Intensive preparatory work

Problems in the completion of preparation for college often arise through illness, change of plan, or other reasons. Our intensive program solves these problems, sometimes saving a year or more.

At the same time we accustom the student to the more strenuous work and greater responsibility which he will need in his college work. This is real preparation for college.

VOL. XXXIII, No. 9

ITHACA, NEW YORK, NOVEMBER 20, 1930

PRICE 12 CENTS

The Cornell Alumni Corporation Convention

First Gathering of Alumni to be Held in Ithaca Reports on Important Work of the Year—W. W. Macon Elected President

WITH close to a record number of the local clubs represented by accredited delegates, and with a generous sprinkling of individual alumni at each of the sessions, the Eleventh Annual Convention of the Alumni Corporation was held at Ithaca on November 14.

It was a meeting different in many respects from any of its ten predecessors. The business was for the first time concentrated into one day, sessions in the morning and afternoon taking the place of the usual three meetings in two days. Many observers believed that this very concentration may have been a reason why this eleventh convention was one of the best ever held.

It was the first convention ever held on the Campus. Despite the obvious arguments for meetings in cities other than Ithaca,—to carry Cornell into those sections, and to discuss University affairs without the attractions and distractions of campus activities—it seems altogether likely that the Directors will give serious consideration to a schedule that will bring these meetings to Ithaca more frequently.

This was the last of the annual convales. Hereafter the schedule will call for meetings biennially, in the fall of the even-numbered years. The Directors will determine this winter where the convention of 1932 will be held.

Conant Van Blarcom '08 of Cleveland presided over the sessions, and then retired from office after serving two terms as president. He will be succeeded by William W. Macon '98, of New York, who for many years has been treasurer of the general alumni association—of the Corporation since 1922, when it was organized; for several years before that of the Corporation's forerunner, the Associate Alumni. Frank G. Gardner '91, of Chicago, and Dr. Floyd S. Winslow '06, of Rochester, were elected vice-presidents. Archie C. Burnett '90, of Boston, a past president of the Corporation, succeeds to Mr. Macon's place as treasurer, and Foster M. Coffin '12, of Ithaca, was re-elected secretary.

TWELVE DIRECTORS ELECTED

The Convention elected twelve district directors, as follows: District No. 1: Thomas I. S. Boak '14 of Seneca Falls; District No. 2: Weyland Pfeiffer '16 of New York; District No. 3: C. Reeve Vanneman '03 of Albany; District No. 4: Floyd Kipp Smith '94 of Buffalo; District No. 5: Chester T. Reed '03 of Worcester; District No. 6: Douglas S. Dilts '17 of Trenton; District No. 7: L. Wainwright Voigt '21 of Pittsburgh; District No. 8: Creed W. Fulton '09 of Washington; District No. 9: Mr. Van Blarcom; District No. 10: Mr. Gardner; District No. 11: Edward Holmes '05 of St. Louis; District No. 12: Finis E. Yoakum '12 of San Francisco.

Under the provisions of the by-laws, Mrs. Walter A. Calihan (Anna Messer) '05, of Rochester, who has been a candidate for district director, was elected a director-at-large by the Convention. The newly elected district directors, at their meeting after the Convention adjourned, elected Mr. Macon and Dr. Winslow the two other directors-at-large.

When the convention was called to order, the first business was the election of the district directors. The secretary then read the annual report of the Board of Directors, which will be published in an early issue of The Alumni News. The treasurer's report indicated that the Corporation is solvent, the larger income of the present year being sufficient to care for increasing expenses.

Mr. VanBlarcom has been chairman for the last two years of the Athletic Survey Committee, sometimes called the "Committee of Seventeen." He summarized the present situation. The committee was appointed as the result of a resolution adopted at the convention in Washington of 1928. Its survey occupied the better part of a year, and the report was adopted a year ago, and referred, for such action as they might see fit to take, to the Faculty and the Cornell Athletic Association.

ATHLETIC SURVEY FINDINGS

In his report, Mr. VanBlarcom pointed out, as did the Board of Directors in its report, that the Faculty and the Athletic Association had throughout manifested an attitude of full cooperation, with the result that many misunderstandings and misconceptions had been clarified and constructive measures had been considered. He stressed in particular two changes brought about during the past few months: the abolition of the executive committee of the Athletic Association, and the creation of a committee on general policy to be charged with the athletic policies of the association, and to act as a coordinating body with other departments of the University; the decision by the Faculty to create two committees in place of the present Committee on Student Affairs, one to be a Committee on Student Conduct, the other a Committee on Student Activities. Both of these suggestions had been urged in the report of the Athletic Survey Committee.

The third year of work of the Committee on Relations with Preparatory Schools was the subject of the report of its chairman, Mr. Boak. Following his summary, Dr. Eugene F. Bradford, director of admissions, outlined the work of his department, which was created a year ago last September. The remainder of the morning session was devoted to a general discussion from the floor on the subject matter of the remarks of Messrs. Bradford and Boak.

A buffet luncheon was then served in Memorial Hall. At the opening of the afternoon session, Jervis Langdon '97 of Elmira, President of the Cornellian Council, spoke of the activities of the alumni fund-raising agency; and Warren Sailor '07, Editor of The Alumni News, reported on its year.

The reports of the two Alumni Trustees whose first term of office has expired last June, Maxwell M. Upson '99 of New York, and Alfred D. Warner, Jr., '00 of Wilmington, were presented in printed form and distributed. [Continued on page 108]

ATHLETICS

DARTMOUTH 19, CORNELL 13

A relentless aerial attack in the fourth period brought Dartmouth from behind to defeat Cornell 19 to 13, before 25,000 persons on Schoellkopf Field on November 15. The game was marked by brilliant football and a surprising feat by the Red and White in holding the powerful Hanover eleven to the margin of a single touchdown. Cornell played far better than in any previous game.

Figured to win by at least three touchdowns, Dartmouth was played point for point by a hard-fighting Cornell eleven until the final quarter, when the Green aerial attack, used sparingly early in the game and without great effect, finally clicked to produce the touchdown that beat a Cornell team playing the best game seen in Ithaca since 1926.

That year, Cornell beat Dartmouth, 24 to 23, in one of the surprising upsets of the season. This year, Cornell went into the fourth period, six points behind, scored a touchdown to tie the count, and watched Captain Hunt boot the placement kick that brought a slim margin of one point.

But Dartmouth had the speed, reserve strength, and an amazing aerial attack to win, after Cornell had made a brilliant stand on its one-yard line to throw the Indians back on a sortie down the field.

Wolff's bullet-like passes, traveling low, hurled down the field as the receivers, usually two of them, outraced the Cornell secondary defense. One such pass gained 65 yards, another 34 yards, and a third 32 yards. Three times Dartmouth went down to the goal line.

The first advance halted when Morton missed a drop kick attempt, the second when Cornell held on the 1-yard line. But the third drive was not to be denied, McCall scoring on a pass from Wolff.

Cornell's showing was surprising, sending the crowd into wild bursts of cheering as the team took command early in the game, followed the ball closely, and took advantage of the breaks.

Viviano was the individual Cornell star, with as fine an exhibition of defensive play as has been seen in years. He was invariably with the ball, making the majority of the tackles in the secondary zone, backing up the line to halt the Dartmouth attack on the goal line in the third quarter, intercepting two passes, and recovering two fumbles.

On the offense he split the line for gains of 10 and 14 yards, caught passes, and took out the defense when he ran as an interfering back.

Also brilliant was young Joe Martinez-Zorrilla, substitute end, who started the game at the right wing and who played until well into the third period in spite

of being knocked out twice. He recovered the Dartmouth fumble that paved the way for Cornell's first touchdown and gave a fine exhibition of end play, once reaching out of a pile of three interferers to bring down a runner.

LINE PLAY EVEN

The line play of both teams was excellent, the lighter Cornell line holding its own with the heavy Dartmouth forwards except for a brief period in the third quarter, when Dartmouth scored on a line-plunging drive from midfield. It was the only one of five touchdowns scored by rushing.

Both teams took to the air to advance and to score. Dartmouth's amazing passing is attested by the statistics. On 13 completed passes, Dartmouth gained 224 yards, scoring two touchdowns. Cornell completed seven passes for 149 yards and scored both touchdowns through the air.

Dartmouth made 13 first downs to 10 for Cornell, gaining 104 yards by rushing to 92 for Cornell.

Dartmouth's punting was superior, the kicks averaging 44 yards to 35 for Cornell. Cornell was penalized a total of 70 yards, to 30 for Dartmouth.

CORNELL SCORES FIRST

Cornell scored first after Martinez-Zorrilla recovered a Dartmouth fumble on the Dartmouth 29-yard line. Handleman tossed a high, lazy pass over the goal line into Beyer's arms. Dartmouth tied the score in a similar way, Morton tossing to Wolff for 25 yards, Wolff running another 5 for the score.

Dartmouth took the lead on a fine advance through the line, as Cornell's right side weakened and failed to hold the plunging Wilkin, Indian fullback. The advance covered 40 yards, Branch, Dartmouth end, intercepting a pass on Cornell's 40-yard mark. Dartmouth gained three first downs, and Wolff scored from the 4-yard line.

Cornell's second touchdown was spectacular, one of the thrilling plays of the game. It came as the climax of an advance from Cornell's 37-yard line. Viviano split the line for 12 yards, and a pass from Stevens to Lueder netted 17 yards more. Another pass, Stevens to Viviano, made another first down.

From the 15-yard line, Pentecost and Stevens twice tried the line. Stevens went back to pass, a tackler closed in as Stevens hesitated, looking over the receivers. He dodged the tackler, started to run, halted, and threw a high pass that settled down in Handleman's arms behind the goal line. Three Dartmouth men surrounded the receiver as he caught the ball. Captain Hunt's placement was good, giving Cornell the 1-point lead.

Then Dartmouth, desperate, opened up. One of Morton's passes went 25 yards to Wolff at midfield and the runner got to the Cornell 10-yard line before Viviano nailed him. A field goal attempt that missed ended the drive.

Another series of passes, Wolff to McCall and Wolff to Connelly, gained 44 yards, but from the 5-yard line, Dartmouth was held for downs on the 1-yard line.

Again came the passes after Cornell kicked. The kick was short, to the Cornell 37-yard line, and one pass, Wolff to McCall, gained 32 yards. Then, after two tries at the line, Wolff again passed to McCall for the touchdown.

The game in detail:

FIRST PERIOD

Crehan kicked off to Viviano on Cornell's 15-yard line, and the return gained 20 yards. Pond lost a yard on a tackle sweep, and Beyer fumbled, Andres recovering for Dartmouth on the 37-yard line. McCall was stopped dead, and Wolff's pass was intercepted by Viviano on the 40-yard line. Chris Martinez-Zorrilla was hurt, Rothstein taking his place at right tackle.

Viviano hit center for 9 yards in two plays, and an offside penalty against Dartmouth gave Cornell first down on the Dartmouth 47-yard line. Beyer made a yard. The second of two passes by Handleman was completed to Beyer for 8 yards. Beyer failed to make the gain for first down, Cornell losing the ball on Dartmouth's 38-yard line.

A lateral pass, Wilkin to Morton, lost a yard. Morton's punt was grounded on Cornell's 24-yard line. Beyer made 5 and Handleman 3 on line plays. Handleman punted out of bounds on Dartmouth's 24-yard line. McCall, on a fake kick, got 4 yards at center. Morton fumbled, and Joe Martinez-Zorrilla recovered for Cornell on Dartmouth's 29-yard line.

On second down, after Viviano made 4 yards, Handleman tossed a pass to Beyer over the goal line for a touchdown. Hunt's try for the extra point went wide. Cornell 6, Dartmouth 0.

Crehan kicked off to Pond, who returned the ball 5 yards to his 20-yard line. Viviano made a yard, and Pond was stopped. Cornell was penalized 15 yards for holding. Handleman punted to Morton on Cornell's 39-yard line. Morton made a yard. Wolff tried two passes, completing one to Mackey for a first down on the 22-yard line. McCall made 5, Morton 3, and McCall a first down on the 12-yard line. Morton passed to Wolff for 6 yards after two plays made 2 yards, and McCall was stopped short of a first down. Handleman kicked poorly, the ball going out on the 22-yard line. McCall was thrown for a 3-yard loss. Interference on a pass to Branch caused the referee to rule it complete for 8 yards.

Morton passed to Wolff for a touchdown, Wolff running 5 yards after taking a 25-yard pass. Wolff's try for the point was blocked by Joe Martinez-Zorrilla. Cornell 6, Dartmouth 6.

After Crehan's kickoff, Cornell made two first downs before the period ended. Viviano went through for 10 yards to

Cornell's 34-yard line, and a pass, Handleman to Viviano, made another first down on Dartmouth's 34-yard line.

SECOND PERIOD

Beyer passed to Pond, after two line plays, for a first down on the 17-yard line. Cornell was penalized 16 yards. Handleman's kick was grounded by Martinez-Zorilla on Dartmouth's 1-yard line.

Wilkin made a first down, aided by a Cornell offside. Morton kicked to Beyer who fumbled and recovered on Cornell's 39-yard line. Handleman's pass to Pond made it first down on Dartmouth's 31-yard line. Another pass, Beyer to Pond, made first down on the 15-yard line.

Viviano made 8 yards in two plays, but Handleman tossed an incompleting pass over the goal line for a touchback.

An exchange of punts gained 27 yards for Dartmouth. Wolff passed 16 yards to Whitehair for a first down on Cornell's 37-yard line. Frigard, in for McCall, Wilkin, and Morton made 7 yards. Morton tossed a pass to Wolff for a first down on the 19-yard line, but Viviano halted the advance by intercepting Morton's pass. Beyer made 5, but Cornell was holding and was penalized 15 yards. Handleman kicked to Morton who re-

turned 12 yards to Cornell's 33-yard line. Viviano recovered Morton's fumble, and after three line plays Handleman kicked to Dartmouth's 20-yard line.

Viviano recovered another Dartmouth fumble on the Green's 20-yard line. Handleman's pass was knocked down by Frigard as the half ended.

THIRD PERIOD

George kicked off to Wolff, who returned 12 yards to Dartmouth's 32-yard line. Morton punted over Cornell's goal line, and on Handleman's punt, Morton ran 10 yards to Cornell's 40-yard line. Cornell held for downs as passes grounded, taking the ball on its 44-yard line. An exchange of kicks was even. Two more exchanges brought no advantage, although Morton was outdistancing Handleman. Pentecost, in for Beyer, returned one punt 25 yards to Cornell's 40-yard line.

Branch intercepted Handleman's pass on the Cornell 39-yard line. Wilkin hit right tackle for eight yards. Morton added a yard, and Wilkin made first down on the 26-yard line. Morton got six, and Wilkin another first down on line plunges on the 16-yard line. Frigard made 9 yards on an end run. Wilkin crashed through for a first down on the 5-yard line. Morton was stopped, but Wolff ran off

tackle for a touchdown. Wolff's kick for the extra point was wide. Dartmouth 12, Cornell 6.

George kicked off, but Morton punted, Pentecost running to the 41-yard line as the period ended.

FOURTH PERIOD

Stevens, in for Pond, dropped a pass from Pentecost, then punted out of bounds on Dartmouth's 28-yard line. Morton kicked out of bounds on Cornell's 37-yard line. Viviano, on a fake kick, went through the line for 12 yards and a first down on Dartmouth's 49-yard line. Stevens passed to Lueder, in for Claggett, for a first down on the 32-yard line. Stevens and Viviano made 9 yards in three plays. Stevens passed to Viviano for a first down on the 15-yard line.

Pentecost and Stevens failed to gain on tackle sweeps. Stevens went back to pass, dodged a tackler, and threw to Handleman over the goal line for a touchdown. Hunt kicked the goal from placement. Cornell 13, Dartmouth 12.

George kicked off to Morton, who returned 5 yards to Dartmouth's 24-yard line. Wilkin made a yard. Morton passed to Wolff off the end, the ball going 25 yards to midfield. Wolff shook off Pente-

OBITUARIES

EDWARD W. HYDE '72

Edward Wyllys Hyde, noted mathematician and professor emeritus of mathematics at the University of Cincinnati, died at his home in Cincinnati on November 4. He was born in Saginaw, Mich., on October 17, 1943, the son of Harvey and Julia Taylor Hyde. He received the degree of B.C.E. in '72 and of C.E. in '73. Professor Hyde was a member of the faculty at Cincinnati for twenty-five years, was a former dean of the faculty, and former treasurer and actuary of the Columbia Life Insurance Company. He was the author of a number of books in his field and a frequent contributor to mathematical journals. A son and five daughters survive him.

DANIEL W. MORAN '92

Daniel Webster Moran, lawyer in Seneca Falls, N. Y., died there on November 5. He was born in Waterloo, N. Y., on April 15, 1869. He received the degree of LL.B. He served as police judge in Seneca Falls from 1896 to 1899, as district attorney of Seneca County from 1899 to 1901, and the two following years was a Republican member of the Assembly. He was treasurer, secretary, and attorney for the Johnson Home for Indigent Females at Seneca Falls.

CARL W. WOODS '05

Dr. Carl Warren Woods, formerly a physician on the Board of Appeals of the Veterans Bureau, died on October 7 in St. Johnsbury, Vt. He was born in Passumpsic, Vt., on August 31, 1876, the son of Edwin E. and Mary A. Woods. He took a year of medicine at Cornell and later graduated from George Washington University. His wife, Mrs. Margaret Ellison Woods, and his mother survive him.

WILLIAM H. MITCHELL '06

William Hobart Mitchell, a specialist in gynecology and obstetrics in Rochester, N. Y., died there in August, 1927, of heart disease. He was born in Oshkosh, Wisc., on June 30, 1876. He took two years of medicine at Cornell. His wife and son survive him.

CHARLES P. COFFEY '15

Charles Patrick Coffey, lawyer in Ithaca, died at the Memorial Hospital on October 30, following an operation. He was born in Beacon, N. Y., thirty-nine years ago. He received the degree of LL.B. During the War he served as lieutenant in the Army, and had been active in the American Legion, serving as county commander and first vice-commander of the State organization. He was director and secretary of the Bool Floral Company. His mother, his wife, four sisters, and three brothers survive him.

WILLIAM E. FINKERNAGEL '20

William Edward Finkernagel, assistant superintendent in charge of power for the Bronx, New York, plant of the Consolidated Gas Company, died on July 14 of injuries received at an explosion at the plant. He was thirty-five years old. He received the degree of M.R. His wife and a son survive him.

CATHERINE A. DOYLE '26

Catherine Agnes Doyle died on October 3 in Morristown, N. J., of pneumonia. She was born in Salamanca, N. J., on July 22, 1903, the daughter of Mr. and Mrs. James H. Doyle. She received the degree of B.S. and was a member of Kappa Delta, and the Countryman Board, and vice-president of the senior class. She had been a dietician with Child's restaurants.

ACADEMIC JOKES

In the middle eighties of the last century, there was at Cornell a professor of modern European history who lectured in a second floor room of White Hall. He was a man of stern and sober face who never laughed and seldom smiled; nevertheless he loved a joke and his lectures on serious subjects were lightened with humor. His classes were wont to express their appreciation by stamping, which disturbed a class in mathematics just below, who heard the applause without the jokes. Presently the professor of mathematics protested to the professor of history, who introduced his next lecture as follows: "The class in the room below has been disturbed by expressions of approval by this class: therefore jokes 32 to 36 inclusive will be omitted from this morning's lecture."

This suggests another story: A professor of long experience had lectured from the same manuscript for many years; even the jokes and humorous stories could be foretold definitely by members of the class from information received from the previous class. One morning when the professor's favorite story was due, the class agreed to receive it in silence. After the story was told, the professor waiting a reasonable interval and then said: "Classes of reasonable intelligence have been accustomed to laugh at this point." A. W. S. '78

In The Columns for November Kimi Gengo '30 has "A Poem." Dr. John J. Elson '22 writes on "Car and I." An anonymous instructor in English who signs himself 61 (the number of the instructors' office) writes "Of Showing, Heaving, Yanking, and Grunting." Of course he refers to opening a Goldwin Smith window. Owen Wilson, Grad., writes on "The Return of the Child." Raymond W. Short '28 reviews Charles C. Little. The Awakening College. Samuel P. Horton '27 reviews H. G. Wells, The Autocracy of Mr. Parham.

THE CLUBS

BIRMINGHAM, ALABAMA

The alumni of Birmingham, Alabama, took advantage of the availability in their town of Professor Everett F. Phillips of the College of Agriculture, and entertained him as their guest of honor on November 4. The group was called together by James A. Meissner '18, and met for dinner at the Mountain Brook Country Club.

MARYLAND

At the annual meeting on November 5 at the Altamont Hotel in Baltimore, Howard M. White '23 was re-elected president and Frank H. Carter '16, secretary.

MICHIGAN

The Club has been holding interesting meetings this fall. The annual election of officers was held in the Club Rooms of the United States Rubber Company on October 23. Prior to the meeting fifty Cornell men turned out for an inspection of the plant under the direction of William B. Hanford '13. Then followed a talk by Dr. Lent D. Upson of the Bureau of Governmental Research in Detroit.

The following officers were named: president, Blinn S. Page '13; vice-president, Benjamin H. Micou '16; secretary, Frank Nitzberg '22; treasurer, William D. Crim '17; industrial secretary, Wilber A. Carter '13.

The members were guests of the Aircraft Club on October 30. The Cornell crowd had a substantial delegation.

Dr. Ira Altschuler, psychiatrist at the Eloise Hospital in Detroit, was the speaker on November 6.

ROCHESTER

At the luncheon on November 5 the speaker was Rabbi Philip S. Bernstein of the Temple Berith Kodesh. He told of his experiences in Rumania during the past summer, dubbing the recent history of that country "a fascinating comic opera."

WESTERN PENNSYLVANIA

President Farrand was the guest of the Club at a special luncheon held at the William Penn Hotel in Pittsburgh on November 6. The luncheon usually held on Friday of each week was advanced a day, inasmuch as President Farrand was to be speaking on November 7 at Washington and Jefferson College, at Washington, Pennsylvania.

Other guests at the luncheon were Dr. John G. Bowman, Dr. Thomas S. Baker, and Dr. Simon S. Baker, presidents, respectively, of the University of Pittsburgh, the Carnegie Institute of Technology, and Washington and Jefferson College.

ASHBERY MAKES FIRST TRIP

Visits Many Clubs in New York and the New England States

Ray S. Ashbery '25, in his position as Alumni Field Secretary, has just completed a trip in which he visited many of the Cornell clubs of New York State and eastern New England. On this trip Ashbery attended the regular meetings of some of the clubs, and in other places special meetings were called with a view toward club organization.

On the New York circuit meetings were held in Rochester, Lockport, Buffalo, Niagara Falls, and Jamestown. The meetings in Rochester and Buffalo were the regular luncheon meetings which are held weekly in those cities. At Lockport there was an evening meeting at which the local Cornell men and women gathered to hear the new Alumni Field Secretary tell of the latest news of the Campus. A regular meeting of the Cornell Club of Niagara Falls was held in the evening at the King Edward Hotel. At the meeting in Jamestown steps were taken for the organization of a new club, to include the alumni in that city and the surrounding territory.

On the second lap of this trip Ashbery met with alumni on Long Island, visiting the Cornell Club of Queens and Nassau County at its regular meeting on November 3. On November 5, a special group gathered at Huntington, to discuss plans for a definite organization of the alumni on all of Long Island.

Although later in the season Ashbery hopes to visit most of the clubs of New England, on the recent trip meetings were held in Massachusetts at Pittsfield and Springfield. The meeting at Springfield was a regular luncheon of the Cornell Club of Springfield, while the meeting at Pittsfield was a special meeting of the alumni of that vicinity. At that time plans were made for an organization meeting sometime in the near future with the view of forming a Cornell Club for Western Massachusetts.

Coming back into New York State, Ashbery attended meetings in Albany, Schenectady, and Utica. In Albany the Cornell Women's Club met for luncheon on November 8, at the State College. On November 10 there was a regular meeting of the Cornell Club of Schenectady. With Professor Bristow Adams, Ashbery was the guest of the Cornell Club of the Mohawk Valley at its regular evening meeting at the Martin Hotel, Utica, on November 12.

In early December the Field Secretary plans to attend meetings in New England. Later in the year he will make a trip through the Middle West and the South.

PERSONNEL BUREAU ESTABLISHED
IN CIVIL ENGINEERING SCHOOL

A personnel and placement bureau has been established for graduates of the School of Civil Engineering under the direction of Leonard C. Urquhart '09. Professor in charge of structural engineering, and member of the committee in charge of the School Members of the senior class are already being interviewed with the idea of gaining as much information as possible concerning the type of work for which they are best fitted or desire to enter.

Professor Urquhart plans to extend the interview system to juniors next and eventually to underclassmen.

Such a bureau has been maintained in the School of Mechanical Engineering for several years under the direction of Professor John R. Bangs, Jr., '21.

PHI BETA KAPPA ELECTS

OFFICERS FOR COMING YEAR

Professor Max L. W. Laistner of the Department of History was elected president of the Cornell Chapter of Phi Beta Kappa on November 12. Professor Otto H. Kinkeldey, librarian and professor of musicology, was named vice-president. Other elected named were Professor Robert P. Sibley, assistant dean of the College of Arts and Sciences, registrar; Robert P. Beaver, Grad., assistant in ancient history, treasurer; Dr. Milton D. Marx '21, instructor in English, secretary, and Wesley B. Carroll, Grad., instructor in English, assistant secretary.

Members of the executive committee include Dr. Adrian G. Gould, assistant medical adviser, and Professor Emeritus Millard C. Ernsberger, M.E. '08.

DEAN A. R. MANN AWARDED

DEGREE BY CALIFORNIA

Dean Albert R. Mann '04 of the College of Agriculture received the degree of LL.D. from the University of California on his recent visit to the Pacific Coast. The award recognized his services to the cause of rural education and rural social organization both in the United States and in Europe.

Dean Mann delivered the dedicatory address at the opening of Giannini Hall, the new University of California building housing agricultural economics.

CHARDON HEADS UNIVERSITY

Carlos E. Chardon '19 has been named chancellor of the University of Porto Rico at San Juan, succeeding Dr. Thomas E. Benner, who is now at Columbia University. He is the first Porto Rican to head the university. He will begin his duties in February.

Chardon is at present commissioner of agriculture in Porto Rico.

JUST LOOKING
AROUND

Buried in the week's news is the announcement that the Rifle Team, captained by Edward R. Collins '33 of Waverly, has been carrying on a shooting-match by mail. And who with, pray? Why, with the New York Stock Exchange.

Preparedness, happily, is the slogan of the financiers. As of old our pioneer fathers kept the trusty flintlock over the fireplace, ever ready for the foreign tyrant or the domestic cabbage-eating varmint, so today J. Pierpont Morgan keeps a Springfield in the men's wash room and Kuha and Loeb stack arms amid the adding-machines. Let the red flag be unfurled on Wall Street, let the strains of the Internationale sound above the crying of the curb brokers, and on the instant Messrs Dillon and Read will draw a deadly bead on the ringleaders. "A bulls-eye, boys!" they cry; "let's fight them as we fought Cornell!"

To be sure, they fought Cornell by mail. Thus the influence of chess is spreading to the sterner sports. Indeed, there seems to be no reason why rivals should not play golf by correspondence, nor why All-American Football teams of the year should not clash by typewriter. And there is a development of still greater importance to the world. If riflemen can shoot it out with the aid of the post, there seems really no reason for war.

When war-clouds lower in the Balkans, let the League of Nations intervene, to decree a war of extermination by Special Delivery. And when the heroes of Country A have annihilated the dastards of Country B, then Country B will be condemned to pay a round bit of reparations—by Postal Money Order.

RUNDSCHAUER

CORNELLIANs AIDING

CAMPAIGN FOR JOBLESS

Five Cornellians are included in the membership of a committee recently formed in New York to unify and strengthen the city's different programs for the relief of unemployment. The committee is headed by former Governor Alfred E. Smith.

The Cornellians are Henry Bruère '02, chairman of the New York State committee on stabilization of industry for the prevention of unemployment; Robert J. Eidlitz '85, president of the Eidlitz Building Construction Company; Frank E. Gannett '98, Trustee, publishers of the Gannett newspapers; George J. Hecht '17, secretary of the Welfare Council; and Myron C. Taylor '94, Trustee, chairman of the Finance Committee of the United States Steel Corporation.

CORNELL ALUMNI NEWS

ITHACA - NEW YORK

FOUNDED 1899

INCORPORATED 1926

Published for the Cornell Alumni Corporation by the Cornell Alumni News Publishing Corporation.

Published weekly during the college year and monthly in July and August: thirty-five issues annually. Issue No. 1 is published in September. Weekly publication ends the last week in June. Issue No. 35 is published in August and is followed by an index of the entire volume, which will be mailed on request.

Subscription price \$4.00 a year, payable in advance. Foreign postage 35 cents a year extra. Single copies twelve cents each.

Should a subscriber desire to discontinue his subscription, a notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance is desired.

Checks and orders should be payable to Cornell Alumni News. Cash at risk of sender. Correspondence should be addressed—

ALUMNI CORPORATION FACES BIENNIUM WITH CONFIDENCE

THE ALUMNI CORPORATION squared itself away to its new program of biennial conventions with a session, the first ever held at Ithaca, that in many ways surpassed those in more distant cities. The convention was essentially one of an informative nature. The presentation of the plans and hopes of the deans of Law, Architecture, and Engineering, and the fascinating summary of the entire situation by the President, could not, under ordinary circumstances, have been duplicated elsewhere.

Formal entertainment was, of course, less in evidence than at previous conventions, but the varied offerings of the hectic week-end in Ithaca made further events superfluous in such a calendar.

The Corporation faces a new period in its existence. It is obvious that there is much to be done, with comprehensive programs looking to an improvement in relations with secondary schools, to the securing of closer coordination of effort between the five present general alumni bodies having jurisdiction over parts of the alumni affairs of the University, and the investigation and perhaps initiation

of a service to the alumni looking toward a renewal of their educational contacts.

In this effort for the next two years the organization is fortunate in the choice by the Board of Directors of its new president, William W. Macon '98. Mr. Macon is a scholarly gentleman who has made Cornell alumni work his hobby. He has been identified with the work of the Corporation, the Council, the Class Secretaries, and the Alumni News for many years; with each of the bodies concerned in the coordination except the women's Federation. That this, the most difficult task for producing results, should be under guidance of this sort is fortunate indeed.

What and where the next biennial convention will be, none can forecast. The opportunity is there for the new officers to make the Corporation into an outstanding success, above even the high level of its recent history. We are confident that objectives will be worked out that will prove to be of value and interest to an increasingly high percentage of Cornell's growing alumni body.

The Dartmouth Game

(Continued from page 103)

cost, but was caught by Viviano on Cornell's 10-yard line. The play gained 65 yards.

Wilkin made two yards, and Frigard was stopped. Morton's pass grounded. Morton, on fourth down, tried a dropkick, but it went wide for a touchback.

Stevens kicked to Morton on Dartmouth's 41-yard line. Wolff completed a pass to McCall, back in the game, for 34 yards and a first down on Cornell's 25-yard line. Wolff passed to Connelly for a first down on the 15-yard line. Wilkin split through the line for a first down on the 5 yard line. Wilkin was stopped three times, and Morton was held on the 1-yard line on fourth down.

Stevens kicked to McCall on Cornell's 37-yard line. Wolff passed to McCall for a first down on Cornell's 5-yard line. Wolff was thrown for a 2-yard loss. Wilkin made a yard. Wolff passed to McCall for a touchdown. Wolff added the extra point. Dartmouth 19, Cornell 13.

Crehan kicked off, Pentecost returning to Cornell's 30-yard line. McCall intercepted Stevens' pass on Cornell's 42-yard line. The game ended with Dartmouth hitting the line for short gains.

The line-ups:
DARTMOUTH (19) CORNELL (13)
Mackey L.E Claggett
Goodwillie LT George
Bromberg LG Tullar
Andres C Riekert
Nims RG Hunt
Crehan RT C. Martinez-Zorilla
Branch RE J. Martinez-Zorilla
Morton QB Pond
Wolff LH Viviano
McCall RH Handleman
Wilkin FB Beyer

Score by periods:
Dartmouth 6 0 6 7-19
Cornell 6 0 0 7-13

Touchdowns: Cornell, Beyer, Handleman. Dartmouth, Wolff 2, McCall. Points after touchdown: Cornell, Hunt, Dartmouth, Wolff.

Substitutions: Cornell, Rothstein for C. Martinez-Zorilla, Pentecost for Beyer, Young for J. Martinez-Zorilla, Larson for Rothstein, Stevens for Pond, Lueder for Claggett, Wallace for Riekert, Hackstaff for Tullar, Skokos for Handleman. Dartmouth, Frigard for McCall, Stokes for Branch, Barder for Goodwillie, Hoffman for Nims, Connelly for Stokes, Kimball for Andres, McCall for Morton, Stokes for Connelly, Connelly for Stokes, Laughton for Frigard, Yudicky for Connelly.

Referee: E. J. O'Brien, Tufts. Umpire: E. F. Hughitt, Michigan. Linesman: H. Von Kersburg, Harvard. Field judge: A. W. Risley, Colgate. Time of periods: 15 minutes.

WIN AT SOCCER

The soccer team defeated Dartmouth, 3 to 1, in a closely fought game on Alumni Field November 14. The score was tied at 1 all at the half, but Dartmouth's defense weakened as Olditch and Thompson led scoring rallies into Green territory. Olditch scored early in the game, but Captain Eagan of Dartmouth tied the score just before the close of the first period.

At the start of the second half, Carvahlo dribbled down the field and passed to Thompson, who scored from in front of the net. The last score came with only five minutes left to play, when Olditch booted in a long goal.

CORNELL (3)	Pos.	DARTMOUTH (1)
McCullough	G	Beisel
Oest	LFB	Henry
Bennett	RFB	Flaccus
Winslow	RH	Seixas
Kappler	CH	Robinson
Donovan	LH	Moore
Thompson	OR	Hitchcock
Carvalho	IR	Eagan
Olditch	CF	Stollmyer
Williams	IL	Richardson
Larco-Dogny	OL	Leffrey

Goals: Cornell, Olditch 2, Thompson. Dartmouth, Eagan.

COMING EVENTS

SATURDAY, NOVEMBER 22
Cornell Dramatic Club. "Wings Over Europe." University Theatre, 8:15 P. M.

SUNDAY, NOVEMBER 23
Sage Chapel Service at 11 o'clock. The Rev. J. P. P. Sclater, D.D., Old St. Andrew's Memorial Church, Toronto.

TUESDAY, NOVEMBER 25
The Goldwin Smith Lectureship Charles Wellington Furlong, F.R.G.S., "Hitting the Trail in Masailand." Illustrated. Baker Laboratory, 8:15 P. M.

WEDNESDAY, NOVEMBER 26
Dinner and Smoker for all Cornell men. Kugler's Restaurant, 30 South 15th Street, Philadelphia, 7 P. M.

THURSDAY, NOVEMBER 27
Thanksgiving Day. University Recess Begins.

Football, Pennsylvania. Franklin Field, Philadelphia, 2 P. M.

Soccer, Pennsylvania at Philadelphia.

MONDAY, DECEMBER 1
University Recess Ends.

THE WEEK ON THE CAMPUS

THE DARTMOUTH game was enough to restore one's faith in football. I haven't enjoyed a game so much since I stopped reading St. Nicholas.

AN ATHLETIC event of much intrinsic interest though of strictly local fame is the annual interfraternity cross-country run. A pack of about a hundred run a 2 $\frac{3}{4}$ -mile course, largely for the pleasure of stripping to the buff (I must look up that word buff some time) and running like a wild thing over the hills in the crisp autumn air. Markoe O. Kellogg '32 of Jackson Heights was first. Being followed at some distance by two team mates, he brought in the championship for Zeta Psi. Joseph R. Mangan '34 of Rutland, Vt., independent, was second. The independents, who could expect no team trophy, were in it for the sport of the thing. And what a funny thing that is to say about Sport!

THE DARTMOUTH game was the nucleus for plenty of other delightful events. A good many houses held parties; a vast number of alumni returned for the day. A large dance was held in the Drill Hall on Friday evening, for the benefit of the Band. Judging by the heart-stirring exhibition at the game Saturday, the Band was benefitted.

THE DRAMATIC CLUB scored one of its greatest successes in its production of "Wings Over Europe," by Robert Nichols and Maurice Browne, one of the most interesting of recent Theatre Guild experiments. It is daring in its defiance of the prudent rules of theatrical success. There is not a woman in the cast and the characters spend most of the play sitting down around a long table. The audience must be held by the intrinsic interest of the play itself. For the skillful rendering of this interest much credit must be granted, especially to Robert R. Pierce '34 of Rochester, Robert J. Harper '31 of Charlotte, N. C., and John L. Niles '32 of New York, actors, to Aristide d'Angelo '23 and Walter H. Stainton '19, coaches, and to John W. McCoy '33 of Wilmington, Del., the stage designer.

A BIG MUSICAL WEEK. The Lener String Quartet on November 12 played Schubert, Haydn, Beethoven, and Tchaikovsky like the masters they are. The Budapest, London, and Roth Quartets are to follow, making an unexampled series of chamber music concerts.

THE HAMPTON INSTITUTE Quartet of singers on November 13 gave a recital in Bailey Hall, under the auspices of the C. U. R. W. The audience was large and appreciative.

MARIE POWERS '23, contralto, sang in Willard Straight Memorial Hall on Sun-

day afternoon. Miss Powers has been having a remarkable series of successes in Italy and elsewhere, under the stage name of Maria d'Aloisio. At Milan she was a member of the La Scala Opera Company, being selected for the Wagner cycle by Toscanini; at Perugia she gave a concert in the cathedral; in Florence she sang the contralto part in the Stabat Mater of Scarlatti, under the direction of Alberto Franchetti, with a chorus of five hundred voices and orchestra. She has sung in Rome, Brussels, Vienna, Biarritz, San Sebastian, Zermatt, Venice, and the First Presbyterian Church of Ithaca. She is now in Ithaca going over her English and American repertoire with Mr. and Mrs. Eric Dudley, her former teachers, in preparation for a concert tour of the Eastern cities, beginning in Boston in December.

THE SHORT COURSE in agriculture numbers 64 this year. Three years ago we recorded with astonishment that the enrollment had dropped to 112. Back in the teens of the century (there were 597 registered in 1912) the arrival of the short-horns was the jest of the Campus, among those who had been in residence for two months. Now the undergraduates do not know what "short-horn" means.

THE WALKER-GORDON Corporation, headed by Henry W. Jeffers '98, has developed an appalling machine called the Rotolactor. "It includes a revolving circular platform 60 feet in diameter, on which 50 cows are washed, dried, and milked while it makes one revolution. The process takes 12 minutes per cow, and the 1680 cows on the farm are cleaned and milked automatically three times a day. Each cow comes through a passage from her barn, and steps on to the platform, an automatic stanchion closing about her neck. After the process, during which the milk is passed up into glass containers to be measured, and then through pipes to the next room, the cow steps off the platform and returns, without guidance, to her place in the cow barn an eighth of a mile away." Well, only God can make a cow, up to the time of going to press.

MORE WONDERS. Clarence S. Lomax '91 has invented, after eight years of experiment, a process for the conversion of bituminous coal into anthracite on a large commercial scale. It duplicates in a few hours the million-year method of Nature. A plant will shortly be opened in Chicago with a daily capacity of six hundred tons.

"HOW SHALL THE TEACHER open the windows of Goldwin Smith at the beginning of a class? . . . The utter novice tugs at the bottom sash, which is often

wider than his own length; an operation rather like trying to lift an elephant by its bootstraps. . . . An older hand casts about the chamber for the window-rod or sky-hook. . . . If a rod can be found, the wielder's troubles have only begun. He must contrive to make it catch on one of the upper sash bars, which are already scarified and worn to splinters by the rending of the hook. Or possibly he will find at the center of the top a socket intact, into which the hook can be fitted without greater skill than would be required to thread a needle, say, with a pair of pinchers six feet long. Which ever he does, it requires extraordinary gymnastics, gives him a stiff neck, and puts the class in a jovial humor, not altogether receptive of intellectual ideas. The fitting of the hook does not end the matter, for it now takes a substantial downward pull to make the window respond. With a heavy window and a light instructor, this makes it necessary for the operator to get practically off his feet and swing by the rod. The window usually yields, but the hook more usually slips and crashes with horrid force against the pane. It seldom breaks the glass, but the instructor rather wishes it would; this would solve the ventilation problem for several days and relieve his feelings at the same time. . . .

"A class never gets used to having the windows opened. Perhaps the surest way to catch its attention is to leave one's post at the desk and stride down an aisle to do something to the air supply. When a teacher finds that he can do this without being visibly disconcerted or abating a syllable of his discourse, he begins to have a sense of power. Soon he will think himself supreme over his room and its furniture, and will flourish his window-rod like a sceptre or a lance, enjoying its manipulation so much that he will purposely open windows too wide, that he may shut them later when boys begin to shiver aloud and girls to subside into their furry collars. He will feel perfectly at home at last and will have a confident sense of being an experienced, capable teacher. But his students will always consider his window-tinkering a strange mannerism, and most will regard him as a rather ordinary, well-disposed, but often boring individual, just as before."
—John J. Elson in *The Columns*.

"IT WILL CONTINUE to happen until the world is in arms again and men are killing each other and mothers are scanning the casualty lists again and bread is being made with everything but eggs and butter and milk."—*The Cornell Sun*. Remember that flour bread we used to get during the War? M. G. B.

The Alumni Convention

(Continued from page 107)

The remainder of the afternoon was devoted to presentations covering the developments and plans of three colleges. Dean Burdick spoke for the College of Law, Acting Dean Herman Diederichs '97 for the College of Engineering, and Dean George Young, Jr., '00, for the College of Architecture.

President Farrand as the final speaker emphasized the desirability of making it possible for representative alumni to secure first hand information of University problems such as had been presented by Dr. Bradford and the three deans. He only expressed his regret that it was not feasible to have all the colleges represented in such a symposium, and to have a larger number of alumni present to hear their messages.

The convention adjourned after a statement of policy by the retiring president and with the adoption of resolutions of appreciation of the services rendered by Mr. Blarcom and the local committees on arrangements.

THE LIBRARY BOOK FUNDS

The money available in the general funds for the purchase and binding of books and periodicals for the year 1930-31 is \$32,426.60. This total comprises the amounts appropriated from the estimated income from the Sage and Fiske Funds by the Trustees for the current year, and the accumulated balance not expended.

At the meeting of the Library Council held October 22, the sum total allowed for current purchases was \$20,725, leaving a balance in the Sage Fund of \$1,313.55. This balance is held as a reserved fund, chargeable with certain continuations from former grants, and for special grants.

From the Fiske Funds by action of the Trustees, provision is made for binding periodicals, books, etc. For this purpose \$5,000 was appropriated and also a special grant of \$1,000 to cover deficit in binding fund, leaving a balance in this fund of \$4,388.05.

There remains at the disposal of the Council for special grants, to provide for unusual needs, the sum of \$5,701.60, the balance of the Sage and Fiske Funds.

The income from special funds for the year follows:

Fiske Fund for Dante & Petrarch Collections	\$423.84
Fiske Fund for Icelandic Collection	596.81
Flower Library Fund	1,081.37
Barnes Library Fund	1,052.62
Comstock Memorial Library Fund	165.79
Lucy Harris Victorian Poets Fund	113.90
Irving P. Church Memorial Fund	155.43
Botsford Memorial Fund	40.72
White Warfare of Science Fund	23.67
Emil Kuichling Fund	494.14

Van Cleef Memorial Fund	1,405.57
Wason Chinese Fund	2,000.00
Rollin A. Harris Fund	3.81
Schiff Fund	311.50
Risley Hall Library Fund	52.40
Howland Fund	163.83
Anonymous book fund for use of Chemical Library	286.56
Benno Loewy Fund	50.00
President White Library	800.00
Goldwin Smith Hall Book Fund	241.27

BOOKS

Design of Steel Structures. By Leonard C. Urquhart '09, Professor in Charge of Structural Engineering, and Charles E. O'Rourke '18, Assistant Professor of Structural Engineering, Cornell. New York. McGraw-Hill Book Company. 1930. 23.5 cm., pp. x, 448. About 240 figures. Price, \$5.

This is an excellent book for the student, and for all of those who are engaged in the preparation of plans for steel structures from the designer down to the tracer. Aside from the chapter on Welding, there is little new material presented, but the principles and details of design, particularly the latter, are set forth very clearly. The various steps in design can be easily followed by the student of design without assistance. This clearness of detail will be appreciated by all engineers who are familiar with the many perplexing questions which arise in the mind of the engineer engaged in designing his first structures.

The chapter on Welding is timely and complete, and so far as the writer knows, it represents the first presentation of this subject in a textbook. The Appendices containing various Specifications for the Design of Steel Structures will be very welcome to those who are engaged in teaching the subject of design, as such specifications usually have to be obtained separately from the text. On its merits this book should have wide adoption as a text, and is worthy of a place on the reference shelf of every engineer interested in the design of steel structures.

BOOKS AND MAGAZINE ARTICLES

The Michigan Alumnus for October 18 includes a portrait of David E. Mattern '15, who has just become professor of public school music in the University of Michigan School of Education and conductor of the University Symphony Orchestra. There is also a portrait of Professor Morris Copeland, who becomes professor of economics at Michigan this fall, and of Dean Ora M. Leland, Michigan '00, formerly of Cornell, now of the University of Minnesota.

A report on applications for admission to schools of medicine of the United States and Canada in 1929-30 read by Dean Burton D. Myers, A.M. '00, of the

Indiana University School of Medicine at the fortieth annual meeting of the Association of American Medical Colleges, was published in the Journal of the Association for March and thence reprinted.

In The Stevens Indicator for October 15 Professor Vladimir Karapetoff prints an address on "Why Study Mathematics?" delivered at Stevens Institute on September 17.

The article on "College for Two" by Dr. Hendrik W. Van Loon '05 in the current Rotarian is reproduced in The Northwestern Alumni News for November.

Professor Charles A. Ellwood '96 of Duke has contributed to the volume on Behaviorism: a Battle Line (Nashville, Tenn., Cokesbury Press, second printing, 1930) a chapter entitled "The Uses and Limitations of Behaviorism in the Social Sciences."

In The Wellesley Magazine for October Professor Louise Sherwood McDowell, A.M. '07, Ph.D. '09, of Wellesley writes on "The Here-Now and the Absolute Past of Physics."

In The American Journal of Botany for July Professor Arthur J. Eames and Carl J. Wilson wrote on "Crucifer Carpels."

In The Dartmouth Alumni Magazine for August E. Vivian Simrell '24 wrote on "Debating at Dartmouth."

In Extension Service News for November Professor George F. Warren '03 discusses "The Agricultural Depression."

In The Cornell Contemporary for September 22 Professor Vladimir Karapetoff writes on "The Roll of Physical Science." André P. Pelmont, Grad., has an article entitled "Now That the War is Twelve Years Old—." Foster M. Coffin '12 describes "A Focal Point for All Students"—Willard Straight Hall, of course. Smith Simpson reviews Owen Wister, Roosevelt: the Story of a Friendship. Professor George E. G. Catlin, Ph.D. '24, reviews Wilhelm Dibelius, England. In the issue for October 10 Professor Albert W. Boesche discusses "The Hopeless Chaos in German Politics." Professor Paul R. Pope describes "Cultural Aspects of Present-Day Germany." Smith Simpson reviews Harold Nicholson, Portraits of a Diplomatist. Christopher Oakes writes on "President Von Hindenberg." E. T. reviews Mary E. Townsend, The Rise and Fall of Germany's Colonial Empire, 1884-1918.

In The Cornell Countryman for November Wilbur F. Pease '31 describes "A Summer at Old Acres." Professor Charles A. Taylor, under the title "Cornell Goes Visiting," describes Cornell's daily message to the farms from WEAI. Helen Cotter '33 and George A. Earl, Jr., '31 describe "The International 4-H Leaders' Training School." Robert S. Jonas '32 discusses "Business Methods on the Farm." There is a portrait and obituary of Mrs. Comstock.

THE ALUMNI

'84 AM, '85 PhD—Professor John C. Rolfe, Harvard '81, who since 1902 has been professor of the Latin language and literature at the University of Pennsylvania, on August 4 in Rome received the Italian Order of the Crown with the title of Commendatore.

'94 ME, '08 MME—Professor William B. Gregory of Tulane is a member of the Advisory Committee on the new National Hydraulic Laboratory. With John R. Freman, chairman of the Committee, he spent part of the past Summer in inspecting some of the more important hydraulic laboratories of Germany, Switzerland, and other European countries.

'96 PhD—Dr. E. Dana Durand, lately chief of the Division of Statistics and Research of the Department of Commerce, on November 1 took charge of the statistical work of the Tariff Commission.

'97 AB, '30 PhD—Florence M. Foster is acting head of the English department at Bethany College in Lindsborg, Kansas.

'01 MME, '05 PhD—Adams S. McAllister, recently in charge of the specification work of the Bureau of Standards at Washington, has been made assistant director of the Bureau in charge of commercial standardization.

'02 LLB; '25 AB, '27 LLB; '27 AB, '29 LLB—The firm of Stagg and Heath in Ithaca, of which C. Tracey Stagg '02 and Riley H. Heath '12 were members, has been dissolved following the election of Mr. Heath to the Supreme Court bench and his necessary retirement from active practice. Mr. Stagg has formed the new firm of Stagg, Thaler, and Stagg, with his son Norman G. Stagg '27 and Louis K. Thaler '25. Thaler has been with Stagg and Heath since 1927. Norman Stagg has been associated with the firm since September.

'05 ME—Howard Dingle is president of the Cleveland Worm and Gear Company and treasurer of the Dingle-Clark Company, contracting engineers. His address is 2699 West Scarborough Road, Cleveland Heights. The Dingle-Clark Company is installing the electrical work in Myron Taylor Hall, under the supervision of Henry M. Beatty, E.E. '22. Other Cornellians associated with Mr. Dingle are Charles W. Dietrich, Jr., M.E. '18, Edwin A. Leibman, M.E. '18, and James D. MacQueen, M.E. '27.

'05 PhD—Dr. Emil C. Wilm is acting professor of philosophy at Stanford during the absence on leave of Dr. Harold Chapman Brown.

'06 ME—William S. Bishop last year completed twenty years of service as engineer for the Massachusetts Lighting Company. His address is 77 Franklin Street, Boston.

'09 ME—James W. Cox, Jr., a member of the firm of Cox, Fuller and Mavers-

berger at 320 Broadway, New York, has recently become vice-president and general manager of the Sibley Manufacturing Company and of the Enterprise Manufacturing Company, and is now in Augusta, Ga., where they are located. His address is 928 Johns Road. He spends one week a month at his office in New York.

'10, '11 CE—Frederic Vieweg is vice-president of the American Potash and Chemical Corporation, at 233 Broadway, New York.

'11 ME—Ralph E. Chapman, who is in the marine salvage business in Philadelphia and Baltimore, has recently perfected the Electric Underwatch Torch for cutting steel plates, sheeting, copper, and brass, and cast iron at all depths that can be reached by a diver. His office is at Room 1543, 17 Battery Place, New York.

'11 AB—James S. Elston, assistant actuary of the Travelers Insurance Company, in June read a paper on "Advantages of Non-Participating Life Insurance" before the Ninth International Congress of Actuaries in Stockholm. The paper is to appear in the Proceedings of the Congress.

'13 AB—Sophie M. Becker is teaching in the Forest Park High School in Maryland. She lives at 4015 Dorchester Road, Baltimore.

'15 AB—Mr. and Mrs. Joseph Currie of Brooklyn have announced the marriage of their daughter, Elsie Eakins, to Edmund L. Judson, Jr., '15, on September 26.

'15 ME—Robert Bartholomew is underwriting aviation insurance for the Independence Indemnity Company in Philadelphia. He lives at 7821 Montgomery Avenue, Elkins Park, Pa. He has five children. The eldest is twelve and the youngest, David, is nearly two.

'16 CE—Henry A. Foster is an engineer with Parsons, Klapp, Brinckerhoff and Douglas at 142 Maiden Lane, New York. He lives at 308 Academy Street, South Orange, N. J.

'17 AB, '24 PhD—James A. Kennedy is assistant professor of bacteriology at the School of Medicine and Dentistry of the University of Rochester, and is associate director of the Rochester Health Bureau laboratories and of the Strong Memorial and Municipal Hospital laboratories.

'17, '23 CE—David H. Blakelock is a major of cavalry in the Army, in charge of Army reserve activities in the vicinity of Norfolk, Va. His address is 1534 Morris Avenue. He has three children, Jean, aged twelve, John, aged eight, and David, who is six.

'19 LLB—Frederick E. Bailey, for the past three years with the Liberty National Bank as new business representative, is now with the Sterling National Bank and Trust Company in New York in a similar capacity.

'26 BS; '27 CE—A son, Robert Ogden, was born on October 20 to Clark E. Wallace '27 and Mrs. Wallace (Helen

Ogden '26). They live at 157 Hudson Avenue, Red Bank, N. J.

'26, '27 EE—Gifford L. Weston since graduation has been in the Boston office of the Stone and Webster Engineering Corporation. At present he is serving as office engineer for the Rock Island development on the Columbia River. He lives at 25 Saxon Road, Newton Highlands, Mass.

'26 AB—Frederick H. Schroeder is a statistician with Lee, Higginson and Company at 37 Broad Street, New York. He lives at 7 Concordia Place, Bronxville, New York.

'26, '28 BS—A daughter, Elizabeth Ann, was born last March to Dr. and Mrs. William W. Sutherland. Mrs. Sutherland was Elizabeth Farnum '26. They live at 346 Seventeenth Avenue, Paterson, N. J.

'26 ME—Percival L. Callan is assistant to the manager of the Franklin, Pa., plant of the Chicago Pneumatic Tool Company. He lives at 1198 Otter Street.

'26 EE—Archibald E. Stevenson '26 was married on October 10 in Schenectady, N. Y., to Laura E. Kelle.

If you arrive at our hostelry with mental or physical cobwebs..

YOU will find on our second floor the Roosevelt Health Institute, which will help brush those cobwebs away.

The Institute contains a complete gymnasium, steam room, massage room, showers, swimming pool, and all sorts of modern exercising machines. An ex-lightweight wrestling champion and former Yale coach is our physical director; and a medical staff, which supervises and prescribes, is in entire charge.

This is just one of the extra features we offer you when you visit our hotel.

Another thing—and one that will enchant your wife—is the Teddy Bear Cave for children, where she can leave the happy youngster under the competent supervision of a Play Lady.

We believe you'll enjoy your stay with us. We're conveniently located. We have all the modern equipment, comfortable and attractive rooms, and efficient, courteous service that every good hotel today *must* offer the modern traveler.

But we also believe that you will appreciate the little *extra* things we try to do to make you happy.

Won't you come and stay with us next time you visit New York?

The ROOSEVELT

MADISON AVENUE AT 45TH STREET

EDWARD CLINTON FOGG—*Managing Director*

'30 CE—Lawrence G. Mohr is taking graduate work at the Massachusetts Institute of Technology. His address is Box 222, M. I. T. Dormitories, Cambridge.

***“A Counsellor of Good Things—
A Comfort in Cares and Grief”***

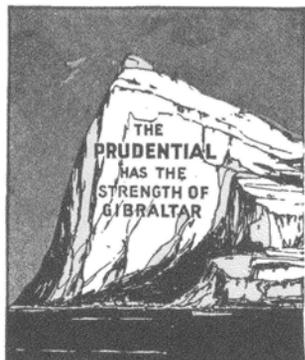

This quotation from the great Book of Wisdom might well be the description of a modern salesman of life insurance.

He is your friend.

*He takes his work seriously,
advises his prospect
honestly and is prompt and
sympathetic when an
emergency arises.*

He *Believes* in Life Insurance;

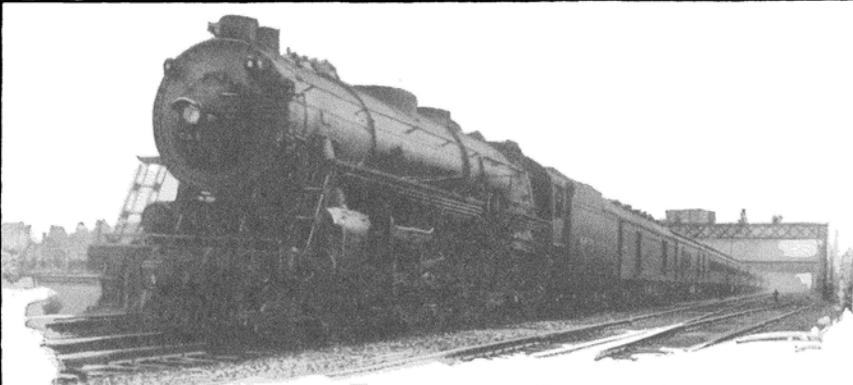

He *Knows* its value.

John Hancock Series

Dependents (Your dependents) must have an income

How much of an income have you guaranteed for your dependents in case of your death? Take pencil and paper and actually figure the income yield on your present estate.

A John Hancock agent can tell you how to immediately increase your estate through life insurance, and figure out exactly how much you must lay aside from your present income to make it come true.

When you Come Back this Fall

MAKE the Co-op your meeting place. You will want information. You will want supplies. You traded at the Co-op while in college and were well pleased. Every year more and more come to the Co-op. Let us serve you when you come to Ithaca or by mail.

Bring the Camera Along

THERE are many pictures to be taken around the Campus as well as at the game. The Co-op sells Eastman film and can be of service to you in other ways.

\$3.75 *five-inch bronze Cornell
Shield mounted on Oak*

THERE are only thirty-five left now. They will soon be gone at this very low price. The price is f.o.b. Ithaca and we prefer to ship these by express. Act now if you are interested.
