FRATERNITY pledges to date, as reported by *The Cornell Sun*, are in numbers as follows: Acacia, 6; Alpha Delta Phi, 8; Alpha Sigma Phi, 12; Alpha Tau Omega, 7; Beta Theta Pi, 8; Chi Phi, 7; Delta Chi, 8; Delta Kappa Epsilon, 14; Delta Phi, 5; Delta Tau Delta, 14; Delta Upsilon, 8; Eleusis, 11; Kappa Alpha, 7; Kappa Delta Rho, 6; Kappa Psi, 6; Kappa Sigma, 16; Komós, 4; Lambda Chi Alpha, 6; Omega Tau Sigma, 6; Phi Delta Sigma, 4; Phi Delta Theta, 10; Phi Epsilon Pi, 6; Phi Gamma Delta, 5; Phi Kappa Psi, 13; Phi Kappa Sigma, 8; Phi Sigma Kappa, 9; Pi Kappa Alpha, 8; Psi Upsilon, 12; Scorpion, 9; Sigma Alpha Epsilon, 14; Sigma Chi, 7; Sigma Nu, 12; Sigma Phi, 6; Sigma Phi Epsilon, 13; Sigma Phi Sigma, 7; Sigma Pi, 10; Sigma Upsilon, 7; Theta Alpha, 6; Theta Delta Chi, 4; Theta Xi, 8; Zeta Beta Tau, 8; Zeta Psi, 9.

THE DRAMATIC CLUB gave its first series of plays in Goldwin Smith Hall on Friday and Saturday evenings of last week. The plays, all from the repertory presented at the State Fair, were "Neighbors" by Zona Gale, "Lonesomelike" by Harold Brighouse, and "Joint Owners in Spain" by Alice Brown. The individual parts were all well acted and the plays as a group so well done that the audiences now readily understand the success that attended the performances at Syracuse in September. The club has begun its present season admirably.

THE CROSS COUNTRY CLUB, as a part of this year's campaign to arouse interest in the club and to obtain funds to carry out its program, sold honorary membership tags from booths on the campus Saturday. Plans have also been made and a committee appointed to canvass the fraternity houses to enlist undergraduate support. The club has been in existence here for more than twenty years, its purpose being to further interest in cross country as a sport. It has served as a model for similar organizations in other universities, and was reorganized last year after a period of inactivity during the war. Plans have been made to give prizes for various events during the year.

MISS MILDRED SEVERANCE, instructor in physics since 1917, who lately resigned, sailed on October 15 for Europe.

After a short stay in Paris she will go to Brussels as Y. M. C. A. secretary at the students' hostel. The work of this organization is largely among Belgian women whose homes were broken up during the war. Miss Severance has previously been in war service in France.

WORK on the new baseball field adjacent to Bacon Hall is progressing steadily. A small force of men has been busy since early in August. All of the draining and most of the grading is now done; there remains the surfacing with cinders and topdressing as a foundation for the turf. Watchers of the football games have wondered whether the new field will be ready for baseball next spring. That hope must now be given up, since the athletic authorities have abandoned their intention of playing on the hill during the coming season. Despite the inconvenience, Percy Field must serve for another year. The new field, however, will be seeded this month. We may look forward with confidence to complete readiness by 1922.

TAU BETA PI, the honorary society to which only students in architecture, chemistry, and engineering are eligible, has elected fourteen men to membership: in architecture, Milton Bode Steinmann, Rochester, N. Y.; in chemistry, Walter Scott Holzberger, Hamilton, Ohio; William Wallace Paddon, Utica, N. Y.; in civil engineering, Harold Ingersoll Hettinger, Freeport, Ill.; Norman Cart Wittwer, Ithaca; in mechanical engineering, Theodore Sumner Farley, Ithaca; William Lester Lewis, Binghamton, N. Y.; Charles Karleton Miller, Rochester, N. Y.; William Wallace Neale, Richmond, Va.; Lawrence Victor Smith, Toledo, Ohio; Ernest Lathrop Thearle, San Diego, Cal.; Albert Zuidema, Holland, Mich.; and Robert William Anderson, Brooklyn, N. Y., the junior who has maintained the highest scholastic standing through the first two years of the Sibley course. One professor is among the new members, Myron Adolph Lee of Sibley.

STUDENTS in the College of Agriculture at a mass meeting last week voted to retain the honor system at present in force in that college. Under this plan a student honor committee, to which students individually may report cases of fraud, in turn may report to the Faculty's Committee on Student Affairs, with the finding in each case; the

Faculty committee generally though not invariably accepts the rulings and recommendations of the student committee. Cases are also reported to the Faculty committee by members of the teaching staff. The plan found hearty support among the five hundred students assembled. Before the vote was taken Richard Maury, a graduate of the University of Virginia and now in the Graduate School at Cornell, gave a full account of the honor system at Virginia; and Dean Betten discussed the problem from the Faculty's point of view. The meeting was the first of the so-called "get-together" assemblies which the Agricultural College has throughout the year.

PROFESSOR D. S. KIMBALL has been reappointed a member of the Committee on Industrial Education of the New York State Department of Education. This committee is one of several advisory committees of the State Department of Education. Professor Kimball has already served two terms of five years each in this capacity.

THE COSMOPOLITAN CLUB has elected to membership thirty-three students from thirteen different countries: Argentina, Australia, Belgium, Canada, Colombia, India, Japan, Lithuania, the Philippines, Russia, Spain, San Domingo, and the United States. The initiation took the form of a smoker, at which Acting President Smith spoke of the place of the club in the University and Professor Guerlae of the club's international message.

THE WINTER COURSE in agriculture began on November 10. The attendance of about three hundred, though lower than that in winters before the war, the college authorities, in view of the shortage of labor on the farms, consider satisfactory. Among the students are ten Indians, eight men and two women, whom the State is sending here to prepare for extension work in agriculture on the various reservations. The courses end on February 18.

AN EXHIBITION of professional work done by members of the Faculty of the College of Architecture was opened in White Hall on November 9. Visitors will be welcomed to and including Saturday, November 20.

THE FRESHMAN football team has chosen for its captain, R. C. Hubbard, right halfback, of Nyack, N. Y.

## Trustees Meet

### Memorial Professorships Filled and Faculty Committees Announced—Professor Williams Resigns

The University Board of Trustees held its regular fall meeting Saturday, November 13. It assigned professors to eight professorships which were established last June commemorating the service of Cornellians in the war. The assignments are Professor A. C. Phelps in Architecture; Professors O. G. Guerlac and Ernest Merritt in Arts and Sciences; Professors S. S. Garrett and E. W. Schoder in Engineering; Professor W. D. Bancroft in the Graduate School; Professor Sutherland Simpson in the Ithaca division of the Medical College.

President Smith reported that the special Faculties had elected for this year their committees for conference with committees of the Board as follows: Arts and Sciences, Dean Frank Thilly, Ernest Merritt, and H. J. Davenport; Law, Dean E. H. Woodruff, G. G. Bogert, and C. T. Stagg; Architecture, Dean F. L. Rosworth, George Young, jr., and O. A. Brauner; Civil Engineering, Dean E. B. Haskell, F. A. Barnes, and S. G. George; Mechanical Engineering, Dean A. W. Smith and A. E. Wells; Medical Faculty at Ithaca, Secretary A. T. Kerr, B. F. Kingsbury, and Sutherland Simpson.

Professor Walter L. Williams of the Veterinary College presented his resignation to take effect on Commencement Day, 1921. It was accepted and the President was authorized to apply to the Carnegie Foundation for a retiring allowance for Dr. Williams. The election to the Library Council of Professor C. S. Northup (Group of Letters) to succeed Professor C. E. Bennett and Professor W. B. Carver (Group of Sciences) to succeed Professor H. S. Jacoby, was confirmed. The Board also authorized the President to confer this fall, fifty-two first degrees, thirty-two advanced degrees, and fifty-four War Alumni certificates. They also voted to continue Cornell's membership in the American University Union in Europe.

Those present at the meeting of the Board were President A. W. Smith; George E. Hogue, the State Commissioner of Agriculture; Dr. W. H. Jordan, the president of the State Agricultural Society; E. T. Turner, the librarian of the Cornell Library; Charles E. Cornell, Ithaca; Walter P. Cooke, Buffalo; Frank H. Hiscock, Syracuse; Ira A. Place, New York; James H. Edwards, New York; Herbert D. Mason, Tulsa, Oklahoma; Frank H. Miller,

New York; J. T. Newman, R. H. Treman, and Mynderse Van Cleef, Ithaca; Mrs. Harriet Moody, Chicago; John C. Westervelt, New York; Thomas B. Wilson, Hall, N. Y.; C. E. Treman, Ithaca; H. H. Westinghouse, New York; R. B. Williams, Ithaca; Cuthbert W. Pound, Lockport; John L. Senior, Jackson, Mich.; J. Du Pratt White, New York; C. H. Blood, Ithaca; Henry W. Sackett, New York; Edwin N. Sanderson, New York; Roger H. Williams, New York; George A. Blauvelt, New York; Emmons L. Williams, Ithaca; Louis L. Seaman, New York; George J. Tansey, St. Louis; Horace White, Syracuse; Wililam F. Pratt, Batavia; and the Faculty representatives, Professors J. H. Comstock, D. S. Kimball, and W. F. Willcox.

### PENN GAME 2 P. M.

An error on the tickets gives the time of the Cornell-Pennsylvania game as 2.30 p. m. on Thanksgiving Day. The game will be called at 2 o'clock.

## Medics Change Rules

### Only Five From Any One College to Be Admitted to First-Year Class

In order that its advantages may be equalized to all parts of the country the Cornell Medical College in New York has limited the number of students this year and the number from any one college which may enter first-year classes. Not more than sixty students are to be registered in the second, third, and fourth year classes, and not more than five students will be admitted from any one college to the first-year class in New York. The first year curriculum is, however, to be offered in Ithaca as well as in New York as it has been formerly.

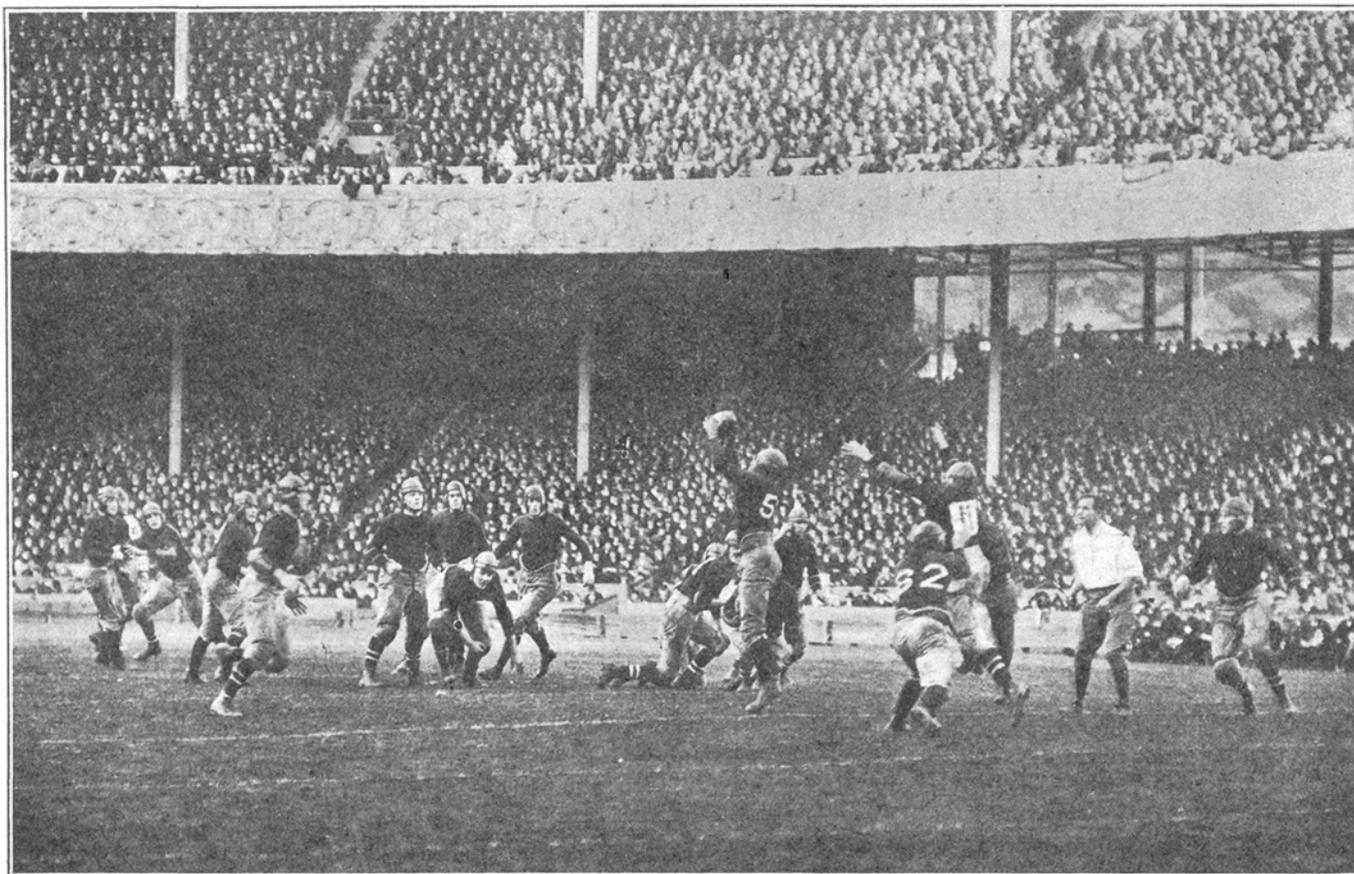

Twenty-four colleges and universities besides Cornell are represented by first-year students this year. The College of the City of New York has five; Brown University, three; New York, Johns Hopkins, and Syracuse have two each; and the following colleges and universities are represented by one each: Colgate, Columbia, Yale, Vassar, Wellesley, Ohio State, Middlebury, Wofford, Barnard, Boston, Western Reserve, Massachusetts Institute of Technology, Pomona, Washburn, Holy Cross, Mount St. Mary's, Manhattan, Fordham, and the University of Washington. Cornell has one alumnus in the first year in New York, twenty-five in the second year, sixteen in the third year, and twenty-one in the fourth year.

## New York Starts Well

### Endowment Meetings This Week in Up-State Towns Being Addressed by Faculty Members

New York State's Endowment Campaign got off to an enthusiastic start when nearly two thousand Cornellians returned to Ithaca on November 13 on the occasion of the Columbia-Cornell football game. The gathering of New York State Cornellians as guests of the University was followed by meetings throughout the State on November 15 at which representatives of the University were guests of the local alumni of forty Cornell centers. The psychological effect of these meetings had the desired result of placing Cornell before the up-state public in an unprecedented manner, so that no one who had ever been associated with the University in any capacity whatever could avoid seeing or hearing some reference to the State campaign.

While it is still too early to figure on results; it is anticipated that following the wind-up of the Endowment effort in all of New York State with the exception of New York City the Endowment Committee will be able to announce that more than \$1,000,000 in new subscriptions have been obtained. Several members of the Faculty have continued in the capacity of campaign directors during the entire course of the State drive. The following cities and towns held meetings to inaugurate the state-wide endowment effort: Albany, Professor S. P. Orth; Albion, Professor H. P. Underwood; Amsterdam, Dr. A. T. Kerr; Auburn, Professor G. G. Bogert; Batavia, W. H. Farnham; Binghamton, Dean D. S. Kimball; Buffalo, Professor C. L. Durham; Canandaigua, Professor R. C. Gibbs; Cooperstown, Professor M. V. Atwood; Cortland, Professor C. K. Burdick; Elmira, C. E. Treman; Geneseo, Professor R. H. Keniston; Geneva, Professor W. A. Hammond; Glens Falls, Professor H. L. Jones; Gloversville, Professor P. R. Pope; Hudson, Professor O. D. von Engeln; Jamestown, Professor Bristow Adams; Lockport, W. H. Farnham; Middletown, Dean A. R. Mann; Newburgh, Professor H. N. Ogden; Niagara Falls, Professor C. L. Durham; Orleans, Professor C. T. Stagg; Oneida, Romeyn Berry; Oswego, Professor W. W. Rowlee; Owego, Professor F. K. Richtmyer; Poughkeepsie, Judge W. B. Cunningham and Professor O. D. von Engeln; Rome, Professor O. L. McCaskill; Rochester, Professor C. L. Durham; Schenectady, Professor M. W. Sampson; Seneca Falls, Professor B. S. Monroe; Syracuse, President A. W.

AT THE POLO GROUNDS NOVEMBER 6

Photograph by J. P. Troy

Dartmouth blocking one of Cornell's passes. The picture shows the stands full to overflowing.

Smith and Romeyn Berry; Tonawanda, Professor C. S. Northup; Troy, Professor S. P. Orth; Utica, President A. W. Smith; Walton, Dr. Cornelius Betten; Watertown, Professor O. L. McCaskill; Wellsville, Professor R. C. Gibbs.

Figures prepared by the Endowment Committee show that the Territory of Hawaii has a larger percentage of subscribers out of the total number of resident alumni than any other State or Territory or foreign country. Hawaii has a record of 24 subscribers out of a total of 46 Cornellians resident in the Islands, making a percentage of 52. Massachusetts is second, with 47 per cent; Missouri stands third with 35 per cent; and Illinois is fourth with 34.

**The President's Report**

**A Survey of Cornell History for Twenty-eight Years**

President Schurman's twenty-eighth and last annual report, which was submitted to the Board of Trustees at its meeting on Saturday, is largely devoted to a résumé of the growth of the University since 1892, when he succeeded Dr. Adams as President. The number of students has grown in that time from 1,538 to 7,711, of whom 5,765 were regularly matriculated students. Down to 1892 inclusive, 2,453 degrees had been conferred. President Schurman has since conferred 18,992, making a total of 21,445. There has been a corresponding growth of the Faculty.

"While the funds held by the Trustees have not always permitted us to multiply professorships in harmonious balance with instructorships, it has been a constant gratification to me to see for so many years such able young men attracted to the teaching staff. In addition to their regular work as teachers, both instructors and professors have as a rule zealously engaged in research, with the result of establishing a high reputation for the Faculty in the republic of science and letters. There are

to-day among our professors a goodly number of eminent scholars and scientists, some of whom have an international reputation."

In 1892 there was one general Faculty; this has now become a sort of academic senate, and the organization now embraces nine special colleges including the Graduate School. The grounds have grown from 200 to 1,456 acres. The list of donors to the University treasury recalls many names held in honor by Cornellians: the Sages, who have given more than a million and a half; Goldwin Smith, whose estate amounted to nearly three quarters of a million; Colonel Payne, who gave about six millions to the Medical College; George F. Baker, whose gift of more than a third of a million inaugurated the system of men's dormitories; Mrs. Russell Sage, donor of \$300,000 for Risley Hall; Willard Fiske, donor of four magnificent special book collections and a Library endowment of over half a million; the Sibleys, father and son; F. W. Guiteau and his sister, donors of the Loan Fund of \$351,000; John Stambaugh '84, donor of a professorship of history; Jacob H. Schiff, donor of the Schiff Foundation; the anonymous donor of \$1,500,000 for the Chem-

ical Laboratory; August Heckscher, donor of the Heckscher Research Foundation; and finally, the thousands who have created the Semi-Centennial Endowment Fund.

Turning to the component parts of the University, Dr. Schurman points out that the need of an organ for the solicitation and collection of needed funds for the University is likely to be met by the continuance of the Endowment Committee or the formation of some similar group. Control of the Board of Trustees by a local group is a thing of the past, and rightly; for it is Cornell's destiny to serve not as a local but as a national institution. "In its Trustees, professors, and students, therefore, as in its ideals and activities, it should be representative of the nation as a whole."

He then takes up the Faculty. The two great functions of the professor are teaching and research; the two must go hand in hand. But first-class men are hard to get. "I do not think there is any lack of idealism in the rising generation, but young men of superior parts who are interested in education and might respond to the appeal of science and scholarship are deterred from entering the profession by aversion to the drudgery of teaching mediocre students and by lack of time and opportunity offered for independent scholarship or scientific research. There is also the competition of other professions, and especially, in these days, of business." To attract strong teachers, the work of teaching must be made more inspiring, and the teacher *must* have an opportunity for research. Many feel "that it is more important in the interests of civilization to enlarge the boundaries of existing knowledge than merely to communicate to one generation after another the stock already discovered and extant. I believe the American public want the best universities in the world and are ready to furnish the means necessary for their support. But the public need to be instructed as to what the university essentially stands for in American life and civilization. It must be demonstrated to them that unless we make and keep our universities genuine laboratories of creative intellectual work they will sink to the level of pedagogical institutes. The most hopeful way to recruit and reinvigorate the faculties of American universities is to make them places for able, well-trained, and intellectually alert professors, generally of course with the primary function of teaching but also with adequate provision for creative work on the part of all who are ambitious and competent to under-

take it. Considerations like these indicate the vast importance of Mr. Heckscher's splendid gift for the endowment of research at Cornell University. It will do more than any other gift could have done to elevate the University to its highest ideal and to liberate and stimulate the intellectual energies of the professors."

Concerning the students, Dr. Schurman points out the imperative need of limiting our numbers by weeding out the incompetent and the loafer; on the question of whether the Ithaca colleges shall follow the example of the Medical College in New York in arbitrarily limiting numbers he is mainly non-committal. So long as the State adequately supports the State Colleges, there is no need of limiting their expansion; in Law the problem is not a pressing one; as for Arts and Sciences, Engineering, and Architecture, it must depend on whether further expansion would involve additions to the pay roll, or the material equipment, or both.

Of the regular students of 1919-20, duplicates ignored, the component percentages were: Graduate School, .069; Arts, .308; Law, .03; Medicine, .059; Agriculture, .219; Veterinary, .018; Architecture, .022; C. E., .07; Sibley, .206.

From Dr. Schurman's narrative of the growth and development of the University grounds it becomes evident how much Cornellians are indebted to his far-seeing wisdom for the present comparative spaciousness and beauty of Cornell's grounds and landscape. Dr. Schurman favors the replacing of Franklin by up-to-date-buildings for the College of Engineering, and the removal of Lincoln to bring the new Chemical Laboratory into the main quadrangle. He also urges the connecting of the Agriculture quadrangle with the main one by "a broad and stately mall"; the location of the new Gymnasium-to-come near the Drill Hall; and the preservation of the gorges in their wild natural condition.

As the Report for 1918-19 was mainly devoted to finances, Dr. Schurman devotes little space to this subject; merely recording the retirement of Comptroller Williams, with an appreciation of his services in which all Cornellians will join, and reiterating the urgent need of twice five millions more for the great work to which the University is dedicated.

Cornell's relations to the State "have in the course of time reached a satisfactory adjustment." Since 1904 the State has appropriated for Agriculture alone \$9,835,099.40. It has also created and supported the State Veterinary Col-

lege and has erected the Drill Hall. All other parts of the University must exist on the income from its private endowment or from fees.

Dr. Schurman closes his general discussion with some remarks on the relations of the professor to the public service, concluding as follows: "The professor renders as teacher and investigator one of the highest and most valuable of public services. And it is only in very exceptional cases that he is justified in asking for leave of absence to undertake a political office. In the Middle Ages this was clearly understood. Thinkers then recognized three great institutions in the civilized world: the state, the church, and the university; and each had its own field of operation and contributed its distinctive quota to the service of the community. As a rule little is gained, and a good deal is apt to be lost by intermingling the functions of these institutions. In a democracy the nature and functions of the university cannot be too often explained or too clearly defined. It is the highest organ of the intellectual life of the people. Without the university or without the scholars, investigators, and thinkers whom the modern university brings together, the civilized world would revert to barbarism."

#### RESEARCH COMMITTEE

The Trustees and Faculty have elected several members of the Committee of Administration of the Heckscher Fund for Research, a fund of \$500,000 recently given to the University by August Heckscher of New York. The President of the University and the Dean of the Graduate School are members of this committee *ex officio*. The Trustees last Saturday chose Ira A. Place and H. H. Westinghouse as the Board's representatives. The University Faculty on November 10 elected Professors Carl Becker and J. Q. Adams to represent the Division of Letters and N. Barnard to represent the Division of Sciences. After it organizes, the committee will add to its membership two emeritus professors of the University.

#### PITTSBURGH MEETS

*Cunawpa*, the official bulletin of the Cornell University Association of Western Pennsylvania, announces the annual meeting and election of officers at the University Club, Pittsburgh, Saturday, November 20, at eight p. m. The nominating committee has selected Thomas Fleming, jr., '05 for president, Karl W. Gass '12 for vice-president, John F. Craig '12 for secretary, W. S. Wallace '10 for treasurer, J. S. Rosenfeld '15 for registrar, and E. E. Good-

willie '10 for member of the board of directors for three years.

The Cunawpa Quartette is promised, as is also a bite to eat and a drop to drink. The bulletin editorially invites all members to "come and cast your vote for the above galaxy of worthies or else nominate some others and bolt the party."

The association is holding weekly luncheons on Fridays at the Pittsburgh Chamber of Commerce. Last week Glenn S. (Pop) Warner '94 talked on football at Cornell and elsewhere. He expressed the opinion that the team is doing everything that can be expected of it so far this year and that it has a big future in store under Dobie.

**BOSTON WOMEN ELECT**

The Cornell Women's Club of Boston will hold its annual business meeting Saturday afternoon, November 20, at the home of Mrs. Horace Van Everen, 13 Kirkland Place, Cambridge. Officers will be elected for 1920-21, followed by a social hour with tea.

The club meets informally the first Monday of every month at the College Club, 60 Commonwealth Avenue, Boston. Cornell women who may be in Boston at that time are invited to attend the meetings.

**DETROIT GOING STRONG**

Detroit is still keeping up the good work. The advance notice of the regular weekly luncheon for November 11 promised that "Frazer Whitehead and Carroll Trego respectively have promised to tell how they are going to sell two thousand and ten seats for the Musical Clubs' concert and get one hundred per cent subscriptions to the Endowment Fund by Cornellians by Christmas By Gosh!"

The notice also reported that '13 led the field at the last meeting with six men; that '03, '11, and '17 had come to life; but that '00, '01, '05, '06, '15, '19, and '20 were still missing. It called for more resurrections Thursday. The meetings are held in the Peacock Room of the Cadillac Hotel.

**CHICAGO PLAYS GAMES**

The Chicago Cornell Club held its annual meeting and election of officers in the form of a field day at the Elmhurst Golf Club on October 27. Elmhurst is a suburb eighteen miles west of Chicago famous in Cornell circles as the home of the Wilder family. The plans arranged by the committee was for all golfers to start out in the morning and make a day of it. The report of the meeting says that "in spite of a heavy downpour all forenoon a limit-

ed number of the members reached the Club about ten and a spirited game (not golf) was enjoyed all morning.

"The noon train brought quite a crowd and after lunch it was possible to play eighteen holes of golf. Other games were also played. At seven a chicken dinner was served and the annual meeting followed."

At this meeting L. B. Hallberg '09 was elected president, H. J. Patten '84 vice-president, Newton C. Farr '09 secretary, Maurice E. Bosley '12 treasurer, Charles M. Sailor '16 registrar, and E. E. Sheridan '11 and G. M. Chapman '05 were elected directors.

**SPORT STUFF**

Ithaca is terribly anxious to be nice to Old Grads these days, but if you must telephone five hundred miles for two on the fifty-yard line next to Porky Smith, please, mister, do it before midnight. The nights are getting frosty and it strains the oldest friendship and the most devoted spirit of service to stand for ten minutes in one's shift—after central says, "Indianapolis calling; hold the wire, please."

Philadelphia hasn't sent us as many Penn game tickets as usual and more Cornell people than usual want tickets. Under those circumstances, please don't shoot the organist. He's doing the best he can. We're taking care of all members and filling in order of receipt the requisitions of those old grads who are not members of the Athletic Association. Everybody will be taken care of within human limitations.

The Columbia game was played in a temperature of 20 degrees on a field that might just as well have been macadamized. While the varsity won decisively and did some things well its inexperience and shortcomings were still apparent.

Nobody with a retentive memory will get overheated regarding prospects for the Penn game. The team will trot out on Franklin Field as effective as material and conditions permit it to be, but everybody here knows it will be up against a tough proposition. There is just as much danger of it becoming infected with leprosy as with overconfidence.

The freshman team beat the Columbia youngsters in New York by a large score. Two contests remain for it—the Penn game next Saturday and the examinations in February. The chant of the coaches is, "Charge low, keep your head up, and hit those prelims."

R. B.

**CORNELL SINGING**

C. F. Roland '09, of New York writes to urge that Cornell singing be developed as a feature of the Penn game Thanksgiving; it was conspicuous by its absence at the Dartmouth game. His letter follows:

To me and to many Cornell men the meeting of the Cornell-Dartmouth football teams at the Polo Grounds on November 6 was a real treat. It is seldom that I have witnessed such a beautiful spirit displayed on the part of the participants. How often we have all seen wrangling on the part of individual members of opposing teams! How often we have seen brutality! How often we have seen "plain muckerism"! This game was positively devoid of these. Let praise be due where it belongs. However, I was dumbfounded by hearing our well drilled band play popular music and chagrined that the real old Cornell songs were absent.

One of the drawing cards for the Cornell-Pennsylvania game played annually at Franklin Field is the singing of the cheering sections of the opposing teams. For eighteen consecutive years at this game it has been my pleasure to listen to the Cornell singing and I certainly missed our harmony on November 6. When we play any team, particularly in New York City, let us not forget the songs which have grown to be a part of us.

**OBITUARY**

**William D. Buckley '80**

William Doubleday Buckley died on November 12, 1919, at Battle Creek, Mich. Mr. Buckley was a student at Cornell during the first term of 1876-77. After leaving Cornell, he made his home at Unadilla, N. Y., for a short time; then he went to Sloan, Iowa, where he was engaged in the practice of law. He was also president of a bank at Sloan.

His brother, Henry H. Buckley, is a member of the class of 1881, and his son, Oliver E. Buckley, received the degree of Ph. D. at the University in 1914.

**Emma N. Bassett '84**

Miss Emma Neal Bassett died on November 2 at the home of her niece, Mrs. Morse, in Norristown, Pa.

Miss Bassett came to Cornell in 1880 from a farmstead in Steuben County, N. Y. She was a student of exceptional abilities, an editor of *The Cornell Review*, then the University magazine, and was an honor student in Latin and history. She received the degree of Ph. B. in 1884, and that of M. S. in 1890. For a number of years she was a teacher of Latin and history at the well known girls' school at Northfield, Mass. She was a member of Phi Beta Kappa. She was buried at Cooper's Plains, N. Y., her old home.

Published for the Associate Alumni of Cornell University by the Cornell Alumni News Publishing Company, Incorporated.

Published weekly during the college year and monthly during the summer; forty issues annually. Issue No. 1 is published the last Thursday of September. Weekly publication (numbered consecutively) continues through Commencement Week. Issue No. 40 is published in August and is followed by an index of the entire volume, which will be mailed on request.

Subscription price \$4.00 a year, payable in advance. Foreign postage 40 cents a year extra. Single copies twelve cents each.

Should a subscriber desire to discontinue his subscription, notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts, and orders should be made payable to Cornell Alumni News.

Correspondence should be addressed—

### PRESIDENT A. W. SMITH

The hectic anxiety in Ithaca during the first few months after President Schurman's retirement, as to who was to be his successor, has given way to a calmer feeling of confidence as the Acting President got into action. President Smith has the love and respect of all, students, Faculty, officers, and alumni, and the prevalent opinion seems to be that none will criticize the committee that is selecting a new president if for the next few years it merely reports progress.

With the present bullish tendencies in the college president market it occasions no great surprise that the committee did not report on Saturday that it had a definite recommendation for Cornell's next president. With more than a score of presidencies vacant and with a comparatively small number of available candidates, it would not be unexpected if the present arrangements were continued rather indefinitely.

In the meanwhile suggestions are made not infrequently that might be more or less embarrassing to the presi-

dent because of their public nature, that he be made full president for the four active years remaining to him under the laws of the University. We are sure that the committee, cognizant of all phases of the problem, must realize that in Albert W. Smith '78 they have a perfect blend of the scientist, the scholar, the man of thought and of action, and that the two sides of his character, that of President Smith and that of Uncle Pete, are in no way incompatible and both are very desirable in a president. Whether such an appointment would interfere with the efforts of the committee to secure the best possible man for the future president is a question that probably cannot well be answered in the local press or over the banquet table.

Whatever the decision, we may rest satisfied that the ship of state is being steered by a competent pilot. No one who knows the facts will want to hurry the committee on its job, and when its selection is made all will be grateful that our luck has been to have Uncle Pete as president of the University in the interim, whether as acting president or as full president. The title is immaterial. We expect to refer to him as *president* except where he is acting in his other capacity as the adopted uncle of the student body.

## LITERARY REVIEW

### Essays on Liberal Education

*The Liberal College.* By Alexander Meiklejohn, Ph.D. '97, President of Amherst College. Boston. Marshall Jones Company. 1920. Large 8vo, pp. ix, 165. Price, \$2.50. The Amherst Books.

This is, appropriately, the first of a series of volumes which Amherst College is publishing in connection with the commemoration of her centennial anniversary, which comes next year. Dr. Meiklejohn has for some time been known as the champion of certain progressive ideas regarding collegiate education, some of which he has been able to put into practice in the college of which he has been since 1912 the head. In the present volume he has gathered several of his addresses and other writings pertaining to the kind of education which the college ought to provide.

And what according to Meiklejohn is the function of the liberal college? It is a place for the training of the *mind*. It is neither a high school nor a place for professional or vocational or technical training. Its business is to train the mind to think; it imparts systematically such knowledge as a cultivated youth should have on starting in

life: (1) the fundamental concepts of philosophy, (2) the intentions and achievements of human institutions—the social sciences, (3) some comprehensive notions of natural and physical science, (4) the development of human institutions, (5) some knowledge and appreciation of literature and the fine arts. The college must train youth not merely for service but for receiving and wisely using the best that life has to offer. It must emphasize the importance of knowledge as the indispensable prerequisite of intelligent living. Its professors must be free to study and teach without bias. If it is in a healthy condition it will not have to worry over student activities; they will thrive but will not usurp a place that is not theirs. Its teachers must be educated, cultured persons. "Our teaching must be based upon a comprehension of what learning is, of the nature of knowledge and of wisdom in relation to human living. There is nothing more futile than the attempt to teach liberal culture by means of teachers who are not liberally educated. It is equally futile to try to impart understanding of human life and of the world if we are not ourselves striving for such understanding and making some progress toward its accomplishment."

This book is full of wisdom and sound doctrine on what the college must do, namely, "make young people ready for living human life in this world of theirs." It deserves a wide reading.

### Books and Magazine Articles

Herbert A. Wichelns '16 is the author of a section in the second volume of "Language for Men of Affairs," edited by James Melvin Lee and published by the Ronald Press Company, of New York. Wichelns' part deals with the labor-saving devices employed in business correspondence, getting the work done, the question of publication, preparing copy and proof, using sources of information. The complete work fills 1,136 pages and sells for \$8. It is favorably reviewed in *Industrial Management* for October.

Lewis S. Gannett writes in *The Socialist Review* for November on "George Nasmyth."

Dr. Henry L. K. Shaw '96 writes on the care of the teeth in *Mother and Child* for October; a part of it is quoted in *The Survey* for October 16.

In *The Romanic Review* for July-September Professor T. Frederick Crane publishes an entertaining article on "The Epigram in Italy," reviewing L. De Mauri's "L' Epigramma Italiano dal Risorgimento delle Lettere ai Tempi Moderni."

# ATHLETICS

## Cornell Defeats Columbia

The football team defeated Columbia by a score 34 to 7 last Saturday before a crowd that exceeded thirteen thousand persons including many alumni returning for the New York State Reunion Day. The game was played under wintry conditions, with the mercury in the twenties, a chill wind blowing from the west, and the skies bleak and threatening; but the resulting discomfort was forgotten in the joy of a smashing triumph over an old rival in the first meeting since 1905. By winning Saturday's game Cornell made the standing of five victories as against three for the Blue and White.

The Cornell team outplayed Columbia in all departments of the game, overpowering the New Yorkers with a swift running attack, occasionally varied by a forward pass, and capably supported by some good punting by Carey, several of whose kicks went fifty yards or better. The Cornell line was more than a match for the Columbia forwards, particularly when Cornell had the ball. Defensively the team did not show up so well, as Columbia made nine first downs during the game, all but two by rushing. But in speed, power, and aggressiveness Cornell was far and away the better team. And the team kept everlastingly at it, with pep galore.

Although both teams employed the pass occasionally, straight football was the favorite weapon of attack on both sides. The Cornell half backs, particularly Mayer, skirted Columbia's tackles or slipped by the ends while Carey proved a reliable and sometimes very helpful ground-gainer on plunges through tackle or between guard and tackle. First honors in the Cornell attack went to Mayer, who tore off many substantial gains and proved a very hard man for the New Yorkers to stop. He made four of Cornell's five touchdowns and never seemed to tire in his sharp, ripping drives through and by the New Yorkers' scrimmage line. Kaw was fairly well covered; so he did not get away for many big gains, but he managed to make himself very useful. Hoff also made a number of nice gains through the line.

Most of Columbia's gains were made in off-tackle plays, a majority of them in midfield where they did not prove especially dangerous. The New Yorkers worked a forward pass that helped materially to acquire their only touchdown, while one of Cornell's touchdowns was made on a twenty-yard pass, Carey to Mayer. Generally speaking,

however, neither team tried the forward pass, consistently sticking in the main to rushing. There were few tricks, but the fake forward pass in Mayer's hands proved quite effective.

In the Cornell line the playing of Dodge, who intercepted a Columbia pass in the final period and opened the way for a touchdown, of Pendleton, and of Munns was conspicuous. For Columbia Calloway in the line and Harris, Canapary, and Applebaum stood out.

Columbia started bravely, and threatened Cornell's goal line early in the first period. Pulleyn recovered a long punt by Carey on Cornell's fifteen-yard line and Columbia started a rushing attack, which, however, Cornell promptly squelched. A forward pass over the goal line failed and soon Carey had kicked out of danger; but a twenty-yard pass, Harris to Canapary, brought the ball to Cornell's fifteen-yard line again. Columbia, however, was set back fifteen yards for holding—the New Yorkers suffered seventy-five yards from penalties all told to but five for Cornell—and Burtt failed at a placement goal from the thirty-five yard line.

Cornell put the ball in play on her own twenty-yard line and drove straight down the field for a touchdown, Mayer, Kaw, Carey, and Hoff ripping off substantial gains on almost every down. A twenty-yard pass, Kaw to Mayer, helped a lot. Hoff went through on three line plays to the fifteen-yard line and then Kaw went to the three-yard line on three off-tackle plunges. On the next play Mayer on a quick lunge went through right tackle for a touchdown but failed to kick goal.

In the second period another fine punt by Carey gave Cornell the advantage in a kicking duel and finally Cornell put it in play on the Columbia forty-three yard line. Rushing carried it to the twenty-yard line, where, after Columbia had held for two downs, Carey threw a beautiful pass to Mayer, who was waiting on the one-yard line. He juggled but held it and stepped across for the touchdown, also kicking goal.

In the third period Cornell scored another touchdown after an impressive march down the field from the kick-off, the backs tearing off steady gains in a relentless drive which Columbia could not check. Mayer went through a hole made by Dodge for the score.

Here Columbia had her few minutes of glory. Burtt broke up another Cornell procession by intercepting a forward pass and running to Cornell's forty-yard line. Applebaum and Canapary hammered at the center and advanced fifteen yards. A forward pass, Harris to Canapary, made another first

down and then Applebaum crashed through the Cornell line for eight yards in three downs and scored a touchdown. Canapary kicked goal.

In the final period Cornell made two more touchdowns. Applebaum's fumble on Cornell's fifteen-yard line started another drive, winding up with a score by Mayer, and Dodge intercepting a forward pass on Columbia's thirty-five yard line opened the way for the final score made by Carey on a short plunge through center.

All of the seats in the stadium proper were filled, the automobile parkways were crowded and most the sections of the temporary stands erected on the west side were jammed.

A small but lusty-lunged group of Columbia students gave the Blue and White hearty vocal support. Perhaps two hundred Columbia men were here in all, some coming by special train and a group of fifty or so in a Broadway to Coney Island motor bus, which left New York Friday afternoon, was stalled at Middletown, but managed to reach Ithaca within a few minutes of the opening of the game. The Columbia students thus emulated the Cornell men who a week before had gone to the Dartmouth game in motor trucks and busses.

The line-up and summary:

CORNELL.		COLUMBIA.	
Finn	.....L. E.	Pulleyn	.....
Kay	.....L. T.	Modarelli	.....
Pendleton	.....L. G.	Walder	.....
Brayton	.....C.	Brodil	.....
Miner	.....R. G.	Galloway	.....
Dodge	.....R. T.	Scoville	.....
Munns	.....R. E.	Forsythe	.....
Hoff	.....Q. B.	Harris	.....
Kaw	.....L. H. B.	Canapary	.....
Mayer	.....R. H. B.	Mozzenski	.....
Carey	.....F. B.	Thornton	.....

Score by periods:

Cornell	.....	6	7	7	14—34
Columbia	.....	0	0	7	0—7

Touchdowns: Mayer 4, Carey, Applebaum. Goals from touchdowns: Mayer 4, Canapary. Substitutions: Cornell, Lechler for Miner, Goetz for Pendleton, Gouinlock for Finn, Porrell for Brayton, Danzig for Kaw, Wegner for Munns, Baugher for Dodge; Columbia, Burtt for Thornton, Herman for Walder, Applebaum for Mozenski, Klenninger for Pulleyn, Eckels for Burtt, Korn for Herman, Johnstown for Eckels, Lerner for Johnstown.

Referee: Cutts of Harvard. Umpire: Burleigh of Exeter. Head linesman: Kersburg of Harvard. Time of periods: 15 minutes.

## Freshmen Win, Too

While the varsity football team was trouncing the Columbia varsity at Ithaca Saturday, the Cornell freshman eleven was engaged in a similar enterprise at South Field, New York, with the Columbia freshman team as its victim. The Cornell yearlings won by a score of 47 to 0, completely outclass-

ing their opponents. Cornell scored two touchdowns in the first period, one in the second, one in the third, and three in the last. Piekarski and Hubbard each made two touchdowns and Pfann Smith and Brown contributed the others.

### Soccer Team Loses

The soccer team lost a hard fought battle to Pennsylvania on Alumni Field last Saturday afternoon by a score of 1 to 0. It was not until the last three of the ninety minutes of play that Spencer scored a goal for the Quakers, who last year won the Interscholastic soccer title. Against such an experienced team Cornell's showing was considered very creditable.

### FELLOWSHIPS IN FRANCE

As a memorial for the one hundred and twenty-seven American Field Service men who lost their lives in France during the war, a series of American Field Service Fellowships in French universities have been made available to American graduate students. The fellowships are to be named after the men of the American Field Service who died in France, and if sufficient funds are obtained it is intended to name one after each of these men.

For 1920-21, not to exceed twenty-five fellowships are offered in the universities, faculties, and other institutions of higher learning in Paris or in sixteen provincial universities in other parts of France. They cover thirty fields of study, and are of the value of two hundred dollars plus ten thousand francs each. They are tenable for one year, but may be renewed for another year upon application if circumstances warrant.

Applicants must be citizens of the United States between twenty and thirty years of age. They must be graduates of a college requiring four years of study for a degree, based on fourteen units of high school work; graduates of a professional school requiring three years of study for a degree; or twenty-four years of age and have spent five years in an industrial establishment in work requiring technical skill. They must be of good moral character and intellectual ability and must have a practical ability to use French books.

Dr. I. L. Kandel, 522 Fifth Avenue, New York, is secretary of the Society for American Field Service Fellowships for French Universities and is anxious to send further information about the this year's fellowships and an application blank to any Cornellians who may be interested.

## ALUMNI NOTES

'78 BME—Robert H. Treman recently attended the annual convention of the National Association of Hardware Jobbers held at Atlantic City, N. J. He retired this year from the presidency after having served for two years at the head of the organization.

'90 ME—Elbert C. Fisher is vice-president and general manager of the Wickes Boiler Company of Saginaw, Michigan. He has been very much interested in the activities of the American Society of Mechanical Engineers for some years, having been a member of the boiler code committee since 1913; he is at present one of the managers, his term expiring in 1922. He is also a member of the council of the American Boiler Manufacturers' Association.

'00—Walter Nuffort is financial executive for the National Beef Company and Roth & Company interests, operating a large chain of markets throughout New Jersey, Pennsylvania, New York, Connecticut, and Massachusetts. His business address is Metropolitan Building, Orange, N. J., and his residence address is 900 South Sixteenth Street, Newark, N. J.

'02 ME—Warren B. Flanders is an engineer in the marine department of the Westinghouse Electric and Manufacturing Company, Lester, Pa. He lives at 6043 Ellsworth Street, Philadelphia.

'02 CE—Charles H. Snyder has been appointed city engineer of Oswego, N. Y., with offices in the City Hall.

'04 AB—George H. Potter is with the Sprague Electric Works, 527 West Twenty-fourth Street, New York. He lives at 3 Lenox Avenue, East Orange, N. J.

'04—Hugh Jennings has resigned as manager of the Detroit American League Baseball Club. No plans have been made for filling his position.

'05 ME—A son, John Rodgers Dingle, was born on June 4 to Mr. and Mrs. Howard Dingle, 1773 Radnor Road, Cleveland Heights, Ohio. Dingle is president of the Dingle-Clark Company, contracting engineers, of Cleveland.

'05—Dr. William T. McCarty is coach of the cross country team at Harvard.

'06 ME—Ray D. Willets is now manager of the Sullivan Machinery Company's branch in Australia, with headquarters at Sydney. During 1919 and a part of 1920 he was stationed at Vladivostok, Siberia, where he was married last March to Miss Leah Talikovskaya.

'06 ME—James L. (Jack) Elwood is vice-president and general manager of

the United Motors Service, a division of the General Motors Corporation, furnishing a nation-wide electrical service to those interested in the use and maintenance of automobiles, trucks, and tractors equipped with Delco, Klaxon, and Remy starting, lighting, ignition, and signaling apparatus. In the four years since its inception, this company has been developed from an idea to an organization of one thousand persons in twenty-one direct branches, and in addition two hundred authorized service stations. Elwood is largely responsible for the idea and its development, and has been in charge during the entire four years. He lives at Apartment 9, 490 Seward Avenue, Detroit.

'07 CE—Charles W. Linsley is plant engineer for Long's Chocolate Works and the Oswego Candy Works, Oswego, N. Y.

'07 ME—Captain Chester J. Goodier has been transferred to the Aviation General Supply Depot, Little Rock, Ark.

'08 BSA, '10 MSA—Professor and Mrs. Maurice C. Burritt have a son, Maurice Buell Burritt, born on June 13; he is their third child. Professor Burritt is vice-director of extension at the New York State College of Agriculture.

'08 CE—Harry Kenoe has been appointed commissioner of works at Oswego, N. Y.

'08 CE—Roy Paulus is vice-president and manager of the Paulus-Ullman Printing Corporation; his address is 295 Lafayette Street, New York.

'09 ME—Robert M. DeGarmo is a special maintenance engineer with the Florida East Coast Railway. His address is Marathon, Florida.

'10 AB, '13 PhD—Harold E. Riegger has recently been promoted to general manager of sales with the Good Manufacturing Company, Inc., of New York, in charge of five trainers and fifty-five traveling salesmen covering the entire United States and Canada. He lives at 415 West 115th Street, New York.

'11 ME—Seymour H. Sutton is with the American Steel Foundries, Hammond, Ind.

'11 ME—Raymond P. Heath is rating engineer for Marsh & McLennan, New York. He lives at 16 Olyphant Park, Morristown, N. J. He has a son, Robert Harley Heath, born on March 27.

'11 ME—Mail for Francis C. Noon addressed in care of the Telluride Power Company, Provo, Utah, will be forwarded.

'13 ME—Robert E. Laley is manager of the Illinois branch of the National Workmen's Compensation Service

Bureau, 755 Insurance Exchange, 175 West Jackson Boulevard, Chicago.

'13 ME—Laurence C. Bowes is supervisor of stationary plants with the Chicago, Rock Island, and Pacific Railroad, Chicago, Ill.

'13 ME—A son, Edson, was born on September 12 to Mr. and Mrs. Ambrose Ryder, of New York. Ryder is with the National Workmen's Compensation Service Bureau, 13 Park Row, New York.

'14 BS—A daughter, Irene Simpson Alleman, was born on September 3 to Mr. and Mrs. Dudley Alleman, 5715 Callowhill Street, Pittsburgh. Alleman is assistant editor of *The National Stockman and Farmer*, an agricultural weekly with 170,000 circulation in Ohio, Pennsylvania, and West Virginia.

'14 ME—Philip J. Kent is an electrical engineer with the Willys Corporation, Elizabeth, N. J. He writes that the company will have an opening soon for a recent graduate to act as assistant electrical engineer and take charge of electrical laboratory work, and he would like to get in touch with a Cornell man living in the vicinity who would be interested in such a position.

'15 AB—Andrew L. Smith is with Johnson & Higgins, 49 Wall Street, New York.

'15 ME—Carl A. Philippi is an industrial engineer with C. E. Knoepfel & Company, Inc., of New York. His present address is Hotel Nelson, Rockford, Ill.

'15 AB—Stanley D. Chapin was married on August 31 to Miss Margaret Mather, of Buffalo, N. Y.

'15 BChem—Arthur A. Blue is metallurgist with the Duff Manufacturing Company, of Pittsburgh, in charge of heat treating and the laboratory. He lives at 103 Chestnut Street, Sewickley, Pa.

'15 BS—A son, Robert Thomas, was born on August 24 to Mr. and Mrs. Robert Davis Edwards, of Doylestown, Pa.

'16—Harry A. F. Eaton is with the Whaley-Eaton Service, 455 Munsey Building, Washington, D. C.

'16 AB—Alden C. Buttrick is with the Security Envelope Company, 2900 Fifth Avenue South, Minneapolis, Minn.

'16—George F. Bettcher has taken an apartment at The Buxton, 1221 Sherman Street, Denver, Colo. He is practicing architecture with his father at 607-609 Empire Building.

'16 ME—Laurence N. Siler has been appointed assistant to Lawrence E. Gowling '11, mechanical engineer for the Havana Electric Railway, Light and Power Company's new consolidated

power plant at Tallapiedra, Havana. He is living at Vedado, near the seashore.

'16 BS—Lewis R. Hart is field organizer and sales manager with the North American Fruit Exchange. His present address is 126 Linden Avenue, Ithaca, N. Y.

'16 BS—Mr. and Mrs. Gilbert M. Montgomery, of Glen Moore, Pa., announce the birth of their second son, William Woodrow Montgomery, 3d, on September 21. Montgomery is running a general dairy farm.

'17—The present address of Horace B. Macartney is in care of the Bull Insular Line, San Pedro de Macoris, Dominican Republic.

'17 LLB—George P. Heffernan, publicity counsel, is directing a campaign to build a \$1,000,000 stadium, to be called the Ohio Stadium, at Ohio State University, Columbus. His mail address is 666 Lexington Avenue, New York.

'17 BS, '19 DVM; '20—Announcement is made of the marriage of Morris Scherago and Miss Jane Stone on Sunday, September 5, at Syracuse, N. Y. Dr. Scherago is head of the department of pathology and bacteriology at the University of Kentucky. They are making their home at 307 East Maxwell Street, Lexington, Ky.

'17 BS—Miss Helen O. Kirkendall was married on September 22 to Eric J. Miller. They are living in Ithaca.

'17 AB—Mark H. Ingraham is an instructor in mathematics at the University of Wisconsin. He lives at 1004 West Washington Avenue, Madison, Wis.

'17—Mr. and Mrs. James M. Stoner, of Pittsburgh, Pa., have announced the engagement of their daughter, Margaret, to Edward K. Klingelhofer, of Beaver, Pa. Miss Stoner attended the Ward-Belmont College at Nashville, Tenn.

'17 AB—Donald L. Mallory is president of the H. Lee Mallory Company, Inc., makers of sweaters, scarfs, bathing suits, etc. His address is 648 St. Mark's Avenue, Brooklyn, N. Y.

'18 BS—Edgar L. Forrester and Miss Florence Catherine Duffy were married on August 31 at Malone, N. Y.

'18 BS—Thomas R. Wagner has severed his connection with the Cornell Wood Products Company. His present address is School Lane, Germantown, Philadelphia, Pa.

'18—Walter S. Hayes is with the United Lubricant Company, manufacturers of mill greases. His address is 5304 Sweeney Avenue, Cleveland, Ohio.

'18 ME—H. Willard Hubbell was married on September 18 to Miss Lydia Hellen Hanslein; they are at home at 5216 Morris Street, Philadelphia. Hub-

bell is in charge of the personnel department of the Leeds & Northrup Company, Germantown, Philadelphia.

'18 BS—Frederick H. Alfke is sales correspondent and chief clerk in the Denver sales office of the Beaver Board Companies. His address is 1334 Corona Street, Denver.

'18 ME—Leo Behr is studying for his doctor's degree at the University of Pennsylvania. He still maintains his connection with the Leeds & Northrup Company of Germantown, Philadelphia.

'18—LeRoy Ferris is a salesman with Hare's Motors Company of New England, 700 Commonwealth Avenue, Boston. His temporary address is 17 Ivy Street, Boston, and his permanent address is 4 Howard Avenue, White Plains, N. Y.

'18 BS—Austin W. W. Sand is an instructor in the department of floriculture of the College of Agriculture. His mail address is Box 16, College of Agriculture, Ithaca.

'18 LLB—Warren G. Willsey is employed in the group department of the Travelers Insurance Company, Hartford, Conn. He lives at 28 Charter Oak Road.

'18 BS; '19 BS—Miss Marcia Grimes and Charles George Seelbach were married on October 9 at the home of the bride's parents in Swarthmore, Pa. They will be at home after December 1 at 1163 Kensington Avenue, Buffalo, N. Y.

'19 CE—Announcement is made of the engagement of Miss M. C. Fleet, daughter of the late Mr. and Mrs. John P. Fleet, of East Neck, N. Y., to T. Fletcher Cochran, of East Orange, N. J. Miss Fleet is a graduate of Wellesley.

'19 BS—M. William Postman is production manager for the Postman Hat Company, 632 Broadway, New York, supervising personally the bleaching and dyeing of straw braid used in the manufacture of men's and children's straw hats. He lives at 941 Tiffany Street, New York.

'20 BChem—Allen B. Reed is a chemist at the plant of the Halcomb Steel Company, Syracuse, N. Y. He lives at 612 East Genesee Street.

'20 LLB—Francis L. Harris is associated with Adam, Childs, Bobb & Westcott, attorneys, 76 West Monroe Street, Chicago; he lives at 1356 Hyde Park Boulevard.

'20—Alexander Boudia is private secretary with the T. N. C. Motor Sales Company, Incorporated, of Watertown, N. Y., distributors of Cole motor cars. He lives at 129 Academy Street, Watertown.

'20 BChem—Chester A. Walworth is

with the Libbey-Owens Sheet Glass Company, Charlestown, W. Va.

'20 CE—Bernard J. Harrison is an engineer with the Cutler-Hammer Manufacturing Company. His address is 174 Thirteenth Street, Milwaukee, Wis.

'20—Joseph D. Edson is manager of the import department of Edson Brothers, 110 Dock Street, Philadelphia.

'20 ME—Walter A. Baer is an industrial service engineer with Thomas A. Edison, Inc., West Orange, N. J. His home address is 351 Fifth Avenue, Paterson, N. J.

'20 AB—Miss Alice Callahan is a clerk in the overseas department of the Guaranty Trust Company of New York, having served previously for two months on the company's emergency force. She lives at 174 Myrtle Avenue, West New Brighton, Staten Island.

'20 CE—Stanley J. Hungerford, of Clayton, N. Y., was married on September 22 to Miss Genora Mae Willecox, of

Cortland, N. Y. They are living in Clayton. Miss Willecox taught last year in the Ithaca Public Schools.

'20 BS—Miss Cora E. Cooke is an accountant, in charge of the office of the Detroit Baking Company. She lives at 198 West Bethune Street, Detroit.

'20 BS—Miss Mary H. Griffin is manager of the New York Telephone Company's cafeteria at 210 West Thirty-sixth Street, New York. She lives at 951 Church Street, Richmond Hill, Long Island.

## What's certainty worth to you?

What is it worth to you to be certain that the letter or data you need at a moment's notice are instantly forthcoming?

It's the business of the Baker-Vawter Company to make this certainty possible to you; our men know the best office practice.

Offices in 47 cities. Call one of us in.

Your machine bookkeeping system is not complete without current account trays. We make a very good one.

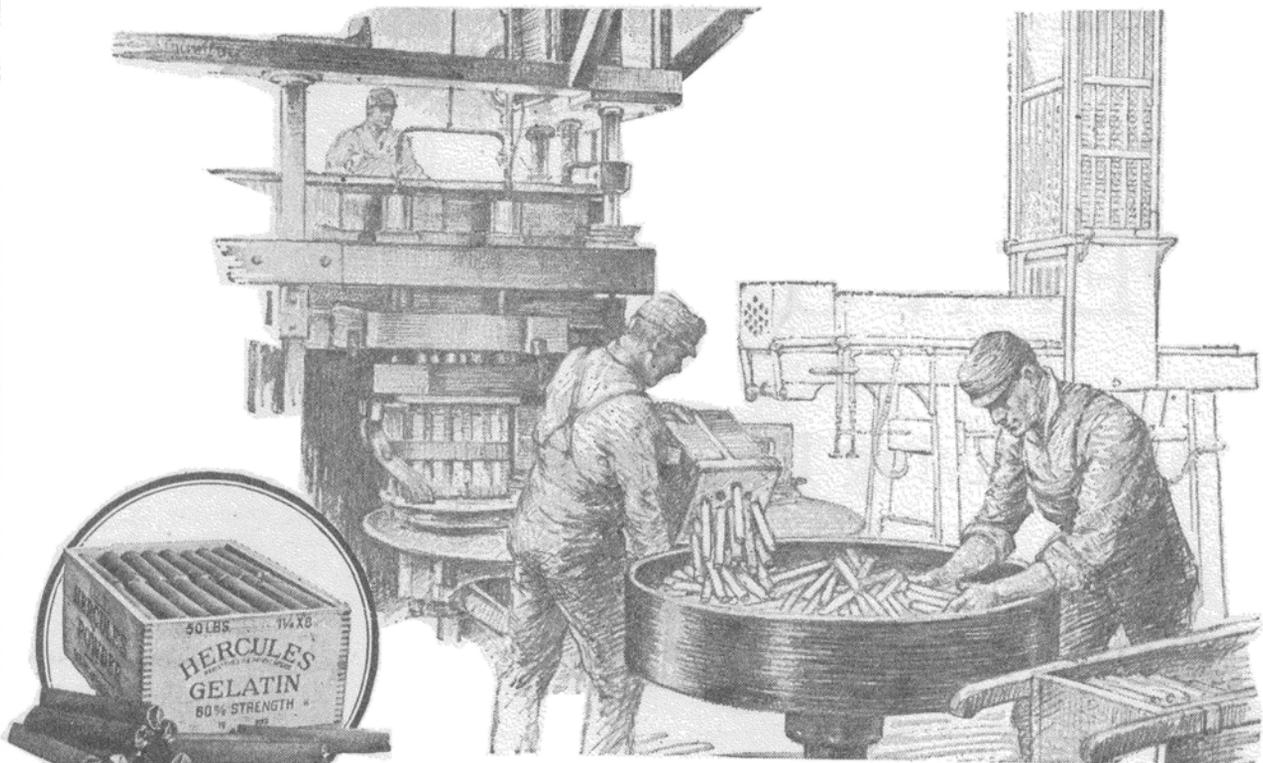

To facilitate deliveries we maintain production at these points:

Benton Harbor, Mich.  
San Francisco, Calif.  
Holyoke, Mass.  
Kansas City, Mo.

## It's the Man That Counts

The human element probably plays a more important part in the making of explosives than in any other manufacturing process conducted on a large scale. There are no machines in the twelve great Hercules plants that need only to be started at the beginning of a day, stopped at the end, and which in the meantime carry out their tasks without attention.

Every machine used in the making of Hercules Explosives has a man for its master. Every motion it makes is watched. The results of its work are carefully checked. Nothing is ever taken for granted. No machine is looked upon as infallible.

In the gelatin packing house, for example, is a large machine which fills paper cartridge with \*Hercules Gelatin Dynamite. Although this machine works with almost positive precision and accuracy, every cartridge which comes from it is inspected *twice* to make certain that it is properly packed. One inspection takes place immediately after the cartridge leaves the machine. Another before it is finally boxed for shipment.

The men who use Hercules Explosives know how dependable are the men who *make* Hercules Explosives. The Explosives themselves tell the story. Their power never fails those who seek its aid. In metal mine and stone quarry, at the bottoms of deep rivers and in the hearts of great mountains, where the engineer builds a city skyscraper and where the farmer blasts a ditch, Hercules Explosives live up to the name they bear.

## It's time to think of Christmas shopping

Those in Ithaca may not need to shop so far ahead unless they are shipping abroad but you get your choice from the larger collection. Our customers out of town should write us at once about Christmas things.

---

### Troy 1921 Calendar

We have not seen the new Troy calendar but Mr. Troy assures us that it is up to the usual standard and we can promise delivery by December the first. Why not send us your order now? The usual price of \$1.55 this year. We can mail the calendar for you.

### Concerning Cornell

Concerning Cornell has been a big seller. Those who read it wanted a copy for a present to a friend. December first the new edition will be ready. A slight increase in price is necessary, but the book has been rewritten.
