

# **An Online Collection by John M. King, DVM, PhD Professor Emeritus of Pathology**

*This collection of resources (two pages) by John King is being distributed in an open access manner.*

## PROFESSORIAL POST SCRIPTS

Cornell faculty often have manuscripts in various states of completion when they reach emeritus status. This archival repository is a place where these manuscripts, some previously published but out of print, and some that have not been subjected to peer review, may be valuable for their content, but sometimes also for their historical value. This collection is a place for these legacy works to become accessible online.
