A PHILCO
for Christmas!

There's a thrill for young and old
in the very thought: *A Philco for Christmas!*
This year, there is no need for compromise
... for disappointment ... because there's
a Philco for everyone in the brilliant
array at your Philco dealer's.

PHILCO *Famous for Quality the World Over*

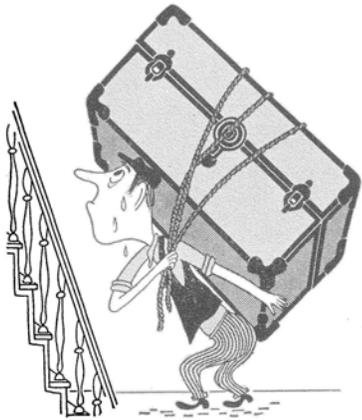

WEDNESDAY IS BINGSDAY! Listen to Philco Radio Time starring
BING CROSBY Wednesdays, 10 P.M. in the East, 9 P.M. every-
where else ... ABC Network and many additional stations.

Some words fool you:

TRUNK
means

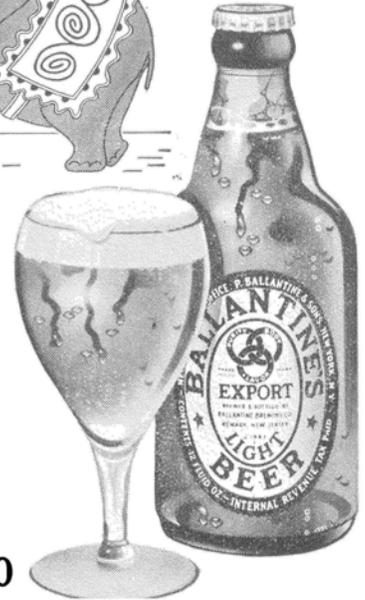

TRUNK
means

but **BALLANTINE**
always means: **PURITY**

Reunion... red-letter day... a glass of
PURITY, BODY, FLAVOR adds a bright
and welcome touch. Look for the 3 rings
... call for Ballantine.

Pres., Carl W. Badenhausen, Cornell '16
Vice Pres., Otto A. Badenhausen, Cornell '17

America's finest since 1840

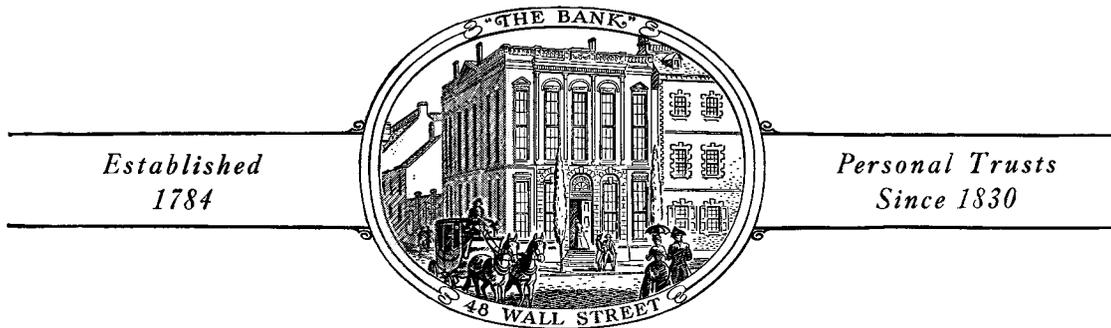

NOBODY has ever been able to put a ceiling on Good Taste. It is an all-important *intangible* that goes into the cut, materials and workmanship of everything bearing Brooks Brothers' label. It's the most valuable thing, perhaps, we sell. It has *nothing* to do with price... but it has *everything* to do with every article in this store.

Entered as second-class matter, Ithaca, N. Y. Issued twice a month while the University is in session; monthly in January, February, July and September; not published in August. Subscription price \$4 a year.

Francis N. Bard '04 Endows Metallurgy Professorship

GIFT of a professorship of Metallurgical Engineering was, formally made by Francis N. Bard '04 of Chicago, Ill., at a University dinner in Willard Straight Memorial Room, November 7. Approximately 100 invited guests included alumni and others from industry and members of the University.

Dean S. C. Hollister of the College of Engineering, who presided, announced also that Professor Peter E. Kyle '33 had been appointed the first incumbent of the Francis Norwood Bard Professorship of Metallurgical Engineering and that the School of Chemical Engineering is henceforth named the School of Chemical and Metallurgical Engineering. Under Professor Kyle's direction are the foundry courses and other work with metals formerly given in Sibley College, with a broadened five-year program in which twenty-seven students are already enrolled.

Family Interest in Metals

Bard, in presenting his gift of \$250,000 to the University to endow the new Professorship, said that knowledge of metals "is one of the oldest forms of human industrial activity . . . Civilization only progressed as the knowledge of metallurgy increased, and apparently in direct proportion." He expressed the hope that his gift would make possible "the inspiration and development of keen, productive, and scientifically-minded men in the field of metallurgy" and "the undertaking and accomplishment of metallurgical research of the highest order." He referred to the new professorship as "a very human thing in its conception and operation," saying, "It is made possible by a man whose forbears used engineering and metal tools; whose father was a self-made and successful rolling-mill man. . . . The original conception and founding have gone as far as they can go. The future is in active and competent hands. The scene shifts from the production of resources and capital to the academic and research field. If this Professorship can produce one or two outstandingly brilliant metallurgists of world-wide recognition a

generation, it will have accomplished a worthwhile task. Let us hope it will produce one every few years. We can use them. But coupled with this search for prepotent minds must go the development of hundreds of finely-trained metallurgists capable of serving industry and their country well.

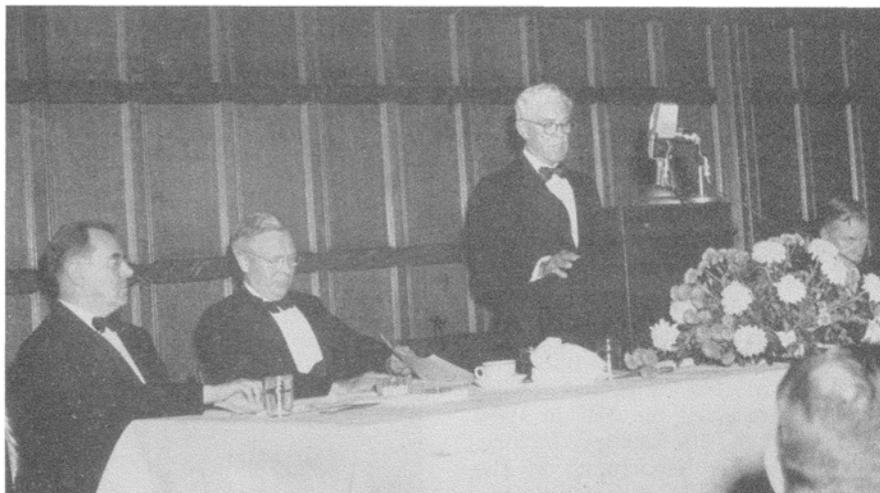

"This great University has often been referred to as unique in its foundation and operation. It has produced, especially in its Engineering Schools, a great group of rugged individualists who are successful leaders in their fields. It is only natural, therefore, that I should wish that the University would maintain its tough moral and intellectual fibre, virility, and vigor over the years."

President Edmund E. Day, accepting the gift for the University, called it "especially significant because it provides for a permanent investment in men." He cited the distinguished leadership which other endowed chairs at the University had made possible, and named the incumbents of endowed professorships, including Director Fred H. Rhodes, PhD '14, of the School of Chemical and Metal-

lurgical Engineering, who holds the Herbert Fiske Johnson Professorship endowed by Trustee Herbert F. Johnson, Jr. '22 and his family. "These men," the President said, "typify the kind of leadership in science and the humanities that makes a university great. We need more of their kind; and we are deeply grateful that tonight we may add Peter E. Kyle to the roll.

"The donor who invests in superior men," the President continued, "whatever his motives and however keen his vision, achieves more than he can foresee. How could anyone in the sixteenth or seventeenth centuries have imagined the effects of underwriting Matthew Arnold in literature, John Ruskin in art, or Lord Rutherford in physics? And when the donor links his name with that of a great University, he creates about the most enduring memorial within the reach of man. As J. DuPratt White '90, late chairman of the Cornell Board of Trustees, said nearly thirty years ago, 'The universities of the world, and all names that are attached to them and to their parts as *institutions*, are as imperishable as civilization.' Francis Norwood Bard has now built himself into Cornell and hence into the intellectual life of America, for all the years to come."

Professor Kyle described "Cornell's New Program in Metallurgical Engi-

BARD '04 ENDOWS METALLURGICAL ENGINEERING PROFESSORSHIP

At a University dinner in Willard Straight Memorial Room, speakers were Professor Peter E. Kyle '33, first holder of the new professorship; Dean S. C. Hollister, Engineering; Francis N. Bard '04, formally presenting his gift of \$250,000; President Edmund E. Day, whom the photographer was unable to picture, behind the lectern; and at right, Director Fred H. Rhodes, PhD '14, of the newly-named School of Chemical and Metallurgical Engineering.

Wesp-Buzzell

neering." He cited the teachings of the late Director Robert H. Thurston and George Burr Upton '04 of Sibley College and Professor Adelbert P. Mills, Civil Engineering, as evidence that "metallurgy is not new at Cornell." "It has long been the policy of the Engineering College to base all curricula on the teaching of fundamentals, with a minimum of instruction in specialized fields. The new Metallurgical Engineering curriculum continues this broad basic policy." He explained that the first two years are devoted essentially to basic mathematics, physics, chemistry, drawing, English, history, economics, and public speaking. Except for a short introductory course in metallurgy and one in metallurgical raw materials, the professional courses do not begin until the third year. In the last three years of the five-year course, besides technical courses in metals and metal processes, students are required to go further in physical chemistry, mechanics, and basic electrical engineering, and to study psychology, library use and patents, corporate and industrial organization, accounting, statistics, and quality control. He described the curriculum as providing "the fundamental training needed in metallurgy, a broad training in engineering, and sufficient work in the cultural subjects and business administration to give the student a well-balanced educational program." He referred to the need for well-trained engineers in the foundry industry and recent provision by the Foundry Educational Foundation of scholarships and equipment for this specialized training.

Facilities To Expand

He spoke of present facilities for teaching and research which are being modernized and expanded, temporarily in Olin Hall and the Foundry behind Sibley until the new Materials and Metallurgy Laboratory is built on the site of the Old Armory, funds for the first unit of which are now in hand. He acknowledged also gifts from alumni and others of equipment and teaching aids, and "the helpful advice received from many Cornellians and others in the metallurgical industries during the planning of the curriculum and laboratories."

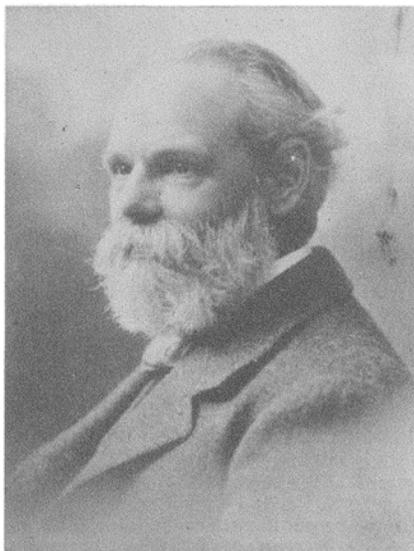

Francis N. Bard entered Sibley College as a Sophomore in 1901 after two years at the University of Chicago, and received the ME in 1904. He worked in the foundry, factory, and engineering department of the Platt Iron Co. in Dayton, Ohio, then for Allis-Chalmers Co. designing steam turbines, and in 1908 joined his father in Chicago in the management of the Norwall Manufacturing Co. A small company which they acquired for research has become the Barco Manu-

facturing Co., almost the sole maker of special flexible ball joints, gasoline percussion hammers, and similar devices for railroads and industry, sold all over the world. As an avocation, Bard operates a citrus ranch and some 250,000 acres of range land in Arizona where he has bred cattle suited to the climate and terrain, and a 440-acre grain, cattle, hog, and poultry farm at Crystal Lake, Ill. He is also a big-game hunter, has been a director of the National Association of Manufacturers, is a member of Delta Tau Delta and of the Cornell Clubs of Chicago and New York.

Professor Kyle was appointed to the Chemical Engineering Faculty in January, 1946, as professor of Applied Metallurgy, after twelve years at MIT, where he received the MS in ME in 1939. After receiving the ME here in 1933, he spent the next year at Lehigh as holder of the James Ward Fellowship in Mechanical Engineering. During the war, he was consultant on materials, production methods, and allied projects for the British Air Commission and was research supervisor for the US Metallurgy Committee. He won a McMullen Scholarship in Engineering, was Senior editor-in-chief of the Sibley Journal, and was elected to Tau Beta Pi. Mrs. Kyle is the former Fanny Sly '30.

Gives Thurstoniana

COLLECTION of correspondence, books, diplomas, and medals belonging to the late Robert Henry Thurston, Director of Sibley College of Engineering from 1885 until his death in 1903, has been acquired and given to the University by Trustee Arthur H. Dean '19. The collection will be exhibited in the Materials and Metallurgy Laboratory to be erected on the new Engineering Campus.

ROBERT HENRY THURSTON

All the letters, covering a period between 1880 and 1895, were written to Thurston, a noted inventor and father of mechanical engineering education in America. The 300 items are from such contemporaries of Thurston as Hiram Sibley, founder of the Western Union Telegraph Co. and benefactor of Sibley College; Thomas A. Edison, Alexander Graham Bell, Lord Kelvin, President Andrew D. White, George Westinghouse, Jr., Sir Hiram Maxim, Nikola Tesla, and Andrew Carnegie.

A letter from Sibley, written in 1886, warns Thurston against the University adding schools of divinity and medicine, "which might be the destruction of Cornell." He urged that the teaching of divinity would "kill the efforts of the Founder and the appropriation." One from Andrew Carnegie in 1888 concerned Carnegie's nephew who wanted to study at Cornell. Included also is a petition from Thurston's students, April 7, 1894, asking that he give informal talks on Engineering Reminiscences, "these to include parts of your own varied engineering experience, in the Navy and later, and something of the personality and achievements of the noted engineers with whom you have been associated."

Dean, the donor of the Thurston collection, was born in Ithaca, the son of the late William C. Dean whom Director Thurston was instrumental in bringing to the University in 1894 as University superintendent of steam heating and water service. Dean learned that the collection was offered to the University by a dealer in Philadelphia, Pa., and bought it after it had been investigated by Mrs. Edith M. Fox, AM '45, acting curator of the Collection of Regional History. Dean was appointed to the Board of Trustees by Governor Thomas E. Dewey two years ago, for the five-year term ending in 1950. He received the AB in 1921, the LLB in 1923; is a partner in the law firm of Sullivan & Cromwell, 48 Wall Street, New York City.

"Joan of Lorraine"

DRAMATIC CLUB opened its "thirty-ninth season" with an ambitious and notably successful production of Maxwell Anderson's "Joan of Lorraine." The show virtually filled the Willard Straight Theater, November 6, 7, and 8, during "Autumn Weekend" on the Campus.

The difficult drama of a play-in-rehearsal was remarkably well cast, and all the student actors handled their parts convincingly. Especially impressive were the lead characters, Robert D. Asher '47 of Leominster,

Mass., as the director and Sylvia Hirschhaut '49 of Buffalo as the actress playing Joan. They were ably supported by E. Russell Smith '48 of Great Neck as Al, the stage manager, and his assistant, Virginia M. Genove '48 of Niagara Falls; by Anthony Geiss '46 of New York City who played the Dauphin of France, Henry R. Erle '50 of New York City as the wily deTremaille, Richard E. Perkins '48 (whose mother is the former Blanche Howland '11 of Newark, N. J.) as the Archbishop, and William A. Thompson '48 of Oakdale as Dunnois, general of the French Army. The play was directed by Professor H. Darkes Albright, PhD '36, assistant director of the University Theatre, with assistance of Miss Genove and Smith.

Savage Club Entertains

ANOTHER sign of the community's return to pre-war status was the Savage Club of Ithaca show, "Foolscap" ("Pacsloof Ni Segavas)," which packed Bailey Hall, November 7. It was a revival of the pleasant custom of a Savage Club meeting for the edification of the public, last held as "Niaga Sevagas" in 1940. Again the Brother Savages were seated at tables and in chairs brought from their Green Street basement club-rooms, and again they made merry for their own amusement and that of the appreciative audience.

From the opening, with the rollicking reading by Prolocutor Rollo Tallcott of Ithaca College of a "Prolegomenon" in verse by Professor Bristow Adams, with dancing accompaniment of a jester in foolscap, Shelly Smith, the show provided entertainment *par excellence*.

The meeting began with the assembled members singing the Club's "Heidelbaum Alma Mater" and "A Toast to Heidelbaum," written for the 1928 show by Ludwig F. Audrieth, PhD '26, and it proceeded for two-and-a-half hours of variety acts, stunts, and songs, the Brother Savage performers introduced by the Club president, Professor Charles K. Thomas '21, Speech. The acts ran the gamut from songs by the Savage Club Quartet and individual members, through legerdemain by R. Selden Brewer '40, and to the traditionally popular Alfred F. Sulla, Jr. '29 with his banjo. It was a good show and thoroughly enjoyed.

Only thing missed by some of the old-timers was James Miller, longtime steward of the Club who the last five years has been incapacitated by illness from serving the Savages refreshment at their meetings, both public and closed.

Now, in *My Time!*

By *Romeyn Berry*

THE radio business is still in the difficult stage between childhood and adolescence. But the Cornell University Station has put on long pants and may reasonably be expected to shave and sing bass at any moment.

Perhaps you'd like to hear about WHCU, which makes it possible for nearly 2,000,000 people to listen to the Cornell Bells in the Tower every day, to hear Kate Smith, spot news, and timely advice on how to freeze black bass, take gravy-stains out of evening clothes, and disinfect the brooder house. The University Department of Public Information seems seldom to mention this particular research project in its hand-outs. One suspects that the High Command may be a little embarrassed about WHCU because it operates in the black, since in the upper academic circles it is not considered quite cricket for any research project to show a profit.

We've never seen the figures, of course. We merely infer prosperity from the fact that the Station has lately added an FM installation and paid for it out of petty cash. This is unique among university radio stations, which commonly require subsidies to enable them to stay on the air.

WHCU's main studio occupies the top floor of the Savings Bank Building at the corner of Tioga and Seneca Streets, the site of Ezra Cornell's house through the last years of his life. There is a second studio on the Campus for the convenience of professors who give forth every little while on the latest pestilence to threaten dairy herds and the potato crop. The dual arrangement permits the Station to keep one foot at all times in an academic atmosphere and the other firmly planted downtown in the marts of trade and among the cash customers. This constant split puts a strain upon the muscles of its legs and loins, but it also accounts in some degree for the Station's prosperity.

The regular sending towers adjoin the fifth hole at the Country Club, and the new FM equipment soars to the clouds from the top of Mount Pleasant, out the road to

Dryden. It's all pretty incredible to old-timers who have yet to fathom the mysteries of the telephone, but the students seem to know all about it and not a few of them find part-time employment as announcers and as technicians in the control room. They love it, too, as they improve their spoken English and see themselves on the road to wealth and glory, sharing the air with Charlie McCarthy!

Up to last month, WHCU has been a little 1000-watt station making a small noise in a remote corner of the sky, but it has attracted the favorable attention of the trade to a degree out of all proportion to its boiler capacity. It has repeatedly snatched national awards for originality, quick thinking, and neighborly help to its constituency from the jaws of larger and more celebrated cloud-splitters. It is one of the few little stations which every day feeds programs originated by it into a network of larger stations. The common practice is, of course, the reverse of this.

The Cornell Station is organized on a commercial basis and is perfectly frank about it. But it is never painfully commercial, and will use expensive time at any hour to help a little girl who has lost her dog, and will be inconsolable until the neighbors find it; to give a plug for the chicken supper at the Kennedy Corners M.E. church.

Once the new FM gets well underway and a comfortable reserve is again built up, you are likely to see WHCU becoming even less commercial and even more eager to blaze new trails through the uncharted wilderness of the air. Nor is your reporter just guessing on this point. Sunday mornings early, we drive in and broadcast ourself for five minutes. Consequently, we know where they hide the night key and have a weekly chance to read the loose mail before the staff arrives. We therefore advise you with confidence that the University's radio research project may be expected to maintain the Cornell tradition of ignoring accepted fashions; of emphasizing contrasts, not comparisons.

Cornell Engineer

CORNELL ENGINEER for November contains an explanation of "Manufacturing Progress Through Process Planning," by Edward A. Reed '31. Reed teaches at General Motors Institute, Flint, Mich., where he developed and is in charge of the Die Engineering Program. "President's Message" of Carl F. Ostergren '21 to the Cornell Society of Engineers in this issue invites expression of opinion on "what we as alumni of the Cornell Engineering Schools think would be the right size for our own colleges to aim toward."

Miss Billie P. Carter '48, a Chemical Engineer from Honolulu, Hawaii, is editor-in-chief of The Cornell Engineer.

Senior Societies Elect

SENIOR honor societies elected twenty-two new members, November 7. Sphinx Head initiated nine men at the society's Tomb below the Stewart Avenue bridge. Thirteen Seniors were initiated by Quill and Dagger in Willard Straight Hall, with dinner following, at Zinck's. Three of the newly-honored Seniors are sons of Cornellians.

Sphinx Head

Donald P. Babson '46, Arts, Wellesley, Mass.; Sun managing editor, ski team; Theta Delta Chi.

James I. Hudson, Jr. '49, Arts, Wilmington, Del.; soccer manager; Phi Kappa Psi.

Robert N. Jacobson '46, Arts, New York City; Octagon Club, Rhythm Club, spirit and traditions committee; Pi Lambda Phi.

Richard J. Keegan '46, Arts, New Haven, Conn.; Student Council president, Freshman Camp counsellor; Alpha Tau Omega.

Walter A. Kretz '45, Arts, Amityville; Varsity football captain, Aleph Samach; Seal and Serpent.

George L. Landon '44, Arts, Ithaca; Glee Club leader; Beta Theta Pi.

Donald M. Lins '48, Agriculture, son of Everett W. Lins '20 of Kendall, Fla.; football, Aleph Samach; Sigma Alpha Epsilon.

William L. Totman '48, Industrial and Labor Relations, Cortland; Willard Straight Hall president; Phi Sigma Kappa.

Joseph T. Willner '46, Arts, Beacon; baseball, boxing.

Quill and Dagger

William C. Arthur '44, Administrative Engineering, Meadville, Pa.; 150-lb. crew, Atmos; Alpha Delta Phi.

Elias W. Bartholow, Jr. '44, Chemical Engineering, Baltimore, Md.; lacrosse, Dean's list; Phi Gamma Delta.

Bernard Bernstein '48, Electrical Engineering, New Rochelle; track.

Ray C. Bump, Jr. '48, Architecture, Brockton, Mass.; Varsity football manager.

Robert T. Dean '48, Electrical Engineering, Bloomington, Ind.; football.

James T. Gale '48, Arts, St. Albans; basketball; Delta Upsilon.

Robert C. Koehler '48, Hotel, Ithaca; Student Council, Hotel Ezra Cornell manager, Vetsburg student manager.

Hilary H. Micou, Jr. '46, Mechanical Engineering, son of H. Herbert Micou '15 of Grosse Pointe, Mich.; track, cheerleader; Alpha Delta Phi.

LeRoy C. Norem '46, Civil Engineering, Bayside; track, cross country captain.

Robert A. Ornitz '45, Mechanical Engineering, Pittsburgh, Pa.; Student Council, Athletic Council chairman, swimming; Phi Sigma Delta.

Donald M. Ostrom '45, Hotel, son of Selden W. Ostrom '21 of New Rochelle; Class secretary, Campus Chest chairman, Freshman basketball manager, Willard Straight night manager; Sigma Nu.

Joseph F. Quinn, Jr. '48, Mechanical Engineering, Baldwin; football, lacrosse; Sigma Nu.

Alexander T. Stark '43, Arts, Irvington, N. J.; Independent Council president.

Intelligence

By *Emerson Hinchliff '14*

After agitation last year in the Cornell Sun about compulsory military drill and militarism in general, the Department of Military Science and Tactics has developed a very interesting innovation. It may be a "first" in ROTC colleges.

The War Department prescribes a lecture course called "World Military Situation" for all first-year ROTC cadets. For the larger part of last year, it was given by Lieutenant Colonel Alexander N. Slocum, Jr. '26, executive officer of the Corps. Immediately, letters-to-the-Sun-editor protested that the lectures were all slanted with military indoctrination. To meet this criticism, a start was made last year by bringing in guest lecturers from the Arts Faculty. Concomitantly, authorization from the War Department was sought and obtained to concentrate for 1947-48 the two-semester course into one term of weekly lectures with the entire academic responsibility for their content and delivery in the hands of the Arts College. The College will give an hour of academic credit to its students who pass the mid-term and final examinations.

Topsy-like, a rather superlative course has developed. A women's club study group would give the eye teeth of its program chairman to offer the following fare: "Geographic Factors in the World Situation," Professor Von Engeln, Geology; "International Political Relations," Briggs, Government; "International Economic Rivalry," Adams, Economics; "Race and Population Problems," Sharp, Anthropology; "British Empire," Marcham, History; "France and Northwest Europe," Fox, History;

"Central Europe," Lange, German; "Mediterranean and Middle East," Einauda, Government; "Russia in Europe" and "Russia in Asia," Szeftel, History; "The Western Pacific" and "Northeast Asia," Biggerstaff, History; "U.S. in World Affairs," Nettles, History.

The Department of Military Science and Tactics asked that each lecturer cover four main elements: Raw material and industrial status of the area concerned, its strategic position, possible points and sources of conflict, and specific American interests there. Otherwise, the speaker is given a free hand. If it is repeated next year, it will be listed in the Arts Announcement as an elective course open to all students.

* * *

Curiously enough, the series has not yet proved to be an unmixed success, studentwise. It is given at an inconvenient hour to many: 8 to 8:50 p.m., Thursdays. It had to come in the evening to avoid conflicts and it couldn't be scheduled at 7 because many men wait on table and wash dishes for their board. Academic credit for it wasn't announced until the fifth lecture. Sun correspondence continued to lambaste the ROTC program as a whole. Football pep rallies were in the air. The normal high spirits of 900 healthy boys can easily get a bit out of hand. A few "antis" may have consciously started revolt. Anyway, the audience became noisily ill-mannered at the start of popular Professor Marcham's first talk. So noisy was it, in fact, that the Sun the next Thursday morning editorially belabored the Frosh, saying: "Rough handling of Faculty lecturers won't abolish ROTC, no matter how much, or how justifiably, those who are enrolled in it dislike the compulsion to take the course. The wiser alternative for Freshmen is to act as becomes gentlemen. Withdrawal of the Faculty lecturers would only result in an increase of the routine drilling and time-wasting aspects of ROTC. If they are not greeted with minimum courtesy, the Faculty lecturers will be well justified in washing their hands of the whole idea."

In your behalf, I attended that night. Half-a-dozen officers and several non-coms were there. Only two entrance doors were open and these were carefully policed for Campus canines. Whatever skylarking I heard was within reason and I enjoyed the whole affair. Professor Marcham at the end expressed his appreciation of his reception, pointed out that the Faculty lecturers were voluntarily giving their time, and bespoke courtesy toward those to follow.

My curiosity aroused as to the ROTC program in general, I spent the next afternoon with the ROTC Officers Commandant, Colonel Ralph Hospital, and saw the whole establishment: the stables, equipment for instruction in motors and weapons, the visual aids for teaching, and a class in map reading. Only one of the three hours a week required is now devoted to drill; quite a change from *my* time! The rest is skull-practice, and the officers detailed here actually merit their classification as professors.

Some 1,450 students, of whom 160 are in the advanced course, comprise the Corps. Seventeen officers and a smaller number of non-coms are assigned here. Students can elect among Artillery, Quartermaster, Air, Signal Corps, and Ordnance. Last May, the examining team from Washington rated our outfit as "excellent" which is the highest rating given. Our QM unit, trained by Major Raymond L. Hoff, Hotel '40, led all the twenty-three Quartermaster schools in the United States. Another alumnus, Major Henri F. Frank '41, is in charge of leadership, drill, and exercise of command. Robert B. Meigs '26, secretary of the Board of Trustees and University Counsel, during the war an officer in the Judge Advocate General's Department, lectures on military law. Of course, everybody knows how necessary the sheer expanse of Barton Hall is to the University for such diverse things as registration, Commencement, basketball, and the Junior Prom!

* * *

Lest I leave the impression that the studentry is a hotbed of anti-militarism, I might mention that the Student Council just last year, after mature deliberation, endorsed compulsory ROTC.

Viola Concert

UNUSUAL concert in the Bailey Hall series was that of Emanuel Vardi, violist, November 11. With piano accompaniment by Irving Owen, the artist played the Brahms "Sonata in E Flat," "Sonata in F Major" by Paul Hindemuth, his own "Suite on American Folk Tunes," the "Pastorale" by Stanley Bate, and the Tibor Serly "Rhapsodie," with Chopin's "Nocturne in C Sharp Minor" and "Rhumba" by Benjamin as encores. "Chaconne" by Bach and "Caprice No. 17" and "Caprice No. 24" by Paganini, which Vardi played without accompaniment, gave him special opportunity to display his technique of musicianship and the peculiar qualities of his instrument.

December 1, 1947

Letters

Subject to the usual restrictions of space and good taste, we shall print letters from subscribers on any side of any subject of interest to Cornellians. The ALUMNI NEWS often may not agree with the sentiments expressed, and disclaims any responsibility beyond that of fostering interest in the University.

Clothes Reminiscence

TO ROMEYN BERRY:

I get a great kick out of your ALUMNI NEWS columns. They do bring back old times!

About the pants, do you recall the competition for the "loudest" silk backs of our vests? I think Goldy made the biggest hits. When I went home and exposed the back of my vest, I was marked as a jailbird! Do you remember Pat Wall's shoes, almost up to the knee with soles an inch thick? Bob Deming's loud knee breeches waving in the wind at the peak of the flagpole at Percy Field?

Great times those were, and what fun we all had!

—ARTHUR P. (CULLY) BRYANT '00

More on Buildings

TO THE EDITOR:

On pages 287 and 288 of Volume 1 of his Autobiography, President Andrew D. White tells how he dreamed of erecting "on that queenly site above the finest of the New York lakes" a University beautiful and dignified like Oxford or Cambridge; "halls as lordly as that of Christ Church or of Trinity, and towers as dignified as those of Magdalen and Merton, quadrangles as beautiful as those of Jesus and St. Johns."

It looked for a time as if his dreams might be approached when Willard Straight, the dormitories and the Law School buildings were erected and

the decision made that the future buildings would be along the Norman Gothic type of architecture. In the last years it seems as if the Norman Gothic was given up in favor of modern factory. The authorities seem to be bent on making our buildings functional. They apparently overlook that one of the functions of university buildings is to lift up the minds and the hearts of the students and to surround them with dignity and beauty.

Mr. Sessler in his letter in the October 1 ALUMNI NEWS blames the College of Architecture for not raising voice in protest. The real responsibility lies with the Trustees, and we alumni should insist that any alumnus who aspires to Trusteeship should give a pledge ahead of time that from now on the authorities stop erecting drab structures and raise college buildings that will be beautiful and dignified as well as functional.

—LOUIS J. HEIZMANN '05

"Is Chivalry Dead?"

TO THE EDITOR:

Concerning the picture on page 99 of the October 15 ALUMNI NEWS:

Is chivalry dead at Cornell? Why shouldn't that little squirt of a Freshman stand up when a lady comes in the room, even though she too is a Freshman? I can understand why perhaps Foster Coffin does not stand up: his joints might creak a bit, and besides, he is the Director of Willard Straight Hall!

—THOMAS F. LAURIE '10

Jobs Open

CURRENT Job Bulletin, sent to alumni who are registered with the University Placement Service in Ithaca and New York City, lists 137 positions available, giving the type of work, location, and starting salary.

IS CHIVALRY DEAD? (SEE ABOVE)

Wins Borden Award

BORDEN Award of \$1,000 and a gold medal was presented to Professor Vincent duVigneaud, Biochemistry at the Medical College, by the Association of American Medical Colleges, meeting last month in Sun Valley, Idaho. Dr. DuVigneaud's "outstanding research in the field of synthesis, particularly of penicillin," won him the first Borden Award to be given through the Association, which studied the research of approximately 18,000 medical faculty members of eighty-four colleges.

He is the thirteenth Cornellian and the third this year to receive a Borden Award since they were instituted in 1937. Last May, Director Leonard A. Maynard, PhD '15, of the School of Nutrition, received a Borden Award through the American Institute of Nutrition "for contributions to nutrition in the field of milk and milk products." In September, Dr. George C. Supplee '13, president of the G. C. Supplee Research Corp., Bainbridge, received the Award through the American Chemical Society, for research in milk chemistry.

RCA Fellowship

PRE-DOCTORAL fellowship in electronics has been awarded to Arnold R. Moore, Grad, of Brooklyn, by the Radio Corporation of America. The fellowship is worth \$2,100 a year, plus \$600 for tuition and fees. Moore graduated from Brooklyn Polytechnical Institute in 1942; did research in electronics with RCA during the war, entered the Graduate School in 1945.

Telluride Scholarships

SCHOLARSHIPS for foreign students have been established by Telluride Association in memory of associates who were killed in World War II. The recipients receive free tuition from the University and are given room and board in the Telluride house on West Avenue.

First Robert Huffcut Memorial Scholarship, named for the late Robert J. Huffcut '38, killed in the Philippines, was Nathaniel B. Tablante, Grad, of the Philippines. This year the recipient is Jean Bourgeois '51 of Paris, France, who holds the Ned Bedell Scholarship, named for the late Harry N. Bedell '42, killed in Germany.

Of the six Telluride dead in World War II, three were Cornellians: Huffcut, Bedell, and John D. H. Hoyt '21, a captain in the Air Corps who was killed in a plane crash in the South Pacific, January 12, 1943. A memorial scholarship named for Hoyt will be awarded next year.

Second George Lincoln Burr Memorial Scholar, chosen by the Telluride Association at its annual convention in Ithaca, is Gerhard Loewenberg '49 of New York City, a native of Berlin, Germany. Named for the late Professor George L. Burr '81, History, who lived at Telluride for twenty-three years until his death in 1938, the Scholarship provides tuition in any College of the Scholar's choice, plus room and board at Telluride.

Hotelmen Speak

HOTEL Administration alumni were prominent at the September American Hotel Association convention in San Antonio, Tex. A large number attended, and many took part in the convention program. Discussion of the operation of small hotels was conducted by a panel of Ruel E. Tyo '27 of the Phoenix Hotel, Findlay, Ohio; Howard L. Dayton '27 who operates a chain of Southern hotels; Milton J. Firey III '28 of the Congress Hotel, Baltimore, Md.; J. William Cole '30 of the General Broadhead, Beaver Falls, Pa.; and Ross B. Vestal '35 of the Windsor Hotel, Americus, Ga. Irving A. Harned '35 of The Cloister, Sea Island, Ga., presided over a session on operating resort hotels, and Jacob S. Fassett, 3d '36 told of his work as manager of the AHA service bureau. Host at a convention dinner was Joseph P. Binns '28, vice-president of Hilton Hotels.

First annual convention of the Junior Hotelmen of America, held during the AHA meeting, elected Lawrence H. Smith '40 first vice-president, and directors of the new organization, elected by mail, include Charles Duffy III '34, Paul L. Grosinger '36, Robert K. Jones '42, Donald A. Boss '43, C. George Spiliotopoulos '47, and R. William Clark '49.

New York Women Active

SIXTY members of the Cornell Women's Club of New York enjoyed a buffet supper, October 22 at the Barbizon Hotel. President Emma E. Weinstein '23 introduced Mrs. Helen Jordan, fashion editor of the New York Journal American, who spoke on "The New Look."

For the Club's November meeting, members were to bring cans of food and pack them for shipment to Cornellians overseas, directed by Mrs. Edward A. Maher (Marguerite Hicks) '26, former WAVES commander. The Club will award prizes for the most beautiful and the most original doll made by members, at a doll contest in December; the dolls will be given to hospitals in the city for distribution to children for Christmas.

Leading Chemists

CHEMICAL BULLETIN of the American Chemical Society presents in its November issue a roll call of the "ten ablest chemists and chemical engineers" now working in the US in each of twenty specialized fields. They were chosen by their fellow-scientists, each voting in his own field, as "the people who lay the foundations for production."

Fourteen of the 200 scientists thus cited are Cornellians: Professors James B. Sumner and Vincent duVigneaud, Biochemistry; Wilder D. Bancroft (Emeritus), Peter Debye, John G. Kirkwood, and Albert W. Laubengayer '21, Chemistry; Ludwig F. Audrieth, PhD '26, University of Illinois; Herbert P. Cooper, PhD '22, Clemson College; Gustav Egloff '12, Universal Oil Products Corp.; Gustave E. F. Lundell '03, US Bureau of Standards; Walter H. MacIntire, PhD '16, TVA; Robert S. Shelton, PhD '33, Wm. S. Merrill Co.; Wayne A. Sisson, Grad. '25-26, American Viscose Co.; and Harry B. Weiser, PhD '14, Rice Institute.

Alumni Head Grolier

GROLIER Society, Inc., publisher of The Book of Knowledge, announces that its president, Fred P. Murphy '12, has been elected chairman of the board of directors. The Society's treasurer, Edward J. McCabe, Jr. '34, succeeds Murphy as president.

Murphy joined the Grolier organization as a salesman soon after his graduation. In September, 1915, he opened the first Grolier office in Kansas City, Mo.; became executive officer of the Society in 1936. President McCabe joined the Kansas City office in June, 1936, as cashier, was named treasurer and a director in 1937, and became resident manager of the New York City retail sales office in 1942. Claude C. Harding '08 is vice-president and West Coast manager.

The Society supports a dozen Grolier Scholarships in the School of Business and Public Administration, worth from \$250 to \$500 a year.

Foundry Scholarships

FOUNDRY industry is financing a \$57,000 three-year program at the University to provide candidates for engineering management jobs in that field. Five Freshmen and five Sophomores have been awarded scholarships worth \$600 a year, renewable for two more years, and the sponsoring Foundry Educational Foundation has also granted the University an initial \$10,000 for equipment to be used in the program, conducted within the cur-

riculum of the School of Chemical and Metallurgical Engineering.

Freshman recipients are William H. Arnold (son of General of the Army Henry H. Arnold) of Washington, D. C.; Robert J. Lehren of Riverside, Conn.; Alfred E. Riccardo of Leonardo, N. J.; Henry Robinson, son of William E. Robinson '18 of Akron, Ohio; and Paul L. Widener of Conesus. Winning Sophomores: Robert L. Folkman of Warren, Pa.; William C. Hagel of Pittsburgh, Pa.; Jerome M. Jenkins of Bronxville; Albert P. Oot of Syracuse; and Nicholas Sheptak of Binghamton. Selected on merit, they will pursue foundry work and supplemental studies, spend a summer in industrial foundries, and choose a foundry-related subject for a thesis or project. Co-operating in the program are the American Foundryman's Association, Gray Iron Founders' Society, Malleable Founders' Society, and the Foundry Equipment Manufacturers' Association.

Buffalo Talks Football

FOOTBALL dinner and smoker arranged by the Cornell Club of Buffalo attracted nearly 200 alumni, November 7 at the University Club.

Guest of honor was Glenn S. "Pop" Warner '94, former Cornell guard and captain; head coach in 1897-98 and 1904-06. Other speakers included Dr. Albert H. Sharpe, Varsity coach, 1912-18; Dudley DeGroot, coach of the professional Los Angeles Dons; Mortimer W. Landsberg, Jr. '41, former Cornell fullback now playing for DeGroot; and Judge Harry L. Taylor '88. Ralph Hubbell, WGR sportscaster, gave his program from the dinner, opening it with the singing of the "Alma Mater" by the guests and interviewing several of the speakers.

Warner, recipient of this year's Touchdown Club award for his "outstanding contributions to the game," paid tribute to the late Clinton R. Wyckoff '96, "one of the great quarterbacks in my day, or any day. . . Clint never weighed more than 140 pounds but he was a terrific all-around player, a great tackler."

Alfred M. Saperston '19, president of the Buffalo Club, introduced the speakers and Neil M. Willard '18 led singing. Robert M. Rublee '41 was chairman of the committee.

Next day, the visitors attended the Syracuse game in Ithaca, and Warner went on for a football party at the Cornell Club of New York, November 14.

Buffalo Cornellians gathered with Dartmouth alumni at the University Club, November 15, with a direct wire from the game at Hanover, N. H.

Time Was . . .

Twenty Years Ago

December, 1927—Pennsylvania 35, Cornell 0.

"This business of providing clean sport for the alumni may be a nervous and precarious method of earning your living, but it is never dull or monotonous. One minute the customers are tearing down their own goal posts in a delirium of joy. The next minute you can feel their hot breath on your heaving flanks as you double through the lumberyard and flip a fast freight to escape with your life and a few mere flesh wounds.

"The thing to do after a bad season is to retire—in the night and taking long steps—to some comfortable and secluded Elba. Remain there until the guillotines have been glutted with the pure, aristocratic blood of somebody else, perhaps that of a defenseless Faculty. Then, when the hunt has passed over the hill, stroll back nonchalantly and put pieces in the paper about mass athletics for all.

"It's a great life, as Doctor Amos Alonzo Stagg and the Reverend Frank Cavanaugh [of Fordham] will tell you. Some years you win and some years, if you want to get by, you have to mold character to beat hell."

—R. B. in "Sport Stuff"

Fifteen years Ago

December, 1932—"Strange and horrid things take place behind the

sedate exteriors of the professorial homes. Drama, heroic and sordid, is enacted within those mute walls.

"Well, they aren't always mute. They tell of a young Professor and his young wife, who, by some process not clear, came into possession of a live chicken, prime and plump. Perhaps they raised it in the back yard; perhaps they won it in a raffle.

"At any rate, the execution of the chicken presented a most annoying problem. The Professor vowed that he could not chop the pretty thing's head off with an axe. The Professor's wife would sooner die herself than wring its neck. Such methods anyway were barbarous and in disaccord with modern scientific and penological procedure.

"It was determined to chloroform the chicken. The creature was enticed into a large covered pot, there to dream away its existence, to float to the other world on scented clouds of chloroform.

"The lifeless body was removed from the pot. The Professor, with averted eyes, plucked it clean of feathers. The Professor's wife singed the body. Her tears sizzled in the fire.

"The corpse was then laid to rest in the ice-box.

"Half an hour later, the Professor's wife opened the ice-box door. Out leaped a naked chicken, yellow and blue. Flapping its stumpy wings, it circled about the kitchen floor, uttering horrible clucking sounds.

"The Professor and his wife put each other to bed."—*Rundschaer*

GLENN S. "POP" WARNER '94 VISITS SCHOELLKOPF

Using his cane as a pointer, the former Varsity captain, player-coach, and head coach explains a play to Coach George K. James (left) and Dudley DeGroot, coach of the professional Los Angeles Dons, in the coach's office, while snowplows cleared the field for the Cornell-Syracuse game.

Ithaca Journal photo

VARSIITY football team met tough opposition in early November, winning from Syracuse, 12-6, before 25,000 on Schoellkopf Field, November 8, and losing to Dartmouth, 13-21, at Hanover, November 15. The season's record thus stood at four won and four lost, with the Pennsylvania game yet to be played at Franklin Field.

Snow Delays Game

FOR six consecutive week ends, the team had played at home and abroad under ideal, if somewhat warm, weather conditions. But the day Syracuse came to Ithaca, it rained and snowed. Tarpaulins on Schoellkopf were covered with three inches of soggy snow. At one o'clock, an hour before scheduled game time, the task of uncovering the field was started. Volunteers were called from the stands to help the regular crew. Manpower wasn't enough, and two snowplows and several trucks had to clear the tarpaulins before they could be pulled and rolled to the sidelines. The game started thirty-five minutes late, but the skies had cleared and late-comers weren't late, after all.

Cornell was favored to win; some said by three touchdowns. Syracuse promptly proceeded to confound the prophets. Captain Walter A. Kretz '45 fumbled, and Bagley, the Syracuse right tackle, recovered on Cornell's 48-yard line. Five plays produced a touchdown. Dolan, a halfback who carried the burden of the Syracuse running attack, and Buchsbaum and Slovenski ran to two first downs on the 24. Dolan started another run, aiming at Cornell's left tackle. Short of the line of scrimmage, he leaped into the air and threw an unerring pass to Schiffner, left end. Schiffner had no trouble scoring the touchdown. Paul, a placekicking specialist, failed to convert. The time was 6:20 in the first period.

Cornell answered with a fifty-yard march, engineered principally by Bernard S. Babula '50 and Norman Dawson '46, but on the Syracuse 30-yard line the visitors took the ball on downs.

Dragotta's punt went out on Cornell's 32-yard line. Carl R. Holland '49, who later was to make amends, lost a yard. Babula picked up three. Robert T. Dean '50, operating as a halfback, cut through left tackle, reversed his field, and went to the Syracuse 14-yard line, cut down there by Dolan and Slovenski.

The teams changed goals for the second period, and Dean started running again. He made four, four again, three. From the 3-yard line, he dove

through at left guard and scored. His placekick for the point was wide, and the score was tied, 6-6.

Dean kicked off, and Dragotta's answering punt went out on Cornell's 39. Holland, Dean, and Dawson ran for first down on the Syracuse 48. Lynn P. Dorset '50 threw a pass to Babula for first down on the Syracuse 15. Four plays later, Cornell yielded the ball on downs on the Syracuse 31.

There were no other scoring threats on either side in the first half, but in less than two minutes of the third period, Cornell had its game-winning touchdown. James R. Farrell '50, who had won the starting berth at right tackle, kicked off. The first kick went out of bounds to the right, the second went out to the left. The two miscues gave Syracuse the ball on Cornell's 40-yard line. Dolan threw a pass to Dragotta, good for sixteen yards. Two running plays put the ball on the 18. Dolan threw an incomplete pass.

It was fourth down. Dolan tried another pass, off to the left. The ball ticked the fingers of one Cornell defender, and Holland snared it on the 5-yard line. Frank Pastuck '41, center, cleared Holland's path to the sideline with a key block. Holland picked up John B. Rogers '45, left end, as convoy, and Rogers accounted for two Syracusans as Holland went all the way for the score. Dean again missed the try for point.

Only once thereafter did Cornell maneuver into Syracuse territory. Syracuse was driving, after a pass interception by Left Tackle Burkle. Dolan had completed a pass to a substitute end, Acocella, on Cornell's 23. There Dolan fumbled, and Rogers recovered. Dean booted a quick kick to the Syracuse 19. A return punt went out at midfield. Dean and Winfred B. Wright '45 picked up a first down, but Dean had to punt again as the third period ended.

Syracuse started the last quarter with two first downs, then, after an exchange of punts, moved to midfield, where Frederick A. Westphal, Jr. '45, recovered Dolan's fumble. Dawson and Babula picked up nine yards. On fourth down, needing only one yard, Wright fumbled, and Dolan recovered on Syracuse's 39-yard line.

Syracuse started a bid for a tie or a victory. Dolan and Slovenski made first down on the Cornell 47. Dolan was hurt on the next play, but Davis, his substitute, passed to Nussbaum, a reserve end, for first down on Cornell's 35. Slovenski passed to Acocella on Cornell's 19. Dolan returned to the Syracuse lineup, with two minutes and seven seconds to play. Syracuse shifted to its running attack and ground out a first down on the 8-yard line. Slovenski ran to the 5, and Davis, in again, was held for no gain. Twenty-five seconds were left. Davis launched a pass. Holland intercepted it on the goal line and ran to the 25 as the game ended.

All told, Holland picked up 120 yards on two intercepted passes.

The victory, plus the earlier 27-18 win over Colgate, gave Cornell the Central New York championship. It was also Cornell's seventeenth victory in the twenty-four-game series with Syracuse.

Cornell 13, Dartmouth 21

HANOVER had the coldest weather of the season, with snow banking Memorial Field, for the game there.

Cornell picked up more first downs, more yards rushing, and more yards passing than Dartmouth, but three specific plays spelled defeat: a blocked kick, a recovered fumble, and a pass interception.

Cornell made the first offensive gesture after the kickoff, with Dean and Kretz running for two first downs. Dartmouth's line, which played superlatively all day, checked the drive. Dartmouth went into high offensive gear, starting on its 41-yard line and rolling to three first downs on the running of Pensavalle, a halfback, and the forward passing of Quarterback Sullivan to End Armstrong. Cornell dug in and halted the march on its 16-yard line.

Dean went back to punt. Gowen, a substitute tackle, broke through and blocked the ball, and Jenkins, left tackle, recovered it in the end zone for a touchdown. Fullback Carey carefully placekicked the point. The time was 12:55 of the first period.

The second period was without a score. At 1:25 of the third quarter, Cornell had a touchdown on a brilliant seventy-four-yard run by Dawson, who took the ball on a pitch-out by Dorset and cut around right end. Dean's placekick for the tying point was no good.

Nine minutes later, Stuart Young, one of two brothers playing at guard for Dartmouth, broke through and recovered a fumble by Dawson on Cornell's 21-yard line. Pensavalle and

another substitute halfback, O'Brien, moved the ball fourteen yards in five plays. Sullivan pitched a pass to Armstrong for a touchdown, and Carey converted to make the score 14-6.

Cornell drove to midfield, principally on Dorset's pass to Rogers, good for twenty-one yards, but Dartmouth's line stopped the march.

Early in the final period, Dartmouth put on a sustained march of fifty-eight yards, from Dartmouth's 24 to Cornell's 18. There Fitkin, another of Dartmouth's reserve backs, fumbled. Dawson, whose fumble had led to Dartmouth's second touchdown, recovered the loose ball. Dorset tried a pass on first down. It didn't work. Truncellito, another substitute back, intercepted and returned to Cornell's 6-yard line. O'Brien headed for left tackle, hit a pile of players, and caromed off and into the end zone. Carey converted.

Dean replaced Dorset at quarterback and launched a final air offensive. His first two passes were dropped, the first by Dawson, in the clear; the second by Carey, who had an interception in his hands. Then Dean connected with Harry E. Cassel '50, who had earned the starting assignment at left end. Another pass wound up in a ruling of interference, and Cornell had the ball on Dartmouth's 45. Dean tried another pass. Chapman, Dartmouth's left halfback, tipped the ball and helped Cassel make another catch for a first down on Dartmouth's 10-yard line. Cornell drove to the 4-yard stripe and lost the ball on downs.

Dartmouth kicked out to the 35-yard line, and Dean went back to pass. He could locate no receiver and elected to run. The maneuver brought a first down on Dartmouth's 18. On the next play, with ten seconds to go, Dean whipped a pass to Matthew J. Bolger '48, reserve left end, who scored. Dean placekicked the point.

Cornell picked up 144 yards rushing to Dartmouth's 112 and completed nine of twenty-three passes for 166 yards. Dartmouth's five completed passes netted fifty-one yards.

The Dartmouth victory tied the series at fifteen wins apiece. One game ended in a tie.

Syracuse Wins J-V

JUNIOR VARSITY eleven lost its first game in four contests in Archbold Stadium, November 7, as Syracuse scored two touchdowns in the fourth period to win, 20-13.

Cornell opened up a 13-0 lead in the first period. James L. Smith '50, center, intercepted a pass and ran fifty-five yards for a touchdown, with Warren J. Gerhart '49, left tackle, converting the point. Ralph R. Barnard

'49, right halfback, set up the second score with a sixty-three-yard run, and Thomas V. Gargan '50, left halfback, threw a scoring pass to Eugene J. Hummer, Jr. '50, a substitute end.

Syracuse picked up a touchdown in the third period on forward passes. In the fourth period, Syracuse capitalized on two Cornell fumbles. The first was recovered on the Cornell 13, the second on the 22. The touchdowns were scored on passes, as were the 2 points after touchdowns. All the passes were thrown by Serafin, a substitute halfback.

Frosh Beat Orange

FRESHMAN team went to Syracuse November 14 and handed the Orange freshmen a 32-0 defeat. Cornell scored three touchdowns in the second period and two in the fourth. First to score was Jeff R. Fleischmann '51, fullback, on a four-yard buck. C. Russell Schuh '51 climaxed an eighty-three-yard drive with a five-yard scoring run off tackle. The third touchdown came on a pass from Bert-ram Lebharr III '51 to Lyndon C. Hull '51. Paul K. Clymer '51 accounted for the fourth touchdown on a one-yard reverse, and Lebharr threw a pass to Jere I. Klivansky '51 for the final score. Hull's placekicking accounted for two conversions.

Lightweights End Season

THE 150-pound football team completed its Eastern Intercollegiate 150-pound Football League campaign with two more losses, to Princeton, 6-0, on snow-covered Alumni Field, November 8, and to the US Naval Academy, 31-0, on Schoellkopf Field, November 15. By its victory, the Naval Academy successfully defended its championship with four straight victories, and one game left to play.

Cornell ended the five-game season with one victory (over Pennsylvania, 9-6) and losses to Villanova, 6-0, Rutgers, 19-0, and Princeton and the Naval Academy. Lafayette and Yale, the other League members, did not enter teams this year.

Princeton defeated Cornell on a ninety-yard run, despite treacherous footing, by Lowry, a reserve halfback. In the second half, Rocco J. Lapenta '50, a lineman, recovered a fumble in mid-air and ran forty-five yards for what appeared to be the tying touchdown, but the referee ruled that the play occurred after the whistle.

Cornell was no match for the Naval Academy, which used three complete teams. The first team scored three touchdowns; the second team, two. The running of Richard Corwith '50 earned Cornell its three first downs.

Cross Country Ends

CROSS COUNTRY team closed its season by competing in the Nonagonals at Princeton, November 8, and the Intercollegiates at Van Cortlandt Park, New York City, November 17.

Cornell finished ninth and last in the Nonagonals, with the US Military Academy the winner with 59 points. Other scores: Pennsylvania 70, Columbia 87, Yale 104, Dartmouth 125, Princeton 148, US Naval Academy 161, Harvard 162, and Cornell 189. Hart of Pennsylvania won the five-mile race in 27:06. Donald C. Young '48 finished tenth in 28:18. Other Cornell scorers were Harry W. Daniell '51, in 31st place; Robert C. West '51, 43rd; John W. Mellor '50, 52nd; and William S. Gere '51, 53rd.

In the Intercollegiates, Cornell finished twenty-first in a field of twenty-six teams, with Manhattan taking the team title and Black of Rhode Island State winning the individual title over the five-mile course in 25:37.1. Young, the first Cornell runner to finish, was in 46th place. The other scorers were Daniell, West, Mellor, and LeRoy C. Norem '48.

Cornell's Freshman harriers placed twelfth among seventeen teams, with Manhattan the team victor. Ellis of NYU paced the field over the three-mile course in 15:39.4. Donald A. Pendleton '51, the first Cornell runner over the line, was thirty-fifth. Other scorers were William P. Killian, Daniel A. Nesbitt, Henry P. Henriques, and Robert C. Mealey.

Soccer Still Scoreless

FOR the third straight game, the Varsity soccer team failed to score and lost to the US Military Academy, 1-0, at West Point, November 15. The Academy's winning goal was scored in the third period when Ruddy, inside left, booted a rebound. Bruce E. Care '49, goal guard, had just made a good save, but he was flat on the ground when Ruddy capitalized his scoring chance.

Freshman soccer closed its season with three November victories, for an over-all record of four wins and two losses. Both defeats were by the Sampson College varsity. The team defeated Ithaca College, 2-1, on Alumni Field, November 5; Colgate by the same score at Hamilton, November 7; and Syracuse, 3-0, on Alumni Field, November 14. Derr I. Derr '51 and Rafael E. Madriz '51 scored within two minutes in the third period of the Ithaca College game. Derr also scored against Colgate, along with Vincent E. Calbick '51. Against Syracuse, Derr counted twice, with James F. Ballew '52 scoring the third goal.

Books

By *Cornellians*

Bromfield Stories

Kenny. By Louis Bromfield '18. Harper & Brothers, New York City. 1947. 219 pages, \$2.

The three short pieces which make up this book are "Kenny," a fine story of life on the farm; "Retread," in which a World War I hero returns to the France of World War II and the scene of his early conquests, both military and amorous; and "The End of the Road," which recounts the rise and fall of Jane Trenoir, an ambitious beauty of Nazi sympathies.

Books By Freund '29

Easter Island. By Philip Freund '29. Beechhurst Press, New York City. 1947. 221 pages, \$2.50.

This is the best of the author's seven novels (he has also written three volumes of short stories, three short plays, a "fantasy," and a book of literary criticism). It is romantically set in God's remotest acre: "Easter Island, alone in almost five thousand miles of open water, the vast landless South Pacific," just before the outbreak of World War I, and concerns a mere handful of well-assorted characters. James Alquist is twenty-two, a Cambridge student of anthropology, blond, with pale green eyes. His antagonist is the mysterious Senor Perez, a Peruvian of sadistic appetites and doubtful calling. The girl, Hine, is tall, beautiful, of pure Polynesian strain. The Island's English exile, William Brown, acts as chorus to the melodrama, which ends in screaming, moonlit death.

Freund makes admirable use of Vice-Admiral Graf von Spee's German Pacific fleet, which might easily have touched Easter Island before its rendezvous with the British at Coronel and the Falklands.

How to Become a Literary Critic. By Philip Freund '29. Beechhurst Press, New York City. 1947. 200 pages, \$3.00.

Apart from its pretentious and inaccurate title, this is a rewarding group of essays on Fielding (chiefly Tom Jones, which is probably Freund's favorite novel in all literature, and not a bad choice at that), Melville (with deserved emphasis on Billy Budd), Hardy, Conrad, and D. H. Lawrence. Freund's reading plan of twenty-four books is a good one.

Early Mariners

Ancient Greek Mariners. By Walter W. Hyde '93. Oxford University Press, New York City. 1947. 360 pages, \$5.00.

This book is not merely an account of the geographical discoveries of the ancient Greeks, as the title might indicate. It is virtually a history of the sea in ancient times, telling of the predecessors of the Greeks in the Mediterranean (such as the Egyptians, Cretans, and Phoenicians) and the mariners who sailed after them, including the great explorers of North and South America.

The Greek portion highlights the adventures of Odysseus and the Homeric geography in the Mediterranean. In an epilogue, an estimate is given of the value of Greek navigation.

Annotated from ancient and modern authorities, illustrated with maps, and containing a bibliography and index, this work is a rare treasure for a scholar's library. Dr. Hyde is emeritus professor of Greek and ancient history at the University of Pennsylvania and was instructor in Greek at the University, 1909-10. He dedicates this book to his sister and his brothers, Howard E. Hyde '00 and Roger D. Hyde '08.

Plato and Milton

Plato and Milton. By Irene Samuel '35. Cornell University Press, Ithaca. 1947. 193 pages, \$2.

Volume XXXV of Cornell Studies in English, edited by Professor Lane Cooper, English Language and Literature, Emeritus, Plato and Milton is dedicated to Professor Cooper by his former pupil, who is now an instructor in English at Hunter College. Miss Samuel shows that the works of Plato were "not merely a source, but a stimulant to Milton, and acted as a catalytic agent on the heterogeneous materials of pagan, Biblical, and Christian learning in his mind."

Boston Family

Beacon Hill Children. By Elizabeth Rhodes Jackson '97. L. C. Page & Co., Boston, Mass. 1947. 218 pages, \$2.50.

This is a story about three children, Dee, Jack, and Beany Corey, of Boston, and their dog, Reginald, who is a very important character in the story. They have many exciting adventures, as told by Dee, including the time Beany wins a sailboat race with only he and Reginald, the dog, as crew. Beacon Hill Children will interest and appeal to readers of all ages.

—G.K.S. (age 14)

White Advises Founder

A LETTER written from London by President Andrew D. White to Ezra Cornell, July 3, 1868, announcing that White had persuaded Professor Goldwin Smith of Oxford and James Law of Belfast to join the Faculty of the new University, is the property of Miss Julia Law, Dr. Law's daughter, who lives in Ithaca.

President White wrote the Founder jubilantly of Law's outstanding qualifications to be the first Professor of Veterinary Medicine and Surgery, the terms on which he had agreed to come to Cornell, and that "he will sail with his family in August." Then the letter continues:

Be very careful or it will be noised abroad that I am the "practical man" of the concern!! And one thing more; don't, I beg of you, put up your new building without regard to architectural style or position. I have thought much of this recently, while inducing men to leave many attractions elsewhere and go to our institution. The place where we are must be made beautiful and attractive. Nothing should be allowed to injure its symmetry or mar its beauty. Make it beautiful, as we can easily do with no great additional outlay, and best of scholars and thinkers will gladly come to us, but make it rough and unsymmetrical and we shall gradually find that we can get the best men only by paying extravagant prices and that even then they can be easily called away from us, and I say again now that if you erect in a slightly position on our grounds a great staring workshop it will, I am satisfied, be a mistake in many ways. Don't go too far with it before I see you, which will in all probability be before the end of July.

Finally, I had almost concluded to telegraph by cable the news of the engagement of Goldwin Smith and James Law, that you might at once give the news to the Associated Press, but have concluded to send by mail.

It is of such importance, however, and Goldwin Smith especially is so beloved and honored by our Citizens for the noble stand he took during our Rebellion (you remember that a public dinner was given him in New York), that I think you would do well on receiving this to telegraph at once to Associated Press that I have engaged Goldwin Smith as Professor of English History and James Law of Belfast as Professor of Veterinary Surgery in Cornell University. I think the above a far more important and interesting piece of news than most which go over the wires, and it would be worth much to us as it would meet the eyes of a million people.

And now get the faithful band of good men and true together; McGraw, A. B. Cornell, Schuyler, Boardman, Andrus, Finch and above all don't forget Selkreg for I want him to "deacon out" the most triumphant hymn he knows and after you have sung it to the most jubilant tune you know, go to work with renewed vigor. I am not of the over-sanguine kind, and as you know have often been obliged to restrain your youthful ardor, but I tell you all seriously that we are to succeed beyond anything we have dreamed of!

And I tell you, all of you, that by attaching our names to the Cornell University by good work in building it we shall gain a name and fame beyond that of nine tenths of the great politicians who make much noise and are then forgotten, since

they leave nothing worth remembering. It is so here in England and it is so in America. The men who have labored in such work as we are engaged in have been remembered when kings and rulers were forgotten.

The above is the sermon to follow Selkreg's hymn and a more true sermon was never preached.

Tell Finch that I am getting ideas together for a library building and that my plan is a good one and that he will say so when he sees it. What we are to do with our books, etc. it is hard to tell. We have already enough to fill a large building.

Sincerely yours,
A. D. White

Alumni Mayors

THREE alumni were elected mayors of New York State cities last month. They are Bert T. Baker '97 of Ithaca, Herbert A. Warden '02 of Newburgh, both Republicans; and Max J. Miller '13 of Ogdensburg, Democrat. Additions to the list of mayors are welcome.

Rochester Clambake

CLAMBAKE of the Cornell Club of Rochester attracted ninety alumni and wives to the Brooklea Country Club, October 9. Kenneth G. Haxtun '10 presided; songs were led by Joseph W. Alaimo '31, with George S. Babcock '16 at the piano.

Essex County Smoker

EIGHTY members of the Cornell Club of Essex County, N. J., enjoyed a smoker October 22 at the Montclair Dramatic Club. President Vincent deP. Gerbereux '24 introduced William F. Stuckle '17, past-president of the Federation of Cornell Men's Clubs, and the guest of honor, basketball Coach Royner C. Greene, who showed movies of the Cornell-Colgate football game, and discussed University athletics. Songs were accompanied by Carl Schraubstader '23 at the piano.

Philadelphia Elects

AT the annual meeting of the Cornell Women's Club of Philadelphia, Pa., following dinner at Whitman's Restaurant October 22, Mrs. Glenn R. Morrow (Dorrice Richards) '20 spoke on the League of Women Voters. More than forty members attended. They elected Mrs. George Kelso (Mary Perrell) '31, president of the Club; Mrs. William F. Stotz (Anna Hoehler) '23, vice-president; Mrs. Thomas W. Hopper (Helene Miner) '29, corresponding secretary; Edith T. Loux '10, recording secretary; Elizabeth T. Warner '23, treasurer; and Mrs. Samuel S. Evans (Ella Behrer) '27 and Mrs. William Slimm (Mildred Hiller) '25, directors.

Mummies Meet Again

RENEWING their pre-war custom of annual reunions, the 1916 Mummy Club returned to Ithaca for the Navy game and a banquet at the Victoria Inn. Present with their wives were J. Mark Chamberlain, Carlton P. Collins, Julian A. Fay, Samuel E. Hunkin, Edward S. Jamison, George W. Rapp, Hamilton Vose, Jr., and Class President Murray N. Shelton; also Trustee Horace C. Flanigan '12, University Vice-president Robert A. Doyle '14, and from the Class of '18, Edwin P. Doerr, Frederick M. Gillies, Richard P. Matthiessen, and P. Paul Miller. Guests also were Mr. and Mrs. Herbert J. Adair '15, Mr. and Mrs. Edward E. Anderson '17, John A. Krieger '48, president of the undergraduate Mummy Club, and Jack M. Cudlip '46.

Train for China Service

US STATE DEPARTMENT has sent three foreign service officers destined for China here for area and language training in Chinese. They are in the Graduate School for a year's course in the modernization of China, another in Far Eastern economics, a seminar in current Chinese problems, and other area studies, as well as intensive study of the Chinese language.

Robert A. Aylward, graduate of Dartmouth, has had no previous training in the language, but served in the AAF in China for more than a year. His wife is studying Chinese with him. John M. MacDonald, a Yale graduate, lived in China from 1935-37, teaching in Tungchow. John M. Farrior was born and lived in Chinkiang, China, later coming to America and graduating at Davidson College. The three families live together in a big house in East Ithaca, where they converse in Chinese. After they leave Cornell they will spend another year studying Chinese in the foreign service officers language school

in Peiping before they receive their diplomatic assignments.

Also majoring in Chinese this year is an Air Corps lieutenant colonel, Robert L. VanAusdall '48, who served in China during the war and hopes to return there for diplomatic work. Like many regular-Army officers, he is sent here to complete his undergraduate career.

Westerners Gather

CORNELL Club of Northern California met for lunch at the Commercial Club in San Francisco, November 5, with twenty-two alumni attending, including seven for the first time. President Lewis R. Hart '16 introduced Robert L. Whiteside of the Personology Foundation, who spoke on "How We Vary as Individuals." Plans were made for a joint meeting of Cornell and Pennsylvania alumni, November 25.

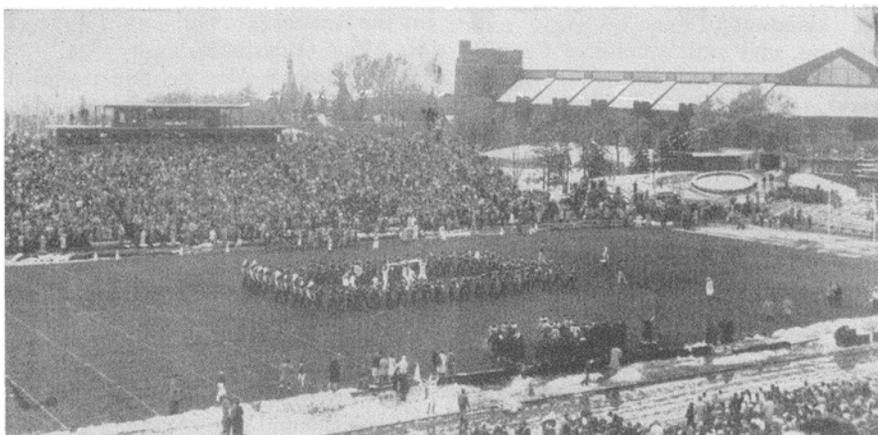

Alumni at Brown

TWO Cornellians have been appointed to the faculty of Brown University at Providence, R. I., and a third has received a promotion there.

Arne Wikstrom, PhD '34, has been named professor of electrical engineering at Brown. During the last nine years, he has been a consulting engineer for the US Navy Department in Newport, R. I., and Washington, D. C., and later aided in research and development at the Navy electronics laboratory at San Diego, Calif.

New assistant professor of electrical engineering is Paul S. Symonds, PhD '43. He has been a physicist at the US Naval Research Laboratory, and at Brown will devote part time to teaching in the graduate division of applied mathematics. Mrs. Symonds is the former Ilese Powell '42.

K. Roald Bergethon, PhD '45, who joined the division of modern languages at Brown last year as an instructor, has been promoted to assistant professor of German.

SCHOELLKOPF FIELD, SNOWBANKED FOR SYRACUSE GAME

More Delegates

OFFICIAL DELEGATE of the University at the inauguration of Walter A. Groves as president of Centre College of Kentucky, November 15 at Danville, Ky., was Professor William D. Funkhouser, PhD '16, of the University of Kentucky.

Ruel E. Tyo '27 represented the University at the inauguration of Harry C. Fox as president of Findlay College, November 19, at Findlay, Ohio.

Professor Donald A. MacRae, PhD '05, of the Osgoode Hall Law School, Toronto, Canada, was the University's delegate at the installation of Vincent Massey as chancellor of the University of Toronto, November 21.

New England Odyssey

GENERAL Alumni Secretary Emmet J. Murphy '22 and Professor Blanchard L. Rideout, PhD '36, assistant Dean of Arts and Sciences, met with alumni of Cornell and Dartmouth at Kapp's in Rensselaer, November 13. Toastmaster David B. Andrews '33 introduced the Campus emissaries; Murphy spoke of the splendid relations between the two institutions and described a movie film of 1946 football highlights.

Next day, Murphy and Rideout visited Deerfield Academy, where Rideout interviewed a dozen candidates for next year's Freshman Class and met Charles H. Baldwin '24 and Roland H. Cook '27 of the Deerfield faculty. In Hanover, November 15, Rideout interviewed thirteen pros-

pective Cornellians at Clark School, of which Frank M. Morgan '09 is headmaster. "Having noticed in the papers that Cornell was playing Dartmouth that day," they report, "and being in the vicinity," they attended the game.

Athletics

(Continued from page 185)

HARVARD will play football on Schoellkopf Field October 9, 1948, its first such visit here since 1896.

Cornell's first organized fall lacrosse practice closed November 6. From ten to thirty players attended the drills for several weeks under Coach Ray Van Orman '08, who was relieved of football duties to give this fall instruction.

Arthur B. Boeringer, football line coach, will coach the hockey teams, succeeding the late Nicholas Bawlf. Boeringer was in charge of last year's squad in its late games. He played hockey at Notre Dame before his graduation in 1927 and coached the sport at the University of Detroit for eight years.

Cortland Polo Club defeated Cornell, 17-13, in the Riding Hall, November 8, with Dr. Clarence C. Combs '39 scoring 10 goals for Cortland. Hugh Dean '49 was Cornell's top scorer with 4 goals.

Cover of the Syracuse game program is by Warren A. Ranney '29, and the program contains an editorial and picture of the late Coach Nick Bawlf, "Anniversary Story" by Glenn S. Warner '94, and an essay on "Football from the Clouds" [radio] by Romeyn Berry '04. This year's four distinctive home-game programs are obtainable from the Athletic Office, Schoellkopf, at thirty-five cents each.

Women's Clubs at Work

ASSISTANT Alumni Secretary Pauline J. Schmid '25 was guest speaker at an evening meeting of the Cornell Women's Club of Fulton-Montgomery Counties, November 4 at the Amsterdam home of Mrs. Morris Stone (Rosalie Boblasky) '31.

November 6, Miss Schmid attended a dinner meeting of the Cornell Women's Club of Boston, Mass., at the Pioneer Hotel.

In Albany November 7 and 8, Miss Schmid was guest at a dinner meeting of the executive committee of the Cornell Women's Club of Albany, at the home of Mrs. Peter C. Gallivan (Margaret Kelly) '24, and a luncheon meeting of the Club at The Turnpike in Guildersland, with members of the Schenectady and Troy Clubs.

Miss Schmid also attended a meeting of the Cornell Women's Club of

Cayuga County, November 10 at the Auburn home of Mrs. Stanley Ridley (Carol Worden) '38.

Long Island Women

TWENTY members of the North Shore Cornell Women's Club of Long Island met October 28 at the Port Washington home of Mrs. Frederick E. Schmitt, Jr. (Ethel Bache) '31. President Anita R. Minkin '39 introduced Albert E. Griffiths '33, plant pathologist in the technical service laboratories of Socony Vacuum Co., who gave an illustrated talk on "New Developments in Horticulture." Mrs. Griffiths (Lucy Walker) '31 is a member of the Club.

Coming Events

TUESDAY, DECEMBER 2

Mamaroneck: Assistant Alumni Secretary Pauline J. Schmid '25 and Margaret C. Hassan '32, Office of Admissions, Club meeting, High School Cottage

SATURDAY, DECEMBER 6

Ithaca: Basketball, Bucknell, Barton Hall, 8

MONDAY, DECEMBER 8

Boston, Mass.: Head Coach George K. James at Cornell Club smoker, Engineers' Club, 8

TUESDAY, DECEMBER 9

Ithaca: University concert, Buffalo Philharmonic Orchestra, Bailey Hall, 8:15

Wilmington, Del.: Director of Admissions Herbert H. Williams '25 at Cornell Club dinner, DuPont Country Club, Springfield, Mass.: Coach James at Cornell Club dinner

WEDNESDAY, DECEMBER 10

Ithaca: Basketball, Niagara, Barton Hall, 8

Washington, D. C.: Herbert H. Williams '25 and Alumni Field Secretary R. Selden Brewer '40 at Cornell Club Schoolboy party, Dodge Hotel, 8
New Haven, Conn.: Coach James at Cornell Club smoker

THURSDAY, DECEMBER 11

Mineola: Coach James at Cornell Club smoker

FRIDAY, DECEMBER 12

New York City: Class of '12 Interim Reunion, Cornell Club, 6:30

Baltimore, Md.: Herbert H. Williams '25 at Cornell Club Meeting

Short Hills, N. J.: Director Robert J. Kane '34, Coach James, and R. Selden Brewer '40 at Cornell Club smoker, Baltusrol Golf Club, 8:15

SATURDAY, DECEMBER 13

Ithaca: Basketball, Colgate, Barton Hall 8

MONDAY, DECEMBER 15

Ithaca: University concert, Walden String Quartet, Willard Straight Theater, 8:15

TUESDAY, DECEMBER 16

Ithaca: University concert, Walden String Quartet, Willard Straight Theater, 8:15

Philadelphia, Pa.: Professor Dexter S. Kimball speaks at 70th Anniversary luncheon, Engineers' Club

On The Campus and Down the Hill

"Autumn Weekend" November 8 had fifty houseparties, shows by the Dramatic Club and Savage Club, and a Barton Hall formal presided over by Claude Thornhill and his orchestra. Student members of YASNY (You Ain't Seen Nothing Yet) did an excellent job of transforming the big drill hall into an "Autumn Nocturne."

Pi Delta Epsilon, honor society in journalism, published for the weekend a twenty-page souvenir program principally devoted to a reprint of Romeyn Berry's "Cornell Calendar" in the book, *Our Cornell*. An editor's note identified Rym as "one of the most beloved and widely read of all Cornell authors." The program was published not-for-profit at ten cents.

The Sun, before the Syracuse game, promised a "mystery woman" cheerleader. Three of the regular squad appeared dressed in wigs, shirts, and amply-padded sweaters.

Cornell Era, "one of the only two college pictorials in existence" is now patterned after *LIFE* magazine. October issue pictures the life of a Varsity football player, based on an interview with Kenneth L. Stofer '43. New editor-in-chief is Robert A. Dreher '45 of Brooklyn; Martin H. Hummel, Jr. '48 of Bloomfield, N. J., is managing editor.

Campus Conference on Religion, arranged by CURW November 16-18, concerned the question, "How's Your Frame of Mind?" First session was addressed by Dr. Harry M. Tiebout, head psychiatrist at Blythewood Sanitarium and formerly assistant professor in the Medical College. The Rev. Paul Weaver, Sage Chapel preacher November 16, and other visiting authorities led discussions in Barnes Hall, Willard Straight, and seventy fraternities and dormitories.

Student photographs were exhibited in the Willard Straight gallery, November 16-22. Grand prize was won by Wolf Karo '46 of Utica for his portrait of two students examining a photographic nude; Karo's title: "Les Connoisseurs." First prize in the action class went to *ALUMNI NEWS* photographer Lawrence R. Bollinger '45 of Friendship, for his picture of Norman Dawson '46 catching a pass on Schoellkopf Field in the 1946 Yale game; this picture appeared on the November 15, 1946, cover of the *NEWS*.

Bollinger's pictures also won two other prizes. Judges were Professors Frederick G. Marcham, PhD '26, History, and Elmer S. Phillips '32, Extension Teaching and Information, and Fred J. Nisbet, Grad, of Newtonville, Mass.

Morrison Prize of \$100 for the best original poetry by an undergraduate has been re-established, after an eighteen-year hiatus, by Professor Morris Bishop '14, Romance Literatures, who himself won the Prize in 1913, and recalls that "it was a great encouragement to me then." The Prize was founded in 1909 by the late James T. Morrison, a retired merchant of Ithaca and the father of the late William H. Morrison '90 and Maurice Morrison '97. It was not awarded in 1910 or 1911, but next year Earl Simonson '12 became its first winner. Other winners include Jacob Gould Schurman, Jr. '17, Professor James Hutton '24, Edith D. Horton '13, and two children of Professor Walter F. Willcox, Mary G. Willcox '23 and William B. Wilcox '28. Bishop has endowed the Prize for five years.

The Sunday Observer has "suspended publication for the fall term," according to editor Harold M. Guzy '46 of South Orange, N. J. One issue appeared, October 26.

Dance Observer for October contains a review of the Cornell Dance Club's concert last May, written by Mrs. Lois O'Connor, Assistant Director of Public Information. Photographs of the concert were exhibited in the studio of University Station WHCU, November 17-30; they were taken by Marion Wesp and Gordon Buzzell, whose pictures appear frequently in the *ALUMNI NEWS*.

"INTELLIGENCE" column by Emerson Hinchliff '14 in the *Alumni News* of October 1 was quoted in *The New York Times*, November 13. "Topics of the Times" picked up Hinchliff's comments on the new Cornell degree of Doctor of Education, without the requirement of a foreign language. Author of this *Times* editorial-page column has been mentioned thus by Franklin P. Adams: "The two best writers in this nation write anonymously: Mr. E. B. White [21] of *The New Yorker*, and Mr. Simeon Strunsky, the *Times*' Topicker."

Signs of the times in *The Cornell Sun*: "Wanted, passengers to New York City. I drive to Westchester on week ends. Leave Sat. noon, return Sunday midnight. . . ." "Fly home for Thanksgiving. Room for 2 more passengers. Will fly to New York or any town within 75 miles of New York, south, east, north, or west. . . ."

"Graduate student and bride-to-be looking for small furnished apartment after Christmas. No baby, no friends, no dog, quiet clock. This ad is our last hope before taking poison."—from the *Ithaca Journal* agony columns.

Alpha Delta Phi team won the Thanksgiving turkey in the annual intramural crosscountry meet.

Binghamton Press carried a full page feature October 24, "New Look Comes to Cornell Campus, Making Coeds Look Like Women Again," by Dorothy Donnelly. The new fashion was illustrated with pictures of five Binghamton students taken on the Campus: Martha Smith '48, Shirley R. Nagler '49, Barbara L. Correll '49, daughter of Mrs. A. G. Corell (Helen Smith) '22, Marilen R. Tarleton '50, and Carol J. Buckley '51.

Ditch cave-in on the construction of the Laboratory of Nuclear Studies above Forest Home Road recently caused the death of a young plumber, Joseph W. Kinney of Dresden. He had started working on the project the same day.

Yves Tinayre, French baritone, presented two recitals of his specialty, medieval sacred and secular music, in the Willard Straight Memorial Room last month. He also sang, accompanied by a quintet from Wells College, for Professor Donald M. Grout's course on "The Art of Music," shifted for the occasion from Goldwin Smith Hall to the Straight; and appeared as soloist with the Sage Chapel Choir, November 16.

Recital by Marylee Myers '44, soprano, was enjoyed November 23 in the Willard Straight Memorial Room. The artist, graduated "with distinction in Music," is the daughter of the late Professor Clyde H. Myers, PhD '12, Plant Breeding, and Mrs. Fleda Straight Myers, Grad '10-11, and the wife of John C. Osborn, a Law student who is the son of Mrs. Robert C. Osborn (Agda Swenson) '20 of Ithaca.

The Faculty

President **Edmund E. Day**; Deans **E. Lee Vincent**, Home Economics, **S. C. Hollister**, Engineering, and **William I. Myers '14**, Agriculture; with Agriculture Directors and staff members, attended the annual meeting of the Association of Land-grant Colleges in Washington, D. C., November 10-12. Dean Vincent discussed research on child development and family relationships; Professor **Catherine J. Personius, PhD '37**, "The Administrative Organization of Home Economics Research at Cornell;" and Professor **Frances A. Scudder '24**, Extension, reported on a Home Bureau study in Chemung County.

Poll conducted by Forbes Magazine included University Trustee **John L. Collyer '17**, president of The B. F. Goodrich Co., and Former Trustee **Walter S. Carpenter, Jr. '10**, president of E. I. duPont de Nemours & Co., among the fifty foremost business and industrial leaders of the United States. Both received citations from Forbes Magazine.

Director **Charles R. Burrows**, Electrical Engineering, is chairman of the Panel on the Upper Atmosphere for the Research and Development Board. He met with the Panel in Washington, D. C., November 7, after attending sessions of the National Electronics Conference and the Midwestern convention of the American Institute of Electrical Engineers in Chicago.

With Herbert Hoover, one of the two honorary members of the Engineers' Club of Philadelphia, Pa., Professor **Dexter S. Kimball**, Engineering, Emeritus, will speak at the seventieth anniversary luncheon of the Club, December 16, as he has the Tuesday before Christmas for twenty years. The next day, December 17, he will speak at a dinner of the Philadelphia branch of the Cornell Society of Engineers. Again this fall, for the fifth year and with 300 officer-students, Dean Kimball is giving his series of ten weekly lectures on industrial management at the graduate school of the US Naval Academy at Annapolis, Md.

T. Motyleva, a Soviet literary critic, writing in the Soviet newspaper *Izvestia* to attack American students of Russian literature, singled out Professor **Ernest J. Simmons**, formerly chairman of Slavic Languages and Literatures now at Columbia, as an enemy of the Soviet Union, according to Joseph Newman of the New York Herald Tribune.

Professor Simmons was castigated for his Outline of Modern Russian Literature, published by the Cornell University Press in 1943. Miss Motyleva asserts that he debased and slandered Soviet writers.

Counselor of Students **Frank C. Baldwin '22** discussed the large university at a "Career Clinic," November 13 in Victor Central High School. The clinic was attended by students from six high schools in the Victor area.

Certificate of commendation in recognition of his contributions to the Naval electronics program during World War II has come to Professor **Lloyd P. Smith, PhD '30**, Physics, from the US Navy Bureau of Ships. An accompanying letter from Vice Admiral E. W. Mills, USN, chief of the Bureau, cites him for "outstanding research during the war as associate director of the research laboratories of the RCA Laboratory Division at Princeton, N. J., and for contributions to the development of a new technique for frequency modulated magnetrons "which were of vital importance to the Naval electronics program." Professor Smith is chairman of a National Research Council committee to study and stimulate research in phenomena connected with matter in the solid state. October 11, he presented a paper on the new Cornell program in Engineering Physics at a meeting of the American Society for Engineering Education at the University of Massachusetts, in Amherst.

"Unlocking Secrets of the Northern Lights," by Dr. **Carl W. Gartlein, PhD '29**, director of the National Geographic Society-Cornell University Study of the Aurora at Cornell, appeared in the November issue of the National Geographic Magazine. With the aid of grants from the National Geographic Society, study of the aurora has been going on at the University for the last eight years. The principal observatory is at Professor Gartlein's home several miles north of Ithaca, away from the city lights and where he and Mrs. Gartlein (Helen Hart) '28 can attend to the instruments during the evening and night. Scientists at Colgate and at Oslo, Norway, and many professional and amateur observers in the United States and Canada are cooperating in the work, which is closely followed by the National Bureau of Standards, the US Coast and Geodetic Survey, and the department of terrestrial magnetism of the Carnegie Institution of Washington, D. C. This study is important since the same showers of particles from the sun that produce

the aurora also cause magnetic storms which hinder or make impossible radio, telephone, and telegraph communications.

Dean **Martin P. Catherwood, PhD '30**, Industrial and Labor Relations, spoke on "New York Means Business" before the Industrial Club of Utica, December 11.

Dr. **Erich von Kahler** of Princeton is lecturer in German Literature at the University this term. Author of a number of historical and philosophical studies, including *Man the Measure: A New Approach to History*, and an editor of *Die Neue Rundschau*, the leading German literary journal, he is lecturing on contemporary German literature and will give a series of public lectures on "The Crisis of the Individual."

Thirteen paintings by Professor **Norman D. Daly**, Fine Arts, were exhibited in a one-man show at the Durand-Ruel Galleries in New York City, October 4-November 8. Reviewing the exhibit in *The Art Digest* for October 15, Judith Kaye Reed stated: "Daly paints well-designed and rich, but subtly colored compositions, based on American Indian themes," and later, "Aside from Daly's unusual gift of projection, which enable him to re-interpret an ancient and alien culture without condescension, the works also reveal fine observation of movement and excellent feeling for color and design."

A picture-article on the effects of parental quarrels on children entitled "Please Stop Fighting" by Toni Taylor in collaboration with Professor **Ethel B. Waring**, Child Development and Family Relationships, appeared in the *McCall's* for November.

Professor **Edwin A. Burt**, Philosophy, spoke at convocation day exercises at Elmira College, October 21. His subject was "Intelligence as a World Perspective."

Professor **Arthur A. Allen '08**, Ornithology, spoke on "Birds of the Home Front" at the annual meeting of the Federated Garden Clubs of Connecticut, October 15 in Hartford, Conn.

Columbia University Press published in November "A Short History of Opera," by Professor **Donald J. Grout**, Music. The two-volume "systematic historical survey" contains 711 pages, 123 of which are bibliography.

Mrs. Minnie Clark Dennis, widow of Professor **Louis M. Dennis**, Chemistry, died November 8, 1947, at the

(Continued on page 201)

'98—Eleven '98 men gathered at the Cornell Club in New York, October 28, for dinner and a full discussion of plans for the Fifty-year Reunion which takes place in June, 1948. Andrew Tuck was designated Reunion chairman with instructions to add others to the committee to aid him. In addition to talking about Reunion plans, the many reminiscences of those present and suggestions for aiding Cornell made this an occasion such that many who could not attend will want to be at the next dinner meeting. Those present at the dinner were **Wilton Bentley, Wylie Brown, Edgar Johnston, Frank Keese, Willard Kent, Jerry Kennedy, Andrew MacElroy, Fred Midgley, Isaac Platt, William Smith, Wesley Steele, Andrew Tuck, and Allen Whiting.**

Take notice, all '98 men, that the next dinner will be at the Cornell Club of New York, Tuesday evening April 13, 1948. At that meeting, final plans for the Fifty-year Reunion of the Class will be made. We need your suggestions, so plan to be on hand. There will be only one Fifty-year Reunion, so we should make this an outstanding event to be treasured in the years to come. Start now to make your plans to be in Ithaca next June. Drop a line to Andrew Tuck, 80 Chatsworth Road, Larchmont, N. Y., saying you expect to be at the Reunion and send him your suggestions for any plans you think will add to the occasion—A. J. M.

'01 AB—**Ralph M. Brown**, librarian of Virginia Polytechnic Institute, Blacksburg, Va., since 1925, retired August 31. He also held the title of associate professor. While Brown was librarian, the engineering branch library, the catalog, circulation, and reference departments were organized, the agricultural branch library was reorganized, and many other improvements were made. Brown was formerly librarian of the US Department of Commerce and Labor, chief of the Division of Library and Archives, US Coast and Geodetic Survey, assistant geographical editor for Rand, McNally & Co., Chicago, Ill., assistant reference librarian of the Chicago Public Library, and librarian of State Teachers College, Minot, N. Dak. He is the author of a Bibliography of Commander Matthew Fontaine Maury, American hydrographer and Naval officer, whose book, *The Physical Geography of the Sea* (1855), was the first classic work of modern oceanography. A second edition of the

bibliography, originally published in 1930, came out in 1945. Brown has written VPI bulletins and articles for the William and Mary College Quarterly and *The Raven*, journal of the Virginia Society of Ornithology; has done research on the history of VPI and the agriculture, agricultural science, and education in Virginia from 1820-90. He lives at 1614 East Thirty-fifth Street, Tulsa 5, Okla.

'01 AB; '03 AB—**Louis C. Karpinski**, professor of mathematics at the University of Michigan, Ann Arbor, retired this summer after forty-three years at Michigan. He was made a professor in 1919. Professor Karpinski, who is the author of a Bibliography of Mathematical Works Printed in America Through 1850, recently attended the 5th International Congress of the History of Science at Lausanne, Switzerland. He and Mrs. Karpinski (**Grace Woods**) '03 have six children, all graduates of the University of Michigan.

'03 ME—**Henry A. Rogers** of 3156 East Forty-eighth Street, Tulsa, Okla., has a sixth grandchild, Peter Courtney Evans, born in October. Rogers is a sales representative.

'04 EE—**Roberto J. Shalders** lives at Rua Ivinheima 78, Sao Paulo, S.P., Brazil, S. A. He is a life insurance salesman with Sul Americo Cia. Nac. de Seguros de Vida.

'08 ME, '09 MME—**Mark H. Landis** is president and general manager of Erd Co., Inc., engineering research and development laboratory, 225-233 Ringgold Street, Waynesboro, Pa. He is just completing the production program for an aluminum storm window, known as "Erdco."

'08 ME—**James W. Parker**, president and general manager of the Detroit Edison Co., Detroit, Mich., and recently appointed chairman of a seven-man board of industrial consultants to the US Atomic Energy Commission, was selected for the October 7 broadcast of the United Press radio feature, "Names in the News." Parker is a former Alumni Trustee of the University.

'10 ME—**Thomas H. Farrington** is assistant division engineer in charge of construction and repair for the Public Buildings Administration in Atlanta, Ga. His address is 214-M, PO Federal Annex, Atlanta 3, Ga.

'10 AB—**Harry M. St. John**, superintendent of the Crane Co. of Chicago, Ill., has been awarded the American Foundrymen's Association William

H. McFadden Medal for "outstanding contributions in the field of non-ferrous casting research." St. John lives at 6720 Merrill Avenue, Chicago 49, Ill. His son is **Harry N. St. John, Jr.** '42.

'11 AB—**James S. Elston**, assistant actuary for the Travelers Insurance Co., Hartford, Conn., has been elected vice-president of the American Institute of Actuaries. His *Tice Families in America*, a 320-page genealogy, was recently published.

'12—The Famous Class of 1912 has finally decided to give up its long-established custom of reuning every year. Instead, it will reune *twice* a year! The interim Reunion will be held on 12/12 (December 12, 1947) at the Cornell Club of New York, 107 East 48th St. Dinner will be served with appropriate trimmings at 6:30. Later, **Lee Tschirky's** colored movies of the Thirty-five-year Reunion, held last June, will be shown and other entertainment will be provided. All Twelvers are invited to attend, whether residents of the Metropolitan area or Chungking, China, or any other spot in the world. Reservations for dinner should be sent to **Dale Carson**, 460 West Twenty-fourth St., New York City 11.—D.C.K.

'12 BS—**Edward L. Bernays**, public relations counsel at 26 East Sixty-fourth Street, New York City, addressed the Rochester Ad Club October 30 and the Greater Buffalo Advertising Club October 31 on the subject of the future of American enterprise. Newspapers in both towns featured the talk which urged greater stress by American business on human relations.

'12—**George G. Raymond** recently celebrated his twenty-fifth anniversary as president and treasurer of Lyon-Raymond Corp., Greene. The company was formerly called the Lyon Iron Works and was established in 1840. Raymond's son, **George G. Raymond, Jr.** '43, is secretary and assistant treasurer of the firm. Last March 15 a son, George G. Raymond III, was born to the George Raymond, Jrs.

'13 CE—**Lynn B. Curry, Sr.** is chief of utility engineers in the Bureau of Rates and Research, Pennsylvania Public Utility Commission, Harrisburg, Pa. His address is 34 South Thirteenth Street, Harrisburg, Pa.

'13, '14 CE—**Blinn S. Page** is retired and lives at 1128 Devonshire Road, Grosse Pointe Park 30, Mich.

For once they actually agree!

Hope and Crosby, in the movies, seldom see eye to eye.

But there's one thing they really do agree on—they both think U. S. Savings Bonds make wonderful Christmas gifts!

SAYS BOB: "They're swell for *anybody* on your list. You couldn't pick a nicer, more sensible, more welcome present. Even Crosby knows that."

SAYS BING: "I hate to admit it, folks, but Hope is right. And remember this—you can buy Bonds at any bank or post office in the U. S. A."

BOB AND BING (together): "This Christmas, why not give the finest gift of all—U. S. Savings Bonds!"

Give the finest gift of all ... U.S. SAVINGS BONDS

Contributed by this magazine in co-operation with the Magazine Publishers of America as a public service.

'13—**Richard H. Depew, Jr.** (above) has joined the Frank Ambrose Aviation Co. of Flushing as director of domestic sales. He has been vice-president and general manager of Ludington-Griswold, Inc., Saybrook, Conn. A founder of the Cornell Aero Club in 1909, Depew learned to fly a Farman "pusher" biplane in 1911. When he received an aviator's license from the Aero Club of France shortly afterwards, he was the second youngest licensed pilot in the world. He is still a licensed pilot and is past-president of the Early Birds, an association of pioneer airmen who flew before the first World War. In World War I he was a test pilot and captain in the US Army Air Service. An inventor of several aviation devices, he was selected by the Government to go on a secret technical Intelligence mission to Germany to investigate the German aircraft industry under the joint Chiefs of Staff during the last war.

'14 AB—**Felix M. Frederiksen** has made for many years in Faribault, Minn., a quality grade of blue cheese under the brand "Treasure Cave." For the curing process he uses an extensive system of natural caves.

'15 AB—**Mark H. Stratton** is president of New York Rubber Corp., Empire State Building, New York City 1, which published in 1944 the book, *The Story of the Rubber Life Raft*, by Edgar G. Wandless.

'15 CE—**Alan F. Williams**, formerly lieutenant commander, USNR, is transportation engineer for the California Public Utilities Commission in Los Angeles; lives at 2356 Las Lunas Street, Pasadena 8, Cal. He still officiates at football games in the Pacific Coast Intercollegiate Conference.

'15 BS, '16 MS, '28 PhD; '28 AM, '34 PhD—**D. Spencer Hatch**, who for many years has served with the World Service Department of the International Committee of the YMCA in India and Mexico, has left that organi-

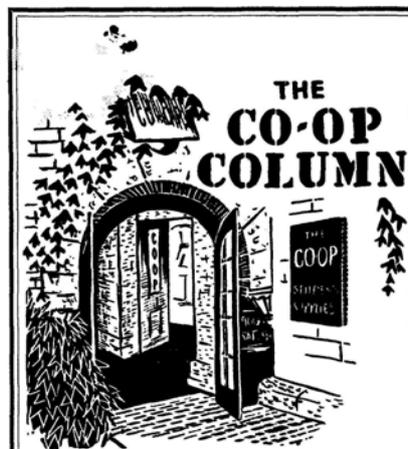

zation to be chief of the division of extension education connected with the new Inter-American Institute of Agricultural Sciences at Turrialba, Costa Rica, under the Pan American Union. Mrs. Hatch is **Emily Gilchrist Hatch**, PhD '34.

'16—**David M. Freudenthal**, vice-president and treasurer of Bloomingdale Brothers, Inc., New York City, has resigned, effective February 1, to become a financial consultant to management. His offices will be at 50 Broadway and he will have Bloomingdale's among his clients. He is a member of the New York City Rent Advisory Board, and a director and treasurer of both the Better Business Bureau, Inc., of New York City and the New York Council on Retail Trade Diversion, Inc.

'16 AB, '25 AM—In the *Annals of the Entomological Society of America*, Vol. XL, No. 2, June, 1947, **John W. Bailey**, formerly a lieutenant colonel with the Information and Education Division, Education Branch, War Department, reports on a survey of the status of the entomological collections in forty-eight European museums which he made in 1945 after the end of hostilities in Europe. Professor of biology at the University of Richmond since 1929, Bailey was commissioned a major in the Army in 1943 and also served overseas with the Public Health Branch of Military Government. His address is 27 Willway Road, Richmond, Va.

'18, '20 AB—**Archie M. Palmer** presented a paper on "Patents and University Research" before the Association of American Universities in Iowa City, Iowa, October 24; spoke on "Industry's Support of University Research" at the annual meeting of the Association of Consulting Chemists and Chemical Engineers in New York City, October 28; and discussed "University Research Foundations" before the Association of Land-Grant Colleges and Universities in Washington, D. C., November 11. Palmer, former executive secretary of the Cornell Alumni Fund, is director of the patent policy survey being conducted by the National Research Council. His office is at the National Academy of Sciences, 2101 Constitution Avenue, Washington 25, D. C., and he lives at 3321 Runnymede Place, NW, Washington 15.

'19 AB—Mrs. **Gladys Gilkey Calkins**, president of the Young Women's Christian Association of the United States since 1943, has been elected a vice-president of the World Council of YWCA. She is the wife of **J. Bird-sall Calkins** '16 and they live at 1112 North Evergreen Street, Arlington, Va.

IT doesn't really seem possible, but here we are, writing a Christmas ad again. Hemmed in as we are by the borders of this column, we can't begin to tell you about our Christmas stock, so we'll just hit the high spots and hope that you will write in for more information.

Cornell Christmas Cards as usual, two sizes, 50c and \$1.00 dozen. Cornell Calendars and Cornell Date Books, \$1.75 and \$1.00, respectively.

Cornell Blankets, Pillows, Mats, Banners and Pennants at all prices. Write for the list.

Cornell Glasses, 6½ oz. and 9½ oz. at \$3.50 doz. 12 oz. and 14 oz. at \$4.50 doz.

Cornell Sport Shirts for juveniles and grown-ups at \$1.29.

Cornell Bookends at \$1.50, \$2.00, \$3.75, and \$9.50.

Cornell Records Albums at \$6.75.

Cornell Seal Rings in all sizes, sterling silver or gold, and Cornell Seal Jewelry of all kinds.

These are just a few of the items which we are offering to Cornellians this Christmas season. A post card will bring you information on anything else that you have in mind.

CORNELL ALUMNI ASSOCIATION
18 EAST AVENUE ITHACA, N.Y.

W. Morgan Kendall, Class Correspondent
32 Argyle Park, Buffalo 9, N. Y.

'19—You have been promised information about your Classmates in this column. Apparently **Bill Emerson** finds your questionnaires so interesting that he has been unable to part with them. With the deadline for this issue at hand, I shall have to confine my news to Buffalo. Forgive me, I did not plan it this way.

Our Cornell Club here, always a live-wire aggregation, is enjoying an unusually active and interesting year. This is due largely to the leadership of **Alfred M. Saperston '19**, the Club president. A leading attorney in Buffalo, Al is a member of the firm of Saperston, McNaughtan & Saperston with offices in the Liberty Bank Building. He resides with his wife and two children at 85 Nottingham Terrace.

Like Al, I have lived in this city all my life. Immediately after graduation I entered the securities business. In the intervening twenty-seven years, it seems to me I have seen everything. Certainly I am rich in experience, an asset which I find to be of questionable value at times. I am rich in some other things too. I have a charming wife whom many of you will recall as "**Happy**" **Parsons '19**, a member of the distaff side of our Class. I also have a lovely daughter, **Patricia '49**, now a Junior at Cornell. The youngster is giving a pretty good account of herself. She is active on the Sun board and is a member of Alpha Phi sorority and Raven and Serpent, the latter being the women's counterpart of Aleph Samach.

Speaking of all these riches, some of the more curious ones among you may be wondering how I have fared in the accumulation of this world's material goods. I can answer that best by confessing that I am one of the twenty-odd members of our Class who have underwritten this Group Subscription and I have been worried to death ever since, lest I be called upon to make good. Consequently, men of '19, rally around the banner and pay your dues in goodly numbers!

'23—Dr. Peter Byron of 40-60 Elbertson Street, Elmhurst, L. I., during last year became an affiliate of the American Proctologic Society, and a fellow of the US Chapter of the International College of Surgeons, and was appointed a clinical instructor in surgery at the New York Medical College, Flower & Fifth Avenue Hospitals. His son is **Herve M. Byron '51** of Arts and Sciences.

'23 AB, '37 PhD—**Wilbur E. Gilman**, chairman of the department of speech at Queens College, Flushing, writes: "After teaching in the Cornell Summer Session, I purchased a house in Flushing and moved my parents from Amsterdam." His address is 57-53 Parsons Boulevard, Flushing.

'23 ME; '24—**Charles F. Kells** and Mrs. Kells (**Mary Klages**) '24, after twenty years in Pittsburgh, Pa., have moved to Douglaston, where they live at 39-01 Douglaston Parkway. They have three children: a daughter, who graduated from college last June; and two sons, one a junior in high school and the other a student in grammar school. Kells is managing director of the Electric Industrial Truck Association. Mrs. Kells was president of the Cornell Women's Club of Pittsburgh.

'24 AB—"Early Morning on the Bowery," a watercolor by **Florence Daly**, was shown in the annual exhibition of the Allied Artists of America, Inc., at the National Arts Club in New York City, October 5-26. A former art teacher at Haverstraw High School, Miss Daly has been freelancing for the last year and recently completed a series of oil paintings depicting scenes of the historical and commercial development of Haverstraw for a businessman there.

'24 ME—**Frederick C. Wood**, son of the late **Augustus Wood '91**, is vice-president of W. T. Grant Co., 1441 Broadway, New York City. His son, **E. Roberts Wood**, is a Sophomore in Civil Engineering.

'25 BS—**Fannie B. Miller** of 413 North Main Street, Elmer, N. J., is a "helping teacher" in Salem County, N. J.

'25 AB—Dr. **Alvin O. Severance** was appointed director of the laboratory and pathologist of the Medical and Surgical Memorial Hospital, 215 Camden Street, San Antonio, Tex., January 15, and January 17 was made consultant in pathology to Brooke General Hospital in San Antonio by the War Department Medical Corps. He lives at 151 Harrison Avenue, San Antonio, Tex. "With my wife and two boys, I recently made a vacation trip to California, where I visited two Cornellians," he writes. "**Frederick R. Hirsh, Jr.** '26 is happily situated in

Pasadena. **Vernon D. Wood '25** is doing nicely as a business consultant. He and his wife, the former **Beatrice Carpenter** of Waverly, N. Y., a graduate of Syracuse University, live in a home charmingly and most interestingly furnished with beautiful furniture made by Wood himself. He has made excellent replicas of outstanding antique pieces, particularly Chinese."

'26 AB—**A. Howard Myers**, former New England regional director of the NLRB, has been appointed chairman of the faculty of the Labor Relations Institute at Northeastern University School of Business, Boston, Mass. Since 1945, when he joined Northeastern, he has also been a labor arbitrator and consultant.

'28 AB, '30 LLB; '20 LLB—October 10, a Dutchess County jury deliberated only forty-one minutes after a three-week trial involving the People of the State of New York vs. **Rosalie Tilt** on a second-degree murder indictment, and acquitted the defendant. This was the first acquittal in Dutchess County in a murder case in more than eighty years. **Nathaniel Rubin** was trial attorney for the defendant and **John R. Schwartz '20** was the presiding Dutchess County judge. Rubin has his law office at 2 Cannon Street, Poughkeepsie.

'29 ME—**A. Churchill Blackman** was appointed June 1 chief of the Division of Industrial Safety, California Department of Industrial Relations, by Governor Earl Warren of California. He has resigned from the Liberty Mutual Insurance Co., with which he had been associated for more than fifteen years, recently in Charlotte, N. C., as district engineer. Blackman and Mrs. Blackman have two daughters, one ten months old and the other four and a half years old. They live at 416 Arballo Drive, San Francisco, Cal.

'30 BS; '31 AB—**Donald B. Saunders** and Mrs. Saunders (**Helen Nuffort**) '31 of 1 Kensington Terrace, Maplewood, N. J., have a daughter, **Mary Elizabeth Saunders**, born September 6. They have three other children: **Judith, Douglas, and Thomas**. The children's grandfather is **Walter Nuffort '00**. Saunders is a statistician with the New York Telephone, 140 West Street, New York City.

'31 CE—**Frank H. Taylor** is now with Sperry Products, Inc., of Hoboken, N. J. He and Mrs. Taylor have a small daughter, **Priscilla Duncan LeClerc Taylor**. Address: Box 124, Fort Lee, N. J.

'35 BS—A third son, **Robert Louis Irving**, was born September 8 to **Frank J. Irving** and Mrs. Irving. The baby's grandfather is **Clarence R. Andrews '08**. Irving, who formerly

Why wait for a Wedding?

It's smart to make your dinner parties champagne dinners—with the sparkle and graciousness that Gold Seal gives.

A wine of great distinction, *Gold Seal Brut* helps make your parties a success. Easier to serve than mixed drinks yet costs about the same.

Fermented in the bottle—the only correct way.

... for a perfect Winter vacation with no vexation —

Pinehurst NORTH CAROLINA

Few resorts have succeeded, as has Pinehurst, in preserving the "gracious way of life"—free from pretense, formality and confusion.

At Pinehurst, golf is a tradition. Here, you can play on world-famous courses that many consider the finest in America—with both you and your game getting a lift from the dry, invigorating climate and clear, bracing pine-scented air. Ride over miles of inviting bridle paths—that wind through groves of pine and dogwood. Tennis on championship courts—or if you prefer, loll

in sunny contentment on the broad porches and open terraces of the Country Club while others labor at their games.

But Pinehurst has plenty of other attractions that bring guests back year after year . . . spacious comfortable, well-appointed inns and hotels where food is unexcelled and courteous service a habit . . . congenial conservative people like your friends at home . . . and—most important—a peacefulness that invites rest and relaxation.

For those seeking a convenient winter home amid healthful, pleasing surroundings, Pinehurst is an ideal spot. No increase in rates. For information or reservations, address Pinehurst, Inc., 412 Dogwood Road, today!

managed Tampa Terrace Hotel in Tampa, Fla., now owns and manages The Friendly Hotel, 120 South Ridge-wood Avenue, Daytona Beach, Fla.

'36—David H. Durham and Mrs. Durham of 110 Heights Court, Ithaca, have a daughter, Denise Durham, born June 11. Durham, who is the son of Professor Charles L. Durham '99, Latin, Emeritus, is with Sun Oil Co.

'36, '39 AB—A son, Frederick Scott Ritter, was born April 1 to Frederick W. Ritter, Jr. and Mrs. Ritter of 14 Melrose Lane, Douglaston, L. I.

'37 AM—Norman E. Lange has been appointed director of student personnel at the University of Vermont, in Burlington.

'38 AB, '47 AM—Forrest Durham, son of Professor Charles L. Durham '99, Latin, Emeritus, is a graduate assistant in Geology and is studying for the Ph.D. He and Mrs. Durham live at 896 Tower Road, Ithaca. A son, Steven Forrest Durham, was born to them October 10, 1946.

'38 BS, '39 AM; '36 AB—David Heilweil, director of the theatre division of the American Theatre Wing School, New York City, has written, in collaboration with Mrs. Heilweil (Eva Wolos) '36, a three-act psychological mystery play, "Till Death Do Us Part," which has been published by Play Club, Inc., of Elizabethtown, N. J. Heilweil is one of the organizers of a cooperative permanent producing group in New York City called New Stages which aims to produce plays that do not fall into the conventional Broadway pattern. Mrs. Heilweil has held two Rockefeller fellowships in playwriting. After leaving Cornell, she did graduate work at the Yale School of Drama.

'39 BS; '40 BS—Major William ★ S. Barrett, USA, is with the G-3 Section-(Operations) of the US Constabulary in Heidelberg, Germany. This is his second tour of duty in Europe: he spent four years in active duty and combat with the 695th Field Artillery Battalion, formerly the 112th National Guard Regiment of New Jersey. Previous to this latest assignment he was a year in the G-3 Section (Training) at the Field Artillery Replacement Center at Fort Bragg, N. C. Major Barrett wears the Silver Star, Presidential Unit Citation Ribbon, and the ETO Ribbon with five battle stars. He and Mrs. Barrett (Jane Hall) '40 are making their home in Heidelberg with their two sons, Robert, six, and John, four.

'39, '40 AB—William S. Page, son of Blinn S. Page '13, is news editor at Station WKNS in Kinston, N. C., which went on the air September 15.

He lives at 711 West Washington Avenue, Kinston, N.C., and is a director of the Cornell Club of Washington, D. C.

'39 BS; '39 BS—Howard M. Ringholm and Mrs. Ringholm (Barbara Gay) '39 of Masonville, N. J., have a second daughter, Cynthia Ringholm, born September 10. The baby joins Nancy, four, and Douglas, two. Ringholm is a farm appraiser for the Federal Land Bank of Springfield, Mass.

'39, '40 BS; '41 BS—Alexander G. Yaxis and Mrs. Yaxis (Violet Schulke) '41 live at 144 Morrell Street, Hempstead. They were married October 4, 1946.

'40 AB; '40 BS—Alexander J. Cheney and Mrs. Cheney (Martha Atwood) '40 have moved with their two children, Peter and Carol, to 121 Linden Avenue, Ithaca. Formerly a mathematics teacher at Dryden-Freeville Central School, Cheney is now an accountant in the University Purchasing Department.

'40 PhD—Professor William M. Ingram, chairman of the department of zoology at Mills College, Oakland, Cal., has been awarded a research grant from the American Philosophical Society to assist him in his studies on the land and fresh water mollusks of the San Francisco Bay area. A year ago, the Society of Sigma Xi gave him a grant which enabled him to publish a scientific monograph on certain fossil shells found along the coasts of North, Central, and South America.

'41 MS—Mrs. Morris C. Valentine (Elizabeth Althouse) passed the preliminary examination for the PhD at the University of Pennsylvania October 21. She is working on the problem of climbing ferns and attempting to raise ferns from spores to study the structure of gametophyte and early sporophyte. Her address is 3943 Locust Street, Philadelphia, Pa.

'41 AB; '38 AB—Eddie Burgess and David Beitler '38 were married October 25. They live at London Terrace Apartments, 465 West Twenty-third Street, New York City.

'41 AB—Richard H. Weiss and Mrs. Weiss of 35-46 Seventy-fourth Street, Jackson Heights, have a daughter, Wendy Catherine Weiss, born October 10. They also have a two and a half year old son, Richard Joel Weiss.

'42 BS—Conrad Engelhardt became manager of the Old Forge Inn, Old Forge, in July.

'41—Kenneth J. Luplow is with Boeing Aircraft Co. in Brussels, Belgium. His address is 7 Ave. de Masauges, Brussels, Belgium.

'41 BS in AE(ME)—Porter W. Gifford, Jr. of 4420 Glenwick Lane, Dallas, Tex., is superintendent of a gravel pit near Dallas, is married to the former Beth Butte of Texas University and they have a year-old son, Porter W. Gifford III. "I had a very enjoyable reunion with George Hackett '41 recently in Dallas," he writes.

'42 AB—Richard R. Ryan received a Master's degree in journalism at Stanford University last June, spent the summer doing professional photography at Catalina Island, off the Los Angeles, Cal., coast, then joined the Humboldt Standard, 328 E. Street, Eureka, Cal., as a "buck reporter." He lives at 1628 E Street, Eureka, Cal.

'42 BME; '43 AB—Robert G. Smith, engineer with the airplane division of Curtiss Wright, and Mrs. Smith (Claire Triest) '43 have a second daughter, Linda Jane Smith, born August 19. They live at 119 Mayfair Boulevard, Columbus 9, Ohio.

'43 BS in AE(ME)—Charles A. Colbert, who is in the sales department of Modern Packages, Inc., Memphis, Tenn., writes: "I have settled in Memphis and eat most of my meals with Bill Flint '43 who is also here. Am unmarried as yet but still hopeful. See John Tully '46 and Bart Tully '41 occasionally."

'43 BCE—A daughter, Nikola Nancy Filby, was born September 20 to Ellsworth F. Filby and Mrs. Filby of 4930 The Paseo, Kansas City 4, Mo. Filby is an engineer with The Havens Structural Steel Co. Grandparents are Ellsworth L. Filby '17 and Mrs. Filby (Marion Fisher) '19.

'43 AB; '46—A son, James Marshall Unger, was born May 28 to Roy B. Unger and the former Grace Friedman '46 of 3461 Meadowbrook Boulevard, Cleveland Heights, Ohio. Unger is sales manager of Ward Products Corp., manufacturers of auto aerials and FM and television antennas.

SCHUYLER JACKSON, WABASSO, FLA.

Somers of Minnesota and Washington, D. C. After a two months honeymoon traveling around the United States, visiting many of the National parks and California, they went to live in Washington, where Somers is employed by Senator Joseph Ball. Their address is Apartment 506, 215 C Street, SE, Washington, D. C.

'44 BS—Mrs. James L. Gant (Dorothy Hendrickson) and her husband have bought a home at 248 South Charlotte Street, San Gabriel, Cal.

'44 BChemE—Robert A. Moore is with the research and development department of Socony-Vacuum Oil Co., Inc., at Paulsboro, N. J., in charge of gas turbine and fuel research.

'44 BS in EE; '44 AB—Morton J. Savada and the former Lila Perless '44 have a daughter, Nancy J. Savada, born August 22. The Savadas have moved to 115 Central Park West, New York City.

'45, '44 BS—E. Louise Flux was married to Joseph M. Phelps of Long Beach, Cal., September 13 in West Hartford, Conn. Mrs. Kenneth Olson (Ann Hallock) '45 was a bridesmaid. On their way to California, where they now live at 1300 Walnut Street, San Gabriel, the couple visited the Grand Canyon. Phelps, a civil engineer and ensign in the Navy for three years, is with C. F. Braun Co., Alhambra, Cal. He is a graduate of the California Institute of Technology and received the Master's degree there.

'45—Mrs. John C. Bullard (Katharine Kilburn) of 109 Franklin Street, Framingham, Mass., daughter of Congressman Clarence E. Kilburn '16, has a son, John Kilburn Bullard, born August 21.

'45 AB—Gloria Urban has moved to 54-28 Sixty-sixth Street, Maspeth, L. I. She is still a death claims calculator for Equitable Life Assurance Society.

'46 BS in EE—David H. Wilson, Jr., for more than a year with the patent department of Bell Telephone Laboratories, New York City, is now a student at New York University law school.

'46 AB; '47 BEE—Elinor K. Baier and Philip C. Kennedy '47 were married September 13 in Buffalo. Ardath E. Krueger, Grad, was maid of honor; Edgar E. DeGasper '44 and William A. Donaldson, Jr. '44 were ushers. The couple are living at the Alpha Omicron Pi cottage, The Knoll, while Kennedy works for his Master's at the University.

'46 BS; '47 BS; '47 BS—Charlotte M. Cooper, Patricia E. Hoagland '47,

and **Martha L. Rausch '47** are home service representatives for Central Hudson Gas & Electric Corp., 50 Market Street, Poughkeepsie. Their respective addresses in Poughkeepsie are 230 Oakwood Boulevard, 8 Park Avenue, and Salt Point Road.

'46—Mrs. **Zoe Crichton Wahl** writes that her husband, Ensign Clyde F. Wahl, is stationed at the General Line School, US Naval Training Station, Newport, R. I. "Our six months old son, Eric, and our German shepherd dog, Dutch, seem to like our apartment in the officers' quarters at the Naval Base as well as we do," she reports. Her address is MOQ, AA' 15, Coddington Point, US Naval Training Station, Newport, R. I.

'46—**Herbert H. Davis, Jr.** and Mrs. Davis of 212 Linden Avenue, Ithaca, have a son, Herbert Haywood Davis III, born October 5. Davis, son of Dr. **Herbert H. Davis '17**, is a student in Civil Engineering.

'46 BS—**Florence R. Galinsky**, who completed a year of postgraduate internship at Montefiore Hospital, The Bronx, in August, has accepted the position of contact dietitian at Newark Beth Israel, 201 Lyons Avenue, Newark 8, N. J.

'46—**Richard V. Hopple** has joined the Cincinnati, Ohio, general agency of New England Mutual Life Insurance Co., Boston, Mass., as a life underwriter. Son of **William H. Hopple '06**, he is an Army veteran and participated in the Battle of the Bulge.

'46—**Robert L. McCormick** has been assigned by the State Department to the US Embassy at Brussels, Belgium. He is the son of **Frank H. McCormick '10**, 8066 DuPont Building, Wilmington 98, Del.

'46, '45 BS—**Sarah Whitford** was married to William E. Morgan, Jr. August 23 in Brooklyn. Her twin sister, **Cynthia Whitford '46**, was maid of honor. The Morgans are at Purdue University, where Morgan is taking graduate work in electrical engineering and Mrs. Morgan is a graduate assistant in the Purdue nursery school. They are living in a three-room apartment, one of 500 converted from barracks as a FPHA project, which has the address Apt. 539-4, Airport Road, West Lafayette, Ind.

'46 AB—**Carol P. Nevans** of 310 Riverside Drive, New York City, former editor-in-chief of The Summer Bulletin, is a free-lance writer and translator, and is studying for the MA in literature at Columbia University. She is engaged to Norman J. Golden of Boston, Mass., who graduated from Harvard, *cum laude*, and attended graduate school in physics at the Uni-

versity of California. Golden served as an ensign in the Navy during the war after graduating from Midshipman School at Cornell.

'47 AB—**Joan D. Persky** is a technician at the Medical College in New York. Daughter of Mrs. Arthur M. Persky (Loretta Coffey) '24, she is living at home at 1750 Ocean Parkway, Brooklyn.

'47 BS—**Margit C. Sonneborn** sailed for Switzerland on the "Mauritania" October 22, to work at the Dolder Hotel in Zürich. Her address is Care Maeder, Himmerstrasse 16, Küssnacht, Zürich, Switzerland.

A. B. MERRICK '30 . . . MANAGER

MILLIONS OF TELEPHONE USERS

THE RESPONSIBILITY OF MANAGEMENT IN THE BELL SYSTEM

IT USED TO BE that the owners of practically every business were themselves the managers of the business. Today, as far as large businesses are concerned, a profound change has taken place. In the Bell System, for instance, employee management, up from the ranks, and not owner management, is responsible for running the business.

This management has been trained for its job in the American ideal of respect for the individual and equal opportunity for each to develop his talents to the fullest. A little thought will bring out the important significance of these facts.

Management is, of course, vitally interested in the success of the enterprise it manages, for if it doesn't succeed, it will lose its job.

So far as the Bell System is concerned, the success of the enterprise depends upon the ability of management to carry on an essential nationwide telephone service in the public interest.

This responsibility requires that management act as a trustee for the interest of all concerned: the millions of telephone users, the hundreds of

thousands of employees, and the hundreds of thousands of stockholders. Management necessarily must do the best it can to reconcile the interests of these groups.

Of course, management is not infallible; but with its intimate knowledge of all the factors, management is in a better position than anybody else to consider intelligently and act equitably for each of these groups—and in the Bell System there is every incentive for it to wish to do so.

Certainly in the Bell System there is no reason either to underpay labor or overcharge customers in order to increase the "private profits of private employers," for its profits are limited by regulation. In fact, there is no reason whatever for management to exploit or to favor any one of the three great groups as against the others and to do so would be plain stupid on the part of management.

THE BUSINESS cannot succeed in the long run without well-paid employees with good working conditions, without adequate returns to investors who have put their savings in the enterprise, and without reasonable prices to the cus-

tomers who buy its services. On the whole, these conditions have been well-met over the years in the Bell System.

Admittedly, this has not been and is not an easy problem to solve fairly for all concerned. However, collective bargaining with labor means that labor's point of view is forcibly presented. What the investor must have is determined quite definitely by what is required to attract the needed additional capital, which can only be obtained in competition with other industries.

AND in our regulated business, management has the responsibility, together with regulatory authorities, to see to it that the rates to the public are such as to assure the money, credit and plant that will give the best possible telephone service at all times.

More and better telephone service at a cost as low as fair treatment of employees and a reasonable return to stockholders will permit is the aim and responsibility of management in the Bell System.

Walter S. Gifford

WALTER S. GIFFORD, *President*
AMERICAN TELEPHONE AND TELEGRAPH COMPANY
