● Several subscribers have already made use of the ALUMNI NEWS free Letters Exchange, which we announced recently.

● To correspond with that Cornell friend whose address you do not know, you have only to write your letter, put it in a sealed and stamped envelope with his or her full name written plainly on the outside, enclose that envelope in another bearing your return address, and mail to

**LETTERS EXCHANGE**  
 Cornell Alumni News  
 ITHACA, N.Y.

We will forward your enclosure to the addressee if a recent address can be found; if not will return it to you with a report. This service is free to our subscribers.

## CORNELL STILL STANDS Flood Damage Slight

Varying reports of the storm which deluged Ithaca the night of July 7-8 and the resulting flood have gone over the country, bringing an almost equal flood of inquiries as to actual conditions here and the damage done to University and town. It did rain that Sunday night; eleven lives were lost in Tompkins County, including that of George S. Tarbell '90; bridges, roads, and railroads were rendered impassable; lower Ithaca was completely flooded, necessitating the emergency housing in the University Drill Hall for four nights of nearly seven hundred persons flooded out of their homes or who feared that they might be; several buildings in Trumansburg and other nearby towns, and cottages along the Lake, were demolished; the Lake level rose three-and-a-half feet; and neighboring State parks, especially those at Taughannock Falls, Enfield, and Watkins were greatly damaged, according to Robert H. Treman '78, president of the Finger Lakes State Parks Commission.

Damage to the Campus was relatively slight. Comptroller Charles D. Bostwick '92 estimates that it will not exceed \$10,000 to \$12,000, and says that many a hard summer shower has done more damage to the general appearance of the landscape. Cinder paths and roads were washed slightly, the old swinging bridge across upper Fall Creek to the ROTC rifle range went out; but repairs are rapidly being made and debris cleared away. The new University swimming pool was materially deepened and the island below the Sackett bridge is now much further out in Beebe Lake.

Further down the Fall Creek gorge the hydraulics laboratory suffered some damage, but probably not to exceed \$2500, Mr. Bostwick says. The University's power plant in Fall Creek was completely flooded and had to be shut down about 3 a.m. that Monday morning, but the Campus was switched to city current at once and suffered practically no inconvenience. Generators and dam were somewhat damaged, Mr. Bostwick estimates to the extent of perhaps \$7500.

On Cayuga Heights some streets were closed temporarily, but the main damage was to the bird sanctuary of Professor Arthur A. Allen '08 on Kline Road, but a few hours after his return from his trip of five months and six thousand miles through the South and West, collecting records and pictures of rare American birds. A dam carried away, draining his duck pond and demolishing a wintering house there, but eight of thirty-five ducks being recovered.

The first Lehigh Valley train came into Ithaca July 10, from Sayre, Pa., and by the next day, in spite of almost insuperable obstacles, a temporary schedule had been arranged for eastbound passengers direct to New York City, Philadelphia, and Washington, and for westbound to connect with the through trains routed via Sayre along Seneca Lake. It is expected that the lines to Geneva and Auburn will be open by the time this appears. The Lackawanna resumed service July 15. Telephone and telegraph lines were opened on Tuesday for partial service, and the main roads out of Ithaca are now all open, with temporary fill replacing the bridges washed out. All available labor from relief rolls, nearby CCC camps, and local workmen was immediately put to work to repair the damage.

The community rallied quickly to the relief of the city's flood sufferers, the local chapter of the American Red Cross, under the chairmanship of Professor Hugh C. Troy '95 and with the active assistance of many other members of the University community, immediately soliciting a local disaster relief fund to care for the more than five hundred families found to be in need of aid. These were also benefited by a special charity show staged at the State Theatre the night of July 11 by Cornell Theatres, Inc., the Elks lodge, and the Ithaca Journal.

The city has suffered worse from floods, is rapidly being brought back to normal; and the University still stands, the Campus comparatively unharmed, despite many reports to the contrary.

JAMES LYNAH '05

To be Appointed University Director of Athletics and Physical Education

## PICK ATHLETICS HEAD Lynah '05 To Manage Sports

James Lynah '05 has been asked to serve as the University's Director of Athletics and Physical Education, and has accepted, subject to formal appointment by the Board of Trustees at its next meeting. It is expected that the new Director will arrive to take over his duties by September 1.

Lynah returns to Cornell with an outstanding record as a successful business administrator; the appointment of such a man to administer athletics is a new departure in university circles. After he received the ME degree from the University in 1905, Lynah joined the construction department of the E. I. duPont Company as electrical engineer. For fifteen years he was in charge of various manufacturing operations for that company, and during the War was general manager of one of its smokeless powder plants. In 1922, he was on the general staff of General Motors Corporation in Detroit, Mich., where he was active in perfecting the coordinating program of the company, later to become director of the executive staff in general purchasing, salvage, and standards. In 1929 he retired from General Motors and returned to his home in Savannah, Ga., to devote his time to private interests.

Born in Charleston, S. C., in 1881, Lynah entered Sibley College in 1902 as a Sophomore, having attended Clemson College for a year. In 1924, Clemson awarded him the BS degree, and in 1928, that of EE. He was prominent in undergraduate activities, was a member of Quill and Dagger, Aleph Samach, Bench and Board, Mermaid, and Sigma Phi. He was a substitute back on the 1903 football team and captain and quarterback of the 1904 Varsity under Coach Glen S. Warner '94.

In 1905 he married Elizabeth Beckwith '03, of Ithaca; they have three daughters.

Lynah has taken active interest in alumni and other University affairs, first in New York City as a member of the Cornell Club of New York, and later in Detroit, where he was president of the Cornell Association of Michigan and general chairman of the 1925 convention, held in Detroit, of the Cornell Alumni Corporation. He was a regional vice-president of The Cornellian Council for two years, and is still a director-at-large of the Council. In October, 1930, he was appointed by the Trustees chairman of a committee for the expansion and development of the College of Engineering, and since 1932 until last June was alumni

representative on the Engineering College Council. He was a member of the subcommittee of alumni which studied the policies of the Athletic Association in connection with the survey of athletics made by the Cornell Alumni Corporation, report of which was published in December, 1929.

Lynah's appointment by the Trustees, upon the nomination of the President, will complete the Board of Athletic Policy authorized by the Trustees April 27. The other members are Professor Herman Diederichs '97, chairman, representing the Faculty; Robert E. Treman '09, representing the Trustees; George R. Pfann '24, representing the alumni; and Comptroller Charles D. Bostwick '92, ex-officio. Personnel of the six advisory committees for the several intercollegiate sports, also authorized, has not yet been announced.

As Director of Athletics and Physical Education, Lynah becomes the direct administrative head of all intercollegiate athletics, intramural sports, physical education, and other recreational activities of the Campus. He will have a seat on the University Faculty; he and the other members of the Board of Athletic Policy, the entire membership of the six advisory committees, and three Trustees to be appointed by the chairman of the Board, will constitute a general advisory committee on Cornell athletics. Presumably next fall the new recreation fee of four dollars a term for all undergraduates will be imposed, to supersede the former physical recreation fee and the WSGA assessment, the proceeds to be applied toward the support of intramural and other minor athletics and the office of the Director.

The Cornell University Athletic Association, whose functions since 1889 the University now takes over, has been re-

organized in accordance with the new arrangement, as reported elsewhere, to be retained as an agency of the University.

### MORE ALUMNI GIVE MORE Total Gifts Also Increase

Nearly six thousand Cornellians, 933 more than last year, had contributed just under \$7,000 more than the year before to the University's Alumni Fund when the books were closed on June 29. This was an increase of 21 percent in number of subscribers, the first upturn in three years and considered a remarkable achievement among universities.

Of the total of \$88,870.84 contributed through the Fund, \$70,145.62 was unrestricted (last year, \$68,250.80), the most helpful way in which money can be given, according to Archie M. Palmer '18, executive secretary of The Cornellian Council, since it can be used for general University purposes, and especially to offset deficits caused by shrinkage of other income.

The contributions to the Alumni Fund of the ten leading classes for the fiscal year are tabulated below, as compared with the records of the same classes last year.

Palmer says that even though the books of the Fund are closed, any alumnus who during July and August subscribes for 1934-5 will thereby have his or her name included on the supplementary Alumni Fund Honor Roll, to be published late in the summer. He hopes to have in that list at least 400 additional names, bringing the total number of contributors for the year to more than 6,000. In the first thirteen days of July, the Fund had received 315 subscriptions, many of which are for 1934-35, totalling \$3,219.88, which was \$551.52 more than was received in the entire month last year.

### Comptroller Reports Increase

The total amount of gifts received by the University during the fiscal year which ended June 30, 1935, was \$772,057.93, according to the preliminary report of Comptroller Charles D. Bostwick '92. This compares with \$771,869.70 in 1933-34. Of this year's sum \$57,914.44 was for the Medical College in New York and the remainder for the colleges in Ithaca. \$511,714.35 was in endowment funds, which bring the income-producing funds of the University nearly to thirty millions.

The Cornellian Council is credited with gifts in addition to the Alumni Fund of \$47,818.19, making a total of \$136,689.03 received by the University directly through this agency; and bequests during the year, reflecting the work of the Council's committee on bequests under the chairmanship of Neal Dow Becker '05 until 1934 and since of Edward Cornell '89, have totalled \$493,255.73. Some of the larger bequests were: \$250,000 from the estate of C. Sidney Shepard to establish the Sidney and Elizabeth D. Shepard Endowment Fund, in memory of Mr. Shepard's parents; \$180,210.61 from the estate of John McMullen for addition to his endowment fund, the income of which is used for Engineering scholarships; \$29,103.83 from the estate of Ruth B. Ettinger to establish a fund for medical research.

Almost \$100,000 was given to the endowed and State colleges for research purposes. Other gifts specify a wide variety of purposes, including scholarships, loan funds, equipment, books, plant improvement, and prizes. The year's gift summarized:

For student aid.....	\$ 14,594.27
For general current expenses.....	88,184.51
For Medical College in New York.....	57,914.44
For research in endowed colleges.....	58,223.98
For research in the State colleges.....	41,426.38
To endowment funds...	511,714.35

Total Contributions..\$772,057.93

### The 1934-35 Leaders in Alumni Fund Subscriptions

Total, \$88,870.84 from 5,626 Contributors; Last Year, \$81,937.14 from 4,693

Amount		Number		Percentage

				'21..	154..

\*Forty-one classes—nearly two-thirds of the total—gave more than \$1,000. Besides the above, these include '80, '84, '85, '89, '90-'94, incl., '96-'01, incl., '03-'29, incl.

\*16 had for five years led in number, this year to be deposed by '12. Thirty classes ('05-'34, incl.), nearly half of them all, had more than 100 contributors each. Only nine classes did not equal or exceed their last year's number.

### TALK NURSERY PROBLEMS

At the request of his students in nursery management, Professor Chester J. Hunn '08 last term arranged a series of eight extra-time lectures on the practical phases of the nursery business. The lectures were given after class hours and were largely attended by many students of the Department of Floriculture and Ornamental Horticulture. Professor Hunn says the series will be extended next year.

This year's speakers and their subjects were Professor Arthur B. Recknagel, Forestry, on "The Trade Extension Program of the Lumbermen's Association;" Professor Bristow Adams, Agriculture Publications, on "Meeting the Public

Through Print;" Dr. Alfred M. S. Pridham, PhD '33, Floriculture, on "Catalogues and Other Advertising Media;" Eric B. Wilson, Farm Management, on "Roadside Stands;" Herbert M. Blanche '20, superintendent and landscape architect of the Finger Lakes State Park Commission, on "Buying Plant Materials for State Enterprises;" Professor Charles A. Taylor '14, Agricultural Extension, on "Advertising Aspects of the Radio;" Professor Edward Lawson '13, Landscape Architecture, on "The Landscape Architect and the Nurseryman;" and William D. McMillan '24, president of Agricultural Advertising and Research Service, Inc., on "Practical Problems in Advertising Some Agricultural Businesses."

### LONG ISLANDERS PICNIC

More than a thousand alumni and their families, members of the six clubs which comprise the Associated Cornell Alumni Clubs of Long Island, attended an all-day outing and picnic supper at Heckscher State Park, East Islip, on June 29. Henry C. Frey '04, president of the Association, greeted the guests and after supper all joined in singing Cornell songs.

Member clubs and their presidents are: of Queens County, William J. Russell '13; Nassau County, James N. Gehrig '10; Eastern Suffolk County, James C. Corwith '16; Huntington, Spencer E. Young '14; Patchogue, Selah V. Hiscox '16; and Bay Shore, Henry W. Ackerson '23.

### BIOGRAPHIES OF THREE

At least three names familiar to many Cornellians are included in the latest volume of the Dictionary of American Biography. Martin W. Sampson is credited in the brief sketch, written by Professor William Strunk, Jr., PhD '96, with having materially raised the literary standards of students at Cornell and the other institutions where he taught. "As a teacher he had a two-fold object, of imparting to his students his own keen appreciation, and of developing in them as well the scholarly instinct which, not content with mere enjoyment, insists upon full knowledge and understanding." His afternoon readings for students of Engineering are mentioned, and his encouragement of undergraduate literary aspirations in his founding of the Manuscript Club.

Also included in the new volume are biographical sketches of George Washington Schuyler, Trustee of the University from its founding to 1888, voluntary Treasurer, State official, merchant, and banker; and of his son, Eugene Schuyler, first American diplomatic representative in Rumania, famous ambassador in other European capitals, and sometime lecturer at the University.

## ITHACA STREET CARS DISAPPEAR

### Now Replaced by Modern Busses

Alumni who came back for reunions last month saw trolley cars on the streets of Ithaca for the last time, after forty-seven years of operation. Now busses have replaced the Ithaca street cars familiar to generations of Cornellians and closely linked with the University and its members.

An invited group of passengers went around the East Hill loop upon a trolley car the Saturday night of June 22. When they got downtown again, an epoch in the history of University and City was closed. The Ithaca street car, celebrated in song and story, is no more; five shiny, twenty-one-passenger busses, duly licensed by the PSC and glorious in their upholstery and their comparative silence, have taken over its weary trek up and down State Street, across the Campus,

along Stewart Avenue, north to the Lake, and west to the Station.

One of the last riders was Herman Bergholtz, who came to Ithaca as an electrical engineer from Sweden, and who was Ithaca's mayor for many years; another was Casper Linderberry, who went to work on the line a year after it started, in 1889, has been with the trolleys ever since, latterly as starter at State and Tioga. He is now retiring. The first street car, which came sailing up from the Lehigh Valley station to the Ithaca Hotel a year before, was the fourteenth in service in the world; Linderberry is thus one of the oldest veterans in this branch of the transportation industry.

Bergholtz piloted the first car up State Street hill when no other electric street railway attempted a grade one-half as

THE OLD AND THE NEW ON ITHACA'S STREETS

*Upper:* One of the first of Ithaca's street cars, at the turn of the century. Casper Linderberry, whom recent undergraduates will not recognize as the saturnine gentleman in the broad-brimmed hat who checked the cars at State and Tioga, is here the motorman; Frank Freer, who joined the road in 1893 and retired as motorman in 1924, is the conductor.

*Lower:* One of the new busses which now travel the familiar streets. Standing in front of it are Donald Stewart '08 (center) general manager first of the street car lines and now of the bus company, and Harrison Sweet (left) and Leo Oster, the new operators.

steep. He had bought the line, chartered in 1884, in April, 1892, from White & Burdick, who had obtained it from the original company. With Judge Alfred Hand and Horace E. Hand of Scranton, Pa., he organized the Ithaca Street Railway Company, installed heavy tracks on lower State Street and north on Tioga Street and down what was then Railroad Avenue (now Lincoln) to the old steamboat landing near the later Johnson's boat yard, put eight cars into operation, and then laid rails up East State Street hill, along Eddy Street and to the Campus entrance at College Avenue and to the E. C. & N. station at East Ithaca. On January 28, 1893, Bergholtz took the first car up the thirteen-percent grade.

Next the Bergholtz concern obtained permission from the Trustees of the University to construct a spur to the Campus. Cascadilla Creek was bridged near Oak and Central Avenues, and in the fall of 1893 cars were operating to a point about a hundred feet east of the Old Armory. In June, 1894, permission was given further to extend the tracks on South and Central Avenues to President's Avenue near Boardman Hall. Still later, the company developed an amusement park at Renwick, opened July 4, 1894, and extended its tracks along Tioga Street to the Lake. Excursions were run by the steam railroads, bringing thousands of people from near and far to Renwick Park; "Patsy" Conway's Bank gave concerts; Ithaca overnight became a mecca for pleasure seekers.

At the beginning, power was obtained from Fall Creek gorge, an 800-horsepower hydroelectric power-house there being constructed just above the present Stewart Avenue bridge. A supplementary steam generating plant was also built in 1894 on the present site of the car-barns at the foot of Six-Mile Creek.

In 1898, Bergholtz and the Hands sold controlling interest in trolley and power companies to the late Edward G. Wyckoff '89, who used it to help develop Cayuga Heights. The Thurston Avenue bridge across Fall Creek had previously been built by Bergholtz, who owned property north of the gorge; Wyckoff continued the line across the bridge and along Thurston Avenue, at the same time putting tracks on Stewart Avenue as far as University Avenue. When Fall Creek was bridged at Stewart Avenue the "Loop" was completed; the first cars circled it on May 6, 1900. Another extension was made out Cayuga Heights and, by easy grades, down the hillside to Renwick Park.

Wyckoff sold his stock in the street railways in 1908 to Albert R. Flint of New York City, who with his associates went into receivership in 1912. Two years later a new group of investors, headed by Roger B. Williams, Jr. '01 bought the franchise and organized the Ithaca Trac-

tion Company. The new company completed the system of double tracks and switches on East Hill. In 1924 this went into receivership, and Dean Dexter S. Kimball was made receiver. In 1928, the Morse Chain Company bought it at foreclosure sale: it was from this company that Harrison Sweet and Leo Oster of Utica bought the franchise and control of Ithaca Railway, Inc. this year.

For many years, the traction company owned the power house near the old Remington Salt Company, manufacturing its own current. In 1921 the power house was sold to the New York State Electric and Gas Corporation, power being purchased from the plant; the bill for power has run in excess of \$1,000 a month. At the time of its transfer to the bus interests, the company was operating 9.94 miles of track; sixteen operable street cars were in the barns, and five had been running daily on regular schedule with the others being used for emergencies.

In 1928, four of the late one-man cars were especially built, at cost of \$34,000, and put in service on the Hill; by 1929 all the cars were of this type. The Hill has needed especially-equipped cars; the new busses, too, were specially built at the Brockway plant for the steep grades.

Despite the hilly terrain upon which the cars operated, they killed directly but two people: J. C. Barger of Springville and Mary Moe. The accident occurred in 1920 when a car loaded with thirty people coming up the Hill from the station got out of control at Eddy Street near the Campus gate, backed down, failed to make the turn at State Street, and jumped the tracks to split upon a tree.

Donald Stewart '08 has been general manager of the street car company since 1919; he remains in that capacity with the bus company. Besides Linderberry, another "old-timer" on the road is Frank Freer, who retired as motorman in 1924. Many of the other street car operators are now driving the new busses, others have retired or are seeking other employment, and most of the car barn force are being retained to service the busses in the former car barns along Six-Mile Creek, which are being remodelled under Stewart's supervision into a modern garage.

This summer, it is expected, the tracks will be removed from the streets, Stewart Avenue north from South Avenue will be widened and its entire length repaved, so that before long no trace of the old street car system will remain. Just what will be done with the trolley bridge across Cascadilla gorge back of the Old Armory has not been said. Some have expressed the wish that it and the wooded spot through which it passes be kept as a sylvan park area, the bridge made over for foot traffic, as it has so long served, unofficially, for generations of College Avenue students as a short cut to class on the Hill.

---

## BOOKS

### *By Cornellians*

---

#### THE FACTS OF LIFE

Psychology. A Factual Textbook. By Edwin G. Boring '08 of Harvard, Herbert S. Langfeld of Princeton, and Harry P. Weld, Professor of Psychology at Cornell, and Collaborators. New York. John Wiley & Sons, Inc. 1935. xviii + 555 pages. \$2.75.

The authors say they have tried to prepare "such a factual textbook as one should expect from a science," free from the "bias of metaphysical presuppositions or of psychological systems." This is a textbook, in other words, which describes what experimental psychologists have found out about the human being; simply, factually, clearly.

The method Professors Boring, Langfeld, and Weld have employed is one that is rather unusual and often clumsy for a textbook: the book is not the work of one man, or of three, but of nineteen. Case material can be slapped together without much trouble from the work of any number of men; a textbook designed for the beginner must be carefully organized, carefully written. This has been amazingly well done here: the nineteen chapters are coordinated one with another, they follow each other logically. Even the format usually used for collaborated works is ignored; one must hunt well indeed to find out who wrote what.

The book has been planned for use as a textbook; it makes good reading for the layman. And it would be a healthy thing if the layman would read it. He would discover that psychology is not all fancy jargon and men with white beards and nasty minds; that it is, or gives promise of being, a descriptive science.

Among the collaborators are a number of alumni and others who have been connected at one time or another with the Titchener school in Morrill Hall: Michael J. Zigler, PhD '20, of Wellesley; Donald M. Purdy '21, University of Maine; Professor Karl Dallenbach, PhD '13.

#### FOR DISTINCTIVE GARDENS

Color and Succession of Bloom in the Flower Border. By H. Stuart Orloff and Henry B. Raymore '16, Landscape Architects. Garden City. Doubleday, Doran & Co., Inc. 1935. xviii + 256 pages. Illustrated with a color chart, seven photographs and eleven drawings. \$2.50.

This is a book about flowers, and how and where to grow them in the border. It is not for the rank beginner, but rather for those who have progressed beyond the first steps of gardening to the point of applying those refinements in the art which denote real distinction. The book

abounds with names of plants and suggestions for their use in the garden picture; quite apparently it is based on real experience in designing and advising on many home gardens. The authors give reasons for their suggestions, so that any intelligent amateur with some garden experience reading the book should be able to make his own borders continuously colorful and appropriate.

The chapter on "Color in the Border" explains in terms which any garden maker can apply, the "psychological theory" of color evolved by Yaber Buren. This theory is in terms, not of the mixing of pigments or light rays, but of colors as they exist in nature and their effect upon the human observer. It is clearly described as it relates to plants and plantings, and illustrated with a useful color chart, with many suggestions for applying its principles to one's own border. Lists of flowers of various colors are arranged by their proper positions in the border and by their seasons of bloom.

As a guide to the making of better-than-ordinary flower borders, the book leaves little to be desired. The chapter headings indicate its completeness, but cannot suggest the care with which the authors give directions for improving almost any garden. Referring throughout specifically to the flower border, the several chapters consider Design and Location, Background, Structure and Arrangement

of the border itself, Selection of Plants, Succession of Bloom, Color, The Problems of Shade, The Planting Plan, Soil—Its Preparation and Fertilization, Maintenance, and Plants for Various Purposes and Locations. Not the least valuable feature is a full and complete index (ten pages in small type) of subjects and plant names, both botanical and common.

### MORE REUNION REPORTS The Secretaries' Stories

From the secretaries and reunion chairmen of seven more classes have come accounts of their class reunions, June 14, 15, and 16. These are printed below:

#### Class of '85

The Class of '85 had a delightful fifty-year reunion. The number present was not large, but those that came felt well repaid for their time and effort. Headquarters were at 15 East Avenue, in the very center of activities and well adapted in every way to reunion purposes.

The Class dinner, preceded by the Class picture [which appeared in the last ALUMNI NEWS], was held in Balch Hall on Friday. After dinner we returned to headquarters to visit and enjoy the evening.

Saturday, the President's address was the outstanding feature of the morning; the afternoon was free for each one to use the time in the way most interesting. The Seventies-Eighties dinner in Willard Straight Hall that evening took the place of the Early Eighties dinners of previous years. It was an extremely pleasant affair, the reminiscing by members of the classes of the Seventies being especially

interesting. From the dinner we attended the rally in Bailey Hall.

C. E. Amoroso Lima, of Rio De Janeiro, Brazil, being unable to attend, sent as a gift to the University in commemoration of the fifty-year reunion of his Class, a manuscript volume of 272 pages which he had translated from the Portuguese: Eurico the Presbyter, by Alexandre Herculano; a Visigothic legend of the eighth century, A.D., which the donor characterized as "one of the finest and most beautiful standards of the truly genuine literature of Portugal." Now deposited in the University Library, it is a fine memorial and shows his esteem and loyalty for his Alma Mater.

CHARLES E. CURTIS

#### Class of '95

The '95 headquarters were in the old Cornell home at Stewart and South Avenues. We had the usual round of activities: luncheon Friday at the Drill Hall; baseball game with Pennsylvania; dinner on the terrace of Willard Straight Hall with the western sky aglow as the chimes played the Evening Song; Senior and alumni singing at Goldwin Smith Hall; President Farrand's usual fine address on Saturday morning; lunch together at Drill Hall; roaming the Campus and glens in the afternoon; and an intimate dinner in the Blue Room of Sage Hall where each of us gave an interesting talk; the rally at Bailey Hall; and a delightful Sunday morning on the Campus.

Members of the class present were: Professor Eugene P. Andrews and Mrs. Andrews, Alexander L. Brodhead, Harry J. Clark, Robert H. Haskell and Mrs. Haskell, Raymond D. Johnson, Professor Abram T. Kerr, Woodford Patterson, William E. Schenck and Mrs. Schenck, Frances B. Skinner, Frank B. Stratford and Mrs. Stratford, Waldo F. Tobey, Erle W. Witfield, Roger H. Williams, and Oscar R. Wilson and Mrs. Wilson.

FRANK B. STRATFORD

THE TWENTY-FIVE-YEAR CLASS AT JUNE REUNION

Photo by Fenner

Left to right; Front row: Frances MacBrayne, Betsy Burrows, Alice M. Baldwin, Helen L. Young, Mrs. Lewis E. MacBrayne (Sarah Thurlow), Mrs. George Young, Jr. (Helen D. Binkerd), Mrs. William C. Rogers (Elma L. Mastin), Helen R. McCann, A. Marguerite Scott. Second row: George H. Young, Thomas W. Morrissey, Craig R. Branson, Addison B. Scoville, George Young, Jr., Christopher W. Wilson, Philip Will, George F. Burrows, Abram C. Mott, Jr. Back row: Charles R. Scott, Ernest L. Quackenbush, G. Arthur Schieren, Garry T. Stone, William O. Morgan, John T. McGovern, Joseph Rosenberg, Robert C. Eccleston.

## Class of '00

Preliminary plans for reunions of the Class of 1900 are never very extensive, and programs follow the line of least resistance, so that those returning have fullest opportunity of renewing old associations and friendships.

Luncheons in the Drill Hall Friday and Saturday served very nicely to draw the individuals and groups together for purposes of visiting as well as development of further plans by way of tours around Campus and town, golf, and other interests.

The banquet Saturday evening with thirty-two present was an excellent Class wind-up that brought the men and women to a common meeting place in a way that will be remembered with pleasure by all those attending.

Terry McGovern fully lived up to his international reputation as a capable toastmaster and kept everyone in a happy frame of mind from start to finish.

Alice M. Baldwin was awarded the prize for having come the longest distance to attend the reunion and she gave an interesting picture of Duke University at Durham, N. C., where she is dean of the women's college.

Craig Branson of Chicago was the runner-up for distance and Charles R. Scott drew the prize for the baldest head, while Sarah Thurlow MacBrayne was a double winner in having six children and four grandchildren.

Other prizes were awarded, various interesting messages delivered—probably the top notch in which was the story of current University matters given by Dean George Young, Jr. of the College of Architecture.

All expressed keen pleasure in the success of the reunion and desire to be present at every one to be held in the future.

GEORGE H. YOUNG

## '07 Addendum

That "no business was transacted" by the Class of '07, as reported in the story of the Class reunion in the last ALUMNI NEWS is not quite correct. William R. Wigley was unanimously elected treasurer of the Class.

R. W. SAILOR

## Class of '25

One hundred and two men attended the ten-year reunion of the Class of '25. This was the second largest male representation at the entire reunion. Although second in number, in all other respects, including fun and enthusiasm, the Class was second to none.

After the ball game on Friday, the Class attended the Senior singing and partially usurped the functions of the Senior Class. What '25 failed to supply by way of harmony, it made up for in volume and the vocal contribution of the Class was cordially welcomed by those attending.

If any '25 man went to bed Friday night, he could not have been registered. A careful roll was kept by the reunion committee and all who were recorded as attending the reunion still were on their feet and accounted for early Saturday morning.

Throughout the entire reunion the Class was serenaded by a ten-piece band, with various members of the Class furnishing vocal accompaniment. '25 expresses grateful appreciation to all other classes for their forbearance in refraining from commenting upon the quality of the accompaniment.

The Class of '20 was invited to attend the dinner held at the Johnny Parson Club Saturday night and, as a result, the Club was full to overflowing. The principal speakers were Coach "Nicky" Bawlf and Professor Herman Diederichs '97. Coach Bawlf delivered a humorous and enthusiastic address well up to his usual standard and thoroughly enjoyed by all. Professor Diederichs spoke on the athletic situation at the University, reviewing the progress of athletics at Cornell since their inception. His speech was received most enthusiastically and was generally considered one

of the best addresses ever made to the Class, either as undergraduates or hereafter.

Members who came from distant points were well repaid for their trouble. "Clay" Whipple established a new record for distance covered in order to be present. He came from Bulgaria. "Dal" Hogan pushed his special "caddie" all the way from Oklahoma, thereby creating a 1935 reunion driving record.

Among the prizes handed out at the dinner was one to "Pal" Paltrow for being responsible for twins and "Tommy" Noel for being the only returning member of the Class in favor of the New Deal.

After the Alumni Rally on Saturday night, an informal session was held at the Baker Dormitories.

Throughout the reunion the Class held together as a unit and everyone enjoyed renewing his old friendships and forgetting his business and other troubles. As the members of the Class departed on Sunday, it was their unanimous opinion that this tenth reunion was the most enjoyable one held by '25 and all were looking forward to the next gathering in Ithaca.

GORDON E. YOUNGMAN and ROBERT W. HILL

## '28 Men

After a very tardy start in plans, some forty-six men of the Class of '28 showed up at the Drill Hall. However, only thirty-one reported at the booth and obtained their pith helmets with Class numerals. Friday afternoon, the gang raided the 1925 room in Baker to make up for '25's fondness for our helmets.

Saturday evening, a score or more of the boys dined at the memorable Lehigh Valley house, with several members of '29 who were wandering around loose. Letters and cards from those unable to attend, giving reasons ranging from marriage to business, were read. Gil Hart was an efficient bartender and was re-elected for the 1938 meeting, for which Lyme Fisher was chosen as reunion chairman. After the dinner, the Class wavered up to Bailey Hall and enjoyed the Rally.

Plans for the 1938 reunion include three annual letters to the members of the Class, district chairmen to jog neighboring classmates, and a try for a large representation. Don Exner will show movies he took of this reunion. Friendships renewed and familiar sights seen again were the highlights of reunion.

JAMES D. POND

## '29 Women

Take a little bit of riding  
To the tune of a Burma ad;  
Take quite a bit of talking,  
Then very late to bed;  
Take a 7:30 breakfast,  
Take some luncheon too,  
Put them all together  
And you have some reunion news.

Take a little bit of picture—  
Why must the men all get in ours?  
Take a little bit of banquet  
With vanities, and socks to darn;  
Take our usual picnic  
With the extra marshmallows thrown,  
Put them all together  
And you have some reunion news.

Take out a little murder,  
Change a few of the girls,  
Take out any bridge games,  
But all else was the same.  
Add a great many greetings  
And sore feet and Frosh cramps too,  
Put them all together  
And you have all the reunion news.

The women of the Class of 1929 wish to thank Charlotte Gristede for all she did to make our reunion such a success, and to say that we all had a glorious time.

DOROTHY ENGLISH KEEFER

# About ATHLETICS

## CUAA REORGANIZES

The Council of the Athletic Association, as first incorporated June 5, 1889, by Hiram S. Bronson '89, Francis D. Davis '90, Edward D. Hitchcock, Jr. '91, William H. Sage, then University Trustee, and Professors James F. Kemp, Benjamin Ide Wheeler, and Horatio S. White, met for the last time in Willard Straight Hall June 6. It awarded athletic insignia to 245 students, ratified undergraduate elections to five captaincies and a dozen managerships, and adopted a new constitution to accord with the new organization of athletics under University administration, as reported in the ALUMNI NEWS of May 2.

Under the new constitution, membership of the Cornell University Athletic Association, will comprise only the five members of the Board of Athletic Policy. These are Professor Herman Diederichs '97, Comptroller Charles D. Bostwick '92 ex-officio, Robert E. Treman '09, George R. Pfann '24, and the Director of Athletics and Physical Education. Officers at present are Diederichs, president; Bostwick, treasurer; and Treman, acting secretary.

Robert E. Linders, '36 of Jersey City, N. J., sprint man, has been elected captain of track; William M. Hoyt, Jr. '36, Summit, N. J., of hockey; George R. Brownell, Jr. '36, Westfield, N. J., of wrestling; Gordon F. Stofer, '36, Olmstead Falls, O., of lacrosse; and Bernard Marcus '36, Mount Vernon, of tennis.

Gerald S. White '37, Butler, N. J., will be 1937 manager of baseball; Myles T. MacMahon '37, Montclair, N. J., of track; Shirley C. Hulse, Jr. '37, Bedford, Pa., of lacrosse; and Howard E. Stephenson, Milwaukee, Wis., of tennis. Next year's managers of baseball and track are Edward J. Doyle, Jr. '36, Winnetka, Ill., and Howard T. Heinz '36, New Rochelle, respectively; of tennis, Louis J. Dughi '36, Westfield, N. J.

## ATHLETES AT WORK

Present and former Varsity athletes in track, tennis, and golf have been active this summer.

On June 22 at the Metropolitan Amateur Athletic Union championship meet at Yonkers, Joseph R. Mangan '34, former track captain, won the 1500-meter race by a foot from Gené Venzke of Pennsylvania and added a new record of 4:00.2 to his collection, which included the American outdoor marks for the two-mile and three-quarter-mile runs. Running under the colors of the New York Athletic Club, he came fourth in the 800-meter race. The meet record for 200 meters of 0:22 set by Robert J. Kane

'34 in 1933 was equalled this year. Kane did not run, but both he and Mangan took part in the Princeton invitation meet the week before. Mangan came in behind McClusky, formerly of Fordham, in the National AAU meet in Lincoln, Nebr., July 4, in the 1,000-meter race, but captured that event from the same rival in 2:33.3 at the Buffalo police games, July 6. J. Hamilton Hucker '37, holder of the Intercollegiate AAAA low hurdles record and championship, strained a tendon in practice for the National College AA track and field title meet, June 21 and 22, and was forced to withdraw from the qualifying finals.

Stephen E. Hamilton, Jr. '35, captain of last year's tennis team, got to the third round of the National intercollegiate singles championship matches at Evanston, Ill., meeting Patterson of California Tech on June 25 after having defeated Dunn of Pennsylvania and Morrell of Georgia Tech. William J. Simpson '37 won his third-round match in the thirteenth annual eastern intercollegiate tennis championships at the Richmond County Country Club on Staten Island, July 2.

Michael J. Sulla '37 lost the opening round in the New York State junior golf championship matches in New York City July 11.

### MORGANTOWN CLUB ELECTS

More than fifty members of the Cornell Club of Morgantown, W. Va. and guests gathered for the annual dinner, entertainment, and to elect officers, at the Country Club on May 24. O. Rex Ford, '25 Grad., retiring president, conducted the meeting. Robert D. Baldwin, PhD '26, was elected president; Harry M. Fridley '23, vice-president; Leslie D. Hayes '08, treasurer; and Harold Wentworth '27, secretary.

A quartet composed of Mrs. Fridley, Mrs. Roy A. Olney, Baldwin, and Captain Willard L. Smith '17 sang Cornell songs.

### LIST CORNELL WOMEN

The new volume, *American Women*, recently published, includes among its biographies of American women who have achieved distinction in various pursuits the names of twelve Cornellians now in Ithaca. These are Mrs. Arthur A. Allen (Elsa Guerdrum) '12, Laura Bryant, '28 Sp., Dean R. Louise Fitch, Professor Mary B. Fowler, Home Economics, Mrs. John B. Grace (Anna Fielden) '10, Mrs. Paul R. Pope (Elfrieda Hochbaum), PhD '02, Professors Day Monroe, Grace Morin, Marion C. Pfund, and Mrs. Mary Phillips, Home Economics, Director Flora Rose, '08 Grad., and Professor Ruby Green Smith '14, Home Economics Extension.

## CAMPUS SCENE OF MANY MEETINGS

### Summer School Enrollment Increases

Almost continuously since the close of the Alumni Institute, June 20, the Campus has been the scene of gatherings which have brought hundreds of visitors, including many alumni, from near and far.

#### Chemists Come First

Chemists from all over the United States heard Professor E. F. Burton of the University of Toronto hold out promise that the colloid chemist—the chemist who deals with "bubbles, drops, grains, filaments, and films" as Professor Wilder D. Bancroft explained his subject—may aid in alleviation of cancer. Professor Burton's treatment, the preparation of pure metallic arsenic in colloid form, has been used experimentally at the Canadian university since 1928; he explained it June 20 before the twelfth colloid chemistry symposium, held upon the Campus June 20, 21, and 22.

Twenty-two papers were read at the symposium; by members of the Cornell staff including Professor Wilder D. Bancroft, Professor Clyde W. Mason, PhD '24, J. D. Porter, Earl J. Hoagland, John E. Rutzler, Jr. '27, Theodore G. Rochow '29, Professor John R. Katz, Baker non-resident lecturer in chemistry from the University of Amsterdam, and by eminent chemists from throughout the United States. One of them was Harry B. Weiser, PhD '14, now at Rice Institute.

One of the most interesting events of the three-day session was a public lecture given in Baker Laboratory by Professor J. H. Mathews, director of the department of chemistry in the University of Michigan, who spoke on "Use of Scientific Methods in the Identification of the Criminal."

#### Research Men Here

Sponsored jointly by Professor Madison Bentley, PhD '98, who acted as chairman, and Dr. Alan Gregg of the Rockefeller Foundation, a conference of twelve younger scientists in subjects related to biological research from as many institutions gathered at the Department of Psychology the week of June 24 to discuss programs of research which might be benefitted by conjoint investigation of other subjects and other men in the biological sciences. Among those participating were Drs. G. LaVerne Freeman, PhD '28, of Northwestern University; George Keezer '24 of the Training School at Vineland, N. J.; and Irvine H. Page '21 of the Rockefeller Institute for Medical Research in New York City.

#### Institute of Electrical Engineers

Early Monday, June 24, delegates began to arrive at Willard Straight Hall for the fifty-first summer convention of the American Institute of Electrical Engi-

neers, the first ever to be held on a University Campus. Approximately one thousand visitors registered, and car licenses were seen from most states of the Union. Many technical problems of the engineer were discussed and reported upon, and not a few of their practical applications in industry and commerce, as well as engineering education and the role of the electrical engineer in this changing world.

The sessions were held in Baker Laboratory and Goldwin Smith Hall, guests were housed for the most part in the University dormitories, and Willard Straight was a popular center for registration, social gatherings, and meals. Provost Albert R. Mann '04 welcomed the visitors to the Campus. Clarence F. Hirshfeld '05, director of research, Detroit Edison Company, received the Institute's prize for his paper on "Engineers of the Next Generation." Other Cornellians who participated in the technical programs included Director Paul M. Lincoln of the School of Electrical Engineering, Roswell C. Van Sickle '23 of Westinghouse Electric and Manufacturing Company, William Deans '13 of the I-T-E Circuit Breaker Company, Ezra F. Scattergood '02 of the Bureau of Power and Light, City of Los Angeles, Cal., Professor Michael G. Malti, Bancroft Gherardi '93, vice-president of the American Telephone and Telegraph Company, Dean Dexter S. Kimball, Alexander C. Stevens '07 and Hubert H. Race, PhD '22 of the General Electric Company, and Professor Vladimir Karapetoff. Professor Robert F. Chamberlain '08 was chairman of the general convention committee with most of the members of the School staff heading subcommittees.

#### 4-H Club Congress

The engineers left on Friday, June 26; by Sunday night the Campus was alive again, this time with nearly nine hundred farm boys and girls and their leaders from thirty-seven counties of New York State, here for their fourteenth annual 4-H Club congress. The chimes were played for them and a special vesper service was held in Sage Chapel; they were given courses of instruction and play by members of the Agriculture staff, they themselves presented two one-act plays, and the congress closed with a candle-lighting ceremony July 2. Many lived in tents under the Crescent at Schoellkopf Field; others lived in the dormitories. One of their speakers was Dr. Dean F. Smiley '16, University Medical Advisor now on leave as director of the division of health and physical education in the State Department of Education. During the congress, the New York State 4-H Extension Federation, probably the first

of its kind in the United States, was organized to perform for juniors the same function as the Farm and Home Bureau Federations for adult farmers.

### Physicists Gather

Independence Day brought to Rockefeller Hall 175 physicists for a three-day symposium on photoelectricity and thermionics in which papers were given by two Nobel Prize winners and by many other distinguished specialists from universities and commercial laboratories. Professor James Franck, noted German physicist who won the Prize in 1925, arrived in America the day before to give a paper and to remain as visiting lecturer in Physics at the Summer Session. Dr. Irving Langmuir of the General Electric Company, Schenectady, winner in 1932, was another speaker.

Among the alumni present were Dr. Joseph A. Becker '18 of the Bell Telephone Laboratories in New York City, Professor Louise S. McDowell, PhD '07, of Wellesley, Professor Frances G. Wick '05 of Vassar, and Dr. Lewis R. Koller '17 of the General Electric Company. Professor R. Clifton Gibbs '06, chairman of the Department, headed the host committee. Dr. Hans Bethe, recently appointed assistant professor of Physics, was in charge of round-table discussions, and most of the members of the Department staff participated.

### Summer Session Opens

Registration for the University's forty-fourth Summer Session, July 8, was complicated somewhat by the flood of the previous night and that day. Several hundred Ithaca refugees were quartered in one end of the Drill Hall while Summer Session students were registering in the other. Nevertheless, it is generally conceded, both by students and Faculty, that the reorganization this year of the Summer Session under one administrative board, headed by Dr. Loren C. Petry as director, has greatly simplified not only registration but the entire operation of the Summer Session.

With several of the unit courses still to open, Dr. Petry estimates that the total enrollment this year will be at least 1750, as compared with about 1650 last year. Because of the flood, and particularly the exaggerated reports of it which got about the country, enrollment was extended through Friday, July 12. The Summer Session office was kept busy for two days answering telegrams from friends and relatives of students here, and a few were kept from coming or called away to repair flood damage at home.

At this writing, however, (July 17) classes are well underway; the first of the weekly recitals sponsored by the Department of Music was given by Professor Andrew C. Haigh, pianist, in Memorial Hall of Willard Straight, July 11; the Observatory is open nightly; and the

Summer Theatre presented its first performance, "Rosmersholm," on July 12 and 13. On Friday evening the first of the semi-weekly Willard Straight "open nights" was held, and on Sunday afternoon a reception for visiting Summer Session professors. Sage Chapel preacher on July 14 was Rev. R. Ames Montgomery of Presbyterian Theological Seminary, Chicago, Ill., and on Sunday afternoon in Sage Chapel, Nelson O. Kennedy, acting University organist, gave his first Summer Session recital.

The first three summer unit courses in Hotel Administration opened the last week in June with an enrollment of thirty-seven, the largest on record. One student came from China, two from Texas, and one each from California, Wyoming, and Florida.

### Institute of Cooperation

Beginning July 15 and continuing through July 20, nearly a thousand representatives of agricultural cooperative associations and marketing experts, including many alumni, came to the Campus for the eleventh annual session of the American Institute of Cooperation, of which H. Edward Babcock, University Trustee and general manager of the GLF Exchange, is chairman of the board. These visitors were welcomed by Dean Carl E. Ladd '12 and President Farrand. They were addressed also by Dr. Edwin G. Nourse '06, director of the Brookings Institute of Economics at Washington, D. C., who spoke on "America's Capacity to Produce and Consume;" by Jerome D. Barnum '12, publisher of the Syracuse Post Standard and president of the American Newspaper Publishers' Association: "How a Publisher Looks at the Agricultural Cooperative Movement;" and by Babcock on "The Scope of the Cooperative Movement in the United States."

Other Cornellians who took part in the program include Robin Hood, recipient of the University Fellowship in Political Economy for 1935-6, and Frank E. Gannett '98, University Trustee and publisher of the Gannett Newspapers, in the sessions on publications. Those on egg marketing were presided over by John C. Huttar '24, vice-president of the Co-operative GLF Egg Marketing Services, Inc.; other alumni who spoke included Edmund A. Perregaux '22 of Connecticut State College, Horace E. Shackleton '19, director of operation, Pacific Egg Producers' Cooperative Association, Inc., John C. Crissey '17, president of the GLF Egg Marketing Services, Professor Harold E. Botsford '18 of the Poultry Department, and Carl A. Dellgren '31, master of the Albany egg market. Cornell speakers before the sessions on membership relations and field service were Earl B. Clark '14, dairy farmer of North Norwich, Herbert P. King '00, fruit grower of Trumansburg and presi-

dent of the State Farm Bureau Federation, Professor Paul J. Kruse of the Department of Rural Education, and Professor Earl A. Flansburgh '15, State county agent leader.

Dairy marketing problems were discussed by Wesley H. Bronson '13, statistician and economist for the New England Milk Producers Association, Thomas G. Stitts '15, economist in charge of the dairy section, FCA, by former professor Harold A. Ross, PhD '24, now head of the bureau of economics of The Borden Company, Professor Leland Spencer '18 of the Department of Agricultural Economics, Roger B. Corbett '22, senior extension economist of the Federal Bureau of Agricultural Economics, by Edmund E. Vail, PhD '27, senior agricultural economist of the same Bureau. Thomas K. Wolfe, PhD '21, manager of retail service, Southern States Cooperative, and John L. Dickinson '21, field organization manager, Eastern States Farmers Exchange, took part in the discussions of retail services for farmers.

Babcock presided over the sessions on the practical application of the philosophy of cooperation, which were also addressed by Earl W. Benjamin '11, former professor of poultry husbandry and now general manager of Pacific Egg Producers. Those on cooperative credit for farmers and cooperatives were led by Edward H. Thomson '09, president of the Federal Land Bank at Springfield, Mass.; other Cornellian speakers were Harlan B. Munger '12, president of the Springfield Production Credit Corporation, Samuel E. Ronk, '30 Grad., business analyst of the Springfield Bank for Cooperatives, and George W. Lamb '13, president of that Bank. Professor Marius P. Rasmussen '19 of the Department of Agricultural Economics and Maurice C. Bond, PhD '28, Extension Marketing, spoke before the sessions on marketing fruits and vegetables; and the women's conference was addressed by Director Flora Rose of the College of Home Economics.

### Discuss Money Policies

On July 18 and 19, international authorities gathered here for two days of lectures and conferences on Governmental policies with respect to money. The speakers were Professors George F. Warren '03, O. M. W. Sprague of Harvard and James H. Rogers of Yale; James D. Mooney, president of General Motors Export Corporation; Dr. Lionel D. Edie of the Edie-Davidson Corporation; Judge John D. Miller, president of the National Cooperative Council; and Harper Sibley, University Trustee and president of the United States Chamber of Commerce. Earlier in the week Professors Warren and Frank A. Pearson '12 lectured on various phases of the subject of money and prices.

## BRIEF NEWS OF CAMPUS AND TOWN

FLOOD RELIEF and considerable personal experience of the power of raging waters by such as were living along the Lake, in Forest Home, along Fall Creek, and in other damaged sections, have occupied the attention of most members of the University community since the night of July 7. Summer Session students are here, temporarily prevented from swimming in Beebe Lake, but otherwise about as usual.

DOWNTOWN, the next biggest event has been Tompkins County Day, July 4, when 35,000 persons from town and the surrounding country brought their picnic baskets to Stewart Park to enjoy a day's outing, parachute jumps, a glider and twenty airplanes of which the former and one of the latter made forced landings without serious injury, yacht races, and in the evening a parade of power craft and a mammoth display of fireworks.

THE NEW City golf links of nine holes was officially opened that day, having previously been christened the Newman Municipal Golf Course in honor of Jared T. Newman '75, who gave not only the site of the golf course, but the land for the adjoining bird park and for the City airport. The draining and filling of these areas, for which he has also been active, have turned to advantage and beauty one of Ithaca's previously most unsightly and unhealthy spots.

THE AIRPORT, meanwhile, gives promise of considerable further development and usefulness. Under the direction of Dr. D. B. Johnstone-Wallace, agrostologist of the College of Agriculture, and Jesse A. DeFrance, PhD '32, and with the interested encouragement of Army airmen, it is proposed to experiment with turf grasses on the runways and other areas, with Federal assistance, which will make this a practical laboratory for the improvement of all other airports in similar climates. It has also been announced that the new proposed run of American Airlines between Washington, D. C. and Elmira may be extended to make the Ithaca airport its terminal; and that the Federal Bureau of Air Commerce, if its requested fund to construct and improve the airports of the country is granted, would "look with favor" on the construction of a seaplane hangar and ramp, lighting the field, and the building of an aeronautical laboratory to be operated by the School of Mechanical Engineering.

YACHTSMEN have been racing every fair holiday on the Lake. In the Tompkins County Day races, Zephyr, skippered by Frederick A. Wilcox '25, won in the Star class, followed by Let's Go, Dr. Leo

P. Larkin '18, and Star Faithful with Ruth Howell, fifteen-year-old daughter of John S. Howell '12, at the tiller. Jean, owned and sailed by Arthur N. Gibb '90, won in the open class, and Freecaw, skippered by Foster M. Coffin '12, was third. Earlier in the day Captain Coffin had finished second, followed by the boats of James F. McKinney '13 and D. Boardman Lee '26. The weekend previous, Dr. Larkin had won among the Stars, with Star Faithful second and Zephyr third; and Coffin in Freecaw and Paul K. Rice sailing Nirie finished second and third in their class.

WESG, the Campus radio station, broadcast a "Welcome Columbia" program Sunday afternoon, June 28, to celebrate its affiliation with the Columbia network. On July 11, with one of the chiefs from the New York City Columbia office in charge, the station over a nation-wide hook-up broadcast the first-hand experiences of flood refugees from Elmira, Trumansburg, Watkins, and other stricken districts.

NEW INDUSTRY which will employ at the start more than 150 comes to Ithaca in the establishment on the top floor of the Morse Chain Company's building on South Hill of the Ithaca Leather Goods Co., Inc. Mr. and Mrs. Robert Appel are moving their plant for the manufacture of women's handbags from New York City, and expect to be in full operation shortly. Since November a small shop employing thirty persons has been operating here as a test.

UNIVERSITY ATHLETICS are not entirely dormant during the summer. A team of University employees has been playing regularly, and with varying success, in the Ithaca City softball league.

NEXT MONTH brings to the Campus again for the first time since 1916, the annual meeting of the American Association of Agricultural College Editors. Delegates have already arranged to come from nineteen states and from the Department of Agriculture at Washington. The dates are August 20, 21, 22; Professor Bristow Adams and his staff are host editors.

MINISTERS came to town last week *en-masse* to attend the two interdenominational schools being held simultaneously for their training. The Central New York School of Christian Education is sponsored jointly by the New York State Council of Churches and Religious Education and the staff of Cornell United Religious Work; the School for Town and Country Ministers, by the State Council and the Department of Rural Social Organization of the College of Agriculture.

FLOWER-LOVERS revelled the first week of July in the University's rose test garden on the Cortland road beyond Forest Home. Twelve hundred varieties were at their best. Following the flood the border of Japanese iris in Mrs. Farland's garden above Tower Road was a riot of color. It duplicates the collection brought from Japan to bloom at the Brooklyn Botanical Gardens.

THE CO-OP in Barnes Hall is being managed by Ralph C. Avery '22, on leave from his duties as assistant manager of purchases for the University.

THE STEEPLE of St. John's Episcopal Church at Buffalo and Cayuga Streets was struck by lightning during the big storm, and is being repaired and painted.

HEAD RESIDENT of Balch Hall, Unit III, next fall will be Mrs. N. Carter Daniell, for the past three years chaperone at Alpha Xi Delta.

AN ARMY PLANE from Mitchell Field droned high over City and Campus June 26, making a aerial map of the vicinity for use by the University ROTC unit.

UNITED STATES ARMY BAND, broadcasting June 14 from Washington, D. C., dedicated its opening number, "The Regiment's Return," to the Cornell ROTC Band.

FROM ROWS Q, T, and U of the old Lyceum Theatre on Cayuga Street came the leather-upholstered chairs in Ithaca's City Council chamber, reports Cecil R. Rosenberry '25 in his Ithaca Journal column, "All in a Lifetime."

MRS. WILLIAM E. PROFFITT, whose husband until last fall was superintendent of Memorial Hospital in Ithaca, died in Minneapolis, Minn., June 26. One of their two sons, William E., Jr., is a football star at University of Minnesota.

HENRY A. CAREY '12 has been re-elected president of the Ithaca Reconstruction Home for Infantile Paralysis, a philanthropic enterprise in which many other Cornellians are interested. The Home again this year is rated Class 1, both in plant and administration, by the State Department of Social Welfare.

ITHACA SAVINGS and Loan, with which many Cornellians have been identified in its score of years, celebrated the twentieth anniversary of its chartering on July 1. Largely responsible for its organization was Harry C. Baldwin '06, who has been its secretary since. Professor Carl Crandall '12 is the present treasurer, and many local Cornellians are directors.

## MEXICO GREET'S PHILLIPS

Celebrating his election as a governor of International Rotary, the Cornell Club of Mexico entertained Professor E. Franklin Phillips of the Department of Apiculture, at dinner, with a special meeting held at the University Club, on Sunday, June 16.

## MEDICAL CLASS SECRETARIES

Thirty-one classes of the Medical College in New York have elected class secretaries, most of them selected at the alumni dinner of the College, May 2. This is the first time that Medical College classes have chosen life secretaries; the new class organization is a part of the enlarged program of the Medical College Alumni Association under the presidency of Dr. Walter H. McNeill, Jr. '10. It is planned also to install a full-time secretarial assistant in the new Alumni Office of the College, who will keep alumni records, extend the courtesies of the School and Hospital to visiting alumni, and give information about the College and its former students to all alumni.

The secretary of the Medical College Alumni Association is Dr. Ramsay Spillman '17, 115 East Sixty-first Street, New York City. In the following list of class secretaries, addresses are in New York City unless otherwise given:

'99 Gertrude Rochester, 125 East Fiftieth Street; '00 Frank C. Yeomans, 555 Park Avenue; '01 Emily D. Barringer, 172 East Seventy-ninth Street; '02 Ethel H. Hitchcock, 105 West Fortieth Street; '03 Edward R. Cunniffe, 2515 Grand Concourse; '05 J. Homer Cudmore, 216 East Thirty-ninth Street; '07 George W. Wheeler, Cornell University Medical College; '08 Gaylord W. Graves, 121 East Sixtieth Street; '09 Edward H. Marsh, County Office Building, White Plains; '10 Walter H. McNeill, Jr., 115 East Sixty-first Street; '11 Julius Waterman, Bradford, Pennsylvania; '12 David Nye Barrows, 130 East Fifty-sixth Street; '13 Frank N. Dealy, 89-04 148 Street, Jamaica; '14 Anna Tjomslund, 501 West 110 Street; '15 Arthur Palmer, 667 Madison Avenue; '16 Arthur F. Kraetzer, 123 East Fifty-third Street; '17 Ramsay Spillman, 115 East Sixty-first Street; '18 Lloyd F. Craver, 121 East Sixtieth Street; '19 Howard Reid Craig, 175 East Seventy-ninth Street; '20 Harold S. Belcher, 11 Wall Street; '21 Adelaide Ross Smith, 172 Sullivan Street; '22 Edwin T. Hauser, 850 Park Avenue; '23 Leif George Jensen, 126 Park Avenue, Port Richmond; '24 Willis W. Knighton, 40 East Sixty-first Street; '25 William L. Watson, 1088 Park Avenue; '26 Irving S. Wright, 115 East Sixty-first Street; '27 Paul J. Soley, 139 East Sixty-sixth Street; '28 James Hugh Kidder, 17 West Sixtieth Street; '29 Bernard Fread, 121 East Sixtieth Street; '30 George W. Slaughter, Bellevue Hospital; '31 Graham Lewis Bennett, 461 Forty-third Street.

## Concerning THE FACULTY

PROFESSOR WILLIAM STRUNK, JR., PhD '96, has gone into the movies. He is at Culver City, Cal., for six weeks as interpreter and adviser on the text of Romeo and Juliet, to be filmed by Metro-Goldwyn-Mayer with Frederic March and Norma Shearer said to be cast for the leading roles. Recommended for this assignment by Dr. Joseph Q. Adams, PhD '06, director of research at the Folger Memorial Shakespeare Memorial Library in Washington, D. C., and formerly of the English Department, Professor Strunk is recognized as one of the three foremost American Shakespeare scholars. He edited an edition of Romeo and Juliet in 1911. At Culver City he is working with Talbot Jennings, former associate of John Tucker Murray at Harvard. He has been a member of the Faculty since 1891, Professor of English since 1909, and since the death of Martin Sampson until last fall was acting head of the English Department. Mrs. Strunk is visiting in Washington, D. C.

DR. MORRIS BISHOP '13, Romance Languages, and formerly associate editor of the ALUMNI NEWS, in France on sabbatical leave since February, is credited by the Paris edition of the New York Herald as having proved to the satisfaction of the directors of the Louvre that a portrait by Philippe de Champaigne always supposed to represent the Duc de Roannez is really the second Duc de Luynes. The label will be changed. Paul Jamot, curator of paintings at the Louvre, read a paper by Bishop on July 5 before the Societe de l'Histoire de l'Art Francais describing the details of the portrait, proving that they could not apply to the Duc de Roannez, demonstrating that the picture fits perfectly the life and character of the second Duc de Luynes, and comparing it with his only known portrait to prove that this is of the same person. Professor Bishop and Mrs. Bishop are staying at the Abbaye due Lys at Dommarie-les-Lys with the Comte Jehan de Noue; they plan to return to Ithaca early in September.

PROFESSOR E. FRANKLIN PHILLIPS, Entomology, governor of the twenty-sixth district of Rotary International, made his first official visit to the club at Napanec, Ont. on July 9.

WILLIAM A. FRAYER '03, assistant in History from 1906 to 1908 and for twenty years a teacher of European history at the University of Michigan, was recently named executive secretary of the Cranbrook Foundation in Detroit, Mich.

PROFESSOR EDWARD S. GUTHRIE, PhD '13, Dairy Industry, and Mrs. Guthrie and their daughter, Katherine, are on a motor trip to Coin, Iowa, to visit relatives. Professor Guthrie will attend the American Dairy Science Association sessions in St. Paul, Minn. before his return to Ithaca.

MISS GERTRUDE H. NYE, prevented last year by prolonged illness from undertaking her duties as head resident at Prudence Risley Hall, where she had been since its completion twenty-one years ago, has resigned. Her health has improved, but not sufficiently to enable her to continue her University duties. She is spending the summer with her niece, Margaret Cuthbert '08, in New York City. For six years before the building of Risley Hall, Miss Nye was head resident at the old Sage Annex on Central Avenue, later occupied by the University Club, now demolished.

PROFESSOR BENJAMIN P. YOUNG, PhD '19, Zoology, Mrs. Young and their two children have returned from a five months trip through Europe.

PROFESSORS WILDER D. BANCROFT, Chemistry, Ernest G. Merritt '86, Emeritus, Physics, Edward L. Nichols '75, Physics, and Floyd K. Richtmyer '04, Physics, were among the leading men and women in the field of science, art, and literature consulted by Representative William I. Sirovich, chairman of the House committee on patents, in seeking opinions of his bill to establish a Federal department of science, art, and literature.

PROFESSOR DWIGHT SANDERSON '98, Rural Social Organization, with his wife and daughter, sailed recently for Europe. They plan to motor through Ireland, Great Britain, France, and Switzerland. He will attend meetings of the International Country Life Commission at Luxembourg and of the International Sociological Congress at Brussels.

ROBERT BOOCHEVER, son of Louis C. Boochever '12, director of public information, graduating from Ithaca High School, won the Alice M. Evans scholarship as the senior who possesses the finest ideals of character as exemplified by the life of Miss Evans.

PROFESSOR J. CHESTER BRADLEY '06, Entomology, sailed June 29 to conduct a party on a trip down the Mosel River, the Inn River, and the Danube to Vienna. The trip will last until early in September when Professor Bradley will go to Madrid and Lisbon to attend the sixth International Congress of Entomology and the twelfth International Zoological Congress.

MISS GRACE SEELY '04, head resident of Sage College, sailed July 5 to spend the summer months in France.

ROBERT A. POISON, Rural Social Organization Extension, has returned from Montreal where he attended the National Conference of Social Work and presented a paper on "Privately Sponsored Group Work in Rural Communities." He is a member of a national committee on group work.

PROFESSOR PAUL WORK, MSA '13, Vegetable Crops, spoke on better marketing methods as the most important development in the northeastern vegetable industry today, at Massachusetts State College of Agriculture, July 23.

LINCOLN D. KELSEY, assistant county agent leader, has returned after six months with the Federal Government as regional agricultural advisor to the Federal Emergency Relief Administration in five northeastern states and the District of Columbia.

PROFESSOR STANLEY J. BROWNELL, Grad '30, Animal Husbandry Extension, presented a paper at the annual meeting of the American Dairy Science Association in St. Paul, June 24-27.

PROVOST ALBERT R. MANN '04 visited the ROTC Infantry camp at Plattsburg, July 1. On June 26 he was appointed a member of the board of education at the northern Baptist convention in Colorado Springs, Colo. He recently attended a directors' meeting of the Farm Foundation in Chicago, Ill.

PROFESSOR HUBERT E. BAXTER '10, Architecture, and Mrs. Baxter are spending the summer in Bridgewater, N. H. Coach Nicholas Bawlf and Mrs. Bawlf are in Ottawa, Canada. Professor Jacob Papish, PhD '21, Chemistry, and Mrs. Papish are in Cincinnati.

DR. KENNETH W. SHERK, PhD '34, formerly research assistant in Chemistry, has accepted an assistant professorship at Smith College.

PROFESSOR ALPHEUS M. GOODMAN '16, Agricultural Engineering Extension, left Washington July 1 for Matanuska, Alaska, as one of a group of ten specialists sent to investigate conditions at the Federal colonization project there. He has also been in Porto Rico in the same capacity.

PROFESSOR CHARLES E. O'ROURKE, Engineering, was elected president of the Cayuga Heights school board at the annual meeting, July 2.

PROFESSOR BRISTOW ADAMS, Agriculture Publications, and his daughter Eleanor left July 10, driving to California to visit a brother in Berkeley who is dangerously ill, a sister in San Francisco, and another sister in Pasadena. They will be gone about a month.

---

## OBITUARY

---

GEORGE S. TARBELL '90, died July 8 from heart failure as a result of the Ithaca flood, trying to get Mrs. Tarbell and a maid out of danger at their lakeside cottage. Having practiced law in Ithaca continuously since 1894, when he received the degree of LLB from the University, Tarbell was also identified prominently with much of the City's growth and development. As chairman of the City planning commission, treasurer of its industrial commission, and a director of the Finger Lakes Association, he was instrumental in the development of the City airport, Stewart Park, and other municipal improvements, and was influential in obtaining the new State boulevard along the west shore of Cayuga Lake. Born in Groton in 1868, the son of Doctor Tarbell '72, he entered the Arts College in 1886 from Ithaca High School, and received the degree of PhB in 1891, to enter the Law School that year. He was one of the organizers and a director of the League of University Republican Clubs, vice-commodore of crew, a Senior Major in the ROTC. He was a member of Delta Phi and at his death was president of the Cornell Association of Delta Phi. From 1898 to 1924 he served as United States Referee in Bankruptcy, and from 1901 to 1903 was City Attorney, and had been president of the Tompkins County Bar Association. He was City Police Commissioner from 1919 to 1924. Mrs. Tarbell survives him, with two daughters, Mrs. Ernest E. Jenks (Dorothy) '16 of Great Neck and Mrs. Ralph Hospital (Louise) '21 of Morrisville, Pa.; one son, G. Schuyler Tarbell, Jr. '26 who was in Bermuda on his wedding trip at the time of his father's death; a brother, Clarence D. Tarbell, '06 Sp., of Ithaca; and a sister.

EDWARD RICHARD O'MALLEY '91 died May 30 at his home in Buffalo after several months' illness. O'Malley was born in Medina in 1863. He entered the Law School in 1889 and received the LLB degree. He was assistant corporation counsel of the City of Buffalo from 1894 to 1897; a member of the State Assembly in 1901-02; and State Attorney-General in 1909-10. For eleven years until his retirement, January 1, 1934, at the age of seventy, he was Justice of the State Supreme Court, Eighth Judicial District; thereafter until his death he was an Official Referee. In his Senior year in Law, he and Reuben L. Maynard '91 won the Law School Prize Debate Contest. He was one of the founders of the mother chapter of Delta Chi at Cornell, in 1890. He is survived by his brother, Supreme Court Justice James O'Malley '01, and by one daughter, Mrs. Eileen O'Malley Cullen of Buffalo.

KARL K. KITCHEN '06 died in New York City on June 21 from a streptococcus infection and pneumonia. He was born in Cleveland, O. in 1885, and entered the Mechanical Engineering course in Sibley College in 1902 from Central High School in Cleveland. The next year he left school and started newspaper work, which engaged him the rest of his life. First with the Cleveland Plain Dealer, in 1907 he went to New York City where he wrote a popular column for the old World and later for the New York Sun. He had travelled extensively since giving up his column and he wrote of his travels and of the theatre for syndicates and magazines. During his travels he wrote two books, *The Night Side of Europe*, and *After Dark in the War Capitals*. He is survived by his widow.

WILLIAM STRATTON HADAWAY '19 died in Essex County Hospital, Belleville, N. J., June 6, as a result of injuries received in an automobile accident a week before. He was born in Montgomery in 1896; entered Cornell in 1915, and received the ME degree in 1920, serving in the Navy from August, 1918, to January, 1919. He entered the employ of the Edison Lamp Works in Harrison, N. J. as factory engineer, later assuming duties in lighting engineering. In 1929 he went to the Westinghouse Lamp Company in Bloomfield, N. J. as illuminating engineer in the commercial engineering department. He was a member of the Illuminating Engineering Society and at his death was active in the design of commercial and industrial lighting installations. Surviving are his widow and two sons, William, seven, and Lloyd, five, of 35 Kenwood Place, Verona, N. J.

---

### HONOR DR. WINSLOW '06

The medical profession of Rochester on June 20 honored Dr. Floyd S. Winslow '06 in recognition of his election as president-elect of the State Medical Society. The more than two hundred guests at dinner at the University Club included Foster M. Coffin '12, Alumni Representative and secretary of the Cornell Alumni Corporation, and four Ithaca physicians: Dr. Martin B. Tinker, lecturer on Surgery at the University during Winslow's undergraduate days, Dr. Francis J. McCormick '10, Dr. Leo P. Larkin '18, and Dr. Norman S. Moore '23. Frank E. Gannett '98 was one of the speakers, as was Dean George H. Whipple of the University of Rochester, Nobel prize winner. Dr. Winslow has been president of the Cornell Alumni Corporation, is now director-at-large, and was a member of the Trustee-Faculty-alumni committee on the reorganization of athletics. His son, Philip M. Winslow '33, now a second-year medical student at Rochester, has won a competitive fellowship which enables him to study under Dean Whipple.

## Concerning THE ALUMNI

'81—George Shiras, 3rd. has finished his book on *Hunting Wild Life with the Camera and Flashlight*, a review of sixty-five years, visits to the lands and waters of North America. This publication will be in two volumes and include more than five hundred wild life photographs taken by the author and will be published toward the end of this year by the National Geographic Society, of which Shiras has been a member of the board of trustees for twenty-five years. Shiras has been called the father of wild life photography, and in 1900 he received the highest award at the Paris Exposition for his flashlight pictures; he received a similar award at the St. Louis Fair. In 1904 Shiras, then a member of Congress, prepared and introduced the original migratory bird bill, putting under Federal control the migrant birds of the United States. He lives in Washington D. C. in the winter and has a summer home at Marquette, Mich.

'85 PhB; '71 AB; '99 AB, '02 LLB; '02 CE; '08 CE; '14 AB; '16 AB; '34 LLB; '35 LLB—How interest in and loyalty to Cornell is transmitted through a family is well illustrated by a statement made by Stoddard M. Stevens '85, who recently attended the fiftieth anniversary of the graduation of his Class, when he said that in each decade since the University was founded, excepting the decade of the twenties, some member of the family had been a student and a graduate of Cornell: John E. More '71, maternal uncle; Edward L. Stevens '99, brother; Harold B. Stevens '02, brother; John H. Stevens '08, brother; Stoddard M. Stevens, Jr. '14, son; George M. Stevens '16, son; Edward L. Stevens, Jr. '34, nephew; and George N. Stevens '35, nephew.

'89—Dr. Nathan B. Van Ethen of New York City was elected speaker of the house of delegates at a recent meeting of the American Medical Association at Atlantic City, N. J.

'91 BS—On May 23 Dr. C. Adeline McConville gave a lecture at the First Baptist Church in Williamsburgh, Brooklyn, N. Y. on "Our Southern Mountaineers," illustrated by 122 plain and colored slides made from films nearly all of which were taken by Dr. McConville, for the benefit of the Oneida Mountain Hospital, Oneida, Ky., of which she is the founder.

'93 BS, '98 MA—Clara L. Lawrence is living at 94-16 Union Hall Street, Jamaica.

'94 AB—Charles A. Wheelock is with the Federal Land Bank of St. Paul, Minn. as service man for the northern half of Michigan. His address is Lock Box 383, Sault Ste. Marie, Mich.

'95 ME—Frank B. Stratford is a consulting mechanical engineer in Montclair, N. J., 105 Llewellyn Road.

'95 LLB—Ray Van Cott from March 1, 1934, until October 8, 1934, was senior attorney with the Home Owners' Corporation in Washington, D. C., being appointed October 8 Utah State counsel of the Corporation. He has five children, two boys and three daughters. His address is 514 Boston Building, Salt Lake City, Utah.

'96 MS—James E. Boyd, chairman of the department of mechanics of Ohio State University since 1906, resigned in June, 1934, and is continuing as full time professor. His book, *Strength of Materials*, is in its fourth edition, published by McGraw-Hill Company. He may be addressed at the Industrial Engineering Building, Ohio State University, Columbus, O.

'96 LLB—Virginia Cobb, daughter of Howard Cobb '96 of Ithaca, has just graduated from Bradford Junior College, Bradford, Mass.

'96 PhB—William H. Glasson, professor of economics and dean of the graduate school of arts and sciences at Duke University, was in a serious automobile accident, December 7, 1934. After an extended stay in Duke Hospital he was compelled to discontinue most of his regular university duties during the academic year. He writes that he has made much progress toward a restoration of health and strength during the spring months.

'96 ME—Philip B. Hasbrouck is manager of the Fontana (Cal.) Union Water Company and Fontana Power Company; superintendent of the Fontana Domestic Water Company; and engineer of the Fontana Farms Company. He completed ten years of service with the Company, May 5. His first grandson was born on October 6, 1934. His address is Box 294, Fontana, Cal.

'97 AB—Charles W. D. Parsons is educational sales manager of the Central Scientific Company, 1700 Irving Park Boulevard, Chicago, Ill. He writes that his wife died February 11, 1935. He is living at 1743 Wesley Avenue, Evanston, Ill.

'98 LLB—Judge Willard M. Kent, president of the New York State Association of Children's Court Judges, presided at a meeting in Salamanca on June 1 at which plans and program for the annual meeting of the Association were discussed.

'98 PhD; '20 MS, '22 PhD; '17 DVM; '21 MS; '31 MS; '23 Grad; '23 Grad—John F. Snell, professor of chemistry of Macdonald College, McGill University, and acting dean of the faculty in 1932-34, is representative fellow of the faculty of agriculture in the senate of McGill University. He writes that William H. Brittain '20 is dean of the faculty of

agriculture and vice-principal of Macdonald College; that Raymond L. Conklin '17 is professor of animal pathology in the faculty of agriculture at McGill, veterinarian of Macdonald College, and in charge of veterinary work in the Quebec department of agriculture; that Robert Summerby '21 is professor of agronomy in the faculty of agriculture, McGill University and president of the Canadian Seed-growers Association; and that Louis G. Heimpel '31 is assistant professor of agricultural engineering, William A. Maw '23 assistant professor of poultry husbandry, and Emile A. Lods '23 assistant professor of agronomy at Macdonald and in charge of the seed farm of the Quebec department of agriculture. Heimpel and Maw are also members of the faculty of agriculture of McGill.

'01 ME(EE)—Louis Illmer is a registered patent attorney and research engineer, 111 Port Watson Street, Cortland.

'01 ME—In conferring the honorary degree of Doctor of Engineering upon Willis H. Carrier, chairman of the board of the Carrier Engineering Corporation of Newark, N. J., Dr. Natt M. Emery, vice-president of Lehigh University, referred to him as a scientist, engineer, inventor, originator of the theory that led to the development of air conditioning, pioneer and world-wide authority in this field."

'01 AB, '03 LLB; '90 BL—Willard W. Ellis '01 and Mrs. Ellis (Edith A. Ellis) '90 of Ithaca attended the Knights Templar Conclave in Yonkers recently.

'02 LLB; '30 AB—C. Tracey Stagg was the principal speaker at a meeting of the Young Republican Club of Ithaca, June 11. Truman K. Powers '30 is president of the Club. Stagg was recently re-elected vice-president of the board of trustees of the YMCA.

'03, '04 AB, '06 LLB—Ruth Berry, daughter of Romeyn Berry '03, had a part in the play which the Senior class of Wells College gave on June 8. She sailed, June 17, for Europe where she will study at the School of International Relations in Geneva, Switzerland.

'04 CE—Rafael Dominguez is with the Shell Mex Argentine Limited, Barlolme Milve 430, Buenos Aires, Argentine. He was in Ithaca for reunion.

'04 ME—Irving Warner is vice-president of the Warner Company, Wilmington, Del. On June 1 he was elected councilman from the seventh ward of Wilmington. His address is 1109 Broome Street.

'04 AB—Mrs. Edwin M. Slocombe (Beatrice Gilson) sailed for England on June 21. She will return to her summer home in Pepperell, Mass. about August 5. Her home address is 2811 Rivermont Avenue, Lynchburg, Va.

'05 AB—Arthur D. Camp, chemical engineer, formerly with the Thomas and

Hochwalt Laboratories, Inc., is now connected with The Dorr Company, 247 Park Avenue, New York City as chief of the data department. He writes that he expects to reside somewhere in Westchester County.

'05 BSA—Ray C. Simpson of Monticello, Fla. sold out his interest in Simpson Nursery Company about five years ago. He worked for the State of Florida for three seasons as citrus fruit inspector, giving up that job in December, 1933, to go as office manager with the CWA in Jefferson County. With the demise of the CWA he was made director of operations for Jefferson County FERA, which position he is still holding. He has extensive interests in pecan and peach orchards at Albany, Ga. His daughter, Frances, recently married J. R. Hughes, Jr.

'05 AB—Robert P. Butler, United States district attorney for Connecticut, presided as toastmaster at the dinner in honor of Attorney General Homer S. Cummings in Washington, D. C., May 25. On May 27 Butler delivered the commencement address at the graduating exercises of the United States Coast Guard Academy, New London, Conn. Butler's address is 75 Pearl Street, Hartford, Conn.

'05 PhD—George D. Hubbard, professor of geology and geography at Oberlin College, writes that after one more year of teaching he expects to retire. His daughter was graduated from Oberlin in June. His address is 125 Woodland Avenue, Oberlin, O.

'07 LLB—Harry G. Stutz, general manager and editor of the Ithaca Journal, spoke at a meeting of the Advertising Club of Ithaca on June 13, urging Ithacans to become re-acquainted with Ithaca, and to cultivate friendliness with the rural folk in the surrounding territory.

'07 AB—Martin L. Wilson is chairman of the Association of Social Studies in New York City High Schools and vice-president of the High School Teachers, Association of New York City. His address is 88 Ogden Avenue, White Plains.

'08 PhD—Dr. John W. Turrentine has been elected president of the American Potash Institute, organization of producers and importers of potash salts, to be established in Washington, D. C.

'09, '10 LLB; '31; '83 BCE; '15 AB—James R. Robinson's son, Robert W. '31, was seriously injured in a fall from a fire truck, May 28. Robinson '09 was re-elected as president of the board of trustees of the Ithaca YMCA recently. Ebenezer T. Turner '83 and Ralph C. Smith '15 are members of the board of trustees, Smith being president of the board of directors, ex-officio.

'09 CE—John C. Rogers, who received his BS from Lehigh University in 1911, is president of Minefinders, Ltd., director of the United Gold Equities of Canada,

president of the General Refractory Products, vice-president of Montague Gold Mines, vice-president of Mecca Mines, Ltd., president of Calder-Bousquet Mines, director of the Powell-Rouyn Gold Mines, the Pontiac-Rouyn Mines, Leader Gold, Ltd., and Big Master Con., Ltd. He was in charge of an Arctic expedition, sponsored by Dominion explorers in 1928 through 1931; compiled first geological maps and information of the interior lying south of Coronation Gulf to the Coursell River at the south-east end of Great Bear Lake, N.W.T. Rogers' address is 100 Adelaide, West, Toronto, Ontario, Can.

'09 CE; '35 CE—Isidore Walzer is an executive of the Long Island Dredging Corporation and the Heling Contracting Corporation of Lindenhurst. He attended his twenty-sixth reunion and the graduation of his son, Sidney M. Walzer, here this June.

'09 ME—Alexander C. Sullivan, United States Army, is on recruiting duty for northern and central Ohio and part of West Virginia with headquarters in Columbus, O. He has three daughters, aged twelve, nine, and three years. His address is c/o Adjutant General, Washington, D. C.

'09 ME—Colonel H. Edmund Bullis is visiting thirteen European countries this summer to study the projects being conducted to uphold the morale of unemployed youth. Upon his return early in September he will report to Aubrey Williams, executive director of the newly formed National Youth Administration.

'10 MD; '36—Dr. Jesse D. Schwartz is practicing medicine and surgery at 320 Central Park West, New York City. He has two sons, one of them a member of the Junior Class in pre-medicine at the University.

'10, '12 CE—John A. Hayden is treasurer of Marquette County, Michigan. He lives in Ishpeming.

'10 ME—Russell B. Hurlburt is European manager of Niles-Bement-Pond and Pratt & Whitney Company of 111 Broadway, New York City. His Paris address is 3 Sq. du Trocadero. He returned to Ithaca for his reunion, and until further notice may be addressed at The Granada Hotel, Ashland Place, Brooklyn.

'11 Sp—Dudley W. Fay, formerly of Auburn, has moved to Ithaca and is living at 701 Wyckoff Road.

'11 ME; '38—Harold M. Sawyer is vice-president of the American Gas & Electric Co. and its subsidiaries, 30 Church Street, New York City. His son, Harold M., Jr., has just completed his Freshman year at the University.

'12 AB—Mrs. Nathan R. Beagle (Hermione V. Jones) for the past two years has been treasurer of the Missouri branch of the American Association of

University Women, and at the annual meeting in Kansas City in April was elected first vice-president. Her address is 1108 Vineyard Square, Jefferson City, Mo.

'12 BS, '13 MLD—John R. Van Vleck, a golf course architect, supervised the improvement of the New York City public golf courses. He is quoted in the New York Times of June 2 as believing that with careful planning and adequate maintenance a municipal course can measure up to a private one, both in interest and in condition, despite the high proportion of beginners among its habitués and the intensive use it receives; and that the public can be taught to respect a public course.

'12 LLB—Leopold Zirinsky and Mrs. Zirinsky of 390 Crown Street, Brooklyn, announce the birth of a daughter on June 7.

'12—Major Clift Andrus, until recently at Naval War College, Newport, R. I., is stationed at Camp Bragg, North Carolina.

'12 LLB—Henry A. Carey '12, Mrs. Carey, and Henry, Jr. of Ithaca, attended the graduation of the daughter, Patricia, from the Academy of St. Elizabeth, Convent Station, N. J.

'14 CE, '30 MCE—Edward R. Stapley, associate professor of civil engineering at Oklahoma A. and M. College, is on leave of absence in order to act in an advisory and instructional capacity in sanitary matters to Oklahoma municipal officials and employees. His address is c/o Department of Civil Engineering, Oklahoma A. and M. College, Stillwater.

'14 BChem, '17 PhD—Howard I. Cole, formerly chief chemist of the Philippine Health Service, has been appointed by the League of Nations to conduct research work at the new International Leprosy Center at Rio de Janeiro.

'15 ME—John W. Braffett is district manager of the Oliver Iron & Steel Corporation of Pittsburgh, Pa. His address is 7310 Woodward Avenue, Detroit, Mich.

'15 CE—Samuel Rosey (Rosenzweig) is a real estate broker and appraiser, 2917 Tenth Street, N.E., Washington, D. C. He has three children, two boys and a girl.

'15 CE—Charles P. Heidt was co-producer of "On-to-Fortune."

'16 BS, '17 MS—Francis G. Schleicher, chemist, is director of the W. D. Wilson Printing Ink Company of New York City. He lives at 33-12 210 Street, Bayside.

'16 AB—Cowles Andrus is assistant cashier of the Passaic National Bank and Trust Company, Passaic, N. J. His address is 410 Passaic Avenue.

'16 AB—Anthony O. Shallna was elected a member of the board of directors of the International Institute of Boston, 190 Beacon Street, which among other

things provides a center for information, service, education, and assembly for the use of people of all nationalities; a means of developing international fellowship and understanding; and preserving and stimulating an interest in racial cultural values. Shallna lives at 305 Harvard Street, Cambridge, Mass. His law office is at 366 West Broadway, Boston.

'18 AB—Marguerite McKay of Seneca Falls was married to Nostrat M. Firoozi, of New York City, May 23.

'18 BS—Ernestine Becker, staff member of the Johns Hopkins school of hygiene and public health and an instructor on the staff of the training school for nurses and dietary department of Johns Hopkins Hospital, spoke before the Pennsylvania state Home Economics Association on "Relation of Diet to Tooth Structure" at Harrisburg, Pa., May 4. April 4, she spoke before a joint session of the Virginia State Dietetics Association on "Recent Progress in Nutrition" at Richmond, Va. She expects to speak on "Progress in Nutrition" at the Farm and Home Week at Raleigh, N. C. in September. Her address is 615 North Wolfe Street, Baltimore, Md.

'19, '21 BS; '06 MS—Wilbur H. Simonson, senior landscape architect for the United States Bureau of Public Roads, was recently elected president of the Landscape Architects' Dinner Club of Washington, D. C. Albert D. Taylor '06 of 4614 Prospect Avenue, Cleveland, O., president of the American Society of Landscape Architects, was guest speaker at the first meeting of this newly organized get-together group.

# What Should You Get From a Prep. School?

- I. Sound ideas and habits of work and play, initiative, self reliance, self control.
- II. Thorough understanding of subjects which underlie college courses.
- III. Credentials required for your admission to college.

Cascadilla provides each of these at a minimum cost of time and money. There are unique advantages for students with difficult programs to complete.

## Cascadilla Schools

Ithaca, N. Y.

HEADMASTER

## One Special Friend...

will thank you, now, for bringing the Alumni News to his attention. It needn't cost you anything. The next time you write to that particular friend of college days, just say, as so many others are doing, "Have you seen the Alumni News lately?"

- Or send us his name and address and we'll mail him a sample copy, telling him it comes at your suggestion.
- Better yet, of course, ask us to enter him as a subscriber and send you the bill. It costs only four dollars a year. He'll thank you for your thoughtfulness each week as he reads the news of Cornell. Your request on a postcard will do.

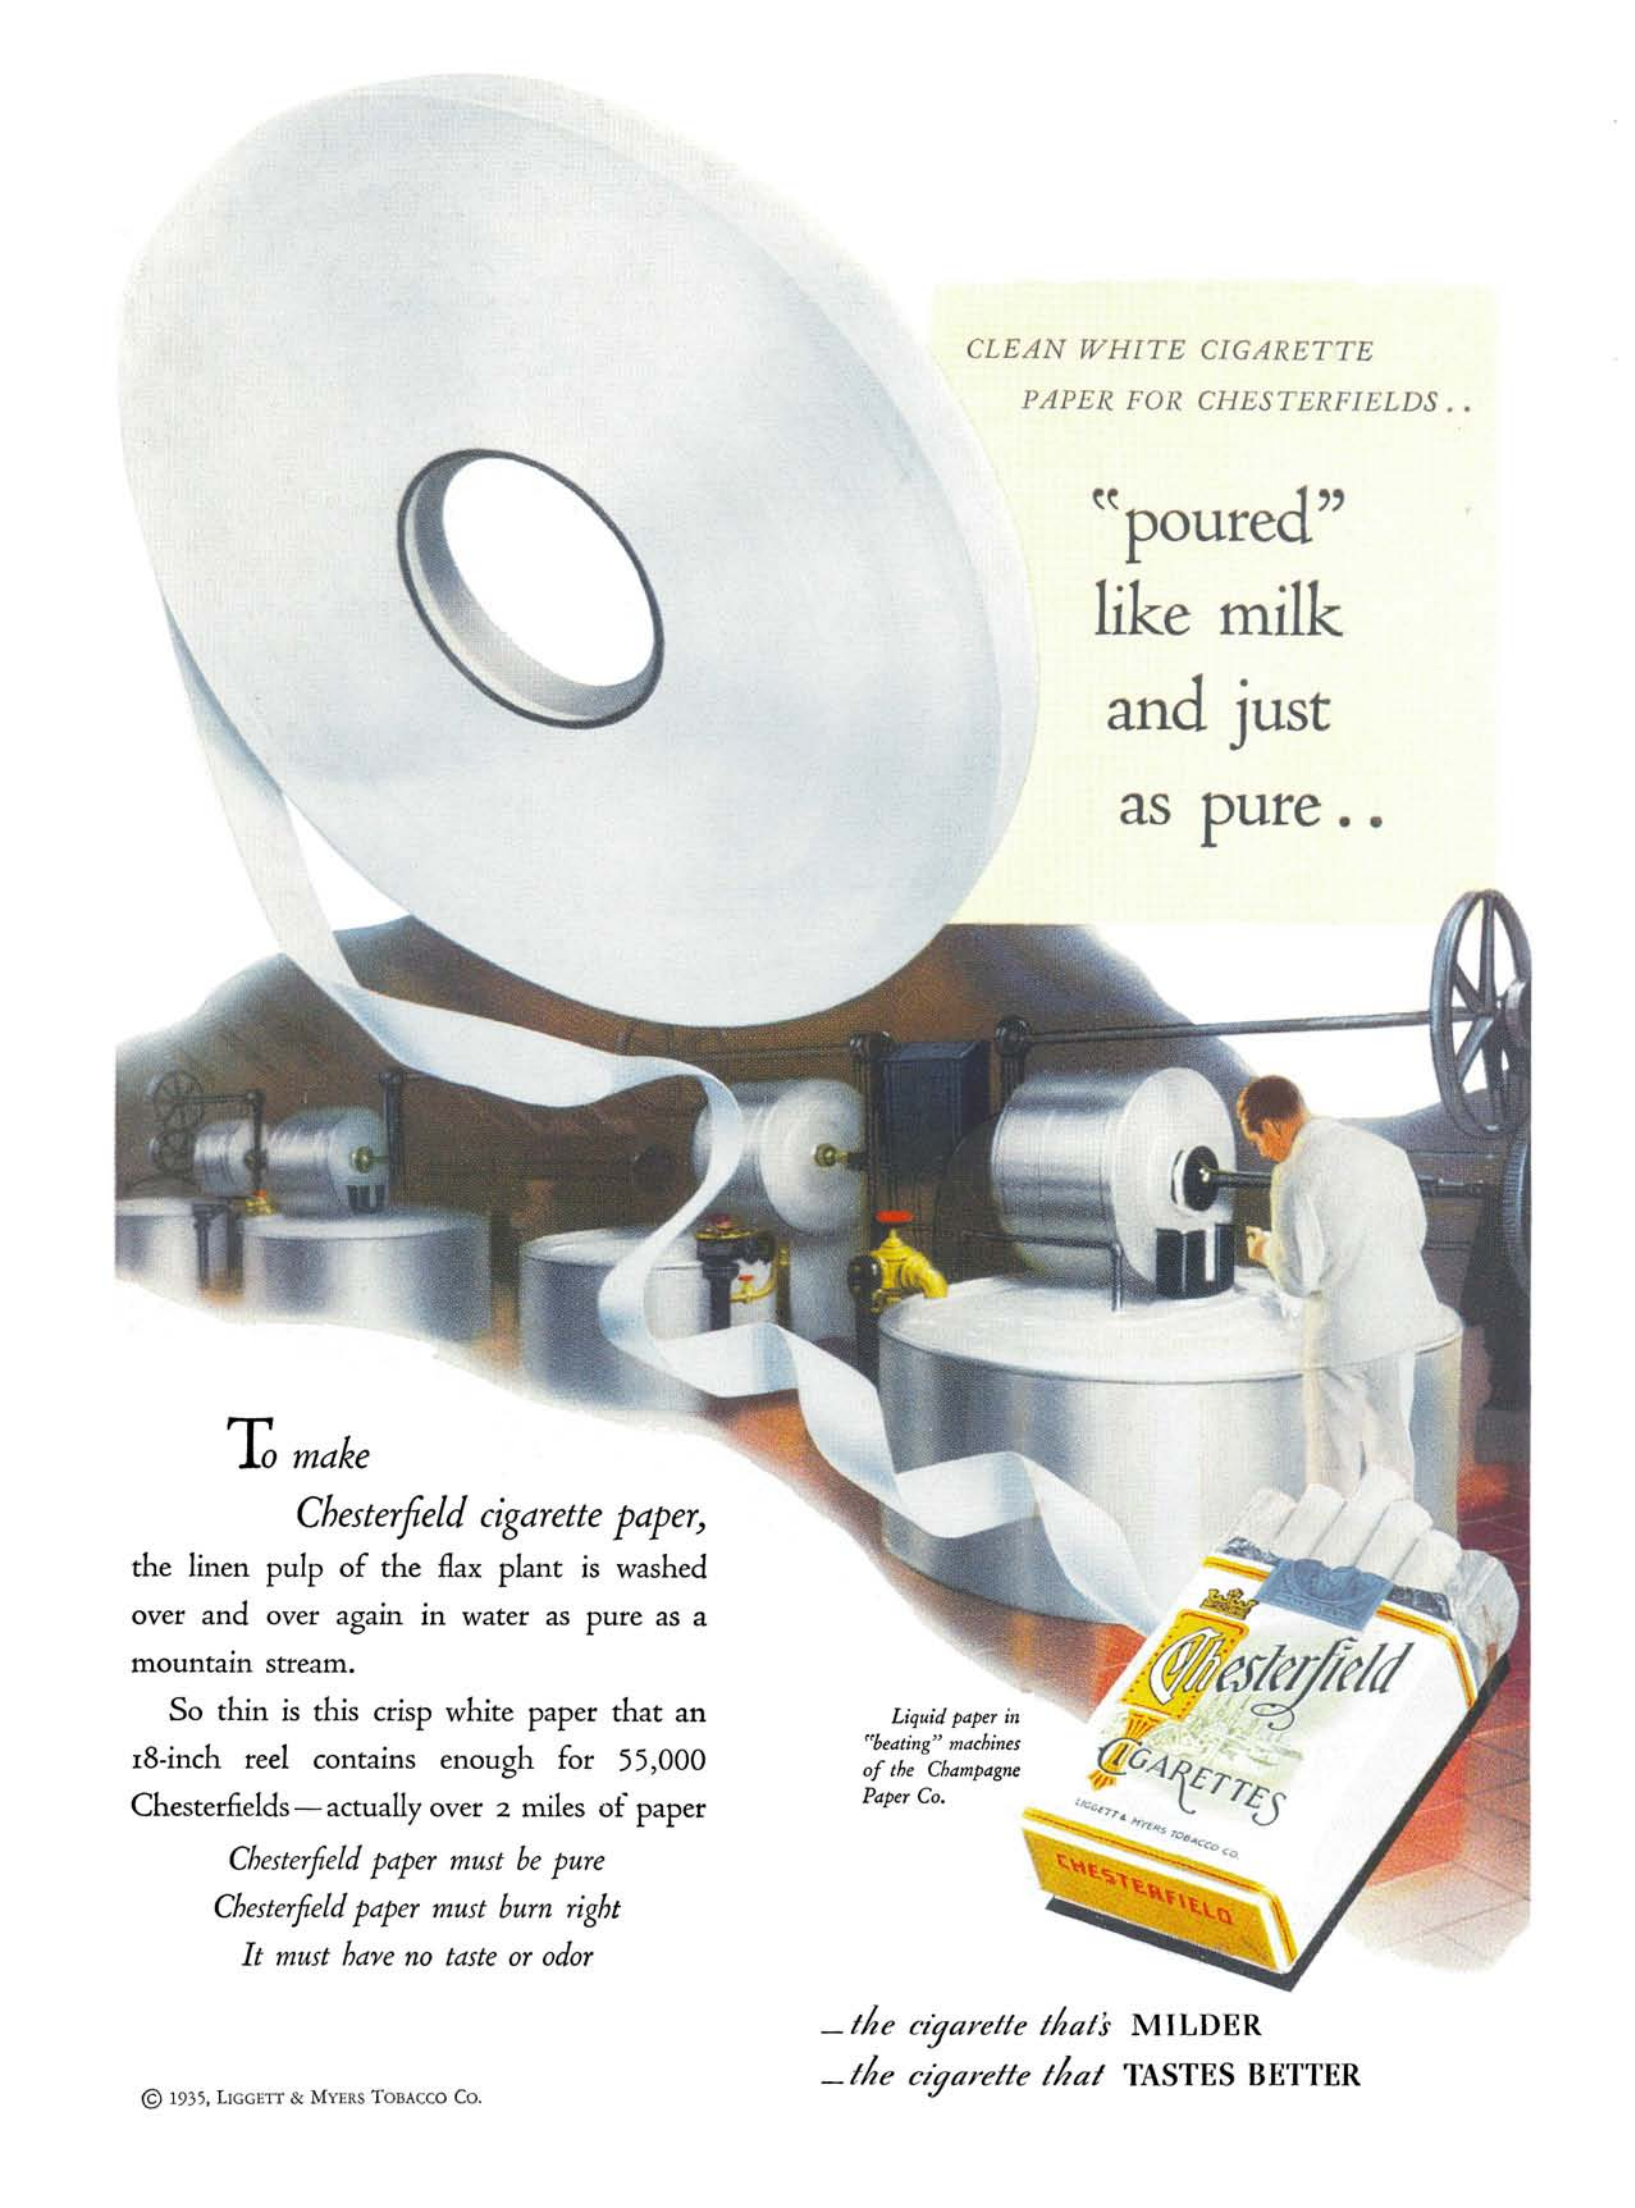

Dr. Henry P. deForest, secretary of the Class of '84, writes us: "At the Cornell Club of New York, of which I am the librarian, the Alumni News has been much more in demand during the past few months than for some years past."

*Mention us in your letters  
and write*

CLEAN WHITE CIGARETTE  
PAPER FOR CHESTERFIELDS . .

“poured”  
like milk  
and just  
as pure . .

To make

*Chesterfield cigarette paper,*  
the linen pulp of the flax plant is washed  
over and over again in water as pure as a  
mountain stream.

So thin is this crisp white paper that an  
18-inch reel contains enough for 55,000  
Chesterfields—actually over 2 miles of paper

*Chesterfield paper must be pure  
Chesterfield paper must burn right  
It must have no taste or odor*

*Liquid paper in  
“beating” machines  
of the Champagne  
Paper Co.*
