VOL. XX, No. 26

ITHACA, N. Y., MARCH 21, 1918

PRICE 10 CENTS

**T**HIS summer's camp for civil engineers has been virtually given up; all other features of the camp course are retained. The regular summer training in topographic, hydrographic, and geodetic surveying, work formerly done in camp several miles from town, will be carried on in the immediate vicinity of Ithaca, the students continuing in their present lodgings and the headquarters being in Lincoln Hall. The course is planned especially for sophomores in civil engineering, but may be taken also by qualified students in forestry and landscape art. Work will begin on Monday, May 20, and continue for five weeks.

THE UNIVERSITY COMMUNITY had last week an exceptional opportunity to learn at first hand of the work of women in the war. At vocational conference lectures the services rendered by English women and by French women were the themes respectively of Dr. Winifred Cullis, of the University of Toronto, and Mlle. Marguerite Clément, professor in the Women's College at Versailles.

OTHER LECTURES during the week include "Gas Warfare," by Professor Wilder D. Bancroft, and "Modern Zinc Metallurgy," by Lieut. L. S. Dietz of the Ordnance Reserve Corps, both before the Cornell section of the American Chemical Society; "Topography and Rail Power in Peace and in War," by Professor von Engeln, in the History of Civilization series; and, on the Goldwin Smith Foundation, a notable address, "Fighting France," by Stéphane Lauzanne, editor-in-chief of *Le Matin* and special representative of the French Republic to the United States.

THE CORNELL DRAMATIC CLUB on March 15 and 16 presented its fifth series of plays: "Duty," by Seumas O'Brien, "The Glittering Gate," by Lord Dunsany, and "The Turtle Dove," by Margaret Scott Oliver, all comedies, each in one act. Since the club seeks to provide an opportunity for students interested in all aspects of the theater, each play has not only its own cast, but its separate coach, designer, property manager, and advertiser, selected from among the undergraduates, the officers of the club and the Faculty director,

Professor Drummond, exercising general supervision. A sixth group of plays is announced for April 12 and 13. All are given in the amphitheater of Goldwin Smith Hall.

FIRE on Sunday morning, March 9, did damage estimated at \$2,000 to the house lately occupied by Professor Ernest Merritt, at 39 East Avenue. Starting near the furnace, the flames spread rapidly to the attic, practically destroying the rear portion of the building. The contents of the burned part, furniture and supplies, were saved by the efforts of neighbors and students, working, they declared, "in conservation lines." Since the alarm was turned in from a box not on the campus, the Sibley fire pumps were not started. The house, owned by the University, was occupied by tenants during the absence of Professor Merritt in the Naval service at New Haven.

THE INTERFRATERNITY BOWLING LEAGUE completed the season's matches last Saturday night. First place was held again by Sigma Phi Epsilon, with a record of forty games won and only two lost. Second honors, thirty games won and nine lost, fell to Sigma Upsilon. Fifteen fraternities had teams in the competition.

THE STUDENT CONFERENCE COMMITTEE to serve for the remainder of the year has been appointed; it consists of eight seniors: Clarence F. Ackerknecht, Johnstown; Lee H. Clark, Brooklyn; H. M. Dougherty, Evanston, Ill.; Robert C. Edmunds, Denver, Col.; Frank V. Fields, Binghamton; William G. French, Jamaica; J. B. Kirkland, Ithaca; and H. I. Tutchings, Johnstown; and four juniors: Edwin H. Cottrell, East Orange, N. J.; D. G. Douglas, Jacksonville, Fla.; Walter H. French, Oak Park, Ill.; and Walter K. Wipperman, Logansport, Ind. This committee, cooperating with the Faculty Committee on Student Affairs, is the official medium of communication and recommendation between the students and the governing bodies of the University.

STUDENTS DESIRING WORK during the summer may find abundant opportunities at shipyards throughout the country. The Bethlehem Shipbuilding Corporation, at whose Wilmington plant the Sibley seniors are now engaged, has in-

formed Professor Hammond, Secretary of the University Faculty, that students may find positions for which technical training is not required. The company itself provides a minimum of instruction in shipyard methods, so that the men may begin work with the least possible delay. Such appeals for workers are being made in all quarters.

A PATRIOTIC NUMBER of *The Widow* was issued last week, the answer of the editors to the request of the Federal Committee on Public Information that periodicals throughout the country publish a patriotic number during the month of March.

THE UNIVERSITY INFIRMARY at the end of last week was crowded almost to its capacity. The number of patients on Saturday, March 16, was one hundred and one, the largest number ever registered there. Of these thirty-two were cadets from the School of Aeronautics; the remainder, regular students from every class in the University and from every college except the College of Medicine.

THE EXTRA CENT which the Ithaca Traction Corporation has charged on each fare since December 1, 1917, has increased the income of the company, according to an estimate of the Public Service Commission, by approximately \$7,352.

DANIEL A. REED '98 will give an address at the University on the evening of Monday, April 1. During the past month Reed has been in the West, speaking on behalf of the Federal Food Administration.

OFFICERS of various women's organizations have been elected for the current term as follows: President of the Student Government Association, Emma Virginia Phipps '19, Buffalo; President of the Y. W. C. A., Elizabeth Neely '13, Philadelphia; President of Risley, Mildred M. Wicker '19, Livonia, N. Y.; President of Sage, Alice L. Smith '20, Cornwallville, N. Y.; Chairman of the Women's Mobilization Committee, Madolin De Witt '19, Lima, N. Y. The selections were made at a mass meeting in Sibley Hall, said to have been the first meeting of the kind ever held by the women of the University.

## War Service for Chemists

### The Chemist Needed in War Work— Proper Method of Enlistment

The secretary of the American Chemical Society, Charles L. Parsons '88, Bureau of Mines, Washington, has prepared a statement regarding chemist service in the war which is here briefly summarized.

Manufacturers of war materials may apply by letter to the Chemical Service Section, N. A., Room 1108, Interior Bldg., Washington, for trained chemists now in the Army and not already transferred to chemical service; they may also apply similarly for deferred classification of trained chemists not yet called. They must submit evidence of need.

Students in a regular chemical course may be enlisted in the Engineers' R. C. and placed on the inactive list to complete the course. The president of the college must certify that they will graduate with a record equal to the first third of the graduates of the previous ten years. This does not apply to biological or physiological chemists, who come rather under the Surgeon General.

Transfers to chemical service are made by the War Department on request from some division of the Army for the particular chemist needed, and only on the approval of the commanding officer and the Chemical Service Section.

At present, though nearly a thousand chemists are serving as such, some three hundred chemists remain in the camps. On the other hand the industries supplying the sinews of war are being seriously handicapped by the depletion of their chemical personnel. In the Army men with plant experience, research, physical, and organic chemists, and some analytical chemists have been in demand; there is no demand for pharmaceutical, agricultural, or food chemists.

Chemical positions in Government service other than those obtained through enlistment are obtainable only through the Civil Service Commission, and do not exempt from service.

Commissions seek the man and are not lightly awarded. No Class I man may be commissioned before enlistment in a non-fighting branch of the service.

Information regarding individuals is obtained from the questionnaire on file in the Bureau of Mines. Every student of chemistry eligible to serve should file a questionnaire, duly filled out, should keep Dr. Parsons informed of his address, and should accept any service to which the War Department may assign him.

## Cornell R. O. T. C. Activities

### Cadet Corps Adjusts Itself to Present Conditions—Census of Resources

A change in the date of the annual inspection of the Cadet Corps has led to a further change in this spring's drill schedule. All Reserve Officers' Training Corps must complete their work in time for the opening of the officers' training camps on May 1. The inspection must therefore fall near the middle of April. In order to cover essential ground in the work of the regiment, the cadets, now meeting by companies or by battalions, on different days are required to drill together on four Saturdays, March 23 and 30 and April 6 and 13. Attendance at drill after the inspection is made optional.

A volunteer military company for upperclassmen has lately been formed. The Student Council, actuated by the success of the voluntary organizations a year ago, asked that similar opportunities be offered again; and the Department of Military Science is gladly co-operating. The company has already had a long practice march. It will have regular drills under the command of Cadet Major John W. Weigt '18.

With reference to the training camps this summer the War Department has asked of each institution maintaining a Reserve Officers' Training Corps for the following data:

1. The number of members of R. O. T. C. units who will this year complete the prescribed course.

2. The number of members who will, if given an opportunity to do so, attend an officers' training school, enlisting for a period of three months or for the duration of the course, should it exceed three months, receiving transportation and mileage to and from such camp and the pay and allowances of privates for the purpose of qualifying for a commission as second lieutenant, Officers' Reserve Corps.

3. The number of cadets, exclusive of those indicated above, who by May 1 will be twenty years and nine months old and have completed one year of the prescribed course plus three hundred hours of military instruction since January 1, 1917.

4. The number of men in this class who would attend an officers' training school by enlisting for the period of the War, for the purpose of qualifying as second lieutenants. Those thus qualifying will be commissioned as vacancies occur; those not qualifying will nevertheless remain in the service.

5. The number of R.O.T.C. men not already defined in the preceding paragraphs who would attend, without expense to themselves, a camp for the period of one month, probably the month of June, for such camp instruction and training as might be prescribed.

Furthermore, Colonel Barton is preparing a list of all students in the University who, though qualified by age, by citizenship, and by completion of freshman and sophomore drill, are not now members of Reserve Corps. In this way the department will know in advance how many additional men the government may, in case of need, presumably count on as candidates for second lieutenancies.

Rifle matches among the companies of the Reserve Officers' Training Corps will begin on Monday, March 25. Each company will have a team of five men designated by the captain. Each team will have twenty shots. The contests will be held in the range in the new drill hall.

## Sedition in Universities

### Committee of Professors Defines the Crime—Suggest Proper Action

Academic freedom in wartime is discussed in a report written by a special committee of three on behalf of the American Association of University Professors and made public recently by the secretary of the association. The committee consisted of Professors A. O. Lovejoy, of Johns Hopkins, Edward Capps, of Princeton, and A. A. Young, of Cornell.

Broadly, the report is a demand for opportunity for freedom of word and action on the part of teachers; "experience has not shown that persecution is an especially effective means for extirpating or repressing honest error, however grave and dangerous the error may be."

According to the committee there are two sides to the duty of the citizen in time of war. One side—the more urgent, and also the more obvious—consists in loyally rendering the services and making the sacrifices which the national emergency requires.

The other side is "to take care that, in the adjustments necessitated by the crisis, and in the abnormal conditions which are inseparable from war, no avoidable injury is done to the permanent interests of society—and, especially, to those interests for the sake of which the war itself is being fought. Second only to the folly of those who, in a grave

FIRST BRIGHT DAY OF APPROACHING SPRING

Photograph by O. D. von Engeln '08

The view is taken from a window in the University Library. Central Avenue is in the foreground, with Sage Chapel, Sage College, and Barnes Hall in the background.

emergency, would permit no deviation from the customary rules of normal times and no modification of the routine of popular government, is the folly of those who see nothing beyond the present emergency, and fail to realize that the danger to democracy and liberty in such a juncture comes by no means solely from the public enemy. It is the tragic paradox of a war waged by a people in defence of law or justice or freedom that the state of war may itself weaken within that people the respect for law or justice or freedom."

The committee believes that there are four grounds upon which the dismissal of a member of a faculty of a college or university because of his attitude or conduct in relation to the war, may be legitimate:

1. "Those who are convicted of disobedience to any statute or lawful executive order relating to the war may (with the qualification hereafter noted), legitimately suffer deprivation of academic office. Teachers under indictment for

such offences, but not yet convicted, may properly be suspended from their duties until their cause is legally determined."

2. "Members of college or university faculties should be required by their institutions to refrain from propaganda designated, or unmistakably tending, to cause others to resist or evade the Compulsory Service law or the regulations of the military authorities; and those who refuse to conform to this requirement may be, and should be, dismissed, even before any action has been taken against them by the law officers of the state."

3. Failure to purchase Government bonds, subscribe to war relief projects, etc., should be subject to no penalty except the censure of public opinion.

4. Professors who are still pro-German must be required "to abstain from any act tending to promote the military advantage of the enemy or hamper the efforts of the United States; to take care not to give, by their utterances or associations, reasonable ground for the belief

that they contemplate such acts or are conspiring with other disloyal persons; to refrain from public discussion of the war; and, in their private intercourse with neighbors, colleagues, and students, to avoid all hostile or offensive expressions concerning the United States or its Government. Teachers of enemy alien nationality should be put upon their parole to observe these restrictions; and if they or others of pro-German sympathies fail to observe them, they should promptly be removed from their posts."

The dismissal of Professor Cattell of Columbia is condemned as "involving disregard of all the essential conditions upon which the present report has insisted."

THE COURSE OF INSTRUCTION in the School of Aeronautics has been lengthened from eight weeks to twelve. Experience has shown the difficulty of covering the necessary ground within the period originally set. Hence the War Department orders the extension.

**MILITARY NOTES****Milwaukee Men in Serzice**

In our issue of November 8, page 74, we published a list of Milwaukee Cornellians in service. The following names are now added to this list:

- John C. Davis '00, capt., Coast Art. O.R.C., Fort Monroe, Va.  
 James A. Friend '16, Wireless Dept., U. S. Navy. Home address, care Second Ward Savings Bank, Milwaukee.  
 Robert E. Friend '09, capt., Ordnance O.R.C., Rockwood Spring Co., Worcester, Mass. Mail address, care Second Ward Sav. Bk., Milwaukee.  
 Armin W. Hyde '14, 434th Aero Constr. Squad, Clatsop, Oregon.  
 Henry D. Lindsay '10, lieut., junior grade, U.S.N.R.F., address in care of the Postmaster, New York. U. S. S. Kansas.  
 Russell B. Pratt '14, Am. Exp. Forces, France.  
 A. Lester Slocum '13, Ordnance Dept., 243 Madison St., Apt. 13, San Antonio, Tex.

These two lists represent fifty per cent of the Cornell men of draft age in the Milwaukee district and twenty-two per cent of the total membership of the Milwaukee Alumni Association.

**In the California Camps**

H. J. Patten '84, the Alumni Trustee, has been spending a few weeks at Coronado Beach, California, and writes that he is much interested in Camp Kearney, which is only sixteen miles out of San Diego. Of the eight cantonments he has visited since October, he prefers this one, which is in an ideal location. Rockwell Field, a flying school, is also near by and many cadets who took their ground work at the Cornell school are assigned there. Among these is George W. Dorrance '15, as well as Lieutenant J. K. Baidon '17 and E. S. Jamison '16, who did their ground school work elsewhere.

**At Rock Island Arsenal**

Several Cornell men in the service are at present stationed at the Rock Island, Illinois, Arsenal. Among them are Rollin D. Weary '12, Edward R. Guyer '15, Robert G. Meyler '16, and Charles P. Tymeson '16, all of whom are first lieutenants, Ordnance R. C.

SIGMA XI will hold its 210th meeting on March 26. Professor George A. Works will speak on "The Re-education of the Crippled Soldier." The public is invited to attend.

**LITERARY REVIEW****Wordsworth and Poetic Style**

*Wordsworth's Theory of Poetic Diction.* A Study of the Historical and Personal Background of the Lyrical Ballads. By Marjorie Latta Barstow '12. New Haven. Yale University Press. 1917. 8vo, pp. xvi, 191. Yale Studies in English no. 57.

In this elaborate study Miss Barstow has undertaken to furnish the proper background for an appreciation of Wordsworth's choice of poetic words. To do this, she studies first the diction of preceding poets, beginning with Chaucer. Then she takes up Wordsworth's early style, which she finds to have been based chiefly on Milton, Spenser, Shakespeare, and the poets of the eighteenth century, and to have attained to "an austere and imaginative simplicity." In 1797 Wordsworth met Coleridge, who with his circle had sought "the ideal of a more simple and truly poetical expression." Under this influence Wordsworth took to reading Chaucer and the old ballads, from which, it was thought, "the universal language of poetry," representing "the permanent and changeless elements in human life," might be extracted. Under such an influence the Lyrical Ballads were written. It was fortunately but a passing phase of Wordsworth's development. The reception of the Lyrical Ballads caused him to desire to know how "others might react to the words he used." And this was needful, since it led him to read far more widely, to rediscover for himself the great underlying principles of enduring poetry, and thus to discover himself.

Miss Barstow has written a useful monograph, which no student of Wordsworth or of poetic style in general can afford to neglect.

**Books for the Soldiers**

*War Service of the American Library Association.* By Theodore Wesley Koch. Washington. A. L. A. War Service. 1918. 8vo, pp. 32. Illustrated. For general distribution.

A young reserve officer on returning a book to a camp library recently, remarked that it was the first book he had read in four years. Asked what he had been doing all that time, he replied, "Going to the University of Mississippi."

This may be one on Mississippi; but doubtless there are others that might own up to the same conditions. This officer is not the only one whom the World War has driven to books. And this fact may be set down as one of those

which help in some small degree to mitigate the horrors of the cataclysm.

With admirable foresight, upon our entrance into the War the American Library Association promptly created a War Service Committee, to which the Commission on Training Camp Activities unanimously entrusted the responsibility of providing adequate library facilities in the camps and cantonments. The story of what this committee has done and desires to do is now interestingly told by Mr. Koch, formerly curator of our Dante and Petrarch collections, now chief of the Order Division in the Library of Congress. One and a half million dollars have been raised, and the initial campaign for books resulted in the receipt of over two hundred thousand volumes. The Carnegie Corporation granted ten thousand dollars for each of the proposed thirty-two camp libraries and a similar sum was provided for a building at the Great Lakes Naval Training Station. Each library has shelf room for about ten thousand volumes. Already more than half a million volumes have been bought and received as gifts, but many more will be needed. The prize gift was a diary for 1916, partly filled in.

The book is full of interesting points in connection with the administration and use of these libraries. Every line is worth reading. The book ends, very properly with an appeal for more books, from which two sentences may be quoted: "He gives twice who gives quickly. But don't give thoughtlessly."

**Books and Magazine Articles**

Of more than passing interest, perhaps, in view of Government investigation of the Hog Island and other contracts, is an article by Fred A. Jones '98 in a recent number of *Engineering and Contracting* on "Lump Sum vs. 'Cost Plus' Contracts," being a paper read before a Texas state meeting of the American Society of Civil Engineers. Jones finds many advantages for the "cost plus" method: the interests of owner and contractor do not conflict; desirable changes can be made in exact equity to the owner; the owner should get a better property; work can be started immediately, before all details have been worked out; the owner gets the benefit of savings in purchases; finally, such a contract is bankable paper.

In *The History Teacher's Magazine* for March Professor Carl C. Eckhardt (Ph.D. '08), of the University of Colorado writes on "The Bases of Permanent Peace." He finds these bases to be two:

first, the continuation of the present war until the German military autocracy is discredited and until Germany and her allies shall give guarantees for the future and repair the wrongs done Belgium, Serbia, Poland, and France; secondly, a workable system of international government. To make any such system work, requires that the leaders of public opinion and the people of all the great countries have faith in the project." Teachers of history and government can and must do their share in creating this faith and thus bringing in the new era. Permanent peace will not come all at once; on the other hand some bases of a permanent peace already exist; "and the harder we work now the fewer generations will it take to achieve this sublime ideal."

In the same number of this magazine Professor Eugene Barker '10 has a useful article on "Celebrating Memorial Day," with several illustrations. Professor William D. Gray (A.M. '03, Ph.D. '07), of Smith College, writes on "The Great War and Roman History," which he finds rich in parallels with present conditions. Professor George M. Dutcher '97, of Wesleyan University, publishes "A Selected Critical Bibliography of Publications in English Relating to the World War." This valuable list fills twenty-nine double-column pages and contains about six hundred titles, arranged under sixty-nine topics. The number costs twenty-five cents, or the bibliography can be obtained in reprint form for the same price, of the McKinley Publishing Company, 1619 Ranstead St., Philadelphia.

In *The Cornell Law Quarterly* for March Professor Francis M. Burdick, formerly of Cornell, writes on "Real and Personal Defenses in Actions on Negotiable Paper," and Lieutenant Colonel Arthur W. Brown '97, of the Judge Advocate General's Department, N. A., describes the "Administration of Justice in the Army." Among the book reviews is Professor Charles K. Burdick's comment on the second edition of Dean Woodruff's "Selected Cases on the Law of Quasi-Contracts" (Bobbs-Merrill Co.).

*The Survey* for March 2 contains an article on "Good Housing That Pays," by John Ihlder '00, executive secretary of the Philadelphia Housing Association.

In *Modern Philology* for February Dr. Albert LeRoy Andrews reviews H. Logeman's "Commentary on Ibsen's Peer Gynt," which is published by Nijhoff at The Hague.

## OBITUARY

### Mary F. Ayers '82

Miss Mary Frances Ayers died at the Abbott Hospital, Minneapolis, on February 22, after a long illness. She was born in West Danby, N. Y., in 1856 and was graduated B. Lit. in 1882. Moving to Minneapolis, she graduated from the Northwestern Conservatory of Music, and in 1896 entered the Minneapolis Public Library, with which she was connected till her death. During recent years she was in charge of the music collection, to the development of which she brought intelligence and broad training. She was a member of the First Baptist Church of Minneapolis and was for many years an active church worker.

### Addis K. Botsford '96

Addis Kingsley Botsford, a lawyer at Saranac Lake, died at his home on January 19 of pneumonia. He was born in Burke, N. Y., in 1869, prepared for college at Chateaugay Academy, and graduated A.B. from the University of Vermont in 1894. He was a member of Alpha Tau Omega. After one year at the Cornell Law School he was admitted to the bar in October, 1896. Since then he had practiced continuously at Saranac Lake, being highly successful both in law and in business. For some years he was a school commissioner for the second district of Franklin County. He is survived by his wife, who was Miss Elizabeth Smith of Chateaugay, by his mother and by a brother.

### Theodore C. Braun '12

Theodore Charles Braun died in a hospital at Petersburg, Va., on November 20, as a result of burns received from a fall into a hot pan partly filled with chemicals. He was born in Jersey City August 1, 1891, and was a graduate of the Jersey City High School. He worked his way through college, earning most of his tuition. After graduating in M.E., he worked for a time in Toronto and Kenosha, Wis. From December 1912 to January 1914 he was employed in the New York testing laboratory of the Automobile Club of America. From this position he went into a new testing laboratory established by the Tide Water Oil Company of Bayonne, N. J. In this position he showed such unusual ability that when the company located a branch plant for the manufacture of potash at Wise, Va., he was selected as superintendent. In June 1917 he became superintendent and chemist of the Dixie Chemical Company, Petersburg, Va., and had only recently completed

the plant. An associate says: "His energy and ability won quickly the approval of the men associated with him; his kindness and fairness won the loyalty and support of all those who labored under his instructions." Braun was a member of the First Presbyterian Church of Petersburg, and had lately been active in the receptions given by the church to the men from the Army camps. His remains were taken to Inglewood Park Cemetery, Los Angeles, for interment. His parents and a sister, Esther, survive him.

### Paul E. Rimer '18

Paul Eugene Rimer, a senior in Arts, died at his home, 2239 Penn St., Harrisburg, Pa., on January 10, following an intestinal operation last summer. He was the son of Mr. and Mrs. D. E. Rimer and was born at Rimersburg, Clarion County, Pa., August 1, 1896. He entered in agriculture but later changed to arts-medicine. It was his intention to enter the service after his operation, but illness prevented. He was a member of Adelpheos and Philos.

## WHEN U IS V

Why do some modern architects assume that U is V, and carve in stone that palpable and bold absurdity?

And now that we possess the U, with soft and graceful curve, of unexcelled docility and willingness to serve, why do they carve UNITED STATES and PUBLIC SCHOOL and such, and make the English language look as funny as the Dutch, with RESTAURANT and PAVILION CAR and UNIVERSITY and other marks of educational perversity?

That V impresses some of us as cheap and gaudy bluff, which parvenues may prevail in place of more substantial stuff, but people who are fashioned out of unpretentious dust view all such affectation with an unassumed disgust. Such exhibitions usually make us glum and blue. Now, honest Injun, don't they have the same effect on you?—*Printer's Ink*.

## COLLEGE GRADUATES SUCCESSFUL

Dean A. M. Jones of the University of Missouri has compiled statistics showing that of the persons mentioned in "Who's Who in America" seventy-five per cent are college graduates, and that college graduates succeed eight times as well as those who have had no college training. In 1916 the number of persons enrolled in the American colleges and universities was about one-fourth of one per cent of the population.

Published for the Associate Alumni of Cornell University by the Cornell Alumni News Publishing Company, Incorporated.

Published weekly during the college year and monthly in July and August; forty issues annually. Issue No. 1 is published the first Thursday of the college year in September and weekly publication (numbered consecutively) continues through Commencement Week. Issue No. 40, the final one of the year, is published the last Thursday in August and is followed by an index of the entire volume.

Subscription price \$3.00 a year, payable in advance. Foreign postage 40 cents a year extra. Single copies ten cents each.

Should a subscriber desire to discontinue his subscription, notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts and orders should be made payable to Cornell Alumni News.

Correspondence should be addressed—

### SUPPORT FOR THE UNION

The Cornell Club of New York is endeavoring to raise \$1,500 for the Cornell Bureau and the American University Union. In *The Cornell Yell*, the official "utterance" of the club, the following appeal appears. It is applicable not only to members of the New York Club but to all Cornell men and women. Club members may enclose a check or have the amount charged on their club accounts. Others should send checks to the Treasurer, Cornell University. The appeal follows:

"You are at home, living in comparative luxury and ease. You know we are at war, to be sure. The papers tell of it. You have bought Liberty Bonds of each Loan, and will again. You have

subscribed generously to the Red Cross, you have observed wheatless Wednesdays and coalless Mondays, paid your income tax,—all with not too much grumbling. The profits of your business have been appreciably cut.

"But have you made anything which appeals to you as a *sacrifice*? Have you made any real contribution, commensurate with your ability, toward the winning of the war?"

"Out there on the Western front there are thousands of men, *Cornell men*, who are fighting our battles. They have severed home ties, given up home comforts, generously put aside the desire for that material wealth and advancement which most of us back home are striving so mightily to satisfy. They are facing the possibility of coming back incapacitated for earning a living. They are facing the possibility of never coming home at all.

"Undaunted by these things, they go to France to fight for us who remain safely at home—and when the moment comes for them to go over the top—they go. \* \* \*

"We should raise for this purpose at least \$5,000 a year from Cornell men, and from the New York Club membership \$1,500 of such amount.

"Will you not send in your check, that the Cornell man in France, your representative, on his way to the front, on leave, or convalescent, shall know that his own university has extended a hand to him across the seas and that a little corner of the Cornell campus may be found at the Place du Théâtre Français, in the very heart of Paris?"

### THE CORNELL BUREAU BULLETIN

"Bulletin No. 1" of the Cornell Bureau in the American University Union in Europe has appeared under the date of February 1. It is issued to Cornell men in France and is in the form of a mimeographed letter. Some University news is given, including a few Army commissions and War Crosses given to Cornell men. An invitation is extended to all Cornell men in France to make the Bureau and the Union their headquarters when in Paris. Advance notice is given of the next Cornell Reunion Dinner, which will be held if possible during the latter part of March.

IN THE SUMMER SESSION Professor Creighton will give three courses in philosophy, in addition to the courses in other departments which were announced last week.

## ATHLETICS

### A Fast Medley Team

Cornell athletes won a notable victory at the senior championship games of the A. A. U. held in New York City last Saturday. A team composed of Cleminshaw, Smith, Mayer, and Dresser captured first honors in the medley relay race against eight other teams. It was the first time Cornell had entered a team in this race at an A. A. U. championship meet.

The victory was really the biggest achievement of the winter season, and is regarded as especially significant in view of the scarcity of experienced track athletes this year, and the severity of the winter training season. It was an accomplishment worthy of the best traditions of Cornell track athletics.

In this race, besides Cornell, were teams from the University of Pennsylvania, the First Naval District, located at Boston (which contained such well known A. A. U. athletes as Tom Halpin, Devanney, and Burke), Camp Dix, the Millrose Athletic Club, Lafayette College, Pelham Bay Naval Training Association, Paulist Athletic Club, and Brooklyn Athletic Club.

The relays were divided as follows: 440 yards, 220 yards, half mile, and mile. Cleminshaw, the first runner for Cornell, experienced difficulty in obtaining a good place and found himself boxed soon after the race started because of the large number of runners. Tom Halpin, the Boston star, took the pole and managed to keep the lead throughout the race. Cleminshaw was fifteen yards behind at the finish and Walker Smith, the second Cornell runner, had that handicap to make up. Smith picked up five yards on Burke of the Boston team, leaving Mayer ten yards to make up when he took up the running. Mayer ran a pretty half mile, soon overhauling Burke, and completing his relay five yards to the good. Ivan Dresser then took up the running for Cornell and ran a spanking mile. Dresser was out ahead from the start. The race soon resolved itself into a battle between him and Devanney, the Boston Naval District's anchor man. For two-thirds of the distance they were close together, but in the final quarter the Cornell man increased his stride and began to draw away. He finished about forty yards ahead of the Bostonian. The other runners were hopelessly outclassed. The Cornell team's time for the distance was

7:14, said to be the fastest time ever made by a college team in this race.

Walker Smith did very well in the seventy-yard high hurdles, finishing second to Barron of the Meadowbrook Athletic Club. He won his heat against a fast field in 9 4/5 seconds. Barron's time in the finals was 9 3/5 seconds.

This week, members of the track team are taking part in the final indoor meet of the schedule at Buffalo, under the auspices of the University of Buffalo.

**Wrestling**

For the second time this season the wrestling team from Pennsylvania State College defeated Cornell, last Saturday in the Armory. The score was 25 to 5. Huntington won the only bout credited to Cornell, defeating Nelson of State in the 175-pound class. He secured a fall, bar lock and head hold, in eleven minutes. One of the best bouts was that between Rofe of Cornell and Horst of State in the 115-pound class. This bout went fifteen minutes before the visiting wrestler won the decision.

State won five matches by decision, and Czarniecki, the visitors' powerful heavyweight, threw Porter of Cornell in less than one and one-half minutes.

The wrestling team is in New York City this week end, competing in the annual championship matches. Besides Cornell, teams are entered from Penn State, Lehigh, Pennsylvania, Princeton, and Columbia. It was conceded that it would be next to impossible for Cornell to add another to the long list of championships won by local teams. Cornell is represented by the same team as that which met State.

**A Baseball Schedule**

A twelve-game baseball schedule has been announced by the Athletic Association, beginning with a game with Lafayette in Ithaca on April 12, and ending with a game with Niagara, also in Ithaca, on May 14. Schedule making this year has been unusually difficult because of the short spring term, and the fact that some of the colleges and universities with which, in normal times, games would be arranged, were until very lately in doubt as whether or not they would put out teams this spring. The Saturday drill regulation during April also caused trouble. No Saturday games could be arranged for that month.

The schedule, as was to be expected, is quite different from those of the past. No games are booked with Princeton at all. Only one game is to be played with Yale and one with Pennsylvania,

but three are booked with Columbia. A game with the Newport Naval Reserves team, and one with the team from the U. S. Army Ambulance Corps at Allentown, Pa., are new features. The schedule:

- April 12, Lafayette at Ithaca.
- April 19, Rutgers at New Brunswick.
- April 20, Columbia at New York City.
- April 23, Colgate at Ithaca.
- April 26, Naval Reserves at Newport.
- April 27, Yale at New Haven.
- April 30, Columbia at New York City.
- May 1, Army at West Point.
- May 4, U. S. Army Ambulance at Ithaca.
- May 8, Columbia at Ithaca.
- May 11, Penn at Ithaca.
- May 14, Niagara at Ithaca.

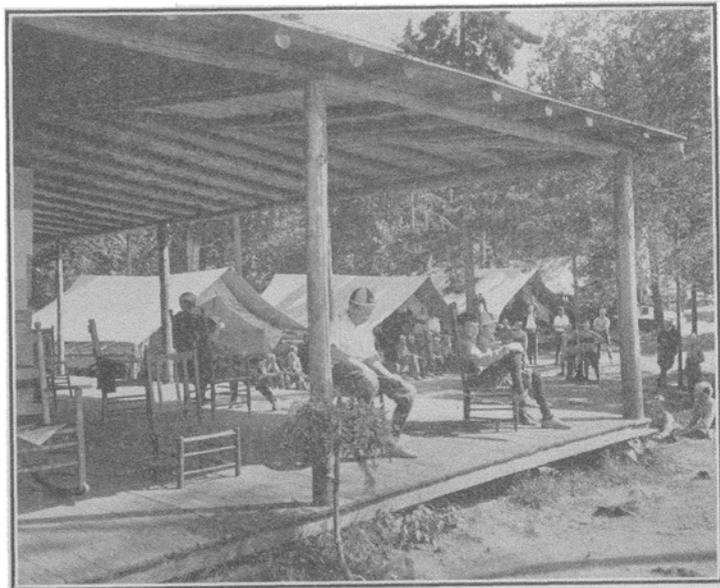

**W. M. Kendall '19**, of Buffalo, for two years right guard on the basketball team, has been elected acting captain of that team for next year. The squad decided not to choose an official leader because of the uncertainty attendant upon the future of athletics. Kendall has been a consistent player, one of the strong men of the team. He has served as acting captain this year.

**Three former Cornell athletes** have played a prominent part in Greater New York basketball this winter. E. W. Butler '13, Kenneth Austin '15' and Joseph Ashmead '15 are all members of the team of the Crescent Athletic Club, which has been winning many games during the winter months. Ashmead and Austin played on the varsity basketball team while in college, while Butler was a varsity football and baseball man.

**NEW YORK SUPPORT FOR UNION**

The Cornell Club of New York, which has just sent out an appeal to its members to aid the Cornell Bureau and the American University Union, received four hundred and eighty-seven dollars in subscriptions for this purpose in the first day's mail. This amount includes subscriptions of one hundred fifty dollars from R. J. Eidlitz, of one hundred each from E. N. Sanderson and S. C. Peters, and one hundred thirty-seven dollars in smaller amounts.

THE SAGE CHAPEL PREACHER for next Sunday is the Reverend Malcolm James MacLeod, D.D., of the Collegiate Church of St. Nicholas, New York.

**CAMP OTTER**  
**A REAL CAMP FOR REAL BOYS**

Ninth Season

*For information address*

**C. V. P. Young '99, Ithaca, N. Y.**

**ALUMNI ASSOCIATIONS****CLEVELAND LUNCHEON**

At the luncheon on March 14, J. Robert Crouse, director of the Cuyahoga County War Savings Committee, spoke on "Why You Should Join Uncle Sam's Salesmen." The meeting was very successful. The last luncheon of the season will be that of March 28.

**CHICAGO LUNCHEONS**

Tracy C. Drake, of the Blackstone Hotel, spoke at the luncheon of March 7 on "The Hotel and the Food Administration." On March 14 Clarence S. Pellet, director of the United Service Clubs of Illinois, spoke on "What Happens to the Soldier Boy when He Goes to Town." Erskine Wilder '05, who is in charge of these luncheons, has promised a worth-while speaker for each Thursday noon at the Grand Pacific Hotel. The luncheons begin at 12:15.

**BUFFALO WOMEN PLEDGE BONDS**

The members of the Cornell Women's Club of Buffalo have decided to have a campaign to raise money for bonds of the Third Liberty Loan and to present them to the University. Few individual gifts of bonds are expected, but smaller subscriptions will be lumped to purchase bonds.

**SYRACUSE LUNCHEON DROPPED**

The weekly noonday luncheon that the Cornell Club of Syracuse has been holding each Thursday was discontinued after the annual banquet on March 4, and will not be revived until fall.

**THE BUFFALO SCHOLARSHIPS**

The Cornell Alumni Association of Buffalo desires to remind those interested that it awards two scholarships, which are now vacant, one of two hundred dollars a year, the other of one hundred dollars. Both are awarded to students living in either Niagara County or Erie County, New York, who are at least partly self-supporting, and who have a creditable standing at the University. Candidates should apply to Frank H. Callan, chairman of the Scholarship Committee, 907 D. S. Morgan Building, Buffalo, and should send with their applications a record of their University marks to date and testimonials from their instructors and professors. The scholarship is granted as a loan, without interest, payable in instalments after the incumbent leaves the University.

**VESPER SERVICES** in Sage Chapel were resumed last week at the usual hour.

**ALUMNI NOTES**

'72 AM—Dr. David Starr Jordan was scheduled to deliver an address on "International Aspects of Certain Biological Problems of the North Pacific" at the semi-centenary exercises of the University of California on March 20. The program extends throughout the week.

'94—William A. Larned has left his position in the Signal Corps Headquarters at Washington, and is now on overseas duty with the American Expeditionary Forces.

'95—The address of Col. James B. Mitchell, Inspector General, U. S. A., is changed to 33 West Ninth St., New York.

'95 ME, '96 MME, '97 DSc—Major Frederick W. Phisterer has been promoted to Lieutenant Colonel, and transferred from duty on the staff of the Commanding Officer, North Pacific Coast District, to the Coast Defenses of Puget Sound, Fort Worden, Washington.

'95 PhB—The address of Lieut. Col. William R. Eastman, Medical Corps, U. S. A., is Headquarters, 3d Division, American Expeditionary Forces.

'96 LLB—William H. Feiker is practicing law at Northampton, Mass.

'03—Major George B. Walbridge, Engineer R. C., is assigned to duty at Washington, D. C.

'04 ME—First Lieut. Charles W. Everson, U. S. R., is on duty at Dayton.

'04 CE—Clifford M. King is with the 313th Engineers at Camp Dodge, Iowa.

'05 BArch—Lieut. and Mrs. Oscar V. Vatet announce the birth of a daughter, Grace, at Mt. Kisco, N. Y., on February 25. Lieutenant Vatet is with the Construction Division, Signal Corps, and is at present stationed at Washington, awaiting orders for overseas service.

'06 LLB—The resignation of Morris S. (Sam) Halliday from the State Senate on March 4 brought forth a number of tributes from his associates in that body. Several senators, including the leaders of both parties, spoke in high praise of his services at Albany, his ability as a legislator, his loyalty as a friend and as a citizen, his qualities of leadership, his worth as a man. Halliday was serving his second term as a senator. He has lately completed a course in the School for Adjutants, Land Division, Aviation Section, at Columbus, Ohio, and is now there awaiting orders.

'07 CE—William J. Turner, formerly superintendent of the smelter of the

Braden Copper Company, Rancagua, Chile, has resigned his position to become a captain in the Signal Reserve Corps, Aviation Section. He is assigned to the School of Military Aeronautics, Massachusetts Institute of Technology, Cambridge, Mass.

'07 CE—First Lieut. R. Menees Davis, Engineer R. C., is a student in the Engineer R.O.T.C. at Camp Lee, Va. He is in Company 2.

'07 ME; '10—A son, Albert C. Blunt, 3d, was born on February 26, to Mr. and Mrs. Albert C. Blunt, jr. (Edna J. Snow '10) of West Newton, Mass. Blunt is now covering the large Eastern cities for the W. H. McElwain Co., shoe manufacturers.

'07 ME—First Lieut. Norman M. McLeod is assigned to the 34th Engineers, Camp Dix, N. J.

'07 BSA—Scott H. Perky is secretary of the Co-operative League of America, with offices at 2 West Thirteenth St., New York. The object of the League is to spread knowledge, develop scientific methods, and give expert advice concerning all phases of consumers' co-operation.

'07 AB—William S. Rowland is engaged in chemical work in Washington, D. C. He is living at the Cosmos Club.

'08 AB—Second Lieut. Theodore J. Lindorff, A.S., S.R.C., is stationed at Mineola, L. I.

'08 AB—Two stories from the pen of Kenneth L. Roberts have recently appeared in *The Saturday Evening Post* and are now being dramatized and photographed. "Good Will and Almond Shells" which appeared in the issue of December 22, 1917, appears as a Metro six-reel film entitled "The Shell Game." The dramatization is good and the play is funny. "With Neatness and Dispatch" which appeared in the issue of February 2, 1918, is also dramatized by Metro with Francis X. Bushman in the leading role. Roberts is a regular contributor to *Life*, but is now preparing to write a play for the legitimate stage. His address is 89 Elm Hill Avenue, Grove Hall Station, Boston.

'09 LLB—Second Lieut. William Shea, Infantry, N. A., is on detached service at Kelly Field, Texas.

'09—Leland A. Vaughn is secretary and assistant manager of the Turner, Vaughn & Taylor Co., engineers and manufacturers, Cuyahoga Falls, Ohio.

'09 AB—Roscoe C. Edlund is director of the Alliance of Charitable and Social Agencies of Baltimore. During January

and the first week in February, following an initial move by Mayor Preston, the Alliance, under the direction of Mr. Edlund, organized throughout the city of Baltimore soft coal sales at low cost (18 and 25 cents a bushel) making upwards of twenty thousand individual sales, in lots of one and two bushels, thus relieving an immense amount of suffering. Mr. Edlund has been for three years secretary of the Baltimore Fund, a fund of \$790,000 raised to carry on important local charities and certain branches of Red Cross work.

'09 ME—Robert C. Hargreaves is secretary of the Highways Transport Committee of the Council of National Defense, 944 Munsey Building, Washington, a committee appointed to assist in co-ordinating highway traffic with all other forms of traffic and make the most efficient and effective use of highways. The committee is laying out military routes for truck convoys, and plans to eliminate terminal congestion. Mr. Hargreaves has moved his family to Washington, and they are living at 3725 Livingstone St. He has two sons: Billy, aged two years and six months, and Bobby, aged eleven months.

'10 CE—Percy S. Monk has received a commission as first lieutenant in the Engineer Reserve Corps, and is awaiting assignment. His present address is Municipal Building, Chattanooga, Tenn.

'10 ME—William S. Wallace is a lieutenant (junior grade) in the U. S. N. R. F. He is assigned as assistant engineer officer to the U. S. S. Kearsarge.

'11 ME—Thomas S. McEwan is in the flying school at Kelly Field, San Antonio, Texas.

'11 ME—Earl J. Atkisson has been promoted from captain to major in the Corps of Engineers, with rank from July 13, 1917.

'11 DVM—Second Lieut. Arthur W. Combs, Veterinary O.R.C., is with the Remount Division, American Expeditionary Forces. He is at present engaged in operative surgery at the Hôpital Vétérinaire d'Armée.

'11 CE—Captain Octave De Carré is in the First Field Signal Battalion, Signal Corps, American Expeditionary Forces.

'11—Herbert Ashton is with the 20th Engineers, at Camp American University, Washington, D. C.

'11 ME—Clarence J. Pope is a first lieutenant in the Ordnance Reserve Corps. After taking a course in motor instruction in schools in Kenosha, Wis., and the Rock Island Arsenal, he has

been detailed to Washington, where he is in the Carriage Motor Equipment Section of the Ordnance Department. His address is 1419 Clifton St., N. W., Apartment 12, Washington.

'11 AB—Jacob Cohen has given up teaching to enter the service. He attended two Plattsburg training camps, and reported at San Antonio in January, and has since been assigned to the School for Adjutants, Aviation Section, Signal Corps, Columbus, Ohio.

'12 BChem—Loren F. Collins is in Company E, 313th Engineers, Camp Dodge, Iowa.

'12 ME; '16 AB—Charles F. Merz and Alden C. Buttrick have been commissioned second lieutenants in the Aviation Section, Signal Reserve Corps, and have reported for duty at Carlstrom Field, Arcadia, Fla.

'12 AB—Joseph A. Kaufman is in Company A, Officers' Training Camp, Camp Lewis, Washington.

'12 AB—Fritz A. Nagel has been promoted from second lieutenant to first lieutenant of Field Artillery, with rank from October 26, 1917.

'13 AB—Frank A. Pendleton is a corporal in Company B, 305th Infantry, Camp Upton, N. Y.

'13 ME—Halsey V. Welles is with the Detroit Gear & Machine Co., 127 Franklin St., Detroit, Mich. He resides at 3039 West Grand Boulevard.

'13 BS—Announcement has been made of the engagement of Miss Doris G. Pratt of Ithaca to Mortimer D. Leonard. Leonard is an instructor in the Department of Entomology, College of Agriculture.

'13 ME—A daughter, Ruth Anne, was born on February 15 to Mr. and Mrs. Ambrose Ryder. Ryder is superintendent of the automobile department of the National Workmen's Compensation Service Bureau, 13 Park Row, New York.

'13—First Lieut. William R. M. Very, Ordnance Engineer R. C. is attached to the Office of the Chief of Ordnance. His address is Apartment No. 33, The Balfour, Sixteenth and U Streets, Washington, D. C.

'13 CE—Charles Reid Johnson has received a commission as assistant civil engineer in the Corps of Civil Engineers, U. S. Navy. His rank is lieutenant (junior grade). He is stationed at the Naval Operating Base, Hampton Roads, Va., and is engaged in the construction of the largest naval operating base in the world. He may be addressed in care of

Mr. Henry Bosman, Larchmont, Norfolk, Va.

'13 BArch—Herman G. Curtis is a first lieutenant in Company A, 514th Engineer Service Battalion, Camp Gordon, Atlanta, Ga.

'13 ME—Paul Traeger, jr., is acting as mechanical engineer at the two powder plants at Emporium, Pa.

'13 LLB—First Lieut. Leslie H. Groser is with the American Expeditionary Forces, unattached.

'13 CE—Harold T. Canfield is attending the officers' training school at Camp Upton. He is attached to the 1st Battery.

'13 CE—Lieut. Roger W. Parkhurst is assigned to the Regiment Headquarters, 313th Engineers, Camp Dodge, Iowa.

'13 ME—Mr. and Mrs. Verne R. Reed of Akron, Ohio, announce the birth of a daughter, Aileen, on February 7.

'13-'18 G—Cecil C. Thomas has resigned his instructorship in botany in the College of Agriculture to accept an assistantship in plant disinfection with the Federal Horticultural Board of the U. S. Department of Agriculture.

'13 CE—William Kessler was married on November 8, 1917, to Miss Margaret M. Posey of Austin, Texas. They are

**To the Women of the Class  
of 1913**

At the annual meeting of the Association of Class Secretaries it was pointed out that the action asking the classes holding reunions in 1918 to defer them until October was no longer in force, since the semi-centennial has been postponed. The following resolution was adopted: "That it is the sense of the Association of Class Secretaries that the regular reunions be held in 1918, modified to meet the spirit of the times, during the Friday and Saturday preceding the Commencement exercises."

This will mean May 17 and 18. If you desire that our five-year reunion be held, and think it probable that you can be present, inform the Class Secretary before April 15.

SOPHIE M. BECKER,  
1913 Secretary for Women.  
502 N. Calhoun St.,  
Baltimore, Md.

living at 2035 Channing Way, Berkeley, Calif. Kessler is junior engineer with the U. S. Geological Survey, with offices at 328 Custom House, San Francisco.

'14 LLB—Theodore V. Meyer, jr., is in the 1st Company, Infantry, Officers' Training School, Camp Devens, Mass.

'14 CE—Edmund U. Ragland has been commissioned a first lieutenant in the Coast Artillery Reserve Corps. He is on board the U. S. S. Schofield, and may be addressed in care of the Postmaster, New Orleans, La.

'14 BChem—Carl G. Kinscherf attended the second R.O.T.C. at Plattsburg, and had finished all but three weeks of his course when he was afflicted with infantile paralysis. He is now convalescing at his home, 233 Hewes St., Brooklyn, N. Y., and hopes for a complete recovery.

'14—Lieut. Edward G. Doane of Marathon, N. Y., was married to Miss Alice Mae Keyes on March 18, at the Church of the Holy Communion, New York.

'14—Leicester S. Pettit has been commissioned an ensign in the U.S.N.R.F., and is now receiving further training at Annapolis. He was married on May 16, 1917.

'14 AB—R. W. Glenroie Vail is in charge of the American Library Association Dispatch Office in the New York Public Library, at 11 West Fortieth St. He has been in full charge of this office since the middle of December. It has shipped two hundred thousand volumes to the Army and the Navy, and will probably ship about a million in all. From nineteen other smaller dispatch offices about half a million books have been sent.

'14 ME—Ensign Mead W. Stone, U.S.N.R.F., has been assigned to Detroit, Mich., for duty.

'14 BArch—Second Lieut. Roland E. Coate, Signal R. C., is with the 32d Aero Squadron, American Expeditionary Forces.

'14 BS—William H. Upson is with the 13th Field Artillery at Camp Greene, Charlotte, N. C. He is in Battery D.

'14 ME—William E. Lundgren is machinist's mate on board the U. S. S. Aramis.

'14 CE—Announcement is made of the engagement of Miss Ruth Gaylord, daughter of Mrs. Annie Gaylord of Brookline, Mass., to Linton Hart. Miss Gaylord is a graduate of Wellesley, 1916. Mr. Hart is New England manager for

the Raymond Concrete Pile Company of New York.

'15 ME—Lieut. Robert C. Latz is stationed at Fort Wadsworth, N. Y.

'15 AB—Emanuel M. Ostrow is with the 14th Provisional Ordnance Depot Company at Camp Upton, N. Y. His address is 1814-B Lincoln Ave., Camp Upton.

'15 ME—Rodrigo B. Rodriguez has recently returned from Chile to enter the service, and is now at the School of Military Aeronautics at the Massachusetts Institute of Technology, Cambridge. His permanent mailing address is 349 Rugby Road, Brooklyn, N. Y.

'15 ME—John M. Rogers has resigned his position with the Bureau of Construction and Repair, Navy Department, Washington, to accept a position in the engineering department of the Curtis Engineering Corporation, Garden City, L. I.

'15 CE—John K. Rose, jr., is in the 106th Company, 8th Regiment, U. S. Marine Corps, and should be addressed in care of the Postmaster, New York.

'15 AB—Joseph R. Donovan is attached to Company C, 304th Machine Gun Battalion, Camp Upton, N. Y.

'15 LLB—Louis Y. Gaberman has received a commission as chief yeoman in the U.S.N.R.F., and is assigned to the Censor Bureau, Brooklyn Navy Yard. His address is 56 Clark St., Brooklyn, N. Y.

'15 CE; '16 CE—Charles F. Starr is structural engineer and estimator of structural steel with the Genesee Bridge Company of Rochester, N. Y. Charles C. Beakes is in the same office.

'15 AB—First Lieut. Walcott B. Hastings, Infantry R. C., is insurance officer in the 312th Infantry, Camp Dix, N. J.

'15 AB—Albert E. Purchas, 2d, is a second lieutenant in the 23d U. S. Infantry, and went over to France in September. In January he wrote to a Columbia friend that he was acting post adjutant for two battalions stationed in a small French village, but expected to be relieved soon from this work, and that afterward his work would consist in drilling two platoons of 116 men. Most of the companies had then been on fatigue work for two months.

'15 ME—Ensign Donand D. Cooke, U.S.N.R.F., is on board the U.S.S. North Carolina.

'15 BS—Charles M. Warren attended the R.O.T.C. at Fort Winfield Scott,

Calif., and received a commission as first lieutenant in the Coast Artillery Corps. He is now in Battery F, 62d Regiment, Coast Artillery Corps, Presidio of San Francisco, California.

'15 BS—Second Lieut. Arthur W. Wilson, F.A.R.C., is in Battery E of the 129th Field Artillery, stationed at Camp Doniphan, Fort Sill, Okla.

'15 LLB—Donald B. Munsick is a second lieutenant in the 155th Field Artillery Brigade, and is assigned to the 305th Trench Mortar Battery, Camp Lee, Va.

'15—The address of First Lieut. Everett R. Morse, Ordnance R. C., is 6th Division, Headquarters, 6th Ammunition Train, Camp McClellan, Aniston, Ala.

'15 AB—Merl P. Moon is in the laboratory of the Base Hospital at Camp Sherman, Ohio.

'15 AB, '17 ME—Ensign Louis Etshokin, U.S.N.R.F., is in the Radio Division, 2d Naval District, Newport, R. I.

'16 ME—Herbert H. Smith is in the Inspection Section, Equipment Division, of the Signal Corps. His address is 831 Ellicott St., Buffalo, N. Y.

'16 AB—Benjamin H. Micou is an assistant paymaster in the U. S. Navy, with the rank of lieutenant (junior grade), and is on board the U. S. S. Jupiter.

'16—Second Lieut. Joseph R. Younglove is on active duty with the American Expeditionary Forces.

'16—Announcement is made of the engagement of Miss Aimee Lee Strock to Sergeant George F. Bettcher.

'16 BChem—T. Baldwin Prickett is with the National Aniline & Chemical Co., Marcus Hook, Pa.

'16 BS—Florence M. Rice is engaged as "housekeeper" at the Penn Hospital, 4401 Market St., Philadelphia.

'16 AB—Anthony O. Shallna has entered the Ordnance Department of the Army, and is now in the ordnance training school at the University of Pennsylvania.

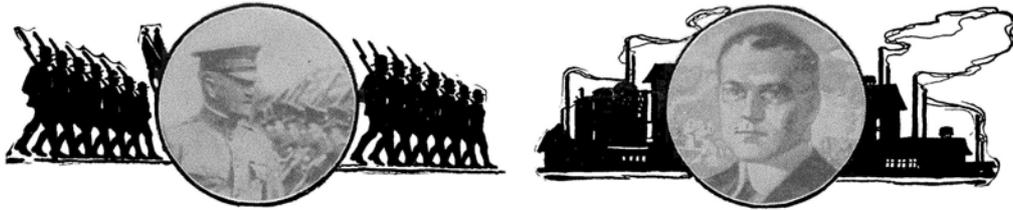

'16 AB—Weyland Pfeiffer is with the 329th Field Artillery at Camp Custer, Battle Creek, Mich.

'16 LLB—Second Lieut. Paul K. Roth, Infantry R. C., is with the 306th Infantry, Camp Upton, N. Y.

'16 BS—Clement H. Cornish has purchased and is operating a large dairy farm at Glen Moore, N. J.

'16 BChem—J. Stanley Babbitt is a first lieutenant in the Sanitary Corps.

*Continued on Page 312*

# The Pershing parallel

—and how it hits home to You

General Pershing knew military fundamentals. That's why he was chosen to lead our expeditionary forces in France.

But with all his Army experience, Pershing realized the need for a mastery of the more recent developments of warfare.

From the moment of his arrival in Europe he has been in almost constant consultation with the great generals—Joffre, Castelnau, Foch, Haig, Petain.

From these conferences he has gained a firmer grasp of the fundamentals of war. He has learned thru them the right course to pursue—the mistakes to avoid.

General Pershing was a great soldier when he left our shores. Today he is a greater soldier. By absorbing the first-hand experiences of others he has multiplied many times his fund of military knowledge.

### The need for training

The wisdom of Pershing's course points a strong object lesson in business.

To be a great business man requires much the same qualities as to be a great general; each needs thoro scientific training.

You men whose ambition prompts you to grow to greater responsibilities—will you attempt to grow along the narrow confines of your own experience?

Will you adopt hit-or-miss methods of gathering business information thru mere contact with your own business and with those who directly or indirectly may be in touch with you in your business?

Or will you parallel the course Pershing followed?

Will you consult the great business generals and obtain a sound, solid, business training by a mastery of the fundamentals which underlie all business?

### A short-cut to business knowledge

The Modern Business Course and Service of the Alexander Hamilton Institute presents organized business in a systematic, time-saving form.

It embraces a thoro, comprehensive presentation of business fundamentals.

From the heads of big business down to the juniors whose ambitions are to be the heads later in life, the Modern Business Course and Service is used as a preparation to bigger achievements.

Today the demand for trained executives is increasing. The business barometer points to even greater demand in the future. The man who is prepared with a sound business training is not only able to respond and make good when opportunity presents itself, but has the power within him to create opportunity.

### The kind of men enrolled

Presidents of big corporations are often enrolled for this Course and Service along with ambitious young men in their employ.

In the Standard Oil Company, 291 men are enrolled in the Alexander Hamilton Institute; in the U. S. Steel Corporation 450; in the National Cash Register Co. 194; in the Pennsylvania Railroad 108; in the General Electric Co. 300—and so on down the list of the biggest concerns in America.

### Advisory Council

Business and educational authority of the highest standing is represented in the Advisory Council of the Institute.

This Council includes Frank A. Vanderlip, President of the National City Bank of New York; Judge E. H. Gary, head of the U. S. Steel Corporation; John Hays Hammond, the eminent engineer; Jeremiah W. Jenks, the statistician and economist, and Joseph French Johnson, Dean of the New York University School of Commerce.

# CORNELLIANS!

You are a progressive lot, desirous of keeping up to date on all matters affecting your business or profession.

Your value to yourself or to your Company depends partly upon your knowing things that perhaps not every one knows.

Which leads up to this: There are some remarkable new models of a well-tried typewriter that you should know about, if you do not already:

## MULTIPLEX HAMMOND "WRITING MACHINE"

1. A typewriter that writes in large or small type, as may be desired, with proportionate spacing between the letters. Invaluable for the filling of forms, preparation of reports, card indexing, etc.
2. A typewriter writing 180 characters comprehending all the usual symbols of mathematics. Much used by engineers.
3. A typewriter of ordinary size that takes paper of any width, and writes cards without bending them.

## No Other Typewriter Can Do This—

Two different styles of type always in the machine—*"Just Turn the Knob"*

SPECIAL TYPE-SETS FOR EVERY BUSINESS, EVERY LANGUAGE, EVERY PROFESSION, EVERY SCIENCE. ANY TYPE MAY BE SUBSTITUTED IN A FEW SECONDS.

*Many Typewriters in One*

*The above is only a fraction of the story. Let us tell you more.*
