STUDENT GOVERNMENT was radically changed by an overwhelming vote of a comparatively small number of voters when the constitution of the Student Council was amended to specify open nominations and elections of council members. The predicted result will be a development of student politics, which may become what Andrew D. White characterized as "a pinchback imitation of a pewter original," or a training in practical civics, according to the methods used by the students themselves. The change was mainly advocated by the Independents, who felt that under the old order they did not have sufficient representation.

ONE CHAMPIONSHIP, at least, rightfully belongs to Cornell this year as the result of the accurate shooting of the pistol squad of the field artillery unit of the Officers' Training Corps. The team recently turned the tables on Missouri, to which it had lost its first match of the season by a score of 915 to Missouri's 917. In a return match, the last one of the year, Cornell defeated Missouri by 968 to 927, and is thereby the undisputed leader of the United States, with victories over every opponent, including West Point.

AL-DJEBAR, chemistry society, has elected the following: Henry C. Howell '23, of Boonton, New Jersey; Elliott B. McConnell '23, of Warren, Pennsylvania; Alexander C. Morgan '23, of Highland Park, Illinois; George W. Snibbe, jr., '22, of Catonsville, Maryland; and William F. Stotz '22, of Crafton Station, Pennsylvania.

BETH L'AMÉD has elected Martyn Z. Bentley '22, of Youngstown, Ohio; Richard M. Burk '22, of Okmulgee, Oklahoma; Caesar A. Grasselli, 2d '23, of Cleveland, Ohio; and Hibbard Johnson '22, of Racine, Wisconsin.

THE ARTS ASSOCIATION has elected the following officers for next year: president, Emmet J. Murphy '22, of St. Paul, Minnesota; vice-president, Miss Olive E. Northup '22, of Ithaca; treasurer, Charles G. Irish '23, of Auburn; secretary, Miss Ruth A. Bateman '24, of Champlain; executive committee, Arthur B. Treman '23, of Ithaca, and T. C. Hennings, jr., '24, of St. Louis, Missouri.

THE MESSENGER PRIZE for the essay "giving evidence of the best research and the most fruitful thought in the field of human progress or the evolution of civilization" was won by Louis R.

Gottschalk '19, of Brooklyn, a graduate student, with a thesis on "The Development of Opposition to American Slavery and Disunion in England." The prize is \$250, and is a memorial to Luana A. Messenger, endowed in 1902 by Hiram J. Messenger '80.

JAMES A. SMYTH '23, of Corona, Long Island, won the '86 Memorial Prize for public speaking, with a discussion of "Science and the Humanities," in which he maintained that science was in the ascendant at this time, and that the two should be equal.

THE CORNELL FORESTERS held their annual outing last Saturday in the form of a boat-ride and woods-supper at Taughan-nock. Members of the Forestry Faculty and Professors Willard W. Rowlee '88 and Bristow Adams accompanied the club.

GLISTA ERNESTINE, the champion Holstein-Friesian cow developed by the College of Agriculture, has just completed her seventh record of thirty pounds of butter fat in seven days. She is the only cow in the world with such a record, the nearest of any breed showing only five such performances.

BARNES HALL is having trouble collecting the pledges for the Hoover-C. U. C. A. campaign of last winter.

THE ARCHITECTS' boat-ride this year was to Taughan-nock Falls on May 31. The College turned out with enthusiasm, Faculty members and undergraduates, the seniors having the highest percentage of attendance. A most enthusiastic ballgame was included in the festivities.

THE SAGE CHAPEL preacher for June 5 will be the Rev. Dr. Franklin C. Southworth, Unitarian, president of the Meadville, Pa., Theological School.

LECTURES for the week include "Baruch Spinoza" by Professor Thilly before the Menorah Society; "The Satisfactions of Poetry" by Professor Clark S. Northup '93 before the Wayside Aft-er-math Society; and "The Advent of Rationalism" by Professor George L. Burr '81 in the course on the history of civilization.

THE PHI DELTA THETA House on Cornell Heights is nearing completion, and is one of the prominent features of the Hill from the Lake. With the moving of the Phi Delta Thetas to their Spanish castle, Lambda Chi Alpha takes possession of the former house on Edgemoor

Lane, and Sigma Alpha Mu moves into the Lambda house on Stewart Avenue.

BIRD WALKS in the early mornings, conducted by Dr. Arthur A. Allen '07, and Louis Agassiz Fuertes '97, indicate that Ithaca has a numerous and varied bird population. More than sixty species may be seen on a single morning.

THE ORDER OF THE COIF, senior honorary society in the College of Law, has elected John W. Reavis '21, of Washington, D. C., and David L. Ullman '21, of Buffalo, to membership, on the basis of high scholastic records.

SIGMA KAPPA, national sorority, now has a chapter at Cornell. It was founded in 1874 at Colby College, and now has twenty-six active and fifteen alumnae chapters.

INDEPENDENT ASSOCIATION officers for next year include the following: president James H. Burke '22, Hartford, Conn.; vice-president, James S. Hays '22, New Rochelle; secretary, Julian L. Woodward '22, Chicago, Ill.; treasurer, Howard N. Francis '22, Syracuse.

CHEMISTRY STUDENTS have selected nine men to look after questions of student honor. These are: Andrew J. R. Helps '21, Upper Montclair, N. J.; William H. Rometsch, jr., '21, Philadelphia; John S. Fonda '22, Johnstown; Eugene L. Jewett '22, Fredonia; Alvin L. Satterthwaite '22, Stanton, Delaware; Samuel M. Blakemore '23, Louisville, Ky.; James B. Nichols '23, Danbury, Conn.; and D. Morse '24, West Roxbury, Massachusetts.

THE SIBLEY JOURNAL editorial staff for next year includes George M. Bishop '22, of Southampton, as editor; Richard A. Esterbrook '23, Cleveland, Ohio, business manager; Carleton V. Topcliffe '23, Port Byron, managing editor. Other members of the staff are H. H. Duryea '24, White Plains; Charles T. Morrow '23, Sugar Run, Pa.; J. Lendway '23, Buffalo; Frank A. Hoffman '24, Danbury, Conn.; Charles H. Alberding '23, Clayville.

ROGER B. WILLIAMS, Yale '68, has been appointed by the Trustees to represent Cornell at the inauguration of President Angell of Yale at New Haven on June 22.

LAW SMOKER speakers included Judge Rowland Davis '97 of the Appellate Court of New York, Professor C. Tracy Stagg '02, legal counselor to the Governor, and Dean Edwin H. Woodruff '88.

Commencement Program

Nine Classes Hold Reunions.—Learned Societies Give Dinner and Public Address.

The fifty-third Commencement festivities start on June 17, with the registration of members of all classes at reunion headquarters in the Old Armory. The classes of '71, '76, '81, '86, '90, '91, '96, '01, and '06 are to hold regular reunions; the bureau of information in the Old Armory will know where each has its headquarters. The board of directors of the Associate Alumni meets at 2 p. m. Friday in Barnes Hall and the annual meeting of the Federation of Cornell Women's Clubs is to be held in the recreation hall of Prudence Risley at the same time. At three o'clock the Alumni will play the varsity nine on Percy Field, and there will be a reception for alumni in Risley Hall from 4.30 to 6. The societies Phi Beta Kappa, Sigma Xi, Tau Beta Pi, and Phi Kappa Phi have dinner in Risley at 7, which is to be followed by a public meeting of all four societies in Bailey Hall at 9.

The program for Saturday, June 18, starts with simultaneous meetings of the board of directors of the Associate Alumni, in Barnes Hall, and the Association of Class Secretaries, in Goldwin Smith 142, at 9 o'clock. The annual meeting of the Cornellian Council is scheduled in Morrill 32 at 9.30, and at 10.30 the annual meeting of the Associate Alumni will be held in Barnes Hall auditorium. From one to two a buffet luncheon will be served to alumni in the Drill Hall. At three, the Pennsylvania-Cornell baseball game takes place on Percy Field. The various class dinners will be held under the management of the class secretaries at six o'clock Saturday evening, and will be followed by a general alumni rally in Bailey Hall at nine.

The baccalaureate sermon will be delivered by the Rev. Dr. John Kelman, minister of the Fifth Avenue Presbyterian Church in New York, who was formerly minister of St. George's United Free Church of Edinburgh, at 4 p. m. Sunday in Bailey Hall. Senior singing on the quadrangle will follow at seven.

Professor Quarles will give an organ recital in Bailey Hall at 11 Monday, and the Dean of Women, the Wardens, and the women of the graduating class will give a reception to the Faculty at Prudence Risley Hall from 4 to 6. It has not been definitely decided whether the Masque will give a Senior Week performance, but if it does, the presentation will be Monday evening at the Lyceum.

Class Day exercises will be held Tuesday morning at 11 in Bailey Hall, and the Musical Clubs will give a concert that evening in the same place. The

Trustees will meet Tuesday morning at 10.

Commencement will be held in Bailey Hall at 11 a. m., Wednesday, June 22, and the Senior Ball in the Old Armory that evening will bring the week to a close.

The President and Mrs. Smith will be at home to members of the graduating class and their guests on Wednesday afternoon from three until six o'clock, at 15 East Avenue. The President's reception to the graduating class was formerly a regular event of Commencement, but was given up about twelve years ago. It was the custom not to issue formal invitations, and none will be sent for the reception this year. The members of the Class of 1921 are asked to take the notice of the reception in the official Commencement program as a personal and cordial invitation.

President and Mrs. Smith announce also that they will be at home on Sunday evening, June 19, after the senior singing.

HONOR SOCIETIES' DAY

The Cornell chapters of the national honor societies of Phi Beta Kappa, Sigma Xi, Tau Beta Pi, and Phi Kappa Phi are to inaugurate during Commencement Week an Honor Societies Day. This day, although similar to the Phi Beta Kappa Day celebrated at other institutions, notably Harvard, will have a typically Cornell atmosphere by reason of its inclusion of the technical and scientific groups as well as the group representing the humanities.

The evening of June 17 has been set aside on the Commencement program for the joint meeting of the societies, the principal events being a dinner and an address.

All members of the four societies, both alumni and local, are invited to attend the meeting. Notices are to be sent to all society members in the classes holding reunions; but it is to be clearly understood that *all* members who may be in Ithaca at the time are urged to attend. The dinner will be open only to members of the four societies and their wives and husbands. The cost will be \$1.50 per plate, and those planning to attend are urged to write at once to Professor Roswell C. Gibbs for reservations.

The guest of honor at the dinner, who will address the chapters at the evening meeting, is to be the Hon. Sao-Ke Alfred Sze '01, Chinese minister to the United States. The choice of Mr. Sze as speaker at the first Honor Societies Day is especially significant as an evidence of Cornell's international service in the field of education.

Mr. Sze's address will be given in Bailey Hall and the public will be welcome.

Kimball Highly Honored

New Dean of Engineering Colleges is Only Nominee for President of A. S. M. E.

At the annual spring meeting of the American Society of Mechanical Engineers, in session at Chicago last week, Professor Dexter S. Kimball, dean of the College of Engineering, was nominated to be president of the society for the ensuing year. As it is the custom of the nominating committee to name only one candidate for any office, the nomination is virtually an election. Dean Kimball is the first man connected with Cornell to receive this honor since 1880, when the society was founded, and the late Dr. Robert H. Thurston, director of Sibley College, was elected its first president.

The society is a national organization with more than fifteen thousand members. It has forty-seven local sections and fifty-nine student branches and is one of the largest and most influential of the national engineering societies. It has headquarters in the Engineering Building at 29 West Thirty-ninth Street, New York City, which was Andrew Carnegie's gift to the national engineering societies of America.

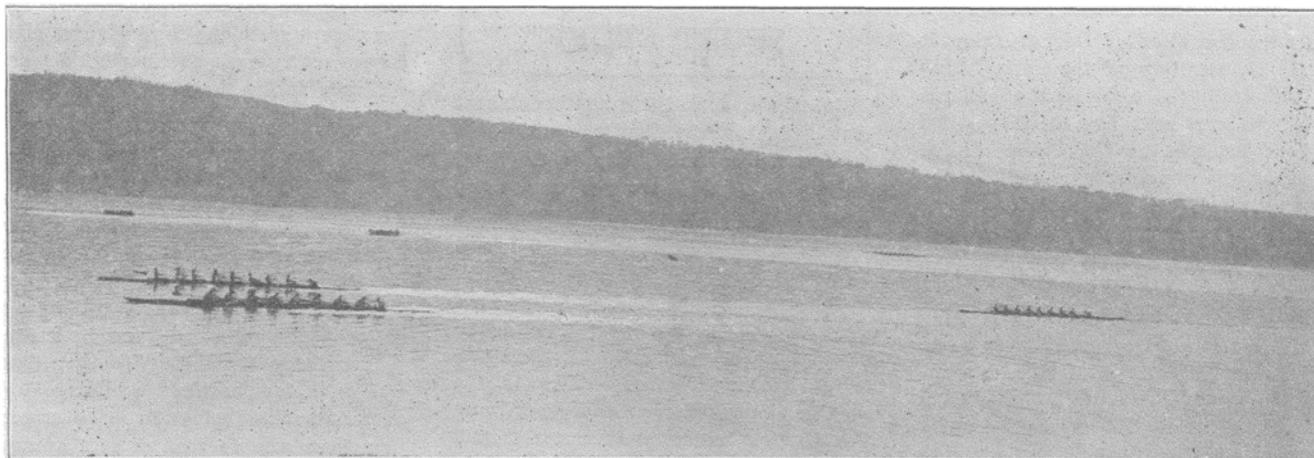

Dean Kimball has been a member of the council of the society for some time. His unexpired term will be filled by Walter S. Finlay, jr., '04. Two other Cornell men, Elbert C. Fisher '90 and Henry M. Norris '93, are also on the council. The presidency of this society carries with it membership in the council of the Federated American Engineering Societies, of which Dean Kimball is already a vice-president.

The College of Engineering is well represented also on the council of the American Society of Civil Engineers, five graduates in civil engineering, Willard Beahan '78, Anson Marston '89, Carleton Greene '91, John C. Hoyt '97, and Ira W. McConnell '97 being directors of the society. Charles D. Marx '78 was president of the society in 1912.

In the American Institute of Electrical Engineers, which is a younger association, Cornell is equally well represented. The present president is Arthur W. Berresford '93, and Harold B. Smith '91 is a member of the council. Bion J. Arnold, '88-9 Grad., and Dugald C. Jackson, '85 Grad., have been presidents of the Institute.

NEW YORK CLUB ELECTS

At the May meeting of the Board of Governors of the Cornell Club of New York, the board elected the following officers: president, Neal D. Becker '05; vice-presidents, Edwin N. Sanderson '87, J. DuPratt White '90, George W. Bacon '92, Walter C. Teagle '99, Jansen Noyes '10; secretary, Roy E. Fletcher

THE SPRING DAY CREW RACE

At the one-and-a-quarter—Princeton with its port stroke drawing away from the varsity eight. Yale is already behind.

Photo by J. P. Troy

'00; treasurer, Peter A. Clogher '04.

Anticipating the time when changes will be necessary, the Board of Governors has given much attention to the problem of securing for the club new and adequate headquarters. The following committee of the board was appointed to consider plans for a new club house: Charles H. Blair '98, chairman, Peter A. Clogher '04, Winthrop Taylor '07, and Jansen Noyes '10.

The new members of the board have been elected by the club as follows: To serve until May 1, 1922, Roy E. Fletcher '00 and William W. Pellett '01; to serve until May 1, 1924, Charles H. Blair '98; to serve until May 1, 1925, James H. Edwards '88, Ira W. McConnell '97, Winthrop Taylor '07, and Jansen Noyes '10.

The other members of the board include Bert Houghton '92, William F. Atkinson '95, Wilfred Wright '00, Peter A. Clogher '04, Neal D. Becker '05, Frederick W. Hackstaff '05, Robert E. Coulson '09, Oscar S. Tyson '11, and R. M. Triest '12.

The new Board of Governors at its organization meeting passed resolutions warmly commending the retiring president, Edwin N. Sanderson '87, for his excellent services in the presidency during the five-year period 1916-21.

STEFFENS IN DETROIT

At the Cornell luncheon in Detroit on May 26, Henry Steffens, city comptroller of Detroit, talked on the city budget.

NEW ENGLAND CAMPAIGN

The results of the membership campaign to build up the Cornell Club of New England showed that on May 20, twenty-three per cent of the Cornellians in New England were members of the club. Maine with seven members out of fourteen, or 50 per cent, stood well in the lead, with Rhode Island close behind with ten members out of twenty-five. The grand total is one hundred and twenty-

one members out of five hundred and twenty-five available Cornellians, and the campaign managers are confident of reaching the three hundred mark before July 30.

WELCOME TO PITTSBURGH

With the coming of the summer months formal luncheons of the Cornell Club of Pittsburgh have been discontinued, but a room will be regularly reserved at the Chamber of Commerce each Friday, where all Cornellians who may be in Pittsburgh will be welcome.

ST. LOUIS'S CUP

June 3 will be Cornell Day in St. Louis. In accordance with its annual custom the Cornell Club will present the "Cornell Cup" on that day to the high school winning the interscholastic track meet, and the plans call for a general Cornell celebration, with moving pictures and lantern slides to supplement the Cornell

BASEBALL ALUMNI MEET

The annual meeting of the Cornell Alumni Baseball Association will be held at the office of the Athletic Association in Ithaca on June 18 at 11 a. m. The Alumni-Varsity game will be played on June 17 and the Cornell-Penn game on June 18. All former varsity baseball men and managers are life members of this Association, and are urged to attend the annual meeting.

Spring Day crowds, which included professors, undergraduates, and visitors, thronged the upper level of Schoellkopf Field.

Photo by J. P. Troy

CLUB SECRETARIES MEET

At the invitation of Doctor Irvine J. Kerr '91, secretary of the Cornell Club of Cleveland, the secretaries of alumni clubs who were attending the Convention met at luncheon at the Statler Hotel. Some of the clubs were represented by past secretaries or other members where the present secretary was not in attendance at the Convention, making fifteen men in all.

The principal purpose of the meeting was to consider the advisability of forming a closer association of club secretaries, the present organization consisting of a committee of club secretaries under the chairmanship of Dr. Kerr, who was appointed by the president of the Associate Alumni. The discussion of the subject was interesting and varying, some feeling that a more definite association would be of constructive value, while others felt that the present method of organization, with the assistance of the Alumni Representative at Ithaca, would serve all practical purposes. As a result of the discussion the following resolution was offered and approved by all present:

Resolved, that it is the sense of this meeting that the committee of alumni club secretaries be continued, its chairman to be appointed by the president of the Associate Alumni, and the secretary to be the Alumni Representative at Ithaca.

A copy of this resolution was ordered to be forwarded to the president of the Associate Alumni for his guidance at the next regular meeting at Ithaca in June.

SENIOR SOCIETY CORRECTIONS

In the lists of initiates into the senior societies in our issue of May 12, we gave the fraternity to which Pickens Johnson belongs as Pi Kappa Alpha; it should have been Theta Delta Chi. Herbert Richard Reif is also given erroneously as manager of freshman football, whereas his sport is baseball.

COUNCIL TO MEET

The Cornellian Council will hold its annual meeting in Morrill 32 at 9.30 o'clock on June 18. Owing to the comprehensive plans of the Council for next year, unusual importance is attached to this meeting. At this time, class representatives on the Cornellian Council will discuss ways and means of stimulating the payment of Endowment subscriptions, as well as plans for future work among Cornellians throughout the country. The Council will also discuss the advisability of sending an appeal to subscribers asking them whenever possible, if they have made subscriptions extending over a period of years, to anticipate their payment dates, in order that the University may benefit immediately from the amounts pledged.

SPORT STUFF

On another page is the bad news about seats for the observation train at Poughkeepsie and the method to be employed in distributing the same. Before shooting the organist, sit down and figure out a better way of getting a gallon out of a pint.

Games for the present year are about over. Nothing remains except the Alumni baseball game on June 17, the Pennsylvania game at Ithaca on June 18, the regatta at Poughkeepsie on June 22, and the Oxford-Cambridge-Princeton-Cornell track meet at Traver's Island on July 27, 28, or 29.

The principal subject of conversation among the sportsmen of other colleges gathered for the Intercollegiate at Cambridge on May 28 was the Cornell alumni of Boston. Some said there were ten thousand of them and others that there were only four or five hundred; but all had had a shot in the arm or something. No one could stick his head out of the window anywhere without seeing a bus load or two of them telling the world about it. It was a grand party.

R. B.

SCHOLARSHIP AND EMINENCE

A notable article on "Scholarship and Eminence in Engineering" by Professor Raymond Walters, of Lehigh, appeared in the *Bulletin* of the Society for the Promotion of Engineering Education for April. It records the results of a study of the scholastic training of a group of eminent engineers, a study begun in 1913 and made possible by the cooperation of seventy-five technical schools, colleges, and universities.

The list of 730 eminent engineers was made up from the lists of officers, standing committeemen, or representatives of the four big societies, the American Society of Civil Engineers, the American Society of Mechanical Engineers, the American Institute of Electrical Engineers, and the American Institute of Mining and Metallurgical Engineers, during 1915-19. Of these 580 were college graduates, 35 were non-graduates, and 115 had secondary school training only. The senior class standing of 392 of these were determined and compiled.

Of the 730, 315 are found in "Who's Who in America"; of the 315, 85.4 per cent are college graduates. "The chances of engineering eminence would appear to be about eleven times as great for the collegiate graduate as for the non-graduate."

It was found possible to obtain the exact class standings of 352 of the 730. Of these, 45.7 per cent were in the highest fifth of their classes; 27.5 per cent

were in the second highest fifth; 18.4 per cent were in the third highest fifth; 3.9 per cent were in the fourth fifth; and 4.2 were in the lowest fifth. That is, 73.2 per cent of these men were in the first two-fifths, and only one in twenty-five was graduated with low rank.

The conclusion is (1) that graduates have a much greater likelihood of success than those who begin but do not complete college courses; (2) that those who rank high in their courses have a better likelihood of engineering success than average students; (3) that those who rank low in their studies have a poorer likelihood of engineering success than those who do good or even average work.

FRENCH EXCHANGE PROFESSOR

Professor J. Cavalier, rector of the University of Toulouse, has been appointed French exchange professor in America for 1921-22 and will divide his time about equally among the seven institutions cooperating in the enterprise, Columbia, Harvard, Johns Hopkins, Massachusetts Institute of Technology, Yale, Pennsylvania, and Cornell. His subject is metallurgical chemistry.

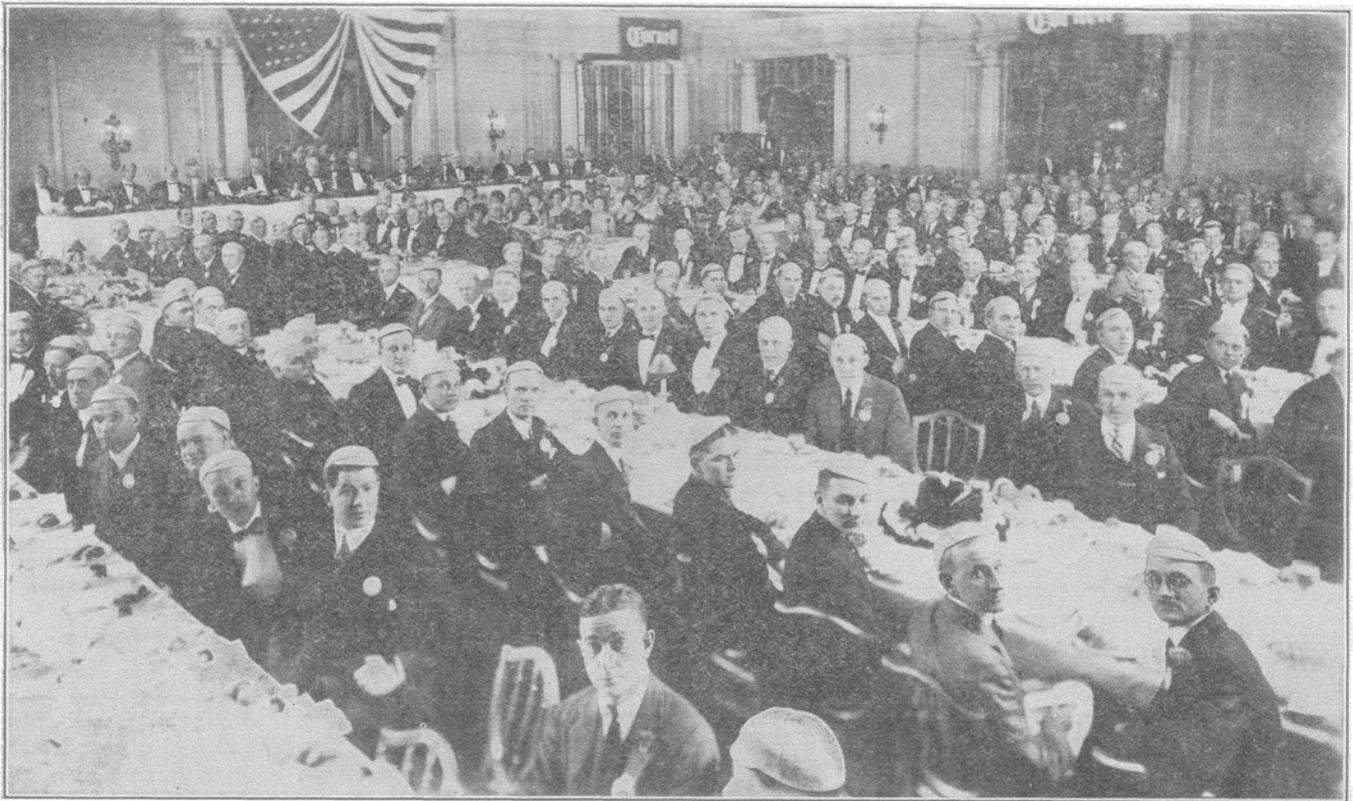

Professor Arthur E. Kennelly, of the department of electrical engineering at Harvard and the Institute of Technology, will be American exchange professor in France for 1921-2.

THE AMERICAN UNIVERSITY UNION

College and university students and alumni who are planning for study abroad need perhaps to be reminded of the facilities afforded by the American University Union in Europe, which is now a permanent institution, with London headquarters at 50 Russell Square, W. C., and Paris headquarters at 1 Rue de Fleurus. These facilities are described in two pamphlets which the Union has lately published (Peace Series 2 and 3, January and April), which any student interested may procure from the secretary of the Union, Professor John W. Cunliffe, Columbia University, New York.

The Paris home of the Union has been moved from the Royal Palace Hotel, which was admirably adapted to the war work of the Union, to a place at the main west entrance to the Luxembourg Gardens, five minutes from the Sorbonne. The office has been equipped with a series of documents touching on a wide range of matters pertaining to education in France and America; there is also a well equipped study-room, a small but useful library, and other rooms large enough for lectures, receptions, or dances to accommodate nearly two hundred persons.

"Since the signing of the Peace Treaty, a great many Frenchmen have been

THE CLEVELAND CONVENTION BANQUET

deeply grieved and disillusioned by what they have interpreted as the sudden and inexplicable lack of interest of Americans toward France. The feverish return of the American Army, the rapid liquidation of American war charities in France, and the failure to ratify the Treaty of Versailles contributed to create and foster this sentiment. The Union, however, has stood as a living refutation of this fear that Americans have lost interest in France, or that we do not desire the most complete and cordial cooperation. The value of the Union in this good work of international understanding cannot be overemphasized."

The British headquarters has likewise been of immense use as a social center and international clearing house for information and advice.

The director of the Continental Division is Professor Earle B. Babcock, lately of New York University. The director of the British Division is Dr. George E. McLean, formerly president of the State University of Iowa.

CORNELL AT ANTIOCH

Cornell men are to have a part in the new "Antioch Plan" of education which takes effect at Antioch College, Yellow Springs, Ohio, next September. Dr. Frank C. Caldwell '90, professor of electrical engineering at Ohio State University, is a member of the board of trustees, and Hendrik W. van Loon '05 is to be professor of social sciences.

"The Antioch Plan" is the result of

a survey by the trustees of Antioch College of the present state of the American college. The outstanding features of the new plan are given in the announcement as coordination of technical and cultural education; mastery of a calling by alternate work and study; and training for administrative ability and management. The aim is to unite the fundamentals of a cultural education with those of a professional or technical education. Half of the professional or technical student's time is spent at school and the other half at practical work in industries near by. A factory building is planned on the campus in which will be located a number of small industries where students will be engaged.

Approximately half of the class-room time of technical and professional students will be given to cultural subjects, and the conventional liberal arts curriculum has been revised to accord with the underlying purpose of the Antioch Plan. Of the other half of the class-room time, about two-thirds will be given to general preparation for management and administration, and about one-third to training for the particular vocation. Most of the training will thus be received through practice during the working periods.

Antioch will not offer highly specialized courses in any occupation; the aim is to make generalists rather than specialists, and to have these well grounded in the technique of responsible control

and management. Six degrees are contemplated: Bachelor of Arts; Bachelor of Science; Bachelor of Industry; Master of Arts; Master of Science; Master of Industry.

INTERCOLLEGIATE NOTES

THE UNIVERSITY of Minnesota has received a State appropriation of \$3,000,000 for the year. The total amount asked for originally for the present emergency and for 1921-3 was \$9,897,655; the amount at first allowed was only \$5,547,213, but in the light of the strong protest made this was raised to \$6,547,213. The *Alumni Weekly* says: "We do not mean to say that economy will not be necessary under the appropriations granted; rather far-reaching economies, in fact, will be demanded. But the institution at least is saved from those measures of destruction that masquerade only to the thoughtless as economies."

YALE will hereafter give free tuition to self-supporting students who maintain an average grade of 90 or better on a scale of 100. Students who do not attain the grade of 90 will nevertheless be helped in proportion to their standings. In connection with such awards the character of the applicant and the degree of his need will be considered.

AT MINNESOTA the honor system has been indefinitely discontinued, by a vote of the Students' Council, in view of the discovery of a large number of cases of fraud in the last semester examinations.

Published for the Associate Alumni of Cornell University by the Cornell Alumni News Publishing Company, Incorporated.

Published weekly during the college year and monthly during the summer; forty issues annually. Issue No. 1 is published the last Thursday of September. Weekly publication (numbered consecutively) continues through Commencement Week. Issue No. 40 is published in August and is followed by an index of the entire volume, which will be mailed on request.

Subscription price \$4.00 a year, payable in advance. Foreign postage 40 cents a year extra. Single copies twelve cents each.

Should a subscriber desire to discontinue his subscription, notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts, and orders should be made payable to Cornell Alumni News.

Correspondence should be addressed—

Ithaca, N. Y., June 2, 1921

THE LAW SCHOOL PAUSES

It is a testimony to the human qualities of the Law School that its exercises of all kinds should be suspended and the officers and students should turn out in a body to the funeral of Lawrence Powers, rated as janitor on the official register, but actually custodian and almost *in loco parentis*. One would be led to observe that this University is not a thing of bricks and mortar, but that it has a heart.

And yet the suspended Law School exercises had scarcely been reconvened when the University gave a demonstration of that bricks-and-mortar disposition, that reverence for its calendar, that lets us wonder if, after all, the heart was not just that of Dean Woodruff and his few scores of law students.

There is no sacred duty that impels Cornell University to begin instruction on a certain Monday in the fall, to have a certain fourteen days at Christmas time or six days for an Easter vacation that usually does not include Easter. Neither is there any compulsion to end instruction on a certain Monday in June nor

to hold Commencement on a Wednesday.

But there is a sacred duty toward the few feeble men who in their youth held our country united sixty years ago, toward the thousands who gave their lives only a few days since to show that nations shall not secede from the human race, and toward a country already materialistic enough, which must look to its universities to cherish those few institutions of a spiritual nature that we acknowledge as an inheritance from the past.

TO SANDY, EX-PRESIDENT

The strength and development of the Cornell Club of New York are of interest to something more than the few thousand Cornellians who happen to reside in the vicinity of Greater New York. It is clearly for the best interests of the University that a representative alumni organization, with a club house adequate for all needs, should be maintained in New York to represent Cornell and to serve as headquarters for the thousands of Cornell men who each year, from all parts of the world, find their way to the metropolis.

Keenly alive to their responsibilities and opportunities, the governors of the club are giving earnest consideration to the acquisition of a new club house. They are carrying out the project that was so near to the heart of their retiring president, Edwin N. Sanderson '87. Mr. Sanderson resigned on April 30 after serving five years, the longest term of office of any president the club has had, exceeding by a year that of Walter C. Kerr '79, who in 1895 completed four years of service.

Each year Mr. Sanderson has been reelected, on the increasing insistence of the club members but over his vigorous personal protest. When he took control in 1916, the organization had just emerged from the doldrums through the successful administration of John H. Barr '89. Mr. Sanderson has increased the membership more than fifty per cent, has put the organization on a sound financial basis, and has paved the way for the bright future which the club must enjoy. Alumni everywhere may well do him honor as he retires from the active leadership of this labor of love of incalculable value to Cornell.

OBITUARY

Lelia B. Palmer '76

Lelia Belinda Palmer died of pneumonia on May 6, at her home in North Bridgewater, N. Y., after a short illness.

Miss Palmer entered Cornell in 1872 in the course in science, and was graduated B.S. in 1876. Upon graduation she was a teacher in the West Hill School of

Ithaca, later in Pennsylvania and Iowa, and for a number of years in her home town. She also spent twenty years as teacher of biology in the Utica Free Academy, resigning that position about four years ago, when she returned to her home.

Her summers were spent in travel and study both in Europe and the United States. She was a frequent visitor at Cornell.

Miss Palmer was a member of the New Century Club of Utica, and the Art Club of Bridgewater, and was active in the movement for woman suffrage.

She leaves a sister, Mrs. R. T. Stanton (Nettie A. Palmer '80), of North Bridgewater.

E. B.

Harold G. Weidenthal '13

Harold George Weidenthal died on April 13 in Cleveland, Ohio.

He was born in Cleveland on March 16, 1891, and was educated in the public schools; he was graduated from the Lincoln High School in 1909, and entered Cornell in the fall of that year, receiving the degree of M. E. in 1913. He played on the varsity football team in his senior year.

During vacations he worked for the Brown Hoisting Machinery Company, the Walworth Run Foundry, the Canton Rolling Mills, and the Upson Nut Company. For a short time after his graduation he was an apprentice in the rail mill of the National Tube Company of Cleveland; then he became open-hearth foreman for the Lorain Steel Company, of Lorain, Ohio. In 1914 he became associated with the Upson Nut Company, of Cleveland, as metallurgical engineer, leaving in 1915 to take charge of the steel plant of the John A. Crowley Company, of Detroit. The next year he joined the Standard Chemical Company, of Cannonsburg, Pa., as metallurgical engineer, and in 1917 was made works manager of the General Steel Company, of Milwaukee, holding this position until 1918, when he resigned to become associated with James H. Herron, of Cleveland, as vice-president and chief metallurgical engineer with the James H. Herron Company, metallurgical, chemical, testing, and inspecting engineers. He left this position in 1920 to engage in private practice as a consulting metallurgical engineer.

Weidenthal was a member of the Cleveland Engineering Society, the American Society for Testing Materials, and the American Society for Steel Treating. He was a member of the board of directors of the latter organization in 1919-20.

He was married on November 27, 1916, to Miss Louise Dorothy Stempel, of Cleveland, who survives him.

Mrs. Katherine S. White.

Mrs. Katherine Sage White, wife of

LITERARY REVIEW

Ernest Ingersoll White '93, died at her home, 1025 James Street, Syracuse, on May 14, after an illness of two years, which followed a serious operation.

Mrs. White was the daughter of William H. Sage, of Albany, for many years a Trustee of Cornell, and the granddaughter of Henry W. Sage and, on her mother's side, of Andrew G. Curtin, Civil War governor of Pennsylvania. She was born in Brooklyn on July 3, 1871, but came as a young girl to live in Ithaca in the house now owned by the Delta Gamma Sorority. She was married in Sage Chapel in October, 1895, to Mr. White, and they went at once to live in Syracuse.

Mrs. White was active in many good causes. For many years she was a trustee of the Syracuse Memorial Hospital; she was honorary president of the Syracuse Aid for the George Junior Republic; she helped found the Sagola Home for Girls; she was active in securing funds for Hillerest Camp at Fayetteville, a summer home for undernourished children; she was an active worker for woman suffrage, being an officer in both the State and Syracuse organizations; she was chairman of the National League for Women's Service and an active worker in other organizations.

She was a member of the Onondaga Golf and Country Club, Harmony Circle, and the Sedgwick Farm Club.

She leaves her husband, her father, three daughters, Jane Sage White, Marion Strong White, and Katherine Curtin White, two brothers, Henry W. Sage, of Albany, and Andrew G. C. Sage, of New York, and an aunt, Mrs. Moses D. Burnet, of Syracuse.

A private funeral was held at the home on May 16; the Rev. John H. Applebee, of May Memorial Church, officiated.

Lawrence Powers

Lawrence Powers, for nearly thirty years caretaker of Boardman Hall, died at his home in Ithaca, on May 25 after a prolonged illness, at the age of fifty-three. Lawrence, or "Larry," as he was known to law students during that long period of service, seemed to have become an integral part of the College of Law. Exercises in the College of Law were suspended during the funeral, which was attended by the Faculty of the College and by a large number of the law students. The Faculty of the College has passed the following resolution:

"The Faculty of the College of Law makes record here of the death on May 25 of Lawrence Powers. For twenty-nine years he was the ever faithful caretaker of the home of the College of Law. His unusual natural intelligence, his unwearied devotion to his work, his loyalty to Faculty and students through all the years of his service, his self-respect, and his quiet friendliness won for him in return the respect and friendship of all the present and former members of this Faculty, and of a long succession of law students."

Sick Motors

First Aid to the Car. By Harold W. Slauson, M. E. '06, author of "Car Troubles," "Everyman's Guide to Motor Efficiency," "The Gasoline Motor," and "The Motor Boat." New York. Harper and Brothers. 1921. 8vo, pp. 225. Price, \$1.50 net.

When your engine stops on a lonely road, or something goes "brrr" and the back wheels won't turn, don't expect that any book can tell you at once how to fix it. When both these things happened to us at once, "First Aid" only irritated the wound.

With hundreds of makes of cars, each slightly different from the other in some detail, it is attempting the impossible to give directions for diagnosing the ills of all of them. Mr. Slauson doesn't try. The book is wisely named, and the author confines himself to generalities. Each chapter treats of a separate trouble, the first and last with "Tools and Spare Equipment" and "Private Garage Design and Equipment," respectively. One on "When the Car is Left Alone" contains especially good advice to those driving in or through large cities.

Each of the other ten chapters is headed by the name of a symptom of trouble, from engine troubles to muddy roads. Each is preceded by a tabular summary of causes, in which the motorist may find his *Jonah*, and black-face subheadings in the text set off specific causes and effects. The difficulty is that when one has traced his trouble to the end, he finds only generalities about how to remedy it. If he is mechanically inclined, he may be able to apply these generalities to the particular car he drives; but most manufacturers now issue handbooks with their cars which contain the same information applied specifically to their own car, with photographs and explicit directions to care for ordinary troubles.

The book is full of excellent advice on cars in general, but the driver in trouble will go first to the instruction book which tells him about *his own* car if he wishes to be soon on his way. When his car is safely in the hands of the repair man, he may learn how to prevent further trouble by reading Slauson's book. If he studies carefully the "Dictionary of Automobile Terms" which occupies the last eighty-three pages, the terminology thus acquired may save him more than the price of the book in case of an argument when his car comes out of the shop with repair bill attached.

H. A. S.

Books and Magazine Articles

Jessie R. Fauset '05 writes in *The Crisis* for May on "Saint-George, Chevalier of France."

In *The Cornell Countryman* for May Professor George F. Warren seeks an answer for the question: "What is Left After a Century of Farming?" Dean Albert R. Mann '04 writes on "Farm Leaders Who Have Crossed the Bar." Professor James E. Boyle discusses "The Country Store: a Community Asset Fostering Understanding Between Retailer and Consumer." George H. Rea, extension specialist, writes on "Beekeeping and Its Problems." Professor Flora Rose writes on "Our Investment in Health." Professor Bristow Adams reviews Walter Pritchard Eaton's "In Berkshire Fields" illustrated by Professor Walter King Stone. Russell Lord '20 reviews Professor James E. Boyle's "Rural Problems in the United States." There is a good portrait and obituary sketch of the late Edwin J. Glasson '03.

Professor-elect Riverda H. Jordan is the author of "Visual Aids and Classroom Methods" in the January issue of *Visual Education* and of "The Retention of Foreign Languages in the Home" in the January *Journal of Educational Psychology*.

Dr. Leon A. Hausman '14 in *The Scientific American Monthly* for May describes "The Smallest Animal in Existence." This pigmy of the microscopical jungle bears (for man at least) the name of "Pleuromonas Jaculans"; whether he will come if called by this soothing and euphonious epithet is not clear. But at Dr. Hausman's request one of these little protozoic cherubs consented to sit (or perhaps to jaculate) for his portrait; also to stand up like a little man and be measured. His diameter was only 1-12,700 of an inch; but of course the yardstick may have been applied just before his dinner. There is one question which puzzles us as earnest students of physiognomy: are Pleuromonas' two protuberant hairs eyelashes or whiskers?

Gustave E. F. Lundell '03 contributes to the *Journal of the American Chemical Society* for April an article on "The Determination of Iron by the Cupferron Method."

In *The Journal of Philosophy* for April 28 Professor Theodore de L. de Laguna, Ph.D. '01, writes on "The Complex Dilemma."

Professor Ray H. Whitbeck '01 in *The Journal of Geography* for April under the title "Thirty Years of Geography in the United States" discusses the progress of geographical teaching.

In *The American Economic Review* for March Professor Herbert J. Davenport discusses "The Post-War Outlook" and

Professor Harold L. Reed '14, of New York University, writes on "A Stabilized Dollar."

Professor George H. Sabine '03 asks and answers the question, "What is the Matter with Representative Government?" in *The North American Review* for May.

Dr. Arthur W. Gilbert '09, commissioner of agriculture in Massachusetts, writes in *Education* for May on "Cooperative Relations of the Community and the Rural School." There is also a review of Professor Charles A. Ellwood's "Sociology and Social Problems," revised edition.

George D. Kratz '12 published in the January and February numbers of the *Journal of Industrial Engineering and Chemistry* an article on "The Action of Certain Organic Accelerators in the Vulcanization of Rubber." His collaborators were A. H. Flower (Ohio State University), and Bernard J. Shapiro '19. The paper was read before the Rubber Division of the American Chemical Society in Chicago in September last.

In *Social Hygiene* for April "The Trend of the Teens" by Professor Michael V. O'Shea '92 is reviewed by H. O.

The American Physical Education Review for April includes an article on "Health Examination of School Children, Ithaca Public Schools" by Julius Kuhnert.

The New York School of Social Work has begun the publication of *The Alumni Magazine*. The first issue is largely taken up by an article on the history of the school, originally the New York School of Philanthropy, since its foundation in 1898, by Porter R. Lee '03, its director.

In *The Physical Review* for May, Professor Carleton C. Murdock, A.M. '10, Ph.D. '19, publishes "A Study of the Photo-Active Electrolytic Cell, Platinum-Rhodamine-B-Platinum."

"Chinese Development in China" was the subject of the address by S. K. Alfred Sze '01, lately Chinese minister to England, at the farewell banquet in his honor at the Lyceum Club, London, on November 22. The address is printed in *The Chinese Students' Monthly* for May.

In *Science* for May 6 Dr. Leland O. Howard '77 reviews Charles W. Long's "Catalogue of the Coleoptera of America North of Mexico."

The University of Chicago Magazine for May includes an illustrated article on Cornell by R. Warren Sailor, editor of the ALUMNI NEWS.

The April number of *The American Review of Reviews* has an article on

"Country Life Forces Mobilizing" by Professor Dwight Sanderson, of the Department of Rural Social Organization.

In *The Survey* for May 14 Florence Kelley '82 writes on "Congress and the Babies."

In *The New Republic* for May 18, under the title "Peter Robbed; Paul Unpaid," Professor Herbert J. Davenport discusses the cancellation of the Allies' war debts to the United States.

"A Builder of the New South, Being the Story of the Life Work of Daniel Augustus Tompkins" by Dr. George T. Winston '74 is reviewed in *The South Atlantic Quarterly* for April by Francis B. Simpkins.

The Phi Beta Kappa address on "Pride," delivered by Professor Elijah C. Hills '92, of Indiana University, before the Indiana Chapter on December 7, is printed in *The Indiana University Alumni Quarterly* for April.

Professor Abbott P. Usher, of Boston University, lately of Cornell, writes in *The American Journal of Sociology* for May on "Justice and Poverty." Carol Aronovici reviews volume first of the U. S. Housing Corporation report, on "Organization, Policies, Transactions."

The address of Dr. John E. Teeple in presenting the Nichols Medal to Dr. Gilbert M. Lewis (see our issue of May 19, page 405) is printed in *Chemical and Metallurgical Engineering* for May 18, along with Dr. Lewis's response.

In *The Scientific Monthly* for May Professor James G. Needham writes on "A Biological Examination of Lake George." Under the heading "The Massachusetts Institute of Technology and President Nichols," there is given a good anonymous sketch of Dr. Nichols' career, with a full page portrait.

Miss Esther Cloudman Dunn gives "A Prospect of Rydal Mount" in *Scribner's* for May. The article is illustrated by a drawing and some photographs.

In *The Atlantic Monthly* for May, Vernon L. Kellogg, '91-2 Grad., begins an important serial entitled "The Biologist Speaks of Life."

According to a list published in the current *American Journal of Sociology*, the following dissertations in social science are under way here: for Ph.D., Ellis L. Kirkpatrick, "The Farmer's Standard of Living," and for A.M., Cass W. Whitney '13, "The Play Activities of Rural School Children in New York State." At Bryn Mawr Hazel G. Ormsbee '15 is writing a Ph.D. thesis on "The Juvenile Labor Exchange in the United States and England, with a Statistical Analysis of Records in the Philadelphia Bureau of Compulsory Education." All three are to be completed in 1922.

The first number of *Bloomington Business*, the monthly publication of the Bloomington, Ind., Chamber of Commerce, has just appeared. The leading article is by Professor Frank G. Bates '91, on the different forms of municipal government.

In *The Iron Age* for May 26 Sidney G. Koon '01 writes on "The Government Armor Plate Factory." His article is illustrated.

The March issue of *Christian China* contains an interesting article on "The Wason Chinese Library at Cornell University" by Emeritus Professor T. Frederick Crane.

Morton C. Kahn, B.S. '16, of the Department of Hygiene at the Medical College, has published an article on "The Communal Activity of Bacteria" in the May *Experimental Medicine*, with John W. Churchman, M.D., as co-author.

Dr. May G. Wilson, of the Department of Pediatrics, has an article in the *Journal of the American Medical Association* for April on "The Equivalent of Ordinary Exertion," an article dealing with the classification of patients in cardiac clinics by a new series of test exercises.

Leon Loewe, M.D. '19, of the Mount Sinai Hospital, published with Dr. Frederic D. Zeman, in the April 9 issue of the *Journal of the American Medical Association*, an article on "The Cultivation of a Filterable Organism from the Nasopharyngeal Washings in Influenza." This work is being done in an attempt to isolate the bacterium responsible for influenza.

Kenneth L. Roberts has lately resumed his entertaining contributions to *The Saturday Evening Post*. In the issue of April 30 he discussed "The Existence of an Emergency" with special reference to the restriction of immigration, following this up in the May 7 number with a study of "Ports of Embarkation." In the issue of May 14 he describes the new aerial transportation under the title "Flying Made Easy"; and in that of May 28 he talks of "Various Things About Paris," notably Paris as a center and originator of fashionable clothes.

Lawrence Perry's "A Sport Writes Confesses" in the June *Bookman* has several references to Cornell. It discusses some nice ethical problems in an interesting way.

Dr. Samuel J. Barnett '98, of the Department of Terrestrial Magnetism, Carnegie Institution, Washington, publishes in *Science* for May 20 an important paper on "The Electron Theory of Magnetism." It was read at a joint meeting of Section B of the American Association for the Advancement of Science and the American Physical Society on December 20.

ATHLETICS

Varsity Wins, Freshmen Lose

The Cornell varsity crew defeated Harvard by three lengths on a mile and seven-eighths course on the Charles River last Saturday, but the Cornell freshman crew went down to defeat before the Harvard freshmen by about three quarters of a length.

The Cornell varsity was boated as in the race with Princeton and Yale on Cayuga Lake the week before, except at bow, where H. L. Young, who had been rowing bow in the second varsity, had replaced Kells at that position in the varsity. At Cambridge Cornell showed much improvement in form and racing judgment compared with the Cayuga Lake race. After the mile there was no doubt of the issue.

Harvard had the better of the start, but by the time the crews had gone half a mile the Cornell shell was a bit ahead. When they came out of the bridge Cornell was a length to the fore. The varsity maintained a 32 to 34 beat practically all of the way, but there was more and more power in their drive as the crews neared the finish mark. Cornell crossed the line in 9.49, Harvard in 10.01.

In the freshman race the Cornell yearlings lost a boat length at the very outset when No. 5 caught a crab. They set out determined, however, to make up the handicap and after the crews had passed the bridge they were about on even terms. The Harvard yearlings had a little more reserve power and they managed to draw ahead in the last half mile. Cornell hung on but could do no more than that. Harvard's time was 9.43, better than Cornell's in the varsity race. This is accounted for by the fact that the freshmen, who rowed first, had the benefit of a moderate southwest wind, which was lacking in the varsity race, and by the further fact that the course for the varsity race was affected by swells from chugging motor craft.

The crews have now settled down to preparation for the Poughkeepsie regatta. They will leave for the Hudson possibly at the end of next week.

Track Ties at Sixth

The track team tied with Princeton for sixth place in the forty-fifth annual Intercollegiate championship games held last Friday and Saturday in the Harvard Stadium. California won the meet, the first time in the history of the games that a team from the Far West has taken supreme honors. The Californians scored 27½ points, just nosing out Harvard, which with 27 points made a surprisingly fine showing. Dartmouth was third with 20 points, Penn fourth with 18½, Leland Stanford fifth with 15, Cornell

and Princeton tied for sixth with 13 points. The other colleges scored as follows: Penn State 10, M. I. T. 10, Yale 9½, Lafayette 9, Syracuse 8, Georgetown 5, Rutgers 4, Holy Cross 3, Columbia 1¾, and Bowdoin 1.

Though they had but a dozen athletes in the meet, the Californians had a well balanced team, which was on top of its form. Harvard was unexpectedly strong, but nearly every other Eastern team suffered unlooked for reverses. It had not been anticipated that Cornell could win, but a higher total than 13 was expected. An injury to Irish in the trials in the half-mile run Friday affected his running in the mile on Saturday and he did not even place. But even so, the Cornell team was so obviously lacking in seasoned campaigners and stars, and so weak in the field events, that victory was well nigh hopeless from the first. Most of the varsity team will be available next year, the freshman team will contribute a number of promising athletes, and one or two men not eligible this spring will compete in another season. The outlook for an old time team next season is better than at any time since the war. The track "comeback" has merely been postponed.

The one brilliant Cornell accomplishment was R. E. Brown's victory in the two-mile run. The Cornell entries remained with the pack for the first mile, but going into the fifth lap R. E. Brown and N. P. Brown moved up to front in pursuit of Romig, the intercollegiate cross country champion, who had been setting the pace. Romig was favored to win. Coming into the last lap, R. E. Brown began to cut down Romig's lead, but it was not until the last two hundred yards or so that the issue was settled. Here the Cornellian cut loose in a brilliant spurt and passing Romig cut the tape more than five yards to the good. N. P. Brown finished in fifth place.

Other Cornell men who won points were R. O. Davison, fourth in the 220-yard dash; H. H. Smith, fifth in the 440-yard dash; Cook, fifth in the half-mile run, and D. B. Strickler, fourth in the mile. Lathrop tied with two others for fourth place in the high jump.

In the preliminaries on Friday Cornell had qualified seven men including Smith, Righter, and John in the 440, Lathrop in the high jump, Davison and Carpenter in the 220, and Cook in the half-mile.

Yale's Second Victory

Better team play in pinches gave Yale a 3 to 1 victory over the Cornell nine at New Haven last Saturday before a big crowd. It was the Blue's second victory over Cornell on the diamond this year. Robinson held Cornell to five hits, while Yale got nine off Schreiner. The latter, however, pitched a creditable game.

Yale started the scoring in the second

inning on Durant's pass and Robinson's two-bagger. In the fourth the Blue picked up two more runs on passes to Hickey and Murphy, Robinson's sacrifice, and Crane's single.

Cornell's only run came in the ninth when Kaw scored on Kernan's wild throw and a single by Quis, sent in to bat for Fritz. Quick fielding and very accurate throwing to the plate by Yale's outfielders cut off two Cornell runs in the fifth.

Syracuse Wins at Lacrosse

The Cornell lacrosse team was outplayed by Syracuse on Perey Field Saturday afternoon, the Orange winning by the score of 8 to 3. Cornell was outclassed most of the time. The victory gives Syracuse the championship in the northern division of the Intercollegiate league.

Penn Tennis Team Wins

The Penn tennis team defeated Cornell by the score of 3 to 1 on the Faculty tennis courts Saturday. Rain broke up both doubles matches. Captain Mallory won the only singles match credited to Cornell.

Freshmen Win on Track

The freshman track team defeated a picked team from five Buffalo high schools on Schoellkopf Field on Saturday by a score of 78 to 20.

FACULTY NOTES

PROFESSOR HOLLIS E. DANN, who will have courses in the Cornell Summer School, will address the biennial convention and festival of the "Tri-Cities" held at New York, June 6 to 14.

DEAN ALBERT R. MANN '04, of the College of Agriculture, has declined the position of head of the State Department of Farms and Markets, which was proffered him by the State Council; he made a public statement that his first duty lies with the College of which he is head, but that he hoped the position might go to some strong executive, who, under the new law, will have a wonderful opportunity to build up the work of the Department.

PROFESSOR JOHN S. SHEARER '93 of the Physics Department, speaking recently before the Washington Medical Society, is reported to have said that "he feared that universities and colleges are becoming obstacles to the development of research men," and that the curricula of medical schools are so crammed and crowded with subjects that the result is the same as if one went into a hotel and tried to eat everything on the bill of fare."

DR. JACOB GOULD SCHURMAN represents Cornell at the centennial anniversary exercises commemorating the found-

ing of the University of Virginia. The Faculty had designated President Smith to attend, but he found it impossible to leave the University because of a conflicting meeting of the Trustees.

THE ADDRESS of former President Schurman for the next few weeks will be 40 West 59th Street, New York.

PROFESSOR BRISTOW ADAMS delivered the commencement address at the graduating exercises of the Ithaca Conservatory of Music.

PROFESSOR MILLARD V. ATWOOD '10 represented Cornell at the annual meeting of the American Association of Agricultural College Editors, held this year at the University of Missouri, in connection with Newspaper Week at the Neff School of Journalism.

PROFESSOR HENRY ASMUS of the Veterinary College recently demonstrated methods of shoeing crippled horses before the convention of the Master Horse-shoers of America at the annual convention at DuBois, Pennsylvania.

ALUMNI NOTES

'73 PhB—Thomas R. Worthington is senior member of the law firm of Worthington, Reeve and Greene, with offices at 1-3 Morrison Block, Jacksonville, Ill.

'78 BS—Franklin M. Kendall is with Ginn and Company, 199 East Gay Street, Columbus, Ohio.

'93 BL, '95 ML, '97 PhD—Frederick S. Crum is assistant statistician for the Prudential Insurance Company, Newark, N. J., and lives at 751 Clifton Avenue, Newark. He is a member of the administrative committee of the New Jersey Anti-Tuberculosis League and of the New Jersey State Industrial Museum, chairman of the committee on statistics of the Public Safety Section of the National Safety Council, a fellow of the American Statistical Association, and a member of the American Public Health Association and the American Child Hygiene Association; and he is the author of a number of pamphlets and special articles on the subjects of mortality, health economics, etc.

'00 PhB; '08 AB—George E. Houck '00 and Philip J. Wickser '08 have entered into partnership with William Palmer, Edward J. Garono, and Edwin F. Jarek for the general practice of law under the firm name of Palmer, Garono, Houck and Wickser, with offices at 6-10 Buffalo Insurance Building, Buffalo, N. Y.

'06 AB—Harry S. King was recently appointed sales manager of the Great Lakes Securities Company, 1030-1035 Nicholas Building, Toledo, Ohio. This company specializes in the sale of cop-

per and mining stocks, and is fiscal agent for the Yavapai Mining and Smelting Company of Arizona. He lives at 3308 Parkwood Avenue, Toledo.

'06 LLB—Mr. and Mrs. Orson Adams have announced the marriage of their daughter, Ethel Low, to Caldwell Martin on April 13 at Denver, Colo.

'09—Elmer Ives (Tommie) Thompson has an office at 44 Court Street, Brooklyn, where he is representative of the Northwestern Mutual Life Insurance Company of Milwaukee. He lives at Glen Rock, N. J., is "busy buying shoes and fodder for a thriving pair of youngsters," a daughter five years old, and a son "who can push a few of the freshman footballers around at the age of two."

'10 ME—Clarence V. Lally is with the National Tube Company, 808 Ford Building, Detroit, Mich.

'10 AB—Rabbi and Mrs. Isaac Landman (Beatrice Eschner '10), of Lawrence, Long Island, announce the birth of a daughter, Louise, on April 6. They have two sons, Amos, aged six, and David, aged three. Their mail address is Box 323, Lawrence, Long Island.

'10 AB—At the thirty-third Educational Conference of Academies and High Schools in Relations with the University of Chicago on May 5-6 Dean William F. Russell, of the College of Education, State University of Iowa, discussed the subject of "Visual Education."

'11 AB—Mrs. Clara Robb, accompanist for Miss Winifred Marshall, soprano, who was soloist at the University Orchestra's final concert in Bailey Hall, is the wife of Stewart E. Robb '11, former football star and freshman football coach in 1912, 1913, and 1914. She is a graduate of Adelphi College, class of 1917. They live at 9138 Hollis Court Boulevard, Hollis Court, Long Island, and have a son, James Willis Robb, three years old.

'12—George C. Salisbury has been transferred from Chicago to Milwaukee as district manager of the Milwaukee sales office of the Lakewood Engineering Company, of Cleveland, Ohio. His office address is 955 Thirtieth Street, Milwaukee, and he lives at 690 Bartlett Avenue.

'12 AB—Jane Louise Jones has resigned as instructor of English at the State College for Teachers, Albany, N. Y., and is now head mistress of the Brown School, a private day school for boys and girls in Schenectady. She recently edited, with President A. R. Brubacher, of the State College for Teachers, a series of readers entitled "The Spirit of America," published by Doubleday, Page and Company. She lives at 28 Rugby Road, Schenectady, N. Y.

'13 ME—John H. Brodt has recently resigned his position as sales manager

of the Crittall Casement Window Company, of Detroit, and is now associated with Mr. S. I. Kaufman, under the firm name of Kaufman and Brodt, with offices at 455 People's Gas Building, Chicago, Ill. This firm handles high grade building specialties in the Chicago district.

'13 LLB—The firm of Thomas and Houghton, of which Hugo Zeller was a member, was dissolved by mutual consent on April 30, and Mr. Zeller has entered into partnership with Harry W. Mack and John H. Taylor, also former members of Thomas and Houghton, for the general practice of law under the firm name of Mack and Taylor, with offices in the Canadian Pacific Building, Forty-third Street and Madison Avenue, New York.

'14 ME—Mr. and Mrs. Frederick H. Pitkin of New York have announced the engagement of their daughter, Mary Adelaide, to Roland B. Daley, son of Mr. and Mrs. Charles Jackson True of 4839 Dorchester Avenue, New York. Miss Pitkin was graduated from the University of Chicago in 1919 and during the war was assistant supervisor of Red Cross work at the Kenwood Club and supervisor of surgical dressings at the Arché Club. She also did canteen work and has taken part in numerous amateur theatricals. No date has been set for the wedding.

'15 AB; '15 MS—A son, Ivan Dennison, was born on March 5 to Mr. and Mrs. Thomas D. Hall, at Potchefstroom, Transvaal. Mrs. Hall was formerly Miss Helen Bennett, A.B. '15, and is the daughter of the late Professor C. E. Bennett. They live at "Cornellia," Koek Street, Potchefstroom.

'15 BS—Formal announcement has been made of the engagement of Miss Frederica McClung, daughter of Benjamin McClung, of Albany, to Charles B. Heartfield, son of the Rev. Dr. and Mrs. Frank Heartfield, formerly of Newburgh, N. Y. The date of the wedding has not been announced.

'15 CE—Mr. and Mrs. Charels F. Fran-son, of 21 Croke Avenue, Brooklyn, have announced the engagement of their daughter, Alice Louise, to Charles Kenneth Kerby, of 40 Rugby Road, Brooklyn. Miss Fran-son is a graduate of Paeker Institute, class of 1917, and of Vassar College, class of 1919.

'16 ME—Mr. and Mrs. Edward Mendinhall announce the birth of a son, John Marshall Mendinhall II, on April 23. Before her marriage, Mrs. Mendinhall was Miss Dorothy Bleezarde of Staten Island. Their present address is 1526 Powell Street, Norristown, Pa. Mendinhall is with the Diamond State Fibre Company, of Bridgeport, Pa.

'16 BS—Since receiving his discharge

The Poughkeepsie Regatta

THE Poughkeepsie Chamber of Commerce will operate an observation car at the Intercollegiate Regatta on June 22nd. Tickets thereon are \$6.00 each. The Chamber of Commerce has set aside 684 as the Cornell allotment and will turn the entire block over to the Cornell University Athletic Association for distribution on receipt of payment in full. Orders from Cornell men already vastly exceed this number. The following priorities will be observed in the distribution.

1. Cornell varsity crew men may apply for two tickets each.
2. Members of the Athletic Association may apply for one ticket.
3. Alumni not members of the Athletic Association may apply for one ticket each.
4. Undergraduates not members of the Association may apply for one ticket each.

It is requested as a matter of obvious fairness that no person not intending to go to Poughkeepsie exercise his rights for the benefit of some one else not entitled to priorities and to the exclusion perhaps of some one else in the same class.

Please use the attached blank in making application. Applications accompanied by the purchase price together with fifteen cents to cover registration and postage to be effective must be received on or before June 9th. If the demand exceeds the supply in any class, selection will have to be made by lot. In the event that an application cannot be filled, the remittance will be returned promptly. Address communications and make checks payable to

from the Army in the fall of 1919, Van B. Hart has been instructor in the Department of Agricultural Economics and Farm Management of the College of Agriculture.

'16 BS—Robert M. Halsted has resigned his position in the bond department of the Guaranty Trust Company, after five years of service, and is now with Harvey, Fisk and Sons, one of the oldest investment houses in New York. He is in the uptown office, 17 East Forty-fifth Street, and lives at 88 Coligni Avenue, New Rochelle. He writes that he should be glad to have any of the old gang drop in at either place when in the neighborhood.

'16 ME—Mrs. Alfred Warren, of Scotland, Conn., has announced the engagement of her daughter, Miss Anne Duryea, of Hartford, Conn., to Victor L. Uhl, of New Haven, Conn.

'17 AB—Robert S. Byfield has been transferred from Chicago to the New York office of Ames, Emerich and Company, 111 Broadway, New York.

'17 AB—J. Maxwell Pringle, who has been spending some time with his parents at Hastings-on-Hudson, N. Y., has returned to Shanghai, China, for the International Banking Corporation.

'18 LLB—Benjamin Schwartz has resigned as secretary of the Yonkers Bu-

reau of Municipal Research, Inc., effective June 15, and has accepted a position as secretary of efficiency and planning of the Federation of Jewish Charities of Baltimore, Md. His home address is 468 Christopher Avenue, Brooklyn, N. Y.

'18 ME—Anthony H. (Stant) Collins is working in the experimental and development department of the Chicago Pneumatic Tool Company, Second Amsterdam Street, Detroit, Mich.

'18; '19 AB—Announcement has been made of the engagement of Miss Marita Oelkers '19, daughter of Mr. and Mrs. Richard Oelkers, of 838 West End Avenue, New York, to Frederick J. Littauer '18, of Yonkers, N. Y.

'18, '20 ME—Harold J. Fischer is an engineer in the development and research department of the Western Electric Company, New York, and is living at 40 Schermerhorn Street, Brooklyn.

'18—Announcement has been made of the engagement of Miss Ethel Marjorie Dallman, daughter of Mrs. Mamie Dallman, of Brooklyn, to Herbert Carlton Drescher '14. During the war Drescher served in France as a lieutenant in the Air Service, and is now commander of William F. Blaisdell Post No. 38, American Legion. He also served on the Mexican border. He is at present vice-president and claim manager of the Standard Automobile Mutual Casualty Company of New York; and is associated in the practice of law with Howard C. DeSilvo at 812 Fulton Street, New York. He is the youngest son of John Drescher, of 684 St. Mark's Avenue, Brooklyn, former State Senator, and present sheriff of Kings County, and is a brother of Harry L. Drescher, LL.B., '14.

'19 BS—Margretta Farley is teacher of vocational home making in the Honesdale High School, Honesdale, Pa. Her present address is 818 Court Street, Honesdale; after June 12, she may be addressed at Campbell Hall, N. Y.

'20 AB—Raymond T. Anderson has changed his address from Shreveport, La., to Kansas City, Mo. He is with the Long Bell Lumber Company, with offices in the Long Building.

'20 AB—Edward H. Pattison is a student at the Columbia Law School; he lives at 420 West 121st Street, New York.

'20 ME—Linus E. Kittredge is in the development and research department of the American Telephone and Telegraph Company, New York. He lives at 40 Schermerhorn Street, Brooklyn, N. Y.

'20 BArch—Henry B. Pentland, who has been in Cuba since his graduation, has returned to the United States for at least a year, and may now be addressed in care of Claiborne, Johnston and Com-

pany, Inc., general contractors, 910 Garrett Building, Baltimore, Md.

Heggie's

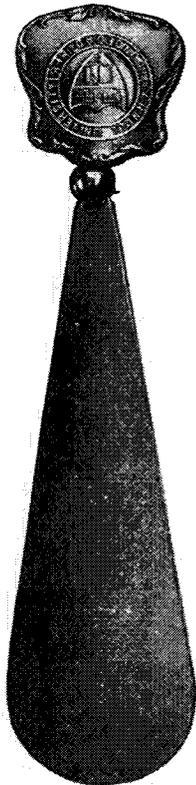

Are your fraternity and society pins in good order for the reunion? We still make them at the old stand.

R. A. Heggie & Bro. Co.
136 E. State Street
Ithaca, N. Y.

The Corner Bookstores

Will continue to serve you in the same prompt and efficient way. Our reorganization has been effected and our mail business will be carried on as usual.

Write us about your needs for books, stationery, and engraving.

Souvenir Articles

We have a booklet well illustrated which shows not only this shoe horn but other useful souvenir articles which are selling.

These are made of jewelers' white metal, which we find wears well. The shield is medium size, so that it is not too conspicuous.

Ask for a copy of the "Gift" booklet.

A Cornell Album or Stunt Book

Many Cornellians are still collecting pictures and programs which have to do with the University and University gatherings. An album for these pictures (some may be found each year in the "Troy" calendar) would classify them. The cloth binding, size 11x14, sells at \$3.50, postage paid. The leather bound ones we expect in two or three weeks.
