VOL. XXV, No. 9

ITHACA, N. Y., NOVEMBER 23, 1922

PRICE 12 CENTS

GAVIN HADDEN, a construction engineer who, as a specialist in the design of athletic stadia was in charge of the enlargement of Franklin Field, has been retained by the Athletic Association to draw plans for the gradual enlargement of Schoellkopf Field to its ultimate capacity, estimated to be about thirty thousand. The first step, it is proposed, will be to extend the east stands up over the present automobile parking stands which will increase the number of seats from nine thousand to about twenty thousand.

TWENTY-SEVEN fraternities have registered for active participation in the interfraternity basketball league, the date for the first game being set for December 2.

A CONFERENCE for women on the subject "The Position of the Church in the World Today" was held in Barnes Hall, under the auspices of the Y. W. C. A. on November 17-20. Representatives of six denominations led discussion groups and conducted individual conferences.

THE MARBLE SEAT south of Goldwin Smith Hall has been encased in its wooden shed in preparation for the winter. Being of Italian marble, the seat is likely to be seriously damaged by the cold weather of this climate. Already the sun dial has had to be replaced, and several cracks have appeared in the seat itself.

A BOWLING LEAGUE is the latest addition to the list of interfraternity league contests. Matches will be held between teams of four men each. A silver cup has been donated as trophy for the winning team, as has also a prize for the man who rolls the highest score.

CORNELL MUSICIANS will participate in the intercollegiate glee club contest to be held in Carnegie Hall, New York, on March 3. The winners of a similar contest held earlier in the Middle West are expected to appear with the Eastern representatives.

SAGE CHAPEL PREACHER for November 26 will be the Rev. Shailer Mathews D.D., LL.D., Dean of the Divinity School, University of Chicago. At the Current Events Forum in Barnes Hall that afternoon Dr. Mathews will speak on the subject, "Have We Outgrown American Democracy?"

THEODORA LEISNER FAUST, soprano, will give a Brahms song recital on November 24 in Barnes Hall auditorium under the auspices of the Deutscher Verein. Professor James T. Quarles will be the accompanist.

STUDENT PUBLICATIONS from Cornell

won first place among those from thirty-seven colleges and universities in an exhibit held in connection with the annual convention of Sigma Delta Chi, national professional journalistic fraternity, at Manhattan, Kansas, last week.

FALL TRACK ACTIVITIES have come to an end insofar as they include the holding of trial meets. For the remainder of the outdoor season light workouts will serve to keep the men in condition for entering upon the indoor season.

THE NEW FLOOR recently laid in the Drill Hall for permanent service, is warping and buckling as a result of leaks in the roof. The roof is now being patched.

TAU BETA PI, honorary engineering society, has elected the following members from the junior class: Edgar C. Goodale of Riverhead, N. Y.; William B. Gregory of New Orleans, La.; William H. Horne, Jr., of Rocky Mount, N. C.; Charles F. Kells of Astoria, L. I.; Eduardo D. Luque of Mexico City; Malcolm S. Mellroy of Newark, N. J.; Kenneth W. Pflieger of Arlington, N. J.; Bartlett Richards of Ellsworth, Nebr.; Laurens A. Taylor of Geneva, N. Y.; Harland P. Bosworth, Jr., of Buffalo; Michael W. Hourigan of Brooklyn, N. Y.; Earle N. Scott of Detroit, Mich.; Carroll B. Barbour of Ridge-way, Pa.; Henry C. Howell of Boonton, N. J.; Thomas K. Hendryx of Ithaca; and from the sophomore class Luke M. McVeigh of Saratoga Springs, N. Y.

EXCAVATION has been begun for the addition to James Law Hall, the first Veterinary building, for which more than \$90,000 has been appropriated. The new wing will contain a complete laboratory for experimental work, besides offering space for the enlargement of the administration offices and auditorium.

VARSIITY BASKETBALL has started with about thirty candidates playing daily on the new court in the Drill Hall, which is held to be one of the best in the East. Luther, Capron, Crabtree and Wedell of last year's team are eligible this year, and it is expected that several members of the football team will report, after the end of the season, for basketball.

THE ARCHITECTS have voluntarily subscribed a considerable sum for Miss E. I. Steele, the librarian of the College of Architecture, who has been ill during the past summer and is now only slowly recovering. Miss Steele has endeared herself to all the students by her kindly interest in their problems, as well as by her personal efficiency.

THE WOMEN'S RIFLE CLUB opened

its season officially on November 20, under the charge of Captain Dubois. As a result of semi-weekly practice shoots, a team will be chosen to represent Cornell against other universities. This is the only form of intercollegiate sports in which Cornell women take part.

THE LIBRARY CLOCK is now under the complete control of the master clock designed by Professor George S. Moler '75. Adjustments have been necessary to arrive at the present standard of accuracy, by which the beginning of the first stroke of the hour-chime marks the exact time. Variations during adjustment show constantly decreasing discrepancies since October 24, on which day the clock was but one and one-half seconds out of the way.

INTERCOLLEGIATE CONTESTS for women may grow out of the conference of women's athletic associations at Cornell recently. Two restrictions that are to govern participation require that teams shall not travel far, nor shall they incur heavy expenses.

WOMEN'S DRAMATICS at Cornell were represented at a national convention of college women's dramatic clubs held at Barnard College recently. The Ithaca delegates were Edith Severance '23, of Buffalo, and Beatrice L. Ecks '24, of New York.

A SLIGHT DECREASE in the registration of winter course students in agriculture is noted this year, and is thought to be a reflection of economic conditions on New York farms.

A LARGE-SIZED SKUNK has been infesting the Campus recently, and seems to have a preference for the vicinity of Morse Hall, where he climbs up on the window sills and looks in, possibly in recognition of kindred aromas among the chemicals.

TWO CALENDARS will be issued this year at Cornell,—the usual Troy calendar of Campus views, and another, somewhat similar, but more pretentious and expensive.

SEVENTY-FOUR students from other colleges and universities transferred to the College of Agriculture this year, including some from China, France, England, Norway, and Canada. Forty-one, or fifty-six per cent, are men. Five came from Columbia; other institutions with several representatives are California, Cincinnati, Pennsylvania, Dartmouth, and College of the City of New York. While some came into the freshman class, 73 per cent are above that class; of all entering with some advanced standing, six are seniors, 18 are juniors, 25 sophomores, and 18 freshmen, with 67 of the 74 in regular standing, and the other 7 special students.

Announce New Director

Trustees Appoint Professor Paul M. Lincoln to Head Electrical School.

Paul Martyn Lincoln of Cleveland, Ohio, was elected professor of electrical engineering and Director of the School of Electrical Engineering at Cornell by the Board of Trustees on November 18. He succeeds the late Professor Alexander Gray.

Professor Lincoln was born at Norwood, Michigan, in 1870. After attending Western Reserve University, he studied engineering at the Ohio State University and graduated in 1892. He was with the Westinghouse Electric & Manufacturing Company of Pittsburgh for three years, and electrical superintendent of the Niagara Falls Power Company for seven years, at the beginning of the modern power development there. He then returned to the Westinghouse Electric & Manufacturing Company as engineer of its power division and later became its general engineer. He was head of the electrical school at the University of Pittsburgh from 1911 until 1915, while still carrying on his work with the Westinghouse Company. For the past three years he has been consulting engineer of the Lincoln Electric Company of Cleveland.

He is a member of the American Institute of Electrical Engineers and was president of the Institute in 1914-15. He is also a member of the American Society of Mechanical Engineers and the American Electro-Chemical Society. The Franklin Institute of Philadelphia awarded him the John Scott Medal in 1902 for his invention of the synchroscope which is now in universal use on alternating current machines. He is the author of many contributions to the technical press.

Director Lincoln took up his duties at

Cornell on November 1 and his balance, tact, sound judgment, optimism, and human sympathy have already made him a place among those who know him.

SPORT STUFF

Nothing happens now until the Thanksgiving Day game with Pennsylvania. After that nothing happens some more. By Faculty action the period between Thanksgiving Day and Christmas has become a session of peace—a Truce of God—wherein no games may be played and exercise is to be obtained in the lifting and opening of large, heavy books.

Loud cheers from the Athletic Association on that bit of legislation. By the time the football season is over, everyone has had plenty and the office force, the compets, and the managers are trained down pretty fine.

Remains the Thanksgiving Day game—a matter that no Cornell man with a pennyweight of brains and an ounce of memory will take lightly. The best advice to old grads is that they devote the week to prayer and fasting, suppressing sternly any inward tendency to vainglory or to premature purchase of Roman candles. The road back from Franklin Field is margined by the bleached remains of fire works for which no use was found through many years. Any Cornell man who bets on that game this year ought to see a specialist and have his brains searched for flaws and blow-holes.

R. B.

FARRAND AT SYRACUSE

President Farrand extended the greetings of Cornell to Syracuse University at the inauguration of the new Chancellor, Charles Wesley Flint, on November 17. At the banquet given the evening before for the guests at the inauguration, he spoke of the problems of the modern university in gaining the support it deserves from society, and offered the friendship of Cornell to the new chancellor.

Entertained at luncheon on November 16 by more than a hundred members of the Cornell Club of Syracuse, President Farrand was introduced by A. Lee Olmsted '93 in the following words:

"I hope that the next time you come over here to meet us you will have the Big Red Team with you and we'll hold the meeting up in the stadium on the hill."

President Farrand replied: "I have only one objection to that and that is a general one based on principle. I'm old-fashioned enough to believe in the subordination of the athletic to the academic, and I'm afraid that if the team and myself came over here together, the President would have to take a back seat while attention focused on the team."

THE SUN has announced the election of Robert C. Ludlum '25, of Chevy Chase, Md., as an associate editor.

President's First Report

University Needs More Free Income and Several Buildings, Farrand Declares

That Cornell needs additional unrestricted income of not less than \$265,000 a year is the significant statement made by President Farrand in dealing with the University finances in his first annual report, submitted to the Board of Trustees of the University at their annual fall meeting on Saturday, November 18. In speaking of the University's financial needs the President pointed out that the Semi-Centennial Endowment Campaign saved Cornell from disaster and injected new spirit. It did not, however, place Cornell in a position of safety.

The President's report is one of the shortest on record. Dr. Farrand took up in a brief but clear manner the progress of the year, and outlined some of the needs of Cornell for the future.

Following the announcement of the deaths and resignations depleting the rank of the Faculty, President Farrand listed the appointments to the teaching staff. In part the report follows:

May Limit Numbers

"The official enrollment of students for the year closing June 30, 1922, was 5,681. This figure shows practically no variations from that reported for the preceding year, namely, 5,668. The problem of adequately caring for this number of young men and women continues one of the most difficult of those with which the University is confronted. The situation at Cornell is in no way unique but exists in practically every college institution of standing in the country. The flood of applicants for admission to the various colleges of the University has resulted in an inevitable tightening of the requirements for entrance, but in spite of this fact the number of those applying in nearly all of the colleges is greater than the facilities of the University can accommodate. This is particularly true in the Colleges of Arts and Sciences and of Engineering. Careful and continuous study is being given to the question of ways and means of limiting the number of admissions to the endowed colleges of Cornell and if the present pressure continues, as it seems likely to do, definite recommendations as to formal limitation of numbers may be made.

"As to the general condition of the student body, it is gratifying to report that the year just closed was marked by a sound student morale and by evidence of a sense of responsibility and serious purpose which is most encouraging. This was shown by the progressive development of the system of student self-government under the leadership of the Student Council, by the improvement in most respects of the operation of the honor system and by the promising effort made by the student body to control the liquor prob-

lem, which last has proven so baffling in many of our American colleges."

After discussing new and projected buildings, Dr. Farrand went on:

"One of the most important steps taken during last year was the appointment by the Board of Trustees in April of a Plan Commission to consider the future material development of the University and to make definite recommendations to the Board of Trustees as to the ways and means of providing a permanent plan for the development of the Campus and the character and location of future buildings to be placed thereon. Under the chairmanship of Dean Bosworth of the College of Architecture, this commission is actively working and gives promise of offering for the first time a thoroughly considered plan of future development for the University.

Must Strengthen Faculty

"The question of possible restriction in numbers of the student body has already been mentioned. Coincident with this and of equal or even greater importance is the necessity of strengthening the teaching force of the University. The notable personalities of the early Faculty have now necessarily for the most part passed from the field. Successive annual reports show the retirement of eminent figures whose places in many instances have remained unfilled. It is clear that unless vigorous measures are taken a serious situation will develop. The economic competition of business and professional life has for several decades rendered more and more difficult the recruiting and maintaining of the ranks of university teachers of the first quality. No university has been able completely to meet this situation but the steps taken in certain of our sister institutions have served to place Cornell in a position of distinct disadvantage.

"Nothing but the loyalty of the Faculty has enabled Cornell to hold her teaching force in face of competing calls of larger remunerations from other universities.

"This situation which had been slowly developing for more than two decades became alarming a few years ago and was fully set forth at the time of the Endowment Campaign. The splendid response of the alumni in that effort saved the University from disaster and injected new spirit. It did not, however, place Cornell in a position of safety, much less in one of advantage in relation to the other universities of equal rank. Additional unrestricted income of not less than \$265,000 a year is imperatively needed at the present time to meet existing demands without considering extensions of any type however important.

"Increase in permanent endowment is relatively difficult to obtain but its necessity must be kept constantly before the Trustees. Undoubtedly the most important plan to meet this situation is that of the Cornellian Council, which organization

has already demonstrated its indispensable value and deserves the earnest support of everyone interested in the welfare of Cornell.

"Of the building needs of the University, while there are many which might be enumerated, it may be well to mention specifically those most evident. From the point of view of academic provision, the pressure in the College of Agriculture is possibly most keenly felt. This, however, is a problem for the State and it is hoped that the building program already authorized in general terms will be speedily realized and additional buildings provided by the Legislature which meets during the coming winter.

"Almost equally desperate is the situation which has now developed in the College of Engineering. Many of the buildings and laboratories which house that important college are old and inadequate and must be replaced at the earliest possible moment. The position of leadership won and maintained by the College of Engineering cannot be allowed to be lost through lack of simple material facilities for instruction and research. The Plan Commission is giving special attention to this particular problem and it is expected that definite recommendations as to the building requirements of the College of Engineering will be presented to the Board of Trustees at an early date.

Need New Buildings

"One of the distinguished features of Cornell in which the University takes just pride is the Library. The present building is already outgrown and is totally inadequate, both from the point of storage for books and of reading room facilities for students. Definite plans for enlargement or for rebuilding should be made without delay.

"The College of Arts and Sciences has outgrown the accommodations provided by Goldwin Smith Hall and until relief in other buildings is offered a situation of difficulty will continue.

"The encouraging development of the College of Architecture and the recognized demand for further attention to the field of fine arts in general make the provision of a building for those departments a necessity of the near future.

"Turning from the demands for teaching and research much remains to be done at Cornell in adequate care of the students. The provision by Mrs. Straight of a center for the social life has served to bring out in sharper definition the lack of adequate gymnasium facilities. Cornell is now developing, through the efforts of the Athletic Association, athletic fields and equipment which when completed will equal, if not excel, the best in the United States. Plans are under way to develop the playing fields provided by the alumni some years ago and lying to the east of the Drill Hall which will offer natural advantages for outdoor sports of

an unrivaled character. The growing and healthy interest in sports and physical exercise, brought about during recent years in spite of practically total absence of gymnasium facilities, is a remarkable achievement. It is to be hoped that the Board of Trustees will cause to be prepared upon recommendation by the Plan Commission, definite plans for an adequate gymnasium building and that sustained effort to provide this building will be undertaken.

Lack Living Places

"The need of largely increased dormitory provisions for the student body is also outstanding. Enough has been built of the residential halls group to demonstrate not only the superb architectural addition made by each successive unit of that group, but the value to the University in the provision of living quarters for the men students at a reasonable cost. Additional housing facilities for women students must also be provided and the Trustees have already authorized the preparation of plans for a complete residential unit for women on the north side of Beebe Lake.

"Increased provision for the administrative activities of the University is also pressing but can be partially met, or at least adjusted if relief in the fields enumerated above is obtained.

"It is encouraging to note that, while the general requirements of a modern university of the type of Cornell are indefinitely large and will probably always remain so, the building requirements are capable of definition and limit and, in our own case, are not beyond the hope of relatively speedy realization. Such generous provision has already been made in many directions that no unreasonable sum is called for to complete a relatively adequate equipment.

"A development to which the Plan-Commission is giving especial attention and in which every Cornellian should take interest and pride is that of the University Campus. Its unrivaled natural advantages should be realized and this can be done without excessive cost. The development of permanent landscape plans presents a problem of great complexity and difficulty, however, and will require the most careful and expert study.

"Within recent years another difficulty has been injected by the increase in the use of automobiles and a new aspect given to the traffic problem on a campus as large as that of Cornell. Without suggesting a definite solution at this time it is obviously necessary that the Trustees take under consideration the immediate necessity of dealing with the existing menace and nuisance of automobile traffic and parking within the limits of the University grounds.

"In closing this brief initial report may I express my thorough appreciation of the friendly, patient cooperation which has been extended to me during the year by

Trustees, Faculty, students, and alumni. There is no larger opportunity than that which lies before a great American university. Its problems are infinite and their solution seldom obvious. Solution is always possible, however, provided idealism, vitality, and unity of purpose are maintained and these are present in full measure in this University. They are the sure guarantee of the future, and the privilege of working for the realization of Cornell's ideals is one which I deeply appreciate."

QUAKERS INVITE ALL

The annual Thanksgiving football dinner rally of the Cornell Club of Philadelphia will be held at the clubhouse, 1223 Locust Street, November 28, at seven o'clock. All Cornell men are invited.

NEW YORK ANNOUNCES BANQUET

Cornell men of New York City and the surrounding country will gather at the Waldorf Astoria on December 8 for the annual banquet of the Cornell Club of New York. The speakers will be President Farrand and two well known alumni, to be announced.

Invitations are being mailed to the seven thousand living near the city, including those in northern New Jersey. A general invitation goes to all Cornell men. Tickets may be procured at five dollars each from Willard I. Emerson, '19, Hemphill Noyes and Company, 37 Wall Street, New York.

CHICAGO TALKS BUILDINGS

Thomas E. Donnelley, president of R. R. Donnelley and Sons Company, and chairman of the Chicago Citizens Committee to enforce the Landis Award, was the guest of the Cornell men of Chicago at the weekly luncheon at the Hamilton Club on November 16. Mr. Donnelley talked of the building situation in Chicago.

LOUISIANA FOLLOWS GAME

The Cornell Club of Louisiana saw the Dartmouth game on a blackboard in the dining room of the St. Charles Hotel in New Orleans at an Armistice Day smoker.

E. Lysle Aschaffenburg '13 was master of ceremonies and had charge of the arrangements for the party. Willard R. B. Hine '19 kept the diagrammatic record of the game on the blackboards as plays came in over the wire. Report is that the enthusiasm of the "stands" rivalled that at the Polo Grounds.

Twenty four Cornellians, two Dartmouth men, and one from Lafayette enjoyed the game and the buffet lunch which followed, together with smokes, yells and songs.

PENALIZED FOR HOLDING

City Judge Daniel Crowley '07 strengthened the cordial relationship which exists between Cornell and Pennsylvania when he suspended sentence on Robert S. Cowperthwaite, goal keeper on the Pennsylvania soccer team which played here Satur-

day. It is said that Cowperthwaite had been in Ithaca before; at least he admitted to the judge that he was anxious to get up the Hill on Friday evening, so he ran after a trolley car which didn't stop for him and pulled the trolley from the wire. Unfortunately for him, one of passengers on the car was a patrolman, who detained him long enough to deposit bail for his appearance in the morning.

Judge Crowley in suspending sentence said he did not wish to take any action that might be misconstrued as interfering with athletic relations between the two universities, but he made it plain that his decision in this case was not to be taken as a precedent and that future offenders might not expect similar concessions.

JUNIOR JOURNALISTS MEET

The Cornell Chapter of Sigma Delta Chi, national professional journalistic fraternity, entertained last week in Barnes Hall the second annual convention of the Eastern Interscholastic Publications Association, an organization of high school editors and managers which was formed at a similar meeting here last year. Thirty-six delegates from New York and other states registered for the conference Friday morning and were the guests of the Athletic Association at the football game on Saturday.

Two general meetings in Barnes Hall and one in *The Widow* office were devoted to discussions of the junior journalists' problems in which they exchanged ex-

LAWYERS CELEBRATE THIRTY-FIFTH BIRTHDAY

Anniversary photograph of alumni, students, Faculty members, and friends on November 4

Photo by Troy

periences and compared them with the practices of the various Cornell publications. At luncheon in the Coffee House on Saturday a silver loving cup was awarded by the fraternity to *The Clarion* of East High School, Rochester, N. Y., for general excellence among the papers exhibited at the convention, and second and third awards were announced. Delegates, among whom were a number of girls, were entertained at Cornell fraternity and sorority houses.

CLEVELAND HAS WITT

In this case it was not Bub North with his original line of wit but Peter Witt as speaker at the regular weekly meeting of the Cleveland club on November 16. An unusually large number turned out to hear Mr. Witt, who is a well known consulting traction engineer, tell about the new Cleveland Union Depot.

CONSIDER SCHOOL PROBLEMS

Professor Riverda H. Jordan of the Department of Education will be Cornell's delegate at the annual convention of the Association of Colleges and Preparatory Schools of the Middle States and Maryland which will be held at Wilmington, Delaware, on December 1 and 2 under the auspices of Tower Hill School.

President Farrand has accepted an invitation to take part in a discussion of the increasing numbers in schools and colleges, speaking on the problem of finance and equipment to keep pace with growth.

OBITUARY

Eliot M. Henderson '88

Eliot Middleton Henderson died on October 7 at Summit, N. J.

He entered Cornell in 1884, in the course in mechanic arts, remaining two years. He was a member of Alpha Delta Phi, the Glee Club, and the Freshmen Social Club.

Surviving are his widow and two children.

W. Maxwell Wood '08

William Maxwell Wood died last spring in Portland, Oregon.

Wood was born on January 23, 1884, a son of Mr. and Mrs. C. E. S. Wood of Portland, and attended the Polytechnic University, Kathruhe, Baden, Germany, before coming to Cornell. He entered Sibley College in 1904, receiving the degree of M.E. in 1908. He was a member of Chi Phi and played in the Mandolin Club in his junior and senior years.

He was a brother of Berwick Bruce Wood '11.

Dr. Francis E. Shine

Dr. Francis Epps Shine, at one time an instructor in the Medical College in New York, died on September 8 at the American Hospital in Neuilly, France, at the age of fifty-one.

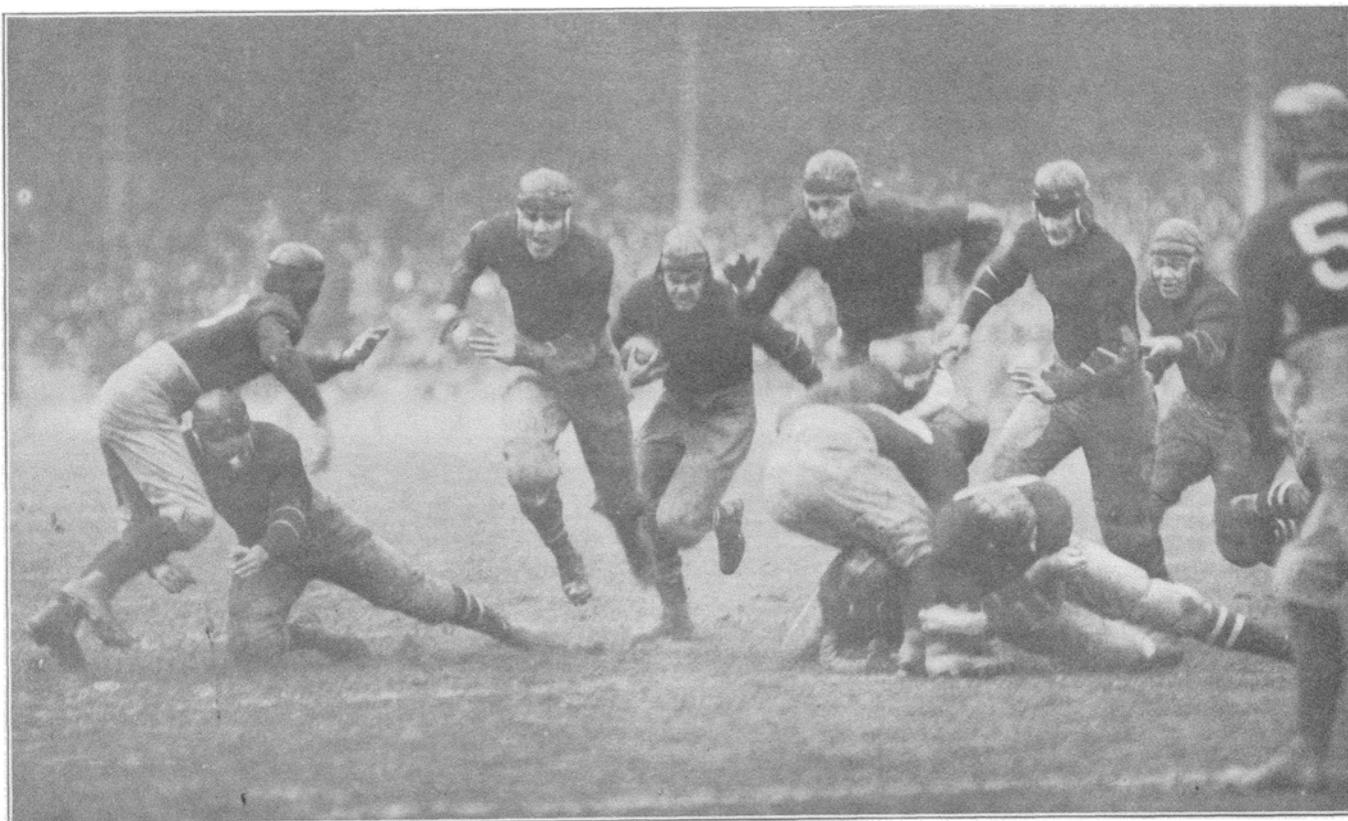

Dr. Shine was graduated from the Uni-

versity of Virginia, Department of Medicine, in 1895. He served as surgeon on board the Chinese Relief Expedition Hospital Ship Maine in 1900. In 1901-2 he became associated with the Medical College as clinical assistant in diseases of the genito-urinary system, and assistant attending surgeon to the Dispensary, Department of Genito-Urinary Diseases, and during the following year he was clinical instructor in diseases of the genito-urinary system, and attending surgeon to the Dispensary, Department of Genito-Urinary Diseases. He had also served on the staff of the New York Hospital, and was at one time chief surgeon with the El Paso and South Western Railroad. During the war he served in the Medical Corps, with the rank of major.

NEW YORK WOMEN ELECT

At the last meeting of the Cornell Women's Club of New York, the following officers were elected for the year: president, Margaret L. Stecker '06; treasurer, Mrs. Harry C. Blenderman (Helen Riedel) '03; secretary, Mrs. Herbert D. Williams (Nina Van Dine) '10; directors, Ina E. Genung '91, Esther M. Crockett '03, and Dr. Helen L. Young '00.

All Cornell women in and around New York are urged to ally themselves with the organization. The address of Mrs. Williams, the secretary, is 202 Riverside Drive.

KAW CARRIES THE BALL

When a natural runner is aided by such interference as this the result is obvious. Cassidy, directly in front of Kaw, has both feet off the ground; every man in the line is helping make a hole for the runner.

Kaplan News Service

Published for the alumni of Cornell University by the Cornell Alumni News Publishing Company, Incorporated.

Published weekly during the college year and monthly in July and August; forty issues annually. Issue No. 1 is published the last Thursday of September. Weekly publication (numbered consecutively) ends the last week in June. Issue No. 40 is published in August and is followed by an index of the entire volume, which will be mailed on request.

A Pictorial Supplement is issued monthly except in July and August.

Subscription price \$4.00 a year, payable in advance. Foreign postage 40 cents a year extra. Single copies twelve cents each.

Should a subscriber desire to discontinue his subscription a notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts and orders should be made payable to Cornell Alumni News.

Correspondence should be addressed—

THE PRESIDENT'S BIG ORDER

The first annual report of President Farrand gives a clear picture of a situation at the University that merits considerable thought, and some action. Briefly the University needs a quarter million dollars a year more of unrestricted income to maintain itself in its position in the educational world. He looks upon the Cornellian Council and the alumni as the main, almost the only, hope.

It is electrifying to learn that the President, who brings a point of view that is detached, free from sentimentality, and with a broad perspective, regards it as probable that Cornell will slip from the high position it has attained through years of effort, unless the need is met promptly and generously.

We may assume it as a fact that until Cornell secures five million additional unrestricted endowment, she must have annual gifts equal to the income from that sum. The problem is not one of ascertaining the truth, but the simpler one of raising the money.

What, then, does the job of the Cornellian Council amount to? In the first place there are some seventeen thousand subscribers to the Semi-Centennial Endowment and the Alumni Fund. We may

assume that these are the greater part of those on whom the Council can depend for help in their task.

The annual gifts to the Alumni Fund aggregate about \$70,000. This sum must be increased to about \$320,000 to supply the wind for the sails of the ship that is rigged and ready to go.

Either the average subscription of those that now give to the Alumni Fund must be increased from twelve dollars to about fifty-four dollars, or the combined list of benefactors will have to give an average of twenty dollars. It is not likely that many can be added immediately to Cornell's benefactor list. Nor is it conceivable that Cornellians will permit their University to slip back into the ranks of the second rate, mediocre, big university that does not really educate its students.

The amount per capita is not great. From estimates one can get, it is necessary only for the present benefactors of the University to give the equivalent of one day's income a year, with the willing horses as usual taking up the slack by giving enough more.

It is not an unprecedented order. At Yale, where alumni affairs have been in a stable condition for many years, a much larger annual sum is raised. It is, however, the largest job the Cornellian Council has undertaken. The Council has maintained the gait it attained before the endowment drive, though virtually in a state of enforced inactivity. There is every reason to believe that it is capable of a many fold increase.

The President can look confidently to the alumni to come through.

COMPTROLLER REPORTS DEFICIT

The deficit of \$61,985.50 with which the University ended its last fiscal year was caused by unusual expenses not contemplated at the time the budget for the year was adopted, according to the summary of the Comptroller's report appended to the President's annual report.

These expenses include "emergency repairs in the steam plant, repairs to Barnes Hall and its equipment, alterations in White Hall basement to provide room for the Department of Landscape Architecture, the expenditures incident to the inauguration of President Farrand and the remodeling of the president's house, the printing and distribution of the Alumni Directory, and the installation of electrical equipment given to the College of Engineering.

"The expenses of the state colleges at the university in excess of a certain income available from University and Federal funds are met from appropriations by the State of New York. The expenses of the Veterinary College were \$128,387.53 and those of the College of Agriculture were \$2,055,254.79.

"During the year \$61,373.32 was added to the subscriptions to the Semi-Centennial Endowment Fund; \$401,994.13 was

collected on account of the principal of subscriptions and \$74,142.39 on account of interest, leaving \$3,585,685.02 of subscriptions outstanding. Of the 8,170 subscriptions to the fund that have been handled through the treasurer's office, aggregating \$5,567,211.04, there are 738 subscriptions, nine per cent. of the total number, on which no payment or request for extension has been received. These 738 subscriptions amount to \$385,909, or less than seven per cent. of the total amount subscribed.

"The total for the year applicable to current expenses and exclusive of the state colleges was.....\$3,358,632.06 and the total expenses..... 3,510,856.64 making a deficit of income of \$152,224.58

"From this deficit should be deducted the decrease in the amount required to be credited to the income of specially restricted funds and the amount of decrease in re-appropriations to meet obligations already incurred... 25,587.82

"This represents an actual deficit for the year of..... \$70,010.87

"The surplus of current income July 1, 1921, was..... 8,025.37

ST. LOUIS CLUB REPEATS

The Cornell Club of St. Louis took possession of the McKinley High School for a couple of hours on November 14. Last spring the school track team captured the city interscholastics and with them possession for one year of the trophy presented by the Cornell Club. The formal presentation was made last week. The cup has been in competition three years. Soldan High School won it in 1920 and 1921. The first school to win it five times keeps it.

Following a short address of welcome by the principal, Perry Post Taylor '89 as president of the club presented the cup to the coach of the track team. Four Cornellians, William G. Christy '11, George B. Bell, Jr., '13, Alvin Griesedieck '16, and George L. Erwin, Jr., '18 sang "Cornell." Two reels of Cornell movies had been imported from Ithaca. They made strong appeal to the boys, particularly the football and crew pictures taken last year. Edwin L. Kaw, now a student at Ithaca, had his preparatory school work in St. Louis.

The high school boys outdid the Cornellians when it came their turn, giving a Cornell yell with perfection. The program closed with "Alma Mater," but the principal was insistent that the whole school should enjoy the exercises. Inasmuch as the auditorium will hold only half the students, the only solution was a complete second performance.

LITERARY REVIEW

The Pennsylvania Germans

Social Conditions Among the Pennsylvania Germans in the Eighteenth Century, as Revealed in the German Newspapers Published in America. By James Owen Knaus, Jr. Lancaster, Pa., Press of the New Era Printing Company. 1922. 25 cm., pp. x, 217.

This is a worthy piece of research of a useful sort. The author has studied the files of German newspapers of the eighteenth century to see what they tell us about the culture of their readers and the people for whom they were printed. He finds much that is interesting and valuable.

Knauss finds twenty-five different papers of which some copies are extant, besides fifteen of which he was unable to locate any extant copies. It is interesting to note that the first German newspaper in America was started by Benjamin Franklin in 1732; only two numbers, apparently, were issued. Franklin revived it in 1755-7 with greater success. The one that ran longest was *Der Hoch-Deutsch Pennsylvanische Geschicht-Schreiber*, published by Christoph Saur, father and son, and Christoph and Peter Saur, grandsons, from 1739 to 1777. The connection of the Saur family with this field of journalism is noteworthy. Another grandson, Samuel Saur, ran *Die Chesnuthiller Wochenschrift* (1790-3), and was connected with other papers at different times down to 1800.

A good deal of light is thrown on early educational ideas. For example, Saur was opposed to higher education. College students, he thought (1750), "learned everything necessary for their temporal welfare. If a student wished to become great, rich, esteemed and honored, to have easy times in life, to rule over his fellow-men, that wish came from Lucifer. If the desire to dance and fight was added to it, nothing appeared to such students more despicable than a Christian life." Forty years later his grandson Samuel quoted Luther as saying that it would be much better if all colleges were burned to powder, for nothing more hellish or devilish had ever been erected than these. Educated men were not steadfast, the colleges were the assembling places of rascals, and hardly anything was taught in them except disputation. Atheistical and deistical books were written by college men. Students learned to write novels, tragedies, and comedies, the purpose of which was to entertain vain people. It is only fair to say that on the other hand most of the leaders, secular and religious, of the Lutherans, Reformèd, and Moravians, were unanimously for higher education, and the Saur opposition was unavailing. Franklin College (1786), started as an expression of this desire for better education, continues, as Franklin and Marshall, to be one of the best of our smaller colleges.

Other important chapters deal with religion, humanitarian organizations, languages, racial traits, vocations, and political ideals. All are eminently readable. There is an admirable bibliography.

Books and Magazine Articles

The second number of *The Literary Review of Cornell* has just appeared. It is a decided improvement on the first number. There are poems by Professor Martin W. Sampson and George R. Van Allen '18 and a good story entitled "The Wen Wraith" by Frederick H. Lape '21. "Casper" by Odiau, gives one a lot to wade through for the sake of the last sentence. Of course contrast is desired, but here it is possibly overdone. "Her Knight" by G. P. is a good piece.

In *The Independent* for October 28 Jerome B. Landfield '94 discusses "Reviving Russia."

Old Oregon for November includes a portrait of Professor Herbert C. Howe '93, for many years professor of English literature at Oregon, with some highly appreciative comments. "For years faculty representative of the University in the Coast and Northwest conferences, member of the Athletic Council as it formerly existed, and now member of the year-old Student Executive Council, Professor Howe has exerted an influence on life at Oregon vastly wider than classrooms or colloquiums."

The Michigan Alumnus for November 9 includes a reproduction of a portrait of President Emeritus Harry Burns Hutchins, formerly of the Law Faculty, a portrait which was presented to the Hutchins Intermediate School by the Detroit Alumni Club of the University of Michigan.

A paper on "Expense Investigations and Some Other Statistical Problems Dependent Thereon" by James S. Elston '11 has just been published in the *Transactions* of the Actuarial Society of America.

In *The Indiana University Alumni Bulletin* for October "Fifth Avenue" by Professor Frederick M. Smith is reprinted from *The Unpopular Review*, and his "Essays and Studies" is reviewed by Arthur L. Murray.

In the November *Atlantic* Dr. Vernon L. Kellogg, '01-2 Grad., discusses "The New Heredity." President Alexander Meiklejohn, Ph.D. '97, of Amherst, asks and answers the question, "What Are College Games For?"

The Iron Age for November 2 has short sketches of Willard P. Chandler, Jr., '10, George R. McDermott, Jr., '05, and Edward F. Entwisle '06.

Inklings, a small but breezy monthly published in the interest of Huber's inks, is edited by Edwin L. Howard '19.

Dr. Cornelius Betten, of the College of Agriculture, writes in *The Journal of Education* for October 19 on "The Course in Hotel Training."

ATHLETICS

The Football Schedule

Cornell 55, St. Bonaventure 6.
Cornell 66, Niagara 0.
Cornell 68, New Hampshire 7.
Cornell 14, Colgate 0.
Cornell 56, Columbia 0.
Cornell 23, Dartmouth 0.
Cornell 48, Albright 14.
November 30, Pennsylvania at Philadelphia.

Thanksgiving Prospects

And now for Pennsylvania. The annual Thanksgiving Day game with the Quakers looms big on the football horizon, not only because of its history and the tradition of Pennsylvania victory, but because the Pennsylvania eleven is "coming" rapidly. It has developed a great fighting spirit, and Cornell is sure on November 30 to face a strong Red and Blue team.

Pennsylvania victory over the Navy in mid-season satisfied observers that once the Quakers got together they would be formidable. A lapse the following Saturday permitted Alabama to win an unexpected victory, but on November 11 the Quakers played a fighting game against Pittsburgh, losing by one point in a 7 to 6 victory for Glenn Warner's eleven. And last Saturday, by a dashing display of aerial football and fine spirit Pennsylvania defeated Penn State by a score of 7 to 6. It is no wonder, therefore, that her supporters see no reason why Cornell, too, should not fall victim to the rejuvenated fighting Pennsylvania eleven.

The Albright Game

Cornell closed the home season Saturday by defeating the light Albright team by a score of 48 to 14. The visitors caught the varsity napping toward the end of the second quarter and Hollenbauch, their right halfback, caught one of Hanson's kick-offs on his own three-yard line and by a burst of speed down the west side line ran through or by Cornellians before they were aware what had occurred. The varsity was caught in one of those lapses that comes to teams conscious of their own power and perhaps a bit careless about the other fellows' possibilities.

The second team, which was put in the game at the beginning of the second half, had a similar experience, Dech, Albright's left halfback, circling left end on a fake criss-cross and running from Albright's five-yard line down the field for a touchdown. In both cases the team paid the penalty of carelessness.

The visitors offered little opposition to the varsity, Cassidy scoring a touchdown after four minutes of play on a thirty-five yard run. Two more touchdowns were made in the first period. The varsity tallied twice in the second period. Loose play by the second team kept them from scoring in the third period, but in the fourth they got together and tallied twice.

The second team's play was marred by no little back-field fumbling.

The varsity was smooth and powerful as usual, and it almost gained at will. One got the impression that it had a good deal in reserve. Straight football was used practically all the time, a forward pass and a double pass being the only exceptions.

This week is being given over to intensive preparation for the Pennsylvania game, the key-note being a thorough realization on the part of Coach Dobie and the players that the hardest battle of the year is in store on Thanksgiving Day. With the exception of Frank Henderson, left end, and Walter Rollo, right guard, the regulars are in first rate physical condition. Henderson pulled a tendon in the Dartmouth game and it is probable that Buckley, who played creditably against the Green, will play the position on Thanksgiving Day. Rollo has been out of the game with a leg infection. He may be in condition for the Pennsylvania game, but if not, Ebersole, who played right guard against Dartmouth acceptably, will play the position in Philadelphia.

The line-up and summary:

Cornell		Albright	
Buckley.....	L.E.....	Kline	
Hanson.....	L.T.....	Jago	
Flynn.....	L.G.....	Lackey	
Richards.....	C.....	Crumbling	
Ebersole.....	R.G.....	Prigg	
Sundstrom.....	R.T.....	Robinson	
Gouinlock.....	R.E.....	Zievers	
Pfann.....	Q.B.....	Miller (capt.)	
Kaw (capt.).....	L.H.....	Edwards	
Ramsey.....	R.H.....	Hollenbauch	
Cassidy.....	F.B.....	Zieger	

Score by periods:

Cornell.....	21	14	0	13—48
Albright.....	0	7	7	0—14

Touchdowns: Cornell, Cassidy 2, Pfann 2, Hart, Rooney 2; Albright, Hollenbauch, Dech. Points after touchdowns: Cornell, Hanson 5, Keen; Albright, Dech 2. Substitutions: Cornell, Hart for Cassidy, Kneen for Buckley, Sullivan for Hanson, Morris for Flynn, Dallas for Richards, Rooney for Pfann, Wade for Ramsey, Post for Kaw, Cassidy for Hart, Zacher for Sundstrom, Dexter for Gouinlock, Hart for Cassidy, Mott-Smith for Dallas; Albright, Dech for Miller, Edwards for Dech, Dech for Edwards, Miller for Dech, Leh for Kline, Salvors for Ziegler. Officials: Referee, Cutts of Harxard; Umpire; Maxwell of Brown; Linesman; Vonkirberger of W. and J. Time of periods, 12 minutes each.

Lose Soccer Title

Cornell's hopes for the championship of the Intercollegiate Soccer League were shattered Saturday when the team was defeated by Pennsylvania by a score of 5 to 3. About four thousand persons watched the contest, played on Lower Alumni Field. In the first half Cornell was the aggressor most of the time, and ten minutes before the whistle sounded Righter took a pass at mid-field and carried the ball near to Pennsylvania's goal. He never kicked it into the net from scrimmage.

In the second half Pennsylvania rallied and by superior team work and keen following of the ball soon overcame Cornell's first half lead. Early in this half

Cornell had maintained the advantage, and Captain Smith had kicked a goal from scrimmage. The reaction, therefore, when Pennsylvania opened up a brilliant attack was stunning. Blair started the assault with a goal that eluded Stone. A few minutes later in a scrimmage a Cornell back accidentally kicked the ball into his own net, giving the Quakers another goal, thus tying the score and undermining Cornell's morale for the time being. In the next few minutes Partridge, Nolte, and McElroy scored for Pennsylvania. Cornell rallied again and Captain Smith kicked a goal on a penalty but the Quakers were too far ahead to be headed.

The season closes with a creditable record, Cornell having defeated Yale, Harvard, and Princeton, tied Haverford, and lost to Pennsylvania in the league games and also won over Colgate and Syracuse.

Cross Country Runners

Seven runners have been selected as the team to represent Cornell in the annual Intercollegiate cross country championship run in Van Cortlandt Park, New York, next Monday, November 27. The Cornellians will meet all of the representative college teams of the East.

The Cornell team will be made up as follows: H. V. Bonsal, E. A. Gordon, J. Vandervoort, Jr., H. G. Smith, G. C. Williams, J. P. Morrison, and F. E. Burnham.

AG BARBECUE A SUCCESS

Nearly six hundred pounds of well-roasted Western steer, two hundred pounds of chicken, two barrels of apples, and innumerable rolls as well as coffee and ice cream disappeared down eleven hundred Faculty and student throats at the barbecue given by the Agricultural Association in the Animal Husbandry judging pavilion on November 14. Dean Albert R. Mann 'c4 in welcoming the guests said that it was the third party in the College of Agriculture when all of the food had come from the College itself. The first was fathered by Professor James E. Rice '92, in his junior year, and the second was held in the Old Armory in 19c4 to celebrate the passage of the bill which provided for the State College of Agriculture.

The steer was roasted over a pit dug outdoors and filled with fresh coals. These were replenished from a wood fire which was started at three o'clock in the morning and burned until serving time, five in the evening. Everyone present vouched for the skill of John W. Ford, a junior from "sunny Alabam" who directed the barbecuing.

A large motor truck backed into the judging pavilion formed a platform for an orchestra which played while the guests were filling their plates at four long tables. After Dean Mann's welcome, Indian short course students gave a war dance in costume, and Cass W. Whitney '13 led the crowd in singing.

FACULTY NOTES

THE FIPPIN Agricultural Consulting Service, with Elmer O. Fippin '04-5 Grad., formerly of the College of Agriculture, as director, has been organized with headquarters in Washington, D. C. The aim of this service is to tie all those technical matters relating to the properties, improvement, and occurrence of different soil types into the larger economic aspects of soils as farm land and the evaluation of such land in business practice. The service will supply information on the development of land and the materials and methods for its utilization. Fippin has had a wide experience in soil survey and is a recognized authority on soils. Beginning in 1900 he did surveying and mapping of soils for the Bureau of Soils, and was engaged in this work for four years. For fifteen years he was connected with Cornell, having charge of soil survey work in New York State in cooperation with the Bureau of Soils. He is the author of a number of books, publications, and bulletins.

PROFESSOR OTHON G. GUERLAC gave an interesting and enlightening discussion of French newspapers before the members of Sigma Delta Chi last week, showing examples of all the leading Paris journals, among them an edition that showed the first publication of Zola's "J'Accuse" in the famous Dreyfus case. The program for the year includes a number of talks on journalistic topics by members of the Faculty, students, and visiting lecturers.

PROFESSOR H. B. MEEK, who is in charge of the new hotel management course in the College of Agriculture has been both a hotel man and a teacher, according to *The New York Hotel Record*. Meek managed the Ocean House at York Beach, Maine, and has had several years' experience at resort hotels elsewhere in New England and in the South. He has also been connected with the faculties of Yale and Maine Universities.

PROFESSOR LOUIS M. DENNIS received the honorary degree of Doctor of Science from Colgate at the last commencement, but will be vested with the hood next June, it was learned recently. He was unable to be present last June because he was chosen as one of three representatives of the United States at an international conference of chemists held at Utrecht, Holland, on June 21 to 24, 1922.

PROFESSOR ARNO H. NEHRLING judged the chrysanthemums at the autumn show of the St. Louis Flower Show Association held in the local Coliseum during the week of November 6.

DR. ERL A. BATES, Indian extension specialist in the College of Agriculture, explained to the Syracuse Women's Congress on November 2 why he thought Indians should not have the vote at present.

ALUMNI NOTES

'92 AB—The King of Spain recently conferred upon Dr. Elijah C. Hills the title of Knight Commander of the Royal Order of Isabella. This order was founded by Queen Isabella of Spain, and its members are selected because of their distinguished service, in literature, art, politics, or war. Dr. Hills is at present associated with the Department of Romance of Languages the University of California; he has taught and lectured at Rollins College, Colorado College, the University of Colorado, the University of California Summer School, Indiana University, and Harvard University. From 1916 to 1918 he was librarian of the Hispanic Society of America. He has written numerous books on Spain and Spanish literature, and has published many articles, translations, and brochures such as Maeterlinck's *Dramatic Theory*, *The Pikes Peak Region in Song and Myth*, and *Spanish-American Poets*. In addition to his work at the University of California, he is general editor of the Romance language publications of D. C. Heath and Company, which has issued the following of his books: *First Spanish Course* (joint author with Dr. Ford), *Spanish Grammar* (joint author with Dr. Ford), *Cuentos y Leyendas*, *Spanish Short Stories*, *Bardos Cubanos*, *Perez Eschrich's Fortuna and Perez Eschrich's Fortuna and Carrion y Aza's Zaragoza*.

'93 ME—After serving in France with the 5th United States Engineers, Major Henry C. Nelson returned to New York, where he resumed his position with the General Electric Company. He was later transferred to the Buffalo office, and early last spring he was transferred to the office in Pittsfield, Mass., where he is working in the transformer engineering department. His residence address is 203 Pomeroy Avenue, Pittsfield.

'95 MME—Dr. Charles R. Richards was inaugurated on October 14 as president of Lehigh University. Dr. Richards was born in Clarksville, Ind., on March 23, 1871, and received the degrees of B.M.E. and M.E. at Purdue University; he received the degree of Doctor of Engineering at the University of Nebraska. He became dean of the College of Engineering at Nebraska in 1907, and four years later he went to the University of Illinois as professor of mechanical engineering.

'96 LLB—Mrs. Frank C. Hollins of Hempstead, Long Island, has announced the engagement of her daughter, Miss Daisy V. Hollins, to Willard F. Smith '96, of Lenox, Mass. Smith is president of the Smith Paper Company of Lee, Mass., and a director of several Berkshire banks.

'97 AB—Pending the appointment of a new executive secretary, Dr. Gertrude E. Hall '97 is in virtual charge of the Board of Charities and Corrections of the State of Maine. Dr. Hall received a pedagogical

degree from the New York State Teachers' College in 1898; she was a Fellow at Chicago University in 1905 and 1906, and received her Ph.D. at Brown University in 1907. She also attended the New York School of Philanthropy. She taught in New York State for seven years, and was for ten years with the New York State Board of Charities and Corrections, first as inspector and later as director of analysis and investigation, a research bureau the purpose of which was to study the causes of delinquency, mental defectiveness, and dependency. She became associated with the Maine Board in August, 1917, and inaugurated the Mothers' Aid and Children's Guardian work. She will be located in Augusta, Maine.

'00, '02 PhD—Dr. Margaret Shallenberger McNaught (Mrs. John McNaught) has resigned as Commissioner of Education in California, her resignation to take effect January 1, 1923. She expects to go to Europe with her husband, and live there indefinitely. Dr. McNaught was the first woman to be selected State Commissioner in the California Department of Education, and has served with such distinction as to attain national renown as a writer, speaker and leader in committee work of the National Education Association. She had formerly served as a member of the faculty of the San Francisco and San Jose State Normal Schools.

'00 LLB—The law firm of Mason and Honnold, of which Herbert D. Mason '00 is senior member, has removed its offices from the Kennedy Building to the Atlas Life Building, Tulsa, Okla.

'02 AB—The consecration of the Rev. G. Ashton Oldham as bishop coadjutor of the diocese of Albany took place on October 24, in All Saints Cathedral, Brooklyn, N. Y.

'05 AB—Arthur D. Camp is manager of the Williamsport Building Products Company, which has been working for the past year on the development of a new type of magnesite composition floor and wall tile. The new factory of the company is now nearing completion, and they expect to begin production early next year. Camp's mail address is Box 503, Williamsport, Pa.

'07 ME—Otto E. Hilmer has entered into partnership with Mr. William P. Fosdick, under the firm name of Fosdick and Hilmer, to continue the consulting engineering practice of the late Walter G. Franz, with whom they were formerly associated. The offices are in the Union Trust Building, Cincinnati, Ohio. They are at present handling the engineering work for the new Hotel Gibson and for three new office buildings; they are also engaged in work for Miami University, Cincinnati University, and several industrial plants. Hilmer lives at 3205 West Eighth Street, Cincinnati.

'08 BSA—Clarence Lounsbury is a member of the field force of the Bureau of Soils. His summer assignment was in

Delaware County, Iowa, the soil survey of which is now nearing completion. He may be addressed in care of the Bureau of Soils, Washington, D. C.

'08 ME—Announcement has been made of the engagement of Miss Edith F. Andrews of Chicago, and W. Bayard Sturgis '08 of 500 Cedar Avenue, Richmond Hill, Long Island. Miss Andrews attended the Finch School in New York.

'10 CE—Warren E. Day is construction manager on a new power transmission line between Badin and Sanford, N. C. His address is in care of the Phoenix Utility Company, Albermarle, N. C.

'10 BSA—Grover Coors is with the Adolph Coors B. and M. Company, manufacturers of pure malted milk and mannah. The plant is at Golden, Colo., and the office is at Sixteenth and Wewatta Streets, Denver, Colo. Coors is located at Golden.

'10 AB—Mrs. Harry M. Varrell (Laura K. Johnson '10) has returned from Europe and may be addressed at 102 Avon Hill Street, Cambridge, Mass.

'10, '11 ME—Witmer Russell, assistant commercial engineer with the New York Edison Company, recently contributed his services and his car for a Safety Week demonstration. Pictures were taken to illustrate a number of dangerous situations. No excuse for Russell to be careless after that!

'10, '11 ME; '12—Clarence J. Pope is president and manager of the Kings County Iron Foundry, Gardner Street and Messerole Avenue, Brooklyn, N. Y. He and Mrs. Pope (Lida Irvine '12) are living at 399 Tremont Place, Orange, N. J.

'12 ME—Mrs. Margaret Cole of Iliion, N. Y., has announced the engagement of her daughter, Edna Marguerite, to David Younglove '12, of Johnstown, N. Y. Miss Cole is a graduate of the School of Oratory, Syracuse University, class of 1919; Younglove is president of the Younglove Casket Company of Johnstown.

'12 BSA; '12 BS—A daughter, Eleanor Mansfield, was born on May 9 to Professor and Mrs. Alpheus M. Goodman (Clara Browning '12), of Forest Home. She is their fourth child.

'12 ME—Clarence H. Kennedy is with the Kennedy Valve Manufacturing Company, Elmira, N. Y.

'12 BS—Raymond T. Burdick is a member of the faculty of the Colorado State Agricultural College; his grade is professor. He lives at 806 East Myrtle Street, Fort Collins, Colo.

'13 BArch, '15 MArch—Edward M. Urban is circulation manager of *The Architectural Record*, 119 West Fortieth Street, New York. His residence address is Lenox Terrace, South Orange, N. J.

'13 ME—Churchill P. Goree, Jr., is assistant sales manager with the Frick Company, Waynesboro, Pa.

'14 ME—Samuel K. Wellman is president of the Wellman Wieber Checkers Company, of Cleveland, Ohio, makers of Checkers, a spring rebound control device for Ford cars. His home address is 2720 Derbyshire Road, Cleveland, Ohio.

'14, '17 CE—Captain and Mrs. Gilbert E. Parker announce the birth of their daughter, Virginia Sturtevant Parker, on September 20 in Washington, D. C. Parker is now stationed at the Infantry Tank School, Camp Meade, Md.

'14 BS—Twenty-five of the one hundred acres in the campus of Drew Theological Seminary, Madison, N. J., are to be used as a model farm, and Dr. Herbert A. Thompson '14 has been employed as superintendent of grounds. He will conduct the farm for the instruction of such ministerial students as are especially interested in farming, or who plan to serve in rural pastorates.

'14 LLB—Frank A. Pierce is practicing law in Boston, Mass. His address is 8 Hubbard Street.

'15 CE—Lieut. Henry G. Lehrbach, C.E.C., U.S.N., has resigned from the Civil Engineer Corps and from the Navy. Up to the time of his resignation he was located at the San Diego, Calif., Naval Operating Base.

'15 ME; '17 CE; '17 CE; '17 CE; '19 CE—John J. Chew '15, John J. Gromfine '17, Cushing Phillips '17, Robert E. Bassler '17, and John C. Gebhard '19, have become eligible for promotion from lieutenant, junior grade, to lieutenant, senior grade, in the Civil Engineer Corps, United States Navy. Chew is located at the Philadelphia Navy Yard; Gromfine is at the Washington Navy Yard, Puget Sound; Phillips has been ordered to the United States Marine Corps Station at Paris Island, S. C.; Bassler is with the Bureau of Yards and Docks, Navy Department, Washington, D. C.; and Gebhard is on duty in the Virgin Islands.

'15 AB, '20 MD—Dr. Thomas M. French has opened an office in Elmhurst, Long Island, for the practice of medicine.

'15 ME—Alfred L. Boegehold is metallurgical research engineer with the General Motors Company, and he lives at the General Motors Engineers Club, R. R. 16, Dayton, Ohio.

'15 CE; '20—Alan F. Williams '15 is captain of the Olympic Club football team; Leo von Heygendorf '20 plays end on the same team. Williams's address is Box 144, Sausalito, Calif.

'15 BArch, '16 MArch—Gerald L. Kaufman, architect, announces the removal of his office from 101 Park Avenue to 331 Madison Avenue, New York.

'15 CE—Carl C. Cooman '15 was married on September 14 to Miss Wanda Nye Moore of Rochester, N. Y.

'16 AB—John M. Van Horson is engaged in promotion work in the advertising department of the Crowell Publishing

Company, 381 Fourth Avenue, New York. He lives at 110 Chester Street, Mount Vernon, N. Y.

'16 BChem—Henry E. Longwell, Jr., is chemist with the New England Aniline Works, Inc., Ashland, Mass.

'16 CE—Henry A. Foster, who for the past two years has been engaged on water power investigations in the office of Col. William Barclay Parsons, 84 Pine Street, New York, has recently returned to the office of Dwight P. Robinson and Company, Grand Central Palace, New York, where he will resume his work of structural designing. His residence address is 205 Garfield Place, South Orange, N. J.

'17 BS—Miss Katharine R. Bell '17 was married recently to W. C. McCoy, and they are living at 25 Mull Avenue, Akron, Ohio.

'17 ME—Thomas R. Jones is manager of the Sterling Auto Sales Company, Ford dealers, Piedras, Negras, Coahuila, Mexico. His mail address is Box 209, Eagle Pass, Texas.

'17, '18 CE—Aram H. Dimijian is civil engineer for the State of Alabama, now directing the construction work at state institutions in Alabama. He lives at 1108 South Thirteenth Street, Birmingham, Ala.

'17 AB—John P. Wagman, who has been located in Constantinople for some time as cashier for the American Express Company, Inc., has returned to this country and may be addressed at 21 Madison Avenue, Saratoga Springs, N. Y.

'17 AB, AM—Miss Amanda K. Berls received the degree of LL.B. last June at the New York University Law School and in the same month took the Bar examinations; she expects soon to be admitted to the New York State Bar. She lives at 850 West 179th Street., New York.

'17 BS—A son, Paul Bradley, was born on October 7 to Mr. and Mrs. John Wigsten.

'17 AB—John H. Hathaway is a district traffic manager for the New York Telephone Company at 208 East Seventy-ninth Street, New York. He lives at 24 West Ninety-sixth Street.

'17, '19 ME—A son was born on September 10 to Mr. and Mrs. Robert P. A. Taylor of Pittsburgh, Pa. He has been named Frederick Winslow Taylor, 2d. Taylor is with the Jones and Laughlin Steel Company.

'17 CE; '19 AB—Mr. and Mrs. Ellsworth L. Filby (Marion C. Fisher '19) announce the birth of their son, Ellsworth Fisher Filby, on August 22. Filby is sanitary engineer with the State Board of Health of South Carolina; they live at 1319 Bull Street, Columbia.

'17 BS; '18 BS—A son, Robert A. Browning, Jr., was born on March 14 to Mr. and Mrs. Robert A. Browning of Cobleskill, N. Y. Mrs. Browning was formerly Miss Ella D. Zurbrick '18.

'18, '19 BS—Frank L. Knowlton, who since January, 1920, has been employed as research assistant in poultry husbandry at the Oregon Agricultural College and Experiment Station, has been promoted to the position of assistant professor of poultry research in the same institution. His address is Oregon Agricultural College, Corvallis, Oregon.

'18 BArch—William G. French is spending a year abroad for the study of architecture. He has spent three months in England and goes from there to Italy and Greece by way of southern France and Spain.

'18 ME—William F. Tufts was married on September 16 in New York and lives at 834 Riverside Drive. He is still employed as assistant purchasing agent for large Japanese interests.

'18, '20 AB; '21 BS—A son, Peter Paul, was born on August 15 to Mr. and Mrs. Peter P. Miller (Sara E. Speer '21), 122 Park Entrance, Watertown, N. Y.

'18 AB; '20—Mr. and Mrs. Edwin G. Olds (Marion M. Knowles '20) are now living at 315 Gross Street, East End, Pittsburgh, Pa. Olds is now an instructor in mathematics in the Carnegie Institute of Technology.

'18 AB, '21 MD—Dr. Walter Fox Smith has an office at 185 Stone Street Watertown, N. Y., for the practice of medicine.

'18—George B. Post is shop manager of Huff Daland and Company, Inc., manufacturers of airplanes and flying boats. He has been with this company since June, 1920, selling, demonstrating planes, carrying passengers, and acting as chief pilot. His address is 618 Greene Street, Ogdensburg, N. Y.

'18—Bleecker P. Seaman is president of the Georgia-Florida Fertilizer Company, Savannah, Ga. He has a daughter, Anna Turner, born on April 4.

'18, '20 WA—J. Champ Carry was married recently and is spending his honeymoon in Europe.

'19 LLB—Richard H. Brown has severed his connection with Earl J. Bennett and has opened an office for the general practice of law in the Valley Stream National Bank Building, Valley Stream, Long Island.

'19, '22 ME—George H. Buchanan of Overbrook, Pa., has announced the engagement of his daughter, Elizabeth Parsons, to Harold A. Ball '19, son of Joseph A. Ball of Wayne, Pa. Ball is employed in the plant of the Autocar Company, Ardmore, Pa., and lives at 214 Windermere Avenue, Wayne, Pa.

Write us that you want the new cross section paper samples

Those who have the old sample book and prices will want the three new samples. One is graduated $10 \times 10=1''$, the second $6 \times 10=1''$, and the third $7 \times 10=1''$. The first is quite usual but the other two are for special purposes, $6 \times 10=1''$ covers work plotted by months or on the basis of six days per week, $7 \times 10=1''$ is for plotting data daily with checking lines every week.

Have you a Songbook?

The only book of its kind now in print. The sales are running big since September. It has the Cornell songs. These songs may be sung at the "Penn" game. The book sells at \$1.75 postage paid.
