiz, with Humphrey Bogart and Ingrid Bergman. Limited.

Sunday

May 26, 8:00 p.m. *Uris Auditorium. "A Night at the Opera," (1935), directed by Sam Wood, with the Marx Brothers. Limited.

Monday

May 27, 8:00 p.m. *Uris Auditorium. "Risky Business," (1983), directed by Paul Brickman, with Tom Cruise and Rebecca De Mornay.

Tuesday

May 28, 8:00 p.m. *Uris Auditorium. "North by Northwest," (1959), directed by Alfred Hitchcock, with Cary Grant and Eva Marie Saint.

Wednesday

May 29, 8:00 p.m. Statler Auditorium. "The Graduate," (1967), directed by Mike Nichols with Dustin Hoffman and Anne Bancroft.

May 29, 10:30 p.m. Statler Auditorium. "The Graduate," (1967) directed by Mike Nichols with Dustin Hoffman and Anne Bancroft.

Thursday

May 30, 8:00 p.m. *Uris Hall Auditorium. "La Cage Aux Folles," (1978), directed by Edoardo Gollino, with Ugo Tognazzi and Michel Serrault.

Friday

May 31, 7:30 p.m. *Uris Auditorium. "Rebel Without a Cause," (1955), directed by Nicholas Ray, with James Dean and Natalie Wood.

May 31, 10:00 p.m. *Uris Auditorium. "Badlands," (1974), directed by Terence Malick, with Marin Sheen and Sissy Spacek.

Saturday

June 1, 8:00 p.m. *Uris Auditorium. "Badlands," (1974), directed by Terence Malick, with Martin Sheen and Sissy Spacek.

June 1, 10:15 p.m. *Uris Auditorium. "Rebel Without a Cause," (1955), directed by Nicholas Ray, with James Dean and Natalie Wood.

Sunday

June 2, 8:00 p.m. *Uris Auditorium. "Follow the Fleet," (1936), directed by Mark Sandrich, with Fred Astaire and Ginger Rogers.

Music

Saturday

June 1, 2:30 p.m. Library Slope, Senior Week Concert: Cornell Wind Ensemble conducted by Marice Stith (Bailey Hall in event of rain). Sponsored by the Department of Music.

June 1, 8:15 p.m. Bailey Hall, Senior Week Concert: Cornell University Glee Club and Cornell Chorus conducted by Thomas A. Sokol. Sponsored by the Department of Music.

Religious Services

Shabbat Services will begin as usual at 6:00 p.m. in the Founders Room on Friday evenings through May 31. Beginning on June 7, they will begin at 7:30 p.m. They will continue throughout the summer on Saturday mornings at 9:15 a.m. in the Founders Room.

Catholic

Monday-Friday, 12:15 p.m. Anabel Taylor Chapel, as announced the previous Sunday.

Every Saturday, 5:00 p.m. Anabel Taylor Auditorium.

Every Sunday, 10:00 a.m. Anabel Taylor Auditorium. Exception: Sunday, June 2, Graduation Mass, 8:00 a.m., Anabel Taylor Auditorium.

Friday

May 24, 6:00 p.m. Founders Room, Anabel Taylor Hall. Shabbat Services, Conservative Egalitarian Minyan.

May 24, 6:00 p.m. Anabel Taylor Chapel. Shabbat Services, Reform Minyan.

Saturday

May 25, 9:15 a.m. Edwards Room, Anabel Taylor Hall. Shabbat Services, Orthodox Minyan.

May 25, 10:00 a.m. Founders Room, Anabel Taylor Hall. Shabbat Services, Conservative Egalitarian Minyan.

Sunday

May 26, 9:15 a.m. Edwards Room, Anabel Taylor Hall, Shavuot Services.

May 26 Sage Chapel. NO SERVICE.

Monday

May 27, 9:15 a.m. Edwards Room, Anabel Taylor Hall. Shavuot Services.

Sunday

June 2, 10:00 a.m. Bailey Hall. Baccalaureate Service, Harold S. Kushner, Rabbi, Temple Israel, Natick, Ma.

Barton Blotter

A Macintosh personal computer and accessories valued at \$2,500 was reported stolen from Newman Laboratory sometime between 1 a.m. and 9 p.m. May 13 and 14, according to the morning reports of the department of public safety for the period May 13 through 19.

There were a total of 20 thefts with losses estimated at \$4,980 reported on campus during the seven-day period. Other thefts included a \$500 watch and a \$200 watch, two binocular microscopes worth a total of \$270 taken from Schurman Hall, a \$275 camera, a \$150 chair, and food worth a total of \$224.03 taken from the Red Bear Cafe.

Five fire extinguishers worth a total of \$111 were taken from three living units on campus.

Four persons were referred to the Judicial Administrator on separate charges of altering a parking permit, throwing a beer bottle, illegally connecting to TV cable service, and for supplying a minor with alcohol.

Berkelman

Continued from Page 1

centers in the United States. In addition to Cornell physicists, approximately 70 physicists from other universities are active in the high energy physics program at the facility. Particle physics experimentation at the laboratory will be much enhanced with the construction of new detection equipment that employs cesium iodide to detect high energy photons, as well as upgrading the electron-positron storage ring and increasing the laboratory's physical space and computing capabilities.

A graduate of the University of Rochester (B.S., 1955) and of Cornell (Ph.D. in physics, 1959), Berkelman has been a member of the Cornell physics faculty since 1961. He was named professor of physics in the Laboratory of Nuclear Studies in 1967.

Early in his career, Berkelman made one of the first measurements of the mean radius of the pi meson in an experiment that was the first successful application of electroproduction to measure the size of an unstable elementary particle. He has had a prominent role in a series of experiments at the 12 GeV synchrotron at Cornell on the production of vector mesons and other particles by high energy electrons.

Berkelman has made major contributions to the development and use of the CLEO particle detector at the Cornell Electron Storage Ring (CESR). Much of high energy physics' knowledge of the b quark, the

Seminars

Immunology: "Fetal Survival in the Face of Maternal Immunity; Protective Role of Trophoblasts," Dr. Federico Zuckerman, Cell Biology, University of Texas Health Science Center, 12:15 p.m. Friday, May 24, G-3 Veterinary Research Tower, College of Veterinary Medicine.

Physiology: "Kinetics of Acetylcholine Action in the Intact Neuromuscular Junction," Bruce Land, Department of Neurobiology and Behavior, 4:30 p.m. Tuesday, May 28, G-3 Veterinary Research Tower, College of Veterinary Medicine.

Rural Sociology: "The Legacy of Vietnam; A European View," Adi Wimmer, assistant professor, Department of American Studies, University of Klagenfurt, Austria, noon Friday, May 24, 32 Warren Hall.

Sports

May 25 a.m. Inlet Flood Control. Men's Heavyweight Crew-Pennsylvania.

Graduate Bulletin

The next regular meeting of the Graduate Faculty will be held at 4 p.m. Friday, May 31, at Sage Graduate Center. The purpose of the meeting is to vote on the degree list.

Summer Graduate Registration (SGR) forms are available at the Graduate School Information Desk. You must register if you want to use campus facilities during the summer, are off campus but require credit for summer study, are receiving student aid during the summer, or require proof of registration for outside agencies. Registration must be in person at the Graduate School office. Student ID is required for validation of the SGR form.

Application forms for the Fulbright grants for graduate study or research abroad in academic fields and for professional training in the creative and performing arts are now available. They may be obtained from the associate dean, Gerard Cox, Sage Graduate Center, 256-4603. The deadline for filing applications is September 17, 1985.

heaviest well-established quark, comes from the CLEO experiments.

While on sabbatic leave at the DESY facility in West Germany in 1974-75, he was involved in early work elucidating the properties of c quarks. At CERN in Switzerland in 1981-82, he contributed to the first measurements of particle production at the proton-antiproton collider.

In addition to serving on advisory committees for high energy physics facilities at Stanford, Fermilab, and DESY, Berkelman has been a member of advisory groups for the U.S. Department of Energy, including the Subpanel on Long-Range Planning for High Energy Physics and the Technical Assessment Committee on University Programs.

Please Note:

Job Opportunities is a publication of Staffing Services and is distributed each Thursday through the Cornell Chronicle. **Job Opportunities** lists current vacancies within the University, consistent with the University's commitment to promotion from within, affirmative action, and equal opportunity employment.

Applications for employment are available at Cornell University's employment office at East Hill Plaza at the intersection of Ellis Hollow Road and Judd Falls Road in Ithaca, from 9:00 a.m. to 12:00 noon, Monday through Friday. Applications can be submitted through the mail to University Personnel Services, Staffing Services, 160 Day Hall, Ithaca, N.Y. 14853. For more information on jobs listed, contact Staffing Services (607) 256-5226.

N.Y. 14853. For more information on jobs listed, contact Staffing Services (607) 256-5226.

Employee Transfer Applications: Employees who wish to transfer to other jobs within the University should complete a separate Employee Transfer Application form for each position and submit them to Staffing Services. Individuals with official University layoff status will be given preference in referrals. This listing is also available on CUINFO

Cornell University's computerized information service. For further CUINFO details, contact the Information and Referral Center at 256-6200 or Computer Services.

New vacancies are listed for two weeks in **Job Opportunities**.

***Asterisks** identify jobs that were not listed last week.

Full-time jobs are 39 hours per week unless otherwise indicated. Jobs listed as SO, U1 and U2 are represented by bargaining units.

to Ralph D. Jones by June 15, 1985.
 Job Number: P1910

Position: Assistant Coordinator of Education
Department: Herbert F. Johnson Museum of Art
Description: Assist the Coordinator of Education in planning, development, implementation and evaluation of museum's education programs.

Requirements: Bachelor's degree in related area - museum education or equivalent. Previous teaching experience in museum education and—or art related programs is necessary. Good interpersonal and communication skills required. Ability to work independently. Willingness to work flexible hours. Please send cover letter and resume to Ralph D. Jones.

Minimum Starting Salary: \$13,625
Job Number: PA198

Position: Administrative Manager I
Department: International Agriculture
Description: Under general supervision, responsible for management activities including administrative duties in the areas of personnel, budget and accounting. Provide staff support to Directors as requested.

Requirements: Bachelor's degree. One to three years administrative office supervisory responsibility and three to five years accounting—budget experience. Good verbal and written communication skills. Knowledge of Cornell accounting system helpful. Experience with computerized accounting and database management techniques preferred. Please send cover letter and resume to Ralph D. Jones by May 31, 1985.

Job Number: PA193

Position: Student Development Specialist III
Department: Career Center
Description: Will serve as a career counselor providing individual career counseling to college students, supplemented by vocational interest inventories to help students explore their interests, values, and abilities in formulating their academic and career plans.

Requirements: Master's degree in counseling, psychology or related area. Experience in career counseling of college students; knowledge of vocational interest inventories, particularly the Strong-Campbell. Please send cover letter and resume to Ralph D. Jones by May 31, 1985.

Job Number: PA1911

Position: Administrative Manager I
Department: University Admissions Office
Description: Assume responsibility for the direction of administrative and financial areas of the unit, including payroll, purchasing, budgeting, and the management of departmental accounts, the inventory of supplies and materials, the coordination of all searches for new staff and the processing and maintenance of all personnel records, and the supervision of all clerical (non-processing) staff. Also prepare statistical reports detailing admissions activity as well as the University Admissions master calendar and will be responsible for supervising the UAO receptionists. The Administrative Manager will report directly to the Director of University Admissions. This position will sometimes require evening and weekend work.

Requirements: Bachelor's degree or equivalent. Three years administrative or supervisory experience. Knowledge of finance, accounting, budgeting and personnel policy. Excellent communication, organizational and interpersonal skills required. Computer and word processing amiliarity helpful. Internal (Cornell) candidates only. Please send cover letter, resume and employee transfer form by May 31 to Ralph D. Jones.

Job Number: PA196

Position: Health Associate I
Department: University Health Services
Description: Using health associate physician approved guidelines, provide primary health care to university students, faculty and staff members. Emphasis is placed on continuity of care, health education, health maintenance and preventive care.

Requirements: New York State RN—PA license and a graduate of an accredited NP—PA program required. Experience and professional certification preferred. Please send cover letter and resume to Ralph D. Jones by June 30, 1985.

Job Number: PA191

Position: Physical Therapist
Department: University Health Services
Description: Evaluate and treat orthopedic and sports related problems. Responsible for planning and implementing physical therapy programs for referred patients. Maintain appropriate records in compliance with ethical and legal standards. Participate in in-service programs as appropriate. Participate in ongoing projects.

Requirements: Bachelor's degree or equivalent.

Please Post

Job Opportunities

Cornell University is an equal opportunity, affirmative action employer.

Administrative/Professional

The minimum salaries listed are for recruitment purposes only.

***Position:** Applications Programmer—Analyst II

Department: University Admissions Office
Description: Design, develop, modify, maintain and document straightforward applications software in support of a major administrative system under direct supervision. Develop interfaces from this system to micro computers for local processing. One and one-half to two year appointment.

Requirements: Bachelor's degree or equivalent with computer-related courses. Knowledge of applications for interactive and batch administrative systems, data base management systems, machine architecture, system utility programs, VM—CMS. Knowledge of at least two languages - PL—I, Natural, COBOL, Mark IV. Knowledge of at least two micro computers - Apple Macintosh, IBM PC, Hewlett Packard Touch Screen, or DEC Rainbow and associated software. Please send cover letter and resume to Cynthia Smithbower. **Minimum Starting Salary:** \$18,000
Job Number: PT204

***Position:** Assistant Director
Department: Cornell Dining
Description: Plan, manage and oversee all service, production, personnel and financial aspects of multiple dining operations; assist director in setting policies, guidelines and standards; perform staff assignments and projects.

Requirements: Bachelor's degree plus three to five years experience or equivalent combination of related education and experience is required. Extensive management experience in food science industry is essential. Please send cover letter and resume to Ralph D. Jones by June 7, 1985.
Job Number: PA206

***Position:** Dining Manager II
Department: Cornell Dining
Description: Plan and manage all service, production, personnel and financial aspects of a full service vending operation and two cash ala carte dining operations.

Requirements: Associate's degree plus two years food service management experience or combination of related education and experience. Please send cover letter and resume to Ralph D. Jones by June 7, 1985.
Job Number: PA205

***Position:** Systems Manager
Department: Cornell Dining
Description: Plan, supervise and coordinate the development, implementation and maintenance of the department's Management Information System.

Requirements: Bachelor's degree or equivalent. Extensive computer and systems knowledge including considerable experience in implementation of major system is essential. Must be able to program in Basic plus one other high-level language. Knowledge of interactive administrative systems preferred. Familiarity with the Honeywell DP6 mini computer and IBM PC helpful. Background in the food service industry desired. Please send cover letter and resume to Cynthia Smithbower by

June 15, 1985.
Job Number: PT203

***Position:** Student Development Specialist II
Department: Office of Instruction, Agriculture & Life Sciences

Description: Assist the Coordinator of Student Services in providing counseling services, planning and administering the activities of the office, and maintaining the faculty and student advising system for the College of Agriculture and Life Sciences.

Requirements: Bachelor's degree required. One or two years experience in human services area requiring independent decision-making; good organizational skills; strong interpersonal skills with ability to relate to student problems; ability to meet the public, make oral presentations, and write creatively; familiarity with computer and—or word processor desirable. Please send cover letter and resume to Ralph D. Jones by May 31, 1985.

Job Number: PA208

***Position:** Research Support Specialist I
Department: Division of Nutritional Sciences

Description: Design and conduct child growth monitoring evaluation overseas for Cornell Nutritional Surveillance Program. Responsible for research design, field interviewing, and anthropometry, data analysis and assessing implications for health policy makers. Must be willing to relocate to Lesotho, Africa for the year. Full-time, regular until June 1, 1986.

Requirements: Master's degree in nutrition or epidemiology. One year experience in nutrition programs in developing countries. Please send cover letter and resume to Cynthia Smithbower by June 7, 1985.

Job Number: T208

***Position:** Athletic Trainer
Department: Physical Education & Athletics
Description: Assist and oversee the daily management and operation of the Athletic Training Room; Requires the coverage of athletic teams and assisting in the rehabilitation of athletes.

Requirements: Bachelor's degree and National Athletic Training Association (N.A.T.A.) Certification required; Master's preferred. Please send cover letter and resume to Ralph D. Jones.

Job Number: PA201

***Position:** Athletic Trainer
Department: Physical Education & Athletics
Description: Assist and oversee the daily management and operation of the Athletic Training Room; Requires the coverage of athletic teams and assisting in the rehabilitation of athletes.

Requirements: Bachelor's degree and National Athletic Training Association (N.A.T.A.) Certification required; Master's preferred. Please send cover letter and resume to Ralph D. Jones.

Job Number: PA202

***Position:** Administrative Supervisor II
Department: History

Description: Responsible for managing all administrative and accounting—budgeting functions for the department.

Requirements: Bachelor's degree in business or equivalent. Two to three years administrative experience necessary. Applicant should be familiar with the University's administrative structure. Working knowledge of accounting and budgeting techniques and familiarity with office computers

helpful. Please send cover letter and resume to Ralph D. Jones by June 7, 1985.
Job Number: PA207

Position: Director of Class Affairs
Department: Alumni Affairs

Description: Develop and direct operational policies and plans for overall Cornell Class Programs; special units of the program involve Reunion Classes, Non-reunion Classes, and the Cornell Association of Class Officers.

Requirements: Bachelor's degree required. Five years experience in public relations, development or alumni relations. Strong organizational, communication and interpersonal skills. Cornell degree and travel required. Please send cover letter, resume to Ralph D. Jones by May 31, 1985.

Job Number: PA197

Position: Teaching Lab Coordinator
Department: Mechanical & Aerospace Engineering

Description: Responsible for developing and updating manufacturing-related laboratory experiments in consultation with faculty. Instruct and supervise the instruction of these experiments by teaching assistants to students in mechanical engineering and other engineering fields.

Requirements: Bachelor's degree in mechanical or manufacturing engineering or equivalent. Experience in machine shop practice and a working knowledge of electronic devices and instrumentation. Instructional and supervisory experience is desirable. Interest in computer-controlled machine tools, robotics, etc. Please send cover letter and resume to Cynthia Smithbower by May 31, 1985.

Job Number: PT1912

Position: Residence Area Coordinator Band II
Department: Residence Life

Description: Supervise five Residence Hall Directors, direct all staff training, coordinate program development, assist in policy development and implementation and in program budget development for an area of 1,200 graduate and undergraduate students.

Requirements: Master's degree in education—counseling, higher education administration or closely related field is desirable. Registered Physical Therapist in New York State required. Certification by National Athletic Trainer's Association preferred. Please send cover letter and resume to Ralph D. Jones by June 15, 1985.
Job Number: PA1913

Position: Data Analyst
Department: Bursar

Description: Coordinate all data processing functions for the Bursar, Cornellcard, and Loan Systems. Responsible for diagnosing and resolving all suspense items for Bursar and Cornellcard. Implementation of production schedule; assist with Lockbox and cash problems; assist Assistant Bursar in all special projects. Maintain all data, detail audit, and subcode files.

Requirements: Associate's degree in business, data processing, or related area. Working knowledge of data processing; well organized; good problem-solving skills; excellent interpersonal skills for working with interoffice staff as well as Bursar systems users. Microcomputer knowledge helpful. Please cover letter and resume to Cynthia Smithbower by May 31, 1985.

Minimum Starting Salary: \$13,625
Job Number: PT192

Position: Accountant I
Department: Electrical Engineering

Description: Work on special projects under the direction of the Administrative Manager. Update sponsored research accounts; develop inventory control system for school and internal budgets for school accounts. Regular, full-time one year from appointment date.

Requirements: Associate's degree in accounting or related field. At least two year's financial experience, preferably with sponsored research accounting at Cornell. Ability to work independently. Experience using Lotus 1-2-3 and/or dBase III on IBM PC. Please send cover letter and resume to Esther L. Smith by May 31, 1985.

Minimum Starting Salary: \$13,625
Job Number: PC194

Position: Development Officer

Department: Johnson Graduate School of Management

Description: Plan, develop and implement annual fund drive to obtain support from private sources. Plan publications and financial reports. Coordinate School's drive with University Development Office.

Requirements: Bachelor's degree required; Master's degree preferred. Five years fund raising experience required. Good knowledge of computing and knowledge of Cornell desirable. Please send cover letter and resume to Ralph D. Jones.

Job Number: PA159

Position: Technical Consultant III

Department: Theory Center

Description: Coordinate educational and training activities to aid researchers using Cornell's Production Supercomputer Facility. Plan workshops to be held both on campus and nationally. Prepare documentation and instructional materials for supercomputer users.

Requirements: Bachelor's degree or equivalent combination of education and experience. Master's degree or equivalent preferred. Three to five years related experience. Strong written and oral communications skills and demonstrated teaching ability. Mainframe computing experience, preferably on Cornell's IBM mainframe systems. Ability to work closely with scientific researchers. Please send cover letter and resume to Cynthia Smithbower.

Job Number: PT185

Position: Systems Programmer—Analyst III

Department: Theory Center

Description: Under general supervision, be responsible for system analysis, design, programming and documentation for a large variety of projects. Will be the major source of software support and technical leadership for both users and other Theory Center Staff.

Requirements: Bachelor's degree or equivalent combination of education and experience. Master's degree or equivalent preferred. Three to five years experience. Strong technical and communications skills. Wide range of programming experience utilizing many languages. Considerable knowledge of the internal operations of operating systems, especially MVS. CCS operations or operating systems experience preferred. Excellent writing skills. Please send cover letter and resume to Cynthia Smithbower.

Job Number: PT186

Position: Research Support Specialist II

Department: Animal Science

Description: Supervise and operate the ultrasound lab and ultrasonic equipment including several part-time employees. Develop new ultrasonic evaluation techniques, collection, interpretation and computer analysis of data. One year appointment pending renewal of funds.

Requirements: Master's degree or equivalent in animal science or meat science with experience in carcass evaluation or Ph.D. in animal science or meat science. Experience should include slaughter, carcass grading and fabrication, proximal analysis and sensory evaluation of meat. Computer analysis of data and manuscript preparation experience is desired. Please send cover letter and resume to Cynthia Smithbower.

Job Number: PT188

Position: Research Support Specialist (Repost)
Department: Food Science

Description: Provide technical support in research on physical properties of proteins. Will involve determination of processing and chemical factors affecting surface area and flavor absorption, in addition to protein association, viscosity, gelation and surface activity. Help maintain laboratory instrumentation and coordinate purchasing and instrument use. Assist in supervision of lab operations.

Requirements: Bachelor's degree in physical chemistry, materials science or chemical engineering; Master's degree preferred. Knowledge of physical chemistry of proteins. Experience in physical testing of biological—food materials as well as coordinating and maintaining a research laboratory. Please send cover letter and resume to Cynthia Smithbower.

Minimum Starting Salary: \$16,000
Job Number: PT102

Clerical

All applicants interested in positions requiring typing must take an official University test. Tests are given on Monday and Wednesday at 8:00 A.M. in Room 337, Statler Hall. Please contact Staffing Services for an appointment.

*Position: Dean's Office Secretary, GR20

Department: Law School

Description: Provide secretarial and accounting support to the Law school's dean's office and building manager and the school's director of finance and personnel. Word processing; reception; vouchers, budget, quarterly reports, and payroll backup; filing; record keeping.

Description: Perform library security functions, including working at the exit and stacks control desks. Responsible for opening, closing, and making regular tours of the building, also performs a variety of collection maintenance tasks such as shelving, inventory, and book repair. Full-time, regular position. Monday - Thursday, 12:00 p.m. - 8:30 p.m.; Sunday, 12:30 p.m. - 8:00 p.m.

Requirements: High school diploma or equivalent. Ability to work effectively with a variety of people at a public service desk. First aid training desirable.

Minimum Starting Salary: \$9,494
Job Number: C205

*Position: Circulation Assistant—Building Attendant, GR16 (Repost)

Department: Circulation - Uris Library

Description: Inspect knapsacks, briefcases, books, etc. of exiting patrons; answer general questions; perform a variety of clerical duties as assigned; prepare bills for bursar, collections, etc.; may assist with weekly overdue notices. Other duties as assigned. Monday - Friday, some weekend and evening hours.

Requirements: High school diploma or equivalent. Medium typing. Ability to work with a variety of people at a public service desk. Knowledge of basic accounting - billing procedures.

Minimum Starting Salary: \$9,494
Job Number: C166

Position: Administrative Aide, GR22

Department: Cooperative Extension Administration

Description: General supervision of support staff functions within unit. Control day-to-day financial components of the NYS 4-H Foundation; oversee budget and monitor unit funds; supervision of clerical support staff; coordinate and monitor office computerization efforts.

Requirements: Associate's degree or equivalent. Medium typing. At least five years of office experience with a minimum of two years administrative and supervisory experience. Strong background in accounting. Knowledge of word processing and computer equipment necessary. Excellent organizational, interpersonal and communication skills. Ability to work efficiently with a minimum of supervision.

Minimum Starting Salary: \$13,141
Job Number: C198

Position: Administrative Aide, GR21

Department: Veterinary Administration

Description: Assist in the coordination processing of grants and contracts generated by the College of Veterinary Medicine. Expedite research proposals, maintain central college grant and contract file which contains a great deal of confidential information on a microcomputer; add new and update old information.

Requirements: Two years of college or Associate's degree in accounting, business major or equivalent experience. Medium typing. At least two to three years office experience. Data entry and retrieval on an office computer system desirable. Budget experience.

Minimum Starting Salary: \$12,469
Job Number: C197

Position: Accounts Assistant, GR20

Department: Veterinary Administration

Description: Use a microcomputer and standard reporting and forecasting software, prepare financial reports for the College of Veterinary Medicine. Provide assistance in data entry and financial management for the Department of Administration.

Requirements: Associate's degree or equivalent. Medium typing. Previous experience in personal computers necessary. Familiarity with Cornell accounting system helpful.

Minimum Starting Salary: \$11,739
Job Number: C1910

Position: Administrative Aide, GR20

Department: Theory Center

Description: Provide administrative and secretarial support for the Director of Theory Center production super computer facility and PSF staff. Review and type correspondence; appointments; maintain calendar; establish and maintain filing system; bookkeeping; answer telephone. Other duties as assigned.

Requirements: Associate's degree or equivalent in education, experience and training. Medium typing. At least two to four years administrative or secretarial experience. Excellent organizational, interpersonal and communication (written and oral) skills.

Minimum Starting Salary: \$11,739
Job Number: C189

Position: Administrative Aide, GR19

Department: Law School

Description: Provide administrative and secretarial support to the Trial Advocacy instructor. Prepare and distribute of class work; monitor student weekly written assignments; arrange transportation, housing and reimbursement of lawyers and judges; other duties for mock trials; use of personal computer; research cites of cases and articles.

Requirement: High school diploma or equivalent. Business or secretarial school preferred. Heavy typing. Secretarial experience. Strong interpersonal and communication skills. Ability to handle several tasks at same time.

Minimum Starting Salary: \$11,125
Job Number: C199

Position: Office Assistant, GR19

Department: Johnson Graduate School of Management

Description: Maintain computerized subscription list for Administrative Science Quarterly journal. Process checks and invoices; handle reprint permissions, advertising and promotion and distribution of journal. Act as liaison with Post Office.

Requirements: Associate's degree or equivalent. Medium typing. Experience with Cornell accounting system and computers desirable. Excellent organizational and communication skills essential. At least one to three years office experience.

Minimum Starting Salary: \$11,125
Job Number: C192

Position: Secretary, GR16
 Department: University Development
 Description: Provide secretarial support to the Business Manager and the Administrative Aide to the Director of Development Operations. Act as primary switchboard operator for Office of University Development. Type; file; other duties as assigned.
 Requirements: High school diploma or equivalent. Medium typing. Some office experience. Knowledge of electronic typewriter. Excellent telephone techniques and interpersonal skills.
 Minimum Starting Salary: \$9,494
 Job Number: C195

Position: Administrative Aide, GR21 (Repost)
 Department: Africana Studies & Research Center
 Description: Provide administrative and secretarial support to the Director of AS&RC. Type correspondence; assist with budget; supervise and train clerical staff as needed; handle special projects as assigned.
 Requirements: Associate's degree or equivalent in education, experience and training. Medium typing. At least three to five years administrative experience. Excellent organizational, interpersonal and communication skills. Knowledge of accounting, budgeting, word processor or computer helpful. Supervisory experience desirable. Please send cover letter and resume to Esther L. Smith.
 Minimum Starting Salary: \$12,469
 Job Number: C1810

Position: Circulation—Reserve Supervisor, GR20 (Repost)
 Department: Veterinary Library
 Description: Coordinate the daily operation of the Circulation—Reserve Desk and perform various circulation functions. Searches missing items; bills fines and replacements; maintains the reserve collection and stacks; staff the Circulation—Reserve Desk and answers directional and informational questions; trains and oversees 12 student assistants; coordinates non-ILL photocopy service.
 Requirements: Bachelor's degree or equivalent experience and—or training. Light typing. Strong public service orientation essential. Previous library experience highly desirable. Ability to accurately perform and organize detailed work. Strong communication and interpersonal skills.
 Minimum Starting Salary: \$11,739
 Job Number: C4913

Position: Senior Special Collections Assistant, GR20 (Repost)
 Department: History of Science - Olin Library
 Description: Catalog rare books using existing catalog copy; catalog special rare books such as manuscripts and graphics; provide specialized information service; supervise reading room and circulation; make decisions about binding and preservation; search bibliographic records; maintain departmental catalogs; other special projects as appropriate.
 Requirements: Bachelor's degree or equivalent in the humanities and—or the sciences. Excellent reading knowledge of French; reading knowledge of Latin desirable. Ability to work independently and to interact effectively with graduate students, faculty and visiting scholars required. Initiative and a willingness to perform complex tasks in which sensitivity to detail and accuracy is necessary. Appreciation of the nature and significance of rare books. Ability to provide information service for collection users in their research needs.
 Minimum Starting Salary: \$11,739
 Job Number: C024

General Service

*Position: Copy Prep Specialist, GR20 (Endowed)
 Department: Graphic Purchasing Services
 Description: Prepare professional quality mechanical layouts for camera reproduction. Perform occasional design and layout assignments in Graphic Arts; some typesetting on a computer generated photocomposition system. Perform proofreading functions and other relevant work assignments. Monday - Friday, 8:00 a.m. - 4:30 p.m.
 Requirements: Two year community college course work in Graphic Arts or equivalent is desirable. Two to four years experience in Graphic Arts. Light typing. Should have commercial art and mechanical drawing training. Must be familiar with layout techniques, preparation of rough and comprehensive dummies, type and type speci-

cations. Should be qualified to produce camera ready mechanicals including color overlays, tints, color trapping and must be accurate in all preparation procedures.

Minimum Starting Salary: \$11,739
 Job Number: S201

*Position: Custodian, SO17 (Endowed)
 Department: Statler Inn
 Description: Under general supervision, set up and arrange furniture, equipment and props for all special functions; routine custodial cleaning responsibilities. Five days a week, some weekends; 35 hours a week.

Requirements: High school diploma or equivalent. Custodial experience required; preferably in a hotel or banquet facility.
 Minimum Starting Salary: \$4.69—hour
 Job Number: S205

*Position: Custodian, SO16 (Endowed)
 Department: Care of Buildings
 Description: Provide general maintenance and custodial care of buildings and grounds in immediate vicinity of assigned area. Monday - Thursday, 6:00 a.m. - 2:30 p.m., Friday 6:00 a.m. - 1:30 p.m.

Requirements: Ability to use a variety of heavy power operated equipment, climb an 8' ladder and lift 50 lbs.
 Minimum Starting Salary: \$4.47—hour
 Job Number: S206

*Position: Clinic Aide, SO15 (Statutory)
 Department: Veterinary Medical Teaching Hospital
 Description: Prepare linen for sterilization used in operating room. Package materials used for dressings in surgery and treatment room. Monday - Friday, 8:00 a.m. - 5:00 p.m.

Requirements: High school diploma or equivalent.
 Minimum Starting Salary: \$4.63—hour
 Job Number: S203

*Position: Sales Executive (Endowed)
 Department: WHCU Radio
 Description: Advertising sales for WHCU Radio Station. Some typing, salary, commission and expenses. Monday - Friday, 8:30 a.m. - 5:00 p.m.
 Requirements: High school diploma or equivalent. Some typing and care essential. Copy writing helpful and two years sales experiences.
 Job Number: S202

Position: Machinist, GR24 (Endowed)
 Department: National Research and Resource Facility for Submicron Structures
 Description: Position required technical abilities and knowledge in experimental machining, design applications, vacuum technology, heliarc welding, and electronics in order to support complex equipment and research. Monday - Friday, 39 hours a week.

Requirements: High school diploma or equivalent and strong math background. Be a journeyman machinist with eight years minimum experience in experimental and research machining. Must have own tools, be imaginative, creative, and accurate with general shop machines, and have experience with wide range materials, i.e., stainless steel, nickel, molly, copper, brass, aluminum, plastics, etc. Experience in vacuum technology, heliarc welding, metallurgical and design applications, and electronics are essential requirements. Person should have cooperative attitude, ability to self-start and work with minimum supervision. Knowledge in chemistry, plumbing, and carpentry also helpful.
 Minimum Starting Salary: \$14,779
 Job Number: S195

Position: Shift & Maintenance Mechanic, SO23
 Department: Maintenance & Service Operations
 Description: Maintain and trouble shoot steam, hot water and glycol heating systems. Work on ventilation and air conditioning systems. Electrical and other mechanical systems as applied to industrial, educational, research and commercial buildings.

Requirements: High school diploma or equivalent. Considerable experience in building trades as described above. Must be in good health, able to work swing shift, able to climb and work from ladders and be able to read blue prints. NYS driver's license required.
 Minimum Starting Salary: \$6.61—hour
 Job Number: S187

Technical

Applications for Technical positions should include the following information:
 - Scientific/technical courses completed
 - Lab techniques and/or equipment (knowledge of)
 - Special skills (e.g. knowledge of computer language)

*Position: Environmental Safety Technician, GR23

Department: Environmental Health
 Description: Perform routine inspections of workplaces to evaluate health hazards, investigate reports of possible health hazards; perform environmental sampling, and maintain instruments.

Requirements: Associate's degree or equivalent; Bachelor's degree or equivalent preferred, with coursework in chemistry, biology, or engineering. Some laboratory experience as well as health and safety training desirable; good interpersonal skills essential. Apply by June 7, 1985.

Minimum Starting Salary: \$13,928
 Job Number: T202

*Position: Technician, GR21

Department: Applied & Engineering Physics
 Description: Operate vertebrate cell culture facility; provide technical advice, service and cells for clients of Center. Maintain and establish living cell cultures provide cells for research, maintain the facility, obtain supplies and carry out experiments with tissue culture cells. Perform various biochemical assays, fluorescence staining and microscopic recording, and participate in experiments for ongoing membrane biophysics research.

Requirements: Bachelor's degree or equivalent in cell biology or biochemistry. Knowledge and hands-on experience with vertebrate cell tissue culture necessary. Some experience with biochemical, biophysical and immunological procedures, fluorescence photomicroscopy, photographic darkroom techniques and minicomputer use would be helpful.

Minimum Starting Salary: \$12,469
 Job Number: T205

*Position: Technician, GR20

Department: Division of Nutritional Sciences
 Description: Isolate, maintain and characterize plant tissue cultures with improved amino acids. Prepare stock solutions and media, transfer cultures aseptically, extract amino acids, and prepare extractions for amino acid analyzer. Full-time, regular until September 30, 1985; renewal contingent on continued funding.

Requirements: Bachelor's degree in chemistry, biology or a related field or equivalent. Experience with basic lab equipment such as (pH) meter, fraction collectors, spectrophotometer and scintillation counter. Apply by June 7, 1985.

Minimum Starting Salary: \$11,739
 Job Number: T207

*Position: Technician, GR19

Department: Ecology and Systematics
 Description: Perform starch gel electrophoresis including: pouring gels, dissections, tissue homogenizing, cutting gels, and glassware washing. Duties also include data processing, ordering chemicals, xeroxing and library searches.

Requirements: Bachelor's degree or equivalent in biological sciences. General laboratory procedures. Preferably with experience in horizontal starch gel electrophoresis of salmonids. Apply by June 7, 1985.

Minimum Starting Salary: \$11,125
 Job Number: T209

*Position: Technician, GR19

Department: Entomology - Geneva, NY
 Description: Perform assays of the interactions of neurotoxic insecticides with possible sites of action in nerve membrane preparations.

Requirements: Bachelor's degree in biology or chemistry or Associate's degree in biology or chemistry with two to three years of practical experience. Training or practical experience in the use of radioisotopes in biological research.

Minimum Starting Salary: \$11,125
 Job Number: T204

*Position: Technician, GR19

Department: Biochemistry, Molecular & Cell Biology
 Description: Carry out isolation, labeling and sequence analysis of DNA.

Requirements: Bachelor's degree or equivalent in biochemistry or microbiology. At least 6 months of research experience with general microbiological and biochemical procedures.

Minimum Starting Salary: \$11,125
 Job Number: T203

*Position: Technician, GR18

Department: Division of Nutritional Sciences
 Description: Perform standard biochemical procedures for research involving the study of factors affecting the amino acid and protein composition of plants. Full-time, regular until September 30, 1985; renewal contingent on continued funding.

Requirements: Bachelor's degree in biochemistry, chemistry, or a related field or equivalent. Knowledge of standard biochemical equipment (e.g. spectrophotometer, liquid scintillation counter) and procedures (e.g. colorimetric procedures) preferred. Apply by June 7, 1985.

Minimum Starting Salary: \$10,500
 Job Number: T206

Position: Technician, GR22

Department: Pharmacology
 Description: Conduct experiments relating to research on acetylcholine receptors. Duties include preparing solutions, animal handling (electric rays and eels), maintaining clonal cell line, performing radioligand binding studies and calculating data, including statistical analysis, graphical representation and use of computer.

Requirements: Bachelor's degree in biochemistry, neurobiology or a similar subject. Some laboratory experience. Familiarity with centrifuges, beta and gamma counters, spectrophotometer, tissue culture and electrophoresis equipment preferred.

Minimum Starting Salary: \$13,141
 Job Number: T192

Position: Research Equipment Technician, GR22

Department: Theoretical and Applied Mechanics

Description: Design and test metal equipment using machine shop, rock machining instruments; repair and operate Instron tension torsion servo control machine. Assist in preparation of experiments.

Requirements: Associate's degree or equivalent in electronics, mechanical technology or related field. Several years experience in either machine shop, skills, digital and analog electronics, or FORTRAN and assembly programming. Experience machining of ceramics helpful. Please send cover letter and resume to Cynthia Smithbower by May 31, 1985.

Minimum Starting Salary: \$13,141
 Job Number: T196

Position: Technician, GR21

Department: Avian & Aquatic Animal Medicine - Eastport, NY

Description: Provide assistance to virologist in microbiology laboratory and in the implementation of experiments with ducks, involving production of duck biologics.

Requirements: Associate's degree or equivalent in biology. Some experience in microbiology laboratory helpful.

Minimum Starting Salary: \$12,469
 Job Number: T193

Position: Accelerator Technician, GR20-26

Department: Laboratory of Nuclear Studies
 Description: Under supervision, perform technical work related to the maintenance of an accelerator system. Duties include electrical wiring, power and control wiring, mechanical fabrication including machining and welding, plumbing, soldering, and brazing on a closed, low conductivity water system. Fabricate or modify electrical or mechanical devices working from sketches or general instructions.

Requirements: Associate's degree or equivalent in mechanical—electrical field. Considerable mechanical experience. Please send cover letter and resume to Cynthia Smithbower by May 31, 1985.

Minimum Starting Salary: \$11,739
 Job Number: T194

Position: Technician, GR24

Department: Vegetable Crops
 Description: Provide technical support to project leader involved with a variety of research projects. Oversee and coordinate the general implementation of field and greenhouse plantings for breeding projects involving onions, cucumbers, melons and squash. Conduct tests of disease resistance, record data, assist in writing technical reports and correspondence with seed companies. Develop and implement computerized programs.

Requirements: Bachelor's degree or equivalent in agricultural science with background in plant

Brief Reports

Parking Permit Forms Due Back By May 31

All university staff and faculty parking permit applications must be returned to the Traffic Bureau by Friday, May 31, according to Sally Van Etten, Traffic Bureau manager.

The May 17 deadline has been extended since a number of applications were mailed out late, she said.

Staff or faculty members who have not received a vehicle registration and parking permit application should call the Traffic Bureau at 256-4600, or stop by the office at 116 Maple Ave., Van Etten said.

Safety Shoemobile On Campus May 30

By popular demand, the Lehigh Safety Shoemobile will return to the campus Thursday, May 30.

It will be at Stocking Hall, Tower Road, from 9 a.m. to 12:30 p.m. and in the Statler Auditorium area from 1:30 to 3:30 p.m.

Additional details may be obtained by calling Alex L. McCord, Department of Life Safety Services at 256-3741.

Final Law Convocation For '85 Class is Sunday

The final convocation of the Cornell Law School's class of 1985 will take place at 3 p.m. Sunday, May 26, in Bailey Hall on campus.

More than 1,000 parents and friends are expected to attend the ceremony that will be followed by a reception in the Myron Taylor Hall courtyard.

Cornell President Frank Rhodes will greet the assemblage, which will be addressed by Faust F. Rossi, the Samuel S. Leibowitz Professor of Trial Techniques. Law School Dean Peter W. Martin will preside.

There are 176 students in the law school scheduled to receive JD degrees and 13 scheduled to receive LL.M. degrees at the Cornell University Commencement Sunday, June 2.

Summer Class Planned In Fitness, Aerobics

A summer class in fitness and aerobics for faculty and staff will be conducted during the noon hour June 3 through August 30. There is a \$33 fee. For more details call Nancy Cool at 256-7105.

McDaniel

Continued from Page 1

niques of modern experimental high energy physics, beginning with the pair spectrometer, which is used to measure electron-positron production by gamma rays. His study of the production of K mesons by high energy photons drew on the time-of-flight techniques to identify the K mesons.

McDaniel became an associate professor in 1948 and a full professor of physics in 1956. He became associate director in the Laboratory of Nuclear Studies in 1960 and was named director of the laboratory in 1967, taking the place of Robert R. Wilson, who went to the directorship of the Fermi National Accelerator Laboratory.

McDaniel was director of the laboratory during the completion of the 12 GeV electron synchrotron and the Cornell Electron Storage Ring, facilities funded by the National Science Foundation of the federal government and used by article physics researchers from Cornell and other universities. During 1972, he was acting head of the Accelerator Section at Fermilab when the 500 GeV proton synchrotron was brought into operation.

In the 1950s, McDaniel conducted his research at the Australian National University, under a Fulbright Award, and at the University of Rome and the Frascati (Italy) Synchrotron Laboratory, with Guggenheim and Fulbright awards. He was a trustee of Associated Universities, Inc. (1963 to 1975)

and a member of the U.S. Department of Energy's High Energy Physics Advisory Panel (1975 to 1978). He was a trustee for years for the Universities Research Association, the organization with responsibility for Fermilab and the research and development of the National Academy of Sciences, to which he was elected in 1981.

McDaniel, who will be 68 next month, plans to continue teaching at Cornell, together with his work on the SSC board.

With a circumference of 90 to 160 kilometers (compared to the six-kilometer circumference of this country's largest current machine, Fermilab) the SSC will accelerate beams of protons that are injected from a cascade of smaller synchrotrons.

If funded by the federal government, the SSC will be constructed on a site yet to be named.

"Sophisticated research instruments involving clever innovations have been constructed under McDaniel's leadership. With them, important new characteristics of quantum — of which the world is made — have been discovered," Robert Wilson said of McDaniel's accomplishments to date. Undoubtedly, there are more to come.

Job Opportunities

breeding or plant pathology and variety evaluation. Must have NYS certification for commercial pesticide use. Some background in growing vegetables. Computer experience desirable.

Minimum Starting Salary: \$14,779
Job Number: T182

Position: CHESS Operator, GR24
Department: CHESS (Applied and Engineering Physics)

Description: Provide technical assistance to users of six experimental beam lines at the Cornell High Energy Synchrotron Source. Responsible for the development and maintenance of x-ray instruments, both hardware and software. Supervise the enforcement of various safety codes. May assist in experimental programs. Some evening and weekend hours.

Requirements: Bachelor's degree in the physical sciences or equivalent experience. Good mechanical and lab skills.

Minimum Starting Salary: \$14,779
Job Number: T169

Part-time

*Position: Secretary, GR20
Department: Public Affairs Regional Offices, Houston, TX (off campus)

Description: Type correspondence, forms, vouchers and other materials; keep records; provide file maintenance and receptionist duties; handle meeting and travel arrangements for Director of Southwest Regional Office; handle special projects as needed; interaction via phone and in person with alumni. Thirty hours a week.

Requirements: High school diploma or equivalent. Secretarial school desirable. Medium typing. At least two to three years secretarial experience. Excellent organizational, interpersonal, and communication (written and oral) skills.

Minimum Starting Salary: \$11,739—annual equivalent
Job Number: C207

*Position: Records Assistant, GR16
Department: Catalog—Olin Library

Description: Participate in project to convert catalog records in sciences and technology into machine readable form using RLIN system; input original catalog records into RLIN; photocopy catalog cards; sort and file worksheets; stamp shelf list cards. Monday - Friday, 20 hours per week.

Requirements: High school diploma or equivalent. Medium typing. Ability to perform detailed and repetitive work accurately. Knowledge of computer input helpful. Some office experience

helpful. Familiarity with at least one foreign language.

Minimum Starting Salary: \$9,494—annual equivalent
Job Number: C2011

Position: Secretary, GR18
Department: University Press

Description: Provide office support for managing editor and four editors. Prepart schedules; type letters; maintain records; xerox; prepare manuscripts; answer phone; read indexes. Other duties as assigned. Monday - Friday mornings, 5 hours a day. Requirements: High school diploma or equivalent. Some college desirable. Heavy typing. Previous office experience. Excellent organizational skills. Attention to detail necessary.

Minimum Starting Salary: \$10,500—annual equivalent
Job Number: C196

Position: Technical Assistant, GR17
Department: Entomology

Description: Gather and analyze data related to insect specimens; provide laboratory assistance involving washing glassware and clean-up as well as preparation of specimens for study. Responsible for larval rearing program. Will oversee several student employees. Monday - Friday, 20 hours per week; 39 hours per week during summer field season until April 1986.

Requirements: Bachelor's degree in entomology. Knowledge of insect identification essential.
Minimum Starting Salary: \$9,967—annual equivalent

Job Number: T195

Position: Records Assistant, GR16
Department: Catalog—Olin Library

Description: Participate in project to convert library catalog records into machine readable form using RLIN; input original catalog records in RLIN; photocopy catalog cards; sort and file worksheets; stamp shelflist cards representing completed records. Monday - Friday, 20 hours per week.

Requirements: High school diploma or equivalent. Medium typing. Ability to perform detailed and repetitive tasks accurately. Knowledge of computer input helpful. Some office experience helpful. Knowledge of or experience with foreign languages helpful.

Minimum Starting Salary: \$9,494—annual equivalent
Job Number: C1912

Position: Records Assistant, GR16
Department: Catalog—Olin Library

Description: Participate in project to convert library catalog records into machine-readable form

using RLIN; input original catalog records into RLIN; photocopy catalog cards; sort and file worksheets; stamp shelflist cards representing completed records. Monday - Friday, 20 hours per week.

Requirements: High school diploma or equivalent. Medium typing. Ability to perform detailed and repetitive tasks accurately. Knowledge of computer input helpful. Some office experience helpful. Knowledge of or experience with foreign languages helpful.

Minimum Starting Salary: \$9,494—annual equivalent
Job Number: C1911

Position: Teaching Support Specialist II
Department: Western Societies Program

Description: Supervise the planning and implementation of instruction directly sponsored by the Western Societies Program and taught within regular academic departments. Includes supervision of Teaching Assistants, co-ordination of course logistics and field work components. Serve as undergraduate student advisor for European Studies students; assist students studying and interning abroad. 20 hours per week, one academic year appointment.

Requirements: Bachelor's degree with background in Western Europe (history, government, language) required. Graduate degree preferred but not required. Work experience at Cornell required. Fluency in at least one modern European language helpful. Please send cover letter and resume to Ralph D. Jones by May 31, 1985.

Job Number: PA187

Temporary

TEMPORARY OPPORTUNITIES: Cornell University has an ongoing need for qualified individuals willing to work on a temporary basis. We frequently need individuals to work as word processor operators, secretaries, typists, receptionists, office assistants, account clerks and data entry clerks. Requirements for these positions range from medium to heavy typing, some office—secretarial experience and knowledge of word processing equipment. If you have an interest in working on a temporary basis in the clerical area, please contact Tambi Benzoni at 256-5226 ext. 266; in the general service area, please contact Sharon Warunek at 273-1179. Temporary opportunities in the technical field are posted here, and applications are made with a general application, cover letter and resume.

*Position: Temporary Staff Writer
Department: Food Science

Description: Do library research on specific scientific topics, particularly nutritional aspects of

fatty acids and— or food protein chemistry; conduct literature searches and collate publications; summarize scientific publications; assemble written overviews and write summaries. Monday - Friday, 20-25 hours per week. Three to six month position.

Requirements: Bachelor's or Master's degree in biological sciences—chemistry. Medium typing. Some research experience in appropriate areas. Evidence of writing ability. Competence in word processing (IBM).

Minimum Starting Salary: \$6.00—hour
Job Number: C204

Academic

Please contact department directly.

*Position: Lecturer—Staff Attorney
Department: Law School
Contact: Barry Strom, Director, Cornell Legal Aid, Myron Taylor Hall
Job Number: A201

*Position: Reference Librarian
Department: Engineering Library
Contact: Carolyn A. Pyhtila, Personnel Director, 235 Olin Library
Job Number: A202

*Position: Foreign Language Instructors
Department: Department of Modern Languages and Linguistics
Contact: Jay H. Jasanoff, Chairman, Department of Modern Languages and Linguistics, Myron Taylor Hall
Job Number: A203

*Position: CISER Archivist, Associate Librarian
Department: CISER
Job Number: A204

*Position: Lecturers in Philosophy
Department: Sage School of Philosophy
Contact: Carl Ginet, Chair, Department of Philosophy, 224 Goldwin Smith
Job Number: A205

Position: Associate Librarian, CA5
Department: CISER
Contact: Dr. Robert McGinnis, Director, CISER, 323 Uris Hall
Job Number: A192

Position: Lecturers in Philosophy
Department: Philosophy
Contact: Carl Ginet, Chair, Department of Philosophy
Job Number: A191

A Cornell Newsletter Published by Employees for Employees

Ann Boone Pendleton

Ann Pendleton Retires At Cornell Law School

Ann Boone Pendleton, '43, College of Arts and Sciences, retired May 1 as the manager of administrative operations for the Law School. She came to work in late fall, 1963, after raising five children. Her first assignment was temporary secretary and within four months was in charge of the secretarial pool.

Ann's responsibilities at the Law School grew steadily over the years. She has handled staff personnel administration, special purchasing and fiscal supervision, and certain aspects of billings supervision, including maintenance of the tower apartments and furnishings. Her primary responsibility has been in the area of support staff personnel.

Ann had a sympathetic ear and will be missed by staff members who came to rely on her calm demeanor, even in an emergency. It is her desire to be remembered by the staff through the establishment of a loan fund that will be used to help needy secretaries cope with one-time emergency expenses.

Ann has lived in Forest Home for many years with her husband, Dick, '42, College of Agriculture. She has seen many changes on the campus and remembers vividly the disappearance of male undergraduates dur-

ing World War II and later the arrival on campus of various military contingents. She is looking forward to a retirement that will include visiting relatives and friends and participating in campus and community volunteer work.

In addition to her dedicated service to the Law School, Ann has been a volunteer worker on the Employee Day activities since the program began and for several years was a member of the Personnel Support Group and the Controllers Support Group. She served on the Special Requests Appeals (SRAB), the Committee on the University as an Employer (CUE) and the Education Committee of the Cornell Federal Credit Union.

Ann and Dick are active members and workers of the Cornell Recreation Club and she has been a member of the Industrial Management Club and has served as editor of its newsletter.

Although she has retired, Ann plans to continue to offer her services to Cornell University as she has done so generously in the past. She has agreed to serve on the Employee Day Committee for the October 5, 1985 affair. Her record is an enviable one.

Summer Jobs for Between-Terms Employees

The nature of the University's business is such that certain units experience a lull in activity during the summer months. Traditionally, some employees in these units have been hired on nine- or ten-month term appointments.

Last year, in an effort to find summer jobs for between-terms employees, Staffing Services and Employee Relations identified summer job opportunities and helped match job requirements to the skills of the employees.

Staffing Services and Employee Relations are currently identifying potential summer jobs for between-terms employees and individuals who want to work. As the employees are identified, they are being contacted

Cornell Careers Offers Manager's Viewpoint

Cornell Careers recently presented the second of three seminars with a panel discussion focusing on 'The Manager's Point of View; what managers look for when hiring.

Presented as a follow-up to the first seminar entitled 'Identifying Transferable Skills,' the panel featured Tom Devlin, director of University Career Center, Rita Harris, Personnel Office, NYS College of Veterinary Medicine, and Jack Lowe, director of Administration and Finance, College of Arts and Sciences.

While not intended to be a 'how-to' workshop, the panelists did offer ideas that would be practical, usable, and adaptable during the course of a job search. "There is more involved in a successful career move than just completing an application," Lowe stated.

"You often hear people say, 'Cornell should find me a job.' Individuals need to take this responsibility into their own hands," Harris said.

Panelists offered the following suggestions to employees considering a career move:

—Demonstrate a genuine interest in the

position you apply for and the work it involves, rather than focus solely on moving to a higher grade or salary level.

—Be realistic about the positions you apply for, and make sure you have the basic skills required to do the job.

—Do your "homework" regarding the position. Find out what is involved, what kind of work the department does, what contributions you might make, and what you could learn from the position.

—Be aware of and avoid the common mistakes that could prove costly in an interview, such as inappropriate dress, eating, smoking, or a discussion of personal problems.

—Be assertive, not aggressive. Don't be afraid to ask questions, and do send a follow-up letter thanking the employer for his time and restating your interest in the position. After the interview is over, keep phone calls to the prospective employer to a minimum.

—Be yourself — present yourself, your skills and abilities in a positive light. You have a lot to offer!

Select BENEFITS

Nearly 7,000 employees attended Select Benefits informational meeting.

Three Select Benefits CONTACTS have been mailed to your campus address.

Information and enrollment forms will arrive in late May.

The enrollment period has been extended until June 14.

LIFE SAFETY LINES

Safe Disposal of Chemical Waste

In May 1980, the Environmental Protection Agency (EPA) published regulations to protect the environment from the improper management of hazardous

wastes. These regulations implement the Resource Conservation and Recovery Act of 1976 (RCRA) by providing a comprehensive federal regulatory program. In 1984 the New York State legislature assumed Phase One Authorization to implement RCRA regulations and charged the New York State Department of Environmental Conservation with the enforcement duties.

Cornell University is classified as a 'generator' and 'transporter' of hazardous waste chemicals and is required by law to label, collect, package, and transport in strict compliance with Department of Transportation (DOT) and Department of Environmental Conservation (DEC) regulations. Life Safety Services is the federally-registered University department charged with the man-

agement of hazardous waste. Chemical pickups are performed on campus routinely.

Federal and State legislation provides criminal penalties for misrepresentation or improper disposal, including 'down the drain,' of hazardous waste. The following procedures will help assure the members of the faculty and staff in the laboratories of their continued compliance with the applicable DOT, EPA, and DEC regulations.

Procedures for Disposing of Hazardous Waste Chemicals

1. Call Life Safety Services, 6-3741, to request the 3" x 2" green and white container labels and the larger 3" x 6" chemical disposal request forms.

2. Complete the 3" x 2" container label following the directions on Page 2 and attach one label to each and every container.

3. Place the waste containers in a strong cardboard box with cardboard separations between glass containers to avoid breakage

during transport. Mark each box "FOR LIFE SAFETY." Each box must be able to be safely carried by one person.

4. When ready to be picked up, place the box in the area designated in the chemical disposal request form.

5. Complete the 3" x 6" chemical disposal request form following the same directions as the container labels. Send the request form to Toboggan Lodge to direct Life Safety personnel to the chemical pickup.

Questions or comments for 'Life Safety Lines' should be addressed to: L.S.S. Ed Kowalski, Cornell University Life Safety Service, Toboggan Lodge, Cornell University, 256-3482.

UNICORN STORY

by LEONA HOUSE

Warm days in May one can catch a glimpse of them. Frolicking in the evergreen meadows, hind legs kicking high in the air, laughing at life. These playful creatures are enjoying the now time—they know that time is short for them. Their substance is air, shaped and molded into form. Knowing their space in time is limited to what is, they seek not to change it, they accept it; loving what they have for now. If by chance you see a unicorn never try to catch him. He was created free, like the spirit that dwells within me. His freedom takes him to every corner of the earth, to roam and experience everything under the sun. He will dissipate back into the air when his spirit to roam and life ceases. This happens to them all in time, the need to be with their own kind becomes too great to carry alone. When they discover the need to share, to touch one another, they fade into giant herds of unicorn to be seen by free spirits on warm days in May.

General Stores Operations Move to Orchard Park

In July, 1984, General Stores merged with the Orchard Warehouse—Central Receiving complex located in the Orchard Service Park. This April the office staff of General Stores moved from the Humphreys Service Building to a new home at the Central Receiving Orchard complex. Office personnel and phone numbers for General Stores remain the same -- only the location has changed.

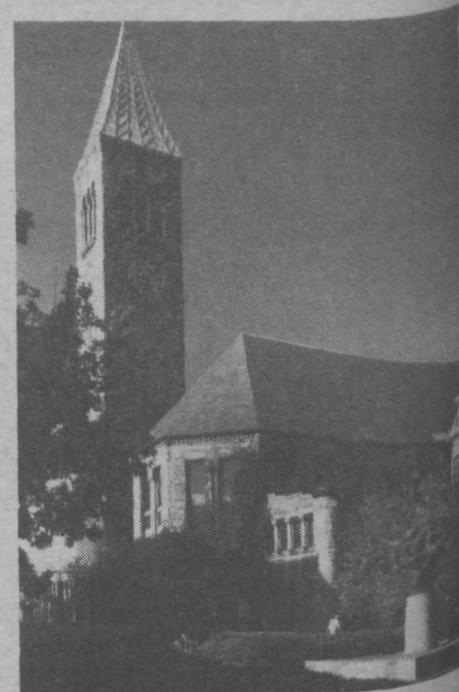

Future changes this summer will include the relocation of selected stock items such as lab apparatus, janitorial supplies and office supplies to the Central Receiving Orchard complex. This relocation will enable General Stores to provide more efficient receiving, storage, and distribution of bulk items. Lamping supplies have already been moved to Central Receiving.

If you come to General Stores for over-the-counter purchases, we suggest you call Stores (6-5121) to determine which location has the available stock of items that you need.

Mail order forms and office memoranda to: General Stores, Route 366, Central Receiving Warehouse.

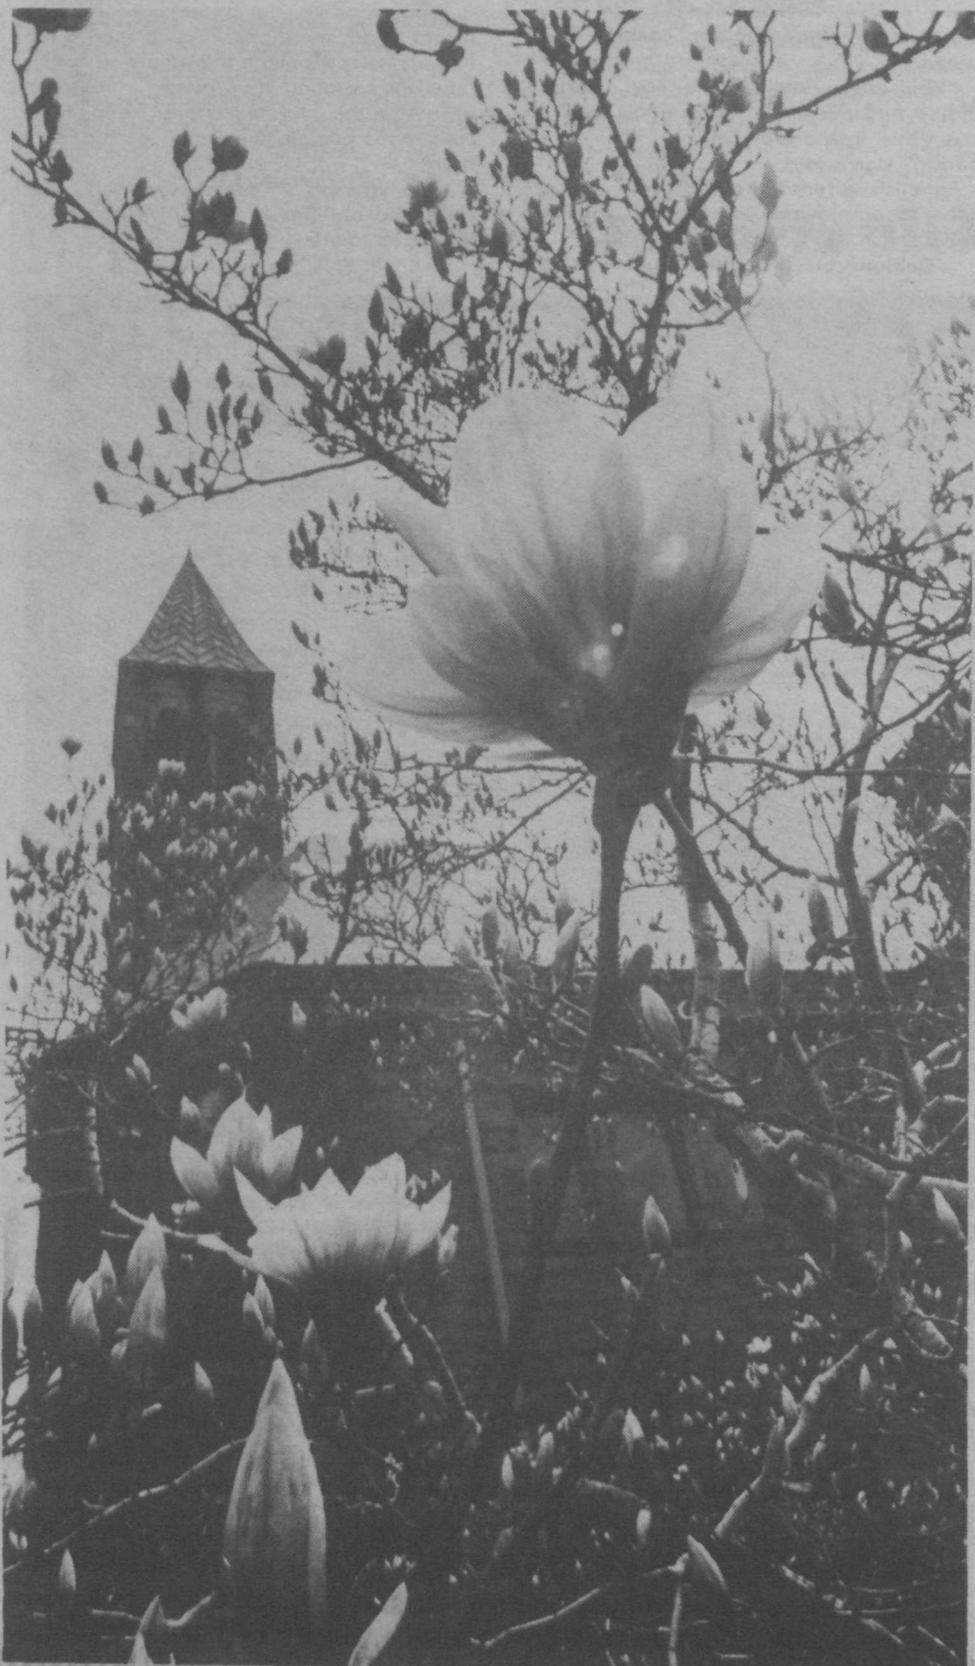

Our 1985 Stock Catalog is available at both store locations or by calling 6-5121.

General Stores stocks and furnishes commonly used items to departments at prices equal to or lower than those from commercial sources. With your support General Stores will continue to meet this need.

CORNELL RECREATION CLUB

165 Day Hall Ithaca, New York 14853

Annual Picnic, Night at the Races, Shopping Spree Splendid Trips

by Carol M. Pound

The 4th Annual CRC Picnic will be held on Saturday, June 22, 1985 between 10:00 a.m. and 6:00 p.m. It will be held at Helen Newman, with swimming and bowling available. The Kentucky Road Band will be playing between 3:00 and 6:00 p.m. You will have your choice of chicken, roast beef, or lobster (for an additional \$5.00 fee). Members are admitted free and you may bring a non-member guest for \$7.00. Individual—single parent members may bring one adult guest for \$5.00. For guests under 12 years old the charge is \$4.00. Tickets are now available at the CRC Office. Everyone attending must have a ticket. Also, don't forget to bring along a dish to pass. See you at the picnic!

How about an evening at the horse races? We have a bus going to Vernon Downs on Saturday, May 25, 1985. The price is \$22.00 which includes bus fare, admission to the club house, and a full buffet dinner.

Get your reservations in if you are interested in a SHOPPING SPREE to Reading, PA on June 1, 1985. Dot Messenger will be the group leader. It should be a lot of fun for any bargain hunters as well as the browsers.

If you want to head in the other direction, we have planned a trip to Toronto, Canada

between August 15-18, 1985. The price is \$210.00 and much is included in this trip. There is a group dinner, an evening bus tour of the city, a day at the Canadian National Exposition, a day at Ontario Place, dinner— theater with 'A Chorus Line,' and a few other adventures if you have the time. The money is due by July 1, but make your reservation soon as the bus is filling.

Anyone interested in going to Hawaii in January 1986 should make their reservations now. It should be just as good, if not better, than the last trip to Hawaii in January 1984. Call the CRC Office (6-7565) for details.

Events we are working on for this summer include a trip to Yankee Stadium for the Old Timer's Game on July 13 and also an evening trip to the Hill Cumorah Pageant in late July. Details will be available in upcoming newsletters.

The CRC Office is accepting nominations for election of CRC Board of Directors members. If you wish to nominate someone or enter your own name, please submit it, in writing, to 165 Day Hall by May 24.

Our poster contest is over and we are happy to announce the winner. Congratulations to Lori Beach, who entered a cute frog poster. Lori is 12 years old and is in the 6th grade at Immaculate Conception School.

"Grand Dan" is the title of this honorable mention winner in this year's Networking Photo Contest. The photograph is by Ann Dyckman of Human Development and Family Studies.

Leadership Leads

BY GEORGE PETER

In an earlier issue we reported on leadership concepts by Dr. Tom Peters. He spoke on April 12 as part of the Entrepreneur of the Year program sponsored by the Johnson Graduate School of Management.

Dr. Peters made some very important points which are listed below:

The role of the supervisor (leader)

SHOULD BE	BUT NOT THIS
Cheerleader	Cop
Enthusiast	Referee
Nurturer	Devil's advocate
Coach	Nay sayer
Facilitator	Pronouncer

The supervisor, or leader, should be there to create a vision. He or she must play the role of servant, run interference and focus the group on the goals.

The leader should promote the value of the product and the value of the service. But above all the leader should promote the dignity and worth of each individual.

An honorable mention winner in this year's Networking Photo Contest was this photograph, entitled "Rocks and Water," by Diane E. Sheridan of Endowed Accounting. From time to time, honorable mention winners will be published in Networking.

Employee Calendar

Events of Particular Interest to Cornell Employees

Saturday, May 25. Cornell Recreation Club trip to Vernon Downs Race track, contact Peg Beach, 6-7565, for further information.

Saturday, June 1. Cornell Recreation Club One day shopping spree to Reading, PA. Cost is \$22/person, \$5 additional to non-members. Contact CRC Office for further details.

Wednesday, June 5. Employee Assembly meeting, 12:15 p.m., B-8 Roberts Hall.

Wednesday, June 12. Brown Bag Luncheon, "Gender Roles in America: A Historical Perspective," sponsored by the Employee-elected Trustees and the Employee Assembly, noon, Space Sciences Building, Professor Mary Beth Norton, History Department, speaker.

Wednesday, June 19. Employee Assembly meeting, 12:15 p.m., Day Hall, Third Floor Conference Room.

Wednesday, July 3. Employee Assembly meeting, 12:15 p.m., B-8 Roberts Hall.

Wednesday, July 17. Employee Assembly meeting, 12:15 p.m., B-8 Roberts Hall.

Wednesday, August 7. Employee Assembly meeting, 12:15 p.m., B-8 Roberts Hall.

Thurs. — Sun., August 15 — 18. Cornell Recreation Club trip to Toronto, Canada. Cost is \$210/person, \$5.00 additional to non-members, (double occupancy). Contact CRC Office for further information.

Wednesday, August 21. Employee Assembly meeting, 12:15 p.m., B-8 Roberts Hall.

Submit listings for Employee Calendar to editor, University Services, 130 Day Hall.

Employee Assistance Program Explains Appointment Procedure

Promotion! New job! The excitement and challenge -- the stress and frustration! Even a positive change like a promotion may feel overwhelming and coping may be difficult. Stress can result from positive change as well as from difficult situations, like family and relationship problems, drinking or drug abuse, insomnia or other personal concerns.

If you feel stress or uncomfortable due to any of these situations, you may want to consider calling the Employee Assistance Program (EAP). Perhaps you want to call, but delay because you don't know what to expect. To help you feel more confident about calling for information or to make a counseling appointment, the EAP staff has outlined below what to expect.

When you call the EAP at Family and Children's Service, the receptionist will ask for your name and a telephone number where you can be reached. Within 24 to 48 hours (or sooner at your request) a counselor will call you back and ask if you are in a position to briefly describe the problem. At this time you and the counselor might make an appointment. Your meeting can take place in downtown Ithaca at the Family and Children's Service Office on 204 North Cayuga Street or on campus, at Anabel Taylor Hall, Room 219.

Parking downtown during business hours is available in the City Parking Garage on Tioga Street. There is metered street parking also, which is most easily accessible during the early morning and evening hours. The Employee Assistance Program is located in the Family and Children's Service building, which is a brown Victorian house, located between the Women's Community Building and St. John's Church. Inside there is a wait-

There are solutions.
Use EAP to find them.

ing room where you will be greeted by the receptionist who will ask your name and let the EAP counselor know you have arrived. You will not need to bring or fill out any forms. Your counselor will escort you to an office.

To meet a counselor at Anabel Taylor, come to Room 219. If the door is closed or a 'Counseling in Session' sign is on the door, you may wait in the auditorium until your counselor comes out of the room.

In either case, a first appointment with a counselor may be stressful for you. You may want to rehearse what to say as the

For Sale: Women's Frye boots. Brown, all leather, knee-high, size 7 1/2. Like new (still in the box!); orig. \$90, asking \$60. 6-7400 or 533-4724.

For Sale: 10 room older Groton village

time for the session approaches. The staff at EAP hopes that explaining these steps may relieve some of your stress.

If you are interested in talking to us about any problem which seems to be causing discomfort, give us a call at EAP -273-1129.

Dedicated Service Award

Many individuals at Cornell University contribute to the success of their department and the University through the use of talents that may not be recognized in their official job description.

Do you know someone who takes particular pride in their work, who exhibits a willingness and cheerfulness in the dispatch of their duties, who provides service beyond the call of duty, and who makes life at Cornell a rewarding experience for those with whom they come in contact? Networking is looking for special people you feel should be recognized for their special contribution. The **Dedicated Service Award** is open to any Cornell employee, regardless of rank.

Nominate someone today by filling in this form and please note that you should accompany your ballot with a paragraph explaining why you wish to nominate this person and a list of signatures from other department members supporting your candidate. If your candidate is selected, we will be in touch with you to supply additional information.

For the Dedicated Service Award I NOMINATE

Please submit all unclassified and ride-sharing ads to Linda English, 61 Brown Rd., Research Park (via campus mail). The deadline for the May 23rd issue of Networking is May 13th. At this time, unclassified ads are free of charge to all Cornell faculty, staff and graduate students.

Photo Contest Winners 1985

GRAND PRIZE, Color, "Blacksmith Shop, Crow Creek, Alaska." CHUCK JORDAN, Foreman, AC&R Shop, Maintenance and Service Operations.

Chuck Jordan's "Blacksmith Shop, Crow Creek, Alaska" and Reina Lopez-Walther's "Mi Hijo (My Child)" were Grand Prize winners in **Networking's** third annual photo contest. They were each presented with a \$75 gift certificate from the Cornell Campus Store at a reception on May 22.

Receiving certificates and prizes for first place were Lori Youngs, Phyllis Barbano, Nellie McEver, Dan Allen, Janice Pack, Andrew Rhoden, Grace Clark, Carol Roberts, Rebecca Reiss, E. Georgiou and Sarah Springer.

Those receiving honorable mention certificates were Robert Young for his untitled photo in the fauna/color category; Tony Tanneberger for his untitled photo in creative photographic techniques/black and white; Irene Brown for her "Survivor" in Cornell/color; Ann Dyckman for "Grandan" in portraits/color; Diane Sheridan for "Rocks and Water" in landscapes/black and white; Todd Gusek for "Entering the Untainted" in candid/color and for "Royalty in Red" in flora/color; Nancy Hutter for her untitled photo in flora/color; Joseph Spencer for "Journey to the Year 2000" in Landscapes/color; Stephen Rawsthorne for "Montezuma Nature Reserve Winter '84" in landscapes color; Chuck Jordan for "Tim —Growing up" in creative photographic techniques/color and E. Georgiou for her untitled photo in Cornell/black and white.

The judges this year were Daniel Schreher, Manager, Photo and Calculator Department, Campus Store; Howard Lyon, Photo Specialist, Plant Pathology; Fred Keib, Manager, Photographic Services, Day Hall and Marcia Kelly, Photographic Assistant, Materials Science Engineering. The judges are to be commended for making the best of a difficult task. There were 168 photographs submitted this year making that the largest number entered.

Remember you will have a chance to see all 168 photos on exhibit at the John Hartell Gallery from June 9 through June 22. There will be more about the exhibit later on.

Congratulations to all who entered. The large number of photos indicate a growing interest in the contest and as always volunteers are needed to make these kind of efforts successful. If you are interested in serving on next year's Photo Contest Committee send your name and address to Donna Updike, 3M11 MVR Hall.

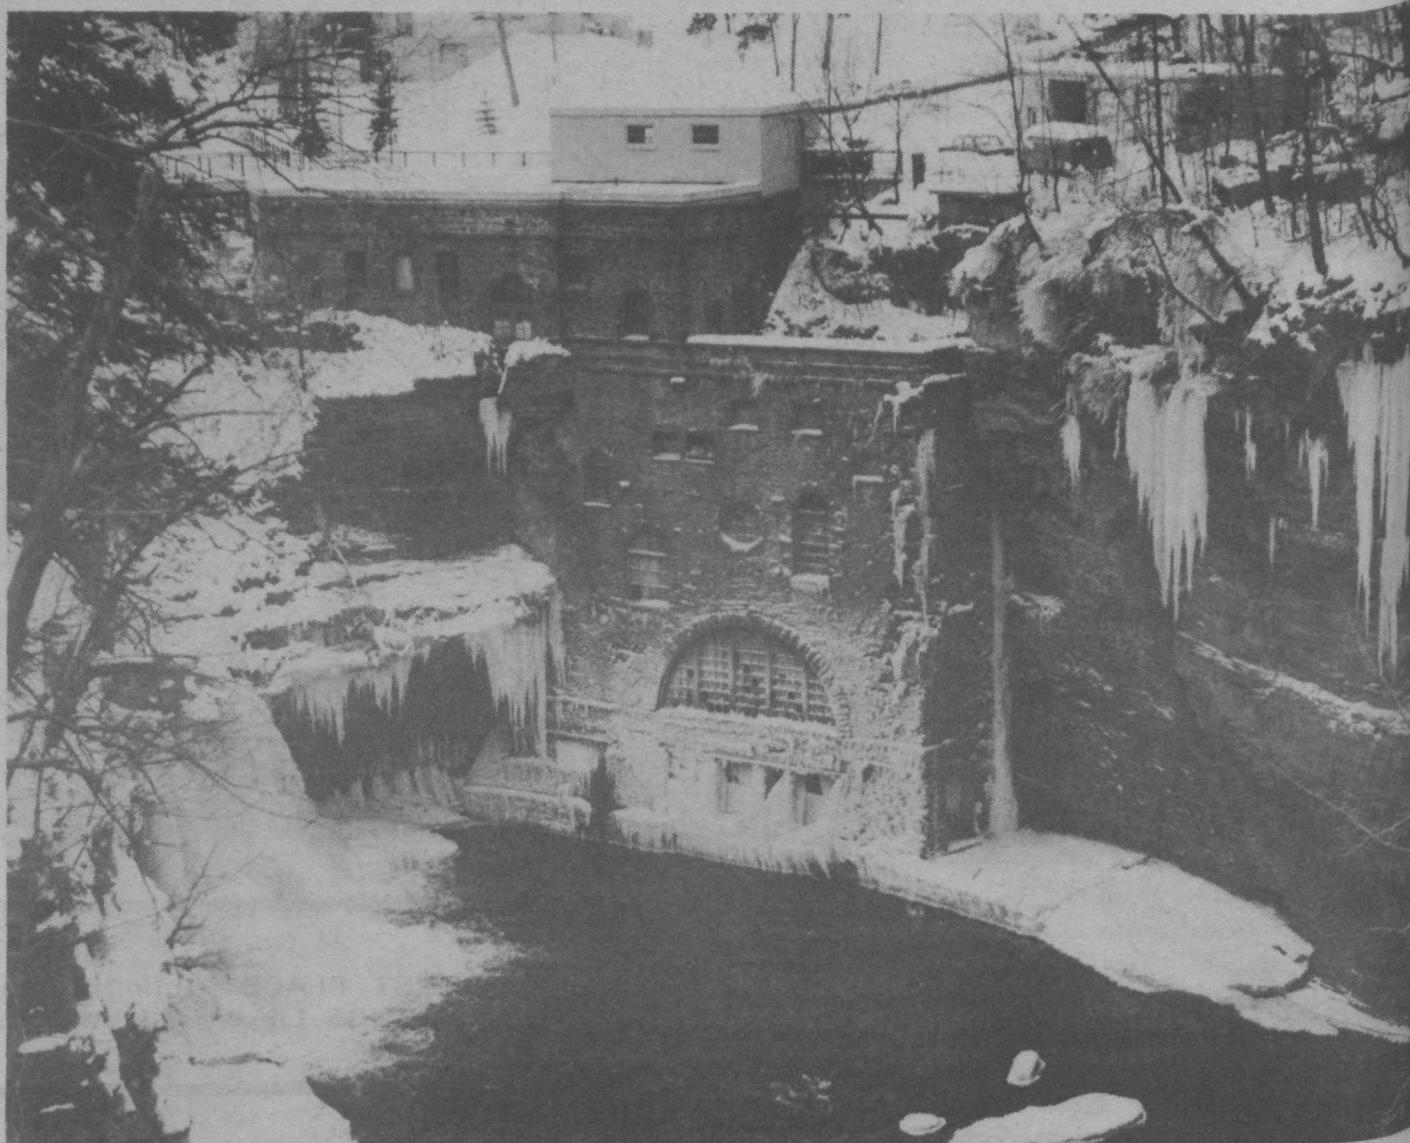

GRAND PRIZE, Black and White, "Mi Hijo (My Child)." REINA LOPEZ-WALTHER, Secretary, Plant Breeding and International Agriculture.
