What does the NDLA mean for AgNIC?

What are the opportunities?
- Improve access to information & resources
- Support development of repositories
- Conduct IT research and development

What are the challenges?
- Informal nature of AgNIC
- Lack of funding
- Lack of broad-based institutional support
- Interoperability
Next Steps

- Conduct inventory of partners (institutional capacity, activities, and resources)
- Develop AgNIC space for discussing agricultural information issues
- Consider a pilot project
- AgNIC Board will meet in January in Washington D.C.
  - Define possible AgNIC role in larger initiative
  - Discuss organizational structure
  - Consider alternatives for funding
  - Draft strategic plan for 2007-2010
  - Plan spring meeting to present & finalize the plan
