**World's Heaviest Rail**

The rail in Lehigh Valley track weighs 136 pounds to the yard and is 7 inches high. It is the heaviest rail in use on any railroad in the world.

Adoption of this type of rail, together with the use of broad, thick tie plates, crosotied ties and heavy crushed stone ballast are important factors in the smoothness and comfort of the ride on the Lehigh Valley.

# CORNELL ALUMNI NEWS

VOL. XXVIII, No. 17

ITHACA, N. Y., JANUARY 21, 1926

PRICE 12 CENTS

**T**HE UNDERGRADUATE has recovered at last from the Christmas recess and is now devoting such energy and talents as he has to the immediate problem of final examinations. Almost any confiding student will tell you that examinations are all wrong, that we ought to adopt the Oxford system, whatever that is. But right or wrong, the exam system is here, and he knows it. Electricity has replaced the midnight oil of our fathers, but the lamps on the Hill still burn.

THE "HARD TIMES" Ball, given by the students of the College of Architecture on January 11, turned out to be a popular and highly profitable affair. The ball was given to liquidate the debt incurred at the Beaux Arts Ball last year. The oldest, dirtiest, and most disreputable wearing apparel was in keeping with the spirit of the occasion, and in everything except the price of admission there was a pervading atmosphere of "hard times." Now there is talk of making this ball an annual event.

HENRY FORD's example has inspired the Ithaca Conservatory of Music to undertake a search for old-time fiddlers. Consequently there will be a contest for the fiddlers of Tompkins County in conjunction with Music Contest Week at the Conservatory next May. With the present interest in the revival of old-fashioned music, it is expected that a large number of musicians will enroll.

SIGMA DELTA CHI, honorary professional journalistic society, was established at Cornell on January 12 at an initiation dinner in Willard Straight Hall. The following men were initiated: Edward W. Lane '23, Cecil R. Rosenberry '25, Kenneth W. Greenawalt '26, Oliver T. Griswold '26, Varian Steele '26, William M. Smart '28, William J. Waters '27, Barnard W. Hewitt '28, and Henry S. Krusen '28.

THE INTERFRATERNITY hockey league, comprising fifteen fraternities, was organized at Beebe Lake skating rink on the afternoon of January 12. In accordance with the custom of former years the winning team will receive the Thornton hockey trophy given by George H. (Pat) Thornton '22. The trophy is now held by Sigma Phi.

THE '94 MEMORIAL Debate Prize was awarded to Alvin R. Cowan '27 in the final competition held in the University Theater on January 12. Cowan upheld the negative side of the proposition: "Resolved, that representation in government on the basis of social-economic interests is preferable to representation based on geographical subdivision." The

judges were Professor Julian P. Bretz of the Department of History, Professor Everett L. Hunt of Swarthmore, and Riley Heath '12, city attorney of Ithaca. Other speakers were George H. Dession '26, Milton H. Friedman '26, Donald C. Bryant '27, Charles L. Kades '27, and Herbert T. Singer '27.

THE LONDON String Quartet gave a recital in the University Theater on January 19. The quartet, which has appeared in Ithaca on two previous occasions, was composed of James Levey, first violin, Thomas Petre, second violin, H. Waldo Warner, viola, and C. Warwick Evans, 'cello.

REMINDERS that spring is not so far away after all come with the announcement that candidates for the freshman and varsity baseball teams will start indoor practice within a few days.

ALPHA KAPPA DELTA, national honorary sociological society, was addressed by Professor Herbert J. Davenport of the Department of Economics at a supper meeting in Willard Straight Hall on January 13. Professor Davenport spoke on "The Single Tax."

THESE MEMBERS of the Women's Debate Club will debate with Swarthmore on February 12: Margaret L. Plunkett '27, Eugenia B. Zeller '28, and Sylvia Bamberger '29. The subject will be "Resolved, that literature and the drama should be censored."

PROFESSOR ROBERT A. MILLIKAN, director of the Norman Bridge Laboratory of Physics at the California Institute of Technology and recent winner of the Nobel Prize in Physics, will give a course of lectures at the University next spring under the provisions of the Hiram J. Messenger Foundation. Professor Millikan succeeds Professor James H. Breasted, noted Egyptologist of the University of Chicago, as the Foundation lecturer on the evolution of civilization.

THE SAGE CHAPEL Preacher for January 24 will be Rev. Charles R. Brown, dean of the Divinity School of Yale.

THE CHESS CLUB, subsequent to the intercollegiate chess tournament held in New York during the Christmas recess, engaged in a correspondence match with the Princeton Club. Of the six games played in this match Cornell won five. The Cornell players who took part in the match were Walter Muir '27, Morris M. Rubinsky '28, John B. Emperor '26, Charles K. Thomas '21, and Alfred J. Bryant '26.

F. H. NEWELL, former chief of the United States Reclamation Service, gave an illustrated lecture on "Giant Power" in Baker Laboratory on January 14. Mr. Newell is probably the greatest living authority on irrigation and the water resources of America.

THE PROGRAM of Farmers' Week in the College of Agriculture is nearing completion. A number of prominent agriculturists have been invited to spend the week here both as instructors and advisers. Among the visitors will be Professor R. A. Seligman of Columbia, who will speak on taxation in relation to the farmer; B. A. Pyrke, State Commissioner of Agriculture; Dr. Roscoe W. Thatcher, director of the experimental stations at Ithaca and Geneva; Miss Sarah L. Arnold, national president of the Girl Scouts, and Mrs. Thomas G. Winter, past president of the Federation of Women's Clubs.

PROFESSOR VLADIMIR Karapetoff has received a patent on a metering system for unbalanced polyphase electric lines or multiple pipe lines for carrying a medium, such as oil or gas, which can be measured. All rights on this invention in this country and abroad have been assigned to the General Electric Company.

ATTENDANCE at the vesper services in Sage Chapel during the week, conducted by Bishop Charles H. Brent of Buffalo, exceeded all expectations. On the average about three hundred attended each meeting. Bishop Brent became so popular among undergraduates while in Ithaca that all his spare time was taken up with interviews, many of them on personal matters. During the war he served as chaplain-in-chief of the American Expeditionary Forces, and last year acted as the personal representative of President Coolidge at the Opium Conference at Geneva.

CONTRACTS for remodeling the Reamer Block, which formerly housed the Reamer Laundry, into a central fire station, and for the installation of a modern oil-burning heating system in the City Hall, were signed by the Board of Public Works on January 4. The total cost of the two jobs will amount to about \$45,000.

THE JUNIOR WEEK Guide, that indispensable booklet of information on the fraternity house dances and other entertainments of Junior Week, is now in process of preparation and will be put on sale during Block Week. The guide contains a complete program of the week's events, pictures of the fraternity houses at which parties are being held, and a history of the origin of Junior Week, showing photographs of the Proms of other years

## Honors for Dean Bailey

### Made President of American Association for the Advancement of Science

Liberty Hyde Bailey, dean of the College of Agriculture from 1903 to 1913, was elected president of the American Association for the Advancement of Science at the annual meeting of the society in Kansas City, December 28 to January 2.

LIBERTY HYDE BAILEY

Dr. Bailey is the fourth president of the Association since 1908 who has been affiliated with Cornell either as a student or as a professor.

Dr. Bailey is a graduate of the Michigan State College, and has received degrees from the University of Vermont, the University of Wisconsin, and Alfred University. Throughout his life he has been deeply interested in the study of botanical and horticultural subjects and in the solution of rural educational problems. His work has received such widespread recognition that he has been elected to membership in such divergent learned societies as the American Philosophical Society and the Horticultural Society of Japan. He is also a member of the American Academy of Arts and Sciences, the National Academy of Sciences, the Royal Horticultural Society of London, and the Horticultural Society of Norway.

Most of Dr. Bailey's writings have been on agricultural subjects, but some of his best writing has been in verse and philosophical essays. He is the author of "Ground Levels in Democracy" and "What is Democracy?"

The American Association for the Advancement of Science was organized in 1848 to promote interest in scientific subjects. Organically it is an affiliation of many smaller scientific societies in both North and South America. Its members, however, may be citizens of any country.

Other Cornellians who have been elected to the presidency of the Association are:

Edward L. Nichols '75, professor emeritus of physics, who was president in 1908, David Starr Jordan '72, president emeritus of Stanford, president in 1910, and Leland O. Howard '77, of the United States Bureau of Agriculture, president in 1921.

In the same week in which Dr. Bailey was made president of the American Association for the Advancement of Science, he received notice of his election to the presidency of two other organizations, the Botanical Society of America and the World Congress of Plant Sciences. The latter, which has been reorganized after a lapse during the war, will meet in Ithaca next August.

## SPORT STUFF

The Deacon Flack Skating Club is working out splendidly. About a hundred members skate regularly on Beebe between twelve and one each day. They then partake of a frugal lunch and go back to work greatly refreshed and invigorated.

The results should be important in connection with these on-coming examinations. How a professor feels is a real factor in determining a student's mark. A savant who has skated forty minutes and lunched on a bowl of soup and a wedge of bread will invariably mark papers from five to eight points higher than another who has spent the noon hour putting away an underdone New England boiled dinner in the overheated atmosphere of the home.

We've got to get these boys through even at the trouble and expense of making the professors healthy and clear minded.

P. S. Anxious subscribers will be gratified to learn that the new Ford has arrived. The experience of putting on the side curtains in an Arctic gale strengthens the presumption that Henry drives a Lincoln.

R. B.

## WOMEN GIVE CONCERT

Chorus singing of difficult numbers with excellent tone quality and sympathetic expression, and the rendition of a pleasing variety of musical novelties marked the sixth annual concert of the Women's Glee Club in the Willard Straight Theater the evening of January 13. The club, directed by Mrs. Eric Dudley, included in its ensemble pieces Liszt's "Loreley," Brahms's "Little Dustman," and two Shakespeare songs, "Sigh No More, Ladies" and "The Pedlar's Song" from "A Winter's Tale."

Shirley Miller '28, besides accompanying the club in its singing of "Believe Me, If All Those Endearing Young Charms," rendered a group of Irish harp solos. Gladys H. Woods '27 gave a recitation to incidental music of Oscar Wilde's fairy story, "The Happy Prince." Roger Kinne '28, of the Musical Clubs, contributed Indian songs in costume. Piano solos by

Rosalie Cohen '29, a blind student, and the "Dancing Duet" from "Hansel and Gretel" by Adelaide Kistler '27 and Susan Elson '27 completed the program of special numbers.

## VETERINARIANS MEET

The eighteenth annual conference for veterinarians of New York State was held in Ithaca January 14-15. This conference, which brings together scientists, practitioners, and teachers of veterinary medicine from far and near, is the most important meeting of its kind during the year and attracts scholars from fields other than veterinary medicine.

The conference opened at James Law Hall on January 14 with a number of scientific papers by Cornell professors, both from the College of Agriculture and the College of Veterinary Medicine. Dean Veranus A. Moore spoke on "The Growth of Veterinary Science and the Application of New Knowledge" at this session. Other speakers heard during the conference were President Farrand, W. H. Park, director of research laboratories for the New York City Board of Health, and B. A. Pyrke, State commissioner of farms and market.

The conference closed with a banquet at the Bank Restaurant on the night of January 15. The speakers were Professor L. Van Ess of the University of Nebraska, Professor Simon H. Gage '77, and Professor Pierre A. Fish '90.

## THE COLLEGE WORLD

DUKE UNIVERSITY, now one of the richest in the world, has this year 1,318 students, of whom 56 are graduate students and 22 are students of law.

SINCE MAY, 1824, 29,042 students have enrolled in Indiana University. Of this number 2,356 men and 573 women have died. The alumni office now has the names and addresses of 21,983, of whom 12,339 are men and 9,644 are women. This year 877 degrees were conferred. Owing to the crowded condition of the university buildings, every student now has to take at least half of his work in the afternoon.

ILLINOIS has this year an instructing and administrative staff numbering 1315 persons, as against 1260 last year.

THE SENIOR class of the University of California will publish, as its parting gift to the university, the selected writings and addresses of President Emeritus Benjamin Ide Wheeler, including an account of his presidency of the university. The volume will contain about 350 pages and will be ready for distribution by commencement of next year. Dr. Wheeler, who is now seventy-one years old, has just returned from a European vacation and is again living in Berkeley.

# Cornellians Meet in Many Cities to Celebrate Founder's Day

**Ithaca Banquet, First Held in Willard Straight Memorial Hall, Addressed by President Farrand and Charles E. Cornell**

**E**ZRA CORNELL'S 119th birthday anniversary, January 11, was celebrated as Founder's Day by Cornell alumni clubs and groups in all sections of the United States. In Ithaca the great memorial dining hall in Willard Straight Hall, a fitting spot for a solemn commemoration, was filled to capacity by three hundred members of the local alumni clubs. Up to January 17 the ALUMNI NEWS had received word of gatherings in New York, Buffalo, Philadelphia, Niagara Falls, Pittsburgh, Raleigh, North Carolina, and Omaha, Nebraska, with many other clubs still to send in reports.

### Ithaca Men and Women

With Memorial Hall in the Willard Straight building to furnish an impressive background, and with a large gathering of Cornell men and women to stimulate enthusiasm the Founder's Day banquet of 1926 was the most memorable in many years. The Cornell Club of Ithaca and the Cornell Women's Club united for the event, and in addition to the members, other resident alumni and husbands and wives of Cornellians were invited to attend the dinner. An open fire in the great fireplace, and red and white carnations used as decorations on all the tables added to the atmosphere.

Dean Georgia L. White '96 acted as toastmistress and introduced as the speakers Charles E. Cornell, grandson of the Founder, who spoke informally of his personal recollections, and read parts of several letters which had been written by his grandfather in 1864 and '65; Mrs. Albert H. Emery (Julia McClune '04), a former resident of Ithaca, and now a member of the Legislature of the State of Connecticut, who spoke of her experiences in political life; and President Farrand, who pointed out the potential efficacy of the ideals of the Founder and of the first president in solving present day problems, urging the inculcation of those ideals for all Cornellians.

In addition to the addresses, Eric Dudley led the gathering in the singing of several Cornell songs. The Women's Glee Club sang twice, and a sextet from the Glee Club gave several selections.

In his address, President Farrand mentioned two all-important problems in the solution of which the universities should play their part—the problem of maladjustment in social and economic relations, and the problem of international relations. He said:

"I wish we could inject into the minds and characters of every student, first the unflinching solicitude that Ezra Cornell had for the boy and girl who lacked privileges

given to others, and his insistence that here at Cornell opportunities should be offered to those of less privilege. If that idea could be inculcated into everyone most of our social maladjustments would disappear.

"Secondly, I wish that the point of view of Andrew D. White, the first president, toward international and civic questions might be inculcated in the minds of every undergraduate—the broad point of view which saw that the world's problems are not to be solved by group prejudices, but by a recognition of the rights of others.

"We wish the alumni and the entire Cornell community to realize no higher ideal for the University than that laid down by the Founder and built into the institution—the ideal of service of man and of God."

In introducing the speakers, Dean White alluded to Andrew D. White's statement in his inaugural address to the University, and referred to others who had given the best of their lives and their energies to the institution. In this connection she expressed the general feeling of gratitude to Mrs. Leonard K. Elmhirst for the Willard Straight Memorial, and suggested that the gathering—the first to be held in the hall—send an expression of appreciation to the donor.

Dr. White also read a letter from Miss Mary E. Cornell, daughter of the Founder, who expressed her regret at her inability to be present and her interest in the occasion.

### Buffalo

The Cornell Club of Buffalo held its annual Founder's Day Smoker and election of officers January 11 at the University Club, with about one hundred and fifty present. Albert A. Hartzell '85 acted as master of ceremonies and gave a talk reviewing the early hardships of the University and pointing out how much the present generation owes to the hardy pioneers who struggled to put Cornell among the leading institutions of the country. William H. Kennedy '10, retiring president of the club, spoke on the progress made by the organization during the past year. Songs by the Cornell All-American Quartette and several special stunts provided entertainment.

These officers were elected: President, Louis W. Simpson '96; vice-presidents, Carleton P. Cooke '21, Clifford D. Coyle '00; secretary-treasurer, William E. Harries '08; athletic director, James B. Wilson '21; directors, John L. Collyer '17 and Neil M. Willard '18. The committee which handled the smoker was headed by Guy A. (Skip) White '17 and Matt Weimar '17.

### Philadelphia

The Founder's Day meeting of the Philadelphia Club was marked by a talk by Dr. William Elliot Griffis, lecturer and author, whose association with those who were actively interested in the University in the early years permitted him to give an intimate story of how the pioneers overcame their obstacles. He concluded his address with a talk on his experiences in Japan, emphasizing the influence Cornell has had on Oriental countries.

### Niagara Falls

The Founder's Day celebration of the Cornell Club of Niagara Falls was held at the Niagara Hotel at the weekly luncheon of January 6, when the gathering of about twenty local alumni was addressed by Rev. Theodore W. Harris, who was at one time private secretary to Andrew D. White. Mr. Harris related many interesting recollections of Dr. White's personality and life at Cornell, many of which were quite new to those present.

### New York Women

The Cornell Women's Club of New York celebrated Founder's Day on Saturday, January 9, meeting in the sun room of The Allerton, Lexington Avenue and Fifty-seventh Street. In spite of inclement weather a large number greeted Professor Bristow Adams, who brought with him from Ithaca the true Cornell atmosphere and delighted his audience with an intimate picture of present-day campus life at Cornell. Tea was served in the rose room.

### Raleigh

On January 11 the Cornellians of Raleigh, North Carolina, met with Professor Paul J. Kruse of the College of Agriculture, who was attending a conference of extension workers at the North Carolina Department of Agriculture in Raleigh. He gave an interesting talk on current Cornell affairs, telling the alumni about Willard Straight Hall and illustrating his talk with a group of pictures of the building. William H. Young '73 was present at the meeting and gave some interesting reminiscences of the early days at Cornell. There were fifteen members present.

The club expects to hold another meeting in February. All Cornellians in that section are invited to attend the meeting, the date and place of which will be announced later. Officers of the club are Professor Rowland W. Leiby '15, president, of the North Carolina Department of Agriculture, and Russell D. Welsh '13, secretary, Box 654, Raleigh.

## ATHLETICS

### Lose First League Game

The basketball team lost its first Intercollegiate League game to Columbia in New York Saturday, after a gallant rally in the second half. The Lions won 33 to 24, thereby strengthening their lead on first place. They now lead the league with three games won, and no defeats. Princeton, which plays Cornell here Saturday night, is in second place with two victories and one defeat.

Columbia ran away from the Cornell five in the first half of Saturday's game, the score at the end of that period being 21 to 9. A foul goal by Deveau had given Cornell a one point lead in the opening stage, but Rothenfeld, who played brilliantly for Columbia, came along with four baskets from the floor and gave the Lions a commanding lead.

In the second half Cornell played a faster and more effective game, Albee and Moynihan being on the ball all the time and making several baskets. The Columbia margin however was too great to overcome.

The line-up and summary:

<b>Columbia (33)</b>	<b>Cornell (24)</b>
Rothenfeld.....L.F.....	Clucas
Laub.....R.F.....	Hall
Mannheim.....C.....	Dake
Madden.....L.G.....	Rossomondo
Lorch.....R.G.....	Deveau

Goals from field: Rothenfeld (4), Mannheim (3), Laub (2), Lorch (2), Kirchmeyer, Madden, Albee (3), Moynihan (2), Clucas, Dake, Deveau. Goals from foul: Mannheim (3), Laub, Lorch, Dake (3), Rossomondo (2), Clucas (2), Deveau.

Substitutions: Columbia: Rieger for Rothenfeld, Sullivan for Rieger, Rothenfeld for Sullivan, Kirchmeyer for Mannheim, Mannheim for Kirchmeyer. Cornell: Weber for Clucas, Albee for Hall, Moynihan for Albee, Albee for Moynihan, Moynihan for Deveau, Deveau for Rossomondo, Rossomondo for Moynihan, Moynihan for Albee.

Referee—Walsh, Hoboken, Umpire—Brennan, New York Aggies. Time of halves—20 minutes.

### First Home Victory

The basketball team won its first home game January 13, defeating Villanova College by a score of 28 to 21. In general, the contest was dull and uninteresting. Coach Ortner started two substitutes in the original line-up, Hall playing right forward and Weber center. All of the regulars got in, however, before the game was finished. At the end of the first half Cornell led 16 to 10, and the team was content to hold a safe margin.

### Dartmouth wins Hockey Game

Cornell was no match for Dartmouth at hockey in the game played at Hanover last Saturday. The Green won 12 to 1.

### Freshmen Basketball Team Wins

The freshman basketball team defeated Manlius 19 to 14 in the Drill Hall Saturday.

### Football Schedules

The Athletic Council ratified the varsity and freshman football schedules for 1926 at a recent meeting. The varsity eleven will meet the same major opponents as last fall, Columbia, Dartmouth, and Pennsylvania. Three teams not on last year's schedule will appear here next fall. Geneva replaces Susquehanna in the opening game, Michigan State College has the date played by Rutgers for several years, and St. Bonaventure is back again, playing the date between the Columbia and Dartmouth games.

The Dartmouth game, as already announced will be played in Ithaca on November 13. Columbia is to be met in New York again, and Pennsylvania, of course, at Philadelphia. The schedules:

#### Varsity Football

Sept. 25—Geneva at Ithaca.  
 October 2—Niagara at Ithaca.  
 October 9—Williams at Ithaca.  
 October 16—Michigan State at Ithaca.  
 October 30—Columbia at New York.  
 November 6—St. Bonaventure at Ithaca.  
 November 13—Dartmouth at Ithaca.  
 November 25—Pennsylvania at Philadelphia.

#### Freshman Football

October 16—Dickinson Seminary at Ithaca.  
 October 23—St. John's at Ithaca.  
 October 30—Columbia Freshmen at Ithaca.  
 November 6—Pennsylvania Freshmen at Philadelphia.

### Poughkeepsie Plans

The date of the Poughkeepsie regatta was tentatively set for Monday June 28, at a meeting of the board of stewards of the Intercollegiate Rowing Association held in New York last Thursday. Charles E. Treman '89, Cornell's steward, and Graduate Manager Romeyn Berry '04 represented Cornell. Final decision as to the date will depend on reports as to tidal conditions, but the stewards do not expect to have to make a change.

Invitations to enter the regatta will be extended to seven institutions, aside from the members of the association, Columbia, Cornell, Pennsylvania and Syracuse. They will go out to Washington, California, and Stanford, on the Pacific coast; Wisconsin, the Naval Academy, Princeton, and Massachusetts Institute of Technology. Washington and the Navy have dominated the varsity race at Poughkeepsie for the past five years, and both are expected to compete again, though Washington's entry will probably depend on the outcome of the annual Pacific Coast championship. Wisconsin is expected to come, but there is not much hope that Princeton will change its policy of adher-

ing to two-mile races, and the chance of M. I. T. entering is said to be doubtful.

The distance of the varsity race will again be four miles; the junior varsity and freshman races will be for two miles.

## LITERARY REVIEW

### A Register of Bibliography

*A Register of Bibliographies of the English Language and Literature.* By Clark Sutherland Northup '93. With Contributions by Joseph Quincy Adams '06 and Andrew Keogh. Cornell Studies in English. New Haven. Yale University Press. 1925. 24.7 cm., pp. xii, 507. Published by means of a grant from the Hecksher Foundation for the Advancement of Research. Price, \$5.

A bibliography, as comparatively few old graduates need to be reminded, is an accurate and exhaustive list of the printed contributions made in a particular field of study. It is a finding list of authorities, and for the sake of completeness includes not only the authoritative works but even those possessing slight authority. A student in possession of a good bibliography knows what material he has to work with, and if his subject includes controversy, as most subjects do, he has under his hand the pro's and con's as stated by all former investigators.

In some fields the material is so rich and comprehensive that no one person can be expected to know its extent and its value. A finding list of finding lists, a bibliography of bibliographies, then becomes a prime necessity of scholarship. In the English language and literature the cultivated territory has so expanded that a catalogue of available bibliographies is indispensable. The needful service has been exhaustively and admirably performed by one of our own scholars, Professor Northup, who with consummate patience and zeal has collected the data and now puts them forth in a comprehensive volume which immediately takes its place as an integral part of every college library and as a desideratum for the private shelves of every scholar in English.

To review such a book is not precisely easy. There are no purple patches to quote, no statements of opinion to challenge. The book represents hard, solid, dogged work, and is meant to be used as a workman's tool, not as an artistic exhilaration. Its two indispensable tests are convenience and completeness. The reviewer must hold to these points.

In make-up the volume is wholly satisfying: clear type, well-spaced double columns, properly proportioned indentation of entries, ample marginal space for annotation,—a dignified, portly, but not unwieldy tome. The reviewer then comes to his main task: to point out triumphantly the omissions that make the work fail of

exhaustiveness. And just here is where Professor Northup has spiked the reviewer's guns. Trying the book in a dozen places to see if certain little-known lists were cited, the writer found not only the things in question but along with them other lists unfamiliar to him. Doubtless omissions exist, and scholars will in due time call the author's attention to them; but the important point is the remarkable inclusiveness of the citations. Here is a book that accomplishes its task.

A minor pleasure of reviewing, incidentally one not disdained by the author of this volume, when he is a reviewer, is to correct typographical errors; and here again Professor Northup's well-known punctiliousness disarms the pouncer on misplaced commas and misspelled words. There must surely be printer's errors in a volume of this size, but they do not assault the eye, and it is a fair guess that the author will find them before any one else does.

A single suggestion may be made, and this is on a point quite outside the plan of the book. It has been indicated that the value of the bibliographies listed varies greatly: a scattering list is placed alongside of an exhaustive one, and the deliberately non-committal character of the editing gives no hint of worth or worthlessness. Would it not be possible in some future edition to add comments of a critical nature under many of the citations? To make of the volume not merely a list but a *catalogue raisonné* would be to enhance its usefulness. Taking the book as it stands, we find it of the highest importance to the study of English, and hearty congratulations are due to the more than competent editor and his more than competent collaborators.

MARTIN W. SAMPSON

### Books and Magazine Articles

"American Fruits, Their Propagation, Cultivation, Harvesting, and Distribution" by Samuel Fraser, M. S. '05, formerly assistant agronomist at Cornell, has just been published by the Orange Judd Company, Inc., of New York. It is noticed in the November issue of *Extension Service News*.

A "Sketch of the Life of John Henry Comstock, Professor Emeritus of Entomology in Cornell University" by Professor Emeritus Simon Henry Gage '77 has just been reprinted from the Boy Scout booklet on "Insect Life" by Professors J. Chester Bradley '05 and E. Lawrence Palmer '11.

The *Journal* of the Worcester Polytechnic Institute for December includes portraits of Professor Harold B. Smith '91, of the Institute, and President Charles R. Richards, M. M. E. '96 of Lehigh, who represented Cornell and Lehigh respectively at the inauguration of Captain Ralph Earle as president of the Institute on October 22.

The fifth edition of "Economic Geology" by Professor Heinrich Ries has been published by the John Wiley Company of New York.

In *The Cornell Law Quarterly* for December the opening article is the address on "Dangers in Disregarding Fundamental Conceptions When Amending the Federal Constitution" delivered by Chief Justice Robert von Moschzisker before the Law School on May 25 on the Frank Irvine Foundation. There are 75 pages of Notes and Comment on specific cases. Professor Frederick C. Woodward '94 reviews "Commentaries on Conditional Sales at Common Law, under Various State Statutes and under the Uniform Conditional Sales Act" by Dean George G. Bogert '06 and the fourth edition of "Selected Cases on the Law of Contracts" by the late Dean

Ernest W. Huffcut '84 and Professor Edwin H. Woodruff '88. Alexander Pirnie '24 reviews "The Professional Ideals of the Lawyer" by Henry W. Jessup.

The current issue of *The Cornell Graphic* includes portraits of Howard B. Ortner '17, basketball coach, Professor James K. Wilson, who has captured the Faculty tennis championship for the eleventh consecutive time, Parley P. Christianson '97, of Salt Lake City and Chicago, Eric Dudley, director of the Glee Club, Bjorn R. Edstrom '26, president of the Musical Clubs, George L. Coleman '95, director of the Orchestra, and Professor Oliver L. McCaskill of the Law School.

In *The New York Times* Book Review for December 20 there is a review of "The Autobiography of an Attitude" by George Jean Nathan '04.

JANUARY DUSK

Photo by Troy

A sleety rain is falling, heavy snow weighs down the trees and bushes, and the thought of approaching examinations, it may be feared, weighs down as heavily on the spirits of the woman students as they plod down the Prudence Risley walk at the end of a day of January thaw. Such weather has luckily been rarer than usual in Ithaca this winter, and only a few hundred feet away from this scene has been a cheerier sight—Beebe Lake brightly lighted and crowded with happy skaters.

Published for the Alumni of Cornell University by the Cornell Alumni News Publishing Company, Incorporated.

Published weekly during the college year and monthly in July and August; forty issues annually. Issue No. 1 is published the last Thursday of September. Weekly publication [numbered consecutively] ends the last week in June. Issue No. 40 is published in August and is followed by an index of the entire volume, which will be mailed on request.

Subscription price \$4.00 a year, payable in advance. Foreign postage 40 cents a year extra. Single copies twelve cents each.

Should a subscriber desire to discontinue his subscription a notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts and orders should be made payable to Cornell Alumni News.

Correspondence should be addressed—

### "THE OLD GREY MARE"

THE honors that have come to Dean Kimball and former Director Bailey cannot but give material for thought to those who occasionally give utterance to their belief that Cornell does not command the recognition that once was hers.

It is true that the Faculty loses, from time to time, great men or men who subsequently become great. It is a hopeful sign that an event of this sort produces almost the depression of a series of losses on athletic contests. All the while, however, the younger and newer men are moving right along. The fresh-laid instructor of the Spanish-American War period may become the leading expert in his field in twenty years. The alumnus, detached from his university, does not always comprehend the possibility of this development, and regards the conditions at the time of his graduation as static.

The recognition by any professional association of leadership by the election as president is by no means an empty honor. Whether the association is a broad one such as engineering or science in general, or a more restricted one having to do with a single subject, the election always signifies a preeminence in the subject or group and a personality that compels recognition.

There are few national associations of

scholars and scientists that have not recognized in this manner, in greater frequency than provided in the laws of chance, the Cornellians who are their members.

We may well be proud, then, of these honors, as we are of the men who receive them. While, in themselves, honors do not constitute greatness, they are a positive indication of the capabilities which lead to the selection of these men as leaders.

## COMING EVENTS

### Monday, January 25

Term examinations begin, 8 a. m.  
Hockey, Boston University at Ithaca.

### Thursday, January 28

Lecture, Professor Dallas L. Sharp of Boston University: "The Spirit of the Hive."

### Friday, January 29

Dinner, Cornell Club of New England, Hotel Vendome, Boston, Massachusetts, 6.30 p. m.

### Saturday, January 30

Banquet, Cornell Club of Trenton, Trenton Country Club, Trenton, New Jersey, 6.45 p. m.

### Wednesday, February 3

Term examinations end, 6 p. m.

### Thursday, February 4

Midyear recess.  
Junior Week house parties and dances begin.

Two performances, The Masque, 2.30 and 7.30 p. m.

### Friday, February 5

Registration for second semester begins, 9 a. m.

Performance, Cornell Dramatic Club: "The Importance of Being Earnest" by Oscar Wilde, University Theater, 8.15 p. m.

Hockey, Williams at Ithaca.

Junior Promenade.

### Saturday, February 6

Registration for second semester ends, 1 p. m.

Performance, The Masque, 7.30 p. m.

Performance, Cornell Dramatic Club: "The Importance of Being Earnest" by Oscar Wilde, University Theater, 8.15 p. m.

Basketball, Pennsylvania at Ithaca.

Freshman basketball, Rochester East High at Ithaca.

Wrestling, Pennsylvania at Ithaca.

Meeting, Board of Trustees, Onondaga Hotel, Syracuse, 11 a. m.

THE WHITMAN chapter of Phi Delta Theta won the efficiency trophy cup which the Harvard Alumni Club of Phi Delta Theta has offered to the chapter rated highest in scholarship and in participation in all forms of collegiate activities. The chapter had a total of 354 points. It will keep the cup one year and if successful in winning it a second time may keep it permanently.

## CLUB ACTIVITIES

### Trenton

The sixth annual banquet of the Cornell Club of Trenton will be held at the Trenton Country Club on Saturday, January 30, at 6.45 p. m. Professor Durham will be the principal speaker. There will also be several stuntsters on the program. The banquet will be stag and strictly informal. The annual election of officers will be held at this time.

The club will welcome any and all Cornellians who may be in Trenton or vicinity on the 30th. Those who wish may meet at the Y. M. C. A., corner of South Clinton Avenue and East State Street, two blocks from the Pennsylvania Railroad station, not later than 6.15 p. m., and automobiles will be there to take them to the Country Club. The "Trenton Junction" trolley passes the club entrance. The club is trying to make this the greatest reunion of Cornell men ever held in Trenton.

### Western Pennsylvania

W. B. McKechnie, manager of the 1925 world's champion Pirate Baseball Team, was the speaker at the weekly luncheon, January 8, of the Cornell Club of Western Pennsylvania (Pittsburgh). Bill was the clearing house of many questions that were fired at him, and he discussed many of the popularly known high spots of the recent series and also brought to light some interesting and human points not so well known. The questions dealt with everything from the number of balls used to Rice's now famous catch. During the series alone the Pirates used ninety-six dozen baseballs; as to the catch, Bill believes that Rice did not make it. The Pirates look forward to another great year.

The luncheon was attended by about forty members.

### St. Louis

The Cornell Club of St. Louis at its annual meeting on December 21 elected the following officers for 1926: president, Harry R. McClain '02; vice-president, Herman Spoehrer '99; treasurer, William G. Christy '11; secretary, Charles M. Merrell '23.

### Niagara Falls

On December 30 a special luncheon was held for the purpose of meeting a number of undergraduates who were in town during the Christmas holidays.

A committee of which Richard Cary '08 is chairman, has been appointed to arrange for the annual midwinter dinner which will be held some time in February, when the club will listen to some representative of the University community concerning current Cornell affairs.

**OBITUARY**

**Charles E. Hunn**

Charles Edward Hunn, for 31 years a member of the University staff in the old Department of Horticulture and more recently in the Department of Floriculture, died at his home in Ithaca on January 4.

Mr. Hunn became associated with the University when Professor Liberty H. Bailey and Professor John Craig were active in the affairs of the College of Agriculture. He soon became recognized as an expert with plants and garden work and for many years was in charge of the green-houses.

Besides his wife, he is survived by three sons, Chester J. Hunn '08 of Washington, D. C., Franklin M. Hunn of Chicago, and Howard P. Hunn of Syracuse, and two daughters, Katherine S. Hunn and Anna E. Hunn '12 of Ithaca and a brother, Frederic W. Hunn, of Crowder, Okla.

**William D. Wilson '71**

Rev. Dr. William DeLancey Wilson died at his home in Syracuse, N. Y., on January 13, after a short illness which followed a long period of failing health.

He was born in Geneva, N. Y., on May 21, 1851, the son of Dr. and Mrs. William Dexter Wilson. His father was the first registrar at Cornell and for thirty-six years a professor at Cornell and Hobart. Dr. Wilson entered Cornell in 1868 and studied theology under his father. In 1871 he graduated with the degree of A. B. He was a member of Chi Psi.

In 1875 he was ordained to the priesthood; his first charge was at Guilford, N. Y. In 1888 he was called to the Church of St. John the Divine in Syracuse and six years later became rector of St. Mark's Church in the same city. He remained there until 1916, when failing health caused him to give up active work. Two years later, however, he founded St. Alban's in Syracuse and directed its affairs for two years. At the time of his death he was the oldest presbyter in the Episcopal Diocese of Central New York.

In 1876 he was married to the late Henrietta G. Harlow. They had two children, Mary H. Wilson and William D. Wilson, who survive him, with two sisters, Mrs. John Clarke of Utica, N. Y., and Mrs. W. D. Manrose of Nedrow, N. Y., and a brother, Rev. F. M. Wilson of Beaumont, Calif.

**William B. Hull '72**

Notices of the death of William Bird Hill, which appeared in our issues of December 24 and January 14, were intended to read William Bird Hull. The second notice, intended as a correction of the first, carried the same typographical error. Mr. Hull died on July 22, 1925.

**Theodore Pennock '82**

Theodore Pennock died at his farm home near West Chester, Pa., on Novem-

ber 8 of a complication of diseases.

He was a native of Pennsylvania and came to Cornell in 1878 as a student in the optional course, remaining one year. After leaving the University, he returned to Pennsylvania and took up farming near Kennett Square. There he became widely known as a baseball player and authority on bird life. From 1912 to 1914 he was a State senator. He was a member of numerous organizations and also an extensive traveler.

His wife died several years ago. He is survived by three children: Herbert Pennock, pitcher of the New York Yankees, George S. Pennock of Gastonia, N. C., and Mrs. Mary Walter of Kennett Square, Pennsylvania.

**J. Russell Shaw '91**

James Russell Shaw died on November 11, 1925, in Alberta, Canada.

He was born in Hamden, N. Y., the son of Mr. and Mrs. Edward Shaw. He entered Cornell in 1887 as a special student. After a year he left and for some years thereafter was engaged in farming in the vicinity of Hamden. A few years ago, he and his family moved to Canada. He is survived by his wife and three children, Donald, Howard, and Elizabeth Shaw.

**Henry M. Norris '93**

Henry McCoy Norris died at his home in Cincinnati on December 24 of heart disease.

Norris was born at Trenton, N. J., on Jan. 21, 1868, the son of John Hurd and Cora McCoy Bunnell Norris. He was first trained in Trenton schools and Lawrenceville. He entered Cornell in 1890 as a special student, becoming a member of Alpha Delta Phi, and remaining one year. After serving his apprenticeship with Bement, Niles & Co. and other machine tool firms, in 1897 he became connected with the Bickford Drill & Tool Company of Cincinnati and served in succession as superintendent, engineering and works manager, and secretary for the rest of his life. He wrote "Fifty-six Points of Vantage," "History of the Drilling Machine," and some fifty papers on technical subjects. He was the inventor of several mechanical devices, including the first speed-box used on a machine tool, designed the first high-speed lathe and high-speed high-power radial drill, and devised the formula for ascertaining the power required to drive drills in metals at various speeds and feeds. In the War he served as an efficiency engineer in the Ordnance Department at the Watertown Arsenal and also as a mechanical expert at large and member of the War Industries Board.

He was a member of the A. S. M. E., the Sons of the Revolution, the Society of Colonial Wars, the Loyal Legion, the New England Society, the Cornell Club of Cincinnati, and other organizations.

On November 24 he married Sarah Boyd Nixon, of Bridgeton, N. J., who, we believe, survives him.

**Ryburn Pinckard '05**

Word has just been received of the death of Ryburn Pinckard at Nortonville, Ky., on January 14, 1924.

He was born at Marietta, Ga., on September 7, 1881, and came to Cornell in 1901 as a student of mechanical engineering. After three years he left the University. He was a member of Kappa Sigma.

For a number of years he managed by-product mills for steel companies, conducted mining operations, and at one time had a lumber mill. His health failed, however, while he was manager of the by-products plant of the Woodward Iron Company in Birmingham, Ala., in 1920. He gave up this position to become manager of the Nortonville Coal Company, Nortonville, Ky. In 1921 his health failed again, and he went to Colorado for six months. He apparently recovered and on returning East, married Mrs. Corrine Verdery on December 25, 1921, at Woodward, Ky. They lived at Nortonville until his death.

**Charles H. Carroll, '15-16 Grad.**

Dr. Charles Hardy Carroll died on September 30, 1925, at Provo, Utah.

He was born on November 6, 1882, at Provo, and attended the University of Chicago, from which he received the degree of A. B. In 1915 he came to Cornell for a year of special graduate work in medicine and then went West. At the time of his death he was a practicing physician and medical director of Brigham Young University.

**Charles W. Yeakel, '23-24 Grad.**

Charles Wesley Yeakel was accidentally shot dead at Maracaibo, Venezuela, South America, on July 4 last.

He was born in Syracuse, N. Y., on May 1, 1900, and after graduating from the public schools and from Syracuse University in 1922 with the degree of A. B., he came to Cornell in 1923 as a graduate student. At the end of the year he left the University and went to South America.

FREDERICK R. COUDERT, senior member of the international law firm of Coudert Brothers, has accepted the invitation of Phi Delta Phi to deliver the annual lecture under the provisions of the Frank Irvine Foundation on May 1. The annual banquet of *The Cornell Law Quarterly*, at which Mr. Coudert will be a guest of honor, will be held on the same date.

THE DRAMATIC CLUB presented four one-act plays in the University Theater on January 15-16.

THE DONOR of Willard Straight Hall, Mrs. Leonard K. Elmhirst, has recently had a statue executed by Jo Davidson, the sculptor, called "The Doughboy." The statue is of an infantry soldier in field uniform, standing "at ease." It will be placed on a battlefield of France as a memorial to the American doughboy.

## CORNELL REUNIONS

The latest Cornell publication to make its debut is a four-page pamphlet called *Cornell Reunions* published by the Association of Class Secretaries. The pamphlet purports to express and promote the ideas of the Association, the chief business of which is to stage class reunions. No permanent editorial policy has been announced although it is probable that the paper will appear more or less sporadically from now until June. The masthead contains the following names, all officers of the *Association of Class Secretaries*: Robert E. Treman '09, president; James O. Winslow '11, vice-president; Foster M. Coffin '12, secretary; Clark S. Northup '93, treasurer.

The pamphlet contains four articles, two editorials, and a reunion score board showing the high lights of attendance at previous reunions since 1921, when careful tabulations were kept for the first time. The articles bear the captions, "Are You A Reunion General or Just A Guerilla Fighter?" "Class Secretaries Meet Saturday (January 16) in New York," "Class of 1916 Adopts Novel Plan," and "How the Class of 1909 Made Records."

## COLLEGE PUBLICITY

Eastern college men in Los Angeles met recently in the University Club in that city and appointed a committee to approach the newspapers with a view to getting more news printed about Eastern colleges. It is estimated that there are at least fifty thousand persons, including graduates with their families and friends, now living in Southern California who are interested in what is going on at the Eastern colleges and it is these people that the newspapers are asked to serve. Editors interviewed so far have pledged their cooperation and a dinner is being planned at which definite plans for collecting and distributing the news will be discussed.

The committee is composed of H. H. Armstrong of Princeton, R. E. Seiler of Yale, Charles Milham of Dartmouth, Morris R. Ebersole '00 Grad., of Cornell, V. A. Weiser of the University of Pennsylvania, and W. T. Pickering of Harvard.

GEORGE W. WICKERSHAM, member of the international committee appointed by the League of Nations to consider the possibility of codifying international law, is not averse to receiving suggestions from Cornell undergraduates. When Mr. Wickersham left recently for Geneva he carried with him a report on territorial waters prepared by Henry S. Fraser '26 of the Law School. Professor Charles K. Burdick, acting dean of the School, aided in the preparation of the paper. Mr. Wickersham was formerly attorney general of the United States.

## CORNELL AT THE A. A. A. S.

At the meeting of the A. A. A. S. held in Kansas City during the holiday vacation the following papers were read by Cornellians:

Mathematics. "The First Textbook of Arithmetic in America," Professor Louis C. Karpinski '01, of the University of Michigan; "The Real Zeros and Other Properties of a Certain Entire Function of Genus Unity," Professor Julia T. Colpitts '00, of Iowa State College;

Physics. "A Node at the Source," Professor George W. Stewart '01, University of Iowa.

Meteorology. "Upper Air Winds of Central and Eastern United States," Willis R. Gregg '03, U. S. Weather Bureau.

Chemistry. "The Effect of Mechanical Action on the Properties of Gluten in Flour," Professor Charles O. Swanson '22, Kansas State Agricultural College.

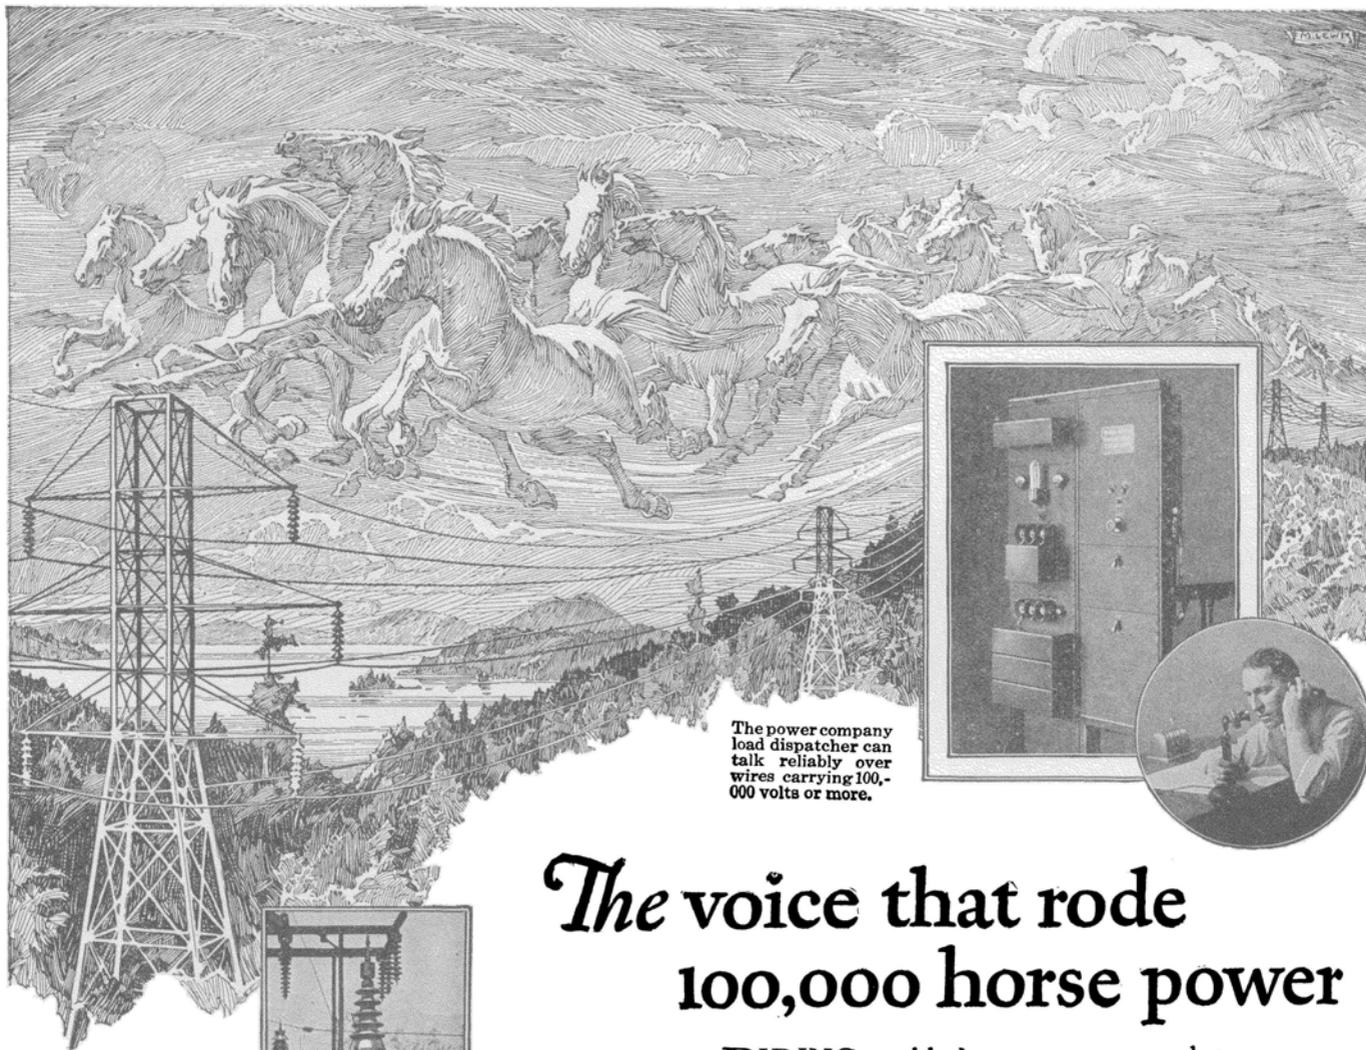

Zoology. "The Effect of Excisions on Amoeba," Lillian A. Phelps, Grad.; "Ecological Relationships of Organisms in Termite Nests in British Guiana," Professor Alfred Emerson '18, University of Pittsburgh; "Description and Identification of Some Chironomid Egg-Masses," Professor Hazel E. Branch '21, Fairmount College; "The Distribution of African Termites," Professor Alfred Emerson; "Nomenclatural Needs and Possibilities in Generic Names," Dr. Ephraim P. Felt '94, New York State Entomologist; "The Place of Parasitism in Insect Control," Dr. Leland O. Howard '77, U. S. Bureau of Entomology; "Cooperation or Isolation in Science," Dr. Vernon L. Kellogg, '91-2 Grad., National Research Council; Report of the Delegate to the Zuerich Conference, Dr. Leland O. Howard; "Regulation of the Movement of Fruit and Nursery Stock in Relation to the Distribution of the Oriental Fruit Moth, *Laspeyresia molesta*, Busck," Professor Thomas J. Headlee '06, and C. C. Hamilton, Rutgers College; "The Control of Mosaic of Red Raspberries from the Nursery Inspector's Standpoint," Professor Arthur G. Ruggles '01 and J. D. Winter, University of Minnesota; "Braula Coeca," Virgil N. Argo, Grad.; "The Cornell Beekeeping Library," Professor Everett F. Phillips; "Some Facts Relative to the Raspberry Root-Borer and Blackberry Crown-Borer, *Bembecia marginata*," Professor Thomas J. Headlee and Carl Ilg; "The Insecticidal Efficiency of Tobacco Dust," Professor Percival J. Parrott; "The Effect of Tree Tanglefoot on Hard Maple Trees," Professor Ruggles; "Recent Developments in the Field of Medical Entomology," Professor William A. Riley '03, University of Minnesota; "A Case of Darling's Histoplasmosis Originating in Minnesota," Professor Riley.

Botany. "Genetic Linkages Between Size and Color Facts in the Tomato," Professor Ernest W. Lindstrom '17, Iowa State College; "Studies on North American Sclerotinias," Professor Herbert H.

Whetzel '02-4 Grad.; "Conversations with European Uredinologists," Professor Joseph C. Arthur '86, Purdue, and F. D. Kern; "The Problem of Terminology in the Rusts," Professors Arthur and Kern; Report of the Committee on the Status of the Teaching of Taxonomic Botany in the Schools of North America, Professor Karl M. Wiegand '94, chairman of the Committee; "Further Experiments with X-Rayed Mice and Their Descendants," H. J. Bagg, Cornell Medical School, and others; "Reddish: a Frequently Mutating Character in *Drosophila virilis*," Dr. Milislav Demerec '23, Carnegie Institution; "Second Report on Dusting for Cereal Rusts," C. V. Kightlinger, Grad., and Professor Herbert H. Whetzel; "A Look Backward in Nature-Study," Professor Anna B. Comstock '85; "A Look Ahead: the Prospect for Nature Education," Professor E. Lawrence Palmer '11.

Agriculture. "A Problem in Professional Ethics," Professor Stevenson W. Fletcher '98, Pennsylvania State College; "Has Ringing Any Place in Commercial Orchard Practice?" Freeman S. Howlett '21, Wooster, Ohio; "Some Effects of Pruning on Concord Grape Vines," Professors William H. Chandler, University of California, and Arthur J. Heinicke '16; "Pollination Studies with McIntosh, Cortland and Baldwin Apples," Professor Lawrence H. McDaniels '17; "Studies in Training and Pruning Tomatoes," Professor Henry W. Schneck '14; "Types and Varieties of Celery," Professor Paul Work '13; "Physical and Chemical Changes in Celery During Storage," Laurence W. Corbett '24, Rhode Island State College, and Professor Homer C. Thompson; "Relation of Spur Growth to Blossom and Fruit Production in the Wagener Apple," J. L. Mecartney, Department of Pomology; "Growth and Fruitfulness in Some Varieties of Apples," Professor Maxwell J. Dorsey '10, University of Illinois, and H. W. Knowlton; "Some Studies on the Fruiting Habit of the York Imperial Apple," Professor Dorsey; "Some Results of Bending the Branches of Young Apple and Pear Trees," Professors Heinicke and McDaniels; "The Importance of Phosphorus in the Formation of Seeds and Pulp Portions of Tomatoes," John H. MacGillivray, '24-5 Grad.; "Some Important Research Problems in Vegetable Production and Handling," Professor Homer C. Thompson; "Soils and Cultural Investigations," Professor Earl V. Hardenburg '12; "The Value of the Certified Seed Test Plot in Certification," Professor Mortimer F. Barrus '12; "Comparison of Laboratory and Field Tests of Garden Peas," Mancel T. Munn, Geneva; "International Seed Testing Association: A Progress Report," Mancel T. Munn.

OTTHMAR K. MARTI, of the School of Electrical Engineering, spoke at the Binghamton High School on November 16 on "Welding."

The power company load dispatcher can talk reliably over wires carrying 100,000 volts or more.

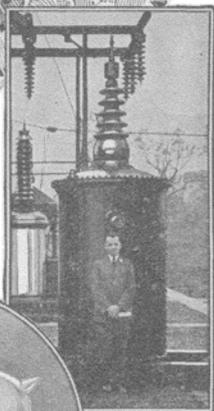

## The voice that rode 100,000 horse power

**R**IDING astride horse power enough to run an industrial city, came the voice over the wire, "Bad storm put Mill City line out of commission, tie in Springvale circuit."

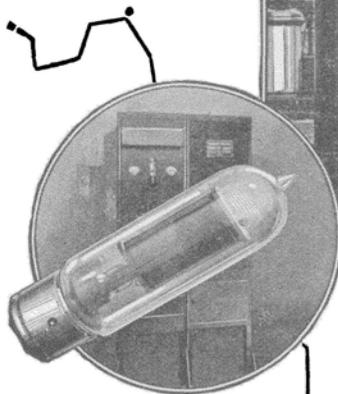

Now electric light and power company operators can telephone over their own power transmission lines carrying thousands of horse power. Yet they talk and signal with ease with a few thousandths of a horse-power by the use of the Western Electric Power Line Carrier Telephone Equipment.

It is the most satisfactory means yet devised for communicating between the stations of companies which cover a wide area and where commercial telephone facilities are not available. It is an important aid in emergency and it helps maintain service twenty-four hours a day.

Here is a worthy newcomer to the long list of products manufactured by the world's largest maker of telephones.

Not a giant chessman. This coupling condenser gives the voice currents safe conduct from telephone instruments to power line.

Amplifying vacuum tube. This is one of a number of vacuum tubes used in the transmitter circuits.

On a cross country power line any station can talk with any other — with Western Electric equipment.

# Western Electric

SINCE 1869 MAKERS OF ELECTRICAL EQUIPMENT

## ALUMNI NOTES

'89 BL—Associated Press dispatches from Albany, N. Y., during the past week declared that there were strong indications that Simon L. Adler of Rochester, N. Y., is in line to be named a Federal judge in the Western New York District, if Congress passes a measure which has been introduced, calling for the creation of a new district to facilitate the handling of the increasing federal cases. For the past ten or twelve years, Adler has been the majority leader in the New York State Assembly. When not in Albany, he is practicing law in Rochester.

'02 AB—Richardson Webster is editor of a new monthly magazine, *The Long Island Auto Courier*. His office is at the Long Island Automobile Club, 1263 Bedford Avenue, Brooklyn, N. Y. His home is at 129 Pierrepont Street.

'04 AB, '06 LLB—The law firm of Winne, Frey & McDougal in Jamaica, N. Y., in which Henry C. Frey '04 was a partner, was recently dissolved. Frey has since opened offices at 92-15 Union Hall Street, Jamaica, with James C. Van Sielen, former Supreme Court justice, and Michael Hertsoff. About April 1, when Frey gets back from looking over interests in Miami, Orlando, and St. Augustine, Fla., he expects to have an announcement about an office in New York.

'04 ME—Walter S. Finlay represented Cornell at the inauguration of Parke Rexfold Kolbe as president of the Polytechnic Institute of Brooklyn on January 13.

'05 MSA, '09 PhD—Arthur W. Gilbert, Commissioner of Agriculture in Massachusetts, has received and accepted an invitation to become a member of the committee of the League of Nations which is to meet next month in Geneva, to prepare a program for the International Economic

Conference to be held under the auspices of the League in the near future. He will sail for Europe as soon as he receives word of the date of the committee meeting.

'09 BS, '11 MS—Since October 1, 1923, Lee B. Cook has been proprietor of the Highland Dairy at Warren, Ohio. From 1909 to 1912 he was an instructor in the Dairy Department at Cornell and then spent eight years with the Department of Agriculture with headquarters in Washington. For a year he managed a dairy plant in Kane, Pa., and then for two years was located at Beaver, Pa. His address in Warren is 114 Highland Avenue.

'10 MD—James E. Baker is practicing medicine in Brooklyn, N. Y. His address is 1238 Fifty-sixth Street.

'10 AB—Announcement was made recently of the engagement of J. Ambrose Durkan, city editor of the *Watertown, N. Y. Standard*, to Miss Sophie LeFevre of that city. The date of their wedding has not yet been set.

'11 LLB—H. Morton Jones was elected commodore of the Buffalo, N. Y., Yacht Club at its annual meeting on January 9. He has been interested in aquatics for many years.

'12 BS—Anna Elizabeth Hunn is now president of the Blue Bowl Cafeteria, Inc., at 68 West Thirty-ninth Street, New York.

'12 CE—Frank M. Gurney is the city engineer of Oneonta, N. Y., and has his headquarters in the City Hall there.

'13, '14 AB—Hartwell L. Hall has been named assistant actuary of the Connecticut State Insurance Department. For the past eleven years he has been an actuary with the Travelers Insurance Company of Hartford.

'14 CE—Fay L. Rockwell is still located at Wellsville, N. Y., where he is engaged in manufacturing.

'14 BS—Dudley Alleman is general manager of the Roy Flynt Service, an ad-

vertising, printing, and engraving agency in Augusta, Me. He lives at 21 Chapel Street.

'15, '16 BS—Harvey McChesney is located at Jericho, N. Y., where he is manager of the estate of Judge Elbert H. Gary of the United States Steel Corporation.

'15 AB—Edward G. Williams is now with the Remington Typewriter Company at Ilion, N. Y. A second daughter, Betty Harman, was born to him and his wife on December 14. The first youngster, Marjorie Morehouse, was born in 1923.

'16 ME—William S. Stockton is still with the Willys-Overland Company in Toledo, Ohio, and is living there at 409 May Apartments, Fulton and Prescott Streets.

'17 BS—John C. C. Gardiner, manager of baseball in 1917, will be married in the Church of St. Matthew and St. Timothy in New York on January 30 to Miss Helen F. Luckett, daughter of Dr. and Mrs. William H. Luckett.

'19 MS; '20 BS—Holbrook Working and his wife, Helen Rider '20, are now living at 1739 Waverly Street, Palo Alto, Calif. They have a son, John Webster, born on July 9, 1925. Working is in the Food Research Institute at Leland Stanford University.

'19 CE; '19 AB—Mr. and Mrs. John C. Gebhard (Hazel Jean Hall '19) have announced the birth of a son, John Charles, Jr., on January 2. They are living in Seattle, Wash.

'19 BS—A son was born on January 9 to Mr. and Mrs. Robert W. Scollon (Helen G. Bool '19). They live in Barnesboro, Pennsylvania.

'20 BChem; '22—A daughter, Katherine Allen, was born on October 2, 1925, to Mr. and Mrs. Morton P. Woodward (Charlotte W. Allen '22). They live at 30 Central Terrace, Wyoming, Ohio, and he is a chemist with the Proctor & Gamble Company.

'20 AB—Edward S. Weil was married at Highland Park, Ill., on January 5, to Miss Margaret M. Rubens, daughter of Mr. and Mrs. Charles Rubens.

'21 AB, '24 MD—Dr. Curtis T. Prout is assistant physician at the Manhattan State Hospital on Ward's Island, New York.

'21 CE—Attorney and Mrs. Edward J. Boshart of Lowville, N. Y., have announced the engagement of their daughter, Antoinette, to Thad L. Collum '21, who is an architectural engineer in Syracuse, N. Y., with the firm of Noble & Collins. His address in Syracuse is 441 South Salina Street.

'21 AB—Announcement has been made of the marriage of Jerome T. Atkinson of Bay Shore, Long Island, to Miss Helen E. Wood, daughter of Mrs. J. Irving Wood of Carnegie Hall, New York, on Christmas night.

*Thoroughness*

*Efficiency*

### Cascadilla Day Preparatory School

Second semester opens Feb. 3rd

If you are in doubt about making your entrance to college next fall, why not write for information about our intensive program designed to meet difficult cases? It is not too late to make two or three years of a foreign language, or to earn five or six units before Sept. This is done by hard work, in small classes, with teachers of unusual ability and under conditions which are stimulating to the best effort.

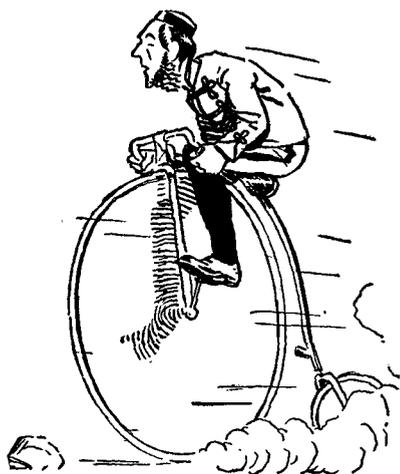

For further information address

C. M. Doyle '02, Headmaster

Ithaca

New York

**Better Days  
Have Dawned**

*Here, with his weepers all uncropped,  
Gay Gumbert takes a ride;  
How could the rash young blade be  
stopped  
From fatal tipping if he dropped  
A hair from either side?*

A glance at the speed demon depicted above brings us instantly to an understanding of the progress that has been made during the past forty years.

Instead of the high bicycle, we have the serviceable motor car, and men, almost without exception, have clean faces, because Colgate lather has taken the old difficulties out of shaving.

**COLGATE'S  
Rapid-Shave Cream**

softens the beard at the base, where the razor's work is done. It makes shaving easy, and leaves the face soothed and velvety.

You cannot know what shaving comfort is until you lather with Colgate's. Get a tube of this wonderful cream today, and have the benefit of the big change it makes for the better.

A clean shave daily has become a business as well as a social requirement.

Our style memo. book sent free on request

'21 BS—Ralph P. Thompson is engaged in citrus culture and real estate work at Winter Haven, Fla. He and his wife have a daughter, Agnes Jean, born on October 18, 1925. Their address is P. O. Box 818.

'22 DVM—On February 1, John F. Bullard will give up his position as an instructor at Kansas State Agricultural College to do research work at the agricultural experiment station at the University of Kentucky, Lexington, Ky. His engagement to Miss Pearle Ruby of Des Moines, Iowa, has been announced. Miss Ruby is a graduate of Drake and Chicago Universities and is now teaching home economics at Kansas State.

'22 BS—Donald E. (Tex) Marshall and his wife have a daughter, Jean Wilson, born on November 12 last at Canea, Crete, Greece. Marshall and a partner are the authorized Ford dealers in Crete and are also engaged in installing farm and electrical equipment. His letter, dated December 16, stated that the indications were that they would have a hot and sunny Christmas with the thermometer at about 90 in the shade. They expect to return to the United States in the spring.

'22 CE—Harold J. Dudley, who has been with the Koppers Company for two years and a half as construction engineer on jobs at Lackawanna, N. Y., Chicago and Birmingham, Ala., has resigned to take a position with the Tennessee Coal, Iron & Railroad Company. He will be second in authority on a construction job in Birmingham and expects to be there for at least two years more.

'22, '23 BS—Dorothy L. Aiken was married on September 5, 1925 to Donald R. Black of Livonia, N. Y., where they have a grain and dairy farm. Until April 1 their address will be Geneseo, N. Y.

'23 AB—Lillian J. Roberts was married at Sharon Springs, N. Y., on August 24, 1925, to Clarence W. Ford of Hempstead, N. Y. She is teaching mathematics in the Farmingdale High School and living at 90 Lent Avenue, Hempstead.

'23 EE—William H. Horne, Jr., is assistant to the general superintendent of the Poughkeepsie district operating department of the Central Hudson Gas & Electric Company. He lives at 12 Conklin Street, Poughkeepsie, N. Y.

'23—Margaret A. Fish is a stenographer in the College of Home Economics and lives at 931 East State Street, Ithaca.

'22 AB, '23 AM; '23—DeElbert E. Keenan and Elizabeth Newton '23, who were married in Ithaca on February 5, 1923, are now living on the Snake Road, Ithaca. Keenan is an instructor in French in the University.

'23, '25 BArch—Word comes from Florida that "Eddie" Kaw is now located in Miami and selling Coral Gables properties for a real estate firm there. He resigned his position as athletic instructor at

Principia Academy in St. Louis, Mo., to become a realtor. That his prowess on the football field is still fresh in the minds of sport followers was shown recently when Heywood Broun, New York sport writer, referred to "Red" Grange as a "second Eddie Kaw."

'24 BS—Marion R. Roberts is teaching physiography in the High School at Cortland, N. Y.

'24 AB—Anna L. Hill was married on September 25, 1925, to Otto C. Loernz of that city. They are now traveling in Europe and on their return will reside at 512 Quincey Avenue, Scranton.

'24 AB—Rogers P. Churchill is continuing his studies at the University of Chicago and working for a Ph. D. degree in Russian history. He is studying Russian history and languages and is an assistant in a course in modern European history.

'25 ME; '25 ME—Ralph L. Dunckel and James T. Cole are working in the Mack Plant of the International Motor Company at Allentown, Pa. They live together at 204 South Thirteenth Street. Dunckel was recently elected president of the Mack Engineers' Club.

### NEW MAILING ADDRESSES

'73—Edwin Gillette, Floronton Hotel, St. Petersburg, Fla.

## Whitman's Candy and the Campus package

Most of our mail orders are for the Campus package of assorted chocolates. The assortment is special for college people and is sold only at college stores. If made by Whitman the quality is assured. Price \$1.25 per lb. and sold in one, two, three and five pound boxes.

### von Engeln—Concerning Cornell

The fact that several thousand copies of this book have been sold to date justifies our contention that it is of interest to all Cornellians. The book is well illustrated. At this time of the year the leather binding is in great demand.

### Cornell Songbook

Have you the Cornell songs with music? We should think that you would want them. If you attend a Cornell dinner or other gathering you can help if you know the songs. The songbook sells at \$1.75 postage paid.

## Books by Andrew D. White

The volume dealing most intimately with the University is his autobiography. The University was his life for many years. He was the first president. His "Warfare of Science with Theology" was written in connection with the criticisms of the University. The prices are:

- Autobiography, 2 vols. . . . . \$8.00
- Warfare of Science, 2 vols. . . . . 6.00
- Seven Great Statesmen. . . . . 4.00
