Stop Off at Ithaca On Your Next Trip

The Lehigh Valley gives passengers this privilege, enabling you to en-
joy a few hours renewing old friendships at your Alma Mater, whenever
you travel between New York or Philadelphia and Chicago or western
points.

The stopover involves no additional expense and consumes no more
business time as shown by the following schedule:

(Daily) Westward	(Daily) Eastward
8:10 P. M. Lv. New York (PENN. STA.) Ar.	8:26 A. M.
8:40 P. M. Lv. . . . Philadelphia (Reading Term'l) . . . Ar.	7:49 A. M.
(a) 4:37 A. M. Ar. Ithaca (b) Lv. 11:40 P. M.	
4:53 P. M. Lv. Ithaca Ar.	12:37 Noon
8:25 A. M. Ar. Chicago (M. C. R. R.) Lv.	3:00 P. M.

Sleepers { New York to Ithaca
Ithaca to Chicago

Sleepers { Chicago to Ithaca
Ithaca to New York

a Sleeper may be occupied at Ithaca until 8:00 A. M.
b Sleeper ready for occupancy at 9:00 P. M.

Be sure your next ticket reads via Lehigh Valley. Your stopover ar-
rangement can be made by the conductor.

CORNELL ALUMNI NEWS

VOL. XXIV, No. 30

ITHACA, N. Y., MAY 4, 1922

PRICE 12 CENTS

CLASS Day officers were elected on April 21 as follows: prophet, Alan-son W. Willcox of Ithaca; poet, Robert C. Washburn of New York, joint winner of the Morrison Prize for poetry; essayist, Miss Olive E. Northup of Ithaca; orator, Thomas J. McFadden of Staten Island; historian, James V. Frank of Poplar Bluff, Missouri; junior custodian of the Class Pipe, Lawrence B. Pryor '23, of Millington, Tennessee.

A CORNELL-IN-CHINA CLUB was formed recently at a meeting of those interested in fostering mutual friendly relations between China and America. Dr. J. L. Stewart, president of the University of Pekin, addressed the meeting, describing the educational enterprises which other large American universities are conducting in China. The Club, of which Charles C. Carter '22, of Rock Island, Illinois, was elected president, will embrace in its membership men students, graduate students, and members of the Faculty, and has as its concrete object the establishment of a Cornell educational enterprise in China.

THE UNIVERSITY ORCHESTRA'S final concert was given on April 5 in Bailey Hall. Mrs. Ruth Blackman Rodgers, soloist of St. Paul's Church in New York, wife of Ralph C. Rodgers '05, was the soloist of the evening. Mrs. Rodgers's masterpiece of the evening was the Ritorna Vincitor from Verdi's Aida.

VARSITY POLO practice has been announced by Major T. J. J. Christian to be held on Tuesday, Thursday, and Saturday mornings at nine o'clock, and on Wednesday afternoons. Whereas most other college teams have disbanded, the Cornell team will play three games this year, two with the Buffalo Hunting Club and one with the team representing the Syracuse National Guard.

KOHM AND BRUNNE, tailors of Ithaca well known to alumni, have purchased the State Street business block the ground floor of which they have occupied for the past fifteen years, and will continue to occupy it as the permanent home of the firm.

THE DRAMATIC CLUB'S presentation of plays on April 28 and 29 attracted an audience that crowded to capacity the Campus Theater. The feature of the program was "The Soul of a Professor," a one-act play by Professor Martin W. Sampson of the Department of English. The cast included not only the professor and his soul, but also the typical poor student who wants to know why his

marks are so low, the good student, the appealing girl who has reached her intellectual limit, the gushing beauty who relies on her complexion to pass the course, and sundry of the professor's colleagues. The climax of the play is the professor's refusal of a tempting offer with larger salary but with more detail work, and his decision to retain his position at a smaller salary which nevertheless will enable him to do more real constructive work, because of less distracting details.

THE TIME TABLE of the D. L. and W. Railroad has been amended so that the night train from New York, though it leaves Hoboken at the same time as heretofore, will arrive in Ithaca at 5 a. m. instead of at 6 a. m. as formerly. Sleeping-cars may nevertheless be occupied in Ithaca until 8 a. m.

THE INDOOR TENNIS CHAMPIONSHIP of the University was won, after a long schedule of elimination matches held on the indoor courts in the Drill Hall, by M. H. Barredo, Jr., '24, of Manila, Philippine Islands.

RUSHING RULES appear to be as far as ever from stability, in spite of several years' attempts by fraternities to hit upon some unanimously agreeable settlement. As a result of the recent even division of fraternities between alternate plans, the committee in charge now proposes a compromise that shall divide the rushing period into two ten-day periods, each of which shall be governed by one of the two plans. The first period, under what is essentially the working agreement of 1920, shall be devoted only to calling on freshmen in their rooms, thus giving opportunity for mutual appraisal. One day shall intervene between the two periods during which formal cards shall be interchanged between fraternities and freshmen—the extending of invitations to desired freshmen and the freshmen's refusals or acceptances—through the medium of a general secretary of the Association. The second ten-day period shall be occupied with the entertainment of desired freshmen by the fraternities, according to the appointments made previously by the formal interchange of cards. No fraternity shall have more than three dates with any one freshman, and all rushing shall cease with the end of the second period.

A FOUL-SHOOTING MATCH open to prospective members of next year's basketball team, has been instituted by Coach Howard B. Ortnier '19, to continue from now until the next basketball season

opens. Men entering the contest will try fifty shots a day for ten days. This competition is planned to meet a need created by the new rules for expertness in foul shooting.

THE SAGE CHAPEL Preacher for May 7 will be the Rev. Dr. Maxwell Savage, minister of the First Unitarian Church of Worcester, Massachusetts.

LECTURES for the week include "Herman Cohen" by Professor Nathaniel Schmidt before the Menorah Society; "The Relation of Plants to Geological Formations" by Dr. Edgar T. Wherry, of the U. S. Department of Agriculture, before the Sigma Xi; "Peacocks and Humming Birds" by Professor Wilder D. Bancroft before the Cornell Section of the American Chemical Society; "Darwinism and Mr. William J. Bryan" by Professor James G. Needham, Ph.D. '98, before the Ethics Club; and "The Coal Strike," by Professor Sumner H. Slichter, of the Department of Economics.

THE WINTER SPORTS club house on Beebe Lake, approved plans for which were drawn by Roger B. MacPherson '21, can be built for \$23,000 according to the estimate of the Dall Construction Company of New York, which submitted the lowest bid. The contract was signed on April 27 and the building, it is expected will be ready for use by December 1.

WOMEN STUDENTS were punished by the Central Honor Committee on April 20, for the first time since the Honor System was instituted. Six freshman women were placed on parole for the remainder of the college year, three of whom were found guilty of taking the places of the other three at a prescribed lecture in hygiene, both substitutes and substitutors being found equally guilty. The three substitutors desired to spend their afternoon elsewhere, and at the same time to avoid paying the five-dollar fine imposed for an unexcused absence. The penalty of parole is analogous to probation; it affects participation in student activities instead of scholastic standing.

THE CORNELL MASQUE has elected Wade Duley '23, of Port Jervis, as president for next year, and John W. Locke, Jr., '24, of Vandergrift, Pennsylvania, as vice-president.

THE CIVIL ENGINEERS held their annual banquet in Risley Hall on April 28. The chief speakers of the evening were Dr. Farrand, Dean Dexter S. Kimball, Director Fred A. Barnes '97, and Edward J. Pearson '83, president of the New York, New Haven, and Hartford Railroad.

Creates Commission

Board of Trustees Also Adopts Budget and Lets Contract for Boldt Hall

A permanent commission to study and prepare a plan for the architectural, engineering, and landscape development of the University was created at the annual spring meeting of the Board of Trustees in Ithaca last Saturday. The members of the commission are Dean Francke H. Bosworth, Jr., of the College of Architecture, chairman; the President and the chairman of the Committee on Buildings and Grounds, ex-officio; Robert H. Treman '78; and Professor Charles H. Hull '87.

Contracts for Boldt Hall, for which the ground is already being cleared, were let to the J. D. Taylor Construction Company of Syracuse, construction; the Jamieson-McKinney Company of Ithaca, plumbing; and the Forest City Plumbing Company of Ithaca, steam heating. The total cost of the building is expected to be about \$170,000, about eighty per cent more than that of Founders Hall, with which it is nearly identical and which was completed in 1915. The cost of Boldt Hall will be met by annual appropriations from the Alumni Fund and by rental of rooms. The building will accommodate about sixty undergraduates.

The Cornellian Council was granted permission to seek funds for memorial rooms in one of the new residential halls. Rooms will be named upon payment of their approximate cost, which in Boldt Hall will be about \$2,800.

The report of the Budget Committee, which was adopted by the Board, provides for the expenditure of \$1,851,411.50 during the academic year 1922-23. The income is expected to exceed the expenses by \$1,088, including \$40,000 expected from the Alumni Fund.

The various items of income in the budget are: tuition, \$685,000; instruction of agricultural students by the State, \$88,000; fees (except the infirmary), \$160,000; summer session, \$50,000; residential halls, \$35,000; from invested funds of the Semi-Centennial Endowment, \$110,000; interest on subscriptions of the Semi-Centennial Endowment, \$65,000; interest on the year's payments of Semi-Centennial Endowment, \$8,000; U. S. Congressional Industrial Fund, \$50,000; rents, \$4,000; from Infirmary for medical advisers, \$6,000; from Goldwin Smith Special Fund, \$3,000; from residential halls (light and water), \$5,500; from the Alumni Fund, unrestricted, \$40,000; total, \$1,852,500.

The Board also approved final arrangements for the transfer on July 1, 1922, of a part of the Department of Landscape Art from the College of Agriculture to the College of Architecture, where it will be known as the Department of Landscape Architecture.

SPORT STUFF

Saturday, May 13th, is looming up as a big day at Ithaca. With the dual meet with Pennsylvania at two o'clock, the freshman meet with the same university immediately thereafter, the varsity ball game with Syracuse on the new Field at three-thirty, and a freshman game with Wyoming Seminary at Percy Field sandwiched in somewhere, there does not seem to be any point where ennui is likely to develop. Tickets for the track meets are one fifty. The ball game costs another dollar and a half. The roads to Ithaca are now in excellent shape.

Forty-two members of the track team competed at the Penn Relays. They did not get into the headlines much, but the workout was quite satisfactory. The rail birds, the sincere dopesters, and the stealthy clockers paid more attention to these inconspicuous strangers than the audience did. In track you can't be good on both the last Saturday of April and the last Saturday of May. You've got to take your choice.

The baseball team looked better against Columbia on Saturday. While Rollo was contributing a little airtight pitching and holding the visitors scoreless, the attack was converting eleven hits into five runs. The nine now plays Columbia at New York on May 5, Princeton at Princeton on May 6, Amherst at Amherst on May 16, and Harvard at Cambridge on May 17.

In their early practice games the lacrosse team seemed to be devoting themselves exclusively to learning how to block whistling blows of the stick with their faces. Consequently their recent performances in defeating first Pennsylvania and then Hobart in the opening matches of the league schedule, have been joyful surprises. Those who came to snicker have remained to cheer mightily and destroy their hate.

R. B.

CORNELL CALENDAR

May 10. Baseball, Rochester at Ithaca.

May 13. Baseball, Syracuse at Ithaca. Pennsylvania-Cornell dual meet at Ithaca.

May 16. Baseball, Amherst at Amherst.

May 17. Baseball, Harvard at Cambridge.

May 19. Banquet of the Cornell Club of Yonkers, 7 p. m. at the Elk's Club. Professor Charles L. Durham '99 and John T. (Terry) McGovern '00 will be guests of honor.

'86 Memorial Prize Contest at Ithaca.

May 20. Baseball, Yale at New Haven. Crew, Princeton-Yale at Derby, Conn.

May 24. Baseball, Hamilton at Ithaca.

June 16-18. Class reunions in Ithaca.

Convention Resolutions

Seven Points of University Policy Acted Upon at Chicago Meeting

Question 1. Realizing that neither physical equipment nor instruction staff of Cornell University are adequate to serve all applicants for admission, what is the most satisfactory plan for selection and rejection of candidates?

RESOLVED, That we realize that in the near future some limitation on the number of students admitted to Cornell University will be necessary, and we recommend that the consideration of the question of the methods to be employed be taken up by President Farrand and the Board of Trustees.

Question 2. Recognizing the inadequacy of salaries paid to members of the Faculty and the consequent discouragement of capable teachers who might be attracted into the profession if this were corrected, what increases in tuition should be considered?

Whereas, Cornell University is urgently in need of additional revenues, **BE IT RESOLVED,** That it is our hope that such revenues may be obtained through additional endowment without at this time still further increasing tuition. But should such action be necessary, we believe that the tuition should be increased gradually from time to time, in harmony with the action of sister universities, similarly situated, but not beyond a point which would be injurious to the general causes of education or deprive worthy students of their opportunity.

Question 3. In what manner should Cornell conventions be perpetuated, for what purpose, how, when, and where?

Moved, seconded, and unanimously passed that a convention be held annually, in the fall, commencing with the fall of 1922. The invitation of the Cornell University Association of Western Pennsylvania for the convention in Pittsburgh was unanimously accepted, leaving the exact date to be decided by the committee in charge in that city.

Question 4. In addition to the reunions in June, shall we inaugurate a general homecoming jubilee week-end reunion to be held in Ithaca at the time of a major football game every fall—to be free from business discussions or organized meetings—solely for pleasure and entertainment and called irrespective of classes, primarily for reunions of such groups as editorial boards, athletic teams, clubs and fraternities?

RESOLVED, That, in addition to the reunions in June, there shall be a homecoming jubilee week-end reunion held in Ithaca at the time of a major football game every fall—to be free from business discussions or organized meetings—solely for pleasure and entertainment and called irrespective of classes, primarily for re-

unions of such groups as editorial boards, athletic teams, clubs and fraternities, and that the officers of the Associate Alumni be requested to arrange for such meetings.

Question 5. Should there be effected a reorganization of Cornell alumni organizations whereby all are responsible to a single body?

Report of the Committee on Proposed Reorganization of Cornell Alumni Bodies accepted—That it be the recommendation of this committee that for the present there be no essential change in the arrangement of alumni organizations.

Question 6. How shall interest in alumni trustee elections be stimulated, both to attract a greater number of candidates and a greater vote?

Moved, seconded and passed that a committee be appointed to investigate this matter. Committee appointed consisting of Foster M. Coffin '12, chairman; George D. Crofts '01, and George F. Rogalsky '07.

Question 7. In our definition of the words "alumnus" and "alumna", do we make a mistake in considering as full-fledged Cornellians all who have ever attended the University, even though that attendance may have been no longer than a day, a week, or a month? Should we admit only those who have been at the University long enough to have an academic record, i. e., a term at least?

RESOLVED, That the secretary be authorized and directed to remove from the roll of membership any former student whose attendance at the University was for less than one term and who expressly requests such action.

BUFFALO ENTERTAINS

At the weekly luncheon of the Cornell men of Buffalo on Friday, April 28, the guests were Congressman Daniel A. Reed, '98, erstwhile football coach at Cornell, and Albert J. Kinsey, Princeton man and president of the Chamber of Commerce of Buffalo.

'17 READY FOR REUNION

The Class of 1917 is ready for a record-breaking five-year reunion, led by William D. (Bill) Crim as chairman. Members of the class will be reached by personal calls and letters, but any information desired can be had from Bill, whose address is in care of Harris, Forbes Company, 56 William Street, New York, or from Donald B. Vail, secretary of the class, whose address is in care of Breed, Abbott & Morgan, 32 Liberty Street, New York.

ATHLETICS

Win Four-mile Race

The victory of the four-mile relay team was Cornell's principal accomplishment in the Pennsylvania relay carnival at Franklin Field last Saturday. Coach Moakley's well-balanced quartet had no difficulty in capturing first honors, Carter, the anchor man, finishing perhaps fifty yards ahead of his nearest rival, an Ohio State runner. The time, 17 minutes, 56 3-5 seconds, was fast, considering the fact that the Cornellians were not hard pressed. The record is 17:51 1-5 made in 1913 by the Boston Athletic Club and equalled in 1916 by a Cornell team.

The four-mile victory was the only first place taken by Cornell. Neither the one-mile team, composed of Righter, Conradis, Chapman, and Lovejoy, nor the two-mile team, composed of Rauch, Bernart, John, and Cook, figured prominently.

Lovejoy, the varsity sprinter, finished second in the 100-yard dash, which was won by Leconey of Lafayette, in 9 4-5 seconds. The Cornellian was about a yard back of the winner and his time was ten flat.

One of the surprising and encouraging developments was the work of Gouinlock in the pole vault. He finished in second place, with a vault of 12 ft., 6 in., which is six inches higher than he has ever vaulted in competition before. Atkinson, also of Cornell, was one of five men to tie for third place in this event, and he won the toss for the place. Gouinlock also got third in the discus throw, with a mark of 129 ft., 10 in. Although Cornell had men entered in the shot put, high jump, javelin throw, hammer throw and 120-yard high hurdles, none of them placed. Nor did the freshman mile relay team come within the place winners.

On Friday Norman Brown of Cornell finished fourth in the two-mile run which was won by Buker of Bates. Robert E. Brown of Cornell, the intercollegiate two-mile champion, did not enter this race because he had been ill the week before the race, but ran a creditable mile on the four-mile team Saturday.

That team had little difficulty in winning. Captain Strickler, the first man, gave Brown several yards' advantage. Kirby, the third Cornell runner, had about ten yards on his nearest rival and he gave Carter, the anchor man, a substantial lead which the latter had no difficulty in retaining. The four miles were run as follows: Strickler, 4:28; Robert E. Brown, 4:33 4-5; Kirby, (the fastest mile of the lot) 4:24 1-5; Carter, 4:30 3-5. They averaged 4:29 3-20. And they were not pushed.

The track team will now point to the dual meet with Pennsylvania to be held in Ithaca May 13. This promises to be

one of the best dual meets of the Eastern athletic program.

Columbia Defeated

Cornell defeated Columbia on the new baseball field Saturday afternoon by the score of 5 to 0, Rollo allowing the visitors but six hits, and keeping them well scattered. Only once, in the sixth inning, did a Columbia runner get beyond second base, and the next batter was retired on strikes.

The home team found Wunderlich, Columbia's pitcher, for eleven hits, one of them a home run by Tone. This was the first circuit hit of the year. The team so far has averaged eleven hits a game. Fielding was pretty clean, but sharper work on the bases might have added a run or two to the score.

For four innings there was no scoring, but in the fifth frame two Cornell men crossed the plate. With two down, Davies' single to right brought in Woodin and Capron. In the seventh three more runs were added on Tone's home run to deep left, a hit by Woodin, successful bunts by Capron and Davies, a long sacrifice fly by Munns, who was sent in to bat for Fox, and a single by Cowan. Smith made a spectacular catch of Munns' long fly to center in this inning, going well beyond the green to capture it. He fell face forward as he did so. He made a quick return, too, only one Cornellian scoring on the throw-in.

The Cornell line-up has been changed a bit, Kaw going to left field, in place of Frantz, and Shepard getting the berth at center, where Kaw started the season. The change seems to have improved the team's play.

The team meets Columbia in New York Friday and Princeton at Princeton Saturday.

The box score of the Columbia game:

Cornell		AB	R	H	PO	A	E
Woodin, 2b.....	5	2	3	6	3	0

Score by Innings

Columbia..... 0 0 0 0 0 0 0 0 0—0
Cornell..... 0 0 0 0 2 0 3 0 x—5
Home runs: Tone. Hits: Off Rollo, 6;
Wunderlich, 11. Struck out: By Rollo, 4;

Wunderlich, 6. Bases on balls: Off Rollo, 1; Wunderlich, 1. Hit by pitched ball: By Rollo (Smith). Double play: Woodin to Davies. Stolen bases: Moeschel (2), Smith, Davies, Cowan. Sacrifice hits: Smith, Munns. Left on bases: Cornell, 7; Columbia, 5. Time of game: 1 hour, 50 minutes. Umpire—Martin of Cortland.

Niagara Defeated

Niagara was easily defeated on the new field last Wednesday by the score of 10 to 2. Maloney allowed but six hits, while Cornell got to Herb, the visiting boxman, for thirteen. Woodin's batting was a feature. Out of four times up he made two triples and two singles.

Lacrosse Team Wins

The lacrosse team won its first Intercollegiate League game last Friday by defeating Hobart by a score of 5 to 4. Cornell had things all its own way in the first half, but in the second was put on the defensive and compelled to resist a determined rally by the visitors, who scored three goals in this period, coming within one tally of tying the score.

The Cornell team showed improved form as compared with its earlier games. Hobart drew first blood, Kalusch scoring directly in front of the goal. Cleary tied the score shortly thereafter and Lifshy on a pass from Cleary then put Cornell ahead. The other Cornell scores in this half were made by Clark and Cleary. In the second half Bristol shot a goal for Cornell, while Casper, Snyder, and Bowers tallied for Hobart.

Freshman Lacrosse

The first freshman lacrosse team organized at Cornell opened its season here Saturday, losing to Hobart by a score of 3 to 1.

Tennis Season Opens

The tennis team opened the season Saturday with a match with Syracuse which resulted in a tie, each team winning two singles matches and one doubles match. Captain Thornton and Suender won singles; Barkelew and Leonard were Cornell's doubles winners. Harper and Leonard lost singles matches while the Syracuse doubles victory was scored over Thornton and Harper.

DETROIT COLLEGIANS GATHER

The annual "intercolleg-eat" of five or six hundred assorted collegians of Detroit will be held at the Statler Hotel on Saturday, May 6. Ty Cobb, "Kid" Gleason, and every collegian on both the Detroit and Chicago baseball teams, will be guests at the luncheon, which will be addressed by Judge Kenesaw Mountain Landis.

THE WIDOW'S Easter number cover, drawn by Albert S. Duncan '22, of Brooklyn, has been chosen by *The Carolina Tar Baby*, for the cover of its forthcoming symposium of college humorous publications. The *Tar Baby*, with its stated circulation of more than 10,000, is the largest publication of its kind in the South.

LITERARY REVIEW

A Great Spanish Poet

Garcilaso de la Vega: a Critical Study of His Life and Works. By Hayward Keniston. New York. Hispanic Society of America. 1922. Sm. 8vo, pp. xii, 509. Illus. Hispanic Notes and Monographs, Peninsular Series.

This is the first book to be issued from the press of the Cornell Publications Printing Company, which we hope is going to be the forerunner of a Cornell University Press. We have noticed an occasional defective letter, but on the whole it is a very attractive specimen of typography.

The book itself is the fruit of many years' study on the part of its author, who wrote his doctoral dissertation at Harvard on this subject. That work is now presumably incorporated in the present monograph, which forms as comprehensive a study of the life, works, and influence of the famous Castilian poet as can be imagined. No topic of any importance is neglected. The book is evidently the work of a careful and well informed scholar. It will bring him much deserved credit.

Garcilaso de la Vega, "principe de los poetas liricos castillanos," was born at Toledo in 1501 or 2, not in 1503 as is generally supposed. His father was a member of the personal guard of Ferdinand and Isabella, and fought bravely in the wars, helping in the siege of Velezmalaga to save the king's life. The son, educated probably in the University of Toledo, presumably heard there some of the most illustrious scholars of Spain. Humanistic ideals had just penetrated to the Peninsula.

Garcilaso entered the king's service as a matter of course, and spent his life at a court. In 1521 the king became the Emperor Charles V. Garcilaso was long a favorite at a brilliant court. Knighted in 1523, he accompanied the emperor on his campaigns and wars. He was an ardent disciple of Petrarch, and his Laura was Isabel Freire, who married Antonio de Fonseca, Lord of Toro. Like Chaucer, Garcilaso saw Italy, and represented his sovereign on a mission to France.

The last fifteen years of his life were spent for the most part in disgrace and exile, owing to events rising out of the emperor's dislike of Garcilaso's brother. He died in 1536 from injuries received in a squabble with peasants at Le Muy, France.

His works, as they appeared in 1543, were not extensive—twenty-eight sonnets, five canciones, two elegies, an epistle, and three eclogues. Since then a few more sonnets and some coplas have been added. Most of these are in the style and measures of Petrarch. "Petrarchan is his choice of theme—a mood or moment of amorous experience; Petrarchan, the

analysis of the emotions and the subtle, often too subtle, contrasts; Petrarchan, finally, the spiritual attitude of melancholy, half-bitter, half-tender, in the presence of a love that can never be realized."

He is also akin to Virgil in the Eclogues and to Sannazaro. "Working in a medium which was new and strange, with no models to follow in the direction of his own Castilian speech, he created a Spanish lyrical diction. Thus he is justly revered throughout the Hispanic world."

Books and Magazine Articles

In the *Journal* of the New England Water Works Association for March Clarence W. Marsh '94 writes on "Making Chlorine at the Place of Consumption."

In the *Transactions* of the Illuminating Engineering Society for February, Professors Clarence E. Ferree, Ph.D. '10, and Mrs. Ferree (Gertrude Rand) '08 publish their paper on "The Effect of Variation of Visual Angle, Intensity, and Composition of Light on Important Ocular Functions."

Furman L. Mulford '92 writes in *American Forestry* for April on "Transplanting."

In the *March Journal* of the American Institute of Architects Frederick L. Ackerman '01 writes on "The Phelps-Stokes Tenement House Competition."

Professor Theodore L. De Laguna, Ph.D. '01, of Bryn Mawr, publishes in *The Journal of Philosophy* for March 30 "The Complex Dilemma: a Rejoinder" in reply to an article by Professor Brogan.

In the October *Bulletin* of the New York Public Library L. Nelson Nichols '92, who has been for many years connected with the buying staff of the Library, writes on *The Columbian Mirror and Alexandrian Gazette*.

In *Machinery* for February Professor George C. Shepard '89, of Purdue, writes on "Clerical Forms for a Planning Department."

Professor Robert C. Brooks, Ph.D. '03, of Swarthmore, contributes to *School and Society* for March 25 a study of "University and College Practice in Meeting Expenses at Attendance at Sessions of Learned and Professional Societies."

Mrs. Anna B. Comstock '85 writes in *The Nature-Study Review*, of which she is editor, for January-February on "William Gould Vinal." Professor E. Lawrence Palmer '11 writes on "How to Meet Some of Children's Nature Interests." Professor Elmer E. Barker '10 discusses "The Architecture of the Coco Palm," his article being illustrated. There is an appreciative review of "How and Why Stories" by the late Dr. John Casper Branner '82.

Dean Warren P. Laird, of the School of Fine Arts of the University of Pennsylvania, writes in *The Alumni Register* for April on "The Aspirations of the University for the School of Fine Arts."

Professor Clarence W. Ham '08, of the University of Illinois, writes in *The American Machinist* for March 30 on "Progress in Standardization."

In *Machinery* for December Professor George H. Shepard, M.M.E. '02, of the department of industrial engineering and management at Purdue, writes on "Planning in Large Contract Plants." In the issue for February he discusses "Clerical Forms for a Planning Department."

In *The Saturday Evening Post* for April 15 Kenneth L. Roberts '08, under the title "The Sun-Hunters," describes in his inimitable manner the Northern tourists who winter in Florida in inexpensive fashion, making the trip in flivvers and often camping out through the winter.

NEW MEDICAL FELLOWSHIPS

The National Research Council has recently established several fellowships in medicine for the purpose of increasing the supply of thoroughly trained teachers of medicine in both clinical and laboratory subjects. They are supported by appropriations of the Rockefeller Foundation and the General Education Board amounting to \$100,000 a year for five years.

Qualifying candidates must have the degree of M.D. or Ph.D. or its equivalent from an approved university and must ordinarily be either American or Canadian citizens. Both men and women are eligible. Fellows will be permitted to choose their university, and will be expected to gain some experience in teaching. Appointments will be made for twelve months with the privilege of renewal for meritorious work. The stipends are not fixed in amount, but are intended to enable the incumbent to live comfortably while carrying on his work.

Correspondence regarding these fellowships should be addressed to the Division of Medical Sciences, National Research Council, Washington, D. C.

'12 LEADS AGAIN

Following the precedent established at the Cornell alumni convention at Cleveland last year, the Class of 1912 had the largest representation at the Associate Alumni convention in Chicago two weeks ago. The total number of 1912 men registered was seventeen. They were Lenox B. Birkhead, Thomas N. Bishop, Arthur G. Bogardus, Maurice E. Bosley, Murray W. Bundy, Frank B. Caldwell, Dale B. Carson, Foster M. Coffin, Silas H. Crounse, Jr., Warren B. Eldred, Harold Flack, George C. Goetz, Walter S. Ott, Paul C. Stark, Richard I. Stearns, Malcolm D. Vail, and Paul Wilder.

The fact that the class has shown the way at both conventions, as well as at the semi-centennial celebration of the College of Architecture in Ithaca last fall, leads the official class boosters to conclude that the ten-year reunion in Ithaca this June will break all existing records.

CLUB DELEGATES AT CONVENTION

The names of the twenty-seven alumni clubs which were represented at the Chicago convention by one or more delegates are given below together with the names of the delegates, in the order of membership of the various clubs. The total number of Cornellians represented by these club delegates was given last week as 4,274.

New York, Neal D. Becker '05 and Maxwell M. Upson '99; Society of Engineers, Arthur L. Rice '96, Charles W. Gennet, Jr., '98, and John W. O'Leary '99; Chicago, Newton C. Farr '09, Charles C. Whinery '99, and B. Botsford Young '19; Western New York, Walter P. Cooke '91, George D. Crofts '01, and Willard W. Bushman '20; Cleveland, Joseph P. Harris '01; Rochester, Leon Stern '89; Michigan, Harold S. Kinsley '14 and George B. Walbridge '00; Western Pennsylvania, William B. Miller '99 and John H. Scott '09; Philadelphia, Howard V. Whitney '09; New England, S. Wiley Wakeman '99 and John J. Munns '14; New York women, Mrs. Willard Beahan '78; St. Louis, Perry P. Taylor '89; Springfield, Mass., Edward A. Rice '02; Ithaca, Willard W. Rowlee '88; Rochester women, Mrs. Charles W. Curtis '88; Southern Ohio, Julian A. Pollak '07; Milwaukee, Alfred W. Mellowes '06; Northern New Jersey, Andrew J. Whinery '10; University of Illinois, Murray W. Bundy '12; Philadelphia women, Elizabeth Neely '20; Ithaca women, Mrs. Blin S. Cushman '96; Buffalo women, Ruth Delahunt '16; Omaha, John W. Towle '94; Chicago women, Mrs. Harriet T. Moody '76; Toledo, Walter S. Hayes '18; Peoria, William G. McRoberts '97; Cleveland women, Marjorie Wilson '13.

'02 COMING TO REUNION

An analysis of the first batch of replies to William J (Bill) Norton's opening reunion blast for 1902 indicates that a fair proportion of the class is already laying plans to be in Ithaca on June 16, 17 and 18. It is clear that the other classes in the group, '03, '04, and '05, not to mention '07, will have to step out if they are to lead. Further 1902 notices are coming in daily.

Forty-eight members of the class have already signed up, with ten others still doubtful. Those who expect to attend are C. D. Albert, Josephine E. Bessey, Douglas K. Brown, Thomas Downs, C. M. Doyle, Frank C. Edminster, John M. Francis, Benjamin O. Frick, Paul F. Gaehr, Robert H. Gault, W. C. Geer, Clara W. Hastings, Zillah H. Jaros (Mrs.), J. P. Kittridge, Sidney G. Koon, George M. Layton, Clarence Lessels, Alden H. Little, Charles A. Lueder, Clayton R. Lusk, Fred D. McIntosh, P. M. Neave, W. J. Norton, M. Webb Offut, Virgie Oldberg, J. Rea Patterson, Charles R. Payne, A. Smith Petty, Guernsey

Price, Howard L. Quick, T. E. Rhoades, Thomas S. Richardson, James Richmond, William F. Santry, Watson Selvage, Frank S. Storey, E. P. Strowger, Charles A. Taussig, F. H. Teagle, J. L. Turner, C. M. Vail, A. C. Vanderpoel, Ralph Ware, Richardson Webster, C. W. Wenborne, Maurice R. Whinery, H. M. Wood, C. D. Young.

The ten who have written that their attendance is doubtful are M. A. Beltaire, Jr., Stewart Burchard, Frederick E. Emmons, S. P. Howe, A. G. Lauder, Harry R. McClain, H. B. McMahan, E. H. Powley, R. Sherman Stowell, Henry Walter.

CHICAGO RADIOS

At the weekly luncheon of the Cornell University Association of Chicago, held at the Hamilton Club on April 27, Thorn Donnelly, of the R. H. Donnelly Company, talked on radio and its possibilities. Mr. Donnelly has a testing and experimenting station at the top of the Wrigley Tower in Chicago. The night before his speech to the Cornell men, he had talked to the University of Texas, fourteen hundred miles away.

R. W. (Tubby) Sailor '07 was present to give an Ithacan's impressions of the Cornell convention.

98TH OFFICERS

The Roster of Officers of the 98th (Reserve) Division, recently published by order of Major General Bullard, includes the names of the following Cornellians: Lieut. Col. George G. Bogert '08, 1st Lieut. P. L. Randolph '24, and 2nd Lieuts. John L. Benham '21, Henry B. Bosworth '21, Robert A. Cushman '21, Clarence H. Dagnall, Grad., Theodore S. Farley '22, Rollin H. McCarthy '21, Nelson R. Pirnie '21, Frederick W. Reynolds, Grad., Peter A. Schultz '22, Hermann F. Vieweg '21, Luther S. West '21, and Dewey F. Windnagle '23.

CHANGES IN FACULTY

At its meeting last Saturday the Board of Trustees accepted the resignation of Professor C. Tracy Stagg '02, who has been absent the past eighteen months as legal adviser to Governor Miller and who has lately been appointed Deputy State Conservation Commissioner.

The following changes in the Faculty were also made: Robert S. Stevens, now acting professor, to be professor of law; Preserved Smith, now lecturer in history, to be professor of medieval history, succeeding Professor George L. Burr '87, who retired from teaching last February; Ernest W. Rettger '06-7G., promoted from assistant professor to professor of applied mechanics; Charles L. Walker '04, promoted from assistant professor to professor of sanitary engineering; Herbert H. Scofield '05, promoted from assistant professor to professor of materials; Paul H. Underwood '07, promoted from assistant professor to professor of topographic and geodetic engineering.

Published for the Associate Alumni of Cornell University by the Cornell Alumni News Publishing Company, Incorporated.

Published weekly during the college year and monthly during the summer; forty issues annually. Issue No. 1 is published the last Thursday of September. Weekly publication (numbered consecutively) continues through Commencement Week. Issue No. 40 is published in August and is followed by an index of the entire volume, which will be mailed on request.

Subscription price \$4.00 a year, payable in advance. Foreign postage 40 cents a year extra. Single copies twelve cents each.

Should a subscriber desire to discontinue his subscription a notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts and orders should be made payable to Cornell Alumni News.

Correspondence should be addressed—

MEMORIAL RESIDENTIAL ROOMS

The action of the Board of Trustees of the University in adopting the recommendation of the Cornellian Council that the privilege be extended to Cornellians and friends of Cornell to establish memorial rooms in University residential halls is a fortunate step toward the further solution of the residential halls problem. For the sum of \$2,800 it is possible to pay for the construction of a room in the newest of the dormitory buildings, Boldt Hall. In return for the payment of such a sum to Cornell, such room will be designated as a memorial room in honor of the donor or any one whom he may name.

The logical outcome of this action should be that Cornellians should seek to obtain the endowment of sufficient memorial rooms to constitute a complete unit of the residential halls system, thus providing for the construction of a Memorial Hall. It is thus possible for donors without excessive means to give to the University memorials that will be at once an acceptable and valuable gift and a suitable and dignified memorial in honor of the person whose memory is to be commemorated. The activities of the Cornellian Council, which is now engaged in furthering to the utmost the successful

completion of the residential halls plan, should be greatly assisted by the passage of this resolution by the Board of Trustees.

REPORTS FROM THE DEANS

Our summaries of the reports of the Deans have been interfered with by matter which could not be delayed. For the sake of completeness we are giving below summaries of the remaining officials.

Dean Moore of the Veterinary College reports that there were 85 students, 14 freshmen, 34 sophomores, 16 junior, 16 seniors, 1 in the practitioner's course, and 4 graduate students. The marked decrease in the number of students is general throughout the country and is due in part to the prevalence of the automobile. But the number of veterinarians will probably increase to the point of adequacy. The rapid accumulation of new knowledge may soon make desirable the addition of a year of college work; but this cannot be done till the readjustments of the profession are more definitely settled. The instruction given is of high quality. Clinical facilities are ample: 4,413 animals were cared for in the various clinics. 1,090 specimens were received for analysis; of these 122 were for rabies, of which 48 were positive. There were distributed 16,651 doses of anthrax vaccine, 2,148 doses of mallein, 155,696 mls of tuberculin, 701,204 mls of anti-hog-cholera serum, and 15,298 mls of hog-cholera virus for the simultaneous treatment against hog-cholera. Numerous special investigations have been carried on; the results of 15 of these were published in the last report to the Legislature. Dr. Walter Williams retires after a long career of distinguished service.

Dean Bosworth reports that whereas the technical schools are asked to prepare their students in four years for the practical work of their profession and at the same time to give them the necessary cultural foundation, the Faculty of Architecture deems it impossible to do the first of these. Instead of making its work more minutely special it has sought to make the work less special and more general. It has materially increased the number of free elective hours and has more than doubled the number of required hours in general non-technical subjects. The so-called five-year course has been running for several years and has been increasingly stressed. When the four-year course shall be abandoned is a matter for the future to decide. In the work of many of the courses the qualitative rather than the quantitative side is being stressed, with entirely satisfactory results.

Dean Kimball presents the first report on the combined College of Engineering, and first gives the history of the movement for consolidation. Among the three schools educational authority and the care of students follow the Faculty or-

ganization; freshmen are in charge of a joint committee of the three schools while other students come under the care of the particular Faculty under which their major studies are taken. The total registration last year was 1,604, the largest in the history of engineering at the University. Funds are needed for the completion of the Fuytes Observatory and for a larger equipment and instructing staff in the Sibley School of Mechanical Engineering. Several investigations are under way, and already the Heckscher Fund has been of material aid. A careful study of the whole situation will presently make clear to all interested just what must be done in order to keep engineering at Cornell in the foremost rank.

The Administrative Board of the Summer Session, Professors Ogden and Monroe, report that in 1920 there were 2,007 students in the Summer Session, of whom 57.9 per cent in the regular school and 78.09 per cent in the School of Agriculture were women. 780 were teachers. 1023 came from New York, 277 from Pennsylvania, and 129 from New Jersey; 84 came from foreign countries.

The Adviser of Women reports that in 1920-1 there were 1,168 women: in Arts, 650; Agriculture, 392; Graduate School, 65; Law, 10; M.E., 7; C.E., 5; Architecture, 11; Medicine at Ithaca, 11; Medicine at New York, 30. Of these 19.09 per cent lived in the Sage-Sill-Craig-Tyler group and 18.07 per cent in the Risley-Wait group, a total of 37.16 per cent in the halls and University houses. Of the others 15.66 per cent lived in approved houses and 15.24 per cent in sorority houses. 240 students were at least partially self-supporting.

Mr. Hoy reports that 2,811 students matriculated; of the underclassmen 543 entered on Regents' credentials, 646 on school certificates. 7 by examination, and 23 by College Entrance Board examinations. There were in attendance 440 graduates, 261 five-year students, 1,380 freshmen, 1,361 sophomores, 1,140 juniors, and 1,028 seniors. The University has now conferred 22,541 degrees, of which 2,217 were second or advanced.

The Librarian reports that the Library now has a total of 655,086 volumes. During the year 13,828 volumes were added to the collections. The Library has been open during the year 309 days. The increased use of books in the reading room, 133,389 as against 119,342 last year, indicates the need for greater accommodation for readers. The list of publications by the University and its officials fills 21 pages, which is about the same as last year.

INTERCOLLEGIATE NOTES

MICHIGAN has just added a fifth year to its engineering course. For the present it is to be optional with the students, but, as *The Michigan Alumnus* remarks, "it is

not difficult to foresee the logical development of the Engineering College, in the future, into a graduate department, with the same requirements of at least two years literary work and a literary as well as a professional degree, as we find in the Medical and Law Schools.

AT BROWN this year there are 410 from Rhode Island, 240 from Massachusetts, 137 from New York, 109 from New Jersey, 99 from Connecticut, and 33 from Pennsylvania.

THE NEW DIRECTOR of athletics and physical education at Minnesota is Fred W. Luehring, who goes from the University of Nebraska. He is a graduate of Northwestern and did graduate work at Chicago in economics. He will have the rank of a dean and will probably receive the regular salary of such an officer—\$6,500 or \$7,000.

RUDOLPH BLASCHKA, the artist who, with his father, modeled the celebrated glass flowers in the Harvard Botanical Museum, has begun work on a supplementary collection of grasses and sedges. The collection as it now stands illustrates 160 families of flowering plants, 540 genera, and 803 species, and there are more than 3,200 analytical magnified details. All the specimens made since 1895 are the work of Rudolph Blaschka, who has worked alone.

FACULTY NOTES

ORA M. LELAND, Dean of the colleges of architecture and chemistry of the University of Minnesota, is president of the Minneapolis-St. Paul Post of the Society of American Military Engineers. As a colonel in the Engineer Reserve, he has been assigned to command the 313th Engineer Regiment, 88th Division, United States Army.

PROFESSOR CHARLES R. STOCKARD of the Medical College, recently delivered several addresses at Agnes Scott College, Atlanta, Georgia, where he was the guest of the Georgia Biological Association.

PROFESSOR SAMUEL L. BOOTHROYD, of the Department of Astronomy, who assisted in determining the Alaskan boundary, spoke in White Hall on April 26, under the auspices of the Parabola Club, on "Results of the United States Geodetic Surveys in Relation to the Density of the Earth's Crust."

PROFESSOR HENRY S. JACOBY spoke at the Cosmopolitan Club on April 25. In the development of his theme "Religious Illiteracy," he cited statistics to show the great laxity in religious education in this country and, after demonstrating that intelligence and religion ought to

be coextensive, expressed his hope in the efficacy to that end of the proposed system of religious education paralleling the modern system of public education.

PROFESSOR GEORGE A. WORKS, of the Department of Rural Education, addressing a meeting of the ninth Annual Schoolmen's week held on April 21 at the University of Pennsylvania, advocated a system of consolidated schools that should make more adequate provisions for high school education for the rural population.

THE FACULTY of the Department of History journeyed *en masse* to Cazenovia to attend a "spring meet" of historians and history teachers of New York State held there over the week-end April 29-May 1. The get-together included golf as well as history in what was, presumably, ideal proportions.

W. OLIVER STRUNK '21, son of Professor and Mrs. William Strunk, Jr., who is studying music with Christian Sinding, has composed an orchestral symphony which will be tried by the Buffalo Symphony Orchestra.

DEAN DEXTER S. KIMBALL returned on April 28 from Annapolis, where he attended the sessions of the Board of Visitors of the United States Naval Academy, to which he was recently appointed by President Harding.

OBITUARY

Mrs. Burt G. Wilder

Notice has just been received of the death of Mary Field Wilder, the wife of Dr. Burt G. Wilder, on February 14 in Stoneham, Mass. The cause of her death was Bright's disease. She had been ill since fall, and was at the time in a private hospital in Stoneham, where one of the medical staff is Dr. Evelyn G. Mitchell '02, a former pupil of Professor Wilder. Dr. and Mrs. Wilder were married on June 11, 1906.

John C. Stevenson '77

John Chiles Houston Stevenson died of bronchial pneumonia on January 5 at his home in San Francisco, Calif.

Mr. Stevenson received the degree of B.S. at Cornell in 1877, and was a member of Theta Delta Chi. He practiced law in New York as a partner in the law firm of Duer, Strong and Whitehead until 1915, when he suffered a severe nervous breakdown which necessitated his retirement from his profession and his removal to the coast, where he recovered his health and strength. He and Mrs. Stevenson made their home in San Diego until 1919, when they moved to San Francisco.

He is survived by his widow, Nellie Strong Stevenson.

Addison D. Merry '80

Addison Delevan Merry died suddenly on April 23 at his home, 1640 South State Street, Syracuse, N. Y. Death was due to heart disease.

Mr. Merry was born in Phoenix, N. Y., on January 6, 1860, a son of Mr. and Mrs. Edmund Merry, and received the degree of B.S. at Cornell in 1880. Later he studied law, and began the practice of that profession in the office of Judge C. W. Avery in Phoenix. In 1900 he went to Syracuse, where he formed a partnership with his son, G. Harold Merry, with offices in the Dillaye Memorial Building, under the name Merry and Merry.

He was a member of the Onondaga County Bar Association and the Danforth Congregational Church. Surviving are his widow, Carrie V. Merry, two sons, Dr. Albert E. Merry, D.V.M. '06, and G. Harold Merry; a daughter, Caroline Merry Canfield, A.B. '11, the wife of Robert W. Canfield, M.E. '10; and a sister, Mrs. C. E. Duell.

George B. M. Snyder '92

George B. McClellan Snyder died at Eagle Pass, Texas, on March 16; he had been in poor health for the past year.

He was born in Newfield, N. Y., on September 2, 1866, and after attending the schools of that place he entered the University, receiving the degree of B.S. in 1892. Then he went to Texas, and for the next three years he taught school in Brecketville, Texas. On May 9, 1902, he was elected superintendent of the Eagle

Pass High School, holding this position until 1910, when he went to Perryville, Mo. He taught in Perryville until 1914, returning then to Eagle Pass to take charge of the High School, and remaining in this service until the time of his death.

The Eagle Pass News Guide says of him: "Through incessant toil and the highest type of loyalty he has raised the Eagle Pass High School to a position of first rank in the state and to a rank of fifth with the University of Texas. Exacting in his work and with the highest ideals, he established a standard of educational efficiency toward which this school has worked undeviatingly. The efficiency of his work and the high ideals that he has set up have won him strong and true friends here. He has been unable to take an active part in school work during this term, but even in his last illness his thoughts were with the school, and his suggestions and id as still influenced the plans for the year's work."

He is survived by his widow, Fannie Browder Snyder, and a brother, Frank Gerome Snyder '93.

Loren F. Collins '12

Loren Fletcher Collins died on April 6 at his home in Minneapolis.

He was born in St. Cloud, Minn., on October '7, 1887, a son of Mr. and Mrs. L. W. Collins. He attended the Minneapolis East High School and the University of Minnesota, coming to Cornell in 1908, and graduating in 1912 with the degree of B.Arch.

In the fall of 1912 he became associated with Harry W. Jones, architect, of Minneapolis, and two years later he became a member of the firm of Hartzell and Collins, architects, of Minneapolis. He left his practice to enter the service, and enlisted as a private in Company E, 313th Engineers, stationed at Camp Dodge, Iowa. Later he was transferred to the Machine Gun Company of the 326th Infantry with which he served in France. Since his return from the service he had been associated with the Collins-Kennison Company, architects, engineers, and managers of building construction, of Minneapolis.

He leaves his widow and two sons, aged one and three.

COLONEL J. C. NICHOLLS, commandant of the Military Department, has been appointed camp commander of the summer infantry camp at Plattsburg.

PROFESSOR EVERETT L. HUNT was elected president of the Eastern Public Speaking Conference for the ensuing year at the convention held under the auspices of the University of Pennsylvania at Philadelphia on April 17 and 18. Professor Alexander M. Drummond and Hoyt H. Hudson also attended from Cornell. Mr. Hudson read a paper on "The Field of Rhetoric."

ALUMNI NOTES

'87 PhB—Francis Leon Chrisman has been ill for some time at his home, 18 Chestnut Road, Verona, N. J. He expects to go to Europe as soon as his physicians will permit him to do so.

'89; '93—At the annual meeting of the New York State Medical Society, Dr. Arthur W. Booth '93, of Elmira, was elected president for 1922-3, and Dr. Nathan B. Van Etten '89, of New York, was elected vice-president. Dr. Van Etten's address is Anthony Avenue and 177th Street, New York.

'91-2 G—Dr. Vernon L. Kellogg, secretary of the National Research Council, will deliver the Phi Beta Kappa address at Oberlin College on May 4.

'96 PhD—Since 1910, John Franklin Brown has been editor of secondary school textbooks for the Macmillan Company, New York. He lives at 51 Ellenton Avenue, New Rochelle, N. Y.

'98 AB—Frank E. Gannett '98, Edwin R. Davenport, and Woodford J. Cope land, who control *The Rochester Times-Union* and *The Elmira Star-Gazette*, have recently acquired the entire stock of the Utica Sunday Tribune Company, publishers of *The Utica Herald-Dispatch*, a daily evening paper, and *The Sunday Tribune*. Mr. Gannett is also the publisher of *The Ithaca Journal-News*. The four evening papers will be operated as a group, the same policy being pursued in each. Mr. Gannett will be editor-in-chief of the *Herald-Dispatch*.

'00 CE—William C. Spiker is president of the Atlanta, Ga., section of the American Society of Civil Engineers.

'01 BSA—Delos L. Van Dine, entomologist in charge of the Mound, La., laboratory of the United States Bureau of Entomology, has accepted a position at Pennsylvania State College. After May 15 his address will be State College, Pa.

'08 CE—Major Richard S. Dodson, C. A. C., is stationed at Fort Mills, P. I.

'08 AB—Following is an extract from a letter from Dean L. Kelsey '08, of Nanking, China, dated March 27, 1922: "Our work in China at present is very interesting for the people are taking more interest in National and international affairs than ever before. They had hoped for more than they got from the Washington Conference but I think they are beginning to see that they really got a lot and a chance to get more if they can control their own internal affairs and carry out the program made at Washington. Just at present we are looking forward to the World Student Christian Federation Conference in Peking early next month. Dr. Mott has already reached Peking and will probably visit us here in Nanking the middle of next month. We have had delegates here from

France, South Africa, England, Poland, Russia, Indo-China, Norway, Sweden and one or two of the smaller countries of Central Europe. You see we may be in the Central part of China but we are not buried by a long shot. We have nearly 3,000 members in our Y here so you see we have some job to carry on work for this number of men and boys besides reaching out to touch the lives of hundreds who are not members. One of our side lines is a school of 427 boys. This would make a pretty good sized school in America and keep a number of people busy. We have 920 men and boys in Bible classes besides over 200 students in the Government School studying the Bible each week. These few figures will show you that our work is varied and interesting and to keep it all going you can guess that we don't run out of something to do very often."

'09 ME—Harrison P. Reed, for many years electrical engineer with the Cutler-Hammer Manufacturing Company of Milwaukee and New York, and more recently head of the elevator department of that company, has accepted a position as general manager of the A. Kieckhefer Elevator Company of Milwaukee. Reed is a frequent contributor to engineering publications, and he recently read a paper on "Electric Power Application to Passenger and Freight Elevators" before the American Institute of Electrical Engineers, of which he is a fellow. He has also been chairman of the Milwaukee section of the American Institute of Electrical Engineers, and is a member of the Engineers' Society of Milwaukee. He assumed his new duties on May 1.

'10, '11 BChem—Mr. and Mrs. Charles Jay Oppenheim of New York have announced the engagement of their daughter, Marjorie, to Donald Frazer Crane '10, of Brooklyn. Miss Oppenheim has just returned from France, where she has been studying in Château Grosley School. During the war, Crane was a first lieutenant and served overseas with the 308th Field Artillery and with the Baltic Mission. The date of the wedding has not been announced.

'11 AB—The Rev. Raymond H. Fuller was ordained to priesthood by the Rt. Rev. Charles H. Brent, D.D., Bishop of Western New York on March 10, in the Chapel of the Holy Innocents, Buffalo, N. Y. Mr. Fuller will continue in his present work as associate civic chaplain and as chaplain of the Episcopal Church Home, Buffalo. He lives at 237 North Street.

'11 BSA—Twins, a son and a daughter, were born on November 7, 1921, to Mr. and Mrs. Claude A. Cole, R. D. 4, Syracuse, N. Y. They have been named David Parsons Cole and Helen Parsons Cole. Cole is a chemist with the Solvay Process Company, in charge of technical service.

'12 AB; '12 AB—Mr. and Mrs. Karl E. Pfeiffer (Anne Bullivant '12) announce

President Farrand has given this authorized statement:

"I say frankly and at once that so far as I have been able to see your work, to analyze and follow the lines of your policies, it has my complete endorsement. I am not in the least interested in dogmatic theology or in points of denominational discussion. I am much interested in how religion expresses itself, but not in the particular form in which it may be clothed. Broadly conceived religion is absolutely necessary for the full development of human life. I do not believe that any community or group can exist without religion of some sort.

From the university standpoint, what appeals to me most in your program and policies is the broad point of view which you have adopted and your openness to suggestions at all times. I confess that my first approach to your work was with some hesitation, for I have seen this kind of work carried on in other institutions in such a way that it was necessary to put it out of business, in order that there might be a clean slate for the development of a wiser and broader policy, and the opportunity to build up a sound and enduring representation of religious interests. I think, however, that if I had been laying out the program for such work myself for Cornell, I do not know what I would have changed or any policies which I would now alter. I am, therefore, all the more keen in my anticipation for the future of this effort.

This work must be based upon broad sentiment and strong traditions which must be passed on from generation to generation of undergraduates. I am much encouraged by the spread throughout the undergraduate body of an interest, which I am assured is present, in that group of ideals which is very closely associated with what we call the religious life. So long as the present broad basis for this work is maintained, so long as it is not conceived along narrow or denominational lines, so long as it is conducted along the lines now laid out, it will have the unqualified support of the administration of the University."

But the Cold Fact Is

This work can not be continued unless Cornell Alumni in large numbers get back of it now and subscribe to its support. Its authorized appeal is for \$12,000.

I hereby subscribe \$.....to the Cornell University Christian Association, payable as follows:

CORNELL SONGBOOK

Most people can sing and wish that the singers agreed on the way a song should be sung. If both learn the song, they will agree. You should agree with your neighbor when singing the Cornell songs. Buy a songbook.

The price is only \$1.75.

CONCERNING CORNELL

Another book of vital interest to Cornellians. It contains a history of the University and a good description of the Campus. You will want to refresh your memory concerning student life. The cloth bound edition sells at \$3.50 and the leather at \$5.00. *Postage is paid by us.*
