VOL. XXVIII, No. 2

ITHACA, N. Y., OCTOBER 1, 1925

PRICE 12 CENTS

RESPLENDENT glories of the clothing manufacturer's art again illuminate the Campus. Green-checked sweaters, long, baggy sport trousers, and veritable masterpieces of colored hosiery are the latest acquisitions of those who would conform to the current collegiate mode. Fraternity men, unhampered by any complicated interfraternity rushing rules, are making frantic efforts to corral any or all freshmen who can pass official inspection. A few radiant ones are already displaying shiny new pledge buttons. 'Business as usual' is the cheering report from the *Sun*, the *Widow*, the *Graphic*, and the vendors of Athletic Association tickets.

THE MILITARY DEPARTMENT has felt President Coolidge's program of economy. Because of the lowered appropriation by Congress, enrollment of basic course students—sophomores and freshmen—is not to exceed the totals of October 1, 1924. Advanced course enrollment is sharply curtailed. The field artillery unit alone is excepted from the limitations.

EMERSON CAREY, JR., '27, right guard on the Varsity football team last year, is something of a golf player as well. In the Junior Titles Tournament held in Chicago last summer, Carey put himself at the head of the list and now bears the title of Western Junior Golf Champion.

THREE CORNELL PROFESSORS recently returned to Ithaca from trips to Europe. They are Professor Charles H. Hull of the History Department, who was accompanied abroad by his sister, Miss Mary J. Hull, and Mrs. Frederick W. Roman and Miss Flora M. Thurston, assistant extension professors in Home Economics.

STOCK PRODUCTIONS of the Jane Hastings Players will entertain Ithacans this season, according to announcements of the lately rejuvenated Lyceum Theater. The Ithaca Conservatory of Music, which brought some good plays to town while the Lyceum was closed to the drama last year, may not continue its stock company.

BUSINESS HOUSES are gradually pushing their way up State Street. Dean of Ithaca, Inc., a firm engaged in trucking and storage, is building a mammoth warehouse on the vacant lots above the car barns of the Ithaca Traction Company. The structure promises to be one of the largest buildings, outside the University, in Ithaca.

CASCADILLA SCHOOL, the career of which as a boys' boarding school ended last June, will soon be open as a co-educational day school. C. M. Doyle '02 has leased the recitation building at the

corner of Oak Avenue and Summit Street, where classes will be held throughout the year. Instruction will be offered in all college preparatory subjects and the course will be shaped to prepare for College Board, Cornell entrance, and Regents examinations. The large building which was the school's principal dormitory has been made a private dormitory for men students in the University, under the name of Wait Hall.

THE COFFEE HOUSE has served its last meal in Barnes Hall, but a similar institution has been opened at the Johnny Parson Club. Mrs. C. W. Southby, who directed the Coffee House in its former location, continues as manager.

ITHACA TAILORS believe that in union there is strength. During the summer someone with a flair for organization brought about the adoption of a combination scale of prices, with the result that students now pay considerably more for cleaning and pressing. The tailors claim that rates for their services in Ithaca have been much lower than in other cities.

SIXTEEN HUNDRED undergraduates made Bailey Hall ring with songs and cheers at the annual athletic rally on September 24. The speakers were H. L. Goodman '26, chairman of the committee in charge of the rally, Professor Bristow Adams, Editor of Publications in the College of Agriculture, and Professor C. L. Durham '99. R. E. Treman '09 presided, and Eric Dudley, led the singing.

FRESHMEN of the Class of 1929 met at Bailey Hall on the second registration day to be addressed by President Farrand. The President in his talk emphasized the formation of the right kind of habits by the men entering Cornell. "From the moment you get here, you stand on your own feet," he told them. "You have to take your life at Cornell seriously. It's no place to trifle."

MODERN AMERICAN melodies and rhythms, notably jazz, received an eloquent tribute at Bailey Hall on the evening of September 22 from John Philip Sousa and his hundred bandmen. His melody, Jazz America, revealed a new Sousa to an appreciative audience.

THE SAGE CHAPEL preacher for September 27 was the Rev. Dr. Samuel S. Marquis, rector of Saint Joseph's Church, Detroit. From 1906 to 1915 Dr. Marquis was head of the sociology department of the Ford Motor Company. The preacher for October 4 will be Dr. John R. Mott '88.

A THROUGH SLEEPER between New York and Ithaca, which enables Cornellians to leave New York after midnight instead of

early in the evening, has been placed in service by the Lehigh Valley Railroad. The sleeper will be ready for occupancy at ten o'clock each night at the Pennsylvania Station. The train leaves New York at 1:05 and arrives in Ithaca at 10:11 in the morning.

A DEBATE TEAM composed of William C. Mansfield '27, Donald W. Falconer '26, and Martin Rosenblum '25 will meet a team of graduate students from Oxford University in Bailey Hall on October 2. The question to be debated is, "Resolved, that the principle of self-determination is a wholesome one." Two of the Cornellians, with one Oxford man, will take the negative side.

FROSH CAPS of the prescribed shade of gray dotted a section of the Cornell Crescent at the Susquehanna game on Saturday, September 26. It was the first appearance of the official headgear of the Class of 1929, which the freshmen began to wear regularly on Monday, the first day of classes.

THE FIRST BERRY PATCH of the college year, mailed to *The Cornell Daily Sun* by Column Editor T. C. Kuhn '27, failed to arrive in time for the opening issue, Tuesday, September 22. E. B. White '21, former editor-in-chief of the *Sun*, who was visiting in Ithaca, filled the breach with a column headed by a detailed chronicle of "A Day in Ithaca." Patches composed by "C. D. X" and contributors came safely to hand for succeeding issues.

GAS TANKS and generators which have long stood on West Court Street (formerly Mill Street) in a downtown residence section of Ithaca are to be transferred by the New York State Gas & Electric Corporation to a new site of eleven acres near the Inlet, between the Lehigh and Lackawanna tracks.

A PRIZE of five dollars is offered by Miss Gertrude Nye, social director of Prudence Risley Hall, for the best new Cornell song written by an undergraduate woman. The song may or may not have original music. A similar competition in 1915 was won by Elizabeth Reigart '19, who wrote "Loyal Daughter of Cornell." The winner of the contest will be announced about Thanksgiving time.

AMONG THE MASONS who took the thirty-third degree at the Masonic Temple in Pittsburgh on September 15 were William F. E. Gurley '77 of Chicago and Harold J. Richardson '05 of Lowville, N. Y. The list of eighty-two candidates also included Presidents Flint of Syracuse University and Bartlett of Hobart College.

Co-Op Spreads Itself

Campus Store Moves From Morrill Hall to Three Times the Space in Barnes

The Cornell Co-op is now installed in its larger quarters in Barnes Hall. The new establishment has more than three times the floor space available in its former quarters in the basement of Morrill Hall and, as a result of this enlargement, has been able to relieve the congestion that has occurred in other years. Students now find it possible to purchase their textbooks and supplies in ease and comfort. To open up the basement for business, it was necessary to remove several walls, and the famous Coffee House pictures were sacrificed. The main entrance to the store has been enlarged and a new entrance, opening on Sage Avenue, has been made.

The need for new quarters for the Co-op has been apparent for several years. Although many plans for relieving the situation were considered, none proved feasible until the Coffee House was discontinued, coincident with the opening of Willard Straight Hall. This left the basement of Barnes Hall available for other purposes and, with the approval of the University Trustees, the space was leased by the Cornell Co-operative Society.

The Co-op was started in 1895, chiefly to supply the University community with books, stationery, and other student supplies, conveniently and at a fair price. It is not a profit-making institution. There are outstanding only twenty-two shares of stock at \$5 par value, and the annual dividend to the shareholders is but \$6.00. After providing for the necessary stock of supplies each year and a small bond reserve fund, the remainder of the net profits is returned annually as a rebate to the registered purchasers. The rebate to purchasers has been on the basis of an eight per cent "dividend" for many years.

The Co-op does not plan to institute any additional lines of business, but in the larger space it will be possible to organize the establishment into more distinct departments. There will also be more adequate provision for the Post Office Station and for the sale of tickets to University functions. Employment of students as clerks and in other capacities will be continued.

THE CHEESE DEPARTMENT of the College of Agriculture, more recently known as the north wing of Goldwin Smith Hall, is being re-roofed. When Goldwin Smith Hall was built the former cheese building was incorporated in it. The main building, however, was roofed in slate, while the south wing retained its glaring red tiles. These tiles are now being replaced by slate, to harmonize with the rest.

CONTINUE INFORMAL STUDY PLAN

The College of Arts and Sciences has published the names of 232 students who have sixty hours of credit with a grade of B or better in at least thirty hours and are thus eligible to follow the plan of informal study adopted by the Faculty on March 25, 1924. The plan is modeled on one now in operation at Swarthmore, where laudable original work has been performed by selected undergraduate students. The form of study is left to the individual departments, although it is stipulated that informal work during the junior year shall consist of specified reading or reports, or of experimentation and problem work.

The individual work is to be supervised by the student's upperclass adviser and will entitle him to not more than three hours of credit a term. A similar plan is to be followed during his senior year, entitling him to the same amount of credit. A senior, however, may obtain six hours of credit by attending weekly seminars and taking a comprehensive examination. The departments of Botany, the Classics, Economics, Education, Geology, German, Government, History, Mathematics, Physics, Psychology, Public Speaking, Romance Languages, and Zoology have adopted the plan.

Upon the recommendation of the department constituting his chosen field, and with the sanction of the Faculty, any candidate may receive the degree of Bachelor of Arts with honors, provided he shall have completed the general requirements of the college and shall have passed an examination in the field of his upper-class work.

SPORT STUFF

The undergraduates seem to feel that the freshman class assays a little richer than some of its immediate predecessors. I have seen eight or ten boys—they may not, of course, prove to be athletes—who could be of great assistance if one were obliged to move a safe.

The football team appeared on Schoellkopf Field last Saturday afternoon and mused up one of the most beautiful bits of green lawn that Dr. Patullo ever raised through the combined agencies of prayer, care, tenor solos, and Italian profanity. While the young men ran up a large score I cannot too strongly advise against the purchase of pin wheels, Roman candles, and red fire for the purpose of celebrating hypothetical victories.

There weren't much of any rushing rules this year. As a result rushing was substantially over before any freshman had lessons to prepare. All rushing is bad. The best system is no system because that gets it over quickly.

R. B.

Convention Plans Advancing

Detroiters Hard at Work on Details of Sixth Annual Alumni Meeting

How vigorously plans for the sixth Cornell Alumni Convention, to meet in Detroit October 23 and 24, are being pushed by the Detroit executive committee, is made manifest by a letter from Harold M. Hastings '10, a member of the committee. Hastings writes: "The Executive Committee in charge of the convention held an interesting meeting September 22 in the General Motors Building. Sixteen sat down to dinner in one of the private dining rooms. Every committee was represented. Convention plans were the subject under discussion before, during, and after dinner until nearly midnight. The deeper we get into this job the more we appreciate the splendid work done by the committees handling the five previous conventions. It is no cinch, but we are getting a lot of kick out of it. This meeting seemed to all of us the most productive yet held, probably because the work of each committee is far enough along to report real progress.

"Mrs. Regene Freund Cohane '20, who has the women's activities in hand, and Mrs. Julian Harvey '19, her chief aide, were right on the job. Their part of the task is already well organized, and the alumnae who attend will find nothing lacking in their entertainment.

"Speaking of the General Motors Building, Jim Lynah '05, our General Chairman and Jack Elwood '06, are both important executives in the General Motors Company. Jim is secretary of the advisory committee that has charge of all purchases, and Jack is vice-president and general manager of the United Motors service division. If any visitors to the convention are interested in the automobile industry, we have the men who can give them the dope. Fred J. Haynes '95 is president of Dodge Brothers. Warren Packard '14, needless to say, is with the Packard Company and directs the Detroit sales branch. Walter Fredericks is chief engineer of Continental Motors, and—but space won't permit the whole list.

"Jim Parker '08, chairman of the industrial visitation committee, has lined up all the leading industrial plants and will offer some mighty attractive trips hitting the high spots of the automobile and other industries, for large parties, or more specialized trips for small ones. He is one of the men who has helped make the Detroit Edison Company nationally prominent for its power plant efficiency.

"The Book-Cadillac Hotel, which will be convention headquarters, is breaking all precedents for co-operation. They have given us everything we ask for. You will feel just as much at home there as in the dormitories during reunion at Ithaca. We might mention that radio stations

WJR and WCX have their studios right in the hotel. They have invited any or all of the Cornell crowd to come up and see the performers in action before the 'mike.'

"The dance after the banquet is going to be something most unusual. In a later issue we will tell you more about it—or perhaps will save it for a surprise.

"Saturday night is reserved for the stag smoker. This started out to be a boat ride on the river, but about this time of year the weather bureau gets painfully unreliable, so we're taking no chances and the 'boat ride' will be held right in the hotel.

"Next week we will have more news for you direct from headquarters. If you are coming, don't wait until the last minute to let us know, but drop a line today to Cornell Convention Committee, 13-110 General Motors Building. If you can't decide until the last minute, that's all right too. The main idea is to get here if at all possible, and if not—come anyway."

ATHLETICS

The Football Schedule

Cornell 80, Susquehanna 0.
 October 3—Niagara at Ithaca.
 October 10—Williams at Ithaca.
 October 17—Rutgers at Ithaca.
 October 31—Columbia at New York.
 November 7—Dartmouth at Hanover.
 November 14—Canisius at Ithaca.
 November 26—Pennsylvania at Philadelphia.

First Victory Proves Little

The football team defeated Susquehanna by a score of 80 to 0 in the Crescent Saturday. About six thousand persons saw the season's opening game, and they learned little of the team's potential strength or prospects. The visitors were bulky, but that was about all. Their upstanding line was an easy target; they were totally lacking in effective defense and had nothing in the way of an offense either. They made one first down, by completing a forward pass for twenty-five yards, in the third period. And once, a half-minute before the game closed, they prevented Cornell from making a first down. As a general proposition the Cornell team gained at will.

The game served one useful purpose; it acquainted the spectators with some of Cornell's personnel. But as a contest it was worthless, and Cornellians will have to look for later games to provide the sort of test which will show what the outlook for a good team really is.

Coach Dobie sent onto the field an eleven which contained but three veterans, Emerson Carey, Jr., at left guard, Samuel S. Evans at right tackle, and Fred W. Wester at quarterback. These were the only men in the line up who started in the Dartmouth or Pennsylvania games last season. Captain Frank Kearney, Jr., left tackle and Frank O. Affeld, center,

both veterans of two campaigns, watched the first half from the bench, getting into the game early in the third period when Dobie put a whole new team on the field. The others on the team that started were August Schumacher and Richard V. Wakeman, recruits from the freshman team, on the wings; Alexander P. Aird, a substitute last season, at left tackle; Michael Rapuano, center on the freshman team two years ago, center; Ralph B. Munns, one of last year's substitutes, right guard; Lester Rosenberg, substitute halfback last year; Harold Gassner and Norman O. Fratt in the backfield.

The team substituted in the third period contained, besides Kearney and Affeld, David S. Courtright, left end; Edward L. Anderson, of last year's second team, at left guard; G. E. Clink, a newcomer, at right guard; David S. Hill, substitute in 1924, at right tackle; Samuel C. Otto, 1924 third stringer, at right end; Albert G. Carpenter, quarterback; Daniel G. Robinhold and George M. Trefts, halfbacks, and Victor L. Butterfield, fullback. Benjamin E. Tilton, one of last year's second string backs, was put in at quarterback in the last period, and he made the longest run of the game, seventy yards for a touchdown. Henry W. Isaly, a 1924 letter man and part time regular, did not play, as he is laid up with a minor injury.

Cornell scored a touchdown in four minutes, and made two more in the first period. Three touchdowns were also scored in each of the remaining periods. Most of the gains were made by rushes off tackle, or through the line, though five successful passes made good gains, two of them for distances of thirty yards and winding up in touchdowns. Rosenberg, Carpenter, Butterfield, and Gassner were especially active; and of the nine backs used they perhaps were most conspicuous. None of them gave promise of developing into an outstanding back, but one may hope that a workmanlike quartet of average backs may be developed by the time the important games are reached. There were occasional examples of effective interference; only a few attempts to cut in; little deceptive running, though Butterfield drew the visiting ends twice. The backs had little opportunity to show their defensive caliber, and there was practically no punting. Wester failed to do much at kicking placement goals after touchdowns, but Carey was very effective, and Trefts also sent them over the bar regularly.

Neither line nor ends were overtaxed, and they performed their job in a workmanlike manner. From this game one could not judge them, but it is a safe guess that from tackle to tackle Cornell will have nothing to complain about. What the young ends will do in a real contest is conjectural.

The teams gave the usual evidence of good early season condition; the pace of

the attack was steady and consistent; if anything the second team, especially the backs, had a little more go and jump, but by the time they got in their opponents were pretty tired. In a general way this squad looks at least as good as last year's at this time.

The lineup:

Cornell (80)	Susquehanna (0)
Schumacher.....L.E.....	Lantz
Aird.....L.T.....	Daubenspeck
Carey.....L.G.....	Porton
Rapuano.....C.....	Means
Munns.....R.G.....	Bard
Evans.....R.T.....	Cassell
Wakeman.....R.E.....	Gimme
Wester.....Q.B.....	Steumpfle
Rosenberg.....L.H.B.....	Groce
Gassner.....R.H.B.....	Sleigle
Fratt.....F.B.....	Bolig

Score by periods:

Cornell.....	19	20	20	21	—80
Susquehanna.....	0	0	0	0	—0

Touchdowns: Cornell, Rosenberg 3, Cassner 2, Wester 2, Butterfield 2, Robinhold, Carpenter, Tilton.

Goals from touchdown: Carey 3, Wester 1, Trefts 4.

Substitutions: Cornell, Courtright for Schumacher, Affeld for Rapuano, Butterfield for Fratt, Carpenter for Wester, Otto for Wakeman, Hill for Evans, Kearney for Aird, Robinhold for Gassner, Anderson for Munns, Clink for Carey, Trefts for Rosenberg, Tilton for Carpenter, Eddy for Courtright, White for Otto. Susquehanna, Roof for Lantz, Haney for Bard, Martin for Sleigle, Dunkleberger for Martin, Auten for Roof, Gordon for Means, Kurtz for Auten, Martin for Groce, Pratt for Steumpfle, Smith for Daubenspeck, Means for Gordon.

Referee: E. W. Carson, Penn State. Umpire: A. G. Maxwell, Brown. Linesman: H. J. Benzoni, Colgate. Field judge: Thomas Storrier, Syracuse. Time of periods: 12 minutes.

PROFESSOR LEONARD C. URQUHART '09, who is on leave of absence this year, is professor of civil engineering in charge of the Department of Civil Engineering, Drexel Institute, Philadelphia. He writes, "I have with me as an assistant professor of civil engineering, Samuel J. Leonard, C. E. '17, and as an instructor, Laurence P. Mains, C. E. '24. The day school of the Institute is on a strictly collegiate basis, and so far it seems to me that the standards are very high." Professor and Mrs. Urquhart are living at 502 Walnut Lane, Swarthmore, Pa.

FRESHMAN ENGLISH courses have been reorganized, and the former general English 1 course is now open only to students in Agriculture, Home Economics, and Architecture, and candidates for the B. Chem. degree. Engineering students have a course of their own, English 2. For freshmen in Arts and Sciences a new course English 3, offers a slightly more advanced study of literature and composition, with Chaucer as one of the authors to be read. In addition, Professor Martin W. Sampson, head of the English Department, will give English 3a, a one-hour lecture course in English poetry, to Arts freshmen.

OBITUARY

Louis B. Grant '96

Louis Bedell Grant died at his home in Brooklyn, N. Y., on June 18, after a year's illness.

He was born in Ithaca, the son of Charles L. and Martha Schuyler Grant. He entered Cornell in 1894 as a student of law. In 1896 he graduated with the degree of LL.B. He was a member of Zeta Psi. During the administrations of President Cleveland, he was in the diplomatic service, first as secretary and later deputy consul at St. Gall, Switzerland, and from 1890 to 1893 as acting diplomatic agent and consul-general at Cairo, Egypt.

For a number of years he had practiced law in New York, being associated with former Lieutenant-Governor William F. Sheehan.

Walter S. Valentine '00

Walter Scott Valentine died at his home in Richmond Hill, N. Y., on June 30, 1924, after an illness which had been developing for nineteen years.

He was born at Wallingford, Conn., on February 8, 1878, the son of Edgar C. and Lucy Wallace Valentine. He came to Cornell in 1896 as a student of electrical engineering and graduated in 1900 with the degree of M. E. He was a member of the Glee Club.

After leaving college he taught for two years at Pratt Institute in Brooklyn and then joined the organization of Westinghouse, Church, Kerr & Company in New York. While with this company he was engaged in the work of electrifying a number of railroads, and also became an associate member of the American Institute of Electrical Engineers. About nineteen years ago he began to fail in health and for the last eight years of his life he was blind.

Besides his mother, he is survived by his wife, Blanche E. Harrison, whom he married at Wallingford on June 7, 1905.

Howard W. Douglass '04

Howard Weddle Douglass, judge of the Court of Common Pleas of McKeesport, Pa., died at his home there on August 30, as the result of a nervous breakdown and heart attack.

He was born in McKeesport in 1881, the son of the late E. P. and Mrs. Elvira W. Douglass. He attended the McKeesport schools and Shadyside Academy, then entered Cornell in 1900 as a student in arts and sciences. In 1904 he graduated with the degree of A. B. He was a member of Delta Upsilon, Sphinx Head, the Savage Club, and the Sunday Night Club. For three years he was a member of the Glee Club and in his senior year was on the Class Book Committee.

After leaving Cornell he studied law at the University of Pittsburgh and graduated in 1908. He then entered the law firm of

Douglass, Fife & Young, which was headed by his father, and practiced law until 1916, when he was appointed city solicitor of McKeesport. He held this office until 1921, and was elected judge of the Court of Common Pleas in 1922.

In addition to being active in Republican political circles, he was a member of the First Presbyterian Church of McKeesport, Aliquippa Lodge, F. & A. M.; Syria Temple, Mystic Shrine; McKeesport Lodge No. 136, B. P. O. Elks; the Duquesne Club, the University Club, the Oakmont Country Club, the Pittsburgh Country Club, the Americus Republican Club, the Fox Chapel Country Club, and the Youghioghny Country Club. He was vice-president and director of the McKeesport Hospital.

Besides his wife, Mrs. Virginia Van Kirk Douglass, and his mother, he is survived by two sons, Thomas and Jack, and a brother, Rev. Earl L. Douglass of Poughkeepsie, N. Y.

Stephen J. G. Francisco '05

Brief word has arrived of the death on November 1, 1924, at Caldwell, N. J., of Stephen Josiah Gould Francisco, from injuries received in an automobile accident.

He was hurt on October 5, 1924, and was taken to a hospital. By October 28 he had sufficiently recovered to go to his home. Four days later when appearing well on the road to recovery, he died, apparently from the effects of a blood clot.

Mrs. Warren I. Trask '11

Mrs. Edna Foster Trask died at Hornell, N. Y., on August 24.

She was born in Cleveland, Ohio, on April 22, 1886, the daughter of Charles E. Foster '81 and Julia Carpenter Foster. Her early education was secured in Ithaca, where her grandfather, Luther Foster, was superintendent of schools for twenty years. In 1907 she entered the Arts College and graduated in 1911 with the degree of A. B. She was a member of Delta Zeta.

For a time after graduation she was in the office of the University Secretary. On February 3, 1916, she married Warren I. Trask '16 at Syracuse, N. Y. Since then they had resided in the vicinity of Hornell.

Mrs. Trask had many Cornell relatives. Her father is Charles E. Foster '81. An aunt, Charlotte A. Foster, Ph. B. '88, taught in the Ithaca High School. Henry Ward Foster, A. B. '77, an uncle, is superintendent of schools at South Orange, N. J. From 1894 until 1900 he was superintendent of schools at Ithaca. Mrs. Henry Ward Foster was Lyra Peck '79. Mrs. Trask also had a brother at Cornell, Franklin L., D. V. M. '06, and three cousins, Dwight E. Foster, LL.B. '06, H. Alden Foster, C.E. '16, and Robert J. Foster, D.V.M. '02.

Harry C. McCartney '14

Dr. Harry Charles McCartney died at his home in Ellenville, N. Y., on September 14, of pneumonia.

He was born at Ellenville on February 14, 1885, the son of James W. and Frances Bunting McCartney. He went to Ontario Veterinary College and received the degree of V. S., and then attended Chicago Veterinary College, from which he received the degree of M. D. C. In 1912 he entered Cornell as a veterinary student and graduated in 1914 with the degree of D. V. M. He was a member of Omega Tau Sigma.

After leaving the University, he went to Ellenville, where he built up an extensive practice. Besides his wife, he is survived by two children.

James R. Mack '22

James Robert Mack of Shelter Island, N. Y., died on August 8.

He was born at Easthampton, N. Y., on January 9, 1900, the son of Robert E. and Bridget Armstrong Mack. He entered Cornell in 1918 as a student of agriculture and graduated in 1922 with the degree of B. S. He was a member of Alpha Gamma Rho, the Catholic Club, and Helios, and was also active in athletics and college affairs. For two years he was on the varsity baseball squad and his college cross-country and baseball teams, and in his senior year played on his college soccer team. In his junior year he was a member of the Cross Country Club and the Poultry Club. As a sophomore he was the college class treasurer and the next year was on the Kermis Committee.

After leaving college he was employed by the Hygeia Ice Cream Company in Elmira, N. Y.

Thomas S. Steward '28

Thomas Stephens Steward was killed at Lyon Mountain, N. Y., on August 7, while engaged in electrical work there.

He was born at Old Forge, Pa., on May 19, 1905, the son of Mr. and Mrs. Arthur Steward. After receiving his early education there, he entered Cascadilla School and became one of its foremost athletes. In 1924 he entered Cornell as a student of engineering and became a member of Sigma Phi Sigma.

John W. Gamwell '28

John White Gamwell died in West Pittsfield, Mass., on September 6, as the result of injuries received in an automobile accident the night before.

He was born at Pittsfield on October 10, 1906, the son of Mr. and Mrs. Charles W. Gamwell. He graduated from the Pittsfield High School and then entered Cornell in 1924 as a student of civil engineering. He was a member of Theta Xi. During the past summer, he had been working for a contracting firm in Pittsfield and was planning to return to college.

THE MASQUE has secured Ned Wayburn, head of a well-known dancing academy and director of musical comedies given by several eastern colleges, to coach the show it will present Junior Week. He will succeed Professor George Fraser '21 as director of the cast.

LITERARY REVIEW

Athletic Reform

College Athletics. By Charles W. Kennedy, Professor of English and Chairman of the Faculty Committee on Athletics and of the Board of Athletic Control of Princeton University. Princeton, N. J. The University Press. 1925. 21 cm., pp. viii, 72. Price, \$1.25 net.

A personal word must introduce this notice of a thoroughly good book. It has been the reviewer's privilege to enjoy a friendship of many year's standing with the author of this book, and the writer is thus in a position to express his belief that of all men Kennedy is one of the best fitted to write a book like this. A man of approved scholarship, an inspiring teacher, possessed of sound ideals and an abundance of common sense, a man guided in his whole round of activities by the old Greek adage, *meden agan*, "Let there be of nothing too much," Kennedy has been a strong force at Princeton and in intercollegiate athletic circles for clean, manly sportsmanship and the rigor of the game for the game's sake.

To one who knows the author, then, this book comes as no surprise. It is a calm, fair-minded discussion of the whole question of sport in college life. The author lays emphasis precisely where, in our opinion, it should be laid. Rightly played, the athletic game will teach qualities and ideals that—since human nature is what it is—can hardly be learned so well anywhere else on the campus—fair play, courtesy under stress, idealism, honest sportmanship. One may say that the ordinary life of the classroom and the laboratory ought to teach these things quite as well; but they do not, and we must take the facts as they are.

On the other hand, there are evils in the athletic system now in vogue in America. Too few play the game; the disgrace of defeat is too acutely felt, especially by the alumnus rooter; too much precious time is consumed by the man who makes the team; college men are vastly more interested in the athletic supremacy of their college than in its intellectual supremacy; there is too much propaganda in operation for securing prominent high school athletes; in some colleges there is too much playing for money or its equivalent in an athletic scholarship, amounting to downright professionalism.

There is no blinking the fact that if these evils are allowed to get the upper hand, the doom of intercollegiate athletics is sealed. But they can all be subjected to control if the right persons go about it in the right way. And Professor Kennedy shows us how.

In the first place, wise faculty control. Then, education of the deadly alumnus fan who knows nothing and can see nothing but victories and championships. Then,

the employment on a permanent basis of the best coaches, with emphasis on their teaching ability and recognition of the results they achieve with the material they have to use. Then, better teaching in the college, to the end that the youngsters may not be driven to take up athletics through sheer ennui.

Cornellians may well read this book and ponder its wise teaching. From many of the evils dealt with here we are proud to believe ourselves fairly free. Against the others we have made some progress. But let us continue to strive toward perfection—a sound mind in a sound body for everybody, and every sport as clean as a whistle.

Books and Magazine Articles

An article on "The Effect of Light During Growth Upon the Cellulose Content of Red Spruce," by George J. Druckerman, M. S. '24, appeared in the July 30 issue of *The Paper Trade Journal*.

Professor Ralph A. Felton writes in *The Christian Advocate* for August 13 on "What's Right with the Rural Church."

A short paper on "The Red Beds Near the Base of the Cherokee Shales," by Russell S. Tarr '15, has been reprinted from the March-April number of the *Bulletin* of the American Association of Petroleum Geologists.

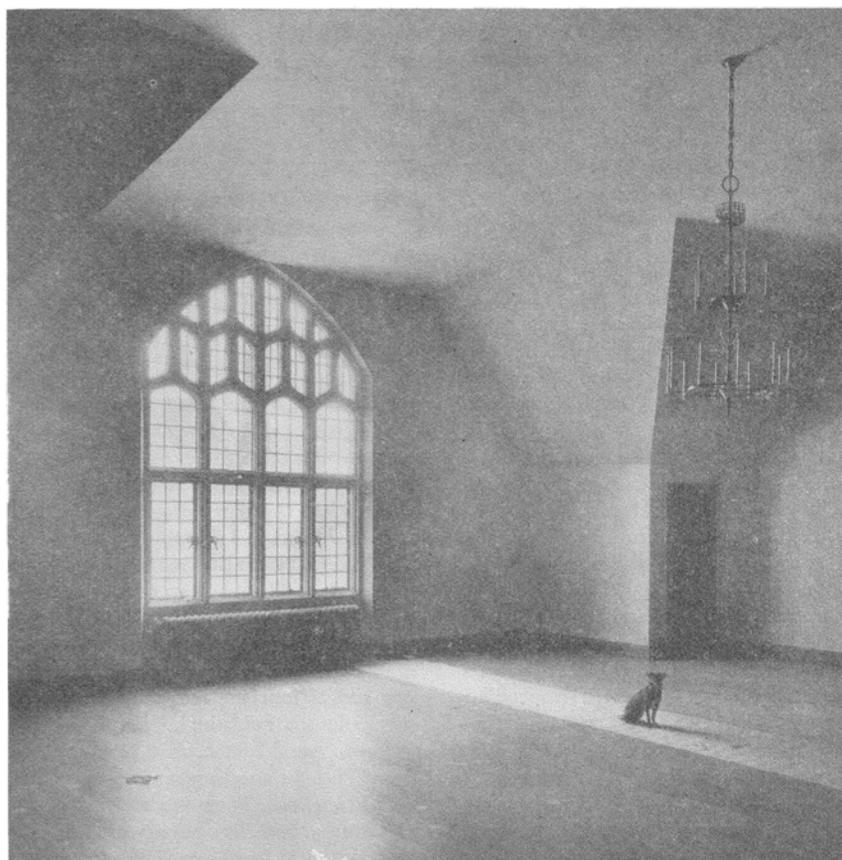

In *The Saturday Evening Post* for May 30 Morris G. Bishop '13 tells "What and

How System Did for Me." In the issue for July 25 Kenneth L. Roberts '08 writes on "The Mysterious Island." In the issue for August 29 Bishop has a poem, "Name, Please." In the issue for August 22 Austin Parker '14 has a story, "The Inspired Liar", and Bishop presents the "Reverie of a Bachelor." In the issue for September 12 Roberts dwells on "The Lure of the North Woods."

The New York Times Book Review for September 13 includes a review of "The Choice of a College" by President William W. Comfort of Haverford, formerly head of the French Department at Cornell, and of "The Present Economic Revolution in the United States" by Professor Thomas N. Carver, Ph.D. '94, of Harvard. The latter review is accompanied by a portrait of Professor Carver.

"Gravity Determination at Sea" by Clarence H. Swick '07, of the United States Coast and Geodetic Survey, has been reprinted from *The Geographical Review* for July.

In *The Journal of English and Germanic Philology* for July Professor A. LeRoy Andrews reviews George T. Flom's "The Language of the Konungs Skuggja." Professor Murray W. Bundy '12, of the University of Illinois, reviews "Ancient Rhetoric and Poetic" by Professor Charles S. Baldwin of Columbia.

NEW QUARTERS FOR ALUMNI VISITORS

Photo by Troy

The picture shows a corner in the dormitory provided on the upper floors of Willard Straight Hall. A "Campus canine," who knows the corridors and lecture rooms of Goldwin Smith Hall as well as any student, has already found his way into the newest University building.

Published for the Alumni of Cornell University by the Cornell Alumni News Publishing Company, Incorporated.

Published weekly during the college year and monthly in July and August; forty issues annually. Issue No. 1 is published the last Thursday of September. Weekly publication [numbered consecutively] ends the last week in June. Issue No. 40 is published in August and is followed by an index of the entire volume, which will be mailed on request.

Subscription price \$4.00 a year, payable in advance. Foreign postage 40 cents a year extra. Single copies twelve cents each.

Should a subscriber desire to discontinue his subscription a notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts and orders should be made payable to Cornell Alumni News.

Correspondence should be addressed—

ITHACA, N. Y., OCTOBER 1, 1925

HOME-COMING OCTOBER TENTH

HOME-COMING Day, this year the tenth of October, was a very pleasant innovation when it was established several years ago, and is now a permanent fixture.

The program is unusually attractive without being crowded. A person may do as little or as much as he likes. The main events this year are the Williams football game and the luncheon preceding it in the Drill Hall. Fraternity rushing will be over, and a few houses will probably initiate that week. The senior society initiation banquets will come the following Tuesday. Willard Straight Memorial Hall will be far enough toward completion to have assumed the appearance of reality, and will be open for inspection. The grass will probably be green, and the foliage red and gold.

This, the most beautiful of all of Ithaca's beautiful seasons, calls with a peculiar insistence. The newest alumni, just beginning to realize that the happy days ending last June are no more for them, will cheerfully sacrifice their bright prospects in exchange for the week-end. The older Cornellians, having before enjoyed seeing Cornell at work, will again come if they can make the grade.

No one is putting on a campaign to get the crowds back for Home-Coming Day.

As this feature itself is one of its main attractions we feel sure that no one ever will. It is one of Cornell's most attractive events and should, and we believe will, function best when it is most nearly automatic. Consequently no further announcements of it will go out from Ithaca.

CLUB ACTIVITIES

Westchester County

The annual fall meeting of the Cornell Westchester Association will be held at the Scarsdale Golf Club on Wednesday, October 14. Invitations are being extended to all Cornell men. The festivities will start in the morning with golf, with Richard M. Tolin '05 in charge.

A formidable array of talent will appear at the dinner to be held at the club house at seven o'clock. Judge Frank L. Young '88 as toastmaster will introduce President Farrand, Charles M. Schwab, Trustee of the University, and Daniel A. Reed '98, now Representative in Congress and known to Cornellians as coach of many Cornell football teams.

Interested alumni should communicate with Fred R. Slater '94, president of the association, at 618 North Broadway, Yonkers. He would like to know in advance how many will attend the dinner. Checks at \$4 each should be made payable to him.

FACULTY NOTES

PROFESSOR EVERETT F. PHILLIPS of the Department of Agriculture spoke before the State convention of Wisconsin beekeepers at Watertown, Wisconsin, in June on the subject of "Leaving Enough Honey Next Fall for Wintering."

PROFESSOR CARL E. LADD '12 spoke on September 6 at the guest dinner given by the Clifton Springs Club at the Y. M. C. A. Hall in Clifton Springs on agriculture in New York State. He said among other things that the dairy stock of the State, if placed head to tail, would extend from New York City to the eastern boundary of California. The poultry of the State, if placed on one roost, would reach from Clifton Springs to St. Paul, Minn. The amount of silage corn raised, if placed in one silo of fourteen feet diameter, would fill a silo 108 miles high. Hay, loaded in carloads, would fill a train reaching from New York to one thousand miles west of San Francisco. There is also produced by the State a sufficient supply of clean, safe milk sufficient for the needs of all the great Eastern cities. About seven per cent of the population of the State lives on farms, besides a considerable number of farmers who live in small towns.

ALUMNI NOTES

'77 BS, '78 MS—A high tribute to Dr. Leland O. Howard, head of the Division of Entomology, United States Department of Agriculture, was recently paid in the London, England, *Nature*. Dr. Howard attended the International Congress of Entomologists at Zurich this summer, and his work there resulted in the publication saying editorially, "Capable and kindly, always with the right word, and with tact as his middle name, Dr. Howard gives one the feeling that were there a dozen representative ambassadors like him in the political world, we would soon have what some of us long for, a United States of Europe, each nation no longer at enmity with the other, but working out its own salvation following the lines of its own culture and psychology."

'94 ME—Lionel E. Marks is still professor of mechanical engineering at Harvard, having held this position since 1909 and been a member of the university faculty there since 1894.

'95 BL—At the commencement exercises at Rutgers last June, the honorary degree of A. M. was conferred upon Judge Joseph M. Fowler of Kingston, N. Y.

'98 PhB—Lucretia V. T. Simmons is at the head of the Department of German at Pennsylvania State College. She recently completed an eight-months' tour of the world while on sabbatic leave and spent the last of the tour in studying six weeks at the University of Zurich, three weeks at the University of Strasbourg and three weeks at Oxford, where a special course in modern drama was given. Her address is 409 Allen Street, State College, Pa.

'99 BS—Joseph E. Ward recently resigned from his position with the William Sealing Corporation to become assistant general manager of the Airrubber Corporation, manufacturers of pneumatic cushions and mattresses, at 589 East Illinois Street, Chicago.

'01 BSA—George H. West, market expert, has lately been investigating the Rochester Public Market and will make recommendations regarding the present congested conditions and also the future growth of the market.

'01 BSA—Adam Phillips is associate professor of rural education at the University of Tennessee and lives at 110 Rennoc Road, Fountain City Branch, Knoxville, Tennessee.

'04 LLB—Frank E. Eberhart is vice-president and works manager of the Newark Gear Cutting Machine Company, 69 Prospect Street, Newark, N. J., makers of automatic gear cutting machinery. He lives at 234 Raymond Avenue, South Orange, N. J.

'07 CE—Bonbright & Company, New York bankers, recently conducted a contest on electrical developments between

The city moves to the country

ELECTRICITY builds cities. Without electric elevators, pumps and fans, the tall buildings would be lifeless piles of steel. Without electric cars, city streets could not accommodate the crowds.

But now, having made the modern city, electricity is making the country. Wherever electric lines lead out from the city, you find suburban property values enhanced, suburban life made comfortable, and waste land blossoming into homes.

The automobile helps. The motor bus helps more. But

the trolley and interurban cars are more important still. *Sixteen billion* Americans rode on electric lines last year—145 rides per capita of our entire population!

This is an impressive record for a utility that is still young. The first complete electric railway system in the United States was installed in Richmond, Virginia, in 1888. It was a quaint, almost an experimental 'car-line. But it introduced a new economy in transportation, a new epoch in the art of making homes.

To the electric railways of America the General Electric Company contributes engineering skill and manufacturing efficiency. It builds motors that last a generation in service and controlling devices that make electric transportation one of the safest means of travel in the world.

GENERAL ELECTRIC

1920 and 1930 as seen in retrospect. A total of 438 essays were entered in the contest, the writers of which were required to imagine themselves as living in 1930 and looking backward at developments in the electrical field in the previous ten years. Robert M. Davis, statistical editor of *The Electrical World*, won second prize. All of the essays are to be kept until 1930 and read again. At that time, the one which most nearly outlines developments as they did take place, will receive a prize of \$10,000.

'10 BArch—The Pacific Coast division of the Bethlehem Steel Company at San Francisco recently underwent some changes which resulted in Edward E. Goodwillie being named assistant to the vice-president in charge of the division and also in charge of steel sales on the Coast. Goodwillie was formerly manager of sales in the Chicago district.

'11 AB, '13 AM—Mr. and Mrs. George A. Land (Emma C. Lindsay '13) are now living at 47 Washington Park, Newtonville, Mass. Land is the head of the Latin department in the Newton Classical High School.

'11 AB—Asa C. Chandler is in charge of a hookworm research laboratory at the School of Tropical Medicine, Calcutta, India. He is there on a three-year contract and expects to return to the United States in 1927. He writes that he is married and has three children.

'12 MCE—Announcement was made during the summer of the appointment of George W. Case as dean of the College of Technology and professor of mechanical engineering at the University of New Hampshire. For the past five years he was chief engineer of the American City Engineering Company in Pittsburgh, Pa., and prior to that taught engineering in the University of Pittsburgh.

'13 LLB—Rufus E. Bixby is trust officer of the County National Bank & Trust Company of Santa Barbara, Calif.

'13 LLB—Samuel D. Scudder, Jr., is engaged in the retail jewelry business in Kingston, N. Y. He is a partner of C. H. Safford, whom he joined after completing service as an Army transport quartermaster during the War. His address is 310 Wall Street.

'13—William R. Manson is a member of the Maas-Manson Company in Chicago, building contractors specializing in fire-proof construction, with offices at 20 West Jackson Boulevard. Manson is married and lives at 5228 South Parkway, Chicago. He and his wife have a son, William Noel, born December, 20, 1924.

'14 PhD—Dr. George F. Zook, chief of the division of higher education of the U. S. Bureau of Education, has resigned to become president of the University of Akron, Ohio. Zook has been in charge of

the division of higher education since February, 1920. During the last two years he has also served as assistant to the Commissioner of Education, having had charge of the several research divisions. On his retirement from the division an illuminated testimonial, bearing the signatures of the heads of the various branches and divisions of the Bureau of Education, was presented to him. The speech of presentation was made by Dr. Hubert Work, Secretary of the Interior, and Dr. John J. Tigert, Commissioner of Education, paid a high tribute to Dr. Zook's efficient service in the Bureau.

'14 AB—When Santa Barbara, Calif., was nearly destroyed by earthquakes last summer, notable work in relieving the suffering of injured and homeless was done by Margaret B. Cornell. News dispatches at the time referred to her as the individual heroine of the catastrophe, and since then she has been given much credit for her work by the American Red Cross. Miss Cornell is executive secretary of the Los Angeles Red Cross, which gave much assistance at the time of the disturbances in the neighboring city.

'14 AB—Hoyt E. Ray was recently named by President Coolidge as United States District Attorney for the District of Idaho. Since 1915, Ray has been a practicing attorney in Pocatello and has also served as city attorney.

CORNELLIAN WELCOME TO ITHACA

THE CENTER OF THE FINGER LAKES REGION OF NEW YORK STATE

CENTRAL NEW YORK—Showing the Improved Highways leading to ITHACA and the State Park Country. Cayuga Lake is the "middle" of the Finger Lakes, Owasco, Skaneateles and Otisco being to the east; Seneca, Keuka and Canandaigua to the west

THE ITHACA CHAMBER OF COMMERCE

SAVINGS BANK BUILDING ITHACA, NEW YORK

'14 CE—William M. Reck is treasurer and general manager of the Houser Elevator Company, manufacturers of passenger and freight elevators at 314 East Water Street, Syracuse, N. Y. He writes that Henry L. Hupe '09 is sales manager of the company.

'14 CE—Edward R. Stapley is associate professor of civil engineering at the Oklahoma Agricultural and Mechanical College, Stillwater, Okla. He writes that the college has a registration of about 2500 students, and that the freshman class in engineering numbers 260.

'15 ME—Jose A. V. Corpus is chief of the Division of Cold Storage and the Government ice plant at Manila, P. I. His address is 327 Arroceros Street, Ermita, Manila.

'15 AB—Fannie H. Dudley writes that she is in the advertising department of the Middletown, N. Y., *Daily Times-Press*, holding down a position she has had for the past five years. Her address is Howells, New York.

'15 ME—Mr. and Mrs. F. W. Leach of Oak Park, Ill., have announced the marriage of their daughter, Isabel, to Norman S. Stone '15, at Oak Park on September 19.

'16 ME—Lewis H. Colpoys, former city building inspector in Buffalo, N. Y., and John H. Kellar of that city, have formed an engineering firm in Buffalo,

which is now actively engaged in business.

'16 ME; '13 AB—Mr. and Mrs. Charles J. Roese (Gretchen Hainlin '13) announce the arrival of a son, Robert, on July 19. They already have a daughter, Gretchen, and a son, Henry. Their home is at 12,733 Westford Street, West Los Angeles, Calif. Roese is manager of the technical service department of the Goodyear Tire & Rubber Company of California.

'16 DVM—Dr. George N. Ransley is the Eastern representative of the Sayers & Scovill Company. He and Mrs. Ransley live at 137 East Harvey Avenue, Merchantville, N. J., and have a daughter, Sally Jean, born on October 6, 1924.

'16—David M. Freudenthal, who has been associated with Bamberger & Company in Newark, N. J., has resigned to become assistant to the president of Stern Brothers, Fifty-second Street, New York.

'16 BS—On July 2, the directors of the Lyons, N. Y., National Bank, announced the appointment of Thaddeus C. Logan as cashier.

'16 AB—Hugh MacKenzie, professor of history at the University of Rochester, was married at Concord, Mass., on September 5 to Miss Ruth Walcott, daughter of Mrs. George E. Walcott of that city. The bride is a graduate of Smith College. They are now living in Rochester, N. Y.

'16 BS—Helen E. Saunders is teaching

biology in the Manual Training High School, Brooklyn, N. Y., and living at 454 Seventh Avenue.

'16 BS—Since January, 1920, Arabella S. Livingston has been teaching in the Home Economics Department of the University of Nebraska at Lincoln. During the past summer she studied at the University of Chicago and now she is a student in the College of Osteopathy at Kirksville, Mo., preparing to become an osteopathic physician. Her address is 504 South Franklin Street, Kirksville, Mo.

'16 BS—Clement H. Cornish, formerly American vice-consul in Tientsin, China, is now home on leave and may be reached at 212 Beacon Boulevard, Sea Girt, N. J.

'17 BS—A daughter, Margaret Markham, was born on September 9 to Mr. and Mrs. William S. Vanderbilt of 46 Sherman Street, Hartford, Conn. Vanderbilt is superintendent of the rain department of the Hartford Fire Insurance Company.

'17 ME—Harris C. Emich has been an electrical and mechanical engineer for Henry Adams, Baltimore consulting engineer, for the past three years, with offices at 1263 Calvert Building, Baltimore, Md. He and his wife have a daughter, Ruth Audrey, born May 31 last. They also have a son, Robert H., who is five. Their home address is 4001 Beaufort Avenue, Baltimore.

'17 ME—William R. Landmesser is president and treasurer of the Industrial Sales Engineering Company, Inc., at 14 Green Street, Newark, N. J. The concern deals in oil-burning, refrigerating, and air-compressing equipment. The engagement of Landmesser to Miss Louisa Hochuli of East Orange, N. J., was recently announced and they will be married this fall. Landmesser lives at 355 Seymour Avenue, Newark.

'17 BS—Announcement has been made of the engagement of Henry E. Leonard of East Orange, N. J., to Miss Charlotte Redford, daughter of Mr. and Mrs. John B. Redford of New York.

'17 ME—Stanley O. Law has resigned as production manager for R. D. Nuttall Company of Pittsburgh, Pa., to become a member of the firm of T. L. Rose & Son, power transmission engineers at 57 Water Street, Pittsburgh. He lives at 325 Graham Street.

'17 CE—W. H. Locke Anderson is general superintendent of the Canonsburg Pottery Co., Canonsburg, Pa. His engagement to Miss Ruth Metters of Columbus, Ohio, was announced in the spring and they will be married this fall. Anderson lives at 310 Belmont Avenue in Canonsburg.

'17 AB; '19 BArch—Mr. and Mrs. Frank D. Boynton, Jr., (Helen Palmer '19) announce the birth of a daughter, Georgine Palmer, on August 3. They are living at 1725 Seyburn Avenue, Detroit.

WILLIAMS-CORNELL FOOTBALL GAME

When you attended Cornell, you used the Lackawanna between New York and Ithaca. No homecoming is complete without a trip via the same route.

Through Sleeping Cars

Trains leave New York . . . 10.00 a.m., 8.30 p.m., 1.30 a.m.

Arrive Ithaca 5.20 p.m., 7.00 a.m., 11.20 a.m.

Returning, leave Ithaca 12.15 p.m. and 9.50 p.m.

Arrive New York 7.25 p.m. and 7.00 a.m.

Telephone Bryant 2052 or Hoboken 2000 for advance Pullman reservations.

'17 AB—The insurance and real estate firm of Howell & Howell in Ithaca, of which Sidney P. Howell is the junior member, was this summer appointed local representative of the Morris Plan Bank.

'18 AB—Mr. and Mrs. Lester Harris (Grace H. Corleis '18) of 344 Grant Avenue, Brooklyn, N. Y., have a daughter, Grace C., born on August 14.

'18, '21 WA—Announcement has been made of the engagement of Loyall A. Osborne, Jr., to Miss Emily Cook, daughter of Mrs. Joseph P. Cook of Honolulu, H. I., and a graduate of Westover School at Middlebury. Osborne is the son of Loyall A. Osborne '91, and may be reached at the University Club, Tulsa, Oklahoma.

'18—Robert E. Ryerson is with the West India Oil Company at Avenida Rogue Saenz Pena 567, Buenos Aires, Argentine. After December 31, he should be addressed in care of H. A. Patterson, 945 West End Avenue, New York.

'18, '21 AB—Leicester W. Fisher was recently appointed business manager of the Chicago News Bureau, a subsidiary of the New York News Bureau Association, which is the world's largest distributor of financial and commercial news. His address is 332 South LaSalle Street, Chicago.

'18 BS—Mrs. Richard A. Waite (Esther Royce) writes that she and her husband moved from Williamstown, Mass., last February and are now living in Shrewsbury, Mass., just outside of Worcester. Her husband is resident agent for the Eastern States Farmers' Exchange, which is operating the Worcester County Farmers' Exchange. Their address is P. O. Box 15.

'18, '20 LLB—Arthur Olsen, former varsity pitcher, has been pitching for the Nashville, Tenn., team in the Southern Association during the past summer.

'18, '20 BS—When the High School in Moravia, N. Y., opened in September Clayton T. Bridges began work as the head of the department of agriculture in the school. Just before that, he acted as superintendent of the Grange department at the Cayuga County Fair.

'18 AB, '21 BChem—Roy McDuffie is teaching in the engineering school at the University of Cincinnati. He was married last June to Miss Elizabeth Babbitt, and they are living at 4505 West Eighth Street, Price Hill, Cincinnati.

'18—George W. Winslow is practicing veterinary medicine in Bend, Ore. He lives at 44 Irving Avenue.

'19 AM—Irving C. Story, who has been a student in the Graduate School for the past year, has been appointed assistant professor of English in Franklin and Marshall College.

'19, '18 ME; '19 ME; '17—Frank W. McDonnell is now president of the firm of Rossiter, Tyler & McDonell, Inc., at 136 Liberty Street, New York. The firm was

organized in October, 1924, and the other partners are Walter A. Tyler '19 and Clinton L. Rossiter '17. They are engaged in consultation, commercial tests, and research in radio engineering.

'20 AB—The engagement of John A. Rodger of Richmond Hill, N. Y., to Miss Dorothy Fessenden of Kingston, N. Y., (Wellesley '19) has been announced.

'20—John W. Hammond is a cotton buyer for the Canadian-Connecticut Cotton Mills of Sherbrooke, Quebec, Canada. He and his wife have a daughter, Ann Caroline, born on March 16 last. They live at 30 Montreal Street, Sherbrooke.

'20; '21 AB—Mr. and Mrs. William H. Hallock (Blanche L. Brown '21) announce the birth of a daughter, Virginia Blanche, on July 29. They are living at Webster, New York.

'21—Dwight C. Dale is now associated with the law firm of Tennant & Munson at Westfield, N. Y., which is headed by Arthur S. Tennant '03. Tennant's son entered Cornell this fall for the combination Arts-Law course.

'21—Barrett Singer of Amsterdam, N. Y., was married on September 1, to Miss Gladys Baranoff of Schenectady, a graduate of the Ithaca Conservatory of Music. They have been honeymooning in the White Mountains, Green Mountains, and Adirondacks. They will live in Amster-

dam and can be reached through the Amsterdam Printing Company.

'21, '22 AB—Thomas P. Doremus recently formed a partnership in Red Bank, N. J., with John J. Quinn and Theodore D. Parsons, for the general practice of law under the firm name of Quinn, Parsons and Doremus. Their address is 74 Broad Street, Red Bank.

'22 EE—William A. Altschuler of Brooklyn was married on August 31 to Miss Mollie Kletzel of that city. Altschuler is engaged in engineering work for Babcock & Wilcox, boiler makers, in New York.

'23 BS—Floyd D. Ramsey, former varsity halfback, was married at Auburn, N. Y., on September 3 to Miss Mary Richards, formerly a teacher in the High School at Ludlowville, N. Y. The ceremony was performed in the Calvary Presbyterian Church.

'24 BS—Winifred Zimmerman is a student dietitian at the Fifth Avenue Hospital in New York.

'25—Miriam Mai Garretson was married in New York on June 27 to John A. Reichmann, Federal court reporter for *The Wall Street Journal*. They spent a honeymoon in New England and are now living at 165 Lincoln Street, Montclair, New Jersey.

'25 ME—Harold F. Kneen is with the Ingersoll-Rand Company at Easton, Pa., and is living at the Y. M. C. A.

STAY RIGHT IN YOUR CAR

*and Open or
Close Your
Garage Door
Electrically*

THE *Electric Door* operates from a plate in the driveway, and enables you to either open or close your garage doors without getting out of the car, or even taking your hand from the wheel.

When you are in a hurry, or the rain is pouring down, it is always ready to serve you. Saves time, clothes, and temper, and permits full enjoyment of a closed car.

Simple, safe, durable, reliable. Designed especially for the private residence garage. Operates 100 times for 2 cents. Easily installed. At Electric Dealers or direct from factory \$125 complete, f. o. b., Ithaca, N. Y.

C.—Alice L. Smith, Hwanan College, Foochow, China.—John C. Hunter, Kraft Cheese Company, 757 Sansome Street, San Francisco.

Electricity Means Better Work

The Woodstock Electrite, newest member of the Woodstock family, has all the features that distinguish the standard Woodstock machine, plus the speed and ease of electrical operation. It is a revelation in typewriter efficiency and high grade character of work. Send for booklet which describes both the Electrite and the standard Woodstock machine.

What books do you need for Fall and Winter reading?

To aid you in your selection we issue each year two booklets listing worthwhile books. The Agricultural list has the larger circulation of several thousand. The Engineering list is very complete too. One of these is yours for the asking. We will get the information for you regarding other books not listed. Let us be of service to you.

Cornell Songbooks

A book needed by every Cornellian. The only songbook in print containing the songs with music. The price is \$1.75 postage paid. Half the book contains other popular songs.

Cornell Rowing

This is written as a story which is largely a life of Courtney. The crew records and other information you need and want is there. Even if you were not on oarsman you want to know. *\$1.75 postage paid.*
