McKAY SURVEYS RUSSIA Finds Science Active

Although chafing under the restraint of a stern governmental censorship, Soviet Russia is making such tremendous strides in physiology, chemistry, and pharmacology that already the speechless there are learning to talk, the blind are reading the printed page, and—the pine is dropping its needles into the pots and the pans of the official candy-maker.

This enthusiastic report was made to an ALUMNI NEWS interviewer last Thursday by Professor Clive M. McCay, Animal Nutrition, who just returned to the University from Russia where he addressed 1,500 members of the International Physiological Congress in Moscow on "Life Span Diets" before making a three-weeks' tour of the Soviet Republic.

As a direct result of this quickened scientific pulse a lively interchange of reprinted matter now exists between Cornell and the Soviet laboratories.

"I was especially impressed," Professor McCay said, "with the humane motives underlying so much of Russia's recent research. For instance, many of the country's leading scientists are combining to solve the problem of safeguarding men whose health is endangered by exposure to ethyl gasoline, insecticides, and other poisonous chemicals which they manufacture. Scientists are also studying human fatigue curves, diets, exercise, and recreation to make the present-day Russian a more efficient, healthier, happier man. Diet, indeed, has already become so systematized that the meals of no less than twenty-million persons are supervised from a central office in Leningrad. To keep youngsters (and oldsters, too) from getting scurvy or rickets, candy is now made from pine needles. These needles are rich in vitamin C, you know, and the candy isn't bad tasting stuff either if you eat it in reason."

"In the deaf and dumb institutions," the professor went on, "I observed patients whose speech, through painstaking tutelage and treatment, was being retrieved. I also saw a photo-electric cell which, scientifically applied, transformed the printed page into words easily read by the blind with their finger-tips.

"The Russians have done some truly great work in artificial insemination," Professor McCay went on. "Through artificial processes, they have succeeded in breeding virtually all species of domestic animals, with a resulting improvement of the stock.

"Science, however, is not exalted over Russia's art. Every square foot of the

Hermitage, Leningrad's world-famous art gallery, is used for some magnificent treasure. This could have been liquidated for hundreds of millions during the dark days of Russia's extremity but still the government clung tenaciously to most of its magnificent paintings."

Despite his enthusiasm, however, Professor McCay detected a constant fear of censorship which was especially evident in the transplanted American communists he met. This did not shake their political faith, though, but was regarded as necessary for the regime's success.

"For all its shortcomings, the new Russia, I think, is an immeasurable improvement over the old," Professor McCay concluded. "Communists, however, are wasting time, energy, and money propagandizing this country. Once Russia gives us more than we give them, propaganda won't be necessary. Quite likely, though, sovietism and our rugged individualism will become so attenuated in time that the two political philosophies will merge in a compromise which will bring profit to both Russia and the United States."

MORE SCHOLARSHIPS Clubs Add Two

Two more regional alumni scholarships in addition to the seven announced in the ALUMNI NEWS of September 26 have been awarded by President Farrand to members of the Class of '39. Like the others, these scholarships are financed by Cornell Clubs, whose committees have investigated the recipients and deposited the funds with the University Treasurer, the awards being made by the President on the basis of "intellectual ability, character, and physical fitness."

The Cornell Club of Philadelphia has provided a scholarship of \$300 for two years which has been awarded to Richard H. Morgan of Norristown, Pa., registered in the Arts College. The scholarship committee of the Club is composed of Eugene P. Balderston, Jr. '28, Walter W. Buckley '25, and Emmett J. Murphy '22.

A second scholarship of \$400 for the academic year 1935-36 has been provided by the Cornell Club of Buffalo, and awarded to Robert M. Rose of Tonawanda. Chairman of the Club's committee is Arvin J. Dillenbeek '11. The first scholarship of the Buffalo Club is held by Frederick V. Siemer. In addition to these two scholarships, the Club has for many years maintained a loan fund for needy students; from this, a Senior, a Junior, and a Sophomore are now receiving aid of \$200 a year.

SENIOR SOCIETIES ELECT Choose Twenty-Four

The senior societies announced on October 17 the names of twenty-four new members resulting from the fall elections. Of these, sixteen joined Sphinx Head and eight, Quill and Dagger:

Sphinx Head

Ezra V. Bridge, Rochester: Arts; art editor Widow; Delta Kappa Epsilon.

Dale S. Carpenter, Jr., Cohoes: Agriculture; Varsity lacrosse; Delta Kappa Epsilon.

John J. Gillespie, Long Beach, Cal.: Civil Engineering; manager cross-country; Alpha Epsilon Pi.

Robert A. Klock, Yonkers: Administrative Engineering; Varsity lacrosse; Phi Gamma Delta.

Charles W. Lockhart, Youngstown, O.: Mechanical Engineering; coxswain crew; Delta Upsilon.

Arthur D. Luke, Holdrege, Nebr.: Hotel Administration; associate editor Annuals; Sigma Chi.

James W. McCulloh, Jr., Chicago, Ill.: Arts; business manager Widow; Delta Kappa Epsilon.

Morton P. Matthew, Berkeley, Cal.: Electrical Engineering; crew; Chi Phi.

Paul M. Mattice, son of Paul B. Mattice '01, Ithaca: Arts; manager soccer; Phi Gamma Delta.

Harold D. North, Jr., son of Harold D. North '07, Cleveland, O.: Administrative Engineering; manager freshman baseball; Delta Kappa Epsilon.

George M. Rose, Glenview, Ill.: Arts; manager intramural sports; Psi Upsilon.

Jacques C. Saphier, Brooklyn: Arts; assistant editorial director Sun; Pi Lambda Phi.

Addison B. Scoville, Jr., son of Addison B. Scoville '01, Mount Vernon: Arts; manager Freshman crew; Phi Delta Theta.

Quill and Dagger

Frederick H. Baugh, Jr., Baltimore, Md.: Civil Engineering; lacrosse; Delta Upsilon.

William A. Buckhout, Pleasantville: Architecture; Varsity baseball; Sigma Nu.

Allen L. Davison, Pittsburgh, Pa.: Architecture; coxswain crew; Delta Phi.

Ralph E. Henrich, Buffalo: Hotel Administration; business manager Annuals; Phi Delta Theta.

William W. Manson, East Orange, N. J.: Arts; Varsity football; Sigma Nu.

John H. Mayer, Kansas City, Mo.: Arts; Varsity baseball; Sigma Nu.

George J. Morgan, Westfield, N. J.:

Arts; Varsity wrestling; Chi Phi.

Ronald D. Wilson, Caledonia: Agriculture; Varsity football.

NORTH CALIFORNIANS

After a lapse of two years, the Cornell Club of Northern California held the first of the season's regular luncheons on October 4, with twenty Cornellians attending. The Club will meet the second Wednesday of each month for luncheon at the Hotel Plaza, San Francisco, Cal.

On November 16 they plan to meet with the Dartmouth Club for a leased-wire account of the football game at Hanover, N. H. Brandon Watson '26 is secretary of the Club. His address is Women's City Club, 2315 Durand Avenue, Berkeley, Cal.

UPPERCLASSMEN TAKE DRILL

The advanced two-year optional course in Military Science and Tactics has this fall attracted 239 upperclassmen. Infantry has 18 first-year students and 24 second-year; artillery, 87 first-year and 51 second-year; signal corps, 13 first-year and 15 second-year; ordnance, 19 first-year and 12 second-year students. These men attend camp for six weeks after their Junior year in the University and upon graduation are commissioned second lieutenants in the United States Army Reserve Corps.

The required courses for Freshmen and Sophomores have enrolled 1,602, of whom 904 are in the first year and 698 in the second. The first year basic infantry course numbers 282, the second, 173; artillery has 538 in the first year and 411 in the second; signal corps, 84 first year and 68 second; and ordnance, given the second year only, comprises 46.

GETS APPLAUSE ABROAD

After a successful record as leading soprano in a score of roles for the Civic Opera Company in the New York City Hippodrome last year, Marie Powers '24 is now on a concert tour of Europe where, according to press notices received in this country, she is being enthusiastically received by Continental music lovers. Miss Powers, former voice student of Eric Dudley, director of the University Glee Club, sailed almost immediately after her graduation for Milan, Italy, where, after further training, she appeared under the direction of the world famous Toscanini, as a Wagnerian heroine at La Scala. Repeated successes there, according to Dudley, who still corresponds with his old pupil, were followed by appearances at Rome, Berlin, Paris, and other Continental capitals. Still later, when the Hippodrome experimented in this country with grand opera at popular prices, Miss Powers was engaged for an extensive repertoire which included not only her old Wagnerian roles but also "Aida," "Traviata," and other roles of the Italian school.

A year ago Miss Powers left the Hippo-

drome organization to return to Europe for further concert appearances. Lately, in Sweden, in the old historic church of Leksand, she gave a song recital which drew from the Swedish critics such expressions as "magnificent," "inspiring," "a musical treat."

BOOKS

By Cornellians

UNDERSTANDING HISTORY

Everyman His Own Historian. By Carl L. Becker, Professor of History at the University. New York City. F. S. Crofts & Co. 1935. 325 pages. \$2.50.

Admirers of Professor Carl Becker and his writings, and the number of these admirers must be legion, will be delighted with *Everyman His Own Historian*. Here in one volume are contained seventeen of his most brilliant essays on history and politics, reprinted, at the behest of former students, from the various periodicals in which, as Professor Becker puts it in his preface, "they were so decently interred." Decently interred perhaps they were, but he will be a dull person indeed who arises from a reading of this book without a feeling of thanksgiving for their resurrection.

Professor Becker's philosophy is suggested in the essay, "Every Man His Own Historian," wherein he writes: "History is the memory of things said and done." It reinforces and enriches everyone's "immediate perceptions to the end that he may live in a world of semblance more spacious and satisfying than is to be found within the narrow confines of the fleeting present moment. Every generation, our own included, will, must inevitably, understand the past and anticipate the future in the light of its own restricted experience."

Everyman His Own Historian is no at profoundly serious book. Professor Becker is a playful scholar. His ironical observations are already passed about the Cornell Campus as "gems."

The essay, "The Marxian Philosophy of History," is alone worth the price of the book. He who has been hectored and annoyed, and a bit baffled, by glib mouthings of "dialectic materialism" and "the economic interpretation of history" should receive with joy this thorough and easily comprehended exposition of the inherent weakness in the Marxian philosophy.

The final group of essays, labelled "Interpretations," reveal most clearly Professor Becker the man of letters, however much he may disclaim the title. "Juliette Drouet and Victor Hugo" is a far cry from essays on political philosophy and general history; it is a review of "The Love Letters of Juliette Drouet to Victor Hugo"! W. S. I. '35

MEDICAL ALUMNI ELECT

The newly-incorporated Cornell University Medical College Alumni Association met October 4. The incorporators, Drs. Walter H. McNeill, Jr. '10, Mary M. Crawford '07, Ramsay Spillman '17, John E. Sutton, Jr. '20, Robert G. M. Dunovant '24, and Norman H. Plummer '26, formally passed over the new association to the board of ten new directors, comprising those six incorporators and Drs. Edward R. Cunniffe '03, George W. Wheeler '07, Paul Reznikoff '20, and Joseph G. Welling '28.

Dr. McNeill was elected president for the coming year; Dr. Dunovant, vice-president; Dr. Spillman, secretary; and Dr. Plummer, treasurer.

CHICAGO CLUB ACTIVE

The Cornell Club of Chicago at its regular weekly luncheon October 17 was to have as guest speaker B. W. Snow of Bartlett Frazer & Company, a recognized crop expert, who was to discuss the regimentation of agriculture under the New Deal and its effects generally.

Thirteen teed off in the annual golf tournament of the Club, the Leon Mandel trophy for the lowest net score going to Harry R. Kay '22, who shot 76. Hugo J. Kralovec '15 won the prize for second low net; Henry McGurran '32, that for low gross score, 85; and Abram G. Strattan '16 for second low gross.

The Club plans with the Dartmouth Club of Chicago to receive by direct wire the play-by-play returns of the Cornell-Dartmouth football game November 16, beginning at 12:30. They have reserved the second floor of Henrici's Restaurant, 67 West Randolph Street, Chicago.

GENERAL CLEAN-UP

Alumni who come to town for football games this fall are struck immediately with the spruced-up appearance of the roads, paths and grounds about Schoellkopf Field. But the new hard-surfaced entrance drive to the football field, the removal of the plantings and the widening and smoothing of the road before Schoellkopf Field House, and the newly-painted posts separating the path from the street along Hoy Field are only part of the story of the complete and thorough renovation of the entire athletic plant which is being carried on by the Department of Buildings and Grounds in this first year of the University's administration of athletics under James Lynah '05.

Schoellkopf Field House itself, inside and out, is being repaired, cleaned, and redecorated, and last week began the erection of a new wire fence between Schoellkopf and Hoy Fields. The Johnny Parson Club on Beebe Lake is likewise undergoing a thorough overhauling and renovation, as are the toboggan slide and the toboggan house in preparation for their winter use. The intercollegiate boat-

house on the Inlet is being repaired, painted, and its grounds landscaped, and DBG draughtsmen are at work on plans for the complete remodelling and modernizing of the Varsity boathouse. The new swimming pool construction at the Old Armory is proceeding rapidly, and it is expected to be ready for use the first week in December.

In addition to this refurbishing of the athletic and physical education plant, the DBG force of approximately two hundred, under the direction of Conant Van Blarcom '08, have constructed a new parking area west of Sage College and have completed the conversion of the former trolley bridge over Cascadilla Creek into a foot bridge with hard-surfaced paths leading to it from old South Avenue and to College Avenue. They are completely overhauling and reconditioning the building of the Hydraulic Laboratory at Triphammer Dam, and will shortly begin the widening of East Avenue from Triphammer Bridge to new South Avenue, to make it a twenty-six-foot macadam-paved road, including the land formerly occupied with car tracks.

TEN GET MOAKLEY CUPS

Ten John F. Moakley awards, provided annually by Cornell Clubs for those members of the track team who show greatest progress during the year, were presented by Coach Moakley October 15 in Willard Straight Hall at the annual track get-together sponsored by Spiked Shoe, national honorary track society.

Those who received the cups in recognition of their attitudes, development, and performance as track men last year are Grandin A. Godley '36 of Tenafly, N. J., John B. Harlow '35 of Montclair, N. J., Donald T. Houpt '36 of Ambler, Pa., J. Hamilton Hucker '37 of Buffalo, John Meaden '37 of LaGrange, Ill., Edmund V. Mezzitt '37 of Weston, Mass., Wilbur H. Peter, Jr. '37 of Lakewood, Ohio, Robert D. Price '36 of Willoughby, Ohio, Edward G. Ratkosky '35 of Dunkirk, and Walter D. Wood, Jr. '36 of Summit, N. J.

Henry S. Godshall, Jr. '36, of Lansdowne, Pa., broad jumper and president of the Student Council, presided and opened the meeting. Wood led the singing. James Lynah '05, new University director of athletics and physical education, praised the track teams and paid tribute to Coach Moakley. Other speakers were Professor Bristow Adams, Faculty adviser in track; Professor John R. Bangs, Jr. '19, coach in the weights; Robert E. Linders '36 of Jersey City, N. J., this year's track captain; Robert J. Kane '34 and Joseph R. Mangan '34, who are assisting this year with Freshman track and cross-country, respectively; and Foster M. Coffin '12, secretary of the Cornell Alumni Corporation.

About ATHLETICS

VOICE OVER SCHOELLKOPF

It is announced that a public address system will be installed at Schoellkopf Field for the Princeton game, October 26. Louis C. Boochever '12, director of public information, will be in charge, with Elmer S. Phillips '32, announcer of Station WESG, and Charles Brunelle '36, for the Cornell Radio Guild, announcing to the stands.

FRESHMEN WIN 79-0

Against the lighter, inexperienced eleven of Cook Academy on Schoellkopf Field Saturday, the Freshman football team began to show some indications of eventually living up to the various predictions of power made for it. The score was 79-0, made in a running game which proved that not since the brilliant playing of Floyd D. Ramsey in 1921 and '22 has a Cornellian backed up the line as did Holland, the Freshman Negro back, on Saturday; nor since Edgar L. Kaw '23 has there been such a runner with ability to reverse the field as Richard A. Baker of Tonawanda showed himself to be.

Cook took the ball on downs just once, after the only two passes attempted by the Freshmen went wild. Only Williams, the Cook back, could gain at all.

Baker made the first score, off tackle, in the fourth play, his three other touchdowns coming after runs of eighty, twenty-two, and thirty-seven yards. In the second period, Peck of Penn Yan returned a Cook punt eighty yards for another.

After the half, with the score 46-0, reserves replaced the A team steadily and continued to score against the winded and battered Cook Academy team. The next Freshman game is with Syracuse freshmen at Syracuse, November 2.

Saturday's lineup:

FRESHMEN (79)		Cook (0)
Kroker	LE	Bastian
Tuths	LT	Redner
Hemingway	LG	Wells
Van Ranst	C	Spencer
Rutledge	RG	Buenan
McKeever	RT	Martin
Lynch	RE	St. Johns
Rose	QB	La Barge
Sheffer	LH	Williams
Roth	RH	Sleeth
Morgan	FB	Ceroni

Score by periods:

Cornell	13	33	14	9-79
Cook	0	0	0	0-0

Cornell scoring: Touchdowns, Baker 4, Rose 2, Peck, Holland, White, Morgan, Di Tullio, Riker; points after touchdowns, Rose 4, Siemer 2 (place kicks), Di Tullio (pass).

Referee, Paul Regan, Ithaca College; umpire, R. V. Martin, Colgate; linesman, H. B. Schriver, Franklin and Marshall.

HARRIERS TRAIL ARMY 34-21

Edmund V. Mezzitt '37 of the cross-country team repeated his victory of the previous week by coming in first against

WIN MOAKLEY CUPS FOR TRACK IMPROVEMENT

Left to right, lower row: John Meaden '37, cross-country, mile, and half-mile; Wilbur H. Peter, Jr. '37, sprints, relays; John B. Harlow '35, weights; Donald T. Houpt '36, shotput, javelin; Robert D. Price '36, pole vault. Upper row: J. Hamilton Hucker '37, low hurdles, quarter-mile, relays; Walter D. Wood, Jr. '36, shotput, discus; Grandin A. Godley '36, high jump, high hurdles; Edmund V. Mezzitt '37, cross country, distances. Edward G. Rathosky '35, relays, was also awarded a cup, but was not present. Photo by Herr '37.

Army at West Point on Saturday, but the team, weakened by the loss of John Meaden '37, whose cold kept him at home, lost this first meet to Army, 34-21.

Mezzitt won in the stretch by three seconds, to finish in 24:39, nearly 4½ minutes faster than last week's time at Alfred, but he was followed to the tape by four West Pointers. William V. Bassett '37 of West Newton, Mass. came in sixth in 25:38, followed by Norman C. Healy '37 of Hamburg, eighth in 26:15, Ward H. Robbins '37 of Geneva, ninth in 26:20, and Warren L. Bohner '38 of Maplewood, N. J., tenth in 26:28.

The Freshman cross-country team, coached by Joseph R. Mangan '34, likewise placed five men in the first ten, but lost to the Penn State freshmen at State College, 32-23. George Ranney, brother of Albert F. Ranney '32, placed second, just a few seconds behind the Penn State leader who finished the 2¾-mile course in 14:12.

RIDERS WIN FIRST

Unexpectedly and against a three-goal handicap, the ROTC polo team came up from behind in the last chukker to defeat the Cortland Polo Club quartet, 14-6, Saturday afternoon on upper Alumni Field.

Warner L. Jones '39, formerly of the Pennsylvania Military College team, rode at No. 2 and was credited with four goals and paved the way for three more. Robert Young '39 of Lexington, Ky. was No. 1, and Thomas Lawrence '38 and his brother, John C. Lawrence '37, Smithtown Branch, of last year's team, rode at No. 3 and back, respectively. The former made 5 tallies, the entire team rallying in the last period to clinch the game with 6 in a row.

An officers' team Sunday morning defeated the same Cortland Club, 7-5, with Major James E. Boyle making 3 goals, Bartholomew Viviano '33, assistant football coach, making 3 more, and Captain Edwin O. Hopkins, polo coach, making one.

TREMAN REGATTA SOON

The annual fall crew races, known as the Treman regatta since 1929 when Charles E. Treman '89 and William H. Forbes '06 gave silver cups to the winners, will be held this year November 7 on the Inlet. Since 1931 Forbes has given individual pewter mugs to those in the winning boat, but at his express request the regatta is named for the University's former Trustee, crew adviser, and long-time member of the board of stewards of the Intercollegiate Rowing Association.

This year two races are scheduled, both of one mile, finishing at the boat-house. The first will be between two Varsity boats and the second will include two 150-pound crews and two Freshman eights. Coach Wray has back this fall seven of the eight men who

rowed last June's great Varsity race at Poughkeepsie; only William C. Babcock '35 is missing.

BOOTERS BEAT LEHIGH

The soccer team won its first game in defense of the Middle Atlantic League championship Saturday afternoon on Alumni Field, defeating Lehigh 3-1. The Red booters pressed the visitors throughout, and made two more scores cancelled by penalties.

Soon after the start Mulford made the first score, and in the second period, helped by the wind, Nathanson, Petroff, and Hickock carried the ball far down the field to a shot against the goal post by the first, which bounced back and was made good by Chewning. Chewning also made a foul shot in the third, the only score by Lehigh being on a free try.

The team was much stronger, both in offense and defense, than against Hamilton the week before. The lineup:

CORNELL (3)		LEHIGH (1)
Coors	G	Austin
Dugan	RF	Turner
Kniffin	LF	Wilson
Holochwost	RH	Craig
Pechan	CH	Lucard
S. Petroff	LH	Small
Darling	OR	Enstine
K. Hemmerich	IR	Gearhart
Mulford	CF	Cox
Hickok	IL	Wrightson
Nathanson	OL	Sheppard

Score by periods:

Cornell	1	1	1	0-3
Lehigh	0	0	1	0-1

Cornell scoring: Chewning 2, Mulford.

Lehigh scoring: Lucard.

Cornell substitutes: Chewning, R. Hemmerich, Webster, Crawford, Crowther.

Lehigh substitutes: Gill, Smith, Felix, Vogelsburg, Edwards.

Referee, Ackroyd, Rochester.

The Freshman soccer team beat Breezeport, 5-1, October 14, and were defeated by the Syracuse freshmen, 2-1, October 17.

RIFLEMEN PRACTICE

Led by Captain Jonathan P. Blount '36 of Ithaca, who placed second in the national ratings last year and was high gun at the Intercollegiate Championship match at Annapolis, Md., several veterans of the ROTC rifle team have been practicing on the Drill Hall range for a week in preparation for their first postal match, November 9, with Washington University.

Other veterans back are Robert G. Smith '36 of Poughkeepsie, John J. Serrell, Jr. '37 of Elizabeth, N. J., John W. Humphreys '36 of Hollis, and Clarence O. Pratt '36 of Marion, with several promising candidates from among last year's Freshmen. Captain James O. Tarbox and Sergeant Leslie W. Brown are again coaching the team.

START BASKETBALL WORK

Coach Howard B. Ortner '18 called the first regular practice of basketball candidates last Monday. Approximately forty had been limbering up for a week,

and their number was expected to increase as fall sports release more men.

Seven veterans are available from last year's squad. Four of these are C men: Lewis M. Freed '36 of Wilkes-Barre, Pa., third high scorer last year of the Eastern Intercollegiate League; Charles E. Dykes '36 of Springfield, O.; Ernest A. Downer '36 of Poughkeepsie; and Gordon F. Stofer '36, who is expected to report after the football season. Others from the 1934-35 squad are Thomas C. Burns '36 of Plainfield, N. J.; Harry T. Kemp '37 of Pottstown, Pa.; and Rudolph A. Doering '37 of Camden, N. J. Besides several members of last winter's Freshman team, Coach Ortner has hopes for Orville Engst '37 of Manlius, transfer last year from Hobart, who stands 6 feet 3 inches and weighs 193 pounds.

DOWNER '36 TO PIRATES

Ernest A. Downer '36, hard hitting centerfielder of last year's baseball team and forward on the basketball team of 1934-35, has signed a contract to play professional baseball with the Pittsburgh Pirates after his graduation, next June. With an average of .340 for the League season last year, most of his 16 hits in 47 trips to the plate were for extra bases. Last summer he played on Sundays with the Newburg Recreations, and had opportunity to work out with the Pirates when they were in New York City for a series with the Giants.

SYRACUSE SMOKES—ELECTS

Alumni of Syracuse and Cornell met in a joint smoker at the University Club of Syracuse on the evening of October 11, the night before the game. More than a hundred alumni were present. Speakers included James Lynah '05, director of Physical Education and Athletics, Professor Walter King Stone, Architecture, and Dr. Leslie A. Bryan, director of athletics at Syracuse.

At the last meeting of the Cornell Club of Syracuse, Joseph B. Campbell '11 was elected president, succeeding William J. Thorne '11. Robert C. Hosmer '02 was re-elected secretary and treasurer. Jacob G. Smith '03 is the new vice-president. Stephen P. Toadvine '22 is assistant secretary and treasurer.

ITHACA WOMEN MEET

The Cornell Women's Club of Ithaca held its first fall "get acquainted" meeting at dinner October 14 in the Green Room of Martha Van Rensselaer Hall. Guests were seated by lot and changed places between each two courses.

The president, Mrs. Arthur A. Allen (Elsa Guerdrum) '12, presided, and announced the chairmen of committees for the year. Mrs. Carl F. Gilbert (Marie F. Turpin) '21 reported on the June breakfast for alumnae sponsored by the Federation of Cornell Women's Clubs, of which she was chairman. The Club voted a

contribution to the proposed memorial to Lua A. Minns '16.

A marionette show was presented by Hilda A. Smith '31, and a parade of living models in a "fashion show of 1936" was staged by Mrs. Leonard A. Marcussen (Barbara C. Crosby) '31.

NEW ENGLAND CHANGES

The Cornell Club of New England now holds its weekly Monday luncheons at 12:30 in a private room at the Hotel Essex in Boston, Mass.

PHILADELPHIA WOMEN

The Cornell Women's Club of Philadelphia held its first meeting of the season on October 5, a tea at the home of Gertrude Goodwin '31, Sharon Hill. Mildred Hiller '25, president of the Club, presided.

ON CRIME COMMITTEE

Three Cornellians are members of the committee of thirty, named October 16 by Governor Lehman to assist him in preparing "a comprehensive program to combat the criminal" for submission to the next session of the State Legislature. The work of the committee, he said, would capitalize on that of his recent crime conference in Albany. Its Cornell members are Dean Charles K. Burdick of the Law School, who is also chairman of the State law revision commission; Clarence J. Shearn '90, president of the Bar Association of the City of New York; and Former Justice Irving I. Goldsmith '03 of the State Supreme Court.

'05 MEDICS MEET

Twenty-one members of the Medical College Class of '05, including Dr. Joshua A. Sweet, an honorary member of the Class, and guest of honor, Dr. Lewis A. Connor, gathered at the Cornell Club of New York October 12 for the twenty-ninth annual dinner of the Class.

After dinner the president, Dr. Rollin Hills, introduced Dr. Arthur M. Wright '03, the permanent chairman. A silent toast was drunk to the memory of the "Class Eternal," Dr. Alvin W. Baird and Dr. S. Newell Smith having died since the last meeting.

Dr. Connor spoke of the founding of the old Medical College and of the amalgamation of the College with New York Hospital. Most of those present had been his students, and he was given a great ovation and later voted unanimously an honorary member of the Class. Dr. Sweet was also called upon.

The secretary, Dr. J. Homer Cudmore, called the roll of the Class, to which each member present responded with his own recent personal history, that of absent members being filled in from the several letters and telegrams they had sent, or by their friends present. Dr. Robert R. Patterson '03 came the greatest distance, from Rochester, but his record was challenged by that of Dr. Albert M. Beckary, from Indian Lake.

LETTERS

Subject to the usual restrictions of space and good taste, we shall print letters from subscribers on any side of any subject of interest to Cornellians. The ALUMNI NEWS often may not agree with the sentiments expressed, and disclaims any responsibility beyond that of fostering interest in the University.

OLYMPICS AGAIN

TO THE EDITOR:

In your September 26 issue "R.B.", under the title, "America at the Olympics," tries to justify Germany as the proper place for holding the Olympic Games of 1936. While stating that his "department has no intention of taking part in a debate," R.B. has nevertheless invited debate among Cornell alumni. Hence, I am taking the liberty of writing this letter to you, in the hope that through your files Cornell alumni may "hear the other side."

Mr. R.B. argues that American athletes "would not have much Olympic competition for a number of years," if political, social, and religious conditions in Germany "must meet the approval of public opinion;" that the games would not be controlled by Germans; that Germany would not lose much except a slight loss in revenue by America's failure to participate; and concludes with the amazing statement that "nine-tenths of the damage occasioned by the withdrawal of America from the Olympic Games of 1936, would fall on the thousands of fine, eager, American athletes now training for them."

I do not know where R.B. gets his figures, but in view of recent events in Germany, and prevailing American sentiment for fair play, there is great doubt whether American athletes would suffer at all if the 1936 Olympics were not held in Germany. Lest there should be any question of prejudice, the writer desires to assure you he has always been interested in Germany and German culture; the records will show that as a student he was a member of the Deutscher Verein, and took an active part in German plays; and subsequent to his graduation from Cornell University he taught German; and his German friends are legion. Hence, he has tried to approach this subject in an impartial manner.

American athletes prefer to compete in a land where real sportsmanship exists. The present German government has indicated very plainly by its edicts and actions that true sportsmanship cannot prevail there. It is no longer merely a matter of empty assurances from Germany that no racial or religious discriminations will prevail with respect to visiting teams in the coming Olympics. By edict Germany has barred German Jews from the Olympics. Hence, it is not a question whether Jews or other nationalities on foreign teams will be re-

ceived with hospitality, but whether the American Olympic Committee is willing to have as host a land in which exclusion of athletes is now legalized. This attitude of the German government is significantly reflected in the tragedy which occurred at a town in German Silesia a few days ago while a football game was being held between a Polish and a Nazi team. On the Polish team was a Jewish young man who was rated as the star player of his country. From all newspaper accounts, which have been verified, the Nazis in the audience seemed to have been considerably riled by the clever and skillful playing of this young Pole; and when their team was losing they swarmed down to the field and kicked this Jewish athlete to death; moreover, when his fiancee attempted to protect him from death, she was also beaten. Does not this incident show the Nazis' utter incapacity for sportsmanship? Mr. R.B. says "in no sense will the Olympic Games be conducted and controlled by Germans." But in the face of such hysteria as exists in Germany today, how can any foreign athlete be safe? After all, the vast audience which will witness these games will be predominantly Nazi, and is apt to react towards foreigners just as this group did in German Silesia.

Recognized spokesmen of Protestant and Catholic groups, as well as of Jewry, influential public officials, and leaders in the world of sports have declared in plain language that Germany, as now governed, is unfit to be the scene of an international festival inspired by the ideals of Olympic sportsmanship. Last week the National Council of Methodist Youth addressed a plea to "pastors and parishes of Catholic, Protestant, and Jewish churches and synagogues in the United States to petition the officials of the American Olympic Committee and the Amateur Athletic Union to demand the changing of the location of the 1936 Olympics to a place outside Germany."

Would Boycott German Games

Let us follow the example of Harvard and Columbia in urging Cornell athletes to boycott the 1936 Olympics if they are held in Germany. It has been reliably reported that Harvard has withheld its contribution to the Olympics' fund, making it conditional upon withdrawal of the American Olympic team. Last week Columbia University's Student Board urged Columbia students to make use of such boycott. Not only the "Spectator" (under-graduate publication), but Dean Herbert E. Hawkes of Columbia has approved this attitude; declared Dean Hawkes: "I think anything that can be done to show disapproval of the present regime in Germany is desirable."

Moreover, Mr. R.B. should realize that the German Olympics is essentially a political undertaking intended to glorify the Nazi program. It would ap-

pear the Olympics are an avowed official project of the present German government. In an official calendar issued by the German Olympic Committee, Adolf Hitler is pictured with the slogan, "I summon the Youth of the World." Despite official protest, sport is no more free in Germany than are thought, speech, religious belief, and political activity. Hence, the whole spirit of the Olympics would be violated under the aegis of Nazidom. For this reason it is apparent that if America refrains from participation, the European countries, which R.B. mentions, will follow suit.

In conclusion, I submit that a government which has persecuted and driven from its land, scholars, judges, and professional men, solely because of religious beliefs; which has burned libraries and attempted to destroy freedom of religious faith, cannot be trusted to hold an impartial Olympic competition. To hold the Olympics in Germany would be to condone the assassination of thought, freedom, and human beings.

ABRAHAM L. DORIS '10

CLEVELAND WOMEN DINE

The regular monthly meeting of the Cornell Women's Club of Cleveland was a dinner at the College Club, on October 16, followed by short reports. The main speaker was Frances Preston '19, who also attended the School of Applied Social Sciences at Western Reserve University and is now with the Cuyahoga County Relief Association. She explained some of the activities of FERA and WPA. Mrs. William Corrigan (Marjorie Wilson) '13, president of the Club, was hostess.

OREGON CORNELLIANs

Louis A. Salade '14, of Central Point, Ore., writes that he is one of four Cornellians who are cultivating fruit-trees on an extensive scale in central Oregon. Two of these, Salade adds, are among the largest producers of quality pears in the world. They are the brothers, Harry Rosenberg '14 and David Rosenberg '15, and they operate the Bear Creek Orchard near Medford, Ore. Close by is another large pear orchard owned by Lawrence Bragg '12. Salade also reports that Seth Bullis '08, another Medford resident, has been employed for several years by the California-Oregon Power Company.

AREOPAGUS OUT

The first of the year's six issues of Areopagus, The Cornell Journal of Opinion, contains a symposium on "This Business of Football" by Captain Hack Wilson '36 and the football captains of Princeton, Syracuse, and Columbia. All agree that athletes may be subsidized on the same basis as other qualified students; generally that a student tax to support athletics is justified; and unanimously that intramural sports are worth while.

A survey of the University's liberalism "Cornell's Color Isn't Red," is contributed by Maurice Abbott '36 and Stanley Metzger '36; advice to Freshmen, "So This is Cornell," by Eugene E. Doll '36; "The Crisis in the Arts College," by Ruth J. Rosenbaum '36; James Lynch '05 makes a plea for undergraduate support in "Athletics Take New Life," and Brice Harris, instructor in English, in "My Literary Past—Frosh," quotes from the experiences and preferences of Freshmen. The leading editorial of this issue is against compulsory drill.

ORNITHOLOGISTS GATHER

Cornellians are taking a prominent part in the convention of the American Ornithologists Union, October 21-24, in the Royal Ontario Museum in Toronto. Members of the two expeditions in which the Department of Ornithology took part during the year were to give reports. They were accompanied to Toronto by more than a dozen graduate students of the Department. Professor Frederick B. Hutt, head of the Poultry Department also expected to attend, as did many former students in Ornithology.

Sound films made by the Cornell American Museum expedition, which was sponsored by Albert R. Brand '29, were to be exhibited and reports made by the following members of the expedition: Dr. Arthur A. Allen '08, Paul P. Kellogg '29, and James T. Tanner '35. Dr. George M. Sutton, PhD '32, Curator of Birds, reported on the Cornell-Carnegie Institute expedition to the Big Bend country and described the newly-named Fuertes red-tailed hawk. Mrs. Allen (Elsa Guerdrum) '12 was expected to describe the earliest known portraits of American birds which she discovered last winter in the British Museum; and Dr. A. Marguerite Heydweiller, PhD '35, to report on her studies of tree sparrows.

Other Cornellians expected at this year's meeting, which according to Dr. Allen is a veritable reunion of former students of the Department, included Dr. Herbert Friedmann, PhD '23, curator of birds at the United States National Museum; Ludlow Griscom, AM '15, associate curator of birds at the Harvard museum of comparative zoology; Dr. Miles D. Pirnie '23, director of the Kellogg bird sanctuary in Michigan; Dr. Austin L. Rand, PhD '32, associate at the American Museum of Natural History; Dr. Harrison F. Lewis, PhD '24, chief of the Migratory Bird Office for Eastern Canada; Dr. George B. Saunders, Jr. PhD '32, State Ornithologist of Michigan; and Frank C. Edminster '26 and Robert W. Darrow '31 of the New York State Conservation Department.

Dr. Allen has been one of the fifty elected fellows of the American Ornithologists Union for many years, and was recently elected a member of its Council of Eight.

COMING EVENTS

Time and place of regular Club luncheons are printed separately as we have space. Notices of other Cornell events, both in Ithaca and abroad, appear below. Contributions to this column must be received on or before Thursday to appear the next Thursday.

OCTOBER 26

At Ithaca: Luncheon, Drill Hall, 12-2
Soccer, Princeton
Football, Princeton, 2:30 p.m.
Smoker for all "C" men, Willard Straight, 8
Dramatic Club presents "Holiday," University Theatre, 8:15

OCTOBER 27

At Ithaca: Organization meeting of "C" men, Willard Straight Hall, 9:30 a.m.

OCTOBER 29

At Ithaca: University concert, Lucrezia Bori, Bailey Hall, 8:15

NOVEMBER 1

At Ithaca: Dramatic Club presents "Holiday," University Theatre, 8:15

NOVEMBER 2

At Ithaca: Football, Columbia, 2 p.m.
Dramatic Club presents "Holiday," University Theatre, 8:15

At New York: Cross-country, Yale
At Syracuse: Freshman football, Syracuse

NOVEMBER 7

At Ithaca: Annual Treman fall regatta, Cayuga Inlet

NOVEMBER 8

At Ithaca: Dramatic Club presents "Girls in Uniform," University Theatre, 8:15

NOVEMBER 9

At Ithaca: Cross-country, Syracuse
Soccer, Haverford
Freshman football, Dickinson Seminary
Dramatic Club presents "Girls in Uniform," University Theatre, 8:15

NOVEMBER 12

At Ithaca: University Concert, Curtis String Quartet, University Theatre, 8:15

NOVEMBER 16

At Hanover: Football, Dartmouth, 2 p.m.
At Philadelphia: '39 football, Pennsylvania
At Swarthmore: Soccer, Swarthmore
At Chicago: Cornell Club-Dartmouth Club football returns, Henrici's Restaurant, 67 W. Randolph St., 12:30

NOVEMBER 18

At New York: Cross-country Intercollegiate

NOVEMBER 19

At Ithaca: Dramatic Club presents Tony Sarg's Marionettes in "A Connecticut Yankee at King Arthur's Court" and "Faust, the Wicked Magician," University Theatre, matinee and evening.

NOVEMBER 20

At Ithaca: Dramatic Club presents "Treasure Island," Bailey Hall, matinee

NOVEMBER 22

At Ithaca: Dramatic Club presents "Fashion," University Theatre, 8:15

NOVEMBER 23

At Ithaca: Soccer, Colgate
Dramatic Club presents "Fashion," University Theatre, 8:15

NOVEMBER 27

At Philadelphia: Soccer, Pennsylvania

NOVEMBER 28

At Philadelphia: Football, Pennsylvania, 2

NOVEMBER 28-DECEMBER 2

At Ithaca: Thanksgiving recess

DECEMBER 3

At Ithaca: University Concert, José Iturbi, Bailey Hall, 8:15

BRIEF NEWS OF CAMPUS AND TOWN

DIGGING into the east shore of Seneca Lake archeologists have just exhumed what they believe to be the remains of an Algonquin village which flourished before the birth of Christ. The expeditionists, headed by William A. Ritchie of the Rochester Museum of Arts and Science, discovered hunting and fishing equipment, sinkers, drills, hammers, adzes, awls, perforators, and a pestle which, evidently, was used for grinding food.

TO STIMULATE the religious life of the American farmer the Rural Institute for Religious Workers launched its current program recently by engaging the Rev. Mark Rich as its field representative. Mr. Rich was for ten years pastor of the Groton and East Lansing churches. The institute, with headquarters at Barnes Hall, provides an extension service for rural churches through the dissemination of literature and the sponsorship of educational opportunities for individuals and groups.

POPULAR MUSIC and novelty features by student talent combined with a four-minute talk on University athletics by Director James Lynah '05 featured the first fall program of the Cornell Radio Guild over station WESG the afternoon of October 21. As a result of recent auditions nearly one hundred students were annexed by the Guild as producers, continuity writers, instrumentalists, and dramatic interpreters.

SIGNIFICANT ACHIEVEMENT is more common in the upper social strata than in the lower, according to Dr. Ross A. Gortner, Baker non-resident lecturer in Chemistry, who told an overflowing crowd in Baker Laboratory October 17 that environment and personal contacts are of tremendous importance in conditioning a man's career. Dr. Gortner, a nationally known biochemist of the University of Minnesota, also declared that the true nucleus of any great center of learning is that small core of instructors who leave their imprint on the minds of the students.

SUFFERING head lacerations when thrown from her horse Marie A. Koenig '37, daughter of Dr. Fred F. Koenig, a Jamestown veterinarian, was recovering last week in the University infirmary. The victim, a student in the Veterinary College, was rendered unconscious when her mount slipped and fell October 12.

ORGANIC CHEMISTRY will dictate the future type of agriculture according to L. F. Livingston, national president of the American Society of Agricultural Engineers, who, during a three-day session of that organization in Willard

Straight Hall October 7-10 declared that chemistry was constantly striving to create materials not already existing in nature. Electrification of farms in the Northeastern states; the writing of extension bulletins; research agricultural engineering, were among the many subjects discussed at the conference which was attended by 125 members. Among the speakers were Professors Bristow Adams, Agriculture Publications, George F. Warren '03, Agricultural economics, and Carl E. Ladd '12, Dean of the College of Agriculture.

"HOT" MUSIC furnished by Bob Causser's Collegians and Joe Venuti, radio violinist, will feature the Princeton Hop scheduled for the Drill Hall October 25. The dance proceeds will be turned over to the ROTC band to finance out-of-town trips, according to established custom.

TENORS WANTED! This notice came from Eric Dudley who, as director of the Cornell Men's Glee Club, selected thirty-one new members from the recent tryouts and still called for men with high voices last week. First rehearsal of the club was held recently in Willard Straight Hall.

RAVEN AND SERPENT, Junior women's honorary society, will stage a house party November 4-6 with two dinners scheduled for Risley Hall and one for Sage College. Mary C. Crawford '37 of New York City and Jessie H. Reisner '37 of White Plains will supervise the housing and meals.

SAGE CHAPEL PREACHER for October 27 is the Rev. Clarence A. Barbour, president of Brown University.

FROM VASSAR to the reformatory! This defines the institutional range of positions reported held by seventy per cent of those who were graduated last June from the College of Home Economics. In the famous Poughkeepsie school, Ruth Ryerson is assistant dietitian at Alumnae House. Jean C. Chase is employed as a sub-executive under Dr. Miriam Van Waters, director of the Massachusetts State Reformatory for Women.

MODELLED after a design from the Borghese Gardens in Rome, Professor Edward Lawson '13, Architecture, has submitted a drawing for the limestone base of the sundial which is to be erected as a memorial to Lua A. Minns '16 in the Upper Campus garden which she tended. A subcommittee for the selection of the bronze pedestal and dial has as its chairman Mrs. Livingston Farrand, and as members Professors Lawson, Gilmore D. Clarke '13, and Eugene D. Montillon '07.

OF NINETEEN teams competing at the National Dairy Show in St. Louis, Mo. recently, the judging unit from the University placed fourth in the judging of all breeds. In appraising separate breeds it placed ninth.

TWELVE WEEKS of vocational training to men and women will be offered by the College of Agriculture beginning October 30. Courses in general agriculture, dairy industry, fruit growing, flower growing, poultry husbandry, and vegetable crops will be open to students at least eighteen years old. Tuition to residents of the State is free; others will pay twenty-five dollars. A short course in poultry nutrition will also be offered by the Poultry Department from October 29 to 31.

STATE OFFICERS of the American Association of University Women attended a regional conference of local officers and committee chairmen held in Willard Straight Hall last month.

NEWMAN CLUB members, holding their first meeting of the year in Willard Straight Hall October 13, elected Thomas F. Rogers '38 of Syracuse, president, and M. Clare McCann '37 Ithaca, secretary. After an informal address by Professor George W. Cavanaugh '93, Agricultural Chemistry, plans for a Hallowe'en dance were discussed.

DIRECTLY or indirectly, the University is represented by every officer of Ithaca's Family Welfare Society. At the Society's annual meeting October 15, Nellis M. Crouse, PhD '24, was re-elected president. First vice-president is Mrs. George R. Chamberlain (Grace W. Caldwell) '92; second vice-president, Thomas J. McInerney '10; third vice-president, Mrs. Ernest T. Paine, whose husband won his doctorate in 1919; secretary, Mrs. Julian L. Woodward, wife of the associate professor of Social Science; and treasurer, Harry C. Baldwin '06. The Society's recent survey showed that eighty per cent of the unemployed on relief in Ithaca had not appealed to any social agency before 1930.

PACING THE FLOOR of Cayuga Inlet in great weighted boots, Edward J. Garrick, diver for the State public works department, explored the walls and abutments of the water-way October 17 for possible damage from last summer's flood. Scores of onlookers crowded onto the West Seneca Street bridge as Garrick, grotesque in his diver's suit, sank into twenty-five feet of water, rummaged through its muddy secrets, and reappeared to report no serious damage.

Concerning THE FACULTY

DR. WILLIAM C. GEER '01, who taught chemistry at the University from 1902 to 1906, has just received a patent which is said to complete his process for preventing ice from forming on the wings of airplanes. The United States Patent Office has also issued a patent to Professor James M. Sherman, Dairy Industry, for a process which he developed with another investigator to produce solvents by a bacteriological fermentation. This process employs molasses to produce, through fermentation, one of the higher alcohols for dissolving lacquer, varnish, and paint. The patent has been assigned to the United States Industrial Alcohol Company of New York City, where Dr. Sherman's co-worker is employed.

PROFESSOR VLADIMIR KARAPETOFF, Electrical Engineering, addressed members of the Society of Friends of Russian Culture in New York City October 11 on "Some Anglo-Saxon Traits Which Determine the Political Economic, and Social Life in this Country." He also contributed cello selections. Dr. Karapetoff's versatility was to be further revealed October 21 at the Rand School of Social Science in New York City where he was to supplement his principal address, "Electric Power and the Changing Human Society," with a piano lecture-recital.

JAMES LYNNAH '05, Director of Athletics and Physical Education, told members of the Ithaca Exchange Club recently that the success or failure of the University's intercollegiate teams is the responsibility of the undergraduate and that the latter is surprisingly indifferent to Cornell's triumphs in the field. Speaking October 14 to members of the Ithaca Kiwanis Club, Lynnah also emphasized that henceforth the development of sound, healthy bodies among the students would be stressed as well as scholarship.

PROVOST ALBERT R. MANN '04 represented the University and spoke October 12 at the inauguration of Dr. Frederick D. Patterson as third president of Tuskegee Institute in Tuskegee, Ula.

PAUL W. ECKLEY '17, baseball coach, gave instruction in that subject at the annual coaching school conducted in Hamilton late in August by Andrew Kerr, Colgate football mentor. Ninety coaches from all parts of the country attended.

PROFESSOR RALPH S. HOSMER, Forestry, was elected chairman of the Ithaca City Planning Commission September 27 to succeed the late George S. Tarbell '90. Two new members of the commission,

Dean Dexter S. Kimball, Engineering College, and Leonard Miscall '19, were also sworn in when Professor Hosmer assumed the chairmanship. The latter, as one of his first measures, organized a special committee to investigate possibilities of future development of the Inlet island recently purchased by the city. This committee includes Miscall, City Engineer Harry W. Eustance '24, and others.

PROFESSOR CHARLES A. TAYLOR '14, Extension, is spending his year's leave from the University as head of farm development and resettlement for the land purchase division of the Rural Resettlement Administration in Region 1, which comprises all the states north of Maryland and Delaware. His office is in New Haven, Conn.

DR. DEAN F. SMILEY '16, Hygiene, stood fourth among fourteen who recently passed the competitive examination for the position of health and physical education director in the State Education Department. On leave from the University Dr. Smiley at present holds, as provisional appointee, the position he was examined for.

EUGENE P. HART, father of Professor Van B. Hart '16, Farm Management Extension, died October 11 at his home in McLean.

JANE D. ORTH, widow of the late Samuel P. Orth, professor of Political Science, flashed over the wires of the Associated Press October 17 an interview granted her by Empress Etaje Mennen of the Ethiopians. Mrs. Orth's close-up pictures Haile Selassie's wife a paragon of conjugal and maternal devotion.

HARPER SIBLEY, University trustee and president of the Chamber of Commerce of the United States, told members of the American Gas Association in Chicago October 16 that if public utilities are politically controlled the nation would ultimately be steeped in inefficiency and corruption. In Rochester, addressing members of the Atlantic States Shippers Advisory Board, October 3 he indicted the present Administration for its reckless expenditures, wild campaign promises, and its Federal bureaucracy.

PRESIDENT FARRAND has been appointed chairman of a citizens' committee of the State unemployment emergency relief bond issue. The committee, formed for the fourth year by the New York State Charities Aid Association at the behest of Governor Lehman of New York, has as one of its vice-chairmen Judge Frank H. Hiscock '75, Chairman of the University's Board of Trustees. President Farrand's appointment came only a few days before he joined with five others of the nation's leading educators to deny in print charges by Gerald Swope that "teachers

are not interested in the welfare work of the communities in which they teach."

LLOYD R. SIMONS '11, director of extension at the State Colleges of Agriculture and Home Economics, discussed the status of extension work in New York State to Minnesota extension workers at their annual conference in St. Paul, Minn., October 18.

GEORGIO I. DEGRASSI, supervisor of stacks and classification in the University Library, is president of Altamura, Ltd., an Ithaca corporation newly-organized to manufacture a champagne-like beverage through a special French process.

PROFESSOR ARTHUR A. ALLEN '08, Ornithology, who headed the Cornell University-American Museum expedition into the natural habitats of wary bird-life last summer, illustrated his address to members of the Ithaca Rotary Club October 16 with moving pictures of his recent adventures among feathered creatures. Assisting him in the demonstration was Paul P. Kellogg '29, Ornithology, who recorded sound effects for the expedition. Among the birds Allen discussed and illustrated were the mocking bird, sandhill crane, wild turkey, quail, and eagle.

PROFESSOR WILLIAM I. MYERS '14, Agricultural Economics, told the twelve Federal Land Bank presidents in Washington, D. C. October 7 that better collections and a "greatly reduced" demand for emergency loans indicate that the "economic sky is brightening." On leave from the University to serve as governor of the Farm Credit Administration, Professor Myers was also one of the principal speakers at the twenty-second annual convention of the Mortgage Bankers Association of America in French Lick Springs, Ind.

DEXTER S. KIMBALL, Dean of the Engineering College, celebrated his seventieth birthday October 21 and, as a tribute to his thirty-seven years of service to the University, the Cornell Daily Sun published a short and appreciative biography of this professor of Mechanical Engineering who represented this country at the Pan American Standardization Conference.

MAURICE C. BOND, PhD '28, Marketing Extension, was severely burned on both hands recently in an explosion which occurred when he lit a gas burner.

ROCHESTER HEARS LYNNAH

James Lynnah '05, Director of Athletics and Physical Education, was the guest of the Cornell Club of Rochester on October 16, speaking at a dinner at the University Club. It was the opening dinner of the year and well attended.

NECROLOGY

'84—SAMUEL E. HILLGER, July 18, 1935, in Auburn, where he was an architect for thirty-seven years. His partner was Wallace P. Beardsley '19. With W. H. Miller, Ithaca architect, he contributed plans for the University Library and many Cornell fraternity houses. In Auburn he designed virtually all of the school buildings, the court house, Auburn City Hospital, and other public buildings. He was president of the Auburn Rose Society.

'90 ME (EE), '01 MME—WILLIAM H. POWELL, July 8, 1935, at his home in Wauwatosa, Wis. He was employed for more than thirty years as an electrical engineer with Allis-Chalmers Manufacturing Company in Milwaukee, Wis., and was the inventor of "frog-leg winding," which greatly improved commutation in direct current machines.

'91—SAMUEL ADAM, May 20, 1935, at his home, 100 West Monroe Street, Chicago, Ill.

'00, '01 CE—WESTON E. FULLER, June 22, 1935, in Philadelphia, Pa. Founder and senior partner of Fuller and Everett, consulting engineers, he had been instructor in the University and later professor of civil engineering at Swarthmore College. Alpha Tau Omega.

'02 AB—DR. LAWRENCE HENDEE, July 14, 1935, in Buffalo where he was chief surgeon in charge of traumatic cases at Millard Fillmore Hospital. He was also consulting surgeon at the J. N. Adam Memorial Hospital and, with a colleague, conducted the Black Rock Industrial Clinic. He specialized in traumatic cases caused especially by industrial accidents. From 1900 to 1903 he was assistant instructor in anatomy at the University.

'05 AB—MRS. HELENE WEIL STRAUSS, May 31, 1935, at Shaker Heights, Cleveland, Ohio. She was the first chairman of the scholarship fund of the Council of Jewish Women.

'14—WILLIAM GRIFFIN TEMPLE, in September, 1935, at his home in Denver, Colo.

'15 AB—HENRY THOMAS THURBER, August 5, 1935, in San Francisco, Calif. He was the son of Henry Thomas Thurber, private secretary of President Cleveland. Alpha Delta Phi.

'25 BS—ALLISON AVERY MCKENZIE, November 6, 1934, in Warsaw, where he was county club agent for Wyoming County. Alpha Zeta.

'26—JOSEPH H. SWANN, 3d, October 14, 1934, when his glider crashed near Cincinnati. He was a junior executive of the Gardner-Richardson Company, Middletown, Ohio.

'28—MRS. LYDIA SARASOHN HENRY, April 12, 1935, in New York City.

'33 AB—CHESTER FILKINS MONTEITH BUCHANAN, November 8, 1934, in an airplane crash near San Diego, Tex., while on a cross country flight as cadet flyer at Kelly Field, San Antonio, Tex. Dramatic Club; Musical Clubs; Orchestra; First Lieutenant, R.O.T.C.

'35 AB—JULIANN LAWRENCE STILES, October 3, 1935, at West Brighton. President of Balch Halls, Unit III; women's crew; hockey; Women's Self-Government Association Council; Sophomore Class secretary; Delta Delta Delta.

'37—EUGENE CLARE PAGE, November 21, 1934, in the University Infirmary. Delta Tau Delta; president, Red Lions; secretary-treasurer, Areopagus.

BAKER RESEARCH FELLOW

A new outgrowth of the benefactions of the late George F. Baker to the Department of Chemistry is the creation by the Trustees of one or more Baker Research Fellowships, with tenure of a year or possibly longer. Dr. Jacob Papish, PhD '21, head of the Department, has announced that the holders of these new fellowships "shall be young men of the calibre of National Research Fellows, capable of carrying on independent investigations of high quality."

Dr. Frank H. Spedding, former National Research Fellow and the winner of the Langmuir Prize in 1933, is the first appointee. His investigations deal with the correlation between the absorption spectra of solids and of solutions and their physical and chemical properties. Dr. Spedding received the degree of BS in Chemistry from the University of Michigan in 1925, and the Master's degree in 1926; his Doctorate was obtained at the University of California under G. N. Lewis, in 1929. During 1930-32 he held a National Research Fellowship; and in 1933 he was awarded the Langmuir Prize. During the past year he studied in Europe under a Guggenheim Fellowship.

The funds for the new fellowships will come from the Baker Lectureship in Chemistry, which was founded at Cornell by Mr. Baker in 1925 with an endowment of \$250,000. The lectureship is filled successively by men eminent in chemistry or in some related branch of science who are invited by the Department of Chemistry to lecture, each for one or two semesters, on some topic or topics within the lecturer's own special field of investigation. The present holder is Dr. R. A. Gortner, Professor of Agricultural Biochemistry at the University of Minnesota.

The Department also owes to the same benefactor its Baker Laboratory of Chemistry, built in 1922 at a cost of \$2,000,000, one of the largest and most completely equipped laboratories in the country.

Concerning THE ALUMNI

'80 BS, '81 MS—Hosea Webster and Mrs. Webster are planning to spend the next several months at Coral Gables, Fla. where they have a winter home.

'88 CE—Clifford S. Kelsey has leased an apartment at 825 Fifth Avenue, New York City.

'90 BL—Ernest F. Eidlitz and Mrs. Eidlitz recently reopened their apartment at 920 Fifth Avenue, New York City, after having lived at the Westchester Country Club, Rye, following their return from Europe late in August.

'92 Me(EE)—Henry C. Nelson, former designing engineer for the General Electric Company and now retired, is planning to live in Washington, D. C. from December 1 to April 1, 1936. His address in the Capital will be c/o General Electric Company. Until November 1 his address will be Pine Grove, Falls Village, Conn.

'93 AB—Spencer L. Adams, a Chicago, Ill. attorney for forty years, recently retired from active practice to divide his time between "Fairview Farm" near Skaneateles, and "Little Bluff" on Content Harbor, Cape Cod, Mass. For two months of each year, however, he plans to live in Chicago. He writes that he has developed his hobby, photography, to a point where he makes lantern slides from his own negatives, and uses them to illustrate lectures. These, given gratuitously to assemblies of Cornell men, historical and library associations, cover a wide range of geographical and historical subjects.

'94 LLB—Myron C. Taylor, chairman of the United States Steel Corporation, is likened to the late Andrew Carnegie by B. C. Forbes, financial commentator, who, in the New York American of October 10, writes that Carnegie never hesitated to scrap equipment as soon as it was outmoded. Taylor, the commentator added, based industrial leadership on the strategic location of plants, efficiency, and a superior sales organization.

'94 CE, '96 PhD—Elon H. Hooker and Mrs. Hooker recently gave a dinner in Rockefeller Center, New York City, honoring Baron and Baroness Ino Dan of Tokyo, Japan. Among the guests were Dr. Henry N. McCracken, president of Vassar College, John D. Rockefeller, Jr., and Frank A. Vanderlip.

'95 PhB, '97—Mrs. Phineas L. Windsor (Margaret F. Boynton) lives at 701 Michigan Avenue, Urbana, Ill.

'98 LLB—Mrs. Charles T. Van Winkle (Elva Young) lives at 1242 East South Temple Street, Salt Lake City, Utah.

'99 BArch—Harold M. Bowdoin is a member of the board of directors of the Municipal Art Society, 119 East Nineteenth Street, New York City.

'00, '02 LLB—George R. Van Namee, University Trustee and State Public Service Commissioner, and Mrs. Van Namee spent part of last summer touring Europe.

'02 ME—Joseph B. Weaver, director of the Bureau of Navigation and Steamboat Inspection, told members of the Atlantic Deeper Waterways Association assembled at Boston October 7 that the American merchant marine is deplorably lagging behind those of other great powers. He pointed out that although our merchant marine stands second in tonnage it is fifth in the average speed of its vessels and last in the number of them constructed within the last ten years.

'03 AB—W. Ray Gregg, chief of the United States Weather Bureau, spent the last two months in Europe where, at Warsaw, Poland, and Danzig, he attended conferences of the International Meteorological Organization. He also discussed methods for an international exchange of weather reports with meteorological directors in London, Paris, Moscow, and Leningrad.

'04 ME—Rudolph E. Prussing is with the Whiting Corporation, Chicago, Ill., manufacturing cranes, foundry equipment, and railroad specialties. His address in Chicago is 140 South Dearborn Street.

'07 AB, '09 ME—Clarence A. Peirce is associated with Diamond T. Motor Trucks, Chicago, Ill. His address there is 4517 North Twenty-sixth Street.

'07 AB—Arthur DuBois is Philadelphia manager of the housing division of the Public Works Administration. His office address is 1600 Walnut Street. He lives at 423 Brookway, Merion, Pa.

'08 DVM—Raymond Van Orman, former end and assistant Varsity football coach, and recently coach and director of athletics at Johns Hopkins University, has been appointed an assistant in the National Youth Administration. His district includes Tompkins, Tioga, Chemung, Steuben, Schuyler, Yates, Seneca, Wayne, Ontario, and Monroe Counties. Among Van Orman's new duties will be job guidance and placement, apprentice training, educational aid for high school, college, and post graduate students.

'09 AB—Cornelius F. Roland lives at 101 Central Park West, New York City, and is retired from active business.

'10, '11 ME—Clarence J. Pope, engineer with the Public Utility Commission of New Jersey, is president of the Cornell Club of New Jersey. He lives at 399 Tremont Place, Orange, N. J. His business address is 1060 Broad Street, Newark, N. J. Pope's daughter is a senior at Wells

College; his son is preparing for the University at Taft School, Watertown, Conn.

'10—Paul V. Shields was one of a special committee of members to investigate recently the advisability of changing the New York Stock Exchange commission rates.

'11—Jerome D. Barnum, Syracuse publisher, was one of the principal speakers at a meeting in Syracuse October 7 of the New York Society of Newspaper editors.

'12—John W. Stoddard is district manager for General Motors Fleet Sales Corporation, 1775 Broadway, New York City. Stoddard's home address is 1198 East Broadway, Hewlett, L. I.

'13 ME—Jessel S. Whyte writes that one of his daughters is studying dramatics in Chicago, Ill.; another is a freshman in Rollins College, Winter Park, Fla., and two others are attending Kemper Hall in Kenosha, Wis. Having thus run the roster of his family, Whyte ends his communication to the ALUMNI NEWS with a significant: "Where are the boys for Cornell?" He is vice-president of Mac Whyte Company in Kenosha.

'13 CE—George D. Hardin is connected with the Fairway Sprinkling Systems, 3139 Indiana Avenue, Chicago, Ill.

'14 ME—William E. Lundgren is president of Lundgren and Mause, Inc., New York City insurance brokers. He recently returned to America from a tour of Denmark, Norway, Sweden, and England and reported that business conditions in Scandinavia were excellent. While homeward bound the auxiliary schooner "Vema," in which Lundgren sailed, was caught in a hurricane.

'14—George H. Barnes is vice-president of the Alabama Textile Products Corporation, a garment manufacturing concern employing nine hundred persons. His address is Drawer 350, Andalusia, Ala. Barnes reports that business conditions in his section are good but that the voters there, staunchly Democratic ordinarily, are profoundly disappointed in the Roosevelt regime.

'14 ME—Wendell E. Phillips, mayor of Port Jervis, is president of the State Conference of Mayors whose advisory committee met October 7 in the office of Mayor F. H. LaGuardia of New York City "to combat the efforts of real estate interests to put the cities of the State in 'financial straitjackets.'" Phillips declared that the cities of New York State were finding it difficult to meet current operating expenses and still make "dead horse" payments.

'16—Frank Sturges is secretary-treasurer of the Solar-Sturges Manufacturing Company, Melrose Park, Ill. He lives at 130 Elmwood Terrace, Elmhurst, Ill.

'16 AB—Daniel C. Darrow of Hamden, Conn., is assistant professor of pediatrics at the Yale School of Medicine.

'16 PhD—Joseph V. De Porte, director of the division of vital statistics of the New York State Department of Health, headed a committee which recommended to the convention of the American Public Health Association in Milwaukee, Wis. October 9 that every state pass legislation providing that the word "illegitimate" be dropped henceforth from the birth records of a child born out of wedlock. This measure, De Porte's committee insisted, would help remove the stigma suffered by the children of unwed mothers.

'18, '19 AB—Dr. Clarence F. Ackerknecht is practising medicine in Schenectady, where he has an office at 1410 Union Street. He has one son and two daughters.

'19, '20 AB, '22 LLB—Walter L. Miller, who practises law in Susquehanna, Pa., writes that a third son was added to his household September 5.

'19 AB—Dean C. Wiggins is a felt salesman. His business address is 204 Centre Street, New York City. He lives at 48 Livingston Street, Brooklyn.

'19 AB—Edna B. Hotchkiss sailed October 8 from Portland, Ore. for Manila, P. I., where she will teach in the Bible Institute.

'19 BS—Wallace P. Beardsley resigned recently as district engineer with the TERA in Washington, D. C. and relocated in Auburn as an architect after the death, July 18, of his Auburn partner, Samuel E. Hillger '84. Beardsley in Washington checked the first applications for projects of the Works Progress Administration and also served that agency in its preliminary organization work.

'19 LLB; '21—Edward E. Dicker is practicing law in Philadelphia, Pa. His address there is 6415 Argyle Street. Mrs. Dicker was Edith Kaminsk '21.

'20, '22 ME—Ledcreich S. Vance of 2106 Edgeland Avenue, Louisville, Ky., is principal assistant engineer for the Louisville Water Company.

'21 BChem, '24 PhD—Francis E. Hance after a sojourn of several months in Europe, was scheduled to return the latter part of October to join his wife and three children who have been visiting in Ithaca. The Hances live in Honolulu, H. I.

'23 MD—Dr. Maurice Brodie of New York City, as discoverer of a vaccine for infantile paralysis, defended his handiwork against official challenges of two eminent physicians who, at a meeting of the American Public Health Association in Milwaukee, Wis. October 8, said they doubted the efficiency of his poliomyelitis preventive. The challenges were part of a program arranged to discuss large scale vaccine tests on humans.

'23—Justin A. C. Curtis is president of the Curtis Funeral Home Inc., Newport, Vt. On the shore of Lake Memphremagog

he has developed Curtis Memorial Gardens, a landscaping project which is reported one of the show places of the district.

'24 BS—Mrs. John F. McNeill (Lillian Rabe) has a son born September 17. She has also a three-year-old daughter. Her husband is principal of the Erasmus Hall High School, Brooklyn. Her address there is 2810 Bedford Avenue.

'24, '25 ME; '24 AB—Bernard F. Meyer is a salesman with the E. W. Bliss Company, 919 North Michigan Avenue, Chicago. With Mrs. Meyer (Marcella T. Rebholz) '24 he lives at 532 Turner Avenue, Glen Ellyn, Ill. They have a small daughter and son.

'26; '95, '96 BS; '95 Sp—Hugh C. Troy Jr., son of Professor Hugh C. Troy, Dairy Industry, and Mrs. Troy, is painting the mural panels for the Ambassador Room of the Ambassador Hotel in Washington, D. C. Previously he had executed the murals for the Savoy-Plaza cafe and also for several private homes in New York City. Troy, while at the University, painted the murals in the corridor on the first floor of Barnes Hall. His loft studio in New York City is at 19 West Twenty-fifth Street.

'26 AB—Stephen A. Gaynor practices law in New York City and lives at 585 Bedford Avenue, Brooklyn.

'26 AB, '29 MD—Ernani D'Angelo practices medicine at 108-36 Fifty-third Avenue, Corona, L. I.

'27, '28 BS; '87 AB; '89 BS—Frederick Coville, son of Frederick V. Coville and Mrs. Coville (Elizabeth Boynton) was married July 16 in Lincolnton, N. C. to Georgia E. Mostellar. They are living near Atkinson, N. C. on a blueberry farm.

Only the men who wear them know

which is \$150—which is Rogers Peet

The clothes shown in this photograph were taken from Rogers Peet's regular stock.

Reading from left to right:

A Rogers Peet hand-tailored Scotch Mist*—one of America's most famous overcoats—a coat whose reputation has been built solely on merit. Fine, rain or shine. . . . \$65.

A Rogers Peet hand-tailored double-breasted suit of chalk-striped worsted. Distinctive simplicity. . . . \$55.

A Rogers Peet hand-tailored double-breasted suit of imported unfinished worsted. Age is no barrier to smartness. . . . \$75.

A Rogers Peet hand-tailored young man's suit of unfinished worsted. \$50.

*Reg. U. S. Pat. Off.

ROGERS PEET SUITS . . . \$45 - \$95

ROGERS PEET OVERCOATS \$45 - \$125

WHEREVER you find a group of well-dressed men, some will be custom-tailored, others clothed by Rogers Peet, and only the men who wear the clothes—and pay the bill—know which is which. ¶ When you put on a Rogers Peet suit, you feel it was made expressly for you. And it was. For Rogers Peet Clothes are made in more than 1,000 variations of models and sizes. That means you are sure to find clothes, in a wide selection of fabrics, that fit *your* figure perfectly. ¶ Add to that the pick of the world's best woolsens, unquestioned style authority and faultless hand-tailoring, and you have clothes you will wear with confidence and satisfaction. You also have the reasons for the leadership of Rogers Peet.

What a public enemy said in private

Headquarters puts the alarm on the air . . .

Patrol cars pick it up, acknowledge orders, report progress.

High praise from the underworld!—and one reason why your home town, too, should have the added protection of Police Radio. **☑** In 60 states, counties and cities, Western Electric radio apparatus is speeding up the work of police—reducing the number of crimes—increasing the percentage of criminals caught. Headquarters can talk instantly to radio patrol cars. And with new 2-way ultra-high frequency equipment, patrol cars can talk back. **☑** Urge your local authorities to put Western Electric Radio on the force. Backed by over 50 years of Bell Telephone making, it can be counted on to do its duty.
