ITHACA, N. Y., WEDNESDAY, DECEMBER 19, 1900.

PRICE TEN CENTS.

MUSICAL CLUBS' TRIP.

Final Arrangements—Program—Men Who Play and Sing.

In the last issue of the NEWS a detailed account was given of the Musical Clubs' coming trip. During the past week several more entertainments have been announced; before the Rochester concert Mrs. Dr. Mulligan will give a reception for the clubs. While at Pittsburg, a reception will be given to the clubs by Mrs. Thomas Turnbull, Jr., at her home on Western Avenue, Allegheny City; also, after the concert, the alumni have arraigned for a smoker at the University Club. A change in the method of transportation from Rochester to Bradford has been made. Instead of staying at the hotel and rising in time for the 7:45 train the clubs will have a special sleeper.

The program this year will be especially attractive. Among the pieces that will be sung are the "Cannibal and the Mermaid;" Giebel; "The Feller with the Drum," Dan Doré; "The Phantom Band," Thayer; "Ole Aunt Mandy's Chile," Giebel; "The Dixie Kid;" and others. Leader Morrison is also arranging a medley of "swipes." The Glee Club is very fortunate in having Mr. Morris R. Ebersole, instructor in chemistry, with them this year. Mr. Ebersole is well known to Cornell men by the great hits he has made on former trips. He will this year again sing, "What Do You Think He Said," which took so well three years ago. "Predicaments" will be another piece he will render. C. E. Mott, '03, will again act as soloist for the clubs; two airs have been arraigned for him by Professor Dann,— "Grandma" and "My Mother's Songs." He will also sing the solos of the Cornell songs. Cooper, '04, may also sing some solos.

The Mandolin Club, which is as good as ever this year, will have its usual amount of catchy music. Among the pieces to be played are: a medley from "The Ameer," Herbert; "Bonheur Perdu," Waltz, Gillett; "Salome," Lorraine; "Gondoleri," Nevin; selections from "The Fortune Teller," Herbert; and "La Frangesa." The Banjo Club has broken away from its usual style of music and with the aid of a violin and several mandolins will render a selection called "Campus Reveries" composed from standard overtures, which is decidedly heavier than the usual banjo music. There will also be played "Lengamian Patrol," Rosey; march from "The Rounders," medley overture of "ragtime" from popular operas and pieces, and others.

The final selection of the men who will go on the trip was made last week. Following is a list of the men who will be taken: Glee Club, leader, W. H. Morrison, Jr. First tenors, W. H. Baker, '01; R. M. Hart, '01; H. E. Cavanah, '01; R. Ryon, '03; R. C. Fenner, '03; G. A. Oldham, '02. Second tenors, C. E. Mott, '03; H. F. Sommer, '03; T. G. Kyle, '02; J. H. Neville, '02; J. B. Chase, '03. First basses, R. A. Bole, '02, J. S. Fowler, '03; C. C. German, '04; E. S. Odenhal, '04; A. H. Hard, '03; W. H. Morrison, Jr., '01. Second

basses, C. H. Fay, '01; A. N. Scrum, '01; J. C. Culver, '02; Thomas Downs, '02; C. W. Garrison, '04; H. R. Cooper, '04.

Mandolin Club, leader, J. O. Dresser. First mandolins, J. O. Dresser, '01; M. F. Crossette, '02; W. R. Couch, '02; R. P. Morse, '03; I. J. Owen, '03; F. J. Schwab, '03. Second mandolins, M. A. Belaire, '02; R. A. Turnbull, '04; P. G. Chace, '01; C. M. Brown, '04; B. F. Longnecker, '03. Guitars, R. Follansbee, '02; C. S. Yawger, '02; A. S. Armstrong, '02; E. Burns, Jr., '03; H. F. Badger, '03; G. L. Gillespie, '03; H. Gridley, '04; R. W. Roth, '04. Violin, J. J. Canfield, '04.

Banjo Club, leader, M. A. Belaire. Banjeaurines, M. A. Belaire, '02; R. P. Morse, '03; J. F. Borden, '04; N. C. Fasset, '04; H. Gridley, '04; R. W. Root, '04. First banjo, H. F. Badger, '03. Second banjo, B. F. Longnecker, '03. Bass banjo, R. A. Turnbull, '04. Picolo banjo, F. J. Schwab, '02. Violin, A. R. Coffin, '04. Cello, B. E. Fernow. First mandolin, M. F. Crossette, '02. Second mandolin, W. R. Couch, '02. Mandola, F. H. Teagle, '02. Guitars, R. Follansbee, '02; C. S. Yawger, '02; A. L. Armstrong, '02; E. Burns, Jr., '03; I. J. Owen, '03; R. E. Brown, '04; G. L. Gillespie, '03.

The dates and places of the concerts are as follows: Friday, December 21, Rochester, at Lyceum Theatre; Saturday, December 22, Bradford, Pa., at Exchange Lyceum; Monday, December 24, Pittsburg, at Carnegie Music Hall; Tuesday, December 25, Washington, D. C., at National Rifles Armory; Wednesday, December 26, Wilmington, at New Century Club; Thursday, December 27, New York, at Waldorf-Astoria; Friday, December 28, Brooklyn, Memorial Hall; Saturday, December 29, Scranton, Bicycle Club House.

President Schurman Addresses the Students.

President Schurman addressed the student body in Library Lecture Hall last Saturday on cribbing in examinations, requesting that the students initiate action tending to strengthen the honor system. He also spoke of the necessity of the students remaining in Ithaca until Friday of this week, the last day of work before the Christmas recess, and of returning to the University in time to resume work the first day of instruction after the recess. He stated that in some universities with the two-term system students had taken advantage of the Christmas recess and cut work before and after it, and expressed the hope that at Cornell the matter might be regulated by student sentiment and not by artificial registration and other checks found necessary elsewhere.

Congress Debate.

Cornell Congress is repeating the series of prize contests in debating, declamation and oratory which it inaugurated with considerable success last year. The contest in debating was held recently, the subject under discussion being the state control of the city police forces. A. J. O'Connor, Sp., was awarded the prize, a gold watch charm bearing the Congress insignia.

TRACK NOTES.

Plans for the Winter—Successful Track Dinner.

The track team will begin active work immediately after Christmas, and the training will be even more thorough and effective than that of last year. The new enthusiasm which the football games aroused has extended to the track men and they are determined to do their best work. The prospects of success cannot be forecast until the men report for active training. There is a greater abundance of material here this year than last and if the men only train consistently a good team should result.

In the past, the management has been greatly crippled for lack of space. This lack is still felt, but it will be much relieved by the erection of an outdoor board track, similar to the ones which are now in use at Harvard and Dartmouth, and which give good satisfaction there. It will be erected just outside the Armory and will be twelve laps to the mile and six feet wide. It will be laid in 12-foot sections, so that it may be taken up and stored away when not in use. This track should prove of great value, for hitherto it has been necessary to use the Armory for running, and the only hours at which running was allowed were 5:45 to 6:45 P.M. This was a bad time of day not only because it was inconvenient but because the men were tired and hungry. The new track will make it possible to run at any hour, and Trainer Moakley can work his men either in the morning or afternoon as they see fit to report to him. It will aid greatly in developing hurdlers and runners at all distances; and will also be the means of bringing out a larger number of candidates. The track will be kept free from snow and ice. The work of building it was begun Wednesday and it should be finished before the men return from Christmas vacation.

Active training will not begin until after Christmas. At present Trainer Moakley is devoting all his time to the new men. After Christmas the relay team will begin hard work, but in the other branches the training will not be so severe as in the spring. The men will be asked to keep themselves in good condition, but will not be trained fine. Frequent meets will be held during the winter to keep up interest in the work.

The first of these meets will be a handicap road race, which will take place on January 12. The distance will be about 5 miles, and the race will be open to college and university runners and the preparatory schools. Every Saturday between five and six the field athletes will hold meets in the gymnasium; the events will be shot put, high jump, and pole vault. The weight men will throw just outside the Gym. About March 1 the regular annual indoor meet will be held in the Armory.

The team will this year take part in a large number of intercollegiate contests. Last year the relay team went to Boston and New York City, but declined an invitation to Washington. This year they expect to make several trips and meet strong

teams. The invitation of John Graham of the Boston Athletic Association to send a team against Princeton has been accepted. This meet will take place Saturday, February 16. The races will be quarter-mile, half-mile and mile relays. Among the track meets which Manager Blair is arranging are those with Pennsylvania, Princeton, Columbia and Syracuse. Cornell will probably enter a team at the Pan-American Exposition next summer.

Saturday night a track dinner was held at the Dutch Kitchen. The purpose of the dinner was to arouse enthusiasm, to get the fellows together, and in this it certainly succeeded beyond expectations. It is the first time that such a dinner has been held and over sixty-five track candidates were present. Captain Hastings, who acted as toastmaster, introduced Trainer Moakley, who made an urgent appeal to all to take an active interest in track work. Manager J. H. Blair, Captain Gallagher of the cross country team, O. P. Cleghorn, and Captain Warner of the football team also made speeches. Professor Duncan C. Lee, of the athletic council, who was the last speaker, told the plans for the coming year.

Announcement from Sphinx Head.

Over ten years ago there was organized in the University an honorary Senior society which was given the name of Sphinx Head. During its existence it has worked quietly to further the best interests of the University in every way. It was organized as a secret society, in the belief that as such it could accomplish its work more effectually. Election to the society has always been based upon scholarly, athletic or social prominence; but there have been instances where a man, having earned an election to Sphinx Head, has not felt free to accept, on account of objection to its secrecy. This has worked occasional injustice.

The time has arrived when better results can be accomplished by removing all pretence to secrecy. Henceforth, Sphinx Head will be entirely non-secret. This change in policy involves no change in purpose—"to create and maintain a stronger feeling for our Alma Mater" and to promote "a closer and stronger friendship among the members of the senior class."

Marksmanship Medals.

At drill on Monday President Schurman presented the General A. C. Barnes medals for marksmanship to several members of the Cadet Corps. Upon being introduced he made a short speech in which he briefly alluded to the value of military training which Cornell students enjoy and to some of his personal experiences with the army in the Philippines. The medal winners were called to the front and center and the president pinned each man's medal on his blouse.

The following men received medals: Col. R. W. Dorn, '01; Major H. Y. Parker, '02; Capt. A. E. Wieland, '00; Lieut. W. A. Rows, '03; Sergt. H. C. Shattuck, '03; Cadets, C. S. Gelser, '03, K. B. Turner, '03, P. J. Wanke, '03; W. T. Wheeler, '03.

CORNELL GRADUATE CLUB.

Sketch of the Organization.

The Cornell Graduate Club was organized in the winter of 1895-6, at the time when several other graduate clubs were formed in the principal colleges. At this time the federation of graduate clubs was also formed. The object of the club is to promote good fellowship among graduate students and discuss matters of interest to them. Meetings are held once a month, usually on the first Friday of the month. At every meeting there is an address or other entertainment provided, after which an informal reception is held. These receptions are usually open to all graduates.

The club numbers 65. The officers are: President, G. W. Stewart, De Pauw; 1st Vice-president, W. B. Fite, '92; 2d Vice-president, Miss L. W. Johnson, Michigan; Treasurer, G. M. Flowe, Indiana; Secretary, Miss A. M. Baldwin, '00. These with Miss E. J. Claypole and C. L. Babcock, '95, form the executive committee.

This club is a member of the federation of graduate clubs, which includes 24 clubs in all the principal colleges which confer the degree of Doctor of Philosophy. The federation gathers and publishes information of general interest to graduate students. Last year, for instance, they investigated the status of American students in foreign universities, the use of the lecture system in graduate work, the relation of graduate to undergraduate courses, and the salaries paid to instructors by the various universities. At the last convention, held in New York City at the invitation of the graduate clubs of Columbia and Barnard, reports on these subjects were read and many other interesting addresses given, among them "Literature as a Profession," by Professor Brander Matthews, and "The Scholar's Ideal," by C. R. Gaston, Cornell '96, instructor in English here last year, and now president of the Federation.

A work of great benefit done by the Federation has been the publication of the requirements for the graduate schools of all the universities, and the scholarships and fellowships offered by them. It also publishes each year a list of theses for doctor's degree, so that conflicts may be avoided, and students having kindred subjects may consult each other. The next meeting of the Federation will be held Dec. 27, 28, and 29 at Philadelphia, under the auspices of the graduate club of the University of Pennsylvania.

HOCKEY AT CORNELL.

The Varsity hockey team and the various class teams are organizing and will begin to practice as soon as the condition of the ice on Beebe Lake warrants it. Several changes will be made in the arrangements there. The hockey rink will be located near the north shore of the lake so that spectators may watch the games from the shore. A dressing and waiting room for skaters will be provided.

Cornell has been invited to enter the Intercollegiate Hockey league, consisting of Harvard, Yale, Brown, Columbia and Princeton, but has been unable to accept the invitation. The admittance fee to the league is \$100, and as the team has no means of raising funds to defray its ordinary expenses, it is out of the question to pay this amount. Another reason is

that other college teams have a great advantage in having artificial ice on which to practice, while the Cornell team is entirely dependent on favorable weather. It is expected that next year a rink will be built in Ithaca. This will put Cornell on equal terms with other colleges and warrant entering the league. Yet the management has made arrangements for games with Columbia, Pennsylvania, College of the City of New York, and Union. Interclass games will also occur. The officers of the Cornell club are H. M. Wood, '02, captain; K. M. Roberts, '01, manager; executive committee, Wood, Roberts, and E. B. Whitman.

The only class which has at present an organized team is the sophomore. Last year their team played Cascadilla and Stiles school. Its officers are Charles B. Brown, captain, and C. I. Warren, manager.

During the past two weeks subscriptions have been circulated among the students, for the purpose of raising money to build a waiting room near the pond, for the convenience of skaters. Over \$80 has been so far collected, chiefly among students of Sibley. It is hoped that when the committee has canvassed the entire student body they will have obtained about \$300. Of this sum about \$250 will be expended in building the waiting room. This will be situated on the south shore near the upper end of the hydraulic canal. It will measure about 20 x 15 feet, and will have a large platform in front, with steps leading down to the ice. The room will be provided with lockers, which will be rented, and a counter where overcoats may be checked.

All subscribers will be given receipts. It will not, however, be necessary to show these in order to obtain admission to the lake, although an effort will be made to confine the use of the lake to students, since it is entirely University property.

After the Christmas recess, a skating club will be formed, for the purpose of encouraging the sport and at the same time of guarding against its dangers. An effort will be made to prevent such sports as crack-the-whip; and to confine hockey to the place set apart for it.

The Society of Gamma Alpha.

The advantages of a close fellowship between students interested in kindred subjects are often emphasized, and yet its true value is probably never wholly realized by the undergraduate. It is when a man gets into the active work that he fully appreciates that phase of his college life. It is an unfortunate corollary of the development of the University that, under the present conditions, the chances for enjoying this fellowship are lessened. An evidence of this tendency is the rise of the technical department seminary at the expense of the more general societies which once flourished. Men working in closely related lines may never, in any way, come in contact. While it is true that they may receive all the benefit of their own work and experience, yet they are not permitted to coöperate with each other, thereby deriving the most benefit from the college course. Any organization which tends not only to eliminate but to counteract this lack of fellowship is bound to be of value to the institution at large, as well as to its own members.

It was with this feeling that there came together in the spring of '99 a group of advanced students from the biological departments of the Uni-

versity. These were Dr. Quantz, U. of Wis.; J. H. Cowen, Col. Agr. College; J. F. Clark, U. of Toronto; J. C. MacDonald; C. B. Simpson, U. of Idaho; F. Sherman, Md. Agr. College; and W. A. Riley, DePauw Univ. From the outset there was the idea of permanent organization and from this there has resulted the Society of the Gamma Alpha.

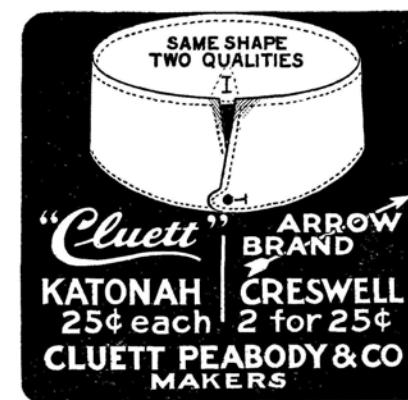

While in its fundamental idea fraternal, the Society of the Gamma Alpha is local, non-secret, and in no way enters the field of the undergraduate fraternity. On its rolls have been represented seven of these societies. Its membership, while not limited to such, is selected mainly from the scientific and technical courses. A proportion of underclassmen insures stability of organization. For the present the society has rented and furnished the house at 45 East Ave.

Among those who have actively affiliated with the organization in the short time since its formation are Prof. A. B. Cordley, Univ. of Oregon; Prof. Morgan, Univ. of Louisiana; Prof. Lochhead, Univ. of Toronto; F. Sherman, North Carolina State Board of Agr., and A. J. Briggs, Experimental Laboratory of the American Mutoscope and Biograph Co.

The society is firmly organized and its members feel that it is now accomplishing and will yet more fully realize the purpose of its origination. The officers of the society are: L. J. Houston, president; W. S. Edge, secretary; J. F. Clark, treasurer.

The present active members are: W. A. Riley, E. D. Newkirk, H. G. MacDonald, K. Miyake, R. J. McNitt, F. W. Foxworthy, W. S. Edge, L. J. Houston, Jr., C. B. Simpson, L. B. Jones, G. M. Bentley, A. G. Ruggles, J. F. Clark, C. O. Houghton, R. P. Higgins, G. Parsons, W. J. Rice, L. S. Hurlburl, L. Margolin, H. E. Crouch, W. C. Thro, F. B. Bomberger, and J. H. Mitchell.

IT WILL PAY YOU.

"Like your Mother used to make"

May be a matter of conjugal argument, but like what you used to wear at college is a sentiment that a man can cherish for his very own. In the matter of DRESS AND NEGLIGEE SHIRTS, if we ever had your measure we can make them for you still and mail you samples of material at any time. We are head-quarters for CORNELL FLAGS and have the only correct Carnelian shade which differs from all other reds and we now have dyed to order. All the popular sizes at 50c., 75c., \$1.00, \$1.50 and \$2.00 on hand and mailed at once without extra charge.

C. R. SHERWOOD, ITHACA, N. Y.

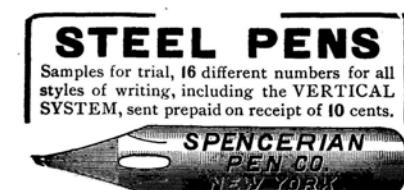

Correct outfits under the Intercollegiate System for those holding degrees from any American Institution. Illustrated bulletin, etc., upon application.

A STUDENT

Drew a plan of a Freak Chair; we are making it, and it is costing much less than he expected. We build all sorts of unique, out-of-the-ordinary things: Dutch pieces, Stein Tables, Pillow Slumpers, Pipe Tabourettes. We pyro etch designs, pictures, lettering, etc., into wood. No fancy prices; charge for Labor and Material only. Look out for the innovations we are making, in stuff for Bachelors' Quarters. Cabinet Makers just now are working on Piano Benches, on which Students can line up five abreast in front of a piano, and howl in positive comfort.

THE ALUMNI.

One purpose of THE ALUMNI NEWS is to keep Cornell men informed about one another. Every Cornell man, therefore, is invited to contribute to this column news concerning himself or any other student, and every contributor should remember that in sending news items he is conferring a favor upon other Cornellians.

'72, B.S. The New York *Times*, in its Saturday Review of December 8, says of Mr. Serviss's recent publication: "'The Moon Metal,' by Garrett P. Serviss (Harper's) is not surpassed by any imaginative work of the present season. As a fancy or conceit it will appeal to older readers even more strongly than to the boys and girls for whom it was first intended."

Ex.-'72. Daniel H. McMillan, who was compelled to move from Buffalo to New Mexico for his health, has been nominated for Associate Justice of the Supreme Court of New Mexico.

Ex.-'72. Major Louis L. Seaman, U. S. A., has in the *North American Review* for December an article on "Native Troops in Our Colonial Possessions."

'74, B. Arch. Benedict W. Law was in Ithaca last week planning to enter his son in Sibley College in September, 1901.

'81, B.Agr.; '91, M.S. in Agr. Professor Henry H. Wing was recently elected first vice president of the State Dairymen's Association.

'86, Ph.B. Professor Charles H. Hull addressed the students of the High School on Tuesday evening, December 11, on the subject "Ithaca's Evolution of the Problem of Transportation."

'86, B.S. Brentano's (N. J.) announce the publication of "The Idle Born" by H. C. Chatfield-Taylor. The work, written in collaboration with Reginald De Koven, was submitted to the "Smart Set," in competition for their prize of \$1000, for the best novel of society. It won the prize over some hundreds of other manuscripts offered.

'87, B.S. Robert T. Hill of the United States Geological Survey, is now delivering a series of lectures at the University of Michigan on the industrial significance of the West Indies to the United States.

'88, C.E. Orville Benson spent a few days in Ithaca recently. At the end of the Spanish war he went to Cuba as an attaché of the Peace Commission. He is now connected with the Edison Mining Company of New Jersey.

'88, A.B.; '95, Ph.D. Katharine M. Edwards is associate professor of Greek at Wellesley College.

'88, M.E. F. R. Jones will read a paper on "Power and Light for Shops and Foundry" at the annual meeting of the American Society of Mechanical Engineers to be held in New York this month.

'89, E.E. Frank N. Waterman began business independently as a mechanical and electrical engineer on October 1, at 150 Nassau street, New York City. He was formerly with the Westinghouse Electric and manufacturing Company. His residence is in Summit, N. J.

'90, A.B. Leland L. Landers is principal of the South Side High School at Rockville Centre, N. Y.

'91, LL.B. Ernest G. Gould, of Seneca Falls, N. Y., was recently elected secretary of the New York State Fish, Game and Forest League at its annual meeting in Syracuse.

'91, B.S. John T. Lewis is now located at 233 W. 22nd Street, New York City, where he has his offices.

'92, M.E. Charles J. Arnold is connected with the forge department of the Latrobe Steel Company, of Latrobe Pennsylvania. His present address is 609 Main Street, Latrobe, Pennsylvania.

'92, A.B. Professor Clyde A. Duniway of Stanford University is giving a series of lectures before the Philomath Club of San Francisco, on the critical periods in American history.

'92, E.E. William S. Smith is with the Elektron Manufacturing Company of Springfield, Mass., and is residing at 38 Maple Street, Springfield.

'92, Ph.D. Alice Walton is now instructor in Latin at Wellesley College.

'93, LL.B. On December 12 last occurred the marriage of Clyde W. Knapp to Miss Ida M. Redgrave, both of Lyons. After a short eastern trip they will take up their residence in Lyons where Mr. Knapp has a flourishing law practice.

'93, B.L. Charles H. Stoddard is now in the Philippines with the U. S. Army, about 200 miles south of Manila. His address is Co. C, 29 Infantry U. S. A., Manila.

'94, M.E.; '96, M.M.E. E. T. Adams will, at the annual meeting of the American Society of Mechanical Engineers, to be held this month in New York City, read a paper on "An American Central Valve Engine."

'94, M.E. Ralph T. Close holds the position of designer with Westinghouse, Church, Kerr & Company, 26 Cortlandt Street, New York City. He has been principally engaged in laying out power houses.

'94, C.E. Ira J. Coe is at Nazareth, Pennsylvania, at present and will remain there at least two months longer. He is in charge of the erection of two large cement mills.

'94, M.E. W. B. Gregory will present a paper on "Tests of Centrifugal Pumps," at the annual meeting of the American Society of Mechanical Engineers to be held in New York this month.

'95, A.B. Edward U. Henry has opened an office for the general practice of law at 540 Woolner Building, Peoria, Illinois.

'95, A.B. George L. Patterson is now practicing law at 30 Court Street, Boston, Massachusetts. Mr. Patterson graduated at the Harvard Law School in the class of '99.

'95, E.E. Edmund W. Roberts is the editor of *The Gas Engine*, a monthly periodical and journal of economic power, which is published in Cincinnati.

'95, A.B., '96, LL.B., '97, LL.M. Fred B. Skinner contributes to the last number of the *Brief of Phi Delta Phi* an article entitled "Cornell University College of Law, Roscoe Conkling, and Conkling Chapter."

'97, M.M.E. Richard E. Chandler is teaching in an agricultural and mechanical college at Stillwater, Oklahoma.

'97, LL.B.; '98, LL.M. Chas. M. Gambee is practicing law, and is located at 1008 Wilder Building, Rochester, New York.

'97, A.M.; '99, Ph.D. Wilhelm Miller is an associate editor of the Cyclopedic of American Horticulture.

'97, C.E. Walter E. Truesdell is at South Lunenburg, Vermont, in charge of the construction of a paper mill for the Dalton Power Company which will probably be completed in July next.

'97, M.E. J. Hawley Taussig is in the manufacturing department of the United Gas Improvement Company of Philadelphia at the Philadelphia Gas Works. His address is 22nd and Filbert Streets, Philadelphia, Pa.

'97, M.E. Julius I. Wile, who has been connected with the engineering department of the firm of Fraser & Chalmers of Chicago for the past two years, will sail on January 12 for London to represent his firm in England and on the continent.

'98, Ph.D. Eleanor A. Gamble is now instructor in Psychology at Wellesley College.

'98, Ph.D. George B. Wakeman is now instructor in history at University of California.

'99, Ph.B. Oliver J. Covell is teaching in the Hudson Institution at Claverack, N. Y.

'99, E.E. Elbert A. Hawkins is telephone engineer with the Western Electric Company in New York. He is residing at Baldwins, Long Island.

'99, B.S.A. Walter Mulford has accepted a position in the Connecticut experiment station at New Haven. He has been studying in the College of Forestry this year.

Ex.-'99. A. B. Myrick has taken his first degree at Harvard and is now doing graduate work there in French and English.

'99, C.E. Malcolm A. Rue's present address is 615 St. Mark's Avenue, Brooklyn, N. Y. After graduation he was with the Berlin Bridge Company of East Berlin, Conn., until the middle of last January when he entered the firm of Snare & Triest of New York City.

'99, E.E. Augustine R. Ayers is a special apprentice in the main repair shops of the Lake Shore & Michigan Southern railroad at Elkhart, Indiana.

'99, M.E. William Lyle Catlin is superintendent of the Standard Machine Company at Chattanooga, Tenn.

'99, A.B. Mabel Douglas Reid is a student in the American school at Rome, where she will remain until the end of the school year, after which time her plans are undetermined. Her address is 27 Via Aurelia Interno 3 Roma, Italia.

'99, M.E. John K. W. Davenport for two months after graduation was connected with the W. B. Smith, Whaley & Company of Columbia, South Carolina. He is now with the Olympia Cotton Mills in the same city. Mr. Davenport says of the mills, "This is the largest cotton mill under one roof in the New South. Electricity is used entirely for driving the machinery. All machinery is of the latest patent and the mill as a whole is a model, up-to date cotton mill." Mr. Davenport's address is 1328 Main Street, Columbia, South Carolina.

AN INVITATION TO THE ALUMNI.

We take pleasure in calling attention to the invitation extended by the student body at our new Medical College building in New York City to the Cornell alumni to visit them in their new quarters. The members of the reception committee will be pleased to extend any courtesies in their power to visiting alumni. The building will well repay a visit, and any interest displayed by graduates of Ithaca in our new Cornellians in New York City, especially when the College is in its infancy, will do much to make the latter realize that they are but a part of a great community, the larger part of which is in Ithaca. If visiting alumni can inculcate into the student body at New York City such a love for our Alma Mater as we feel here at Ithaca, they may well feel that they have done a good work for the University. It is an opportunity which we hope the alumni will seize upon whenever the occasion presents itself.

PRESIDENT MARTIN ON CHINA.

The News has had occasion to comment before now on the rare opportunities extended to Cornellians in the way of lectures by distinguished men in all walks of life and from all lands. French literateur, Russian nobleman, Oxford professor, New York banker, American diplomat, German University professor, all these succeed each other on the platform at Cornell week after week, all provided for liberally by the University. This week there occurs a notable lecture even among so notable a series. President Martin of the Imperial University of Peking has for a generation and more been more truly at the heart of things Chinese than any other of European blood. His pupils

have taught emperors. His counsels have guided American representatives at Peking. His instruction has been for years slowly permeating and renovating China. His theme at Cornell is Chinese diplomacy as seen during the Boxer uprising and the siege of Peking. It is a rare opportunity to lift the horizons of listening students.

THE CHRISTMAS RECESS.

The change to a two-term system has laid Cornell open to a danger which other universities have found in the system, namely that the students will willfully cut work before and after the recess in order to lengthen their Christmas holidays beyond the limits set by the University. In other years, under the three-term system, examinations just before the vacation and registration day for the winter term immediately thereafter, have served as checks to compel the students' presence in Ithaca. With the two-term system, such checks no longer exist. Some universities have therefore found it necessary to substitute some artificial scheme, as a registration before and after the recess.

President Schurman in his address to the students Saturday put the situation fairly before them and made the request that men keep to their work till the day for closing and resume it on the day set after the recess. He declared it contrary to the policy of Cornell to institute artificial restraints, and said that the matter of preventing this abuse would be left to the students. The request of the President is a fair one and has apparently met with ready assent by the student body. It is another example of the Cornell method of doing things.

Lectures by Dr. Louis Dyer.

Dr. Louis Dyer, an Oxford graduate and formerly a member of the instructing staff of this University, delivered three lectures here last week before the faculty and students.

The first lecture, delivered Tuesday evening in Morse Hall, was on the "Mycenaean Age." Dr. Dyer, at the outset, gave the plans of work in historical research concerning this age. In defining the place in history occupied by the Mycenaean Age, he characterized the Mycenaean development as the lost link that carries back our civilization. The rise and fall of Mycenaean art was illustrated by lantern slides. Dr. Dyer asserted that in certain features this art excelled all previous art, not excepting the Greek.

Wednesday morning in White Hall a particularly interesting and valuable lecture was given on the "Beginning of the Alphabet." The theory held for so long that the Grecians derived the alphabet from the Phoenicians, who, in turn, obtained it from Egypt is now disproved. Nothing is certain regarding the relationship of our alphabet to that of the Phoenicians.

"The Labyrinth of Minos" was the subject of Dr. Dyer's concluding lecture, which was given in Morse Hall, Wednesday evening. The labyrinth, which was nothing more than

the extensive store-rooms of the palace, was very simple in construction, as has been proved by excavation. The palace at Knossos was erected in all probability prior to 2000 B. C., the relics being of an age earlier than the Mycenaean. Stereoptican views of the articles found in the labyrinth added interest to the lecture.

Cornell Professors Busy for Christmas Week.

Many members of the Faculty will be out of town Christmas week, attending Association meetings of their various branches of work. It is due in large measure to these meetings, in which Cornell professors take active part, that the University is everywhere held in such high esteem.

At the meeting of the American Economic Association to be held at Detroit and Ann Arbor, Mich., December 27, 28, 29, Cornell will be represented on the program by two professors. Professor H. Morse Stevens will speak on the British Administration in India, and Professor Charles H. Hull will discuss the Porto Rican policy of the United States. Professor Charles J. Bullock, of Williams College, formerly an instructor here, will also take part in the program. Dr. Bert B. Stroud, of the physiological department, will attend the fourteenth annual session of the American Anatomists to be held in Baltimore, Md. He will read a paper on "Apparatus for Demonstrating the Circulation."

Professor Charles DeGarmo will attend the meeting of the New York State Association of Principals of Secondary Schools, to be held at Syracuse, N. Y.

Professor R. H. Thurston will represent the University at the annual session of the New York State Science Teachers' Association at New York. He will deliver an address before the meeting, the subject of which is not yet determined.

Professor George L. Burr will read a paper on the "Crusades" before the meeting of the American Historical Society at Detroit, Mich.

An Invitation to Alumni.

At a recent meeting of the reception committee of the Cornell University Medical Club, the desire of the students was expressed that more Cornell alumni visit the New York Cornellians in their University building, First Avenue and Twenty-eighth Street. To that end it was voted to extend through the columns of the Cornell Alumni News a cordial invitation from the student body in New York to the Cornell alumni. Any one of the following members of the reception committee will gladly act as host: Robert S. McDonald, '02, Chairman; Mark L. Fleming, '01; Elizabeth H. Livingston, '01; Stella S. Bradford, '02; Alvin R. Eaton, '02; John W. Faust, '03; Paul Dolan, '03; Edgar B. Armstrong, '04; John A. Hayden, '04, and Miss Jessie P. Andrensen, honorary member.

1900 Men.

The 1900 men of New York and vicinity eat together at the restaurant of the Royalton, 49 W. 43d Street, New York, Saturday night, December 22, at 6:30. They will welcome Cornell 1900 men from anywhere.

1900 Men.

H. F. Sommer, '03, has been elected to the staff of the *Widow* on the basis of work done in competition for the business department.

Richardson Webster, '02, has been elected to the editorial board of the *Era*, to succeed W. W. Mack, '02, who recently withdrew from the University. The new editor ranked next after the successful competitors in the special competition held during the fall.

Comparative Registration.

Cornellians have felt a keen sense of satisfaction at the increased annual registration which each successive Register gives the University, showing that the influence of Cornell is becoming every year more and more widespread. Along this line, it is interesting to note the general progress of university education by comparing the statistics of Cornell with those available of other colleges and universities. The comparative statements and figures which are here made are necessarily taken for the college year of 1899-1900, since statistics of other colleges for the present year are not yet at hand in detail. The statistics of the thirteen colleges represented in the accompanying table, compiled by the *Harvard Graduates' Magazine*, will serve to give a fairly accurate idea of the extent of university influence at the present time.

Each of the four state institutions included in the table is liberally supported by a state proud of its educational system and ready to spend large sums to foster it. The newest great endowed universities, Chicago and Stanford, both show healthy growth and gain. A point of interest in the table is the steadily increasing growth of the graduate schools in nearly all of the universities. Harvard, Columbia and Chicago now have the highest numbers in this department. Columbia's total enroll-

class of students. Despite the fact that the entrance requirements to the College of Civil Engineering at Cornell are already higher than anywhere else in the country, the registration is steadily increasing. With the single exception of Cornell,—and exclusive of those colleges where arts and sciences are counted as one course,—the academic department is the largest in all the thirteen institutions included in the table. The "sciences" at Cornell of course includes all the engineering courses, and their increased registration over that of the other departments is due to their high standard and resulting excellent reputation. The figures given in the table for "Women's Colleges" are for those universities where the women's college is a separate institution. At other places it is not possible to give separate figures for the men and women registered in the different departments.

In all the returns from the universities there is some duplication of names in the summer list and the regular list, and sometimes in different departments of study, but probably the number of duplications would not be more than 100 in any case. It is safe to set down the actual number of separate students in the thirteen universities here enumerated as 35,000.

There are 94 students registered in the newly organized School of Commerce at Wisconsin.

given to Latin and Greek in English education. Modern languages and natural sciences, he urges, give more immediate practical results. He even warns Oxford and Cambridge to mend their ways to meet the changing needs of a new world. To all this his critics reply that all good literature is cultivating, but that Greek and Latin have elements which no modern literature gives. What is useful in business is not always useful in training the mind. As for Oxford and Cambridge, the large sums spent on the natural sciences are already out of all proportion to what is spent on the support of literary studies, and many new branches of learning, such as English, modern languages, Oriental languages, the Egyptian and cuneiform paleography, anthropology, and archaeology have to be neglected. A sum of \$250 yearly is spared with difficulty for the lecturer in English. Russian and Assyrian are left to private enterprise. The Chinese professor still does his work for nothing. Most endowments are held in trust for specific objects, and the Duke of Devonshire's appeal for \$2,500,000 in the way of new endowments has only brought \$312,500 so far, and half of that comes from the Duke himself, Lord Rothschild, and Mr. Astor.

Within a year and a half Yale has received gifts amounting to \$1,100,000.

ment, with the help of a new summer school, has grown rapidly until it now holds second place in the country. Harvard, Michigan, Minnesota, Columbia and California each number more than 3000 students including regulars, specials and those registered in the summer schools. Cornell is next with 2853.

Detailed figures for the registration of the various colleges at Cornell have already appeared in the News, and need not be repeated here. It is interesting to note, however, that last year's total gain over '98-'99 was 178, while this year we have 254 more than last. If we include all the students who come under the influence of the University,—and this will take in those in the summer school at Ithaca, the summer school in medicine in New York City, and the short course in agriculture,—we have for the first time reached the 3000 mark with a total of 3007.

Many of the universities show a loss or only a slight gain in registration, which is due to the higher standard of entrance examinations. Pennsylvania shows a loss of 65 in total enrollment, and Yale has an increase of only 19. When the transition stage has passed, these universities will probably grow at a uniform rate with the other American colleges, and will at the same time have a better

New Apparatus at Gym.

A number of improvements have lately been made at the gymnasium. A new apparatus, formerly in the Armory, in the form of a steel horizontal bar, so fixed that it can be raised out of the way when not in use, has been suspended by ropes from the ceiling. Several new chest weights, a machine for the development of the abdomen, an improved form of wrist machine, and machines for the development of the thigh and calves, have also been put in place. The wrist machine is of a new character. It is so arranged with brake attachment and thumb screw that strength may be graduated. The means for physical exercise at the gymnasium are being taken advantage of more and more as the season advances, so that it looks as though the building will be pretty well crowded after the Christmas vacation.

Book Reviews has the following interesting note on English university education:

Classical England has been shocked —there is no other word for it—by the spectacle of an ex-Premier and man of letters like Lord Rosebery joining in the tirade against the place

Chess Tournament Plans.

Cornell will be represented at the tournament of the Tri-collegiate Chess League this year, as last, by Louis C. Karpinski, '01, and Ernest H. Riedel, '02. The team is regarded as being very strong, and as having excellent prospects of victory. Karpinski is from Oswego, and entered with the class of 1901 from the normal school at that city. He had been prominent in chess circles long before entering Cornell, being for some time junior champion of New York state. He is president of the Cornell chess club, the championship of which he has held since his second year. Riedel entered from the Brooklyn Boys' high school, an institution which has furnished a surprisingly large number of chess players to the University. He was captain of his school team, and held the University championship during his first year at Cornell.

The tournament will be held in New York City, December 26 to 29 inclusive, probably in the rooms of the Manhattan chess club. Each player will play one game a day, meeting in turn each of the members of the other two teams. The score at the last tournament, which was the first in the history of the league, was: Pennsylvania 6, Cornell 5 1-2, Brown 1-2. It is the hope of the members of the club, and the hope seems far from improbable of realization, that the score will next week be changed considerably, and that the trophy, a handsome cup now at the Houston Club, Philadelphia, will come to Ithaca for a year or more.

The '94 Stage.

The final competition for the '94 Memorial Stage was held Monday night, Dec. 10. The twenty men debating were selected at a preliminary contest in November, when thirty applied. The eight fortunate men will speak at the '94 contest which takes place in January, and from them a team of four will be chosen to represent Cornell in the Cornell-Columbia debate.

The following is a list of the winners, the majority of whom are Arts men taking work in the Law School:

Ralph Sherlock Kent, '02 Arts, Ithaca, N. Y.

Sidney S. Lowenthal, '02 Arts, Rochester, N. Y.

Edgar Leeber Mosher, G., Auburn, N. Y.

LeRoy Burns Smith, '01 Arts, Seneca Falls, N. Y.

Milton Miller Underdown, '01 Agr., Taughannock Falls, N. Y.

Ray Hughes Whitbeck, '02 Arts, Hermitage, N. Y.

George Payne Winters, '02 Arts, Melbourne, Fla.

Manton Marble Wyvill, '01 Arts, Alma, N. Y.

The following was the subject of debate: *Resolved*, That the police forces of all cities of New York State should be placed under state supervision.

The total membership of the Houston Club of the University of Pennsylvania is 1733.

A Spanish Club, intended to encourage and develop the study of that language, has been organized at Harvard.
