 - e. I was just at the Upstate Science Librarians meeting. I found Susan Gibbon's keynote talk very interesting - "Why do students want to be in the library if they are not using the books" Through a range of methods they were looking the use of the library space by the science students. The library contrasted with dorms (social) and classrooms (temporary) as the space where students were surrounded by scholarly gravitas and examples of their academic goals (publications, other scholars). I wonder if she'd be an interesting speaker for a CUL Forum. It looks like she was last at CUL in 2004/6 when she was involved in digital initiatives. - thanks - Kathy Chiang
4. quarterly check-in about how we feel LFSC is working as a group. Are things on track? Are we using email effectively? Are monthly meetings frequent enough? Other?

CDC update - from Randi (Randi and Jessica are liaisons)

- CDC asks for feedback - doing too much?
- StrengthsQuest programming feedback very positive
- Upcoming 4-part career series - lots of interest/sign up already
- Upcoming: best practices for webinars
- January: Joy and Camille on ereaders and mobile tech
- planning: library school panel
- planning: career development week
- budget costs: \$500 goes to mentorship program, asking for that amount increase (reinstate to CDC budget, since \$500 to mentorship means a reduction for CDC). Response - give us a budget.
- Jeremy Cusker new member of CDC.

Minutes

- approved
