# CORNELL ALUMNI NEWS

Vol. XXIII, No. 22

Ithaca, N. Y., March 3, 1921

Price 12 Cents

A CONSTITUTION for the proposed honor system states that its purpose is to maintain a uniform high standard of honor among students, that the Faculty shall relinquish all control of examinations. Major stress is laid, in the document, on the organization of the honor committee, and there is nothing said about the penalties to be imposed for violation of the system. In the main, the constitution seems rather to aim at the maintenance of an honor sentiment rather than a rigid governmental machinery for maintaining an honor system. It requires ratification by three-fourths of the students, and by the Faculty.

CORNELL FORESTERS will issue another edition of the book known as "The Cornell Forester," the annual publication which had its initial printing last June. The club has elected the following officers: Albert S. Herzig '21, Brooklyn, president; Henry B. Bosworth '22, Buffalo, vice-president; John B. Hartnett '23, Buffalo, secretary; and Kenneth L. Roberts '23, Ithaca, treasurer.

THE BRITISH-AMERICAN CLUB still has hopes of getting Sir Auckland Geddes to come to Ithaca to address the club and its guests. He was scheduled for February 18, but was called back to England for a conference with Lloyd George at that time.

TO NORMAN P. BROWN '21, of Bernardsville, N. J., has been awarded the Lung Mow Trophy annually presented to the novice cross country runner who has shown most improvement in the preceding year. It was first awarded to Edward I. Tinkham '16, who is said to have carried the first American flag into action, and who died overseas while a member of the Naval Aviation Service. Brown is a member of the team which ran against Oxford and Cambridge. The trophy was given by Frederick W. Poate '04, and the Chinese words Lung Mow are said to mean "increasing prosperity."

FOUR MEN have been chosen by the Student Council to represent Cornell at the first intercollegiate conference on undergraduate activities and student government, to be held at the Massachusetts Institute of Technology on April 15 and 16. These are John C. Atwood, jr., '21, Ferguson, Mo., representing clubs and organizations; Stephen B. Horrell '21, Pasadena, Cal., representing the Student Council; Daniel B. Strickler

'22, Columbia, Pa., athletics; and Alan-son W. Willeox '22, Ithaca, publications.

THE FLYING CLUB has reorganized for the present term, with a talk by Professor Bedell as the main feature of the first meeting of the term. The Cornell Club is a charter member of the Intercollegiate Flying Association, and has started plans for the 1924 races.

TROUSERS FOR COEDS were furnished by a recent sale of army goods held in Ithaca. Olive drab riding breeches with woollen stockings are proving popular as parts of winter sports costumes for skiing and tobogganing. They are characterized as being more neat, appropriate, and modest than the costume that involves skirts.

THE ITHACA CONSERVATORY of Music has purchased the home of Dr. William Elliot Griffis, corner of E. Buffalo Street and Glen Place, adjoining the Conservatory property, and will remodel it for use as a women's dormitory.

THE SAGE CHAPEL CHOIR has a slight-ly changed appearance since the console of the organ has been moved from the side to the front to enable Professor Quarles to play and to lead the singers at the same time.

DEBATERS representing Cornell won from a team from the University of Virginia last Saturday in Philadelphia. The Cornell team consisted of C. F. Ostergren '21 of Brooklyn, and A. Benenson '22, of Napanoch. They upheld the negative side of the question, "Resolved, that the writ of injunction should not be applied to labor disputes." The next debate will be held at Ithaca on March 11, against Colgate.

FRANK L. MORSE, head of the Morse Chain Works, has just been elected president of the Ithaca Country Club. The club proposes to sell its property west of Triphammer Road, and eventually to build a new club house east of the thoroughfare. No change will be made this season.

GENEVA is making strenuous efforts to have the intercollegiate regatta held at the Seneca Lake city, since it has been announced that no observation train will be available at Poughkeepsie. Genevans say that the Pennsylvania Division of the New York Central Railroad will run an observation train along the water's-edge tracks that give an unimpeded view of the course. Furthermore, it is said that the course is superior to the Hudson course, in that it has no current and no

tide. Athletic authorities at Cornell think that there is not much chance for a change to Geneva.

LECTURES for the week include "Further Results of a Study of Plumarius" by Professor J. Chester Bradley and "Notes on the Present Gipsy Moth Situation" by C. F. W. Muesebeck before the Jugatae; "Poisonous Insects and the Poison of Insects" by Professor Oskar A. Johansen, A. M. '02, Ph. D. '04, under the auspices of the Cornell Section of the American Chemical Society; "The Future Relations of France with Germany" by M. l' Abbé Ernest Dimnet, professor of English literature at the Collège Stanislas, Paris; "From Gipsy Tent to Pulpit" by Gipsy Smith; "Niagara Falls Power Development," illustrated, by John L. Harper, vice-president and chief engineer of the Niagara Falls Power Company; and "The Age of Faith" by Professor George L. Burr '81 in the course on the history of civilization.

COURTNEY'S old training table house for varsity crews has been sold to Mrs. Mabel Almy Willis '00, to be used as a residence. This building, at the corner of State and Eddy Streets, was bought by the Athletic Association, and here the Old Man supervised the diet of his crews for more than a decade.

A SHUTTLE LINE car, coming from Cayuga Heights toward Thurston Avenue, on Saturday collided with an automobile at the corner of Wait and Wyckoff Avenues. Car and auto were badly damaged but no one was hurt.

LAY MEMBERS of the First Unitarian Church discussed present-day problems with the Reverend Frederick R. Griffin, Sage Chapel preacher, at a dinner at the Town and Gown Club last Saturday.

ICE is holding on Beebe Lake long enough to permit the completion of the schedule of interfraternity hockey games.

TWO FRESHMEN, Jerome W. Thompson, of Littleton, New Hampshire, and Joseph L. Block, of Chicago, have been elected associate editors of the *Sun*.

FRESHMAN DEBATERS are planning a contest with the first-year class of Colgate, and hope to arrange for a meeting in the latter part of March.

SPRING DAY plans are already being made by the committee in charge. As usual, the committee promises something new. The date is Saturday, May 21.

**Cleveland to Hold Convention**

**Alumni to Meet at Great Cornell Center on May 13 and 14. Committees Appointed from Most Active Workers.**

The Cleveland Convention, announced briefly last week, will be held in Cleveland on May 13 and 14. This is the first convention held under the section of the Associate Alumni by-laws adopted in 1916 and providing for an annual convention at some city outside of Ithaca. The original first convention, scheduled for Chicago in May, 1917, was postponed by America's entry into the war. Conditions since then have not been right for the holding of a convention.

The Statler Hotel is chosen as convention headquarters, the ballroom being reserved for Friday, the 13th, and the Oak Room for the business sessions.

The chairman, Harold D. North '07, has selected the following executive committee under his chairmanship: H. B. Bole, J. P. Harris, L. B. Timmerman, I. J. Kerr, H. N. Putnam, J. C. Sander-son, C. L. Bradley, W. H. Forbes, J. C. Barker, R. L. Rathbone, and E. S. Baker.

The chairmen of the various committees are as follows: finance, Bradley; speakers, Bole; convention business, Harris; attendance, Forbes; entertainment, Barker; publicity, North; registration, transportation, and hotel, Timmerman.

The executive committee will meet every Monday noon, while the special committees will meet regularly Mondays, Wednesdays, and Fridays at noon, all at the Statler.

The Cleveland papers estimate that from six hundred to one thousand alumni will attend the convention.

Details of the business of the convention will be developed in the course of the next week or two under the manipulation of these committees, selected from the most active workers of the club.

**TEN IN STATE COUNCILS**

At the request of the ALUMNI NEWS, Assemblyman George E. D. Brady '03 has compiled a list of Cornell men in the present New York State Legislature. The list shows three in the State Senate and seven in the Assembly.

The senators are Clayton R. Lusk, LL.B. '02, president pro tem.; Fred F. Pitcher, B.S. '88, chairman of the committee on banks; and Parton Swift, Ph.B. '98, chairman of the committee on military affairs.

Cornell members of the Assembly are Simon L. Adler, B.L. '89, majority

leader; Ernest E. Cole, LL.B. '95; Nelson W. Cheney, A.B. '99, chairman of the committee on banks; George E. D. Brady, A.B. '03, chairman of the committee on labor and industry; William Duke, jr., LL.B. '05, chairman of the committee on codes; Albert H. Henderson, LL.B. '14; and Charles M. Harrington, LL.B. '15.

**SPORT STUFF**

Apparently we're not going to have the same difficulty here with regard to observation trains that the stewards of the Poughkeepsie regatta are experiencing. The Lehigh Valley promises us (in writing—signed, sealed, and delivered) the usual observation train for Spring Day with open plumbing, hot and cold running stair cases, and everything. We have every reasonable assurance that the lake will still be there on May 21st and that the Yale and Princeton rowing men are going to make it just as difficult as possible for us to pull off a win. All of which makes it look like a big time.

Cornell men of ancient times are reminded that the grand old days are over when an old grad could stroll casually into Ithaca on the morning of Spring Day and then purchase a reserved seat in the king row. "Welcome" is still engraved on the door mat and on our hearts, but to be able to take care of you in the desired de luxe manner we ought to know you are coming two or three weeks in advance.

Unexpected victory dramatically achieved is a grand cure for all athletic ills. Down in Boston last Saturday the intensely loyal alumni of that place were a bit low in their minds—not without reason—about the immediate future of sport at Ithaca. A little later in the afternoon the track team terribly astonished itself by kicking through with a hair line victory over Harvard and Dartmouth. The outcome of the meet turned on the result of the last event—the relay race—which, close throughout, was won by the varsity by inches. During the progress of this race Mr. and Mrs. Boston and all the little Bostons stood on their chairs and threw their hats away very feverishly. At dinner the alumni were almost optimistic.

**To Study in Europe**

**Twenty Americans Will Receive Fellowships of \$1,000 for Work in Sweden, Denmark, and Norway.**

The American-Scandinavian Foundation has announced that twenty fellowships will be awarded this year to Americans for study in Sweden, Norway, and Denmark. Each fellowship is for \$1,000. Ten of these are for scientific study and research in Sweden; the Royal Institute of Technology in Stockholm will open its laboratories to the holders, where those who study metallurgy will have the advantage of personal contact with Dr. Hjalmar Lundbohm, director of operations in the great iron mountains at Kiruna, within the Arctic Circle. Svante Arrhenius, the discoverer of electrolytic dissociation, will direct the study of physical chemistry. The list of subjects to be studied in Sweden includes physics, physical chemistry, applied chemistry, hydro-electrical engineering, metallurgy, forestry, lumbering, and allied subjects.

Five of the fellowships are to be awarded for study in Denmark, where the subjects allowed are industrial organization, cooperative agriculture, agricultural sciences, bacteriology, chemistry, physics, folk high-schools, language, literature, and other humanities. Those who receive one of the five for study in Norway, if interested in hydro-electricity, will have an opportunity to go aboard a ship equipped for testing the temperature and oxygen content of water in certain fjords. Besides hydro-electricity, the subjects on the list for Norway are weather forecasting, oceanography, agricultural sciences, chemistry, physics, language, literature, and other humanities.

Applications for all twenty of these fellowships will be received by the American-Scandinavian Foundation at the office, 25 West Forty-fifth Street, New York, until April 1.

**CAMPAIGNS COMPARED**

Statistics on the endowment campaigns of Harvard, Princeton, Cornell, and the Massachusetts Institute of Technology compiled by the Cornelian Council show that Cornell is third in per cent of quota raised and per cent of the amount raised contributed by alumni, and first in the amount contributed by undergraduates.

Harvard's goal, originally \$10,000,000, was later raised to \$15,000,000, of which \$13,800,000, or 91 per cent was raised; Princeton set \$14,325,000 as its goal, of which \$8,262,000, or 59 per cent was realized; Cornell, with an original goal of \$5,000,000 which was later doubled, raised \$6,405,000, or 64 per cent of its

## ATHLETICS

### Wins Triangular Track Meet

The track team won a gratifying victory over Dartmouth and Harvard in an indoor meet at Mechanics Hall, Boston, last Saturday afternoon, scoring 36 1-5 points to 35 3-5 for the Green and 26 1-5 for the Crimson. It was the first indoor engagement that the team, or any of its members, have competed in this season, and considering the fact that track practice on a serious scale was organized only two weeks ago, the unexpected victory is highly pleasing. A year ago in a similar meet Cornell scored but twelve points and finished a poor third. Comparisons in athletic contests are frequently misleading, but it is obvious that the track team starts this season with better material than a year ago, though the ideal of a well balanced team, with strength in every event, has not yet been attained.

Victory for Cornell came through the impressive showing of the runners. A clean sweep in the 1,000-yard race, the first two places in the 600-yard run, and second and third in the mile contributed twenty-one points. The victory was clinched when the relay team defeated Dartmouth in the last event on the program. Dartmouth at this time was leading by one and two-fifths points. First place in this event counted five, and the Cornell quartet, composed of Righter, John, Carpenter, and H. H. Smith, proceeded to annex those five points after a hot struggle with the Green. Righter turned in a five-yard lead, John increased it, Carpenter barely held his own, but Smith, the anchor man, not only held it but drew away from Thompson of Dartmouth, the Olympic champion, in the last half lap, winning by some ten or twelve yards, and fighting off every sprint by the Dartmouth man.

Chapman of Cornell won the 600-yard run, leading all the way. Richman, of last year's freshman track team, and a varsity cross country runner, came in second after a spectacular sprint, forcing Doherty of Harvard to take third place.

The 1,000-yard run was won by Carter, cross country star, C. G. Irish, also of the cross country team, was second, and McDermott by a great sprint came up from behind and finished third. McDermott also secured second place in the mile run. He showed the way most of the distance, but was unable to fight off a great sprint by Captain O'Connell of Harvard in the final dash for the place. Dickinson, another Cornell harrier, was third. O'Connell, like McDermott, also entered the 1,000-yard

run, but, tired by his exertion in the previous race, had to drop out.

Cornell scored second in the 40-yard dash, Davison finishing second to Shelburne of Dartmouth. Davison also won third place in the 300-yard dash, which was won by Gourdin of Harvard with Chamberlain of Dartmouth second. In the 45-yard high hurdles Cornell was shut out, Thompson of Dartmouth, Whitney of Harvard, and Anderson of Dartmouth finishing in that order. The Red and White also failed to win a place in the broad jump, which was taken by Gourdin of Harvard with a leap of 23 feet 2 inches, Thompson of Dartmouth being second and Chun of Dartmouth third. In the pole vault, however, Gouinlock, with a vault of twelve feet, secured a second for Cornell, Harwood of Harvard winning at 12 feet 3 inches. Gouinlock had less than two weeks' practice in this event, and his showing is regarded as encouraging. R. Stevens of Cornell was one of five who tied for third place.

Brown of Dartmouth, who cleared 6 feet 2 3-8 inches, won the high jump, with Ramsey of Cornell and Goodell of Harvard tying for second at 5 feet 10 inches. Jewett of Cornell was third in the shot put, which Shelbourne of Dartmouth won. Lee of Dartmouth was second.

The Cornell freshmen failed to land in the 40-yard dash, but the freshman relay team from Ithaca, Waterman, Bernart, Hennings, and Crozier, won a fine victory with Dartmouth second and Harvard third.

### Wrestlers Worst

The wrestling team lost to Penn State, intercollegiate champions, by a score of 19 to 6 in a series of hard fought and sometimes exciting bouts in the Drill Hall Saturday night. A crowd estimated at between fifteen hundred and two thousand persons attended, testifying to the increasing interest in the mat sport on the hill. Penn State has won the intercollegiate championship for several years and so far she has lost but one bout this season. Cornell gave State the hardest fight of the year.

The visitors won five of the seven bouts, two by falls, three by decisions, while Cornell won two bouts on decisions. Most of the matches were close and there was not a great deal of choice. Decisions in the most part were given on relatively small time advantages.

Cornell bout winners were Roberts, 115-pound class, decision over Evans, and Wright, 175-pound class decision over Spangler of State.

Penn State winners were Watson, 115-pound class, decision over Ackery; Captain Detar, 135-pound class, decision over Grider, Cornell; Oehle, 145-pound

quota; and M. I. T., with a goal of \$4,000,000, raised \$8,154,000, or 204 per cent of its quota, which includes the gift of \$4,000,000 made by George Eastman.

Harvard alumni contributed 79 per cent of the amount raised, and alumni and students gave \$12,000,000; Princeton alumni contributed 46 per cent of the total and \$6,519,867 was given by alumni and students; Cornell graduates gave 54 per cent of the amount realized and graduates and undergraduates together gave \$5,373,818; and M. I. T. alumni raised 64 per cent of their total, alumni and undergraduates giving \$2,564,939. Undergraduates of the four institutions gave, respectively, Harvard \$12,000, Princeton \$151,187, Cornell \$900,000, and M. I. T. \$120,381.

The total number of subscriptions was: Harvard, 21,500; Princeton, 11,357; Cornell, 10,418; and M. I. T., 9,765. Of these, 1,327 Princeton undergraduates subscribed, 2,339 at Cornell, and 2,462 at M. I. T. The Harvard campaign continued 24 months; Princeton, 17 months; Cornell, 14 months; and M. I. T., 2 1-2 months.

The Cornellian Council announces that in the past two years the names of 16,018 Cornellians, or approximately 53 per cent of the entire alumni body of the University, have been on the subscription list either of the Semi-Centennial Endowment or of the Cornellian Council, or both. Although the total of \$6,405,000 mentioned above is given as the amount raised as a result of the actual Endowment Campaign, the Trustees have agreed to consider the amount of something over \$9,000,000 as the Semi-Centennial Endowment because that amount was actually subscribed to the University within the dates specified.

### SIX TEACHERS IN ONE TOWN

Teaching in one high school at Shamokin, Pennsylvania, are four Cornellians, one other is superintendent of schools in the city, and the musical director, Naomi Parker, attended two Cornell summer schools in music, according to Miss J. Kathryn Francis '16. Joseph Howerth '94 is superintendent of schools; Emma A. Miller '07 teaches French; Queen F. Selover '08 teaches English; Miss Francis teaches domestic science; and Olive Straub '16 teaches civics.

THE SAGE CHAPEL PREACHER for March 6 will be the Rev. Dr. Anson Phelps Stokes, for twenty-two years secretary of Yale University.

FRATERNITY RUSHING plans are likely to be modified next year as the result of serious discussion of defects in the present system, or lack of system.

class, fall over Clark of Cornell; Mowrer, 158-pound class, decision over McBride; heavyweight match, "Tiny" McMahon, 210 pounds in weight, 6 feet 7 inches tall, fall over Hanson.

### Wins Two, Loses One

The basketball season is drawing to a close. A return game with Syracuse at Syracuse Saturday, and league games with Columbia and Yale on the Drill Hall court next week will complete the schedule.

The team beat Columbia in New York last Friday night, by a score of 23 to 20, but lost to Rutgers at New Brunswick last Saturday night by a score of 32 to 26. Last Wednesday Marietta was defeated on the home court by a score of 27 to 23.

Although Columbia scored six field baskets to Cornell's five, excellent foul goal shooting by Sidman kept the Red and White in the lead practically all the time, and eventually won the game. Sidman caged ten foul goals out of sixteen attempts. Luther, a sophomore and a man of promise, who was substituted for Barkalew at left forward, was high scorer for Cornell, with two field baskets. Close guarding by the Cornell five, particularly in the final stages, proved a decisive factor. The line up and summary:

Cornell (23)	Columbia (20)
Barkalew -----	L.F.----- Johnson
Molinet -----	R.F.----- Tynan
Rippe -----	C.----- Watson
Cornish -----	L.G.----- Reilly
Sidman -----	R.G.----- Bulleyn

Goals from floor: Cornell, Luther 2, Molinet, Rippe, Sidman; Columbia, Johnson 2, Tynan 2, Watson, Bulleyn.

Goals from foul: Sidman 10 out of 16, Johnson 5 out of 13.

Substitutions: Cornell, Luther for Barkalew; Columbia, Bommer for Watson, Watson for Bulleyn, Bulleyn for Watson, Watson for Bommer, Bommer for Johnson, Johnson for Bulleyn.

### Basketball Freshmen Win

The freshman basketball team defeated Lafayette High School of Buffalo by a score of 37 to 19 on the Drill Hall court last Friday night.

### NORTHWEST PA. TO ORGANIZE

Cornellians of Northwestern Pennsylvania will meet at the University Club in Erie on Saturday, March 12, to organize an alumni association. The meeting will take the form of a dinner and smoker, with President Albert W. Smith '78 and Alumni Representative Foster M. Coffin '12 coming from Ithaca to assist in the organization.

Harold W. Taft '15 and Donald C. Miller '12 have been named temporary chairman and secretary respectively, and are in charge of arrangements. They plan to reach Cornellians in the coun-

ties of Erie, Warren, Venango, and Crawford, which contain well over a hundred alumni and other former students.

The University Club in Erie is at 254 West Sixth Street. The dinner will be held at 6.30.

### LARGE BUFFALO DINNER

Three hundred Cornellians, old and young, took possession of the ballroom and most of the lobby of the Hotel Statler in Buffalo on February 19. The occasion was the annual dinner of the Cornell Alumni Association of Western New York, and the men turned out in force. It was the largest attended club meeting held this year, surpassed in attendance only by the dinner of the Cornell Society of Engineers held in New York on January 21.

It was a full dress affair, and a dash of color was given to the conventional black and white of dinner clothes by broad sashes of carnelian draped across shirt fronts. The ballroom was decorated with Cornell banners and pennants, and each table sported at least one candlestick with a shade of Cornell red.

Entertainment was furnished by Robert W. ("Bob") Steel '21, of Glee Club fame, and to say he was received with wild acclaim puts it mildly. Harold E. Wethey '23, Steel's accompanist, gave material aid in bringing out the Caruso-like voice of the vocalist. W. Horace Whittmore '21 and William C. Roach '22, soft shoe dancers imported from the Masque, were called back again and again until they stopped from sheer exhaustion.

Hon. Cuthbert W. Pound '87, as toastmaster, was a great success. The Judge emphasized the desire of the banquet committee to make the affair as informal and "breezy" as possible, and this aim was borne out by the speakers of the evening.

Acting President Albert W. Smith '78 talked quietly and positively on subjects dear to Cornell men's hearts. Jack Moakley told his experiences and impressions of the trip to Roehampton with the cross country team.

Buffalo's sister organization was represented by Hamilton B. Bole '11, president of the Cornell Club of Cleveland. Bole told of the plans for the Associate Alumni convention to be held in Cleveland May 13 and 14, and enlisted the attendance of all in the audience.

An innovation of this year's banquet was the presence of the presidents of the alumni associations of Yale, Harvard, Princeton, Pennsylvania, Dartmouth, and Williams. As Toastmaster Pound introduced each man as a guest of the Cornell Association, cheers shook the ballroom walls.

New officers for the ensuing year were

chosen as follows: president, Parton Swift '98; vice-president, Nelson W. Cheney '99; secretary-treasurer, Ralph McCarty '96.

### WOMEN'S FORUM

There will be a meeting of the Cornell Women's Club of New York at the Women's University Club, 106 East 52d Street, Saturday, March 12, at 2.30 p. m. All Cornell women are cordially invited.

There will be an open forum for the discussion of the Federation of Cornell Women's Clubs. Everyone is invited to express herself.

### THE CLEVELAND SURVEY

Raymond Moley, director of the Cleveland Foundation, spoke before seventy-eight Cornellians at the weekly luncheon in Cleveland on February 24. Mr. Moley explained what the foundation is planning to do in its survey of the administration of justice in Cleveland. Dean Rosecoe Pound of the Harvard Law School will conduct the survey, and it is expected that on or about June 1 results will be published showing clearly in what manner the administration of justice has broken down in Cleveland. John H. Madden '07, of Buffalo, and William R. Culbertson '14, of Mount Vernon, Ohio, were guests at the luncheon and spoke.

### NORTHERN N. J. OFFICERS

At the annual banquet of the Cornell Club of Northern New Jersey held Friday, February 18, officers for the coming year were elected as follows: president, Andrew J. Whinery '10; vice-president, H. Ezra Eberhardt '08; secretary-treasurer, Donald B. Munsiek '15; executive committee: Kennington L. Thompson '00, William G. Mennen '08, Roderick K. Mackenzie '14, David M. Freudenthal '16, William R. Landmesser '17, Herbert A. Goertz '17, Arthur L. Stern '17.

### CHICAGO GOING STRONG

Chicago Cornellians are temporarily out of luck in that the remodeling of the Hamilton Club takes away their private room. The club has held successful luncheons every Thursday, and it has been decided to continue them in the main dining room for the present, without speakers. The attendance was large at the meeting last week.

### MILWAUKEE HEARS SCHURMAN

When former President Jacob Gould Schurman spoke in Milwaukee on February 21 under the auspices of the City Club, the Cornell alumni in that city filled a Cornell table. The Cornell Alumni Association of Milwaukee entertained Dr. Schurman at lunch at the

University Club, enjoying an informal visit with him.

Arrangements for regular weekly luncheons of Cornellians in Milwaukee have been completed, and it was expected that the first luncheon would be held on February 28.

**A CORNELL MILL**

What might be called a product of Cornell—the Central Colonos Sugar Mill in Cuba—started its first grinding season on January 21, 1921. Cornell men have been interested in the mill from the time the first plans were made and are now in charge of it. The president and general manager of the company is Manuel V. Cuervo '06, who has been prominent in the sugar business ever since he left Cornell. J. F. (Joe) Cuervo '18 has been in charge of the extensive railroad construction that has gone with the building of the mill; E. Ruiz Williams '06 is chief engineer; and F. Ponce de Leon '09 is construction manager.

The Central Colonos is in the southern part of the Province of Havana, just off the road that unites the city of Nueva Paz with that of Palos. It is considered one of the most modern mills in the island republic, being run entirely by its own electric plant of three 500-kilowatt turbo-generators imported from the United States.

The mill was built under many difficulties incident to the serious economic crisis in Cuba during the last six months; the final goal was reached under unfavorable financial conditions and trying circumstances. Work was started July 1, 1920, and the mill was completed in exactly six months, a record which, it is said, will long stand in the sugar cane industry.

MINOR SPORTS tickets are being too freely transferred from one person to another, according to the athletic office, for the good of the Association, and for the standing of an instrument which is bought as a non-transferable personal license.

LACROSSE starts practice with forty-five men signed for the squad, but with a dearth of old material. About ten games will be played, beginning with the Southern trip in about five weeks.

MASS MEETINGS of citizens held during the past week seem to indicate a fairly unanimous sentiment in favor of the acquisition of Renwick Park as a public playground for the city of Ithaca.

RENWICK HEIGHTS, a recent suburban development to the northeast of Percy Field, is discussing the advisability of petitioning for inclusion in the city limits.

**LITERARY REVIEW**

**The Chicago Grain Market**

*Speculation and the Chicago Board of Trade.* By James E. Boyle. New York. The Macmillan Company, 1920. 8vo, pp. xiv, 280. Price, \$2.50.

In this book Professor Boyle has given us a fair and impartial as well as comprehensive account of the Chicago Board of Trade, the largest grain market in the world, and an intelligent discussion of the two big problems connected with marketing, namely speculation and trading in futures.

By virtue of its location Chicago was destined to become a great market center. Four hundred million bushels of grain are received there annually.

The Chicago Board of Trade, whose corporate life began in 1859, is not, as such, a trader. Its members, acting as individuals only, trade in its hall. There were in 1919 1,617 members, of whom two-thirds lived in Chicago. One-fourth of the members are interested in the cash grain trade, another fourth in futures, another fourth are brokers who act merely as agents in pit (future) trading, and the remainder are a miscellaneous lot.

The trading room of the Exchange is a high-ceilinged room 144 by 161 feet. Along the east side are 52 tables for samples of cash grain, each table capable of accommodating four firms. To accommodate the future traders there are four circular pits with steps leading down to each—for wheat, corn, oats, and provisions. There are 100 telephones and 150 telegraph instruments. Blackboards display information about exports, prices at other exchanges, the visible supply of grain at important markets, grain movements, inspection, etc. A daily weather map and statistics of rainfall give other valuable data. Adjoining is a smoking room 64 by 72 feet.

On one day selected for study (August 25, 1919) 2,595 persons traded as principals; of these 1,083 bought or sold cash grain (1,830,000 bushels); 35 bought grain "to arrive" (108,000 bushels, to be shipped on a set day); and 1,476 bought or sold future contracts (36,686,000 bushels). The movement of wheat and oats for market was extra heavy, but the movement of corn was light. The cash grain was mostly wheat; the futures were mostly corn and oats, with a trifle of rye. The commissions for cash trading amounted to \$30,500; those for futures, to \$31,033.75.

The Chicago Board of Trade began the practice of selling by weight. Its weighing department now employs 150

persons, costs \$300,000 a year, and weighs annually about six hundred million bushels of grain.

Professor Boyle's study of the function of the grain exchange in general and of speculation and future trading in particular is decidedly illuminating, and his conclusions, backed up as they are by careful statistics, are convincing. He shows that trading in futures helps to give business certainty and stability. Along with hedging (offsetting purchases by sales and *vice versa*) it forms an effective kind of insurance. Concerning speculation, he shows that it cannot be affected by statute, as Germany's experience indicates; that legitimate speculation stabilizes prices near the supply and demand level; furnishes a wide and a continuous market; helps to shift the risks of trade upon the future market and thus acts as an indispensable safety-valve; and furnishes a stern enemy to monopoly. There are, however, two kinds of speculation, good and bad. It is bad when carried on by those who lack the means to stand losses, who have insufficient information, or who have the handling of trust funds. The exchanges themselves are best qualified to handle abuses. They should educate the public further about good and bad investments; member firms trading in futures should themselves be inspected like banks by Government officials; the Board of Trade as a body should undertake a definite program of reform which the author outlines. The evils of speculation, Professor Boyle is convinced, can be held in check. The economic usefulness of legitimate speculation should not be lost.

**Books and Magazine Articles**

"A Builder of the South" by Dr. George Tayloe Winston '74 is reviewed in *The Alumni Review* of the University of North Carolina for February.

In *Administration* for January "High Prices and Deflation" by Professor Edwin W. Kemmerer, Ph.D. '03, of Princeton, is reviewed by Professor Willard C. Fisher '88, of New York University.

"The Golden Parrot" by Frederick A. Fenger '07 recently appeared from the press of the Houghton Mifflin Company.

In *The Journal of Experimental Psychology* for October, recently issued, Professor Clarence E. Ferree, Ph.D. '10, Gertrude Rand (Mrs. Ferree) '08, and D. Buckley collaborate in an article called "A Study of Ocular Functions with Special Reference to the Lookout and Signal Service of the Navy."

*The Dial* for February includes a review of H. G. Wells's "The Outline of History" (Macmillan) by Hendrik W. Van Loon '05.

Published for the Associate Alumni of Cornell University by the Cornell Alumni News Publishing Company, Incorporated.

Published weekly during the college year and monthly during the summer; forty issues annually. Issue No. 1 is published the last Thursday of September. Weekly publication (numbered consecutively) continues through Commencement Week. Issue No. 40 is published in August and is followed by an index of the entire volume, which will be mailed on request.

Subscription price \$4.00 a year, payable in advance. Foreign postage 40 cents a year extra. Single copies twelve cents each.

Should a subscriber desire to discontinue his subscription, notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts, and orders should be made payable to Cornell Alumni News.

Correspondence should be addressed—

## UNITY RATHER THAN HARMONY

Among the subjects that we hope will get a thorough discussion and at least a semi-final decision at the Cleveland convention is that of alumni organization. We trust this can be done without unnecessarily unearthing the remains of that pet aversion of so many Cornellians, the amending of constitutions. This practice, once a favorite alumni pastime, was laid to rest about when alumni organizations began to take interest in service rather than form. *'Scat in pace*, in general.

To the extent that modifications of by-laws are necessary to produce unity, however, we cannot offer adequate opposition. We believe that each of Cornell's four general alumni organizations has a set of rules that is well fitted to its purpose. Scissors and a pot of paste, will suffice for the amendments almost as well as the services of an attorney.

Cornell's alumni organization is unique. It is a testimonial to those taking part in alumni activities that four major bodies, with no responsibilities toward one another, have worked together without friction for many years. But even without friction, there can be a loss of

power. Cooperation without joint action, and with divided responsibility, is conceivable, but at best it is clumsy.

The effect on interest in alumni affairs is marked. An alumnus must virtually decide whether he will be interested in class affairs, money raising, or alumni club affairs, all now wholly independent of one another. Each is in charge of a distinct organization which even reports to the others only as an act of courtesy. The women are worse off yet. They must also determine whether to go in for women's affairs or general affairs. Theoretically each alumnus is represented three times, each alumna four times, in general alumni bodies that come to decisions more or less interdependent, yet altogether independent of one another. It is a physical impossibility for any individual to be interested in Cornell alumni affairs as a whole. He must make his choice of organizations and stick to it or drop out.

What we need is a general organization of which these groups shall be integral parts; to which they are in general responsible; and for which they perform their specific tasks with comparative freedom of action in their own fields. Analogies from National and State governments are too obvious to require elaboration. The essential changes are in title. The presidents and secretaries would become chairmen and executive secretaries. The mechanism for the new body should be simple, and its functions largely those that are now general functions of the present independent bodies.

The allegiance of each Cornellian would necessarily be to the general alumni body of which there would be but one, rather than to the body whose function he prefers, of which there is a choice of at least four.

If the Cleveland convention is instrumental in furthering the project of bringing out unity where there is now merely lack of discord, it will more than justify the expenditure of energy and resources that the hostess city will put forth in the effort to make Cornell's first convention worth while.

## OBITUARY

Lloyd A. Wheeler '08

Lloyd Anthony Wheeler died on February 4 at East St. Louis, Ill.

He was born on August 22, 1882, the son of Mr. and Mrs. Arthur H. Wheeler, of Cuba, N. Y. He prepared at the Maplehurst Union School in Cuba, entering Cornell in 1905, and receiving the degree of D. V. M. in 1908. He was employed by the United States Bureau

of Animal Industry, and for many years was stationed at the stockyards.

He leaves a widow and five children.

Franklin W. Olin, Jr., '12

Franklin Walter Olin, jr., died suddenly at St. Bartholomew's Hospital in New York, on January 4, following an abdominal operation.

Olin was born on December 20, 1890, a son of Franklin W. Olin, C. E. '86, and Mrs. Olin, of Alton, Ill. He prepared at Cascadilla School, and entered Sibley College in 1908, receiving the degree of M. E. in 1912. He was a member of Kappa Sigma.

He had been associated with the Western Cartridge Company, of Alton, Ill., of which his father is president.

He leaves his parents and two brothers, John M. Olin, B. Chem. '13, who is with the Western Cartridge Company, and Spencer Olin '21, a senior in Sibley College, both of whom are also members of Kappa Sigma.

Ford P. Decker '19

Ford Payne Decker died of influenza on December 25, 1918, at his home near Elmira, N. Y.

Decker was born on July 3, 1897, at Wellsburg, N. Y., a son of Mr. and Mrs. Jacob Decker. He prepared at Elmira Free Academy, and entered Sibley College in 1915. He was inducted into the service in September, 1918, and was sent to Fort Monroe, as a range finder. While there he contracted influenza, and on December 20 he returned to his home, where he died on Christmas Day.

## FACULTY NOTES

PROFESSOR ROY G. BLAKEY, of the department of economics of the University of Minnesota and formerly of Cornell, has been appointed associate editor of *The National Municipal Review*, the official organ of the National Municipal league and the National Civic league. Professor Blakey will handle the *Review's* department of taxation and municipal finance.

DR. LOUISE ROPES LOOMIS, formerly warden of Sage College, has been appointed professor of history at Wells College, Aurora, N. Y.

PROFESSOR GRAHAM LUSK has been elected a corresponding member of the Société de Biologie of Paris.

PROFESSOR H. J. DAVENPORT, writing to *The Literary Digest* about the present business situation, says that the present conditions are a reaction; that conditions are near to bottom and likely to improve shortly, but that business recovery will not be great for two or three months. This view coincides pretty nearly with that expressed by twenty

professors of economics in other institutions.

PROFESSOR FREDERICK BEDELL has been made a member of the research committee of the American Institute of Electrical Engineers. He is also on the advisory board of the engineering division of the National Research Council.

PROFESSOR RALPH S. HOSMER took a prominent part in the deliberations of the annual meeting of the American Forestry Association in Washington last week.

PROFESSOR WILLIAM L. WESTERMANN will teach at the Harvard University Summer School.

MANY MEMBERS of the extension force of the College of Agriculture took part in the conference of Eastern States extension workers held at Springfield, Massachusetts, last week. Among the speakers was Mrs. Albert W. Smith, wife of the President, and New York State leader of home demonstration agents.

PROFESSOR HOLLIS E. DANN and Mrs. Dann left Ithaca last week for a Western tour before the beginning of the next session of the Summer School. They will study music-instruction methods in various colleges.

DR. BENJAMIN IDE WHEELER, president emeritus and professor of comparative philology at the University of California, will give his first course for students during the spring semester of next year. He will deal with the study of human speech, including the outlines of the science of language.

PROFESSOR C. F. TUCKER BROOKE, of Yale, formerly instructor in English at Cornell, has been advanced to a full professorship of English and assigned to the Graduate School. He has been at Yale since 1909.

PROFESSOR JAMES EWING will deliver the annual Alpha Omega Alpha address at the University of Minnesota on March 10, on "The Place of Pathological Anatomy in Modern Medicine."

PROFESSOR SAMUEL P. ORTH gave an address on current civic problems in Buffalo last week. Cornellians in Buffalo were specially invited to attend.

PROFESSOR HARRY P. WELD, of the Department of Psychology, is one of a committee of judges for the Thomas A. Edison Prize for research in the psychological effect of music. The competition is being conducted by the Carnegie Institute.

CORNELL is represented in the Harding Cabinet in Charles Evans Hughes, Secretary of State, who from 1891 to 1893 was a member of the Law Faculty.

## ALUMNI NOTES

'92 LLB; '19, '20 LLB—Judge Randall J. LeBoeuf has associated his son, Randall J. LeBoeuf, jr., with him in the practice of law, with offices at 31-33 State Street, Albany, N. Y.

'97 LLB—Francis M. Hugo, formerly secretary of state of New York, has become vice-president of the National Surety Company, 115 Broadway, New York.

'98 ME—Henry B. Brewster is with Brewster and Williams, Inc., consulting engineers, 613 Dillaye Building, Syracuse, N. Y.

'00 ME—Walter S. Ford, who has been with the Philadelphia Electric Company for the past two years, has resigned to take up teaching.

'01 AB, '02 AM—The address of Sao-Ke Alfred Sze, Chinese Minister to the United States, is The Chinese Legation, Washington, D. C.

'02 BArch—Richmond H. Shreve '02, William F. Lamb, and Theodore E. Blake will in the future be associated with Carrère and Hastings, architects, under the firm name of Carrère and Hastings, Architects, Shreve, Lamb, and Blake, Associated, with offices at 52 Vanderbilt Avenue, New York.

'05 AB—George C. Robertson is sanitary engineer with George E. Nolan and Company, 25 de Mayo 417, Montevideo, Uruguay. He is engaged in investigations for, and installing chlorination systems in connection with, the water supply of a number of South American cities. During the war he served many months with the A. E. F. in France, and after the Armistice spent a year with the Army of Occupation, having had practical charge of the purification of the entire water supply. He was discharged last May, with the rank of major.

'06 ME—Ralph C. Turner is general manager of the Canadian Link-Belt Company, Ltd., located at Toronto, Canada.

'06 AB—John J. (Wolfy) Wolfersperger is president and general manager of the Black Hawk Coal Company, with offices at 731 Cooper Building, Denver, and mines at Rugby, Colo.

'06 ME—Harold G. Stern is now with the Seattle Ice Cream Company, 2400 First Avenue, South, Seattle, Wash. He was formerly with the Air Reduction Sales Company.

'06, '07 ME—Mr. and Mrs. Frederick A. Fenger announce the birth of a son, on January 4 at Cohasset, Mass. "Fritz" is living on a small old New England farm which he has named the

Rum Gagger Farm, near Cohasset, engaged, not in agriculture, but in writing books. During the war, Fenger served in the Navy for twenty-two months, twenty of which were spent at sea, principally in the submarine zone.

'08 BArch—Giles M. Smith is a member of the firm of Bigelow and Wadsworth, architects, with offices at 3 Hamilton Place, Boston. He and Mrs. Smith (Louise B. Skidmore '08) are making their home in Cambridge, Mass.

'08—A daughter, Catharine Bush Lyon, was born on January 5 to Mr. and Mrs. Harold H. Lyon, 7 Hillside Avenue, Medford 55, Mass. Lyon is assistant sales manager of the Walter M. Lowney Company, of Boston, in charge of New England and New York State.

'08, '10 CE—William H. Hilborn is county highway engineer for Osceola County, Iowa, with headquarters at Sibley, Iowa. He has two sons, Edwin and Allen, Cornell 1937 and 1943, respectively.

'11 LLB—Nathan A. Propp has become a member of the firm of Morris A. Magner and Company, manufacturers of art needlework novelties, 7 East Seventeenth Street, New York. He continues his retail store at Tupper Lake.

'11 CE—Ralph S. Crossman is professor of civil engineering at Des Moines College, Des Moines, Iowa. He lives at 3415 Fourth Street.

'12 AB—William R. Berger is manager of the J. A. Berger Company, department store, Great Falls, Mont.

'12 AB—Miss H. Grace Delany is secretary and treasurer of the Motor Sales Corporation, distributors of Maxwell, Chalmers, and Stearns Knight cars for the State of Alabama. She lives at 1030 South Eighteenth Street, Birmingham, Ala.

'12 ME—Mrs. E. A. Dawson, of Cleveland, Ohio, has announced the engagement of her daughter, Mary Osborn Dawson, to John C. (Johnnie) Barker, son of Mrs. J. S. Barker, of Cleveland. Barker resigned on January 1 as assistant advertising manager of the White Company, and is now a partner in the firm of Benson, Gamble and Slaten, advertising service, located in the Cleveland office, 405 Caxton Building. His home address is 2112 Stearns Road. Miss Dawson is a sister of Horace L. Dawson '07 and Edwin S. Dawson '14.

'13 AB—Richard G. Kinscherf has been elected national treasurer of Alpha Chi Rho.

'13 CE—Lieut. Harry W. Hill is stationed at the Engineers' Reserve Depot, South Schenectady, New York.

'14 BS—Charles H. Ballou, who for the past three years has been located at Santiago de las Vegas, Cuba, returned

last December to Havana. He is chief inspector of nurseries and gardens with the Cuban Department of Agriculture, and lives at Calle 15 No. 470, Vedado, Havana.

'14—Roger B. Tewkesbury and Miss Helen Strong, a graduate of Smith College, were married on January 15 at the home of the bride's parents, Mr. and Mrs. Edwin L. Strong, 1862 East Ninety-seventh Street, Cleveland, Ohio. Mr. and Mrs. Tewkesbury will make their home at Gates Mills, Ohio.

'15 BS, '16 MS—A daughter, Ellen Timmerman Ries, was born on January 18 to Professor and Mrs. Victor H. Ries of Cedar Falls, Iowa. Ries is professor of botany at the Iowa State Teachers' College, Cedar Falls.

'15 CE—On June 15 W. Donald Clark left the employ of the H. Koppers Company, by-product coke plant erectors, to accept a position on the by-product coke plant of the Domestic Coke Corporation at Fairmount, W. Va., on the construction of which he had been engaged. He lives at the Elks Club in Fairmount.

'16 AB—William A. White, jr., is with Warmington, Timms and Company, food brokers, 105 Hudson Street, New York. He lives at 27 Argyle Road, Brooklyn.

'16 ME—Neil A. Gorman, who has been in China for the past four years for the Standard Oil Company of New York, will return to this country early in the spring. His home address is 139 Greenfield Street, Buffalo, N. Y.

'16 BS; '17 AB—Wallace S. Young and Miss Dorothy C. Maier were married on January 29 at Christ Episcopal Church, Glen Ridge, N. J. Raymond D. Young '21 was his brother's best man, and Miss Anna Marsh '18, of Brooklyn, was maid of honor. After March 15, Mr. and Mrs. Young will make their home in Waverly, N. Y.

'16 AB—Roland H. Hill is with the American Laboratories, Riela No. 2, Havana, Cuba. He and his wife and two sons are living at Calle 10, No. 76, Santiago de las Vegas, Cuba.

'16 BS—Mr. and Mrs. Edward E. Ludwig, of Wilkinsburg, Pa., announce the birth of their son, Edward Earl Ludwig II, on February 7.

'16-17 G; '17 BS—Henry Dietrich and Miss Alice Lucetta Stout, Vassar '16, daughter of Mr. and Mrs. Cicero F. Stout, of Olcott, N. Y., were married on December 29 and are living at Olcott. After graduating, Dietrich went to the University of California for graduate work and later entered the Government forestry service in California. He will now engage in fruit-growing and bee-keeping. He and Mrs. Dietrich were recently back attending

the week's course of lectures on bees and bee-keeping.

'17 AB—Philip W. Fitzpatrick expected to leave the end of February for a tour of the more important South American countries—Peru, Chile, Argentina, and Brazil,—the purpose of the trip being to consult with the managers of the offices of the Baldwin Locomotive Works in those countries. He will be gone about three months. Fitzpatrick is connected with the Philadelphia office of the Baldwin Locomotive Works.

'17 AB—Mr. and Mrs. Jesse L. Hooper, of Hampstead, Md., have announced the engagement of their daughter, Marion Lockard, to Tracy B. Augur, of Brooklyn. Augur is completing a graduate course in the Harvard School of Landscape Architecture, and has recently received the Toparian Club trophy which is awarded annually by the institution, the competition being on a problem in landscape design. His present address is 43 Irving Street, Cambridge, Mass.

'17 ME—Gustave D. Stahl is assistant superintendent of construction in the electric construction department of the Philadelphia Construction Company, with which firm he has been associated since his graduation. He was married in June, 1917, and lives at 4519 Chester Avenue, Philadelphia.

'17 BArch—James deG. Graves has recently returned from four months of travel in Europe, including England, France, Italy, Switzerland, Spain, and Holland, studying art and architecture, and is now in the office of Alfred C. Bossom, 680 Fifth Avenue, New York. He lives at 619 West 113th Street.

'17 ME—Mr. and Mrs. Melville A. Marsh, of New York, have announced the engagement of their daughter, Dorothy Kimball Marsh, to Henry W. Porter, of Brookline, Mass. Miss Marsh is a graduate of the Brearley School, and of Radcliffe College, class of '18. No date has been set for the wedding.

'18 BS—Stephen R. Farley is county agricultural agent for St. Lawrence County, N. Y., with headquarters at Canton, N. Y.

'18, '19 BChem—Philip L. Davidson is with the Carrier Engineering Company, of Boston, manufacturers of equipment for air condition in factories, mills, etc. The company's offices are at 176 Federal Street, Boston.

'18 BS—Morris L. Reitzes is factory representative of the James Manufacturing Company at Williamsport, Pa. His mail address is Post Office Box 257, Williamsport.

'18 BS, '20 MF—Perkins Coville is working on a lumber survey for J. D. Lacey & Company, forest engineers, of

New York, on two tracts of the Colonial Lumber Company at Kipewa, P. Q., Canada. He will spend three weeks on a tract of 179,000 acres, and a month on another tract of over 300,000 acres, finishing up about April 1. Samuel C. Sweeney, B. S. '18, M. F. '20, is with the same company doing the same type of work. Coville writes that two of the company men were well up north past the "balloonist country" for three months, returning the last of January. Mail for Coville and Sweeney should be addressed in care of J. D. Lacey & Company, 7 East Forty-second Street, New York. The Eastern manager of the company, located at the New York office, is Ernest A. Sterling, F. E. '02.

'18 AB—Mr. and Mrs. Clifford A. Stanton, of Utica, N. Y., announce the birth of a son on December 31.

'18 BS—Bartley Campbell is in charge of the production department of the Atlantic Refining Company's terminals at Port Lobos, Mexico. His mail address is La Atlantica, Apartado No. 483, Tampico, Mexico.

'19 AB—Mr. and Mrs. Emil Bonn have announced the marriage of their daughter, Madeline, to Lowell H. (Red) Cross, on December 18. Mr. and Mrs. Cross will be at home after April 1 at 114 North Sixth Street, Stroudsburg, Pa.

'19 AB—Frank Veith has transferred from the Columbia Law School to the Fordham Law School, and has entered the firm of A. & H. Veith, importers, 411 Fifth Avenue, New York. He lives at 9 West Ninety-fifth Street, New York.

'19 AB—Helene A. Gerber is office manager of Engel, Upmann & Company, New York. She lives at 102 Beach Street, Stapleton, Staten Island.

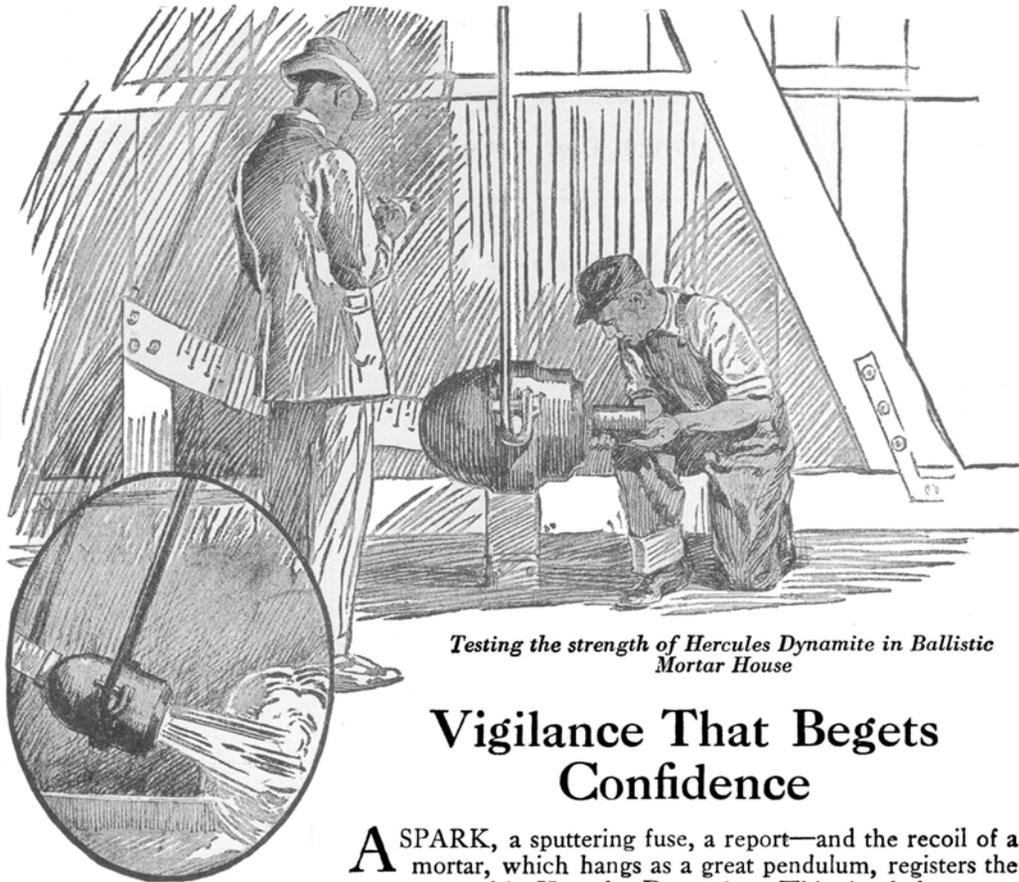

'19—James West Fuller has received permission to change his names to James West Fuller. He lives at 3 Garden Avenue, Ithaca.

'20 BS—Miss Martha E. Quick is teaching nature study and science in the Junior High School at Springfield, Mass. She lives at 19 Foster Street.

'20 PhD—Austin Bailey and Miss Leola Crawford, daughter of Mr. and Mrs. Wesley Crawford, were married on February 8 at the Brick Church, Bradevelt, N. J. Bailey is physicist with the Corning Glass Works, Corning, N. Y.

'20 ME—Howard G. Allen is an engineer and designer with the Philpott and Leuppie Company, of Niagara Falls, N. Y., manufacturers of wire stitching machinery for book binderies and the fibre box industry. He lives at 136 First Street, Niagara Falls.

'20 AB; '21—Colston E. Warné, of Ithaca, and Miss Frances L. Corbett,

*Testing the strength of Hercules Dynamite in Ballistic Mortar House*

## Vigilance That Begets Confidence

A SPARK, a sputtering fuse, a report—and the recoil of a mortar, which hangs as a great pendulum, registers the energy stored in Hercules Dynamite. This simple but accurate test is only one of many which are employed by the Hercules Powder Co. to maintain the unfailing high and uniform quality of Hercules Explosives.

Before it is finally accepted as ready for commercial use a Hercules Explosive, no matter what its nature, must pass almost as many examinations as a boy about to graduate from high school. It is due to this unflagging vigilance on the part of the men who make them that the products of the Hercules Powder Co. occupy the enviable position they do in the fields of sport and industry.

Among hunters and trap shooters, miners and quarrymen, engineers and contractors, Hercules Explosives enjoy a firmly established reputation for unusually high and uniform quality. This is the reason why they are called upon to perform so much of the work which can only be carried on efficiently and economically by the use of explosives.

# FATIMA

## CIGARETTES

TWENTY (20) for 25 cents

# “Keep clean *inside*”

“Scientists have found over 240 varieties of bacteria in the human intestine. They have estimated that the number of bacteria evacuated daily from the human system is one hundred and twenty trillion (120,000,000,000,000).”

“Though many of these bacteria are harmless and some even beneficial, there are a countless number which are capable of doing serious harm. If constipation exists, putrefaction follows, with the result that many hitherto harmless strains of bacteria become malignant and produce virulent poisons which are absorbed by the blood and carried to every body cell.

### *Dangers of Constipation*

“So constipation becomes the root-evil of many serious ailments. It means a continuous poisoning of the entire body, in time leading to high blood-pressure, arterio-sclerosis, liver, bladder and kidney diseases, etc.”

### *Physicians Prescribe Nujol*

To train the bowels to normal, healthy, daily evacuations most physicians recommend Nujol.

Nujol relieves constipation without any unpleasant or weakening effects. It does not upset the stomach, cause nausea or griping, nor interfere with the day’s work or play. Instead of irritating or forcing the system, Nujol simply softens the food waste. This enables the many tiny muscles in the walls of the intestines, contracting and expanding in their normal way, to squeeze the food waste along so that it passes naturally out of the system.

### *Prevents Constipation*

Nujol actually prevents constipation because it helps nature maintain easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world.

Nujol is absolutely harmless and pleasant to take. Try it.

# Nujol

REG. U.S. PAT. OFF.

## For Constipation

Nujol is sold by all druggists in sealed bottles only, bearing the Nujol trade mark.

Mail coupon for booklets “Constipation—Auto Intoxication in Adults” and “Constipation in Advanced Years”, to Nujol Laboratories, Standard Oil Co. (New Jersey), Room 715 C, 44 Beaver Street, New York. (In Canada, send to Nujol, 22 St. Francois Xavier Street, Montreal.)

# COLGATE'S "HANDY GRIP" The Refill Shaving Stick

*Like putting  
a new bulb  
in a socket*

**YOU** don't have to buy a new socket when your electric light burns out. You merely screw in a new bulb.

Putting a "Refill" Shaving Stick into the Colgate "Handy Grip" is just as simple and just as easy. The metal "Handy Grip" will last for years. Colgate "Refills" cost you the price of the soap alone.

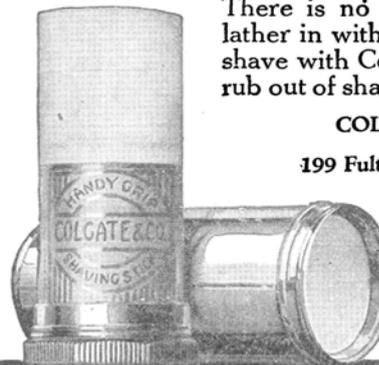

The soap itself is threaded to screw into the "Handy Grip," and the bit that is removed from the socket can be moistened and stuck upon the end of the "Refill." There is no waste.

There is no need of rubbing the lather in with the fingers when you shave with Colgate's. We took the rub out of shaving originally in 1903.

**COLGATE & CO.**

Dept. 212

199 Fulton St., New York

*The metal "Handy Grip," containing a trial size stick of Colgate's Shaving Soap, sent for 10c. When the trial stick is used up you can buy the Colgate "Refills," threaded to fit this Grip.*

## Why wait?

Others are receiving satisfactory service. You will find that there are some things you can buy cheaper or better at the Co-op. Books especially are a big item with us at this time of year. We publish an Agricultural and an Engineering booklist which are yours for the asking. "Concerning Cornell" is described in our Christmas booklet.

---

## Cross section papers

You may not be president of your firm, but your knowledge of the quality of Co-op. cross section paper may be worth money to the firm. Let us send you a sample book and you place it in the hands of the right person in the organization.
