CORNELL ALUMNI NEWS

VOL. XXXIV NO. 13

ITHACA, NEW YORK, DECEMBER 17, 1931

PRICE 12 CENTS

To Build Mennen Hall

New Unit in Men's Dormitory Group Made Possible by Memorial Gift of \$100,000 in 1921

William G. Mennen '08 of Newark, N. J., and his sister, Mrs. Elma Mennen Williams, are the donors of a fund of \$100,000 to be used for the erection of Mennen Hall, a men's dormitory as a memorial to their parents, Gerhard Mennen and Mrs. Elma C. Mennen.

The identity of the donors of this fund, which was originated in 1921, was made public when the Crowell and Little Construction Company of Cleveland, Ohio, was awarded the building contract.

Mennen Hall will be a new unit of the Men's residential halls. The first intimation that it would be constructed came about a month ago when bids were advertised. It was believed by University officials that the time was propitious for building.

The income of the fund has been available to the University since it was established in 1921. Because of prevailing low prices for building construction and of a desire to aid the relief of unemployment, the Board of Trustees called for bids. All bids revealed that the principal sum of \$100,000 was ample for the erection of the unit.

Excavation will begin at once, and it is expected that the Hall will be ready for occupancy at the beginning of the first semester of 1932-33.

The Hall is to be located on West Avenue between Founders Hall and Lyon Hall, the latter a unit of the War Memorial group dedicated last May.

The new building will be four stories high and will be constructed of native stone in the same style as other units. The entrance will be from the terrace side, reached by a passageway between Mennen and Founders Halls. The building will house 36 students.

The men's residential halls now house 567 students, distributed as follows: Baker Court, 191; Boldt Hall, 58; Boldt Tower, 16; Cascadilla Hall, 140; Founders Hall, 61, and War Memorial Towers, Lyon, and McFaddin Halls, 101. Seventy-one men students are also living in other University-owned buildings.

Mr. Mennen, the co-donor, graduated in mechanical engineering. He was a member of Phi Gamma Delta, the Freshman Banquet Committee, and the John F. Moakley House Fund Committee.

DESIGNER OF EARLY STONE

CARVINGS HERE IS DEAD

The death on December 4 of Lewis J. Hinton at the age of eighty-six, a man recognized internationally as an artist in stone design, recalls his association with the early days of Cornell.

It was through the influence of Goldwin Smith that Mr. Hinton came to Ithaca in 1869 to design stonework on the first University buildings. It is said that he was a friend of Goldwin Smith at the time he was tutoring the then Prince of Wales, who later became King Edward VII.

Referring to Goldwin Smith, in his Autobiography, Andrew D. White wrote, "On his arrival in Ithaca, just after the opening of the University, he had seen that we specially needed thoroughly trained artisans; and he wrote to his friend Auberon Herbert, asking him to select and send from England a number of the best he could find. Nearly all proved of value. . ."

Later on, with Andrew D. White, Mr. Hinton represented the United States at the World Exposition of Stone Design in Vienna, where he was a guest of the Austrian Emperor. He has recently been in charge of designs of the stone work on the Cathedral of St. John the Divine.

CHI EPSILON ELECTIONS

The following students in civil engineering have been elected to membership in Chi Epsilon.

Harold D. Craft '32, Bernardsville, N.J.

Bernard L. Falk '32, Philadelphia, Pa.

Myron R. Jones '32, Canton, Ohio.

Douglas C. Reybolt '32, Denver.

Kenneth L. Roberts '32, Ithaca.

Donald F. Hackstaff '32, Huntington, N. Y.

David H. McKinley '32, Lakewood, Ohio.

John. A. McLaughlin, Jr., '33, Brooklyn.

George B. Schoolcraft '33, Ottawa, Ill.

Hezekiah C. Scritchfield '33, Wilkesburg, Pa.

Robert M. Adams Dies

Death Takes a Man Widely Known and Loved Especially by Boys and Girls He Taught

Professor Robert Morrill Adams, poet, raconteur, and widely known teacher of boys and girls, died on December 12 at the Homeopathic Hospital in Philadelphia following an ear operation. For the last month he had been slightly ill after a sudden collapse and he left Ithaca on December 2 to enter the hospital.

Born 50 years ago in Hill, New Hampshire, Professor Adams, better known as "Bob" Adams was the son of the Rev. Franklin Elihu Adams and Mary Parker Adams. His higher education was obtained at three institutions, beginning with a B.A. and a B.S. degree from Lebanon University, Lebanon, Ohio. Yale University gave him the degree of Bachelor of Arts, and he took a Master's degree at Columbia.

His career as a teacher began in Lebanon, Ohio, where he taught in the public schools. For six years, also, he gave courses in science in various schools in the Philippine Islands, including the Manilla Normal School. On his return to the United States, he became principal at Vineyard Haven in Martha's Vineyard, Mass.

The government called Professor Adams to service as examiner in the U.S. Civil Service Commission. Afterward he was transferred to the Department of Agriculture where his specialty was agricultural education.

In January, 1920, Professor Adams first came to Cornell, where he was put in charge of the extension work in home gardening. His connection with the 4-H Clubs of New York State began at the time when he was put at the head of garden work. His excellence as a teacher of boys and girls gained him wide affection, and the bulletins he issued on gardening are in great demand all over the United States.

One of his colleagues has spoken of Professor Adams as "the most successful teacher of boys and girls" he has ever known.

Perhaps the greatest fame had come to the Cornell professor through the wide publication of his "Rude Rural Rhymes," verses about simple [Continued on page 153]

ATHLETICS

BEAT QUAKERS AGAIN

The football team closed its season December 9 by winning a decision over Pennsylvania in the charity round-robin tournament in Yankee Stadium, New York. The teams played to a scoreless tie in two 24-minute periods.

In the first game, Columbia defeated Princeton, 13-0. The scheduled playoff between the winners was abandoned because of the weather.

A pouring rain turned the field into a sea of mud and limited the attendance to about 8,000. Cornell played without Viviano, Ferraro, and Kline in the backfield and Captain Cristobal Martinez-Zorrilla and Penny in the line.

The team won the decision on points, the judges giving Cornell 279 to 206 for Pennsylvania. Yardage gained, first downs, completed and intercepted passes, and blocked kicks were all valued.

The Red and White kept the ball in Pennsylvania territory throughout the game, but could not penetrate beyond the 30-yard line.

Beyer, the only backfield regular to start, ran the opening kickoff back to Cornell's 30-yard line. Rushes netted a first down before Handleman punted to the Quaker 6-yard line. On a Pennsylvania kick, Cornell put the ball in play on Pennsylvania's 40-yard line.

Cornell got as far as the 30-yard line by rushing, but the offensive bogged down, and a kick went out of bounds on the Quaker 12-yard line. Perina gained 10 yards, but Pennsylvania was penalized 15 yards for holding. A long punt by Perina gave Cornell the ball on its 30-yard line. A pass, Handleman to Jose Martinez-Zorrilla, gained a first down at mid-field; then Handleman was forced to kick. Later he intercepted a pass and ran to Pennsylvania's 30-yard line as the first half ended.

Perina intercepted Handleman's pass to start the final period and got back to Pennsylvania's 40-yard line. Perina's punt gave Cornell the ball on its 32-yard line and a 15-yard penalty against the Quakers set them back to Cornell's 47-yard mark.

Cornell could not gain, and Handleman punted to Burnett on Pennsylvania's 13-yard line. Pennsylvania, led by Perina and Onderdonk, registered two first downs by rushing, but Perina's fumble ended the drive, Cornell getting the ball on downs on Pennsylvania's 43-yard line.

Smith ran 11 yards to Pennsylvania's 32-yard line. Four more plays failed to gain, and a punt went over the goal line. A return punt went out of bounds on Pennsylvania's 42-yard line. Cornell

again punted. Onderdonk gained 15 yards from the Quaker 20-yard line, but fumbled, Cornell recovering as the game ended.

On the point system, Cornell was awarded 30 points for three first downs in its own territory, 24 for two first downs in Pennsylvania territory, 195 for 215 yards gained, minus 20 yards for penalties, 10 for an intercepted pass, and 20 for two Pennsylvania fumbles recovered.

Pennsylvania's total of 206 was earned by three first downs in its own territory, 30; 211 yards gained, minus 45 for penalties, 166, and an intercepted pass, 10.

BASKETBALL STARTS RAGGEDLY

The basketball team lost to Niagara, 33-27, in its opening game on the Drill Hall court December 12. Niagara, in full command of the game all the way, reversed last year's defeat of 34-32.

The Red and White five, shifted constantly throughout the game, failed to display any teamwork and its shooting, both from the field and the foul line, was weak. The pivot play beat the team. Scully, Niagara center, scored three baskets early in the first half as Kopaczynsk, Cornell center, failed to check his maneuvers under the net. Voelker replaced Kopaczynsk and effectively halted Scully's scoring, but in the second half, Flynn, Niagara right forward, broke loose with five baskets to keep the Cataracts well in the lead.

Cornell's play was slow; the team lacked an aggressive offensive. Niagara's passing, with Captain Sweitzer the key man, kept Cornell away from the ball for minutes at a stretch. From the foul line, Cornell was particularly weak. The team scored only 7 points in 17 attempts, while Niagara made good on 7 of 12 tries.

The visitors ran up a 7-point lead before Voelker caged one from the foul line. Led by Sweitzer and Scully, Niagara ran the score to 18-9 before Cornell rallied and scored 4 points on baskets by Hatkoff and Lipinski. Flynn ended the first half scoring with an easy shot after a tipoff near the Cornell goal, and Niagara held the lead at 20-13.

To score the first goal of the second half, Lipinski engineered a pivot and Wickel added a single on Sweitzer's foul. With Flynn breaking loose with 7 points and Sweitzer with 2, Niagara assumed a 29-16 lead before a rally led by Wickel and Lipinski netted Cornell 8 points.

Flynn broke up the rally with a field goal after a cut and, after Reed and Lipinski added 3 for Cornell, scored another on a center shot.

Lipinski led Cornell in scoring with 11 points and was the spearhead of the attack. Wickel, a sophomore, played well. Cornell changed the line-up frequently and one combination never worked together longer than five minutes.

BASKETBALL SCHEDULE

The basketball team will play 20 games during the coming season and will oppose the University of Illinois for the first time in history during a holiday trip to the Middle West.

The season opened with Niagara December 12. Clarkson Tech was Cornell's opponent on December 16.

Beginning December 19, the squad will begin a series of five out of town games, with Rochester, Buffalo, Illinois Wesleyan, the University of Illinois, and Michigan State as opponents.

After the Christmas recess, Cornell will meet Colgate at Hamilton and will then begin its Eastern Intercollegiate Basketball League campaign against Princeton at Princeton. With two exceptions, the Alfred and Syracuse games, the rest of the schedule is limited to league teams.

One noteworthy change in the schedule brings the Princeton five to Ithaca for the Junior Week contest February 13. For years, Pennsylvania has furnished the Junior Week opposition, but a change in league schedules this season brings the Quakers to Ithaca in March.

The schedule:

December 12, Niagara at Ithaca; 16, Clarkson Tech at Ithaca; 19, Rochester at Rochester; 21, Buffalo at Buffalo; 31, Illinois Wesleyan at Bloomington.

January 1, University of Illinois at Urbana; 2, Michigan State at East Lansing; 6, Colgate at Hamilton; 9, Princeton at Princeton; 16, Columbia at Ithaca; 19, Syracuse at Ithaca; 23, Yale at Ithaca.

February 10, Alfred at Ithaca; 13, Princeton at Ithaca (Junior Week game); 16, Dartmouth at Ithaca; 20, Pennsylvania at Philadelphia; 27, Dartmouth at Hanover; 29, Yale at New Haven.

March 5, Pennsylvania at Ithaca; 12, Columbia at New York.

JUST LOOKING AROUND

SITTING in the smoking room of the University Club, we were discussing the experiments of Professor Bancroft and Dr. Rutzler (reported in our issue of October 15). The experimenters developed their proposal for the treatment of the insane through experiments on the sensitive plant.

"I once had in my house a sensitive plant, the common *mimosa pudica*," said the Professor of Dogmatic Theology. "It always amused people to give its leaves a fillip and watch them curl up. I kept the thing out of the way under a table, and when I went by I would tweak its leaves or pinch it. The leaves would close up and seem to shrink, and the whole stalk recoil away. It gave you a laughable impression of fear.

"Well, one day when a whole group of people were badgering the poor plant, taking turns snapping at it, I began to wonder if, perhaps, its almost neurotic sensitiveness was not exaggerated by the

treatment of the creature. Perhaps the whole trouble of the poor little mimosa was an inferiority complex.

"I decided to release this inferiority complex, and to restore, if I could, the normal condition of self-respect. I removed her from her dark station, and set her in the middle of the dining-room table. I arranged a circle of cut flowers around her, renewing them daily. I packed about her stem the finest of fertilizer; I watered her with eau de Cologne. Naturally no one was allowed to touch her leaves. Well, she bloomed and grew more arrogant every day. In the spring I cross-fertilized her with a cactus. You know about sex repressions—.

"But some blunderer was sure to come along and interfere. A student, a loud-mouthed, heavy-handed, coarse-minded brute who seems to be engaged to my daughter, perceived my little *mimosa pudica*. 'Ah, a sensitive plant!' he cried. Before I could stop him he reached out his hand and dealt the innocent plant a smack on the open leaves.

"Gentlemen, I give you my word, that sensitive plant leaned over and bit him!"

"I should like to see one of these professional hockey games sometime," said the Professor of Micro-Philology, after a pause. RUNDSCHAUER

TRUSTEE ON PARK COMMITTEE

J. DuPratt White '90 is a member of the committee appointed by the State Council of Parks, at the behest of Governor Roosevelt, to preserve the scenic slope of Mount Taurus on the Hudson River, in Putnam County. The committee considers that the mountain would be a valuable addition to the State's park preserves.

Mount Taurus, as a beauty spot, is being threatened by the erection of a quarrying plant and the committee therefore recommended that the Legislature at its next session appropriate funds to purchase the threatened property.

IN The American Historical Review for October Professor Preserved Smith reviews Albert Hyma, The Youth of Erasmus.

IF THE WEATHER GODS DECREE A WHITE VACATION

BOOKS

A GOOD BOOK ON TEACHING

The Church School in Action. By Arthur Kendall Getman '11. New York. The Abingdon Press. 1931. 19.2 cm., pp. 178. Price, \$1.50.

The old-fashioned Sunday-school was a rather dreary and futile place. Teaching was perfunctory and did little to fit the pupil for the real tasks of life. Of course there was a small rake-off from the Christmas tree, and the spring picnic was not so bad.

Doubtless Mr. Getman went all through this sort of thing and saw its waste of time and effort on the part of all concerned. Now, as a result of many years of experience he comes out with a first class book on how to run the church school so as really to give the pupils something they will carry away with them. The thoughtful reader of this book will earn much about teaching in general. The point of view is sound; the treatment is stimulating.

After all, it will be long before we find anything to supplant the well conducted church school for the particular job it is supposed to do. Because of existing conditions the public schools can do nothing with the problem of religion and very little with that of ethics. In the church school much may be done to give the youngsters a right start in knowledge and leaning. Getman tells how to make the most of this opportunity. His book should be widely read by those who have this problem at heart.

A well selected reading list is appended.

BOOKS AND MAGAZINE ARTICLES

In *The Sibley Journal of Engineering* for December Burdette K. Northrop '18 writes on "Lightning." Irving Spelman '31 discusses "Art in Industry." Charles A. Kelsey '01 discusses "Electricity and Sugar." Professor Karl D. Wood '20 writes on "Weight Reduction Versus Drag Reduction in Airplane Design." There is a portrait and sketch of Professor William B. Gregory '94 of Tulane. Professors John R. Bangs, Jr., '21 reviews Ralph M. Barnes, *Industrial Engineering and Management*. Professor Jacob R. Collins, Ph.D. '21, reviews Leonard B. Loeb, *The Nature of a Gas*.

In *The Mills Quarterly* for November Dr. Mary Roberts Collidge '80 writes on "The Opportunity of Mills College."

In *The Missouri Alumnus* for November Professor Jesse E. Wrench '05 of the University of Missouri writes on "Manchuria: the Danger Spot of the East."

In *The Akron Alumnus* for December President George F. Zook, Ph.D. '14, of the University of Akron writes on "Adult Education."

In *The Journal of Physical Chemistry* for December Professor Wilder D. Bancroft and John E. Rutzler, Jr., '27, conclude their serial on "The Colloid Chemistry of Insanity." Gustav Egloff '12, Harry T. Bollman, and Badona L. Levinson write on "Therman Reactions of Cycloparaffins and Cycloolefins." Professor Bancroft reviews Edward R. Weidlein and William A. Hamor, *Science in Action* and Arnold Eucken, *Lehrbuch der chemischen Physik*. Dr. Herbert L. Davis '27 reviews A. W. C. Harrison, *Lakes and Pigments*.

In *The Vassar Quarterly* for November Professor Margaret F. Washburn, Ph.D. '94, of Vassar writes on "The Vassar Golf Course."

In *The Journal of the American Statistical Society* for September Professor Walter F. Willcox presents "An Attempt to Measure Public Opinion About Repealing the Eighteenth Amendment." Professor Henry L. Rietz, Ph.D. '02, of the University of Iowa reviews James B. Scarborough, *Numerical Mathematical Analysis*.

In *The Journal of Political Economy* for October Professor Elijah Jordan, A.M. '08, of Butler University, *Theory of Legislation: an Essay on the Dynamics of the Public Mind* is reviewed by B. Landheer.

In *The Economic Journal* for September Professor Morris A. Copeland of the University of Michigan writes an obituary of the late Professor Herbert J. Davenport.

In *The Romanic Review* for October-December Dr. Solomon A. Rhodes '21 of Columbia has an article "Lantréamont Redivivus."

ALUMNUS ELECTED PRESIDENT

OF WATERWAYS BODY

Colonel Robert Isham Randolph '07 was recently elected president of the Mississippi Valley Association, the largest waterway organization in the United States. A more vigorous prosecution of the waterway construction program has been decided upon and the Association stands committed to a Federal bond issue to complete the unfinished inland waterway system of the United States at the earliest possible moment. It is believed that this will benefit the unemployed and inaugurate immense freight savings. It was voted to carry on the work in spite of a stormy session in which opposition to the proposal was led by delegates from the Missouri River sector.

Colonel Randolph is also president of the Chicago Association of Commerce and chairman of Chicago's Secret Six, an anti-crime organization.

PROFESSOR CLARK S. NORTHUP '93 spoke on December 5 before the West Virginia Chapter of Phi Beta Kappa at Morgantown on "Sartor After a Century."

THE CLUBS

MARYLAND

The Club will hold its annual Luncheon for undergraduates and prospective students on Monday, December 28th, at the Lord Baltimore Hotel at 12:30 p.m.

An interesting program is being arranged and the Old-Timers will be there with eager ears to hear the latest news from the undergraduates. We extend to each and every Cornellian in Baltimore at that time an invitation to be present at the gathering.

At the annual Feather Party held on November 24th at the Altamont Hotel the committee reported its most successful party in years. A total of 100 Cornellians and their friends attended the occasion with hopes of winning their Thanksgiving dinners as the first prizes were turkeys, chickens and ducks. The less fortunate ones carried home second prizes while everyone entered in the fun making during the dance that followed.

Guy T. Warfield is president of the Club. Frank H. Carter '16, secretary-treasurer, was master of ceremonies. The committee on arrangements were Frederic M. Wood '19, Martin F. Kunkel '28, Eduard Fritz, Jr., '20, Roger F. Hall '23, and Leslie E. Herbert '30, chairman.

CAYUGA COUNTY

Warren Sailor '07, editor of *The Alumni News*, and Thomas I. S. Boak '14, chairman of the Committee of the Alumni Corporation on Relations with Preparatory Schools, were the speakers at the fall meeting held at Auburn on December 10. Motion pictures of the Princeton and Pennsylvania football games were shown by Edgar A. Whiting '29, assistant director of Willard Straight Hall.

CHICAGO

Professor James E. Rice '90 was the speaker at the weekly luncheon at the University Club on December 3. He gave his well-known talk on "Egg Magic."

Recent speakers at the Chicago luncheons have been Colonel Edward Davis '96, until recently commanding officers at Fort Sheridan, who illustrated his talk with motion pictures; Art Sweet, golf editor of *The Chicago Daily News*; and Dr. Owen R. O'Neil, who told of tribal customs in South Africa.

ROCHESTER

At the annual meeting on December 5, James C. O'Brien '10 was elected president for the year 1932, to succeed Philip D. Rupert '20. Herbert D. Kneeland '10 is the new vice-president, Fred M. Dorris '25 the new recording secretary. Harold A. Meng '17, Fred B. Goodelle '26, and Fred W. Armbruster, Jr. '18 were re-elected, respectively, membership secretary, treasurer, and assistant treasurer.

Entertainment at the meeting was provided by Coach John F. Moakley, and by a quintet of Russian student singers.

WESTERN PENNSYLVANIA

At the annual meeting held at the Pittsburgh Athletic Association on November 14, officers for the year were elected as follows: president, L. Wainwright Voight '21; vice-president, Paul S. Hardy '16; secretary, Charles F. Kells '23; treasurer, John A. Carothers '16; recorder, George P. Buchanan '12.

UNDERWATER PICTURES AID

IN HUNT FOR TREASURE

At a dinner given recently by H. Reginald Bishop at the Hotel Madison, New York, Simon Lake, submarine builder and inventor, announced the possibility of an attempt to recover the treasures sunk in the Florencia, the flagship of the Spanish Armada, in Tobermory Bay, Scotland. This wreck has been owned by the family of the Duke of Argyle for centuries and many diving operations have been attempted in the past to recover its treasure. Because of the silt which covers the galleon, all attempts have been unsuccessful.

Mr. Lake is co-sponsor with Captain H. H. Railey of the expedition which will start the work, on February 1, of salvage operations on the Lusitania. It is the steel tube which will be used in this work that may also be used in the work on the Florencia. Mr. Lake is of the opinion that it will be a very simple matter to get at the purser's safe in the Lusitania and that the most difficult part of the work will be the taking of pictures at that depth, as this has not been done before.

At the dinner, 150 feet of film taken under water off the New Jersey and Long Island Coast was shown. It was taken with the cooperation of the Westinghouse Lamp Company and the Paramount Publix Corporation, which are sending representatives with the expedition. The picture is the first ever taken at so great a depth and under water at night. Part of the film was taken in the daytime at a sixty-foot depth and part at night at a fifteen-foot depth. Illuminations at both times were obtained by using special lamps developed by Westinghouse, designed to withstand a pressure of 500 feet of water and operating at an extremely high temperature.

Eugene W. Beggs '19, director of the Westinghouse Laboratories, was one of the guests at the dinner.

WILLIAM B. GREGORY '94 has been recently elected one of the vice-presidents of the American Society of Mechanical Engineers. Mr. Gregory is consulting engineer and professor of experimental engineering in Tulane University, New Orleans.

TAU BETA PI ELECTIONS

The following have been elected to membership in Tau Beta Pi:

ARCHITECTURE

George I. Bottcher '32, Lewiston, Mont.
Frederick P. Clark '32, Kingston, N.Y.

CHEMISTRY

Kelvin H. Ferber '32, Buffalo.

CIVIL ENGINEERING

Douglas C. Reybold '32, Denver.
Alfred V. Morin '32, Brooklyn.

ELECTRICAL ENGINEERING

Bernard L. Falk '32, Philadelphia, Pa.
Donald F. Hackstaff '32, Huntington, N. Y.

Randall A. Smith '32, Seneca Falls.
William S. Bachman '32, Wilmington, Del.

Wilbur R. LePage '33, Arlington, N.J.

MECHANICAL ENGINEERING

William C. Allen '32, East Norwalk, Conn.

Donald M. Hood '32, Corning.
Melville C. Case '32, Janesville, Wisc.
William P. Beyer, Jr., '32, Baltimore.
Llewellyn J. Held '33, Leighton, Pa.

OBITUARIES

CLARENCE L. E. MOORE '02 died at the Newton Hospital, Boston, on December 6. He was born in Ross County, Ohio, May 12, 1876 of pioneer stock. He was graduated from Ohio State University in 1901, and received his A.M. from Cornell in 1902 and his Ph.D. in 1904. From 1904 to the present, Dr. Moore had been a professor in the department of mathematics at the Massachusetts Institute of Technology. During the last decade, he had devoted much of his time to teaching the theory of aerodynamics in the aeronautical engineering course, had been in executive charge of the course in general engineering, and was active in establishing and editing the research journal of mathematics and physics published by the Institute. He was a member of many scientific societies in this country and Europe and a fellow of the American Academy of Arts and Sciences. He was internationally known for his research in advanced geometry, particularly regarding the properties of the sphere, the circle, and spaces of higher dimensions than three. Dr. Moore is survived by his widow, the former Belle Pease Fuller of Springfield, Mass., and a daughter, Hazel Anne Moore.

TEN MEMBERS of the junior class have been elected to membership in the Red Key Society: Frederick A. Bennett, Arnliot Brauner, Charles S. Francis, Robert D. Hamilton, Jr., George H. Krieger, Edward B. Moebus, John A. Northridge, William I. Pentecost, Richard H. Pew, and Charles S. Tracy.

Robert M. Adams Dead

Continued from page 149

country people and the countryside that he loved. Syndicated in scores of newspapers, these poems were read and treasured by hundreds of people all over the United States. Selections from the rhymes have been collected and published in book form by the Macmillan Company.

Professor Adams' ready wit and mastery of the New England idiom and dialects made him a popular speaker not only at University affairs and before children's groups, but before service clubs and other organizations in different parts of the State and country.

Surviving are his wife, Mrs. Catherine Van Gordon Adams; one son, Van Gordon; one brother, Clinton, and one sister, Edith.

MAINTENANCE COSTS

The problem of the expense of upkeep of new buildings has some light thrown on it by Yandell Henderson in The Yale Alumni Weekly for November 27.

He says that the fund of 25 or 30 per cent of the cost of each new building, which fund Yale has asked for in recent years, provides an income sufficient only for repairs. The total expense of the use of a building for light, heat, cleaning, janitoring, and repairs would require the income from a fund many times as large.

Mr. Henderson has investigated the cost of running apartment and office buildings in New Haven. He finds that for every \$100,000 of cost of erection the annual running expense is about \$6,000. On this basis he thinks the University would require a maintenance fund of more than 100 per cent of the cost, to cover the entire expenses of use and to prevent these charges from coming out of general income.

Further he finds that to take care of every additional million cubic feet (say 100 x 200 x 50) in buildings draws from general income a sum equal to the salaries of four or five professors, or seven or eight assistant professors, or nine to twelve instructors.

His conclusion is: "In view of the fact that the absorption of this income for upkeep of building has prevented any increase of salaries to the Faculty beyond the amounts available from increase of student tuition and special professorship funds, it appears reasonable to suggest that as many as possible of the new buildings should be kept closed, unheated and unlighted, until times improve. This would be the most practical measure for the saving of personnel."

THE RESIDUARY principal of the estate of George W. Hoyt '97 will eventually go to Cornell and the Cornell Chapter of Delta Phi. The Guaranty Trust Company of New York is executor of the estate.

CORNELL ALUMNI NEWS ITHACA, NEW YORK

FOUNDED 1898

INCORPORATED 1926

Published for the Cornell Alumni Corporation by the Cornell Alumni News Publishing Corporation.

Published weekly during the college year and monthly in July and August: thirty-five issues annually. Issue No. 1 is published in September. Weekly publication ends the last week in June. Issue No. 35 is published in August and is followed by an index of the entire volume, which will be mailed on request.

Subscription price \$4.00 a year, payable in advance. Foreign postage 35 cents a year extra. Single copies twelve cents each.

Should a subscriber desire to discontinue his subscription, a notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance is desired.

Checks and orders should be payable to Cornell Alumni News. Cash at risk of sender. Correspondence should be addressed—

THE 1932 ALUMNI

TRUSTEE ELECTIONS

ALTHOUGH THE BALLOTING itself begins in April, it is not unseasonable for those interested in the Alumni Trusteeships to begin now to think of the forthcoming campaigns. Last year two candidates were elected without contest. They would have been difficult candidates to defeat, perhaps; but in thus permitting an election to go by default the Alumni Corporation lost headway that had been gained only by considerable effort. Several years of similar elections and the difficulty of securing candidates for these Trusteeships might easily be reflected in a less competent group to represent the alumni in the management of the University's affairs.

It is with this serious condition facing us that we risk boring our readers with a description of the steps necessary to place a candidate before the electorate. If the subject is trite it is because, as yet, the alumni do not realize the value to the University of a fine field of candidates, nor the complete absence of embarrassment if a candidate is defeated in such a field.

To nominate a candidate for an Alumni Trusteeship it is necessary to secure his consent and file a petition with signatures of ten Cornell degree-holders. It is not mandatory that the candidate shall have a degree from Cornell, nor, in fact, that he shall have ever matriculated there. Not more than ten such signatures are officially necessary. The petition is then filed with the Treasurer of the University. It must be filed by April first. In practice it should be filed well in advance of that date, and should be accompanied by a good photograph and a biographical sketch.

In the elections of 1932, it is probable that only one of the two trustees whose terms expire will be a candidate. Two new candidates are said to be in the field, a total of three for two positions. No candidate claims election by divine right. It is anybody's race.

We sincerely trust that out of the fifty thousand Cornellians, out of the hundreds in Who's Who and the equally competent thousands who are not, it will be possible to find at least two more qualified candidates to make the race a real sporting event. This task is not necessarily the task of an alumni club or other organization. It is quite within the province of any individual with initiative and a high regard for his candidate to make the nomination and manage the campaign.

The Alumni News and the Alumni Office will be glad to give all legitimate aid and advice.

SEASON'S GREETINGS

The Cornell Alumni News will, as usual, cease publication during the Christmas vacation. The next issue will be that of January 14. The News wishes to extend to its readers all good wishes for a Merry Christmas and a Happy New Year.

CORNELLIANS ON PROGRAM OF MEDICAL-DENTAL MEETING

Several Cornellians were on the program of the joint meeting of the Organized Mental and Dental professions at the Hotel Pennsylvania, the first week in December.

Dr. Royal Storrs Haynes '99, specialist in children's diseases and consulting physician of Willard Parker Hospital, New York, stressed the close relation between the health of the teeth and general health and urged closer cooperation between the two professions for the mutual advantage as well as the better safeguarding of health. Dr. Haynes made the rather startling assertion that modern research shows that a clean tooth can decay in spite of the old saying that "a clean tooth never decays."

Dr. Gerard L. Moench '10, associate gynecologist and surgeon at the Post

Graduate Hospital, presided over the opening meeting of the joint session.

Dr. William F. C. Steinbughler '08, associate surgeon of the Brooklyn Eye and Ear Hospital, explained how many eye troubles can be traced to infection in the teeth.

This was the first joint conference in the history of medicine and dentistry in New York and was attended by about 5,000 physicians and dentists. It concluded with a night meeting in the grand ball room at which Gordon Heyd '15, president of the Medical Society of the County of New York, was one of those presiding.

NEW YORK CORNELLIAN

ASSISTS DISTRICT ATTORNEY

Dr. Percy M. Lichtenstein '10, resident physician of the Tombs since July, 1913, has been appointed medical assistant to the District Attorney, succeeding Dr. Otto H. Schultze, retired.

Dr. Lichtenstein is a physician, a lawyer, an author, a psychiatrist, and an authority on drug addiction. He studied pathology in the Medical College under Dr. Schultze whom he now succeeds. In 1920, he received a law degree from Fordham, thus combining the training for his two professions.

He is a member of the Medical Jurisprudence Society of the County of New York, and of the city magistrates and justices of the State of New York committee on drug addiction, and vice-president of the Criminal Courts Bar Association.

MEMORIAL SERVICE HELD

Memorial services for Walter P. Cooke '91 of Buffalo were held in Buffalo on Sunday, December 6, by the University of Buffalo of which Mr. Cooke was the chairman of the Board of Trustees at the time of his death on August 4 last. Dr. Samuel R. Capen, chancellor of the University, presided. The speaker included Judge Cuthbert W. Pound '87 who spoke on "Walter Cooke, the lawyer."

President Farrand designated as representatives from Cornell James B. Wilson '21, president of the Cornell Club of Buffalo, Parton Swift '98, and J. Frederick Schoellkopf '05, past presidents, and Foster M. Coffin '12.

UNIONS HOLD MEETING

At the 12th Annual Conference of the Association of College Unions, held on December 3, 4, and 5 at the University of Michigan, Ann Arbor, Michigan, twenty three colleges were represented. The Cornell delegation consisted of Miles R. Stevens '32, president of Willard Straight Hall, Edgar A. Whiting '29, assistant director, and Foster M. Coffin '12, director. Mr. Coffin has been the president of the Association during the past year.

THE WEEK ON THE CAMPUS

ASARCASTIC graduate student writes to *The Sun* to complain of the insufficient and improper quarters available to married graduates. Most apartments in made-over East Hill rooming houses are indeed, as he states, ugly, uncomfortable, badly heated, poorly bathroomed, and, probably, overpriced. He continues:

"Whatever the adequacy of this sort of domicile for the undergraduate, certainly by the time a person is embarked upon serious study, and is perhaps married, he or she deserves (for a moderate rental) the possibility of more aesthetic and convenient quarters.

"Millions of dollars have been obtained for apparatus and buildings, and thousands, at least, to pay professors. Why cannot a little more be done to aid those who are in many ways best fitted to make use of this equipment and enjoy the contact with these professors? The Cornell community is the poorer each year by a number of excellent students who are prevented from coming here by the paucity of fellowships and the known difficulty of establishing any approximation of a home. . . . Is it too much to hope that the comparatively slight sum will be found to begin the building up of the neglected aspects of the Graduate School proper?"

IT IS ALL quite true, of course. The situation is very bad, and would be remedied, at least to some extent, by the endowment of a graduate apartment house. The *Sun* well suggests that at present building costs the University might properly construct such a building and draw from it a respectable profit.

AND YET you can't help thinking, can you, of the premises on which such a letter rests? "Certainly by the time a person is embarked on serious study, and is perhaps married, he or she deserves (for a moderate rental) the possibility of more aesthetic and convenient quarters." From whom does he or she deserve it? Why does he or she deserve it? Apparently because he or she is engaged in serious study. But this nasty world regards serious, disinterested study as a luxury, not as a claim upon the money-makers for support. Perhaps, in the mind of the letter-writer, marriage constitutes a further claim on society. Society, however, is accustomed to regarding marriage as a disability which one inflicts upon oneself with acceptance of the consequences, not as a transfer of one's burdens to corporate shoulders. Perhaps, finally, the correspondent would infer that the future contributions of the graduate student to the economic structure justify his present support by the

structure. Well, perhaps he is right, but I wouldn't dare to load much extra weight on the economic structure right now.

PROBABLY what is in the letter writer's mind is this: He has learned in prep-school and college days that scholarship is rewarded with scholarships, that a smart boy's needs are met with loans and prizes. He absorbs little by little the idea that good scholastic work deserves pay. He graduates, intending to continue in the field of his success. A great and holy love comes into his life; he marries and begets a child. His needs are quadrupled; therefore, he feels instinctively, he "deserves" a larger subsidy. Thus he will be enabled to complete his graduate work and get his Ph.D. And then the real trouble begins.

THE CURRENT tendency of the schools is to discourage students rather than to help them along. Last Friday the pre-medical students were given an aptitude test, devised by the Association of American Medical Colleges, and given simultaneously throughout the country. Last year's test contained six parts: scientific vocabulary; pre-medical information; comprehension and retention; visual memory; memory for content; and understanding of printed material. Naturally these tests are very useful, though they are not taken as final. Obviously a fellow might get 100 in the test and be a rotten doctor.

THE RED CROSS drive among the women netted \$240.62.

THE STUDENT EMERGENCY LOAN FUND held a ball on December 8 in Willard Straight Hall. It was announced as unique in the history of the dance at Cornell, in that the Dance Committee bought their own tickets.

THE OFFICERS' BALL, an annual function, took place on December 11, under the auspices of the Officers' Club and Scabbard and Blade.

THE BEAUX-ARTS BALL seems to have disappeared from the calendar. In its place the architects held a banquet. The chief speaker was Ralph Walker of New York, designer of many important buildings, such as the American Telephone and Telegraph Building in New York. He is a member of the architectural committee of the 1933 Chicago World's Fair. Mr. Walker arrived in the early morning, and spent the day up and down the college, looking at the students' work, discussing all sorts of things with the Faculty, and by his stimulating presence interrupting a good many mental routines. What an excellent thing to do! I wish we could get more eminent writers to spend in-

formal days with undergraduate writers, more great jurists to dispute with the fledgling lawyers.

THE ART GALLERY is showing an interesting exhibition of prints from the collection of Professor Alexander M. Drummond of the Department of Public Speaking. The prints illustrate the arts of stage design, costume and pageantry. Included also are models and masks representative of the work of the Cornell University Theater and the Stage Laboratory. Paintings and drawings by Keith Shaw Williams of New York complete the exhibition.

PROFESSOR GILBERT ROSS of the Department of Music gave a superlative violin recital in Bailey Hall on Tuesday evening. He was accompanied by Mrs. Ida Deck Haigh, whose brilliant piano technique is well known to Ithaca audiences.

UNDER THE AUSPICES of the Dramatic Club, Thalia Zanou and Asya Kaz, Spanish dancers, performed in Willard Straight Theater on Friday evening.

THE RESUSCITATION of debate in Cornell was well served by a debate on December 9 on the service of disarmament with two representatives from McGill. President Farrand presided; Cornell's propugnators were John E. Estabrook '32 of Fayetteville and Stanley J. Mayer '32 of Forest Hills.

THE ANNUAL Nurserymen's Conference was in progress here during the week. The discussions centered mostly on the problem of making a profit at current prices.

THE UNTIMELY DEATH of Professor Robert M. Adams, universally known as "Bob" Adams, of the Department of Extension, removes one of the best-beloved members of our community. He was a citizen, not of our little town alone, but of the whole country. He will be mourned by the great number of boys and girls who were inspired by his training, and as well by the greater number who knew him by his homely and quizzical verses.

TWENTY-FIVE YEARS ago, on December 7, 1906, the Chi Psi House burned in the night, taking the lives of four students and three members of the Ithaca Fire Department. It is fitting that we should not wholly forget this calamity, the worst in Cornell's history. Nor is it fitting to forget the heroism shown during that scene of horror. Especially let us recall the name of Oliver LeRoy Schmuck '07, of Hanover, Pa., who plunged into that column of flame to rescue William H. Nichols '07, and with him died.

RALPH C. SMITH Prop.
ITHACA, NEW YORK

'74 BCE—Mr. and Mrs. Frank C. Tomlinson of Ironton, Ohio, are motor-ing to Florida, where they will spend the winter. Their address will be care of J. T. Gaines, Box 249, Hollywood, Fla.

'79 BS; '17 CE—Willis A. Ingalls, for many years a school superintendent, is now retired and living in Phelps, N. Y. He writes that Capt. Robert D. Ingalls '17, who has been in the Army since his graduation, is now stationed at Fort du Pont, Delaware. His wife was Miss Wilella Plant of Opelika, Ala. Capt. and Mrs. Ingalls have two sons.

'83 AM—Anna Marilla Johnson, a re-tired teacher, is living at 20 School Street, Springfield, Mass.

'87 CE—Lyle F. Bellinger, civil engi-neer, U. S. Navy, has retired and is living at 1005 Springdale Road, N. E., Atlanta, Ga.

'87 BS—John W. Taylor, who until re-cently has been in the lumber business, is living on Douglas Street, Corinth, Miss.

'91 BL—Edward M. Sheldon writes that he is a farmer, lawyer, and Justice of the Peace, with his address R. D. 5, Lowville, N. Y. He was a member of the State Assembly in 1930-31, and is a member elect for 1932.

'91 BL—Henry H. Sanger is president of the National Bank of Commerce, Detroit, Mich.

'91 ME—The Iowa State Alumnus for November includes a portrait of Pro-fessor Warren H. Meeker of Iowa State, who has just completed forty years of service at that institution. A testimonial dinner to Professor Meeker on October 24 was attended by about three hundred of his friends. On that occasion speeches were made by Dean Anson Marston '89 of Iowa State and Dean George W. Bissell '88, now of California, who was for many years head of the department over which Professor Meeker now presides.

'92 BS; '95 LLB—Charles H. Werner, after practicing law for thirty-six years in the Wall Street district of New York, has retired to Wernersville, Pa., where his forbears have lived for two hundred years. He writes that his chief diversion is looking after three farms which he owns there.

'92 LLB—Henry I. Gordon is a lawyer, with offices in the Wilder Building, Rochester.

'94 PhD—Mrs. Joseph A. Leighton, wife of Professor Joseph A. Leighton '94 of Ohio State University, died on November 12. The funeral was held at Pulaski, N. Y., on November 14. Regi-nald Leighton, son of Professor and Mrs. Leighton, graduated from Hobart in 1929.

'08, '09 AB—Mabel Rollins is working with Collier's Book Publishing Company of New York, and is on the editorial staff of The National Encyclopedia, which will be issued in 1932.

'09 AB, '12 MD—Dr. Stearns S. Bullen is practicing medicine in Rochester, with offices at 26 South Goodman Street. He is an associate physician on the staff of the Rochester General Hospital and is assistant professor of medicine assigned to the department of allergy of the School of Medicine and Dentistry of the University of Rochester. He lives at 128 Crosman Terrace.

'09 BSA—Sidney G. Rubinow is an assistant, University News Service, at the University of California. His address is 209 California Hall, Berkeley.

'09 AB, '13 PhD—Hawley O. Taylor is chairman of the Department of Physics, Mathematics and Astronomy, Wheaton College, Wheaton, Ill. His address is 330 E. Union Avenue.

'09 ME—Alexander C. Sullivan is a major in the Field Artillery of the Army. He is stationed at Madison Barracks, N. Y.

'10 LLB—Harley H. Milks of 30 Lawton Avenue, Clarendon, Va., is chief of the Insurance Claims Council of the Veterans' Division. He has two children, Marie, aged fourteen, and James, twelve.

'10 ME—Frank R. Oates moved last month from Brookline, Mass., to Los

Angeles, Cal., where he is taking over the vice-presidency of the Technicolor Motion Picture Corporation at 1016 North Cole Avenue, Hollywood. His residence is at 829 Thayer Avenue, Westwood, Los Angeles.

'10 ME—Claude Hartford is a sales engineer for the New York Steam Corporation. He writes that his son will be of the Class of 1950 at Cornell and is practising daily to "perfect a physical set up to cinch a place on the crew."

'10 AB—Harry M. St. John is chief metallurgist with the Detroit Lubricator Company. His address is 18-825 Lanchashire Road, Detroit.

'12 AB—Paul Wilder is resident manager of the Central Republic Company, San Francisco, and investment affiliate of the Central Republic Bank and Trust Company, Chicago. His address is 405 Montgomery Street, San Francisco.

'13 ME—Sterling W. Mudge is sales manager, lubricating oil department, of the Standard Oil Company of New York, with offices at 230 Park Avenue. He has just been reelected for the fourth time as commissioner of finance of Glen Cove, L. I., where he resides.

'14 BS—Ray C. Hulbert is chief probation officer and superintendent of the Neighborhood House in Elmira. His address is 741 West Clinton Street. He is also district Scout commissioner, and

member and director for the Elmira Boy Scout Council. He is a director of the Social Service Association and president of the board of directors of the Volunteers of America.

'17 LLB—Kenneth Dayton is chairman of the committee on law reform of the Bar Association of the City of New York. His monograph, A Program for Legal Reform in the United States, is being distributed by the National Economic League.

'19, '21 BSA—Earl D. Merrill, after nine years as manager of the Monroe County Farm Bureau at Rochester, N. Y., has taken over the management of Forest Farms, a 500-acre livestock and fruit farm in Webster, N. Y. He has three children.

'21 AB, '23 LLB—Professor Charles Carroll Marden of Princeton and Mrs. Marden have announced the engagement of their daughter, Mary Talbott Clark, to Arthur H. Dean '21. Miss Marden attended Smith, and graduated from Pratt Institute in 1927. Dean is a lawyer with Sullivan and Cromwell in New York.

'21 BS—Ella Jeanette Day is a professor of home economics and in charge of the department of child development at the University of Tennessee in Knoxville.

'22 AB—Bernice E. Mundt is teaching English in the Hudson, N. Y., High School, and lives at 89 Green Street.

'28 PhD—The Duke University Alumni Register for November includes a portrait and sketch of Assistant Professor Wesley F. Craven, Jr., of the Department of History in New York University. Craven graduated from Duke in 1926 as an outstanding man, and took his A.M. degree there in 1927.

'28 BS; '31 BS—Gertrude E. Andrews '31 and Cyril G. Small '28 were married at the home of the bride's parents in Kirkwood, N. Y., on July 16. Their home address is Whitney Point, N. Y. Small is a graduate fellow in plant pathology at Cornell, and Mrs. Small is assistant home demonstration agent for Broome County, N. Y.

'29 MD—Charles K. Good is a physician in New York. His address is 200 Central Park South. He was recently appointed clinical assistant in the Department of Dermatology and Syphilology of Cornell University Medical Clinic, and also in the New York Post-Graduate Hospital Out-Patient Department.

'29 AB—Mary E. Groff is a third-year law student at the University of Pennsylvania. Her address is Southeast Corner Broad and Venango Streets, Philadelphia.

'29 ME—Gerald K. Hollenbeck is a student engineer at the Erie, Pa., works of the General Electric Company. His address is 233 West Fourth Street.

'29 MD—A. Parks McCombs is a physician in New York. Her address is 147 East Fiftieth Street.

'29—Cecil W. Odell has completed his training in aviation at Kelly Field, San Antonio, Texas, and is now a second lieutenant in the Army Reserve Corps. He graduated in June from Brooks Field, the primary flying school in San Antonio. For the next six months he expects to be stationed at Mitchell Field, on Long Island.

'30 AB—Elizabeth B. Roche is teaching mathematics in the Dundee, N. Y., High School. Her address is 25 Harpending Avenue.

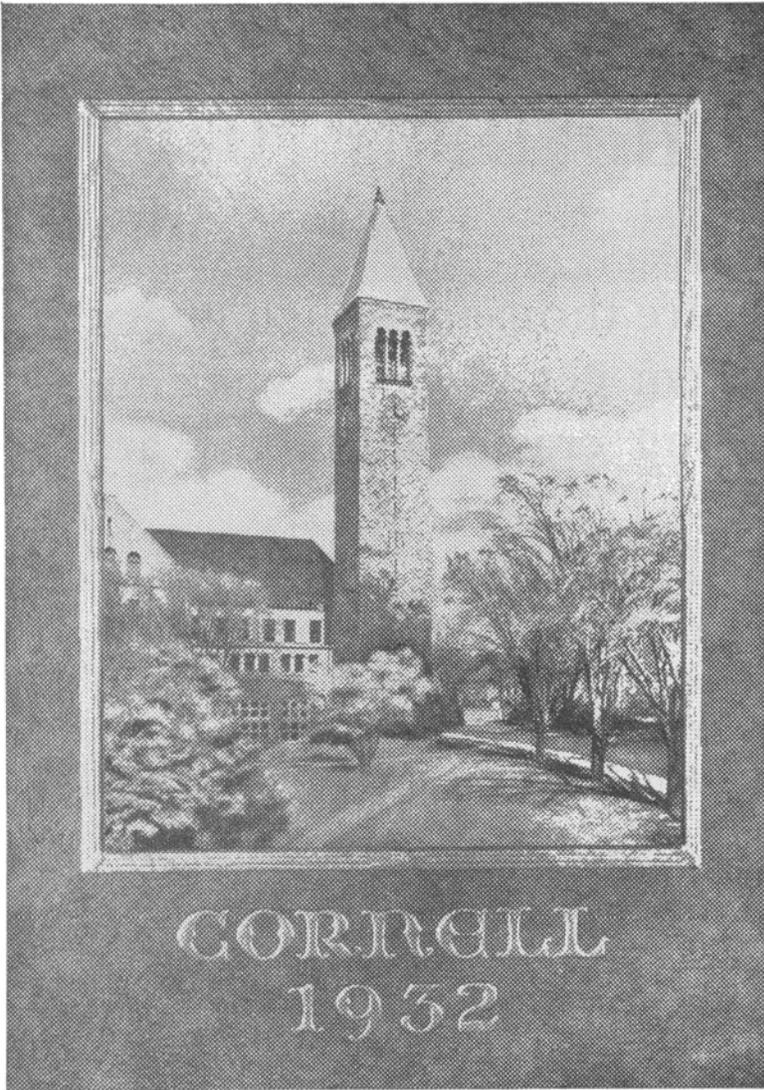

'30 PhD—Dickson W. Parsons is associate professor of agricultural education at the West Virginia University College of Agriculture in Morgantown, W. Va.

'30 BS—Louise M. Marks is teaching home economics in Mahopac, N. Y.

'30 BS—Josephine Steele is teaching home economics in Johnstown, N. Y. Her address is 99 Second Avenue, Gloversville, N. Y.

'30 EE—Alexander Latta is an assistant engineer with the Western Electric Company in Kearny, N. J. He lives at Apartment 306, 50 Lenox Avenue, East Orange, N. J., with William L. Mann, M.E. '30, who is a laboratory assistant with the Public Service Electric and Gas Company.

'30 AB—R. Scott Howland is in his third year at the Cornell Medical College. His address is 143 East Thirtieth Street, New York.

Troy Studio's Cornell Calendar

\$1.55

postage paid

Troy Studio's calendar this year has twelve large views. As usual they are very good. The cover is an excellent colored picture of the Library from the Willard Straight Hall steps.

Special Cornell edition of
**Andrew D. White's
Autobiography**

\$3.00

postage paid

von Engeln's
Concerning Cornell \$4.50
Leather Edition

We are making you an offer you can hardly afford to overlook. We will send a copy of the leather bound, India paper, illustrated edition on approval. Just write us that you want to see a copy. Return it or pay for it in ten days.

Whitman's
**Special College Assortment
of Chocolates**

\$1.50 per lb.

For twenty years this assortment of Whitman's candy has been our headline article at Christmas time. Everybody likes candy and especially Whitman's. Sold in one, two and three pound packages.

**CORNELL
BARNES HALL**

**SOCIETY
ITHACA, N. Y.**

Men Who Wear Out

There are thousands such every year. Most of them get physical warning of their impending crash, but many are caught unaware.

When this happens, the victims may generally be placed in two classifications—those who are prepared and those who are not.

The former, with adequate life and endowment insurance protection, are INDEPENDENT and can rest or play in an effort to regain their health. The latter, not so protected, become DEPENDENTS and spend their old age in grief.

Why not prepare?
