Do You Use Press Clippings?

It will more than pay you to secure our extensive service covering all subjects, trade and personal, and get the benefit of the best and most systematic reading of all papers and periodicals, here and abroad, at minimum cost.

Our service is taken by progressive business men, publishers, authors, collectors, etc., and is the card index for securing what you need, as every article of interest is at your command.

Write for terms or send your order for 100 clippings at \$5, or 1,000 clippings at \$35. Special rates quoted for large orders.

CORNELL ALUMNI NEWS

VOL. XVIII., No. 36

ITHACA, N. Y., JUNE 8, 1916

PRICE 10 CENTS

GIFTS amounting to \$85,100 have been received toward a fund for the construction of a dining hall. Mr. Boldt made that announcement in Ithaca one day last week. The several sums which have come into this fund are \$20,000, \$10,000, two of \$25,000, one of \$5,000, and one of \$100. All these gifts have been made anonymously. The number of them is evidence that Mr. Boldt is not resting from his efforts to continue the development of the group of residence halls. He says the dining hall should be the next building erected. Next year there will be two hundred and fifty men living in the four halls now completed—a number already large enough to emphasize the need of dining rooms near by.

THE PLANS for the dining hall are well along toward completion by the architects, Messrs. Day & Klauder. They call for an outlay of \$350,000. Ultimately there will be two of these halls, designated respectively as the north and the south. Since the construction of the residence group has begun at the north end, the north dining hall will be the first of the two undertaken. It will be of a size sufficient to provide dining and recreation rooms for all the men inhabiting the northern half of the whole group of buildings. It will be a collection of dining halls under a single roof. Mr. Boldt himself is a strong advocate of a plan to divide the building into several parts. He has been heard to say that it is not good for a man to dine in the company of several hundred others. So there will be perhaps as many as eight or ten separate dining halls in the building, each of a size to accommodate sixty or seventy men, or about the number for which the average residence hall has room.

IN ADDITION to the regular dining rooms it is likely there will be a cafeteria, or perhaps more than one. The student seems to like this method of getting his breakfast and luncheon. It is economical, because the cost of service is almost eliminated, and it is elastic and gives him some freedom with respect to his meal hours. When the construction of the building will begin it is of course

impossible to predict. It is intimated that the beginning need not await the completion of the whole fund of three hundred and fifty thousand dollars, but that the contract will not be let until there is enough in hand to promise the speedy completion of the whole big structure.

THE FOUR RESIDENCE HALLS are now getting their final exterior polish in preparation for their inspection by alumni this month. Practically all the retaining walls pertaining to Baker Court and Founders Hall will be completed by Commencement. Flag walks have been laid to the various entries. The courts have been leveled and smoothed, the lawns seeded, and the borders sodded. Shrubs have been planted along the walls. All the work possible will be done toward giving this attractive group of buildings its permanent landscape setting. All around it are raw earth and naked rock, but the inner courts have already a finished and almost a venerable look.

THE GEORGE CHAPMAN CALDWELL PRIZE in Chemistry has been awarded for the academic year to Charles Gasner Stupp, of Auburn, N. Y. Mr. Stupp is a candidate for the degree of Bachelor of Chemistry this month. He is a member of Tau Beta Pi and Sigma Xi. The prize is fifty dollars. It was established by Professor Frank Cary Caldwell '90 and Mrs. Grace Caldwell Chamberlain '92 as a memorial of their father. It is awarded annually to a member of the senior class for general excellence in chemistry.

THE FRANCES SAMPSON FINE ARTS PRIZE has been awarded to Harry Caplan '16, of Albany. This prize, founded in 1909 by Professor Martin Sampson in memory of his wife Frances Van Rensselaer Sampson, is awarded "to that student in the University who shows the most intelligent appreciation of the graphic and plastic arts and architecture." The prize is about thirty dollars, to be expended in books or reproductions.

BOOK AND BOWL, an upperclass club for the sociable study of literature, has admitted the following to membership: 1917: John Caldwell Corliss Gardiner

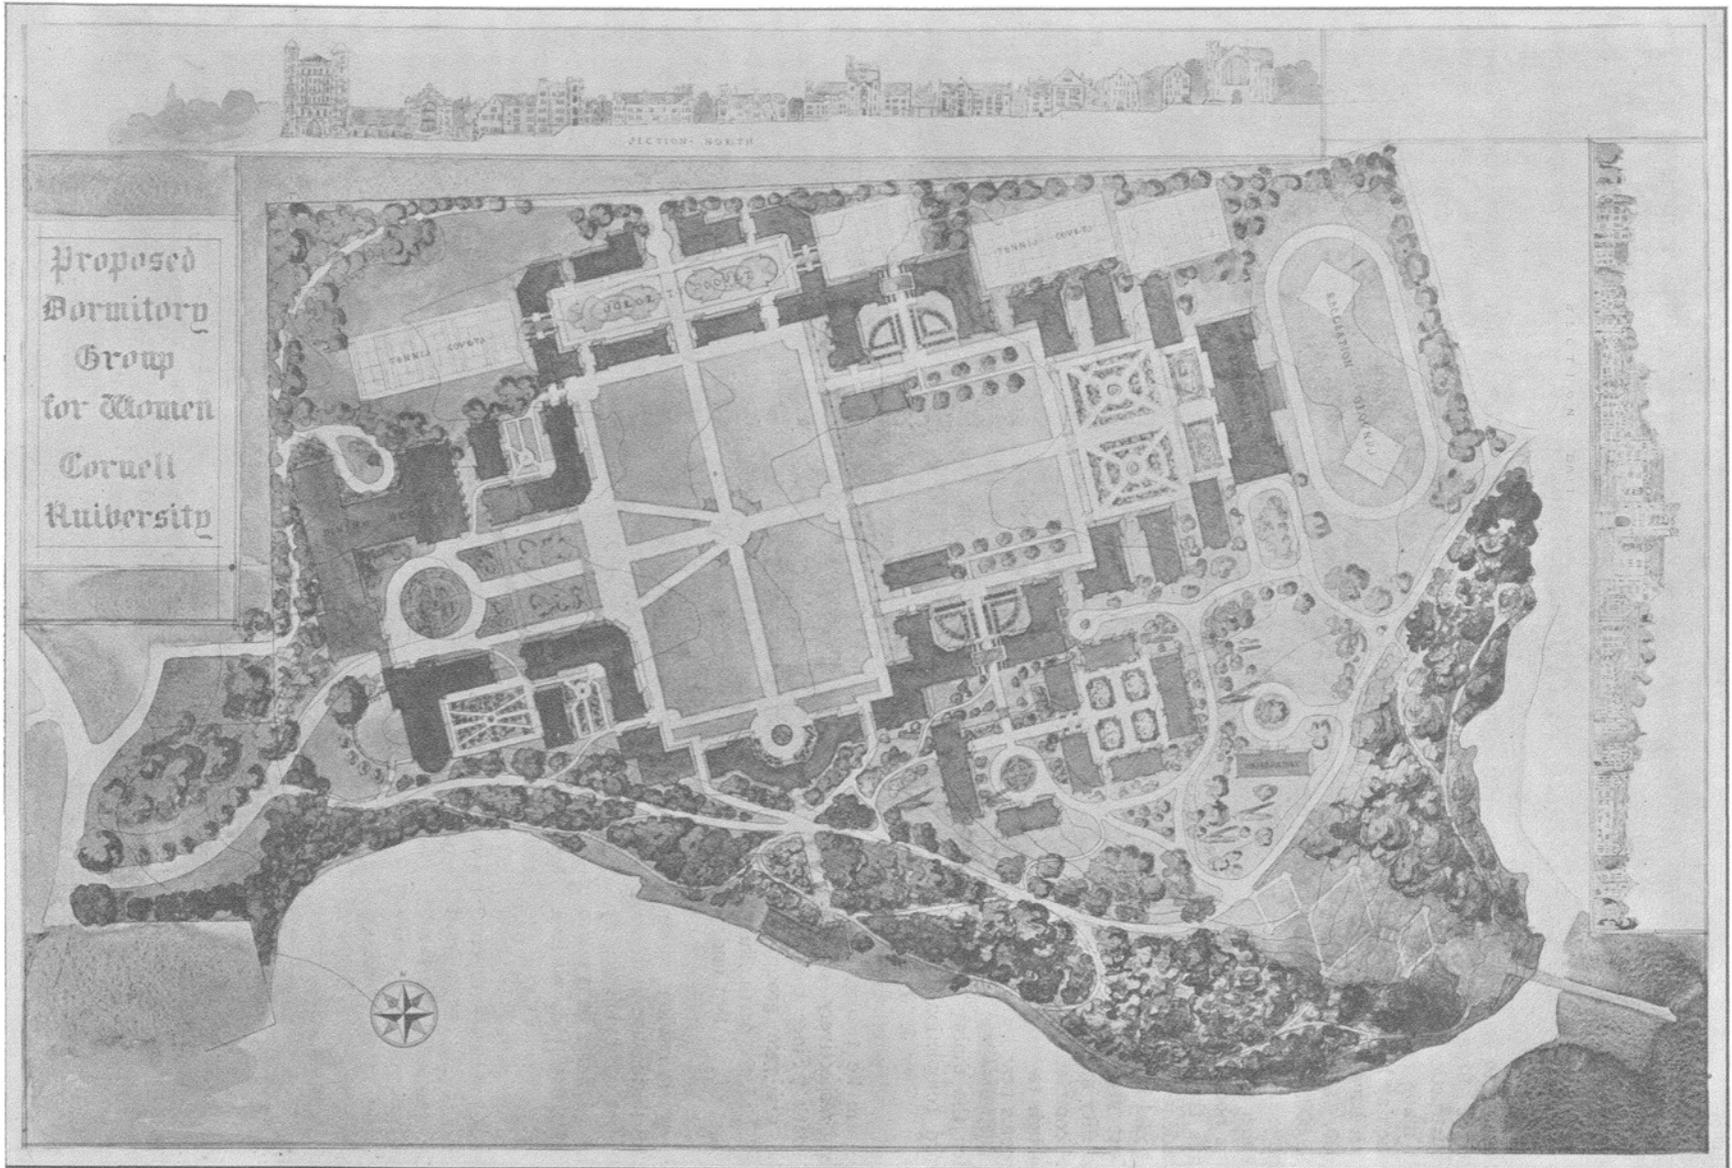

New York; Charles Henry Ramsey, Albany; Donald Bain Vail, Ridgewood, N. J.; Geoffrey Maurice O'Connell, Ithaca; William Alfred Franzheim, Wheeling, W. Va.; William Ferdinand Stücker, Montclair, N. J.; Herbert Wilgus Ballantine, New York; William Mitchell Blair, Chicago; 1918: Willard Fiske Place, New York; Sidney Clark Doolittle, Utica; Richard Peck Mathiesen, Chicago; Frank Charles Reavis, jr., Falls City, Neb.; William Darlington Mullin Shuman, Pittsburgh; Charles Louis Thomas, jr., Cincinnati.

FORTY-FIVE FRATERNITIES have formally accepted the rules designed to govern the rushing next year. An outline of these rules was printed in the NEWS of May 25. All the houses agree to do their rushing early in the first term. They are all members of a single organization, named The Cornell Interfraternity Association. There is in the name a hint that the association may on occasion concern itself with matters outside the mere regulation of rushing. The hint is confirmed by a clause of the constitution which provides that the association "shall have the power to form an advisory alumni board for the more effective carrying out of any plans this association may adopt and to discuss any other questions in which this association seeks its advice."

SEVERAL TITLES have been changed in the department of physical training. The staff is now organized as follows: Charles V. P. Young, professor of physical education and physical training; Ellen B. Canfield, professor of physical education and physical training for women; Dr. S. A. Munford, medical examiner and lecturer on physical diagnosis; Dr. Edith Matzke, medical examiner and lecturer on hygiene.

ELECTIONS to the editorial board of the *Era* from the freshman class have been announced as follows: Peter Vischer, New York City, and Randall James Le Boeuf, jr., Albany. Vischer is a member of Phi Gamma Delta and Le Boeuf belongs to Delta Chi.

JAMES T. QUARLES, the University organist, has been appointed assistant professor of music.

PRIZE DESIGN BY ALBERT E. PRICE '16 FOR THE DEVELOPMENT OF A WOMEN'S DORMITORY GROUP NORTH OF BEEBE LAKE, CORNELL UNIVERSITY

This plan was awarded first place after a competition among students of the first class in design in the College of Architecture for a prize offered by Miss Kate Gleason, of Rochester. The tract of land north of Beebe Lake was proposed for the study and the program called for a complete residential group to accommodate fifteen hundred young women students. The main entrance to the group was to be from Thurston Avenue, opposite Risley Hall.

The Proposed Residence Halls for Women

IT is hoped that the interest of alumni and alumnae in the growing problem of additional housing facilities for women students will be quickened by the reproduction in this issue of the ALUMNI NEWS of the prize-winning solution of a problem recently assigned to the students in advanced design of the College of Architecture.

For some time interested alumnae have been anxiously considering the problem of providing suitable housing for the rapidly growing numbers of women students. Nowadays the returning alumnus who uses the term "Sage girls" as equivalent to women students soon finds that he is creating confusion. That term now designates only a particular group of women—a rather small group, too, in comparison with the whole number. In spite of the erection of Prudence Risley Hall some three years ago, more than half of the total number of women registered this year were obliged to find accommodation outside the University buildings, some of them under conditions far from ideal.

The opinion seems to be held very generally that this condition is far more undesirable in the case of women students than in the case of men. The alumnae who have kept most closely in touch with university affairs have come to feel, therefore, that perhaps the most immediately helpful service that they can render their alma mater is to provide some solution of the problem of housing for women students; and it is significant that the first action taken by the Advisory Committee, created last June by the Federation of Cornell Women's Clubs, was the appointment of a subcommittee on housing.

Ever since its appointment this subcommittee under the chairmanship of Mrs. W. H. Carrier (Jennie Martin '90) of Buffalo has been actively at work upon the problem. The continuous and of late rather rapid increase in the number of women students seemed to the committee to indicate the wisdom of looking forward to the construction, not of one or two more isolated buildings, but of an extensive system of residential halls for women comparable to that projected and already partly realized for the men.

The President of the University in his report to the Board of Trustees for 1913-14 had already pointed out the ideal spot for the location of such a group. So long ago as 1911-12, when the ques-

tion of the location of Prudence Risley Hall was before the Board of Trustees, the President had recommended that the land above Fall Creek Bridge "on the north of the gorge as far up the stream as Forest Home should be purchased as soon as satisfactory terms could be secured and, when purchased, held by the University with special reference to the needs of future halls for women" (The President's Report, 1913-14, p. 39). Accordingly, when the opportunity presented itself, the land was purchased.

The members of the alumnae committee found themselves in entire accord with the President as to the desirability of this location as a site for women's halls of residence; and having sought and obtained from the Committee on Buildings and Grounds of the Board of Trustees permission to have architectural studies made for the possible development of the tract, they began casting about for the necessary means. No such sum of money as would be needed to retain the services of an architect was immediately available. Moreover, the whole undertaking seemed still too tentative and visionary to justify such an expenditure even had the means been forthcoming.

At this juncture it was suggested that a beginning, at least, might be made toward the development of the idea if the department of design in the College of Architecture could use this as one of the problems in advanced design. Conference with the members of the department proved this to be quite possible and, in order to stimulate interest in the problem on the part of the students, Miss Kate Gleason of Rochester offered a prize of one hundred dollars for the best solution.

In working out the details of the program for the competition, however, the department decided that it would be best to divide the problem into two parts: the first to consist of the general scheme for the development of the whole group of buildings, the second of the designing and planning of certain selected individual buildings or groups of buildings. The prize also was divided and the sum of forty dollars was offered for the best solution of the first part of the problem, the general plan. This prize was awarded to Albert E. Price '16, of Port Arthur, Texas, for the design reproduced on the opposite page. The result of the competition was highly satisfac-

tory. The drawings submitted were generally excellent in quality and the solutions of the problem were varied and interesting. The competition for the second part of the problem has not yet closed.

The program for this first competition called for the development of a complete residential group to accommodate 1,500 women students in building units housing from 25 to 50 students each. A central kitchen and dining group was to be provided and a social center, which might be combined with the dining group or might form a separate unit. It was suggested that somewhere in the group there should be provided a number of smaller dwelling units, housing about 25 each, which might be used by sororities or other organized groups, thus meeting the desire of congenial groups for a closer companionship without cutting them off from the general life of the community. Provision was to be made either separately or in connection with the dining group for suitable housing for the necessary employees.

To many of the alumnae, however, the most interesting part of the program will probably be its requirement of adequate provision for the physical training of the women students. The committee was unanimous in the opinion that in the case of young women particularly it is highly important that the gymnasium facilities and facilities for outdoor recreation be made an integral part of the residence group. The program called, therefore, for a fully equipped gymnasium for 1500 young women, with medical examiners' offices, examination rooms, consulting rooms, laboratory, rest rooms, etc. In addition there were to be provided fifteen or more tennis courts, probably near the residential halls, besides a baseball diamond, out-of-door basketball field, hockey field, running track and playground. An easily accessible boat house with adequate equipment was also to be provided on the north shore of Beebe Lake.

These were in brief the requirements of the program. The arrangement of groups and buildings was left entirely to the competitors, but it was suggested that the plan should be so designed that a portion of the group might be built at any time and yet provide all necessary facilities for comfortable living. The committee has found the drawings stimulating and suggestive. The members hope that the alumnae will be sufficiently

interested to examine carefully the one here presented and to make to the chairman (Mrs. W. H. Carrier, 1350 Amherst Street, Buffalo, N. Y.) suggestions or criticisms that may occur to them. Unquestionably the results of the second competition will be still more interesting and provocative of discussion and criticism.

As matters now stand this drawing represents nothing but a beautiful dream. Whether any part of it or anything approximately like it is ever to become a reality will depend upon how much of real interest and loyalty to alma mater lives in the hearts of Cornell women. The undergraduate women already have plans afoot to provide by next fall a nucleus, however small, for a building fund. The alumnae have not, as yet, even a plan. The housing committee will bring in a full report to the Federation of Cornell Women's Clubs at its meeting next week. It is hoped that the members of the Federation will be prepared with definite suggestions for securing the cooperation of all Cornell women.

Against Honorary Degrees

Almost Unanimous Vote of the Faculty Determines the Matter

The University Faculty, at a regular meeting held on June 5, voted with virtual unanimity to continue its long established policy of not conferring honorary degrees.

The question had been made a special order of business for the meeting of June 5. It had been discussed in meetings of the alumni, and the committee on the semi-centennial had considered it with reference to the program of the exercises to be held in 1918. It had come to the Faculty in the form of a letter from the President inviting the Faculty to express its opinion on the subject. The vote was taken after a hearing of arguments for and against.

It is said to have been the understanding of the Faculty that its vote would settle the matter one way or the other. The question of honorary degrees is understood to be a question of educational policy, and questions under that head are by a well established custom at Cornell referred by the Board of Trustees to the Faculty for determination.

DR. WILLIAM K. WRIGHT, formerly instructor in philosophy and recently lecturer on education here, has resigned to accept an assistant professorship of philosophy in Dartmouth College.

Professor Church's Retirement

Resolution of the University Faculty

A resolution upon the retirement from active teaching of Professor I. P. Church '73 has been adopted by the University Faculty. The resolution reads:

On the retirement of our colleague Professor Irving Porter Church, at the close of the academic year 1915-16, after forty years of continuous service as a teacher in this University, we wish to place upon record our deep regret at the severing of his present relations with us and to express our appreciation of his service, his influence, and his personal character.

He entered the University as a student in 1869, with the second four-year class, and so remarkable was his record that its fame lingered long, even in the fleeting memory of an undergraduate world. For three years after his graduation from Cornell he was engaged elsewhere as a teacher; but at the expiration of that period he returned to his alma mater as Assistant Professor of Applied Mechanics. In 1891 he was promoted to the rank of Associate Professor, and in the following year to that of Professor.

Professor Church from the first developed remarkable ability as a teacher. Applied mechanics is regarded as the most important fundamental scientific course in engineering education; and his power of clear exposition and his skill in illustration were accompanied by rare ingenuity in devising problems for class use. In later years he developed a unique course, called "engineering problems," to supplement the courses in theoretical mechanics and hydraulics and to introduce the student to the application of theory in design.

Professor Church has exerted a profound influence upon the development of engineering education and engineering practice. His notes on Weisbach's *Mechanics*, begun about 1876, grew into an admirable book, his *Mechanics of Engineering*; and this book set a new standard in clear exposition of theory and wise applications of theoretical principles to problems of engineering practice. Published in parts in 1886-89 and in one volume in 1890, it speedily became recognized by engineers in practice as well as by teachers as the greatest American work on its subject, and all subsequent writers and teachers of mechanics have been under great obligations to it, while thousands of successful engineers keep this book at hand for daily reference.

The *Mechanics of Engineering* was followed by his *Notes and Examples in*

Mechanics, and by books on *Hydraulic Motors* and *Mechanics of Internal Work*. Numerous contributions on these subjects have been made by him, too, to engineering periodicals.

Throughout his long career at Cornell he has given himself with whole-hearted devotion to his work, and to unselfish service for his students. No labor was ever spared in making thorough preparation for the numerous courses inaugurated and developed under his direction. His ability in sound reasoning and in devising new formulas and methods was matched by that capacity for attention to details which helped to make his teaching so effective. And even beyond his rare gift as a teacher, his sympathetic and helpful nature and his broad interest in the highest things of human life have affected his students during the forty years of his service so that they have gone out with higher ideals to greater accomplishments whether in teaching or practice.

The appreciation of Professor Church as a teacher and investigator is shown by the claims made upon him for many years by former students and other engineers to aid them in the solution of new and difficult problems. The results of this work were used, in turn, to enrich his instruction. The reputation which the College of Civil Engineering has attained throughout this and other countries is due in a large degree to him.

Outside the class room he has, in his own quiet way, held always a high place in the esteem of his townsmen and his colleagues. Shy and self-effacing to a fault, rarely on his feet in faculty meetings and seldom appearing in miscellaneous assemblages, it was only his eminence as a scholar and a teacher that ensured his place in the general thought. But to the lesser world of his college, his church, his circle of friends, to the lovers of music and of the arts in our university community, he was well known, and both the charm of his character and his rare personal gifts won him warm recognition. Nor has he ever been too busy to be a good citizen, a considerate friend, a helpful neighbor. May his new leisure open to him a wider door for every congenial activity.

ROBERT L. DAUGHERTY has resigned his assistant professorship of hydraulics in Sibley College and has accepted a professorship in hydraulics in the Rensselaer Polytechnic Institute. He is a graduate of Stanford (A.B., 1909) and has been a member of the Sibley Faculty since 1910.

The Faculty Elects Delegates

Professors Kimball, Willcox and Comstock to Meet with the Trustees

The University Faculty at a meeting held on June 5 elected three of its members to represent it as delegates at meetings of the Board of Trustees of the University. The delegates are:

Dexter S. Kimball, professor of machine design and industrial engineering, for a term of three years.

Walter F. Willcox, professor of economics and statistics, for a term of two years.

John Henry Comstock, professor of entomology and general invertebrate zoology, emeritus, for a term of one year.

The election took place in consequence of the Trustees' recent action, in which the Faculty concurred, for representation of the Faculty in the deliberations of the Board, and which made substantially the following provision: During a period of three years beginning June 1, 1916, the University Faculty may be represented at meetings of the Board by delegates. The Faculty is authorized and invited to select these delegates, who are not at any time to exceed three in number. The Faculty is to select the delegates by ballot and is to fix their terms of office, which are not to extend beyond the term of three years mentioned above. The delegates are to have the right to meet with the Board of Trustees and its committee on general administration and are to possess all the powers of Trustees except the right to vote.

By its method of election the Faculty expressed its decision that the term of office of each delegate shall be three years and that one delegate shall be chosen every year.

The Trustees had also made provision for the creation by each college at Ithaca except the state colleges of a committee of three to confer on occasion with any one of the standing committees of the Board. Thus far no college faculty has announced the creation of such a committee. This provision was elastic, permitting any of the faculties to constitute its conference committee as occasion might arise rather than for a fixed term.

Professor Kimball was born in the Province of New Brunswick. He received the degree of A.B. in engineering at Stanford University in 1896, after he had served six years as apprentice and journeyman machinist in the State of Washington and six years more in the shops of the Union Iron Works in San Francisco. He was assistant pro-

fessor of machine design in Sibley College in 1898-1901; works manager of the Stanley Electric Manufacturing Company, Pittsfield, Mass., 1901-4; and he has been professor of machine design in Sibley College since 1904. In 1912 he was acting director of the college for one term.

Professor Willcox was born in Reading, Mass., and is a graduate of Amherst College and the Columbia Law School. He took the degree of Ph.D. at Columbia and has received from Amherst the honorary degree of LL.D. He has been teaching at Cornell since 1891. As chief statistician of the United States Census and in other capacities he has served the federal government, and since 1907 he has been consulting statistician of the New York State Department of Health.

Professor Comstock retired in 1914 after forty years of service as instructor and professor of entomology. He is a graduate of Cornell in the Class of 1874. For two years, 1879-81, he was entomologist of the Department of Agriculture at Washington.

New York Club Activities

**Various Talks Given in the Last Month—
New Officers**

The Cornell Club of New York brought to a more or less formal close its series of weekly talks and entertainments when two officers of the Navy, Lieut.-Commander Riggs and Lieut. A. M. Cohen, met some of the members at the club on May 24 and told plans for the U. S. Training Cruises to be taken this summer. After the talk there was every indication that there would be a goodly number of Cornellians who will join the "Naval Plattsburg" and take the month's cruise from August 15 to September 12 on one of the six or eight battleships which the Government is providing.

For the past month the doings at the club have been varied and frequent. James Hare, war photographer for *Leslie's Weekly*, had an evening there on April 26 which was voted one of the best of the year. He had a remarkable collection of "close-ups" of modern warfare.

B. C. Forbes, business editor of the *New York American*, talked on April 28 on "Corporation management and public opinion," and a week later C. W. Whitehair, secretary of the Christian Association, gave an account of his work in Europe where the Christian Associations are sending men into the prison camps.

Justice John Ford '90, of the New York Supreme Court, was the guest on May 12, speaking on "An American merchant marine as related to national safety."

At the May meeting of the board of governors, the following officers were elected for the ensuing year: President, Edwin N. Sanderson, '87; vice-presidents, Ira A. Place '81, Dr. Henry P. de Forest '84, John H. Barr '89, Bert Hanson '93, and John C. Westervelt '94; secretary, Foster M. Coffin '12; treasurer, Leroy L. Perrine '00.

DESIGNED A NEW COIN

Dimes, quarters, and half dollars of new design will be minted after July 1. The designer of the new quarter is Hermon Atkins MacNeil, N.A. Mr. MacNeil was commissioned recently to execute the statue of Ezra Cornell which is to be unveiled by the University in 1918. He is the sculptor of the memorial bust of Robert Henry Thurston in Sibley College. The "buffalo" or "Indian head" nickel, now in general circulation, was designed by Mr. J. E. Fraser, the sculptor of the Scheollkopf memorial tablet in the rotunda of Schoellkopf Hall.

ACADEMIC FREEDOM

A definition of "academic freedom" was related at a recent meeting of educators in New York by President Hadley, of Yale, who said that Dean Jones of Yale College was the author of the definition. It is this: "Academic freedom is the privilege assumed by college professors of saying what they think without thinking what they say."

1913 REUNION PICTURE

Any member of the Class of 1913 who wishes to have a copy of the group photograph which was taken at the reunion on Spring Day can obtain a print by writing directly to J. P. Troy, Ithaca, and enclosing a check for one dollar.

THE ASSISTANT managership of the musical clubs has been won in competition by Willard Fiske Place '18, of New York. He is a son of Ira A. Place '81.

ALEXANDER M. DRUMMOND, A.M., instructor in public speaking, has been promoted to the grade of assistant professor.

LEONARD A. LAWRENCE, who has been an instructor in civil engineering since 1907, has been promoted and appointed assistant professor of surveying.

SUBSCRIPTION PER YEAR—\$3.00

Published by the Cornell Alumni News Publishing Company. John L. Senior, President; Woodford Patterson, Secretary and Treasurer. Office 110 North Tioga Street, Ithaca, N. Y.

Published weekly during the college year and monthly in July and August; forty issues annually. Issue No. 1 is published the first Thursday of the college year in September and weekly publication (numbered consecutively) continues through Commencement Week. Issue No. 40, the final one of the year, is published the last Thursday in August and contains a complete index of the entire volume.

Single copies ten cents each. Foreign postage 40 cents per year. Subscriptions payable in advance. Should a subscriber desire to discontinue his subscription, notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts and orders should be made payable to Cornell Alumni News.

Correspondence should be addressed—

CORNELL ALUMNI NEWS,
Ithaca, N. Y.

WOODFORD PATTERSON
Editor

R. A. B. GOODMAN
Assistant Editor

Printed at the shop of the Cayuga Press

Entered as Second Class Matter at Ithaca, N. Y.

ITHACA, NEW YORK, JUNE 8, 1916

AFTER the issue of the NEWS of June 15, the next number will be published on June 29. That number will contain accounts of the class reunions, the Commencement exercises, and the intercollegiate regatta.

THE CAMPUS will be wearing its best dress at the time of the reunions. On many Commencement occasions it has been so torn up by building operations that it did not present a very good appearance. There is only one real blotch on its beauty now: that is where the ruins of Morse Hall are being prepared for the temporary use of the department of chemistry. There is unfinished work to be seen at the new armory and the residence halls. The halls, however, are completed, and will be surrounded by green lawns. The open quarry on West Avenue, and the ungraded ground west and south of the halls, are not beautiful in themselves, but they are suggestive of other beautiful structures to rise, we all hope, in the near future. These things are reminders to the returning alumnus that Cornell is continually growing. But in the older

parts of the Campus he will find assurance that, however much the University may grow, it remains in essentials the same Cornell.

REUNION NOTICES

ALUMNI REUNION PROGRAM

The following program for the two Alumni Reunion days in June is subject to revision.

Friday, June 16—Alumni Day

9 a. m. Registration of all classes at Reunion Headquarters, Goldwin Smith Hall.

1 p. m. The Cascadilla and Home Economics cafeterias will be open to alumni for luncheon.

2 p. m. Meeting of the Board of Directors of the Associate Alumni, Goldwin Smith Hall.

2 p. m. Business meeting of the Federation of Cornell Women's Clubs, Prudence Risley Hall.

4 p. m. Baseball—Varsity vs. Colgate, Playground.

4—6 p. m. Alumnae Tea, Prudence Risley Hall.

7:15 p. m. Senior Singing, Goldwin Smith Steps.

10 p. m. Fraternity and Club reunions.

Saturday, June 17—Alumni Day

8:30 a. m. Meeting of the Board of Directors of the Associate Alumni, Goldwin Smith Hall 134.

9 a. m. Meeting of the Association of Class Secretaries, Goldwin Smith Hall 142.

9 a. m. Meeting of the Cornellian Council, Morrill 27.

10:30 a. m. Presentation of portrait of Professor Crandall, Rockefeller B.

11 a. m. Annual meeting of the Associate Alumni of Cornell University, Goldwin Smith A.

1:30—4 p. m. Luncheon, to which all alumni and former students are invited, in the Armory.

6 p. m. Class dinners.

10:30 p. m. Alumni Rally, under the auspices of the Class of 1901, Bailey Hall.

REUNION CLASSES

Following is a list of the classes which will hold reunions on June 16 and '17 and the names and addresses of the secretaries:

1871: R. G. H. Speed, 911 East State Street, Ithaca.

1876: D. F. Flannery, 1200 Westminster Building, Chicago.

1881: H. H. Wing, 3 Reservoir Avenue, Ithaca.

1886: Dr. Luzerne Coville, 514 East Buffalo Street, Ithaca.

1891: Willard Austen, University Library, Ithaca.

1896: G. S. Tompkins, Box 343, Albany, N. Y.

1901: Arthur H. Sherwood, 52 Vanderbilt Avenue, New York. Reunion Chairman: J. P. Harris, 714 Cuyahoga Building, Cleveland.

1906: Reunion Chairmen: Roger S. Vail, 110 South Dearborn Street, Chicago; Miss M. L. Stecker, Mount Holyoke College, South Hadley, Mass.

1913: Reunion Chairman: Agnes Henderson Hoff, 627 Tuscarawas Avenue, New Philadelphia, Ohio.

CORNELL LUNCHEONS

Albany.—Second and fourth Thursdays, at the University Club.

Baltimore.—Every Monday, 12:30 to 1:30 o'clock, at the City Club, in the Munsey Building. A separate room is reserved regularly for Cornell men.

Binghamton.—Every Tuesday at 12:15 o'clock in the grill room of the Chamber of Commerce, on the twelfth floor of the Press Building.

Boston.—Every Thursday, 12:30 to 1:30 o'clock, at the Quincy House.

Buffalo.—Every Tuesday, 12:30 to 2 o'clock, at the Hotel Iroquois, Parlor G.

Chicago.—Every Thursday, 12:30 o'clock, at the Grand Pacific Hotel.

Dayton.—Every other Saturday, 12:30 o'clock, at Rike-Kumler's.

Detroit.—Every Thursday, 12:15 o'clock, at the Hotel Statler.

Indianapolis.—Last Friday of each month during the fall, winter, and spring, at 12:15 o'clock, at the University Club.

New York.—Every Wednesday at the Machinery Club, 50 Church Street.

Philadelphia.—Luncheon every day, 12 to 2 p. m., at the rooms of the Cornell Club of Philadelphia, 1519 Sansom St.

Pittsburgh.—Every Friday between 12:15 and 1:30 p. m., at the Fort Pitt Hotel.

Saint Louis.—Every Thursday, 12:30 o'clock, at Lippe's Restaurant, Eighth and Olive Streets.

Spokane.—Every Wednesday at the University Club.

Syracuse.—Every Thursday, between 11:30 and 12:30 o'clock, at Endres', 209 South Warren Street.

Washington, D. C.—Every Tuesday, 12:30 o'clock, at the Ebbitt House.

Wichita.—Every Saturday, at 12 o'clock, at the Wichita Club.

PROFESSOR W. F. WILLCOX has sabbatic leave of absence from the University during next year.

LIST OF ASSOCIATIONS

The following list contains the names and addresses of the secretaries of the local Cornell alumni associations and clubs. It was compiled in the office of the Alumni Recorder, Morrill Hall, Ithaca.

General Organizations

THE ASSOCIATE ALUMNI OF CORNELL UNIVERSITY. Secretary, William J. Dugan, 87 Erie County Bank Building, Buffalo, N. Y.

THE CORNELL ASSOCIATION OF CLASS SECRETARIES. Acting Secretary, W. W. Rowlee, Ithaca, N. Y.

THE CORNELLIAN COUNCIL. Secretary, Harold Flack, 27 Morrill Hall, Ithaca, N. Y.

THE CORNELL SOCIETY OF CIVIL ENGINEERS. Secretary, E. A. Truran, 33 Lincoln Park, Yonkers, N. Y.

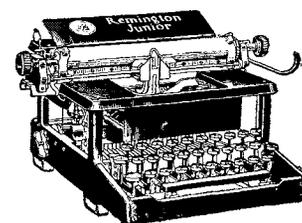

Alumni Associations

- New England.—A. C. Blunt, jr., 354 Congress St., Boston.
- Connecticut.—William VanKirk, The Alumnum Castings Co., Fairfield.
- New York City.—Foster M. Coffin, 65 Park Avenue.
- Brooklyn.—Alan H. Colcord, 551 Second St.
- Dutchess County.—S. H. Hall, 87 South Cherry St., Poughkeepsie.
- Eastern New York.—George A. Mathers, 307 Main St., Bennington, Vermont.
- Schenectady.—C. S. Cogshall, Turbine Sales Dept., General Electric Co.
- Northern New York.—G. H. Hooker, 8 State St., Watertown.
- Oswego County.—C. W. Linsley, 52 East Utica St., Oswego.
- Herkimer County.—F. D. McIntosh, Little Falls.
- Utica.—Charles B. Mason, 30 Genesee St., Utica.
- Central New York.—Donald Armstrong, S.A. & K. Building, Syracuse.
- Seneca Falls.—J. S. Gay, 116 Fall St.
- Binghamton.—A. L. Gilmore, 1104 Press Building.
- Southern Tier.—L. D. Clute, 480 West Water St., Elmira.
- Rochester.—James C. Bristol, 339 Powers Building.
- Western New York.—A. J. Adler, 712 Erie County Bank Building, Buffalo.
- Niagara Falls.—F. L. Lovelace, 730 Main St.
- Jamestown.—Charles H. Wiborg, Fenton Building.
- Northern New Jersey.—H. E. Eberhardt, Mountain View Terrace, Maplewood, N. J.

- Spokane.—E. V. Price, Hutton Building.
- Pacific Northwest.—Frank D. Nash, 500 Bank of California Building, Tacoma, Wash.
- Portland.—H. P. Henry, Yeon Building.
- Northern California.—C. W. Evans, 183 Fremont St., San Francisco.
- Southern California.—T. K. Gally, 105 West Fourth St., Los Angeles.
- Eastern Canada.—William H. Wardwell, 413 New Birks Building, Montreal.
- France.—A. D. Weil, 10 rue Ste. Cecile, Paris.
- Hawaii.—H. A. R. Austin, 20 Kapiolani Building, Honolulu.
- The Philippine Islands.—Abraham Gideon, City Hall, Manila.
- North China.—Y. S. Djang, Tientsin, China.

Cornell Women's Clubs

- Federation of Cornell Women's Clubs.—Mrs. W. Grant Egbert, 404 East Buffalo St., Ithaca.
- Albany.—Miss Emily D. Martin, 380 Hamilton St.
- Boston.—Miss Laura K. Johnson, 102 The Fenway.
- Buffalo.—Sara C. Walsh, 2318 Seneca St.
- Chicago.—Mrs. R. W. Sailor, 135 North Ridgeland Avenue, Oak Park, Ill.
- Cleveland.—Miss Florence Rosenthal, 10209 South Boulevard.
- Ithaca.—Miss Rebecca Harris, Kelvin Place.
- New York.—Miss Margaret Graham, 47 Kensington Avenue, Jersey City Heights, N. J.
- Philadelphia.—Miss Edith Loux, 5235 Katherine Street.
- Pittsburgh.—Mrs. J. A. Hunter, 151 Dickson Avenue, Ben Avon, Pa.
- Rochester.—Miss Elleanor Gleason, 15 Portsmouth Terrace.
- Troy.—Miss Frances McTammany, 170 First St.
- Mohawk Valley.—Miss K. A. Donlon, 1323 Seymour Avenue.
- Washington.—Miss Margaret Connor, 3149 Mount Pleasant St., N. W.
- Worcester.—Mrs. Edwin M. Slocombe, 41 Lancaster St.
- Bay Cities of California.—Mrs. Florence DeBell Calef, 5 Morrill Apartments, Berkeley.

A New
OPPORTUNITY

TEN DAYS' FREE EXAMINATION
RETURN IT IF YOU WISH

The time has come when everybody needs a typewriter. That's the reason we have built a typewriter for everybody. It is the

REMINGTON
JUNIOR

The junior is "Remington" in everything—in name, in manufacture, in quality, in the work it does, in the guarantee that backs it. It is just a boiled down Remington, smaller, lighter and so simple that any one can operate it. No lessons needed.

And it sells for \$50—absolutely the first high-grade typewriter at a medium price. You can buy it on easy terms—\$5 down and \$5 a month.

Here is our offer. We are so sure that the Remington Junior is just the typewriter that you need that we will send it on ten days' free examination to any address within the first and second parcel post zones of any Remington branch office.

When you get it, look it over—make sure for yourself that it is everything we say it is—the typewriter you have always needed.

But the first thing to do is to

MAIL THE COUPON TODAY

Remington Typewriter Co.,
(Incorporated)
327 Broadway, New York.

Send me a Remington Junior Typewriter, price \$50, on free examination. It is understood that I may return the machine, if I choose, within ten days. If I decide to purchase it, I agree to pay for it in 10 monthly payments of \$5 each.

No Game with Williams

Rain prevented the playing of the Williams-Cornell game, scheduled for June 3 at Ithaca. Colgate will play at Percy Field on Friday, June 16, and on the next day the Cornell team will go to Philadelphia to play the deciding game of the series with Pennsylvania. The last game of the season will be played with Columbia in Ithaca on Commencement Day, June 21.

Yale 4, Cornell 2

The Yale nine won its second victory over Cornell on May 30 at New Haven. On Cornell's side R. F. Perkins '17 pitched for the first time since the southern trip.

Each team scored two runs in the first two innings, but after that Cornell was unable to score on Walsh, and Yale won the game in the fourth.

Budd drew a pass in the first inning and went to third when Mellen's bunt was fumbled by the Yale pitcher. Budd scored on Clary's sacrifice fly. Yale evened the score at once when Johnson drew a pass, took second on a sacrifice hit, and came home on Sutterby's error.

In Cornell's second inning, with one out, Sauters drew a pass and scored on Sutterby's double to left field. Sutterby was left at second. In Yale's second Kinney was passed to first and then Walsh and Johnson both singled.

Two runs in the fourth inning made the game safe for Yale. Earle reached first on an error by Eckley, went to second on Kinney's sacrifice, and stole third. Perkins then passed Walsh, who was safe at second when Johnson was put out at first. A clean two-bagger to center by Snell brought Earle and Walsh home.

Perkins was unsteady throughout the

game, showing the effects of his lack of experience during the season. Three of the four men who scored for Yale reached first base on balls. Only fast fielding saved Perkins from several more hits than were actually scored against him. Walsh did not get control of the ball till the third inning, but after that the Cornell batters could not solve his delivery to the extent of getting runs. They had opportunities for scoring in the third, sixth, and ninth innings, but were unable to put the runners over the plate. The score:

Awards of the C.—The C and intercollegiate stripe have been awarded to twelve members of the track team. They are J. C. Corwith '16, L. E. Gubb '16, J. S. Hoffmire '16, D. F. Potter, jr., '16, G. M. Taylor '16, A. F. VanWinkle '16, W. D. Crim '17, Edward Frey '17, F. K. Foss '17, C. F. Hagemann '17, A. W. Richards '17, and L. V. Windnagle '17. The C was awarded to these eight winners in dual meets: C. L. Beckwith '16, D. A. McLaren '16, F. H. Starr '16, A. G. Acheson '17, A. L. Culbertson '17, G. B. Howell '17, W. S. McCormick '17, and J. M. Watt '18. The C was awarded to these four seniors for consistent work on the track throughout the year: M. G. Cheney, jr., J. S. Lewis, F. E. Lyford, and R. J. Moore.

Golf.—The insignia for golf have been awarded to Captain C. T. Lansing '16, D. D. Cooke '16, E. B. Cooke '16, H. Wyman '16, J. DeWitt '17, and H. J. Bradley '18.

THE MASQUE will give its second performance of "The Amazons" at the Lyceum Theater on June 19.

F. K. FOSS TRACK CAPTAIN

Frank Kent Foss '17, of Chicago, has been elected captain of the university track team for next year. He is a pole vaulter and in the recent intercollegiate meet he won first place in that event. Foss is twenty-one years old. He prepared for college at the University High School of Chicago. He is a member of the Alpha Delta Phi fraternity and the Quill and Dagger Society.

Tennis

Review of the Season

The university tennis team has had a season much less successful than last year, when a post-season match was played with Princeton to decide the intercollegiate series. The team this year has won from the Naval Academy and Colgate, and has lost to Pennsylvania, Princeton, Yale, and Harvard. The Cornell team made a late start this spring on account of bad weather, and in several of its important matches it lacked the help of W. M. Blair, one of its best players.

The match with Dartmouth, scheduled for Spring Day, May 27, had to be stopped shortly after it began on account of rain. On May 26 Captain F. T. Hunter '16 and W. M. Blair '18, the two best Cornell players, played an

exhibition match against two members of the Stanford tennis team, Herbert Hahn and Van Dyke Johns. Stanford won, two matches to one. Hunter defeated Hahn, who is the present Pacific Coast champion, in a very fast match, 6-4, 6-4. Blair was beaten by Johns in a closely contested match, 6-2, 2-6, 7-5. Blair was leading in the third set, 5-3, when Johns tightened and took four straight games and the match. The California players won the doubles, 6-3, 4-6, 6-2. The insignia for tennis have been awarded to Captain F. T. Hunter '16, W. M. Blair '18, C. A. Thompson '16, L. K. Callahan '16, and H. G. Benedict '18.

Assistant Managers.—The Athletic Council has elected these assistant managers: Track, J. L. Eastwick, Morristown, Pa., Alpha Delta Phi; baseball, J. C. Thomas, Bramwell, W. Va., Kappa Alpha; freshman track, H. A. McDonell, New York, Psi Upsilon; interscholastic track, W. H. J. Woodford, New York, Delta Tau Delta; freshman baseball, L. W. Du Bois, Brooklyn, Beta Theta Pi. The men are all sophomores.

Fencing.—The insignia for fencing have been awarded to Captain H. F. Stanton '16, M. G. Allison '16, O. M. da Costa '16, P. de Lima '16, and N. M. Davies '16.

THE NEW YORK CLUB

The following men were elected to membership in the Cornell Club of New York in May: Edward B. Green '78, F. A. Halsey '78, Dr. V. A. Moore '87, Dr. J. G. Wills '06, J. Russell Sprague '10, G. Stewart Giles '12, Edmund Rogers '12, Clark J. Lawrence '13, W. Howard Zabriskie '13, Milton J. Powell '14, Charles C. Durland '16, and A. F. McCann '16.

MEDICAL RESERVE CORPS

President Wilson has sent to the Senate a number of nominations to first lieutenantcies in the Medical Reserve Corps of the army with rank from April 28. Among the men nominated are Dr. Henry L. K. Shaw (1892-3, Med. Prep.), of Albany, and Dr. Royden M. Vose (M.D., 1902), of Ithaca.

CHEER LEADERS hereafter are not to be chosen only from among the wearers of the C, according to an announcement in the *Sun*. The old system which was in effect until 1914 has been resumed, and anybody may enter the competition.

TEAM PLAY ON THE TRACK

Syracuse Post-Standard

The Cornell team won the intercollegiate athletic meeting for the third time in succession by a score nearly one-quarter the whole number of points. Its margin of victory over Yale was sixteen points, it had more points than the two Pacific coast universities combined and they finished in third and fourth places respectively.

The Cornell victory of this year like that of preceding years was due to a large team of place winners, not to one or two highly trained record breakers. Cornell won three firsts with three athletes, these firsts constituting only one third of its score, and less than its margin of victory over Yale. Leland Stanford won two firsts, constituting nearly one-half its score, with one athlete, and Pennsylvania two, constituting more than one-half of its score, with one athlete. Cornell won points in eleven of the thirteen events, three seconds, four thirds and four fourths.

The method of Moakley produces a meeting that is far more interesting to the spectator, it produces a college team that if less spectacular is more steady and reliable—it doesn't blow up

when one athlete is graduated or "busted" and what is a great deal more important it serves the true purpose of intercollegiate athletics. It was not so long ago that the university that developed—or what was more likely acquired from an athletic club—a champion sprinter had the intercollegiate championship. He won it alone. The students and spectators came to see him perform, not to see an intercollegiate contest. The individual was glorified above the college, and college spirit was smothered not promoted by his individual triumph. The Cornell team has been built not to create champions but to develop a large number of fast athletes who shall compete worthily in all events. It is their aspiration to win just as many places as they can in the long program, not to have one man wearing the red and white, collect enough places to produce victory. It is by that system that Cornell has been winning the intercollegiate and is likely to keep on winning it, and it is that system that makes Cornell a popular victor.

Yale finished second this year with a team that had no record breakers, but which took places in ten of the thirteen events. In short, the Yale men are pursuing the Cornell method.

**Keep your copies
of the CORNELL ALUMNI NEWS in the
BIG BEN BINDER**

This is the simplest binder made. It has the appearance of a regular bound book. It opens flat to any page. It is so simple in construction and operation that the filing or extraction of magazines requires but a few seconds.

No punching of holes is necessary—just a slight slit between the pages with a pen knife and the insertion of a metal clip. Patent clasps make it easy to put in the new issue each week.

The cover is of Art Velum, with the name stamped in gold on the back and front. Each binder will hold one volume (forty numbers) of the CORNELL ALUMNI NEWS.

By making a special arrangement with the manufacturers we are able to supply these binders to our subscribers for \$1.00 each, charges prepaid.

Metal slips inserted through pen-knife slit in back of magazine. The tongue slides over a binding rod.

CORNELL ALUMNI NEWS
ITHACA, N. Y.

OBITUARY**George E. Patrick '73**

George Edward Patrick, B.S. (Chem.), '73, who died at Washington, D. C., on March 25, had been chief of the dairy laboratory in the bureau of chemistry of the U. S. Department of Agriculture since 1901. He was born at Hopedale, Mass., on October 22, 1851, the son of Delano and Mary (Maynard) Patrick. He entered Cornell in 1869 and received a bachelor's degree in science in 1873 and the degree of Master of Science in 1874. He was professor of chemistry at the University of Kansas for nine years and professor of agricultural chemistry at the Iowa State College for five years until 1896, when he entered the government service. Mr. Patrick had written numerous papers on chemistry and agriculture. He married Hattie E. Lewis, of Lawrence, Kansas, in 1879.

W. L. McKay '78

William Lincoln McKay, A.B., '78, died at his home in Geneva, N. Y., on May 25. His death was caused by heart disease and was sudden. Mr. McKay was born at Warsaw, N. Y., on March 16, 1855. He studied at the Elmira Academy and entered Cornell in 1874. After he graduated in 1878 he went to the University of Michigan and studied law.

In 1882 he married Miss Edith Van Dusen (B.Lit., '77) of Geneva, went to Geneva to live and engaged in the nursery business. He carried on that business until the time of his death. Mr. McKay served for fourteen years in the National Guard. He enlisted as a private in Company B at Geneva in 1892 and soon received a commission as second lieutenant. He served with the company in the war with Spain and at that time received a commission as first lieutenant of volunteers.

Mrs. McKay survives him, with two sons, Cecil C. and Willard J. McKay (A.B., 1912), and three daughters.

Wirt Tassin

Wirt Tassin, who was a student of chemistry at Cornell in 1888-90, died November 2, 1915. He was born at Fort Whipple, Va., August 11, 1869, the son of Col. A. G. and Mary (Tilley) Tassin. After he left college he engaged in applied chemistry and then became special agent of the United States Geological Survey at the Chicago Exposition. From 1893 until 1909 he was chemist and assistant curator of the division of mineralogy of the United States National Museum at Washington. He left there

to engage in practice as consulting mineralogist and chemical engineer. He was the author of papers on mineralogic and meteoric chemistry, characters of minerals, gems and precious stones, metallography, metallurgy, and the heat treatment of metals.

THE LATE PROFESSOR HESS**Resolution of the University Faculty,
Adopted June 5**

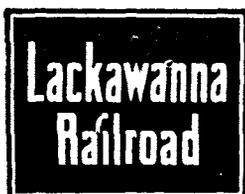

The Faculty of the University records upon its minutes this memorial of Howard Drysdale Hess, Professor of Machine Design in Sibley College, whose untimely death occurred on April 22.

Professor Hess prepared for college in the schools of Philadelphia and took the M. E. degree from Lehigh University in 1896. His work in practice was in the steel industry and in structural engineering and he became general manager of the Eastern Steel Company before taking up teaching for a life work. In 1902 he became an instructor in Mechanical Engineering in Drexel Institute and two

years later he was appointed associate professor in the University of Kansas. He was called to Cornell as assistant professor in the department of Machine Design in 1905 and was promoted to a professorship in 1910.

Four years ago Professor Hess published a text on Machine Design as applied to Hoists and Cranes, and, a year later, a text on Graphics of Structural Design. More recent editions of these books have added testimony as to their value in the technical schools.

Professor Hess, during his stay in Ithaca, came in intimate personal contact with over twelve hundred students who have taken the M. E. degree—about a quarter of all Sibley graduates, and he won from them universal respect and affection, and influenced them toward high ideals of engineering work and of life. With his colleagues he established close and enduring friendships and his death has brought to them a deep sense of personal loss. He leaves a memory of high character, genial personality and of work well done.

ALUMNI NOTES

'86—Colonel Charles B. Hagadorn has been ordered to Panama. As Major Hagadorn he has been stationed at Texas City, Texas, with the 23d Infantry.

'86, B.S.—Henry C. Charpiot, of Paris, has recently spent a day on the Campus on his way west.

'93, B.L.; '02, Ph.D.—Professor Arthur L. Andrews of the College of Hawaii will arrive in the States this month. He has sabbatic leave of absence for the first semester of 1916-17. His address will be 207 Suffolk Road, Chestnut Hill, Brookline, Mass.

'96, Med. Prep.—Dr. Henry H. M. Lyle of New York has been summoned by Dr. Joseph A. Blake to take charge of one of the hospitals in France belonging to Dr. Blake's organization for the care of the wounded of the Allied armies. Dr. Lyle sailed on May 13 on the steamship New York. His address is in care of C. M. Depew, Hotel de Crillon, Paris. This is his second professional trip to France during the present war. For several months in 1915 he was director and surgeon-in-chief of the military hospital known as Unit B of the American Ambulance.

'98, M.E.—George W. Vreeland read a paper on May 28 before the American Iron and Steel Institute at the Waldorf-Astoria Hotel, New York City, on "The distribution of materials in the blast furnace." Vreeland is superintendent of blast furnaces of the works of the Carnegie Steel Company at Mingo Junction and Steubenville, Ohio, and it appears has been getting such good results in the operation of his blast furnaces that he was requested to write a paper on the subject.

'05—Bruce W. Fordham's address is in care of the Battery Engineering & Construction Company, 162d Street and Jerome Avenue, Bronx, N. Y.

'07, A.B.—George A. Rankin is with the Pittsburgh Plate Glass Company, Creighton, Pa. The company has a research laboratory at that place. Until recently Rankin was at the Geophysical Laboratory in Washington, D. C.

'08, M.E.—Rice Warren White is with the Du Pont Powder Company at Haskell, N. J.

'09, C.E.—Louis Kampf's address is in care of Andersen, Meyer & Co., Shanghai, China. He is representing various American firms in introducing cotton mills in China. He has been

recently with Lockwood, Greene & Company in Boston.

'09, M.E.—A. W. Grant, jr., is leaving Philadelphia, and his address is to be in care of H. Koppers Company, First National Bank Building, Pittsburgh, Pa.

'11, A.B.; '12, A.B.; '14, B. Chem.—Mr. and Mrs. Selden S. White, of Champlain, N. Y., have announced the engagement of their daughter, Rhoda Fouquet, to Clarence L. Dunham, of Massena. The marriage will take place early in the summer.

'11, A.B.—George M. Wolfson's address is changed to Box 341, Port Washington, L.I.

'11, M.E.—Timothy J. Murphy is erecting engineer of the American Steel & Wire Company of Trenton, N. J. His address is 18 Harrison Street, Morristown, N. J.

'11, C.E.—Ernst G. Kaufmann's address is changed from Toronto, Canada, to 735 Delaware Avenue, Buffalo, N. Y.

'11, M.E.—Alan C. Towers was married to Miss Maxima J. Roberts, daugh-

Harris, Forbes & Co

56 William St., New York

HARRIS, FORBES & CO., INC
BOSTON

HARRIS TRUST AND SAVINGS BANK
CHICAGO

Bonds for Investment

ter of Mr. and Mrs. W. C. Roberts, of Buenos Aires, Argentina, on May 10. The wedding ceremony took place at St. Andrew's Scotch Presbyterian Church in Buenos Aires. Towers's business address is in care of Towers & Co., Calle Yaguaren 1938, Montevideo, Uruguay.

OUR MAIL ORDER DEPARTMENT

is ready as usual to fill your 1916 orders.

Many items needed in your work after leaving here can only be supplied by us.

The daily receipt of orders from some quarter of the globe attests to this.

You know us. Make use of our facilities.

THE CORNER BOOKSTORES - ITHACA

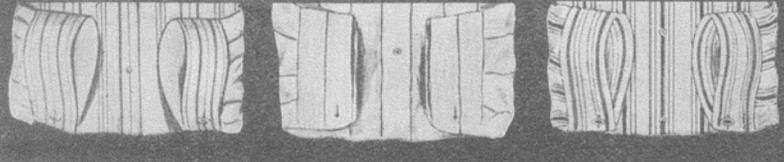

3 CUSTOM SHIRTS FOR \$5.00

I make shirts that fit you, because I make your shirts from your measurement and guarantee to take them back if they do not satisfy you.

I SEND YOU 100 SAMPLES TO SELECT FROM

I send you measurement blank with rules. I send you the finished shirts express prepaid. No ready-made shirts in my shop, but facilities for quick delivery of the highest grade of custom work. Write for my samples. (Higher priced fabrics, too.) Spring samples now ready. No agents.
