Price 10 Cents

## 4,058 REGULAR STUDENTS.

An Increase of 245 Over the Registration at this Time Last Year

In most of the colleges of the University at Ithaca there are more students enrolled than were registered at the same period last year. Following is the registration by colleges as compared with the enrollment *at about this period* in 1908 and 1907:

College	1909.	1908.	1907.
Sibley .....	1,145	1,135	1,115
Arts .....	945	873	763
Civil Eng. . .	545	560	485
Agriculture . .	501	385	314
Law .....	255	219	195
Architecture. .	154	131	100
Veterinary .. .	98	95	80
Medicine ...	17	35	64
*Graduate .. .	223		

According to a count made in the Registrar's office, the new Student List, which was sent to the printers on October 13 and published last week, contains 3,903 names of students. The number for fifteen years past has been as follows:

October 11, 1894.....	1,574
October 11, 1895.....	1,611
October 8, 1896.....	1,706
October 6, 1897.....	1,733
October 5, 1898.....	1,737
October 10, 1899.....	1,939
October 10, 1900.....	2,147
October 11, 1901.....	2,415
October 10, 1902.....	2,613
October 10, 1903.....	2,656
October 13, 1904.....	2,857
October 10, 1905.....	2,992
October 9, 1906.....	3,104
October 10, 1907.....	3,323
October 23, 1908.....	3,658
October 13, 1909.....	3,903

This shows that there are at present 245 more students in the University at Ithaca than there were at about this time last year. Almost half this increase is in the college of agriculture alone; the college of arts and sciences has a large gain, and in

\*There is no available record of the number of graduate students registered at this period in 1907 or 1908.

LOOKING TOWARD SIBLEY COLLEGE PAST THE ENTRANCE OF GOLDWIN SMITH HALL.

proportion to their size the colleges of law and architecture have grown noticeably. The loss in the medical college is accounted for by the increase of entrance requirements which took effect last year.

At the Treasurer's office it is learned that the number of new students in the University is 1,389, that being the number of matriculation fees paid. Following is a table showing the comparative registration of old and new students at this time of year for three years:

	1909.	1908.	1907.
Old students	2,514	2,335	2,046
New students	1,389	1,323	1,277

It is seen that the increase this year over last is 179 old and 66 new students; the gain in 1908 over 1907 was 239 old students and 46 new.

In the Medical College in New York there are 155 students now registered. Adding this number to the total number of students resident in Ithaca (3,903) we find that the University's enrollment now is 4,058.

Before the end of the year it will be larger, because there are always a few hundred registrations between October and June. Assuming that the number of these will be the same as last year, and adding to the total regular enrollment last June (3,985) the increase indicated at present (245) we obtain an indicated total regular enrollment for the present year of 4,230. This does not include the summer session or the short winter courses in agriculture. The registration in these last year was 889 and 364 respectively. But the attendance at the summer session has been increasing for several years by about 10 per cent. a year, and for admission to the short winter courses this year twice as many applications have come already as were received last year altogether. Undoubtedly the University is still growing.

In the college of agriculture there are 187 new regular students, an increase of about 50 over last year's figures; there are 74 new special students, a total of 261 new students in

this college alone. The faculty of agriculture is already put to it to find room for the classes in the laboratories and lecture rooms. Several classes now meet in the large auditorium. When the plans for the new buildings were approved, in the spring of 1905, there were 188 students in the college. Growth was foreseen and provided for, but already, within five years, the college has outgrown the buildings.

The entering class in the medical college numbers 22, an increase of 12 over last year's entering class, which was the first to enroll after the change in entrance requirements took effect.

There is a net increase of 20 in the entering class of the college of law—a decrease of 5 in the first-year class of the three-year course and an increase of 25 in the first-year class of the four-year course. (In the four-year course the student is allowed to take a certain amount of elective work in the college of arts and sciences during the first two years.) Of the 66 students in the entering class of the three-year course, 28 have had from one to four years' college work in arts subjects, as compared with 21 out of 70 at the same time last year. Beginning in 1911, the college of law will require a year of college work for entrance to its three-year course. That this requirement will not seriously affect the attendance is likely from the fact that now, out of 171 students taking first year subjects, 133 have taken (or are taking) at least a year of such arts college work. The total registration in the college of law is the largest in its history.

For the first time within the memory of Coach Moakley, the underclass track meet last Saturday resulted in a freshman victory. The first-year men scored 81 points to the sophomores' 49. Freshmen took first places in the 100 and 440-yard dashes, the half-mile and mile runs, the jumps, the pole vault and the shot-put. R. J. Lawrence '13 put the 16-pound shot 44 feet 1 inch.

Hugh John MacWilliams, of Wilmington, Del., was elected president of the sophomore class last Friday without opposition.

#### Branch of the State Hygienic Laboratory Established Here.

A branch of the hygienic laboratory of the state department of health has been established at Ithaca, under the supervision of Professor H. N. Ogden '89, who is a member of the state board of health. It is quartered on the Campus, the University having given it the use of the large southwest room in the basement of Lincoln Hall. One of the health department's analysts has been sent to Ithaca to take charge of the branch. The branch laboratory will do for western and central New York what the laboratory at Albany has heretofore done for the whole state, that is, make analyses of water supplies and foods for local boards of health.

The reason the University has welcomed it is because it is likely to be useful in connection with the instruction in sanitary engineering, as well as with the new course of lectures in sanitary science and public health, and in connection also with the state school of sanitary science which the University will have if the bill, framed by State Health Commissioner Eugene H. Porter '80 and now pending in the Legislature, becomes a law. The bill passed the Assembly last winter but failed to pass the Senate, but will be reintroduced this year. Dr. Porter and Professor Ogden hope that the establishment of the branch laboratory, and the undoubted success of the course of lectures in sanitary science now given here, will help to call attention to the need of such a school. The attendance at the lectures is even larger than it was last year. For the present the branch laboratory will not attempt much beyond the analysis of water supplies and such other work as can be done more conveniently here than in Albany. It is used also to afford students in the course in sanitary engineering an opportunity to observe methods of water supply analysis.

A committee of seniors, appointed by President Pond, is collecting a fund among the undergraduates for a tablet in memory of the late Ross G. Marvin '05. It is proposed to place the tablet in Sage Chapel.

#### Escape Probably Easy for Professor Leith's Party, Dr. Morris Says.

EDITOR CORNELL ALUMNI NEWS.

Sir: In the Cornell Alumni News for October 20th I find a report to the effect that Professor C. K. Leith [one member of whose party is Francis S. Adams '08] is believed to be lost in the wilds of the Hudson's Bay country. He is supposed to be in the James Bay region, and if he is engaged in investigating rock formation he would be on the eastern side of James Bay, as we have only marsh and prairie to the westward. The failure to hear from anyone from the region east of James Bay for two or three months need not cause especial alarm. The rivers are large and dangerous, the Moose River being nearly three miles wide, but when canoes are wrecked in the rapids, the occupants usually get out without much loss beyond that of apparatus, of equipment and supplies. At this time of the year food is so abundant that one can subsist without difficulty. Ptarmigan and spruce grouse may be caught with a noose on the end of a pole or killed with stones. Hares can be snared in abundance. Crawfish, shellfish and sturgeon can be obtained without special apparatus, and there are many berries, besides the rock lichens, to furnish a vegetable diet. There would be no danger from the Nascopi Indians at this time of the year. Material for building canoes could not be obtained however in this region, unless one happened to pass some traveling band of Indians, and these at the present time would be Crees headed for their winter hunting grounds. It would probably be almost impossible to obtain canoes from these Indians, and I do not know of any inducement which would persuade them to turn back from the hunting grounds in order to carry a wrecked party to a Hudson Bay post or other point of communication. As soon as the rivers are frozen one can walk home from almost anywhere in a month or two.

ROBERT T. MORRIS '80.

New York, Oct. 22, 1909.

The underclass baseball series was played last week and was won in two games by the sophomores.

**Athletic Council Records Its Appreciation of Judge Irvine's Services.**

In the minutes of the Athletic Council has been recorded the following resolution, framed by Professor W. W. Rowlee '88, in appreciation of the services of Dean Frank Irvine '80, who resigned from the Council at the end of last term:

"The Cornell Athletic Council has received and accepts most reluctantly the resignation of Judge Frank Irvine from his membership on the Council. For five years he has been one of the faculty representatives upon this directorate and for the greater part of that time has presided over its deliberations. During his whole period of service he has been the special adviser upon matters relating to the rowing interests of the University. His relation to the athletic welfare of Cornell has been characterized by sound judgment, exercised with patience, fairness and courtesy. His counsel has been invaluable and has prevailed because it has been grounded upon a full comprehension of the difficulties that attend the administration of University athletics and because he has brought to the consideration of these questions the attributes of sagacity, poise and justice. He has always stood firm for high ideals, and the reputation of Cornell for clean sportsmanship is due in no small degree to his strong and steady influence. But all of these qualities would not have made their strongest appeal, had it not been that Judge Irvine affords in himself one of the finest examples of unremitting loyalty and devotion to Cornell, and responds with genuine and ever ready sympathy to every legitimate effort of the undergraduate aspiration. In making this record of our appreciation of his services, we feel that we voice not only our own sentiments but also those of our predecessors who were associated with him as members of this Council during his long tenure of office."

The Cornell Dramatic Club has chosen an Ibsen play, "The Pillars of Society," for presentation this year. The French dramatic club, Les Cabotins, will produce Molière's "Le Bourgeois Gentilhomme."

**FOOTBALL.**

**The Schedule.**

(Cornell's score given first.)

- Oct. 2, R. P. I., 16-3.
- Oct. 9, Oberlin, 16-6.
- Oct. 16, Fordham, 6-12.
- Oct. 23, Vermont, 16-0.
- Oct. 30, Williams at Ithaca.
- Nov. 6, Harvard at Cambridge.
- Nov. 13, Chicago at Ithaca.
- Nov. 20, Niagara at Ithaca.
- Nov. 25, U. of P. at Philadelphia

**Cornell 16, Vermont 0.**

The 'varsity eleven defeated the University of Vermont team on Percy Field last Saturday by a score of 16 to 0. Last year Vermont was beaten 9 to 0. Cornell showed some improvement over its form in the Fordham game. There was less uncertainty in following the ball, and fumbling was much less frequent. Baker was the quarterback till the middle of the second half, when Owen took his place. Baker's work was good. He used judgment, ran fast and hard when he had the ball, and more than one first down, credited to Robb or Simson, was due to Baker's help in lifting the back through the line. Practically every man in the Cornell team was wide awake. Vermont found the center impenetrable, and the ends and tackles were fairly fast. Captain Tydeman was out of the game, as he was out of heavy practice during the week, on account of a slight injury.

**The line-up:**

CORNELL	VERMONT
Hurlburt.....l. e.....	Lally
Stude.....l. t.....	Cassidy
Donnan.....l. g.....	Squire
Seagrave.....c.....	Torrance
O'Connor.....r. g.....	Bitterle
Weekes.....r. t.....	Welch
Crosby.....r. e.....	Reed (capt.)
Baker.....q. b.....	O'Brien
Robb.....l. h.....	Slavin
Hoffman.....r. h.....	Mackintosh
Simson.....f. b.....	Walker

Substitutions—Cornell: Leventry for Hurlburt, Monk for Stude, MacArthur for Crosby, Owen for Baker, Krutzsch for Hoffman; Vermont: Dailey for Lally, White for O'Brien. Touchdowns—Hoffman 2, Robb. Goal from touchdown—Hoffman. Referee—Lewis Hinkey. Umpire—Mr. Southworth. Time of halves—20 minutes.

**THE GAME.**

O'Connor kicked off to Vermont's 15-yard line and O'Brien came back

fifteen yards. Walker made it first down on Vermont's 41-yard line. It was third down with seven yards to gain and Lally punted to Baker, who came back ten yards to Cornell's 45-yard line. Robb fumbled, but Hurlburt recovered the ball for Cornell at midfield. Robb and Simson made it first down on Vermont's 45-yard line, and Hoffman, in two plunges, gained ten yards more. On a quarterback run Baker took the ball to Vermont's 12-yard line. Hoffman went around the end for seven yards more. A penalty for holding by Vermont put the ball on the two yard line, but here a fumble gave Vermont the ball. Lally punted out of bounds at Vermont's 22-yard line. Hoffman and Simson carried the ball to the 7-yard line, but Cornell was penalized for hurdling and O'Connor tried for a field goal. He failed and Vermont put the ball in scrimmage on her 25-yard line. Slavin went through for first down, but Vermont fumbled and Simson fell on the ball on Vermont's 42-yard line. A quarterback run failed to gain and Baker punted. Two good tackles by Stude prevented Vermont from gaining, and Hurlburt recovered Lally's weak punt on Vermont's 30-yard line. Robb and Simson advanced to the 10-yard line, and on a forward pass, Baker to Hoffman, Cornell scored a touchdown. Baker kicked out neatly, but Hoffman missed the try at goal. Cornell 5. Vermont 0.

Lally kicked off to Baker, who came back fifteen yards to Cornell's 35-yard line. Two successive penalties were inflicted on Cornell, and Baker punted to O'Brien at midfield. He was downed by Stude on Cornell's 40-yard line. Vermont failed to gain the distance and punted. Baker caught the punt and ran it back to Cornell's 35-yard line. Crosby got down the field and recovered an onside kick on Vermont's 38-yard line. Here two penalties cost Cornell thirty yards, but another onside kick was tried, and Hurlburt got the ball on Vermont's 22-yard line. On a forward pass Hoffman scored a second touchdown. O'Connor missed the goal. Cornell 10, Vermont 0. During the rest of the half the ball was in Vermont's territory. Only once during the whole half did Vermont

HOMeward BOUND THROUGH THE QUADRANGLE WHILE THE CHIMES ARE RINGING.

have the ball on Cornell's side of the field and then only for a moment near the 35-yard line. Dailey was substituted for Lally.

In the second half Simson caught O'Brien's kick-off on the 10-yard line and came back five yards. From that point Cornell advanced, without losing possession of the ball, for a touchdown. Baker, Simson and Hoffman went around or through the line to midfield. A perfectly executed double forward pass put the ball on Vermont's 20-yard line. Robb gained five, Simson five, and then Robb was pushed over the line. Hoffman kicked the goal. Cornell 16. Vermont 0.

O'Connor kicked off, and Vermont, with the help of some trick plays, advanced to her 40-yard line, where O'Brien punted to Baker. It was Cornell's ball on her own 35-yard line. Leventry took Hurlburt's place. Baker made twenty-five yards on a quarterback run. An onside kick went wrong and Vermont got the ball. Owen took Baker's place. Vermont advanced with end runs and onside kicks to Cornell's 33-yard line, where Cornell took the ball on downs. On a fake kick Owen tore off twenty yards. Robb added five,

and a forward pass to Hoffman was good for ten more, but Cornell was penalized fifteen yards for tripping and Owen punted to Walker, who was downed in his tracks by Leventry on Vermont's 25-yard line. MacArthur was sent in to replace Crosby. On the next play, Vermont tried a forward pass, and MacArthur caught the ball and raced to the 4-yard line. Another touchdown was in sight, but Vermont held for downs. After a weak punt, Cornell got the ball on the 15-yard line and O'Connor tried for a field goal. The kick was blocked and the ball rolled to midfield, where Hoffman fell on it. An onside kick went to Seagrave on Vermont's 15-yard line. Krutzsch replaced Hoffman and gained to Vermont's 7-yard line, where time was called. The penalties imposed on Cornell during the game aggregated 135 yards.

#### 'Varsity Practice and the Freshmen.

Among the coaches who were on Percy Field throughout the week were Reed, Newhall, Hunt, Davall, Larkin, Walder and O'Rourke. Others expected this week are Wyck-off, Burns, Forgy, Van Orman, Finucane and Harry Purcell. Alexander '01 saw the Vermont game.

Practice during the week was devoted to correcting the faults that the Fordham game had revealed. On Wednesday a regular game was played between two teams, one, designated the 'varsity, in red jerseys, and the other, called a scrub team, in blue jerseys. The blues outplayed the reds, scoring three touchdowns to one. Several regulars, including Tydeman and Seagrave, were out of the 'varsity line-up for most of the time, and the blue team included several first string men, such as Hoffman, Robb, Simson, Stude and Leventry, all of whom played against Vermont. Blass '10 was the blue quarterback.

On Thursday the freshman team was lined up against the 'varsity and gave it some hard practice. Butler, the freshman quarterback, a product of "Tmomy" Thompson's Brooklyn Polytechnic eleven of last year, ran his team well; he sent his backs around end and tackle for big gains and scored a touchdown within a few minutes. The 'varsity found itself unable to gain through the freshman line and resorted to open play, which earned three touchdowns. The final score was 15 to 6 in favor of the 'varsity.

On Saturday afternoon the freshman eleven defeated the George Junior Republic team 24 to 0. The first-year men played a snappy game. Bates, a former Ithaca High School player, showed ability as a halfback. Champaign, from the same school, kicked four goals from touchdowns. The freshmen's coach is A. H. Hutchinson '09.

#### Lacrosse Schedule.

At a recent meeting of the inter-collegiate lacrosse association in New York, the following schedule for Cornell's next season was laid out:

- Hobart at Geneva, April 16.
  - Columbia at Ithaca, May 2.
  - Rochester L. C. at Ithaca, May 7.
  - Hobart at Ithaca, May 14.
  - Harvard at Cambridge, May 20.
  - Stevens at New York, May 21.
- It is hoped that the following games may also be played on a Southern trip of the lacrosse team:
- Swarthmore at Swarthmore.
  - Navy at Annapolis.
  - Johns Hopkins at Baltimore.

## CORNELL ALUMNI NEWS

### Tickets for the Harvard Game.

Seats in the Cornell sections at the Harvard-Cornell game, to be played on Soldiers' Field, Cambridge, on November 6, will be on sale only at the office of the Cornell University Athletic Association in Ithaca. The price of seats is \$1.50 each. Persons who desire seats should notify the Athletic Association and they will then receive blanks on which to make application for tickets. These blanks have already been sent to all Cornellians in New England so far as their addresses could be ascertained from the Ten Year Book. A large attendance at the game is expected, and Cornellians who expect to attend it will do well to apply for tickets early. The game will be called at 2 o'clock.

Tickets for the Chicago-Cornell game, Percy Field, November 13, will be on sale at the office of the Athletic Association in Ithaca. The price will be \$1.50.

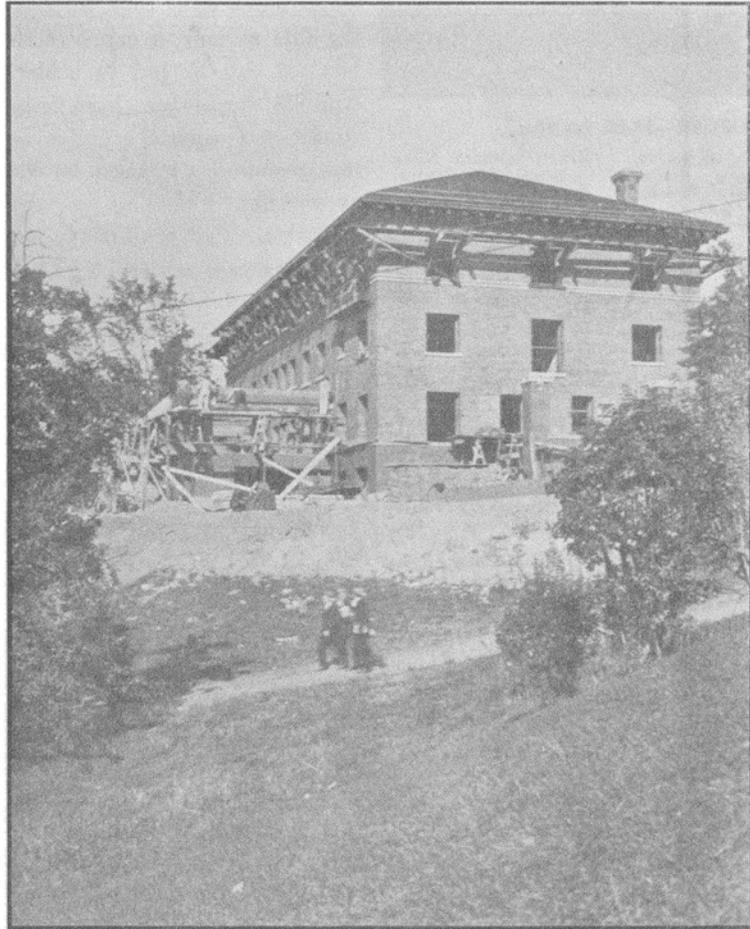

### Brooklyn Association to Meet.

The first monthly Cornell Night of the season of 1909-10 by the Cornell Association of Brooklyn, N. Y., will be held on Friday, October 29, at the University Club, 109 Lafayette avenue, Brooklyn. Dinner (\$1.00) will be served at 6:30 p. m. After dinner will be given a talk and demonstration of welding by the oxy-acetyline process. All Cornellians in the vicinity of Brooklyn are cordially invited to attend.

THE CORNELL ASSOCIATION OF BROOKLYN.

### Physical Training Handbook.

The department of physical training has published its annual handbook—a pamphlet, this year, of about fifty pages. It contains information in regard to the department, advice as to exercise and personal hygiene, records and pictures of the varsity teams, and other information useful to the student. The frontispiece of the book is a road map of the country about Ithaca. Gymnasium credit is given for walks two miles out from the campus and back. On the various roads leading out of Ithaca, red signs mark the two-mile limit. On Saturday afternoons longer walks are taken, last Saturday's

THE TELLURIDE DORMITORY.

walk being to Taughannock Falls, returning by train.

### Newest Structure on the Campus.

Our photograph shows the present appearance of the dormitory which Mr. L. L. Nunn, of Telluride, Col., is building on the Campus. The house faces West avenue, and the picture was taken from the lawn in front of the Delta Upsilon lodge. When the dormitory is finished it will be occupied by students who are to pursue research work in engineering. Mr. Nunn is one of the proprietors of the Telluride Institute, a corporation which owns and operates a chain of power plants in Colorado and Utah. Important research work is done in connection with these plants, and Mr. Nunn's idea, it is understood, is to have this work done here, where Cornell University may reap some scientific benefit from it.

The dormitory is for the use of the investigators whom he plans to send here. It will be endowed by him. The building is about 100 feet long and 50 feet deep. It stands directly across the old path leading down the slope from the Library, and the students, as the picture shows, are wearing a new path around it.

It is planned to hold a meeting in Sibley Dome on Friday evening of this week to celebrate the triple victory of the Cornell crews at Poughkeepsie last summer. The celebration will follow the organized Hallowe'en rush of the freshmen and sophomores, which will be held on the Armory green. There will be a torchlight procession, with fireworks, on the campus. At the meeting in Sibley Dome old crew men will speak and the glee and mandolin clubs will furnish music.

**SUBSCRIPTION—\$3.00 Per Year.**

Published by the Cornell Alumni News Publishing Company. John L. Senior, President, Woodford Patterson, Secretary and Treasurer. Office: 110 North Tioga Street, Ithaca, N. Y.

Published weekly during the college year and monthly in July and August; forty issues annually. Issue No. 1 is published the first Wednesday of the college year, in October, and weekly publication (numbered consecutively) continues through Commencement week. Issue No. 40, the final one of the year, is published the last Wednesday in August and contains a complete index of the entire volume.

Single copies, ten cents each. Foreign postage, 40 cents per year. Subscriptions payable in advance.

Should a subscriber desire to discontinue his subscription, notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts and orders should be made payable to the Cornell Alumni News.

All correspondence should be addressed—

**THE END IS IN SIGHT.**

Is there any prospect of the early completion of Alumni Field?

There is. If the \$100,000 Equipment Fund is all pledged by the first of January the field will be completed.

Is any progress being made?

Decidedly yes. More than \$66,000 has been pledged. Since the first of last March subscriptions have averaged \$1,500 a week. Only a third of the proposed fund, about \$34,000, remains to be raised. The work has made big strides during the last few months.

Why \$100,000?

Because it is estimated that this sum will be just about enough to

equip the field so that, instead of lying idle as now, every acre thus far levelled can be put to athletic use. And all the pledges have been made conditional upon the entire sum being promised. It must be \$100,000 or nothing.

Why the first of January?

Because at that time the Cornellian Council will begin its work of raising the Alumni Fund—a general fund for the support of the University—and every other scheme that involves solicitation among our alumni for University projects, including the field, must give way to that.

Why not wait and let the field be equipped out of the Alumni Fund?

Three reasons:

First: Nothing is to be gained by waiting.

Second: The Alumni Fund will be wholly at the disposal of the Trustees of the University, and it might be many years before they would see fit to devote \$100,000 to the field.

Third: Not a dollar of the money thus far subscribed (\$66,000) will be collectible unless the entire sum of \$100,000 is promised. Two thousand dollars would be thrown away for every thousand dollars it might have been possible to raise between now and January.

Would the contribution by Cornellians of \$34,000 to the field fund between now and January help or hinder the Cornellian Council in its work of beginning the Alumni Fund?

It would be a great help. The Council and its new secretary have said so. They are anxious to have the field fund completed. Its completion would clear the way for their work. Its failure would dishearten them. Continued uncertainty of its success would cloud the future of their own work. They are delaying their campaign for a short time in the hope that the field committee will be able to finish its task. They

want to have this undertaking completed before work is actually started on any general fund.

Will Alumni Field be merely a 'varsity field?

No. It will be this and much more. It will give facility for the athletic activity of every student. The fund will be used, not to build a mere arena, but to equip fields and playgrounds that shall be on a par with the best departments of the University.

Will the field be a benefit to the 'varsity teams?

Yes. Percy Field is too small for them alone, to say nothing of the thousands of students who are not on the teams and who have too little encouragement now to come out and try for them. Besides, Percy Field is a long way from the Campus. The new field is on the Campus.

Will the field be a benefit to the University?

Yes. It will benefit the University indirectly because it will be a means of improving the health and morals of all the students. It will benefit the University directly by relieving the overcrowding of the Gynnasium during a large part of the year.

Is an unusual effort necessary if the field is to be completed?

Yes. Cornellians who have not yet reached the point of contributing must lend their help if the work is to be done. Sixty-six thousand dollars has been promised by some, but it will be lost unless others provide the remainder.

Must a subscription be paid at once?

No. One-fifth of the amount subscribed may be made payable at call, and the remainder payable in four equal annual installments. Practically all the subscriptions have been made in this way.

Where may subscription blanks be obtained?

From John O. Dresser, in care of George W. Bacon, 115 Broadway, New York.

**UNIVERSITY CALENDAR.**

WEDNESDAY, OCTOBER 27.

Barnes Hall—Regular mid-week meeting C. U. C. A. West Dome, 7:15 p. m. Regular mid-week meeting Y. W. C. A. Old Trophy Room, 7:30 p. m.

**OBITUARY.**

W. M. ROBERTS '83.

Willis Markel Roberts, a graduate of Sibley College in the class of 1883 and a member of the Psi Upsilon fraternity, died suddenly at his home in Seneca Falls on October 19. He was found dead in bed. For many years after his graduation from Cornell Mr. Roberts was engaged in business in Duluth, Minn. A few years ago he returned to his old home in Seneca Falls and reorganized his father's milling business, of which he was president and manager at the time of his death. He was unmarried.

C. C. DRESSER '12.

Charles Carroll Dresser, a member of the class of 1912 in the college of architecture, died at his home in Buffalo on August 9 last.

Lyon, Not Lauman.

It was said recently in the NEWS that Professor George N. Lauman had been appointed a member of the Cornellian Council, succeeding Jervis Langdon, resigned, as the representative of the class of '97. The statement was erroneous. Newell Lyon, of New York, is Mr. Langdon's successor on the Council. Professor Lauman succeeded Mr. Langdon some time ago as '97's class secretary.

**CAMPUS NOTES.**

Three candidates for Rhodes Scholarships at Oxford took the qualifying examinations in Goldwin Smith Hall last week. They were Wallace Everett Caldwell '10, of Brooklyn; Gordon Bennett Dukes '10, of Brooklyn, and Walter August Verwiebe '12, of Schenectady.

In the *Independent* for October 21, B. B. Charles '06 tells of some of the discoveries about the ancient Hittite civilization made by the Cornell Expedition to Asia Minor. In the same number is a short essay by Professor Bailey entitled "Moon Farming."

It has been decided by the committee in charge of the Moakley decennial celebration to be held on November 13 that the 'cross-country race between the 'varsity and the old grads shall be run over the four-mile course at 11 o'clock in the morning.

George Young '00 has been appointed assistant professor of architecture, in theory of construction, in the college of architecture. Professor Young was for several years superintendent of construction for Grosvenor Atterbury, of New York.

A freshman debate club has been organized, according to custom. It has chosen to call itself the Ross Gilmore Marvin Debate Club, in honor of the instructor who lost his life while in the Arctic with Commander Peary.

More freshmen have reported for the crew, and Coach Courtney had seven first-year eights on the Inlet last Saturday, besides a 'varsity eight and four 'varsity fours.

A photograph of the Sibley seniors was taken last week.

**If it is not worth the price to you—return it at our expense.  
 That's fair enough, is it not?**

**The new book - AT CORNELL**

You have often been asked questions about Cornell; things which would take too much time to answer in detail—if you had a copy of *At Cornell*, you could immediately refer your inquirer to a full statement, pictures too. Is not that in itself reason enough for ordering now?

Price \$1.70 postpaid.

**The Artil Company**

Ithaca, N. Y.

RECREATION BUILDING  
CASCADILLA SCHOOL  
ITHACA, N. Y.

THE LOCATION of this institution commends itself to everyone familiar with the general healthfulness of the Central Lake Region of the Empire State. Added to this there is the educational atmosphere and stimulating influence of the great University under whose shadow Cascadilla lies. Here are two prerequisites of a good school, healthful location, intellectual environment. The proximity of Cornell University makes it natural that fully 80 per cent. of its graduates enter that institution.

Boys are prepared for all departments of Cornell in accordance with Cornell standards. The instruction is individual in its character, and each boy's course at the school is planned with reference to his particular needs.

As a separate house is provided for the members of each class, pupils are grouped in the residences according to their age and advancement in their studies.

# The Man Who Reads Is The Man Who Leads

In these days of keen competition and careful preparation, the man who succeeds in engineering must keep his knowledge right up to the minute. He must follow all new developments, all new methods and everything important that takes place in his chosen field. He must read the leading engineering journal that relates to his line of work.

**Your Needs Are Met By One Of The Following:**

### **Electrical World**

Weekly \$3.00 a year.

The foremost electrical journal of the world. Covers the entire electrical art and industry.

### **Electric Railway Journal**

Weekly \$3.00 a year.

The accepted authority on the construction, operation, maintenance and management of electric railways.

### **The Engineering Record**

Weekly \$3.00 a year.

The leading civil engineering journal of America. Covers Municipal Engineering, Industrial Engineering, Railway Civil Engineering, Bridge and Structural Engineering, Power Plants, Heating and Ventilation, Public Works, etc.

**SPECIAL RATES TO STUDENTS—SAMPLE COPIES ON REQUEST.**

**McGraw Publishing Co.** 239 West 39th St., New York

## It Is Easy To Write Us.

Cross section paper is an article which is being used a great deal. The people in Economics and Statistics are now using it, as well as engineers. Reports using cross section paper show the results quicker than a mass of figures would. Let us send samples and quotation.
