CORNELL ALUMNI NEWS

VOL. XXVI, No. 8

ITHACA, N. Y., NOVEMBER 15, 1923

PRICE 12 CENTS

GEYSERS that form part of the annual seasonal outburst are already beginning to appear on the Campus. Last week one spouted for two days in front of West Sibley, throwing a cloud of steam as high as the top of Sibley Dome, but not equalling in volume "Old Faithful," which nearly obscured Morrill Hall for a brief period last year. These are the results of leaks in the steam pipes, where the older installations are not quite equal to the pressure from the new central heating plant.

CREW PRACTICE has ceased on the Inlet for the fall season as the result of increasing cold weather and early darkness.

AGRICULTURE is ahead in the Intercollegiate Soccer League, with Chemistry a close contender as the teams enter the final week of play.

FENCING TEAM interests have taken a spurt with the use of the new fencing room in the Drill Hall, and with the arrival of equipment imported directly from France.

HOWARD A. HOPKINS, '26 Arts, of Youngstown, and Clifford H. Moore, '26 Civil Engineering, of Yonkers, have been elected associate managers on the business staff of *The Cornell Daily Sun*.

IN ADDITION to the projected debate between teams composed of women from Syracuse and Cornell, it is announced that Cornell women will compete with those of Swarthmore and of George Washington University.

DOGGIER than ever this year, according to current report, Cornell will have to do something to curb the canines that particularly infest Goldwin Smith Hall to the detriment of classes disturbed by their quarrels and affections. The Secretary of the Arts College hints at the possibility that the janitor of Goldwin Smith may become a dog-catcher to transfer the animals across to Stimson Hall, where they serve a useful purpose in the laboratory.

DIRECTORS of Ithaca's Community Chest, which opens its annual campaign for funds November 18, include Albert R. Mann '04, and George F. Rogalsky '07. Robert H. Treman '78 remains as president, and Professor Walter F. Willcox is chairman of the budget committee.

A LOCAL branch of the League of Nations Non-Partisan Association has been formed with Professor Charles K. Burdick as secretary.

STREET SIGNS fitted for electric lights will have to be kept lit or taken down, according to an enforcement order promulgated by the Ithaca Common Council, which states that failure to keep the signs

lit constitutes disorderly conduct for which the offender may be fined.

THE ANNUAL demise of goldfish in the women's dormitories as the result of the chlorination of the University water supply is currently reported.

HUBERT E. BANTA '26, a student in the College of Agriculture from Albany, on November 7 received a serious injury to his spine when the automobile in which he was riding on University Avenue at what is known as the cemetery turn left the roadway and went over the bank.

INDOOR TENNIS begins officially on the Drill Hall courts on November 19.

THE AUDIENCE to learn the returns from the Columbia-Cornell football game was estimated at about two-thirds of that for the Dartmouth game. On the other hand, a much larger number of students went to New York to see the actual play than went to Hanover.

THE ANNUAL competitive prize drill of the R. O. T. C. takes place December 15.

L'OGIVE, honorary society in the College of Architecture, has been revived this year, and has taken in six new members.

FORTY WOMEN from other colleges are reported as entering Cornell this year. Among the institutions represented are: Allegheny, Buffalo Normal, Cedar Crest, Columbia, Delaware, Geneseo Normal, George Washington, Goucher, Mt. Holyoke, New York College for Women, Philadelphia Normal, Rochester, Rollins, Syracuse, St. Rose, and Wilson.

KAPPA ALPHA THETA, national sorority, has formed an Ithaca alumni chapter, of which Mrs. Richard H. Edwards is president; Mrs. James McKinney '14 (Louise Bontecou), vice-president; Anna Payne, secretary; and Mrs. Hugh D. Reed '17 (Madeline K. Church) treasurer.

WINTER COURSE students started work in the College of Agriculture with a slight shortage from the registration of 256 for the season of 1922-23. Among the registrants are eight Indians from various New York reservations; they take the course with the idea of going back to their people with knowledge of improved farming practices.

PAUL M. DOERING '25, mechanical engineering, from River Forest, Illinois, has been made assistant manager of the Navy, and Allen K. Strong '24, agriculture, of Waterloo, as commodore of the Navy, was elected crew representative on the Major Sports Council.

FORMER BOY SCOUTS and Boy Scout leaders who are now in the University

meet at the studio of Louis Agassiz Fuertes '97, where they swap yarns and broil steaks over the open fire.

A DEBATE WITH CORNELL is announced from Williams College as taking place January 19. This is part of the triangular debating league of nine colleges. The league includes Williams, Pennsylvania, Amherst, Wesleyan, Cornell, Dartmouth, Brown, Yale, and Columbia.

FORUMS held in Barnes Hall on Sunday afternoons in previous years are not being continued this year, largely because of the lack of student attendance. Now, after the opportunity is gone, some of the students realize the loss.

THE TOTEM POLE, removed from its accustomed site last year because it was in the path of the steam pipe excavations, may be restored to a place on the Campus, painted in accordance with traditional colors, and set off by a planting of the spruces and firs that grow in its native habitat.

BUILDING OPERATIONS in Ithaca during the present year have cost about \$1,470,000. This does not include the cost of the new Chemistry Laboratory, but does include that of the new Dairy Building, estimated at about \$600,000. The Ithaca Savings Bank Building accounts for an additional \$400,000; and other new structures are the Chain Works addition, the Lutheran Church, and three new greenhouses for the Bool Company, besides a large number of new houses, particularly on Cayuga Heights.

GROUND was broken on October 29 for the new house of Zeta Beta Tau, on a site near Kline Road and Stewart Avenue, on Cornell Heights. The building, of stucco and stone exterior on the lines of an English country house, will overlook both the Ithaca Falls and Cayuga Lake. Former Dean Clarence A. Martin '88 of the College of Architecture will have supervision of its construction, and the fraternity hopes to have the building ready by next fall. The estimated cost is said to be \$80,000.

FOREIGN STUDENTS are present at Cornell in considerable numbers this year, with a noticeable increase in the number of Chinese. Several countries of the Far East and Latin America are represented. India shows some falling off from a few years ago. Lists still incomplete show twenty-nine students from China, and smaller representations from Argentina, Bermuda, Canada, Czechoslovakia, England, France, Greece, Japan, Jugoslavia, India, Porto Rico, the Philippines, Russia, Syria, South Africa, and Turkey.

ENGINEERS IN SCRANTON

These Cornell engineers are employed by the Scranton Engineering Company, Scranton, Pennsylvania: James H. Burke, Sp., George A. Hogg '23, Claude D. Lawrence '23, Charles T. Morrow '23, Kenneth R. Sherman '23, and Franklin R. Speer '23; Burke in the engineering department, Hogg in the construction department, Lawrence and Speer in the power department, Morrow in the distribution department, and Sherman in the operating department.

THE PRESIDENT'S REPORT

We begin herewith our annual summary of the reports of University officials. President Farrand's report has not yet appeared in printed form; but an abstract has been placed in our hands.

The President reports that the official enrollment of students for last year was 5502. The enrollment for the current year, not yet completed, shows an evident increase in the number of entering students, which indicates that definite steps toward limitation in certain of the colleges of the University must probably be taken.

The condition and morale of the student body during the year was excellent. The government, through the Student Council, and the administration of the Honor System, through the Honor Committee, both operated successfully and the President reports general satisfaction with the condition of the undergraduate body.

The most notable gift received during the year looking toward new buildings was that of fifty thousand dollars from Mrs. A. Graham Miles for the erection of Boldt Tower as a memorial to her father, the late George C. Boldt.

By the generous gift of ten thousand dollars from J. DuPratt White '90 the building of Lyon Hall was assured. The University has received, by the will of Hiram J. Messenger '80, securities valued at approximately seventy-four thousand dollars to provide lectures on the evolution of civilization.

Owing to the excessive cost of building the plans for the Student Union, to be provided by the gift of Mrs. Willard Straight, have had to be revised. The new plans are now practically completed and estimates may be called for in the near future.

A very important step in the development of the University was the placing by act of the Legislature of the State Agricultural Experiment Station at Geneva under the direction of the Trustees of Cornell. This union will undoubtedly result in improved efficiency in this important field, both in the College of Agriculture and in the Experiment Station at Geneva.

By action of the Trustees the tuition fees in the College of Arts and Sciences, Architecture, and Engineering were increased from two hundred fifty to three hundred dollars, to be effective in the academic year 1924-5.

By authority of the Board a Summer

Session in Law was authorized and successfully put into operation during the summer of 1923.

Another interesting development was the institution of the Summer Term in Biology, whereby the extraordinary advantages which Cornell and the environment of Ithaca provide in the field of biological science have been made available for special courses in the summer. The facilities of the different colleges have been brought together and it is probable that a first step in an important enterprise has thus been taken.

The Plan Commission has been actively at work during the year and presented a report of progress with recommendations looking toward a permanent plan of future building development at the University.

The past year has served to emphasize the building needs, particularly in the case of the College of Engineering. Teaching and research in that College are seriously hampered by inadequate and obsolete accommodation and equipment.

The growth of the University has brought about a condition in the Library which is causing concern. The funds available for the purchase of books have now by distribution become so attenuated that many important departments are unable to provide even the most needed works for reference and study.

A similar situation exists with regard to the provision of apparatus and equipment in the departments of science. It is highly desirable that an assured income, even though small, be provided for the annual purchase of instruments and replacement of apparatus in such laboratories as those of physics, chemistry and the other sciences.

The demand for further provision in the broad field of fine arts is becoming more obvious. It is hoped that during the coming year definite steps of significance may be taken for placing the Department of Music upon a firm basis.

Much attention has been given to the course on public health and hygiene and further developments in this fundamental important field are contemplated.

There are many encouraging signs apparent in the general situation at Cornell. The spirit of enthusiasm and cooperation in the different Faculties is remarkable and inspiring. In spite of the recognized inadequacy of financial provision, the spirit and devotion of the teaching force is notable among American universities.

The academic standards are being maintained with firmness but with all the regard for individual situations which the operations of a great institution will permit.

The President emphasizes particularly the part which the successful activities of the Cornellian Council and the support of the alumni are playing in maintaining the spirit of the University. Recognition of that effort can hardly be overstated.

UNIVERSITY UNION MOVES

The American University Union in Paris has moved into its new home at 173 Boulevard St. Germain, occupying a building recently purchased by the Carnegie Foundation.

Professor Algernon Coleman, head of the French Department of the University of Chicago, has been named for director of the Union for one year. It is the plan of the Union to help establish American students studying abroad who do not have the backing of their home universities as do post-graduates who conclude their studies in America.

AFTER THE NEW YORK SMOKER

On the Lackawanna,
Going out to Jersey,
I closed my eyes;
The car moved in those long, easy, swinging bounds,
And I thought:
"Here we go to Ithaca, boys,
Let's wake up in Ithaca
And go up the Hill in the morning,
And see the shining gleam on the tiles
Of our dear old red-headed school,
With the clock-tower bells clanging out
Their call to our youth and our spirit!"

A. J. W. '10

CINCINNATI AFTER FUNDS

Arrangements have been practically completed for a Cornellian Council solicitation to be carried on in the Cincinnati district during the first week of December. The Cornell University Alumni Association of Southern Ohio has pledged itself to conduct a canvass with an ultimate goal of a one hundred per cent subscription to Cornell from the Cornellians in Cincinnati and vicinity. There are 159 Cornellians resident in this district.

Harold Flack '12, executive secretary of the Cornellian Council, spent November 5 and 6 in Cincinnati in conference with the members of the executive committee of this Club. Ralph Rogan '97, president, has appointed the following committee to have charge of the canvass:

Judge Morris L. Buchwalter '69, Clyde Johnson '93, Ralph Rogan '97, James Morrison '03, William H. Hopple '06, Julian A. Pollak '07, chairman, Albert P. Preyer '08, Robert M. Sohagen '08, Newman Ebersole '10, Tell S. Berna '12, Washington T. Galbreath '12, Max H. Thurnauer '13, Joseph M. Gantes '14, Raymond L. Kaiper '14, Bleeker Marquette '15, Morton C. Kahn '16, Harold Le Blond '19, Leonard Smith '19.

The Cincinnati Club established a fine record in the Semi-Centennial Endowment Campaign in raising over \$75,000. The members of the Club are determined to live up to the high standard established in that campaign.

THE ITHACA-AUBURN Short Line has ceased to operate, the order going into effect at midnight, October 31.

The Philadelphia Cornell Club Welcomes Thanksgiving Day Visitors to New Quarters

ALTHOUGH the Bellevue-Stratford in Philadelphia will doubtless fill its time-honored role on the morning of Thanksgiving Day, and will overflow its lobbies with seething Cornellians in town for the Pennsylvania game, there will be another rendezvous this year. The Cornell Club of Philadelphia, at 310 South Fifteenth Street, will keep open house for

Cornell men during the Thanksgiving season. All Cornell men are urged to make the club their headquarters.

On the eve of the Pennsylvania game, Wednesday, November 28, the Club will be host to all Cornellians in Philadelphia at a football rally. Romeyn Berry '04 will be the principal speaker, and stunts and refreshments are on the program.

The club has justifiable pride in the fact that it is the only Cornell organization which occupies a building devoted solely to the club's use. For the first time in the history of the organization it has leased a complete structure wherein the members can enjoy daily meals and living accommodations. The house is modest but comfortable. It is located four blocks, or squares, from the Broad Street Station. This district of Philadelphia was once a prominent residence section and is not far distant from the famous Rittenhouse Square, which still contains a great many of the fine old Philadelphia homes.

The club house itself is a four-story structure containing an attractive dining room on the ground floor, and kitchen adjoining. The second floor is devoted to lounging and reading rooms. There are two rooms communicating through a wide arch and furnished in gray and old rose. It is in these two rooms that the post mortems on football games are held and other University activities discussed. The

third and fourth floors contain two sleeping rooms. All of these rooms are furnished in comfortable up-to-date bedroom furniture and will accommodate a total of seven men.

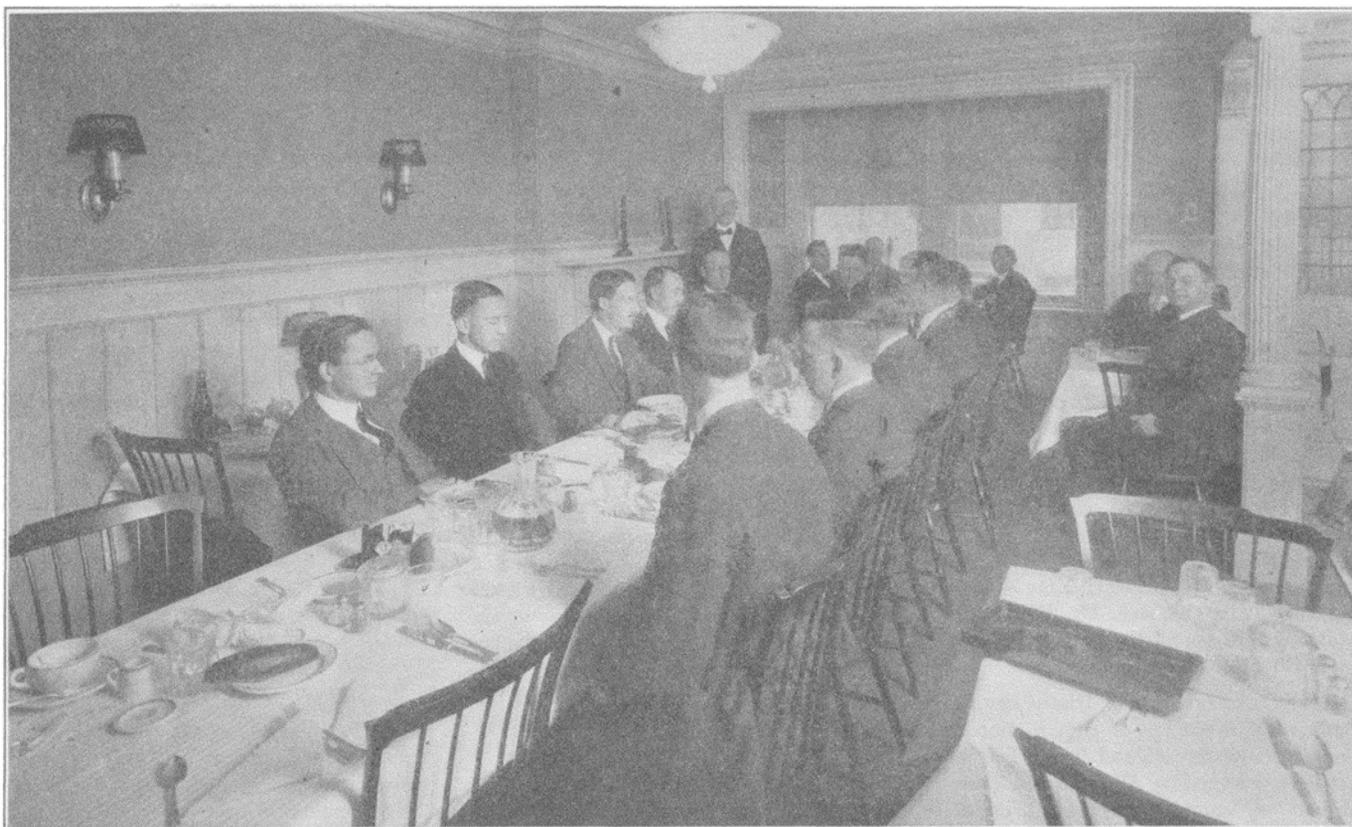

The cuisine and valet service, considering the more or less modest nature of the club house, is all that could be desired. An effort is made to hold one or two beds for

Four floors at 310 South Fifteenth Street house the Cornell Club of Philadelphia

Waldemar H. (Pat) Fries '10, all-around performer for the Cornell Club of Philadelphia

An attractive dining room, with adequate kitchen, occupies the first floor of the new home of the Cornell Club of Philadelphia

transient non-resident members and a great many out-of-town alumni who frequently visit Philadelphia have taken advantage of this service.

The non-resident dues are five-dollars a year and the club invites applications for non-resident membership from alumni who occasionally visit Philadelphia. The club extends to all alumni an invitation to pay it a visit and inspect its quarters at any time. That this is a thriving and enthusiastic organization would not long be left in doubt after one enters the hall and is greeted with a bulletin board covering approximately half of one wall of the room and containing all manner of newspaper clippings, photographs, and other matter pertinent to the University and its activities.

"Pat" Fries '10 in Charge

Waldemar H. Fries '10 has recently been engaged by the Cornell Club of Philadelphia to serve as representative of alumni affairs in Ithaca. His job is to build up the membership in the club, to keep the alumni of Philadelphia in close touch with the University, and to help the Cornellian Council in raising funds for Cornell.

"Pat" Fries has made it a habit to become more than ordinarily active in several Cornell clubs in the cities where he has resided. He has served as secretary of the clubs of Philadelphia and Baltimore, and has been on the board of governors of the Cornell Club of New York. While in college, he was captain of the lacrosse team.

Fries started his business career with International Agricultural Corporation in Buffalo. Later he went to Cincinnati with the same company, where he stayed five years. In 1916 he went with the American Agricultural Chemical Company and in 1917, shortly after the United States entered the war, he enlisted in the United States Air Service. He became a flying officer in August, 1917, when he was commissioned as first lieutenant; later he was flying instructor in Texas and Oklahoma.

At the close of the war, Fries allied himself again with the American Agricultural Chemical Company and was in the Philadelphia office from 1919 to 1920. During the next year he was in Baltimore with the Dawson Chemical Company, and in 1921 he went with the Chase National Bank in New York, where he remained until last September. Since then he has been with the investment house of Lewis and Snyder in Philadelphia.

THE SAGE CHAPEL Preacher for November 18 will be the Rev. Dr. William F. McDowell, bishop of the Methodist Episcopal Church.

THE VAULT of the new Ithaca Savings Bank, now in course of construction at the Corner of Seneca and Tioga Streets, has been designed by Alexander B. Trowbridge '90, consulting architect of the Federal Reserve Board.

OBITUARY

Charles W. Floyd '74

Charles Wesley Floyd died in Brunswick, Ga., on February 20, 1915. He entered Cornell in 1870 and took work in science for a short time.

Dr. Charles G. Wagner '80

Dr. Charles Gray Wagner died at the Binghamton, N. Y., State Hospital of which he had been superintendent for 31 years, on November 6, of Bright's Disease.

Dr. Wagner was born at Minden, New York on October 10, 1856, and obtained his early education there and in the Utica Free Academy. He entered Cornell as a State scholar in 1876 and graduated in 1880 in the natural history course. During his college career he was active in literary circles and served as president of the Irving Literary Society in his senior year. He was also a member of the staff of *The Cornell Review*, and later became a member of Quill and Dagger.

Following his graduation he attended the College of Physicians and Surgeons at Columbia, receiving his degree in 1882. Soon after, he became a member of the staff of the Utica State Hospital and while there was sent to Europe to study foreign hospital conditions. On his return he tried an examination to become superintendent of a State hospital and on February 8, 1892 was appointed head of the Binghamton institution.

Under his directorship the institution grew to have 3,000 patients, with buildings valued at over ten million dollars. Through his influence many changes were brought about and former harsh methods with insane patients were replaced with kindness and good care.

While in Binghamton he won an enviable reputation as an alienist, being called as a witness in numerous trials, including that of Harry K. Thaw. He was also the author of numerous books and papers on psychological matters, besides being responsible for much legislation by the State to improve conditions in its institutions.

Dr. Wagner was for many years a member of the American Medico-Psychological Association and served at various times as an officer. He also belonged to the American Psychiatric Association, being president in 1917; the Broome County Medical Society, and other fraternal and social organizations in Binghamton.

From 1896 to 1906 he was a Trustee of the University and in June, 1921, was in charge of the Medical College graduation exercises. He was a lecturer upon insanity at the University for several years.

He is survived by his widow, Mrs. Elizabeth S. Bangore-Wagner and three step-children.

Lois C. Galbraith '87

Word has been received of the death last winter of Lois Carrie Galbraith, who

entered the University in 1883 from White House, Pa., and took a special course for one year.

James G. Parsons '92

News of the death of James Gilliard Parsons has been received here. He entered Cornell from Steelton, Pa., in 1888 and remained for two years.

Walter G. Harper '99

Walter Glenn Harper died at his home in Meadville, Pa., last March. He was born in Meadville on March 26, 1877 and after attending school there, went to Alleghany College. In 1896 he entered Cornell and received his B. S. degree in 1899. He was president of the W. G. Harper Lumber Company in Meadville.

Simon H. Edinburg '04

Simon Herman Edinburg died on May 10, 1919. He was born in New York City on November 11, 1881 and entered Cornell in 1900 after having attended the City College. He attended the University two years, taking medical work.

Horace J. Gibbons '09

News of the death in Scranton, Pa., of Dr. Horace J. Gibbons on November 17, 1912, has lately reached us. He was born in New York and after attending the University of Vermont, entered Cornell in 1908, taking special work in medicine and receiving his M. D. degree in 1909.

William C. Kreuzer '17

William Christopher Kreuzer died in Baltimore on November 5, 1923, from injuries received when he was struck by an automobile.

He was born in Syracuse September 12, 1894, the son to Mr. and Mrs. Thomas Kreuzer, and after attending school in that city, went to the Georgetown School at Washington, from which he entered Cornell in 1913. He graduated B. S. in 1917 and on April 11, 1918 was married to Miss Marjorie Brister of Auburn, N. Y., who with two daughters and a son survives him.

While in the University he was a member of Phi Kappa Psi, Sphinx Head, and Hebs-Sa. In his junior year he was chairman of the Spring Day Committee and in his senior year was manager of the basketball team. In addition, he was minor sports representative on the Major Sports Council.

After graduation he went with the Will & Baumer Candle Company, Inc., of Syracuse, of which his father is treasurer, and at his death was assistant superintendent of one of its plants. A month before he died, Mr. Kreuzer went to Baltimore to reorganize a business run by Kreuzer Brothers and was about to return to Syracuse when fatally injured.

Arthur H. Taylor '26

Arthur Henry Taylor died at the Cornell Infirmary on October 28, 1923 from an aggravated case of infantile paralysis.

He was born in Geneva, N. Y., on January 6, 1903, the son of Mr. and Mrs.

Orin M. Taylor, and received his early education in the schools of that city. He entered Cornell in 1922 as a student in the College of Agriculture, following an active scholastic career.

He is survived by his parents and one brother, Laurens A. Taylor '23.

INTERCOLLEGIATE NOTES

THIRTY-ONE universities and colleges in America support daily papers. The first to have a full leased wire service will be *The Daily Iowan*. It will be published not for profit. Students of journalism under Professor William S. Maulsby will constitute the editorial staff and students from the College of Commerce will assist at the business end. The paper will appear throughout the entire twelve months.

THE NUMBER of students in electrical engineering enrolled in 129 technical schools last year, according to Walton St. John, of the U. S. Bureau of Education, decreased from 13,919 to 13,275, a drop of 644. In civil engineering, with an enrollment of 12,802, there was a decrease of 1,590; in chemical engineering, with an enrollment of 7,054, a loss of 1,668; in mining and metallurgical engineering, with an enrollment of 2,895, a loss of 234; and in mechanical engineering, with an enrollment of 14,453, a loss of 1,561.

SOME STATISTICS of college and university enrollment follows University of Vermont, 1134, of whom 670 are men and 464 women; University of North Carolina, more than 2,100; Princeton, 2,423 (473 seniors, 454 juniors, 609 sophomores, 631 freshmen, 212 graduates); Rutgers, 737 (a decrease of 56 over that of last year); Lehigh, 1051, an increase of 65 over the corresponding figure of last year; Colgate 767; Middlebury, 538, nine more than last year; Indiana, 3,240.

THE UNIVERSITY of Colorado is engaged in a campaign for a Student Memorial Building.

PROFESSOR JOHN M. MACFARLANE, of the Department of Botany of the University of Pennsylvania, has arrived at the following interesting conclusions: that fishes constitute the sole source of petroleum; that knowledge of this fact will enable man to locate new oil deposits with almost scientific accuracy; that there is no danger of the exhaustion of the world's-oil supply; that the recognition of scientific principles regarding the origin and location of fish deposit beds will result in the cheaper production of oil and hasten the development of its value for heating and for motive power.

DARTMOUTH'S four captains of major sports teams last year had a combined scholastic average higher than required for election to Phi Beta Kappa, according to the report submitted to the faculty by the athletic council.

THE ENROLLMENT of the Harvard Summer School was 2,292, representing forty-four States and ten foreign countries.

CLUB ACTIVITIES

Cornell luncheons are held regularly in the cities listed below. All Cornellians are urged to attend even though they may not be residents of the respective cities.

Baltimore—Mondays, Engineers' Club, Light and Redwood Streets, 12.30 p. m.

Binghamton—First and third Tuesdays, Hans-Jones Restaurant, 12.15 p. m.

Boston—Mondays, Hotel Essex, 12.30 p. m.

Chicago Women—First Saturday of the month, Chicago College Club, 151 North Michigan Avenue.

Cleveland—Thursdays, Lattice Room, Hotel Statler, 12 o'clock.

Detroit—Fridays, Cabin Chop House on John R. Street, 12.15 p. m.

Indianapolis—First Monday, Lincoln Hotel, 12.15 p. m.

Los Angeles—Wednesdays, University Club.

Milwaukee—Fridays, University Club, 12.15 p. m.

Newark, N. J.—Third Fridays, Downtown Club, Kinney Building, 12.30 p. m.

Omaha—Third Thursdays, University Club, luncheon.

Philadelphia—Daily, Cornell Club, 310 South Fifteenth Street.

Poughkeepsie—Second Monday, Nelson House, 6.15 p. m.

Rochester—Wednesdays, Powers Hotel, 12.15 p. m.

Rochester Women—First Saturday afternoon of each month, at the homes of the various members. Announced in the daily papers.

Springfield, Mass.—Mondays, Pickwick Room, Hotel Kimball, 12 o'clock.

Utica—First and third Tuesdays, Hotel Martin, 12.15 p. m.

Worcester—First and third Tuesdays, University Club, 12.30 p. m.

Baltimore

Cornell and Dartmouth men of Baltimore joined forces on November 3 to hear returns of the football game in Hanover over a special wire to the Hotel Emerson. About fifty alumni were present.

Regular luncheons of the Cornell Alumni Association of Maryland are held on Monday at 12.30, at the Engineers' Club, Light and Redwood Streets, Baltimore. All Cornell men are invited.

Columbia, S. C.

A new Cornell club was launched when twenty-three Cornellians and a number of guests dined at the Hotel Jefferson on October 24, at Columbia, South Carolina. The Cornell Club of South Carolina was organized with Anthony F. McKissick '95 of Greenville as president, and Ellsworth L. Filby '17 of Columbia, as secretary-treasurer. So far as records show this was the first formal meeting of Cornellians ever held in South Carolina.

Julian D. Corrington '13, of Columbia,

acted as toastmaster, introducing Dr. W. D. Melton, president of the University of South Carolina, and Dr. W. M. Riggs, president of Clemson College. Two reels of moving pictures were imported from Ithaca for the occasion.

In addition to other meetings which may be held during the year, it was planned to hold an annual general meeting for the entire State. The next meeting will be held in Greenville, in May.

Michigan

Harold Flack '12, executive secretary of the Cornellian Council, spoke at the weekly luncheon of the Cornell Club of Michigan at the Cabin Chop House on November 9. Flack gave an account of recent events on the Campus and told especially about Cornell's victorious football team.

Cleveland

The guest of honor and principal speaker at the weekly luncheon of the Cornell Club of Cleveland on November 8 was Dr. Roger G. Perkins of Cleveland. Dr. Perkins has just returned from an extensive trip through the Balkan States and the Near East. While in Rumania he was a guest in the Royal Palace for a week; he is particularly well informed on the present day conditions in the Balkans. Harold Flack '12 was present at this luncheon and was called on to give a summary of the latest events on the Campus.

St. Louis

Fifty-seven Cornellians attended the thirty-first annual banquet of the Cornell Club of St. Louis at the St. Louis Club on November 9. Officers elected for the ensuing year are Alvin Griesedieck '16, president; Hermann Spoegrer, Jr., '99, vice-president; Walter H. Kobusch '14, treasurer; Harry R. McClain, secretary.

A negro vocal and instrumental quartette alternated with Cornell songs led by Al Griesedieck and "Shorty" Schuyler '10 at the piano to entertain the diners. Perry Post Taylor '89, the retiring president of the Club, as toastmaster, introduced Lewis L. Tatum '97 of Milwaukee, Benjamin M. Duggar '98, and President Farrand. Duggar brought the greetings of Washington University of which he is a member of the faculty, and President Farrand presented the present problems of the University in characteristic vein. He spoke of the need of maintaining an adequate Faculty and of training students for citizenship as well as for technical careers.

The next day President Farrand represented Cornell and was principal speaker at the inauguration of former Governor Hadley as chancellor of Washington University.

The annual presentation of the Cornell track cup by the Cornell Club of St. Louis will be made at the Cleveland High School on November 16 at 9 a. m. William P. Gruner '07 will be master of ceremonies and will introduce as speakers other members of the St. Louis Club. Moving pictures of the Campus will be shown.

Published for the alumni of Cornell University by the Cornell Alumni News Publishing Company, Incorporated.

Published weekly during the college year and monthly in July and August; forty issues annually. Issue No. 1 is published the last Thursday of September. Weekly publication (numbered consecutively) ends the last week in June. Issue No. 40 is published in August and is followed by an index of the entire volume, which will be mailed on request.

Subscription price \$4.00 a year, payable in advance. Foreign postage 40 cents a year extra. Single copies twelve cents each.

Should a subscriber desire to discontinue his subscription a notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts and orders should be made payable to Cornell Alumni News.

Correspondence should be addressed—

GIVE IT OR LEAVE IT

IT is becoming increasingly popular to give, or to bequeath funds to colleges. The taxation laws favor it, the public good is benefited by it, and the possibilities of making a wholesome use of a fortune are increased by it.

The friends of Cornell are coming increasingly to give funds while still alive for the support of the University. The Cornelian Council has added a welcome sum to the University's current funds. The Semi-Centennial Endowment Fund perhaps prevented the University from sinking into an appalling mediocrity. The work is going on and is meeting with increasing success.

Thus far there has been no organized effort, but only a sympathetic attitude, on the part of the Council, toward suggesting the University as the beneficiary of bequests. It is a subject that one approaches with diffidence, unlike the mid-Western alumni editor who publishes the fact that he welcomes news of the death of any of his subscribers.

The bequeathing of one's estate, however, is inevitable and not necessarily lugubrious. One takes a certain pleasure in arranging for the proper physical well-being of those that have been close to one through ties of affection, kinship, and service. The University has certainly stood in these relationships to its children.

It should be a pleasure to make proper provision for a share in the maintenance of Cornell University on the part of every one of its alumni. Whether this provision is from current funds or from one's estate

depends wholly on the convenience of the individual. There are enough pressing needs right now to demand all the resources of the alumni that can be spared and deducted from taxable income. Many of these needs are sufficiently urgent so that income wholly from bequests would find the beneficiary in no condition to make a maximum use of it. Salaries, increased library facilities, even certain extensions of the physical plant cannot wait for bequests that are going to be suggested in the future, but must rely on current funds from living friends of the University. Progress in many other lines of development must wait their time. There is a liberal list of attractive opportunities, not all of them confined to the physical plant, where bequests of any size, no matter how small or how large, can be made to produce results and perpetuate the name of the donor.

To those Cornellians whose professional advice is sought in the disposal of estates no less than to those who are so fortunate as to have more than enough to care for their kin, we commend a study of the opportunities offered by the University for dividends of satisfaction and good deeds.

SPORT STUFF

Yet another two weeks and the football season will be over. Then we can all convert our soap boxes into kindling wood and go back to work. Which is a mercy.

Last week two freshmen started to walk across the Quadrangle not on the regular path. This is contrary to rules ordained for the chastening of the souls of freshmen. A large number of young men immediately rushed out and literally placed the feet of the two freshmen in the straight and narrow path. And now, if you can believe it, a lot of people are talking and writing about this incident, pointing out that people should be led by reason and not force—that freshmen should be governed by love and not by rough stuff.

O Tempora and a sniff or two for the Mores! Nevertheless the alumni need not be too much alarmed lest we become soft. Though ink splashes and voices resound in broken English, I can't help noticing that all freshmen are walking on the paths provided. In this shaken world in which we live the doer still has a little something on the soap box.

And, may I add, the reticent but active football player still retains the edge on the vociferous critic in the cafeteria.

R. B.

THE MORSE CHAIN WORKS is completing a five-story addition, ninety feet long and sixty-four feet wide.

ALPHA PHI ALPHA at Cornell University established in 1906, is said to be the first Greek-letter fraternity for negroes. Since then three other national fraternities have been formed, and three negro sororities, one of which is represented at Cornell.

FACULTY NOTES

DR. LEWIS L. FORMAN, of the Department of Latin, having disposed of modern poetry in a recent lecture, next demolished Rodin and modern sculpture, and this week puts a quietus on De Bussy and other latterday composers, according to the announcement of his lecture given in Barnes Hall.

ALBERT C. PHELPS, professor of architecture, lectured this week before the Technology Club of Syracuse, on Sir Christopher Wren and his influence on modern architecture.

MANY MEMBERS of the Faculty of the College of Agriculture attended the meetings of the Land Grant College Association held in Chicago this week. Dwight Sanderson '98, professor of rural social organization, and Mrs. Albert W. Smith, Ph.D., '14, associate State leader of home demonstration agents, attended the Rural Life Conference in St. Louis last week.

WILL M. SAWDON '08, professor of experimental engineering, was elected mayor of Ithaca on the Republican ticket.

GEORGE C. EMBODY '10, professor of aquiculture in the College of Agriculture, was elected president of the American Fisheries Society at a recent meeting of the Society in St. Louis.

WIVES of members of the the Faculty of College of Agriculture have organized to promote acquaintanceship with one another. The officers are Mrs. Albert R. Mann, Mrs. Karl Wiegand, and Mrs. Dwight Sanderson.

PRESIDENT FARRAND was recently elected second vice-president of the American Child Health Association, of which Herbert Hoover, Secretary of Commerce, is president.

PROFESSOR JOHN L. WEBER has left the University to take a position with Howard T. Critchlow '10, hydraulic engineer of the Department of Conservation and Development of the State of New Jersey.

GRAHAM LUSK, professor of physiology at the Cornell Medical College, says that the appetite is the best all-round guide in the selection of the diet.

ANNA B. COMSTOCK '85, emeritus professor of nature study, was one of the principal speakers at the Pittsburgh Teachers' Institute recently, making a plea for more nature study in the public schools.

GEORGE A. WORKS, professor of rural education, has been named to conduct a survey of the tax-supported schools of Texas.

FRANK O. ELLENWOOD, professor of heat power engineering is on the program of the annual meeting of the American Society of Mechanical Engineers in New York, beginning Monday, December 3.

ATHLETICS

The Football Schedule

Cornell 41, St. Bonaventure 6.
 Cornell 84, Susquehanna 0.
 Cornell 28, Williams 0.
 Cornell 34, Colgate 7.
 Cornell 32, Dartmouth 7.
 Cornell 35, Columbia 0.
 November 17. Johns Hopkins at Ithaca.
 November 29. Pennsylvania at Philadelphia.

Win Handily From Columbia

The power and drive of Cornell's rushing attack, operating as usual behind effective interference, with characteristic precision and smooth efficiency, overcame Columbia in Saturday's game at the Polo Grounds, New York. The score was 35 to 0, and it represented five touchdowns and five points by placement goals after touchdowns. Cornell scored once in the first period, once in the second, twice in the third, and once in the fourth.

The game was played before thirty-five thousand people, including perhaps ten thousand Cornell alumni and well wishers. They saw the eleven perform an efficient, workmanlike job against game opposition, and sometimes surprisingly alert opposition. They saw the team live up to the good name it had already won this season; they saw Captain George Pfann prove once more than he is one of the great backs of the year, one of the greatest backs in Cornell's football history. He led the offense in a series of brilliant runs; he was effective defensively in diagnosing the Columbia attack; his punting was consistent if not spectacular; and few passes that he attempted were opportunely chosen and neatly executed.

But again, as in all other games, not only this year but in 1922 and 1921, the thing that counted, without which brilliant individual work would hardly be possible, was the superb interference afforded the runner, Ramsey and Cassidy especially doing fine work in "taking out" their man, and the consistently effective assistance of the line. In other words here is another well drilled, closely coordinated, precise Dobie eleven, every man contributing to the sum total by doing well the job assigned to him.

The attack was a little slow in getting under way and Pfann did quite a bit of punting in the first period. Columbia was fresh and on its toes, and fought with great spirit. Indeed all through the game the Lions' spirit never flagged; they kept up the fight until the very end, but as a team they were no match for the red-jerseyed men from Ithaca, nor could they long withstand the powerful ramming of the hard running, never-say-die, Cornell backs.

The first period had gone twelve minutes or more before the Red machine swung into scoring stride. Then Pfann broke away for a forty-five-yard run, dodging and stiff arming Columbians right and left, and taking the ball to the Columbia

ten-yard line. In two plunges Ramsey had scored and Pfann kicked a placement goal, Sundstrom having left the game early, with injuries.

In the second period another series of rushes soon had Cornell thundering at Columbia's goal again. Halted by two penalties, Pfann turned to the air and two passes to Buckley, one right after the other, scored another touchdown.

In this period Columbia made its one bid, the only time in the game the Blue and White had an opportunity to score. Wagner recovered a fumble on Cornell's twenty-five-yard line. A forward pass, Pease to Koppisch, gained ten yards. Here the Cornell defense rallied and halted three drives for no gain. Schmititich dropped back and tried a placement goal from the twenty-five-yard line. It was near, but not quite good enough.

Opening the third period Cornell scored in three plays after the kick-off, a forty-five-yard run by Ramsey paving the way. More rushing from midfield soon gave Cassidy a chance to make the fourth, while the fifth and final score came in the fourth period, a forward pass to Cassidy, good for twenty-five-yards, taking the ball to the ten-yard line. Pfann faked a forward pass and slid and fought his way over, after having seemingly been downed twice.

Cornell's play seemed not quite so crisp and dashing as on some other occasions, but it was mighty efficient. There was more loose handling of the ball than customary. Line play on the whole was up to standard. Kearney again gave a good account of himself, and Savage, who was substituted for Sundstrom, was steady and effective. Kneen played a consistent, steady game, Dexter missed a few tackles, and Buckley in his first appearance this year handled the pass well and gave a good account of himself. Berean, Affeld, and Morris were consistent all through.

The details: The major part of the first period was devoted to a punting argument between Pfann and Koppisch. Patterson finally caught one of Koppisch's punts on the Cornell thirty-yard line and ran it back fifteen yards. Then Pfann cut through right tackle and, shaking off half a dozen tacklers, emerged unhampered and dashed down field. He covered forty-five of the fifty-five yards to the goal line before Koppisch caught him. From the ten-yard line Ramsey went over for a touchdown in two plays through center. Pfann then kicked the first of his five goals from placement for the extra point.

In the second quarter Cornell put over another touchdown. After they had marched the ball down to the Columbia ten-yard line, they were penalized twice and yet made their distance without losing the ball on downs. Ramsey carried the ball to the five-yard line, but a fifteen-yard penalty set it back to the twenty-yard mark. From this point Pfann tossed two forward passes over left end to

Buckley, the second registering the touchdown. Again Pfann kicked the goal from placement.

The third quarter was the most prolific in scoring. Cornell made a touchdown in three plays after Columbia had kicked off to them. Pfann ran the kick-off back to the Cornell thirty-two-yard line. Ramsey was halted in a dash at the Columbia line, but to make up for it, he took the ball again, ripped his way through all entanglements, and Koppisch had to hurry to catch him on the Columbia twenty-yard line. This run was forty-eight yards in length. Then Pfann knifed his way through left guard for the touchdown.

Cassidy scored the fourth touchdown in the same period. After an exchange of punts Cornell took the ball in midfield and marched without interruption to the Columbia goal line.

In the last period Pfann scored the final touchdown in typical fashion. An exchange of punts gave Cornell the ball in midfield. Pfann then tossed a forward pass to Cassidy, which put the ball on Columbia's ten-yard line. The Cornell captain scooted off left tackle and fought his way over the line.

The line up:

Cornell		Columbia
Buckley.....	L.E.....	Wagner
Kearney.....	L.T.....	Smullen
Morris.....	L.G.....	Jackson
Affeld.....	C.....	Brodil
Berean.....	R.G.....	Schimititich
Sundstrom.....	R.T.....	Schopp
Kneen.....	R.E.....	Manning
Pfann.....	Q.B.....	Pease
Patterson.....	L.H.B.....	Jaeger
Ramsey.....	R.H.B.....	Koppisch
Cassidy.....	F.B.....	Kirchmeyer

Score by periods:
 Cornell..... 7 7 14 7—35
 Columbia..... 0 0 0 0—0
 Touchdowns: Ramsey, Buckley, Pfann (2), Cassidy. Points from touchdown—Pfann, kick from placement), 5.

Substitutions: Cornell, Savage for Sundstrom, Raymond for Kneen, Whetstone for Cassidy, Bridgen for Raymond, Dexter for Buckley. Columbia, Raphael for Schopp, Price for Raphael, Hamm for Jaeger, Offerman for Jackson, Tihoning for Manning, Eschavania for Hamon, Krisel for Echavania, Jackson for Offerman, Hunzleman for Pease, Walder for Schimititich.

Officials: Referee; W. A. Schwartz, Brown. Umpire, D. L. Fultz, Brown. Field judge, E. J. O'Brien, Tufts. Linesman, E. C. Taggart, Rochester. Four periods of 15 minutes each.

Lose Cross-Country

Although the cross country team was badly beaten by Dartmouth and Columbia in the quadrangular meet in New York Saturday, a Cornell runner flashed across the finish line in first place. He was Edward C. Kirby, intercollegiate mile champion, who came up from the pack in the third mile, took the lead and fought off a series of challenges from Nazra of Dartmouth. Coming up to the tape, Kirby let out a beautiful sprint and crossed the line five yards ahead of the Dartmouth star. Kirby's time for the six-mile course was 33 minutes, 54 seconds.

The second Cornell runner home was

J. P. Glick, who finished in eleventh place. He came in less than a minute back of Kirby, but ten other men performed the same feat. Captain Smith, the third Cornell man to score, stood sixteenth; Higley was twentieth, Ovenshine twenty-first, Palmer twenty-third, Gerry twenty-fifth, and Lee twenty-ninth. Injuries in practice prevented De Proesse and Bullen from competing. Ovenshine, the last Cornellian to score, was one minute, 56 seconds behind Kirby.

The team score:

Dartmouth.....	2	5	7	9	10—33
Columbia.....	3	4	6	12	14—39
Cornell.....	1	11	16	20	21—69
Pennsylvania....	8	13	16	17	19—72

Freshman Win First and Last

The freshman football team closed its brief season Saturday with the first and only victory of the year, defeating the Columbia yearlings on Alumni Field by a score of 9 to 0. The freshmen had only a few plays, but they had mastered them by Saturday, and once they got together, which did not come until the third period, they rushed from their own thirty-yard line right down for a touchdown, Molinet making most of the gains. From the ten-yard line Hoekelmann bluffed a forward pass and skirted tackle for a touchdown.

In the fourth period the Cornell yearlings reached the five-yard line, only to be penalized fifteen yards. Carey, however, kicked a placement goal from the twenty-five-yard line. The material on this freshman team is about as good stuff as has been seen here in years. The squad had a number of heavy, rangy, men with lots of power, and a few who were speedy.

Tie Yale at Soccer

Yale and Cornell played a tie Intercollegiate Soccer League game on Alumni Field Saturday, the score standing 2 to 2 at the end of two extra five-minute periods. This is the second league game Cornell has played that ended in a tie, a similar result having been reached at Haverford a few weeks ago.

Bamman scored for Cornell rather early in the first period, but a Yale rally toward the end of this half found Gilman and Hand each scoring. It looked like a Yale victory, but toward the close of the game Cook kicked out from corner and Montgomery headed it into the Yale net tying the score.

BEATRICE HUNTER, assistant professor of home economics, spoke before the New Century Women's Club of Utica last week on the right use of lines and colors in dress.

HOTEL MANAGEMENT students in the two upper classes will go to New York as part of their training and visit the Hotel Exposition held there next week. They will be guests of the United Hotels Company, and will have an opportunity to inspect both hotel and Pullman car management during the trip, which occupies three days.

LITERARY REVIEW

A Ghost Story

The Trouble at Pinelands: a Detective Story. By Ernest M. Poate '06. New York. Chelsea House, 79 Seventh Avenue. 1922. 19.5 cm., pp. 310.

This is an exceptionally well written story, in which the plot is logically built up without doing violence to any of the characters as they are drawn.

Dr. Lewis Parker, a young physician about to be married, is accused of the murder of a rival physician, under circumstances which make such an accusation not altogether implausible. But whether plausible or not, it becomes serious for the young doctor when an ambitious district attorney takes it up and pushes it. A ghost story is skilfully woven in and there are scenes of conflict with dangerous bootleggers in the mountains. One or two of the ghost scenes are not entirely convincing; but we recognize the difficulty of doing this kind of thing well. The solution of the problem might cause more surprise than it does; yet as a whole we regard the story as very satisfactory. It is a fine, clean story, and the melodrama is not overdone. We recommend it for light reading.

Books and Magazine Articles

"The Design of Concrete Structures" by Professor Leonard C. Urquhart '09 and Charles E. O'Rourke '17 has just appeared from the press of the McGraw-Hill Book Company, New York.

Kenneth L. Roberts is now engaged in the scientific study of national drinks. In *The Saturday Evening Post* for October 27, under the title of "Suds," he describes the beer that made Munich famous and its effects upon the Muencheners. In the issue of November 3 he writes on "Swedish Punch." In the issue of November 10 he describes the drink situation of Norway, under the title "Other People's Troubles."

In *Science* for October 26 Professor Edwin G. Boring 'c8, of Harvard, writes on "Pamphlet Filing." Professor Frank E. E. Germann, formerly an instructor in physics here, and Malcolm C. Hylan write on "The Dispersivity of Silver Halides in Relation to Their Photographic Behavior."

In *Mycologia* for September Dr. William A. Murrill '00 writes on "Virginia Fungi." Professor Joseph C. Arthur, D.Sc. '86, of Purdue, writes an obituary of the late E. W. D. Holway, of the University of Minnesota.

In the report of the New York State Botanist for 1921, issued on May 15 last, Professor Joseph C. Arthur, D.Sc. '86, of Purdue, is represented by notes on a number of miscellaneous fungous formations which notes are largely based on his determinations.

Henry F. Pringle '19 contributes to *The American Magazine* for September an article on "Only Ten Minutes to Spare."

In *The American Journal of Physiology* for October 1 Meyer Bodansky '18 has an article on "The Production of Hypoglycemia in Experimental Derangements of the Liver."

In *The Journal of Social Hygiene* for October is a memorial appreciation of the late Dr. Herman M. Biggs '82 by the Board of Directors of the American Social Hygiene Association, accompanied by a portrait.

In *The Cavalry Journal* for October Colonel Edward Davis '96 continues his serial on "The British Cavalry in Palestine and Syria."

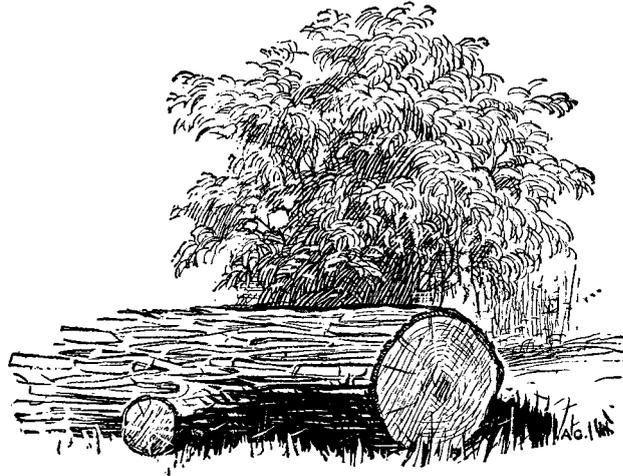

In *The Cornell Civil Engineer* for October Willard Beahan '78 tells about "Some Common Labor I Have Met." He discusses Spanish-Americans, negroes, and hoboes. William K. Hatt '91 writes on "Highway Research." Daniel G. O'Shea, Jr., '25 reports on "The 1923 Summer Camp." J. E. P. reviews "Practical Railway Maintenance" by Charles Weiss '13.

"A Survey of Mathematical Formulas That Have Been Used to Express the Law of Mortality" by James Elston '11, presented to the American Institute of Actuaries, is printed in the October issue of the *Record* of the Society.

In *The Medical Quip* for October "Quip" publishes "Looking Backward: a Chat with Dr. Robert T. Morris." He remembers Colonel Edward M. House '82, always deeply interested in economics and government, as walking the street and reading De Tocqueville's "American Democracy." Dr. Morris regards the promulgation of the practical application of the principles of the fourth or physiological era in surgery as the most important part of his life-work. He believes he was the first in America to devote himself exclusively to surgery.

The frontispiece of *Bird-Lore* for July-August consists of pictures of two Bullock's orioles and three Nelson's Hooded orioles, by Louis A. Fuertes '97. Professor Arthur A. Allen '08 writes on "August Shores" and also contributes "Suggestions to Teachers" and a note on "A New Bird-Play."

In *The American Journal of Psychology* for October Professors Edwin G. Boring '08 of Harvard and Edward B. Titchener collaborate in an article on "A Model for the Demonstration of Facial Expression." Professor Titchener also has a note on "Goerenz' Vestigia" and a note on "The Expression of Simple Feeling" in reply to Professor Madison Bentley, Ph.D. '98, of the University of Illinois. He also reviews "Unconscious Memory," by Samuel Butler with an Introduction by Professor Hartog, and the edition of Descartes's "Discours de la Méthode" recently issued in the Cambridge Plain Texts. Dr. Seth Wakeman '22 reviews Professor Michael V. O'Shea's "Tobacco and Mental Efficiency." Samuel Feldman, Grad., reviews "The Psychology of Social Recon-

—are you sure you deserve it?

“Give me a log with Mark Hopkins at one end of it and myself at the other,” said, in effect, President Garfield, “and I would not want a better college.”

But if Mark Hopkins was an inspired teacher, it is just as true that James A. Garfield was an inspiring student.

Sometimes Garfield’s praise of his professor is quoted in disparagement of present day faculties—the assumption being that we as listeners are sympathetic, all that we ought to be—and that it is the teacher who has lost his vision.

Is this often the case?

It is the recollection of one graduate at least that he did not give his professors a chance. Cold to their enthusiasms, he was prone to regard those men more in the light of animated text-books than as human beings able and eager to expound their art or to go beyond it into the realm of his own personal problems.

This is a man to man proposition. Each has to go half way. Remember, there are two ends to the log.

This advertisement is one of a series in student publications. It may remind alumni of their opportunity to help the undergraduate, by suggestion and advice, to get more out of his four years.

Number 33 of a series

struction" by G. T. W. Patrick. Gilbert J. Rich '15 writes a note on "Visual Acuity and Illumination." Professor Max F. Meyer, of the University of Missouri in a postscript to his article on "Alcohol, Tobacco, Tea," offers some criticisms on Professor O'Shea's book above referred to.

In *The Quarterly Journal of Economics* for August Professor Thomas N. Carver, Ph.D. '94, of Harvard, discusses "Birk's Theory of Marginal Value."

In the *Journal of the American Statistical Society* for September "The Development of the Federal Reserve System" by Professor Harold L. Reed, Ph.D. '14, is reviewed by H. Parker Willis. Professor Henry L. Rietz, Ph.D. '02, of the University of Iowa, reviews "Tables of Applied Mathematics in Finance, Insurance, and Statistics" by James W. Glover.

The *Annals of the American Academy of Political and Social Science* for September is devoted to "Prohibition and Its Enforcement." Florence Kelley '82 writes on "Laborers in Heat and in Heavy Industries."

In the *Journal of the New York State Teachers' Association* for September Professor George A. Works writes on "Schools and Farms."

In *The Historical Outlook* for November Fayette E. Moyer '96 writes on "New Types of Historical Tests."

The Stanford Illustrated Review for October includes a review of Dr. Jordan's "The Days of a Man" under the title, "Dr. Jordan's Autobiography Interprets Life," by I. K. Russell, Stanford '04. There is also an article entitled "Daddy Marx Retires" with portraits of Professor Charles D. Marx '78, Professor Charles B. Wing '86, who succeeds Marx as head of the Stanford department of engineering, and Professor Leon B. Reynolds, Stanford '09, who will give the courses hitherto taught by Professor Marx.

Professor Louis M. Dennis and his pupils have continued the study of germanium, to which we referred in our issue of January 25. The fifth number of the series, "Extraction from Germanium-Bearing Zinc Oxide. Direct Preparation of Germanium Dioxide Free from Arsenic. Detection of Minute Particle Amounts of Arsenic in Germanium Dioxide" by Louis M. Dennis and Edgar B. Johnson '15 has been reprinted from the *Journal of the American Chemical Society* for June. No. VI, "Metallic Germanium. Reduction of Germanium Oxide. Preparation of Fused Germanium. Physical and Chemical Properties" by Louis M. Dennis, Katharina M. Tressler, and Francis E. Hance '21 has been reprinted from the same *Journal* for September.

In *The Journal of Political Economy* for October Professor Frank A. Fetter, Ph.M. '92, of Princeton, begins a serial on "Value and the Larger Economics." "Inheriting the Earth" by Professor Oscar D. Von Engeln '08 is reviewed by D. S. Whittlesey.

ALUMNI NOTES

'97 AB, '02 MD—Dr. N. Gilbert Parker has removed her office and residence to 134 East Nineteenth Street, New York City.

'00 BS—Fred M. Randall is now president and treasurer of the Fred M. Randall Company, an advertising agency with offices in Detroit and Chicago. His residence address is 221 Atkinson Avenue, Detroit.

'02 AB, '04 MD—Dr. Raymond F. C. Kieb is superintendent of the New York State Hospital for the Criminal Insane at Matteawan. He was active this fall in support of a measure placed before the voters of the State at election time, asking for a bond issue of \$50,000,000 to enlarge and improve State hospitals. This measure was endorsed by a majority of the voters and is expected to receive favorable attention from the next Legislature.

'07 ME—Roy L. Stone, until recently associated with McClellan and Junkersfeld, Inc., engineers and contractors, of New York, has organized The Stone Company, of which he is president, with offices in the Commerce Building, Rochester, N. Y. The new company will act as district representative for New York State, exclusive of the metropolitan district, for the Griscom-Russell Company, the Allen-Sherman-Hoff Company, the M. W. Kellogg Company, the Pennsylvania Pump and Compressor Company, the Coffin Valve Company, and the Chicago Belting Company.

'07 AB—Martin L. Wilson, farm economics specialist at the Montana State College of Agriculture, is now back at Bozeman after spending the summer in the East, where he taught economics in the University of Chicago and later took some special courses at Cornell. He recently published a bulletin on "Dry Farming in the North Central Montana Triangle" which contains the results of an extensive farm survey conducted by him last summer, and which has met with much interest in central and northern Montana.

'09, '08 ME—George M. Keller is president and general manager of the Steinmetz Electric Motor Car Corporation of Baltimore. His home address is Homewood Apartments, Charles and Thirty-first Streets.

'09 ME—Truman W. Eustis is now located at 27 Gormley Avenue, Toronto, Canada.

'12 BS—Lloyd I. Snodgrass accepted a position on October 1 in the service department of the Eastman Kodak Company of Rochester. For the past three and a half years he has been teaching in the printing and finishing department of the Illinois College of Photography at Effingham, Ill. His present work is also along educational lines. His book published last

February, "The Science and Practice of Photographic Printing," which was reviewed in the ALUMNI NEWS of March 22, is going very well, and has received many favorable notices. His new residence address is 427 Champlain Street, Rochester.

'12 ME—Leonard F. Fuller installed a carrier current radio system for the Great Western Power Company of California about a year, and it has worked so well that it is used almost exclusively in preference to the wire line for communication between the load dispatcher's office in Oakland and the Caribou power house two hundred miles north. Later he installed a similar system for the Pacific Gas and Electric Company. He has recently moved to Schenectady, where he is experimenting for the General Electric Company.

'12 LLB—James I. Clark is now associated with Hitt, Farwell & Co., 160 Broadway, New York, dealers in investment securities. He living is at 64 West 47th Street.

'12 CE—Maurice M. Wyckoff is an engineer and builder. He may be reached at 1320 Madison Avenue, New York.

'15 ME—Henry R. Mallory has moved to Toledo, Ohio, where he is engaged in building and operating a new plant to manufacture a fuel known as amalgam, from low grade coals. He is employed by the Ohio Coal, Coke and Amalgam Company, 345 Spitzer Building, where he can be reached.

Read "Concerning Cornell"

THE sale of this book is continuing steady. The History chapter is attracting the attention of the alumni. The traditions are interesting to the under-classmen. It is a story of the University well told. You will want a copy in your library.

Cloth \$3.50

Leather \$5.00

"Cornell Rowing"

\$1.50

There are many readers of the "NEWS" who are interested in Cornell Rowing even though they never rowed. "Tar" Young wrote a story this time. Statistics occupy only a very small portion of the book. Buy a copy.

Cornell Songbook

\$1.75

Every gathering of Cornellians includes singing in its program. Don't sing just "for your own amazement," help the crowd. Know the songs well and sing. Every little bit helps.
