CORNELL ALUMNI NEWS

VOL. XXXI, No. 37

ITHACA, NEW YORK, JUNE 20, 1929

PRICE 12 CENTS

Reunions on Fine Plane—Several New Records

PRACTICALLY perfect conditions marked the 1929 reunions, to add pleasure to the gaiety of the crowd. Records were shattered moderately, leaving opportunity to future reunions to produce results without performing miracles. Apparently the records for total registration for the highest percentage of a class, for the largest registration for women of a single class, and for the largest number of meals served in the Drill Hall to guests of the University, all went down by narrow margins. Painstaking research during the coming week will verify these facts and the record of the various organization meetings will be available for the next week's issue of the ALUMNI NEWS, along with pictures of the various classes and the stories of the individual class reunions.

The total registration of 1781 apparently exceeds by seventeen the previous best made in 1925, when the Dix Group '09, '10, '11, and '12 ran up the numbers for a record that has held for four years.

Little research is required to award the palm to the Class of '69 for having the largest percentage of its living membership present. Both these men, John A. Rea and Charles F. Hendryx, the latter the reunion chairman and the former the membership as a whole, came early, had a big time, and were an important feature of the reunion. Incidentally, Mr. Rea probably was not far from taking the prize for coming the greatest distance, had there been such a prize. His residence is in Tacoma, Washington.

The record for the largest registration fell before the attack of the women of the Class of '27. With 112 members present, these women broke the record of 83 held by the women of the Class of '24 since its two-year reunion in 1926. This group in a snappy costume and presenting a very impressive appearance, curiously enough outnumbered the men reuners of their class by twenty although the men's group was a normally large class reunion. The combined registration of the men and women of '27 took the cup for this reunion with a total of 204, although failing by twenty to set a new record for an entire class.

Other minor records fell. The twenty-year women's record was broken by '09 and probably other partial records were threatened or fell. As these positions are taken by increasingly larger classes it is likely that no record can be remain unchallenged for any long period. Later reports will clear up matters of this sort.

The star performance of the week-end, however, went to the University's guests of all kinds at the Drill Hall on Saturday. Over 4,600 free lunches were served, so

that the alumni attendance of 1781 was apparently augmented by about three thousand other guests at this increasingly popular function. This total is exceeded only by the record of the Semi-Centennial dinner served to about forty-nine hundred guests in June, 1919.

The general arrangements of the period were not materially different from reunions of the past few years. The Drill Hall served as general headquarters, to assemble, register, and parade, as well as to feed the crowd at luncheons. The dormitories, Sage, Cascadilla, and various smaller residential halls served as quarters for dressing, bull sessions, and theoretically at least, for sleeping. The restaurants and cafeterias of the city and the University handled, apparently well, the banquets and class and group dinners. Various small meetings drew parts of the crowd from time to time, with the afternoons devoted to the ball games and preparations for the class dinners that followed.

Among the gradual changes coming over reunions the most apparent is the increasing use of Sunday for meetings of various organizations as well as for preparation for departure. More of the crowd stays over for more and more of Sunday each year. It is hoped that it may remain unorganized and casual as it is, with senior singing the last general function of a very pleasant day.

The climax of the reunion was, of course, the Saturday night rally under the auspices of the Class of '14 in Bailey Hall. This event, inaugurated by the Class of '99 at its fifteen-year reunion, began in the Star Theatre, downtown, but for many years has been held in Bailey Hall. It is reasonably dignified, usually interesting, and in recent years at least has never lasted long enough to be boring. The classes in

uniform, and many of the senior class in blazers, make a colorful, noisy picture that is always attractive. This year's rally would be listed well toward the top for sustained interest and absence of fatigue. Under the capable and by no means loquacious chairmanship of Tommy Boak '14, sometime intercollegiate wrestler who used to throw all who came, the events went rapidly down a short schedule of announcements, stunts, community singing, and the presidential address, to a snappy close.

Many light touches brightened the occasion as well as the individual class yells and parades. Jake Fassett '12, whose undergraduate repute as a comedian has been augmented by his professional achievements of the same sort, obliged with some specimens. Hibby Ayer '14 etc. did a stunt, and led the band and the singing. A '14 trio played three pianos. The Class of '12 showed its appreciation of the achievement and then of the women of the Class of '27 by a timely rendering of "Oh, You Beautiful Doll," while the men of '27 gave three short ones for "Women, Women, Women."

The rally went majestically, however, to an early and successful close under the adroit leadership of Chairman Boak, who saved the affair from torrents of anti-climactic oratory from a dozen probable volunteer speakers on as many subjects. As the "Evening Song" introduction was being played an inquirer from the floor asked if it would be appropriate there to discuss for a few moments a serious subject. The chairman, with Gettysburgian directness, replied, "I don't think it would." Synchronizing perfectly with the cadence, the chairman's remarks enabled the song to start without loss of beat and the crowd dispersed apparently with no particular sense of loss from lack of "the serious discussion."

Two Trustees Elected

Edwin N. Sanderson '87 Renamed to Board—James W. Parker '08 Also Named By Alumni

Edwin N. Sanderson '87 of New York and James W. Parker '08 of Detroit were elected Alumni Trustees in the annual election announced at the meeting of the Alumni Corporation on June 15.

The other candidates were Andrew J. Whinery '10 of East Orange, N. J., and Frank G. Gardner '91 of Highland Park, Ill.

Mr. Sanderson succeeds himself as Alumni Trustee. This year he completes his second term as member of the Board. For the last eight years he has been a member of the Trustees' Committee on Buildings and Grounds, and as such was closely identified with the construction of the Central Heating Plant, an engineering work costing \$700,000, which was accomplished with marked economy. It was largely through his efforts and influence that a considerable portion of the equipment installed at the new heating plant was either donated or furnished at a sub-

stantial reduction from the usual price. Sanderson is a member of the Engineering College Council, and has been a member of many special committees, appointed by the Board of Trustees, to consider questions involving engineering problems.

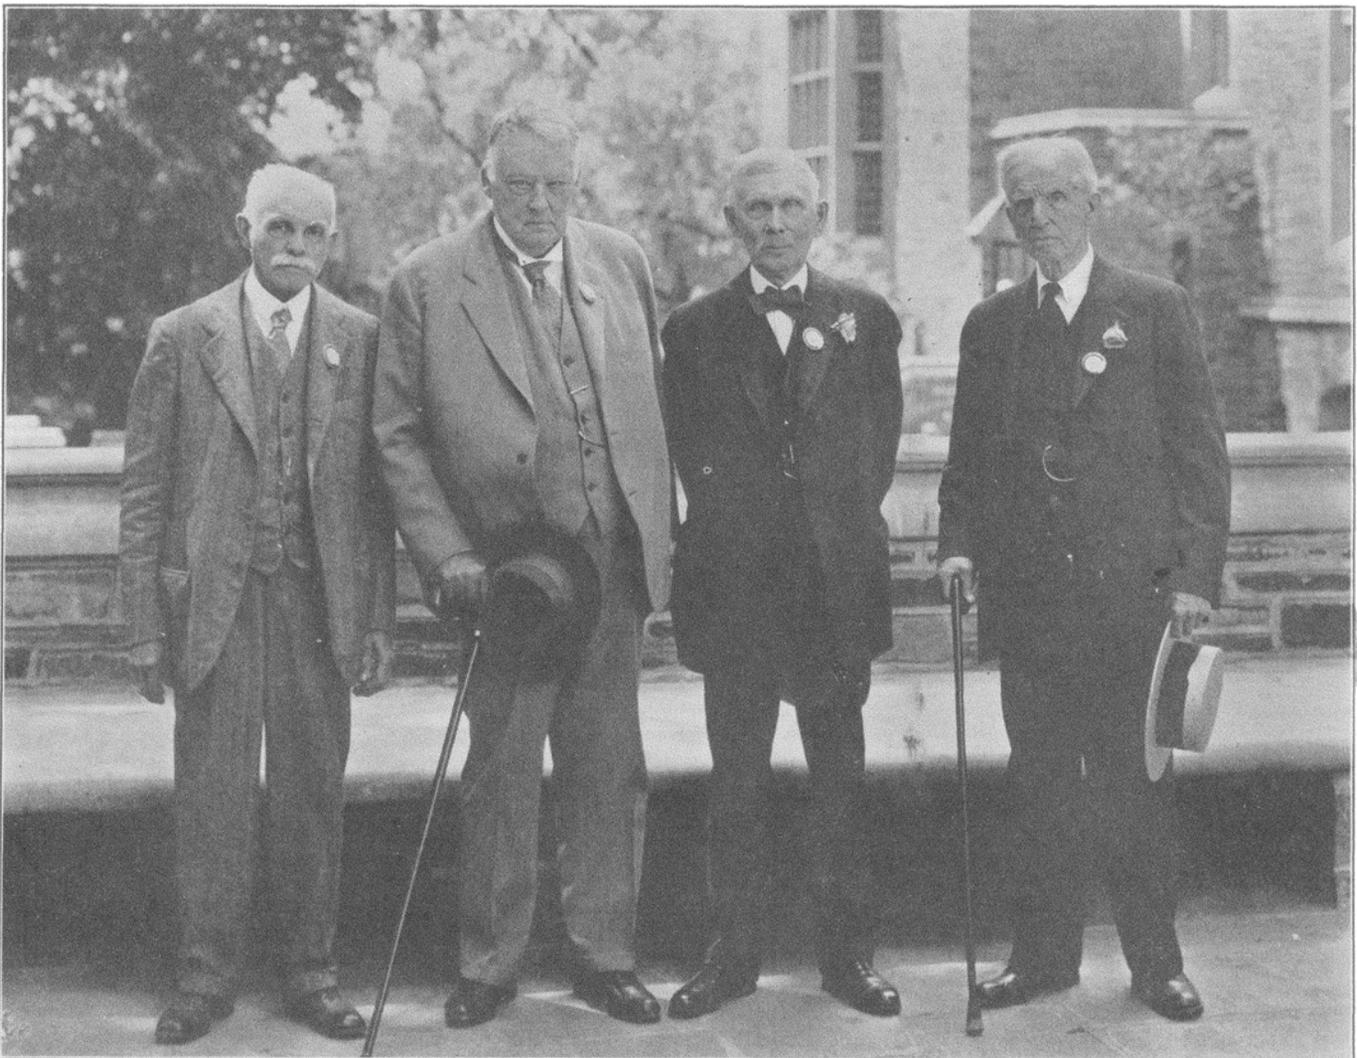

After completing a course in Civil Engineering in Rensselaer Polytechnic Institute, Sanderson entered Sibley College. He was a charter member of Sigma Xi. He played left field on the baseball team and was a member of Zeta Psi.

After graduation, Sanderson was associated with the Westinghouse Electric and Manufacturing Company for nine years, holding among other positions those of manager of the Boston office, and assistant to the general manager at the works at East Pittsburgh, Pa.

He left in 1896 to form the engineering partnership of Sanderson and Porter, of which he is still the senior partner. This firm has specialized in the design and construction of steam and hydro-electric power plants, inventory and valuation work, etc. During the recent war it built ten 3500-ton Ferris type ships for the Emergency Fleet Corporation. In 1910 Sanderson assisted in organizing the

Federal Light and Traction Company. He was elected president in 1914 and has held this position since that date. This company owns and operates more than twenty public service corporations in eight different States; most of these corporations are located west of the Mississippi River. Mr. Sanderson is president and director of each of these subsidiary corporations. He is a member of the American Society of Mechanical Engineers, the American Institute of Electrical Engineers, and the Rensselaer Society of Engineers.

Sanderson has been one of the most active of alumni. He was president of the Cornell Club of New York for five years from 1916 to 1921, the longest term this office has ever been held by one man. He was a prime mover in the organization of the College Men's Training Corps, calling upon the presidents of the other New York college clubs to unite with the Cornell Club in forming a body of over fifteen hundred college graduates, who, for three critical months before April 6, 1917, drilled under regular Army officers twice a week in a New York armory. When war was declared, the large majority of these men enlisted in the training camps.

From left to right: Royal Taft '71, Charles A. Storke '70, John A. Rea '69, and Charles F. Hendryx '69.

Photo by Troy Studio

As chairman of the special committee of the Associate Alumni for the Semi-Centennial Celebration in 1919, Sanderson was charged with the responsibility for the general alumni activities. More than five thousand alumni were then in Ithaca for the largest Cornell meeting ever held.

For three years Sanderson was a director of the Associate Alumni, of which he was president for the year 1919-20. He is a member of the Cornellian Council as representative of the Class of '87.

James W. Parker '08

James Wentworth Parker, chief engineer and assistant to the general manager of the Detroit Edison Company, was born in Auburn, N. Y., November 26, 1886, the son of Charles A. and Sara Cole Parker. Shortly after his birth the family moved to Louisville, Kentucky. Parker graduated from the Louisville High School in 1903. He then entered Sibley College, graduating with the degree of Mechanical Engineer. He is a member of Phi Gamma Delta, Sigma Xi, and Tau Beta Pi. In 1913 he married Dorothy Dow of Detroit. They have three children.

After graduation Parker was engaged as plant operating engineer with the DeKalb, Illinois Power and Light Company for a year. He then became chief plant engineer for the Vincennes Street Railway Company. In 1910 he moved to Detroit to take a position as boiler room engineer with the Detroit Edison Company. Since then he has advanced through many responsible positions to his present place as chief engineer and assistant to the general manager. In this capacity he has organized and managed the many large engineering projects of the company which include the design and construction of all steam electric power plants, central heating plants, electric substations, office buildings, and salesrooms. In addition to the construction work he is also responsible for the organization and management of the departments which generate and distribute the company's power. Naturally such work has brought him a large acquaintance among engineers and business men both here and abroad. His

personality and executive ability have won for him the admiration and loyalty of all those who know him.

Parker is a member of the Detroit Athletic Club, the Prismatic Club, the Barton Hills Club, the Detroit Engineering Society, and the American Society of Mechanical Engineers.

Since moving to Detroit he has taken an active interest in the affairs of Cornell and has been particularly interested in the local alumni club, serving as its president in 1927. He has also been active in civic affairs, giving freely of his time and engineering knowledge to help several of the City's departments with their plans and problems.

Mr. Sanderson succeeds himself, having been reelected for another term. Mr. Parker succeeds Roger H. Williams '89.

The four candidates finished in the following order: Sanderson, 6410; Parker, 3538; Frank G. Gardner '91, of Chicago, 3499; Andrew J. Whinery '10, of East Orange, N. J., 3374.

The total vote this year was 8,681. 184 ballots were thrown out as defective, leaving a net total of 8,497.

Newton C. Farr '09, of Chicago, as chairman of the committee on elections made the report at the annual meeting of the Cornell Alumni Corporation on June 15. The other members of the committee were Harrington Place '94, of Detroit, and Charles M. Chuckrow '11, of New York.

CLASS SECRETARIES MEET

At the annual meeting of the Cornell Association of Class Secretaries the four officers were re-elected for another term: Weyland Pfeiffer '16, president; George H. Young '00, vice-president; Mrs. R. Warren Sailor (Queenie Horton) '09, treasurer; Foster M. Coffin '12, secretary. The new members of the executive committee are Charles D. Bostwick '92, Mrs. Leonard C. Urquhart (Jane McKelway) '13, and Arthur B. Treman '23.

The Association passed resolutions on the death of Judge James O'Neill '71, secretary of his class, and Mr. Pfeiffer as president appointed Royal Taft '71, of

Scranton, Pennsylvania, as secretary until such a time as the class shall hold its next meeting.

TABLET TO ENGINEER

A bronze tablet to the memory of James C. Nagle, M.C.E. '83, former dean of the School of Engineering of the A. and M. College of Texas, was unveiled on June 2 at the fifty-third commencement exercises of the Texas institution. The tablet has been mounted on the front wall of the Civil Engineering Building.

CANCER CONTROL CLINIC

A program of cancer control was outlined by Dr. James Ewing, professor of pathology in the Medical College in New York since 1899, at a meeting of health officers in Washington, D. C., on June 3. Clinics, located in the larger cities throughout the country and equipped withadium treatment apparatus, a staff of surgeons, and others scientific experts, are considered by Dr. Ewing the chief factor in the program. Cancer institutions are the only hope of controlling the disease.

ANDREW J. WHINERY '10

Medical Degrees Granted

Cornell College in New York Gives Sixty-three Diplomas—Prizes Awarded

The Medical College in New York awarded the degree of M.D. to sixty-three graduates, including ten women, at exercises last week. President Farrand administered the oath of Hippocrates and conferred the degrees.

Prizes were awarded by Dr. G. Canby Robinson, '03-5 Grad., as follows:

The John Metcalf Polk Memorial Prizes for students having the highest standing: William M. Hitzig, Astoria, Estelle E. Kleiber, Hoboken, N. J., and Albert H. Douglas, New York.

The Whiting Prize for efficiency in otology: Bernard Fread, New York, and Virginia C. Hamilton, Lexington, Ky.

The William Polk Memorial Prizes in gynecology: Louis Schneider, Rochester, Dominic A. De Santo, Elizabeth, N. J., and Bernard Fread.

The Gustav Seeligman Prizes in obstetrics: Jack S. Goltman, Memphis, Tenn., and Sol L. Samuels, Brooklyn.

The Alfred Mortiz Michaelis Prize for efficiency in general medicine: Estelle E. Kleiber, Herman Tannenbaum, New York, and John Noll, Jr., Youngstown, Ohio.

The Kennedy Prize for efficiency in neurology: William M. Hitzig.

The honor roll listed the names of Hitzig, Miss Kleiber, Douglas, Tannenbaum, Fread, and Grant Guillemont, Niagara Falls.

The Manuel of Surgical Anatomy was awarded Louis R. Haas, Palisade, N. J., the student attaining the highest military standing in the Reserve Officer's Training Corps.

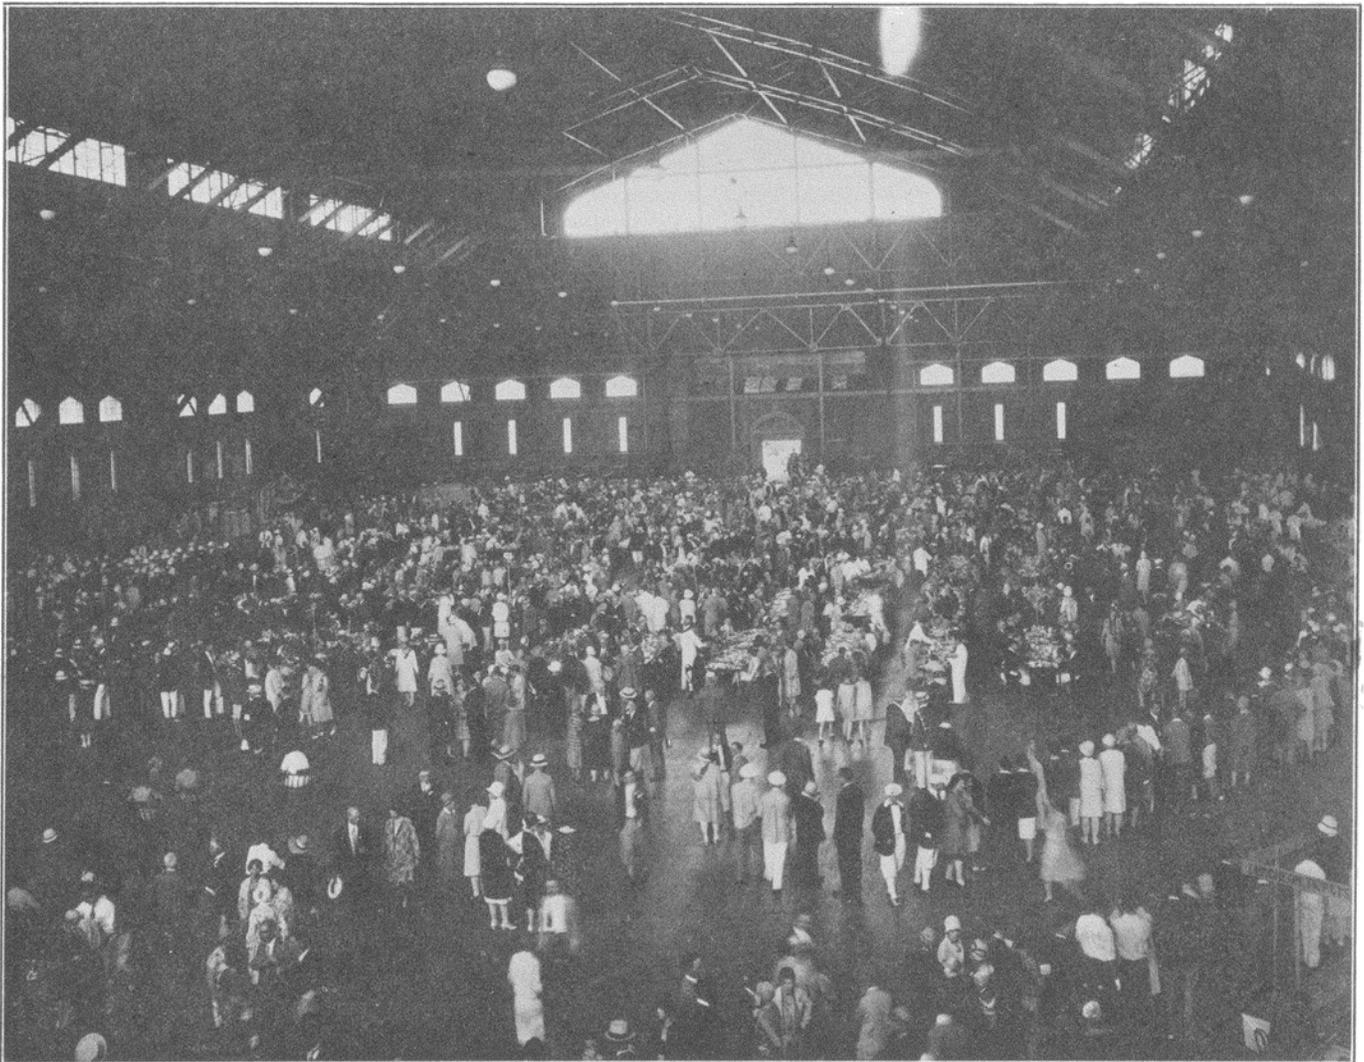

Dr. Lewis H. Weed, dean of the Johns Hopkins School of Medicine, gave the address. He told of the new curriculum adopted at Johns Hopkins which stresses the development of an inquiring mind in the student, the realization of the function of the teacher as a "piloting agency," and the avoidance of too many subjects along with the teaching of the fundamentals at the highest possible level.

He urged the graduate to devote himself largely to that phase of medicine which is to become his life work. Regarding students' projects in college, he said that

the important factor "is not the contribution which the students may or may not make but the method of thought which he is forced to use in his attack on the problem." The primary object of such a study is to develop in the student an attitude of mind which will cause him to look upon every case he meets with in his practice as a scientific problem.

In *The Cornell Countryman* for June Frank L. Sabora '29 writes on "Fruit and Vegetable." Professor Elmer S. Savage, M.S. '09, Ph.D. '11, describes "The Protein Feeding Experiment at Cornell." Professor Harold E. Botsford '18 discusses "Problems in Poultry Housing." Professor Joseph P. Porter '17, M.L.D. '19, writes on "Landscaping."

In *The Journal of Physical Chemistry* for June Newton C. Jones, Grad., writes on "The Anode Reactions of Fluorine." Maurice J. Murray, Grad., writes on "Osmotic Pressures of Acetone Solutions." Professor Bancroft reviews "Ice Engineering" by Howard T. Barnes. Dr. Herbert L. Davis '27 reviews the third edition of "The Determination of Hydrogen Ions" by William Mansfield Clark.

THE REUNION CROWD AT THE DRILL HALL

Dean Moore Honored

Faculty of Veterinary College Note His Retirement in Resolution Praising Accomplishments

Dean Veranus A. Moore '87 of the College of Veterinary Medicine concludes this year a teaching career of thirty-three years at Cornell. He was a member of the first veterinary Faculty as professor of veterinary pathology and bacteriology in 1896, and in 1908 became dean of the college.

In connection with his retirement, the Faculty of the College voted the following resolution:

"Whereas, the age of retirement from the active duties of administration and instruction has been reached by Veranus A. Moore; and

Whereas, his faithful and exemplary service as head of the Department of Pathology and Bacteriology for twelve years, and his conscientious and effective service in the high office of dean of the State Veterinary College for twenty one years, has resulted in the development of an institution second to none in research and instruction in veterinary subjects and has assisted materially in placing the veterinary profession on a plane with other learned professions; and

Whereas, his devotion to the insistence on high ideals have been a potent factor in strengthening the College and uplifting the profession; and

Whereas, his modest and unselfish personal attributes have endeared him to his colleagues, to the alumni and students, and to the profession at large;

Be it resolved, that we, his colleagues in the Faculty, assure him of our appreciation of the invaluable service he has rendered in the fields of veterinary education, animal industry, and public health, and that his indefatigable energy and sound judgment have brought honor and prestige to the college—thereby reflecting credit upon his associates; and

Be it further resolved, that while we regret his retirement from the official duties of the College, we trust his wise counsel and advice may still be available in the years to come. We further express the hope that his future may be peaceful and serene and he may feel that the burdens he has borne are compensated for, in part, by the respect and admiration of his friends. We are grateful for the example of his life, his career of usefulness and unselfishness, and assure him that, in our opinion, the world is better for his having lived in it."

After graduation from Cornell, Moore received his M.D. degree from Columbian (now George Washington) University in 1890. During 1895-6 he was chief of the Division of Animal Pathology.

He received the degree of D.V.M. from the University of Pennsylvania in 1911 and the degree of D.Sc. from Syracuse in 1919.

Gift for Science Center

General Education Board Gives \$1,500,000 for Proposed Graduate School of Research—Complete Project Will Require \$9,000,000

A graduate center of scientific research in the border fields between the biological and physical sciences will become a reality if funds for the project, one of the greatest in the history of the University, can be raised.

The first step has already been taken. A gift of \$1,500,000 has been made by the General Education Board, conditioned upon the raising by the University of an additional \$1,500,000 by June 30, 1930. The entire project will require approximately \$9,000,000 for its completion, and it is planned to raise the fund in three capital amounts of \$3,000,000.

About \$1,000,000 will be employed in the construction of a building to be used solely for graduate instruction and research. The remainder will be used for the endowment of the teaching staff and equipment.

It was the opinion of the experts who made the survey resulting in the action of the General Education Board that the development of modern science required the establishment of divisions covering border fields of inquiry and that Cornell, because of the general strength of its departments of biological and contributing sciences, presented an excellent opportunity for this development.

In making the announcement President Farrand said that the formulation of the plan was based primarily on the outstanding contributions of the College of Agriculture to biological science. "The general field which is to be studied, the middle ground between the physical and biological sciences, is one of the most inviting areas open to investigation. While both groups of scientists have been making additions to knowledge of great significance in their respective sciences, they have been coming face to face with problems which demand close collaboration.

"The study of the physical sciences has been comparatively independent of the help of the biologist, but biological research is more and more leading into regions where further investigation becomes a problem for the physical scientist.

"Thus far there has been too little organized effort on the part of those working in either of these two great fields to collaborate in applying the methods of the physical sciences to the study of biological phenomena, and, what is more important, in applying physical principles to the interpretation of those phenomena.

"On one hand, the biologist has found his time so occupied with his own researches that he has had little opportunity to study and assimilate the essentials of the underlying sciences of chemistry, physics and mathematics that are appli-

cable to his problems. On the other hand the student of physical sciences, especially during the last two decades, has found his own problems of atomic structure and the nature of matter so absorbingly interesting that he has given little thought to his obligation to collaborate with the biologist in studying those problems which are of obvious interest to both groups.

"Our plan involves the strengthening of our provisions for the basic sciences of physics, of chemistry, and of biology in its various phases, with the particular purpose of coordinating and concentrating the attack on the border fields between the sciences. It is proposed to crown this coordinating development by creating a center for research in general physiology which shall embrace and emphasize the fields of biophysics and biochemistry and the varied aspects of the problem of organic function.

"This constitutes one of the most important opportunities in the history of Cornell and should engage the enthusiastic support of its friends in bringing the plan to successful operation."

JUDGE O'NEILL DIES

James O'Neill, one of Cornell's best known alumni and since 1925 secretary of the Class of 1871, died at his home in Neillsville, Wis., on June 10, of heart disease.

He was born in Lisbon, St. Lawrence Co., N. Y., on September 3, 1847, the son of Andrew and Mary Holiston O'Neill. After three years at St. Lawrence University, he entered Cornell as a sophomore at its opening in 1868 and received the degree A.B. in 1871. Judge O'Neill was a charter member of Delta Upsilon at Cornell, editor of *The Era* in his junior year, and master of the chimes during the three years.

In 1873 Judge O'Neill received the degree of LL.B. from the Albany Law School and moved to Neillsville, Wis., where he practiced law for twenty-four years. He was elected judge of the Seventeenth Judicial Circuit Court of Wisconsin in 1897, and served continuously until 1922. During this period he presided in fifty counties in the state.

On the death of Robert G. H. Speed in 1925, Judge O'Neill became secretary of his class. Since 1901 he had returned for each regular reunion of his class. He had been compiling a history of the class, which is soon to be published.

His wife, Mrs. Marian Robinson O'Neill and a daughter Mrs. Marian O'Neill Calway, survive him.

Published for the Alumni Corporation of Cornell University by the Cornell Alumni News Publishing Corporation.

Published weekly during the college year and monthly in July and August; forty issues annually. Issue No. 1 is published the last Thursday of September. Weekly publication, numbered consecutively, ends the last week in June. Issue No. 40 is published in August and is followed by an index of the entire volume, which will be mailed on request.

Subscription price \$4.00 a year, payable in advance. Foreign postage 40 cents a year extra. Single copies twelve cents each.

Should a subscriber desire to discontinue his subscription, a notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts and orders should be made payable to Cornell Alumni News. Cash at risk of sender.

Correspondence should be addressed—

THESE SATURNALIA OF OURS

A CERTAIN Mr. Van de Water, writing for *Harper's* on "The Saturnalia of College Reunions," gives vent to a lot of rather terrific objections to going to his fifteen-year reunion. He does not tell which of his *Almae Matres* gives him the pain he describes. Both are large metropolitan universities, according to his biography. The notions disclosed which prevent him from hopping a subway to go a mile or two to the reunion are grotesque to the offspring of a university in a small town up-state.

Coming at a time when many alumni are casting about for an excuse to get away a couple of days and many others are searching for an alibi for not doing it, the article was well timed and should provoke earnest discussion. In fact, it has done so.

The obvious thing for a person who does not like reunions is to put the committee's appeals in the trash basket. It is rather more unusual to write about them. Many magazines pay well for a snappy article pointing out the weakness of any existing recognized activity, particularly in colleges. It is not necessary for the author to know his stuff. It is not necessary that his fundamental facts be characteristic, nor more than a quarter true.

Mr. Van de Water follows this prescription accurately. We doubt if a majority of his classmates at the ten-year reunion he describes were tight. We wonder if he ever made any effort to get a classmate or two whom he likes and respects to go with him to a reunion. There are pure passengers in every class. Mr. Van de Water was undoubtedly a passenger.

He even insists that he met his entire obligation when he paid his tuition. Tuition in those days was about twenty per cent of the cost of education. It still is. One should not write about details in an educational system until he has mastered the fundamentals.

Seventeen hundred alumni return each year to Cornell. They do the same elsewhere. Not nearly all of them are drunkards. The fraternity houses see less than one per cent of them until the reunion is over. Nine thousand Cornellians contribute \$150,000 a year to liquidate, in part, the debt they owe to the University. Quite a few of them live long enough to get much of it paid back. Many leave the balance in their wills.

Mr. Van de Water missed most of the picture of reunions, but he certainly saw the places where the frame was chipped and the gilt was tarnished.

FLYING PHOTOGRAPHER BUSY

Alan H. Mogensen '23, instructor in engineering at the University of Rochester, was a busy man during reunions. He spent the greater part of last Saturday flying back and forth across New York State in the role of photographer.

Mogensen on Friday took motion pictures of nearly all reunion and senior week events. He filmed special pictures of the classes of '96, '04, '11, '13, and '14, and flash pictures of senior singing. The films were sent to Rochester Friday night for development. Shortly after noon Saturday, Mogensen boarded an airplane at the Ithaca Municipal Airport, flew over Hoy Field to take pictures of the Cornell-Syracuse baseball game, and then flew to LeRoy, where he filmed a wedding.

From LeRoy he went to Rochester, picked up the developed films, and returned to Ithaca with them to exhibit the films at the evening reunion program. On Monday Mogensen returned to make pictures of the commencement program, with individual shots of each senior in the parade, and various campus scenes.

FROM STATISTICS compiled by Edward A. Henry of the University of Cincinnati it appears that in the list of libraries in the order of expenditure per capita per year Cornell is eighteenth with an expenditure of \$22.40. Rochester is apparently first with \$75.80 but is really sixth with \$52.20 (adjusted), Princeton is next with \$69, and Nebraska is thirty-fifth with \$7.30. The average for fourteen New England colleges in 1926 was \$23.69.

ATHLETICS

Varsity Letters Granted

Fifty-nine varsity letters in track, lacrosse, fencing, and tennis were awarded at the last meeting of the Athletic Council. The elections of five captains were ratified, nine managers and three assistant managers were named, and other insignia and freshman numerals were granted.

The captains ratified were Charles E. Treman, Jr., '30, Ithaca, track; Robert W. Lewis '30, Suffern, basketball; Samuel G. Tieman '30, Brooklyn, lacrosse; Benjamin H. Detwiler '30, Washington, D. C., tennis; and Irving E. Cantor '30, Jersey City, N. J., fencing.

Managers elected were Raymond P. Sharood '30, St. Paul, Minn., crew; Charles E. Cleminshaw '30, Cleveland, Ohio, track; Lewis H. Durland '30, Watkins Glen, baseball; Roland W. Brown '31, Brooklyn, lacrosse; Elkins H. Hale '30, Washington, D. C., tennis; Frazer W. Rodman '30, Flushing, freshman crew; William H. Harder '30, Buffalo, freshman track; Fred Muller, Jr., '30, Douglaston, freshman baseball; James A. Morrison '30, Indianapolis, Ind., freshman lacrosse.

Assistant managers named were James R. Knipe '31, Merion, Pa., lacrosse; Lester C. Dade '31, Gloversville, tennis; and William Shepard '31, Berlin, Conn., lacrosse.

Varsity letter awards:

TRACK

John F. Anderson '29, Glendale, Ohio; Charles E. Baker '29, Aberdeen, Md.; Orson C. Beaman '29, White Plains; Horace K. Benson '29, Esperance; Frank K. Beyer '29, Buffalo; George F. Bryon '30, Brooklyn; George H. Clark '31, Princeton, Ill.; Everett L. Colyer '31, Huntington; Edwin A. Courtney '31, Lake Charles, La.; Harry W. Crawford '29, Verona, N. J.; Allen B. Dickinson '30, Brooklyn; Frederick G. Dulaff '30, Brooklyn; Robert A. Dyer '29, Berne; S. Lewis Elmer, Jr., '31, Brooklyn; William B. Firman '29, Glen Ridge, N. J.; Walter C. Heasley '30, Warren, Pa.; George E. Heekin '30, Cincinnati, Ohio; Victor K. Hendricks '32, Oak Park, Ill.; Alfred W. Hoppenstedt '31, Buffalo; Samuel R. Levering '30, The Hollow, Va.; Lawrence H. Levy '30, St. Louis, Mo.; Carl H. Meinig '31, Wyomissing, Pa.; Harold A. Sherwood '30, Chicago, Ill.; Sherman B. Shults '29, Hornell; Edward M. Tourtelot, Jr., '29, Palos Park, Ill.; Charles E. Treman, Jr., '30, Ithaca; Frank J. Weis '30, Wilkes Barre, Pa.; John A. Wickham '30, Cutchogue; Robley C. Williams '31, Placerville, Calif.; Warren L. Worden '29, Enid, Okla.; William N. Young '29, Portland, Ore.; Roswell G. Eldridge '30, Lexington, Mass.

LACROSSE

Joseph S. Gowdy '29, Denver, Colo.; Samuel G. Tieman '30, Brooklyn; John B. Tuck, Jr., '29, Syracuse; Frederick Abel '30, Brooklyn; Stephen W. Allio, Jr., '29, New York; Harold Greenberg '29, Bay Shore; Dudley N. Schoales '29, Cleveland, Ohio; Walter A. Hunt '29, River Forest, Ill.; Howard M. Taylor, Jr., '29, Baltimore Md.; Daniel H. Callahan '29, Chicago, Ill.; Phillips K. Champion '30, Philadel-

phia, Pa.; Harold V. Moon '30, Brooklyn; Fred C. Fay '30, Brooklyn; Kenneth B. Trousell '30, Glen Cove; Clayton E. Larson '30, Glastonbury, Conn.; William G. Holbrook '30, Rushville; Glendon T. Gerlach '29, Chicago, Ill.

FENCING

Patsy P. Pirone '29, Mount Vernon; Javier Larco '29, Trujillo, Peru; Herman M. Seldin '29, Jamaica; Marvin L. Smith '29, Albany; Irving E. Cantor '30, Jersey City, N. J.; Cristobal Martinez '31, Ithaca.

TENNIS

John S. Custer '29, Cynwyd, Pa.; Julius Hene '29, Scarsdale; Benjamin H. Detwiler '30, Washington, D. C.; Milton T. Bush '29, Wellesley, Mass.

Crews at Poughkeepsie

The crews, including varsity, junior varsity, freshman, and a combination substitute eight, held their first practice June 14 on the Hudson in preparation for the intercollegiate regatta at Poughkeepsie on June 24. The Cornell Navy left Ithaca June 13 for their Poughkeepsie camp. The oarsmen are living at Arlington, but they are still using the old boathouse at the Oaks, a half-mile below the railroad bridge which marks the start of the final mile of the course.

The departure of the crews brought an announcement of changes in the boating of the freshman eight. Falk replaced Hartman at No. 3, Hartman taking Wine-*traub's* place at bow.

Just before their departure, the crews rowed several time trials at times which were reported extremely satisfactorily to Coach James Wray. At Poughkeepsie, reports indicate that the Cornell crews have made a favorable impression in the workouts already held.

Lose Two Out of Three

The baseball team closed its home season with three games on Hoy Field last week before crowds of alumni, seniors, and guests. Seton Hall defeated Cornell, 5-2, Thursday, and Pennsylvania won, 6-2, in a Quadrangle Cup League game Friday, 6-2. On Saturday, Cornell defeated Syracuse, 6-2.

Seton Hall was outhit, but the visitors, with the score tied at the start of the seventh inning, gathered in three runs on a dropped fly and a squeeze play, to win.

The visitors scored two runs in the fourth inning. With one out, Singleton singled. Kearney hit toward second, the ball touching Singleton, automatically putting him out, but Kearney was safe on first. Kennedy hit a home run to deep center, scoring two runs.

Cornell tied the score in the fifth. Moon started by singling and was sacrificed to second by Kohn. Schultz grounded out, but Maioriana tripled, scoring Moon. Donnelly's single scored Maioriana with the tying run.

In the seventh Kearny started for Seton Hall with a single. Schultz's error on Kennedy's attempted sacrifice put two men on the bases. Madjeski sent a long fly to Maioriana, who dropped the ball,

both runners scoring. Schultz gave to Rollo on the mound. McGuinness scored Madjeski on a squeeze play, reaching first safely for the only hit off the Cornell relief player.

Quakers Win Handily

Pennsylvania's heavy-hitting team scored its 6-2 victory handily, getting three runs on three hits in the second and seventh innings. Boies pitched for Cornell

In the second inning, Pennsylvania started when Walker reached first on Boies' misplay of his bunt. Becker doubled to right field, scoring Walker and taking third on the play. Boies' wild pitch scored Becker. The next two men went out, but Caniglia hit to right for two bases, scoring on Master's single.

Cornell got a run in the fourth, Gichner opening the attack with a triple to right field. Gichner scored on an infield out. The seventh saw Carlsten, Pennsylvania's center fielder, get his second home run of the season off Boies. He had hit for the circuit in the game at Philadelphia. Masters opened the inning by getting a single. Callaghan flied out, but Wilner also singled. Carlsten then connected for a home run to deep center, scoring three runs.

Cornell picked up another tally in the eighth inning, when Masters issued passes to Boies and Maioriana. Gichner singled, his third hit of the game, to score Boies.

Good Against Syracuse

Against Syracuse, Cornell played good baseball, hitting in the pinches and taking full advantage of Syracuse misplays. Lewis pitched Cornell to its final victory on home grounds, although he gave more hits than Balsley, the Orange hurler.

Maioriana's single, a sacrifice fly by Hebert, and Cushman's single to right gave Cornell a score in the first inning. In the second, Cornell tallied three runs without getting a single hit.

Steiff started by hitting to Stevens at shortstop, who fumbled the ball. Balsley walked Donnelly, and when Horowitz sent a grounder, Horowitz failed to touch first base. With the bases full, Lewis hit to Stevens, who, on the throw to the plate, hit Steiff as he came in from third. The ball bounded away, and Donnelly also scored on the misplay. Kohn scored on a fielder's choice.

Cornell got two more runs in the fifth. Kohn started by singling. Two out: advanced Kohn along the paths, and he scored on Hebert's safety. Gichner's double brought Hebert across the plate.

With the game apparently on ice, Lewis weakened in the sixth, and Syracuse picked up two runs to prevent a shutout. Stevens and Titmas each hit safely. When Lewis threw wildly to second base to catch Stevens, both runners advanced. Topal's single scored both runners.

The box scores of the three games:

1800 conversations at once through a cable less than 3 inches thick

*An Advertisement of the
American Telephone and Telegraph Company*

THE earth beneath our great cities is crowded. Steam, gas, sewer and water-mains, compressed air pipes, pneumatic tube systems, telephone and telegraph cables, light, power and rapid transit conduits lie so close together that any further additions create serious engineering problems. Yet the number of telephone calls that must flash through the underground arteries of great cities is steadily increasing.

The challenge to the scientific minds of the Bell System was to find a way for more conversations in existing conduits. Fifteen years ago, the pride of the System was a cable containing nine hundred pairs of wires. Then by many improvements a cable of twelve hundred pairs was

perfected. It was rightly considered a scientific triumph.

Today, cables containing eighteen hundred pairs of wires are in service and these cables with every wire insulated are only two and five-eighths inches in diameter, one-half as large as the first nine hundred-pair cable. Eighteen hundred conversations at once—six hundred more than before—can now pulse through this two and five-eighths inches of cable.

There is no standing still in the Bell System. Better and better telephone service at the lowest cost is the goal. Present improvements constantly going into effect are but the foundation for the greater service of the future.

“THE TELEPHONE BOOKS ARE THE DIRECTORY OF THE NATION”

OBITUARIES

Alice Bradford Wiles '75

Alice Russell Bradford (Mrs. Robert H.) Wiles died in Chicago on February 20. She was born in Roxbury, Mass., on February 16, 1853, the daughter of J. Russell and Sarah Woodman Bradford. She received the degree of B.S. Her husband, Robert Hall Wiles '75, died in 1907. Mrs. Wiles was an active member of the Daughters of the American Revolution, the Colonial Dames, the Mayflower Society, and other similar organizations.

William J. Wedlake '17

William Jacob Wedlake, manager of the Crown Fruit and Extract Company in Watsonville, Calif., died at the home of his parents in Mount Vernon, N. Y., on September 13, after a long illness. He was born on September 4, 1895, the son of Mr. and Mrs. Wm. H. Wedlake. He received the degree of B.S., and was a member of Omega Delta. During the War he served overseas with the rank of second lieutenant. His wife, Mrs. Gwen Howe Wedlake, and his parents survive him.

Horace P. Hamilton '29

Horace Pritchard Hamilton, a senior in the Arts College, died at the Ithaca Memorial Hospital on June 11, of injuries

received in an automobile accident on June 9. He was born in Delhi, N. Y., on April 17, 1907, the son of Dr. and Mrs. Melancthon Hamilton. He took a year at Syracuse and had spent three years at Cornell. He was a member of Delta Tau Delta. He was to receive an M.D. degree from the University in 1932 and was an exceptionally brilliant student. His parents, who live in Oneonta, N. Y., survive him.

Charles A. Ives '29

Charles Albert Ives, a senior in the Veterinary College, was drowned in Cayuga Lake on May 11 when a heavy wind overturned the canoe in which he and William W. Wagner '32 were returning from Taughannock Point.

Ives was born in Brooklyn on February 25, 1903, the son of Mr. and Mrs. Edward Frederick Ives. He attended the Lunbrook, N. Y., High School. He was a member of Alpha Psi. His parents and a brother, Edward F. Ives, Jr., '25, survive him.

Thomas K. Humble '33

Thomas Keppen Humble, a freshman in the College of Agriculture, who was killed in an automobile accident on the Ithaca-Dryden Highway on June 2, was born in Chicago on November 1, 1909. He attended the Evanston High School. He was a member of the freshman track team as a hurdler and dash-man. He is survived by his mother.

THE ALUMNI

'73—William H. French is president of Barnhart Brothers and Spindler, type founders. He lives at 221 South East Avenue, Oak Park, Ill. He is also secretary and treasurer of the West Suburban Hospital in Oak Park and is a director of the Transportation Bank in Chicago.

'84 BS—John H. Grotecloss is principal of Public School 32, at 357 West Thirty-fifth Street, New York. He lives in Suffern, N. Y.

'93 ML—Sarah T. Barrows is now associate professor of speech in the State Teachers College at San Jose, California.

'94 CE, '96 PhD—Elon H. Hooker, president of the Hooker Electrochemical Company, is a member of the Permanent Committee of twenty-five business men, educators, and economists appointed by the New York State-wide Economic Congress, who will investigate the economic ills of the State and recommend the cures.

'97 AM, '99 PhD—William S. Ferguson, professor of ancient history at Harvard, will give two courses at the summer session at the University of California this summer, one on the History of Greece to the Battle of Chaeronea and the other a graduate course dealing with the problems of Hellenistic history from the accession

“A Half-Century at Cornell”

❦

“The Sun proposes a distinct service to Cornell in commemorating its fiftieth year of publication with a magazine supplement devoted to Cornell and the development of Cornell institutions. The occasion is particularly fitting for the collection of much valuable material and for presenting in brief and vivid form those vital steps in the University's growth which meant so much but which we are so apt to lose from sight.

“I am very sure that such a publication will be heartily received and warmly appreciated by Cornellians everywhere.”

Livingston Farrand

INTIMATE articles on all phases of Cornell, past and present, written by many prominent Cornellians, and supplemented with pictorial matter from every period of the University's development, will comprise *A Half-Century at Cornell*, published in commemoration of the fiftieth anniversary of The Cornell Daily Sun and executed after the manner of the finest modern magazines.

Men and events you knew, scenes you remember will make *A Half-Century at Cornell* worth the having as an enlightened and personal history of Cornell and its institutions.

Paper cover; \$1.50 per copy, postage paid. Payment must accompany subscription and should be made to The Cornell Daily Sun Fiftieth, 109-119 West State Street, Ithaca, New York.

The Cornell Daily Sun—Fiftieth Anniversary Number

of Alexander the Great to the Roman conquest.

'15—Claude F. Williams is a wholesale radio dealer. His address is 8311 Hayes Avenue, Jackson Heights, Long Island, N. Y. He has one son, aged eight.

'15 ME—G. Gilson Terriberry is in the life insurance business. His address is 114 Loantaka Way, Madison, N. J. His first daughter, Ann, was born on January 10. He has three sons.

'16 BS—Birge Kinne is associated with the Chevrolet Motor Company in Tarrytown, N. Y. He lives at Meadowbrook, Dobbs Ferry, N. Y.

'18 AB—Richard K. Hoagland is a salesman with Farrington, Gould, and Hoagland, Inc., with offices at 258 Broadway, New York. He lives in Cranbury, N. J.

'18, '20 BS; '19, '20 AB—A son, Robert M., Jr., was born on May 20 to Robert M. Gavett '18 and Mrs. Gavett (Ida Raffloer '19). Their address is care of L. M. Hicks, 303 Washington Street, Newark, N. J.

'20 CE—Wilbur O. Manchester is a steel designer with the Robins Conveying Belt Company. His address is 6236 Kimbark Avenue, Chicago.

'21 BS—Milo F. Winchester is teaching vocational agriculture in the Newfane, N. Y., High School.

'22 BS; '24 BS—Homer C. Odell is now office manager of the sales department of the Chevrolet Motor Company in Tarrytown, N. Y. Mrs. Odell was Gladys Bretsch '24. They live on Bellair Drive, Dobbs Ferry, N. Y.

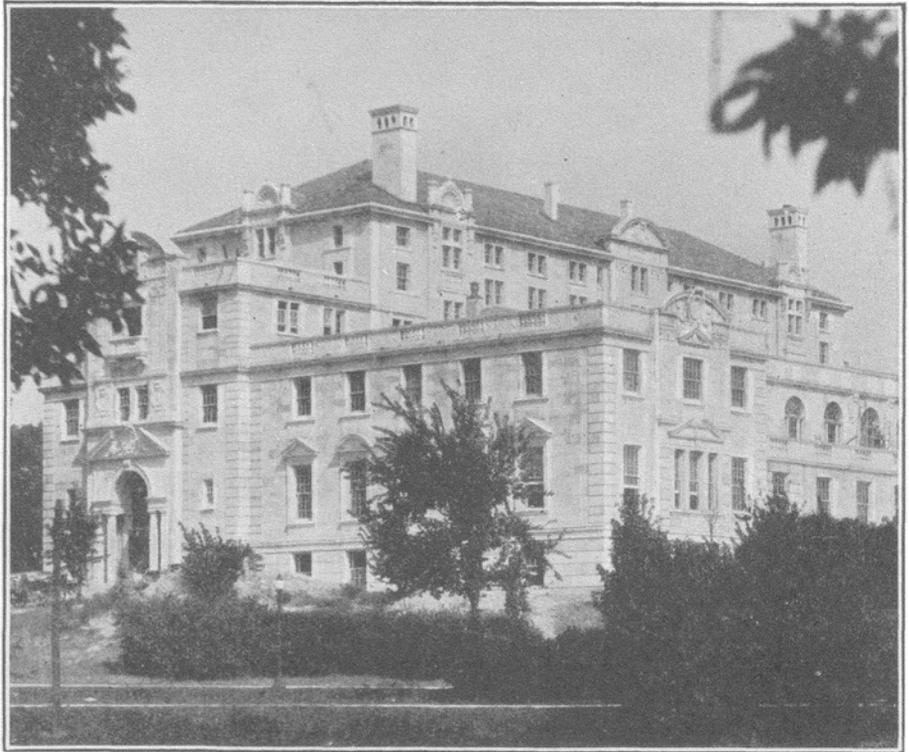

'23—George H. Coxe, Jr., '23 was married on May 18 to Miss Elizabeth Barrows Fowler, daughter of Mr. and Mrs. Robert T. Fowler of West Roxbury, Mass., and a graduate in '27 of Connecticut College. Mr. and Mrs. Coxe are living at 280 Sigourney Street, Hartford, Conn.

'24 ME; '24—William L. Hearne has resigned from the Public Service Corporation of New Jersey and is now with the Griscom-Russell Company in New York. Mrs. Hearne was Margaret E. Latshaw '24. They live at 37-05 Eightieth Street, Jackson Heights, Long Island, N. Y.

'24 BS—George F. Brewer is with the Truscon Steel Company at 26 Court Street, Brooklyn. He lives at 3619 168th Street, Flushing, N. Y.

'25 AB—Leona Ruoff is teaching Latin in the Utica Free Academy. She lives at 15 Scott Street, Utica, N. Y. During the summer her address will be 17 Willard Street, Binghamton, N. Y. Miss Ruoff writes that Helen M. Marsh '23 is teaching civics at the Academy.

'15—Bentley M. McMullin has been practicing law in Denver since completing his law course at the University of Colorado in 1915. During this time he has been Assistant Attorney General of Colorado and Assistant United States District Attorney. His office is at 711 Midland Savings Bank Building.

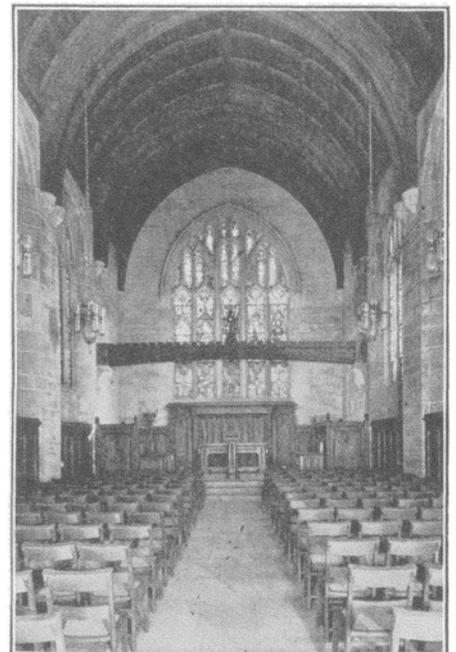

Memorial Union Building, Iowa State College, Ames, Iowa. Proudfoot, Rawson & Souers, Architects. A. H. Neumann Company, Builders.

Your New Building Program

YOU may have no active part in your institution's building program, yet you are interested, and when the new building is done it will either meet or fail to meet your approval. Why not aid those who have your institution's building in their care by expressing your opinion *before* the building is put up? We will send a free booklet showing fine examples of collegiate architecture. It will enable you to make comparisons.

Indiana Limestone is the natural stone of which much of the best architecture of this country is constructed. The use of natural stone insures a permanent beauty which no other building material can equal. Indiana Limestone becomes more attractive as its color tones soften with the years. For the booklet just referred to, address Dept. 810, Service Bureau, Bedford, Indiana.

Interior view, chapel, Chicago Theological Seminary, Chicago. All interior stonework is Indiana Limestone. Herbert Hugh Riddle, Architect. Harrison B. Barnard, Builder.

LACKAWANNA

'24 ME—David A. Munns '24 was married on June 10 to Miss Elizabeth Cullin, daughter of Mr. and Mrs. James R. Cullin of Bayside, N. Y. J. James Munns '14 was his brother's best man, and among the ushers were Ralph B. Munns '27 and Howard A. Acheson '24.

'24 AB—Henry N. Kinoy '24 was married on June 17 to Miss Pauline Milstein of New York. Among those attending the wedding were George J. Druckerman '23, Arthur H. Love '25, Daniel Klein '25, Max M. Savitt '25, Harold C. Rosenthal '25, Samuel M. Schwartz '26, and Samuel Rabinowitch '26. Mr. and Mrs. Kinoy are living at 148 Clinton Street, Brooklyn. He is office manager, president of the Employees' Association, and editor of *Even Exchanges*, with C. Ludwig Baumann and Company in Brooklyn.

'25 AB—Whitney M. Trousdale, who received the degree of B.D. in '28 from Drew University and is a fellow of that institution, is at present taking graduate work in church history at the University of Cambridge. Previously he was a student at the American School of Archaeology in Jerusalem and at the University of Berlin. He writes that he meets Cornellians everywhere, among them Professor Harry Caplan '16, in London, and Harvey S. Gerry '24, who is attached to the American Embassy.

'25 ME—Mr. and Mrs. Alfred Rea Hughes have announced the marriage of their daughter, Miss Margaret Elizabeth Hughes, to Philip L. Wright '25, on June 5 in Warren, Ohio.

'26 AB, '27 AM—John B. Emperor, instructor in English at the University of Missouri, has been appointed assistant professor of English at the University of Tennessee.

'28 BS—Evelyn Calkins after July 1 will be dietitian at the Westtown Boarding School in Westtown, Pa.

'28 AB—Bernice M. Brown is teaching French in the Orchard Park, N. Y., High School. Her address during the summer will be 204 East Lewis Street, Ithaca.

'28 AB—Jeannette F. Lissey '28 was married recently in Jamaica, N. Y., to Irving Greenspan of Brooklyn. Their address is 133 Park Avenue, Jamaica. Before her marriage she was literary and dramatic critic of *The Long Island Daily Press*.

When You are in Ithaca Make the Co-op Your Headquarters

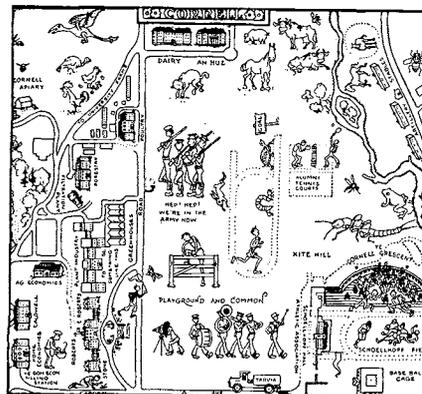

We Mail Your Purchases for You

When one is hurrying from a luncheon to a ball game or another group meeting it is an easy matter to lay down a package and forget to pick it up. To save you the trouble the Co-op mails your packages for you. Spend a little time at the Co-op and buy Cornell things.

Postcards of the Campus

Visitors to the campus wish to send a description to their friends. Postcards can now be mailed with one cent stamps. More postcards are being used. Viewbooks cost a little more but the description is better. The "Book of Views" leads when a good description of the campus is wanted.

The Campus Map \$1.50

The campus map was the biggest item at Christmas time. Some did not buy because they had not seen one. Here is your opportunity while you are in Ithaca. The Co-op is conveniently located on the campus.
