PRICE 12 CENTS

Warns of Impostor

Clothes Stolen, Money Borrowed on False Pretenses from Fraternity Chapter Houses

Fraternities are being warned of the activities of a man using the name of Harold A. Brown, who, it is reported, stole a Sigma Phi Epsilon identification card and clothing from a chapter house in Ashland, Va., January 9.

Albert F. Dippold '14 gives the following information on the activities of this new fraud operating in college circles:

"On January 9, he gave the name of Harold A. Brown, representing himself as a Sigma Chi. He introduced himself to the Sigma Phi Epsilon chapter house at Ashland, Va., and was invited to stay all night, but he left the house about three a. m., taking with him a membership card belonging to Robert S. Montgomery of Sigma Phi Epsilon and the latter's overcoat, suit of clothes, fraternity badge, and a number of other things.

"He was traced through Washington and New York.

"On January 18, he made his appearance at the Sigma Alpha Epsilon House in Cleveland, Ohio, where he represented himself as Robert S. Montgomery, and displayed Montgomery's Sigma Phi Epsilon membership card. . . He said he was en route from Chicago to Richmond by auto, but that his auto was wrecked just outside of Cleveland."

There again he was invited to remain at night. The next day he was introduced to some former residents of Richmond and they invited him to dinner. "He told them," Dippold continues, "that his father was to come up the next day and he invited several of the boys to dinner as his guests. Then he asked them if they would be kind enough to lend him some money until his father arrived. After he got the money, he 'beat it out of Cleveland' before the hour set for dinner at which he invited 'his guests'."

The description given to Dippold follows:

"He is about five feet seven inches tall, has dark brown hair, brown eyes, heavy eyebrows, weighs about 170 pounds, and claims to be twenty-three years of age. He claims his home town to be Anniston, Ala. He is apparently a Southerner because he has a quite pronounced Southern accent.

"I was also informed," Dippold says, "that in the January issue of The Phi Chi Quarterly, which is the publication of a medical fraternity, there is an article referring to an impostor, and from the description it is possible that this is the same fellow.

"If you get any line on this fellow, kindly notify me or Howard B. Chilson, Sigma Alpha Epsilon House, 1641 East 117th Street, Cleveland, Ohio, or W. L. Phillips, grand secretary of Sigma Phi Epsilon, 518 West Franklin Street, Richmond, Va."

Dippold's address is 3948 Cottage Grove Avenue, Chicago, Ill.

SPORTS MANAGERS MIGRATE TO VILLAGE OF BRONXVILLE

Meetings that occur on trains sometimes reveal unusual coincidences.

Four major sports managers of the Class of 1920 have discovered, from daily contacts as commuters, that they are all living in Bronxville, and that a fifth sport manager of the succeeding class is also a member of that community.

H. Cushman Ballou '20, manager of baseball, and Roger W. Hooker '20, manager of crew, made the discovery. They were conversing on a train when Henry R. Ashton '20, manager of track, joined them.

Ballou writes: "It then occurred to us that with the exception of Whitey Terry, all of the past managers of the major sports of the Class of 1920 were living in Bronxville, but that in Whitey's place, we had Emmet Murphy of the Class of 1921. When you consider that Woos (Hooker) came from Buffalo, Emmet came from St. Paul, Minn., and Red (Ashton) came from Trenton, and Don (Donald E. Leith '20, manager of basketball) from Philadelphia, it is rather a coincidence."

Murphy was manager of football.

BIRD PROJECT PLANNED

Dr. Arthur A. Allen '08, ornithologist, will go on leave next year to devote his time to the problem of attracting birds, particularly robins, to golf courses throughout the country. Dr. Allen will instruct country clubs on ways of attracting birds.

The project has been inaugurated by the National Association of Audubon Societies.

Europe Likes Cornell

Dr. Farrand Says University Is Respected in Educational Circles Abroad

The extent to which Cornell is known and respected in educational circles in Europe was one of the most interesting of his observations during a three months' vacation abroad, President Farrand declared in an interview upon his return to Ithaca.

He said he was especially pleased with the spirit of friendship and cordiality which he found among the students of various nationalities whom he met in the universities he visited.

Dr. Farrand made special observations at the University of Vienna, where he inspected the facilities of the medical schools, and in Paris.

In his first public address since his return, given before the Ithaca Rotary Club, Dr. Farrand discussed many aspects of European economic and social life. He characterized as indescribable the transformation of Italy under the Fascist regime.

In France, he said, he was struck by the "development of economic prosperity so far as the general occupation of the people is concerned. The resumption of industrial activity in every line has brought about a feeling of confidence in the economic future of the country. France has made enormous progress in economic rehabilitation since the War."

Discussing the general attitude of Europe toward America, Dr. Farrand noted that there is an eager desire to see the United States brought into the world situation. He said there is a feeling that without the United States there can be nothing permanent in the way of adjustment.

"In the long run, the United States has got to participate, has got to accept the responsibilities of its role. The time is past when civilization can operate on anything else than a unified, community basis.

"There is a deep conviction that the idea of another war is a thing that cannot be thought of, that peace is the great end. You and I shall live to see more and more the assurance of world peace toward which we are aiming."

ATHLETICS

QUAKERS WIN CLOSE GAME

The basketball team, showing its best form of the season, lost its third league start February 8 in the Drill Hall to Pennsylvania, leader of the circuit, 37-34, in a fast game decided in an extra five-minute period.

Cornell swept into the lead in the first half through the fine performances of Captain Lewis and Hall, forwards; but the superior strength of Pennsylvania had its effect in the second half, and the Quakers overcame a ten-point lead to tie the score at 32-32 in the final minute of regular play.

Pennsylvania then continued the pace and dominated the overtime period by outscoring Cornell five to three to win.

Cornell's teamwork provided the measure of success it enjoyed against the Pennsylvanians, but the lighter team could not stand up against the rugged and rangy group of players from Philadelphia. The game provided three thousand Junior Week spectators with plenty of thrills.

The last three minutes of the second half were packed with tense moments, for Pennsylvania had tied the score at 29-29 on a long shot by McNiff from side court. Sander, Pennsylvania's utility player, who had replaced Tanseer at guard, broke the deadlock by scoring a field goal when Magner whipped the ball to him after intercepting a Cornell pass.

A double foul was called on Brodbeck and Bessmer, but both missed their chances. It was the first free throw Brodbeck had failed to make.

Magner fouled Murphy, his fourth offense, and when he protested, Referee Risley called a technical foul. Captain Lewis missed his try, but Murphy scored, and Pennsylvania led, 31-30.

Captain Lewis got the ball in mid-court and shot it toward the net. The ball went clean through the rim, one of the most amazing shots of the game. In the last minute of play, Murphy fouled Brodbeck and left the game with four personal fouls against him. Brodbeck shot the basket from the foul line to tie the score, and the whistle ended the game a few seconds later.

Pennsylvania's superiority was demonstrated in the extra period, although Hall again put Cornell in the lead with a one-handed toss from a scrimmage in front of the basket. Long shots by Ullrich and Sander, followed by close guarding by Pennsylvania, settled the issue, and Sander, in the last minute, caged a foul shot to give the Quakers their three-point margin of victory.

THE GAME IN DETAIL

Captain Lewis, who scored eighteen points in the game, marked up the first

score in the first minute of play, a field goal. Tanseer, fouled by Lewis, scored a point, and Brodbeck put the Quakers ahead with a basket as he cut past Murphy. Murphy scored a point when he was fouled by Ullrich.

McNiff missed a foul shot, and Lewis put Cornell ahead by pushing the ball out of a scrimmage for a goal. Hall replaced Kendall for Cornell, Lewis going to center. Brodbeck again outsped Murphy in a cut for the basket, took a pass, and scored to tie the count at 5-5.

Hall, fouled twice in a row by Tanseer, missed both tries. Lewis scored from the line when he was fouled by Magner. Tanseer caged a long shot to give Pennsylvania a one-point lead, but Lewis also scored on a long toss. Brodbeck tied the score when he scored on Murphy's foul at 8-8.

Zahn got his only field goal of the game on a long toss, and Brodbeck again scored on a foul by Murphy. Murphy missed a free throw on Tanseer's third foul. Ullrich put Pennsylvania in the lead with a long shot, 11-10. Magner picked up a loose ball, dribbled in, and scored.

Lobley replaced Tanseer for Pennsylvania and Schreuder went in for Bessmer. The rest of the half saw Cornell play its best, with Hall and Lewis starring. Hall scored on a foul. Lewis took a short pass to cage a field goal and tie the score at 13-13. Schreuder, fouled twice, made both tries good. Hall cut fast, took a pass, and caged a goal. Lewis repeated, to give Cornell a six-point lead. Pennsylvania took the offensive during a brief rally, but poor shooting by her forwards prevented a score.

Hall took a pass from Lewis, cut fast, and scored. Tanseer, back in the game, was fouled by Bessmer, and he tallied. Cornell led at the half, 21-14.

SECOND HALF

A double foul was called on Magner and Schreuder, Magner scoring and Schreuder missing his try. Lewis was fouled by Brodbeck and scored on both tries. Hall tossed an underhand shot that scored, and Cornell led, 25-15, its greatest advantage of the game.

The Cornell attack gradually lost its speed, as the players began to show the effect of the fast pace they had set in the first half.

Ullrich caged a long shot. McNiff scored on Zahn's foul, and Lewis scored on Brodbeck's foul. Lewis got another field goal on a cut-and-pivot play, evading Tanseer. With the score 28-18 for Cornell, Pennsylvania started a rally that produced a change in the lead. Tanseer started with a goal. McNiff scored a foul, and Magner cut fast to tally another field goal. Hall scored for Cornell when he was fouled by Tanseer, but Magner and Sander each got a field goal. McNiff's long side shot tied the score, and Sander's goal put Pennsylvania ahead. Murphy tallied from the line, and Lewis

sank his spectacular shot from mid-court, only to have Brodbeck tie the score on a free throw.

OVERTIME PERIOD

Hall came out of a scrimmage in front of the basket to toss in a field goal. Ullrich, set for the try, took a pass and shot a basket from the side of the court, Sander, going into the corner of the court, wheeled, and shot a basket at right angles to the backboard.

Cornell was on defensive most of the extra five minutes. The team abandoned the passing game and tried hard to score on long shots. Lewis went out of the game on his fourth personal foul and Sander scored the final point of the game.

DEFEAT ALFRED

In the other game of the week, a non-league contest, Cornell defeated Alfred February 5 in the Drill Hall, 32-28.

The team, in its first start since the Yale game, played poorly, barely getting its victory. Neither team could maintain a sustained offensive.

In the last two minutes of the first half, two long shots by Captain Lewis overcame an Alfred lead and gave Cornell a three-point advantage. Keckhen's goal had put Alfred ahead by 17-16, but Lewis' two shots made the score 20-17 at the half.

Alfred again tied the score early in the second period, with Steele getting four points while Murphy collected one for Cornell. Goals by Murphy and Latronica of Alfred again tied the score. Goals by Lewis and Fenner put the count at 25-25. Steele put Alfred ahead by caging a foul shot, but Kendall got two field goals to settle the issue.

LEAGUE STANDING

The results of three games in the Eastern Intercollegiate Basketball League last week had no effect on the standing of the teams, Pennsylvania's victory over Cornell February 8 maintaining the Quakers on top.

Dartmouth broke even in two games, losing by one point to Columbia, 33-32, February 5, and defeating Yale February 8, 39-35.

The standing of the teams:

| | W | L |
|--------------|---|---|
| Pennsylvania | 3 | 0 |
| Columbia | 2 | 0 |
| Dartmouth | 2 | 2 |
| Princeton | 2 | 2 |
| Cornell | 1 | 3 |
| Yale | 1 | 4 |

WRESTLERS WIN AGAIN

The wrestling team won its second victory of the season February 6 in the Drill Hall by defeating Syracuse in a close match, 18-12. Each team won four bouts, but Cornell scored three victories on falls by Trousdell, Butterworth, and Captain Johnson, while Syracuse got four decisions. Lipschitz scored a decision for Cornell.

Flagg of Syracuse won handily over Hartsch in the 115-pound class, getting a time advantage of more than five minutes. The next two bouts saw Cornell wrestlers gain falls in the last minute of time, Trousdell throwing Peavey with a half-nelson in the 125-pound class and Butterworth using a body scissors and headlock to throw Barry in the 135-pound class.

Cornell went into a 13-3 lead on Lipschitz's decision over Carpenter, but Captain Jamieson and Frank of Syracuse were easy victors on time advantages over Hessney and Abkarian.

Captain Johnson clinched the meet by throwing Freeman in the 175-pound class in less than three minutes. Novak, heavyweight, scored Syracuse's last victory by defeating Hulse.

The summary:

115-pound class: Flagg, Syracuse, defeated Hartsch. Time advantage, 5:30.

125-pound class: Trousdell, Cornell, threw Peavey, with half-nelson: Time, 9:17.

135-pound class: Butterworth, Cornell, threw Barry, with body scissors and headlock. Time, 9:15.

145-pound class: Lipschitz, Cornell, defeated Carpenter. Time advantage, 3:37.

155-pound class: Captain Jamieson, Syracuse, defeated Hessney. Time advantage, 3:15.

165-pound class: Frank, Syracuse, defeated Abkarian. Time advantage, 4:08.

175-pound class: Captain Johnson, Cornell, threw Freeman, with half-nelson. Time, 2:30.

Heavyweight class: Novak, Syracuse, defeated Hulse. Time advantage, 2:55.

Referee, Ellingson, Idaho.

HOCKEY TEAM WINS

The hockey team won its second victory of the season by defeating Colgate, 7-1, on Beebe Lake February 7. Cornell's impenetrable defense and the power of its attack overwhelmed the visitors.

Colgate did not score until the last period, when two spares, Terry and Anderson, took the puck down the ice, Anderson shooting it past Shields, Cornell goal guard.

Guthrie and McKeown lead the Cornell offensive, Guthrie getting three goals and McKeown two. Cornell used all its available players in the game.

The line-ups:

| CORNELL (7) | Pos | COLGATE (1) |
|-------------|-----|-------------|
| Shields | G | Squiers |
| Clark | LD | MacSwain |
| Parker | RD | Walker |
| McKeown | CF | Howe |
| Spitzmiller | LW | Hofhein |
| Guthrie | RW | Nelson |

Cornell scoring: First period, Guthrie, unassisted, 1:00. Second period, Guthrie to McKeown, 5:30; Llop, unassisted, 8:00. Third period, Spitzmiller, unassisted, 5:00; McKeown, unassisted, 8:00; McKeown to Guthrie, 16:00; Guthrie, unassisted, 19:55.

Colgate scoring: Third period, Terry to Anderson, 11:01.

Spares: Cornell, Endeman, Friedman, Llop, Kingsbury, Walsh, Redding, Rhodes. Colgate, Crane, Terry, Anderson, Fisher.

Referee, Sherman, Utica.

In The Cornell Civil Engineer for December Ernest W. Downs '23 describes "The World's Largest Suspension Bridge," the Hudson River Bridge. It is to be carried on four cables each thirty-six inches in diameter. The wire used if stretched as one length would reach 106,000 miles. These cables will weigh 28,500 tons.

THE SWINGING BRIDGE

THEN AND NOW

When you come up the little hill from Cascadilla Bridge to the old Armory, it's a sad sight that meets your eyes. Two fraternity lodges and a professor's house are in process of demolition, by way of preliminary to the erection of the new Law School building. Wreckage and ruin are unbeautiful and depressing. You look openly into dismantled and icy rooms where once you were entertained with warm hospitality, and instead of old friends you see strange men bent on wholesale destruction. It gives you a shiver, and you pass on with just one wish,—since it's got to be done, let it be done quickly, and let something new and imposing replace these cordial old mansions of brotherhood. This paragraph may serve as the prose equivalent of a tear dropped over the devastation.

The erudition occasionally (but far from invariably) shown by faculty children was in evidence the other day in front of McGraw. Two noisy eight-year-old invaders of the sanctity of the Campus were contemplating a visit to the McGraw museum. One of them had grave doubts. "The things inside may be dangerous," he declared in high soprano. In even higher treble the other gave a scholarly word of reassurance, "Come on! I read in the Geographic for December 1929 that dinnysaurs are a friendly animal." Scholarship prevailed, as it sometimes will, and they entered the hall of marvels.

The unity of this contribution may be observed in its juxtaposition of old and new; good old buildings giving place to better new ones, and heroic beings of the past yielding to the undaunted younger generation. Well, what is a university but that very thing? And even the monsters of the past (dinosaurs and old grads) may have a crumb of comfort in learning that they are now regarded as a friendly animal, after all.

M. W. S.

NAMED RAILROAD EXECUTIVE

Carroll R. Harding '10 has been named assistant to Paul Shoup, president of the Southern Pacific Railroad. Since 1925, he has been engineer of standards for the company.

Harding's entire railroad career has been with the Southern Pacific. He began as draftsman in 1913, became chief draftsman a year later, and in 1916 was appointed assistant consulting engineer. He became consulting engineer in 1923.

At Cornell he was a member of Tau Beta Pi.

BOOKS

GREEK DRAMA TRANSLATED

Ten Greek Plays. Translations into English by Gilbert Murray and Others. With an Introduction by Lane Cooper and a Preface by Harvey B. Densmore. New York. Oxford University Press. 1929. 20.7 cm., pp. xx, 475.

This book includes an attractive introduction by Lane Cooper. His body of facts, condensed into twelve pages, but representing the ripe judgment of years of study, is so presented that it clarifies for the general reader the field of Greek drama and enables him to enjoy the reading with a better understanding of the conditions under which the plays were originally produced.

Ten plays chosen from those of Sophocles, Aeschylus, Euripides, and Aristophanes are included. The titles are those one would expect to meet in such a collection. They are all names that those of us who do not read Greek (and who does in these days of commercial haste?) know well, but only as titles.

The plays are translated by Gilbert Murray, Robert Whitelaw, John H. Frere, and Sir Daniel Sandford. Murray, however, has translated seven of the ten, so that there is not so much variety of style as if, for example, some of the other well known translators had been included. This might not have been wholly an improvement. Murray's translations are interesting.

There is a good bibliography, also by Cooper, listing some of the better prose translations and a few surveys of the field. It is short, only eighteen titles being included.

The notes are not without value. They with the preface are by Professor Harvey B. Densmore of the University of Washington.

The book is a good-looking volume, and will be particularly useful for those who are unable to read Greek.

T. S.

FIFTY YEARS OF CORNELL

A Half-Century at Cornell, 1880-1930. A Retrospect Sponsored by The Cornell Daily Sun to Commemorate the Fiftieth Anniversary of Its Founding. Ithaca. The Cayuga Press. 1930. 37 cm., pp. 112. Price, paper, \$2. Cloth, \$3.50.

This highly commendable enterprise has been executed with a very satisfactory result. The editor and his staff have shown excellent judgment in the choice of contributors and the result is that the progress of The Sun and of Cornell through the half-century is viewed from many different angles. Space forbids reprinting the catalogue of the thirty-six writers and the titles of their articles. All but seven are alumni and these write with the enthusiasm born of personal

ownership of and interest in Alma Mater. A fair number of papers have to do with The Sun itself; others deal with topics of more general interest, e.g. Gannett on the changes in journalism in the last fifty years, Patterson on the architectural evolution of the University buildings, Uncle Pete on early rowing, Mrs. Smith on Stanford and Cornell, Austen on the Library, Treman '78 on the landscape. Of great interest, too, are the reminiscences of Rym Berry, Van Loon, Dean Kimball, Frank Lehigh, Rea, Mrs. Comstock, Blood, Stevens, Sailor, and others. Colson's reminiscences of the Old Man bring back a flood of memories. Tar Young gives a vivid picture of early athletic sports. Former Dean White displays a marvelous memory of the years he spent here. Finally, the papers of Former President Schurman and President Farrant give some indication of the care and thought that went into the building of our Cornell.

A word about the illustrations, which alone are worth more than the price asked. There are in all nearly ninety pictures many of them from rare photographs. Several of these are full-page illustrations, ranging from the Founder to Theodore Zinck and from the first breaking of ground in 1865 or thereabouts to Davy's registration greeting of 1929, "Go to H." To be sure Van Loon's pencil had something to do with the latter, which may therefore be mythical; but most of it is history.

The Sun is to be strongly commended for issuing this most useful of souvenirs. May it survive to publish many more.

BOOKS AND MAGAZINE ARTICLES

In Science for December 6 is printed the introductory public lecture on "Waves and Particles" delivered by Professor George P. Thomson on the Baker Foundation. In the issue for December 20 Dr. Carlotta J. Maury '96 discusses "Porto Rican and Dominican Stratigraphy." In the issue for December 27 Professor Louis C. Karpinski '01 of the University of Michigan describes "Recent Progress in the History of Ancient Mathematics."

In The Journal of Physical Chemistry for January Professor Wilder D. Bancroft and G. E. Cunningham discuss "Iron Oxide in Borate Beads." Professor T. Roland Briggs '09 and William S. Benedict, Grad., write on "Alloys of Germanium." Professor Bancroft reviews the second edition of David Burns' Introduction to Physics and volume x, part i of J. Newton Friend's Text-Book of Inorganic Chemistry.

In The Modern Language Forum for October Professor Ray P. Bowen, A.M. '15, Ph.D. '16, of the University of Oregon, discussed the question, "If Not Literature in Our High School and Junior College Romance Language Classes, Then What?"

OBITUARIES

HARRY B. HUTCHINS

Harry Burns Hutchins, former acting dean of the Law School and president emeritus of the University of Michigan, died on January 25 at his home in Ann Arbor.

He was born in Lisbon, N. H., on April 8, 1874, the son of Carleton B. and Nancy Merrill Hutchins, and graduated with the degree of Ph.B. from Michigan in 1871. He was a member of Alpha Delta Phi. For a time he taught history and law at Michigan, and in 1887 became professor of law at Cornell. He thus was one of the founders of the Law School. As acting dean Professor Hutchins was responsible for the appointment of the young lawyer, Charles Evans Hughes, to the Faculty. In 1895 he returned to Michigan as dean of the Department of Law. Professor Hutchins was acting president of Michigan in 1897-8 and 1909-10, and was president from 1910 to 1920, when he became president emeritus. He held the degree of LL.D. from Wisconsin, Wesleyan, Notre Dame, California, and Michigan. He was the author or editor of several important works on law.

WALTER G. LICHTENSTEIN '02

Walter Garfield Lichtenstein, for the last ten years associated with the Franklin Life Insurance Company in Denver, died of pneumonia at his home there on January 4. He was forty-nine. He received the degree of LL.B. Before going to Denver he practiced law in New York. His wife, Mrs. Lillian Lichen Lichtenstein, survives him.

ARTHUR F. McCANN '16

Arthur Fillingham McCann, a prominent attorney in Elmira, N. Y., died at St. Joseph's Hospital in Elmira on December 17 of a tumor on the spinal cord.

He was born in Elmira on December 16, 1893, the son of former Supreme Court Justice George McCann '88. He received the degree of A.B., and was a member of Sigma Phi and Sphinx Head and an editor of The Cornell Daily Sun. After serving overseas during the War as a second lieutenant, he took his law degree at Columbia and was admitted to the bar in 1921. He was associated with Lewis Henry '09 and Edgar Dent in the practice of law, in the firm of Henry, Dent, and McCann.

Mr. McCann was secretary of the Cornell Theatres, Inc., which operates the State, Strand, and Crescent Theatres in Ithaca. He was a sponsor of the Elmira Airport and secretary and treasurer of the Elmira Airport Corporation.

THE CLUBS

NEW ENGLAND

Dr. Jacob Gould Schurman will be the principal speaker at the annual banquet, to be held on February 28 at the University Club in Boston. All Cornellians, with wives, husbands, and friends are invited. The secretary of the Club is George R. Grant '04, 50 Oliver Street, Boston.

NEW YORK

The Club and the New York Alumni Track Association are taking a block of seats for the Indoor Intercollegiate Track Meet, to be held at the 102d Regiment Armory on March 1. Tickets are available at \$2.50 each by application at the Club, or of G. Norman Scott '27, secretary of the Association. (Fifteen cents extra will cover cost of mailing.) Scott's address is in care of Estabrook & Co., 24 Broad Street, New York.

Intercollegiate meets have been held annually since 1922. Cornell has won first honors three times, in 1922, 1923, and 1928.

NEW YORK WOMEN

President Farrand will be the speaker at the annual luncheon, to be held at the American Women's Association Clubhouse, 353 West Fifty-seventh Street, on Saturday, February 15. Reservations may be made through Miss Barbara Wright '27, chairman of the luncheon committee, at the Cornell Women's Club, 140 East Sixty-third Street, New York.

ROCHESTER

Dr. A. C. D. Hickman, experimental chemist and engineer with the Eastman Kodak Company, was the speaker at the weekly luncheon on January 8.

The group entertained several professors from Cornell on January 15, during the annual meeting of the State Horticultural Society. The speakers were Dean Albert R. Mann '04, of the College of Agriculture, and his predecessor, Dr. Liberty Hyde Bailey.

Carl A. Taubert, consulting engineer of Rochester, who devised the city plan and major street scheme, which includes studies of trolley and railroad transportation, was the speaker on January 22.

CLEVELAND WOMEN

The Club held a tea on Founder's Day, January 11, at the home of Mrs. J. Hearst Coleman (Esther M. Hunter) '27. Each member was asked to bring a prospective freshman. The hostesses were Mrs. Arnold F. Furrer (Helen Hempstead), Grad., Martha A. Whitworth '15, Mrs. William G. Mollenberg (Ruth L. Hunter) '26, and Mrs. Campbell F. G. Norlin (Eloise Dresser) '14.

New Chemistry Lecturer

Dr. Kasimir Fajans of University of Munich Giving Courses on George Fisher Baker Foundation

The holder of the George Fisher Baker Non-Resident Lectureship in Chemistry for the second term is Dr. Kasimir Fajans, professor of physical chemistry in the University of Munich.

Professor Fajans was born in Warsaw, Poland, in 1887. He studied at Leipzig, Heidelberg, Zurich, and Manchester. From 1911 to 1917 he occupied the position first of assistant and later of in-

DR. KASIMIR FAJANS

structor in the Technical School of Karlsruhe. In 1917 he went to the University of Munich as associate professor of physical chemistry and was advanced to the full professorship in 1925.

He formulated the displacement rule governing radio-active transformations and discovered the radio-active element brevium now termed uranium X₂. His outstanding publications which have brought him international reputation have dealt with thermo-chemistry the theory of solutions, and the theory of chemical forces in atomic structure. His book on radioactivity which has been translated into English is a clear and authoritative presentation of this subject.

He is a member of the Bavarian Academy of Sciences, a corresponding member of the Academy of Sciences of Leningrad, and an honorary member of the Chemical Society of Karlsruhe, the Spanish Society for Physics and Chemistry, and the Society of Doctors in Madrid.

His lectures before the Department of Chemistry during the coming term will deal with four separate topics: I. Radio

Elements and Isotopes. II. Chemical Linkage in Relation to the Structure of Atoms and Crystals and to the Optical Properties of Substances. III. Strong Electrolytes. IV. Adsorption of Ions by Salt-like Compounds and Its Photochemical and Analytical Applications.

Professor Fajans delivered an introductory lecture on February 12 on "The Development of Views Regarding the Nature of Chemical Forces."

CORNELL IS REPRESENTED

AT ALUMNI CONVENTION

Thirty-three colleges were represented at the convention of the second district of the American Alumni Council, held at Lehigh on January 24 and 25. The council includes in its membership alumni officers of the United States and Canada. District II includes New York, New Jersey, Pennsylvania, Maryland, Delaware, the District of Columbia, and the Province of Ontario.

Cornell was represented by Warren Sailor '07, who is editor of the American Alumni Council, and who was toastmaster at the banquet at Lehigh; Harold Flack '12, a trustee of the Council, who led the discussion at Lehigh on the administration of alumni funds; Louis C. Boochever '12, whose paper on a proposed national intercollegiate roll call for alumni funds was one of the most generally discussed subjects at the conference; Miss Frances P. Eagan '26, assistant to the Alumni Representative; and Foster M. Coffin '12, who presided at the conference as director of the District II.

Plans for the establishment of a new Cornell Club, with headquarters at Bethlehem, Pennsylvania, were made at a dinner held at the Bethlehem Club on January 23. Professor Charles C. Bidwell, Ph.B. '14, was toastmaster. Other members of the committee were Edward F. Entwisle '06, Robert L. Fox '09, and Edward E. Goodwillie '10. The speakers were Boochever, Coffin, Flack, and Sailor.

CORNELLIAN IS APPOINTED

AGRICULTURE SCHOOL DEAN

Professor Claude Burton Hutchison, M.S. '13, professor of plant breeding from 1916 to 1922, has been appointed dean of the College of Agriculture of the University of California and director of the California Experiment Station.

Dean Hutchison will continue as director of the Gianinni Foundation for Agricultural Economics, a post he has held since September, 1928. During the four years before his appointment to the Gianinni post, he was director of agricultural education in Europe under the Rockefeller International Educational Board.

CORNELL ALUMNI NEWS

ITHACA - NEW YORK

FOUNDED 1899

INCORPORATED 1926

Published for the Cornell Alumni Corporation by the Cornell Alumni News Publishing Corporation.

Published weekly during the college year and monthly in July and August; thirty-five issues annually. Issue No. 1 is published in September. Weekly publication ends the last week in June. Issue No. 35 is published in August and is followed by an index of the entire volume, which will be mailed on request.

Subscription price \$4.00 a year, payable in advance. Foreign postage 35 cents a year extra. Single copies twelve cents each.

Should a subscriber desire to discontinue his subscription, a notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance is desired.

Checks and orders should be payable to Cornell Alumni News. Cash at risk of sender. Correspondence should be addressed—

ITHACA, N. Y., FEBRUARY 13, 1930

A NEW KIND OF REUNION

UNUSUALLY MANY opportunities are offered to the alumnus in the month of March this year for interesting visits to Ithaca. The indoor track meets and the intercollegiate wrestling tournaments are the principal events of the first four Saturdays. Each is a spectacle of grand proportions that is intensely interesting, even without reference to the high grade athletic performance which is its center.

Increasingly alumni are finding their way back to the University when it is in full regular session; when, although not devoid of interesting events, it is a normal section of college life. Opportunity is found to bring along the son or daughter who is debating the choice of colleges, or the prep school star who might lend his weight to Cornell's teams. A day or two that includes a few choice lectures, interviews, contacts with undergraduates; inspection of buildings, a Dramatic Club show, and the major athletic event, will make a permanently favorable impression on the prospective freshman that is equaled only by the awakened associations and the new stimuli that are added to the mental equipment of the alumnus himself.

It seems probable that both the alumni and the University are missing a fine chance for mutual helpfulness and understanding by not staging, at some period when indoor athletics and outdoor winter sports can be offered as a bait, a brief period of relaxation that will include some beneficial intellectual setting up exercises.

A short winter lecture course on a subject of general interest in history, economics, politics, art, or any general culture not too unrelated to every day life, would undoubtedly prove delightful and useful. The best of Cornell lecturers, supplemented by non-residents and perhaps alumni, could offer something in the way of annual mental stimulation that would keep the devotees on their toes through the rest of the year, and looking forward to its repetition in other fields of learning in succeeding years.

The thought is respectfully offered to the general alumni association as worthy of serious consideration and perhaps a survey.

COMING EVENTS

FRIDAY, FEBRUARY 14.

Farm and Home Week. Address by Governor Franklin D. Roosevelt. Bailey Hall, 2 P. M.

Annual Competition for the Eastman Prize. Bailey Hall, 8 P. M.

SATURDAY, FEBRUARY 15.

Fencing, Hamilton at Hamilton.

Basketball, Dartmouth. The Drill Hall, 8 P. M.

Freshman Basketball, Colgate at Colgate.

Wrestling, Ohio State. The Drill Hall, 2:30 P. M.

Cornell Dramatic Club. "Fanny's First Play." University Theatre, 8:15 P. M.

RECEIVES WAR DECORATION

Joseph Champ Carry '18, who served in the American Expeditionary Forces in the World War, has been decorated with the Distinguished Service Cross for conspicuous bravery in action near Fismes, France, August 11, 1918.

The decoration was bestowed in Chicago on February 5 by Major General Frank Parker, commanding the Sixth Corps Area.

Lieutenant Carry was attached to the 18th Field Artillery of the Third Division. The citation accompanying the decoration reads:

"Lieutenant Carry, assisted by another officer, carried a wounded man under fire to a place of comparative safety, from where the soldier was evacuated to the rear. The utter disregard for his own safety displayed by Lieutenant Carry was an inspiration to the entire command."

Class Secretaries Meet

Plans for June Reunions Are Discussed—To Draft Resolutions on Death of Colonel Sackett

Twenty-eight classes were represented at the annual mid-winter meeting of the Association of Class Secretaries, held at the Cornell Club of New York on February 1.

Most of the afternoon was devoted to a discussion of plans for class reunions, to be held at the University on Friday, Saturday, Sunday, June 13, 14, and 15.

Weyland Pfeiffer '16, president of the Association, presided. He appointed the following committee to draft resolutions on the death of Colonel Henry W. Sackett '75, secretary of his class: Merritt E. Haviland '77, chairman, Dr. Veranus A. Moore '87, and William W. Macon '98. Pfeiffer appointed Professor George S. Moler '75 of Ithaca as acting secretary of the class, to serve until such time as the class should hold its next meeting. '75 will this year be celebrating its fifty-fifth reunion.

The following representatives attended the meeting, together with Foster M. Coffin '12, secretary of the Association:

(Names printed in italics indicate representatives of secretaries) *Merritt E. Haviland* '77, *Evarts L. Prentiss* '83, *Henry P. de Forest* '84, *Martin H. Goodkind* '87, *George T. Long* '90, *Willard Austen* '91, *Elmer E. Bogart* '94, *Albert T. Scharps* '96, *William W. Macon* '98, *George H. Young* '00, *Mrs. Ernest O. P. Waud* (Olive B. Morrison) '03, *Mary M. Crawford* '04, *Robert P. Butler* '05, *Jessamine S. Whitney* '05, *Charlotte H. Crawford* '06, *Martha E. Dodson* '07, *Mrs. Merton A. Darville* (Isabel Shepard) '10, *Christina M. Stivers* '11, *Oscar G. Miller* '11, *Ross W. Kellogg* '12, *Mrs. Richard Haff* (Mildred Watt) '15, *Weyland Pfeiffer* '16, *Archie M. Palmer* '18, *Mary H. Donlon* '20, *Hosea C. Ballou* '20, *Mary E. Yinger* '24, *Madeline C. Amato* '25, *Alexander N. Slocum, Jr.*, '27, *Robert B. Brown* '27, *Edna V. Silliman* '28, *Bertel W. Antell* '28, and *Constance A. Cobb* '29.

RECEIVES SCHOLARSHIP BEQUEST

The Medical College in New York has received a \$20,000 bequest for a scholarship under terms of the will of the late Mrs. Julia Shaw of New York. Mrs. Shaw died on January 1, and twelve educational and charitable institutions will benefit from her estate.

THE TWO senior societies in the College of Agriculture, Helios and Hebs-Sa, have been merged under the name of Honundekah. The name was formerly that of a secret society of Indians in the Cayuga Lake region.

THE WEEK ON THE CAMPUS

ANOTHER Junior Week has been filed away in the docket of history. Only fragments of decorative crepe paper, an epidemic of head colds and blisters on the feet, fond and beautiful memories, and a faint sweet fragrance of talcum powder remain in the fraternity houses. At this writing, the halls which lately resounded with the blast of sack-but and saxophone are still, save for the gurgles and murmurs of occasional loud sleepers, and save for the swish of the janitor's relentless broom, sweeping the Junior Week of 1927 into the ash-cans of Oblivion.

THE PRECEDING paragraph was run in our issue of February 10, 1927. It seems to cover satisfactorily the hurly-burly which has just come to an end. Perhaps it would be a good thing to hold the type for 1931.

THE MUSICAL CLUBS gave an enjoyable concert, as is their custom. Roger W. Kinne '30 of Utica, the three Martinez brothers of Ithaca, sons of Carlos A. Martinez '05, and Eugene A. Glasser '30 of Woodhaven received individual honors. Curious how the average of good voices and instrumental artists remains constant, year in and year out.

THE DRAMATIC CLUB put on Shaw's *Fanny's First Play*, amusing its audiences and pleasing its critics. Damon Boynton '31 of Mystic, Conn., Ruth C. Tompkins '31 of Wilkesbarre, and Mary Furtess '31 of Ithaca made special personal hits, although it is perhaps unfair to single out these three from the large number of good performers. The stage force solved brilliantly the problem of a tripartite stage. Indeed, the only reputation to suffer in the performance is that of George Bernard Shaw. His lines are not so breath-takingly amusing now as they were before the War. But they are the same lines, aren't they? Yes, certainly they are the same lines; but we are different people. *Fanny's First Play*, you remember, is a savage attack on the follies and falsities of middle-class morality. Just what is middle-class morality?

THE JUNIOR PROM was of course the climax of the gayeties. It was apparently so successful that there will be no more talk of its abolition. About a thousand couples attended. The decoration was novel, the background figuring forth a modern city with all the latest developments in stage lighting. There were two fine bands, Mal Hallett's and McKinney's Cotton Pickers. Every couple that did not show special reluctance was photographed during the proceedings. A much appreciated innovation was the serving of a hot breakfast instead of the customary supper. William M. Vanneman '31 of

Albany, the chairman of the committee, receives the gratitude of the dancing thousands.

FRATERNITIES holding house parties and giving dances were Phi Delta Theta, Sigma Chi, Alpha Delta Phi, Chi Psi, Kappa Alpha, Psi Upsilon, Beta Theta Pi, Delta Tau Delta, Theta Delta Chi, Kappa Sigma, Sigma Alpha Epsilon, Zeta Beta Tau, Alpha Epsilon Pi, Alpha Tau Omega, Scorpion, Seal and Serpent, Delta Chi, Phi Gamma Delta, Sigma Phi Sigma, Tau Kappa Epsilon.

THE Cornell Sun's fiftieth anniversary edition is out, and I earnestly urge you to get a copy, for your pleasure and instruction. The boys have done a first class job. They have produced, in handsome form, a document of great value on the history of Cornell and of American civilization. Its contributors, from John A. Rea '69 to Harry L. Case '29 and Robert Quick '29, have preserved records of essential fact and of the moods and memories of the past that have never heretofore been set down in print. They have rescued about a hundred early photographs and drawings of sites and scenes that will make many an old grad or young grad see suddenly with the eyes of his twentieth year. We read in Dr. Schurman's article the revelation of the struggle that went to the creation of the Campus of today; in the piece by Charles V. P. Young '99 we learn with delight that in our first football game we had eighty men on a side, and that when, in 1873, a game was arranged in Cleveland between forty Cornell footballers and the University of Michigan forty, President White put his foot down, refusing to allow "forty men to go four hundred miles to agitate a bag of wind." Dean Albert W. Smith '78 tells the story of Cornell's great crew victory at Saratoga in 1875, and by some subtle magic he fills one's ears with the shouting of those dead voices. And the photographs—it is too bad they aren't larger—hold one spellbound as one finds in them some youthful face one had utterly forgotten, or as one follows a path out of the picture along remembered ways.

ONE MIGHT REFLECT at garrulous length on the suggestions of this delightful volume. Let us restrict ourselves to only one reflection. What name is most frequently mentioned in the course of these pages? Apparently that of Theodore Zinck. (Charles H. Blood '88 has a fine article on him, by the way, with a cabinet photograph of Zinckie with his tight-curling moustaches.) What a personality he must have had! What an impression he made on his generation! And how his memory lingers when so many of the

great achievers are forgotten! Up and down the Campus, day by day, one hears voices singing:

"We'll all have drinks at dear old
Zinck's

When I get back next fall!"

IF YOU SHOULD BE around on February 28 and March 1, note that the Larned Cup tennis tournament is to be held in the Drill Hall. Eleven colleges have accepted the Athletic Association's invitation, and perhaps two or three more will do so.

GOVERNOR ROOSEVELT's recommendation that \$500,000 be granted the University for the expansion of the Colleges of Agriculture and Home Economics has been met by the introduction of such a bill by Senator L. G. Kirkland of Cattaraugus County. The measure has been referred to the finance committee of the upper house.

THE SAGE CHAPEL Preacher on February 9 was Dr. Jay T. Stocking of the Pilgrim Congregational Church in St. Louis.

STUDENTS of Professor James G. Needham, Ph.D. '98, of the Department of Entomology may remember his annoyance at the cumbersome and unscientific character of scientific names. He made a public protest in 1910, without much effect. Now he returns to the charge with a delightful article in *Science*. Under the present system the biologist who first described a species, a family, or a sub-family is permitted to tack his own name onto the descriptive portion of the name he is applying. Thus we have such names as *Brachyropushkydermatogammarus Grewinglii Mnemonotus Dybowski*. Professor Needham proposes that a naming commission be appointed, and he lays down the following rules:

"A name is a name and not a definition.

"A name is a name and not a memorial inscription.

"A name is a name and not a treatise on relationships."

OTHER WEEKS on the Campus: "Many persons went to Renwick Park this afternoon to enjoy the excellent skating on Cayuga Lake. The ice, which is as smooth as glass, extends to a point below Glenwood."—The Ithaca Journal, February 4, 1905. "One temperance headquarters in town and forty odd intemperance headquarters, not counting the drug stores that have private bars. Verily the cold-water men have an uphill row to hoe."—The Ithaca Journal, January 27, 1880, astutely selected by K. F.

M. G. B.

THE ALUMNI

'78—Dr. Hans Froelicher, husband of Frances H. Mitchell '78, and acting president of Goucher College, died suddenly in Baltimore on January 17. Mrs. Froelicher studied German philology at Zurich, and was the second American woman to receive a Ph.D.

'91 CE—Floyd K. Smith, since 1917 vice-president and treasurer of the Donner Steel Company, has been elected president. He entered the steel business with the Buhl Steel Company of Ohio, of which he became sales manager. He then became district sales manager of the Republic Iron and Steel Company. He later became a partner in Banning, Cooper and Company, brokers in Pittsburgh, and in 1910 acquired an interest in the Valley Mold and Iron Company where he remained until 1917.

'96 PhB—Professor Charles A. Ellwood of the University of Missouri has accepted a call to organize and head a new department of sociology at Duke University and will take up his work there next September. He will teach this summer in the School of Education at New York University.

'03 ME—Thorsten Y. Olsen has been elected president of the Tinius Olsen Testing Machinery Company, at 500 North Twelfth Street, Philadelphia, succeeding his father who has retired. He has been with the company since his graduation and for a number of years has been vice-president.

'04 ME—The engagement has been announced of Rudolph Prussing '04 to Mrs. Florence Whiting Bourne, widow of Ralph H. Bourne '04, who died in 1928. Prussing is Cleveland representative of the Whiting Corporation.

'06 BSA—Charles F. Shaw during the first six months of 1930 will be associated with the University of Nanking, instructing a group of graduate students in the principles of soil classification and soil mapping. This prepares them for that phase of work in an extensive study of population and land utilization in China. This study is being carried on by the University of Nanking under the auspices of the Institute of Pacific Relations and under the immediate direction of J. Lossing Buck '14. Shaw will prepare plans and initiate the investigation in his field. In June he will attend the Second International Congress of Soil Sciences held in Russia and the field studies that will follow it during July and August and then will travel through Western Europe studying soil classification and soil conditions. He will return in December to the University of California, from which he is now absent on sabbatic leave.

'16 LLB—Mahlon B. Doing was married on August 1 to Miss Beatrice E. Llewellyn of Brooklyn. They live at 5

Fairmount Road, Garden City, N. Y. Doing is a member of the law firm of Coudert Brothers at 2 Rector Street, New York.

'17—Irving T. Skeels has been elected an assistant vice-president of the First National Bank and Trust Company of Elmira, N. Y. He has been for three years cashier and manager of the Bank of Elmira Heights.

'17 AB; '18 AB—The address of John B. Slimm '17 and Mrs. Slimm (Helen L. Waters '18), is 132 Dryden Avenue, Utica, N. Y. They have an eight-year-old daughter, Priscilla. Slimm is general agent for the Connecticut General Life Insurance Company.

'18 AB, '20 LLB—Benjamin Pepper, who is practicing law is now in Russia in connection with construction work being done there by the Longacre Engineering and Construction Company. He is accompanying George H. Thomas '91, vice-president of the Company. Pepper's forwarding address is 74 Charles Street, New York.

'18 PhD—Donald K. Tressler has left the Mellon Institute of Industrial Research and is now in charge of chemical research in the laboratory in Gloucester, Mass., of the General Foods Corporation.

'20 WA—Stewart A. Cushman, for several years a member of the staff of the Travelers, Insurance Company, is now associated with the insurance agency of Moore, Case, Lyman and Hubbard in Hartford, Conn.

'21, '22 ME—Joaquin Molinet is chief engineer of the City of Camaquey, Cuba. At present he is constructing a million and a half water dam and also a complete sewerage system. His address is Avellaneda 26, Camaquey.

'21 AB—Eleanor M. Foote now lives on Van Rensselaer Boulevard, Albany. She is assistant manager of the State College Co-op.

'21 CE—Francis W. Daniels has been with the H. K. Ferguson Company of Cleveland since 1924, and is now project designer in charge of the design of the Western Electric Company plant in Baltimore. He lives at 1902 Cedric Road. He has an eight-year-old daughter.

'21 AB—Mr. and Mrs. Jaspas Lynch of Lakewood, N. J., have announced the engagement of their daughter, Miss Margaret Shippen Lynch, to Francis J. Bolan '21. He is an auditor in the Long Island area of the New York Telephone Company.

'21 LLB—The law firm of Frueauff, Robinson and Sloan at 67 Wall Street, New York, has announced that Henry L. O'Brien '21 has been admitted to membership in the firm.

'21 ME—A. Griffin Ashcroft is now doing engineering and development work in relation to quality control with the Mohawk Carpet Mills, Inc., in Amsterdam, N. Y.

'21 ME; '27 CE—Norman J. Spindler is in the sales department of the Dahlstrom

Metallic Door Company in Jamestown, N. Y. His address is 12 Myers Avenue. A daughter, Suzanne Ellen, was born on November 12. He writes that Clarence F. Spindler '27 is doing civil engineering with the Schenectady Street Railways in Schenectady, N. Y.

'21 AB, '23 AM—Dr. Paul G. Culley, who is a medical missionary in Manila, P. I., spent his last vacation in China, assisting in the Baptist Hospital at Swatow. His address is 581 Pennsylvania Avenue, Manila.

'21 CE—Salvator J. Scacciaferro is sanitary engineer to the Passaic Valley Sewerage Commissioners. He lives at 505 West 161st Street, New York. A daughter, Rosary, was born on October 2.

'21 AB—Clark A. Warburton is now associate professor of economics at Emory University, Atlanta, Georgia.

'21—James Sidway is vice-president and general manager of the Westinghouse Electric Supply Company of Cleveland. He lives at 13610 Drexmore Road, Shaker Heights, Cleveland. A son, Peter, was born on September 21.

'22—Mr. and Mrs. Thomas G. Bladen have announced the marriage of their daughter, Marcella, Louise to John B. Ogden '22 on December 12 at the Cathedral of St. John the Divine, New York. Mr. and Mrs. Ogden are now at home at 307 East Forty-fourth Street, New York. Ogden is a son of Professor Henry N. Ogden '89 and Mrs. Ogden.

'22, '24 ME; '29 ME—A. Franklin Baldauf is an engineer with the Du Pont Rayon Company. His address is 275 Parker Avenue, Buffalo. He writes that F. Henry Baldauf '29 is a student engineer with the company.

'22 BS; '22 AB—Williams T. Stevens, 3d, member of the insurance firm of Howell and Howell in Ithaca, has been elected president of the Ithaca Exchange Club. He was last year vice-president of the Club. Mrs. Stevens was Helen I. Howell '22. They live in Forest Home.

'22, '24 AB—Caesar A. Grasselli, 2d, on January 15 was transferred from the Grasselli Chemical Company in Cleveland to the development department of E. I. du Pont de Nemours and Company in Wilmington, Del.

'22 BS—Mrs. F. H. Hopkins (Elsie M. Sweet '22) and her husband live at 30 Defiance Street, Ticonderoga, N. Y. They have three daughters, Carolyn, Jean, and Helen.

'22 AB, '25 MD—Lyndon A. Peer '22 was married on December 16 in Montclair, N. J., to Miss Ruth Banghart, daughter of Harry S. Banghart of East Orange, N. J. She is a graduate of Wells.

'22, '23 CE—The address of Stanley A. Elkan is P.O. Box 715, Macon, Ga. He is president of the Elkan Stone-Tile Manufacturing Company, manufacturers of concrete and building products. He was married in February to Miss Rosalyn Kuhr. They live at Katherine Court, Macon.

THE TELEPHONE BRINGS THE ADVANTAGES THAT COMFORT AND CONVENIENCE GIVE TO LIVING

This is the telephone's mission

An Advertisement of the American Telephone and Telegraph Company

IN THIS COUNTRY, a new type of civilization is being reared—a civilization of better opportunity for the average man, comfort and convenience, business enterprise and higher standards that enrich the daily life of all the people.

To build for this new age, the Bell System in 1929 expended more than 550 million dollars. These millions were used to add new plant and further improve service. Hundreds of new buildings, millions of miles of wire, chiefly in cable, eight hundred thousand new telephones—these were some of the items in the year's program of

construction. At the same time, better records were made for speed and accuracy in service.

This American development of instantaneous communication, of fast, far-reaching speech, belongs not to the few, but to the many.

It is the aim of the Bell System to permit each personality to express itself without regard to distance.

This is part of the telephone ideal that anyone, anywhere, shall be able to talk quickly and at reasonable cost with anyone, anywhere else. There is no standing still in the Bell System.

'23 LLB; '21 AB—Leonard W. Burdick is practicing law with George W. Rochester '23, now California State senator from Los Angeles. Their offices are at 921 Fidelity Building, Los Angeles. Mrs. Burdick was Ruth M. Balcom '21. They live at 4426 Oakwood Avenue. A daughter, Carol Helen, was born on December 19.

'23 ME—Raymond O. Ford was recently made assistant purchasing agent of the Bell Telephone Laboratories at 463 West Street, New York. He lives at 6 Undercliff Place, Millburn, N. J. A daughter, Virginia Gilliss, was born on October 9.

'23 EE—Robert Y. McCullough now lives at 958 Park Avenue, Schenectady. He is a commercial engineer with the General Electric Company.

'23, '24 BS—Ralph Stockbower is a division commercial supervisor with the New York Telephone Company. He lives at 42 Park Avenue, Yonkers, N. Y. A son, Wayne Cox, was born March 30.

'23 AB, '24 AM, '28 PhD; '25 AB—Arthur L. Woehl is assistant professor of speech and dramatics at Hunter College. He lives at 29 Monroe Place, Brooklyn. He and his sister, Elinore E. Woehl '25, spent last summer abroad.

'23 AB—Elisabeth W. Algeo is still secretary to the chief chemist of the S. S. White Dental Manufacturing Company. She lives at 612 Columbia Avenue, Lansdale, Pa.

'23 AB; '27—A daughter, Nancy Anne, was born on December 6 to Egbert T. Curtis '23 and Mrs. Curtis (Barbara Muller '27). They live at 54 Ellsworth Road, Larchmont, N. Y.

'23 AB—Helen M. Hedden is teaching in the Lafayette High School in Buffalo. Her address is 341 Lafayette Avenue.

'23 BS—Howard R. Sebald is practicing landscape architecture and is instructing at Columbia. His address is 661 Palmer Avenue, Bronxville, N. Y. He was married in Boston on November 25 to Miss Gladys Ross.

'24 ME—Alex W. Shelby has been appointed district manager for the New Orleans territory of Warren Webster and Company, with offices at 1007 New Orleans Bank Building, 226 Carondelet Street. He is also district factory representative of the Kewanee Boiler Corporation of Kewanee, Ill., the Fulton Sylphon Company of Knoxville, Tenn., and the Boylston Steam Specialty Company of Chicago.

'24; '24 AB; '24 EE; '22 BS—George C. Williams is assistant engineer of Westchester County, N. Y. Mrs. Williams was Miriam E. Bailey '24. They live on Huntsville Road, Katonah, N. Y. Williams writes that he heard recently from Hayati Nakomoto '25, who is living at the Osaka Y. M. C. A. in Osaka, Japan. Also that Mrs. George A. Ballantine (Frances L. Griswold '22) has returned from Malay and is now living at 1097 Himebright Boulevard, Akron, Ohio.

'24 BS—James L. Sears is farming in Baldwinsville, N. Y. A daughter was born on November 30.

'24 AB—Waldron Mahoney's business address was given erroneously in a recent issue. His correct address is 6 West Fifteenth Street, New York. He is an insurance broker, handling all forms of insurance.

'24, '26 EE—William A. Carran, Jr., is sales supervisor and lubrication engineer with the Central Petroleum Company of Cleveland. He lives at 17829 Canterbury Road.

'29 BS—Marian M. Walbanke is teaching home economics at the Jamaica, N. Y., High School. She lives at 8935 114th Street, Richmond Hill, N. Y.

Planning to Build?

Let us tell you how you can have a house of beautiful Indiana Limestone for only 5% to 6% more than if some ordinary facing material were used

Entrance to residence, Lake Forest, Ill. Anderson & Ticknor, Architects

THERE is an opportunity now to build the house of modest size and cost of beautiful Indiana Limestone. Instead of the more expensive cut stone, we supply the stone in sawed strips which is broken to lengths on the building site and laid up in the wall like brick. Stonemasons or bricklayers do the work. Cut stone is used for trim or may be omitted entirely.

There is no sacrifice in beauty involved in this method of use. The result is a wall of great interest. The soft color-tones of Indiana Limestone actually increase in attractiveness as the years go by. Your house has a much higher resale value. And yet it costs you only 5% to 6% more. Let us send you full information about the "ILCO" way of building. Fill in your name below, clip and mail.

INDIANA LIMESTONE COMPANY

General Offices: Bedford, Indiana Executive Offices: Tribune Tower, Chicago

----- Fill in, clip and mail -----

Box 810, Service Bureau, Bedford, Indiana:

Things to Remember in the New Year

The gift folder of Cornell things is free for the asking. The new edition was a little late this year but there are things in it of interest outside of Christmas buying. Bookplates, pennants, shields (now $\frac{1}{3}$ off), jewelry and candy. We have a special offer on Troy Calendars. We give one 1930 for the Calendar and a 1929 for pictures. The combination price is \$2.00.

Troy's 1930 Calendars

Cross Section Papers for Particular People

Cross section paper is mainly a business proposition but many send in a copy of our ad when replying. The sample book is free and shows many kinds and sizes. We use two thicknesses of all rag stock paper.

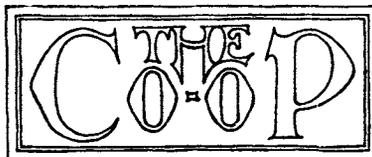

Cornell Campus Map \$1.50

Continued interest showed this year in the Campus map. One in ten are framed because we do the work. Probably more are framed when they reach the final owners. Have you one? Do you really know the Cornell Campus?

The map sells at \$1.50
