## Saving

a portion of one's income or wage  
Is Necessary to Success

The proper disposition of savings is as important as the act itself.

The saver should buy for cash only, in which case his success is a question of proper advice.

With proper advice he should not only secure income from investments but a gradual appreciation of principal—due first to a proper initial investment, and thereafter to the timely shifting of investments.

The question of what class of security to buy and when to buy is all important.

We have made a study of these questions and our experience is yours to take advantage of.

Send for our paper on  
"Shifting Investments"

Vol. XIV. No. 31

Ithaca, N. Y., May 8, 1912

Price 10 Cents

THE candidates for degrees at the coming Commencement are 869 in number. Last year the University granted 810 degrees. There are 761 candidates for first degrees, divided as follows: Bachelor of Arts, 183; Bachelor of Chemistry, 23; Bachelor of Law, 60; Bachelor of Science in Agriculture, 85; Doctor of Veterinary Medicine, 31; Bachelor of Architecture, 31; Civil Engineer, 105; Mechanical Engineer, 243. The ninety-seven candidates for advanced degrees are distributed in this way: Master of Arts, 28; Master of Science in Agriculture, 15; Master of Architecture, 1; Master of Mechanical Engineering, 6; Master of Civil Engineering, 7; Doctor of Philosophy, 40. There are 11 candidates for the degree of Doctor of Medicine to be conferred at the Commencement of the Medical College in New York City. Last year that college graduated 55 persons. The medical class of 1912 was the first one to enter after the requirement of at least three years of college work went into effect.

The Robert Browning centenary was observed last night by a meeting in Goldwin Smith Hall. Professor Northup gave an address with lantern illustrations and Professor Sampson gave a reading from the poet.

Dr. Burt G. Wilder is revising for publication the daily letters written during his Civil War service as medical cadet and assistant surgeon and surgeon of the 55th Massachusetts Infantry. He has been revisiting camping and battle grounds in Florida and Georgia. He and Mrs. Wilder are now in Charleston, S. C., for a month. He will revisit Folly and James Islands and will then go to Richmond and Washington.

A memorial to the late Professor William A. Finch '80 is contemplated by faculty members, graduates and present students of the College of

Law. It is proposed to place in Boardman Hall a bronze tablet bearing a suitable inscription. If a large enough fund is raised it is planned also to purchase Professor Finch's law library for the college. The chairman of the committee is Professor C. T. Stagg.

Three one-act comedies are to be presented by The Masque on Friday, May 31. The plays selected are "The Boatswain's Mate," by W. W. Jacobs, and "The Workhouse Ward," by Lady Gregory. The third play is yet to be chosen.

A volume of Milton's minor poems has been dedicated to Henry B. Lord, the oldest trustee of the University, by its editor, Professor Martin Sampson. The dedication is as follows: "The editor wishes to associate with this volume the name of Henry B. Lord, merchant, banker, and Trustee of Cornell University, who, at 91 years of age, is, as always, devoted to the best things in literature."

There will be two literary and artistic games of baseball at Princeton, N. J., on Saturday morning, May 18. The *Cornell Daily Sun* and the *Princetonian* will meet in one of them, and the *Widow* and the *Tiger* will mix it up in the other. This has come to be an annual event, and takes place on the day of the Princeton-Cornell track meet. Last year the Princeton editors and artists were entertained at Ithaca. The games are always interesting to the spectators and exciting to the players. They resemble ordinary baseball games in being played with a ball.

Three literary prizes were awarded last week to undergraduates in the College of Arts and Sciences. The Barnes Shakespeare Prize was won by Florence Marguerita Carpenter, of Ithaca. Henry Morse Blank, of Brooklyn, won the Corson Browning Prize with an essay entitled "Browning's Treatment of Judaism." The

Corson French Prize was awarded to Bleecker Marquette, of Schenectady.

A portrait of Professor Charles Babcock will be presented to the College of Architecture with appropriate ceremonies on the afternoon of May 31. It is the gift of a number of former students of the college, who raised a fund and commissioned an artist, Miss A. M. Upjohn, to paint the portrait. Mr. Babcock was Cornell's first professor of architecture, and is now professor emeritus. He is still enjoying good health. He lives in the house which he built near Sage Chapel many years ago. He will undoubtedly be an honored guest at the presentation.

Gorgeous purple and black striped blazers are now worn by seniors. It is said to be an old Cornell custom, and the seniors are reviving it, with the eager co-operation of the haberdashers.

Duquesne, formerly the Pittsburgh Club, has elected the following officers for 1912-13: President, M. E. Kneeland; vice-president, E. T. Jackman; secretary and treasurer, Warren A. Scott; executive committee, B. S. Page and F. M. Rees; alumni secretary, J. F. Craig.

Members of the junior class made their first public appearance as cheer leaders at Percy Field Saturday. A competition has been in progress for two weeks and as a result 21 of the more than 30 men who reported were picked to assist the seniors in leading cheers at the Dartmouth game. Regular practice in the Armory had given the juniors confidence and not one of the men was confused enough to call for three short yells and then lead the long one. Fifteen men will be selected from the twenty-one now on the squad and at the end of the month the two upper classes will elect ten men to direct the cheering next year.

# Marks of Fraternity Men

## The President's Study of their Comparative Standing in Scholarship

President Schurman announces the following results of the investigation into the average marks of fraternities and fraternal organizations for the first term of the year 1911-12. The mark given for each fraternity or society is a "weighted" average and has been obtained by multiplying the mark of each member of the chapter in each course he took by the number of hours of university credit given for the course, adding these multiples together for the entire chapter, and dividing the total by the total number of university credit hours taken by all members of the chapter. The mark thus obtained for the chapter is really the average mark received by the chapter as a whole for each hour of work done by its members during the term. In the interest of accuracy the computation made for each fraternity was submitted to the fraternity members and opportunity given for correction.

The following is the list of fraternities and societies alphabetically arranged: Acacia (special), Alpha Zeta (professional), Alpha Psi (professional), Amphibia Club, Alpha Theta, Alpha Sigma Phi, Alpha Chi Rho, Alpha Tau Omega, Alpha Delta Phi, Bandhu, Beta Theta Pi, Chi Psi, Chi Phi, Delta Kappa Epsilon, Delta Upsilon, Delta Chi (professional), Delta Phi, Delta Tau Delta, Eleusis, Gamma Eta Gamma (professional), Kappa Psi, Kappa Alpha, Kappa Sigma, Nayati, Phi Gamma Delta, Phi Kappa Psi, Psi Upsilon, Phi Kappa Sigma, Phi Sigma Kappa, Phi Delta Theta, Sigma Phi Sigma, Sigma Alpha Epsilon, Sigma Nu, Sigma Chi, Seal and Serpent, Spanish American Club (special), Skull, Sigma Phi, Telluride (special), Theta Delta Chi, Theta Xi, Theta Lambda Phi, Zeta Beta Tau, Zeta Psi, Zodiac.

The average weighted mark per hour for the 1233 men in these fraternities and societies is 70.02 per cent. Included in the above list, however, are several fraternities and societies which draw their members from only one college or select them

in some other special way that distinguishes these fraternities and societies from the general fraternities. If, now, we exclude from the above list those which, for obvious reasons, have been marked "special" or "professional," we find that the average weighted mark per hour for the men in the general fraternities is 69.58 per cent.

Taking the average mark for the entire list of fraternities and societies, namely 70.02 per cent, the following is a list of the fraternities and societies whose marks—as respectively indicated below—are above this average arranged in order of scholastic standing:

FRATERNITY OR SOCIETY.	Average per cent per hour
Acacia (special) .....	77.40
Alpha Zeta (professional) ..	77.09
Telluride Association (special)	76.46
Alpha Psi (professional) ....	74.55
Bandhu .....	74.52
Amphibia Club .....	73.09
Sigma Phi Sigma .....	73.02
Delta Upsilon .....	72.94
Alpha Theta .....	72.50
Zeta Beta Tau .....	72.33
Kappa Psi .....	72.27
Gamma Eta Gamma (prof.) .	72.06
Nayati .....	71.88
Delta Kappa Epsilon .....	71.26
Kappa Alpha .....	70.96
Alpha Sigma Phi .....	70.89
Zeta Psi .....	70.86
Zodiac .....	70.83
Eleusis .....	70.74
Alpha Tau Omega .....	70.26

### MARKS OF FRATERNITY AND NON-FRATERNITY MEN.

It seemed desirable for purposes of comparison to determine, as nearly as practicable, the average mark per hour of men in undergraduate courses who were not members of fraternities. There are approximately 2500 such men in the University, and as the task of determining the average per cent per hour for such a large number would have more than trebled the large amount of labor necessary for the computations of the marks of the fraternity men, it was decided to com-

pute the average mark of only enough men undergraduates not members of fraternities to form a significant percentage of all the men undergraduates in the University not members of fraternities. The names of 262 men—slightly over ten per cent of men undergraduates not members of fraternities—were chosen in the following arbitrary manner: At regular intervals (about an inch and a quarter) marks were placed opposite the names of five persons on each page of the Student List. If the person opposite whose name the mark happened to fall was a male undergraduate not a member of a fraternity his name was used on the list; but if the person was a graduate student, a member of a fraternity, or a woman, then the name of the nearest male undergraduate not a member of a fraternity was selected for the list. The average mark per hour of the 262 men thus selected absolutely at random, computed in the same manner as for the fraternity men, was 73.91 per cent.

It will be seen, therefore, that the average mark of the fraternity men is about 4 per cent below the average mark of the non-fraternity men. And if we exclude, as above noted, the special and professional fraternities and societies, the average mark of the members of the general men's fraternities is about 4½ per cent below the average mark of the non-fraternity men. Only one general fraternity, Bandhu, is above the average of the non-fraternity men.

In the fraternities the juniors obtained the highest average mark, 71.15 per cent. The seniors averaged 70.37 per cent, the freshmen 69.06 per cent, and the sophomores only 67.50 per cent.

### FRATERNITIES AND COURSES.

It is interesting to note that the distribution between colleges of the 1233 men in fraternities is approximately the same as the distribution between colleges of the 262 non-fraternity men. Of the fraternity members 47 per cent were in engineering (36 per cent in mechanical and 11

per cent in civil engineering), 21 per cent in arts and sciences, 13 per cent in agriculture, 11 per cent in law, 5 per cent in architecture, and 3 per cent in veterinary medicine. Of the 262 non-fraternity men 48 per cent were in engineering (30 per cent in mechanical and 18 per cent in civil engineering), 20 per cent in arts and sciences, 16 per cent in agriculture, 8 per cent in law, 4 per cent in architecture, and 4 per cent in veterinary medicine.

**COMMENTS ON MARKS.**

It is sometimes said that the marking at Cornell is very rigid, and it may be argued that this circumstance accounts for the fact that the average mark attained is not high. Even a professor, however, who marks rigidly, who never considers an examina-

tion paper worth 100, must give a practically perfect paper a mark of at least 90. If, then, we suppose all members of the staff to mark so rigidly—and I do not think they do—a mark of 90 would be on the margin of perfection. As 60 is the passing mark, we should then have an interval of 30 points to characterize students all the way from the lowest standard to the highest. And in terms of this interval we may say that the average mark of students in fraternities indicates a third the distance from a mere pass to excellence or perfection, while the average mark for students outside the fraternities indicates half the distance from a mere pass to excellence or perfection. If we imagine the non-fraternity students divided into two groups, half

of them would be scattered along the way from a pass mark to a good mark (74) and the other half would be scattered along the way from a good mark (74) to excellence or perfection. In the same way we may imagine the fraternity men divided into two groups, one of them scattered along the way from a pass mark to a fair mark (70), while the other half would be scattered along the way from a fair mark (70) to a good mark. This supposition, however, must not blind us to the fact that although the average of fraternity men is 70 and the average of other students 74, there may be individual fraternity men whose marks also run to the highest figures of excellence.

**The Woodford Prize  
Won by A. H. Colcord**

Alan Husted Colcord, of Brooklyn, won the Woodford Prize in oratory at the forty-second annual competition, held in the Armory Friday night. The title of his oration was "The Purpose of a University Training." Honorable mention was given Wallace Henry Hook, of Waterville, for his oration entitled "The Ideal Religion." The other speakers were Lingard Loud, Buffalo; Lewis Edwin Neff, Walton; Howard Gilbert Wilson, Ithaca, and James Bertram Clarke, St. Lucia, West Indies. The judges were Dr. Andrew D. White, Lucius N. Littauer, of Gloversville, and Charles E. Treman. Their decision was unanimous.

Colcord won the Eighty-Six Memorial Prize in his sophomore year. He is a member of the Delta Chi fraternity and was business manager of the 1912 *Cornellian*. Part of his oration follows:

I think it is agreed that ideals in life are necessary. To have an ideal is but to bring the improbable within the realm of probability; to lack one is to make the possible impossible. The little boy who dreams of becoming a President might well sell his chance for a song; yet his dream will sweep him nearer the goal than if he never dreamed at all. Dreams are the heralds of destiny. Lincoln was a dreamer, and the haloed greatness of the man was born in the first boyish dream within the Kentucky log cabin.

It is certain that in a university

community ideals ought to be loftiest, dreams of life truest and bravest; yet often we find them mopped about in the dust at our feet. The college youth, for instance, typified in the tawdry poster, with rolled-up trousers and cigarette hung from his lip, clasping a mug of beer in one hand and a chorus girl in the other, has

A. H. COLCORD.

such a perverted ideal of the true college spirit that he might far better have none at all. There are many people who value a university training too cheaply. How often do we hear it said, "Oh, yes, a college education is an admirable thing; you can make more money with it than with-

(Continued on Page 365.)

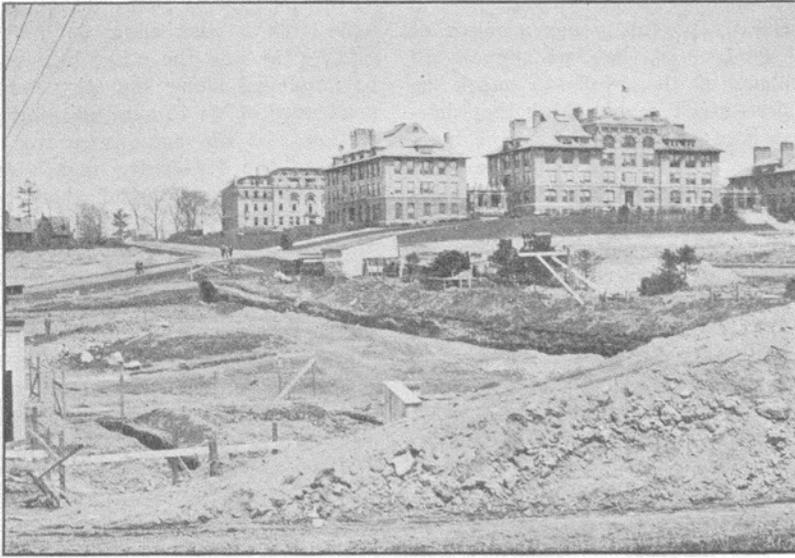

**Fraternity Rushing  
All Chapters Expected to Agree on a Plan**

The fraternities have reached an agreement on the question of postponing rushing. A meeting of the interfraternity association was called for last night, and it was then expected that all the members, including the five which had voted to act independently of the rest, would ratify a proposed plan for deferring the rushing in the fall. The plan had not been fully settled. It was expected to delay the beginning of the rushing period for a week or ten days after freshman registration, the rushing to continue three or four weeks and to be followed, after an interval, by pledging.

President Schurman called a meeting of the fraternity men to hear his report on their scholarship standing, and took occasion to speak of the matter of rushing. He said:

I have learned that a few of the fraternities have joined together and adopted rushing rules of their own which postpone pledging later than those of the other fraternities. A good argument in favor of this is that both the freshmen and fraternity men would have a longer time to get acquainted; but on the other hand the longer the period is postponed, the more liable is University work to be interfered with.

Other arguments that I have heard are that some fraternities because of their size cannot easily get along without getting freshmen into their houses; and that many parents wish their sons to enter fraternities as

EXCAVATION FOR NEW VETERINARY BUILDINGS. NEW HOME ECONOMICS BUILDING IN BACKGROUND.

soon as they get here, feeling that it is the safest place for them where they are under the supervision of upperclassmen.

Whatever the arguments may be, I will not try to state which is the best system. But the fraternities cannot afford, either for their own interests or those of the University, to have any division. From today's paper I see that they are now on the road toward settling the matter, and I sincerely hope they will; if they do not reach a mutual agreement, it may be necessary for the Faculty and Trustees to adopt some system of regulating them. Therefore I urge you come to a harmonious decision that you may retain your own regulation as you have in the past.

### Faculty Appointments

The following instructors have been promoted to the rank of assistant professor: James Frederick Mason, Romance languages; Christian Midjo, freehand drawing in the College of Architecture; Benton Sullivan Monroe, English; Rasmus S. Saby, economics; Roswell Clifton Gibbs, physics; Oscar Diedrich von Engeln, physical geography; Victor Raymond Gage, experimental engineering; John Tainsh Williams, machine design.

The following are recent appointments by the Executive Committee:

Instructors: George Silk Barnum, Romance languages; Allen Gilbert, English; Oliver Ellsworth Buckley, physics; David Truxton Wilber, geology; David Close Comstock, architecture.

Lecturer: Miss Pearl Gertrude Sheldon, geology.

Assistants: R. W. Burgess, mathematics; M. A. Gordon, I. E. Lee and S. A. Mahood, chemistry; J. E. Guernsey and L. O. Overholts, botany; G. W. Ramsey and W. E. Dickinson, geology. C. C. Rose was appointed assistant in chemistry for the remainder of the current academic year.

Charles Goodrich Woodbury, newly appointed professor of pomology in the College of Agriculture, is a graduate of the Michigan Agricultural College in the class of 1903. Since 1905 he has been professor of horticulture at Purdue University and recently head of his department.

### Prof. Roth Not to Come

Professor Filibert Roth, now head of the Michigan School of Forestry, has reconsidered his decision to come to Cornell as head of the department of forestry of the College of Agriculture. Professor Roth has informed Dean Bailey that he prefers to remain at the University of Michigan. His resignation has been accepted by the Dean and Professor Walter Mulford will continue as head of the department of forestry.

Fire last week destroyed the Central School building at Albany and Mill Streets.

### Sigma Xi

The Cornell chapter of the Society of Sigma Xi has announced the election of the following new members:

From the Faculty: Robert Long Daugherty, Frank Oakes Ellenwood, Louis Lazarus Silverman, Earl Sunderville.

From the Graduate School: Paul Johnson Anderson, Alfred Atkinson, Mary Charlotte Axt, Earl Whitney Benjamin, Charles Clarence Bidwell, Stanley Eugene Brasefield, Harry Oliver Buckman, Dale Stevens Cole, Lucy May Day, Robert James Evans, Earl Frederick Farnau, Harry Morton Fitzpatrick, William Silliman Foster, Fritz Friedrichs, William Delbert Funkhouser, Weston Gavett, Maxmilian Meir Goldberg, Burton Judson Lemon, James Martin Lohr, John David Mackenzie, Frank Millett Morgan, Clyde Hadley Myers, Avon Roberg Nottingham, Tanomo Odaira, Henry Mark Parmley, Fred M. Rolfs, Rowland Elisha Stone, Anna Helen Tappan, Arthur Lee Thompson, Charles Homer Tower, Tomlinson Carlile Ulbricht, Lawrence J. Ulrich, Horace Anderson Vanderbeek, Harry Nelson Vinall, Lois Watson Wing.

From the Class of 1912: Raymond Russell Birch, Rudolph Ray Bolton, Thomas Benjamin Brown, Kwang Yi Char, Mao-Kie Chen, Walter Cornelius Conger, Carl Crandall, Harriette Grace Delany, Jacobus Christian Faure, Olin France Flumerfelt, Leonard Franklin Fuller, Anna Jane Hancy, Edwin Samuel Healy, Harold Devillo Hynds, Robert Lane James, Robert Waldo King, Tayo King, John Henry Montgomery, L. B. Reynolds, Alfred Kenneth Starkweather, Edward Hooker Taylor.

### Obituary

#### E. S. Bowen '90

Ernest Spencer Bowen died at his home in Geneva, N. Y., on April 27, of typhoid fever. He was a graduate of Sibley College in the class of 1890, and at the time of his death he was vice-president and general superintendent of the Fay & Bowen Engine Company.

Mr. Bowen was born at Levanna, Cayuga County, N. Y., on May 28, 1858. He had a talent for mechanics. At an early age he went to work for the J. A. Spencer iron works at Union Springs. He entered Sibley College in 1887 and completed the course in mechanical engineering in three years. After his graduation he was employed by the McIntosh-Seymour Engine Company in Auburn. In 1895 he went into business for himself, forming a partnership with Walter L. Fay of Auburn for the manufacture of bicycle parts. After five

years they sold out this business, but again formed a partnership under the name of Fay & Bowen for the manufacture of marine engines. As the business grew they added to it the manufacture of motor boats. Eight years ago they moved to Geneva and incorporated under the name of Fay & Bowen Engine Company. Their business grew steadily and became one of the leading concerns of its kind in the country.

Mr. Bowen was president of the board of public works of Geneva, a director of the chamber of commerce and a trustee of the North Presbyterian Church. He was a member of the Phi Delta Theta fraternity. He leaves a widow, a son and two daughters.

**M. P. Jones '08**

Milton Pratt Jones, of Deerfield, N. Y., died at Saranac Lake on May 2. He was taken ill three years ago, and had lived in the Adirondacks during the last two years in the hope of regaining his failing health. His mother, who had accompanied him and cared for him throughout his illness, died the day before he did. Jones graduated from the College of Agriculture in 1908 and in the same year was appointed an instructor in the department of extension teaching of the college. He was a member of Alpha Zeta, Sphinx Head, Hebs-sa and the Cosmopolitan Club, business manager of the *Cornell Countryman* and first vice-president of the Christian Association.

**The Woodford Prize**

(Continued from Page 363.)

out it." I suppose it is only natural that the Philistine who measures life's success by the money market alone should measure education in the same way. To him the Bible is Dunn and Bradstreet—a college education, the business problem of a money investment. But can brains be bought outright? Is the dollar sign the criterion of worth, and is our highest function in life mere money getting? There is a moral to the sad story of the poor unfortunate who persisted in biting coins to find out if they were genuine. He bit too many, and one fine day contracted metal poisoning and died.

Yet to most of us a university means something more than a four years pleasure resort, and more too than a species of trust company where large interest is paid in after years upon the small money capital invested.

VIEW ON EAST AVENUE TOWARD RAND HALL.

The prima facie purpose of a university is intellectual improvement. It is an axiom that the student's business is to study. But is merely mental development the highest ideal a university holds before us? This is the question: Is the primary purpose intellectual improvement? To answer yes and to say no more is to assert that a university deals merely with the intellectual side of man. Realize this standard in flesh and blood. I doubt if the withered-up, coldly intellectual genius without a wet or a dry tear in his make-up is the model of manhood. We know that sole attention to the mind often atrophies man's larger and fuller powers. Is mind then the only power which keeps us from running amuck? I think not. Intellectual brilliancy of itself has never saved man from perversion. The corrupt scoundrel with brains is a familiar figure in politics. Boss Tweed was an able thief. His monstrous schemes of plunder have all the ear-marks of brain work. It is quite possible in fact that an intellectual genius may be as perverted as the Bowery hobo. \* \* \* \*

I believe the deeper, the hidden, the final aim of a university is moral development. It is urged, I know, that a university does not openly avow a moral purpose. A course in morality cannot be found within the university curriculum. In fact, the only official evidence of the moral and the spiritual is the paid preacher in the pulpit. But the answer is at once before us. The reason there is no course in morality is that morality cannot be taught. You may teach a man mathematics, but he must be his own teacher in honor. A chair in patriotism would fall far short of making a patriot of any of us. Morality is not susceptible to blackboard diagrams and cut-and-dried rules. How then is character developed? First, mental development contem-

plates moral development. An intellectual awakening should effect a moral awakening, or we might as well sleep on. The first flush of appreciation of a beautiful painting comes when we see beyond the mass of color and canvass; when that beauty pervades the soul and makes it rush out to God. Secondly, character is profoundly influenced by the laws of environment. A young man enters a university. There are remarkable opportunities for development, equal opportunities for degeneration. The current of life runs strongest and swiftest. Temptations are at white heat, aspirations heaven high. In this miniature world, the path leads downwards as well as upwards. In the choice of the path lies largely the character. Therefore, in a university character is moulded, not only by the books we read and the lectures we attend, but by the very air we breathe, by the common happenings of our work-a-day lives and mutual association with other men. In the final essence, then, a university is a place where men are made, where visions are seen.

Silently the army of service is being mustered within her gates. We come to a university not only to know how to fight in that army, but first to know what side to choose. We must be on the right side before we are qualified to fight. \* \* \* \*

The message of the university is the message of Hume, "Be a philosopher, but with all your philosophy be still a man." A university would have us be men first, philosophers afterwards, seeing a duty clearly and bravely performing it. Such a man, when he is sent out into the world, may not be a scholar, learned or profound, but if he has upon him the stamp of an abiding character, he is in every sense, a man ready to do a man's work, and the Alma Mater may give him her godspeed.

**SUBSCRIPTION—\$3.00 Per Year**

Published by the Cornell Alumni News Publishing Company. John L. Senior, President; Woodford Patterson, Secretary and Treasurer. Office: 110 North Tioga Street, Ithaca, N. Y.

Published weekly during the college year and monthly in July and August, forty issues annually. Issue No. 1 is published the first Wednesday of the college year, in October, and weekly publication (numbered consecutively) continues through Commencement Week. Issue No. 40, the final one of the year, is published the last Wednesday in August and contains a complete index of the entire volume.

Single copies, ten cents each. Foreign postage 40 cents per year. Subscriptions payable in advance.

Should a subscriber desire to discontinue his subscription, notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts and orders should be made payable to the Cornell Alumni News.

Correspondence should be addressed—

Ithaca, N. Y., May 8, 1912.

One-third of the men in the undergraduate courses are members of fraternities. They came to the University, presumably, for the same purpose as the other two-thirds of the students, and yet the records show that they are accomplishing that purpose less well than the other two-thirds. Either their club life is a detriment, then, or there is some compensation in it for the hours it takes from study. The social life is spoken of as a feature of the fraternity houses, but social life does not take up much time except at meal hours, probably no more time than is taken up in the same way outside. Loafing is actively discouraged in the houses. The largest factor is perhaps the attention given by fraternity men, in a larger proportion than by non-fraternity men, to the "outside activities" of the

University. Whether those activities are worth the college man's while is a question about which books are being written. If he is giving too much time to them, the thing to do for him is not to decry the "activities" but to make him see the valuable opportunity he is letting slip. President Schurman is doing a wise thing in getting the undergraduates to think about this matter.

Our undergraduates now have a large collection of Cornell yells. There are the long yell, the three short ones, the double yell, the locomotive and the siren. There is one which the cheer leaders never call for—The Cornell Yell. Probably nine-tenths of the undergraduates have never heard it. If it were described to an undergraduate as "one short yell" and he were asked to "give it down" he would make a noise like this:

CAW-NELLI-YEHEHELK-NELL.

The old yell was a good one. People used to say it was the best of all the college cheers. It was distinctive, emphatic and resonant. The yell began to decline when the custom arose of giving it three times. The delivery became hurried and the syllables were slurred. The "three short yells" now take about five seconds, just about the same length of time that the old, unhurried, single yell required for proper delivery. The cheer leaders ought to get a few graduates of the eighties and nineties together and hear the real Cornell yell.

More than thirty paintings by American artists are on exhibition in Goldwin Smith Hall for the rest of the college year. The exhibition is conducted by the Cornell Art Association, which was organized two years ago. Among the artists represented in the collection are Jonas Lie, Richard Andrew, Robert Henri, Frank W. Benson, Joseph De Camp, Sergeant Kandall and George Bellows.

### Letters

#### "Sans Femme"

Editor of the Cornell Alumni News:

In a recent number of the NEWS appeared a call to a class reunion, with the following sentence at the end: "Then lay low for a corking rejuvenation, *sans femme*." The writer has waited in vain for somebody to notice this last phrase. Of

course it means that the men of this class do not wish its women members to join in the reunion.

For years the early graduates of the University, who have gone back to their reunions with sincere affection for the University in their hearts and a bit of sentiment uppermost in thought for the members of their class, have been disgusted at the sight of clown-like clad young alumni parading over campus and town with much noise, not to mention disgraceful appearance. Those older men and women knew no such reunion spirit in their young days and see no sufficient reason for such a blot on the beauty of Cornell's campus now.

But to have a reunion call include an open notice to the women of the class to stay out of an orgy that no woman with enough strength of mind and will to have gained a degree from Cornell would ever think of wanting to join—that is a bit too much for an older *alumna*. There are no "sour grapes" in this feeling. Women can and do have good reunions together, but every loyal Cornell woman feels at least that she does belong to the class and might be considered so to belong in its arrangements. The earlier classes make no difference in reunion calls. As these larger classes grow older they will see the matter differently and make provision differently.

The Alumni Association might use its combined efforts to change these undignified proceedings. Possibly the fact that so large a number of technical course men are really segregated and not coeducated, as are the Arts and Science men, may account for some of this. Perhaps a five year course for technical men, with a year of literary work, might have a salutary effect. The presence of a woman might not be so disturbing in their college interests.

ALUMNA.

April 29, 1912.

#### Tribute to Dr. White

Editor of the Cornell Alumni News:

I notice in a recent issue of the NEWS that the Northern California Association adopted a resolution of congratulation to Andrew D. White. The midwinter meeting of the Seattle association authorized a letter of congratulation which I drafted. At that meeting, in my response to the

toast "Alma Mater," I substituted "Andrew D. White," which meant the same thing to me. I then expressed the hope that our letter might become an annual custom. Therefore the California message interests me. I now express the further hope that it become the custom of all Cornell associations. To me, a far-away pioneer, Andrew D. White is Cornell. We can't remember him too often.

JOHN A. REA '69.

Tacoma, April 30.

**Alumni Associations**

**Brooklyn**

Cornell alumni of Brooklyn and Long Island will hold a dinner on Thursday evening, May 16, at the University Club of Brooklyn, Lafayette Avenue and South Oxford Street. President Schurman will be the guest of honor and principal speaker, and the other speakers will include Dr. Eugene H. Porter '80, State Commissioner of Health; Eads Johnson '99, secretary of the Cornellian Council; and John Terence McGovern '00. Col. Timothy S. Williams '84, president of the Brooklyn Rapid Transit Company, will be toastmaster.

This will be the first Cornell dinner in Brooklyn in two years, and a large attendance is expected. Tickets, at \$3.00 each, may be procured from Dr. Herbert D. Schenck, 75 Halsey Street, Brooklyn. The committee in charge of arrangements consists of Dr. Schenck, chairman; William A. Moss crop '88, William F. Atkinson '95, Converse F. Horne '97, Henry R. Cobleigh '01, Richardson Webster '02, Raymond P. Morse '03, Salmon Whitcomb '05, and R. S. Owens '08.

**Class Reunions**

**1882**

The Thirty Year Reunion of the class of 1882 will be held Alumni Day, June 12. It is expected that a good number of the class will be back in Ithaca at this milestone in the class history. Those who have not already done so are urged to send their names to President Schenck at once so that accommodations can be reserved for them at the various functions to be held Commencement week.

The president and only officer the class has at present is

HERBERT D. SCHENCK, M. D.,  
75 Halsey St., Brooklyn.

T. C. POWER, Helena, Mont., Pres.  
I. P. BAKER, Vice-President  
G. H. RUSS, Jr., '03, Cashier.

**BISMARCK BANK**

BISMARCK, N. D.

Issues certificates of deposit, drawing 5 percent interest per annum. Interest payable semi-annually.

### 1897

The local committee would appreciate it if the men of '97 would give their aid to the extent of sending in their preferences as to the date of the Fifteen Year Reunion. So far only eight men outside of Ithaca have expressed themselves, and they are nearly evenly divided.

Considerable agitation has resulted in Ithaca from the contemplated change from Commencement week to May 30-June 1, and quite a strong feeling against the change is manifest. So, in the minds of the committee, unless a reasonable number express themselves in favor of the earlier date, the reunion should be held on June 12, the day set by the Commencement Committee for class reunions. There will be plenty doing. But we must know not later than May 11, as the ALUMNI NEWS goes to press on Monday, the 13th, and we must then make a definite announcement as to the date. Sit down now and drop a postal to the committee.

G. N. LAUMAN, Chairman  
JERVIS LANGDON, Elmira.  
L. A. FUERTES, Ithaca.

### 1902

This is merely a reminder to 1902 men to arrange their business and domestic affairs in such shape that they may join the Ten Year Reunion on May 30 with clear consciences.

The committee is working hard that everybody may be happy and the only co-operation it insists upon is adherence to the above caution.

Circular letters will be sent to each

member of the class giving plans in detail.

A. F. BRINCKERHOFF, Chairman.

### 1909

Since the date for the 1909 Three Year Reunion was set for Navy Day, June 1, many other classes have decided to hold their reunions the same day. This does away with the objection at first raised that 1909 would have to hold forth alone. Now 1902, 1907, 1901, probably 1897 and perhaps others will be here for a big day on June 1.

The 1909 banquet will be held Friday evening at 6:30 at the Senate. On Saturday morning we march in the Spring Day parade. In the afternoon we go to the ball game, and have an entire car for the boat races. The suits will be ready for all those who get here Memorial Day, May 30, and, by the way, the suits are replete with gorgeousness, glowing with all the colors of the rainbow.

This week postals will be sent to every member of the class. An answer by return mail will be greatly appreciated. It would be of great help to the Reunion Committee if every man who is coming back would remit, at once, the reunion tax of \$10, which includes the suit, banquet, observation car seat and ball game ticket. All who want reservations while in Ithaca, write

R. E. TREMAN, Secretary.

Professor E. O. Fippin has an article in the May 3 issue of *Science* entitled "The Practical Classification of Soils."

## Athletics

### Track

#### Pennsylvania 68, Cornell 49

Pennsylvania won the dual track meet at Percy Field Saturday afternoon by a score of 68 to 49. The visitors had a comparatively greater advantage in the field events, scoring 33 points therein to Cornell's 12. On the track Cornell did better, taking first place in all the distance runs.

The feature of the meet was a new intercollegiate and American record made by Tell S. Berna in the two mile run. He set a mark of 9 minutes 17 4-5 seconds, breaking his former record of 9:25 1-5. His time is remarkable, considering that for the last three-quarters of a mile he ran practically alone. Four men started the race—Berna, Crandall and Wheeler of Cornell and McCurdy of Pennsylvania. McCurdy took the lead, but at the first turn Berna strode ahead of him. For a mile and an eighth McCurdy stuck gamely to Berna's heels, but the pace was too much and toward the end Berna drew away fast and finished the race 200 yards ahead of McCurdy. The first quarter was run in 1:05 and the half in 2:13; the time for the mile was 4:38. The second mile was run in 4:39 4-5—less than two seconds slower than the first one. This fast time in the second mile was due to the remarkable pace of Berna in the final quarter. He had his strength so well in reserve that his final lap was the fastest of the eight—62 4-5 seconds.

J. P. Jones won the mile run. Almost all the way he set what was for him a slow pace, and about the middle of the final quarter he hung back and encouraged Finch, who had passed Madeira of Pennsylvania in the third quarter, so that Finch finished in second place. Jones's encouragement was also a factor in the half-mile. Foster of Pennsylvania had taken the lead away from Putnam of Cornell in passing the pole at the finish of the quarter. In the backstretch Jones came up from fourth place and Chapman of Cornell came with him, as did Putnam. The three Cornell men were all leading the two Penn men, Foster and Bodley, as the bunch swung into the stretch. Putnam won,

with Jones second, but Chapman was passed by Bodley.

W. H. Bennett, a brother of J. E. Bennett '11, won the 440, tying the Cornell record of 49 2-5 seconds made by MacArthur last year. He set the pace all the way. He also took second place in the hundred, losing only by inches. Cozzens was equally close to Mercer at the finish of the 220 yard dash.

In the hurdles Cornell picked up only four points, although there were very close finishes in both races. Cornell was also comparatively weak in the jumps and the weights, the exceptions being Coffey, who won the shot put, and Fritz, who tied for first place in the pole vault. The meet showed that Pennsylvania has a strong and well balanced team. The summary:

100 yard run—Won by R. M. Marshall, P.; W. H. Bennett, C., second; J. D. Brown, P., third. Time, 10 1-5 seconds.

120 yard hurdles—Won by A. J. Griffith, P.; C. W. Harper, C., second; F. J. Harris, P., third. Time, 16 1-5 seconds.

One mile run—Won by J. P. Jones, C.; L. S. Finch, C., second; L. C. Madeira, P., third. Time, 4 minutes 28 1-5 seconds.

440 yard run—Won by W. H. Bennett, C.; H. G. Foster, P., second; J. S. Smith, P., third. Time, 49 2-5 seconds.

Two mile run—Won by T. S. Berna, C.; R. M. McCurdy, P., second; Carl Crandall, C., third. Time, 9 minutes 17 4-5 seconds (a new intercollegiate record).

220 yard hurdles—Won by H. W. Haydock, P.; A. J. Griffith, P., second; J. E. Whinery, C., third. Time, 25 seconds.

220 yard run—Won by E. L. Mercer, P.; A. B. Cozzens, C., second; J. D. Brown, P., third. Time, 22 seconds.

880 yard run—Won by H. N. Putnam, C.; J. P. Jones, C., second; J. W. Bodley, P., third. Time, 1 minute 57 4-5 seconds.

Shot put—Won by P. J. Coffey, C.; H. W. Simpson, P., second; H. G. Kanzler, C., third. Distance, 41 feet 3 inches.

Pole vault—H. B. Heyburn, P., and W. H. Fritz, C., tied for first place at 12 feet; E. L. Mercer and J. B. Proctor, P., and Harold Flack and R. M. Robinson, C., tied for third place at 11 feet 6 inches.

Running high jump—J. W. Burdick and F. F. Lane, P., tied for first place at 5 feet 9 inches; H. B. Heyburn, P., and Harold Gouinlock, C., tied for third place at 5 feet 8 inches.

Hammer throw—Won by W. H. Simpson, P., 136 feet 7 inches; D. P. Murphy, P., second, 131 feet 4 inches;

PUTNAM WINNING THE HALF MILE RUN, WITH JONES SECOND. Photograph by H. C. Cable.

H. L. Dutton, P., third, 129 feet 11 inches.

Running broad jump—Won by E. L. Mercer, P., 22 feet 5 1-4 inches; Hammer, P., second, 21 feet 1 -1-2 inches; J. E. Fane, C., third, 20 feet 11 1-4 inches.

**Baseball**

**Dartmouth 2, Cornell 3**

Against Dartmouth at Percy Field Saturday the nine played better ball than in any earlier game of the season, but it was Hightower's pitching, more than anything else, that made a 3 to 2 victory possible. Dartmouth's runs were the result of Cornell errors, while two of Cornell's runs were earned. Seven of the home team got safe hits. O'Connell got two for a total of five bases.

A lucky catch of a low fly by Keller, part of a double play, retired Dartmouth in the first inning, and Cornell at once got two runs with a single by Clute, a triple by O'Connell and a double by Halsted. In the third and fourth Dartmouth got two runs, tying the score. The first of these was due to a two-bagger by Fahey and Bills's fumble of Daley's hot grounder; Bennett scored the second, reaching third on an error and a wild pitch and coming home on Gammon's single. In the fifth Cornell scored the winning run. Five men faced the pitcher, two of whom struck out and three of whom made hits. The first to hit was Isett. His drive went through the right fielder and he went on to third. There the ball was muffed and Isett started for the plate, but on the way he fell down and was touched out. Hightower hit safely,

however, took third on a passed ball and scored on Bills's single. The score:

CORNELL.	AB	R	H	PO	A	E

Three base hit—O'Connell. Two base hits—O'Connell, Halsted, Fahey. Sacrifice hit—Bills. Stolen bases—Daley, Donohue, Gammons. Bases on balls—Off Hightower, 1; off Morey, 1. Struck out—By Hightower, 8; by Morey, 9. Left on bases—Cornell, 6; Dartmouth, 5. Double play—Keller to Clute. Wild pitch—Hightower. Passed ball—Alden. Hit by pitched balls—Donohue and Alden by Hightower. Umpires—Hughes and Donohue, of Elmira. Time of game—One hour and 50 minutes.

**Colgate 1, Cornell 3**

The Colgate game, which Cornell won by a score of 3 to 1 last Wednesday, afforded a basis of comparison with last year, when Cornell, facing

the same pitcher, Perin, and practically the same team, won by a score of 4 to 0. Cornell got five hits off Perin last year and seven hits this year.

Coach Coogan made some changes in the team for the Colgate game, owing to the temporary absence of Bills. Butler covered second base, Halsted was shifted to left field, and Gordon played in right field.

Colgate's run was the result of an error. McLaughlin went to second when Halsted misjudged and muffed his fly, took third on Kingston's sacrifice fly, and scored on Edgerton's grounder to Isett. Cornell scored two runs in the first inning on a combination of errors and a hit by Halsted, and one run in the third on hits by Gordon and Butler. The game was called after the eighth to enable the Colgate team to catch a train. The score:

Baseball, Columbia vs. Cornell, 3 p. m. Admission 75 cents; reserved seats 50 cents and 25 cents. (There will be no office sale for reserved seats.)

FRIDAY, MAY 31.

Performance by The Masque, Lyceum Theatre, 8:15 p. m. Prices \$1.50 to 25 cents.

SATURDAY, JUNE 1.

NAVY DAY.

Spring Day in the morning.

Baseball, Pennsylvania vs. Cornell, 2 p. m. Admission 75 cents; covered stand, 50 cents; steel stand, 50 cents; east stand, 25 cents; west stand, 25 cents; southeast bleacher, 25 cents (free to membership ticket holders.) The ticket sale for the Pennsylvania game will open (for membership ticket holders) at the Athletic Office at 10 a. m. Tuesday, May 28; the general sale will open Wednesday, May 29, at 9 a. m.

Regatta, Pennsylvania and Cornell Junior Varsity Eights. Cornell Intercollege Regatta (five crews). The Lehigh Valley Railroad will run an Observation Train, leaving the foot of West Buffalo Street at 4 p. m. All seats \$2.00 (except the two end cars, \$1.50).

Persons desiring tickets for any of the above events may procure them by sending check covering the price and sufficient postage for return mail to G. E. Kent, Graduate Manager, before May 25.

### Athletic Notes

The golf team opened its intercollegiate schedule Saturday by defeating Pennsylvania 14 to 0.

With the intercollege baseball series about half completed, the College of Agriculture and Sibley College are undefeated.

Baseball, Saturday—Cook Academy, 10; Cornell freshmen, 9.

The 1913 *Cornellian* will be placed on sale this week.

## Alumni Notes

'88, Ph. B.—John R. Mott, general secretary of the World's Student Christian Federation, preached in Sage Chapel last Sunday.

'89, C. E.—Special publication number 10 entitled "The Effect of Topography and Isostatic Compensation upon the Intensity of Gravity," issued by the Department of Commerce and Labor for the Coast and Geodetic Survey, owes authorship to John F. Hayford '89 and William Bowie. Professor Hayford is the head of the college of engineering of Northwestern University and was formerly inspector of geodetic work and chief of the computing division of the Geodetic Survey.

'91, M. E.—The *Electrical Review and Western Electrician* of April 20 contains a portrait and biography of Henry Floy, consulting engineer, of New York. The McGraw-Hill Book Company of New York announces the publication in April of Mr. Floy's book, "The Valuation of Public Utility Properties." He attempts to establish the basis for such valuations by indicating the lines along which theory and practice in the appraisal of public utilities seem likely to become standardized. The chapter on depreciation is based on a paper that was read by the author at the convention of the American Institute of Electrical Engineers in Chicago last summer.

'95, M. S.—Professor E. C. Case, of the department of geology of the University of Michigan, has been elected president of the Michigan Academy of Science.

'01, A. B.—Assistant Professor L. C. Karpinski of the University of Michigan has written a monograph entitled "Robert of Chester's Translation of the Algebra of Al-Khowarizmi," and the University Senate Committee on the Publication of Humanistic Studies has recommended to the Board of Regents that an appropriation be made for publishing it.

'01, M. E.—Henry R. Cobleigh, formerly mechanical editor of *The Iron Age* and later manager of publicity for the International Steam Pump Company, has been appointed

managing editor of *Power*, a weekly published at 505 Pearl Street, New York City, and devoted to the interests of the power plant.

'02, M. E.—Eugene C. Batchelar was married on April 30 to Miss Jeannette Pontefract, daughter of Mr. John W. Pontefract, of Pittsburgh.

'05, Ph. D.—The Harrison research fellowship in zoology in the Graduate School of the University of Pennsylvania for the year 1912-13 has been awarded to Ralph Vary Chamberlin, holder of the fellowship during the present year and previously professor of zoology in Brigham Young University, Utah.

'06, A. B.—J. J. Wolfersperger has resigned his position with the Compania de Real del Monte y Pachuca, in Pachuca, Mexico, and is now with The Fresno Company at Fresno, Zacatecas, Mexico.

'06, M. E.—George W. Roddewig, who has been with the Coeur d'Alene Ironworks, Ltd., at Wallace, Idaho, has just joined the engineering staff of the Snowstorm Mining Company, at Larson, Idaho.

'06, M. E.—Charles A. Lee, jr., is with the British Columbia Electric Railway Company, Ltd., Vancouver, B. C.

'07, G.—George E. Housser is a member of the firm of Craig, Bourne & McDonald, barristers and solicitors, Fairfield Building, Vancouver, B. C.

'07, A. B.—Clarence Kimball announces that he has opened an office for the general practice of law at 115 Broadway, New York. He is a graduate of the Harvard Law School in the class of 1910.

'07, D. V. M.—Mr. and Mrs. George D. Gibbs announce the marriage of their daughter, Hazel Eva, to Charles Goff Thomson, on April 30, at Little Falls, N. Y.

'07, M. E.—Ralph R. Nickerson has moved from Somerville, Mass., to Cleveland, Ohio, where his address is in care of the International Steam Pump Company.

'08, M. E.—Grover H. Jones is manager of the Sherman Brady Brick Company, Houston, Texas.
