SELF-CONCEPT CHANGE IN TEXT BASED ENVIRONMENTS:
AUDIENCE AND SELECTIVE SELF-PRESENTATION

A Thesis

Master of Science

by
Amy Lisa Gonzales
August 2006
ABSTRACT

This study attempted to test the impact of audience and medium on self-concept change as a result of self-presentation. A 2 (public/private) X 2 (introversion/extroversion assigned trait) X 2 (FTF/CMC) experiment was used to test the relationship between self-presentation and self-concept change in different contexts. The prediction of an enhanced effect of self-presentation on self-concept change in text based mediums as a result of selective self-presentation was not supported. Predictions regarding the impact of online audiences on self-concept change were also not supported. Instead, an unexpected finding, in which extrovert-assigned subjects internalized introversion in private text based conditions, was observed. This finding is discussed in terms of Schlenker’s four-factor theory of self-identification.
Amy Gonzales received her Bachelors of Arts in Psychology from the University of California, San Diego. She worked as a research assistant, a medical translator, a substitute teacher, and at the GAP before finding her way back to school.
To the people that I love that will read this,
and to the people that I love that won’t.
And to Roxy.
ACKNOWLEDGMENTS

I want to thank Robyn Kornett, Claire Min, Jackie Klein, Marina Yoffe, Mariye Wick, and Jon Amoona for their assistance in conducting this experiment, and everyone in 212 that lent their skills as a confederate. I also want to thank Katherine McComas, Toni Russo and Kathy Bergen for permitting the recruitment of their students.

I want to thank my parents for encouraging me and supporting me in all of my academic endeavors. I want to thank 305 Wyckoff for their loyalty and kindness. I want to thank Cate for her insight and patience.

I want to thank Joseph Walther for the research experience, continued guidance during this past year and for his generosity in the use of his recording devices and bummed smokes. I want to thank Geri Gay for her exceptional support from the start of the program and especially during a difficult year. Finally, I want to thank my advisor, Jeffrey Hancock. He was invaluable during the completion of this thesis. His advice, support, attention, consideration, and sense of humor consistently exceeded my expectations during the course of the past two years. I am thankful that my friendship with him, both academic and personal, will not be impermanent.
# TABLE OF CONTENTS

## I Introduction
- Self-presentation and Self-Concept ........................................... 4
- Social Construction of Self ...................................................... 5
- Mechanisms of Self-Concept Change: Biased Scanning ................. 7
- Selective Self-Presentation, Biased Scanning, and Self-Concept Change .................................................. 8
- Audience, Biased Scanning and Self-Concept Change ............. 11
- Effects of Selective Self-Presentation and Audience on Self-Concept Change ................................................. 14

## II Methods
- Overview .................................................................................. 17
- Participants ............................................................................ 18
- Procedure ............................................................................... 18
- Measures ............................................................................... 21
- Debriefing ............................................................................. 22

## III Results
- Manipulation Check ................................................................. 24
- Self-Reported Self-Concept .................................................... 25
- Behavioral Measure ................................................................. 28

## IV Discussion
- Selective Self-Presentation and Self-Concept Change ........... 31
- Audience and Self-Concept Change ......................................... 32
- The “Situation”: The Joint Effects of Audience and Medium .... 36
- The “I” and “Me” .................................................................. 38
- Limitations and Future Directions ........................................... 39

## V Conclusion ................................................................. 41

## A Extroversion Scale ............................................................ 44

## B Perception of Audience .................................................... 45

## C Presentation Ability .......................................................... 46
