

STATISTICAL JOURNALS IN
CORNELL UNIVERSITY LIBRARIES

by -

RAMA C. NAIR

BU-486-1A

October, 1973

ABSTRACT

A list of commonly referred Journals in Statistics or related fields, with their location(s) in Cornell University Libraries and their call numbers is given. Also the volumes available are indicated.

Biometrics Unit, Cornell University, Ithaca, New York

STATISTICAL JOURNALS IN
CORNELL UNIVERSITY LIBRARIES

Rama C. Nair

BU-486-173

October, 1973

Introduction: The purpose of the present note is an attempt to satisfy a long felt need for a comprehensive list of Statistical Journals available on the Cornell Campus; such a list could save considerable time in locating a specific Journal for reference.

While the list is not claimed to be complete in every respect, and errors are not ruled out, care was taken to include the most referenced Journals. The list was compiled from three sources: (i) Statistical Theory and Method Abstracts Index supplement, volume 13 (1972), (ii) IAS Bulletin, volume 2 (1) (1973), (iii) Bibliography of Treatment and Experiment Designs by W. T. Federer (1972). In all 164 Journals are included in the list.

The list is self explanatory with only two abbreviations used, BUS - Business Library and PHYS - Physical Sciences Library. The call numbers are listed in one line to save space; e.g. QA1H769 should read

QA
1
H 769

It is hoped that the list would serve a useful purpose, and any comments and criticisms would be most welcome. Any errors or omissions may please be communicated to the author so that a revised version can be made more complete.

Note that many of the 20-25 full-time statisticians on the Cornell Campus subscribe to as many as perhaps 12 different journals. No attempt was made to list these journals as it was felt that this would invade the privacy of the individual professor who subscribes to a journal and does not wish to have others use his journals outside of his office.
