To Cornellians:

In your undergraduate days, the Lehigh Valley sought to earn your patronage by rendering you its best in every detail of service.

By the the same means it seeks to maintain and strengthen the tie. Based solely on its capacity to please you—and not because of "old times' sake"—the Lehigh Valley invites your attention to its train service between New York or Philadelphia and Ithaca, Rochester, Buffalo, Niagara Falls, Toronto, Detroit and Chicago. Its representatives will welcome your inquiries.

CORNELL ALUMNI NEWS

VOL. XXVII, No. 4

ITHACA, N. Y., OCTOBER 16, 1924

PRICE 12 CENTS

FRATERNITY rushing is well along at the end of the second week of instruction, and undergraduates are settling down to the real work of the school year. It is reported that the sale of memberships in the Athletic Association is slightly below that of last year.

NOT TO BE OUTDONE by the fraternities, the sororities are rushing with a vengeance. With teas and parties nearly every day for the three weeks preceding, the pledging date is set as October 18, when all bids are to be sent and received.

A NEW SHELL, completed this summer by John Hoyle, was christened with appropriate ceremonies on Courtney Inlet on October 4, when the crews first took to the water. The boat was named "The '23 Shell" in honor of the crew of that year, which made a notable reputation in its freshman year and for three years thereafter. Hamilton Garnsey '23, a member of that crew, did the honors.

THE NEW ROOF of the Drill Hall, which was started about September 1, is expected to be completed by the first of November. All of the old roof, including the concrete understructure, is being removed and replaced with two-inch plank covered with a prepared roofing material which in turn is covered with two-ply fabric and asphalt.

THE AUDIENCE of more than fifteen hundred persons voted the negative the winning side in the debate with Cambridge on October 6 on the question: "Resolved, That Modern Democracy is Inconsistent with Personal Liberty." Those who made up the winning team were Gerald Sparrow of Cambridge, John W. MacDonald '25 of Watervliet, and Samuel Mezansky '25 of Poughkeepsie. The Cambridge visitors were entertained at the Telluride House while in Ithaca.

THE COSMOPOLITAN CLUB announces as its program this year public discussions and entertainments on alternate Friday evenings, as was the custom last year, and in addition a series of debates between club members at first but including other organizations later. These will be held on Tuesday evenings of the weeks which do not have the other meetings. The first of the latter was held on October 3, when Georgio De Grassi of the Library staff, spoke on Corda Fratres, of which he is secretary for North and South America.

A DEADLOCK between musicians' and stagehands' unions and the Ithaca Theater Corporation, which holds controlling interest in the Lyceum and owns the other two theaters in town, promises to keep Ithaca's oldest playhouse dark indefinitely.

ARMY OFFICERS of the R. O. T. C. played polo against a Syracuse team at Stewart Park on October 4. A new string of fifteen ponies has been received at the Artillery barns.

SPECIAL RATES and service are announced by both railroads serving Ithaca, not only for the Dartmouth and Pennsylvania football games, but for the Alumni Home-Coming and Columbia game in Ithaca on November 1.

THE SOCIETY of Cornell Dames, an organization of the wives of Faculty members and graduate students, held its first meeting of the year in Sage College drawing rooms on October 7.

YE HOSTS, the organization of students of institutional management in the School of Home Economics, entertained and were addressed by McF. Howie, proprietor of the Touraine Hotel in Boston and chairman of the educational committee of the American Hotel Association, who was instrumental in getting the course at Cornell, the only one in the country.

THE SAGE CHAPEL Preacher for October 19 will be the Rev. Dr. William L. Sullivan, mission preacher to the Unitarian churches in the United States and Canada. In the evening Dr. Sullivan will preach in the First Unitarian Church of Ithaca.

LECTURES for the week include "Present Day Problems in Germany" by Dr. Moritz J. Bonn, professor of economics and finance in the Handelshochschule of Berlin, on the Goldwin Smith Foundation, on October 14; "The Ethical Aspect of the Political Issues" by Professor Nathaniel Schmidt, before the Ethics Club at the Cosmopolitan Club on October 14; "Palestine: the Land and the People" by Philip J. Baldensperger, illustrated, on the Goldwin Smith Foundation, on October 15; "Die Jugendbewegung in Deutschland" by Dr. Walther Otto of Bremen, before the Deutscher Verein on October 15; and "The League of Nations at Work" by Professor Charles K. Burdick, on the Goldwin Smith Foundation, on October 16.

THE CHIMES honored the memory of Dean Creighton when at noon on October 8 they played "Alma Mater," "Faith of Our Fathers," "Rathbun," "Laschia Chio Pianga," and "The Cornell Hymn." The program was arranged by Professor Eugene P. Andrews '95 and the chime-master, Millard W. Baldwin, Jr., '25 of Marcy, New York.

THE DRAMATIC CLUB announces that its first group of plays, to be given in the Campus Theater on October 17 and 18, includes "Double Demon," a comedy by A. P. Herbert, "Nevertheless," an inter-

lude by Stuart Walker, and "The Storm" a poetic play by John Drinkwater. The next group is to be Lord Dunsany's comedy, "Cheezo," "A Sunny Morning," by Quinteros, and T. B. Rogers's "The Hall of Laughter." The first long play to be given by the Club will be "Wappin' Wharf." Rehearsals are already underway for all of these.

A LANDSLIDE in Enfield Glen on September 28 seriously injured a thirteen-year-old boy, when a large rock hurled him thirty feet into a pool of water and fractured his skull. He and his parents and some other children were together but the other members of the party escaped unhurt. As we go to press the lad is still in the City Hospital.

IMPROVEMENT of the University playgrounds on upper and lower Alumni Fields is forecast in the announcement that Gavin Hadden of New York has been retained by the Athletic Association to draw plans for their complete development eventually. It is proposed to drain and fence the whole area when funds are available. Mr. Hadden is the designer of the Cornell Crescent and the Franklin Field stadium at Philadelphia.

THE CRESCENT was put to a novel use recently when torrential rains kept the track men from their usual practice. Its ample shelter provided space for an emergency track under the east side, hurdles were provided, and the weight men found space for their gyrations, all on dry ground.

FORMER MAYOR Louis P. Smith of Ithaca was appointed by Governor Smith the official New York delegate to the Pan-American Commercial Congress which opened its sessions on October 1 at Atlanta, Georgia.

AT THE ANNUAL meeting of the Cornell Chapter of Phi Beta Kappa held Friday evening, Prof. Herbert H. Whetzell, '02-4 Grad., was elected president and Prof. Joseph Q. Adams '06 vice president. Other officers are: Charles B. Hale '20, secretary; Miss Emma Speed '11, treasurer; Rogers P. Churchill '24, assistant secretary; Earl E. Ferriss '14, registrar; and Prof. Lane Cooper and Mrs. A. R. Mann '04, members of the executive committee. Dr. Oscar M. Voorhees of New York City, secretary of the United Chapters, also gave an interesting address, speaking of the history of the society and the present memorial fund campaign.

THE CORNELL Menorah Society held its organization meeting for the year in Barnes Hall on October 5, when it was addressed by Rabbi Goldman of New York.

James E. Creighton Dies

Professor of Philosophy and Former Dean of Graduate School Stricken on October 8 after Long Illness

Professor James Edwin Creighton, Sage Professor of Logic and Metaphysics and in point of service the oldest member of the Faculty of Arts and Science, died at his home on the Campus at two o'clock Wednesday, October 8. He had been ill of a complication of diseases for more than a year.

Professor Creighton was born at Pictou, Nova Scotia, on April 8, 1861, the son of John and Mary O'Brien Creighton. He was educated at Dalhousie College, from which he graduated A. B. in 1887. In the following year he came to Cornell as a graduate student in philosophy, receiving the degree of Ph. D. in 1892. He afterward studied at the Universities of Leipzig and Berlin. He was made an instructor in philosophy in 1889. In 1892 he became assistant professor of modern philosophy, and in 1895 was promoted to the chair he held ever since. From 1914 to 1923 he was Dean of the Graduate School, which he did much to strengthen and build up.

Dr. Creighton had an international reputation in his field. He had been since 1896 the American editor of *Kant-Studien*. From 1894 to 1902 he was co-editor, with Dr. Schurman, and since 1902 he had been editor of *The Philosophical Review*. He was a member of the American Philosophical Society, of which he was president in 1902-3. He was the author of "An Introductory Logic," 1898, second edition 1909. With Professor Titchener he translated Wundt's "Human and Animal Psychology" and with Professor Albert Lefevre '98 he translated Paulsen's "Kant: His Life and Philosophy."

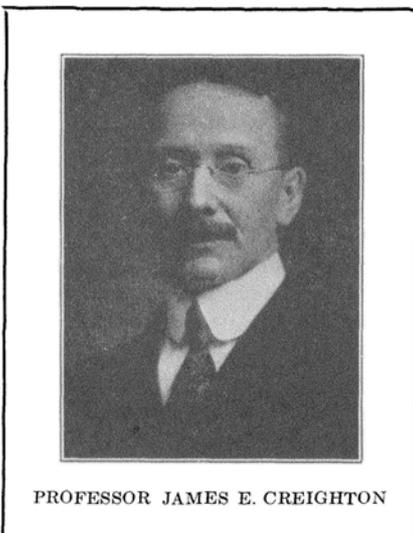

Professor Creighton was an able and inspiring teacher. His course in the history of philosophy had been justly popular for many years. He helped to train many graduate students who have gone out to do credit to him and his colleagues of the Sage School. He will be greatly missed on the Campus.

He was a member Alpha Tau Omega, Phi Beta Kappa, Phi Kappa Phi, the Town and Gown Club, the Ithaca Board of Commerce, and the University Club.

On December 20, 1892, he was married to Miss Katherine F. McLean of Pictou, N. S. A niece, Katherine F. McKay '22, has for some years made her home with Dr. and Mrs. Creighton.

INSPECTION of fraternity houses to see that they are adequately protected against fire was made last week by the Ithaca fire department chief.

THE COMMITTEE in charge of the All-Cornell dances held so successfully last year in the Old Armory, has set the date for the first one of this year for October 18.

PROFESSOR JAMES E. CREIGHTON

REPORT ON LATIN AND GREEK

The first instalment of a report on the teaching of the classics in America, the result of an inquiry undertaken by the American Classical League some three years ago, for which the General Education Board appropriated \$125,000, has just been made public. The total enrollment in Latin in the secondary schools of the country, including the seventh and eighth grades of junior high schools, is about 940,000, a little more than the combined enrollment in all other foreign languages. It is about 27.5 per cent of the total enrollment. About one-half is in the ninth grade or below; only one-fifteenth is in the twelfth grade. The number offering four years of Latin is more than double the number offering three years of French. Of the 22,500 teachers of Latin in the secondary schools more than twenty-five per cent have had less than eight years of schooling beyond the elementary grades, another fourth have not studied Latin beyond the secondary school, and only slightly over twenty-five per cent have studied Greek.

In the colleges the Latin enrollment in 1923-4 was about 40,000. Of the 609 colleges in the United States listed by the U. S. Bureau of Education, 234 offer courses in beginning Latin, 237 give teacher-training courses in Latin, and 214 require from two to four years of Latin for admission to the A. B. course. Only five States require that in order to teach Latin (or Greek) in the secondary school one must have studied it in college. Only one State requires previous teacher-training in the subject. Of the forty-eight State superintendents of public instruction thirty-nine are favorable to the study of Latin, seven are neutral, and two are unsympathetic or unfriendly.

In Greek the secondary school enrollment is about 11,000, but is apparently increasing. In the colleges the enrollment is about 16,000. 470 colleges offer courses in beginning Greek. Of the State superintendents eight are sympathetic toward Greek, twenty-four are neutral, and sixteen are unsympathetic or unfriendly.

Committees for Convention

Dean Walter L. Niles '02 to Outline Plans for Medical College at New York Gathering Nov. 14-15

Dr. Walter L. Niles '02, Dean of the Medical College in New York, will deliver the principal address at the Saturday morning session of the fifth annual Cornell alumni convention, to be held at the Hotel Roosevelt, New York, on November 14 and 15. Alumni generally are expressing particular interest in Cornell medical affairs in view of the proposed development of the College's field of usefulness. Dean Niles will speak intimately of the College and its plans.

Edwin N. Sanderson '87, chairman of the convention committee, has announced the appointment of the sub-committee which will have charge of the meetings. Miss Katherine R. Buckley '01 and Dr. Walter H. McNeill, '10 are vice-chairmen of the general committee and of the executive committee, over both of which Sanderson presides. Seventy-two other men and women make up the general committee.

The chairmen of the other committees are: Finance, Roger H. Williams '95; banquet, Dr. McNeill; publicity, Edward L. Bernays '12; program, Gardiner S. Dresser '00; reception and entertainment, Walter S. Finlay, Jr., '04; registration, Weyland Pfeiffer '16.

INTERCOLLEGIATE NOTES

THE HARVARD *Alumni Bulletin* is reported to have a circulation of approximately 8,000. There are about 22,000 living graduates of Harvard and over 40,000 names in the 1920 Harvard Directory. A committee reporting on the *Bulletin* to the Associated Harvard Clubs is unable to recommend a feasible plan for promoting the circulation of the *Bulletin*, but suggests that the promoters of the Alumni Fund should consider using the *Bulletin* in some practical way in its campaign; also that they consider sending the *Bulletin* to each annual contributor to the Fund regardless of the amount of his contribution.

HOBART has this year 240 students, of whom ninety are new men, representing ten States. Professors Rudolph J. Anderson and Lucius L. Van Slyke, of the Geneva Experiment Station, are to lecture at the College this year, Dr. Anderson the latter part of the first semester on carbohydrates, fats, and fatty acids, and Dr. Van Slyke the first part of the second semester on the applications of organic, agricultural, and industrial chemistry.

TWO STUDENTS at the University of Nebraska won election to Phi Beta Kappa this year under great handicaps. One was Edwin Yoder, a blind student from Cheyenne, Wyoming, who obtained an average of 92 per cent. The other man is

Gerald Maryott of Lincoln, a victim of spinal meningitis and tuberculosis of the hip joint, who has been obliged for a year and a half to lie on his back with a cast on his back and leg. At the beginning of that period Maryott had completed seven semesters. Arrangements were made for him to take six hours of English constitutional history needed to complete his course. Professor Guernsey Jones brought him the books, heard his recitations, and gave him oral examinations. Maryott hopes his trouble will be over in another year, and then expects to study law.

FISK UNIVERSITY, for negroes, at Nashville, Tenn., has secured an endowment fund of one million dollars, half of which was given by the General Education Board.

LAW ASSOCIATION TO MEET

The annual meeting of the Cornell Law Association is to be held on November 1 at eleven o'clock in Boardman Hall. It will be addressed by Silas H. Strawn, chairman of the council on legal education of the American Bar Association, and a special friend of Cornell.

In the afternoon the meeting will adjourn to the Cornell Crescent for the Columbia football game, and in the evening a smoker is planned for alumni, friends, and students of the College.

Organized in June, 1923, the Law Association now has more than five hundred members. All Cornell lawyers, whether graduates of the Law School or not, are eligible to membership. The annual meeting is open to anyone interested in legal subjects.

CLUB ACTIVITIES

Memphis

Lawrence B. Pryor '23, of 14 North Front Street, Memphis, Tennessee, has been appointed as temporary secretary of the Cornell Club of Memphis to succeed William F. Moffett '14.

Cleveland Women

The Cornell Women's Club of Cleveland recently sent a circular to the fifty women on its list calling attention to the inauguration dinner on October 9 in the Western Reserve Gymnasium, to which they were invited, and to the meeting at noon at the Hotel Statler of the Cornell Club of Cleveland at which their attendance was "regarded as a privilege." President Farrand spoke at both places.

In addition, the circular called attention to the dinner of the Women's Club at the College Club on October 16 at six p. m. and to the New York Alumni Convention, at which the Club is hoping to be represented by ten votes—"one for each five paid-up members."

Washington, D. C.

Washington men have resumed their monthly luncheons at the City Club, which were suspended during the summer. The first of these gatherings this season was held on October 3. It is customary to have a speaker talk for approximately fifteen minutes at each luncheon and on this occasion John Ihlder '00 spoke on the history of philanthropic movements. While his prepared speech lasted only the allotted time, the interest he aroused was so

great that it was an hour before he finished answering questions.

On Wednesday evening, October 8, all Washington Cornellians were invited to meet at 1731 I Street, where a program had been arranged by Dr. E. Alberta Read '05, assisted by alumni from the Department of Agriculture. The program had been designed primarily to assist those present to become better acquainted, and a number of devices were employed which, it is believed, brought this about.

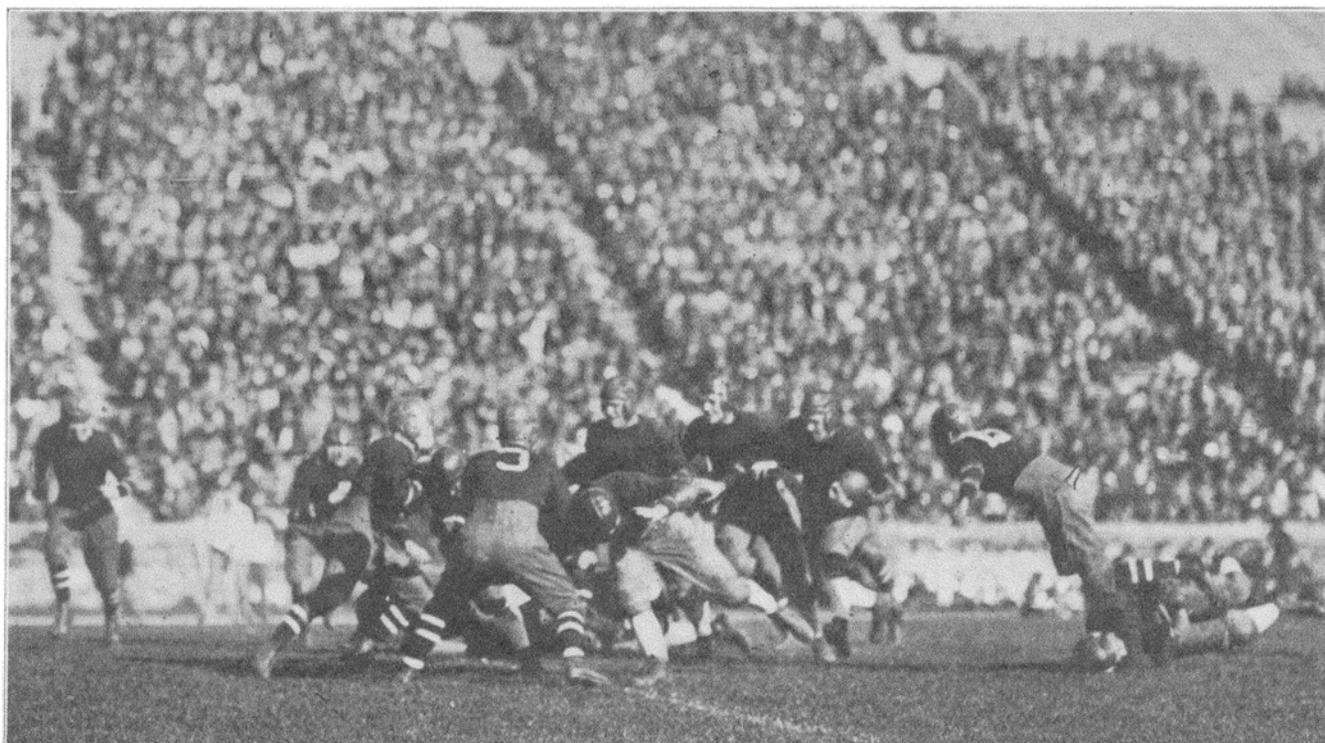

Schenectady

Seventy Cornell men and women, including representatives from Albany, Troy, Cohoes, Watervliet, Glens Falls, and Amsterdam, dined at the Hotel Mohawk in Schenectady on October 4, under the auspices of the Cornell Club of that city. The meeting was arranged on seven days' notice by George E. Cassidy '17 and a small committee. It was pronounced the best Cornell meeting ever held in Schenectady.

President Farrand was the principal speaker. The toastmaster was David B. Rushmore '95. Other speakers included Dr. Charles A. Richmond, president of Union College, Dean Dexter S. Kimball, Mrs. E. Martin Freund (Rose Boochever) '15, retiring president of the Cornell Women's Club of Albany, A. Graeme Darling '11, and Foster M. Coffin '12.

Ithaca

At the fall meeting of the Cornell Club of Ithaca, held in Barnes Hall an October 9, William H. Morrison '90 was elected to the presidency, to succeed Dr. Luzerne Coville '86. Arthur B. Treman '23, was elected treasurer to succeed Percy O.

THE FIRST GAME OF THE SEASON

Playing with little opposition before the largest crowd in the new Cornell Crescent that has ever attended an opening game, the varsity defeated St. Bonaventure 56 to 0. Team play appears to be more necessary this year than ever before, with little prospect of individual stars.

Photo by Troy

Wood 'c8, and Professor Asa C. King '99 was elected director for a term of three years, in place of Morrison, whose term expired. Professor Clark S. Northup '93 and Ralph C. Smith '15 have another year to serve as vice-president and secretary, respectively. Judge Frank Irvine '80 and Professor Simon H. Gage '77 are the other two members of the Board of Directors, to serve respectively one and two years more.

The selection of delegates from the Club to the alumni convention in New York, November 14 and 15, was left to the officers.

An invitation from the Cornell Women's Club of Ithaca that the men's club join with them in the annual Founder's Day banquet on January 11 was unanimously accepted.

Alumni Club Luncheons

Cornell luncheons are held regularly in the cities listed below. All Cornellians are urged to attend even though they may not be residents of the respective cities.

Baltimore—Mondays, Engineers' Club, Light and Redwood Streets, 12.30 p. m.

Binghamton—First and third Tuesdays, 12.15 p. m.

Boston—Mondays, Hotel Essex, 12.30 p. m.

Buffalo—Fridays, Hotel Statler, Iroquois Room, 12.15 p. m.

Chicago—Thursdays, University Club, 12.30.

Chicago Women—First Saturday of the month, Chicago College Club, 151 North Michigan Avenue.

Cleveland—Thursdays, Hotel Statler, 12 o'clock.

Detroit—Thursdays, Ivory Room, King Wahlo's Restaurant, 118 Michigan Avenue, 12.15 p. m.

Hartford, Conn.—Second Wednesdays, University Club, 30 Lewis Street, 12.15.

Indianapolis—First Monday, Lincoln Hotel, 12.15 p. m.

Ithaca Women—Wednesdays, Coffee House, 12.30 p. m.

Los Angeles—Wednesdays, University Club, 614 South Hope St., 12.15 p. m.

Milwaukee—Fridays, University Club, 12.15 p. m.

Newark, N. J.—Third Fridays, Downtown Club, Kinney Building, 12.30 p. m.

Omaha—Third Thursdays, University Club, luncheon.

Philadelphia—Daily, Cornell Club, 310 South Fifteenth Street.

Pittsburgh—Fridays, William Penn Hotel, 12.15.

Pittsburgh Women—First Saturdays, Congress of Women's Clubs 408 Penn. Avenue, 1 p. m.

Poughkeepsie—Second Mondays, Colonel Hotel, 6.30 p. m.

Rochester—Wednesdays, Powers Hotel, 12.15 p. m.

Rochester Women—First Saturday afternoon of each month, at the homes of the various members. Announced in the daily papers.

Springfield, Mass.—Mondays, Pickwick Room, Hotel Kimball, 12 o'clock.

Washington, D. C.—First Thursdays, City Club, 12.30.

Worcester—First and third Tuesdays, University Club, 12.30 p. m.

ATHLETICS

The Football Schedule

Cornell 56, St. Bonaventure 0.

Cornell 27, Niagara 0.

Cornell 7, Williams 14.

October 18—Rutgers at Ithaca.

November 1—Columbia at Ithaca.

November 8—Susquehanna at Ithaca.

November 15—Dartmouth at New York.

November 27—Pennsylvania at Philadelphia.

Williams Wins

This time Gil Dobie was right. His pessimism was justified, and the "soft" schedule chorus might well begin to put on the soft pedal. For "little" Williams, a smart, well-coached, alert eleven, defeated Cornell by a score of 14 to 7 before 12,000 persons on Schoellkopf Field Saturday afternoon, breaking up a winning streak that had lasted through three seasons and had gone two games into a fourth. Not since Thanksgiving Day, 1920, had Cornell lost a football game. After twenty-six straight it was something of a shock to see the team at the small end of the score; but who shall say that this upset may not have a wholesome effect on the team, which ought now to know that only the hardest sort of fighting can carry them through the rest of the schedule; on the undergraduate body that has become complacent, satiated with victory; and perhaps on some alumni and the public who have complained of schedules without sometimes being familiar with all of the facts?

Williams deserved to win because she played smarter, more intelligent football, committed far fewer mistakes, was generally quick to take advantages of Cornell's misplays, of which there were many, and outguessed the Cornell defense at critical times. Williams brought a rangy team to Ithaca, which outweighed the varsity and had more men of football experience. But it is not detracting one iota from the glory that rightly goes to the small college that defeats a team from a great university to say that the primary responsibility for Cornell's defeat was Cornell. Generally speaking the team played poorly. It outrushed Williams fourteen first downs to four; Whetstone's punting was fully as good as Clement's; in straight line defense, and in running defense, it gave as good an exhibition as any of the recent Cornell teams; but its play was spotted with bad technical errors and quite often the generalship was faulty.

In the first two periods the team lost the ball five times on fumbles. Uncertain

passing was a factor, but the big fault was juggling of the ball by the backs, Hoekelman in particular having an off day. This fumbling was disastrous. On at least three occasions the team got together and began a relentless drive that promised much. All three were spoiled by fumbles, which Williams recovered, depriving Cornell of fine opportunities after they had come within scoring distance. This must have been disheartening and it certainly slowed up the momentum characteristic of the Dobie teams.

Four times Cornell was inside of Williams' twenty-yard line, but could not rush the ball over. In the third period, after Williams had tied the score, Cornell lost an excellent opportunity to take the lead again, when it was held for downs one foot from the Williams line. Three downs had made nine and-a-half yards, but they piled up on the next and lost by a few inches. The generalship in this attack was clearly open to question.

There were other disappointments. Four times Whetstone tried for field goals, once from the forty-yard line, which of course offered but an outside chance, but the other three from about the twenty-five-yard mark. Three of these attempts were outright failures; but one seemed to have gone true. The field judge so called it, but the referee said no.

In retrospect, the game was full of might have beens, but the fatal fault was fumbling.

Williams offered a generally effective defense against the off tackle and reverse tackle plays. Their ends were hard to put out, and the secondary defense was right on top of this play. The Cornell linemen were slow to form interference for the tackle sweep, and the absence of a reliable clear-out man in the backfield was keenly felt. On defense, as said before, the Red line stood up well, but it was ragged and often terribly slow on the offense. The Williams ends kept sweeping in and nailing the Cornell runners from behind.

There was no scoring in the first quarter, though both teams had good opportunities. A Cornell fumble allowed Williams to launch a forward pass attack from the Red thirty-yard line, but Popham muffed a pass on the five-yard line and that was that.

In the second period a forty-yard pass, Hoekelman to Isaly, put the ball on Williams' thirty-five, and in the best exhibition of rushing of the day, Cornell went over for a touchdown, Whetstone making the score on a three-yard plunge through the line. At the end of the half the score stood Cornell 7, Williams 0, and it was a reasonable assumption that despite her many misplays, Cornell would come out ahead.

But the big break, perhaps the turning point, came early in the third period when Hoekelman muffed one of Clements punts on Cornell's ten-yard line and Ide scooped up the ball and ran over for the tying

score. Had the ball been permitted to bound it would have gone over for a touchback.

A little later in this period a Cornell rally took the ball right down to the one-foot line, but the attack faded out there. About five minutes before time was up a Cornell fumble gave Williams the ball on Cornell's thirty-five. Rushing and passing failed, and Clement tried a drop kick, which also fizzled. Cornell put the ball in play on her twenty-yard line and after an ineffectual attempt to run it, Whetstone hazarded a forward pass, a dangerous gamble. Had it succeeded it would have been hailed as a nifty play; but it didn't succeed. Popham intercepted the pass on Cornell's forty, and two beautiful Williams passes sent Cornell down to defeat. Clement threw to Bourne, who took it to the twenty-five, and then the Williams fullback shot a pretty one to Ide, on the twenty. The Williams end easily eluded Wester and ran for the winning score.

The line up and summary.

Cornell (7)	Williams (14)
Henderson.....	L.E.....Ide
Kearney.....	L.T.....Surabian
Morris.....	L.G.....Hackett
Affeld.....	C.....Clark
Trousdell.....	R.G.....Frost
Hill.....	R.T.....Packard
Kneen.....	R.E.....Fisher
Isaly.....	Q.B.....Popham
Wade.....	L.H.B.....Howe
Hoekelman.....	R.H.B.....Beekwith
Whetstone.....	F.B.....Clement

Score by periods:

Cornell.....	0	7	0	0	—	7
Williams.....	0	0	7	7	—	14

Touchdowns: Cornell, Whetstone; Williams, Ide 2. Points from touchdown; Whetstone, Fisher 2.

Substitutes: Cornell, Wester for Isaly, Friend for Wade, Evans for Hill. Williams, Evans for Packard, Page for Hackett, Mantius for Clark, Bourne for Howe, Jeffrey for Ide, Makepeace for Fisher, Peppenstell for Frost, Brown for Jeffrey, Howe for Bourne, Bourne for Beckwith.

Officials: Referee, E. C. Taggart, Rochester; umpire, C. A. Reed, Springfield; linesman, A. W. Palmer, Colby; field judge, H. E. Vankersburg, Harvard.

Time of periods: 15 minutes.

Soccer Team Defeats Colgate

The soccer team opened the season Saturday, defeating Colgate on Alumni Field by a score of 4 to 3 and playing a better game than had been anticipated. Bowdish, Cornell's center forward, scored three of the four points. Hu accounted for the fourth. Five regulars from last year's team constitute the nucleus of the Cornell squad this year.

Athletic Council Awards

At a recent meeting of the Athletic Council the elections of Eugene H. Emerson '26 as commodore of the Navy and of Dwight F. Davis, Jr., '25 as captain of the baseball team were ratified. Richard W. Moulton '25 was elected manager of baseball and Edward B. Dennis '25 manager of freshman baseball.

Paul M. Doering '25 was made manager of crew, Theodoros S. Chadeayne '26 assistant manager of crew, John P. Syme '26

SPORT STUFF

Until Saturday no undergraduate now in college had ever seen a Cornell football team defeated.

Practically all of them saw Williams do it then—plenty. The dose was disagreeable, but already certain salutary results are discernible. Gone are smugness and worldly pride. Gone is ennuied acceptance of assured superiority. And in their place is the chastened realization that victories must be won—that they are not the inherent right of a Brahmin caste. fancy that a graduate student from, say, Stanford finds the Cornell undergraduates much more amusing and pleasant to live with now than was the case last week.

All of which would be balm to outraged sensibilities were it not for the thought that perhaps the cure is not yet completed. Here come Rutgers, Columbia, Dartmouth, and Pennsylvania—all in a row. They may argue that inasmuch as one dose of castor oil has done us such a world of good, four more will make us practically perfect from their point of view. Won't some kind friend point out to them that excellent Greek quip about "nothing in excess"?

Heigho! There is good in everything if one only digs deep enough. It is noted that this is the first autumn morning in two years that the mail has not contained at least one fulmination from some infuriated alumnus on the general subject of football schedules.

R. B.

assistant manager of fershman crew, and G. Schuyler Tarbell '26 assistant manager of crew on the interscholastic committee.

The varsity C in crew was awarded to the following: Edward L. Anderson '26, Samuel T. Buckman '26, Edward W. Drew '26, Eugene H. Emerson '26, Raymond V. Lange '26, Calvin Russell '26, Norman G. Stagg '26, and Ralph C. S. Sutliff '26.

The following received the varsity C in baseball: George Bickley '24, Charles H. Capron '24, Carlton S. Frantz '24; Dwight F. Davis, Jr., '25, William J. Dupree '26, Arthur J. Harrington '26, Harold Hoekleman '26, Harwood F. Merrill '26, John A. Milligan '26, Frank D. Rossonondo '26, Donald B. Whitney '26, Thomas L. Stirling '25, Elmer W. Thomas '26, and William Wendt '26.

Opponents Keep Going

Cornell's principal opponents are still bowling merrily along. Columbia continued to show power Saturday, defeating Wesleyan 35 to 0. Dartmouth's scoring machine rolled over Vermont to the tune of 38 to 0; and although Pennsylvania found Swarthmore the hardest nut she has had to crack so far, the Quakers nevertheless won handsomely by a score of

25 to 7. Rutgers, which plays Cornell on Saturday, defeated St. Bonaventure by a score of 35 to 7.

PORTRAITS IN WASHINGTON

The James Cummings Chase portrait of Major James A. Meissner '18 has been purchased and presented to the Nation and now hangs in the National Gallery in Washington. "Jimmie" Meissner, as many will remember, was one of the first American aces. The money for the purchase of the portrait was raised by Sphinx Head and Sigma Phi Epsilon. The Chase Collection consists of the portraits of the Commander-in-Chief and a hundred and nine members of the A. E. F., designated by General Headquarters. Among these are included besides Meissner, Maurice W. Howe '16, Alan L. Eggers '19, George Bell, Jr., '95, Charles Baskerville, Jr., '19.

ITHACA HIGH CORNELLIANS

Of the 137 teachers on the staff of the Ithaca High School for the present year, a considerable number are, naturally, Cornellians. Among these are Dr. Lewell T. Genung, '97, health officer of Ithaca, Clara S. Apgar '05, Royal Gilkey '08, Mary V. McAllister '96, Edith W. Parrott '22, Helen M. Knox '97, Mildred Potter '18, Margaret M. Reidy '08, Mildred V. Rowe '22, Mrs. Roberta Quick Wood '22, Harriet G. Barton '24, Adele Y. Dyott, '23-4 Grad., Elizabeth H. Reigart '19, and James F. Hickey '21.

NEW PHYSICS EQUIPMENT

Cornell is one of eight colleges and universities in this country and Canada to install x-ray diffraction equipment in their physics laboratories. The new equipment will be furnished by the General Electric Company, in whose research laboratory this method of studying crystal structure was developed.

By means of the apparatus, characteristic x-ray diffraction patterns of fifteen powdered crystals can be recorded photographically at once. The results will be used in the theory of metallurgy and in certain branches of physical chemistry, as well as in chemistry and geology.

The other colleges which have, or are installing similar sets are the University of Michigan, Massachusetts Institute of Technology, Rensselaer Polytechnic Institute, McGill University, Pennsylvania State College, the University of Wisconsin, and the California Institute of Technology.

THE WIDOW announces the election of Norman A. Miller '26 of Evanston, Illinois, as business manager, and of C. Carver Pope '26 of Cleveland Heights, Ohio, as circulation manager.

INCREASED ENROLLMENT this year by sophomores in the Field Artillery Unit of the R. O. T. C. has led to the revocation of all riding passes, since the horses will now all be used for students' equitation classes.

Published for the alumni of Cornell University by the Cornell Alumni News Publishing Company, Incorporated.

Published weekly during the college year and monthly in July and August; forty issues annually. Issue No. 1 is published the last Thursday of September. Weekly publication (numbered consecutively) ends the last week in June. Issue No. 40 is published in August and is followed by an index of the entire volume, which will be mailed on request.

Subscription price \$4.00 a year, payable in advance. Foreign postage 40 cents a year extra. Single copies twelve cents each.

Should a subscriber desire to discontinue his subscription a notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts, and orders should be made payable to The Cornell Alumni News.

Correspondence should be addressed:

THE UNDERGRADUATE VIEW

COMMENTING on the recent report of the work of the Cornellian Council for the past year, *The Cornell Daily Sun*, in an editorial last Saturday, writes as follows:

"The Cornellian Council, in its annual statement, announces an increase of \$25,000 over the sum collected last year from alumni subscribers. Confident in their success they have added three men to the staff to spread the work of the organization further. It is encouraging to learn of the Council's accomplishments during the past year, in view of the accepted difficulties of raising money for educational, or for any other, purposes.

"Since the Council is growing in importance as a source of revenue for the University each year, it is fortunate that its capabilities need not be doubted. The amount collected this year is double that subscribed by the alumni in the academic year of 1921, and falls short of the sum desired comparatively little. The Council has set \$250,000 as the sum which must be collected from alumni sources annually. If the present rate of increase continues the University will be able to depend on the required sum within the next several years.

"The work of the Council is such that its influence is felt wherever there may be a nucleus of Cornell alumni. Its arm seems to sweep about the country, reminding the graduate of his duty to the University, and telling him of his particular part in keep-

ing Cornell a living organism. By this method the class pledges are saved from becoming useless statements on paper. They are turned into perpetual sources of revenue; they become tokens of gratitude to the University, marks of respect for Cornell, from former undergraduates. And all this through the efforts of the Cornellian Council. Without this organization Cornell could not, with any degree of safety, depend on alumni pledges to an appreciable extent.

"The Council's activities are to be thoroughly commended. It is a worthy endeavor launched in a difficult field. Cornell may feel grateful for this notable increase in revenue gathered by the Council, for it indicates what may be hoped for in the future."

CORNELLIANS SECOND

Cornellians are second in number only to Massachusetts Institute of Technology men among the eight hundred college alumni employed in the research laboratories of the American Telephone and Telegraph Company and the Western Electric Company in New York. They number forty-seven; Massachusetts Tech has sixty-five, Harvard is third with thirty-six, and Columbia has thirty-three.

Investigations cover a wide range; while one group studies human speech and hearing, another is at work on improved telephone and radio apparatus, and still others are studying the habits of flying electrons.

FACULTY NOTES

DR. RUBY GREEN SMITH, Ph. D. '14, speaks on "Rural Recreation" before the eleventh national Recreation Congress, meeting at Atlantic City from October 16 to 21.

DR. CORNELIUS BETTEN 'c6, acting dean of the College of Agriculture, last week inspected St. Lawrence University in company with Dr. Frank P. Graves, State Commissioner of Education, and Berne A. Pyrke, Commissioner of Farms and Markets.

PROFESSOR WALLACE NOTESTEIN, at the request of the British Academy, delivered the annual Raleigh Lecture before the Academy in London on October 2. His subject was "The Struggle for Initiative in the House of Commons in the Late Sixteenth and Early Seventeenth Centuries." Other lecturers have been the late Viscount Bryce, Hon. J. W. Fortescue, Professor Albert F. Pollard of the University of London, an authority on Tudor History, and Professor Tout of the University of Manchester, a distinguished medieval scholar.

LOUIS A. FUERTES '97 returned to Ithaca on October 5 from a six-weeks' vacation trip in The Netherlands with Mr. and Mrs. Hendrick W. Van Loon '05 and their son.

OBITUARY

Philip Barnard '77

Philip Barnard, one of the best known wood engravers in the country, died at his home in Buffalo, N. Y., on September 22.

He was born in Chicago, Ill., in 1852 and lived there until a young man, when he moved to Buffalo and became associated with the late John R. Chapin, a pioneer illustrator. Under his direction Barnard became an expert wood engraver. While with Chapin, he prepared himself for college and entered Cornell in 1873. He remained for three years, was out one year, then returned and graduated in 1878 with the degree of B. S. While at Cornell he became a member of Psi Upsilon.

After graduation, he returned to Buffalo and rejoined Mr. Chapin, continuing with him until 1885. During this time he executed wood engravings of birds-eye views of the principal cities of the country, including Boston, Buffalo and Cincinnati. In recognition of this work, he received and accepted an offer to be manager of the *Illustrated News* of Cincinnati, and remained in that position for ten years. Later he returned to Buffalo.

He is survived by his wife, Mrs. Hattie Chapin Barnard; a daughter, Mrs. Litties A. Irving of Chicago, and a son, Herbert E. Barnard of San Antonio, Tex.

Charles M. Vreeland '89

Charles Musk Vreeland, a descendant of one of the oldest patroon families in the East and a well-known attorney, died at his home in Jersey City, N. J., on August 31, after an illness of nearly two months, caused by a pulmonary abscess.

He was born fifty-seven years ago in Jersey City and always lived there, where the family has been prominent for years. One of his forefathers, Michael Jansen Vreeland, was a member of the Council of Nine which was associated with Peter Stuyvesant in the governing of New Amsterdam, now New York.

Vreeland received his early education in the Hasbrouck School in Jersey City, then came to Cornell in 1885 as a student of mechanical engineering. He remained only one year. During that time he became a member of Phi Delta Theta and the Mechanical Engineering Association. On leaving Cornell, he went to Columbia Law School, from which he graduated with the degree of LL. B.

After practicing law for a time with the late Washington B. Williams of Jersey City, he entered the firm of Insley, Vreeland and Decker, attorneys of Jersey City, and was a member of this firm until his death. During the Spanish-American War, he saw service as a lieutenant in the Navy and was also one of the organizers of the New Jersey Naval Reserves.

For many years he had been known as an out-of-door man, and each season went to the far north with his brother, Dr.

Hamilton Vreeland, to hunt big game in the Hudson Bay region. He served for a time as vice president of the Holland Society and was also a member of Carteret Club.

He is survived by his wife, Mrs. Elizabeth Barker Vreeland and two children, Ruth and Henry Vreeland; also two brothers, Dr. Hamilton Vreeland of Jersey City and Dr. Clarence L. Vreeland of Pompton Lakes, N. J.

Charles E. Palmer '92

Charles Edward Palmer died unexpectedly at his home in Sioux City, Iowa, on August 11.

He was born in St. Joseph, Mich., in 1868, the son of Mr. and Mrs. Edward C. Palmer. In 1879, the family moved to Sioux City, of which his father afterward became mayor, and where he received his early education. After graduation from the Sioux City High School, he came to Cornell in 1888 as a student of civil engineering, but remained only one year.

He returned to Sioux City and for a time was assistant city engineer. Later he went into the jobbing business and remained in it until his death. He was president of the Palmer Fruit Company of Sioux City at the time of his death. He was active in social and civic matters and was a member of the Tyrian Lodge, Sioux City Country Club, the Sioux City Boat Club and the Chamber of Commerce.

Besides his wife, he is survived by three daughters, Virginia, Mary, and Mildred Palmer; a son, Vance C. Palmer who is a student at Princeton; a brother, William Palmer, and a sister, Miss Ethel Palmer.

Felix Reifschneider, Jr., '95

Felix Reifschneider Jr., died suddenly on a train in Brooklyn, N. Y., on September 17, while enroute to his home at Hempstead, Long Island.

He was born in New York on September 2, 1866, the son of Mr. and Mrs. Felix Reifschneider and received his early education there. After attending the New York Law School, he came to Cornell as a law student in 1894 and graduated in 1895 with the degree of LL. B.

In recent years he had been practicing law in Brooklyn and was also active in civic and political circles in Hempstead. He is survived by a daughter and one son, Felix E. Reifschneider '22.

Dr. Henry Steele '22

Dr. Henry Steele was found dead in a laboratory room at Bellevue Hospital in New York on September 26. He is believed to have been a victim of heart disease.

He was born in New York City twenty-six years ago, the son of Mr. and Mrs. Henry Smulovitz and four years ago had his name legally changed to Henry Steele. He became a student in the Cornell Medical School and graduated in 1922 with the degree of M. D. Recently he had been an interne in Bellevue Hospital. Besides his father, he is survived by a sister, Miss Rose Smulovitz.

LITERARY REVIEW

A Glimpse of Negro Life

There is Confusion. By Jessie Redmon Fauset '05. New York. Boni & Liveright. 1924. 20 cm., pp. 297. Price, \$2.

From Tennyson Miss Fauset has chosen the title for a fine story. She naturally chooses her characters among the colored race, and her aim has been to portray some phases of their struggle for better living. The people she describes belong for the most part to the better class of colored folk. If any of them are afflicted with an inferiority complex, it is not their fault altogether, having been forced upon them by countless rebuffs from white people many of whom have not the sense of refinement and the ambition for a better life which burns in the bosoms of those whom the whites so harshly treat. Some day a master psychologist will analyze for us the growth of this feeling of racial superiority and aloofness, which is largely peculiar to America, and then we shall begin to see the foolish and ludicrous side of it as we now occasionally glimpse the pathetic side in stories like this and in personal observations.

The colored people of America ask no favors. Their ancestors were brought to this country in chains by brutes whose chief and only good point in some cases was that they had a white skin. The descendants of these forced immigrants have by their labors and their often forced sacrifices helped to make this country what it is. They are entitled to a square deal—which they do not always get.

Writing in this strain we must not give the reader the impression that Miss Fauset's book is propaganda. It is a well written story, well worth reading even by one who is looking merely for entertainment. But it is illuminating as well. In a recent letter Professor George L. Burr says that it "is recognized on all hands as a story of unusual power and as by all means the best picture of the life and aims of the new colored society which is coming into existence in our Eastern cities." It tells us some things that we should know about the point of view of intelligent and ambitious colored people. Give them the opportunity they should have and the negro problem will in time disappear. How, Miss Fauset has artistically pointed out.

Books and Magazine Articles

In *The Sibley Journal of Engineering* for October Frederic C. Evans '19 writes on "Empirical Relations for Coals in the United States." The article, which is an illustrated serial, contains much useful general information. Professor George B. Upton '04 discusses "The Plotting of Observations on Curves and Analysis of the Curves." R. F. Jones, research engineer for the Leather Belting Exchange Foundation, presents "A Discussion of

Belt Creep and Its Effect on the Application of the Fundamental Belting Formula." Edwin B. Katté '93, of the New York Central Railroad, discusses "Electric Traction for Steam Railroads." He gave this paper as an address before the Cornell Society of Engineers on May 23. There are several useful summaries of engineering articles in technical periodicals.

Industrial & Engineering Chemistry, News Edition, for August 10 has an illustrated article on "The Scenic Charms of New York State," giving information to prospective visitors at the Ithaca meeting of the American Chemical Society as to what to see at Cornell and on the road to and from Ithaca. The University is well described.

In *The Philological Quarterly* for July Professor Charles B. Wilson '84, of the University of Iowa faculty, reviews Kuno Francke's "Die Kulturwerte der deutschen Literatur von der Reformation bis zur Aufklaerung," published by Weidmann of Berlin.

In *Mechanical Engineering* for August Dean Kimball writes on "Fundamental Purposes of the Society," urging young professional men to join the society that represents their respective callings.

The Columbus, Ohio, *Journal of Commerce* for August 1 has an article on "A Uniform Conditional Sales Act for Ohio," favoring the proposed bill based on the act drafted by Professor George G. Bogert '06, of the College of Law.

In *Industrial & Engineering Chemistry* for September Professor Fred H. Rhodes, Ph.D. '14, C. R. Burr, and P. A. Webster discuss "The Effect of Iron Oxide Pigments on Rate of Oxidation of Linseed Oils."

In *The Nation's Business* for September Professor James E. Boyle describes "A \$6,000 Engine That Cost \$23,300." The engine was an ordinary one; but the city fathers bonded their successors to pay for it.

The Christian Science Monitor for September 15 has a portrait of Professor Howard B. Meek, who in the summer manages the Ocean House, York Beach, Maine.

In *The Farm Journal* for September Professor James E. Boyle discusses the question, "Is Dumping of Staples O. K.?"

John H. Lawrence '09 is the author of "A Resume of Recent Power-Station Developments," published a few months ago.

The Chemical Age for August prints "Notes on the Baker Laboratory of Chemistry at Cornell University," taken from Professor Dennis's pamphlet.

In *The Glass Container* for July Professor Walter W. Fisk '10 writes on "Cream Cheese."

In *Industrial & Engineering Chemistry* for September Earl A. Louder, Ph.D. '22, Professor Thomas R. Briggs '09, and Pro-

fessor Arthur W. Browne, Ph.D. '03, collaborate in an article on "Vapor Pressure Curves for Systems Containing Alcohol, Ethel, and Water." The article is based on Dr. Louder's thesis.

"Health Habits" by Professor Michael V. O'Shea '92, of the University of Wisconsin, and Superintendent J. H. Kellogg of Battle Creek has lately appeared in a revised edition from the press of the Macmillans. It contains 263 pages and many illustrations, and sells for 80 cents.

John W. Weight, M. E. '18, contributes to *The Marine Review* for July a study of "How Ships Use Storage Battery." The article is illustrated with three figures and a portrait of the author, who is associated with the marine radio department of the Electric Storage Battery Company of New York.

The West Coast Leader, of Lima, Peru, in its issue for December 4, 1923, a copy of which was recently received, contains an article by Francis R. Molther '17 on "Colombian Railways: Projected West Coast Connections," accompanied by a map. The article is translated from *Ingenieria Internacional*. Molthrop is connected with the D. E. Wright Construction Company, Inc., of Panama. His address is Chuquicamato, Chile, in care of The Chile Exploration Company, via Autofagasta. He writes that other Cornellians there include Benjamin H. Gerwin '21 and Juan L. Carrasco-Calvo '19.

In *The Harvard Graduates' Magazine* for September Robert S. Hale '93 writes on "Scholarship and Competition." He is the donor of the Phi Beta Kappa Scholarship Trophy for which pupils compete in New England schools.

In *The Crisis* for October Hendrik W. Van Loon '05 has a story entitled "The Way of War."

"The Poetic Mind" by Professor Frederick C. Prescott is reviewed in *Archiv fuer das Studium der neueren Sprachen* for July.

In *Science* for September 19 Dr. Leland O. Howard '77 writes on "The Evolution of Internationalism." Professor William S. Franklin, D.Sc. '01, of the Massachusetts Institute of Technology, discusses "The Quantum Puzzle and Time." Dr. David Starr Jordan '72 reviews "The Evolution of the Universe or Creation According to Science," a work made up of revelations supposed to have been transmitted by Michael Faraday, now resident in the world of spirits. In the issue for September 26 appears the address of Dr. Leo H. Baekeland, president of the American Chemical Society, delivered at the recent Ithaca meeting of the Society, on the subject, "Prospects and Retrospects."

Miss Isadore G. Mudge '97 and M. E. Sears are the authors of "A George Eliot Dictionary" published in London by the Routledges. The price is 12s. 6d. net.

ALUMNI NOTES

'72 MS—In the absence of the regular minister, Dr. David Starr Jordan recently delivered two addresses in the Unitarian Church in Los Angeles on the subjects, "Is War Eternal?" and "The Search for a Master Key to the Universe."

'73 AB—Leverett G. Boies is engaged in the land and loan brokerage business in Birmingham, Ala.

'79 AB, '84 AM—Mary M. Pitcher has left Whitehall, Mont., and is now located in San Diego, Calif. Her address there is The Park Hotel.

'84 BCE, '92 CE—William H. Larned is now engaged in banking, farming, and civil engineering at Haigler, Neb.

'90 BSA—George W. Conable is a practicing architect in New York, specializing in church and hospital work. His address is 46 West Twenty-fourth Street.

'90 BL—S. Stanwood Menken has withdrawn from the law firm of Beekman, Bogue, Clark & Griscom, at 52 William Street, New York. The remaining partners will continue the practice of law under the same name.

'93 BS, '94 ME, '95 MME—E. Vail Stebbins is a commission broker in New York and a partner in the firm of Logan and Bryan at 42 Broadway. He is a member of the New York Stock Exchange and also the Chicago Board of Trade. His home address is 125 East Fifty-seventh Street.

'97 AM, '99 PhD; '02 AB, '03 AM—Professors William S. Ferguson and Frederick W. C. Lieder of Harvard will be absent on leave for the second semester of this year.

'99 MME—Ezra F. Scattergood is chief electrical engineer of the Los Angeles Municipal Bureau of Power and Light. A recent issue of the *Los Angeles Record* printed a sketch of his life, which *The Rutgers Alumni Monthly* for May reprints. From 1899 to 1901 he was professor of electrical and mechanical engineering at the Georgia School of Technology. Then he went to Los Angeles and opened offices as a consulting engineer. He married Miss Chilton, a member of a Mississippi family, and has one daughter, Elizabeth. "In the past fourteen years the Bureau's chief electrical engineer has devoted his time and energies to bureau problems and he has had just one vacation—last summer. What has kept him going? 'Satisfaction of accomplishment,' is his even-voiced reply. 'Municipal ownership enterprises make their appeal to men who find a satisfaction in accomplishing results for the good of the commonwealth and humanity.'

'01 AB, '02 AM—S. K. Alfred Sze, Chinese minister at Washington received the honorary degree of LL.D. from Syracuse in June.

'02 PhD—Professor Henry L. Rietz, of the University of Iowa, was married on August 20 at Fullerton, California, to Miss Odessa M. Myers.

'03—Professor Ralph C. Bullard, of Hobart, is absent on leave this year, and is studying for his doctor's degree at Brown.

'03 AB—Professor Margaret L. Bailey, of Smith, is on leave of absence this year and will travel much of the time in England.

'05 LLB—Chalmer R. Heggem recently opened offices as an attorney and counselor-at-law at 800 Snyder-Hess Building, Massillon, Ohio.

'07—Arthur Roeder is president of the United States Radium Corporation and lives at 467 Lincoln Avenue, Orange, N. J.

'07 AB—Dan P. Eells is now second vice-president and treasurer of the Bucyrus Company of South Milwaukee, Wis.

'08 CE—Meyer Davis is president of the Crown Engineering Company, with offices in the Woolworth Building, New York. The firm does a general engineering and contracting business. His home address is 152 West 118th Street, New York.

'08 ME—Clarence E. Chatfield is a sales engineer for the W. D. Hamer Company, handling high voltage distribution and transmission equipment. His address is 425 West Forty-fourth Street, Indianapolis, Ind.

'08 ME—George N. Brown is vice-president in charge of sales for the Pittsburgh Transformer Company of Pittsburgh, Pa.

'08 ME—Clifford R. Oliver is assistant manager of the New England Power Company of Worcester, Mass.

'08 ME—Omar H. Simonds is now with the Electric Bond and Share Company at 65 Broadway, New York.

'09 ME—Charles M. French, who has been manufacturing radio apparatus for three years under the name of the C. M. French Manufacturing Company at Seymour, Conn., has sold out his business.

'09 AB—Mr. and Mrs. L. R. Klein (Margaret Bradley '09) announce the birth of L. R. Klein, Jr., on September 20. They also have a daughter, Margaret, born October 23, 1920. Their address is 3623 Summit Street, Kansas City, Mo.

'09 AB—Louis F. Schwartz, Jr., is practicing law in the offices of Davies, Auerbach and Cornell at 34 Nassau Street, New York. His home address is 219 Center Avenue, New Rochelle, N. Y.

'09 ME—James W. Cox, Jr., is a consulting textile and engineer specialist with offices at 320 Broadway, New York. His residence is at 30 Summit Street, Flushing, N. Y.

'11 AB, '13 LLB; '18, '21 WA—E. Morgan St. John, who has been practicing law in Ithaca since graduation and is

now chairman of the Tompkins County Board of Supervisors, recently formed a partnership with Joseph S. Barr '18 to deal in investment securities. Barr recently sold the business of Barr Brothers and Company, of which he became the head upon his father's death in 1919. They have their offices in the new Savings Bank Building.

'11 ME—William H. Reid is general foreman of the Lima Locomotive Works, Lima, Ohio. His address is 1116 West Market Street.

'11 ME—Thomas R. Cox is now living on Beech Road in Englewood, N. J., in a house formerly owned by Henry P. DuBois '06.

'12 ME—Lennox B. Birkhead was appointed assistant general sales manager of the Austin Machinery Corporation of Muskegon, Mich., on September 1, after being with the firm a year. His address is 1276 Ransom Street.

'12 AB—Mrs. Joseph J. Klein (Janet R. Frisch '12) writes that she is keeping house at 440 West End Avenue, New York.

'13 ME—Benjamin H. Miller '13 was married on July 3 to Miss Elizabeth Lewis Cleveland, daughter of the Rev. Edward Horace Cleveland, of New York.

'13 AB—Professor Esther C. Dunn, of Smith, planned to attend the conference of the International Federation of University Women in Christiania, Norway, on July 28—August 1, and afterward to work at Oxford.

'13 ME—F. Mills Dodge is buyer for the department of construction and engineering of Stone and Webster, Inc., Boston, Mass. His address is 70 Front Street, Weymouth, Mass.

'13 BS—Ephraim C. Crippen was married on September 11 last to Miss Lois E. Bayley of Tonawanda, N. Y. They are now living at Brockport, N. Y.

'14 BS, '20 PhD—Professor Harry H. Knight, assistant professor of entomology and curator of the insect collection at the Farm School of the University of Minnesota, has left Minnesota to accept a similar position at Iowa State College.

'14 AB—William Seeman is planning a trip to Russia in the spring. He will be a member of a party which intends to visit the interior of that country. His address now is 146 West Fourth Street, New York.

'14 CE—Roy D. Burdick is still in the service as a captain in the Engineer Corps. He is located at the Central Armory, Cleveland, Ohio, and is acting as instructor with the 112th Engineers, Ohio National Guard.

'15 BS—Charles H. Reader is in charge of the laboratory section of the Roadem Mineral Fume Treatments at 382 State Street, Brooklyn, N. Y.

'15 ME—Ira E. Cole is supervising engineer in the general development laboratory of the Western Electric Company.

According to Sargon

IN the library of Sargon, mighty ruler of Assyria in 722 B. C., there is recorded the following story:

In the ancient Assyrian city of Sumer, there lived a beautiful maiden who was betrothed to a merchant prince in far-off India.

It so happened, when the time came for the young lady to go to her fiance, that none of her family were able to accompany her on the long, difficult and dangerous trip.

Fortunately a caravan was about to set out for India. Arrangements were made with the chief of the caravan to conduct the maid safely and in all honor, and to deliver her into the care of her intended, not permitting any man to look upon her face by the way.

This bride was protected by a Surety Bond

To make assurance doubly sure, the girl's father required the caravan chief to give a bond, guaranteeing the faithful performance of his trust. The bond was furnished with a Sumerian merchant as surety.

This transaction is one of the earliest recorded instances of Suretyship, a practice which today has become a great business, representing an investment of millions of dollars and constituting one of the most important factors in the successful conduct of modern-day business affairs.

FIDELITY AND DEPOSIT COMPANY
Baltimore

Fidelity and Surety Bonds

His address in care of the company is Department 316, 463 West Street, New York.

'15, '16 BS—J. Laurence Bacon was promoted last April to assistant general manager of the glass works of the Whittall-Tatum Company at Millville, N. J. His address is 512 Columbia Avenue.

'16 CE—Captain Gerald E. Brower is now chief of the airplane section, engineering division of the United States Air Service and located at McCook Field, Dayton, Ohio. He writes that out of the seven engineering sections of the engineering divisions of the Air Service, the chiefs of three of them are Cornellians. John B. Johnson '12 heads the material section and Edward T. Jones '11 heads the power plant section.

'16 BS, MS—Mr. and Mrs. Benjamin Brickman have a son, Alan Murray, born June 16, 1924. They live at 149 Ross Street, Brooklyn. Brickman is operating a chain of gasoline and oil stations in that city.

'17 CE—Francis P. Seileppi was married on October 1 in New York to Miss Marie Frugone, daughter of Mr. and Mrs. Frank L. Frugone of Brooklyn.

'17 BS—At the recent annual meeting of the Kansas American Legion, Frank Haucke of Council Grove, Kan., was elected State commander, the second Cornellian known so far to hold such an office.

'17 BS—Ruth E. Davis is house director this year at Prudence Risley Hall where she may be addressed.

'17 AB, '23 MD—Gladys M. Muller is a resident physician in the tuberculosis service at Bellevue Hospital, New York. Mail should be addressed to her in care of the hospital at First Avenue and Twenty-sixth Street.

'17 ME—William C. Bliss is assistant general superintendent of the Scullin Steel Company at 6700 Manchester Avenue, St. Louis, Mo. He was married on October 1 to Miss Elizabeth Harman of Clinton, Mo., and on their honeymoon they visited Ithaca for a few days. They are now at home at the Forest Park Hotel, St. Louis, Mo.

'17 CE—Ellsworth L. Filby is State sanitary engineer of South Carolina, with headquarters on the second floor of the Palmetto Building, Columbia.

Arrive New York 7.25 p. m. and 7.00 a. m.

Telephone Bryant 2052 or Hoboken 2000 for advance Pullman reservations.

The Builders of Cornell

1 1

IS the title of a series of special articles to be published in the Cornellian Council Bulletin this year containing brief biographical sketches and photographs of members of the early Cornell faculty.

THE ideals and new departures in higher educational practices which were introduced by the founders of Cornell owe in no small part their success to the genius and inspiration of the members of the faculty of those early days.

NEARLY all of these men have passed on, but have left their impress indelibly stamped on the University. What Cornell is today, she owes in large measure to these men.

THE October issue of the *Cornellian Council Bulletin* containing the first article in this series will be mailed next week to every alumnus of Cornell.

IF you want to know more about the Builders of Cornell, watch the mails for your copies of the *Cornellian Council Bulletin*!

The Agricultural Booklist is Yours for the Asking

IT will interest others than farmers. The first section on miscellaneous books is of special interest to farmers; but later in the booklet are sections on Home Economics, Forestry, Nature Study, and the closely allied subjects: Horticultural, Veterinary, Poultry, Dairying and Farm Animals. We try to keep this booklet up-to-date so that it may be reliable.

Have You the Cornell Songbook?

While some cannot read music, at least you can learn the Cornell Songs more accurately if the song is played correctly on the piano for you. The songbook sells at \$1.95, postage paid. The binding is red cloth printed in black.

Ask for a Copy of the Engineering Booklist

The present edition covers the classifications of Physics, Mathematics, Geology, Chemistry, and Architecture as well as the better known Engineering books. We will gladly obtain for you suggestions as to special books in your line. It is all included in our idea of service.
